In Celebration of
The 60th Anniversary
of a Commitment to Excellence

From 1927 to the present, the staff at Glendale Community College has been committed to excellence — in the classrooms and the offices, on the stage and the playing fields.

This publication is dedicated to the men and women who, with high ideals and hard work, have made possible these 60 years of excellence.

We also celebrate the 50th Anniversary of the college’s present site, at which classes were offered for the first time in the fall of 1937.

From meager beginnings as part of the Glendale Union High School District, through the ravages of an earthquake, name changes, new buildings, separation from the Unified District, and lean budgetary years, the college has prospered and grown.

It now encompasses nearly 100 acres and serves close to 12,000 day and evening college credit students and another 8,000 in the adult education program.

Only the commitment to excellence remains the same — a legacy passed reverently from trustee to administrator to staff and faculty . . . to student.
The First Site 1927

The first classes at "Glendale Junior College" were held in 1927 in these buildings of Glendale Union High School.

Harvard Plant

This was the second home of "Glendale Junior College", 1929-37. It was formerly the location of Glendale Union High School, and is on the site of the present Glendale Main Library.
Tents replaced classrooms at the Harvard Campus after buildings were damaged in the 1933 earthquake. Classes remained in tents until 1937.

The Administration Building on N. Verdugo Rd, as it appeared in 1938. The college has been located here for 50 years.
GLENDALE COMMUNITY COLLEGE

Glendale Community College was founded in 1927 to serve the needs of the people in the Glendale Union High School District which included La Crescenta, Glendale City, and Tujunga School Districts. The school was founded as Glendale Junior College and from 1927 to 1929 conducted classes in the buildings of Glendale Union High School at Broadway and Verdugo in the City of Glendale. In 1929 the junior college moved to the Harvard School plant of the Glendale Union High School District where it remained until 1937. In this year a new plant, part of the present one, was completed and occupied. The year before, in 1936, the Glendale Junior College District was dissolved as such and became a part of the new Glendale Unified School District. The name of the school was changed to Glendale College in 1944. On July 1, 1970 Glendale College became a part of the Glendale Junior College District. On April 20, 1971 the Board of Education adopted a resolution changing the District name to Glendale Community College District.

On November 3, 1980, the Glendale voters approved a measure to establish separate Boards. In April 1981, the new members were added to the Board. The separation resulted in the creation of a Board of Education solely responsible for the governance of the Glendale Community College District.

In 1936 twenty-five acres were acquired for the present site of the College. The Campus now consists of 100 acres and 15 permanent buildings. It is beautifully located on the slopes of the San Rafael Mountains overlooking the valleys in the Glendale area.

Glendale Community College has a college-credit enrollment of about 12,000 day and evening students, and approximately 8,000 others are reached through the adult education program.

GLENDALE COMMUNITY COLLEGE
CALENDAR 1987-88

1987
May 16  Last day to drop a semester class (See catalog statement on withdrawal from Class or College)
June 6   Baccalaureate and Commencement Exercises
June 9, 10, 11, 17, 18  Summer Intersession Registration
June 13  End of Semester II
June 21  Residence Determination Date — Summer Intersession
June 22  Class instruction begins for Summer Intersession
June 22, 23, 24  Summer Intersession Late Registration
June 25  Last day to drop a Summer Intersession class or withdraw from college with no notation made on the permanent academic record of the student
July 1    Last day to apply for Credit-No Credit
July 3    Legal Holiday (Independence Day)
July 16   Last day to drop a Summer Intersession class
July 30   Petitions for Graduation and/or Certificate for Summer Intersession due in Office of Admissions and Records
July 30   Summer Intersession ends
Aug. 24-Sept. 10  Registration — Semester I
September 7  Legal Holiday (Labor Day)
September 13  Residence Determination Date — Semester I
September 14  Class instruction begins for Semester I
Sept. 14-17  Late Registration — Semester I
September 17  Last day to add classes without permission
September 19  Applications deadline — Only applications for second 8- or 9-week, short term, or open entry classes will be accepted after this date
September 23  Last day to apply for Credit-No Credit in an 8- or 9-week class
September 26  Last day to drop a semester class or withdraw from College with no notation made on the permanent academic record of the student
   Effective this date a student-initiated change of program (add or drop) will be subject to a $1 charge
October 3  Registration deadline — Last day for continuing students to register in semester-length classes or for registration by new or returning students with applications for admission on file by September 19, 1987
October 5  Last day to add classes without petition
October 10  Last day to apply for Credit-No Credit in a semester-length class
October 15  First day to file applications for Spring Semester
October 24  Last day to drop first 8-week classes
            Last day to drop first 9-week classes
November 1  Last day for International students to complete admission
            requirements for Semester II
November 2  Registration starts for 2nd 8- and 9-week classes
November 7  First 8-week classes end
November 13 Legal Holiday (Veterans' Day)
November 14 First 9-week classes end
November 16 Second 8-week classes begin
            Second 9-week classes begin
November 21 Mid-semester grade deficiency materials due
November 25 Last day to apply for Credit-No Credit in a second 8- or 9-
            week class
Nov. 26, 27, 28 Thanksgiving Holidays
December 19 Last day to drop a semester class (See Catalog statement on
            Withdrawal from Class or College)
Dec. 21-Jan. 2 Winter Vacation
December 25 All College offices closed

1988
January 1  Legal Holiday — All College offices closed
January 9  Last day to drop second 8-week classes
            Last day to drop second 9-week classes
January 18 Legal Holiday (Martin Luther King Day)
Jan. 19-Feb. 4 Registration for Semester II
January 23 Second 8-week classes end
Jan. 26-Feb. 2 Final Examinations for Semester I
January 30 Second 9-week classes end
February 2  End of Semester I
            Petitions for Graduation and/or Certificate for Fall Semester
            due in Office of Admissions and Records
February 7  Residence Determination Date — Semester II
February 8  Class instruction begins for Semester II
February 8-11 Late Registration — Semester II
February 11 Last day to add classes without permission of instructor
            Applications deadline — Only applications for second 8- or
            9-week, short term, or open entry classes will be accepted
            after this date
February 12 Legal Holiday (Lincoln Day)
February 15 Legal Holiday (Washington Day)
February 17 Last day to apply for Credit-No Credit in an 8- or 9-week
            class
February 20 Last day to drop a semester class or withdraw from College
            with no notation made on the permanent academic record
            of the student
            Effective this date a student-initiated change of program (add
            or drop) will be subject to a $1 charge.
February 27 Last day to add classes without petition
Registration deadline — Last day for continuing students to register in semester-length classes or for registration by new or returning students with applications for admission on file by February 11, 1987

- **February 29**
  - Adds to class must be accompanied by a completed Petition to Enter Class Late

- **March 1**
  - Last day for International Students to complete admission requirements for Semester I

  - Last day to drop second 8-week classes
  - Last day to drop second 9-week classes

- **May 30**
  - Legal Holiday (Memorial Day)

- **June 10-18**
  - Final Examinations for Semester II

- **June 11**
  - Second 8-week classes end

- **June 11**
  - Baccalaureate and Commencement Exercises

- **June 18**
  - Second 9-week classes end
  - End of Semester II
COLLEGE INFORMATION

GENERAL INFORMATION

MISSION STATEMENT

"Glendale Community College is dedicated to the creation and preservation of an educational and cultural environment which meets the needs of a changing community. The College is committed to the philosophy that all individuals have inherent worth and dignity, and thus it offers a wide range of educational opportunities to all who can profit from community college instruction. Its programs are designed to awaken latent capacities and challenge recognized abilities in its diverse student population.

The College provides quality academic, vocational, cultural, basic skills education and remediation programs and services. These are designed to encourage the development of intellectual curiosity, creativity, critical thinking, effective communication, technical skills, and a basic understanding of the relationships between the past and the challenges of the present and future. The ultimate mission of the College is to help students form rewarding lives, productive for themselves and for society."

Statements of the mission of Glendale Community College are disseminated through many channels of publicity, including the following:

a. The College Catalog and Semester Schedule of Classes
b. The Faculty Manual
c. Counselors who visit area high schools
d. Advisory committees that meet to assist in planning for vocational offerings
e. Presentation of purposes at meetings of the Board of Education, civic groups, professional organizations, service clubs, chambers of commerce, and other appropriate groups
f. Activities of the Placement Officer include orientation of business and industrial personnel to the functions of the College
g. Discussion with students in group guidance classes and in individual counseling sessions about the functions and purposes of community college education
h. Presentations to the Glendale Community College Patrons Club
i. Special programs for community groups
j. Personnel involved in the direction of the Adult Re-entry program engage in an extensive orientation program for student groups and for groups within the community.
OBJECTIVES AND FUNCTIONS

Pursuant to its stated mission, Glendale Community College has one objective: education.

Four primary functions support this objective.

a. *Education for meeting the lower division requirements of a university or a four-year college*: The college offers many courses which are equivalent to those available in the freshman and sophomore years at the University of California, The California State University and other colleges and universities in the United States. A student with a satisfactory high school and community college record will receive full credit for all college and university level work done at Glendale Community College provided that the work meets the specific requirements of the college or university to which the student transfers.

b. *Education beyond the high school level for vocational competence*: Training programs are offered for many occupations in business and industry. Courses offered in these programs serve three groups of students: those training for entry-level positions; those preparing for advancement on the job; and those seeking to improve skills to meet new job requirements. Thus, students are offered a balance of technical and general education.

c. *Education beyond the secondary level for personal improvement*: Recognizing the needs of post-secondary students for education which may lead neither to education in a higher institution nor to vocational preparation, Glendale Community College offers a diversity of courses in the performing arts, fine arts, applied arts, social sciences, humanities, and mathematics and the sciences, which satisfy intellectual curiosity and provide knowledge about and appreciation for the cultural heritage.

d. *Education below the lower division level*: A comprehensive program is offered in the Adult Education Division of the college, which includes basic education, courses leading to the high school diploma, citizenship, English as a second language, career and vocational classes, and courses that satisfy the many special interest needs of the community.

PROGRAMS AND SERVICES

A variety of programs and services implements and supports the objectives and functions stated above.

a. *Guidance and Counseling*: Guidance and counseling services assist students in becoming personally integrated and self-reliant. To this end, counselors encourage students to explore their own needs and the satisfactions of those needs which may accrue from their educational experiences and their choices of life style. They provide a climate in which students make thoughtful, independent, decisions for educational and vocational goals. Working through individual interviews with students, small and large groups, and college orientation classes, they help students to become aware of their capabilities and to plan appropriately. They are involved, also, in such other support services as administration of the Extended Opportunity Programs and Services, financial aids, job placement, a broad testing program, tutoring, and correction of learning deficiencies. Glendale Community College offers seminars for the mature and older adults on their role in society.

b. *Health Services*: The Health Center provides first aid, primary health care, crisis counseling, health counseling, information and referral services.
c. Basic education: Students with specific learning problems or with grade or subject deficiencies in their high school record may make up such deficiencies and enter into a program leading to an A.A. degree and, if desired, to upper division standing at a four-year institution.

d. Refresher education: Members of the community have the opportunity to refresh, as well as to update their knowledge in classes offered at Glendale Community College.

e. Continuing Education: Persons wishing late afternoon or evening classes may enroll in the Evening College program. Evening College courses parallel and expand the daytime offerings.

f. General education for all members of the community: The College offers wide and varied curriculum designed to promote the following objectives:

1. Development of communication and computational skills which form a base for training in critical thinking as exemplified in drawing sound conclusions from premises, making relevant judgments, and discriminating among values.
2. Knowledge of the cultural heritage as the accumulated record of the development of mankind.
3. Appreciation for aesthetic expression, excellence, and creativity as major values.
4. Foundation in knowledge, attitudes, and skills necessary for occupational employment.
5. Cultivation of habits which are essential to physical and emotional growth, citizenship, and societal responsibilities.
6. Development of an awareness of the influence of such environmental problems as population growth, land-use, and pollution on the quality of life through field observation and other experiences.

g. Adult Education

h. Community services

i. Education for creative use of leisure time: The College encourages students to develop skills and an appreciation for creative use of leisure time.

j. Preparation for the future: The College urges students to become more sensitive to world crises created by a burgeoning population and by the increasing demands of people and nations upon resources. Students learn to approach these crises through the scientific method of the natural sciences and through the combined methods of the humanities and social sciences and co-curricular programs. It is important for students to realize that the structure of human society is changing and that new and different technologies will affect the transition.

k. Services to meet the unique needs of ethnic-minority students: The College is committed to cultural diversity within its student body achieved by recruitment of resident Americans of various national origins and by the acceptance of a significant number of foreign-visa students. Meeting the needs of these students realistically is an important function of the college.

ACCREDITATION

Glendale Community College is fully accredited by the Western Association of Schools and Colleges, and approved under the regulations of the California State Department of Education and the California Community Colleges.
ADULT RE-ENTRY PROGRAM
The Adult Re-entry program has a major goal of providing the opportunity to expand and increase personal, academic and vocational self-fulfillment in an educational environment which is both flexible and accessible. The development of the Adult Re-entry Program has been extended to include special college credit seminars as offered by the counselors. The seminars consist of vocational and educational exploration and decisionmaking, personal development, study skills, and individual and group counseling concerning the problems of family responsibility, time scheduling and academic pressures of mature students who have recently returned to college.

ADVISORY COMMITTEES
Glendale Community College seeks advice about the programs and goals of the institutions. Individual citizens representing organizations, interests, and specific programs contribute their time to ensure that the college is meeting student, industry, and community needs.

THE BAJA CALIFORNIA FIELD STUDIES PROGRAM
Glendale Community College has developed a commitment to offering field classes and field trips in the Baja California peninsula, Republic of Mexico. The College maintains a facility in the Peninsula, the field station “Estación del Mar Cortés”, which serves as a headquarters for various curricular offerings of interest to its faculty and students. Over the years, course offerings in the areas of marine biology, history of Baja California, philosophy, psychology, health, geography, physical education, and geology have been offered. During the Fall and Spring semesters field trips are offered and during the Summer session field classes are taught.

In a setting that emphasizes field observation, the program aims to expose students to a pristine and complex natural environment coupled with a unique experience in the Mexican culture. Different areas of learning are integrated in a setting conducive to the enhancement of the type of human relationships that result in memorable and long-lasting adventures in learning. Students and faculty participate in the planning and organization of each class. By living and learning together, a community of learners is created where the beauty and complexity of the human and natural world can be observed, studied and enjoyed.

Students interested in participating in any of the programs offered during the year should contact their counselors for application forms.

COOPERATIVE EDUCATION
Glendale Community College, under a state-approved plan, cooperates with local students, businesses and industries in the Cooperative Education-Work Experience program. Each community college in California has the responsibility within the limits of its resources to maximize and utilize all possible educational experiences which are advantageous to the students. One method is through the Cooperative Education-Work Experience program. Through the cooperation of business, industry, and government, students earn credit for supervised off-campus employment. Occupational Cooperative Education-Work Experience must be directly related to the student's two year career college program. Coordinated classroom instruction is included to help the student understand and appreciate the problems of business and industry. The student must maintain an enrollment of no less than seven (7) units including Cooperative Education.
EVENING COLLEGE

A full offering of late afternoon and evening college credit classes is provided by the Evening College. These courses parallel day courses in prerequisites, content, time devoted to preparation of assignments, and examinations. Attendance, registration and withdrawal rules, probation and dismissal regulations, scholarship standards, and requirements for graduation with the Associate in Arts Degree and the Associate in Science Degree are the same as for the day program. The regular facilities of the College, including the library, bookstore, auditorium, laboratories, counseling center, career center, and shops, are available to Evening College students.

The teaching staff is made up of persons highly qualified to instruct these classes. Many of the Evening College faculty also teach on the regular day staff of Glendale Community College as well as other colleges. Business and professional persons of the community who have obtained proper teaching credentials also give the benefit of their knowledge and skills to the students.

Guidance and counseling services, in addition to advisement by instructional staff, are available through the Guidance and Counseling Center in the evening. Counseling appointments may be arranged by telephone (818) 240-1000, extension 304.

Any student who complies with established registration procedures may enroll in Evening College classes. Placement Examinations are required for enrollment in certain courses such as English, mathematics, social sciences, and speech.

G.E.D. TESTING

Adults, 18 years of age or older, may register for the General Educational Development Test in the Adult Education Office located on the Glendale High School campus. The G.E.D. Test is designed to measure the equivalence of educational achievement in a person and favorable results reduce considerably the number of courses required for a high school diploma. The test is given by appointment after registration has been completed at the Adult Education Office, 1400 E. Broadway, Glendale High School, from 9 a.m. to 9 p.m. Monday through Thursday. Further information may be obtained by calling (818) 243-3184 or (818) 240-1000 ext. 296.

GLENDALE COLLEGE FOUNDATION, INC.

The primary purpose of this non-profit, public benefit corporation shall be to assist in the achievement and maintenance of a superior program of public education and community participation within the Glendale Community College District by receiving contributions from the public, raising funds, and making contributions to educational and community programs of the Glendale Community College District, and by developing, conducting, contracting, and financing programs and projects designed to benefit the students and programs of the District. Persons wishing to make a contribution to the Foundation or wishing to receive additional information should contact the Glendale College Foundation office in AD 108 or call (818) 240-1000, ext. 440, 441, or 442.

HANDICAPPED STUDENTS

Students who have a disability, or some health impairment which may interfere with their scholastic attainment are eligible for assistance or special services through Disabled Students Programs and Services. Such eligible students include those who, because of being hard of hearing, deaf, learning disabled, speech impaired, blind, visually handicapped, seriously emotionally disturbed, mobility impaired, or otherwise health impaired or developmentally disabled and cannot succeed in college courses without some assistance or special services.
Students are counseled and assisted in the pursuit of academic, vocational and personal development goals. Our professional staff serves with on-campus resources and faculty members as liaison to the students. Off-campus contacts are maintained with community referral agencies such as the State Department of Rehabilitation and Allied Health Professionals.

Support services and specialized instruction are provided to the students based on individual educational plans. Services include but are not limited to the following:

- Counseling
- Priority Registration
- Registration Assistance
- Mobility Assistance
- Special Parking
- Mobility Orientation
- Books on Tape
- Readers for the Blind
- Visual AIDS
- Braille Materials
- Interpreters for the Deaf
- Note Takers
- Lip Reading Instruction
- Tutoring
- Examination Proctoring
- Specialized Assessment
- Learning Disabilities Program
- Communication Disabilities Program
- Homebound Program
- Head Injury Community
- Re-entry Program
- Equipment Loan

For information regarding any of these programs and services please call (818) 240-1000 ext. 214 or come to the Students Center Office in CB114, 8 a.m. to 5 p.m. Monday through Friday.

INTERNATIONAL STUDENTS

Glendale Community College welcomes students from countries all over the world who desire to study in the United States. At any one time there are approximately 350 International Students in attendance at Glendale Community College representing approximately 50 foreign countries. International Students who desire to enter Glendale Community College may receive application materials from the Office of Admissions and Records. In order to be admitted to Glendale Community College, International Students must submit copies of all records of previous schools translated officially into English, submit results of the TOEFL, and complete certain health requirements. In addition, all International Students seeking admission must have on deposit one semester’s tuition and a non-refundable $25.00 application fee is required. They should check carefully the deadline dates as published in the College Catalog. It should be noted that all requirements must be completed before a decision is made as to acceptance. Those students not accepted will receive a refund of their tuition deposit. Selection of International Students is based upon previous school records, TOEFL scores, and the desire to have as many nationalities represented in the student body as possible. Special academic programs for International Students are available. All International Students are assigned to a Foreign Student Advisor who offers a wide range of assistance services.

New International Students are enrolled at the start of the Fall and Spring semesters as openings occur. The College limits the number of new International Students to no more than ten from any one country, in any one semester in an attempt to maintain the wide diversity of nationalities represented on campus.

LIBRARY

The Glendale Community College Library is housed in a modern, air conditioned building near the center of the Campus. It is planned to meet the curricular needs of students and to provide attractive and functional facilities.
Its collection includes more than approximately 58,961 volumes as well as journals on microfilm and about 550 current periodical titles.

Students have direct access to the book collection located on both floors in three major reading rooms with many individual study stations. An outdoor reading patio provides an informal study area with a scenic view of the mountains and valley in the distance.

On the main floor, in addition to part of the general circulating collection, are the card catalogs, a reference desk, main circulation desk, a map collection, media services, photocopiers, and with typewriters for student use.

On the second floor is another part of the general circulating collection, the reference collection, reserve desk and periodicals collection, microfilm and microfiche readers and microform, and a pamphlet collection.

Students are invited to visit the library and to acquaint themselves with its many resources and services. Professional librarians are on duty for consultation regarding location and use of learning materials and for help in many other ways. A library handbook is available free to students, faculty, and other library users. It describes library services, facilities, and staff and includes a detailed floor plan of the library building.

Library hours are 7:30 a.m. to 9 p.m. Mondays through Thursdays, 7:30 a.m. to 5 p.m. on Fridays, and 12 noon to 4 p.m. on Saturdays when college is in session.

Note: Grades, transcripts and registration privileges, or any combination thereof, shall be withheld from any student or former student properly charged with the possession of library books or other library materials not returned to the library when due. (Education Code Section 72237)

NON-CREDIT ADULT EDUCATION COURSES

A Separate Program of Non-credit Adult Education Courses also provides educational opportunities for those seeking personal and occupational improvements. Adult non-credit courses include business and cashiering education, clothing, preschool parent education, English, naturalization, basic education, history, government, mathematics, physical science, a wide range of classes for retired adults, and home arts. Other courses may be developed to meet the special needs of those desiring general interest studies. Classes are scheduled at various locations throughout the school district.

Included in its program is the opportunity to earn a high school diploma. The minimum requirements for a high school diploma from the Glendale Unified School District (grades 9-12) are as follow:

<table>
<thead>

FURTHER SOURCES OF HIGH SCHOOL CREDITS

(1) High School credits, applicable toward a diploma of high school graduation, may be earned by completing courses offered in the Adult Education program. High school elective credits may be earned by completing courses offered by the Adult Education Department of the Glendale Community College District; however, students
who desire such credit must consult with an evening adult counselor to be sure that such credits will satisfy graduation requirements and must make this fact known to the instructor at the time of enrollment. Where there is no designation of credit allowance, credit may be earned at the rate of ½ credit (5 sem. hrs.) for a class that meets twice a week.

(2) Credits toward a diploma of high school graduation may be earned in other accredited secondary schools and transferred to the Glendale College Adult Education Division. No credit will be allowed for correspondence of extension courses where the examinations have not been monitored or proctored by acceptable school officials or teachers.

(3) Credits may be granted for work achievement having educational value provided the individual has been employed for a year or longer by the same employer in an activity which could be considered equivalent to, or parallel to, some high school subject; and original letters from the employer are submitted verifying the dates and length of employment, detailing the nature of the work performed, and rating the quality of the work completed. Not more than four credits (40 sem. hrs.) of work achievement credit may be counted toward high school graduation.

(4) Credits may be granted for regular training courses completed at a military base during a term of military service, based on the recommendations of the American Council on Education, and for approved courses completed with the United States Armed Forces Institute.

(5) Credits earned at Glendale Community College or at any other accredited college may be converted into high school credits by approval of the adult school, at the rate of three college units for one high school credit (10 sem. hrs.).

(6) Credits may be granted according to the results of the General Educational Development Tests (G.E.D.) taken by those who qualify. Neither college nor high school courses that have a content the same as, or are of a lower level than, courses already taken and passed in the same subject area may be taken for high school credit. If there is any question regarding the acceptability of a course, the student is to confer with a counselor or the Dean of Non-Credit Education.

High School credits may not be earned through repetition of a subject for which credit has been granted previously.

NON-DISCRIMINATION POLICY

The Glendale Community College District is committed to providing an equal opportunity for admissions, student financing, student support facilities and activities, and employment (regardless of race, color, religion, sex, national origin, marital status, handicap or age), in accordance with the requirements of Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964 (as amended by the Equal Employment Opportunity Act of 1972), Sections 503 and 504 of the Rehabilitation Act of 1973 and the Rehabilitation Act Amendments of 1974, Executive Order 11246 (as amended by Executive Order 11375), and the Federal Age Discrimination Employment Act of 1967 and the Age Discrimination Employment Act Amendments of 1978.

Pursuant to the provisions of Assembly Bill 803, the Board of Trustees has adopted a policy and procedure to ensure that its programs and activities are available to all persons without regard to ethnic group identification, religion, marital status, age, sex, color, or physical or mental disability. Both the policy and procedure apply to students, employees, and applicants.

Inquiries regarding these laws and regulations, and the corresponding Glendale Community College District policies may be directed to the District Affirmative Action Officer in AD 111, telephone (818) 240-1000, ext. 236.
TRANSFERS TO FOUR-YEAR COLLEGES AND UNIVERSITIES

Students may take programs at Glendale Community College which will qualify them for junior standing in most of the four-year colleges and universities of the United States. The requirements of colleges vary so greatly that it is not possible to prescribe a program of work which will apply to all of them. Two procedures are recommended:

1. Students should consult the catalog of the college or university to which they intend to transfer. They should choose their courses at Glendale Community College in accordance with the lower division (Freshman and Sophomore) requirements of the college or university of their choice as outlined in its catalog. See General Education Requirements for graduation from colleges and universities in this catalog.

2. In addition, it is advisable for students to submit their high school transcript plus their proposed lower division program to the registrar of the chosen college or university for tentative approval.

Catalogs of schools, colleges and universities are on file for reference purposes in the Career Development Center, the Library, and the Transfer Center for reference purposes. Students are urged to obtain catalogs directly from the college or university by writing the registrar of the institution in which the individual is interested.

VETERAN EDUCATION

Glendale Community College is approved by the Veterans Administration as an institution for higher learning for veterans and veteran's dependents entitled to educational assistance. After filing an application for admission, a veteran wishing to attend on one of the V.A. assistance bills should complete all necessary forms at the College Veterans Office.

The educational assistance allowance payable to Veterans is:

- Full time — 12 units or more
- ¾ time — 9-11½ units
- ½ time — 6-8½ units

Continuing and returning students who were previously enrolled for V.A. assistance must submit to the College Veterans Office each semester a Veteran's Intent-To-Register Agreement form if they wish to continue to receive assistance.

It is the veteran's responsibility to promptly notify the College Veterans Office of any change of program which would affect his or her V.A. assistance.

Veterans taking a course which lasts less than a semester will be paid only for the actual enrollment period. Veterans must be enrolled in at least one additional unit of academic subjects than the number of units in which they are enrolled in Cooperative Education-Work Experience. Veterans will not receive benefits for enrollment in Cooperative Education-Work Experience 101.

STUDENT SERVICES

ADULT RE-ENTRY CENTER

The Adult Re-entry Center is open to all students at Glendale Community College as well as all interested persons in the community. It is staffed by specially-trained counselors and peer counselors. It is a center for students to get together for counseling information and friendship.
CAMPUS CENTER

These facilities provide offices and conference rooms for the Associated Students as well as a place where student clubs and other organizations may meet for social and business functions. Arrangements for the Campus Center are to be made with the Dean of Student Activities in Administration Building, Room 106.

CAREER DEVELOPMENT CENTER

The Career Development Center serves as an occupation resource library and services center to assist people to examine interests, values and life styles in order to plan for and develop career/educational skills and personal goals.

The Career Center makes available opportunities for occupational research from among 21,000 occupational titles and maintains a complete collection of college catalogs.

Individual counseling services cover a range of topics from affirmative action, job discrimination, employer-employee relation life planning, interview techniques, decision making, values comparison, information and referral.

EXTENDED OPPORTUNITY PROGRAM AND SERVICES

The Glendale Community College Extended Opportunity Program and Services (EOPS) was established at Glendale Community College in 1972 and is jointly funded by the State of California and the Glendale Community College District. EOPS provides programs and services designed to afford economically disadvantaged students the opportunity to participate fully in the educational program of the College.

The EOPS program at Glendale Community College provides grants to eligible students. The EOPS certificated counselors and student personnel workers provide services related to enrollment procedures, obtaining financial aid, counseling and guidance, tutorial services, and university transition. The EOPS staff is also prepared to serve in many languages besides English (Arabic, Armenian, Portuguese, Spanish, Vietnamese).

EOPS is a vital component in assisting Glendale Community College achieve the goals of the college student affirmative action plan. Glendale Community College is committed to serving all the communities of the district. EOPS conducts an active student recruitment program in the multi-ethnic communities and has become a viable service in assisting the individuals from these communities to enroll in and benefit from the Glendale Community College educational program.

FINANCIAL AID

The Financial Aid Office assists students seeking financial help to pay for the costs of attending college. The Student Aid Application for California (SAAC) is the only form required to apply for financial aid. Filing the SAAC on time is critical. The completed SAAC should be mailed to the processor, the College Scholarship Service (CSS), after January 1, but no later than July 1 for priority consideration. SAACs mailed after July 1 are evaluated and assisted on a funds-available basis. The Federal Pell Grant Program has no application deadline. Students may apply for a Pell Grant at anytime after January 1, 1987 through the end of April, 1988. If eligible, students normally begin receiving Pell funds 10 to 12 weeks after they apply.

Students applying for California Grants must also submit a supplemental CAL GRANT Application directly to the California Student Aid Commission by March 2, 1987. Both the SAAC and CAL GRANT Application may be obtained from a high school guidance office or any college financial aid office. Forms are usually available in late December.
CSS will forward the results of the SAAC to Glendale College's Financial Aid Office, if Glendale College is designated on the form. Students are notified when the form has been received, and what additional documentation is needed to support the date submitted on the SAAC. It is important that all requested documentation be returned as soon as possible. Financial Aid Awards are not made until a student's file is complete. New students must submit an admission application (AD 100) and be assigned a Glendale College Student I.D. number before financial aid will be offered.

On-time applicants, those who filed a SAAC by July 1 and who have returned all supplemental documentation requested, can expect to receive a financial aid award letter by July 15. The award letter must be signed and returned by August 1. Students receiving financial aid are expected to make satisfactory progress toward their educational goal. Refer to the Satisfactory Academic Progress Policy in this catalog for more information.

The Financial Aid Office is available to help. Students may find applying for aid to be difficult and confusing. Those needing help or advice are encouraged to contact the Financial Aid Office located in the Financial Aid Trailer, south campus above the track field, or call (818) 240-1000 ext. 325.

**TYPES OF FINANCIAL AID**

**Board of Governor Grants**
This grant is available to cover the additional cost due to the fees initiated on July 1, 1985. Students must demonstrate financial need and complete the Student Aid Application for California. The maximum grant covers the community college enrollment fee.

**Cal Grants**
The California Student Aid Commission offers three grants for which Glendale Community College students may apply. The deadline for the 1987-88 academic year was March 2, 1987.

**Pell Grant Program (Formerly BEOG)**
Glendale Community College participates in the PELL Grant Program which provides grants of up to $1290 per year for resident students, and $2100 for non-resident students, depending upon the financial ability of the family or individual to contribute to the cost of higher education. To receive the grant, students must enroll in a minimum of six units.

**Supplemental Educational Opportunity Grant (SEOG)**
Glendale Community College participates in the Supplemental Educational Opportunity Grant Program funded by the Federal Government under the Higher Education Act. Grants are available up to $1500 per year for students who qualify under the provisions of the act.

**Guaranteed Student Loans**
Commercial lending institutions make yearly loans up to $2625 per school year, to eligible students at GCC. Funds for these loans are guaranteed by the Federal Government and State Agencies. Each bank or savings and loan association has specific requirements for these loans. Payments, which include 8% interest, are due 6 months after you cease being a half-time student.

Procedures for applying: complete California Guaranteed Student Loan application, Student Aid application (SAAC) and arrange for an interview in the Financial Aid Office.
Short Term Emergency Loans
Emergency loans, not exceeding $50, are available to students. These loans are administered by the Financial Aid Office. To apply for a loan, you must complete the Emergency Loan application, be a member of the Associated Student Body and file a Student Aid Application (SAAC). There is a $5 service charge for each loan and students may receive only one loan per semester.

Campus Employment/Work Study (CWS)
See Job Placement Center

HEALTH CENTER
The Health Center is open Monday through Friday during class hours to provide first aid, primary health care, crisis counseling, health counseling, information and referral services. It is located just east of the Auditorium in a trailer.

A registered nurse can be seen at any time. Physicians, a Women's Health Care Nurse Practitioner, and Crisis Counselors can be seen by appointment. Specific services available include TB skin tests, over-the-counter medications for minor problems, tetanus boosters, family planning, strep throat screening, accident insurance assistance, and tests for pregnancy, blood pressure, vision, hearing.

All services are completely confidential.

JOB PLACEMENT CENTER
The College maintains an employment service to assist current and former students in securing part-time and full-time employment. Applications should be made in person at the Job Placement Center.

Referrals for placement are made on the basis of the student's experience, training and ability to fulfill the requirements of the positions.

Employment opportunities exist on the College campus. Glendale Community College participates in the Federal College Work Study Program, and also has a program totally funded by the College. Positions are available in most areas of the College. Students interested in the Federal College Work Study Program are required to complete a Student Aid Application.

LEARNING CENTER
The Learning Center is a well-equipped professionally-staffed facility located in rooms 215 and 216 of the Administration Building. Two types of materials are available for students:

1. Materials which have been placed there by faculty members for class projects and assignments.
2. Materials for student skill development in reading, English, mathematics, science, vocational studies, music, aviation program, foreign languages, shorthand, accounting and more.

The Learning Center provides:
1. Individualized Diagnostic Testing — Any instructor or counselor may request diagnostic testing for any student in mathematics, reading level, rate or comprehension, English, spelling, and vocabulary.
2. Classes in the Center — The Learning Center offers individualized instruction through English and guidance classes that meet in the Center. These credit classes use programmed materials and multi-media to enable students to strengthen their skills in: English, writing, reading comprehension, word analysis, vocabulary development, and listening skills.
3. Individualized Module Package Programs — Any student may use the tremendous variety of individualized programs either because (1) a module was assigned by an instructor or (2) the student requested help at the Center in certain skills and the Center staff made a prescription for the student after diagnostic screening. Packages are self-paced, complete programs with cassette-taped instruction, filmstrips and workbooks for English, reading, vocabulary development, speeding reading, reading comprehension, vocational and business courses, spelling, basic mathematics, metrics, writing, phonics and literature. New programs are added all the time as this is a popular service.

4. The Writing Lab — This is the “write place” where students can improve their facility in writing for any purpose, whether in paragraphs, essays, business letters, research papers, abstracts, etc. Each hour an English instructor and student tutors are available to assist students. Enrollment in an English course is not required, and no appointment is needed. The Writing Lab is open daily; the current schedule is posted in AD 216.

MATH/SCIENCE CENTER
The Math/Science Center offers drop-in tutoring, computer assisted instruction, and audiovisual assisted instruction for students of mathematics, chemistry, biology, physics, and astronomy courses. The center, located in PB 105, is open daily 8 a.m. to 6:30 p.m. (8 a.m. to 2 p.m. on Fridays); it is staffed by faculty members and student tutors and is equipped with Apple II microcomputer systems, microscopes, and slide projectors.

Mathematics, physical science, and biology students are welcome; no appointment or previous computer knowledge is necessary. For additional information call Evelyn Reyes (ext. 246), Margaret Henley (ext. 206), or Gary Massion (ext. 214).

PRE-ADMISSION STUDENT SERVICES (PASS)
The New Student Orientation Program provides students with significant information with respect to college degree requirements, policies, academic programs, vocational programs, and student services. This information is essential for student success in college and is an important part of the matriculation program of Glendale Community College.

SCHOLARSHIPS
Any student who has completed 12 units of college work may file an application for a scholarship in the Scholarship Office, Administration Building, Room 108. Selection is made by the Glendale Community College Scholarship Committee or the donors on the basis of academic achievement, financial need, integrity of character, chances of success, and fulfillment of the particular criteria stipulated by the donors.

Each year, the Tuesday Afternoon Club awards scholarships to outstanding students in Botany, Fine Arts and General courses and transferring to an upper-division institution.

Valley National Bank Scholarship
Valley National Bank, Glendale's home-owned banking institution, awards a $250 scholarship to a business major student transfer.

Verdugo Hills Hospital Scholarship
Scholarships are awarded to students entering the LVN and RN program.

Wayne Striker Memorial Scholarship
An annual scholarship is awarded to an outstanding second-year Botany student as nominated by the Botany Department. The scholarship fund was established in memory of Wayne Striker, former Botany student.

William H. Fell Memorial Scholarship
A scholarship has been established by the family and friends of William H. Fell in his memory and is awarded to assist an outstanding engineering student while attending Glendale Community College.

William Wessly Memorial Scholarships
Three $500 scholarships are awarded annually to students transferring to an upper division institution and planning a career in a medical or para-medical field. These scholarships have been donated by the late Dr. William Wessly, a Glendale Physician, in memory of Charlotte Wessly and Ernestine Rose. (Formerly Aesculapian Scholarship.)

Women's Athletic Club Study Grant
The Women's Athletic Club of Glendale awards scholarships to outstanding students in the graduating class who plan to make a career in physical education.

Women's Committee of the Glendale Symphony Association
This organization awards an annual scholarship to a student selected by the music department and the Scholarship Committee of the Association. Candidates must have completed 48 units of work at Glendale Community College, have a 3.0 grade point average in music, and be prepared to present a recital.

TRANSFER CENTER
The Transfer Center, which is located on the second floor of the Campus Center, is staffed by counselors who can provide timely information concerning the steps involved in transferring to public and private four-year colleges and universities, including how to complete applications, housing, and financial aid.
TUTORING CENTER

The Tutoring Center is a specialized service of the Learning Center. It is located in room AD 216 near the Learning Center in the Administration Building. The tutoring coordinator assigns tutors to any student who feels the need for tutoring in any college subject. This is a free service for any Glendale Community College student.

The Tutoring Center provides:
1. In-Center Tutoring — Through the assistance of various funding programs, tutors are provided and appointments are made for tutoring in the Tutoring Center. The atmosphere is congenial and the tutoring coordinator or an aide is always there to greet you and offer assistance.
2. In-Class Tutoring — Funds from vocational education make it possible to provide tutoring in classrooms for vocational courses. The instructors request tutors for their class and the tutors work closely with the instructors to meet the specific needs of the subject.
3. Tutor Training — Tutors are trained in a specially designed paraprofessional course, Guidance 190 — Tutor Training. Glendale College is presently offering a class for 1 unit of credit. This provides the tutors with more understanding of the learning and teaching process.
STUDENT GOVERNMENT AND ACTIVITIES

The Associated Student Body of Glendale Community College is the official student organization. Numerous opportunities are provided students to participate in its activities. The Student Legislature is elected each semester and meets each Tuesday at 7:00 a.m. in the Conference Room of the Campus Center for the purpose of discussing and determining policies, procedures, and expenditures of student government. This meeting is open to all members of the Associated Student Body. Social and athletic programs and an accounting office for student funds are maintained. A well-stocked bookstore is operated under the supervision of a business manager and any net income is used to promote the program of the Associated Students. In addition, the Associated Women Students and the Associated Men Students have programs of activities.

A.S.B. MEMBERSHIP

The Student Services card is required of all students who participate in any activity, program or event which is financed in part or wholly by the Associated Students. In order that all students become acquainted with this regulation, those students not purchasing a Student Services card will be requested to sign a waiver form during the registration period, forfeiting the right to participate in A.S.B.-sponsored activities.

The Student Services fee is $5 per semester for both day and extended day students. This fee provides membership in the Associated Student Body and funds various college activities such as: a scholarship program, the emergency loan fund, the ASB Business Office, the newspaper, intercollegiate athletics, and assemblies.

The membership fee for the Associated Student Body is set yearly by the Legislature of that Body. Inquiries concerning the fee should be directed to the Office of the Dean of Student Activities, Administration Building, Room 106.

ACTIVITY PERIOD

Activity periods are scheduled on Tuesday and Thursday from 11 to 12 noon. These hours are reserved for A.W.S. and A.M.S. Board meetings, club meetings, student committee meetings, student assemblies, College Orientation Seminars, and other all-college functions.

A Master Calendar is maintained in the Administrative Services Office and all campus groups are required to register their activities two weeks in advance of the event.

ATHLETIC PROGRAM

A complete program of men's and women's athletics is sponsored by Glendale Community College. The College is a member of the Western State Intercollegiate Athletic Conference in football, soccer, men's and women's basketball, cross-country, track and field, tennis, baseball and volleyball. The College participates in most sports programs sponsored by this conferences.

CAMPUS SPEAKERS AND DISTRIBUTION OF LITERATURE

Glendale Community College endeavors to promote the widest dissemination of opinion in harmony with state and federal regulations and district policies. Students who desire to present speakers on campus or distribute literature on campus may follow the procedures outlined for such activities. These procedures are available in the Office of the Dean of Student Activities in the Administration Building, Room 106 and cleared with the Master Calendar in Administrative Services.
CLUBS
Opportunity to render service to Glendale Community College or to pursue a special interest is provided through participation in the club program offered on the Campus. (For a list of clubs see Organization Roster.) All students are urged to affiliate with at least one organization.

HAZING
According to the State Education Code, Article VIII, no club, group, organization, or individual may participate in any activity that involves hazing. Hazing includes any method of initiation or any pastime of amusement which causes, or is likely to cause, bodily danger or physical harm to any student or other person attending any educational institution in this State.

Further, hazing also includes any act that tends to injure, degrade, or disgrace any fellow student attending Glendale Community College.

Glendale Community College students who participate in hazing of any kind shall be suspended from College for further discipline by authorities, and if they are members of an on-campus club, shall be suspended from the club of which they are members. Also, the club shall be placed on probation or suspended.

HONORS
Superior scholarship and distinguished service to the College are recognized by various awards presented at the Honor Awards Banquet.

ADMISSION, COUNSELING, AND REGISTRATION

ADMISSION REQUIREMENTS
Glendale Community College will admit any California resident possessing a high school diploma or the equivalent thereof.

Glendale Community College may admit any other California resident who is 18 years of age and older and who is determined to be capable of profiting from the instruction offered.

Non-residents, including international students, may be admitted. Information concerning residency may be found elsewhere in this catalog. For further information contact the Office of Admissions and Records.

APPLICATION
All applications for admission should be presented in person at the Office of Admissions and Records, Glendale Community College, 1500 N. Verdugo Road, Glendale, California 91208.

STUDENT RECORDS
Annually Glendale Community College informs students of the Family Educational Rights and Privacy Act of 1974, as amended; of the provisions of Sections 76200-76246 of the Education Code of the State of California; and of the provisions of Sections 54600-54630 of Title 5 of the California Administrative Code. These references, with which the institution intends to comply fully, were designated to protect the privacy of education records, to establish the right of students to inspect and review their education records, to provide the process by which students may challenge the accuracy of those records, and to provide guidelines for the correction of inaccurate or misleading data through informal and formal hearings. Students also have the right to file complaints with the Family Education Rights and Privacy Act Office (FERPA) concerning alleged failures by the institution to comply with the Act.

An institutional guide explains in detail the procedures to be used by the institution for compliance with the provisions of the Act. Copies of the guide may be found in the campus library as well as in the Office of Admissions and Records.

Questions concerning the Family Educational Rights and Privacy Act may be referred to the Office of Admissions and Records.

TRANSCRIPTS
Glendale Community College reserves the right to evaluate work completed in other colleges or universities if transcripts are submitted by an applicant. Transfers with acceptable grades will be granted advanced standing in-so-far as the work completely corresponds with that of Glendale Community College. Transfers accepted with previous college academic records below a "C" average will be placed on academic probation upon admission.

Failure to file transcripts may delay registration unless the applicant has completed the Assessment Requirements.

Transcripts should be sent directly from the high school or college to Glendale Community College. All transcripts become the property of Glendale Community College and will not be returned.
PREREGISTRATION EXAMINATIONS

Each applicant should take the Preregistration Examinations. Failure to take these Examinations will delay or prevent registration. Applicants are advised to take them at the earliest possible date. Register for exams in the Assessment Center (AD 216) at least one day prior to exam. No student will be admitted to the testing area without a picture I.D. or after a test begins.

English Placement
This examination is one hour in length and similar in difficulty to material found in most newspapers and popular magazines. It includes both reading and written language sections. It is needed for placement into the nursing program and most English classes as well as many language, social science, speech and business and humanities courses.

Mathematics Placement
The Mathematics Placement Examination is designed for initial placement only. All students who have not taken a math course at Glendale Community College or other accredited institution are required to take the test prior to enrolling in the following math courses: Math 100, 101, 102, 103, 110, 111, 112, 128, 140.

Students who have completed the appropriate prerequisites at a college or university must have transcripts or other proof of satisfactory completion of the course prior to registering in a more advanced class. No placement test is required to enroll in Math 141, 145 or 151. Once placed in a Glendale College math course, students advance in the sequence according to Glendale College course prerequisites.

The placement exam may be taken only once in two years.

English as a Second Language (ESL)
This exam is needed to qualify for initial placement into any ESL course. The exam includes reading comprehension, written grammar, and listening comprehension.

The Test of English as a Foreign Language (TOEFL)
This examination is required of all applicants seeking admission as international students. Information concerning this exam is available in AD 202B, AD 100, or from the Educational Testing Service, Box 899, Princeton, New Jersey 08540, and from the local office in Pasadena (818) 578-1971.

RESIDENCE REQUIREMENTS

The following statement of the rules regarding residency is intended for general information only.

At the time of application and at registration each student is required to verify residence information. Even though a student may be otherwise admissible to Glendale Community College, the student may be denied registration privileges in accordance with the residence requirements.

A “resident student” means any person who can verify physical presence in California for one year or more on the day preceding the first day of instruction of a semester or intersession during which the person proposes to attend, who can demonstrate intent to make California a home for other than a temporary purpose and, if classified as a non-resident in the preceding term, financial independence.

A “non-resident student” means any person who has had residence in California for less than one year on the day preceding the first day of instruction of a semester or intersession during which the person proposes to attend.
The residence requirements are applied as follows:

1. A "resident student" whose residence is in the Glendale Community College District which is composed of Glendale, Montrose, La Crescenta, Verdugo City and a small portion in the western part of La Canada Flintridge may attend Glendale Community College.

2. A "resident student" whose residence is in California but outside the Glendale Community College District and not in another community college district in California may attend Glendale Community College.

3. A "resident student" whose residence is in California and in a community college district other than the Glendale Community College District may attend Glendale Community College if interdistrict attendance restrictions, if any, imposed by the district of residence have been satisfied.
   —Residents of the Pasadena Area Community College District may attend classes at Glendale Community College without special permission.
   —Applicants who reside in districts other than Glendale may contact the Office of Admissions for information regarding interdistrict regulations for their particular area.

4. A "non-resident student" may be admitted to Glendale Community College, but will be required to pay either an out-of-state or an international student tuition charge as appropriate to their circumstances. The tuition rates are established on a yearly basis. For information concerning the current rates please contact the Office of Admissions and Records.

In determining the place of residence the following rules are to be observed:*  
1. There can be only one residence.
2. A residence is the place where one remains when not called elsewhere for labor or other special or temporary purpose, and to which he returns in seasons of repose.
3. A residence cannot be lost until another is gained.
4. The residence can be changed only by the union of act and intent.
5. A man or woman may establish his or her residence. A woman's residence shall not be derivative from that of her husband.
6. The residence of the parent with whom an unmarried minor child maintains his or her place of abode is the residence of the unmarried minor child. When the minor lives with neither parent his or her residence is that of the parent with whom he or she maintained his or her last place of abode, provided the minor may establish his or her residence when both parents are deceased and a legal guardian has not been appointed.
7. The residence of an unmarried minor who has a parent living cannot be changed by his or her own act, by the appointment of a legal guardian, or by relinquishment of a parent's right of control.
8. An alien, including an unmarried minor alien, may establish his or her residence, unless precluded by the Immigration and Nationality Act (8 U.S.C. 1101, et seq.) from establishing domicile in the United States.
9. The residence of an unmarried minor alien shall be derived from his or her parents pursuant to the provisions of subdivisions (f) and (g).

* California Education Code Section 68062

GUIDANCE AND COUNSELING

Glendale Community College includes within the structure of its administrative organization a guidance program with a counseling service providing skilled assistance for:
Helping the students to understand themselves and to plan the best use of their abilities and opportunities.

Advising with and assisting the students to implement decisions which they make in working out solutions to their personal problems.

Aiding the individual for college life adjustment by providing group guidance, as well as group and individual counseling.

Assisting the individual to achieve success in and beyond college by making available guidance and counseling services such as course planning, financial aid, placement, health, and follow-up.

Prior to registration and according to a vocational interest, every student is assigned a counselor who will assist with the preparation of the Study List to be used in formal registration. It is the responsibility of all students to plan their own course and make their own decisions; the counselor will help with suggestions based upon the information derived from the student's high school record, the ability and placement tests given at the Preregistration Examination, and other special interest and personality tests administered as the need arises. After the initial interview, the counselor will be available at scheduled hours for conferences to give personal assistance to individuals about careers, education, student activities, employment, and personal and social problems that may arise with the adjustment to college life.

Counseling Services

Counseling Services are available in the Administration Building which houses the Counseling Center and in the Career Center, Extended Opportunity Program Services (EOPS), Disabled Student Center, Financial Aid Office, Special Project Offices and may be arranged for through the Office of the Dean, Student Services, Room AD 107 or with the appointment secretary in the appropriate office where a set time for an interview with the assigned counselor may be made. Drop-in counseling is available in all areas.

Group Counseling

Students may arrange with their assigned counselor to participate in a group, scheduled primarily to help students cope with the problems incidental to academic achievement.

Guidance Assessment

In addition to the tests included in the Preregistration Examinations, the counseling staff has available a variety of assessment instruments to assist the students with their vocational and educational planning. Among these are tests of ability, vocational interest, and achievement, as well as tests for various aptitudes, special skills and personality.

Eligibility for Courses

It is the policy of the Glendale Community College District that every class offered, unless otherwise indicated in the official catalog and schedule of classes, shall be fully open to enrollment and participation by any person who meets the academic prerequisites of such class, and who is otherwise eligible for admission to and enrollment in the College. Students may occasionally have had outstanding experience in a given area which they may feel will substantially satisfy the stated prerequisite for a course. Where it is desired to offer such experience for the regular prerequisite, the student must have a petition approved to make such substitution. Once such a petition has been approved students may not later receive credit for a course for which they substituted the outside experience. Students who are considering developing a petition should first read the section on Credit by Examination.
Credit for lower level courses will not be granted if credits have been earned in higher level courses. Many courses have no stated prerequisite. Here students should realize that it may be assumed that they have previous successful experience with related subjects, they have the ability to read with speed and understanding, and they have the ability to express themselves in clear and concise English.

These factors are considered by counselors when assisting students with their Study List from which they will select courses as they make out their programs during the registration period.

A student with a poor scholastic record in any subject field should not expect to carry advanced work in that field.

REGISTRATION

Each student must officially register in classes chosen from a Study List. These classes constitute the official program of the student. Changes to this program may be made by completion of an optical scanning Program Change Form.

All continuing Day and Evening College students register according to the times published in the semester Schedule of Classes. To be classified as a continuing student the registrant must have been enrolled in the immediately prior semester or intersession.

All new and returning Day and Evening College students register by appointment. The appointment time is issued by the Office of Admissions and Records at the time the Application for Admission is filed. To be classified as a returning student, the registrant must enroll in either a regular semester or an intersession after an absence of one or more semesters.

All continuing Evening College students and designated continuing Day students may register by mail. For information concerning this process, consult the semester Schedule of Classes or call the Office of Admissions and Records, (818) 240-1000.

No student will be enrolled in a class and have a grade recorded subsequent to the completion of a given semester unless it is established that the procedures for enrolling set up by the college are proved to have failed. Registration for the purpose of auditing is not permitted.

COSTS

All students must pay an Enrollment Fee each semester or summer intersession as follows:

- For semester registration the fee is $5 per unit for less than six units and a flat $50 fee for six or more units.
- For summer intersession registration the fee is $5 for each unit not to exceed $50 total.

Program Change Fee: Effective Monday of a session’s third week, a student-initiated program change will be subject to a $1 fee. No fee will be charged for changes initiated by or required by the college.

No tuition is charged at Glendale Community College for students designated as resident students. A non-resident tuition will be charged to students who are foreign nationals, residents of other states, or who have taken legal residence in California for less than one year. The tuition is $88 per semester unit.

Student Services Fees and Parking Fees will not be refunded unless a class has been cancelled. To receive a refund for Tuition and/or Enrollment Fees, classes must be dropped within the first two weeks of instruction for the particular class.

Requests for refunds must be initiated by the student and will be honored for a three week period only:

First Semester: September 28, 1987 through October 16, 1987
Second Semester: February 22, 1988 through March 11, 1988
Refund request forms will be available in the Administration Annex, Tuition Window. Student must present ID card and receipt showing payment of fees.

Students are held responsible for any loss or breakage of college equipment. At registration time, students will have the expenses of purchasing textbooks, supplies, and other incidentals. Students should check the semester schedule of classes for fees incidental to the registration. There will be need for additional supplies during the semester but the amount varies with the course taken. Flight training is contracted for at the student’s expense.

*May be effected by State Legislative action.
SCHOLASTIC INFORMATION AND REGULATIONS

UNIT OF WORK
The credit value in semester units of each course is indicated after the title of the course under "Course Descriptions." Each unit represents one hour per week of lecture or discussion, or a longer time in laboratory or other exercises not requiring outside preparation. For each hour of lecture-discussion, two hours of preparation are assumed.

UNIT LIMITATIONS
The students' program of studies will vary according to their needs and objectives. Students registered in 12 or more units are classified as full-time students; those registered for less than 12 units are classified as part-time students. The academic load carried should be in line with the best combined judgment of the student and the counselor. The College recommends that students who are working 20 hours per week should carry no more than 10 units; 30 hours per week, no more than 8 units; and 40 hours per week, no more than 6 units. Individuals having health problems should make proportionate adjustments in their college programs.

A first semester student, one who has not completed at any college one semester of resident study of 12 semester units of credit or a quarter of resident study of 8 semester units of credit, should not register for more than 16 units plus one unit of music performance and a physical education activity. Students may not register in more than 18½ semester units without special permission. These unit limitations apply to the total of day and evening college courses.

SATISFACTORY ACADEMIC PROGRESS POLICY
Students receiving federal or state financial aid must meet the Scholarship Standards of Glendale Community College and also be making satisfactory academic progress toward their educational goals.

Full-time students must complete 12 or more units per term with a maximum of 6 terms to complete their educational goals.

Three-quarter time students must complete 9 to 11½ units each term with a maximum of 8 terms to complete their educational goals.

Half-time students must complete 6 to 8½ units each term with a maximum of 12 terms to complete their educational goals.

These unit load standards apply to the Fall semester, the Spring semester, and the Summer intersession/term.

For further details contact the Financial Aid Office.

SCHOLARSHIP STANDARDS
Glendale Community College interprets a "C" average as a satisfactory scholarship standard — which means that the student should receive grade points equal to twice the number of units attempted (See section on Grades, Grade Points and Grade Point Average).

Students who fail to maintain satisfactory scholarship may be placed on academic or progress probation and may be dismissed.

1. Academic Probation: A student will be placed on academic probation if the student's cumulative grade point average for all units attempted at accredited postsecondary institutions is less than 2.0. Glendale Community College
recognizes academic probationary status assigned by another college or university.

2. Progress Probation: A student who has enrolled in a total of at least nine (9) units shall be placed on progress probation if the percentage of all units in which a student has enrolled at accredited postsecondary institutions for which grades of “W”, “I” and “NC” are recorded reaches or exceeds fifty percent (50%). Glendale Community College recognizes progress probationary status assigned by another college or university.

3. Dismissal: A student on probation (academic, progress or a combination of both) who earns any form of probationary status in two consecutive semesters or intersessions shall be dismissed and not be reinstated until at least one semester has elapsed after the dismissal. Glendale Community College recognizes academic dismissal assigned by another college or university. Students dismissed from other colleges or universities must abide by the procedures for students dismissed from Glendale Community College with respect to seeking readmission after dismissal.

For purposes of this section, semesters shall be considered consecutive on the basis of the student’s enrollment (i.e., a fall semester followed by a fall semester shall be considered consecutive even though the student was not enrolled in the intervening spring semester).

A student having been readmitted on probation after dismissal must maintain a semester grade point average of at least 2.0 and must not be placed on a semester progress probation. If either the semester grade point average falls below 2.0 or the student is assigned the progress probation status that student will again be dismissed for one semester.

**GRADES, GRADE POINTS, AND GRADE POINT AVERAGE**

The standing of students in each course will be determined by class work and examinations. Grades will be reported and grade points allowed as follow:

- **A** — Excellent 4 grade points per unit
- **B** — Good 3 grade points per unit
- **C** — Satisfactory 2 grade points per unit
- **D** — Passing, less than satisfactory 1 grade point per unit
- **F** — Failing (cannot be removed by examination) 0 grade points
- **CR** — Credit (at least satisfactory — units awarded, not counted in G.P.A. but included in computation of progress probation)
- **NC** — No Credit (less than satisfactory or failing — units not awarded in G.P.A. but included in computation of progress probation)

**GRADE POINT AVERAGE**

The grade point average is computed by dividing the total number of grade points earned by the numbers of units attempted. The units (attempted) is the sum of the units earned in classes taken with passing grades and, when the recorded grade is an “F”, “WU”, or “WF”, the units which would have been earned if a passing grade had been recorded. A “W” grade does not enter into such computation. Also, such computations do not include the unit value of courses for which “CR” or “NC” are recorded or for courses completed under the regulations established for Credit by Examination. If a course is repeated for the purpose of improving previous substandard work, the units (attempted) and grade points earned are counted only once and according to the higher grade earned in the course. If the grade is the same in both cases, the units (attempted) and grade points will be counted only once. An “Inc” made up carries the grade points per unit appropriate to the grade given on makeup.
NON-EVALUATIVE SYMBOLS
Units for which the following grading symbols have been assigned will not be counted in the computation of the Grade Point Average.

I — Incomplete (Included in the computation of progress probation)
W — Withdrawn (Included in computation of progress probation)
IP — In Progress — To be used when class extends beyond the normal end of an academic term
RD — Report Delayed

An incomplete grade may only be given when an unforeseen emergency prevents a student from completing work in a course. The incomplete grade must be removed by the end of the sixth school week after the beginning of the semester subsequent to the one in which the incomplete grade was received, regardless of whether the student re-registers. The nature of the unforeseen emergency and the conditions for removal of the “I” shall be stated by the instructor in a written record. The record shall indicate the grade to be assigned in lieu of the removal of the “I”. The student and the Office of Admissions and Records must be furnished copies of the record. A final grade shall be assigned when the work stipulated has been completed and evaluated or when the time limit for completing the work has passed.

