Friends of the Science Center

The Science Center

The GCC Community Science Education Center is a state-of-the-art science facility that will enrich Glendale and its surrounding communities. Uniquely funded by a private/public partnership, the new center reaches completion after a three-year funding effort that included support from the federal government, the state of California, community business partners, college alumni, community supporters and college employees.

Glendale Community College has an outstanding reputation in the fields of science and math education, with a number of excellent programs including a scholars program that provides enhanced classes for science and math students and ten years of experience in contract instruction with JPL. The Science Center allows the college to further broaden its curriculum, with unique facilities including a computerized projection system planetarium and computer access to the Geographical Information System (GIS). We invite you to join Friends of the Glendale College Science Center and support important science education programs.

Who are the Friends of the Science Center?

Our friends are people like you, who value the Science Center for its importance to education and the community. In addition to hosting classes for the college, the Science Center will serve as a resource and assistance center in science and math education for Los Angeles County schools and help raise public interest in science in the community.

A goal of the center is to provide a science education outreach program for the region which will train K-12 teachers and give them tools to teach math and science more effectively to their students. Students will be invited to campus for tours and shows.

Community programs will also be offered, including science demonstrations, exciting displays and planetarium shows. It is anticipated that the Science Education Outreach Program will touch the lives of over 15,000 students and adults throughout the Burbank, Glendale, Pasadena, San Gabriel and Los Angeles areas.

Become a part of our chemistry and insure that the Science Center is able to provide engaging programs that stimulate interest in science, math and technology.

For more information, contact Barbara Jordan at 818-551-5199 or visit us on the web at www.glendale.edu/sciencecenter/friends.

What are the benefits of membership?

Annual memberships start at just \$25 and include a special periodic newsletter, information about public shows and other benefits.

Membership categories:

Star Membership **\$25**

- Newsletter
- Information about public events

Constellation Membership **\$50**

- 2 special events per year
- Newsletter
- Information about public events

Galaxy Membership **\$100**

- 2 special events per year
- Newsletter
- Information about public events
- 20% discount on tile on donor wall

Big Bang Membership **\$5000**

- Lifetime membership
- Large tile on donor wall
- 2 special events per year
- Newsletter
- Information about public events
- Payable over 5 years

Thank you to U.S. Congressman Adam B. Schiff (2000-) and U.S. Congressman James E. Rogan (1996-2000) for obtaining funds for the Science Center
