- 4** Call the Scholarship Office at 818-240-1000 x5591

Scholarships

At Glendale Community College, we are committed to providing outstanding academic programs and student services to help our students reach their educational goals. A major aspect of GCC's efforts to promote student success is our extensive scholarship program, the largest of any community college in California. Whether you are a continuing or transferring student we may have a scholarship just for you. Read on to learn more, and you may be the recipient of one of the hundreds of scholarships awarded to Glendale Community College students every year!

What's available?

GCC gives more than 500 scholarships with awards totaling more than \$300,000 to our students each year. Individual scholarships may be worth up to several thousand dollars each, and the funds are typically used for class registration fees, books, and other educational expenses.

Who can apply?

GCC scholarships fall into two main categories designed to meet the needs of students at various educational stages:

- currently enrolled students who have completed at least 12 units of credit at GCC with a grade point average of 2.5 or higher are eligible for scholarships designated for continuing students;
- transferring students may receive scholarships from GCC to help them transition to four-year colleges and universities.

How are scholarships awarded?

The GCC Scholarship Committee or scholarship sponsors make selections based on academic achievement, financial need, major field of study, community service, campus leadership or other criteria established by the scholarship sponsors.

How do I apply?

Applications are available at the Scholarship Office located in room 202 of the J.W. Smith Student Center or online at www.glendale.edu/scholarships. Eligible students can submit only a single application during either the fall or spring filing period to be considered for all GCC scholarships for the entire school year.