A student may file a petition to the Executive Committee for a time extension due to unusual circumstances.

COURSE REPETITION

Repetition of courses falls within two general areas as follows:

1. One repetition of a course is allowed for the specific purpose of alleviating substandard work which has been recorded on the student’s record. Substandard work is defined as work for which the grading symbol “D”, “F”, or “NC” has been recorded. Students who repeat a course under these conditions should subsequently file a Petition to Count Higher Grade in the Office of Admissions and Records. For computation of grade point average, the units attempted and grade points earned are counted only once and according to the higher grade earned in the course. If the grade is the same in both cases, the units attempted and grade points will be counted only once. This applies to computation of grade point average, as well as toward the completion of a curriculum or the requirements for the Associate Degree.

2. Repetitions are permitted in specific classes in which skills or proficiencies are enhanced through supervised repetitions and practice, or where active participating experience in individual study or group assignments is the basic means by which learning objectives are achieved. Catalog descriptions of courses in which repetitions are permitted will indicate the number of repetitions permitted and/or the maximum number of units that may be earned through repetition. In no case may a course be repeated more than three times.

ACADEMIC RENEWAL WITHOUT COURSE REPETITION

The following procedure provides an opportunity for students to obtain alleviation of previously recorded, substandard academic performance which is not reflective of subsequent demonstrated ability.

1. A student may request academic renewal (for not more than two consecutive semesters of work accomplished at Glendale Community College) through a petition to the Executive Committee.

2. If and when the petition is granted, the student’s permanent record will be annotated so that it is readily evident to all users of the record that no units
for work taken during the disregarded term(s) even if satisfactory, will apply
toward units for graduation or other unit commitment. However, all work will
remain legible on the permanent record to insure a true and complete academic
history.
3. Although none of the units completed during such semesters could count toward
a degree, passing work could satisfy a major or general education requirement.
4. The student seeking academic renewal is responsible for presenting evidence
to the effect that the previously recorded work was substandard academic
performance (semester GPA less than 2.0) and is not reflective of more recently
demonstrated academic ability.
5. Evidence of recent academic ability may include, but is not limited to, one of
the following:
a. 15 semester units with at least a 3.00 GPA
b. 30 semester units with at least a 2.50 GPA
c. 45 semester units with at least a 2.00 GPA
6. There must be at least 24 months between the end of the most recent academic
renewal semester and the date of initiation of the request and such renewal.
7. A student may request academic renewal only once.
8. A student may repeat work taken during academic renewal semester only if
such repetition is necessary to allow normal progression toward an acceptable
educational objective.
9. A student must include all work, including academic renewal semesters, in
computation of the cumulative GPA toward honors at graduation.
For further information regarding Academic Renewal contact the Office of Admissions
and Records.

CREDIT FOR ADVANCED PLACEMENT-EXAMINATIONS
Glendale Community College recognizes the high level of achievement of the student
who has successfully completed one or more Advanced Placement Examinations
(completed at the secondary school level) as authorized by the College Entrance
Examination Board (CEEB) and shall award credit based upon the criteria established
by the College. Credit may be applied to the appropriate breadth requirements. Currently
credit is granted as follows:
Credit awarded for a grade of 3, 4, 5 (from a scale of 1 to 5) units awarded in
an amount equal to units for the same or similar course at College.

TEST
Biology (2 courses in Life Science) Biology 122
English English 101, 102
Foreign Language French 103, 104

History-American (2 courses in Social Science) History 117, 118
History-European (1 course in Social Science) History 109 or 101
Mathematics (2 courses in Physical Science) Math 103
Physics (2 courses in Physical Science) Physics 110
Studio Art (Credit awarded for grade of 4, 5) Art 130 and Art 150
(Review of portfolio and approval by the Art faculty)

Units for which credit is given pursuant to these Examinations will not be counted
in determining the 12 semester hours of credit in residence required for graduation.
CREDIT FOR MILITARY TRAINING

Glendale Community College will recognize and grant credit to veterans for educational training completed in the armed forces provided such credit is not a duplication of work taken previously. College work completed through the United States Armed Forces Institute will be accepted. In order to receive credit for military training, veterans must petition for such credit and present authentic military service and training records including a copy of discharge papers.

Applicants desiring credit for military training will be required to prove their capability by earning fifteen units with a "C" average at Glendale Community College before credit for military service can be granted. Credit awarded for military training will include subject credit for hygiene toward the Associate Degree.

CREDIT BY EXAMINATION

Upon consent of the instructor and under special circumstances students who are regularly enrolled, in good standing and believe they are qualified by experience or previous training, may apply to take a special examination to establish credit in a course in which they are not formally registered.

Students may not petition for credit by examination for a course if that course is at a lower level in the subject sequence than a course for which the student has already received credit through completion of the course. If the student is enrolled in a higher level course and wishes to receive credit by examination for a lower level course, the examination must be completed and the results of the examination received in the Office of the Dean of Admissions and Records no later than Friday of the fourth week of the semester in which the student is enrolled in the higher level course. For example, students enrolled in Spanish 102 must have completed the examination and the results certified in the Admissions and Records Office by Friday of the fourth week of the semester if the student is to receive credit by examination for Spanish 101.

Students wishing to challenge courses approved by examination must obtain the form "Petition for Credit by Examination" from their counselor and discuss eligibility according to criteria set up by the college. An interview must be requested with the instructor of the course at which time the students' qualifications for challenging the course will be determined and arrangements will be made for the examinations.

This procedure as outlined applies to all examinations approved to translate experimental learning into formal unit credit and administered by the division on campus or by a testing service sponsored by another collegiate institution.

Units for which credit is given pursuant to these Examinations will not be counted in determining the 12 semester hours of credit in residence required for graduation.

Courses open to Credit by Examination include the following:

- Adminstration of Justice 101, 108
- Allied Health (all except 246, 250)
- Arabic 101, 102, 103
- Armenian 101, 102
- Art 101, 102, 112, 113, 118, 120, 121, 130, 150
- Aviation and Transportation 114 (Student must hold a Commercial Pilot Certificate)
- Aviation and Transportation 117 (Student must hold a Flight Instructor Certificate)
- Aviation and Transportation 119 (Student must hold a Private Pilot Certificate)
- Aviation and Transportation 120 (Student must hold a Private Pilot Certificate)
- Aviation and Transportation 122 (Student must have an Instrument Rating)
- Aviation and Transportation 125 (Student must have an Instrument Rating)
Biology 127, 128, 132, 135, 146
Chemistry 101, 102, 110
Computer and Information Systems 101, 105, 110
Cosmetology 111, 112
Egyptian Hieroglyphs 101, 102
English 101*
Family and Consumer Studies 105
French 101, 102, 103
Geology 101, 105, 110
German 101, 102
Graphics and Design 165, 166
Health 101, 104, 107, 109, 110
Italian 101, 102, 103, 104
Latin 101, 102, 103, 104
Music 101, 104, 105, 106, 107, 120, 125, 126
Office Administration 110, 215
Political Science 101, 105
Spanish 101, 102
Tech. Ed. 140
Television 101

NOTE: No student may earn more than 12 units by *examination only.
* CLEP candidates must take College Composition with Essay.

COLLEGE LEVEL EXAMINATION PROGRAM POLICY

The College Level Examination Program is designed to award academic credit to students who have completed 12 or more semester units in residence at Glendale Community College with a cumulative grade point average of at least 2.0 and have gained the equivalency of college course work through means other than enrollment in a formal college program. Six (6) units of elective credit will be granted in each of five subject areas to students who achieve a percentile rank of fifty (50) or higher on each examination. The maximum credit is thirty (30) units. The five general areas are: English composition, humanities, mathematics, natural sciences and social sciences—history. Further information concerning the CLEP is available in the Guidance and Counseling Office.

Units for which credit is given pursuant to this program will not be counted in determining the 12 semester hours of credit in residence required for graduation.

CREDIT-NO CREDIT COURSES

There are two categories of Credit-No Credit courses.

The first category consists of those courses which must be taken on a Credit-No Credit basis only. Courses which fall into this category include: Arabic 110, 111, 112; Armenian 110, 111; Chinese 110, 111; Computer and Information Systems 105, 107, 220; English 100, 150, 151, 162, 171, 172, 173, 177, 181, 182, 183, 188; French 110, 111, 113; German 110, 111; Guidance (all except 189, 191); Italian 110, 111; Mathematics 151, 190; Norwegian 110; Office Administration 135, 140, 201; Russian 110; Spanish 110, 111, 117, 118; Speech 150, 151, 152.

The second category consists of courses which may be selected at the student’s option. The student must utilize the Petition for Credit-No Credit Class and have it on file in the Office of Admissions and Records before Monday of the fifth week for a semester-length class or by Wednesday of the second week for all other classes.
Students electing to take classes on a Credit-No Credit basis participate in the class as a regular student. If the grade awarded by the instructor is “C” or higher, the course grade is recorded as “CR”. If the instructor-assigned grade is “D” or “F”, the course grade is recorded as “NC”.

All units earned on a Credit-No Credit basis in accredited institutions of higher education will be counted in satisfaction of Glendale Community College curriculum requirements.

Units earned on a Credit-No Credit basis will not be used to calculate grade point averages. However, units attempted for which “NC” is recorded shall be considered in progress probation and dismissal procedures.

Students not on probation and enrolled for six or more units may designate one course for Credit-No Credit. The course designated must be outside of courses required for the student’s major. The number of Credit-No Credit units earned may not exceed twelve (12), exclusive of those earned in courses which are graded only on Credit-No Credit, with no more than one such course option during any semester or summer intersession.

Courses which may be selected for Credit-No Credit follow:

Accounting 110, 111, 120, 150, 155, 160
Administration of Justice (all)
Alcohol/Drug Studies 101, 110
Allied Health (all)
Anthropology 101, 102, 103
Architecture (all)
Art (all)
Biology 127, 128, 131, 132, 135, 139, 140, 145, 146, 149
Business Administration (all)
Business General (all)
Chemistry 110, 112, 143
Computer and Information Systems (all except 105 and 220)
Dance (all)
Economics 101, 102, 107
Egyptian Hieroglyphs 101, 102
Electronics and Computer Technology 111, 112
English 103, 105, 106, 107, 108, 109, 110, 111, 112, 113, 122, 123, 124, 125, 126, 128, 140, 190, 192
English as a Second Language 163, 164, 165, 166, 167, 168
Ethnic Studies 101, 102, 110, 111, 122, 124, 132, 164
Family and Consumer Studies (all)
Fashion (all)
Finance (all)
Fire Science (all)
Food and Nutrition (all)
Food Service Management (all)
Geography 110
Geology 101, 105, 110
German 125, 126
Graphics and Design (all)
(except 164, 177)
Guidance 189, 191
Health 101, 104, 107, 109, 110
Humanities 101, 102, 105, 110, 111, 117, 120, 125, 135
Independent Studies 149
Linguistics 101
Management (all)
Marketing (all)
Mathematics 140, 141, 145, 146
Music (all except 163)
Office Administration (all except 246, 250, 255)
Paleontology 101
Philosophy (all)
Photography (all)
Physical Education 120-286, 288-294
Physical Science 131
Physics 110
Political Science 102, 104, 106, 110, 111, 151
Psychology (all)
Real Estate (all)
Sign Language 101, 102, 103
Social Science 102, 103, 122, 124, 125, 126, 133
Sociology (all)
Spanish 125, 126, 127, 128
Special Projects 150
Speech 105
Technical Education 147
Television 101, 102, 104

Theatre Arts 101, 102, 103, 104, 107, 109,
110, 121, 122, 123, 131, 134, 140

GENERAL CONDUCT

Students are expected to maintain the highest standards of citizenship, in conformity with California State law the governing board of Glendale Community College has drawn up a statement of conduct and disciplinary procedures for Glendale College students.

These Standards of Student Conduct are stated below:

A student enrolling in Glendale Community College may rightfully expect that the faculty, administrators, and the legislature of the Associated Students of Glendale Community College will maintain an environment in which there is freedom to learn. This requires that there be appropriate conditions and opportunities for learning in the classroom and on the campus. As members of the College community, students should be encouraged to develop the capacity for critical judgment, to engage in sustained and independent search for truth and to exercise their rights to free inquiry and free speech in a responsible, non-violent manner.

Students shall respect and obey civil and criminal law, and shall be subject to legal penalties for violations of the laws of the city, county, state, and nation.

Student conduct at Glendale Community College must conform to the Glendale Community College Policy Standards of Conduct. Violations of such policy for which students are subject to disciplinary action include, but are not limited to, the following:

1. Failure to comply with directions of college officials acting in the performance of their duties,
2. Dishonesty, including, but not limited to, cheating, plagiarism, or knowingly furnishing false information to the college,
3. Forgery, alteration, or misuse of college documents, records, or identification,
4. Obstruction or disruption of teaching, research, administration, disciplinary procedures, or other college activities, including (but not limited to) its community service functions, or of other authorized activities on college premises,
5. Physical abuse of any person on college-owned or controlled property or at college-sponsored or supervised functions or conduct which threatens or endangers the health or safety of any such person,
6. Theft of or damage to property of the college or a member of the college community or campus visitor,
7. Unauthorized entry to facilities or use of college supplies or equipment,
8. Violations of college policies or regulations including campus regulations concerning student organizations, the use of college facilities or the time, place and manner of public expression,
9. Violation of judicial and statutory standards of obscenity,
10. Use, possession, distribution, or presence on a campus while under the influence of alcoholic beverages, narcotics, or other dangerous drugs, such as marijuana and lysergic acid diethylamide (LSD),
11. Possession while on the college campus, or at a college-sponsored function, of any item ordinarily considered to be a weapon, which might inflict bodily harm, or be used to threaten the health and safety of members of the college community, is prohibited. This does not apply to members of law enforcement agencies, such as police officers or other security personnel.

Violations of the Standards of Student Conduct may lead to probation, suspension,
or dismissal from the College in accordance with the disciplinary action adopted by
the governing board of Glendale Community College and administered through a
system of due process. Students who feel that their rights have been abridged or
infringed upon have access to college-established grievance procedures. These
procedures are available in the following offices:

Title IX Coordinator, Patricia Lienhard, Room LIB 102 G, Ext. 250, 251;
Section 504 Coordinator, Allan Grimsby, Room AD 107, Ext. 504;
Affirmative Action Coordinator, N. Arthur Rasmuson, Room AD 112, Ext. 236;
Academic Grievance, N. Arthur Rasmuson, Room AD 112, Ext. 236.

ATTENDANCE AND PUNCTUALITY
Students are expected to attend all classes regularly. There are no authorized cuts
from classes, and irregular attendance may result in exclusion from classes or from
college. Although absence may be unavoidable, such as subpoena requirements, illness
of the student or serious illness or death of a member of the family, all work missed
must be satisfactorily made up and responsibility for making up this work rests with
the student.

WITHDRAWAL FROM CLASS OR COLLEGE
Once students have registered for a class, they are not considered to have withdrawn
from that class unless an optical scanning Program Change form has been filed in
the Office of Admissions and Records. These forms are available in the Office of
Admissions and Records or in the Guidance and Counseling Office. Failure to attend
classes does not constitute withdrawal.

No notation will be made on the permanent academic record of a student who
withdraws or is withdrawn from class or from college:

During the first two (2) weeks of a semester-length class.
During the first (1) week of a class which is at least six (6) weeks
in length and less than a semester in length.
During the first 30% of a class which is less than six (6) weeks in length.

Students who withdraw or are withdrawn from semester-length classes after the
second (2) week and by the end of the fourteenth (14) week will receive an automatic
“W” on their permanent academic record for such classes. The same notation will
appear for students in eight- and nine-week classes who withdraw after the end of
the first (1) week and by the end of the sixth (6) week.

In order to receive a “W” in a six-week summer intersession class, a student must
withdraw by the end of the fourth (4) week.

Students enrolled in classes of lengths other than those indicated will be assigned
a “W” for the class if they withdraw or are withdrawn before 75% of the term has
elapsed.

Students may withdraw or be withdrawn subsequent to the designated deadlines
in extenuating circumstances upon petition, which must be received by the chairperson
of the Petitions Committee within the first semester following the semester or term
in which the class was scheduled, of the student or his/her representative and after
consultation with the instructor(s) or appropriate faculty. Extenuating circumstances
are verified cases of accident, illness or other circumstances beyond the control of
the student.

Withdrawal after the end of the designated deadlines which has been authorized
under extenuating circumstances shall be recorded as a “W”.

Students not withdrawn from classes during the periods and circumstances described
above will not be eligible for a final grade of “W”.

SCHOLASTIC INFORMATION AND REGULATIONS 55
A final grade of "CR" or "NC" may only be assigned in classes described in the section on Credit-No Credit courses.

**FINAL EXAMINATIONS**

At the end of each semester a special Final Examination Schedule is followed. Students must attend all classes in accordance with the special schedule for that period. This arrangement permits the giving of Final Examinations in those classes which require them and the completion of the instructional program in the other classes. No student shall be excused from taking a Final Examination where such is required as part of a course.

**PETITIONS PROCEDURE**

Students feeling in their case that there are circumstances warranting special consideration for adjustment or deviation from established procedures and policies of the College may file a petition with the Executive Committee.

**CLEARANCE OF OBLIGATIONS**

All obligations to the College must be met before a student's record may be considered clear.

**FORWARDING OF TRANSCRIPTS**

Upon the request of a student, a transcript of the student's record at Glendale Community College will be forwarded to a college or university, individual, firm, etc. providing that such student has no outstanding financial obligation to the College. No charge will be made for furnishing up to two transcripts of students' records.

**GRADUATION REQUIREMENTS**

**ASSOCIATE IN ARTS DEGREE**

The Associate in Arts Degree is granted to persons who file a Petition for Graduation in the Office of Admissions and Records, who are not on academic probation, and who have completed a minimum of 12 of the last 18 units of the required college curriculum of 60 semester units at Glendale Community College. The satisfactory completion of the required 60 semester units must include all of the following:

1. A major leading to a well-defined objective. This requirement may be met by completing an 18 semester unit major in Humanities, or Science, or Applied Arts, or by completing the Glendale Community College general education breadth requirements for admission to The California State University.

   **HUMANITIES**
   Fine Arts
   Language Arts
   Social Sciences

   **SCIENCE**
   Biology
   Mathematics
   Physical Science

   **APPLIED ARTS**
   Allied Health
   Aviation and Transportation
   Business
   Health and Physical Education
   Technical Education

2. Two units in American Institutions are required. Courses which satisfy this requirement include History 117-118*; Political Science 101, 105, 151**; Social Science 125-126**, 132**.
3. One unit in State and Local Government is required. Courses which satisfy this requirement include Political Science 106, 151***; Social Science 125-126**, 132***.

4. Two units in American History are required. Courses which satisfy this requirement include Economics 111; History 110, 111, 117-118*, 151; Social Science 125-126**, 131.

5. Satisfactory evidence of proficiency in mathematics must be given. This evidence may be a satisfactory score on the Mathematics Department Placement Examination, or a "C" or better grade in Mathematics 141, or "C" or better grades in both Mathematics 145 and Mathematics 146 or "C" or better in both Business—General 130 and Business—General 135 for a total of at least 3 units, or a "C" or better in Technical Education 143, or a "C" or better grade in an equivalent course taken at any accredited college.†

6. Three semester units of community and personal hygiene must be completed. Health 104 or equivalent will satisfy this requirement.

7. Two units of physical education activity and/or dance activity classes must be completed unless exempted by established policy.

8. First-aid instruction. Health 101 or 109 satisfy this requirement.

9. Twenty-one (21) semester units of general education including at least one course in each of the following areas:

a. Natural Science. At least one course (3 units) from physical science or from biological science must be selected: Anthropology 101; Astronomy 101, 102, 103; Aviation and Transportation 122; Biology 101, 102, 112, 115, 118, 120, 121, 122, 123, 125, 126, 127, 128, 129, 130, 131, 132, 135, 137, 138, 139, 140, 145, 146, 149; Chemistry 101, 102, 103, 105, 106, 107, 110, 112, 115, 120, 121, 143; Geography 101; Geology 101, 102, 103, 104, 105, 110; Oceanography 115; Paleontology 101; Physics 101, 102, 103, 105, 106, 110; Physical Science 131.

b. Social Science. Courses completed to satisfy requirements 2, 3, and 4 may not be used to fulfill the requirement in Social Science. At least one course (3 units) from the Social Sciences must be selected: Administration of Justice 111; Anthropology 102, 103; Business Administration 110; Economics 101, 102, 105, 111; Ethnic Studies 101, 102, 110, 111, 122, 124, 132, 164; Geography 102, 105, 110, 114; History 101, 102, 103, 104, 106, 107, 108, 109, 110, 111, 112, 113, 114, 117, 118, 119, 120, 121, 131, 135, 151; Political Science 101, 102, 103, 104, 105, 106, 109, 110, 111, 151; Psychology 101, 102, 103, 104, 105, 106, 108, 109, 110, 111, 112, 113, 114, 115, 131; Social Science 121, 122, 123, 124, 125-126, 131, 132; Sociology 101, 102, 105, 131;

c. Humanities. At least two courses (6 units)—one from each of the two areas below must be selected.****

1. Interdisciplinary Humanities, three (3) units required: Humanities 101, 102, 105, 106, 110, 111, 115, 117, 120, 125, 135.

2. Arts, Foreign Language, Literature and Philosophy, three (3) units required: Arabic 101, 102, 103, 124; Armenian 101, 102; Art 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 112, 113, 116, 118, 120, 121, 125, 156, 195; Egyptian Hieroglyphs 101, 102; English 102, 105, 106, 107, 108, 109, 110, 111, 121, 122, 123, 124, 125, 126, 127, 128, 130, 140; French 101, 102, 103, 104, 105, 106, 124, 125, 126; German 101, 102, 103, 104, 105, 106, 125, 126; Italian 101, 102, 103, 104; Latin 101, 102, 103, 104; Linguistics 101; Music 101, 102,
110, 120, 122, 125, 126, 128; Philosophy 101, 112, 113, 114, 116, 119, 120, 121, 122; Social Science 133; Spanish 101, 102, 103, 104, 105, 106, 124, 125, 126, 127, 128; Theatre Arts 101, 102, 107, 140.

d. Language and Rationality. At least two courses (6 units) from Language and Rationality must be selected.

1. English Composition—three (3) units required. Evidence of proficiency in written English is required. This requirement may be fulfilled by the completion, with a grade of "C" or better, of English 101 or 120 or 131 or 165 or Business—General 110.

2. Communication and Analytical Thinking—three units required. Accounting 101, 102; Business Administration 120, 125; Business—General 101, 115; Computer and Information Systems 101, 110, 120, 130, 135, 140, 145, 160, 180; Economics 107; English 118, 163, 164; Journalism 101, 102; Mathematics 100, 101, 102, 103, 104, 105, 107, 108, 110, 111, 112, 128, 130, 138, 140, 141, 145, 146, 151, 190; Philosophy 117; Political Science 107; Psychology 107; Sociology 107; Speech 100, 101, 103, 105; Technical Education 142, 143, 144.

*This course satisfies requirements 2 and 4.
**This course satisfies requirements 2, 3, and 4. (Both Social Science 125 and 126, must be completed to satisfy requirements 2, 3, and 4.
***This course satisfies 2 and 3.
****Business majors who intend to transfer with junior standing and Associate in Science degree candidates are exempted from three of the six units required and may select three units from 9. c. 1. or 9. c. 2.
†Students entering September, 1986 will be held for this new requirement. Continuing students entering prior to Fall, 1986 may satisfy either the old or new mathematics requirement.

ASSOCIATE IN SCIENCE DEGREE

The Associate in Science Degree will be granted to persons who have satisfactorily completed a minimum of sixty (60) semester units of work which satisfy all the requirements for an Associate in Arts Degree, such units to include the completion of a Glendale Community College Certificate Program of twenty-four (24) units or more. The certificate program must be approved by the appropriate Division as a satisfactory major for the Associate in Science degree.

The Certificate Programs which may serve as a major for the Associate in Science degree may be found in the appropriate section of the Catalog.

CERTIFICATE PROGRAMS

Certificate Programs are primarily business and technical programs for students desiring education beyond high school. These programs provide opportunities for students to prepare themselves for a wide variety of careers and to enrich their cultural backgrounds. In most cases these programs are planned without regard to transfer schools; however, many courses are transferable to four-year colleges or universities if students change their educational goals.

Certificates of Completion are issued to those requesting them who complete the required Certificate courses with an average grade of "C" or better though they are strongly urged to meet the graduation requirements for the Associate in Arts Degree*.

1. Certificates of Completion shall be issued upon request by the Office of Admissions and Records to students who qualify for them by completing one
of the occupation-centered curriculums. The student must have an average grade of "C" in all courses constituting the certificate program.

2. To be eligible for the Certificate a student must complete a minimum of 24 units of college work including the required courses.

3. At least twelve units of the required courses must be completed in residence at Glendale Community College.

**ADMINISTRATION OF JUSTICE**

The required core courses (18 units) are: Administration of Justice 101, 103, 110, 118, 120 and 134.

In addition, a minimum of 9 units must be selected from the following: Administration of Justice 107, 108, 111, 113, 114, 116, 117, 129, 130, 150, 151, 152.

It is further recommended that students take English 131; Psychology 114 and/or Speech 101.

**ADVERTISING ART**

The Advertising Art Certificate curriculum combines fundamental fine arts courses with those of a technical nature to provide a comprehensive course study in visual communication. The program is intended to prepare students to communicate ideas and information using any visual medium. Advertising design students learn that by creating effective visual communication they make information accessible and comprehensible and give visual order, identification, and meaning to the many ideas existing within society.

This program is designed for the student's entry into the profession in a variety of areas: salaried "in-house" artist for an agency, printing house or design studio artist, part-time or hourly artist for firms specializing in graphic art areas, or free-lance artist.

These courses are required: Art 107, 130, 131, 134, 135, 138, 150, 151 and 3 units from either Art 101 or Art 102.

A minimum of four units must be selected from the following: Art 101 or 102, 136, 137, 152, 160, 164, 170, 174, 180; Photography 107

**SPECIALIST IN ALCOHOL/DRUG ABUSE**

These courses are required:

Behavioral Courses (Select six units): Psychology 101, 105; Social Science 121; Sociology 101.

Core Courses: Alcohol/Drug Studies 101, 102, 103.

Skill Courses (Select nine units): Alcohol/Drug Studies 110, 111, 112, 113, 114.

Field Placement: Alcohol/Drug Studies 152, 153.

1. Behavioral courses must be completed prior to enrollment in the Skill courses.

2. Core courses can be taken in conjunction with Behavioral courses.

3. Alcohol/Drug Studies 101 is a prerequisite for all Alcohol/Drug Studies courses and may be taken in conjunction with the Behavioral or other Core courses.

4. All academic course work must be completed prior to enrollment in the Field Placement/Seminars; except, one academic course may be taken in conjunction with each Field Placement/Seminar.

**ARCHITECTURAL DRAFTING AND DESIGN**

This two-year curriculum prepares a student to enter employment as an architectural draftsperson in the building construction field.
These courses are required: Architecture 101, 102, 103, 105, 109, 110; Art 120, 121, 130, 150; Technical Education 140, 142, 146.

The following courses are recommended: Cooperative Education 102; Drafting 141; Technical Education 143, 145

**ART**

For the students who are interested in art as a career the following courses are required:

Two-dimensional art: Art 101, 102, 130, 131, 150, 152, 160, 164, 170, 172, 174

Three-dimensional art: Art 101, 102, 130, 131, 138, 150, 152, 180, 186, 187, 190

**ART HISTORY**

The curriculum listed below is designed to prepare the student to be an art museum docent.

These courses are required: Art 103, 104, 105, 106, 107; Humanities 115; Speech 101.

A minimum of three units must be selected from the following recommended courses:

**AVIATION AND TRANSPORTATION AVIATION ADMINISTRATION**

*Aviation Administration* is for those who wish to enter Civil Aviation work as clerks, agents, station and traffic managers, or fixed base operators.

These courses are required: Aviation and Transportation 119, 120, 128, 130; Accounting 101 or 110; English 101; Psychology 101; Speech 101

A minimum of ten units must be selected from the following: Aviation and Transportation 114, 121, 122, 123, 124, 125, 126, 127, 131; Accounting 102; Business Administration 101; Computer and Information Systems 101, 110

**AVIATION AND TRANSPORTATION FLIGHT ATTENDANT**

*Note*: Students following the Flight Attendant Program should take Aviation and Transportation 129 prior to Aviation and Transportation 120. This program will not qualify for the Associate in Science Degree.

These courses are required: Aviation and Transportation 120, 129, 132; Family and Consumer Studies 133; Psychology 110; Speech 101

A minimum of nine units must be selected from the following: Aviation and Transportation 119, 121, 122, 123, 124, 125, 126, 127, 128, 131; Cooperative Education 102; Geography 105

**AVIATION AND TRANSPORTATION — AIRCRAFT POWERPLANT MAINTENANCE AND OVERHAUL (FAA POWERPLANT LICENSE)**

These courses are required: Aviation and Transportation 141, 142, 143, 144

*Note*: This program will not qualify for the Associate in Science Degree.

**AVIATION AND TRANSPORTATION — AIRCRAFT AND POWER PLANT MAINTENANCE AND OVERHAUL (FAA POWERPLANT AND AIR FRAME LICENSE)**

This program is designed for those students who wish to complete the work for the "A" and "P" certificates in the shortest possible time. Required courses: Aviation and Transportation 141, 142, 143, 144, 145, 146.
Note: The Associate of Science Degree may be obtained in approximately three years along with the combined “A” and “P” course which requires four semesters by taking additional subjects required for graduation during the last two semesters.

**AVIATION AND TRANSPORTATION PILOT TRAINING**

Training offered in this field:

1. Instruction for those who wish to complete two years of college to become eligible to enter civil aviation as a professional pilot.
2. Basic Pilot Training: Prepares the student for the FAA Private Pilot Airplane written examination for the Private Pilots License. Required course is Aviation and Transportation 120.
3. Advanced Pilot Training: A program designed to give Private Pilots adequate aeronautical knowledge and experience necessary to enter the field as Commercial Pilots with an Instrument Rating as their career. To enter this program, it is required the student satisfactorily complete Aviation and Transportation 120*.

These courses are required: Aviation and Transportation 114, 119, 120, 121, 122, 123, 124, 125, 126, 127.

*Aviation and Transportation 120 may be taken credit by exam.

**BUSINESS — ACCOUNTING**

The accounting curriculum provides comprehensive training for career employment as accountants.

These courses are required: Accounting 101, 102; Business Administration 101, 120; Business—General 140 (2 units); Business—General 101 or 120 or English 101 or English 120; Computer and Information Systems 101 and either 110 or 115; Economics 101, 102; Finance 150; Mathematics 101

Elective units from the following list are recommended: Accounting 120, 150, 160; Business Administration 125, 160; Business—General 110, 150; Computer and Information Systems 115, 140, 170, 180, 185, 190, 210; Cooperative Education 102; Economics 105, 107; Mathematics 111

**BUSINESS — BANKING**

This program is designed for students who are pursuing a career in a financial institution such as a bank, savings and loan, credit union, thrift company or a finance company.

These courses are required: Accounting 101 or 110; Business—General 110 or English 101; Computer and Information Systems 101 or 105; Finance 110, 115, 120, 150

Plus any two of the following: Accounting 102; Business Administration 110, 120; Computer and Information Systems 115; Economics 101

**BUSINESS — BOOKKEEPING**

The bookkeeping curriculum has been designed for students who wish to become bookkeepers in private industry or government service. Students who wish to become public accountants should take the accounting curriculum.

These courses are required: Accounting 101 or 110, 120; Business Administration 101, 120; Business—General 101 or 120 or English 101 or English 120; Business—General 130 (2 units) or Mathematics 101; Business—General 140 (2 units); Computer and Information Systems 101 or 105

Elective units from the following list are recommended: Accounting 150, 160; Business Administration 110; Business—General 105, 110, 135, 150, 160; Computer and Information Systems 110, 140, 150, 210; Finance 140, 150; Marketing 105; Office Administration 200, 205, 210
BUSINESS — DATA PROCESSING

This curriculum is designed for those students interested in business data processing as an occupational area.

These courses are required*: Accounting 101 or 110; Business—General 101**, 110; Computer and Information Systems 101, 110, 140, 145, 180, 185, 190; Mathematics 101 or equivalent.

Elective units from the following list are recommended: Accounting 102; Business Administration 101, 120; Business—General 140; Computer and Information Systems 115, 120, 130, 135, 150, 160, 210; Cooperative Education 102; Economics 107; Mathematics 111, 112; Office Administration 201, 205, 250; Philosophy 117

* Courses taken more than three years before the granting of the certificate must have the approval of the division chairperson for acceptance.

** Or English 120 or English 165 or a satisfactory score on the English Placement Examination.

BUSINESS — ESCROW

This curriculum is designed for either those students who are preparing to serve as escrow processing specialists or those students who are upgrading their skills in that field.

These courses are required: Real Estate 150, 250, 251, 252, 253

Nine units must be chosen from among the following courses: Accounting 101 or 110; Business Administration 101, 120, 125, 160; Business—General 110, 130; Real Estate 101, 120, 130, 140, 160, 161, 190, 275

BUSINESS — GENERAL

The general business curriculum is intended for students who prefer a broad, general education in the field of business administration, or for those who have not decided upon a particular specialization within the field of business.

These courses are required: Accounting 101 or 110; Business Administration 101, 120; Business—General 101 or 120 or English 101 or 120; Business—General 130 (2 units) or Mathematics 101; Computer and Information Systems 101 or 105; Finance 140 or 150; Marketing 110 or 115

Elective units from the following list are recommended: Accounting 102 or 111; Business Administration 125 or 130; Business—General 110, 135, 140, 150; Computer and Information Systems 110; Cooperative Education 102; Economics 105; Marketing 105, 120; Office Administration 200, 260; Real Estate 101

BUSINESS — INSURANCE

Not Offered.

BUSINESS — MANAGEMENT

A training program for supervisors and other group leaders in business and industry.

These courses are required: Management 101 or Business Administration 101; Management 145 or Speech 100 or 101; Management 150 or Business—General 110 or English 101; and 15 units selected from the following courses: Business Administration 120 or 125; Computer and Information Systems 101, 115; Management 110, 115, 120, 125, 130, 135, 140, 155, 160, 165

BUSINESS — MARKETING

This curriculum is designed for those who plan careers in activities such as marketing, marketing research, public relations, selling, retail selling, retail store management, advertising, and a sole proprietorship.
These courses are required: Accounting 101 or 110; Business Administration 101, 120; Business—General 130 (2 units); Computer and Information Systems 101 or 105; Marketing 105, 110, 115, 120; Speech 100

Elective units from the following list are recommended: Accounting 102 or 111; Business—General 101 or 120, 110, 135; Computer and Information Systems 110; Cooperative Education 102; Mathematics 101; Office Administration 200

**BUSINESS — MEDICAL ASSISTANT (ADMINISTRATIVE)**

This curriculum is designed for those students who are preparing to become administrative medical assistants in offices of physicians, medical clinics, hospitals, and allied facilities.

These courses are required: Business Administration 110; Business—General 101 or 120, 105, 110, 130 (2 units), 140(2 units); Office Administration 182, 185, 190, 215 (3 units)

Elective units from the following list are recommended: Accounting 101 or 110; Biology 112, 120 or 121; Business Administration 120 or 130; Business—General 160; Computer and Information Systems 101 or 105; Cooperative Education 102; Family and Consumer Studies 133; Office Administration 195, 230; Sociology 101, 102; Spanish 117

**BUSINESS — MEDICAL TRANSCRIPTIONIST**

This curriculum is designed for those students who are preparing for a position as a medical transcriptionist in offices of physicians, medical clinics, hospitals, and allied facilities.

These courses are required: Business Administration 110; Business—General 101 or 120, 105, 110, 130 (2 units); Office Administration 182, 185, 190, 195, 215 (3 units)

Elective units from the following list are recommended: Accounting 101 or 110; Biology 112, 120 or 121; Business Administration 120 or 130; Business—General 140, 160; Cooperative Education 102; Family and Consumer Studies 133; Office Administration 120, 125, 135 or 140, 230, 245 or 250, 260; Sociology 101, 102; Spanish 117

**BUSINESS — GENERAL OFFICE**

This curriculum is designed for students who wish to prepare for a variety of assignments in a business environment such as commercial, industrial, and financial companies or in government service as clerk typists, department assistants, junior secretaries, accounting clerks, or receptionists.

These courses are required: Accounting 101 or 110; Business Administration 110; Business—General 101**, 105, 110, 130 (2 units), 140 (1 unit); Office Administration 101, 105, 110 (2 units), 201, 205*, 250 (1 unit)

Elective units from the following list are recommended: Business Administration 101, 120 or 130; Business—General 135, 150 or Office Administration 120; Cooperative Education 102; Family and Consumer Studies 133; Marketing 115; Office Administration 225, 230, 250, 255, 260

* Minimum speed requirement of 45 wpm
** or satisfactory score on English Placement Exam

**BUSINESS — OFFICE ASSISTANT (BILINGUAL)**

This curriculum is designed for students who wish to combine multi-language ability with office training to secure employment in offices serving bilingual clients.
These courses are required: Accounting 101 or 110; Business—General 105, 110, 115, 120, 130 (2 units), 140 (1 unit); Office Administration 101, 105, 110 (2 units), 215 (3 units)

Elective units from the following list are recommended: Business Administration 101, 110, 120 or 130; Business—General 135, 150 or Office Administration 120 (4 units); Cooperative Education 102; Family and Consumer Studies 133; Marketing 115; Office Administration 230, 250, 260; Spanish 103, 104, 105, 106, 115, 116

**BUSINESS — REAL ESTATE**

In the Real Estate curriculum, special attention is given to the California License requirements. As of January 1, 1986, (1) A salesperson must take the Real Estate Principles course before taking the state salespersons licensing examination and 2 other courses within 18 months of passing the examination and (2) an applicant for the broker’s license must have taken the eight (8) real estate courses required of the real estate certificate before taking the State Broker Examination.

The following courses are required: Real Estate 101, 120, 130, 140, 150, 160, 190, 250

Recommended courses include the following: Accounting 101 or 110; Business Administration 101, 120, 125, 160; Business—General 130, 160; Business—General 101 or 110 or English 101 or English 102; Economics 101, 102; Finance 140, 150; Marketing 110, 115; Office Administration 205, 210; Real Estate 161, 251, 252, 253, 275

**BUSINESS — SECRETARY, EXECUTIVE**

This curriculum is designed for those students who wish to prepare for positions as professional secretaries in commercial, industrial, and financial companies, as well as in government service.

These courses are required: Business Administration 110; Business—General 105, 110, 130 (2 units); Computer and Information Systems 115; Office Administration 101, 110, 125 (3 units), 140 (2 units)*, 215 (3 units), 250 (1 unit), 260

Elective units from the following list are recommended: Accounting 101 or 110; Business Administration 101, 120, 125 or 130; Business—General 135, 140, 160; Computer and Information Systems 101 or 105; Cooperative Education 102; Economics 105; Family and Consumer Studies 133; Finance 140, 150; Office Administration 130, 135 or 140, 230, 250, 252, 255

* Or minimum speed requirement of 80 wpm.

**BUSINESS — SECRETARY, GENERAL**

This curriculum is planned for students who wish to prepare for positions as secretaries in any of the major fields of business or government services.

These courses are required: Business Administration 110; Business—General 101, 105, 110, 130 (2 units), 140 (1 unit); Office Administration 101, 105, 110, 120* or Business—General 150, 210, 250 (1 unit), 260

Elective units from the following list are recommended: Accounting 101 or 110; Business Administration 101, 120 or 130; Business—General 135, 160; Computer and Information Systems 101 or 105, 115; Cooperative Education 102; Family and Consumer Studies 133; Office Administration 125, 130, 135 or 140, 210, 230, 250

*Minimum speed requirement of 70 wpm.
BUSINESS — SECRETARY, LEGAL

This curriculum is designed for those students who are preparing for a secretarial position in a law firm, in a legal department in business, or in government organizations.

These courses are required: Business Administration 110; Business—General 101*, 105, 110, 130 (2 units); Computer and Information Systems 115; Office Administration 101, 110, 162, 215**, 250, 255

Note: Shorthand is encouraged as a useful tool for a Legal Secretarial Certificate candidate. The student who wishes to learn shorthand should enroll in Office Administration 120, 125, and 130 or Business General 150. Students who wish to review and improve existing shorthand skills should enroll in Office Administration 140. The Legal Secretarial Certificate will not be awarded unless a typing speed of 60 WPM is attained.

* or a satisfactory score on the English Placement Exam

**Prerequisite requirements of Office Administration 205 and 210 may have been completed in high school.

BUSINESS — SECRETARY, MEDICAL

This curriculum is designed for those students who are preparing for a secretarial position in offices of physicians, medical clinics, hospitals, and allied facilities.

These courses are required: Business Administration 110; Business—General 101 or 120, 105, 110; Office Administration 110, 125 (3 units), 140 (1 unit)*, 182, 185, 190, 215 (3 units)

Elective units from the following list are recommended: Accounting 101 or 110; Biology 112, 120 or 121; Business Administration 120 or 130; Business—General 130, 140; Computer and Information Systems 101 or 105; Cooperative Education 102; Family and Consumer Studies 133; Finance 161; Office Administration 130, 135 or 140, 195, 230, 250; Psychology 101; Sociology 101, 102; Spanish 117

*Minimum speed requirement of 80 wpm.

BUSINESS — WORD PROCESSING SPECIALIST

This curriculum is designed for those students who are preparing for a position to enter the office occupational field of word processing.

These courses are required: Business Administration 110, 101 or Office Administration 162; Business—General 101*, 105, 110; Office Administration 101, 110, 215 (3 units), 250 (2 Units), 255 (2 units), 260

Elective units from the following list are recommended: Accounting 101 or 110; Business Administration 120 or 130; Business—General 130; Computer and Information Systems 101, 110, 115; Cooperative Education 102; Family and Consumer Studies 133; Office Administration 162, 230, 252, 280

* or a satisfactory score on the English Placement Exam

CERAMICS

This certificate is designed for those students wishing to prepare for employment in the commercial ceramic industry as lab technicians. Emphasis in the coursework is on job-related skills such as production forming techniques, glaze formulation and application, patterning and decorating techniques, and kiln loading and firing. The program is also well suited for those desiring to set up their own production studios to work as independent artists.

These courses are required: Art 130, 138, 150, 186, 187, 188, 190, 191, 192; Accounting 110; Chemistry 110 or 143; Photography 107

These courses are recommended: Art 101, 102, 180, 189, 192, 195
CHILD DEVELOPMENT/TEACHING

The Child Development/Teaching curriculum is designed to prepare students to teach in nursery school, Head Start Child Development Centers, preschool classes and day care centers. Three options are presented — Infant/Toddler, Nursery School and School Age Extended Care based on the same core classes (Family and Consumer Studies 135, 140, 142, 155).

Child Development/Teaching Nursery School

These courses are required: Family and Consumer Studies 135, 138, 140, 141, 142, 151, 152, 155; Cooperative Education 102 (1 unit); English 127

A minimum of 3 units must be selected from the following: Family and Consumer Studies 143; Health 109

Child Development/Teaching — Infant Toddler

These courses are required: Family and Consumer Studies 135, 138, 140, 141, 142, 147, 155; English 127; Cooperative Education 102 (1 unit)

A minimum of 6 units must be selected from the following: Family and Consumer Studies 143, 151, 152

Child Development/Teaching — School Age Extended Care

These courses are required: Family and Consumer Studies 135, 136, 137, 140, 141, 142, 155; Cooperative Education 102 (1 unit); English 127

A minimum of 3 units must be selected from the following: Family and Consumer Studies 138, 143, 151, 152; Health 109

CHOREOGRAPHIC STUDIES AND DANCE TECHNIQUE

The curriculum is designed for those students who plan careers in Commercial and Concert Dance.

The following courses are required (18 units): Dance 176, 177, 179, 180, 181, 182, 184, 185, 187, 188, 193

Select a minimum of 6 units from the following elective courses: Art 102, 125, 130; Dance 164, 178, 183, 186, 191, 194; Health 110; Humanities 117, 120; Music 101, 130, 132, 135, 170; Physical Education 294; Theatre Arts 101, 103, 104, 109, 123, 134

COMPUTER SCIENCE

This program is designed for those students interested in scientific programming as an occupational area. Students planning to enter this field should have a knowledge of scientific or micro computer programming languages, basic electronics, and computer mathematics.

These courses are required: Computer and Information Systems 101, 110, 130, and Computer and Information Systems 150 or Mathematics 130; Computer and Information Systems 160, 190; Electronics and Computer Technology 101 and 102 or 110; Mathematics 111.

Elective units from the following list are recommended: Business—General 101 or 110 or English 120 or 131; Computer and Information Systems 120, 135; Cooperative Education 102; Economics 107; Mathematics 103 or 112

COMPUTER SOFTWARE TECHNICIAN

This program is designed to train students to meet the rapidly growing need for qualified hardware/software design technicians, having a blend of hardware skills and software skills.
These courses are required: Computer and Information Systems 101, 110, 120, and either 130 or 150 or 160 or Mathematics 130; Electronics and Computer Technology 103, 104, 203, and 110*

These courses are recommended: Business Administration 110; Business—General 110, Computer and Information Systems 135, 140, 145; English 131; Electronics and Computer Technology 201, 204; Mathematics 128; Office Administration 201; Speech 100.

*or Electronic and Computer Technology 101 or 102

**Cosmetology**

Glendale Community College has contracted with a Glendale beauty college for the provision of cosmetology instruction to registered Glendale Community College men and women students. The completion of Cosmetology 111, 112, 113, and 114 provides 1,600 hours of theory and practice required by the State of California Cosmetology Act and by the Board of Cosmetology for licensing as a Cosmetologist. The 1,600 hours may be completed in four semesters; or a combination of three semesters and one ten-week summer session; or a combination of two semesters and two ten-week summer sessions.

These courses are required: Cosmetology 111, 112, 113, 114
Recommended elective: Cooperative Education 102, English 131

**Dietary Service Supervisor**

These courses are required: Food and Nutrition Studies 111, 113, 116; Cooperative Education 102; Family and Consumer Studies 125; Management 110

A minimum of four units must be chosen from the following recommended courses: English 164, 191; Business-General 130; Food and Nutrition Studies 112, 117, 118, 119; Food Service Management 203, 207; Management 115

**Drafting/Electro-Mechanical Design**

This course of study provides basic and advanced training in Technical Drawing and Design with an emphasis on electro-mechanical design. ANSI Y 14.5 and other military standards are presented along with computer aided drafting and design (CADDAM).

These courses are required: Drafting 131, 132, 133, 134, 141 (CADDAM); Engineering 103; Technical Education 140, 142, 143, 145; Metallurgy 150; Materials and Processes 146.

Elective units from the following list are recommended: Electronics and Computer Technology 110; Machine Technology 101; Welding 121

**Electronics and Computer Technology**

This certificate program is designed to prepare the student for entry, as a technician, into the career area of industrial electronics and computer technology.

These courses are required: Drafting 130; Electronics and Computer Technology 100, 101, 102, 103, 104, 112, 201, 203; Guidance 195; Technical Education 140 or equivalent.

Select a minimum of 12 units from the following elective courses: Aviation and Transportation 103; Computer and Information Systems 150; Drafting 129, 133, 140; Electronics and Computer Technology 202, 204, 205; Engineering 101, 103; Independent Study 149 (ECT Lab)(Maximum of 2 units); Mathematics 130; *Technical Education 142, 143, 145, 146

*Note: Up to 6 General Education units may be substituted for equivalent Technical Education courses.
ENGINEERING (See DRAFTING/ELECTRO-MECHANICAL DESIGN)

FASHION DESIGN
Fashion Design is a program designed for those students interested in fashion design as a career. Courses offered include training as pattern makers, designers, layout workers, sample makers, drapers, fitters and cutters, and includes knowledge of textile merchandise and selling techniques of fashion goods.

These courses are required: Fashion 100, 103, 104, 105, 106, 107, 108, 109, 123, 125; Family and Consumer Studies 105, 133.

Elective units from the following list are recommended: Art 130; Business—General 101; Cooperative Education 102; English 131; Family and Consumer Studies 101; Theatre Arts 123.

FIRE TECHNOLOGY
These courses are required (3 units in each course): Fire Technology 101, 103, 104; English 131; Administration of Justice 117 or Psychology 140

In addition, a minimum of 12 units must be selected from the following: Fire Technology 105, 107, 108, 109, 110, 111, 112, 114, 151

The following courses are recommended: Administration of Justice 101, 103, 120; Speech 101

FOOD SERVICE MANAGEMENT
This course of study provides basic and advanced training designed to prepare students for employment in various positions in the food service industry.

These courses are required: Family and Consumer Studies 125; Food and Nutrition Studies 111, 112, 113, 116, 117, either 120 or 122; Food Service Management 201, 203, 207, 214.

Elective Units from the following are recommended: Cooperative Education 102; Family and Consumer Studies 110; English 131; Food and Nutrition Studies 112, 118, 120; Management 101; Psychology 101.

JOURNALISM
These courses are required: English 101, 102, 105, 106; Journalism 102, 103, 104

A minimum of three units must be selected from the following: Economics 101; History 107, 108, 109, 110; Political Science 101

Recommended electives: Cooperative Education 102, Journalism 106

LIBRARY ASSISTANT
This program is for the student who wishes to prepare for work as a clerical assistant in a library of a college, high school, or public or private agency. Students wishing to become professional librarians should follow the Librarianship transfer curriculum.

These courses are required: Art 101 or 102; Biology 122; Business—General 130 or Mathematics 151; English 101; History 110 or 117-118 or Social Science 131-132; Office Administration 210; Physical Science 131; Psychology 101 or 110; and practical experience as a student assistant in the Technical Services Department of the Glendale Community College Library, under the direction of the technical services librarian, for two semesters.

* A satisfactory score on the Mathematics Proficiency Examination may be substituted.

MANAGEMENT (See BUSINESS)
Machine Technology (Machinist)
These courses are required: Drafting 129; Machine Technology 101, 102, 103, 104, 111; Technical Education 147; Materials and Processes 146; Metallurgy 150.
Elective units from the following list are recommended: Cooperative Education 102; English 131, 132; Machine Technology 109, 112; Mathematics 151; Technical Education 142 or equivalent; Technical Education 145; Welding 117, 118

Manufacturing Technology
Students seeking careers in manufacturing engineering, tool engineering, or tool design at the professional level should investigate this training program.
These courses are required: English 101 or 120 or 191; Machine Technology 101, 102, 103, 111; Mathematics 103, 104; Metallurgy 150; Physics 105, 106; Speech 101; Technical Education 147
Elective units from the following list are recommended: Chemistry 101; Cooperative Education 102; Economics 101; History 110; Machine Technology 104, 109, 112; Political Science 101; Psychology 101

Music
This curriculum provides basic and advanced training in music. The courses are divided into four categories: core classes, applied music classes, performing ensembles, and electives.
Core Classes (9 units are required):
  Music 101, 102, 104, 105, 106, 107, 108, 109, 120 or 125, 126, 128
Applied Music Classes (6 units are required, 2 units from each of the following groups):
1. Music 135, 136, 137, 156, 157, 158, 159
2. Music 138
3. Music 160, 161, 162, 163
Performing Ensembles (6 units are required):
  Music 131, 132, 133, 134, 141, 151, 165 (2 units maximum of 165)
Electives (3 units are required):
  Music 110, 128, 143, 165, 168, 169, 170, 171, 175, 210, 211, 212, 213
Please see the Music Department Chairperson for intradepartmental requirements such as recital participation and concert attendance policy.

Nursing

Registered Nursing Career Ladder Program
I. Advanced Placement Programs
Glendale Community College offers two advanced placement programs for LVN's seeking to advance to the R.N. level.
PLAN A — Qualifies the student for:
—Associate degree from Glendale Community College
—Writing the licensing examination to become an R.N.
—Recognition for having completed an accredited R.N. program
—Recognition as a Glendale Community College R.N. graduate with all the associated rights and privileges there of
—Licensure by endorsement in all other states
PLAN B — Qualifies the student to meet the Board of Registered Nursing requirements for taking the licensing examination only by requiring 30 units of nursing and science. The student who elects to take this program is not:
—Recognized as a graduate of an accredited R.N. program
—Recognized as Glendale Community College R.N. graduate
—Qualified for licensure by endorsement in every state

II. ADN GENERIC PROGRAM
Qualifies the student for:
—Associate degree from Glendale Community College
—Writing the licensing examination to become an R.N.
—Recognition for having completed an accredited R.N. program
—Recognition as a Glendale Community College R.N. graduate with all the
  associated rights and privileges there of
—Licensure by endorsement in all other states

A. ADMISSION REQUIREMENTS

PLAN A
Completion of an accredited VN program or equivalent
Completion of the following courses with a grade of “C” or better:
  English 101; Biology 112, 120, 121; Humanities Course; Psychology 101;
  Speech 100 or 101 or 103
Take NLN standardized tests in nursing
Take the Comparative Guidance and Placement Examination

PLAN B — 30 Unit Option
Completion of an accredited VN program or equivalent
Completion of the following courses with a grade of “C” or better:
  Human Physiology; Microbiology
Take NLN Standardized tests in nursing
Take Comparative Guidance and Placement Examination

ADN GENERIC PROGRAM
Take NLN standardized tests in nursing
Take the Comparative Guidance and Placement Examination
Completion of the following courses with a grade of “C” or better:
  Human Anatomy; Human Physiology and Microbiology; *English 101;
  *Humanities Course; *Psychology 101; *Speech 100 or 101 or 103.

* These courses may be taken concurrently with the first year nursing courses.

B. COURSE REQUIREMENTS

1. ASSOCIATED DEGREE
Any course or courses satisfying the American History, American
  Institutions, and State and Local Government requirements. Mathematics
proficiency is required (see Index for graduation requirements).
Note: A student may write the California State Board Examination prior
to completion of course requirements for Associate degree. (Students
should consult counselor for information regarding state license.)

2. CERTIFICATE
  a. PLAN A
     Allied Health 233, 234, 240, 245
  b. PLAN B — (30 unit option)
     Allied Health 233, 234, 240, 245
  c. ADN GENERIC PROGRAM

C. TRANSFER AND CHALLENGE POLICY/PROCEDURE
Students with prior educational experience in health care acquired within
the last five years, will be provided opportunity to obtain credit.

1. Transfer:
  a. Transfer credit is given for equivalent courses required by this
program taken at any accredited college, university or nursing school in which a grade of "C" or better has been received.

2. Credit by Examination:
   a. Students wishing to challenge courses approved for credit by examination must follow the procedure as outlined in the college catalog under Credit by Examination.
   b. The maximum allowable number of credit by examination units with a grade of "CR" that may be applied toward graduation requirements shall be limited to 12 units.
   c. Challenge examinations for the following nursing courses have a theory test (written): Allied Health 101, 103, 105, 107, 112, 113, 114, 116 and 118. A theory test must be passed with a grade of "C" or better in order to receive credit.
   d. Challenge examinations for the following nursing clinical courses have a performance test (practicum): Allied Health 108, 122, and 123. Clinical practicum must be passed with 100% accuracy according to provided performance checklist.
   e. Challenge examinations for the following nursing courses have a theory test (written) and a performance test (practicum): Allied Health 233, 234, 240 and 245.
   f. Students may challenge a course only once.
   g. Only those students currently enrolled in the program may request credit by examination.

3. CREDIT FOR GRADUATES OF DIPLOMA SCHOOLS
   a. Thirty (30) semester units of credit will be granted to graduates of Diploma Schools of Nursing under the following conditions:
      1. The student has a valid current California Certificate as a licensed registered nurse obtained by examination or on the basis of reciprocity with another state.
      2. The student has completed at least 12 units of credit with "C" or better average at Glendale Community College.
   b. Candidates for the Associate of Arts or Science degree are exempt from Health Education and Physical Education as general education requirements.
   c. Candidates may take additional nursing courses for credit only upon approval of the Allied Health Department.

4. CREDIT FOR COURSES COMPLETED AT HOSPITAL BASED INSTITUTIONS
   Students transferring from Hospital Based Institutions must complete thirty (30) units with a "C" or better grade point average at Glendale Community College before they can apply for a maximum of 15 units of transfer credit.

VOCATIONAL NURSING
Vocational nursing is a twelve month program. Satisfactory completion of the program, with a grade of "C" or better, leads to the Glendale College Vocational Nursing Pin and Certificate, and to the California State Board Examinations in Vocational Nursing.
   These courses are required: Allied Health 101, 103, 105, 107, 108, 112, 113, 114, 116, 118, 122, 123; Psychology 101, 106

TRANSFER AND CHALLENGE POLICY
See RN Transfer Challenge Policy above.
Office Work (See Business Certificate Programs)

Photography
These courses are required: Art 130; Photography 101, 102, 103, 105, 107, 108
Elective units from the following list are recommended: Art 134, 138, 150; Chemistry
143; Cooperative Education 102; English 101, 102; Journalism 101; Social Science
131-132

Real Estate (See Business)

Recreation Leadership
These courses are required: Health 101, 104, 107, 110; Physical Education 120;
Recreation Leadership 109
A minimum of 13 units must be selected from the following: Administration of
Justice 101 or 118; Art 101 or 102 or 112; Biology 121, 122; Music 120, 130 or
131; Psychology 101 or 110; Speech 101
Recommended electives: Cooperative Education 102; Physical Education 124, 125,
126, and additional courses in basketball, dance, soccer, softball, tennis, and volleyball.

Technical Graphics and Design
Technical Graphics and Design is a visual communication process of preparing art
work for the existing industrial standards. This curriculum is designed to prepare students
to execute technical illustrations, pictorial renderings, drawings, brochures, and
publications.
The following courses are required: Graphics and Design 165 (or Architecture 101;
Drafting 131; Engineering 101), 166, 167, 168; Technical Education 140
A minimum of 10 units must be selected from the following: Architecture 103,
105; Art 141, 152, 160, 203; Drafting 141; Electronics and Computer Technology
110; Engineering 103; Graphics and Design 169, 170, 171, 172, 177, 178; Photography
101, 102; Technical Education 142, 145, 147
Recommended electives: Art 132, 138, 142, 144, 185, 186; Computer and Information
Systems 101, 110; Cooperative Education 102; Graphics and Design 173; Machine
Technology 107; Materials and Processes 146; Office Administration 205; Technical
Education 143; Welding 117

Theatre Arts — General Certificate
These courses are required: English 101 or 120; Speech 101; Theatre Arts 102, 103,
105, 109, 121, 123, and 131
Elective units from the following list are recommended: Art 101, 102, 130, 131,
152; English 102, 115, 120, 121, 125, 126; Humanities 117; Dance 181, 182, 186;
Speech 105; Theatre Arts 101, 104, 110, 122, 134

Welding, Occupational (Combination Welder)
Occupational welding is a two-year program designed to prepare the student for entry
into the welding field as a combination welder, skilled in metallic arc, tungsten inert
gas, flux cored wire, metal inert gas welding, plasma arc cutting, oxy-fuel welding,
cutting and brazing of common metals. The emphasis will be on obtaining a welding
certification at the completion of the required courses.
These courses are required: Drafting 129; Technical Education 147; Welding 121,
122, 123, 124, 125 (1 unit); Metallurgy 150
Elective units from the following list are recommended: English 131, 132; Machine Technology 101 or 105; Materials and Processes 146; Mathematics 151; Technical Education 142; Welding 125
TRANSFER PROGRAMS

Transfer Programs are for students planning to transfer to a university or a four-year college with full junior standing. Students planning to transfer with junior standing may, with thoughtful planning, complete the graduation requirements for the Associate in Arts Degree* by taking courses in the lower division which will also satisfy the Baccalaureate Degree requirements.

Courses listed acceptable for the upper division major and the lower division General Education Requirement are sent to the transfer institutions for verification.

All art courses were re-numbered effective Fall, 1986. Not all college and universities have updated the articulation agreements relating to the re-numbering of the art courses as of this printing of the 1987-1988 edition of the catalog. Prior to taking an art course for General Education it is recommended that the acceptability of the course be verified with the Office of School Relations at the college or university to which transfer is being anticipated.

The lower division requirements of colleges of most frequent transfer are printed under General Education Requirements For Graduation From Colleges and Universities in the section of this Catalog describing programs for transfer students.

*See Graduation Requirements.

ADMINISTRATION OF JUSTICE (SEE CRIMINAL JUSTICE)

AERONAUTICS (BACCALAUREATE MAJORS)

San Jose State University

The curricula for the Bachelor of Science degree program in Aeronautics have been designed to prepare the graduate for a wide range of positions in the aerospace industry. Students receive training in the fundamentals of aviation along with mathematics, science and education courses especially chosen for their applicability to the aerospace field. Specialization is in the form of the two concentrations: Aeronautical Maintenance and Aeronautical Operations. Additional orientation towards such areas as space technology, commercial air transportation, or general aviation may be obtained by a proper selection of elective courses. The services of the advisor are available for this purpose.

A Federal Aviation Administration approved school is operated as an integral part of the aeronautics curriculum and extensive laboratory facilities are available to all students.

Students electing the Aeronautical Maintenance concentration, and those in the Operations concentration electing the Maintenance management option, are required to obtain their airframe and powerplant certificates as part of the degree requirements. Transfer students should begin the airframe and power plant program as soon as admitted to SJSU.

Required courses — Maintenance: Aviation and Transportation 120, 123, 126, 141, 142, 143, 145, 146; Chemistry 101; Engineering 103, 104; Speech 101; Physics 101, 102, 103; Mathematics 103, 104, 130.

Required courses — Operations: Accounting 101, 102; Aviation and Transportation 120, 123, 126, 141, 142, 143, 145, 146; Business Administration 120; Chemistry 101, 102; Computer and Information Systems 110; Economics 101, 102, 107; Engineering 104; Mathematics 112; Physics 105, 106; Speech 101
Northrop University
Students in the Federal Aviation Administration-approved Airframe and Powerplant Maintenance course offered at Glendale Community College can receive up to 87 quarter units of transferable credit to apply directly towards a Bachelor of Science degree in Engineering Technology.

The Engineering Technology program is designed to give the student an engineering background which is more hardware-oriented. Students build a practical educational foundation in mathematics and basic sciences without the rigor of the engineering curriculum. Additional exposure is given to the technical studies, design, drafting, communications, and the socio-humanistic courses.

AGRICULTURE

California Polytechnic State University, San Luis Obispo
Agriculture students would find it advantageous to have completed the following courses in high school: mathematics, including two years of algebra; chemistry, 1 unit; biology, 1 unit; vocational agriculture (if available), two years. Such high school preparation would serve to enhance the students' preparation for all agriculture majors. In the first two years of college, students should include in their course of study the following: Chemistry 101, 105; English 101, 102; History 110; Political Science 101; Mathematics 100, 102; Health 104. Recommended: Biology 137; Psychology 101; Speech 101; Welding 117.

AGRICULTURAL ENGINEERING (SEE ENGINEERING)

ARCHITECTURE, ARCHITECTURAL ENGINEERING, CONSTRUCTION

California State Polytechnic University, Pomona
Students planning to enter the Landscape Architecture Department at Cal Poly Pomona should note that the following courses are articulated with Glendale College: Core and Support Classes—Art 150. General Education—English 101 and 102; Chemistry 120; Biology 101 and 102; Psychology 101; Political Science 105 or Social Science 126; History 118 or Social Science 125.

Students planning to enter the Architecture Department at Cal Poly Pomona should note that the following courses are articulated with Glendale College: General Education—English 101, 102; Mathematics 102; Physics 105 or 105 and 106; Biology 101 and 102: Philosophy 101; Economics 102; Sociology 101; Psychology 101; Political Science 105 or Social Science 126; History 118 or Social Science 125.

Additional information may be found in the Cooperative Curriculum Major Sheet available in the Glendale College Counseling Office.

California State Polytechnic University, San Luis Obispo
Students planning to enter the School of Architecture and Environmental Design are encouraged to include the following course work in their programs: Economics 105; English 101, 102; History 110; Philosophy 117; Political Science 101; Psychology 101; Speech 101; and a life science elective.

In addition, the courses shown under each of the following majors are recommended:
Architecture: Architecture 101, 102, 103, 105; Art 150; Mathematics 103, 104; Physics 101, 102.
Architectural Engineering: Architecture 101, 103, 105; Art 150; Mathematics 103, 104, 105, 108; Physics 101, 102, 103.
City and Regional Planning: Architecture 103, 105; Art 150; Biology 122; Computer and Information Systems 110*; Geography 101; Geology 102.
Construction Management: Architecture 101, 102; Business Administration 120; Computer and Information Systems 110*; Mathematics 103, 104; Physics 101, 102.
Landscape Architecture: Architecture 105 Biology 101, 137; Computer and Information Systems 110*; Mathematics 110.*CIS 110 does not articulate directly with required Cal Poly computer courses (exception CSC 110)

Woodbury University
Glendale Community College students who plan to pursue a Bachelor of Architecture degree should complete the following courses prior to transferring to Woodbury University: Architecture 101 or 102, 105; Art 120, 121, 130, 138, 150, 151; Business Administration 120; Computer and Information Systems 115; Drafting 141; Management 165 Mathematics 100, 101; Physics 105, 106.

ART

California State University, Long Beach
The following courses are required for the Art major (Bachelor of Arts degree): Art 101-102, 130, 131, 138, 150, 151, 152, 153, 160 161.

California State University, Los Angeles
The Bachelor of Arts degree in Art offers a choice among several options: Ceramics, Metals, and Textiles; Design; Painting, Sculpture, and Graphics Arts; Single Subject Credential; Art History (The Art History option has its own core and specialization; all other options include a common core).
Required core for all options (except Art History): Art 101-102; 130, 131, 150; 152 or 153; 160. Electives (select 2): Art 186-187 or 190, 204; Photography 101-102.
Art History Option: Art 101-102, 130; 150; 152 or 153. Select 2 courses from the following: Art 131; 160; 186 and 187 or 190; Computer and Information Systems 105; 101 and 110; 150
Students planning graduate work in Art are encouraged to complete French 101-102 or German 101-102.

BIOLOGICAL SCIENCE

University of California, Irvine
Students planning to major in Biological Science will take the following acceptable transfer courses: Biology 101-102; Chemistry 101-102, 105-106; English 101-102; Mathematics 103*-104 or Mathematics 103* and Economics 107* or Political Science 107* or Psychology 107* or Sociology 107*; Physics 105*-106* or Physics 101*-102*
Concentration in Ecology and Environmental Biology
Students should take the following: Biology 101-102; Chemistry 101-102, 105-106; Computer and Information Systems 110* and 120*, or 130*, Mathematics 103*; Physics
101*-102* or 105*-106*; English 101-102 and any two/courses from one area of the above in English Literature, History or Philosophy.

*Credit limit—Please see University of California Transfer List.

**California State University, Long Beach**

The following courses are required for the Biology major (Bachelor of Arts): Biology 101, 102, 112; Chemistry 101, 102; Mathematics 100, 112; Physics 105, 106.

**California State University, Los Angeles**

The following courses are required for the major: Biology 101, 102; Chemistry 101, 102, 103; Mathematics 103; Physics 105, 106.

Recommended: One year of a foreign language (Course 101-102)

The completion of the following courses is required for the Microbiology major:

Biology 101, 102, 112; Chemistry 101, 102, 103; Mathematics 100, 102; Physics 105*, 106*

**California State University, Northridge**

Biology 101, 102, Chemistry 101, 102; Physics 105-106 and courses to fulfill requirements in one of the following options:

- Option I, General Biology: Add Biology 121, Mathematics 103
- Option II, Environmental Biology: Chemistry 105-106 and Mathematics 103-104
- Option III, Cellular and Molecular Option: Add Mathematics 103-104
- Option IV, Medical Tech Option: Add Chemistry 103
- Option V, Microbiology Option: Add Mathematics 103-104

*Physics 105, 106 are not required, but recommended for the Environmental Biology option.

**Business Administration**

**University of California, Berkeley**

A student transferring from a community college must have completed a program of study which includes the following prerequisite courses: (These courses must be taken for letter grades.)

- Accounting 101-102; Computer and Information Systems 101 and 110 or 101 and 150 or 140; Economics 101-102, 107; English 101-102; Mathematics 103-104.
- Foreign Language: 3 years of one high school foreign language with grades of "C" or better; or completion of college courses equivalent to the third year in a foreign language as taught at Berkeley (2 semesters).
- Required Breadth Courses: Applicants must have completed at least six (6) or more breadth requirements. These include one (1) additional English, two (2) behavioral sciences, two (2) natural sciences, three (3) social sciences and two (2) foreign culture courses. These courses are in addition to the above prerequisites.

**University of California, Irvine**

To be eligible for the minor in Management, a student must complete the prerequisite courses listed below with a grade of "C" or higher. In addition, students must complete Management 5 at UCI prior to enrollment in the upper-division management courses. The following courses are required: Economics 101-102; English 101-102; Mathematics 103, 112 or Economics 107 or Political Science 107 or Psychology 107 or Sociology 107; Psychology 101 or Sociology 101 or Political Science 101 or 102. Students who elect to complete the Minor in Management Studies must declare a major in another subject.
University of California, Riverside
The following courses are required for the Business Administration major: Accounting 101, 102; Computer and Information Systems 130; Economics 101, 102; Mathematics 103 and 104. See index for University of California, Riverside General Education requirements.

California State University, Chico
Recommended course preparation for the major: Accounting 101, 102; Business Administration 120; Economics 101, 102; Mathematics 111, 112; Speech 101.

California State University, Fresno
Students planning to enter the School of Business, California State University, Fresno, at the end of two years at Glendale Community College must complete a minimum of 56 transferable units and a maximum of 70 units, with an overall "C" average in all work. If possible, the general education requirements should be certified. The following Glendale Community College courses are highly recommended: Accounting 101, 102; Business Administration 120; Computer and Information Systems 101; Economics 101, 102, and 107; Mathematics 111.

California State University, Long Beach
The lower division requirements for the B.S. degree in the School of Business Administration are: Accounting 101-102; Business Administration 120; Economics 101, 102; Mathematics 111-112; Philosophy 116 or 117.

California State University, Los Angeles
Students planning to enter the School of Business and Economics for the baccalaureate in Business Administration at California State University, Los Angeles at the end of two years at Glendale Community College, must complete a minimum of 56 transferable units and may have a maximum of 70 units, with an overall "C" average in all transferable work. Courses should be included to satisfy the lower division core requirements for the major. The following courses are required: Accounting 101-102; Business Administration 120; Computer and Information Systems 101, and either Computer and Information Systems 110 or 150; Economics 101-102, 107; Mathematics 112. See index for General Education requirements for California State University, Los Angeles.

Management Science: Accounting 101-102; Business Administration 120; Computer and Information Systems 101 and either 110 or 150; Economics 101-102, 107; Mathematics 103-104, 107-108; Philosophy 117

B.S., Business Education: Accounting 101, 102; Business Administration 120; Computer and Information Systems 101 and either 110 or 150; Economics 101, 102, 107

California State University, Northridge
The lower division requirements for the various departments in the School of Business at California State University, Northridge are: Accounting 101, 102; Business Administration 120; Computer and Information Systems 101 with 110 (or 115); Economics 101, 102; Mathematics 103 or 112.

Students planning to specialize in Office Administration or to prepare for teaching Business subjects in high school should consult the California State University, Northridge catalog and a Glendale Community College counselor for selection of appropriate additional courses in typing, shorthand, and office machines.
See index for the General Education Requirements for California State University, Northridge.

San Diego State University
Required lower division preparation: Business Administration 120; Business General 110; Computer and Information Systems 101 and 110; Economics 101, 102, 107; Mathematics 112
In addition: Accounting majors—Accounting 101 and 102; Information Systems majors—Computer and Information Systems 140

Loyola Marymount University
Transfer students are admitted each semester, Fall and Spring. 30 units of completed transferable work and a GPA of 3.0 or higher is recommended for the College of Business Administration. Students must complete intermediate algebra before applying to the College of Business.

General Education Requirements for the College of Business Administration:
COMMUNICATION SKILLS (6 units)—English 101 (required); Speech 101 or 102
BEHAVIORAL SCIENCE (3 units)—Anthropology 102, Psychology 101; Sociology 101
FINE ARTS (3 units)—Art 101, 102; Music 101, 120; Theatre Arts 101, 102, 103
HISTORY (6 units)—History 102, 109 (3 units); History 104, 118, 120
LITERATURE (3 units)—English 102, 109, 110, 126
SCIENCE (3 units)—See Liberal Arts Articulation
SOCIAL SCIENCE (6 units)—Economics 101 and 102
Transfer students who have completed two years of transferable college work are required to take one course in Theology and Philosophy at the upper division level.

Business Requirements: Accounting 101, 102; Business Administration 120; Computer and Information Systems 101; Economics 107; Mathematics 111, 112

Northrop University
The four-year Management Curriculum is designed to serve the needs of business and government for qualified management personnel. Students planning on continuing their education into this management curriculum can take the following courses for maximum transfer credit: Accounting 101, 102; Business Administration 120; Business—General 110; Chemistry 101; Computer and Information Systems 101, 140, 180, 185, 190; Economics 101, 102; English 101, 102; History 107, 108, 109, 110 (US History required) Marketing 105; Mathematics 111, 112; Physics 101; Psychology 101

Pepperdine University
Seaver College Business Administration lower division required courses: Accounting 101, 102; Computer and Information Systems 110, 120, 130, 140 or 150; Economics 101, 102; Mathematics 111, 112

University of Southern California
Historically, a GPA of 3.0 and above for transfer students is considered competitive for admission. All students are expected to complete 60 non-business units plus Introductory Accounting before enrolling in upper division classes. Transfer students may meet individual subject requirements with 3 unit courses; however additional non-business elective courses must be taken to complete the required 60 units of non-business classes. The School of Business has revised its general education
requirements to coordinate with the College of Letters, Arts and Sciences. Requirements for all students who begin their college careers (whether at USC or another institution) in fall, 1983 and thereafter must meet the following requirements:

*Accounting 101, 102
*Business 120, 125
*Economics 101, 102
*English 101, 102
*Mathematics 110, 112
**Natural World: Two courses, one from List A and one from List B#
**Empirical Approaches: One course (Students considering accounting are advised to take Psychology 101)
**Non-Western Cultures: One course
**Aesthetic Approaches—Literature; One course
A total of two courses from the following five categories:
**American Public Life;
**Foundations of Western Culture I;
**Foundations of Western Culture II;
**Aesthetic Approaches: the Arts;
**Ethical Approaches (students considering accounting are advised to take Philosophy 116)

Additional non-business electives to make a total of 60 units. (Students considering accounting are advised to take Philosophy 117 and Speech 101).

*Courses must be taken for a letter grade.
**See USC’s General Education agreement for course numbers.
#Students entering college fall 1986 and thereafter will be required to take two courses, one each from two of the following categories: Earth Sciences, Life Sciences & Physical Sciences.

**Woodbury University**

Glendale Community College students may complete a number of their lower division requirements established by the Woodbury University Faculty for academic majors in Accounting (leading to preparation for the C.P.A. examination); Business Administration; Fashion Marketing; Finance: International Business; Management; or Marketing. Students planning for career training in these areas should complete the Glendale Community College courses listed below, prior to transferring to Woodbury.

**Accounting Major:** Accounting 101, 102, 150, 160; Business Administration 120; Computer and Information Systems 101, 105, 110, 140; Economics 101, 102, 107; Mathematics 100, 101, 103

**Business Administration Major:**

I. ACCOUNTING Concentration: Accounting 101, 102, 150, 160; Business Administration 101*, 120; Computer Information Services 101, 105; Economics 101, 102, 107; Management 120*; Marketing 105; Mathematics 101, 120

II. BUSINESS MANAGEMENT Concentration: Accounting 101, 102; Business Administration 101*, 110, 120; Computer Information Services 101, 105; Economics 101, 102, 107; Management 115; 120*, 150; Marketing 105; Mathematics 101

III. HUMAN RESOURCES MANAGEMENT Concentration: Accounting 101, 102; Business Administration 101*, 110, 120; Computer Information Systems 101, 105; Economics 101, 102, 107; Management 115, 120*; Marketing 105; Mathematics 101; Psychology 101; Sociology 101

*either BSAD 101 or MGMT 120
Fashion Marketing Major: Accounting 101; Business Administration 101*, 110, 120; Computer and Information Systems 115; Economics 101, 102, 107; Management 120*; Marketing 105, 110, 115, 120; Mathematics 101

Finance Major: Accounting 101, 102; Business Administration 101*, 120; Computer and Information Systems 101, 105; Economics 101, 102, 107; Geography 105; Management 115, 120*, 150; Marketing 105; Mathematics 100, 101, 103; Political Science 103

International Business Major: Accounting 101, 102; Anthropology 102; Business Administration 101* or 120; Computer and Info 101 and 105; Economics 101, 102, 107; Geography 105; Management 115, 120*, 125; Marketing 105; Mathematics 100, 101, 103; Political Science 103

Management Major: Accounting 101, 102; Business Administration 101*, 120; Computer and Information Systems 101, 105; Economics 101, 102, 107; Geography 105; Management 115, 120*, 150; Marketing 105; Mathematics 100, 101, 103; Political Science 103

Marketing Major: Accounting 101, 102; Business Administration 101* 120; Computer and Information Systems 101, 105; Economics 101, 102, 107; Geography 105; Management 115, 120*, 150; Marketing 105; Mathematics 100, 101, 103; Political Science 103

*either BSAD or MGMT 120

CHEMISTRY

College of Chemistry, University of California, Berkeley
Admission to upper division Chemistry for a total of 60 semester units is contingent upon a grade point average of at least 2.5 in courses basic to the major. Recommended courses include: Chemistry 101-102, 103, 105-106; Physics 101, 102, 103; Mathematics 103, 104, 105, 108; English 101 and 102; Economics 101; German 101-102. A student may pursue the study of chemistry on any campus of the University by enrolling in the College of Letters and Science, with a major in chemistry earning a B.A. degree and in the College of Chemistry earning a B.S. degree. For details on College of Letters and Science breadth requirements refer to index.

For the B.S. degree students should consult the catalog for the College of Chemistry.

California State University, Long Beach
For the Chemistry Major (Bachelor of Science degree) the following courses may be taken at Glendale Community College: Chemistry 101, 102, 103; Mathematics 103, 104, 105; Physics 101, 102, 103; and one course from the following courses: Biology 101 and 102, 112.

Note: A reading knowledge of scientific German or Russian is required.

California State University, Los Angeles
Students should include chemistry, physics, German, geometry, trigonometry, and algebra (2 years) in high school preparation.

B.S. Chemistry: Chemistry 101, 102, 103; German 101, 102; Mathematics 103, 104, 105, 107 and 108*, or 130 or Computer and Information Systems 150; Physics 101, 102, 103

B.S. Biochemistry: Biology 101, 102, 112; Chemistry 101, 102, 103; German 101, 102; Mathematics 103, 104, 105
B.A. Chemistry: Chemistry 101, 102, 103; German 101, 102; Mathematics 103, 104; Physics 101, 102, 103.

*Mathematics 108 may be completed for upper division California State University, Los Angeles Mathematics 401.

**California State University, Northridge**
Chemistry 101-102, 103; Mathematics 103, 104, 105, 108; Physics 101, 102, 103
(A modified Mathematics and Physics sequence may be taken by those seeking the B.A. degree rather than the B.S. degree. Consult the CSUN catalog.)

**CHICANO STUDIES**

**California State University, Northridge**
History 113, Spanish 127 (CSUN Chicano Studies 230 and 270 will be taken after transfer.)

**CHILD DEVELOPMENT**

**California State University, Long Beach**
For the Child/Family Development major (Bachelor of Arts degree) the following courses may be taken at Glendale Community College: Anthropology 102; Biology 115, 121; Chemistry 101; Economics 101, 102; English 101; Family and Consumer Studies 125; Psychology 101; Sociology 101.

**California State University, Los Angeles**
These courses are required: Family and Consumer Studies 125, 135, Psychology 101, 103, 131

  General Option (I): Psychology 107 or Political Science 107 or Sociology 107;
  Multiple Subject Credential Option (II): Block I, English 101, 102, Speech 101; Block II, select 10 semester units from natural science areas of general education, taking 1 course each in areas B1, B2, and B3; Block III, History 117 or 118, Political Science 101, 106 and 1 course from general education social science block; Block IV, 3 units from each of the 2 disciplines in Arts, Literature, Philosophy and Foreign Language block. (See General Education Requirement)

  A grade of “C” or higher is required in all courses used to meet requirements in this major.

**California State University, Northridge**
Biology 121 or Psychology 103 (Students pursuing the Child Mental Health Specialist option should choose Psychology 103); Economics 107 or Psychology 107 or Sociology 107

  Elective credit: Family and Consumer Studies 155; Other Family and Consumer Studies courses may apply on the major. Consult CSUN Child Development program coordinator.

**CHIROPRACTIC**

**Los Angeles College of Chiropractic**
The pre-professional program of the student desiring to matriculate at the Los Angeles College of Chiropractic may be undertaken at Glendale Community College. Sixty (60) transferable units must be completed.
These courses are required: Biology 101, 120; Chemistry 101, 102, 105, 106; English 101-102 or English 101 and Speech 101; Physics 105, 106

Complete three semester units of each of the following: Humanities (The same units in the Social Science will meet this requirement); Psychology 101; Social Science (The same Humanities units may be substituted)

Recommended courses: Biology 102, 112, 121;

All science courses must include laboratories, shall be taken sequentially and shall represent an academic year in each subject area.

Students who plan to earn a B.S. degree at LACC in addition to the D.C. degree should consult with a LACC counselor as early as possible.

**Pasadena College of Chiropractic**

The following is a list of courses students should take at Glendale Community College to fulfill the Pasadena College of Chiropractic prerequisites for admission: Biology (6 units with laboratory) 101, 102 or 120, 121; General and Organic Chemistry (6 units with laboratory each) 101, 102, 105, 106; English (6 units) 101, 102 or Speech 101; Physics (6 units with a laboratory) 105, 106; Psychology (3 units) 101; Social Science (3 units) 132 or any courses from History, Economics. Humanities, Philosophy. Sixty (60) transferable units must be completed.

**Computer Science**

**University of California, Irvine**

The Department of Information and Computer Science offers programs leading to the B.S., M.S., and Ph.D. degrees. Transfer students are required to have a minimum of 56 semester units or 84 quarter units with a grade point average of 3.0 in courses accepted for transfer; two years of transferable college mathematics, including one year of calculus, with a grade point average of 3.0; completion of one year of computer science courses, including the equivalent of ICS 1, with a grade point average of 3.0; sufficient credits to satisfy the majority of UCI breadth requirements, and satisfaction of the lower-division writing requirement.

The following are acceptable transfer courses: Computer and Information Systems 130*; English 101-102; Mathematics 103-104.

*Credit limit

**California State University, Los Angeles**

Required courses: Computer and Information Systems 140; Mathematics 103, 104, 105, 107, 108, 130; Economics 107 or Political Science 107 or Psychology 107 or Sociology 107; Physics 101, 102, 103

**California State University, Northridge**

Glendale College students can partially satisfy lower division requirements for the CSUN Computer Science major by completing the following courses: English 101, Mathematics 103, 104, 107. In addition to the courses listed, students will be required to complete several lower division computer science courses after transfer, and a course in symbolic logic (Philosophy 230).

**California State University, Sacramento**

Students planning to complete a Bachelor of Science degree in Computer Science may complete the following requirements prior to transfer: Computer and Information Systems 101 and 110, 140, 145, 150; Mathematics 103, 104.
California State Polytechnic University, San Luis Obispo
Computer Science students should have completed the following courses in high school: foreign language, English composition, computer science, algebra, trigonometry, geometry, physics, chemistry and biology. In the first two years of college, students should include in the course of study: Computer and Information Systems 130; English 101-102; Mathematics 103-104; Physics 101-102-103; Chemistry 101-102; and a foreign language.

Northrop University
Students interested in obtaining a Bachelor of Science degree from Northrop University in Computer Science can receive maximum transfer credit by taking the following courses; Chemistry 101 and 102; Computer and Information Systems 140; Electronics 101; English 101, 102; History 107, 108, 109, 110 (US History is required); Mathematics 103, 104, 105, 107, 108, 130; Physics 101, 102; and four 3-unit courses chosen from the fields of Anthropology, Economics, History, Philosophy, Political Science, Psychology, Sociology.

Woodbury University
Glendale Community College students who plan to pursue a Bachelors degree with a major in Computer Information Systems should complete the following courses before transferring to Woodbury University; Accounting 101, 102; Computer and Information Systems 101, 105, 110, 115, 120, 140, 145, 160; Economics 101, 102, 107; Mathematics 100, 101, 103, 104, 111.

CRIMINAL JUSTICE

California State University, Long Beach
Majors in Criminalistics intending to transfer to California State University, Long Beach to continue work for a Bachelor of Science degree in the Law enforcement area are advised to see a CSULB counselor. Maximum 24 units lower division criminal justice courses acceptable for transfer. 12 units accepted for above courses if equivalent subject work is completed at Community College. Administration of Justice 101, 103, 110, 120 will transfer as subject matter units — 12 additional units will transfer as electives (Total 24 units). Lower division core requirements are: Chemistry 101, 102, 103; Mathematics 112; Physics 105, 106; and 1 course of Biology 112, 121.

California State University, Los Angeles
Criminal Justice majors who plan upon graduation to continue their studies at California State University, Los Angeles should limit their program in the Administration of Justice courses as listed. In addition they should complete the lower division General Education courses.

Criminal Justice courses which are acceptable for transfer credit at California State University, Los Angeles to meet the major requirements for the Bachelor of Science degree are Administration of Justice 101, 103, 107, 110, 116 and 120.

California State University, Sacramento
The following lower division courses are required: Administration of Justice 101, 103, 107, 120, (required for students selecting Law Enforcement and Investigation Concentrations), 116
DENTAL HYGIENE

University of California, San Francisco
These courses are required: Biology 101-102; Chemistry 101, 105; English 101-102; Psychology 101 or 103; an Introductory Sociology course, and one course in Speech or Oral Communication. Additional electives to bring total to 60 semester units. (Strongly recommended: biochemistry, anatomy, physiology)

Note: Graduates of the UCSF Dental Hygiene Program are required to complete a Red Cross First Aid course. Although this course is not an admission requirement, it is strongly recommended that students take this course before enrolling in the dental hygiene curriculum.

University of Southern California
Students may apply for admission to the School of Dentistry after completing a minimum of 60 units excluding courses offered in the dental hygiene curriculum and including the courses shown below. Application should be filed well in advance of February 1 of the year in which the student wishes to be admitted.

These courses are required: Chemistry 101-102; English 101-102; Psychology 101; Science with Lab (Biology 101-102 recommended); Sociology 102; Speech 101;
Electives from: Biological Science, Chemistry, English Composition, English Literature, Foreign Languages, Music or Art Appreciation, Philosophy, Social Science

DENTISTRY, PRE-DENTAL CURRICULUM

University of California, Los Angeles
Those wishing to enter the School of Dentistry must have completed a minimum of three full academic years of college work (135 quarter units), including the following courses: Biology 101, 102; Chemistry 101-102, 105-106; English 101-102; Physics 105-106; Psychology 101. Generally, the pre-dental student is advised to seek a sound liberal arts background in the humanities, social and behavioral sciences, in addition to the requirements listed above.

University of California, San Francisco
The completion of 90 transferable semester units (exclusive of repeated and nontransferable courses) of all college work is a minimum requirement for admission to the School of Dentistry. Those who wish to enter the San Francisco School of Dentistry must have completed 90 units (at least 20 units of which must be completed at a senior college) These units must include the subjects in the following list:

General University Requirements* — Biology 101-102; Chemistry 101-102, 105; English 101-102; Physics 105-106; Psychology 101 or 103; Four 3 semester unit courses chosen from — Social Sciences, Humanities, Foreign Languages, Psychology in addition to above.

Additional electives to bring the total number of units to at least 90 semester units. (Recommended: biochemistry, embryology, comparative vertebrate anatomy and advanced mathematics).

*Students who plan to complete the requirements for the B.S. degree in dentistry at UCSF must satisfy the Subject A and American History and American Institutions requirements.
Loma Linda University
Although a three year pre-dental curriculum in an accredited liberal arts college is prescribed, a Bachelor of Arts Degree or the equivalent, is advantageous. Students may apply for admission to the School of Dentistry after completing 96 quarter units of college work including the following courses: Chemistry 101-102, 105-106; English 101-102; Physics 105-106; Biology 101-102; laboratory; Business Administration 101. Recommended: Accounting 110; Chemistry 103; Family and Consumer Studies 125; Machine Technology 105; Mathematics 103, 104, 105; Psychology 101, 103.

University of Southern California
The following are required courses: Chemistry 101-102, 105-106; Physics 105-106; Biology 101-102; English 101-102. The following courses are recommended: Art 101 or 102 or Music 120; English Literature; History 107-108, 107-109, 108-109; Foreign Languages; Philosophy; Political Science 105-106 or 101-106; Psychology 101. Applications should be filed well in advance of October 31 of the year preceding that in which the student wishes to be admitted.

DESIGN

California State University, Long Beach
The following core courses may be taken at Glendale Community College:
- Industrial Design — Architecture 105; Art 101, 102, 130, 131, 132, 138, 148, 150, 151, 152, 153, 160, 161; Engineering 101, 103
- Interior Design — Art 101, 102, 130, 131, 138, 150, 151, 152, 153, 160, 161

Woodbury University
FASHION DESIGN
Glendale Community College Students who plan to pursue a Bachelors degree with a major in Fashion Design should complete the following courses before transferring to Woodbury University: Art 101, 102; Business Administration 101*; Computer and Information Systems 101/105*, 115; Family and Consumer Studies 101, 102, 103, 105; Fashion 103, 104, 105, 106, 107, 108, 109; Management 120*, 150, 165; Marketing 105; Mathematics 101; Theatre Arts 123**.

GRAPHIC DESIGN
Glendale Community College students who plan to pursue a Bachelors degree with a major in Graphic Design should complete the following courses prior to transferring to Woodbury University: Art 101, 102, 130, 131, 134, 135, 150, 151, 154, 161, 164; Business Administration 120; Marketing 105, 120; Mathematics 101; Photography 101 & 103, 105.

INTERIOR DESIGN
Glendale Community College students who plan to pursue a Bachelors degree with a major in Interior Design should complete the following courses prior to transferring to Woodbury University: Architecture 101, 105; Art 120, 130, 138, 141, 144, 150, 151; Business Administration 120; Computer and Information Systems 115; Drafting 141; Photography 101 or Art 164/165.

*Dietetics (See Nutrition and Food)

*Select one of these for the Business minor.

**Fashion Design elective.
ECONOMICS

California State University, Los Angeles
The following core courses may be taken at Glendale Community college: Economics 101, 102, 107.

Choose one of the following options:
Option I—Applied and Analytical Economics core courses: Economics 101, 102, 107; Accounting 101-102 or 101; Computer and Information Systems 101, 110; Mathematics 112. Students planning to enter graduate programs should complete Mathematics 103, 104.

Option II—Social and Behavioral Sciences core courses: Economics 101, 102, 107; Accounting 101; Mathematics 112.

ENGINEERING

University of California, Berkeley*, Davis**, Irvine***, Los Angeles†, San Diego‡‡, Santa Barbara§
Engineering students should have completed the following courses in high school: Mathematics, 4 units, including two years of algebra and trigonometry; physics, 1 unit or chemistry, 1 unit; and mechanical drawing, 1 unit. Without this preparation it will be difficult to obtain an engineering degree in four years. In the first two years, students should include in the course of study: Chemistry 101-102§, Mathematics 103, 104, 105, 107, 108; Physics 101, 102, 103; Engineering 103, 104, 110**; nontechnical electives including courses in biology, English, fine arts, humanities and social sciences. Community college transfer students are high priority if they have completed all prerequisites specified by the colleges of engineering.

Berkeley students would need to take 11 units of Engineering: Engineering 101, 103, 104 and 110 or 108 (11 or 12 units); Chemistry 101 and 102 (10 units); Physics 101 and 103 (14 units); Humanities or Social Science (at least 15 units); must include with the exception of the engineering science curriculum at least one two-semester sequence of one of the following: Anthropology 101-102; Economics 101; English 101-102; History 117-118; Philosophy 101-102; Political Science 101-102; Social Science 101-102.

Lower division engineering courses in the University of California, Berkeley, curricula include: Civil Engineering: Engineering 103, 108, 110; Electrical Engineering and Computer Science: Engineering 108; Industrial Engineering and Operations Research: Engineering 108; Mechanical Engineering: Engineering 103, 108, 110; Materials Science and Engineering: Engineering 108, 110. Engineering Science students should include: English 101 or Speech 101, technical electives; Bioengineering students should include: Biology 101, 102, those in Engineering Geoscience: Geology 110; all others three (semester) units of Engineering 103, 108, 110. All double major programs between curricula are described in the Announcement of the College of Engineering.

*Students planning to transfer to Berkeley should include Mathematics 130 which will satisfy the lower division required course on introduction to programming.

**Students planning to transfer to the College of Engineering at Davis will need to have completed English 101, Speech 101, Mathematics 130, Engineering 110 (statics) and a circuits course which has a prerequisite differential equations. Ten semester units of Engineering electives are needed: Engineering 101, 103, 104, and 141 all count in this category. Civil engineering students should take a surveying course. Students planning to major in chemical engineering should take Chemistry 103 and 105 instead of Engineering 103, 104. Students for engineering are selected on an index correlated with required courses completed and grade point average.
Students planning to transfer to the School of Engineering at Irvine (all options) are required to complete Computer and Information Systems 150+, English 101-102; Mathematics 103+, 104-105, and 107-108 (a one unit deficiency must be made up), Physics 101-102 and Chemistry 101-102. Civil Engineering majors should take Engineering 101 or Drafting Technical 131 (for subject credit only). Electrical Engineering majors must take Engineering EE 75 summer before entrance, only one semester of Chemistry is required. Mechanical Engineering students must take Engineering 101 (subject credit), 103 (credit limit) and Drafting 140 and 141 (subject credit).

University of California, Irvine credit limit

†Students intending to enter the School of Engineering and Applied Science at Los Angeles should take Mathematics 130, or Computer and Information Systems 130 or 150 if taken Fall, 1984 or later, which will satisfy a lower division requirement in computing. Students should take English 101 and one course in the life sciences, Biology 122. Those planning to specialize in chemical engineering should take Chemistry 105, 106 instead of Engineering 103, 104 and 110. Chemistry 101 and 102 are not required for the Computer Science and Engineering degree but are required for the Computer Engineering program and all other engineering programs. Students should take 3-4 humanities-social sciences-fine arts courses, depending on the curriculum followed.

‡Students bound for the Applied Mechanics and Engineering Science or Electrical Engineering and Computer Science majors at University of California at San Diego should decide which UCSD College they wish to enter, and work toward completing appropriate general education requirements—although requirements for the major should take first priority. Required lower division engineering courses may be completed after transfer. All students for the AMES or EECS majors are initially admitted as "preengineering" students until all lower division prerequisites are completed and subject grades are reviewed by department faculty. Thus, there will be a screening for the major based on lower division preparation.

§Students planning to enter the College of Engineering, Santa Barbara are advised to include Mathematics 130 in their lower division programs. Chemistry 105-106 is recommended for chemical engineering majors. All engineering majors should complete English 101 and either English 102 or Speech 101. Engineering 103 and 104 are recommended, not required. Engineering 110 required for Mechanical Engineering majors only.

California State University, Fresno

Degrees are offered in civil, electrical, industrial, mechanical, and surveying engineering. Students planning to complete the work for an Engineering degree should include the following courses: Chemistry 101; Engineering 103; Mathematics 103, 104, 105; Physics 101, 102; Speech 101; English 101; History 117-118. Civil, Industrial, Electrical and Mechanical majors should also include Chemistry 105, Mathematics 108, 130; Physics 103. Surveying majors should include Geology 110 and will need a Botany course upon transfer.

California State University, Fullerton

The engineering curriculum requires completion of 141 semester units for graduation. The areas of concentration open to students are: Electrical engineering, mechanical engineering, civil engineering/engineering mechanics, and engineering science.

I. Statutory Requirements in American Institutions and Values: Political Science 101; History 110

II. Basic Subjects: English 101; Mathematics 103-108; Speech 101

III. Foundations:

A. Western Civilization (9 units): History 101-102 or History 107-108; Any Art History or Literature transfer course

B. Fundamentals of Natural Science: Biology 101-102 or Any Biology transfer course; Physics 101-104

C. Fundamentals of Social Science (2 units): (must be taken at the junior or senior level)

D. Introduction to the Arts and Humanities (6 units): Art History transfer course; Any Literature, Philosophy transfer course
IV. Alternatives Within Natural Science (5 units): Chemistry 101
V. Explorations (3 units): (must be taken at the junior or senior level)

California State University, Los Angeles
Engineering major includes the following options: Civil, Electrical, Mechanical, Special Option (individually planned program).
Students planning to complete the work for an engineering major (B.S. Degree) should include the following courses: Chemistry 101, 104, 105, 108, 130; Physics 101, 102, 103.

California State University, Northridge
The engineering program is arranged to provide the student with a sound program in the fundamentals of engineering, preparing for a career in professional engineering or for continuing academic work toward an advanced degree, and at the same time to provide the broad academic program that constitutes a liberal education. The curriculum consists of 128 semester units and leads to the degree of Bachelor of Science in Engineering. The curriculum is accredited by the Engineering Council for Professional Development. It is necessary that today’s engineers have a sound education that enables them to adapt to the rapidly changing requirements of a developing technology rather than a narrow and inflexible training. At this Institution, the program has been developed by emphasizing the fundamentals common to all branches of engineering, postponing the study of engineering specialities to the final year.
Since contemporary science is developing with unprecedented speed into ever increasing areas of knowledge, an essential part of the program consists of a rigorous background in the mathematical and physical sciences. This theoretical study comprises most of the curriculum for the first two years.
The program is designed to accept transfer students from community colleges at the sophomore or junior level.
The following courses should be taken in the first two years: Engineering 103; English 101; Computer and Information Systems 150 (or Math 130); Chemistry 101-102 (Physics 103 may be substituted for Chemistry 102); Mathematics 103, 104, 105, 108; Physics 101, 102.
Additional lower division computer science and engineering courses must be completed after transfer.

California State Polytechnic University, Pomona
AEROSPACE ENGINEERING:
Students planning to enter the Aerospace Engineering Department at Cal Poly Pomona should note that the following courses are articulated with Glendale College: Support and Directed Courses — Chemistry 101; Math 104, 105. Support Courses — Engineering 103; Physics 102, 103. General Education — English 101, 102; Math 103, 104; Physics 101; Chemistry 101, 102; Biology 122; Economics 101, 102; Psychology 101; Political Science 105 or Social Science 126; History 118 or Social Science 125.*

AGRICULTURAL ENGINEERING:
Students planning to enter the Agricultural Engineering Department at Cal Poly Pomona should note that the following courses are articulated with Glendale College: Core Courses — Drafting 131 or Engineering 101. Support and Directed Courses — Chemistry 101, 102; Math 104, 105; Physics 102. General Education — English 101; Math 103; Physics 101, 103; Biology 122; Economics 101; Geography 102; Sociology 101; Political Science 105 or Social Science 126; History 118 or Social Science 125.*
CHEMICAL ENGINEERING:

Students planning to enter the Chemical Engineering Department at Cal Poly Pomona should note that the following courses are articulated with Glendale College: Support and Directed Courses — Chemistry 101, 102; Math 104, 105; Physics 102, 103. General Education — English 101; Math 103, 104; Physics 101; Chemistry 101, 102; Biology 122; Economics 101; Psychology 101; Political Science 105 or Social Science 126; History 118 or Social Science 125.*

CIVIL ENGINEERING:

Students planning to enter the Civil Engineering Department at Cal Poly Pomona should note that the following courses are articulated with Glendale College: Support and Directed Courses — Chemistry 101; Math 104; Drafting 131 or Engineering 101; Physics 102, 103. General Education — English 101; Math 103, 104; Physics 101; Chemistry 101, 102; Economics 101; Psychology 101; Political Science 105 or Social Science 126; History 118 or Social Science 125.*

ELECTRICAL AND ELECTRONICS ENGINEERING:

Students planning to enter the Electrical and Electronics Engineering Department at Cal Poly Pomona should note that the following courses are articulated with Glendale College: Support Courses — Chemistry 101; Math 104, 105; Drafting 131 or Engineering 101; Physics 102, 103. General Education — English 101; Math 103, 104; Physics 101; Chemistry 101, 102; Biology 122; Economics 101, 102; Psychology 101; Political Science 105 or Social Science 126; History 118 or Social Science 125.*

INDUSTRIAL ENGINEERING:

Students planning to enter the Industrial Engineering Department at Cal Poly Pomona should note that the following courses are articulated with Glendale College: Support Courses — Chemistry 101; Math 104, 105; Drafting 131 or Engineering 101; Physics 102, 103. General Education — English 101; Math 103, 104; Physics 101; Chemistry 101, 102; Biology 122; Economics 101; Psychology 101; Political Science 105 or Social Science 126; History 118 or Social Science 125.*

MANUFACTURING ENGINEERING:

Students planning to enter the Manufacturing Engineering Department at Cal Poly Pomona should note that the following courses are articulated with Glendale College: Core Courses — Drafting 131 or Engineering 101; Engineering 104. Support Courses — Chemistry 101; Math 104, 105; Physics 102, 103. General Education — Physics 101, 102, 103; English 101; Math 103, 104; Chemistry 102; Economics 101; Psychology 101; Political Science 105 or Social Science 126; History 118 or Social Science 125.*

MECHANICAL ENGINEERING:

Students planning to enter the Mechanical Engineering Department at Cal Poly Pomona should note that the following courses are articulated with Glendale College: Support and Directed Courses — Drafting 131 or Engineering 101; Engineering 104; Chemistry 101; Math 104, 105; Physics 102, 103. General Education — English 101; Math 103, 104; Physics 101; Chemistry 101, 102; Biology 122; Economics 101, 102; Psychology 101; Political Science 105 or Social Science 126; History 118 or Social Science 125.*

*Additional information may be found in the Cooperative Curriculum Major Sheet available in the Glendale College Counseling Office.
California State University, Sacramento

Bachelor of Science degrees are offered in Civil, Electrical and Electronic, and Mechanical Engineering. All departments are fully accredited by the Accreditation Board for Engineering and Technology. A very close working relationship exists between the School and local industry permitting students to gain engineering design experience while in school. The basic courses of the first two years are essentially common for the three departments making it possible for the student to change from one department to another with no loss of time. Students planning to complete the work for an Engineering degree should include in their programs the following courses: Chemistry 101, Engineering 104, 110; Mathematics 103, 104, 105, 107, 108, 130; Physics 101, 102, 103.

California Polytechnic State University, San Luis Obispo

Engineering students should have completed the following courses in high school: mathematics, 4 units, including two years of algebra and trigonometry; four years of math, one year of physics and chemistry is advantageous; physics, 1 unit; chemistry, 1 unit; and mechanical drawing, 1 unit. Without this preparation it will be difficult to obtain an engineering degree in four years. In the first two years students should include in the course of study: Biology 122; Chemistry 101; Engineering 101 or 103, 110; English 102; Mathematics 103, 104, 105, 108; Physics 101, 102, 103. Additional math, chemistry, physics and English is advantageous in the selection for admission to the oversubscribed majors in Engineering.

Loyola Marymount University

The College of Science and Engineering at LMU offers a strong liberal arts/humanistic component in the Science and Engineering curriculum. The undergraduate majors lead to the B.S. degree in Biology (including Marine Biology), Chemistry, Physics, Mathematics, Computer Science, Civil Engineering (including Environmental Science), Electrical Engineering and Mechanical Engineering. Double majors, minors and individualized studies programs such as Bio-engineering and Bio-chemistry are also available.

The College of Science and Engineering is accredited by the Western Association of Schools and Colleges. All of the engineering programs are accredited by the Accreditation Board for Engineering and Technology and the Chemistry program is approved by the American Chemical Society.

Northrop University

The College of Engineering offers degrees in Aerospace, Mechanical, Electronics and Engineering Science disciplines. These programs are accredited by the Engineer's Council for Professional Development. The programs are specifically designed to fulfill the actual needs of industry.

A candidate for the Bachelors degree in Engineering can take the following courses for maximum transfer credit: Chemistry 101 and 102; Engineering 104; English 101, 102; History 107, 108, 109, 110 (US History required for graduation); Mathematics 103, 104, 105, 107, 108, 130; Physics 101, 102, 103; Speech 101; and four 3-unit courses chosen from the fields of Computer and Information Systems 110; Engineering 103, 110; English 101; 3 units from Anthropology, Economics, English, History, Philosophy, Political Science, Psychology, Sociology.
Stanford

THE CURRICULA AT A GLANCE
Undergraduate programs are designated as being either Departmental Majors of School or Engineering Majors. In addition to the special requirements for these majors described below, all undergraduate engineering students are subject to the University Distribution, Writing, and Foreign Language requirements.

THE WRITING REQUIREMENT
All students must complete one semester of instruction in written composition or an equivalent.

THE FOREIGN LANGUAGE REQUIREMENT
Students are required to complete the equivalent of at least the second semester of college level foreign language study. Most students fulfill this requirement by completing three years of a single foreign language in high school before coming to Stanford. It is also possible to demonstrate competency by passing a proficiency exam.

THE DISTRIBUTION REQUIREMENTS
To fulfill the University Distribution Requirements undergraduates must take ten courses certified for this purpose in eight areas as follow:

Area 1: Western Culture
Area 2: Literature and Fine Arts
Area 3: Philosophical, Social, and Religious Thought
Area 4: Human Development, Behavior, and Language
Area 5: Social Processes and Institutions
Area 6: Mathematical Sciences
Area 7: Natural Sciences
Area 8: Technology and Applied Science

At least one course must be taken (usually in Areas 2 through 8) which is designated as concentrating on a non-Western culture. Engineering students will normally automatically fulfill the requirements for Area 6, 7, and 8 with courses taken for the major.

DEPARTMENTAL MAJORS
Departmental Major leads to the Bachelor of Science degree in either Chemical Engineering, Civil Engineering, Computer Science, Electrical Engineering, Industrial Engineering, Materials Science and Engineering, or Mechanical Engineering. Petroleum Engineering is offered by the School of Earth Sciences. Chemical, Civil, Electrical, Industrial, Materials Science, and Mechanical Engineering majors share the same curricular structure as follows: one course in Values, Technology, Science, and Society, 14 units of Mathematics, 14 units of Science, 5 courses in Engineering Fundamentals, and 30 units of Engineering Depth as defined by the particular department in which the student majors, for a total of approximately 72 units including 6 units of Experimentation.

SCHOOL OF ENGINEERING MAJOR
The School of Engineering itself offers interdisciplinary programs leading to the Bachelor of Science degree in General Engineering. There are two types of School of Engineering Major: Individually Designed Majors (IDMs) and majors which have been proposed by cognizant faculty groups and which have been pre-approved by the Undergraduate Council of the School. At present there are three pre-approved majors: Aeronautics and Astronautics, Computer Systems Engineering, and Product Design. School of Engineering majors must have the following curricular components: Math (14 units minimum), Science (12 units minimum), Engineering courses (28 units
minimum), Additional courses (8 to 20 units). Total units required for these majors is between 60 and 72. Detailed program requirements are given at the end of the Stanford Engineering Handbook.

ENGINEERING FUNDAMENTALS

The 5-course Engineering Fundamentals requirement is satisfied by a nucleus of technically rigorous, introductory courses chosen from the various engineering disciplines. It is intended to serve several purposes. First, these courses provide a breadth of knowledge concerning the major fields of endeavor within engineering. Second, they allow incoming engineering students an opportunity to explore a number of areas before embarking on a specific engineering major. Third, the individual classes each offer a reasonably deep insight into a contemporary technological subject for the interested non-engineer.

University of Southern California

The School of Engineering offers a Bachelor of Science in: Aerospace, Applied Mechanics, Biomedical, Chemical, Civil, Building Science (Civil), Computer Science, Electrical, Industrial and Systems, Mechanical, and Petroleum Engineering.

Applicants may be admitted from accredited community colleges under the following conditions: 1) if the student has completed 30 academic units with a strong scholarship record (a GPA of 3.0* is considered competitive); 2) if the student has completed fewer than 30 units and has a secondary school record and test scores (SAT or ACT) which qualify that student for admission to Freshman standing.

*3.5 for admission to EE

The following requirements can be met at the community college provided comparable courses are offered and appear on the Articulation Agreement with the college.

I. GENERAL EDUCATION

PLAN A: Required of students entering USC or elsewhere prior to Fall 1984.
Humanities and Social Science: 16 units (minimum requirement) from three of the following four categories:
A. Literature: English, Classics, Comparative Literature, Foreign Language (courses in history, literature or culture)
B. Humanities: Drama and Fine Arts (theory, history or appreciation classes only); Philosophy, Religion
C. Social Science: History, Political Science, Economics, International Relations, Geography
D. Social Science: Human Behavior & Social Interaction: Anthropology, Ethnic Studies, Psychology, Sociology
Additional units if required by the major may be taken in the above areas (A-D) or Area E:
E. Communications: Communications, Cinema, Foreign Language (courses in speaking, reading and writing), Journalism, Speech Science & Technology
All courses must be chosen from the Articulation Agreement.

PLAN B: Required of students entering USC or elsewhere Fall 1984 and thereafter. 16 units minimum from the following areas.
Transferable courses for these areas can be found on the USC General Education Agreement for this college.
A. Representative Cultures: choose one course from American Public Life, Western Culture I, Western Culture II, or Non-Western Cultures
B. Representative Approaches to the Study of the Individual, Culture, and Society: choose one course from Empirical Approaches, Literature, The Arts, or Ethical Approaches

C. Choose two additional courses: one must be from a category already chosen, the other from a different category

D. If the above courses do not equal 16 units, additional work must be taken in any of the above categories.

Certain majors (e.g., Electrical Engineering) require 20 units rather than 16; the additional units may be taken from any category in Plan A or Plan B.

II. COMPOSITION

One semester for all engineering majors except E.E. and Computer Science: English 101. Two semesters required for E.E. and Computer Science: English 101-102. All composition courses must be taken for a letter grade. Composition coursework is not required of students who receive a score of 600 or above on the verbal portion of the SAT. All engineering majors must pass USC's Composition Skill Level Examination regardless of units completed or SAT scores.

III. PHYSICS—Required for all majors except Computer Science: Physics 101, 102, 103 (entire sequence needed to equal USC's 151, 152, 153).

V. MATHEMATICS—Three semester of calculus and one semester of differential equations: Mathematics 103, 104, 105, 108

VI. ENGINEERING—Students are encouraged to take as many lower division engineering courses as possible, appropriate to the intended major, provided they appear on the articulation agreement.

All students are advised to obtain a copy of the bulletin for the School of Engineering for further information concerning the majors.

ENGINEERING TECHNOLOGY

California State Polytechnic University, Pomona

Students planning to enter the Engineering Technology Department at Cal Poly Pomona should note that the following courses are articulated with Glendale College: Core Courses — Drafting 131 or Engineering 101. Support Courses — Physics 105 and 106. General Education — English 101; Math 103, 104; Physics 105 and 106; Chemistry 101 or 120; Biology 122; Economics 101, 102; Psychology 101; Political Science 105 or Social Science 126; History 118 or Social Science 125. Additional information may be found in the Cooperative Curriculum Major Sheet available in the Glendale College Counseling Office.

California State University, Sacramento

California State University, Sacramento offers B.S. degrees in Construction Engineering Management and Mechanical Engineering Technology. Both options are accredited by the Accreditation Board for Engineering and Technology.
In conjunction with completing the requirements for the A.S. degree, students should take the following courses in basic sciences and mathematics (minimum 24 units): Economics 107; Mathematics 103-104; Physics 105, 106. Units should be selected from the following to meet the minimum 24 unit requirement: Chemistry 110 or 120*; Mathematics 130 or Computer Information Systems 101 and 110.

For Construction Engineering Management Option: Accounting 101, 102; Architecture 109-110; 191; Business Administration 120, English 101.

For Mechanical Engineering Technology option Basic — Science and Mathematics (24 units): Chemistry 110; Economics 107; Mathematics 103-104, 130. Technology (24 units): Engineering 101-103; Machine Technology 101-Welding 117. Electives: Aviation and Transportation 123; Business Administration 101; Computer and Information 120; Drafting 132; Electronics and Computer Technology 103; Engineering 104; English 131; Machine Technology 102; Management 101; Welding 118 (9 units only may apply to the 24 units required in Technology.)

*Chemistry 101 is also acceptable.

California Polytechnic State University, San Luis Obispo

Students who are planning a course of study in the Engineering Technology discipline should have completed the following courses in high school: mathematics, 4 units, including algebra and trigonometry; physics, 1 unit; chemistry, 1 unit; and mechanical drawing, 1 unit. Without this preparation it will be difficult to obtain a degree in Engineering Technology in four years. The following A.B.E.T. accredited options are available in Engineering Technology: Electronic Technology, Mechanical Technology, Air Conditioning and Refrigeration Technology, Manufacturing Processes Technology, and Welding Technology. Students should direct their studies toward an option of their choice.

In the first two years students should include in their course of study: Chemistry 101; Drafting 140; Electronics and Computer Technology 101, 102; Engineering 101, 104; English 102; Mathematics 110, 103, 104, 130; Physics 105, 106

Northrop University

See transfer program for Aeronautics.

FOOD AND NUTRITION (SEE NUTRITION AND FOOD)

FORESTRY AND CONSERVATION

University of California, Berkeley

The Department of Forestry and Resource Management, University of California at Berkeley, offers the following degrees: B.S., M.S., M.F., and Ph.D. Specializations within the B.S. program include Forest Management, Wildlife Management, and Range Management. Junior college transfer students are admitted in junior standing with at least 56 semester units of courses as specified. An acceptable preparatory program for the Forestry major would include the following courses: Biology 101-102; Chemistry 101, 102; Economics 101, 102; Geology 101; Mathematics 103, 104; English 101-102 or Speech 101, 102; a course in statistics; and a course in computer science. Satisfactory completion of these courses fulfills all special requirements of the pre-forestry program except for a course in plane surveying.
Students completing the pre-forestry curriculum must enroll in the Summer Field Program during the summer preceding their junior year. This is a ten-week summer field course offered only by the Department of Forestry and Resource Management and given near Quincy, Plumas County. Application for the Summer Field Program should be made before March 1.

**Humboldt State University**
The College of Natural Resources of Humboldt State University, offers a Bachelor of Science and M.S. Degree** in Forestry. Lower division courses for Forest Management and Forest Science options include Biology 101, 102; Chemistry 101, Mathematics 103; Physics 105; and Computer and Information Systems 150 or Mathematics 130, Forest Science majors should also include Chemistry 102, Mathematics 104, and Physics 106.

**M.S. degree is in Natural Resources with an option in Forestry**

**GEOGRAPHY**

**California State University, Los Angeles**
The following core courses may be taken at Glendale Community College: Geography 101, 102. Choose three to six units from Computer and Information Systems 105, 101 and 110, 120; Economics 107; Sociology 107.

**GEOLOGY**

**California State University, Long Beach**
The following courses may be taken at Glendale Community College (B.S.): Biology 101 and 102 or 122; Chemistry 101, 102; Geology 101, 104; Mathematics 103, 104, 110; Physics 105, 106.

**Note:** If a student chooses Biology 122, they must also take an upper division class.

**California State University, Los Angeles**
Required courses for the Bachelor of Science degree: Chemistry 101, 102; Geology 105, 110; Mathematics 103, 104; Oceanography 115. Courses required for the B.A. degree are the same except for mathematics in which students should complete Mathematics 100, 102, and 103*; Physics 105-106.

*Students who plan to pursue graduate study in geology are advised to take calculus.*

**HEALTH ADMINISTRATION**

**California State University, Northridge**
Required courses for the Bachelor of Science degree: Accounting 101-102; Biology 121, 122; Chemistry 110; Mathematics 112; Psychology 101; Sociology 101.

**HOME ECONOMICS (SEE NUTRITION AND FOOD)**
HOTEL AND RESTAURANT MANAGEMENT

California State Polytechnic University, Pomona
Students planning to enter the Hotel, Restaurant, Travel Management Department at Cal Poly Pomona should note that the following courses are articulated with Glendale College: Core Courses — Accounting 101, 102; Computer and Information Systems 101 and 110 or 105 and 110; Business Administration 120. General Education — English 101; Psychology 101; Political Science 105 or Social Science 126; History 118 or Social Science 125; Economics 101, 102. Additional information may be found in the Cooperative Curriculum Major Sheet available in the Glendale College Counseling Office.

INDUSTRIAL ARTS

Students majoring in industrial arts should be concerned with going into the teaching of industrial subjects. At present, degree programs in industrial arts leading to the credential or industrial teaching employment are offered at the following California State Universities: Chico, Fresno, Humboldt, Long Beach, Los Angeles, San Diego, San Francisco, and San Luis Obispo.

California State University, Chico
In addition to the completion of the General Education Requirements (see index) the following courses must be elected: Computer and Information Systems 210, Drafting 131, Economics 107, Electronics and Computer Technology 101, Graphics and Design 166, twelve (12) units of Chemistry-Physics must be selected.

California State University, Fresno
In addition to the completion of a certifiable General Education program (see index) the following courses are recommended: Electronics and Computer Technology 110 or 206; Engineering 101; Machine Technology 101; Photography 101 or 102; Printing 101; Welding 117

California State University, Los Angeles
In addition to completion of the General Education requirements for the baccalaureate, students must elect the following courses: Drafting 131 or Engineering 101; Electronics and Computer Technology 101 or 110; Photography 101-102; Management 155.

California Polytechnic State University, San Luis Obispo
The following courses are required for the Industrial Education option of the Industrial Technology major: Architecture 105; Aviation and Transportation 101, 102, 103, 104; Carpentry 151; Chemistry 120-121; Drafting 132 or Engineering 104; Economics 101; English 101-102, 121; Graphics and Design 165; Humanities elective (see General Education requirements); Life Science elective (see General Education requirements); Machine Technology 103; Mathematics 102; Political Science 101; Psychology 101, 107; Speech 101
INDUSTRIAL TECHNOLOGY

Industrial Technology prepares students for technical management positions in industry. Options in the Manufacturing and Construction industries with emphasis in a number of technical areas are available. At present programs are offered at the following California State Universities: Fresno, San Luis Obispo and Chico. The catalogs of these particular universities should be consulted for requirement details.

California State University, Chico

In addition to the completion of the General Education Requirements (see index) the following courses must be elected: Chemistry 101 or 102, 105; Drafting 131; Electronics and Computer Technology 101; Physics 105, 106; 8-9 units selected from Economics 107, Mathematics 112 and Computer and Information Systems 150 or 210.

Construction Option — In addition to core above: Accounting 101
Manufacturing Option (Metals, Plastic, Woods Specialization) — In addition to the core: Accounting 101; Economics 101, 102
Product Support and Maintenance Option (Automotive/Power Specialization) — In addition to the core: Economics 101, 102; Speech 101
Electronics Specialization — in addition to the core: Computer and Information Systems 150; Drafting 131; Electronics and Computer Technology 101, 103, 201, 203
Other Courses: Economics 102; Electronics and Computer Technology 206, 207; Energy 101; Engineering 101; Mathematics 100, 103; Speech 101

California State University, Fresno

Construction Option: Accounting 101; Architecture 101; Chemistry 110; Computer and Information Systems 101; Electronics and Computer Technology 110; Mathematics 103; Technical Education 146.
Architectural Drafting Emphasis: Engineering 103;
Heavy Building Emphasis: Engineering 103
Light Building Emphasis: Business Administration 120*, 125*, 130*
Real Estate Emphasis: Business Administration 120*, 125*, 130*
Manufacturing Option: Accounting 101; Computer and Information Systems 101; Engineering 101; Electronics and Computer Technology 110; Technical Education 146;
Drafting/Design Emphasis: Engineering 103, 104; Welding 117; Drafting 131*, 132*, 134*.
Wood Products Emphasis: Chemistry 105

General Education is outlined in this catalog (see index)

*Will meet major requirements for equivalent emphasis courses to a maximum unit value represented by those courses whose content has been covered, and/or elective credit required. The Industrial Arts and Technology Department should be contacted as early as possible for additional information.
California State University, Los Angeles

Printing Management Option (Bachelor of Science degree in Industrial Technology): Accounting 101, 102; Business Administration 120; Economics 101, 102
Bachelor of Science, Fire Protection Administration and Technology required courses: Fire Technology 103, 104, 105, 110
Electives (6 units maximum): choose from Fire Technology 107, 108, 109, 111, 112, 114
Electives in related fields (choose 2 courses from following): Political Science 107 or Sociology 107 or Economics 107 or Psychology 107; Sociology 101, 102
(Limit on lower division courses: 21 semester units)

Bachelor of Science in Industrial Technology-Production Technology is designed to prepare students to enter an industry at a supervisory or middle management level, working in close coordination with a manufacturing engineer, industrial engineer, or plant superintendent. Required lower division courses include the following: Accounting 101; Chemistry 110 or 120 and 121; Computer and Information Systems 130 or 135 or 150 (or any course covering programming language in FORTRAN, PASCAL, or C); Drafting 131 or Engineering 101; Economics 107; Electronics and Computer Technology 101 or 110; Management 155; Mathematics 100, 112; Photography 101 and 102; Physics 110.

California Polytechnic State University, San Luis Obispo

The following courses are required for the Industrial Management option of the Industrial Technology major: Accounting 101-102; Architecture 105; Economics 101-102; English 101; Graphics and Design 165; Humanities elective (see catalog Breadth Requirements); Life Science—any Biology transfer course; Marketing 105; Mathematics 102, 103; Psychology 107

JOURNALISM

California State University, Los Angeles

The following courses are required for the Bachelor of Arts degree: Journalism 102; 103 or 104; Journalism 101 is recommended. Electives are Economics 101-102 or any 4 courses chosen from History 103, 107-109, 117-119; Social Science 123; Sociology 101102. Additional elective: Philosophy 117.

California State University, Northridge

Journalism 101, 102 (No more than 2 units of lower division Journalism courses maybe counted toward the B.A. degree).

LANDSCAPE ARCHITECTURE (SEE ARCHITECTURE)

LAW

University of California, Berkeley

Experience has shown that students from diverse educational backgrounds do equally well in law school and later in practice. As a result, there is no single "pre-law" major required or even recommended. However, for those students still in a position to structure their curriculum the following are suggested: (1) Develop writing skills. Take courses in which work is edited vigorously. (2) Develop analytical skills. (3) Obtain breadth in humanities and social sciences. A good lawyer must understand the social
context within which legal problems arise. (4) Acquire a general understanding of several fields with emphasis on a particular field of interest. In selecting specific courses to fulfill these recommendations, consult your undergraduate adviser. The ability to use a typewriter is also useful to a lawyer or law student.

Students should not be deterred from pursuing the study of law merely because their undergraduate education has not been focused on a particular area. The School of Law (Boalt Hall) selects its students from a wide variety of backgrounds and training. This diversity itself enhances and enriches the legal experience of all the students.

University of California, Davis

No specific college major is required for admission to the School of Law, and there is no prescribed pre-legal program. Degrees from the Colleges of Agricultural and Environmental Sciences, Engineering, and Letters and Science or any accredited college or university are all acceptable. The individual student's college record and Law School Admission Test score must, of course, demonstrate that he or she is highly qualified for law study.

Pre-legal students should plan a course of study that will give them a broad cultural background and include intensive work for a substantial period of time in a selected field of study. Pre-legal students should develop the ability to communicate easily, persuasively, and accurately; to understand people and institutions; to gather and weigh facts; and to solve problems and think creatively. It is most important that pre-legal students obtain mastery of the English language. They should be able to read rapidly and with comprehension and to express themselves clearly, completely, and concisely, both orally and in writing.

For additional information, see the latest issue of the Pre-Law Handbook prepared by the Law School Admission Council and the Association of American Law Schools. This book includes material on the law and lawyers, pre-law preparation, applying to Law School, and the study of law, together with individualized information on every ABA approved law school. It may be obtained at college book stores or ordered from Law School Admission Services, Box 2000, Newton, PA 18940.

Hastings College of the Law, University of California

The Dean and Committees on Admissions do not require that the prospective students present credits in any special area and an examination of the background of the members of the student body would substantiate this diversity. Generally, however, it is felt that the students should endeavor to provide themselves with as broad and general an undergraduate education as possible. This not only aids the College in producing educated and cultured members of the profession but also helps the students by exposing them to more of the complex problems of our society and in providing them with a greater acuity for logical perception and in-depth analysis. It is essential that the students possess habits of precision, fluency, and economy in speaking and writing.

Applicants for the degree of juris doctor must have received a Bachelor's degree or its equivalent from a college or university of approved standing prior to commencing their studies. All applicants are required to take the Law School Admission Test administered by the Educational Testing Service.

Applicants should write to: Law School Admission Test, Educational Testing Service, Princeton, New Jersey 08540, to obtain application forms and information about the test and the location of testing centers.
In recognition of the necessity for providing legal education to persons from disadvantaged backgrounds, the College initiated its Legal Education Opportunity Program (LEOP) in 1969. An applicant from a disadvantaged background who wishes to have his or her file evaluated for admission under LEOP should so state when making application to the College. Such applicants should indicate whether they wish to be considered under the category of Asian, Black, Native American, La Raza, or other. Letters of recommendation are required to supplement a LEOP applicant's proof of a bachelors degree and LSAT score. For financial aid information, see the Student Financial Aid Program section of the Hastings College catalog.

**University of California, Los Angeles**

The School does not prescribe any fixed pre-law course. Successful study of law is more often related to an acquired habit of disciplined work with difficult intellectual problems than to the possession of any special body of facts. Certain general objectives of a pre-legal education can, however, be given. The Association of American Law Schools has stated these objectives under three broad headings: education for comprehension and expression in words, education for critical understanding of human institutions and values, and education for creative power and thinking. The skills, understanding and cultural foundation encompassed in these statements can be gained from many fields of study; The law is peculiarly a discipline where every branch of knowledge will prove useful to the student and practitioner. More important than the field of study; therefore, is evidence that the student has studied under conditions of intellectual rigor and has mastered skills of critical writing. The best courses for pre-law study vary with the individual undergraduate institution and students are urged to seek local advice.

**Glendale University College of Law**

Entrance into the College of Law is based on alternative plans for meeting admission requirements. Your Career Counselor can arrange an on-or-off campus interview with a Glendale College of Law Counselor to more fully explain these alternatives.

Generally, it is known that the capacity to read and comprehend rapidly, as well as speak and write clearly, is essential in the preparation to study law. A program of study that develops these pre-law skills is suggested.

Applicants are evaluated for admission on the following criteria: maturity, (Law School Admissions Test) and completion of two years of approved college course work or an Associate of Arts degree.

Your Career Counselor is familiar with those courses at Glendale Community College which have traditionally proved helpful in the study of law at Glendale University College of Law.

**University of Southern California**

There are no required pre-law courses. The faculty recommends college courses which are intellectually challenging, which require disciplined hard work, and which offer an opportunity for seminar discussions and for research and writing. The student may find that college courses in fields such as anthropology, economics, history, philosophy, political science, psychology, and sociology are more useful to his/her legal career than are vocationally oriented courses.
LIBERAL STUDIES

California State University, Long Beach
Choose from the following list of courses for the Bachelor of Arts degree in Liberal Studies:

Area I—English and American Language and Literature (18-21 units*)
  Group 1—English 101
  Group 2—English 103
  Group 3—Linguistics 101
  Group 4—Speech 100, 103
  Group 5—English 105, 106

Area II—Science and Mathematics (21-24 units)
  Group 1—Mathematics 111, 112
    Group 2 (a) Choose one course from Biology 101-102, 122
    (b) Geography 101
  Group 3 (a) Choose one course from Chemistry 101, 110, Geology 101
    (b) Geography 101
  Group 4—Remaining units must be completed at CSULB

Area III—Behavioral, and Social Science (21-24 units)
  Group 1—Choose course from History 103, 104, 110, 117, 118
  Group 2—Political Science 101
  Group 3—Choose three courses representing at least two departments from
    Anthropology 102, Economics 101-102, Geography 102
  Group 4—Choose one course from History 101, 102, 103, 104
  Group 5—Remaining units must be completed at CSULB

Area IV—Humanities, Fine Arts, and Non-European Cultures (21-24 units)
  Group 1—Philosophy 117
    Group 2 (a) Art 101-102
    (b) Must be completed at CSULB
    Group 3—Choose one course from French 103, 104; German 103-104; Italian
      103-104; Latin 103-104; Spanish 103, 104; Philosophy 101, Group 4—Must
      be completed at CSULB
    Group 5—Must be completed at CSULB

*Additional units will have to be completed at CSULB

California State University, Los Angeles
Liberal Studies offers students an interdisciplinary major program and aims to provide
a Liberal Arts foundation for preprofessional training in law, medicine, librarianship,
education, various fields of public service, business and industry. Completion of General
Education breadth requirements satisfies lower division requirements for this major.

Multiple Subject credential

The Liberal Studies major, Multiple Subject credential option, holds waiver status
for the Multiple Subject credential from the California Commission for Teacher
Credentialing. When completing general breadth requirements, students should include
the following Glendale Community College courses: Block I: English 101, 102, Speech
101; Block II: Geography 101; Block III: Art 101 or 102 or foreign language, Philosophy
117; and Block IV: Economics 105, History 117 or 118, Political Science 101 and
106, Psychology 101, Sociology 101 and 102.
California State University, Northridge
The major in Liberal Studies is designed primarily for students seeking the multiple subject (elementary) credential, but is open to all students.

In order to complete the B.A. degree and the partial credential within four years, students must plan their programs carefully. For this reason, students in this major are advised to consult with advisers at California State University, Northridge, including the Credentials Office of the School of Education, as early as possible.

Students planning to transfer to CSUN and major in Liberal Studies should take the following courses at Glendale Community College: Biology 122, English 101, English 102 or 109 or 110, Mathematics 138, Philosophy 117, one additional science or mathematics course; one course from Astronomy 101, Geography 101, Geology 101, 110, or Oceanography 115; one course from Chemistry 110 or Physics 105 or 110; Geography 102, History 101 and 102; one course from Anthropology 102, Political Science 103, Psychology 101, Sociology 101; one course from Art 101 or 102, Music 120; one course from Ethnic Studies 102 or Social Science 122; additional cross cultural courses required (see counselor).

California State Polytechnic University, Pomona
Students planning to enter the Liberal Studies, Credential Option at Cal Poly Pomona should note that the following courses are articulated with Glendale College: Core Courses—History 107, 108, 109; Theatre Arts 101 or 102, 107; General Education—Anthropology 102; English 101; Music 101; Philosophy 101; Economics 101, 102; Sociology 101; Psychology 101; Political Science 105 or Social Science 126; History 118 or Social Science 125. Additional information may be found in the Cooperative Curriculum Major Sheet available in the Glendale College Counseling Office.

LIBRARY SCIENCE

There are four graduate library schools in California, located at San Jose State University (see below); University of Southern California; and the University of California at Berkeley, and at Los Angeles. All four schools are accredited by the American Library Association.

The programs at Berkeley and UCLA are primarily graduate programs offering courses leading to the MLS, Ph.D. and DLS degrees (USC also offers these degrees), although Berkeley offers six courses and UCLA two courses to undergraduates. Berkeley, UCLA, and San Jose State are officially accredited by the State of California for their programs. Librarians with a Masters degree in Library Science also qualify for service in a community college under the provisions of the community college credential. A Librarianship credential is available to the holder of a Masters degree in Library Science.

Students should study very carefully the announcements of all four institutions, for no two have exactly the same entrance requirements or feature the same course offerings.

In general, the broadest preparation possible is best, and it should include at least two years of modern foreign languages. See index for general education requirements.

San Jose State University
The Division of Library and Information Science is prepared to offer the Master of Library Science degree which qualifies graduates for professional positions in all types of libraries and information centers.
Programs designed to qualify personnel to meet the certification requirements as school librarians in California and other states are also offered. The educational media approach to school librarianship is emphasized. Students have the opportunity of developing programs jointly planned by the Division of Library and Information Science and the Department of Instructional Technology. To be eligible to complete the graduate year course work for the School Services Credential with authorization as a Librarian the student must meet the same requirements established for persons entering the Master of Library Science degree programs.

**Medical Technology**

California State University, Los Angeles
Biology 101-102, 112; Chemistry 101-103; Mathematics 100 and 102; Physics 105-106

**Medicine**

Pre-medical Studies: Four Years
Students who intend to apply for admission to a medical school and who wish to complete the requirements for a Bachelors degree before such admission should select a major within the College. In addition to fulfilling the requirements for the chosen major, the students are advised to ascertain and satisfy the specific requirements for medical schools to which they expect to apply.

Pre-medical Curriculum: Three Years
It is assumed that as preparation for this curriculum the student will have completed in high school the following subjects: English, four units; United States history, one unit; Mathematics, minimum two units; chemistry, one unit; physics, one unit; foreign language, two units. If possible, the student should also complete in high school intermediate algebra, \( \frac{1}{2} \) unit, and trigonometry, \( \frac{1}{2} \) unit, because these courses cannot be taken in the university. It is important for the students to bear in mind that the class entering the School of Medicine is limited; in the past, there have been a great many more applicants than could be admitted. *(Pre-medical students who, upon the conclusion of their third year find themselves thus excluded from the School of Medicine, may be unable to obtain the Bachelors degree in the College of Letters and Science at the end of the fourth year unless they plan their programs with this contingency in mind. They should, therefore, either enter a major, selecting one with the assistance of a pre-medical advisor, at the beginning of the third year, at the same time meeting all pre-medical requirements, or include in their pre-medical program a sufficient number of appropriate courses in some major department). Provision for the completion of such a major will not prejudice the student's eligibility for admission to the School of Medicine.*

*At University of California, Irvine, this does not apply.

University of California, Davis
Biology 101-102*; Chemistry 101-102, 105-106; English 101-102; Mathematics 103*; Physics 105-106

*Course work through integral calculus and a course in biochemistry are recommended.
University of California, Irvine — California College of Medicine
Applicants must have completed with satisfactory scholarship not less than ninety semester units or the equivalent number of quarter units of pre-medical work in an accredited institution of higher learning. Junior college credit is granted only to the extent admissible upon transfer to a four-year institution. The following courses are required: Chemistry 101-102, 105-106; Physics 105-106; Biology 101-102, 122; Mathematics 103; some course work in Spanish is recommended. One and one half years of Biology is required, one year of which must include general or basic biology and one upper-level biology course excluding botany or biochemistry. Additional work should apply toward the elective and general education requirements along with courses in English, comparative anatomy, and genetics.

University of California, Los Angeles
The following courses are required: Biology 101-102; Chemistry 101, 102, 103, 105, 106; 8 semester units of English including English 101; Physics 105-106 or 101, 102 and 103. Courses in calculus are strongly recommended.
If you intend to apply for admission to medical school and wish to complete the requirements for a bachelor's degree before such admission be sure to check and see if specific courses are required for admission to the major in which you wish to earn your degree.

University of California, San Francisco
Ninety semester units of college work (60 units pre-medical in lower division school) is a minimum requirement for admission to the School of Medicine, however receipt of the baccalaureate degree before admission is strongly recommended. These units must include the subjects in the following list: Biology 101, 102; Chemistry 101-102, 105; Physics 101-102-103, or 105-106.
Detailed description of course requirements is available in the Bulletin of the School of Medicine, San Francisco.

Loma Linda University
The completion of the following studies is required: Biology 101-102; Chemistry 101-102, 105-106; English 101-102; Physics 105-106; Recommended: Mathematics 103, 104, 105.

Stanford University
The Medical College Admission Test is required of all applicants.
While Stanford does accept an occasional student who presents only three years of undergraduate work at the time of matriculation in Medical School, preference in the selection process is given to those who will obtain the Baccalaureate before entering Stanford.
Biological Sciences (10 units): Biology 101, 102; Chemistry (16 units) 101, 102, 103, 105, 106; Physics (8 units) 101, 102, 103
Recommended: English (6 units) 101, 102; Mathematics (20 units) 103, 104, 105, 107, 108

University of Southern California
The completion of the following studies is required: Chemistry 101-102, 105-106; English 101-102; Physics 105-106; and Biology 101-102. It is recommended that additional courses be selected from the requirements in the College of Letters, Arts, and Sciences (see index).
MUSIC

University of California, Irvine

California State University, Long Beach
Students who intend to pursue a Music major (Bachelor of Arts degree) should take the following courses: Music 104 and 105, 106, 107 and 108, 109, 114, 126, 160 and 161 and 162 and 163. Students must also complete a piano and theory proficiency examination. For the Bachelor of Music degree add: Humanities 120.

California State University, Los Angeles
Two bachelor's degrees are offered: a Bachelor of Arts degree in Music, for students who desire a liberal arts degree and/or who wish to teach at the secondary school level, and a Bachelor of Music degree for students who desire professional training in preparation for a performance career. A piano proficiency examination is required of all Music majors in partial fulfillment of graduation requirements. The exam must be taken at Cal State L.A. Music 101, 102, 104, 105, 106, 107, 108, enrollment in performing organizations (e.g., orchestra, band, choir, chorus) is recommended for all music majors.

California State University, Northridge
These courses are required: Music 107, 108, 109, 114, 125 and 126, 138
Electives: Music 130, 131, 132, 133, 141, 142, 152
NOTE: Music courses numbered below 107 are Glendale College prerequisites.

NATURAL RESOURCES

Humboldt State University
At Humboldt State University, the student may obtain a Bachelor of Science Degree in Fisheries, Forestry, Wildlife Management, Oceanography, Natural Resource Planning and Interpretation, and Range Management. An M.S. Degree in Natural Resources is available in Watershed Management and Waste Water Utilization as well as all of the fields listed above except Oceanography and Range Management.

These programs lead to employment by state, federal, or private agencies concerned with water, land and animal research, and management.

For these majors one should carefully check the Humboldt State University catalog or write to the office of Admissions and Records at Humboldt for lower division requirements in physical science, biological science, and mathematics.

NURSING — (R.N.)

Students who wish to enter a baccalaureate program in nursing should consult the catalog of the college or university they wish to attend.
University of California, Los Angeles
To be considered for admission to the nursing program, students must have completed 56 semester units including 13 prerequisite courses before entering the program. The prerequisite courses must be completed with a grade of "C" or better and the cumulative GPA must be at least 2.8 (professional courses are not included when calculating the GPA). Applicants must fulfill the University requirements of Subject A and American History and Institutions also.

The following is a list of courses students should take at Glendale Community College to fulfill the UCLA School of Nursing prerequisites: Anthropology 102; Biology 101, 102, 112, 120; Chemistry 101 and 102, 105; English 101; Family and Consumer Studies 125; Physics 110*; Psychology 101, 103; Sociology 101.

*A student may fulfill this requirement with one year of high school physics with laboratory.

California State University, Long Beach
The following courses may be taken at Glendale Community College for the Bachelor of Science degree in Nursing: Biology 112, 121; Psychology 101; Sociology 101

California State University, Los Angeles
Biology 112, 120, 121; Chemistry 120, 121; Psychology 101; Sociology 101; Speech 101.

Students who transfer from community colleges with an Associate of Arts degree in Nursing and the R.N license are admitted to the upper division program. This professional program is designed for students who have completed the lower division technical nursing courses in accredited colleges and universities, including California State University, Los Angeles. Nursing majors are required to earn a grade of "C" or higher in all nursing courses and in all natural and social science courses prerequisite or corequisite to the nursing major.

Loma Linda University
No college subjects are required unless there are high school deficiencies and ACT or SAT scores below the 50th percentile in English and/or Mathematics. Minimum GPA 2.8 required with a grade of "C" or better in English, mathematics, chemistry, physics, and biology.

Michigan Language Test required of students whose first language is not English.

Admission requirements on the high school or community college level include:

Science: 1 complete year each of Biology, Chemistry, and Physics with laboratory experience
Mathematics: 3 full years including Algebra 1 and Algebra 2
English: 3 full years, excluding Business English
History/Social Science: 2 complete years

Mount St. Mary's College
The Bachelor of Science degree with a major in Nursing is offered. In addition to the general education requirements, prerequisite psychology and sociology. The following courses may be transferred to meet these prerequisites: Biology 120-121; Chemistry 120-121; Psychology 101 and 106; Speech 100; and Sociology 101. It is advised that students contact the Nursing Department early for additional prerequisite courses.

Students planning to complete the work for the Bachelor of Science degree should include the following courses:
Skill Levels: English 101-102; “Pass” on the Mathematics Skill Level Examination. These courses are required: Biology 112, 120, 121; Chemistry 101 and 105 or 120 and 121; Psychology 101, 106, 107; Sociology 101.

**NUTRITION — FOOD SCIENCES**

**University of California, Berkeley**

Students planning to complete the work for the Bachelor of Science degree should include the following courses: Biology 112, 121; Chemistry 101 and 102, 105 and 106; English 101 and 102; Family and Consumer Studies 125; Mathematics 103; Psychology 107 or Economics 107 or Sociology 107.

**California State University, Long Beach**

Students planning to pursue a major in Dietetics and Food Administration (Bachelor of Science degree) should take the following courses: Anthropology 102; Biology 112, 121; Chemistry 101; Economics 101, 102; English 101; Family and Consumer Studies 125; Physics 110; Psychology 101; Sociology 101. In place of Mathematics 102, competency demonstrated by the Mathematics Placement Test may be substituted.

**California State University, Los Angeles**

(Bachelor of Science degree-Home Economics, option: Food, Nutrition and Dietetics)

Students planning to complete the work for the Bachelor of Science Degree should include the following courses: Biology 112, 120, 121; Chemistry 120-121; Family and Consumer Studies 135; Psychology 101, 131; Sociology 101 or Anthropology 102.

Electives: Accounting 101; Computer and Information Systems 101 and either 110 or 150; Economics 105; Physics 110. A minimum “C” grade is required in all courses used to meet requirements for this major.

Also available is the Coordinated Undergraduate Dietetics Program (CUDP) which is coordinated with the Bachelor of Science degree in Home Economics, option in Food, Nutrition, and Dietetics. The four-year program is designed to integrate academic preparation and clinical experience needed by the generalist in dietetics. Students who complete the degree requirements in the CUDP are eligible for membership in the American Dietetic Association (ADA). Upon passing an examination administered by the ADA, graduates are qualified as Registered Dietitians. Students who wish to enter the CUDP must fulfill supplementary admission requirements stated in the Cal State L.A. catalog. Further information is available from Cal State L.A.’s Department of Family Studies and Consumer Sciences. Community college students may complete the above lower division requirements before transferring and must have a minimum 2.6 grade point average both overall and in the major, with no grades lower than “C” in courses required for membership in the ADA.

**California State University, Northridge**

Option 2, Business: Consult a counselor about requirements. Option 3, Dietetics: Biology 112, 121, 122; Chemistry 120-121; English 101; Family and Consumer Studies 105, 125; Mathematics 101; Psychology 101

Additional Lower division home economics courses and 1 semester of organic chemistry will be completed after transfer.
OCCUPATIONAL THERAPY

San Jose State University
Upper division transfer student applies directly to San Jose State University, Office of Admissions and Records. The student declares a major of B.S., Occupational Therapy. Applications are accepted beginning November 1 for the subsequent Fall semester and beginning August 1 for the subsequent Spring semester. It is important that students apply as soon as possible.

Upper division students seeking entry into the program are required to meet certain prerequisites set by the Occupational Therapy Department. These prerequisites are:
1) Completion of 56 or more transferable semester (84 quarter) units prior to enrollment in the first Occupational Therapy course. 2) Completion of the following prerequisite courses with a grade of "C" or better: Biology 120, 121; Psychology 101; Sociology 101 or Anthropology 102; a skills course (ceramics, weaving, printing, etc.).

University of Southern California
Required courses: Anthropology 102; Biology 101, 120, 121; English 101, 102; Family Consumer and Studies 135, 136; Psychology 101 or Sociology 101

OCEANOGRAPHY

Scripps Institution of Oceanography
Candidates for admission to the Graduate Department of the Scripps Institution of Oceanography should have a bachelor's or master's degree in one of the physical, biological, or earth sciences; in some cases a degree in mathematics or engineering science is accepted. The student's preparation should include:
2. Physics, one year with laboratory (the course should stress the fundamentals of mechanics, electricity, magnetism, optics, and thermodynamics and should use calculus in its exposition) — Physics 105-106 or 101-102.
3. Chemistry, one year with laboratory — Chemistry 101-102.
4. An additional year of physics or chemistry — Chemistry 105-106 or Physics 103.
5. Biology and geology, minimum of one quarter each — Biology 101-102, Geology 105-110.
6. Preparation in at least one foreign language chosen from the following: German, Russian, a Romance language.
7. Applicants for admission are required to submit scores on the verbal and quantitative tests of the Graduate Record Examination given by the Educational Testing Service of Princeton, New Jersey.

For specific additional requirements for admission to the various curricular programs see: UCSD General Catalog.

OPTOMETRY

University of California, Berkeley
Students are only admitted into the School of Optometry during the Fall semester of each academic year.
The School offers a four-year curriculum leading to the Doctor of Optometry Degree. Eligible for admission consideration are students who have completed at least 90 semester units or 135 quarter units and also the prerequisite subjects for the study of optometry and meet the minimum grade-point average requirements as stated in the University General Catalog.

The following courses are required: Biology 112; Chemistry 101, 102, 105; Psychology 107; Mathematics 104-105; English 101-102; Physics 105-106; Psychology 101; Biology 101-102.

The following courses are recommended: Chemistry 106; Mathematics 104; Psychology 102.

The following courses should be taken at any accredited four-year college or university: one course in human anatomy and one course in human physiology. Courses in anatomy and physiology must have a laboratory.

**Southern California College of Optometry**

Required 60 units for entrance including: Art, Music, Literature 3 units*; Biology 101, 102, 112; Chemistry 101, 102, 105; English 101-102; Mathematics 103; Philosophy 101*; Physics 105-106; Psychology 101-102, 107; SocialSciences (6 units); Speech or Foreign Language (6 units)*; A GPA of 2.0 in all courses is required. Students without a Bachelors degree must demonstrate exceptionally high scholastic achievement.

*Optional for Bachelor of Science Degree candidates.

**PHARMACY**

**University of California, San Francisco**

Completion of sixty semester units of college work is a minimum requirement for admission to the School of Pharmacy. These units must include the subjects in the following list: Biology 101-102*; Chemistry 101-102, 103, 105-106; English 101-102; Mathematics 103-104; Physics 105-106;

Electives: 18 Semester Units; 28 Quarter Units

Electives must be taken in areas of general education (courses in the behavioral, social, and humanistic areas of knowledge).

*A year course in general biology of six semester units plus four semester units of vertebrate zoology, or two semesters of zoology may be substituted.

**University of Southern California**

The prepharmacy requirements are essential preparation for a rigorous four-year professional curriculum in the School of Pharmacy. Because of scheduling, it may not be possible to arrange all prepharmacy requirements into a four-semester course of study. It is recommended that, if necessary, summer sessions be used to meet non-science prerequisites. An entrance examination is not required. An interview may be required. Admission requires two years (60 semester units) of acceptable college work including the following courses: Biology 101-102; Chemistry 101-102, 105-106 Mathematics 103 (Mathematics 104 is strongly recommended); Psychology 101, 107; Physics 105-106 are recommended.

Other recommended subject areas: anthropology, geography, sociology, and political science.

Humanities: A minimum of two courses in literature, philosophy, history, ethics, foreign language or fine arts, totaling at least 6 semester units.
PHYSICAL SCIENCES

University of California, Irvine
All Physical Sciences Majors: In addition to fulfilling the UCI breadth requirement students must complete one additional year sequence from breadth Categories III, IV, or the Foreign Language or Linguistics section of Category V. The approved sequences are the same ones listed for the UCI Breadth Requirement, with the exception that a first-year foreign language sequence is also acceptable. (Reading knowledge of French, German or Russian is recommended for all Physical Science majors.)

Chemistry majors may take the following acceptable transfer courses: Chemistry 101-102, 103*, 105-106; Mathematics 103+-104; Physics 101+-102+. Recommended but not required: Mathematics 105 and 107.

Mathematics majors may take the following acceptable transfer courses: Chemistry 101-102 or Physics 101+-102+; Computer Information systems 130+ or 150+; Mathematics 103+-104, 105 and 107; and two additional courses chosen from Chemistry 101-102; Mathematics 108; Physics 101+-102+-103+; and a one year sequence in a Foreign Language.

Physics majors may take the following acceptable transfer courses: Chemistry 101-102; Mathematics 103+-104, 105 and 107; Physics 101+-102+-103+; Electrical Engineering 75 may be taken at UCI the summer before entrance.

Biomedical Physics majors may take the following transfer courses: Biology 101-102; Chemistry 101-102, 105-106.

*Students must complete Chemistry 152 at UCI
+University of California, Irvine credit limit

PHYSICAL THERAPY

Physical therapists treat patients who have disabilities resulting from accidents, congenital defects, or illnesses. On referral by a physician, they (1) evaluate the capabilities of patients by various physical tests; (2) treat patients by using therapeutic exercise and physical agents; such as, heat, cold, electricity, and ultrasound; and (3) teach patients and their families appropriate home treatment and care — all with the aim of achieving the greatest possible restoration of function.

Students planning to enter the field should complete two or three years at Glendale Community College and/or transfer to an institution offering a Bachelor's Degree in physical therapy, or complete the work for the Bachelor's Degree and apply for admission to a Certificate or a Master's Degree program. Prerequisite courses are required.

Accredited programs are approved by the American Physical Therapy Association. Eight such programs are available in California: University of California, San Francisco; Los Angeles; Loma Linda University, Loma Linda; California State University, Fresno; California State University, Long Beach; Mount St. Mary's College; California State University Northridge; and University of Southern California. The prerequisite courses and type and length of the curricula vary: for information, write to the Directors of the Physical Therapy Program.

Note: Students should plan to spend at least one year in the academic community at the university at which they intend to complete the work in physical therapy.*

Work experience is required in most cases.

*At University of California, San Francisco this is not necessary.
California State University, Long Beach
The following courses are required: Biology 120, 121; Physics 105 and 106; Psychology 101; Sociology 107; 1 three unit statistics course is acceptable.

California State University, Northridge
The Bachelor of Science degree in Health Science is offered, with an option in Physical Therapy. Competition for admission to the program is rigorous, and students are advised to consult a counselor regarding requirements. While at Glendale, students should include the following courses in their programs: Psychology 101, Sociology 101, Biology 120, 121, 122; Chemistry 101-102 or 120-121, Physics 105, 106, Mathematics 101, 102 (or CSUN Mathematics 106 after transfer).

Chapman College, Los Angeles/Children's Hospital of Los Angeles
A Masters of Physical Therapy is offered. To be eligible for admission an applicant must have completed or be in the last year of a baccalaureate degree. In addition, the applicant must have completed the following courses: 2 years biology, 1 year sequence of chemistry with labs, 1 year sequence of physics with labs, 1 year human anatomy, 1 year physiology, 2 years psychology, and 1 year statistics. Volunteer experience is highly recommended.

Loma Linda University
The Bachelor of Science degree is offered in Physical Therapy. It is highly recommended that students should contact the Physical Therapy Department early in the pre-Physical Therapy courses.

Mount St. Mary's College
The Bachelor of Science degree in Physical Therapy is offered. In addition to the general education requirements, prerequisites must be completed in biology, chemistry, physics, psychology and sociology. The following courses may be transferred to meet these prerequisites: Biology 101, 115 or 102 or 120, 121; Chemistry 101-102 or 120-121; Physics 105-106; Psychology 101, 106 and Sociology 101. It is advised that students contact the Physical Therapy Department early for additional prerequisite courses.

University of Southern California
in preparation for admission to the Department of Physical Therapy at the University of Southern California, students should complete the requirements shown for the College of Letters, Arts, and Sciences (see index) as well as additional requirements in Natural Sciences. Science credit must include Biology 101-102; Chemistry 101, 102; Physics 105, 106. Psychology 101 should be taken as one of the Social Sciences, along with two additional Psychology courses to be completed after transfer. It is highly recommended that students must obtain approval before registering for humanities and social science courses.

Two additional courses in biology are required, but must be approved by the USC Physical Therapy Department before enrollment in the said courses: Human Anatomy with lab; Human Physiology with lab. Lab work must include work with human cadavers.
POLITICAL SCIENCE

California State University, Los Angeles
The following courses are required: Political Science 102, 107; Computer and Information Systems 105.

GENERAL POLITICAL SCIENCE OPTION: Core courses: Computer and Information Systems 105; Political Science 102, 107. Select eight semester units from the following: Economics 101, 102; History* 107, 108, 109 are required.

*Limit two courses from history

PRELEGAL OPTION: Core courses: Computer and Information Systems 105; Political Science 102, 107. Economics 101, 102; History 117, 118 are required.

PUBLIC ADMINISTRATION OPTION—Core requirements: Political Science 102, 107; Computer and Information Systems 105; Accounting 101 or Economics 101

PSYCHOLOGY

The lower division requirements of the College of Letters and Science of the college or university to which they intend to transfer should be followed by students planning to major in psychology (see index).

University of California at Los Angeles
Courses applicable on the preparation for the Psychology major: Anthropology 101; Biology 102 or 122; Chemistry 101 or 110; Mathematics 103 and 104 or 111; Philosophy 101 or 116 or 117 or 119 or 120; Physics 101 or 105 or 110; Psychology 101, 107.

Courses applicable on the preparation for the Psychobiology Major: Biology 101, 102; Chemistry 101, 102, 103, 105, 106; Mathematics 103, 104, 105; either Physics 101, 102 and 103 or 105 and 106; Psychology 101, 107.

California State University, Los Angeles
Psychology 101, 103, 107; competence in one modern foreign language is recommended.

California State University, Northridge
Psychology 101, 103*, 107

*Does not satisfy mathematics requirement unless student is certified in general education; see a counselor for details.

REHABILITATION COUNSELING

California State University, Los Angeles
Psychology 101 and Sociology 101 are required.

SOCIAL WORK

California State University, Los Angeles
The following courses are required: Psychology 101; Sociology 101, 102, 107.
TEACHING

A credential of the proper type is necessary for teaching in the public schools of the various states. Students planning to teach in California must complete the requirements for the type of credential they expect to use. The Ryan Act passed by the California State Legislature in 1970 details credential regulations; the implementation of this law is the responsibility of the Commission for Teacher Credentialing in conjunction with colleges and universities which have approved programs for the various California credentials.

Specialization in Elementary or Secondary teaching requires a bachelors degree with an approved major, a fifth year consisting of 30 semester units of upper division or graduate work, and specific preparation in general education and professional education. Students who are interested in a teaching career in California should consult the requirements of the teacher training institution of their choice.

Specialization in Community College teaching requires a masters degree, doctorate or other postgraduate degree requiring not less than five years of college or university education. This preparation can be in most areas other than professional education.

California State University, Los Angeles

Multiple Subject Teaching Credential: To obtain the Multiple Subject teaching credential students may major in any one of the following approved programs at California State University, Los Angeles: Liberal Studies, Child Development, Mexican-American Studies, or Afro-American Studies.

Single Subject Teaching Credential: To obtain the Single Subject teaching credential required to teach at the high school level, students should major in one of the following subjects at Cal State L.A.: art, biology, business education, English, French, health and safety studies, home economics, industrial arts, Japanese, mathematics, music, physical education, social science, or Spanish. Additional courses in education are required.

For further information about all credential programs, contact the School of Education, Student Services Center, (213) 224-3777.

California State University, Northridge

Programs leading toward certification as a teacher at the elementary school or secondary school levels are offered at CSUN. The Liberal Studies major meets state requirements for the Multiple Subjects Credential. Prospective high school teachers should select a specific subject field major acceptable for credentialing purposes. Students are encouraged to contact the Credential Preparation Office in the CSUN School of Education (885-2586) for details regarding appropriate preparation for a teaching career.

Pacific Oaks College, Teaching Preschool and Elementary School

Pacific Oaks College is a unique educational institution offering upper division and graduate-level college programs in human development, teaching credentials, and a variety of children’s programs.

Three basic concepts underlie Pacific Oaks’ educational philosophy: that growth is a dynamic and life-long process; that every individual has a fundamental worth; and that each person, no matter how young or old, has a unique identity and human potential which she/he contributes to the lives of all with whom she/he comes in contact.
Pacific Oaks curriculum prepares for teaching in a wide variety of programs including Day Care, Head Start and elementary school and also for advanced study leading to such careers as parent education leadership, child welfare work, marriage, family and child counseling, research, child development laboratory and community college teaching, and early childhood administration and supervision.

A student may enroll in a program leading to a California Multiple Subject Teaching Credential, which authorizes teaching in preschool through 12th grade in self-contained classrooms. A preliminary credential requires a B.A. in Human Development, passing the California Basic Education Skills Test (CBEST), the National Teachers Examination (NTE) General Knowledge section, and professional preparation which may be included as part of the B.A. program or completed in a 5th-year post-baccalaureate program.

Students may complete all academic and field work requirements for a children’s center permit.

**University of Southern California**

Multiple Subject Teaching Credential—Students at USC wishing to obtain the Multiple Subject teaching credential (required for elementary teachers) are advised to major in General Studies (B.S.), offered by the School of Education.

Single Subject Teaching Credential—Prospective high school teachers are required to major in a single subject. The following majors leading to the credential are offered at USC: English, physical science, life science, mathematics, social science, history, government, physical education, music, art, and languages.

For information concerning transferable courses and degree requirements, students are advised to contact USC’s School of Education, Student Affairs Specialist, Waite Phillips Hall (WPH) 1004A.

**THEATRE ARTS**

**California State University, Long Beach**

For the Bachelor of Arts degree in Theatre Arts students should take the following courses: Theatre Arts 103 and 104, 109 and 110, 123, 131, 134. In addition, students must complete 4 running crew assignments, 1 per area, at CSULB.

**California State University, Los Angeles**

For the Bachelor of Arts degree in Theatre Arts, students should complete the following courses: Theatre Arts 102, 103, 104, 105, 107, 109, 110, 121, 123, 131, 134.

Four options are offered: Acting-Directing, Dance, Technical Theatre, Theatre History and Literature.

**VETERINARY MEDICINE**

**University of California, Davis**

Veterinary medicine is the science and art that deals with the prevention, control, cure and alleviation of animal diseases and the prevention of the spreading of diseases from animals to humans. Modern veterinary medicine is a profession that offers increasing opportunities for interesting and challenging careers.

The School of Veterinary Medicine — a graduate program, offers a four-year curriculum leading to the Degree of Doctor of Veterinary Medicine. This training provides the technical knowledge necessary for work in veterinary practice, animal care and
disease control, food quality control, and industrial veterinary medicine. Further specialization provides additional opportunities in teaching, biomedical research, and public health.

Nearly two-thirds of all veterinarians enter private practice. Many veterinarians are employed by the federal, state, and municipal governments. Veterinarians also hold positions in the United States Army and Air Force and in many areas of national defense, such as nuclear energy, atomic aircraft and rocketry, and space exploration. There are also many opportunities for teaching and research in schools, colleges, and medical research programs. Manufacturers of drugs and biological products, such as vaccines and animal feeds, and many other industries employ veterinarians.

The demand for graduate veterinarians far exceeds the supply. In the United States today many hundreds of additional veterinarians could be immediately placed in well-paying jobs. However, it is extremely difficult to be admitted to a school of veterinary medicine. Each school has several times as many applicants as spaces available. Other states send back the applications of Californians. Over 80 percent of admitted students already possess a bachelor's degree.

Recent national surveys and projected needs indicate a growing demand for the professional services unique to the veterinarian. Despite expansion of existing schools of veterinary medicine, an essential deficit of graduate veterinarians will continue for many years.

A minimum of seven years of college is necessary to complete the requirements for the Degree, Doctor of Veterinary Medicine; however, for the past several years the D.V.M. graduates have averaged eight or more years of college.

The first step which must be completed is called the pre-veterinary medical curriculum. This consists of a series of required courses most of which can be completed in two years at the Glendale Community College. Additional required pre-professional work may be taken in any accredited university or four-year college. Following completion of the pre-professional medical curriculum the student applies for admission to the School of Veterinary Medicine. If they are accepted, they then begin the four-year professional curriculum in veterinary medicine. The Degree, Doctor of Veterinary Medicine, is awarded after successful completion of the four-year professional curriculum.

With the exception of vertebrate embryology, biochemistry, systemic physiology, and genetics the pre-professional medical curriculum may be completed at Glendale Community College. The following courses are required: Chemistry 101-102, 105; Physics 105-106; Biology 101-102; Economics 107; English 101 plus English 102 or Speech 101. To complete the required 56 units students should select courses in the social sciences, humanities or biological sciences which will best prepare them for a Baccalaureate Degree after transfer to a four-year institution. Students will not be admitted to the School of Veterinary Medicine with less than three years of pre-professional work. The Aptitude Test and the Advanced Test in Biology of the Graduate Record Examination are required of all applicants.
COURSE DESCRIPTIONS

Courses are listed in numerical order under department headings, which are in alphabetical order.

Each course is listed by number with the course title and the number of units. Following each course description are the number of hours of lecture and laboratory and prerequisites of the course. Transferability of the course is indicated for institutions to which students tend to matriculate.

Whenever 'equivalent' is listed as an alternative prerequisite, it is understood to indicate knowledge and/or skills learned through personal experience, education, and/or training equivalent to listed prerequisite courses. The criteria for such equivalency are established by each instructional discipline to ascertain whether there has been sufficient mastery of the content of the academic prerequisite.

Whether or not all courses described will be offered during the present academic year will depend on the student enrollment.

Variable Units

Certain courses in this catalog have variable units indicated and specify the maximum number of units that may be acquired by repetitive enrollment in the class. Students who complete variable unit classes and earn less than the maximum units as indicated may repeat those classes only until the maximum indicated units have been earned.

Open Enrollment

Unless specifically exempted by statute, every course, course section, or class for which average daily attendance is to be reported for state aid shall be open for enrollment and participation by any person who has been admitted to the College and who meets the prerequisites of such courses.

-150—Colloquia 1-3 Units
Glendale Community College may make available in the curriculum of each division, lower division units of study known as colloquia. The purposes of a colloquium are to broaden a student’s general education, to provide a means for a specific study in depth, to offer areas of study of meaningful interest to the student, to stimulate serious thought, and to encourage greater student-faculty relationships. Emphasis shall be on discussion and analysis based on subjects, issues, or ideas of continuing importance or lasting significance. Prerequisite: None. Note: 15 hours minimum of Colloquia per unit of credit. Transfer Credit: CSU, UC

-149—Independent Study 1-3 Units
Glendale Community College may make available in the curriculum of each division lower division units of study known as Independent Study. The purpose of the Independent Study course is to provide gifted students with an opportunity to explore a subject in greater depth than usual; to familiarize students with some basic research techniques; to interest students in possible career areas; and to take advantage of special academic interests. Emphasis shall be on individual research projects, library research and preparation of research papers. There is no prescribed course outline. Students develop a research project, have it approved by the sponsoring instructor and appropriate division chairperson, then submit the finished project; which may be library research, or perhaps a supervised experimental program related to a specific course of instruction. Registration is open to any student at Glendale Community College who is currently registered for six (6) or more units and who is admitted to Independent Study by the instructor. A student is limited to one Independent Study per semester and to no more than 12 units for credit toward the AA Degree or Certificate and no more than six (6) units per division. The units received may be acceptable for college transfer subject to the approval of the individual college. The instructor shall make arrangements for students' Independent Study registration with the Admissions office. Attendance accounting procedures shall be cleared with the Admissions and Records office by the instructor. Prerequisite: Concurrent registration in six or more units. Transfer Credit: CSU, UC
118 1987-88 GLENDALE COMMUNITY COLLEGE CATALOG

148—International Field Study 1-6 Units
Provides units of credit for travel and study in foreign countries at the student's own expense in programs provided by agencies approved in advance by the College and under the direction of a Glendale Community College instructor. (The agency must be bonded or maintain a trust account.) One unit of elective credit to be offered for each six days of foreign travel and study, up to a maximum of six units. Lecture: Hours to be arranged. Laboratory: Hours to be arranged. Prerequisite: None. Note: Approval of program and units of credit attempted must be obtained from the Executive Vice President, Instructional Services prior to foreign travel. Transfer Credit: CSU

148—National Field Study 1-6 Units
One unit of elective credit to be offered for six days of supervised travel and study up to a maximum of six units for 36 days, under the direction of a credentialed instructor. Prerequisite: Approval of program and units of credit attempted must be obtained from the Executive Vice President, Instructional Services prior to the domestic travel. Transfer Credit: CSU

150—Special Projects 1-3 Units
Glendale Community College makes available in the curriculum of some divisions, units of study designated as special projects. The purpose of the Special Projects Program is to provide all students with an opportunity to explore subjects in the non-transfer courses of community college grade in greater depth than usual; to familiarize students with basic study technique; to interest students in possible career areas; and to take advantage of special interests relating to the instructional program. Emphasis is placed on a study relating to the individual needs of a student to enhance and reinforce the college learning experience. The courses do not follow a prescribed outline, but a project and/or contract is developed with the assistance of the sponsoring instructor and appropriate division. The instructor will supervise the program requiring community college level of work to be completed in not less than eighteen (18) hours of each unit of credit earned. Registration will be open to those students enrolled in six (6) or more units and is approved for the program by an instructor. No more than twelve units of special projects and independent study will be credited toward A.A., A.S. degree or certificate with a limit of six (6) units per division. A student may not register in more than one special project per semester and may not be enrolled concurrently in independent study. The instructor shall make arrangements for students' special projects registration with the Admission and Records Office. Attendance accounting procedures shall be cleared with the Admissions and Records Office by the instructor. Prerequisite: None.

ACCOUNTING

101—Principles of Accounting I 5 Units
Accounting 101 thoroughly covers the accounting equation, the theory of debit and credit, the classification of accounts, the study of recording, analyzing and summarizing procedures in modern accounting practice; the preparation and analysis of balance sheets and income statements payroll, systems design and automated data processing. Lecture 5 hours. Prerequisite: None. Note: Required of business administration majors; this sequence (Accounting 101 and Accounting 102) satisfies lower division accounting requirements for most four-year colleges. Transfer Credit: CSU, UC, USC

102—Principles of Accounting II 5 Units
Accounting 102 is a continuation of Accounting 101. Deals with partnership and corporation accounts; manufacturing and cost accounting (including job order, process, and standard); absorption costing and variable costing; cost-volume-profit analysis; tax accounting, construction and use of accounting statements and reports for management control and decisionmaking purposes; financial statement analysis. Lecture 5 hours. Prerequisite: Accounting 101 with a grade of "C" or better or equivalent. Note: Required of business administration majors; this sequence (Accounting 101 and Accounting 102) satisfies lower division accounting requirements for most four-year colleges. Transfer Credit: CSU, UC, USC

110—Basic Accounting I 4 Units
Accounting 110 is an introductory course in bookkeeping including study of the accounting equation, the theory of debit and credit, accounting devices, working papers and business forms, and the preparation of balance sheets and income statements. Lecture 4 hours, laboratory 1 hour. Prerequisite: None. Note: Recommended for students who do not intend to transfer to a four-year college. Business—General 130 should precede or be taken concurrently. No credit will be allowed for Accounting 110 if taken concurrently with Accounting 101 or after completion of Accounting 101 or Accounting 102 with "C" grade or better.
120—Computerized Accounting Systems 4 Units
Accounting 120 provides students with entry level skills required for employment in the field of computerized accounting. Lecture 3 hours, laboratory 3 hours. Prerequisite: A grade of “C” or better in either Accounting 101 or Accounting 110.

150—Principles of Income Taxation 3 Units
Accounting 150 is a course that focuses on the analysis and preparation of tax returns, itemized deductions, and a technical proficiency in Federal tax law as it applies to the individual. This course provides the foundation of knowledge required for tax practitioners. Lecture 3 hours. Prerequisite: None. Note: This course may be taken 4 times; a maximum of 12 units may be earned.

155—Volunteer Income Tax Assistance 2 Units
Accounting 155 is a course that teaches and then applies the fundamental knowledge of Income Tax Preparation. With the assistance of the instructor and Internal Revenue agents, students will assist low income and disadvantaged citizens in the community in the preparation of federal tax forms. Lecture 1½ hours, laboratory 1½ hours. Prerequisite: None. Note: This course is designed for non-professionals.

160—Advanced Income Taxation 3 Units
Accounting 160 covers the tax effects of accounting methods, rental and royalty income, business income and expenses, mechanisms for realizing income such as corporations and partnerships, and minimization of taxes through tax planning. This course is of assistance to tax practitioners, individuals seeking an overview of the various methods of taxation, and those planning to take the Enrolled Agents examination given by the I.R.S. Lecture 3 hours. Prerequisite: Accounting 150 or equivalent. Note: This course may be taken 4 times; a maximum of 12 units may be earned. Transfer credit: CSU

101—Introduction to the Administration of Justice 3 Units
Administration of Justice 101 covers the history and philosophy of administration of justice in America; recapitulation of the system; identification of the various sub-systems, role expectations, and their interrelationships; theories of crime, punishment, and rehabilitation; ethics, education, and training for professionalism in the system. Lecture 3 hours. Prerequisite: A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent. Transfer credit: CSU, UC, USC

103—Concepts of Criminal Law 1-3 Units
The legal definition of crime and defenses; purposes and functions of the substantive criminal law; historical foundations; the limits of the criminal law; focus upon the case study approach. Lecture 3 hours. Prerequisite: Introduction to Administration of Justice 101 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer credit: CSU, UC, USC

107—Community Relations 1-3 Units
In-depth exploration of the roles of administration of justice practitioners and their agencies. Through interaction and study, the student will become aware of the interrelationships and role expectations among the various agencies and the public. Principal emphasis is placed upon the professional image of the system of administration of justice and the development of positive relationships between members of the system and the public. Lecture 3 hours. Prerequisite: Introduction to Administration of Justice 101 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer credit: UC, USC

108—Contemporary Police Operations and Issues 1-3 Units
Designed to develop basic understandings and a reasonable degree of skill with reference to the following problems and issues: responsibilities, power, and duties of the patrol officer; discretion; patrol procedures; field interrogation; preliminary handling of field problems; stake-outs; arrest procedures; vehicle code and transportation of prisoners; special police problems; moral and legal
aspects of firearm usage. The course will also cover contemporary issues in Police operations such as patrol efficiency, crime prevention, corruption, recruitment, training and stress management. Lecture 3 hours. Prerequisite: Introduction to Administration of Justice 101 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer credit: CSU

• 110—Principles and Procedures of the Justice System 1-3 Units
Administration of Justice 110 presents an in-depth study of the role and responsibilities of each segment within the administration of justice system. Law enforcement, judicial, corrections. A past, present, and future exposure to each subsystem procedures from initial entry to final disposition and the relationship each segment maintains with its system members. There will be special emphasis on the judicial processes. Lecture 3 hours. Prerequisite: Administration of Justice 101 or concurrent enrollment in Administration of Justice 101. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer credit: CSU, UC, USC

• 111—Crime and Delinquency in American Society 3 Units
The study of deviant behavior as it relates to the definition of crime; crime statistics, theories of crime causation; offenses, typologies. Lecture 3 hours. Prerequisite: Administration of Justice 101.

• 113—Introduction to American Correctional Systems 3 Units
Administration of Justice 113 presents an overview of the American Correctional Systems. The course will survey the nature and function of Corrections in America and its relationship to the justice system. The offender will be traced from judicial sentencing through release. Some of the current issues covered will be prison unrest, punishment, jail reform, juvenile corrections, probation, parole, recidivism and correctional training. Lecture 3 hours. Prerequisite: A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent.

• 114—Traffic Control 1-3 Units
A study of the principles and practices of accident investigation including the purposes of investigation, selective enforcement procedure and data use, hit-and-run accidents, determination of speed from skid marks, the nature and use of the intoxication testing devices, and field practice in actual cases. Lecture 3 hours. Prerequisite: A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer credit: CSU

• 116—Criminal Investigation 1-3 Units
Fundamentals of investigation; crime scene search and recording; collection and preservation of physical evidence; scientific aids; modus operandi; sources of information; interviews and interrogation; follow-up and case preparation; mechanical truth devices; truth serums; crime laboratory. Lecture 3 hours. Prerequisite: Introduction to Administration of Justice 101 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer credit: CSU

• 117—Crisis Intervention 1-3 Units
Administration of Justice 117 is designed to provide those skills necessary to deal with interpersonal conflict. The course will address some of the interpersonal problems creating stress, conflict and anger. There will be a review of some of the basic psychological techniques used in dealing with interpersonal problems. Specifically, the course will familiarize the student with intervention techniques in attempt suicides, death/ injury notifications, domestic situations, disputes between landlord and tenant and intervention techniques with crime victims. The course will cover recommended techniques in dealing with job related stress. A review of theoretical concepts and practical role playing situations will provide the framework for the course. Prerequisite: A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

• 118—Youthful Offenders 1-3 Units
The course will review the organization, functions, and jurisdiction of juvenile agencies; the processing and detention of juveniles; juvenile case disposition; juvenile statutes and court procedures. There will be discussions on selected delinquency theories and a review of current correctional methods utilized in the treatment and control of juvenile delinquency in America. Lecture 3 hours. Prerequisite: Administration of Justice 101 or concurrent enrollment in Administration of Justice 101. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer credit: CSU
• 120—Legal Aspects of Evidence  1-3 Units
Administration of Justice 120 is concerning the origin, development, philosophy, and constitutional and procedural considerations affecting arrest, search, and seizure; kinds and degrees of evidence and rules governing admissibility; judicial decisions interpreting individual rights and case studies. Lecture 3 hours. **Prerequisite:** Introduction to Administration of Justice 101 or equivalent. **Note:** This course may be taken 2 times; a maximum of 6 units may be earned. **Transfer credit: CSU**

• 129—Special Crimes and Dangerous Drugs  1-3 Units
Designed to give all levels of law enforcement officers a fundamental understanding of narcotic addiction and the effects of hypnotic drugs as these factors are involved in the daily routine of police work review of the principles of detecting and investigating special crime offenses. The course will also focus on gambling, confidence games, loansharking, prostitution and other crimes associated with organized crime activity. Lecture 3 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent. **Note:** This course may be taken 2 times; a maximum of 6 units may be earned.

• 130—Law Enforcement Supervision and Management  1-3 Units
Designed to provide an overview of the basic concepts, problems, issues, and concerns of a contemporary police organization. There are four major areas the course will examine and evaluate: the preparation of the individual officer for future promotional examinations, the current major police supervisory principles and ideologies, the proven techniques and skills required in the practice of sound supervision in police service, and a survey of management theory. Lecture 3 hours. **Prerequisite:** Introduction to Administration of Justice 101 or equivalent. **Note:** This course may be taken 2 times; a maximum of 6 units may be earned.

• 134—Report Writing  1-3 Units
A survey of report writing and Records and Identification Bureaus. A study to aid police officers to analyze what they see, and to make a permanent and coherent record of facts to be used in criminal prosecution and administration procedures. Lecture 3 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent. **Note:** This course may be taken 2 times; a maximum of 6 units may be earned.

• 150—First Aid and Cardiopulmonary Resuscitation  1½ Units
This is a specialized course designed to benefit students in the Administration of Justice program through mastery of first aid and personal safety/cardiopulmonary resuscitation as well as handling common emergency medical problems. Successful completion will qualify the student for first aid and CPR certification. Lecture 24 semester hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164, or English 191, or equivalent. **Note:** This course will be offered in various time segments depending upon scheduling needs. **Transfer credit: USC**

• 151—Decisional Law  1½ Units
This specialized course is designed to provide the latest knowledge of case law decisions affecting substantive, procedural, and civil law in both California and Federal jurisdictions. Lecture 24 semester hours. **Prerequisite:** Successful completion of Administration of Justice 101, 103, 114 or equivalents of all. **Note:** This course will be offered in various time segments depending upon scheduling needs.

• 152—Advanced Report Writing  1½ Units
This is an advanced course in technical and narrative police report writing, with emphasis on maximum utilization of written communication skills for recording and transmission of perception and observation. Lecture 24 semester hours. **Prerequisite:** Administration of Justice 134 or equivalent. **Note:** This course will be offered in various time segments depending upon scheduling needs.

• 153—Arrest and Firearms  1½-2 Units
Administration of Justice 153 fulfills the 40 hour requirements of PC.832. It is a training program covering arrest, search, seizure, and the moral and legal aspects of firearms usage. A portion of the course will be reserved for firearms application. Lecture 32 hours per semester, laboratory 8 hours per semester. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164, or English 191, or equivalent. **Note:** This course may be taken 3 times; a maximum of 3 units may be earned.
155—Firearms Awareness for Citizens ½-1 Unit
Administration of Justice 155 is designed primarily for citizens. The course is also certified by the Department of Consumer Affairs for security officers. Lecture 15 hours, laboratory 4 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent. **Note:** This course may be taken 3 times; a maximum of 3 units may be earned.

201—Supervisory Training ½-2 Units
Administration of Justice 201 is designed primarily but not exclusively for students employed as peace officers or private security officers. The content will benefit those persons who need retraining or wish to develop specific job skills. The schedule will incorporate topics encompassing leadership theory and legal issues pertinent to the supervisory process; special focus on personnel evaluation and training; personnel assessment exercises will be provided. In order to meet state certification, all seminars must meet for a minimum of 24 hours or 1½ units. Lecture 8 to 32 hours. **Prerequisite:** None. **Note:** This course may be taken 2 times; a maximum of 6 units may be earned.

202—Oral and Written Communication ½-2 Units
Administration of Justice 202 is designed primarily but not exclusively for students employed as peace officers or private security officers. The content will benefit those persons who need retraining or wish to develop specific job skills. This program covers the advanced techniques of narrative report writing, court testimony, and the principles of interviewing and interrogation. In order to meet state certification, the class must meet for a minimum of 24 hours or 1½ units, Lecture 8-32 hours. **Prerequisite:** None. **Note:** This course may be taken 2 times; a maximum of 6 units may be earned.

203—Child Abuse and Sex Criminal ½-2 Units
Administration of Justice 203 is designed primarily but not exclusively for students employed as peace officers or private security officers. The course will benefit those persons who need retraining or wish to develop specific job skills. The content examines advanced investigative techniques in child abuse and sex crimes. This program focuses on offender profiles and causative factors, analyzes pertinent legal issues and domestic violence investigation. In order to meet state certification, all seminars must meet for a minimum of 24 hours or 1½ units. Lecture 8-32 hours. **Prerequisite:** None. **Note:** This course may be taken 2 times; a maximum of 6 units may be earned.

204—Search and Firearms ½-2 Units
Administration of Justice 204 is designed primarily but not exclusively for students employed as peace officers or private security officers. The course will benefit those persons who need retraining or wish to develop specific job skills. This program examines the role of law enforcement in society with emphasis on probable cause, rights of the accused, case law review, search and seizure issues, offender control and firearms. The content fulfills the state prerequisite for certification as a peace officer. The course may be taken for 24 hours or 40 hours. Lecture 8-40 hours. **Prerequisite:** None. **Note:** This course may be taken 2 times; a maximum of 6 units may be earned.

205—Advanced Field Officer Course ½-2 Units
Administration of Justice 205 is designed primarily but not exclusively for students employed as peace officers or private security officers. The course will benefit those persons who need retraining or wish to develop specific job skills. This program updates the field officer on selected police skills and procedures, and also examines the problem of stress as it relates to the practice of law enforcement. The course must be taken for a minimum of 24 hours. Lecture 8-32 hours. **Prerequisite:** None. **Note:** This course may be taken 2 times; a maximum of 6 units may be earned.

206—Decisional Law ½-2 Units
Administration of Justice 206 is designed primarily but not exclusively for students employed as peace officers or private security officers. The course will benefit those persons who need retraining or develop specific job skills. This is an advanced program updating the officer on search and seizure issues, and will also examine police civil liability and other legal topics pertinent to the law enforcement process. In order to meet state certification, all seminars must meet for a minimum of 24 hours or 1½ units. Lecture 8-32 hours. **Prerequisite:** None. **Note:** This course may be taken 2 times; a maximum of 6 units may be earned.

207—Narcotics and Drugs ½-2 Units
Administration of Justice 207 is designed primarily but not exclusively for students employed as peace officers or private security officers. The program will benefit those persons who need retraining or wish to develop specific job skills. This course updates the field officer on the classification and
investigation of illegal narcotics. Special focus on PCP, and current review of treatment programs. In order to meet state certification, all seminars must meet for a minimum of 24 hours or 1½ units. Lecture 8-32 hours. Prerequisite: None. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

• 208—Robbery and Homicide ½-2 Units
Administration of Justice 208 is designed primarily but not exclusively for students employed as peace officers or private security officers. The course will benefit those persons who need retraining or wish to develop specific job skills. This program examines technical procedures in robbery and homicide investigations; role of crime laboratory. Lecture 8-32 hours. Prerequisite: None. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

• 209—Major Thefts ½-2 Units
Administration of Justice 209 is designed primarily but not exclusively for students employed as peace officers or private security officers. The program content will benefit those persons who need retraining or wish to develop specific job skills. This course updates the officer on investigation procedures in fraud, burglary, forgery, and special focus on confidence games. In order to meet state certification, all seminars must meet for a minimum of 24 hours or 1½ units. Lecture 8-32 hours. Prerequisite: None. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

• 210—Gang Relations ½-2 Units
Administration of Justice 210 is designed primarily but not exclusively for students employed as peace officers or private security officers. The content will benefit those persons who need retraining or wish to develop specific job skills. This program analyzes the problem of gang violence. The course focuses on the identification of gangs, and the legal and social issues involved. Lecture 8-32 hours. Prerequisite: None. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

• 211—Private Security Basic Training 3½ Units
Administration of Justice 211 encompasses the legal, social and technical skills pertinent to the private security industry. The course is intended to prepare students for employment in the private security field. The course also fulfills state licensing requirements for security employment. The course consists of 80 hours of technical and manipulative training during a weekend series of sessions. The basic training is designed to train the student in private technology—theory and practice. The student will earn 3½ units of elective credit in Administration of Justice. Lecture 10 hours, laboratory 6 hours. Prerequisite: A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164, or English 191, or equivalent and 18 years of age and high school graduate.

ALCOHOL/DRUG STUDIES

• 101—Overview of Alcoholism 3 Units
Alcohol/Drug Studies 101 is the study of alcohol and alcohol related problems. This course will cover alienation and change in life style, cultural and family attitudes, causes and addiction, subcultures, ethical implications and suggested solutions. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU

• 102—Pharmacology of Alcohol/Drugs 3 Units
Alcohol/Drug Studies 102 is the study of the fundamental principles of the action of alcohol and other drugs. Pharmacological and physiological implications of tolerance, habituation, and excessive consumption will be emphasized. Physical, psychological, social, and cultural implications of chemical abuse will be presented. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU

• 103—Chemical Addiction: Intervention, Treatment, and Recovery 3 Units
Alcohol/Drug Studies 103 is designed to familiarize students with the essential tools and techniques necessary in helping an individual bring about positive life style changes during the rehabilitative process in order to establish a lasting recovery from chemical dependency. Lecture 3 hours. Prerequisite: Alcohol/Drug Studies 101. Transfer credit: CSU

• 110—Alcoholism Counseling Techniques 3 Units
Alcohol/Drug Studies 110 is designed to develop an understanding of a variety of personality theories as applied to the unique life style of alcoholics and to provide an overview of theory and application in the counseling of alcoholics. Lecture 3 hours. Prerequisite: Alcohol/Drug Studies 101. Transfer credit: CSU
111—Counseling the Chemical Dependent Family  3 Units
Alcohol/Drug Studies 111 is designed to develop an awareness of individual and family dynamics within the chemical dependent family and an understanding of family systems theory as applied to the treatment of this family unit. Lecture 3 hours. Prerequisite: Alcohol/Drug Studies 101 or equivalent. Transfer credit: CSU

112—Group Leadership and the Group Process  3 Units
Alcohol/Drug Studies 112 is an introduction to the dynamics of group interaction and the functions of the counselor as a facilitator. The emphasis of the course will be upon the group process as a method bringing about behavioral change. Lecture 3 hours. Prerequisite: Alcohol/Drug Studies 101. Transfer credit: CSU

113—Alcoholism and Human Sexuality  3 Units
Alcohol/Drug Studies 113 explores the symbiotic relationship between alcohol abuse and alcoholism, and sexual dysfunction, sexual pathology, and sexual deviation. Clinical research and case study data involving alcoholism, sexual dysfunction, and sexual deviation is reviewed and discussed. Strategies of sex therapy and psychotherapy are presented along with specific intervention and treatment techniques. Lecture 3 hours. Prerequisite: Alcohol/Drug Studies 101. Transfer Credit: CSU

114—Cultural Factors  3 Units
Alcohol/Drug Studies 114 emphasizes the exploration of social and psychological consequences of ethnic background and culture as contributing factors in the misuse and abuse of alcohol and other drugs. The effects of the changing role of women in society, the effects of sub-cultures and peer pressure, the effects of stress-producing factors in marriage, as well as other lifestyles, are explored. Lecture 3 hours. Prerequisite: Alcohol/Drug Studies 101. Transfer credit: CSU

150—Understanding Self-Help Groups  3 Units
Alcohol/Drug Studies 150 is designed to provide students with an opportunity to study, observe, experience and evaluate the various self-help groups (Alcoholics Anonymous, Alanon, Alateen, Adult Children of Alcoholics, Narcotics Anonymous, Cocaine Anonymous, Overeaters Anonymous, and Emotional Health Anonymous) involved in the continuum of care in the treatment of chemical dependency, substance abuse and those affected by their problems. Lecture 3 hours. Prerequisite: Alcohol/Drug Studies 101. Transfer credit: CSU

151—Community Resource Networking  3 Units
Alcohol/Drug Studies 151 is designed to provide students with an opportunity to study a variety of facilities and agencies involved in the community continuum of care in the treatment of those afflicted with alcohol/drug dependency and affected family members. Lecture 3 hours. Prerequisite: Alcohol/Drug Studies 150. Transfer credit: CSU

152—Field Placement Seminar I  4 Units
Alcohol/Drug Studies 152 is the first of a two-semester sequence with the student placed in an alcohol/drug related agency or program, under supervised training, gaining experience working in the community continuum of care. The semester will focus on: (a) organization structure; (b) inter-agency networking; (c) agency, counselor and client relationships; (d) crisis intervention, intake, assessment, and referral procedures; (e) individual case management. Lecture 2 hours, laboratory 6 hours. Prerequisite: Completion of or taken concurrently with Alcohol/Drug Studies 111. Transfer credit: CSU

153—Field Placement Seminar II  4 Units
Alcohol/Drug Studies 153 is the second of a two-semester sequence with students continuing field work with their assigned agency. Primary emphasis will be placed on counseling the chemical dependent family, co-leading group and family sessions, and developing educational lectures and workshops. Lecture 2 hours, laboratory 6 hours. Prerequisite: Completion of or taken concurrently with Alcohol/Drug Studies 112. Transfer Credit: CSU

ALLIED HEALTH

Credit for all course work is granted by the College and is recorded on the official transcript; however, approximately 20 to 24 hours per week are scheduled in clinical areas of local hospitals.

101—Fundamentals of Nursing  4 Units
Allied Health 101 is the study of basic concepts and principles common to all areas of nursing. It is designed to assist the beginning student in the ability to render quality care and be able to carry out the nursing care involved in meeting the many needs of patients regardless of their
condition and diagnosis. Lecture 4 hours. **Prerequisite:** Admission to the Nursing Program. **Note:** V.N. students must concurrently take Allied Health 103, 105, 107, 108. R.N. students must concurrently take Allied Health 103 and 108. **Transfer Credit:** USC

**103—Basic Pharmacology for Nurses** 2 Units

Allied Health 103 emphasizes computational skills for commonly administered medications by all routes except intravenous. Knowledge of federal and state regulations of drugs, of drug references, and of frequently used medications, including classifications, in actions and untoward reactions for safe administration needed in nursing practice. Lecture 2 hours. **Prerequisite:** Admission to the Nursing Program. **Note:** V.N. students must concurrently take Allied Health 101, 105, 107, 108. R.N. students must concurrently take Allied Health 101 and 108. **Transfer Credit:** USC

**105—Life Sciences** 3 Units

Allied Health 105 is a study leading to understanding of basic concepts in the physical sciences and the normal anatomical and physiological functioning of the human body. Application of broad general principles in caring for medical and surgical patients of all ages is stressed. Lecture 3 hours. **Prerequisite:** Admission to the Nursing Program.

**107—Medical-Surgical Nursing** 4 Units

Allied Health 107 is the study of the normal anatomical, physiological functions as well as pathological conditions of the human body, utilizing a systems approach. Emphasis is placed on the study of basic concepts and general principles applicable in caring for medical and surgical patients. Lecture 4 hours. **Prerequisite:** Admission to the Nursing Program. **Note:** Must be taken concurrently with Allied Health 101, 103, 105, 108.

**108—Clinical Nursing** 5-6 Units

Allied Health 108 focuses on the application of theoretical principles and concepts of holistic patient care learned in the didactic setting for Nursing Fundamentals and Medical-Surgical Nursing. Clinical laboratory 15-18 hours. **Prerequisite:** Admission to the Nursing Program. **Note:** V.N. students must concurrently take Allied Health 101, 103, 105, 107. R.N. students must concurrently take Allied Health 101 and 103. **Transfer Credit:** USC

**112—Medical-Surgical Nursing** 3-4 Units

Allied Health 112 is a study of the anatomical and physiological functions and the pathological conditions of the human body utilizing a systems approach. Emphasis is placed upon the study of basic concepts and basic principles applicable in caring for medical and surgical patients. Lecture 3-4 hours. **Prerequisite:** V.N. students: Satisfactory completion of Allied Health 107, 103, 105, 107, 108. R.N. students: Satisfactory completion of Allied Health 101, 103, 108. **Note:** V.N. students must concurrently take Allied Health 114, 116, 118, 122 and Psychology 106. R.N. students must concurrently take Allied Health 114, 116, 122 or 101, 103, 108. **Transfer Credit:** USC

**113—Medical and Surgical Nursing** 4 Units

Allied Health 113 is a study of the anatomical and physiological functioning of the human body utilizing a systems approach. Included are broad general principles in caring for medical and surgical patients. A methodological approach is utilized in studying pathological conditions amenable to medical-surgical correction incorporating nursing principles and procedures unique to specific body systems. Lecture 4 hours. **Prerequisite:** Satisfactory completion of Allied Health 101, 103, 105, 107, and 108. **Note:** Must be taken concurrently with Allied Health 123. **Transfer Credit:** USC

**114—Obstetrics and Care of the Newborn** 2 Units

Allied Health 114 is designated to prepare the student nurse to undertake his/her role in providing safe and effective care for the woman during pregnancy, parturition and puerperium, as well as care of the newborn in health and disease. To emphasize family-center care, the student is provided opportunities to teach, support and to help prepare the mother and father to assume their new roles as parents. Lecture 2 hours. **Prerequisite:** V.N. students: satisfactory completion of Allied Health 101, 103, 105, 107, 108. R.N. Students: satisfactory completion of Allied Health 101, 103, 108. **Note:** V.N. students must concurrently take Allied Health 112, 116, 118, 122, and Psychology 106. R.N. students must concurrently take Allied Health 116 and 122. **Transfer Credit:** USC

**116—Introductory Pediatrics** 2 Units

Allied Health 116 is a study to understand the normal developmental process from infancy to adolescence; knowledge of common pathological childhood conditions with emphasis on contagious diseases and their control. Study of psychological problems that are common to adaptive and maladaptive behavior in the child. Lecture 2 hours. **Prerequisite:** V.N. students:

**118—Basic Nutrition** 2 Unit
Allied Health 118 will focus on the principles of optimal nutrition and their application to the life cycle. Stress is placed on the selection of foods required to meet the psychological, physiological and socioeconomic needs of an individual. Lecture 2 hours. **Prerequisite:** Admission to the Nursing Program. Note: Must be taken concurrently with Allied Health 112, 114, 116, 122 and Psychology 106.

**122—Clinical Nursing** 4-7 Units
Allied Health 122 will focus on the application of scientific knowledge and the development of critical thinking skills in providing nursing care to any age group regardless of their conditions or illnesses. Clinical laboratory 12-21 hours. **Prerequisite:** V.N. students: satisfactory completion of Allied Health 101, 103, 105, 107, 108. R.N. students: satisfactory completion of Allied Health 101, 103, 108. Note: V.N. students must concurrently enroll in Allied Health 112, 114, 116, 118 and Psychology 106. R.N. students must concurrently enroll in Allied Health 112, 114, 116. **Transfer Credit:** USC

**123—Clinical Nursing** 5 Units
Allied Health 123 will focus on the application of the theoretical knowledge of nursing principles and concepts that are unique to specific systems of the human body throughout their life cycle. Clinical laboratory 24 hours for 11 weeks. **Prerequisite:** Satisfactory completion of Allied Health 101, 103, 105, 107, 108 and Psychology 106. Note: Must be taken concurrently with Allied Health 113 and Psychology 101.

**205—Pharmacology** 3 Units
Not offered.

**210—Cardiac Monitoring** 3 Units
Not offered.

**215—Fluid and Electrolyte Balance** 1½ Units
Not offered.

**220—I nfection Control in the Hospital** 1½ Units
Not offered.

**233—Mental Health Nursing** 6 Units
Allied Health 233 focuses on the dynamics of patients undergoing psychosocial stress. Nursing process and interviewing skills are presented within a framework of total mental health team management. Roles of the various team members are explored along with a variety of treatment modalities. The causes of stress are explored from a variety of theoretical perspectives. Emphasis is placed on holistic care of the adult under acute and chronic stress. The student is encouraged to undertake self exploration and develop a concept of man which includes the ideas of human need fulfillment, health promotion, restoration of health, and personal growth. Lecture 7 hours, laboratory 14 hours (9 weeks). **Prerequisite:** Completion of the first year R.N. curriculum or admission to the second year Career Ladder Nursing Program. **Note:** Must be taken concurrently with Allied Health 234. **Transfer Credit:** USC

**234—Maternal-Child Health Nursing** 6 Units
Allied Health 234 is the study of human growth and development from conception, birth to adolescence. Focuses on normal, minor deviations and disease conditions during pregnancy, neonatal and through adolescence. Nursing process will be implemented in providing optimal care to the family undergoing the birth experience. Emphasis is placed on family centered care for the hospitalized child. Lecture 7 hours, laboratory 14 hours (9 weeks). **Prerequisite:** Completion of the first year R.N. Must be taken concurrently with Allied Health 233. **Transfer Credit:** USC

**240—Nursing Process and Nursing Management** 6 Units
Allied Health 240 is the study and application of selected nursing concepts in relation to the impact of health problems and needs of the individual, family and community. It focuses on the acute and chronic medical-surgical health problems including assessment and management of care. The aspects of pharmacology, diet therapy and fluid and electrolytes are integrated. Lecture 7 hours, clinical laboratory 15 hours (9 weeks). **Prerequisite:** Completion of the first year R.N. curriculum or completion of the V.N. curriculum. **Transfer Credit:** USC

**245—Nursing Process and Nursing Leadership** 6 Units
Allied Health 245 is the study and application of selected Nursing concepts as they relate to the care of medical-surgical conditions in acute and clinical settings. The students are also provided beginning leadership and management experiences. Interdisciplinary teamwork, teaching, and
collaborative planning are major experience. The aspects of pharmacology, diet therapy and flux and electrolytes are integrated. Lecture 7 hours, clinical laboratory 15 hours. (9 weeks). **Prerequisite:** Completion of the first year R.N. curriculum or completion of the V.N. curriculum. **Transfer Credit:** USC

### 246—Professional Adjustments and Nursing Leadership  
**1 Unit**  
Allied Health 246 studies the individual nurse and professional components related to role development. It includes legal aspects of nursing and contemporary issues and trends in health care and delivery of professional nursing care. The course consists of a one-hour lecture-discussion a week. There will be panel discussions and seminars where speakers in their specific areas of specialization will be invited to share their expertise. The (audio tutorial) laboratory will be an independent study. Lecture-seminar — 1 hour. **Prerequisite:** Allied Health 231, 233, 234. **Note:** Must be taken concurrently with Allied Health 240 and Allied Health 245.

### 250—Children's Attendant  
**3 Units**  
Not offered. **Transfer credit:** CSU

**ANATOMY, See Biology 120**

**ANTHROPOLOGY**

### 101—Physical Anthropology  
**3 Units**  
Studies human genetics; relation of humans to the animal world; human evolution; fossil humans; racial differentiation; classification and distribution. Lecture 3 hours. **Prerequisite:** A satisfactory score on the Reading subtest of the English Placement Examination, or a “B” average in United States History and Government courses in high school, or 12 units of college courses with a “C” average. **Transfer credit:** CSU, UC, USC

### 102—Cultural Anthropology  
**3 Units**  
Studies the origin and development of cultures including material traits, social organization, political, religious, communication, family and kinship systems, emphasizing contemporary primitives. Lecture 3 hours. **Prerequisite:** A satisfactory score on the Reading subtest of the English Placement Examination, or a “B” average in United States History and Government courses in high school, or 12 units of college courses with a “C” average. **Transfer credit:** CSU, UC, USC

### 103—Archaeology  
**3 Units**  
A general course in archaeology for beginning students. A sampling of the material covered would include: archaeology as a profession; methods of locating archaeological sites; digging sites correctly; preservation and restoration of artifacts; a history of classical digs as Pompeii, Masada, “Atlantis,” etc.; methods of determining time, as Carbon-14, potassium-argon, dendrochronology, etc.; the Pleistocene Period; discovering fossil humans; work of DuBois, Dart, the Leakeys; primitive humans in the Paleolithic, Mesolithic and Neolithic cultures; beginning of agriculture; domestication of animals; rise of the city. American archaeology: the Mound Builders; Folsam and Clovis Man; Aztec, Inca, and Maya civilizations. Underwater Archaeology. Lecture 3 hours. **Prerequisite:** A satisfactory score on the Reading subtest of the English Placement Examination, or a “B” average in United States History and Government courses in high school, or 12 units of college courses with a “C” average. **Transfer credit:** CSU, UC, USC

**ARABIC**

### 101—Beginning Arabic I  
**5 Units**  
Arabic 101 is an introduction to the Arabic language. The student will learn the fundamentals of Arabic grammar, how to pronounce correctly, and how to read simple texts. A small working vocabulary and weekly laboratory sessions will give the student basic conversational skills. Lecture 5 hours. **Prerequisite:** Eligibility for English 101. **Transfer Credit:** CSU, UC, USC

### 102—Beginning Arabic II  
**5 Units**  
Arabic 102 is a continued introduction to the Arabic language. The student will continue to learn the fundamentals of Arabic grammar, how to pronounce correctly, and how to read simple texts. A working vocabulary and weekly laboratory sessions will enlarge the student’s conversational skills. Lecture 5 hours. **Prerequisite:** Arabic 101 or equivalent. **Transfer credit:** CSU, UC, USC

### 103—Intermediate Arabic I  
**4 Units**  
Arabic 103 is a continued introduction to the Arabic language. The student will complete the study of the fundamentals of Arabic grammar and will sharpen pronunciation and reading skills. A working vocabulary and weekly laboratory sessions will enlarge the student’s conversational abilities. Lecture 4 hours. **Prerequisite:** Arabic 102 or equivalent. **Transfer credit:** CSU, UC, USC
•110—Basic Conversational Arabic I  2 Units
Arabic 110 is an introduction to spoken Arabic. It teaches students to communicate orally on an elementary level in Arabic and provides them with a basis for further study. The verbal active method is used and oral expression is stressed. Lecture 2 hours, laboratory 1 hour. **Prerequisite:** None. **Note:** This course may be taken 2 times; a maximum of 4 units may be earned.

•111—Basic Conversational Arabic II  2 Units
Arabic 111 is a continuation of Arabic 110. It aims to enable students to communicate orally, to read and write Arabic on an intermediate level and to provide them with a basis for further study. The verbal active method is used and oral expression is stressed. Lecture 2 hours, laboratory 1 hour. **Prerequisite:** Arabic 110 or the ability to read and write elementary Arabic.

•112—Basic Conversational Arabic III  2 Units
Arabic 112 is a continuation of Arabic 111. It aims to strengthen skills acquired in Arabic 110 and 111 by building on vocabulary and grammatical constructions, to bring the students closer to oral, written and reading fluency, and to increase their appreciation of Arabic culture. Here again, oral expression is stressed and the verbal active method is used. Lecture 2 hours. **Prerequisite:** Arabic 111 or equivalent.

•124—Introduction to Arabic Literature (in English translation)  3 Units
Arabic 124 is an introduction to Arabic literature. It is a study of the major forms of creative literature: the short story, the novel, the drama. This course offers a variety of texts with readings from significant works of each literary period. Emphasis is placed upon contemporary writers. This course is conducted in English. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

**ARCHITECTURE**

•101—Drafting and Basic Design  3 Units
Architecture 101 is a study in the fundamentals of drafting techniques used in architectural drawing, and the basic design procedure relative to good residential planning. The course will study residential building codes, drafting of working drawings, scale drawing of construction details, framing concepts, and proper dimensioning techniques. Lecture 2 hours, laboratory 4 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent. **Note:** Required for architecture majors. Recommended for art majors. **Transfer credit:** CSU

•102—Architectural Drafting and Design  3 Units
Architecture 102 is the study of the design of the single family dwelling with emphasis on the ranch type structure. Discussion will cover the latest construction innovations, framing techniques, scale detail drawing, and the drafting of working drawings. Study will explore in greater detail the applicable building codes pertinent to residential construction, modular construction, solar planning, insulation requirements, orientation, and other facets of construction. Lecture 2 hours, laboratory 4 hours. **Prerequisite:** Architecture 101. **Transfer credit:** CSU

•103—Descriptive Geometry  3 Units
Architecture 103 is an applied science treating of graphic representation of lines, planes, surfaces, and solids. Architectural applications are used for subject matter. Simple shades and shadows. Lecture 2 hours, laboratory 4 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent and one year of architectural or mechanical drafting in high school, or Architecture 101, or Engineering 101 taken in college. **Note:** Required for architecture majors. This course may not be taken for credit by students who have completed Engineering 103. **Transfer credit:** CSU, UC, USC

•105—Perspective Graphics  3 Units
Architecture 105 is a course in technical perspective. Skills will be developed in drawing of various architectural subjects and their shadows, rendering in various media, sketching in people, objects and landscape background and foreground. Lecture 2 hours, laboratory 4 hours. **Prerequisite:** Art 130, Art 150, and Art 151. (Art 151 may be taken concurrently.) **Note:** Required for architecture majors. This course may be taken 2 times; a maximum of 6 units may be earned. **Transfer credit:** CSU, UC, USC

•109—Architectural Design  5 Units
Architecture 109 presents a study of the numerous considerations required to build a typical apartment complex. Discussion will cover fundamentals of design, building code considerations, techniques of construction, drafting room practice, model building, and techniques of
pictorial presentation. Lecture 3 hours, laboratory 6 hours. **Prerequisite:** Architecture 101 and Architecture 105. **Transfer credit:** CSU

**110—Architectural Design** 5 Units
Architecture 110 is a study of the concepts of basic commercial building construction. Emphasis will be placed on the planning and design of a small commercial building of concrete block construction. Current construction techniques, building codes, building materials, insulation requirements, etc., will be investigated. Design analysis through the use of small scale models will assist in the planning process. Lecture 3 hours, laboratory 6 hours. **Prerequisite:** Architecture 109. **Transfer credit:** CSU

**111—Advanced Architectural Design** 4 Units
Not offered. **Transfer credit:** CSU

**112—Advanced Architectural Design** 4 Units
Not offered. **Transfer credit:** CSU

**191—Architectural Engineering Drafting and Design** 5 Units
Architecture 191 is discussion and preparation of working drawings for major structures. A study of practices common to the construction of commercial reinforced concrete buildings; the relationship of plumbing, heating, ventilating, electrical, and air conditioning systems in the various areas of the structure; drawing changes of typical views, integrating and detailing them in the completed set of drawings; understanding and satisfying the requirements of the architect; studying the realities of the successful draftsman; the application of the current building code; and the cost factors affecting revisions. Lecture 3 hours, laboratory 6 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or 191, or equivalent and Art 130. (May be taken concurrently.) **Transfer credit:** CSU

**192—Architectural Engineering Drafting and Design (Residential)** 5 Units
Architecture 192 is discussion and preparation of working drawings for brick and concrete block structures. A study of practices common to the construction of commercial buildings; the relationship of plumbing, heating, ventilating, electrical, and air conditioning systems. Drawing changes of typical views; studying and satisfying the requirements of the architect. Lecture 3 hours, laboratory 6 hours. **Prerequisite:** Architecture 191. **Transfer credit:** CSU

**193—Professional Drafting for Architecture (Commercial & Multiple Dwelling Projects)** 5 Units
Architecture 193 covers Analysis and Workshop Development of Coordinated Construction Drawing Units for standard elements of building in major framing and finishing systems and materials. Lecture 3 hours, 6 hours laboratory per week. **Prerequisite:** Architecture 192 or equivalent. **Note:** Art 130, 150, 151 are recommended. **Transfer credit:** CSU

**194—Architectural Engineering Design (Commercial)** 5 Units
Architecture 194 is a class project in the preparation of a complete set of working drawings from given specifications, including various presentation media stressing the group concept in architectural design. Lecture 3 hours, laboratory 6 hours. **Prerequisite:** Architecture 193. **Note:** Architecture 105 is recommended. **Transfer credit:** CSU

---

**ARMENIAN**

**101—Beginning Armenian I** 5 Units
Armenian 101 covers the Armenian alphabet, its letters and their sounds, and the fundamentals of Armenian grammar. Students are taught to pronounce correctly, to acquire a practical vocabulary, and to understand, read, write and speak simple Armenian. Lecture 5 hours. **Prerequisite:** Eligibility for English 101. **Transfer credit:** CSU, UC, USC

**102—Beginning Armenian II** 5 Units
Armenian 102 continues the development of fundamental language skills, including comprehension, reading of simple texts in poetry and prose, and writing with a fair degree of grammatical correctness. The course teaches the speaking of everyday Armenian, and also prepares the student for more advanced work in the language. Lecture 5 hours. **Prerequisite:** Armenian 101 or equivalent. **Transfer credit:** CSU, UC, USC

**110—Basic Conversational Armenian I** 2 Units
Armenian 110 is an introduction to Armenian with emphasis on developing essential skills in communication. The verbal active method is used, stressing oral expression. The course develops a working knowledge of reading and writing Armenian, and also introduces the student to Armenian culture. Lecture 2 hours, laboratory 1
hour. **Prerequisite:** None. **Note:** This course may be taken 2 times; a maximum of 4 units may be earned.

**111—Basic Conversational Armenian II** 2 Units

Armenian 111 continues the improvement of communication skills acquired in Armenian 110. It further develops language skills, including the reading and comprehension of simple texts; gives a broader idea of the structure of the language; and attempts to generate interest in the Armenian culture and further study. Lecture 2 hours, laboratory 1 hour. **Prerequisite:** Armenian 110 or equivalent. **Note:** This course may be taken 2 times; a maximum of 4 units may be earned.

### ART

Most Art courses were renumbered in Fall 1986. See notes for prior course titles. Use the following list to find new course numbers.

### Art History

**101—Survey of Art History I** 3 Units

Art 101 is a survey of architecture, painting, and sculpture from their origins in prehistoric times to early Gothic periods of western culture. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU, USC

**102—Survey of Art History II** 3 Units

Art 102 is a survey of architecture, painting, and sculpture from the Renaissance to modern times. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU, USC

**103—Ancient Art** 3 Units

Art 103 is a survey of the architecture, painting and sculpture from their origins in prehistoric time through their development in ancient Egypt and Mesopotamia. The impact of these works on today's art is also considered. Lecture 3 hours. **Prerequisite:** None. **Note:** Art 101 is recommended. **Transfer credit:** CSU, USC

**104—Greek and Roman Art** 3 Units

Art 104 provides an in-depth study of the architecture, painting, and sculpture of ancient Greece and Rome. The influence of the philosophy and politics of the period is considered. The student will examine the impact of the culture, styles, and art forms of the Classical World upon the Twentieth Century. Lecture 3 hours. **Prerequisite:** None. **Note:** Art 101 is recommended. **Transfer credit:** CSU, USC

**105—Medieval Art** 3 Units

Art 105 is a survey of the architecture, painting, and sculpture of the period between ancient Rome and the Renaissance. It introduces the student to the philosophical ideas, economic trends, and political events that produced the art of the period. Lecture 3 hours. **Prerequisite:** None. **Note:** Art 101 is recommended. **Transfer credit:** CSU, USC

**106—Renaissance/Baroque Art** 3 Units

Art 106 is a survey of the art, sculpture, architecture, religious ideas, economic trends, and politics that reflect the life of the fourteenth through eighteenth century Europe and their effect on our time. Lecture 3 hours. **Prerequisite:** None. **Note:** Art 102 is recommended. **Transfer credit:** CSU, USC

**107—Modern Art** 3 Units

Art 107 is a survey of the growth of Nineteenth and Twentieth Century trends in painting, sculpture, and architecture in Europe and the United States. It explores the relationship between contemporary art and our historical and social values. Lecture 3 hours. **Prerequisite:** None. **Note:** Art 102 is recommended. **Transfer credit:** CSU, USC

**108—Art of the Eastern World I** 3 Units

(Art Formerly Oriental Art)

Art 108 is a survey of the sculpture, painting, and architecture of India, China, Japan, Korea, and Persia from prehistoric times to 1200 A.D. It
includes an introduction to the religious, philosophical, social and political ideas which influenced the art of these regions and times. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU, USC

**109—Art of the Eastern World II** 3 Units
Art 109 is a survey of the sculpture, painting, and architecture of India, China, Southeast Asia, Japan, and the Islamic expansion in the Near East and Spain. The philosophical, social, and political ideas that produced Oriental Art from 1200-1850 will also be considered. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU, USC

**110—Introduction to Fine Arts** 3 Units
(Formerly Art 155)
Art 110 is a team-taught course which provides a comparative historical overview of western art and music from the prehistoric era to the present. This introductory course presents influential figures in each period and analyzes important influences on their work. The relationship between music and art is explored, along with changing trends in thought and techniques. Lecture 3 hours. **Prerequisite:** None. **Note:** This course may not be taken for credit by students who have completed Music 110. (Prior to Fall 1986, Art 110 was History of Motion Pictures.) **Transfer credit:** CSU, USC

**112—Art of the Americas I** 3 Units
(Formerly Art 106)
Art 112 is a study of the Art of the Pre-Columbian (Inca, Maya, Aztec), Mexico, and South American cultures. American Indian art (especially Southwest Indian). Lecture 3 hours. **Prerequisite:** None. **Note:** (Prior to Fall 1986, Art 112 was Women in the Visual Arts.) **Transfer credit:** CSU, USC

**113—Art of the Americas II** 3 Units
(1600 to the Present)
(Formerly Art 107)
Art 113 is the study of the art of the United States, Canadian, Mexican, South American cultures and their European origins. Lecture 3 hours. **Prerequisite:** None. **Note:** (Prior to Fall 1986, Art 113 was Design I.) **Transfer credit:** CSU, USC

**116—Primitive Art** 3 Units
(Formerly Art 109)
Art 116 is an introduction to the art of primitive Africa, Australia, New Guinea and North America. Lecture 3 hours. **Prerequisite:** None. **Note:** (Prior to Fall 1986, Art 116 was Drawing I.) **Transfer credit:** CSU, USC

**118—Women in Visual Arts** 3 Units
(Formerly Art 112)
Art 118 is an introduction to the history of women as artists in European and American traditions. Women's roles in non-Western cultures will also be discussed as well as images of women in art. Lecture 3 hours. **Prerequisite:** None. **Note:** (Prior to Fall 1986, Art 118 was Life Drawing.) **Transfer credit:** CSU, USC

**120—History of Architecture I** 3 Units
(Formerly Art 181)
Art 120 is a survey course of architectural styles from their origin in prehistoric times to the Gothic period. Lecture 3 hours. **Prerequisite:** None. **Note:** This course may not be taken for credit by students who have completed Art 180 prior to Fall 1986 (History of Architecture). (Prior to Fall 1986, Art 120 was Advanced Life Drawing.) **Transfer credit:** CSU, USC

**121—History of Architecture II** 3 Units
(Formerly Art 182)
Art 121 is a survey course of architectural styles from the Renaissance to the present. Lecture 3 hours. **Prerequisite:** None. **Note:** This course may not be taken for credit by students who have completed Art 180 prior to Fall 1986 (History of Architecture). (Prior to Fall 1986, Art 121 was Advanced Life Drawing.) **Transfer credit:** CSU, USC

**124—Southern California Art Museums** 1 Unit
(Formerly Art 105)
Not offered. **Note:** (Prior to Fall 1986, Art 124 was Advanced Advertising Design.) **Transfer credit:** CSU

**125—History of Motion Pictures** 3 Units
(Formerly Art 110)
Art 125 is the historical and aesthetic introduction to the appreciation of motion pictures through the analysis of audio and visual techniques which can make the film an expressive means of communication. Selected motion pictures will be screened. Lecture 3 hours. **Prerequisite:** None. **Note:** Each week students will be required to see one film chosen from the instructor's list of pertinent films available on television and in local theaters. (Prior to Fall 1986, Art 125 was Advanced Advertising Design.) **Transfer credit:** CSU, USC
Design

130—Design I 2 Units
(Formerly Art 113)
Art 130 is an introduction to the structure of two-dimensional art. The course provides fundamental understanding and control of the elements of design and the principles by which they can be related to solving design problems. The course is basic for art students and will be helpful to students in related fields. Lecture 2 hours, laboratory 2 hours. Prerequisite: None. Note: Students receiving a score of 4 or 5 on the Advanced Placement Examination (CEEB) in Studio Art may be given credit for Art 130 and Art 150 at Glendale Community College contingent upon approval of their portfolio by the art faculty. (Prior to Fall 1986, Art 130 was Interior Design.) Transfer credit: CSU, USC

131—Design II 2 Units
(Formerly Art 114)
Art 131 is advanced study in two-dimensional art structure. The study is developed in a series of problems. Certain problems will concentrate on advanced color study; some on space manipulation; some on understanding through practice, the current concepts at work in the fine and decorative art fields. Whenever possible problems will reflect directions dominating the current art scene. Lecture 2 hours, laboratory 2 hours. Prerequisite: Art 130. Transfer credit: CSU, USC

132—Lettering 1 Unit
Art 132 is the fundamental study of letter forms, including the Roman, Gothic, and calligraphic styles. Students learn a short history of lettering and typography and solve problems in the forming and spacing of letters with the use of Speed Ball lettering tools. Lecture 1 hour, laboratory 1 hour. Prerequisite: None. Note: Recommended for architecture and graphic design majors and all art majors as a foundation for more advanced work in the art department. Transfer credit: CSU

134—Advertising Design I 2 Units
(Formerly Art 122)
Art 134 is an applied design course, oriented primarily toward design in advertising. Special emphasis is placed upon those elements, techniques, and psychological aspects of design peculiar to advertising. Layout techniques, lettering typography, and the psychological use of color are stressed. Lecture 2 hours, laboratory 2 hours. Prerequisite: Art 130 and Art 150. (Art 130 and 150 may be taken concurrently.) Note: (Prior to Fall 1986, Art 134 was Painting.)

135—Advertising Design II 2 Units
(Formerly Art 123)
Art 135 is a continuation of Art 134. Typography, printing methods, advanced one-page layout, and illustration are stressed. Lecture 2 hours, laboratory 2 hours. Prerequisite: Art 134. Recommended: Art 131, 138, 151, 152, 160, 164. Note: (Prior to Fall 1986, Art 135 was Painting.)

136—Advanced Advertising Design I 2 Units
(Formerly Art 124)
Art 136 is an advanced advertising design course which includes the theory and practice in various phases of advertising. Design for television, packaging, brochure design and layout, magazine design, and multiple page layout are emphasized, as are problems in production for off-set printing. Lecture 2 hours, laboratory 2 hours. Prerequisite: Art 135. Note: (Prior to Fall 1986, Art 136 was Advanced Painting.)

137—Advanced Advertising Design II 2 Units
(Formerly Art 125)
Art 137 is the study of advanced practices in advertising design. Emphasis on independent work and problem solving. The course includes the art of advertising display and problems in preparing camera-ready art work with two-, three-, and four-page prints. Lecture 2 hours, laboratory 2 hours. Prerequisite: Art 136. Note: (Prior to Fall 1986, Art 137 was Advanced Painting.)

138—Three-Dimensional Design 2 Units
(Formerly Art 115)
Art 138 offers the study of space and form relationships expressed three dimensionally in line, plane, volume, texture and color, and the interaction of these basic design elements. Experiences are provided in various materials appropriate to three-dimensional considerations with emphasis on design concept and mastery of technical skills. This course is required for art majors and recommended for students of graphics, industrial design, architecture, stage design, and related fields. Lecture 2 hours, laboratory 2 hours. Prerequisite: None. Note: Art 130 is recommended. Required for art majors. Recommended for related fields. Note: (Prior to Fall 1986, Art 138 was Water Color.) Transfer credit: CSU, USC

141—Interior Design 3 Units
(Formerly Art 130)
Art 141 begins with the study of the floor plan and architectural background and moves through the selection and arrangement of furniture, floor, and window treatments, lighting, and accessory planning. Emphasis is placed on the use of design elements such as color, line, shape, texture, pattern, space, and their interaction with one
another in the interior environment. Lecture 3 hours. **Prerequisite**: None. **Note**: (Prior to Fall 1986, Art 141 was Sculpture II.) **Transfer credit**: CSU

*144—Color Theory and Application* 2 Units  
(Formerly Art 175)  
Not offered. **Note**: (Prior to Fall 1986, Art 144 was Silk Screen Printing.) **Transfer credit**: CSU, USC

*148—Calligraphy I* 2 Units  
(Formerly Art 173)  
Not offered. **Note**: (Prior to Fall 1986, Art 148 was Metal and Jewelry Design II.)

*149—Calligraphy II* 2 Units  
(Formerly Art 174)  
Not offered. **Note**: (Prior to Fall 1986, Art 149 was Metal and Jewelry Design III.) **Transfer credit**: CSU

**Drawing**

*150—Drawing I* 2 Units  
(Formerly Art 116)  
Art 150 is a basic drawing course dealing with the fundamentals of pictorial organization. The various means of representing the three-dimensional aspects of forms on a flat surface are emphasized. Lecture 2 hours, laboratory 2 hours. **Prerequisite**: None. **Note**: Art 130 is recommended. Students receiving a score of 4 or 5 on the Advanced Placement Examination in Studio Art may be given credit for Art 130 and Art 150 at Glendale Community College contingent upon approval of their portfolio by the art faculty. (Prior to Fall 1986, Art 150 was Metal and Jewelry Design IV.) **Transfer credit**: CSU, USC

*151—Drawing II* 2 Units  
(Formerly Art 117)  
Art 151 is a second semester drawing course designed to enable students to further their abilities in drawing forms in depth, composition, and various drawing techniques. Lecture 2 hours laboratory 2 hours. **Prerequisite**: Art 150. **Transfer credit**: CSU, USC

*152—Life Drawing* 2 Units  
(Formerly Art 118)  
Art 152 is a beginning course in drawing the figure from life. Quick sketches, and progressively longer poses to study such problems as proportions, design and the animation of the body. Studies in human anatomy, as applicable to life drawing. The drawings are rendered in media such as charcoal or conte crayon, and are executed both as line drawings and in chiaroscuro. Lecture 2 hours, laboratory 2 hours. **Prerequisite**: Art 150. (Art 150 may be taken concurrently.) **Transfer credit**: CSU, USC

*153—Life Drawing* 2 Units  
(Formerly Art 119)  
Art 153 is the continuation of basic studies in drawing the figure from life. Attention is given to arrangement and composition. Exploration of media for drawing the figure. Use of the figure in a personal and expressive manner. Problems in drawing the head. Lecture 2 hours, laboratory 2 hours. **Prerequisite**: Art 152. **Transfer credit**: CSU, USC

*154—Advanced Life Drawing* 2 Units  
(Formerly Art 120)  
Art 154 is the continuation of basic studies in drawing the figure from life. Emphasis on using the figure in compositions. Stress on the creative use of the figure. Drawings should extend beyond “studies” and become personal statements. Increases emotional expression in drawings. May do one or more problems in three dimensions. Lecture 2 hours, laboratory 2 hours. **Prerequisite**: Art 153. **Transfer credit**: CSU, USC

*155—Advanced Life Drawing* 2 Units  
(Formerly Art 121)  
Art 155 is the continuation of basic studies in drawing the figure from life. Figure compositions are stressed. Students are encouraged to use the figure in creative and expressive drawings. A major project will be required — this may follow an avenue of individual interest. Lecture 2 hours, laboratory 2 hours. **Prerequisite**: Art 154. **Note**: (Prior to Fall 1986, Art 155 was Introduction to Art and Music.) **Transfer credit**: CSU, USC

*156—Illustration I* 2 Units  
Art 156 is designed to acquaint the student with various types of illustration such as book, movie poster, editorial, spot, and magazine story. Emphasis is placed on learning a number of specific techniques which will enable the student to work quickly while achieving a professional look. A variety of media will be explored. The focus of this course is fine arts rather than technical or product illustration. Lecture 2 hours, laboratory 2 hours. **Prerequisites**: Art 130, 150, 151 (Art 151 may be taken concurrently). **Transfer credit**: CSU, USC

**Painting**

*160—Painting I* 2 Units  
(Formerly Art 134)  
Art 160 develops skill, technique, and composition in drawing and painting, using media such as oils or acrylics. Problems include representation and abstraction. Lecture 2 hours, laboratory 2 hours.
Prerequisite: Art 150. (Art 150 may be taken concurrently.) Note: (Prior to Fall 1986, Art 160 was Low Fire Ceramics.) Transfer credit: CSU, USC

161—Painting II
(Formerly Art 135)
2 Units
Art 161 is the application of principles, theories and techniques of drawing and painting to problems of still life, figure, landscape, and non-objective painting. Lecture 2 hours, laboratory 2 hours. Prerequisite: Art 160. Transfer credit: CSU, USC

162—Advanced Painting I
(Formerly Art 136)
2 Units
Art 162 applies the principles of art in drawing and painting for the more advanced student. Contemporary concepts in painting are explored. Individual assignments are given which emphasize personal interpretation and expression. Lecture 2 hours, laboratory 2 hours. Prerequisite: Art 161. Note: Art 151 is recommended. (Prior to Fall 1986, Art 162 was Raku.) Transfer credit: CSU, USC

163—Advanced Painting
(Formerly Art 137)
2 Units
Art 163 is a continuation of Art 162. Special problems are assigned to the student on an individual basis. Painting problems may include figure painting and the figure in relation to architectural forms. The student is encouraged to work from imagination as well as from direct visual experience. Field trips to museums and galleries are included in the course of instruction. Lecture 2 hours, laboratory 2 hours. Prerequisite: Art 162. Note: (Prior to Fall 1986, Art 163 was Ceramic Handbuilding.) Transfer credit: CSU, USC

164—Water Color I
(Formerly Art 138)
2 Units
Art 164 is a study of the water color medium and techniques. The problems of painting are directed with a regard for the special qualities of water color. Class problems include various approaches to landscape painting, still life painting, and figure painting. Other problems emphasizing abstraction and non-objective painting are explored. Outdoor painting trips are used to help gain experience and skill in landscape painting. Lecture 2 hours, laboratory 2 hours. Prerequisite: Art 150. (Art 150 may be taken concurrently.) Note: This course may be taken 2 times; a maximum of 4 units may be earned. (Prior to Fall 1986, Art 164 was Advanced Ceramic Handbuilding.) Transfer credit: CSU, USC

165—Water Color II
(Formerly Art 139)
2 Units
Art 165 is a continuation of the study of water color painting for the more advanced student. General principles and theories of painting are applied to the special qualities of the water color medium. Class problems include experimentation of a variety of techniques and stylistic approaches. Individual interpretation and expression are encouraged. Lecture 2 hours, laboratory 2 hours. Prerequisite: Art 164. Note: This course may be taken 2 times; a maximum of 4 units may be earned. (Prior to Fall 1986, Art 165 was Earthenware.) Transfer credit: CSU, USC

Printmaking

170—Printmaking I
(Formerly Art 142)
2 Units
Art 170 is an introduction to various printing processes including linoleum cuts, woodcuts, engraving, drypoint, etching and aquatint. Creative personal approaches to printmaking are encouraged. Technical and expressive qualities of the various media are explored. Lecture 2 hours, laboratory 2 hours. Prerequisite: Art 130 or Art 150. Note: This course may be taken 2 times; a maximum of 4 units may be earned. (Prior to Fall 1986, Art 170 was Stained Glass.) Transfer credit: CSU, USC

171—Printmaking II
(Formerly Art 143)
2 Units
Art 171 is a more advanced course than Art 170; this course explores various approaches and techniques of intaglio printing with special emphasis on color printing. Lecture 2 hours, laboratory 2 hours. Prerequisite: Art 170. Note: This course may be taken 2 times; a maximum of 4 units may be earned. Transfer credit: CSU, USC

172—Lithography I
(Formerly Art 185)
2 Units
Art 172 is an introduction to the technique and methods of lithography using metal plates as well as stone. This first semester course in lithography deals primarily with black and white as the graphic foundation for lithography. The student is encouraged to explore the creative possibilities of the medium and its wide variety of expressive qualities. Lecture 2 hours, laboratory 2 hours. Prerequisite: Art 171 or equivalent. Note: This course may be taken 2 times; a maximum of 4 units may be earned. (Prior to Fall 1986, Art 172 was Silk Screen Textile Printing.) Transfer credit: CSU, USC
### Lithography II
**Art 173**  
(Formerly Art 186)  
2 Units  
Art 173 is a continuation of Art 172. This course explores various approaches to color printing involving multiple plates as well as stones. Lecture 2 hours, laboratory 2 hours. **Prerequisite:** Art 172 or equivalent. **Note:** This course may be taken 2 times; a maximum of 4 units may be earned. (Prior to Fall 1986, Art 173 was Calligraphy I.) **Transfer credit:** CSU, USC

### Silk Screen Printing
**Art 174**  
(Formerly Art 144)  
2 Units  
Art 174 is an introduction to silk screen printing. The course will include preparation of equipment, various methods of stencil preparation, printing on paper and cloth, and printing with a variety of paints and dyes. Projects will include serigraphs and repeat pattern textiles. Lecture 2 hours, laboratory 2 hours. **Prerequisite:** Art 130. **Note:** This course may be taken 2 times; a maximum of 4 units may be earned. (Prior to Fall 1986, Art 174 was Calligraphy II.) **Transfer credit:** CSU, USC

### Silk Screen Printing
**Art 175**  
(Formerly Art 145)  
2 Units  
Art 175 is an advanced study of silk screen printing. The course includes the preparation of specialized equipment and research and experimentation to encourage creative use of the medium. Challenging problems are selected which relate to the personal interests of each student. Lecture 2 hours, laboratory 2 hours. **Prerequisite:** Art 174. **Note:** This course may be taken 2 times; a maximum of 4 units may be earned. (Prior to Fall 1986, Art 175 was Color Theory and Application.) **Transfer credit:** CSU, USC

### Silk Screen Textile Printing
**Art 176**  
(Formerly Art 172)  
1 Unit  
Not offered. **Transfer credit:** CSU, USC

### Sculpture
**Art 180—Sculpture I**  
(Formerly Art 140)  
2 Units  
Art 180 is a series of sculptural problems in relief and in the round which lead the student through exploratory investigations of various media and techniques such as clay modeling, plaster, stone, wood carving, construction, etc. Emphasis is on problems of historical and contemporary interest and importance. This course is recommended for art majors and pre-dental, industrial design, and stage design students. Lecture 2 hours, laboratory 2 hours. **Prerequisite:** None. **Note:** Art 130 and 150 are recommended. This course may be taken 2 times; a maximum of 4 units may be earned. **Transfer credit:** CSU, USC

**Art 181—Sculpture II**  
(Formerly Art 141)  
2 Units  
Art 181 allows the student to explore complex problems in 3-dimensional art. The learner will study in depth a series of sculptural problems, including modeling the complete figure in clay, modeling and carving in casting wax, carving in harder stone such as alabaster, carving in wood, construction and assemblage techniques, and mixed media. Emphasis will be on mastery of technique, further development of aesthetic and conceptual consideration, and self-motivation. The instructor will work with each student on an individual basis to provide technical and conceptual assistance. Lecture 2 hours, laboratory 2 hours. **Prerequisite:** Art 180. **Note:** This course may be taken 2 times; a maximum of 4 units may be earned. (Prior to Fall 1986, Art 181 was History of Architecture I.) **Transfer credit:** CSU, USC

### Ceramics
**Art 186—Ceramics**  
(Formerly Art 126)  
2 Units  
Art 186 is an introductory study in the field of ceramics. The student will learn various forming techniques, with an emphasis on wheel-throwing and the production of functional pottery forms. Surface techniques such as texturing, underglazing, slip decoration, glaze application, and the use of lusters will be explored. Students will execute projects in both stoneware and earthenware and learn about both gas and electric kiln firing procedures. Lecture 2 hours, laboratory 2 hours. **Prerequisite:** None. **Note:** (Prior to Fall 1986, Art 186 was Lithography II.) **Transfer credit:** CSU, USC

**Art 187—Ceramics**  
(Formerly Art 127)  
2 Units  
Art 187 is a continued study of the fundamentals of the ceramic process where various slab construction techniques are explored. Wheel-throwing skills are sharpened by concentrated exercises to increase the size, speed, and production quality. Students will select and formulate glazes of their own choice, and the firing process will be studied in greater detail. Lecture 2 hours, laboratory 2 hours. **Prerequisite:** Art 186. **Transfer credit:** CSU, USC

**Art 188—Advanced Ceramics**  
(Formerly Art 128)  
2 Units  
Art 188 emphasizes advanced work on the potter's wheel with consistency and accuracy of results. The awareness of three-dimensional form and surface pattern are heightened by individual and group critiques. The students work toward a more individual statement by further experimentation with a variety of clay bodies, glazes, firing
techniques, and also design and execute multiples and sets. Under supervision the students assist in loading and firing of kilns. Lecture 2 hours, laboratory 2 hours. **Prerequisite:** Art 187. **Transfer credit:** CSU, USC

**189—Advanced Ceramics** 2 Units
(Formerly Art 129)

Art 189 is a course designed for the advanced student who wishes to pursue an individual direction in-depth. Students propose a semester outline, concentrating on specific techniques, materials, and firing procedures. Upon instructor approval of the proposal, students are expected to work independently, formulating personal clay bodies, glazes and working techniques. Reading and research assignments will be made where applicable. Lecture 2 hours, laboratory 2 hours. **Prerequisite:** Art 188. **Note:** This course may be taken 3 times; a maximum of 6 units may be earned. **Transfer credit:** CSU, USC

**190—Ceramic Handbuilding** 2 Units
(Formerly Art 163)

Art 190 is an introduction to basic ceramic handbuilding techniques and processes. Traditional methods of forming, joinery and construction will be introduced. Students will learn to design and analyze functional and nonfunctional objects. The class will explore traditional hand-built pottery, as well as contemporary, expressive hand-built forms. Lecture 2 hours, laboratory 2 hours. **Prerequisite:** None. **Transfer credit:** CSU, USC

**191—Advanced Ceramic Handbuilding** 2 Units
(Formerly Art 164)

Art 191 allows the student to explore complex problems of design and construction. Students work with the ceramic medium in conjunction with other materials while exploring possibilities of designing for architecture. In-depth study of surface design and decorative techniques are included. Lecture 1 hour, laboratory 3 hours. **Prerequisite:** Art 190. **Note:** This course may be taken 2 times; a maximum of 4 units may be earned. **Transfer credit:** CSU, USC

**192—Earthenware** 2 Units
(Formerly Art 160, Low Fire Ceramics)

Art 192 is an intermediate course in ceramics dealing specifically with earthenware, or low-fired ceramics. A variety of forming techniques are explored, including coil, slab, and wheel-throwing. Students will experiment with low-temperature clay bodies, glazes, underglazes, slips, and various overglaze techniques such as lusters, enamels, and decals. The electric kiln and its use in oxidation firing will be studied. Lecture 2 hours, laboratory 2 hours. **Prerequisite:** Art 186 or 190. **Note:** Art 130 is recommended. This course may be taken 2 times; a maximum of 4 units may be earned. **Transfer credit:** CSU, USC

**193—Raku** 2 Units
(Formerly Art 162)

Art 193 is an introductory course in ceramics dealing exclusively with the raku firing process. Projects are drawn from hand building and wheel throwing construction techniques, and then fired by the Japanese raku process. When the raku process is used, pieces are placed in a hot kiln, quick-fired and then withdrawn red-hot to a metal container with newspaper inside to reduce the glaze and bare clay body. Students will also prepare raku glazes to use in the execution of their projects. Lecture 2 hours, laboratory 2 hours. **Prerequisite:** Art 186 or 190. **Note:** Art 130 is recommended. This course may be taken 2 times; a maximum of 4 units may be earned. **Transfer credit:** USC

**195—Glaze Calculation** 2 Units

Art 195 is an introduction to the basic glaze and clay circulation. The students will learn to calculate molecular weights, empirical formula, unity formula, and batch formula. Students will use general glaze theory with calculating procedures to analyze and substitute, or create from beginning, glazes and clay bodies. The course involves simple arithmetical computations and includes certain ceramic laboratory skills and safety precautions for handling chemicals. This course will prepare the vocational student for employment in the ceramic industry. **Prerequisite:** Art 187 or Art 191. **Note:** This course may be taken 2 times; a maximum of 4 units may be earned. **Transfer credit:** USC

**Metal, Jewelry, Stained Glass**

**200—Metal and Jewelry Design I** 2 Units
(Formerly Art 147)

Not offered. **Transfer credit:** USCS

**201—Metal and Jewelry Design II** 2 Units
(Formerly Art 148)

Not offered. **Transfer credit:** USCS

**202—Metal and Jewelry Design III** 2 Units
(Formerly Art 149)

Not offered. **Transfer credit:** USCS

**203—Metal and Jewelry Design IV** 2 Units
(Formerly Art 150)

Not offered. **Transfer credit:** USCS
• 204 — Metal Enameling (Formerly Art 166) 2 Units
Not offered. Transfer credit: CSU, USC

• 210 — Stained Glass (Formerly Art 170) 1 Unit
Not offered. Transfer credit: CSU, USC

INTERIOR DESIGN, See Art 141

FASHION SKETCHING, See Fashion 123

ASTRONOMY

• 101 — Elements of Astronomy 3 Units
A survey of current knowledge regarding the universe, presented in non-technical language. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU, UC, USC

• 102 — Observational Astronomy 2 Units
Mapping the sky by means of bright stars and constellations will be accomplished. Small telescopes will be used for observing celestial objects. Lecture 1 hour, laboratory 3 hours. Prerequisite: Astronomy 101. Transfer credit: CSU, UC, USC

• 103 — Topics in Modern Astronomy 3 Units
Astronomy 103 is designed for students who have completed a survey course in astronomy. This course deals with recent developments in astronomy. Specific topics covered are planetary exploration with spacecraft, black holes, active galaxies and cosmology. Lecture 3 hours. Prerequisite: Astronomy 101. Transfer credit: CSU, UC, USC

AVIATION AND TRANSPORTATION

Students enrolling in some Aviation and Transportation courses will be required to purchase certain tools and equipment to meet the requirements of those courses. Students wishing to obtain tool and equipment lists in advance of registration should contact the appropriate instructor or department chairperson.

• 101 — Introduction to Automotive Technology 1 Unit
Aviation and Transportation 101 is an overview course to familiarize the student with the history, nomenclature, operation, and construction of the modern automobile. Emphasis will be placed on general mechanical concepts and related physical principles such as maintenance procedures, purchasing of parts and service. Lecture and laboratory 3 hours (8 weeks). Prerequisite: None. Note: This course may be taken 3 times; a maximum of 3 units may be earned.

• 102 — Automotive Tune-up 1 Unit
Aviation and Transportation 102 is designed to cover theories of design and operation of ignition and fuel system and components; techniques of engine trouble-shooting and tune-up procedures using both simple and specialized equipment. Vehicle emission control devices will be included in this class. Lecture and laboratory 3 hours. (8 weeks). Prerequisite: Aviation and Transportation 101 or equivalent. Note: This course may be taken 4 times; a maximum of 4 units may be earned.

• 103 — Automotive Electrical Systems 1 Unit
Aviation and Transportation 103 is designed to introduce the trainee to the automotive electrical systems. Each of the four principle circuits will be studied with reference to the general purpose of the circuit, the identification of component parts that make up the circuit, and relationship of one circuit to another as they function together in the automobile. Lecture and laboratory 3 hours. (8 weeks). Prerequisite: Aviation and Transportation 101 or equivalent. Note: This course may be taken 4 times; a maximum of 4 units may be earned.

• 104 — Automotive Chassis and Suspension Systems 1 Unit
Aviation and Transportation 104 is designed to acquaint the trainee with the various automotive suspension systems. Emphasis will be placed on the types of systems the trainee will encounter most frequently and the names and functions of the components of each system. Lecture and laboratory 3 hours. (8 weeks). Prerequisite: Aviation and Transportation 101 or equivalent. Note: This course may be taken 4 times; a maximum of 4 units may be earned.

• 114 — Commercial and Air Taxi Pilot Operations 3 Units
Aviation and Transportation 114 is a course of ground instruction which will prepare the student for a career as a Commercial Pilot or Air Taxi Pilot. The course will cover those subject areas that deal with real and practical aspects of flight operations
that are within the scope of the Commercial Pilot in General Aviation or the more complex requirements of Air Taxi Operators and Commercial Operators of Small Aircraft. Lecture 3 hours. **Prerequisite:** Completion of AT-119 and AT-120 with a "C" grade or better, or passing score on the Private Pilot Written Examination, or possession of Private Pilot Certificate.

**•117—Aviation Instructor Course** 3 Units
Aviation and Transportation 117 is a course of ground instruction designed for the student who wishes to become an aviation instructor. A discussion of teaching theory, types and methods of instruction that an instructor will use to become an effective instructor. Analysis and performance of flight maneuvers will be stressed. Lecture 3 hours. **Prerequisite:** Completion of AT-119 and AT-120 with a "C" grade or better, or passing score on the Private Pilot Written Examination, or possession of Private Pilot Certificate.

**•119—Practical Flight Concepts** 3 Units
Aviation and Transportation 119 is a ground training course designed for the student who is receiving flight training to gain the experience necessary to meet the qualification of a Private Pilot with an Airplane rating. The course will cover the practical flight concepts a pilot may encounter in most flight situations. Lecture 3 hours. **Prerequisite:** Completion of AT-120 with a "C" grade or better, or passing score on the Private Pilot Written Examination, or possession of Private Pilot Certificate.

**•120—Basic Aeronautics** 5 Units
Aviation and Transportation 120 is a study to prepare the student for the Private Pilot Written Examination, and is taught under FAA approved Basic and Advanced Group School Certificate No. WE-13-25. It covers basic Meteorology, Navigation, Principles of Engine Operation, Aerodynamics of Flight, Federal Air Regulations for the Private Pilot, and enroute procedures common to the private pilot. Lecture 5 hours. **Prerequisite:** None. **Transfer credit:** CSU

**•121—Navigation** 3 Units
Aviation and Transportation 121 is a study of dead reckoning and piloting aerial navigation, computer problems and vector analysis. Approved FAA Advanced Ground School for Commercial Pilots No. WE-13-25. Course is not limited to pilots. Lecture 3 hours. **Prerequisite:** Satisfactory completion of AT 120 with a grade of "C" or better, or Private Pilot Written Examination passed, or hold a Private Pilot Certificate. **Transfer credit:** CSU

**•122—Meteorology** 3 Units
Aviation and Transportation 122 is an elementary study of the basic principles of meteorology with emphasis placed on physical laws that operate in the atmosphere, particularly as they affect aircraft flight. Weather maps and reports and forecasts and their interpretation are stressed. *Approved FAA Advanced Ground School for Commercial Pilots No. WE-13-25. Lecture 3 hours. **Prerequisite:** None. **Note:** Aviation and Transportation pilot training students must have completed AT 120 with a grade of "C" or better, or Private Pilot Written Examination passed, or hold a Private Pilot Certificate.*

*Upon completion of this course the student will understand problems in meteorology as they affect the pilot. **Transfer credit:** CSU

**•123—Aircraft Structure and Aerodynamics** 3 Units
Aviation and Transportation 123 is a course in aircraft structures and aerodynamics as they apply to the pilot. Course meets FAA requirements for Commercial Pilots in the study of aircraft. Approved FAA Advanced Ground School No. WE-13-25. Lecture 3 hours. **Prerequisite:** Satisfactory completion of AT 120 with a grade of "C" or better, or passed the Private Pilot Written Examination, or hold a Private Pilot Certificate. **Transfer Credit:** CSU

**•124—Radio Procedures and Flight Regulations** 3 Units
Aviation and Transportation 124 is a course covering radio navigation, use of radio charts, voice procedures, and federal air regulations. It prepares the student for the FAA Commercial Pilot Written Examination on Federal Air Regulations and Radio. Approved FAA Advanced Ground School No. WE-13-25. Lecture 3 hours. **Prerequisite:** Satisfactory completion of AT 120 with a grade of "C" or better, or passed the Private Pilot Written Examination, or hold a Private Pilot Certificate. **Transfer Credit:** CSU

**•125—Instrument Procedures and Radio Navigation** 3 Units
Aviation and Transportation 125 is a detailed study of the use of radio navigation, weather briefing, advanced radio navigation and standard instrument approaches and procedures and Federal Air Regulations pertaining to instrument flight. Students are prepared for the FAA instrument Examination. Lecture 3 hours. **Prerequisite:** Satisfactory completion of AT 120 with a grade of "C" or better, or Private Pilot Written Examination passed, or hold a Private Pilot
Certificate. **Note:** It is recommended that Aviation and Transportation 131 be taken concurrently.  
**Transfer credit: CSU**

**126—Aircraft Power Plants**  
3 Units  
Aviation and Transportation 126 is a course in aircraft power plants. The study includes structures, operation, maintenance, and servicing as they apply to the pilot. Course meets FAA requirements for commercial pilots in the study of engines. Approved FAA Advanced Ground School No. WE-13-25. Lecture 3 hours.  
**Prerequisite:** Satisfactory completion of AT 120 with a grade of "C" or better, or passed the Private Pilot Written Examination, or hold a Private Pilot Certificate.  
**Transfer credit: CSU**

**127—Flight Training Maneuvers**  
3 Units  
Aviation and Transportation 127 is a detailed study of the maneuvers required for the safe, skillful operation of an airplane. The performance and application of the various maneuvers required by the Federal Aviation Administration for the Private and Commercial Pilot Flight tests will be examined in detail. Lecture 3 hours.  
**Prerequisite:** Satisfactory completion of AT 120 with a grade of "C" or better, or passed the Private Pilot Written Examination, or hold a Private Pilot Certificate.

**128—Airport Operations**  
3 Units  
Aviation and Transportation 128 is designed to acquaint the student with the practical airport problems as they exist today. The student is expected to be able to manage an airport or any diversified airport operation upon completion of this course. The course intends to cover airport development, locations, local advertising, financial requirements, air safety in the confines of the airport as well as traffic pattern management, airport lighting, deterioration and depreciation of airport property, fire and crash protection, familiarization with the Federal Aviation Administration and the National Transportation Safety Board, meteorological situations that affect airport operations, and control of air traffic. Lecture 3 hours.  
**Prerequisite:** None.  
**Note:** Aviation and Transportation 120 and 130 are recommended.

**129—Flight Attendant**  
3 Units  
Aviation and Transportation 129 will prepare the student for employment as a flight attendant and will present the advantages and disadvantages of the job. There is also a survey of the problems encountered by the new attendant both on the job and in training. Lecture 3 hours.  
**Prerequisite:** None.  
**Note:** It is recommended that this course be taken prior to or concurrently with Aviation and Transportation 120.

**130—Air Transportation**  
3 Units  
Aviation and Transportation 130 covers development of air transportation, problems in commercial air transportation, commercial airplanes, organization and functions of airlines, regulations, airline routes in the United States and the world, pilot qualification, schedules and services, revenue sources and potential operating overhead. Importance of airports and airways, of advertising, and of public relations stressed. Lecture 3 hours.  
**Prerequisite:** None.

**131—Air Traffic Controller**  
5 Units  
Aviation and Transportation 131 prepares students for the FAA Control Tower Operator Written Examination and assists them in meeting the requirements necessary to apply for the position of Air Traffic Control Specialist, and is of value to those students preparing for the position of Dispatcher, Meteorologist, Commercial Pilot, and positions concerned with aircraft operations. Student pilots and private pilots will find this course informative; students preparing for their Instrument Rating will receive much valuable information which will assist them in preparing for the written examination and the flight check, Aircraft Recognition and Performance, and Radio Telephone Procedures. Lecture 4 hours, laboratory 2 hours.  
**Prerequisite:** Satisfactory completion of Aviation and Transportation 120 with a grade of "C" or better, or passed the Private Pilot Written Examination, or hold a Private Pilot Certificate.  
**Note:** It is recommended that Aviation and Transportation 125 be taken concurrently.

**132—Flight Attendant II**  
3 Units  
Aviation and Transportation 132 prepares men and women for the highly competitive flight attendant positions and travel careers in the airlines and travel industry. Lecture 3 hours.  
**Prerequisite:** Aviation and Transportation 129 with a grade of "C" or better.  
**Note:** It is recommended that this course be taken prior to or concurrently with Aviation and Transportation 120.

**141—Aircraft Powerplant Maintenance and Overhaul**  
8 Units  
The completion of Aviation and Transportation 141, 142, 143, and 144 qualifies students for industry employment as maintenance and overhaul technicians and prepares them practically and theoretically to successfully obtain the Federal Aviation Administration Powerplant Rating.  
The course content of Aviation and Transportation 141 consists of theoretical study and practical application of powerplant overhaul procedures, precision inspections, lubrication systems, and Federal Aviation Administration regulations. The course content is based on
standards required for FAA certificated schools. The Glendale Community College Aviation and Transportation Division is approved FAA Maintenance Technician School No. 3415. Lecture 15 hours, laboratory 15 hours. Prerequisite: A satisfactory score on the Glendale Community College ESL Placement Test or a grade of "C" or better in English 177. Note: This class meets six hours per day, five days per week. Transfer credit: CSU

• 142—Aircraft Powerplant
  Maintenance and Overhaul 8 Units
The completion of Aviation and Transportation 141, 142, 143, and 144 qualifies students for industry employment as maintenance and overhaul technician and prepares them practically and theoretically to successfully obtain the Federal Aviation Administration Powerplant Rating.

The course content of Aviation and Transportation 142 consists of practical application and theoretical study of electrical systems, magnetos, generators, and starting systems. The course content is based on standards required for FAA certificated schools. Approved FAA Maintenance Technician School No. 3415. Lecture 15 hours, laboratory 15 hours. Prerequisite: A satisfactory score on the Glendale Community College ESL Placement Test or a grade of “C” or better in English 177. Note: This class meets six hours per day, five days per week. Transfer credit: CSU

• 143—Aircraft Powerplant
  Maintenance and Overhaul 16 Units
The completion of Aviation and Transportation 141, 142, 143, and 144 qualifies students for industry employment as maintenance and overhaul technicians and prepares them practically and theoretically to successfully obtain the Federal Aviation Administration Powerplant Rating.

The course content consists of practical application and theoretical study of carburetion, including float, pressure, fuel injection systems, propellers, gas turbine fuel systems and components, physical science and line service trouble-shooting superchargers, weight and balance, exhaust systems, engine cooling systems, and ground handling. The course content is based on standards required for FAA certificated schools. Approved FAA Maintenance Technician School No. 3415. Lecture 15 hours, laboratory 15 hours. Prerequisite: Aviation and Transportation 141 and 142 with a grade of "C" or better in both courses. Transfer credit: CSU

• 144—Airframe Maintenance and Overhaul 7 Units
The completion of Aviation and Transportation 141, 142, 143, 144 qualifies students for industry employment as maintenance and overhaul technicians and prepares them practically and theoretically to successfully obtain the Federal Aviation Administration Powerplant Rating. The course content consists of practical application and theoretical study of aircraft drawings, fabrication and installation of fluid lines, materials and processing, cleaning of aircraft and corrosion control. Lecture 25 hours, laboratory 5 hours (6 weeks — 240 hours). Prerequisite: Aviation and Transportation 143 with a grade of "C" or better. Transfer credit: CSU

• 145—Airframe Maintenance and Overhaul 9 Units
Aviation and Transportation 145 qualifies students for industry employment as maintenance and overhaul technicians and prepares them practically and theoretically to successfully obtain the Federal Aviation Administration Airframe Rating, upon completion of Aviation and Transportation 146. The course content consists of practical applications and theoretical study of structural repairs to aircraft, including woodwork; riveting; layout practices and radio installation and flight line maintenance. The course content is based on standards required for FAA certificated schools. Approved FAA Maintenance Technician School No. 3415. Lecture 10 hours, laboratory 20 hours (10 weeks — 300 hours). Prerequisite: Aviation and Transportation 144 or possession of a Federal Aviation Administration Powerplant Mechanics Certificate. Transfer credit: CSU

• 146—Airframe Maintenance and Overhaul 16 Units
Aviation and Transportation 146 qualifies students for industry employment as maintenance and overhaul technicians and prepares them practically and theoretically to successfully obtain the Federal Aviation Administration Airframe Rating.

The course content consists of practical applications and theoretical study of structural repairs to aircraft, including dope and fabric, fuel systems, control system, rigging, FAA forms, inspections and flight line maintenance. The course content is based on standards required for FAA certificated schools. Approved FAA Maintenance Technician School No. 3415. Lecture 10 hours, laboratory 20 hours. Prerequisite: Aviation and Transportation 145. Transfer credit: CSU
115—Human Biology

Biology 115 is an introductory course covering biological principles as they apply to the human body. The central theme is the structure and the function of the human organism. Topics covered will include: human evolution, the human species in the environment, cells, tissues, the major body systems, heredity, and the major environmental conditions and diseases on earth today.

A weekly laboratory will allow students the opportunity to gain practical experience in the techniques necessary to study the health sciences and the environment. Lecture 3 hours, discussion 1 hour, laboratory 2 hours. Prerequisite: None. Note: High school Biology strongly recommended. No credit will be granted to students who have received credit for Biology 116, 120 or 121. Transfer credit: CSU

118—Principles of Biology

Biology 118 is a television survey course covering the major concepts in biological science. The emphasis is on the dynamic processes and interrelationships occurring in the living world. This course is designed for students majoring in fields other than the biological sciences. Lecture and discussion, 3 hours. Prerequisite: None. Note: This course may not be taken for credit by students who have completed Biology 122.

120—Human Anatomy

Biology 120 comprehensively covers the systems of the human body. The laboratory includes the study of tissues using the microscope and a detailed study of the human skeleton; dissections on the cat muscles and blood vessels, sheep brain, and cow eye are included to illustrate comparative parts of human anatomy. Lecture 3 hours, discussion 2 hours, laboratory 4 hours. Prerequisite: A satisfactory score on the Reading Language subtests of the Preregistration Examination; or a grade of "C" or better in Biology 115 or 116. Note: Primarily for nursing, physical education, and health science majors. Transfer credit: CSU, UC, USC

121—Introduction to Physiology

A laboratory course in the functions of the various systems of the human body. Lectures, charts, models, and experimental materials. Course required for pre-nursing students, elective for others. Lecture 3 hours, discussion 1 hour, laboratory 2 hours. Prerequisite: Biology 120 and Chemistry 101, 110, or 120. Transfer credit: CSU, UC, USC

101—General Biology

Biology 101 is the first half of a one-year course designed for science majors covering fundamental biological processes; from the history and philosophy of biology through molecular biology, cell structure and function, physiology of the organism, and classification. Lecture 3 hours, discussion 1 hour, laboratory 2 hours. Prerequisite: Chemistry 101. Note: Chemistry 101 may be taken concurrently. Transfer credit: CSU, UC, USC

102—General Biology

Biology 102 is a continuation of the study of fundamental biological processes. Includes embryology, behavior, ecology, Mendelian and fine genetics, evolution, and global biology. Lecture 3 hours, discussion 2 hours, laboratory 4 hours. Prerequisite: Biology 101 and Chemistry 101. Transfer credit: CSU, UC, USC

112—Microbiology

Biology 112 is a study of life using microorganisms (algae, bacteria, molds, protozoa, viruses, and yeasts) as prototypes. Includes microbial biochemistry, genetics, cellular and intracellular activities, applied uses, and pathogenicity of these forms of life. In the laboratory students will also identify one unknown microbial organism. Lecture 3 hours, discussion 1 hour, laboratory 3 hours. Prerequisite: Chemistry 101, or 110, or 120. Transfer credit: CSU, UC, USC
•122—Introduction to Biology  4 Units
Designed to give a cultural appreciation of the scientific method and an elementary working knowledge of the fields studied. A liberalized approach to the study of living organisms, both plant and animal. The emphasis is on the dynamic processes and functional inter-relationships between living organisms. Primarily for students majoring in fields other than the biological sciences. Lecture 3 hours, discussion 1 hour, laboratory 2 hours. **Prerequisite:** None. **Note:** This course allows only one unit of credit for those students completing Biology 118. **Transfer credit:** CSU, UC, USC

•123—Evolution  3 Units
Biology 123 deals with the emergence and development of life. Evidences for and against are discussed with topics including mechanisms and theories of evolution, biogeography, origins of life (including extra-terrestrial possibilities), genetics, of primates and man, ethology, sociobiology, and the genetic basis for aggression, altruism, cooperation, competition, racism, and war. The future of evolution, man, and civilization concludes the course. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

•125—Marine Biology  3 Units
Biology 125 is an introduction to the study of biology based on the marine ecosystems. The course examines the major principles of biology through the study of the life forms of the ocean and their adaptations to the marine environments. Covers such topics as the ocean habitat, functions of life systems, evolution, trophic relationships, productivity, adaptations to the environment. Emphasis is placed on understanding our local marine habitats and current environmental issues. Lecture 3 hours. **Prerequisite:** None. **Note:** All students taking Biology 125 prior to Spring 1981, will not receive credit for Biology 126. **Transfer credit:** CSU, UC, USC

•126—Field and Laboratory Investigations in Marine Biology  2 Units
Biology 126 is a study of the structure and function of marine biological communities through first-hand field and laboratory experiences. Visitations to various marine habitats will include the rocky intertidal, the sandy beach, the estuary, warf pilings and glocks, and nearshore islands. Laboratory investigations will emphasize the study of live organisms. Field studies will examine the organisms in relation to their natural environment. Students will develop a field journal of investigations of the various marine habitats. Laboratory/Field Work 6 hours. **Prerequisite:** Biology 125 or concurrent enrollment in Biology 125. **Note:** Field trips will require student contribution for meals and transportation. **Transfer credit:** CSU, UC, USC

•127—Ecology and Conservation  3 Units
Biology 127 is an introduction to organismic, population, and community ecology with emphasis on the interaction between organisms and their environment with respect to energy and flow ecosystems dynamics. The course will also introduce the student to the various aspects of natural resource management including forestry practices, wildlife management, hydrology, soils, and energy resources. Lecture 3 hours. **Prerequisite:** None. **Note:** This course may not be taken for credit by students who have completed Biology 124. **Transfer credit:** CSU, UC, USC

•128—Ecology and Conservation Laboratory  1 Unit
Biology 128 is offered as a practical supplement to Biology 127. Ecology and conservation allows the student to apply concepts and theory presented in Biology 127 to practical field situations. Students will learn environmental monitoring and analysis techniques along with research data analysis and interpretation. Laboratory 3 hours. **Prerequisite:** Biology 127 or concurrent enrollment. **Note:** This course may not be taken for credit by students who have completed Biology 124. **Transfer credit:** CSU, UC, USC

•129—Directed Studies in Marine Ecology  (See Note)
A course emphasizing individual investigation of the natural marine environment through field and laboratory studies. Students examine the inter-relationship between marine organisms and their habitats by special projects dealing with a particular problem. Library research, a scientific paper, and an oral presentation of the directed studies are an integral part of the course. Field studies will investigate various localities during different semesters; such as, Baja California, the Channel Islands, the Northern California Coast, and local marine habitats. 3-9 hours field and laboratory study. **Prerequisite:** Biology 125 or Biology 101 and Biology 102. **Note:** Three hours are required for each unit earned. The course may be taken for one, two, or three units according to the schedule. The course may be repeated for a maximum of six units. Field trips will require student contribution for meals and transportation. **Transfer credit:** CSU, UC
•130—Natural History of Southern California 4 Units
Biology 130 covers the following topics: ecological studies of alpine to lower desert and aquatic communities. Emphasis is on field investigation of the types, distribution, and diversity of plants and animals within each community. Environmental factors such as climate, soils, and landforms will be integrated with community studies. An extended period in the field may be substituted for a number of shorter field trips (see current class schedule). Lecture 3 hours, laboratory 3 hours. Prerequisite: None. Note: A course in either high school or college biology or equivalent is recommended. Field trips will require student contribution for meals and transportation. Transfer credit: CSU, UC, USC

•131—Natural History Field Studies 1-3 Units
Biology 131 offers individual and group investigation of the biological environment and the impact of human activities upon it. The course format will include discussion sessions as well as field studies. Students examine the inter-relationship between biological organisms and their habitats by special projects dealing with a particular problem. Library research, a scientific paper, and an oral presentation of the directed studies may be a part of the course. Field studies will investigate various world localities during different semesters such as, Baja California, the Channel Islands, the northern California coast, Alaska, Tahiti, Africa, etc. The cost of land and air arrangements will be borne by each student, and will be kept to a minimum while still providing clean and comfortable lodging. 39 hours field and laboratory study. Prerequisite: A Biology or Ecology course in high school or college, or the equivalent. Note: Three hours are required for each unit earned. The course may be taken for one, two, or three units according to the schedule. This course may be taken 4 times; a maximum of 6 units may be earned. Transfer credit: CSU, UC, USC

•132—Introduction to Marine Science 3 Units
Biology 132 serves as an introduction to oceanography, marine biology, and the related marine technologies. Topics covered include sea floor topography and geologic processes, water circulation, and the diversity of marine organisms and their physiological and ecological adaptations to the marine technologies dealing with the development and utilization of marine biological and geological resources. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU

•135—Introduction to Botany 4 Units
Biology 135 is an introductory course covering biological principles as they apply to the plant world. The central theme is the importance of plant structure and variation in life on earth. Topics covered will include plants and human affairs, plant cells, photosynthesis, the role of plants in ecological cycles, and a survey of the earth's plant forms. Lecture 3 hours, discussion 1 hour, laboratory 2 hours. Prerequisite: None. Note: High school Biology recommended. Transfer credit: CSU, UC, USC

•137—Field Botany 5 Units
Biology 137 is a study of the plant materials and the ecology of the plant communities of Southern California. Two weekend Field Trips are included. Lecture 3 hours, discussion 2 hours, laboratory 4 hours. Prerequisite: None. Transfer credit: CSU, USC

•138—Horticulture 3 Units
Biology 138 is a study of the names and requirements of exotic and native plants used in ornamental horticulture in the Los Angeles area. Basic principles and practices in propagation, pruning, diseases, and insect control. Extensive laboratory work with living specimens in the greenhouse. Field trips to local nurseries and parks. Lecture 2 hours, discussion 1 hour, laboratory 1 hour. Prerequisite: None. Transfer credit: CSU

•139—Plant Propagation 3 Units
Biology 139 is the study and practice of growing plants from seed and by asexual methods for commercial or home use. Propagation methods, structures, plant pests and diseases, and control of the plants being propagated will be discussed. Laboratory work in seeding, transplanting, cutting, budding, and grafting will be done by the student. Lecture 2 hours, discussion 1 hour, laboratory 2 hours. Prerequisite: None. Transfer credit: CSU

•140—Living With Insects 3 Units
Not offered.

•145—Biology of Birds 2 Units
Biology 145, Biology of Birds, is a nine-week introductory course dealing with the identification, classification, ecology, anatomy, and behavior of birds. Course study emphasizes the natural history of local birds as well as representative bird groups from around the world. Lecture 3 hours, laboratory, see note. Prerequisite: None. Note: Five Saturday laboratory/field study sessions required with each session lasting five hours. An extended period of field study may be substituted by the
instructor for a group of shorter field sessions (see current schedule of classes). Transfer credit: CSU, USC

- 146—Marine Mammals  2 Units  
   Biology 146, Marine Mammals, is an nine-week introductory course dealing with the identification, classification, ecology, anatomy, and behavior of marine mammals. Course study emphasizes the natural history of local marine mammal species as well as representative marine mammal groups from the oceans of the world. Lecture 3 hours, laboratory, see note. (9 weeks). Prerequisite: None. Note: One field session lasting three days and two field sessions lasting one day each are required. (See current schedule of classes for location and dates of field session.) Transfer credit: CSU, USC

- 149—Topics in Life Science  4 Units  
   Not offered.

BUSINESS ADMINISTRATION

- 101—Introduction to Business Organization and Management  3 Units  
   Business Administration 101 orients students to the field of business. Introducing, in survey form, the functions, characteristics, organization, and problems of business. Serves as a foundation for later specialized study, and directs the thinking of students to possible careers. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU

- 110—Human Relations in Business  3 Units  
   Business Administration 110 will aid future employees, as well as present employees, in understanding and utilizing human relations concepts as they apply to the business environment. Topics will cover such areas as morale, personal efficiency, personality, motivation, communication, decision making, job adjustment, and leadership. Lecture 3 hours. Prerequisite: None. Note: This course counts toward Social Science units required for graduation. Transfer credit: CSU

- 120—Business Law I  3 Units  
   Business Administration 120 is a study of law as it influences business conduct, including growth of law and recent changes, especially the new Uniform Commercial Code, and principles of contracts, bailments, and agency. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU, UC, USC

- 125—Business Law II  3 Units  
   Business Administration 125 deals with the law of sales, negotiable instruments, partnerships, corporations, and trade regulation. Lecture 3 hours. Prerequisite: Business Administration 120 with a grade of "C" or better or equivalent. Transfer credit: CSU, UC, USC

- 160—Insurance Principles  3 Units  
   Not offered.

BUSINESS—GENERAL

- 101—English for Business  3 Units  
   Business—General 101 is a course designed to help secretarial and business students achieve proficiency in grammar, punctuation, vocabulary, syllabication, and sentence structure. Lecture 3 hours. Prerequisite: A satisfactory score on the
English Placement Examination, or a grade of "C" or better in Business—General 115 or English 191 or English 165. **Note:** This course allows one unit of credit for students who have completed English 101 and two units of credit for students who have completed English 120 or 131.

**105—Business Vocabulary and Spelling**

2 Units

Business—General 105 is designed to develop spelling ability and effective usage of general and specialized vocabulary used in modern business communications and to develop competency and understanding when using the dictionary. Lecture 2 hours. **Prerequisite:** Eligibility for one of the following: Business—General 101 or English 120 or English 131. **Note:** Required for all entering shorthand students and for all office occupations certificate programs. Concurrent enrollment in Business—General 101 or Business—General 120 is recommended for secretarial students.

**110—Written Business Communications**

3 Units

Business—General 110 is a course designed to help students develop proficiency in writing modern business letters and reports. A vigorous up-to-date approach is given to managerial problems in correspondence including dictation, and letters of adjustment, credit, collection, and sales. Special emphasis is given to application letters. Particular attention is given to the human relation aspects of communications as well as the role played by language. Lecture 3 hours. **Prerequisite:** A grade of "C" or better in Business—General 101 or Business—General 120 or English 120 or English 131; or a grade of "B" or better in English 191 or English 165; or a satisfactory score on the English Placement Examination. **Note:** Students who complete this course with a grade of "C" or better are eligible to enter English 101. **Transfer credit:** CSU

**115—Language for Business—Cross Cultural**

4 Units

Not offered.

**120—Language for Business—Bilingual**

5 Units

Not offered.

**130—Business Mathematics**

1-2 Units

Business—General 130 is an intensive course which develops speed and accuracy in the fundamentals of business arithmetic, incorporating shortcuts where applicable and the technique of estimating answers. Business applications include calculations pertaining to percentage, interest, commission, bank discount, negotiable instruments, annuities, mortgages, payroll, depreciation, and bank reconciliation. Business vocabulary is stressed, with an introduction to progression and the binary number system. Lecture 2 hours. **Prerequisite:** Mathematics 151 or a satisfactory score on the Mathematics Proficiency Examination. **Note:** This course may be taken 2 times; a maximum of 2 units may be earned.

**135—Advanced Business Mathematics**

1 Unit

Business—General 135 is an advanced course presenting business applications of mathematics pertaining to cash and trade discount, profit and loss, merchandising, income and property taxes, fire and life insurance, stocks, bonds, and other securities. Lecture 2 hours. (9 weeks) **Prerequisite:** Business—General 130 with a grade of "C" or better or equivalent.

**140—Electronic Calculators**

1-2 Units

Business—General 140 develops skill in the operation of electronic display and electronic printing calculators. (Rotary and printing calculators are available to students who request them.) Prepares transferring accounting students to take machine proficiency test required at some four-year institutions. Lecture 1½ hours, laboratory 1½ hours. **Prerequisite:** None. **Note:** Recommended for all business majors. **Transfer credit:** CSU

**150—ABC Shorthand**

1-3 Units

Business—General 150 integrates the principles of notetaking with a phonetic system of briefhand for classroom and vocational use. Adaptable for notetaking in college classes, offices, business conferences, seminars, interviews, and for research report writing. Notetaking should be of interest to (a) all business majors who do not enroll in the secretarial programs, (b) majors in other subject areas where a great deal of notetaking is essential, and (c) business and professional people who must attend conferences and meetings and who prepare reports, speeches, articles, and research papers. Lecture 3 hours. **Prerequisite:** Eligibility for one of the following: Business—General 101 or English 120 or English 131.

**165—Consumer Education**

3 Units

Not offered.

**170—Insurance Specialist Training**

3 Units

Not offered. **Transfer credit:** CSU

**175—Commercial Insurance**

3 Units

Not offered.
CHEMISTRY

• 101—General Chemistry 5 Units
A course in fundamental chemistry designed to set forth the most important facts and theories with which chemistry is concerned. Basic laws and chemical calculations are stressed. Lecture 3 hours, discussion 2 hours, laboratory 4 hours. Prerequisite: All three of the following must be satisfied.
1. Eligibility for English 120.
2. Mathematics 101 with a grade of “C” or better or one and one-half years of algebra in high school with a grade of “C” or better.
3. Chemistry 110 with a grade of “C” or better or one year of high school chemistry (which included regularly scheduled laboratory work) with a grade of “C” or better. Transfer credit: CSU, UC, USC

• 102—General Chemistry 5 Units
A continuation of the study of the basic concepts of general chemistry introduced in Chemistry 101, with emphasis on the theory and technique of qualitative analysis, including a brief introduction to organic chemistry. Lecture 3 hours, discussion 2 hours, laboratory 4 hours. Prerequisite: Chemistry 101 with a grade of “C” or better. Transfer credit: CSU, UC, USC

• 103—Quantitative Analysis 4 Units
Chemistry 103 emphasizes the principles and techniques of quantitative analysis, including calibration, volumetric, gravimetric and spectrophotometric procedures. Large numbers of illustrative problems are solved. Lecture 2 hours, discussion 2 hours, laboratory 4 hours. Prerequisite: Chemistry 102 with a grade of “C” or better. Note: Chemistry 103 is required of pre-medical students. Chemistry 103 is recommended for majors in chemistry, physics, pharmacy, mining engineering, geology, metallurgical or petroleum engineering, sanitary and municipal engineering, certain agriculture and public health curricula and medical technologists. Transfer credit: CSU, UC, USC

• 105—Organic Chemistry 5 Units
An introductory study of the compounds of carbon, including the preparation, properties, and reactions of both aliphatic and aromatic hydrocarbons, halogen derivatives, alcohols, and ethers. Methods of synthesis are stressed, and reaction mechanisms and modern structural principles are introduced. Lecture 3 hours, discussion 2 hours, laboratory 4 hours. Prerequisite: Chemistry 102 with a grade of “C” or better. Note: Required of pre-medical and pre-dental students; recommended for majors in chemistry, petroleum engineering, sanitary and municipal engineering, and pharmacy; and for certain home economics, public health, and agriculture majors. Transfer credit: CSU, UC, USC

• 106—Organic Chemistry 5 Units
A study of the preparation, properties, and reactions of aliphatic, and aromatic acids, amines, aldehydes, ketones, carbohydrates, heterocyclic compounds, amino acids and proteins. Analysis as well as synthesis of compounds is stressed. Lecture 3 hours, discussion 2 hours, laboratory 4 hours. Prerequisite: Chemistry 105 with a grade of “C” or better. Transfer credit: CSU, UC, USC

• 107—Introductory Biochemistry 3 Units
Not offered. Transfer credit: CSU, UC, USC

• 110—Elements of General Chemistry 5 Units
A basic course in the fundamental principles, laws and computations of chemistry emphasizing the descriptive phases and including a brief introduction to the chemistry of the carbon compounds. Lecture 4 hours, discussion 1 hour, laboratory 2 hours. Prerequisite: Mathematics 141 or one year of algebra in high school. Transfer credit: CSU, UC, USC

• 112—Chemistry for the Consumer 3 Units
Chemistry 112 is an introduction to the fundamentals of chemistry as they are applied to the world in which we live. Current topics of interest to be discussed will include household products, drugs, chemistry of food and food additives, DNA and genetic engineering, toxic wastes, carcinogenesis, energy and radioactivity. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU

• 115—Chemistry Fundamentals for Nurses 3 Units
A course in fundamental chemistry for nurses (lecture only) designed to give the basic concepts of chemistry necessary for the nursing profession. Lecture 3 hours. Prerequisite: Concurrent enrollment in Allied Health 101, 103, 107, 108 and 118 if not completed previously, or anticipated acceptance into the Vocational Nursing Program.
• 120—Fundamentals of College Chemistry (Inorganic) 5 Units
Chemistry 120 is a course in the fundamentals of chemistry with the emphasis on health science related examples. This course and Chemistry 121 are designed for health science (e.g., nursing), home economics, physical therapy, and other majors that need a year of college chemistry that includes inorganic, organic and biochemistry. Chemistry 120 will cover inorganic chemistry. Chemistry 120 does not involve the level of mathematical applications that are found in Chemistry 101. Lecture 4 hours, discussion-laboratory 3 hours. Prerequisite: Mathematics 141 with a grade of "C" or better or one year of algebra in high school. Note: This course is not for science majors. At Glendale Community College, Chemistry 120 satisfies the prerequisite for Chemistry 121 only. Transfer credit: CSU, UC, USC

• 121—Fundamentals of College Chemistry (Organic and Biochemistry) 5 Units
Chemistry 121 is the second half of the year sequence and covers the fundamentals of organic and biochemistry. Lecture 4 hours, discussion-laboratory 3 hours. Prerequisite: Chemistry 120 with a grade of "C" or better. Note: This course is not for science majors. Transfer credit: CSU, UC, USC

• 143—Introduction to Chemistry 4 Units
An introductory course emphasizing the essential principles of chemistry with a descriptive survey of chemical facts. Reference is made to industrial and practical home chemistry. Lecture 3 hours, discussion 1 hour, laboratory 2 hours. Prerequisite: None. Note: Recommended as a foundation course for either Chemistry 110 or Chemistry 101. This course will satisfy the chemistry requirement for many schools of nursing.

CHINESE

• 110—Basic Conversational Chinese I 2 Units
Chinese 110 is an introduction to the Chinese language (Mandarin) with emphasis on developing essential skills in communication. The verbal active method used stresses oral expression. This course develops a working knowledge of reading and writing as well, and includes the use of tapes, cassettes, and films. Lecture 2 hours, laboratory 1 hour. Prerequisite: None. Note: This course may be taken 2 times; a maximum of 4 units may be earned.

• 111—Basic Conversational Chinese II 2 Units
Chinese 111 is a continuation of basic conversational Mandarin Chinese. It teaches the students to communicate on an advanced level and provides them with the ability to read and write for further study. The classroom activities emphasize conversational repetition and oral expression. Reading and writing will be introduced on a limited basis. Lecture 2 hours, laboratory 1 hour. Prerequisite: Chinese 110 or equivalent. Note: This course may be taken 2 times; a maximum of 4 units may be earned.

COMPUTER AND INFORMATION SYSTEMS

• 101—Introduction to Computer and Information Systems 3 Units
Computer and Information Systems 101 is an in-depth study course designed to present the concepts and technology of electronic data processing to students who plan to continue their studies in business information systems or computer science. Topics include history and development of data processing, digital computers, configurations, data representation, computer programming languages, and management information systems. Lecture 3 hours, Prerequisite: Eligibility for English 120 or equivalent. Note: Accounting 101, 110 recommended. Transfer credit: CSU, UC, USC

• 105—Computer Concepts 3 Units
Computer and Information Systems 105 is a survey course designed to introduce concepts and applications to students with no previous exposure to computing. It is directed toward students who want a single survey course in computer concepts, and who may be using a computer in a work situation. Lecture 3 hours, laboratory 1 hour. Prerequisite: Eligibility for English 120 or 165. Note: This course may not be taken for credit by students who completed Computer and Information Systems 101. Transfer credit: CSU, UC

• 107—Adapted Computer Technology 3 Units
Computer and Information Systems 107 is designed to instruct disabled students in the use of adapted computer technology and use of specially designed software to enhance basic skill acquisition. Lecture 2 hours, laboratory 3 hours. Prerequisite: Student must meet Title V eligibility requirements for Disabled Student Programs and Services. Note: This course may be taken 4 times; a maximum of 12 units may be earned.
110—BASIC Programming I 3 Units
Computer and Information Systems 110 is a course in programming time-shared computers using BASIC programming language, which includes defining the problem; flowcharting; writing, executing, and debugging application programs; and program documentation. Students may choose application programs pertaining to their own subject areas and process these programs using the time-sharing equipment of the on-campus computer. Lecture 2 hours, laboratory 3 hours to be arranged. **Prerequisite:** Computer and Information systems 105 with a grade of "B" or better or Computer and Information Systems 101 with a grade of "C" or better or equivalent and either Mathematics 141 or 1 year of high school algebra, with a grade of "C" or better, or equivalent. **Transfer credit:** CSU, UC, USC

115—Microcomputer Applications for Business 1-4 Units
Computer and Information Systems 115 is intended to acquaint students with the capabilities and technology of microcomputer systems in relation to business needs, and to enable them to make an intelligent selection of the type of microcomputer best suited to their needs. Specific emphasis will be placed on the use and modification of available programs, as well as the creation of programs in BASIC which will be of help to business-oriented users in operating their enterprises more effectively. Lecture 3 hours, laboratory 3 hours. **Prerequisite:** Eligibility for English 120 or equivalent. **Transfer credit:** CSU

120—BASIC Programming II 3 Units
Computer and Information Systems 120 is an extended study of the capabilities of the BASIC programming language. The course will include file processing techniques, the development of formatted output, validity checking, sort and search techniques, advanced table-handling methods and the use of small-system disc operating systems. Case studies and applications programs in business, economics, statistics, mathematics, engineering, or science will be written. Lecture 2 hours, laboratory 3 hours. **Prerequisite:** Computer and Information Systems 101, Computer and Information Systems 110 with a grade of "C" or better or 1 year of high school BASIC. **Transfer credit:** CSU, UC, USC

123—Computerized Advertising Graphics 2 Units
Computer and information systems 123 is designed to acquaint students with the use of computer software to plan and prepare printed graphics materials. Students will compose and create business projects using state-of-the-art graphic design to make them attractive and professional looking, including a two-page advertising flyer or newsletter, suitable for duplication. Lecture 2 hours, laboratory 1 hour. **Prerequisite:** Graphics 175. **Note:** This course may not be taken for credit by students who have completed Marketing 123. **Transfer credit:** CSU

130—Introduction to Computer Science with Pascal 4 Units
Computer and Information Systems 130 is a course in programming time-shared computers or microcomputers using the Pascal language with a structured approach. This will include a study of the grammar and syntax of the language with applications in science and/or industry. The course is suitable either for students planning to transfer or those wishing to develop a marketable skill. Lecture 3 hours, laboratory 3 hours. **Prerequisite:** A "C" or better in Computer and Information Systems 101, and 110 or 140 or 150 or Mathematics 128.

135—Programming in 'C' 4 Units
Computer and Information Systems 135 is a course in programming using the 'C' language. The 'C' language is an easily transportable language with uses in applications programming for realtime, business, and image processing systems, as well as systems programming. Types, operators, control flow functions and program structure pointers and arrays will be covered in the programming assignments. Lecture 3 hours, laboratory 3 hours. **Prerequisite:** Computer and Information Systems 120 or 130 or 140 or Mathematics 130, or equivalent. **Transfer credit:** CSU

140—COBOL Programming I 4 Units
Computer and Information Systems 140 presents the elements and capabilities of COBOL (common business oriented language), using a structured approach. COBOL programming applies to most common computer system configurations and business problem-solving applications. The course includes rules for COBOL words, statements, divisions, literal, editing, and other features. Lecture 3 hours, laboratory 3 hours. **Prerequisite:** Computer and Information Systems 101 and a grade of "C" or better in either Computer and Information Systems 110 or Computer and Information Systems 150 or Mathematics 130 or equivalent. **Note:** Accounting 101 or Accounting 110 recommended. **Transfer credit:** CSU, UC, USC
145—COBOL Programming II 4 Units
Computer and Information Systems 145 is a further study of elements in COBOL, a computer language for business, stressing a structured approach. It includes such advanced techniques as file structures, report writing, table creation, sorts, data structures, data checking, and common programming problems. Lecture 3 hours, laboratory 3 hours. **Prerequisite:** Computer and Information Systems 140 with a grade of "C" or better. **Transfer credit:** CSU, UC, USC

150—FORTRAN Programming 2 Units
Computer and Information Systems 150 is a course in programming computers in the FORTRAN language for those who plan to be programmers or for those whose work may be related to computer applications in business, industry, or education. Students may write application programs pertaining to their own subject areas and test these programs by batch processing. Lecture 3 hours, laboratory 3 hours to be arranged (8 weeks). **Prerequisite:** A grade of "C" or better in Computer and Information Systems 101 and a grade of "C" or better in Computer and Information Systems 110 or 130, or 140 or equivalent. **Note:** This course may not be taken for credit by students who have completed Mathematics 130. **Transfer credit:** CSU, UC, USC

160—Microcomputer Assembly Language 4 Units
Computer and Information Systems 160 offers students an introduction to programming and the basic design of software for microcomputers. It is intended to develop an understanding of the underlying principles of computer logic. Students will learn to write and to modify programs to suit their needs by examining general principles that may be applied to the processor for a specific microcomputer. Lecture 3 hours, laboratory 3 hours. **Prerequisite:** A grade of "C" or better in Computer and Information Systems 101 and a grade of "C" or better in Computer and Information Systems 110, or 130, or 140 or 150, or Mathematics 130 or equivalent. **Note:** This course may be taken 3 times, using different software or hardware; a maximum of 12 units may be earned. **Transfer credit:** CSU, UC, USC

170—Introduction to Digital Equipment Corporation VAX Systems 4 Units
Computer and Information Systems 170 introduces the student to the capabilities of medium and large scale computer systems. Using the Digital Equipment Corporation's VAX Computer, the world of the professional computer programmer is explored. Topics such as O/S command language, file structures and systems, I/O techniques, virtual memory, multi-programming concepts, memory allocation, program design, development, testing, and security; inter-programming transfer and communication are discussed as applied to the VAX computer using the VMF operating system. Lecture 3 hours, laboratory 3 hours. **Prerequisite:** A grade of "C" or better in C&IS 120 or 130 or 140 or Mathematics 130 or equivalent experience. **Transfer credit:** CSU, UC, USC

180—Systems Analysis 3 Units
Computer and Information Systems 180 is a study of systems and procedures, design of a system, its implementation and installation, and finally its operation, evaluation, and modification. Includes analysis of various existing applications in business and industry. Lecture 3 hours. **Prerequisite:** A grade of "C" or better in Computer and Information Systems 101 or equivalent. **Note:** Business Administration 101 and either Accounting 101-102 or Accounting 110-111 recommended. **Transfer credit:** CSU, UC, USC

185—Data Base Management 3 Units
Computer and Information Systems 185 is a course designed to acquaint the student with the elements of data base management which creates file structures to reduce the time and cost of writing programs to store and retrieve information. Topics include mass storage devices, access methods, and the relationship of files to the total system. Particular emphasis is placed on the on-line data base management system and its relationship to the operating system. Lecture 3 hours. **Prerequisite:** A grade of "C" or better in Computer and Information Systems 120 or 140 or equivalent. **Transfer credit:** CSU, UC, USC

190—Data Communications 3 Units
Computer and Information Systems 190 is a course designed to acquaint the student with the essential elements of on-line data communications systems including terminals, line potentials, and equipment necessary at the central computer site. The course also includes actual programming of an application and debugging it on the computer. Lecture 3 hours. **Prerequisite:** A grade of "C" or better in Computer and Information Systems 101 and 140 or equivalent. **Transfer credit:** CSU, UC, USC
•210—Computer Operations  3 Units
Computer and Information Systems 210 studies the use, operation, and capabilities of computer systems. Students will learn to operate the computer and its peripheral equipment, with major emphasis of flowcharting, data flow, scheduling, and distribution of reports. Lecture 3 hours. Prerequisite: A grade of "C" or better in Computer and Information Systems 101 or equivalent. Note: Accounting 101 or Accounting 110 recommended. Transfer credit: CSU, USC.

•220—Word Processing for Writers  1 Unit
Computer and Information Systems 220 is a course designed to benefit students who are required to write essays or term papers. The course will train students in the use of a computer, enabling them to edit their writing easily and thus encourage a more finished product. It will also allow instructors to demand a higher standard of writing because of the ease of implementing changes. Lecture 1½ hours, laboratory 1½ hours. (8 weeks) Prerequisite: None. Note: This course may be taken 3 times; a maximum of 3 units may be earned.

•230—Applications Software/Spreadsheets  1 Unit
Computer and Information Systems 230 is intended to teach the student to use a microcomputer spreadsheet program to produce practical, well-designed business application models of moderate complexity. The content of Computer and Information Systems 230 differs each time it is offered with a different software package and students who repeat the course will therefore gain additional skills and knowledge. Lecture 2 hours, laboratory 1 hour (9 weeks). Prerequisite: Eligibility for English 120. Note: Students with no previous microcomputer experience are advised to take Computer and Information Systems 105 or Computer and Information Systems 101 before taking this course. This course may be taken 4 times using different software or hardware; a maximum of 4 units may be earned.

•231—Applications Software/Advanced Spreadsheets  1 Unit
Computer and Information Systems 231 is a continuation of Computer and Information Systems 230 and is intended to teach the student the use of advanced microcomputer spreadsheet software for business applications. Advanced functions and the creation of turnkey systems through the use of Macros will be covered. The content of Computer and Information Systems 231 differs each time it is offered with a different software package and students who repeat the course will therefore gain additional skills and knowledge. Lecture 2 hours, laboratory 1 hour (9 weeks). Prerequisite: Computer and Information Systems 230 or equivalent experience. Note: This course may be taken 4 times using different software or hardware; a maximum of 4 units may be earned.

•232—Applications Software/Database Systems  1 Unit
Computer and Information Systems 232 is intended to teach the student the use of microcomputer database system software for business applications. Files will be created, data manipulated, output formatted, and reports produced for a variety of applications. The content of Computer and Information Systems 232 differs each time it is offered with a different software package and students who repeat the course will therefore gain additional skills and knowledge. Lecture 2 hours, laboratory 1 hour (9 weeks). Prerequisite: Eligibility for English 120. Note: Students with no previous microcomputer experience are advised to take Computer and Information Systems 105 or Computer and Information Systems 101 before taking this course. This course may be taken 4 times using different software or hardware; a maximum of 4 units may be earned.

•233—Applications Software/Advanced Database Systems  1 Unit
Computer and Information Systems 233 is a continuation of Computer and Information Systems 232 and is intended to teach the student how to use the structured programming language capability of database system software for the solution of complex problems. Files and menus will be created, data manipulated, output formatted, complex Boolean logic employed and reports produced for a variety of applications. The content of Computer and Information Systems 233 differs each time it is offered with a different software package and students who repeat the course will therefore gain additional skills and knowledge. Lecture 2 hours, laboratory 1 hour (9 weeks). Prerequisite: Computer and Information Systems 232 or equivalent experience. Note: This course may be taken 4 times using different software or hardware; a maximum of 4 units may be earned.

•250—Word Processing Systems  1-3 Units
Computer and Information Systems 250 will enable students to develop competency in operating various office information word processing systems. In learning these systems, students will become knowledgeable in the areas of WP standalones, office information shared logic systems, and distributed logic systems. The course includes general operating techniques: use of edit and repagination, search and replace, and glossary features; and printout for the following types of projects: correspondence, repetitive letters,
multiple-page documents, indented format, outline format, and columnar projects. Lecture 2 hours, laboratory 3 hours. **Prerequisite:** Concurrent enrollment in, or completion of, Office Administration 210 (3 units) with a grade of "C" or better, and eligibility for Business—General 110. **Note:** This course will enable students to develop competencies in three word processing systems in one semester: the Wang Office Information System 140, NBI System 3000 and 4000, and the DECmate II word processor. A maximum of 3 units credit may be earned in Office Administration 250 and Computer and Information Systems 250.

**252—Voice Processing/Dictation** 1 Unit
Computer and Information Systems 252 is a course which will enable students to develop competencies in voice processing/dictation techniques. Students enrolled in this course will learn how to prioritize and annotate mail, how to organize their responses for dictation, and how to dictate from an outline. They will use state-of-the-art dictation standalone units for desk-top dictation as well as the Dictaphone Centralized Dictation Nucleus Management Center for telephone dictation. Lecture 2 hours, laboratory 1 hour. (9 weeks) **Prerequisite:** Eligibility for Business—General 101. **Note:** This course may not be taken for credit by students who have completed Office Administration 252.

**255—Advanced Word Processing Systems** 1-3 Units
Computer and Information Systems 255 is an advanced systems course and involves advanced word processing software features (i.e., list processing and mail merge; data base; sort; and math). In addition, the course will include training in other phases of information processing such as telecommunications (OCR, electronic mailbox, networking). Lecture 1 hour, laboratory 3 hours. **Prerequisite:** Concurrent enrollment, or a grade of "C" or better, in Office Administration 110 and 215 (3 units); and a grade of "C" or better in Office Administration 250 (3 units) and 260; or equivalent. **Note:** A maximum of three units may be earned in Office Administration 255 and Computer and Information Systems 255. Completion of Office Administration 260 with a grade of "C" or better is strongly recommended.

---

**COOPERATIVE EDUCATION**

**101—General Work Experience**
Not offered.

**102—Occupational Work Experience** (See Note)
The Occupational Work Experience Education class is the extension of occupational learning opportunities and career awareness programs for students through employment in occupational fields for which their college majors are designed. It is applicable for benefits from the Veterans Administration. Units of credit for each class are determined on the basis of the number of hours the student works each week and the satisfactory completion of the coordinating class, which meets one hour a week as indicated in the semester schedule of classes. The worker may be a handicapped student, an unpaid supervised volunteer, or a regularly paid employee. The number of hours worked weekly are prorated as follows: five to nine hours receive one unit of credit; ten to fourteen hours receive two units of credit; fifteen to nineteen hours receive three units of credit; twenty or more hours receive four units of credit. Students may enroll for one to three units in Cooperative Education 101, and for one to four units in Cooperative Education 102. A student must maintain a minimum unit load of seven or more units including Cooperative Education. No more than sixteen units may be earned during the student's life-long enrollment in a community college. In the event the worker's job is irregular or is terminated before the end of a semester, each seventy-five hours of paid work equate to one semester unit of credit if the requirements of the coordinating class are completed with a passing grade. For volunteer workers the one unit ratio is reduced to sixty hours a semester, and for handicapped workers the one unit ratio requirement is reduced to fifty hours a semester. Meeting by arrangement*, with appropriate written assignments and concurrent employment of five or more hours in a job related to stated major or career goal. Weekly or monthly time sheets shall be turned in to the instructor as announced. **Note**: Veterans receiving Veterans Educational Assistance required to meet weekly. **Prerequisite:** Be enrolled in a college program of no less than seven (7) units including Cooperative Education and concurrent employment for a minimum of five (5) hours per week. Summer Session requires at least one other class in addition to Cooperative Education. The employment must be directly related to the student's two year career college
COSMETOLOGY

Students are granted one unit of credit for each 40 hours of lecture and laboratory attendance each semester for a maximum of 16 units and a total of 48 units for the entire 1,600 hours as required by the Board of Cosmetology for licensing as a Cosmetologist. The student must attend a minimum of 25 hours per week for 10 units and a maximum of 40 hours per week for 16 units.

111—Elements of Cosmetology  (See Note)
A study covering basic sciences of the hair, skin, scalp, sanitation, sterilization and hygiene recognition of conditions of the skin, scalp and hair. Preparation training in theory and practical operation. Practical application of skills in shampooing, curl construction, basic hair cutting, comb-out procedures, responsibilities as a receptionist, ethics of the profession, as well as personal hygiene. Lecture and laboratory 25/40 hours. Prerequisite: High school graduation or age 18 with 10th grade education, and satisfactory score on the Cosmetology Placement Examination. Note: This course may be taken 3 times; a maximum of 16 units may be earned.

112—Basic Cosmetology  (See Note)
Theory and application of permanent waving, all phases of hair coloring, Modern methods of hair shaping and hair styling shall be practiced on models. This course also offers practice on fellow students. Lecture and laboratory 25/40 hours. Prerequisite: Cosmetology 111. Students transferring from another state-approved school may enter Cosmetology 112 providing 400 hours have been completed. Note: This course may be taken 3 times; a maximum of 16 units may be earned.

113—Intermediate Cosmetology  (See Note)
A review of all requirements as set forth by the State Board of Cosmetology. Instruction in the science of permanent waving, hair coloring, and creating a hair style with further course of study in electrical facial, and electrical scalp treatments. Lecture and laboratory 25/40 hours. Prerequisite: Cosmetology 112. Students transferring from another state-approved school may enter Cosmetology 113 providing 800 hours have been completed. Note: This course may be taken 3 times; a maximum of 16 units may be earned.

114—Advanced Cosmetology  (See Note)
Advanced methods of all phases of cosmetology as performed in a salon, corrective hair coloring, salon management, and preparation for the State Board Examination. Lecture and laboratory 25/40 hours. Prerequisite: Cosmetology 113. Students transferring from another state-approved school may enter Cosmetology 114 providing 1,200 hours have been completed. Note: This course may be taken 3 times; a maximum of 16 units may be earned.

DATA PROCESSING, See Computer and Information Systems

DANCE

Courses in Dance are activity classes acceptable for Physical Education credit.

164—Rhythmic Aerobics  ½-2½ Units
Dance 164 offers vigorous exercise set to contemporary music. The course is designed for students wishing to develop or maintain aerobic fitness while also learning about the physiology of fitness. Routines of rhythmic exercise are designed to develop or maintain cardio-respiratory endurance and body flexibility. The course is designed for students at all levels of fitness. Lecture 1-1½ hours, laboratory ½-3½ hours. Prerequisite: None. Transfer credit: CSU, UC, USC

174—Ethnic Dance  ½-2½ Units
Not offered. Transfer credit: CSU, UC, USC

175—Intermediate Ethnic Dance  ½-2½ Units
Not offered. Transfer credit: CSU, UC, USC
•176—Jazz Technique I ½-2½ Units
Dance 176 provides an opportunity to learn the functions of the body, in relationship to music; the opportunity to develop and condition the body for jazz dance; and the opportunity to meet the demands for professional dance in theater today. Lecture ½-1½ hours, laboratory 1½-3½ hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

•177—Jazz Technique II ½-2½ Units
Dance 177 provides an opportunity to further the student’s knowledge of jazz dance; study more technical detail in the development and conditioning of the body for jazz, and to further meet the demands for professional dance in theater today. Lecture ½-1½ hours, laboratory 1½-3½ hours. **Prerequisite:** Dance 176 or equivalent. **Transfer credit:** CSU, UC, USC

•178—Jazz Workshop ½-2½ Units
Dance 178 provides an opportunity to study the student’s knowledge of jazz dance, study more technical detail in the development and conditioning of the body for jazz, develop performance values, and to further meet the demands of current professional dance and theatre, film, and television. Lecture ½-1½ hours, laboratory 1½-3½ hours. **Prerequisite:** Dance 177 or equivalent. **Note:** Dance 177 may be taken concurrently. **Transfer credit:** CSU, UC

•179—Modern Dance Technique I ½-2½ Units
Dance 179 provides an opportunity for personal development in modern dance technique. Lecture ½-1½ hours, laboratory 1½-3½ hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

•180—Modern Dance Technique II ½-2½ Units
Dance 180 provides an opportunity to extend the student’s knowledge of modern dance technique. It provides greater technical detail for the personal development and control of the body needed in advanced modern dance production. Lecture: ½-1½ hours, laboratory 1½-3½ hours. **Prerequisites:** Dance 179 or equivalent. **Transfer credit:** CSU, UC, USC

•181—Choreography I ½-2½ Units
Dance 181 presents a wide variety of concrete experiences in movement relative to the acquisition of concepts for a structure of understanding of dance as an art form. Lecture ½-1½ hours, laboratory 1½-3½ hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

•182—Dance Production Workshop ½-2½ Units
Dance 182 offers experience in understanding the principles that govern movement, ability to control the body as an instrument of expression, and understanding of the use of space, time, and force factors related to the basic principles that govern art forms. Lecture ½-1½ hours, laboratory 1½-3½ hours. **Prerequisite:** Dance 193 or equivalent. **Transfer credit:** CSU, UC, USC

•183—Movement for Theatre I 1 Unit
Dance 183 provides for the student the opportunity to study stage movement, physical characterization and mime as related to theatre. The students will increase their knowledge through practical application of the movement aspects of theatre. Lecture ½ hour, laboratory 1½ hours. **Prerequisite:** None. **Note:** Must be taken concurrently with Theatre Arts 103. **Transfer credit:** CSU, UC, USC

•184—Dance Production ½-2½ Units
Dance 184 provides practical experience in utilization of knowledge and understanding in modern dance as an art form. Opportunity is provided for student choreography and participation in modern dance productions. Lecture ½-1½ hours, laboratory 1½-3½ hours. **Prerequisite:** Dance 182 or equivalent. **Transfer credit:** CSU, UC, USC

•185—Master Class Series 2-2½ Units
Dance 185 is a course designed to give the serious dance student a working knowledge of the dance in the entertainment industry. It provides opportunity for the further development of technical excellence and style in various commercial dance forms. It provides an inside look at film, television and stage work. The student will be prepared for entrance into the commercial dance field with information in the areas of agents, auditions, unions, wardrobe, classes, and other general details needed for participating in professional dance in Los Angeles. Lecture 2½-3 hours, laboratory 1½-2 hours. **Prerequisite:** Dance 177 or 186 or equivalent. **Transfer credit:** CSU, USC

•186—Movement for Musical Theatre ½-2½ Units
Dance 186 provides an opportunity for studying the problems of stage movement, character movement, and dance movement as related to theatre. Attention is also given to the demands placed upon the student who wishes to participate in stage performance. Lecture ½-1½ hours, laboratory 1½-3½ hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC
187—Basic Ballet Technique ½-2½ Units
Dance 187 provides practical experience, through exercise and discussion, to enable the student to develop a basic knowledge of the necessary physical and mental discipline in ballet technique. Lecture ½-1½ hours, laboratory 1½-3½ hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

188—Ballet Technique II ½-2½ Units
Dance 188 provides practical experience, through exercise and discussion, to develop further a knowledge of the physical and mental discipline in ballet technique at the intermediate level. Lecture ¼ hours, laboratory ¾-3½ hours. **Prerequisite:** Dance 187 or equivalent. **Transfer credit:** CSU, UC, USC

189—Beginning Social Dancing ½-2½ Units
Not Offered. **Transfer credit:** CSU, UC, USC

190—Intermediate Social Dancing ½-2½ Units
Not offered. **Transfer credit:** CSU, UC, USC

191—Movement for Theatre II 1 Unit
Dance 191 provides the opportunity for advanced study of stage movement and introduces a comparison of stage, film and video movement techniques. Lecture ½ hour, laboratory 1½ hours. **Prerequisite:** Dance 183 or equivalent. **Note:** Must be taken concurrently with Theatre Arts 104. **Transfer credit:** CSU, UC, USC

192—Square Dance ½-2½ Units
Not offered. **Transfer credit:** CSU, UC, USC

193—Choreography II ½-2½ Units
Dance 193 provides the student the opportunity for further advancement in knowledge and practical movement experience in the choreographic aspect of the dance as an art form. Lecture ½-1½ hours, laboratory ½-3½ hours. **Prerequisite:** Dance 181 or equivalent. **Transfer credit:** CSU, UC, USC

194—Structural Dynamics and Stretch ½-2½ Units
Dance 194 provides practical experience through exercise in conjunction with discussion periods to enable the student to develop a knowledge of body-mind interaction in the area of athletics. The student learns how to influence and control this interaction, with regard to pain and energy flow, suppleness, relaxation, stretch and strength factors. Lecture 1-2½ hours, laboratory 1-2½ hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

195—Physical Reintegration 1-2½ Units
Dance 195 is an experimental movement class for students with learning disabilities and/or minor physical limitations. Areas covered include exploration of body image awareness and integration of sensory modalities with motor processes. Also included is orientation and relaxation with the integration of both into the student’s daily life through dance movement. Lecture ½-1½ hours, laboratory 1½-3½ hours. **Prerequisite:** This course is only for students who have a professionally verified neurological and/or physiological disability. **Note:** Verification of disability must be on file in the Disabled Student Center. **Transfer credit:** CSU

---

DRAFTING

129—Blueprint Reading 2 Units
Drafting 129 is a study of the fundamentals of orthographic drawing to develop the student’s ability to understand and utilize the information presented on a blueprint. Such areas as size dimensional systems, tolerancing S1 metrics, value engineering and related industrial terminology are presented to strengthen the student’s ability to interpret an engineering drawing. Lecture 2 hours, laboratory 1 hour. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent. **Note:** A recommended course for basic drafting review and non-drafting majors. No credit is allowed for this course to students having credit in Engineering 104; Drafting 132, 133, 134; Graphics and Design 166, 167, 168. **Transfer credit:** CSU

130—Electrical/Electronics Drawing 2 Units
Drafting 130 is primarily intended for the student majoring in Electronics Computer Technology (ECT). It provides an introduction to the fundamentals of drafting and technical drawing with specific applications to ECT standards and devices. Students who satisfactorily complete this course are considered to have acquired the minimum drafting skills necessary for entry-level ECT technicians. Lecture 2 hours, laboratory 1 hour. **Prerequisite:** Technical Education 142 or equivalent. **Note:** Satisfactory completion or concurrent enrollment in Drafting 129 or equivalent is recommended. This course is not intended for engineering or drafting majors. No credit is allowed to students having credit in Engineering 101, Drafting 131 or Graphics 165, or equivalent.
•131—Technical Drafting 5 Units
Drafting 131 is a basic course in drafting consisting of the techniques used in the use of instruments for technical drawing, orthographic projection and visualizing in three dimensions, revolutions, sections, primary and secondary auxiliary views, isometric drawing, types of fasteners, springs, oblique drawing, freehand drawing and sketching. Lecture 3 hours, laboratory 6 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or 191, or equivalent. **Note:** Students must register for the full number of hours for which the course is scheduled. **Transfer credit:** CSU

•132—Technical Drafting and Dimensional Tolerancing 5 Units
Drafting 132 is a course in advanced drafting specializing in tolerancing, dimensional systems, S I metrics, military standards, and true positional tolerancing. Emphasis is placed upon individual and group design efforts in piping, structural and mechanical design projects. Lecture 3 hours, laboratory 6 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or The ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent and Drafting 131 or Graphics and Design 165; and Technical Education 143 which may be taken concurrently. **Note:** Students must register for the full number of hours for which the course is scheduled. **Transfer credit:** CSU

•133—Electro-Mechanical Packaging and Design 5 Units
Drafting 133 is a course in electro-mechanical packaging. Specializing in electronic drafting, printed circuit design, basic packaging, cabling and military standards. Emphasis is placed on the actual design and construction of various electronic packages in both individual and group design projects. Lecture 3 hours, laboratory 6 hours. **Prerequisite:** Drafting 132. **Note:** Students must register for the full number of hours for which the course is scheduled. **Transfer credit:** CSU

•134—Advanced Mechanical Package Design 5 Units
Drafting 134 is a course in tool design and strength of materials and advanced electro-mechanical packaging. Emphasis is placed on various individual and group design projects, covering piping, fixture design, package design, and mechanical design. Students are responsible for the complete design, drawings and all related paper work for each project. Lecture 3 hours, laboratory 6 hours. **Prerequisite:** Drafting 133. **Note:** Students must register for the full number of hours for which the course is scheduled. **Transfer credit:** CSU

•136—Basic Technical Drafting 3 Units
Not a basic transfer course for students who hope to continue in an engineering course in a four-year college. A basic course in drafting techniques for instruments, lettering, and geometry. This class is offered in the Evening College only. Lecture 2 hours, laboratory 4 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent.

•137—Technical Drafting 3 Units
Drafting 137 is primarily designed for students already employed in a related industry and for students planning to start working in related fields in the near future. Not a basic transfer course for students who hope to continue in an engineering course in a four-year college. This class is offered in the Evening College only. Lecture 2 hours, laboratory 4 hours. **Prerequisite:** Drafting 136.

•138—Technical Drafting 3 Units
Primarily designed for students already employed in related industry and for students planning to start working in related fields in the near future. Not a basic transfer course for students who hope to continue in an engineering course in a four-year college. This class is offered in the Evening College only. Lecture 2 hours, laboratory 4 hours. **Prerequisite:** Drafting 137.

•139—Advanced Technical Drafting 3 Units
Primarily designed for students already employed in related industry and for students planning to start working in related fields in the near future. Not a basic transfer course for students who hope to continue in an engineering course in a four-year college. This class is offered in the Evening College only. Lecture 2 hours, laboratory 4 hours. **Prerequisite:** Drafting 138.

•140—Advanced Computer-Aided Drafting and Design 3 Units
Drafting 140 is an advanced course in computer-aided drafting and design. Advanced operational applications will be presented which will enable the student to create standard electronic and mechanical component files. Tooling design, flat pattern development, exploded assembly drawings and isometric drawing will be presented in the course. Lecture 2 hours, laboratory 4 hours. **Prerequisite:** Drafting 132 or Engineering 104, and Engineering 103, and Drafting 141, or equivalent college level courses or equivalent industrial experience. **Transfer credit:** CSU
•141—Fundamentals of Computer-Aided Drafting and Design 3 units
Drafting 141 is an introductory course in Computer-Aided Drafting and Design systems. Fundamental operational applications will be presented which will enable the students to expand their knowledge of Computer Graphics into other course structures which will require further knowledge as part of their course of instruction. Lecture 2 hours, laboratory 4 hours. Prequisite: Drafting 131 or Engineering 101 or Architecture 101 or 191 or Graphics 165. Transfer credit: CSU

ECONOMICS

•101—Principles of Microeconomics 3 Units
Economics 101 is a fundamental course in economic analysis including methodology, the history of economic thought and mathematical techniques. Price theory including consumer behavior (utility and demand), production (cost and supply), partial equilibrium, tax incidence, and theory of the firm (profit maximization under pure competition) are examined. Other selected topics may include imperfect competition, monopoly, agriculture, labor, factor pricing, international trade and comparative advantage, business organization, accounting and the stock market. Lecture 3 hours. Prequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. One year high school algebra or Mathematics 141. Transfer credit: CSU, UC, USC

•102—Principles of Macroeconomics 3 Units
Economics 102 is a fundamental course including an introduction to economic history, comparative economic systems, and statistical analysis. Stress is placed on National Income theory, consumption, investment, inflation, unemployment, and fiscal and monetary policy. Other selected topics may include money and banking, national debt, international balance of payments, growth and development, and urban problems. Lecture 3 hours. Prequisite: Economics 101. Transfer credit: CSU, UC, USC

•105—The American Economy 3 Units
Economics 105 is an introduction to the American economy. A foundation for understanding it and the problems that it faces. A description of the important institutions of our system and an analytical approach to the understanding of the basic economic problems. Lecture 3 hours. Prequisite: None. Note: No credit will be granted for Economics 105 if Economics 101 and Economics 102 have been taken previously. Transfer credit: CSU, UC, USC

•107—Probability and Statistics 3 Units
Economics 107 is an introduction to the areas of probability and statistics. A consideration of the methods of gathering, classifying, and analyzing statistical data. Lecture 3 hours. Prequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. One year of high school algebra or Mathematics 141 or equivalent. Transfer credit: CSU, UC, USC

•111—Economic History of the United States 3 Units
Economics 111 is a history of the economic development of the United States from its settlement to the present. Emphasis is placed on the growth and development of institutions and movements on our modern society. This course meets the California State requirement in American History. Lecture 3 hours. Prequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. Transfer credit: CSU, UC, USC

EDUCATION, See Social Science 101

EDUCATIONAL MEDIA TECHNOLOGY

•103—Media Equipment Operation and Techniques 3 Units
Educational Media Technology 103 is an introduction to the operating principles and utilization of media equipment, materials, and facilities. Students will gain hands-on experience as technician trainees by participating in laboratory experience in the Media Services Department where they will learn to operate and maintain such media equipment as public address systems, record players, tape recorders, projectors, cameras and other instructional materials. Lecture 2, laboratory 4 hours. Prequisite: None.
EGYPTIAN HIEROGLYPHS

- 101—Beginning Hieroglyphs 3 Units
  Egyptian Hieroglyphs 101 presents the fundamentals of hieroglyphic writing and Egyptian grammar. The aim of the course is to train students in the reading and writing of simple hieroglyphs. The course includes reading, translation of simple ancient Egyptian prose as well as exercises to illustrate each new point of grammar. Lecture 3 hours. Prerequisite: Eligibility for English 101. Transfer credit: CSU, USC

- 102—Beginning Hieroglyphs 3 Units
  Egyptian Hieroglyphs 102 presents the fundamentals of hieroglyphic writing and Egyptian grammar. The aim of the course is to train students in the reading and writing of simple hieroglyphs. The course includes reading, translation of simple ancient Egyptian prose as well as exercises to illustrate each new point of grammar. Lecture 3 hours. Prerequisite: A grade of "C" or better in Egyptian Hieroglyphs 101. Transfer credit: CSU

ELECTRONICS AND COMPUTER TECHNOLOGY

- 100—Technical Mathematics for Electronics 3 Units
  (Formerly Technical Education 144)
  Electronics and Computer Technology 100 is designed to offer the student a comprehensive study in the mathematics specifically used in the electronics and computer technology field. Phases covered include application of algebra, DC circuit analysis, AC fundamentals, simultaneous equations, AC circuit analysis, complex numbers, logarithms, and computer number systems. Lecture 3 hours. Prerequisite: None.

- 101—Basic Electronics I 4 Units
  (Formerly Electronics and Computer Technology 171)
  Electronics and Computer Technology 101 offers a modern approach to electronics theory that is more compatible with the needs of industry. The study of DC theory and principles are integrated with computer — assisted problems using BASIC programming language. The use of matrices to solve elementary problems is introduced. Fundamental theorems are developed in lecture and put into practice in the laboratory. The laboratory develops the basic skills needed in using meters, power supplies, along with wiring and assembling DC circuits. Lecture 3 hours, laboratory 3 hours. Prerequisite: A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 165 or equivalent and:
  1. Satisfactory completion or concurrent enrollment in Electronics and Computer Technology 100, or Mathematics 101, or equivalent.
  2. Satisfactory completion, or concurrent enrollment in Computer and Information Systems 110 (ECT majors only).
  Note: Computer Science majors; students pursuing the "Software Technician" certificate, and other Electronics and Computer Technology students anticipating enrollment in other Computer and Information courses, must satisfactorily complete Computer and Information Systems 101 prior to enrollment in Computer and Information Systems 110. Transfer credit: CSU

- 102—Basic Electronics II 4 Units
  (Formerly Electronics and Computer Technology 172)
  Electronics and Computer Technology 102 is an extension of the principles of DC electronics applied to AC circuit problems. The extension of BASIC programming is used to solve complex AC circuits. The laboratory further develops equipment skills, introducing the use of oscilloscopes and signal generators. Lecture 3 hours, laboratory 3 hours. Prerequisite: A grade of "C" or better in Electronics and Computer Technology 101 and Computer and Information Systems 110 or equivalent. Transfer credit: CSU

- 103—Logic and Switching Circuits 4 Units
  (Formerly Electronics and Computer Technology 125)
  Electronics and Computer Technology 103 is an introduction to digital systems, number systems, Boolean Algebra, logic techniques, logic gates, multivibrator circuits, counters, multivibrators, programming and codes. Construction and development of TTL logic, using integrated circuits. Lecture 3 hours, laboratory 3 hours. Prerequisite: A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination or English 165, or equivalent and satisfactory completion of Mathematics 141 or equivalent. Transfer credit: CSU
•104—Introduction to Microprocessors  4 Units
  (Formerly Electronics and Computer Technology 126)
Electronics and Computer Technology 104 provides an introduction to the interfacing problems between peripherals and systems, construction and development of interface requirements, and operating conditions are emphasized. Lecture 3 hours, laboratory 3 hours. **Prerequisite:** A grade of "C" or better in Electronics and Computer Technology 103 or equivalent. **Transfer credit:** CSU

•105—Basic Integrated Circuit Theory  3 Units
  (Formerly Electronics and Computer Technology 176)
Not offered.

•110—Introduction to Electricity-Electronics  3 Units
  (Formerly Electronics and Computer Technology 175)
Electronics and Computer Technology 110 presents a survey of the basic principles of electronics (for non-electronics majors). It is designed to provide the students with an understanding of the basic principles of electronic circuits and their applications. Lecture 3 hours. **Prerequisite:** A grade of "C" or better in Mathematics 141, or one (1) year of high school Algebra or equivalent. **Note:** No credit for Electronics and Computer Technology 110 if Electronics and Computer Technology 101 and/or 102 or equivalent have been taken for credit.

•111—High-Reliability Solder and Wire Wrap Technology  2 Units
Electronics and Computer Technology 111 is a comprehensive course in the concepts of high-reliability soldering, solder extraction, and electronic component removal/replacement techniques, using specialized high-technology industrial equipment. Additionally, this course encompasses rework, repair, and modification of electronic printed circuit boards and also involves functional training in terminal interconnections, using wire-wrap procedures. Hands on experience is emphasized. Lecture 3 hours, laboratory 3 hours. (9 weeks) **Prerequisite:** None. **Note:** The satisfactory completion of this course will result in the award of an Industrial Certificate, meeting MIL-S-45743 specifications and standards. This course may be taken 3 times; a maximum of 6 units may be earned.

•112—Microcomputer Troubleshooting and Repair  4 Units
Electronics and Computer Technology 112 is a course designed to give the student a comprehensive foundation in the methods of microcomputer repair at the board as well as the component level. Also included in this course will be the methods and operation of related test equipment, computer diagnostics and component failure analysis. This course will emphasize hands-on experience with practical applications. Lecture 3 hours, laboratory 3 hours. **Prerequisite:** None. **Note:** Completion of Electronics and Computer Technology 101, 102, 103, and 104 is recommended but not mandatory prior to enrolling in this course. **Transfer credit:** CSU

•201—Advanced Electronics I  4 Units
  (Formerly Electronics and Computer Technology 173)
Electronics and Computer Technology 201 encompasses the study of Solid-State semiconductor theory, including diode rectifiers, filtered power supplies, transistor and FET amplifiers, IC oscillators, and thyristor devices. Laboratory experiments will consist of constructing solid-state circuits, and performing circuit analysis and diagnostics of electronic parameters using state-of-the-art digital electronic test equipment. Lecture 3 hours, laboratory 3 hours. **Prerequisite:** A grade of "C" or better in Electronics and Computer Technology 102 or equivalent. **Transfer credit:** CSU

•202—Advanced Electronics II  4 Units
  (Formerly Electronics and Computer Technology 174)
Electronics and Computer Technology 202 is a comprehensive study and applied analysis of the entire spectrum of electronic telecommunications technology and related systems, including AM, FM, Pulse and Phase Modulation concepts of receiver and transmitter configurations, microwave, antennas, and RF wave propagation. Laboratory experiments are conducted in the construction of tele-communications circuitry, including Active Filters, Phase-Locked Loops, Operational Amplifiers, and Opto-Electronics. Lab diagnostics are performed using state-of-the-art IC linear modules and modern digital electronic test equipment. Lecture 3 hours, laboratory 3 hours. **Prerequisite:** A grade of "C" or better in Electronics and Computer Technology 201, or equivalent. **Transfer credit:** CSU
• 203—Basic Microcomputer Technology I 4 Units
(Formerly Electronics and Computer Technology 127)
Electronics and Computer Technology 203 presents the basic principles of microcomputer integrated circuit technology for electronics majors. It is designed to provide the students with an understanding of the basic principles of integrated circuits and their applications in computers. Lecture 3 hours, laboratory 3 hours. **Prerequisite:** A “C” or better in Electronics and Computer Technology 104 or equivalent. **Transfer credit:** CSU

• 204—Basic Microcomputer Technology II 4 Units
(Formerly Electronics and Computer Technology 128)
Electronics and Computer Technology 204 is a continuation of Electronics 203. Principles of integrated circuits, microcomputers, mnemonics, interfacing, and application will be covered. Lecture 3 hours, laboratory 3 hours. **Prerequisite:** A grade of “C” or better in Electronic and Computer Technology 203 or equivalent. **Transfer credit:** CSU

• 205—Robotics Technology 4 Units
(Formerly Electronics and Computer Technology 129)
Electronics and Computer Technology 205 provides a comprehensive study in the fundamentals of robotics and related technology. Specific subject areas: analog-digital conversion, power and positioning mechanism, robot arm and wrist actuators, mobility systems, microprocessor programming and motion control, date acquisition, sensors, interfacing, voice synthesis, and industrial applications. The special feature of this course is the laboratory work which allows the student to experimentally work with an operational prototype robot. Lecture 3 hours, laboratory 3 hours. **Prerequisite:** Satisfactory completion of, or concurrent enrollment in Electronics and Computer Technology 104 and 201 or equivalent.

• 206—Basic Electronics I 3 Units
(Formerly Electronics and Computer Technology 177)
Not offered.

• 207—Basic Electronics II 3 Units
(Formerly Electronics and Computer Technology 178)
Not offered.

**EMERGENCY MEDICAL TECHNOLOGY**

• 101—Emergency Medical Technician 6 Units
Acquisition of basic knowledge, skills and attitudes necessary to effectively respond to emergency situations that threaten the lives of individuals. Lecture-laboratory 6 hours per week, plus 44 clinical hours and 16 hours of ambulance training to be arranged during the course. **Prerequisite:** Eligibility for English 120. **Note:** Upon completion of Emergency Medical Technology 101 with a grade of “C” or better the student will meet the California State Department of Health Criteria for EMT-1 (Ambulance) Training and will be eligible to sit for the National Registry Examination.

• 102—Refresher Course 1 Unit
This program is required every two years by the State Department of Health, Emergency Services, to update the original course. New equipment and medical techniques will be introduced. Lecture/laboratory, total of 20 hours. **Prerequisite:** Emergency Medical Technology 101.

**ENERGY**

• 101—Energy Alternatives 1 Unit
Energy 101 is designed to introduce the non-technical student to an overview of the nature of energy, to provide recognition of the depletion of traditional sources of national and worldwide energy, and to provide understanding of viable alternatives. Emphasis is on principles and information needed for making decisions rather than on technical data. Lecture 2 hours. (8 weeks). **Prerequisite:** None.

**ENGINEERING**

• 101—Engineering Drawing 3 Units
Training in the manipulation of instruments, lettering, orthographic projection, sketching, drawing auxiliary and pictorial views, sectioning and dimensioning. Lecture 2 hours, laboratory 4 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent. **Transfer credit:** CSU, USC
### Descriptive Geometry
- **Course Title:** Descriptive Geometry
- **Units:** 3
- **Description:** A valuable engineering tool which facilitates the solution of engineering problems graphically. A study of lines and planes in space. The representation of surfaces, solids, interferences, and intersections. Excellent training in visualization and interpretation of engineering drawings. Lecture 2 hours, laboratory 4 hours. **Prerequisite:** Engineering 101 or Drafting 131 or Graphics and Design 165 or Architecture 101, or one year of mechanical drawing in high school. **Note:** This course may not be taken for credit by students who have completed Architecture 103. **Transfer credit:** CSU, UC, USC

### Engineering Drawing
- **Course Title:** Advanced Engineering Drawing
- **Units:** 3
- **Description:** Delineation of simple machine parts including problems in visualization, dimensioning and tolerances, screw threads and fasteners, freehand sketching, pictorial drawing, piping, welding, gears and cam, assembly and working drawings. Special emphasis is laid upon the interpretation and production of drawings which conform to standard practice. Lecture 2 hours, laboratory 4 hours. **Prerequisite:** Engineering 101 or Drafting 131 or one year of mechanical drawing in high school. **Transfer credit:** CSU, UC, USC

### Statics
- **Course Title:** Statics
- **Units:** 3
- **Note:** Not offered. **Transfer credit:** CSU, UC, USC

### English

#### Writing Improvement
- **Course Title:** Writing Improvement
- **Units:** 1
- **Description:** English 100 is an individualized course designed to help students to succeed in English 101. Students write and rewrite essays on assigned topics to reduce rhetorical and grammatical deficiencies. In addition, students expand the critical and analytical skills that enable them to develop essays based on logical reasoning. Laboratory 3 hours by arrangement. **Prerequisite:** A satisfactory score on the English Placement Examination; or a grade of “A” in English 191 or a grade of “B” or better in English 165 or Business—General 101, or a grade of “C” or better in English 120 or English 131. **Note:** This course may be taken 3 times; a maximum of 3 units may be earned on Writing Lab instructor’s recommendation only. This course may not be taken for credit by students who have completed English 101 or the equivalent.

#### Freshman English
- **Course Title:** Freshman English
- **Units:** 3
- **Description:** English 101 is a foundation course in critical reading and writing skills required of those students intending to transfer to a university. Through their reading and discussion of selected prose works, students learn to identify problems, examine possible solutions, recognize unstated assumptions and values, appraise evidence, evaluate arguments, draw inferences, and test conclusions. Through their writing, students learn to analyze, synthesize, organize information logically, and propose original ideas. Lecture 3 hours. **Prerequisite:** One of the following:
  1. A satisfactory score on the English Placement Examination.
     a. CGP Reading scaled score of 49 or higher, or
     b. CGP Writing scaled score of 49 or higher and a “B” average in high school English.
  2. A SAT qualifying score of 450 or more.
  3. International students must have TOEFL scores of 600 or more.
  4. A grade of “A” in English 191 (taken within the preceding 12 months).
  5. A grade of “B” or better in English 165 (taken within the preceding 12 months).
  6. A grade of “B” or better in English 120 (taken within the preceding 12 months).
  7. A grade of “B” or better in English 131 (taken within the preceding 12 months).
  8. Certificate of eligibility from English 100. **Transfer credit:** CSU, UC, USC

#### Freshman English
- **Course Title:** Freshman English
- **Units:** 3
- **Description:** English 102 is an introduction to literature that continues instruction and practice in composition related to the study and evaluation of types of imaginative literature, including the short story, the novel, drama, and poetry. Lecture 3 hours. **Prerequisite:** English 101. **Transfer credit:** CSU, UC, USC

#### Creative Writing Workshop
- **Course Title:** Creative Writing Workshop
- **Units:** 3
- **Description:** English 103 is an introduction to the theory and practice of creative verbal expression in the major imaginative forms of prose (fiction, and nonfiction), poetry, and drama. Emphasis is placed upon specific techniques used to communicate ideas and feelings. Lecture 3 hours. **Prerequisite:** Eligibility for English 101 or equivalent. **Note:** This course may be taken 3 times; a maximum of 9 units may be earned. **Transfer credit:** CSU, UC, USC
• 105—Survey of English Literature
  From the Anglo-Saxon Period to 1780  3 Units
  English 105 is a survey course covering the development of English literature from its beginning to 1780 and emphasizing the development of thought in relation to historical and social backgrounds. Lecture 3 hours. **Prerequisite:** Eligibility for English 101. **Note:** Required of all English majors. **Transfer credit:** CSU, UC, USC

• 106—Survey of English Literature
  From 1780 to the Present Time  3 Units
  English 106 is a survey course covering the development of English literature from 1780 to the present time. It continues to study the development of thought as an expression of our cultural heritage. Lecture 3 hours. **Prerequisite:** Eligibility for English 101. **Note:** Required of all English majors. English 106 may be taken without English 105. **Transfer credit:** CSU, UC, USC

• 107—Twentieth Century Poetry I  3 Units
  English 107 consists of an historical orientation to twentieth century poetry a discussion of the significant poets to approximately mid-century, and an intensive study of the most important modernist and contemporary poets of this period. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

• 108—Twentieth Century Poetry II  3 Units
  English 108 focuses on 20th C. poets from mid-century to the present, and in-depth discussions of significant contemporary poets. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

• 109—Introduction to Literature of the Western World  3 Units
  English 109 is a survey of the literature of the Western World from ancient times (including selections from the Old and New Testaments) to the Renaissance. Emphasis is placed upon the Greek and Roman classics. Study of Classical and Norse mythology is included. Lecture 3 hours. **Prerequisite:** Eligibility for English 101. **Transfer credit:** CSU, UC, USC

• 110—Introduction to Literature of the Western World  3 Units
  English 110 is a survey of the literature of the Western World from the Renaissance to the present time. Emphasis is placed upon the culture and history of important ideas reflected in the literary works. Lecture 3 hours. **Prerequisite:** Eligibility for English 101. **Transfer credit:** CSU, UC, USC

• 111—Women in Literature  3 Units
  English 111 is a comparative study of the roles assigned to women in literature by both male and female authors. The course examines the literary and cultural stereotypes of women in the short story, the novel, poetry, and drama. Lecture 3 hours. **Prerequisite:** None. **Note:** Eligibility for English 101 is recommended. **Transfer credit:** CSU, UC, USC

• 112—Screenwriting  3 Units
  English 112 is a basic course in the principles and practice of writing for movies and television. Emphasis is placed upon the essentials of structure, characterization, and format as required by this type of writing. Students must complete a finished script by the end of the course. Lecture 3 hours. **Prerequisite:** None. **Note:** Eligibility for English 101 recommended. **Transfer credit:** CSU, UC, USC

• 113—An Introduction to Library Research  1 Unit
  English 113 offers an introduction to using libraries and doing research. It provides practical experience, in tutorial style, for using typical library classification systems, gathering data from reference works, and evaluating sources. The student will also be introduced to online computer searches. Laboratory 3 hours. **Prerequisite:** None. **Transfer credit:** CSU

• 118—Analytical Reading  3 Units
  English 118 provides students with the techniques to analyze and critically evaluate written and oral communication, to make logical judgments about that material, and to reach independent conclusions on the views and ideas that have been presented. Lecture 3 hours. **Prerequisite:** Eligibility for English 101. **Transfer credit:** CSU

• 119—The Research Paper  1 Unit
  English 119 offers instruction in the techniques and procedures of doing research and writing the term paper. Lecture 1 hour. **Prerequisite:** Eligibility for English 101. **Note:** This course may not be taken for credit by students who have completed English 101. **Transfer credit:** CSU

• 120—Composition and Reading  3 Units
  English 120 is designed for the student who is aiming toward an Associate in Arts Degree or who needs additional instruction in the techniques of writing before attempting English 101. English 120 will provide practice in the mechanics of writing in the organization of a paragraph and essay, and in the analysis of appropriate written models dealing with important contemporary ideas. Student-teacher interviews will be stressed in an
attempt to isolate the individual writing problems of each student. Lecture 3 hours. **Prerequisite:** A satisfactory score on the English Placement Examination, or a grade of "C" or better in English 191 or 165. **Note:** This course may not be taken for credit by students who have completed English 101 or Business—General 110 and allows 2 units of credit to those who have completed English 131 or Business—General 101.

- **121—Reading Literature**  
  3 Units  
  English 121 is an introductory study of the major forms of creative literature: short story, novel, drama, and poetry drawn from the best modern authors. The course is planned to develop a greater appreciation and understanding of the literature of our time, with special emphasis on the literary expression of contemporary issues. It is designed for the non-English major and for the student planning to earn an Associate in Arts Degree. Lecture 3 hours. **Prerequisite:** None.

- **122—American Literature to 1865**  
  3 Units  
  English 122 is designed to give the student a generous sample of the works of major American writers from Colonial days to the Civil War, and to relate these works to the history of ideas. Important historical movements are traced so that students may gain increased understanding of America's heritage. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

- **123—American Literature From 1865 to the Present**  
  3 Units  
  English 123 is designed to give a generous sample of the works of major American writers from the Civil War to the present day. The course is intended to enrich the student's understanding of selected major American works. The important literary movements, with their sociological implications, are traced so that the student can acquire a background for critical judgment of contemporary American writing. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

- **124—Contemporary Literature**  
  3 Units  
  English 124 is a study of representative twentieth century literature focusing on fiction and drama with some consideration given to poetry. The course deals with each writer's view of our situation and our search for values. Attention is also given to the artistic techniques evident in each work. Authors are selected from American, British, French, German, Greek, Irish, and other sources. Lecture 3 hours. **Prerequisite:** None. **Note:** English 101 is recommended. **Transfer credit:** CSU, UC, USC

- **125—Shakespeare**  
  3 Units  
  English 125 is an introduction to the works of Shakespeare. The course is focused on a close study of Shakespeare's major plays. It also provides a background and insights into the Elizabethan world so that the student may more fully understand and appreciate Shakespeare's writings. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

- **126—The Modern Drama**  
  2 Units  
  English 126 is a study of modern plays and playwrights. Representative works of European and American dramatists are read with special attention given to the literary and sociological importance of plays written since 1870. The aim of the course is to enable the student to make an intelligent evaluation of contemporary drama. Lecture 2 hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

- **127—Children's Literature**  
  3 Units  
  English 127 is a survey of the literature suitable for children of different age levels. The student is taught to develop standards by which to judge the merits of the literature that is available for children. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

- **128—Bible as Literature**  
  3 Units  
  English 128 consists of a survey of the major literary genres in the Bible and their most representative forms. Attention will be given to selected prose and verse forms, with a stress on recurrent themes, images, and symbols. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

- **130—Science Fiction Literature**  
  3 Units  
  English 130 is a survey of science fiction from the late 19th Century to the present, concentrating on 20th Century writers. Read, analyzed, and discussed will be the history of Science Fiction, major themes, genres (short story, novels, drama, poetry), media (radio, cinema, television), fandom (clubs, fan publications, conventions), and the function of Science Fiction as a literary form which reflects human concern with solving or escaping problems in an increasingly scientific and technological age. Lecture 3 hours. **Prerequisite:** None. **Note:** English 101 recommended. **Transfer credit:** CSU, UC, USC

- **131—Technical English**  
  3 Units  
  English 131 is a course designed especially for students taking technical education courses. It stresses training in technical writing, including the related skills of grammar usage, sentence and paragraph structure, and vocabulary. The student will receive practice in writing letters, memos,
abstracts, formal reports, and proposals. Lecture 3 hours. **Prerequisite:** Eligibility for English 120. **Note:** This course may not be taken for credit by students who have completed English 101 or English 120, or Business—General 110.

**132—Industrial English**  3 Units
English 132 is a course designed for students taking technical education courses. It includes training in oral communications with emphasis being placed on evaluation of various forms of public utterances, such as political speeches and radio and television editorial comment or other non-fiction presentations. It also includes reading and analysis of newspaper materials, short fictional works and poetry. To accomplish this, the student will study briefly the nature, history, and function of language as well as the basic problems of semantics and word usage. Lecture 3 hours. **Prerequisite:** None.

**140—The South Pacific in Literature**  2 Units
English 140 is a lecture/field study course that includes traveling to the South Pacific to consider its literature in British and American fiction of the nineteenth and twentieth centuries. Emphasis is placed on how the authors saw the region imaginatively as opposed to the realities of life in the South Pacific. Lecture 2 hours. **Prerequisite:** None. **Transfer credit:** CU

**150—Reading Skill Building for Adults with Learning Disabilities**  2 Units
English 150 is designed for the learning disabled adult with disorders in processing written information or with dyslexia. The course provides exposure to and practice in reading skills appropriate to the student's demonstrated strengths and weaknesses. Lecture 2 hours, laboratory 1 hour. **Prerequisite:** Student must have a professionally verified learning disability. **Note:** This course may be taken 4 times; a maximum of 8 units may be earned.

**151—Developing Fundamental Writing Skills for Adults with Learning Disabilities**  2 Units
English 151 is designed to provide the learning disabled student with skills in the areas of sentence construction, syntax, language development, and an understanding of the relationship between correct oral and written English communication. Lecture 2 hours, laboratory 1 hour. **Prerequisite:** Student must have an identified learning disability. **Note:** This course may be taken 4 times; a maximum of 8 units may be earned.

**180—English for the Para-Professional**  3 Units
Not offered. **Transfer credit:** CU

**181—Basic Communication-Spelling**  1 Unit
English 181 is a course specifically for the community college student who lacks basic spelling skills. It is a practical see, hear, and write approach to spelling the words of a basic, everyday vocabulary. Its emphasis is on the world of work; its method is based on programmed learning techniques as assisted by audio coaching. Diagnostic testing locates specific weaknesses and prescribes a program to meet these needs. Credit to be awarded upon completion of all the modules. Laboratory 3 hours. **Prerequisite:** None

**182—Basic Communication Vocabulary**  1 Unit
English 182 has been designed to help students develop a wide variety of vocabulary skills. The modular system allows students to work on one skill at a time and to work first on the skills they need the most. The audio-tutorial format allows students to work individually, progressing at their own rate and reviewing a topic as many times as necessary to achieve full understanding and mastery of it. Credit will be awarded upon completion of all the modules. Laboratory 3 hours. **Prerequisite:** None.

**183—Basic Communication Grammar**  1 Unit
English 183 is designed to provide the student with the basic background and skills necessary for recognizing and remedying frequently made grammatical errors. This course, which is individualized, self-paced, interactive, and audio tutorial, introduces the student to basic English constructions and sentence-level writing problems. Credit will be awarded upon completion of all the modules. Laboratory 3 hours. **Prerequisite:** None.

**188—Special Reading Skills*  1-3 Units
English 188 is a course for the community college student who lacks elementary reading skills. These skills include deciphering word meaning through phonics study and pronunciation practice (decoding), vocabulary development, and both literal and inferential comprehension. Diagnostic testing locates specific weaknesses and prescribes a program to meet these needs. Students who have worked as diligently as possible but need more time to attain the skills necessary for understanding a community college test receive a grade of "no credit." Lecture 3 hours. **Prerequisite:** Eligibility for English 163, a satisfactory score on the ABLÉ II Test or "credit" in English 173. **Note:** The instructor may require up to 2 hours of laboratory work each week. This course may be taken 4 times; a maximum of 4 units may be earned.
190—Reading Techniques I 2 Units
A course in reading improvement for the student with below average reading skills. Emphasis is on improvement of word recognition, vocabulary, and comprehension. Computer assisted instruction is employed extensively to build comprehension and to drill vocabulary. Controlled reading machines are also used to help build speed and comprehension. Book reviews and summaries are assigned. Lecture 2 hours. Note: The instructor may require up to 2 hours of laboratory work each week. Prerequisite: Eligibility for English 164, "credit" in English 188 or satisfactory score on the ABLE II reading test. This course may not be taken for credit by students who have completed English 101 or English 120.

191—Fundamentals of English 3 Units
English 191 provides intensive instruction in grammar, punctuation, spelling, vocabulary, and paragraph writing. Lecture 3 hours. Note: The instructor may require one hour of laboratory work per week. Prerequisite: Concurrent enrollment (or previous completion with a C or better) in an appropriate reading course (English 150, English 188, English 190) is required for this class, based on testing in the Learning Center. This course may not be taken for credit by students who have completed English 101, English 120, English 131, Business—General 101, or Business—General 110.

192—Reading Techniques II 2 Units
A course planned to help the student with average or better vocabulary develop the skills required for rapid effective reading of both pleasure and study materials. Emphasis is on flexibilraters of reading using special methods and individualized materials. Lecture 2 hours. Prerequisite: A satisfactory score on the Reading Placement Test or a grade of "C" or better in English 190. Eligibility for English 165. Satisfactory score on the ABLE III Test. Note: The instructor may require up to 2 hours of laboratory work each week.

198—Reading Fiction 2 Units
An introduction to fiction designed for the non-English major. It seeks to foster an appreciation, understanding, and evaluation of the modern short story and novel by the use of tools of critical analysis. Lecture 2 hours. Prerequisite: None.

200—Speed Reading 1 Unit
English 200 is a professional speed reading course designed for advanced students who read well yet who need to increase their reading rate. There is heavy emphasis on matching improvements in reading rates with consistent or increased comprehension. A variety of self-pacing techniques are taught. Also covered are ways to increase eyespan and to cut down on vocalization and regression. Lecture 2 hours. Prerequisite: Eligibility for English 101. Note: The instructor may require up to 2 hours of laboratory work each week in the Learning Center. This course may be taken 2 times; a maximum of 2 units may be earned.

ENGLISH AS A SECOND LANGUAGE

ENGLISH AS A SECOND LANGUAGE (ESL) SERIES
Note: Course number does not correspond to level of difficulty.
Level One courses are ESL 171, 172, 173
Level Two courses are ESL 163, 162, 188
Level Three courses are ESL 164, 167
Level Four courses are ESL 165, 168

162—Introductory Conversation and Pronunciation for ESL I Students 2 Units
English 162 introduces students to the practical use of idioms through participation in informal conversations, short oral presentations, and situational dialogues. Pronunciation drills emphasize phoneme discrimination and production. Laboratory assignments may be made by the instructor based on individual student needs. Lecture 4 hours. Prerequisite: Satisfactory score on the Glendale Community College ESL Placement Test. Note: Concurrent enrollment in English 163 is strongly recommended.

163—English as a Second Language I 4 Units
English 163 is intended for students who have studied English, but whose language skills are not advanced enough to meet the reading and writing requirements of many academic courses. This course focuses on grammar, reading, and composition. Student writing is at the paragraph level. Special emphasis is placed on acquisition of vocabulary and idioms. Grammar stresses correct use of compound tenses in sentence structure. Oral skills (pronunciation and intonation) are strengthened during class discussion and student recitation. Laboratory assignments may be made by the instructor based on individual student needs. Lecture 5 hours. Prerequisite: Satisfactory score on the Glendale Community College ESL Placement Test. Transfer credit: UC, USC
164—English as a Second Language II 4 Units
English 164 is designed for students who have studied English for several years, but who are not yet sophisticated enough to meet the heavy reading and writing requirements of some academic courses. The course focuses on reading and composition, ranging from paragraph to short theme, and emphasizes idiomatic usage, syntax, and complex grammatical structures. Oral skills (pronunciation and intonation) are strengthened during class discussion and student recitation. Laboratory assignments may be made by the instructor based on individual student needs. Lecture 5 hours. Prerequisite: Satisfactory score on the Glendale Community College ESL Placement Test or a grade of "C" or better in English 163. Transfer credit: CSU, UC, USC

165—English as a Second Language III 4 Units
English 165 is designed for non-native students who are quite proficient in English and are able to compete with native students in most college courses except those requiring eligibility for English 101 as a prerequisite. The course introduces the most common rhetorical modes of exposition that students will be expected to master in regular English courses, emphasizes critical reading and expository writing at the essay level, and prepares students to write essay examinations. Composition stresses both organization and content. Students work to eliminate weaknesses in syntax, idiomatic usage, and grammar. Library research techniques are introduced. Oral skills are reinforced during class discussions. Lecture 5 hours. Prerequisite: Satisfactory score on the Glendale Community College ESL Placement Test or a grade of "B" or better in English 164 or a grade of "C" or better in English 166. Transfer credit: CSU, UC, USC

166—Advanced Syntactical Structure 2 Units
English 166 is designed to improve the fluency of English as a Second Language students who have already learned the rules of advanced English grammar. The course provides intensive practice in applying these principles through controlled writing exercises and original composition. Students learn to use the characteristic modes of English expression in their writing by concentrating on specific patterns of sentence formation. Customary usage and standard structures are stressed. Lecture 3 hours. Prerequisite: A grade of "C" in English 164. Note: This course may be taken 2 times; a maximum of 4 units may be earned. Transfer credit: UC

167—Conversation and Pronunciation for ESL Students 2 Units
English 167 stresses idiomatic usage, including current slang, through informal conversation practice, situational reinforcement, oral presentations, and dramatic reading. Intensive drills are given on phoneme discrimination and production. Laboratory work concentrates on correction of individual problems. Laboratory assignments may be made by the instructor based on individual student needs. Lecture 4 hours. Prerequisite: Satisfactory score on the Glendale Community College ESL Placement Test or a grade of "C" or better in English 163. Note: This course may be taken 2 times; a maximum of 4 units may be earned. Transfer credit: CSU

168—Accent Reduction 2 Units
English 168 concentrates on reducing foreign accents in the speech of otherwise articulate non-native students. Intensive practice in individual sound problems, rhythm, stress, intonation, phraseology, and regional accent analysis and mimicry helps students eliminate foreign language speech patterns and helps prepare them for upper division ESL phonetics courses. Students read short plays and poems aloud, make oral presentations, or participate in informal debates before an audience to practice expressive speaking, appropriate facial expressions, and hand and body gestures. Laboratory assignments may be made at the discretion of the instructor. Lecture 3 hours. Prerequisite: A grade of "B" or better in English 167, a grade of "B" or better in English 164, or a grade of "C" or better in English 165. Transfer credit: CSU

171—Developmental English As a Second Language 3 Units
English 171 is designed for students who speak little or no English. Heavy emphasis is placed on listening skills, basic sentence structure and simple reading and writing. Students are exposed to idiomatic expressions and cultural information to aid them in the rapid acquisition of the English language. Laboratory assignments may be made by the instructor based on individual student needs. Lecture 5 hours. Prerequisite: None. Note: Placement in the course is based on student's score on the Glendale Community College ESL Placement Test. It is strongly recommended that English 172, the oral portion of Developmental English, be taken concurrently with this course. At the end of the course, students must attain a satisfactory score on the Glendale Community College ESL Placement Test to enter English 163.
• 172—Developmental Conversation and Pronunciation for ESL Students 3 Units
English 172 is designed for students who cannot communicate even in the most basic situations on the community college campus. Survival and campus-related dialogues are presented and students participate in role plays of those situations in class and on the campus at large. Clear pronunciation is stressed in classroom drills and activities. Laboratory assignments may be made by the instructor based on individual student needs. Lecture 5 hours. Prerequisite: None. Note: Placement in the course is based on student’s score on the Glendale Community College ESL Placement Test. Concurrent registration in English 171 is strongly recommended.

• 173—Developmental Reading for English as a Second Language 3 Units
English 173 is designed to help low-level ESL students handle simple reading tasks. There is heavy emphasis in basic vocabulary development and in comprehending “survival-type” reading. Each understanding warning signs, written directions, schedules, labels, advertisements and forms. Also covered are basic word attack skills: use of context clues, dictionary skills, word configuration, and beginning phonics. This class provides the reading component in the developmental ESL sequence and complements English 171 and 172. Lecture 3 hours. Prerequisite: None. Note: The instructor may require up to 2 hours of laboratory work each week. Placement in this course is based on the student’s score on the Glendale Community College ESL Placement Test. Previous or concurrent enrollment in English 171 and 172 is strongly recommended.

• 177—English for Special Purposes 2 Units
English 177 is designed to familiarize vocational education students with the terminology used in individual vocational training programs. Students are exposed to idiomatic expressions and basic introductory material, including effective notetaking techniques, which provide an entry level foundation that will enable them to understand and complete required course work. Laboratory assignments may be made by the instructor based on individual student needs. Lecture 2 hours, laboratory 1 hour. Prerequisite: Satisfactory score on the Glendale Community College ESL Placement Test or a grade of “C” or better in English 163, or equivalent. Note: This course outline, with appropriate substitution of textbooks, may be used for any vocational program.

• 101—Latin American Cultural Expression 3 Units
Ethnic Studies 101 is designed to acquaint the student with the cultural background that has shaped the societies of Latin America. The course will survey the cultural expression from the pre-Columbian period to the present. Emphasis will be given to the 19th and 20th century periods. Areas to be studied will be society and culture, linguistic and cultural distribution of ethnic groups, education and religion, literature, artistry, folklore, music and dance, new social protest song movement, artistic movements, cinematography, photography, mass media, and culture within the revolutionary process. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU, UC, USC

• 102—Hispanic Heritage 3 Units
Ethnic Studies 102 is a survey of the social, cultural and political heritage of the Hispanic American People of the United States and their growth and development as influenced by the dominant society. Special emphasis will be placed on intergroup relations and major differences between Anglo-American and Hispanic American values and attitudes, past and present, intercultural conflicts, and on the unique contributions of Hispanic Americans to American society. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU, UC, USC

• 110—Contemporary Ethnic Women 3 Units
Ethnic Studies 110 is a survey of the contemporary status of ethnic women in North American society. This course will make relevant cross-cultural comparisons using contemporary issues and their relation to the ethnic women of today. Lecture 3 hours. Prerequisite: None. Note: Recommended for students who have completed 12 units of college courses with a “C” average or better. Transfer credit: CSU, UC, USC

• 111—European Immigrants in America, 1776 to Present 3 Units
Ethnic Studies 111 is a survey course which examines the history and experiences of European immigrants in America from the late eighteenth century to the present. The course will examine the immigration process itself, consider specific groups (British, Irish, German, Italian, Polish, Jewish, Greek, etc.) assess the reaction to immigration by white Americans, and evaluate the contribution made by European immigrants to American society. Lecture 3 hours. Prerequisite:
None. **Note:** Recommended for students who have completed 12 units of college courses with a "C" average or better. **Transfer credit:** CSU, UC, USC

**122—Introduction to Asian American Culture**  
Ethnic Studies 122 is a survey course which will introduce students to the special elements unique to Asian culture. This course will also focus on the various dilemmas faced by Asian Americans as their respective cultural "roots" come into contact with the cultural values of the dominant society. Lecture 3 hours. **Prerequisite:** None. **Note:** Recommended for students who have completed 12 units of college courses with a "C" average or better. **Transfer credit:** CSU, UC, USC

**124—Japanese Experience in America**  
Ethnic Studies 124 is an in-depth survey of the history of Japanese immigrants and their descendants in America from the 19th century to the present. The course is designed to meet the needs of students who wish to more fully understand the experience of the Japanese immigrants and their descendants in America. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

**132—The Black Experience in America**  
Ethnic Studies 132 surveys the Black experience in the United States. It will trace the role and contributions of Black people in the development of the United States. The course will include such major topics as: the slave trade, the Revolutionary War and Civil War, the development of Black communities and culture, as well as contemporary Black issues. Lecture 3 hours. **Prerequisite:** None. **Note:** Recommended for students who have completed 12 units of college courses with a "C" average or better. **Transfer credit:** CSU, UC, USC

**164—The Armenian Diaspora**  
Ethnic Studies 164 examines the development of the Armenian Diaspora from the abandonment of the Armenian Question by the United States and the European Powers in 1923, to the unfolding of current events that are critically affecting the Armenian case today. The course focuses on: the growing Armenian-American community; Armenian emigration from the Middle East and Soviet Armenia; pressures of assimilation in the U.S.; activities of community organizations toward preserving Armenian culture; current Armenian affairs and U.S. foreign policy. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

**101—Clothing**  
Family and Consumer Studies 101 is the study and application of the basic pattern and its uses, applications to pattern making, and alteration of commercial patterns. A study is made of the care and selection of clothing for personality as well as appearance. Two machine projects are made in class from either a commercial pattern or a pattern of the student's own design and a hand project using four different stitches. Lecture 2 hours, laboratory 4 hours. **Prerequisite:** None. **Note:** This course may be taken 3 times; a maximum of 9 units may be earned. **Transfer credit:** CSU, UC

**102—Intermediate Clothing**  
Family and Consumer Studies 102 teaches the making of crotch items from a basic commerical pattern, stressing the need for a proper fit. The course emphasizes alterations, repair or reconstruction, and more intricate procedures. Two machine crotch items and one traditional style garment are made in class from an adult size commerical pattern of the student's own selection. An alteration project is required. Lecture 2 hours, laboratory 4 hours. **Prerequisite:** Family and Consumer Studies 101. **Note:** This course may be taken 3 times; a maximum of 9 units may be earned. **Transfer credit:** CSU, UC

**103—Advanced Clothing**  
The techniques of tailoring in hand and machine work necessary to turn out fine, well-tailored garments. A coat, suit, and hand project are required. Lecture 2 hours, laboratory 4 hours. **Prerequisite:** Family and Consumer Studies 101 or Fashion 103. **Note:** This course may be taken 3 times; a maximum of 9 units may be earned. **Transfer credit:** CSU

**105—Introduction to Textiles**  
Family and Consumer Studies 105 includes a study of sources and characteristics of synthetic and natural fibers and the processes used in manufacturing and finishing textile materials as a background for those seeking employment in the textile industry, as well as meeting the needs of Home Arts, Business, and Art Majors, and Fashion Designers, and consumers desiring acquisition of current information regarding trends in the textile field. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU, UC
107—Sewing with Sergers ½ Unit
Family and Consumer Studies 107 includes the development of various overlook seams and decorative edgings using domestic overlook machines with two needles and two, three or four threads. An overview of the various types of machines available and the comparative features involved will be presented. Students will develop techniques necessary to recognize fabric and thread compatibility, as well as to plan special effects. Lecture ½ hour, laboratory 1½ hours (9 week class). Prerequisite: None. Note: This course may be taken 4 times; a maximum of 2 units may be earned, with ½ units applied to the certificate.

110—Foods for Modern Living 3 Units
Family and Consumer Studies 110 offers practical, scientific, and artistic approaches to foods. Emphasis is on basic information relating to food groups. Students gain experience in planning, purchasing, and procedures of food preparation to meet individual situations. Lecture 2 hours, laboratory 3 hours. Prerequisite: None. Transfer credit: CSU

125—Elements of Nutrition 3 Units
An overview of the many aspects of nutrition including problems of today, the nutritive processes of the body and dietary planning. Functions, utilization, and recommended allowances of nutrients are emphasized. Consumer education is included. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU, UC, USC

133—Professional Appearance Development 3 Units
Family and Consumer Studies 133 includes the development of discriminating dress, poise and professional attributes. Good health, grooming habits, diet and exercise are stressed. Emphasis on individual wardrobe planning including color selection make-up, and hair styling. Activities in the class will include lectures, consultations, and class discussions. Lecture 3 hours. Prerequisite: None.

135—Preschool Child 3 Units
Family and Consumer Studies 135 covers the nature of the growth and development of the child from conception through age five. Other topics include the meaning and value of play, the significance of creative activities, the interpretation of child-adult relationships, standards for wholesome routines, guidance and discipline. Students make observations of infants and preschool age children in the classroom and in nearby child development centers. This course meets the requirements of the California Commission of Teacher Preparation and Licensing for teachers in Child Development Centers, Extended Day Care Centers, and other publicly funded children's centers; and, also meets the requirements of the California Administrative Code, Title 22 for teachers and directors of state licensed preschools, day nurseries and infant centers. Lecture 3 hours. Prerequisite: A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent. Transfer credit: CSU, UC

136—The Child from Five to Twelve 3 Units
Family and Consumer Studies 136 considers the growth and development of the school-age child emphasizing the interrelationships of mental, physical, and social abilities with the accompanying changes in attitudes and behaviors. Observations of the school age child are included. This course meets the requirements of the California Commission of Teacher Preparation and Licensing for teachers of Child Development Centers, Extended Day Care Centers, and other publicly funded children's centers and applies to the California Administrative Code, Title 22 for teachers and directors of state licensed preschools, day nurseries and infant centers. Lecture 3 hours. Prerequisite: Family and Consumer Studies 135 and a satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164, or English 191, or equivalent. Transfer credit: CSU, UC

137—School Age Children in Child Care 3 Units
Family and Consumer Studies 137 examines needs and concerns relating to school-age child care. It provides background in the guidance of children ages 5-21, through knowledge of developmental ages and stages. Students discover the kinds of group programs which exist in the community, and analyze the quality environments and activities which safeguard the growth of children. Lecture 3 hours. Prerequisite: Family and Consumer Studies 136. Transfer credit: CSU

138—Child Health 3 Units
Family and Consumer Studies 138 seeks to analyze the responsibilities of the home, the school, and the community for health protection. The characteristics of good health and the recognition of the symptoms of communicable diseases are examined. The habits and attitudes essential for physical and mental health of teachers, parents and children are studied. The course meets the requirements of the California Commission of Teacher Preparation and Licensing for teachers of Child Development Centers, Extended Day Care
Centers, and other publicly funded children's centers and applies to the California Administrative Code, Title 22 for teachers and directors of state licensed preschools, day nurseries, and infant centers. Lecture 3 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent. **Transfer credit:** CSU, UC

**1139—Consumer Management** 3 Units
Family and Consumer Studies 139 considers the essentials necessary to improve the quality of people's lives through productive decisionmaking and management of personal and family finances, home and family living in today's economic environment, the use of energy resources, and the roles of consumers in directing protective legislation. Lecture 3 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent. **Transfer credit:** CSU

**1146—Principles and Practices in Preschool Education** 3 Units
Family and Consumer Studies 140 includes studies of the selection and arrangement of equipment and materials for groups of young children; appropriate curriculum in the areas of art, music/movement, science, and stories. Special emphasis is made in the importance of relevant play activities. Behavior of the preschool child in a group situation is studied through weekly observations at nursery schools, and the role of the preschool teacher is examined. This course meets the requirements of the California Commission of Teacher Preparation and Licensing for teachers of Child Development Centers, Extended Day Care Centers, and other publicly funded children's centers; and, also meets the requirements of the California Administrative Code, Title 22 for teachers and directors of state licensed preschools, day nurseries and infant centers. Lecture 3 hours. **Prerequisite:** Family and Consumer Studies 135 and a satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent. **Transfer credit:** CSU

**1141—Field Practice in a Preschool Program** 2 Units
Family and Consumer Studies 141 enables the student to participate in the entire routine of a child development center — first as an observer and then as a teacher's aide. Questions arising from field practice experiences are discussed and research is done. This course satisfies the particular requirement of a Field Work Course of the California Commission of Teacher Preparation and Licensing for teachers of Child Development Centers, Extended Day Care Centers, and other publicly funded children's centers; and, also meets the requirements of the California Administrative Code, Title 22 for teachers and directors of state licensed preschools, day nurseries, and infant centers. Lecture 2 hours, required concurrent registration in Independent Study 149, 1 unit. **Prerequisite:** Family and Consumer Studies 135, and Family and Consumer Studies 140, and verification of TB clearance. **Note:** This course may be taken 4 times; a maximum of 8 units may be earned. **Transfer credit:** CSU

**1142—Home, School, and Community Relations** 3 Units
Family and Consumer Studies 142 explores the responsibilities of the home, the school, and the community to each other. The students develop a resource file which includes the locations and services of various community agencies — voluntary, private, and public. This course meets the requirements of the California Commission of Teacher Preparation and Licensing for teachers of Child Development Centers, Extended Day Care Centers, and other publicly funded children's centers; and, also meets the requirements of the California Administrative Code, Title 22 for teachers and directors of state licensed preschools, day nurseries, and infant centers. Lecture 3 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent. **Transfer credit:** CSU

**1143—Supervision and Administration of Nursery Schools** 3 Units
Family and Consumer Studies 143 explores the role of a child development center meeting the needs of children and their families. Particular emphasis is given to the establishing, licensing, staffing, and equipping of a children's center with curricula appropriate to children of different ages, capacities, and interests. This course meets the requirements of the California Commission of Teacher Preparation and Licensing for teachers of Child Development Centers, Extended Day Care Centers, and other publicly funded children's centers; and applies to the California Administrative Code, Title 22 for teachers and directors of state licensed preschools, day nurseries, and infant centers. Lecture 3 hours. **Prerequisite:** Family and Consumer Studies 135 and Family and Consumer Studies 141 or equivalent including teaching experience. **Transfer credit:** CSU
147—Working with Infants and Toddlers 3 Units
Family and Consumer Studies 147 is designed to provide specialization in the milestones of infant and toddler development, and the various programs currently available. Students consider principles of care-giving, and learn appropriate play activities and materials necessary to enhance early childhood education. Observation of infants and toddlers is required, both in the classroom and outside in the community. Lecture 3 hours. Prerequisite: Family and Consumer Studies 135.

151—Creative Activities for Preschool Children 3 Units
Family and Consumer Studies 151 provides teaching techniques and opportunities to personally experience creative activities geared to the young child. It will focus on integrating these activities into the curriculum and encouraging the preschool child to explore and enjoy learning from his environment. Creative areas will include: arts and crafts, carpentry, blocks, dramatic play, science, and cooking. Lecture 3 hours. Prerequisite: Family and Consumer Studies 140 (or may be taken concurrently). Note: This course meets the requirements of the California Commission of Teacher Preparation and Licensing for teachers of Child Development Centers, Extended Day Centers, and other publicly funded children's centers and applies to the California Administrative Code, Title 22 for teachers and directors of state licensed preschools, day nurseries and infant centers. Transfer credit: CSU

152—Music for Young Children 3 Units
Family and Consumer Studies 152 explores musical experiences appropriate to the development of the infant, the preschool child, the elementary school child, and the exceptional child. It meets the requirements of the California Commission of Teacher Preparation and Licensing for teachers of Child Development Centers, Extended Day Care Centers, and other publicly funded children's centers and applies to the California Administrative Code, Title 22 for teachers and directors of state licensed preschools, day nurseries, and infant centers. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU

155—Children with Special Needs 3 Units
Family and Consumer Studies 155 provides skill in identifying normal and special development of children, and includes methods of management and teaching techniques which will prove helpful in working with children with special needs. The emphasis will be a humanistic view of the whole child and the valuing and supporting of his/her rights. Parents of exceptional or special children will be considered, along with educational services and community agencies. Lecture 3 hours. Prerequisite: Family and Consumer Studies 135. Note: This course meets the requirements of the California Commission of Teacher Preparation and Licensing for teachers of Child Development Centers, Extended Day Care Centers, and other publicly funded children's centers and applies to the California Administrative Code, Title 22 for teachers and directors of state licensed preschools, day nurseries and infant centers. Transfer credit: CSU

161—The Dynamics of Foster Placement 1/2-1 Unit
(Formerly Human Services 151)
Family and Consumer Studies 161 is designed to acquaint students with legal and emotional aspects of foster child placement, with the responsibilities of the placing agency, the requirements of the foster family, and the impact of placement on the foster child and foster family. This course is planned for acting and prospective foster parents. Lecture 2 hours (8 weeks). Prerequisite: None. Note: This course may be taken 4 times on current topics regarding practical and legal requirements affecting placement of the foster child; a maximum of 4 units may be earned.

162—The Abused Child in Foster Placement 1/2-1 Unit
(Formerly Human Services 152)
Family and Consumer Studies 162 is designed to acquaint students with the incidence, and the effects, of child abuse and to examine those effects on the child who is placed in foster parent care. Planned for acting and prospective foster parents, this course will increase their knowledge of the special problems of the abused child and of techniques for responding to those problems. Lecture 2 hours (8 weeks). Prerequisite: None. Note: This course may be taken 4 times on different topics on the subject of child abuse; a maximum of 4 units may be earned.

163—Discipline and Foster Parenting 1/2-1 Unit
(Formerly Human Services 153)
Family and Consumer Studies 163 is designed to provide students with an awareness of the goals and techniques of discipline and to relate these to the special needs of foster parents and foster children. This course is planned for acting and prospective foster parents. Lecture 2 hours (8 weeks). Prerequisite: None. Note: This course may be taken 4 times on the subject of current and changing policies and procedures in the area of discipline of the foster child; a maximum of 4 units may be earned.
164—Conflict Resolution in Foster Homes ½-1 Units
(Formerly Human Services 154)
Family and Consumer Studies 164 is designed to acquaint students with the dynamics of conflict and with effective methods for resolving conflicts. This course is planned for acting and prospective foster parents. Lecture 2 hours (8 weeks). 
Prerequisite: None. Note: This course may be taken 4 times on various topics covering crisis intervention and conflict resolution; a maximum of 4 units may be earned.

225—Advanced Nutrition 3 Units
Family and Consumer Studies 225 is an overview of the growing science of nutrition. Its history, present status, current issues, utilization of food in relation to scientific fields of physiology, digestion, biochemistry, and cellular biology are emphasized. Lecture 3 hours. Prerequisite: Chemistry 120 or Biology 121. Transfer credit: CSU, UC

COSTUME CONSTRUCTION, See Theatre Arts 123

FASHION DESIGN, See Family and Consumer Studies 105; Fashion

FASHION MERCHANDISING, See Marketing 125

INTERIOR DESIGN, See Art 141

MARRIAGE AND FAMILY LIVING, See Psychology 131 or Sociology 131

FASHION

100—Fashion Design Fundamentals 1 Unit
Fashion 100 contains an in-depth study of elements and principles of fashion design. It is designed to enable the student to demonstrate proficiency in the knowledge and application of the elements and principles of design with an emphasis on the fashion figure, costume design, and fashion illustration. Lecture 1 hour. Prerequisite: None. Note: Fashion 100, 103, 105 were formerly Family and Consumer Studies 117. No credit will be granted to students who have completed Fashion and Consumer Studies 117. Transfer credit: CSU

103—Flat Pattern Clothing Design I 2 Units
Fashion 103 gives students with prior experience in clothing construction the opportunity for individual expression in design, using flat pattern methods. This course presents the skills necessary to make a block pattern from standard measurements initially, and then from individual measurements, and to apply the knowledge gained to various types of patterns used in the women’s apparel trade. Lecture 1 hour, laboratory 3 hours. Prerequisite: A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent, and Family and Consumer Studies 101 or equivalent. Note: Fashion 100, 103, 105 were formerly Family and Consumer Studies 117. No credit will be granted to students who have completed Family and Consumer Studies 117. Transfer credit: CSU

104—Flat Pattern Clothing Design II 2 Units
Fashion 104 is the continuation of pattern design basics. The flat pattern method of designing is applied to the original designs sketched by students. The course presents flat pattern exploration opportunities for the thorough study of design problems encountered in various fashion size ranges and categories. Block patterns will be created using both a sloper and individual measurements. The hip length and princess line slopers and two piece sleeve will be produced using standard measurements. Lecture 1 hour, laboratory 3 hours. Prerequisite: A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent and a grade of “C” or better in Fashion 103 or equivalent. Note: Fashion 104, 106, 107 were formerly Family and Consumer Studies 118. No credit will be granted to students who have completed Family and Consumer Studies 118. Transfer credit: CSU

105—Creative Pattern Application 2 Units
Fashion 105 includes current fashion trends and design resources and discusses the problems encountered in these areas. The student receives practice in the application of pattern technology by developing garments from original designs. The completion of one garment is required. Lecture 1 hour, laboratory 3 hours. Prerequisite: A satisfactory score on the Glendale Community College ESL Placement test or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent and a grade of “C” or better in Fashion 103 or equivalent. Note: Fashion 105, 103, 100 were formerly Family and Consumer Studies 117. No credit will be granted to students who have completed Family and Consumer Studies 117. Transfer credit: CSU
•106—Advanced Flat Pattern I 2 Units
Fashion 106 presents information and demonstrates skills necessary to develop in the students the ability to make adult (women’s, misses, and junior’s) and children’s basic (2 to 6X size range) crotch patterns, and apply the basics to various types of garments in each group, as well as complete the finished garments. 3 garments are required: 1 pair slacks, 1 child’s dress, 1 child’s playsuit. Lecture 1 hour, laboratory 3 hours. **Prerequisite:** Grade of “C” or better in Fashion 103 and 105. **Note:** Fashion 104, 106, 107 were formerly Family and Consumer Studies 118. No credit will be granted to students who have completed Family and Consumer Studies 118. **Transfer credit:** CSU

•107—Production Pattern Making and Grading 2 Units
Fashion 107 is an advanced course in drafting, designing and grading patterns for the clothing industry. Fundamental principles of pattern making are applied to more complex problems selected from illustrated styles. One garment is required. Lecture 1 hour, laboratory 3 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent and a grade of “C” or better in Fashion 103. **Note:** Fashion 107, 104, 106 were formerly Family and Consumer Studies 118 and 119. No credit will be granted to students who have completed Family and Consumer Studies 118, 119. This course may be taken 3 times; a maximum of 6 units may be earned. **Transfer credit:** CSU

•108—Professional Draping Techniques I 2 Units
Fashion 108 presents the information and demonstrates the skills necessary to develop in the student the ability to work individually using a custom dress form to drape various types of blouses, skirts and dresses in sample fabrics using a full-scale standard dress form in junior, misses and adult misses sizes. Student will employ both flat table draping and French draping methods required to drape and construct one two-piece sports garment (dress) using natural fabric. Lecture 1 hour, laboratory 3 hours. **Prerequisite:** Grade of “C” or better in Fashion 103, 104 and 105 or equivalent. **Note:** Fashion 108, 109 were formerly Family and Consumer Studies 120. No credit will be granted to students who have completed Family and Consumer Studies 120. **Transfer credit:** CSU

•109—Professional Draping Techniques II 2 Units
Fashion 109 presents information and develops further skills in the construction of flat patterns from advanced draping projects, an understanding of the draping qualities of various types of fabric is emphasized. More intricate draping problems in a wide variety of style ranges are presented. **Prerequisite:** Grade of “C” or better in Fashion 103, 108 or equivalent. **Note:** Fashion 108 and 109 were formerly Family and Consumer Studies 120. No credit will be granted to students who have completed Family and Consumer Studies 120. **Transfer credit:** CSU

•123—Fashion Illustrating 2 Units
Fashion 123 includes the development of a fashion figure including design concepts. Use of various media includes, pencil, watercolor, chalk, as well as ink, in order to render the figure in costume detail. Students will develop skills necessary to render various fabrics, furs, feathers, as well as accessories, including jewelry. Lecture 2 hours, laboratory 1 hour. **Prerequisite:** None. **Note:** This course was formerly Family and Consumer Studies 123. No credit will be granted to students who have completed Family and Consumer Studies 123. This course may be taken three times; a maximum of six units may be earned. Four units will be applied to the certificate.

•124—Fashion Retailing 2 Units
Fashion 124 is a course in the selection and selling of clothing and fabrics as they relate to retailing and purchasing in the fashion industry. This course is designed for those seeking employment as fashion buyers and retailers. Lecture 2 hours. **Prerequisite:** None. **Note:** This course was formerly Family and Consumer Studies 124. No credit will be granted to students who have completed Family and Consumer Studies 124. **Transfer credit:** CSU

•125—Fashion Merchandising 2 Units
Fashion 125 is a study of principles of fashion. Includes a study of fashion designers, apparel producers, and fashion retailers. Lecture 2 hours. **Prerequisite:** None. **Note:** No credit will be granted to students who have completed Marketing and Distribution 125. **Transfer credit:** CSU
FINANCE

• 101—Introduction to Finance  3 Units
Finance 101 introduces the student to the many financial decisions faced by a modern business, along with the analytical tools and concepts necessary for an evaluation of these decisions. The material is applicable to large corporations, small businesses and nonprofit organizations. Lecture 3 hours. **Prerequisite:** None. **Note:** One year of accounting is recommended. **Transfer Credit:** CSU

• 110—Financial Statement Analysis  3 Units
(Formerly Business—General 194)
Finance 110 provides a complete understanding of the Income Statement and the Balance Sheet. These financial statements are further analyzed as to components, and ratios are developed to determine the firm's financial positions. Lecture 3 hours. **Prerequisite:** Accounting 101 with a grade of "C" or better or equivalent. **Transfer credit:** CSU

• 115—Banking Operations  3 Units
(Formerly Business—General 190)
Finance 115 provides an understanding of the basic functions of banking and a working knowledge of a bank. Lecture 3 hours. **Prerequisite:** None.

• 120—Installment Credit  3 Units
(Formerly Business—General 196)
Finance 120 explains the evolution of installment credit and its current status. Credit risk evaluation is analyzed from the standpoint of loan information, interview, investigation, and credit decisions. Practical applications of cost analysis, rate structures, and collection procedures are presented. Lecture 3 hours. **Prerequisite:** None.

• 140—Investments  2 Units
(Formerly Business Administration 140)
Finance 140 provides the student with an understanding of investment objectives, basic types of securities, operation of stock exchanges, investment banking, investment principles, and financial planning. Lecture 2 hours. **Prerequisite:** None. **Transfer credit:** CSU

• 150—Money and Banking  2 Units
(Formerly Business Administration 150)
Finance 150 is a course designed to help young people secure employment with investment banking houses, commercial banks, finance companies, stock and commodity exchanges, and securities dealers. It is a study of the American monetary system and the history of American financial institutions. The objectives of the course are an understanding of the Federal Reserve structure, monetary and fiscal policy, and the commercial banking process. Lecture 2 hours. **Prerequisite:** None. **Transfer credit:** CSU

• 161—Money Management  3 Units
(Formerly Business—General 161)
Finance 161 covers the basic principles of effective money management. The fundamental of financial planning and the control of current financial actions to reach future financial goals will be studied, including such topics as providing for major investments, retirement and pension planning, the tax environment, and the effect of new laws and regulations. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU

• 200—Buying and Selling a Business  3 Units
Finance 200 presents all the information necessary to conduct the purchase or sale of a small business. This course focuses on what a real estate agent should know so that he or she could properly list, offer, negotiate and sell a business. The techniques of marketing, financing, financial reporting, taxation, merging and business management are covered in detail. Lecture 3 hours. **Prerequisite:** None. **Note:** This course may not be taken for credit by students who have completed Real Estate 200. **Transfer credit:** CSU

FIRE TECHNOLOGY

Classes in Fire Technology are offered in the Evening College program for students interested in preparing for careers in fire prevention and fire fighting. Since the course also provides in-service and upgrading instruction for fire fighting personnel, identical classes are scheduled on consecutive evenings to provide for those students who must change shifts each week.

• 101—Introduction to Fire Protection and Suppression  ½-3 Units
Philosophy and history of fire protection; history of loss of life and property by fire; review of municipal fire defenses; study of the organization and function of Federal, State, and County, and private fire protection agencies; and survey of professional fire protection career opportunities. Lecture 3 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent. **Note:** This course may be taken 2 times; a maximum of 6 units may be earned.
103—Fundamentals of Fire Prevention ½-3 Units
Organization and function of the fire prevention organization; inspection; surveying and mapping procedures; recognition of fire hazards; engineering a solution to the hazard; enforcement of the solution; public relations as affected by fire prevention. Lecture 3 hours. Prerequisite: Fire Technology 101 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

104—Fire Fighting Tactics and Strategy ½-3 Units
Review of fire chemistry, equipment, and personnel; basic fire fighting tactics and strategy; methods of attack; pre-planning fire problems. Review of related codes and ordinances. Lecture 3 hours. Prerequisite: Fire Technology 101 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

105—Fire Protection Equipment and Systems ½-3 Units
Portable fire extinguishing equipment; sprinkler systems; protection systems for special hazards; and fire alarm and detection systems. Lecture 3 hours. Prerequisite: Fire Technology 101 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

107—Fire Hydraulics ½-3 Units
Review of basic mathematics; hydraulic laws and formulas as applied to the fire service; application of formulas and mental calculation to hydraulic problems; water supply problems; underwriters' requirements for pumps. Lecture 3 hours. Prerequisite: Fire Technology 101 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

108—Fire Apparatus and Equipment ½-3 Units
Driving laws, driving technique, construction, and operation of pumping engines, ladder trucks, aerial platforms, specialized equipment, and apparatus maintenance. Lecture 3 hours. Prerequisite: Fire Technology 101 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

109—Rescue Practices ½-3 Units
Rescue practices, the human body, emergency care of victims, childbirth, artificial respiration, toxic gases, chemicals and diseases, radioactive hazards, rescue problems and techniques. Lecture 3 hours. Prerequisite: Fire Technology 101 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

110—Fire Company Organization and Procedure ½-3 Units
Review of fire department organization; fire company organization; the company officer; personnel administration; communications; fire equipment; maintenance; training; fire prevention; fire fighting, company fire fighting capability; records and reports; supervision and leadership techniques. Lecture 3 hours. Prerequisite: Fire Technology 101 and 103 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

111—Fire Investigation ½-3 Units
Introduction to arson and incendiaryism, arson laws, and types of incendiary fires. Methods of determining fire cause, recognizing and preserving evidence, interviewing and detaining witnesses. Procedures in handling juveniles; court procedure and giving court testimony. Lecture 3 hours. Prerequisite: Fire Technology 101 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

112—Wildland Fire Control ½-3 Units
Designed to provide the employed firefighter or fire science major with a fundamental knowledge of the factors affecting wildland fire prevention, fire behavior, and control techniques. Lecture 3 hours. Prerequisite: Fire Technology 101 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

114—Hazardous Materials ½-3 Units
Fire Technology 114 is an introduction to basic fire chemistry and physics. This course covers problems of flammability as encountered by firefighters when dealing with toxic substances, fuels, explosives, oxidizers and radioactive materials. It also covers fire fighting practices pertaining to hazardous materials in storage and transit. Lecture ½-3 hours. Prerequisite: Fire Technology 101 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

115—Fire Academy 10 Units
Fire Technology 115 consists of 301 hours of technical and manipulative training. Fire Academy is designed to train the student in fire-fighting technology-theory and practice. The major portion of Fire Academy is devoted to manipulative exercises in fire control, incorporating apparatus and equipment operation, rescue operation, hose and ladder evolutions, and other relevant areas. Lecture 16 hours, laboratory 27 hours. Prerequisite: A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination,
or English 164, or English 191, or equivalent and high school diploma. Students must have completed nine (9) units of Fire Technology, including Fire Technology 101 or equivalent.

• 150—Fire Service Instructor Training I 2 Units
Basic methods and techniques employed by fire service personnel to select, develop, and organize material for in-service training programs, evaluation, and application of principles of learning through practice demonstration. Lecture 36 semester hours. Prerequisite: Fire Technology 110 and 115 or employment in a related occupation.

• 151—Fire Service Instructor Training II 2 Units
Fire Technology 151 provides fire service personnel with a variety of methods and techniques for training others in accordance with the latest concepts in vocational education. Lecture 36 semester hours. Prerequisite: Fire Technology 150 or equivalent. Note: This course will be offered in various time segments depending upon scheduling needs.
FOOD AND NUTRITION STUDIES

•111—Beginning Food Preparation  5 Units
Food and Nutrition Studies 111 provides an introduction and application of the principles of food preparation for the consumer by professionals. The course emphasizes high production standards, attractive service, use of proper equipment, and efficient use of time. The course also stresses food selection, food storage, food sanitation, and recipe and product evaluation. Lecture 3 hours, laboratory 6 hours. Prerequisite: None. Note: (Food and Nutrition Studies 111 and 112 may be taken concurrently.) Transfer credit: CSU

•112—Advanced Food Preparation  5 Units
Food and Nutrition Studies 112 is a continuation of Food and Nutrition Studies 111. It is the introduction and application of the principles of food preparation. The course emphasizes high production standards, attractive service, use of proper equipment, and efficient use of time. The course also stresses work simplification, nutrition requirements, and preparation of specialized food. Lecture 3 hours, laboratory 6 hours. Prerequisite: Food and Nutrition Studies 111 or equivalent. (Food and Nutrition Studies 111 and 112 may be taken concurrently.) Note: Concurrent enrollment in Cooperative Education/Work Experience (2 units) is required. Transfer credit: CSU

•113—Sanitation and Safety Control  3 Units
Food and Nutrition Studies 113 covers personal cleanliness, sanitary practices in food preparation, cause, control and investigation of illness caused by food contamination. Dishwashing procedures, sanitation of kitchen equipment, storage and refrigeration. Investigation of cleansing materials and use of proper disposal of garbage and refuse. Safety precautions and accident prevention. Lecture 3 hours. Prerequisite: None.

•114—Nutrition and Menu Planning  3 Units
Not offered.

•116—Quantity Food Purchasing  3 Units
Food and Nutrition Studies 116 covers purchasing of food for institutions with regard to season, convenience, price, kind, and principles of storage and use. Learn to prepare purchasing schedules, inventory forms, and graphs showing seasonal variations. Lecture 3 hours. Prerequisite: None.

•117—Food Management and Cost Control  3 Units
Food and Nutrition Studies 117 is an analysis of menu planning procedures: inventories, costs, profit and loss sheets, menu work sheets, and weight and measures in quality recipes. The student will learn to prepare weekly, monthly, and annual reports and determine food cost per meal, labor cost per meal, operational and total cost per meal. Lecture 3 hours. Prerequisite: None.

•118—Dietary Health Care  3 Units
Not offered.

•119—Advanced Food Services Practice  3 Units
Not offered.

•120—Oriental Cooking  3 Units
Food and Nutrition Studies 120 includes an introduction to and application of the principles of Oriental cooking in relation to the food industry. The course emphasizes the use of proper equipment, cutting methods, food preparation, utilization of time, and the blending of flavors and ingredients. Lecture 3 hours. Prerequisite: None.

•121—Fundamentals of Microwave Cooking  1 Unit
Not offered.

•122—International Cooking  3 Units
Food and Nutrition Studies 122 is an introduction to culinary principles and techniques derived from countries throughout the world. Specific areas of instruction covered will include selection of proper equipment and utensils, correct methods of preparation and procedures. Food preparation and presentation will also be emphasized. Lecture 3 hours. Prerequisite: None.

•123—Italian Cooking  1 Unit
Food and Nutrition Studies 123 presents the application of the principles of Italian cooking in relation to the food service industry. This course is designed to demonstrate various regional Italian cuisines in the use of soups, entrees, salads and desserts. Lecture 1 hour. Prerequisite: None.

———  FOOD SERVICE MANAGEMENT  ———

•201—Restaurant Management  3 Units
(Formerly Restaurant Management 211)
Food Service Management 201 covers the principles of operating a food service which are
common to all types of commercial and industrial food service. Covers such areas as sales promotion, advertising, personnel, legal aspects, insurance, labor management relations. Lecture 3 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent.

**•203—Catering I**  
*Formerly Catering 213*  
3 Units  
Food Service Management 203 studies the theory and practice of operating a catering operation. Practice given in the managing of the total operation as well as some experience in specialty food preparation. Lecture 2 hours, laboratory 3 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent.

**•207—Dining Room Services**  
*Formerly Dining Room Service 212*  
3 Units  
Food Service Management 207 is an introduction and application of the principles of preparing food sales and presenting service at special events and functions within the scope of the hospitality industry such as teas, receptions, weddings and banquets. Management of a dining room including good housekeeping techniques, fine food, and efficient service. Type of dining service included: waited table service (French, Russian, American, English), limited service, counter, tray service, catering, and vending. Lecture 2 hours, laboratory 4 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent.

**•214—Beverages and Wine Service**  
3 Units  
A study of the beverage costs, and uses in commercial restaurants and hotels. Analysis of the operation, sales, costs and profit functions are studied. Produce information and the study of the historical background of beverages are covered. The organization of operation of a bar, wine cellar, or catered services are studied. Lecture 3 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent.

---

**FRENCH**

**•101—Beginning French I**  
5 Units  
French 101 presents the fundamentals of French grammar. The students are trained to pronounce correctly, to acquire a small working vocabulary which they use in conversation and writing, and to learn to read simple French. In addition to the regular class hours, the student must spend one hour a week in the laboratory. Lecture 5 hours. **Prerequisite:** Eligibility for English 101. **Transfer credit:** CSU, UC, USC

**•102—Beginning French II**  
5 Units  
French 102 continues to present the fundamentals of French grammar. It trains further in correct pronunciation, and presents more difficult elementary prose. The discussions in French will stress the correct use of verbs and idioms and efficient methods of vocabulary building. In addition to the regular class hours, the student must spend one hour a week in the laboratory. Lecture 5 hours. **Prerequisite:** French 101, or two years of French in high school completed within the past two years, or equivalent. **Transfer credit:** CSU, UC, USC

**•103—Intermediate French I**  
4 Units  
French 103 completes the presentation of French grammar. It stresses correct diction and efficient methods of vocabulary building. Students will read intermediate prose stressing documentary aspects of French life, character analysis, and the study of ideas. There will be oral and written discussion in French. In addition to the regular class hours, the student must spend one hour a week in the laboratory. Lecture 4 hours. **Prerequisite:** French 102, or three years of French in high school completed within the past two years, or equivalent. **Transfer credit:** CSU, UC, USC

**•104—Intermediate French II**  
4 Units  
French 104 reviews the fundamentals of French grammar. It continues to stress correct diction and efficient methods of vocabulary building. Students will read intermediate French prose of increasing difficulty and engage in free conversation and composition with stress on documentary aspects of French life, character analysis, and the study of ideas. In addition to the regular class hours, the student must spend one hour a week in the laboratory. Lecture 4 hours. **Prerequisite:** French 103, or four years of French in high school completed within the past two years, or equivalent. **Transfer credit:** CSU, UC, USC

---

**FORTRAN, See Mathematics 130**
•105—Conversational French 4 Units
French 105 is an intensive practice in oral expression and comprehension of spoken French. Lecture 4 hours. Prerequisite: French 102, or three years of high school French, or equivalent. Note: This course may be taken 2 times; a maximum of 8 units may be earned. Transfer credit: CSU, UC, USC

•106—Advanced Conversational French 4 Units
French 106 is designed for those students who wish to sharpen their ability to articulate in French by discussing issues that go beyond concrete descriptions into the area of intellectual ideas. Lecture 4 hours. Prerequisite: French 105 or equivalent. Note: This course may be taken 2 times; a maximum of 8 units may be earned. Transfer credit: CSU, UC, USC

•110—Basic Conversational French I 2 Units
French 110 is an introduction to French with emphasis on developing essential skills in communication. The verbal active method used; stresses oral expression. The course also develops a working knowledge of reading and writing French. Lecture 2 hours, laboratory 1 hour. Prerequisite: None. Note: Must be taken prior to French 102. This course may be taken 2 times; a maximum of 4 units may be earned.

•111—Basic Conversational French II 2 Units
French 111 is an introduction to French with emphasis on developing essential skills in communication. The verbal active method is used and oral expression is stressed. The course also develops a working knowledge of reading and writing French. Lecture 2 hours, laboratory 1 hour. Prerequisite: French 110 or equivalent. Note: This course may be taken 2 times; a maximum of 4 units may be earned.

•112—Basic Conversational French III 2 Units
French 112 is a continuation of the development of skills essential to communication. The verbal active method is used and oral expression is stressed. The course provides a further working knowledge of reading and writing in French. Lecture 2 hours, laboratory 1 hour. Prerequisite: French 111 or equivalent.

•113—Basic Conversational French IV 2 Units
French 113 is a continuation of the development of skills essential to communication. The verbal active method is used and oral expression is stressed. The course provides a further working knowledge of reading and writing in French. Lecture 2 hours, laboratory 1 hour. Prerequisite: French 112 or equivalent. Note: This course may be taken 2 times; a maximum of 4 units may be earned.

•124—Introduction to French Literature: Genres 3 Units
French 124 is an introduction to French literature through a study of representative works of major genres. This course, conducted exclusively in French, naturally maintains and enriches the students' language skills, but its primary purpose is to acquaint them with French literature and give them a solid basis on which to continue further reading. Lecture 3 hours. Prerequisite: French 104 or equivalent. Transfer credit: CSU, UC, USC

•125—Introduction to French Literature: Middle Ages Through the 18th Century 3 Units
French 125 is an introduction to early French literature through a survey of its historical development and representative works. This course, conducted exclusively in French, naturally maintains and enriches the students' language skills, but its primary purpose is to acquaint them with French literature and give them a solid basis on which to continue future reading. Lecture 3 hours. Prerequisite: French 104, or French 124, or equivalent. Transfer credit: CSU, UC, USC

•126—Introduction to French Literature: 19th Century to Present 3 Units
French 126 is an introduction to modern French literature through a survey of its historical development and representative works (covering the 19th Century to the present). This course, conducted exclusively in French, naturally maintains and enriches the students' language skills, but its primary purpose is to acquaint them with French literature and give them a solid basis on which to continue future reading. Lecture 3 hours. Prerequisite: French 104, or French 124, or equivalent. Transfer credit: CSU, UC, USC
GEOPHYSICS

101—Physical Geography 3 Units
Geography 101 is a study of the basic physical elements of geography, their correlation and integrated patterns of world distribution. Special attention is given to the earth and its astronomical relationships, weather, climate, and landforms. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU, UC, USC

102—Cultural Geography 3 Units
Geography 102 is a systematic study of the cultural variables of humankind: population, religion, language, economic activities, settlements. Emphasis upon selected cultural problems of humankind's occupation. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU, UC, USC

105—Economic Geography 3 Units
Geography 105 is a study of the physical and cultural elements of environment and their relation to the economic activities of humankind. Special attention is given to the climatic regions, the soils, the products and the resultant economy. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU, UC, USC

110—Geography of California 3 Units
Geography 110 is a systematic study of the spatial distributions of California's bio-physical and cultural phenomena. Special emphasis is placed on the impact of human occupancy. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU, UC, USC

114—Geography of Baja California 1 Unit
Geography 114 is a field study of the Baja California peninsula of Mexico using the geographic methodology. Emphasis is placed on the following: the development of the student's ability to interpret the landscape; the exposure of students to such basic geographic concepts as spatial distribution, spatial associations, and spatial interactions; the observation by students of the relationships between the bio-physical environment and human activities. Students will observe and take notes in specific locations of the Baja California peninsula. Lecture 16 hours (1 week)
Prerequisite: Geography 101 or 102 or 105 or 110 or equivalent. Transfer credit: CSU, UC

GEOMETRY

101—Physical Geology 3 Units
Geology 101 is a study of the physical materials and processes of the earth. Lecture 3 hours. Prerequisite: None. Note: This course may not be taken for credit by students who have completed Geology 110. Second semester standing or a good high school record is recommended. Transfer credit: CSU, UC, USC

102—Environmental Geology 3 Units
Geology 102 is a study of human interaction with geologic processes and hazards, natural resource supplies and their utilization, soil depletion, water and atmospheric pollution. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU, UC, USC

103—Geology of California 3 Units
Geology 103 is a study of the characteristics and historical development of the geologic provinces of California. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU, UC, USC

104—Field Geology 2-6 Units
Geology 104 is a field study of geologic features within several geologic provinces. Emphasis is placed on the recognition, interpretation, recording, and reporting of geologic information observed in the field. Petrologic, paleontologic, structural, and stratigraphic information will be compiled and integrated into an interpretation of the geologic history of the area investigated. An extended period in the field may be substituted for a number of short field trips. Field trips will normally be taken on weekends and/or during vacation periods. The itinerary, schedule, and field area will be determined at the first class meeting (see current class schedule). The student is responsible for the cost of food and transportation; the approximate cost is $35 for each two units of work; this figure may vary considerably depending on the location of the study area. Travel is usually by chartered bus. Field Geology requires a great deal of rigorous activity and living conditions in the field are often primitive. Lecture and field study will be the semester equivalent of one hour of lecture and three hours of laboratory per week for each two units of credit; a typical semester of work would include 16 hours of lecture and six days in the field. Prerequisite: Completion of one of the following courses with a grade of "C" or better: Geology 101, 102, 103, 105, 110; Oceanography 115; Paleontology 101; or equivalent. Note: Two units of non-overlapping field study will be offered for the fall and spring semesters; extended periods of study may be
available during summer session. Weather conditions may require rescheduling of some trips. The student may repeat Geology 104 until a total of 6 units has been earned. Transfer credit: CSU, UC, USC

**105—Historical Earth Science** 4 Units
Geology 105 is a study of the geological and paleontologic history of the North American continent. Lecture 3 hours, laboratory 3 hours. Prerequisite: Completion of any one of the following courses with a grade of "C" or better: Geology 101, 102, 103, 110; Oceanography 115; Paleontology 101; or equivalent. Transfer credit: CSU, UC, USC

**110—Physical Earth Science** 4 Units
Geology 110 is a study of various geologic processes, their products, ecologic implications, and related natural resources. Lecture 3 hours, laboratory 3 hours. Prerequisite: None. Note: Students who have taken Geology 101 will receive only 1 unit of credit for Geology 110. Transfer credit: CSU, UC, USC

---

**GERMAN**

**101—Beginning German I** 5 Units
Training in accurate pronunciation through daily drill. Elementary grammar and sentence structure. Reading and reproduction of simple prose. In addition to the regular class hours, the student must spend two half-hour periods a week in the laboratory. Lecture 5 hours. Prerequisite: Eligibility for English 101. Transfer credit: CSU, UC, USC

**102—Beginning German II** 5 Units
Continuation of German 101. Completion of elementary grammar essentials. Reading and interpretation of prose of increasing difficulty. Conversation, dictum, and composition. Some knowledge of German tradition and character folklore. Essential geographical and historical data concerning German people. In addition to the regular class hours, the student must spend two half-hour periods a week in the laboratory. Lecture 5 hours. Prerequisite: German 101 or two years of German in high school completed within the past two years. Transfer credit: CSU, UC, USC

**103—Intermediate German I** 4 Units
A review of elementary grammar, a study of word analysis, sentence structure, idioms, and composition. Intensive reading of historical and bellestristic German literature. Development in the language laboratory of vocabulary, idioms, and sentences fundamental to an active use of German in speaking. Lecture 4 hours. Prerequisite: German 102, or three years of German in high school completed within the past two years. Transfer credit: CSU, UC, USC

**104—Intermediate German II** 4 Units
Continuation of German 103, reading and interpretation of more difficult prose. Increasing stress on oral ability and free composition. Reading of contemporary newspapers and magazines. Lecture 4 hours. Prerequisite: German 103 or four years of German in high school completed within the past two years. Transfer credit: CSU, UC, USC

**105—Conversational German** 3 Units
German 105 offers intensive practice in oral expression and comprehension of spoken German. Lecture 3 hours. Prerequisite: One year of college German, or three years of high school German, or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer credit: CSU, UC, USC

**106—Advanced Conversational German** 3 Units
German 106 is designed for those students who wish to take more advanced conversational topics in order to further improve their language skills. Lecture 3 hours. Prerequisite: German 105 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer credit: CSU, UC, USC

**110—Basic Conversational German I** 2 Units
German 110 is an introduction to the German language with emphasis on developing essential skills in communication. The verbal active method used stresses oral expression. The course develops a working knowledge of reading and writing as well, and includes the use of tapes, cassettes, and films. Lecture 2 hours, laboratory 1 hour. Prerequisite: None. Note: Must be taken prior to German 102. This course may be taken 2 times; a maximum of 4 units may be earned.
**111—Basic Conversational German II**  
2 Units  
German 111 is a further study of the language with continued emphasis on developing essential skills in communication. The verbal active method used stresses oral expression. The course further develops a working knowledge of reading and writing as well, and includes the use of tapes, cassettes, and films. Lecture 2 hours, laboratory 1 hour. **Prerequisite:** German 110 or equivalent.  
**Note:** This course may be taken 2 times; a maximum of 4 units may be earned.

**112—Basic Conversational German III**  
2 Units  
German 112 is the academic progression of German 111 and continues the use of the German language with emphasis on developing essential communication skills and aural and written comprehension. The pragmatic methodological approach stresses oral expression. Lecture 2 hours, laboratory 1 hour. **Prerequisite:** German 111 or equivalent.

**113—Basic Conversational German IV**  
2 Units  
German 113 is the academic progression of German 112 and the German language with emphasis on advanced communication skills and aural and written comprehension. Oral expression will be stressed. Lecture 2 hours, laboratory 1 hour. **Prerequisite:** German 112 or equivalent.

**125—Introduction to German Literature**  
3 Units  
German 125 is an introduction to German literature. It will provide a survey of Germany's historical development as seen in representative works covering the period of 100 A.D. through the 17th Century. Reading and lectures will be used. Lecture 3 hours. **Prerequisite:** German 102 or equivalent.  
**Transfer credit:** CSU, UC, USC

**126—Introduction to German Literature**  
3 Units  
German 126 is an introduction to German literature. It will provide a survey of its historical development as seen in representative works covering the period of the 18th Century to the present. Reading and lectures will be in German. To supplement the text, records, and tapes will be used. Lecture 3 hours. **Prerequisite:** German 102 or equivalent.  
**Transfer credit:** CSU, UC, USC

---

**GRAPHICS AND DESIGN**

**164—Elementary Drafting**  
2 Units  
Graphics and Design 164 presents the elementary methods and techniques of drafting and layout. This course is for the student who needs a slow training pace and a thorough beginning to the basic concepts of drafting. The course develops the student's ability to understand concepts of drafting, to use scales, and to make simple drawings. Lecture 1 hour, laboratory 3 hours. **Prerequisite:** None.  
**Note:** This course is for the student who has had no experience or training in drafting, for the student who requires a more in-depth, basic beginning with drafting, and for the student who is unable to keep up with the pace of Graphics 165.

**165—Basic Graphics**  
5 Units  
Graphics and Design 165 covers the basic methods required by industry for the preparation of drawings of mechanical devices. It includes a basic course in drafting consisting of instruments used in technical drawing; lettering and briefing charts, geometry of technical drawing, orthographic projection, revolutions, primary and secondary auxiliaries, sections, dimensioning, fasteners, springs, intersections, and oblique and isometric drawing. Training emphasized both the artistic as well as the drafting approach to enable students to be proficient in pictorial sketching. A relevant program which encourages skills toward visual communications and organizing problems, to meet the ever increasing demands for speed of preparation by industry. Lecture 3 hours, laboratory 6 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191 or equivalent.  
**Note:** Students must register for the full number of hours for which the course is scheduled, but late registration is permitted provided a vacancy in the class exists and all work missed is made up.  
**Transfer credit:** CSU

**166—Basic Graphics**  
5 Units  
Graphics and Design 166 is a study of the fundamentals of isometric, dimetric, and trimetric drawing, offset measurements, non-isometric lines, inking techniques, illustrations prepared for technical publication, schematic drawing, and introduction to the basic techniques of rendering through the medium of charcoal, pastel chalks, wash, dry brush, tempera and water colors. General technical knowledge and skills used by professional illustrators are practiced in the classroom. Lecture 3 hours, laboratory 6 hours.
Prerequisite: Engineering 101 or Graphics and Design 165. **Transfer credit: CSU**

- **167—Advanced Technical Graphics** 5 Units
  Graphics and Design 167 covers the general technical knowledge and skills used by the professional illustrators, with the aim of preparing the student to perform complicated assignments in the preparation of technical publications such as operational handbooks, illustrated parts breakdown, visual aids, and manual concerning maintenance, repair and overhaul procedures. Covers the rotation from the isometric plane in single and double directional rotations. Lecture 3 hours, laboratory 6 hours. **Prerequisite:** Graphics and Design 166. **Note:** Students must register for the full number of hours for which the course is scheduled, but late registration is permitted provided a vacancy in the class exists and all work missed is made up. **Transfer credit:** CSU

- **168—Advanced Technical Graphics** 5 Units
  Graphics and Design 168 covers the general technical knowledge and skills used by professional illustrators with the aim of preparing the student to perform complicated assignments in preparation of technical publications and graphic communication presentations. Covers perspective theory, rendering in all manner of graphic arts techniques; the operation, use, and care of the air brush. Creative decisions are necessary in student's approach to visualization of class problems which have underlying requirements of both mechanical and artistic training. Lecture 3 hours, laboratory 6 hours. **Prerequisite:** Graphics and Design 167. **Transfer credit:** CSU

- **169—Industrial Design** 5 Units
  Graphics and Design 169 covers the design and production of technical graphic communications used by engineers, technicians, scientists, and executive personnel in industry. The student is directed in the design and preparation of presentation material such as: charts, graphs, slide projecturals; exhibits, industrial design models, displays, and technical brochures. Course also covers lettering and type layout reproduction methods and processes used in preparation of graphics. Latest industrial art methods and techniques are studied in order to achieve economy, speed, accuracy. Lecture 3 hours, laboratory 6 hours. **Prerequisite:** Graphics and Design 168. **Transfer credit:** CSU

- **170—Air Brush I** 1 Unit
  Graphics 170 and Design is designed to develop the ability of the student to use the ingredients, methods, and techniques of air brush from start to finish. Though the course does not required skilled art application, it deals with the fundamentals of design, layout, lines, dots, shading, black and white water color, types of frisket, and paper. The student will have the opportunity to use two types of air brushes and to learn about other available types. Lecture 1 hour, laboratory 3 hours (9 week class). **Prerequisite:** None. **Note:** It is recommended that Art 130, Art 150, or Art 134 be taken prior to Graphics 170. This course may be taken 3 times; a maximum of 3 units may be earned.

- **171—Air Brush II** 1 Unit
  Graphics and Design 171 teaches the advanced operation and use of the air brush. The course will introduce color into the designs and will use the basic knowledge obtained in Graphics 170. The student will develop the skills of blending and selecting color, creating texture, and focusing on creative design to achieve the desired results. Lecture 1 hour, laboratory 3 hours (9 week class). **Prerequisite:** Graphics 170. **Note:** This course may be taken 3 times; a maximum of 3 units may be earned.

- **172—Publication Graphics** 3 Units
  Graphics and Design 172 is designed to increase the student's ability to employ the ingredients, methods, and techniques used in the preparation and production of brochures, reports, proposals, manuals, and audio visuals from start to finish. Though the course does not require skilled art application, it deals with the fundamentals of design, layout, typography, paper, inks, printing, binding, and audio visual preparation. Visiting specialists from related industries will discuss their roles in the graphic arts industry and answer related questions. Lecture 3 hours, laboratory 1 hour. **Prerequisite:** None.

- **173—Industrial Graphics** 3 Units
  Graphics and Design 173 is a course to prepare the technical illustrator to meet the demands of industry. Emphasis is placed on extremely high inking and paste-up skills along with isometric construction, with rotation from the isometric plane. Students will have an opportunity to work from engineering blueprints and actual rough inputs from industrial engineering organizations. Lecture 3 hours, laboratory 1 hour. **Prerequisite:** None
•175—Graphics/Publications
  Automated Production Industry
  Upgrade and Retraining  1 ½ Units
Graphics and Design 175 presents the basic methods and technologies required by industry in publication/graphic typesetting production. This course is designed primarily for individuals presently working in the publication, printing and graphic industries desiring training in automated systems. Presented is a basic course in video display terminal, VDT, operation of a Varityper typesetting system, and comparable training on personal computers using the Do It software package. Production output training will be available on dot matrix printers, laser printers, and a photo typesetter. Additional areas of training will include advertising/graphics, page layout and design, text processing, editing and headline writing, and data base storage. General automated technical knowledge and skills used by the graphics industry will be presented and practiced in the classroom. Lecture 1 hour, laboratory 1 ½ hours. Prerequisite: Eligibility for English 120. Note: Knowledge of keyboarding skills would be helpful. Transfer credit: CSU

•176—Automated Publication
  Graphics II  2 Units
Graphics and Design 176 covers the fundamental methods and technologies required by industry in publication graphic typesetting production. This class is designed to instruct individuals matriculating in the college graphics and journalism programs in the technology of automated publication graphic arts. Skills presented include the use of the video display terminal (VDT), the Varityper, and comparable personal computers using the Do It software materials. Production output training will be available on dot matrix and laser printers, and on phototypesetters. Additional areas of training will include advertising graphics, page layout and design, text processing, editing and data base storage. General automated technical knowledge and skills used by the publication graphics industry will be taught and practiced in the classroom. Lecture 1 hour, laboratory 3 hours. Prerequisite: Prior completion of or concurrent enrollment in a college journalism course, or a graphic art and design course, or eligibility for English 101. Transfer credit: CSU

•177—Camera Ready Art  1 Unit
Graphics and Design 177 presents the methods and techniques of camera ready art. The course will cover the layout preparation, actual camera use, and final presentation touches. During this course the student will develop the skills of operating the vertical stat camera and using it in industry. Lecture 1 hour, laboratory 3 hours (9 week class). Prerequisite: None. Note: It is recommended that Photography 101 and Photography 102 be taken prior to Graphics and Design 177.

•178—Paste-Up and Layout  1 Unit
Graphics and Design 178 presents the methods and techniques of paste-up and layout. The course develops the ability to layout various media for the graphics and desktop publishing industry. This will include flyers, brochures, newspaper and technical illustrations. The student will design and use photo layouts, discover the principles of color separation, and learn the techniques that develop professional paste-up skills for employment in business or industry. Lecture 1 hour, laboratory 3 hours (9 week class). Prerequisite: None. Note: This course may be taken 3 times; a maximum of 3 units may be earned.

GUIDANCE

•189—College Orientation —
  International Students  (See Note)
Guidance 189 places special emphasis on the time schedule, the discovery of the nature and extent of reading difficulties, outlining the lecture and reading assignments, the efficient use of the facilities for study, developing skill in note taking, and preparing for and taking of examinations. Ample opportunity is provided for the consideration of individual study problems and for practicing suggested procedures. Prerequisite: None. Note: The student may earn one-half, one, two, or three units each semester. For students electing one-half, one, or two units, the course may be repeated; a maximum of three units may be earned. Students with a TOEFL score of 500 or higher will elect to take this course.

•190—College Orientation  (See Note)
Guidance 190 places special emphasis on the time schedule, the discovery of the nature and extent of reading difficulties, outlining the lecture and reading assignments, the efficient use of the facilities for study, developing skill in note taking, and preparing for and taking of examinations. Ample opportunity is provided for the consideration of individual study problems and for practicing suggested procedures. Prerequisite: None. Note: The student may earn one-half, one, two, or three units each semester. For students electing one-half, one, or two units, the course may be repeated; a maximum of three units may be earned.
•191—College Orientation — 
International Students (See Note)
Guidance 191 places special emphasis on the time schedule, the discovery of the nature and extent of reading difficulties, outlining the lecture and reading assignments, the efficient use of the facilities for study, developing skill in note taking, and preparing for and taking of examinations. Ample opportunity is provided for the consideration of individual study problems and for practicing suggested procedures. Prerequisite: None. Note: The student may earn one-half, one, two, or three units each semester. For students electing one-half, one, or two units, the course may be repeated; a maximum of three units may be earned.

•192—College Orientation — 
Academic Probation (See Note)
Guidance 192 places special emphasis on the time schedule, the discovery of the nature and extent of reading difficulties, outlining the lecture and reading assignments, the efficient use of the facilities for study, developing skill in note taking, and preparing for and taking of examinations. Ample opportunity is provided for the consideration of individual study problems and for practicing suggested procedures. Prerequisite: None. Note: The student may earn one-half, one, two, or three units each semester. For students electing one-half, one, or two units, the course may be repeated; a maximum of three (3) units may be earned.

•193—Psychology of Adjustment 3 Units
Guidance 193 is a course designed to increase the student's personal and social maturity; principles of psychology related to better self-understanding and self-actualization. Development of effective study skills through systematic methods of study, increased motivation and self-discipline. Lecture 3 hours. Prerequisite: None.

•194—College Orientation — 
Study Skills (See Note)
Guidance 194 places special emphasis on the time schedule, the discovery of the nature and extent of reading difficulties, outlining the lecture and reading assignments, the efficient use of the facilities for study, developing skill in note taking, and preparing for and taking of examinations. Ample opportunity is provided for the consideration of individual study problems and for practicing suggested procedures. Prerequisite: None. Note: The student may earn one-half, one, two, or three units each semester. For students electing one-half, one, or two units, the course may be repeated; a maximum of three units may be earned.

•195—Occupational Planning 1 Unit
Guidance 195 provides students with an opportunity to investigate, analyze, and choose a vocational area that is appropriate in terms of their interests, abilities, and personal needs. Lectures, standardized tests, self-analysis, interviews. Lecture 1 hour. Prerequisite: None. Note: This course may be taken 3 times; a maximum of 3 units may be earned.

•196—Introduction to 
Para-Professional Training 3 Units
Guidance 196 is a survey course covering the development of the para-professional movement with emphasis on the areas of community social services agencies and educational institutions. Resources in community agencies, organization of social services, delivery systems, field visitsations, current issues in the para-professional movement, training for work in educational agencies and career opportunities are emphasized. Lecture 3 hours. Prerequisite: None. Note: Required for completion of the Certificate Program in Human Services.

---

**HEALTH**

•101—First Aid 1 Unit
Health 101 covers prevention and care of accidents or sudden illness. Lecture 2 hours. (9 weeks) Prerequisite: None. Note: Required of all students for graduation. Recommended for physical education majors. Transfer credit: CSU, UC, USC

•103—Health Education 2 Units
Not offered. Transfer credit: CSU, UC, USC

•104—Health Education 3 Units
Health 104 considers current issues in health and their effect upon the quality of human life. The bodily effects of exercise and fatigue, the prevention of specific diseases, the significance of nutrition in health and disease, the interrelatedness of mind and body, and substance use and abuse will be covered. Lecture 3 hours. Prerequisite: None. Note: Health 103 or 104 is required of all students for graduation. Students who have taken Health 103 will receive only one unit of credit for Health 104. Transfer credit: CSU, UC, USC

•107—Cardio-Pulmonary Resuscitation 1 Unit
Health 107 covers the life-saving techniques of cardio-pulmonary resuscitation and stresses mouth-to-mouth resuscitation, manual cardiac compression, first aid for obstructed airway, one
and two-person CPR, and infant/child CPR. Lecture 2 hours (8 weeks) Prerequisite: None. Transfer credit: CSU, USC

109—Decisions in Child Health and Crisis 3 Units
Health 109 is a course which includes the fundamentals of basic anatomy and physiology of children, common childhood acute illness and injury, the emergency medical system, principles of emergency care of children, and safety and preventive techniques. The course will enable the student to be aware of the day-to-day health care problems of children and the overwhelming complexity of today’s emergency medical services system. Those who are in contact with children on a regular basis will learn to cope with day-to-day and emergency situations and will be able to respond in the most appropriate manner upon completion of this course. Lecture 2½ hours, laboratory 1½ hours. Prerequisite: None. Note: This course satisfies the First Aid requirement for graduation. Transfer credit: CSU

110—Prevention and Care of Athletic Injuries 2 Units
Health 110 is designed to be an in-depth examination of selected topics in sports medicine. The course will provide a thorough knowledge of the prevention and care of injuries commonly occurring during physical activity. This course will teach the life-saving techniques of cardiopulmonary resuscitation. Lecture 2 hours, laboratory 1 hour. Prerequisite: Health 101.

HEMODIALYSIS

Students successfully completing the class are issued a Certificate of Achievement and 16 college credits. This course is approved by the California Board of Registered Nursing for 30 continuing education units.

101—Hemodialysis for Nurses and Technicians 16 Units
Hemodialysis 101 covers the anatomy and physiology of the kidney, fluid and electrolyte balance, basic and advanced hemodialysis principles and procedures, dietary regulation, blood chemistries, complications of chronic renal failure, psycho-social aspects, peritoneal dialysis and transplantation. Lecture and clinical experience 30 hours. Prerequisite: All applicants are required to take the College Preregistration Examination (CGP test) and pass at a pre-set level. Hemodialysis Health Standard Policies to be completed and submitted on the first day of class. Note: Students are responsible for their own transportation to and from the clinical facilities.

HISTORY

101—History of Western Europe 3 Units
History 101 studies the growth of western European civilization from the decline of the Roman Empire to the 17th Century. An introduction to the study of history, giving a general perspective of the development of those political, economic, and social institutions which explain our present-day civilization. An attempt is made to orient the student’s thinking to present world problems. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a “B” average in United States and Government courses in high school or 12 units of college courses with a “C” average. Note: Students who have taken History 108 will receive only one unit of credit for History 101. Transfer credit: CSU, UC, USC

102—History of Western Europe 3 Units
The growth of western European civilization from the 17th Century to the present time. An introduction to the study of history; giving a general perspective of the development of those political, economic, and social institutions which explain our present-day civilization. An attempt is made to orient the student’s thinking to present world problems. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a “B” average in United States History and Government courses in high school or 12 units of college courses with a “C” average. Note: Students who have taken History 109 will receive only one unit of credit for History 102. Transfer credit: CSU, UC, USC

103—History of Latin America 3 Units
A general survey of the history of Latin America from discovery to independence. The planting of the European civilization in Latin America, the growth of the colonies of the different nations, colonial systems, the international conflict for the continents, the wars of independence in Hispanic-America. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a “B” average in United States History and Government courses in high school or 12 units of college courses with a “C” average. Transfer credit: CSU, UC, USC
104—History of Latin America 3 Units
A general survey of the history of Latin America from the establishment of the independent Latin American republics to the present; their individual problems, their relations with each other and with the rest of the world. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. Transfer credit: CSU, UC, USC

106—History and Politics of the Russian People 3 Units
A study of the political, social, economic and cultural development of the Russian people from earliest days to the contemporary period. Emphasis will be laid on the development of the modern Soviet ideology and power politics. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. Transfer credit: CSU, UC, USC

107—History of Civilization (Pre-History to 800) 3 Units
A general political survey of the world from earliest times to the Carolingian Empire, c. 800, with emphasis on the development of human ideas, arts, and institutions. Emphasis is placed upon the contributions to civilization made in ancient times by Egypt, Greece, Rome, India, China, and other powers. An attempt is made to give the student a perspective on the past. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. Transfer credit: CSU, UC, USC

108—History of Civilization (Carolingian Empire to the French Revolution, c. 1789) 3 Units
A general political survey of the world from the Carolingian Empire, c. 800, to the French Revolution, c. 1789, with emphasis on the development of human ideas, arts, and institutions. The characteristics of the medieval and modern worlds are examined. The principle factors — cultural, social, economic, and political — which brought the modern world into being are analyzed. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. Note: Students who have taken History 101 will receive only one unit of credit for History 108. Transfer credit: CSU, UC, USC

109—History of Civilization (French Revolution to the Present) 3 Units
A general political survey of the world from the French Revolution, c. 1789, to the present with emphasis on the development of human ideas, arts, and institutions. An attempt is made to give the student a perspective and a basis for interpreting current world events. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. Note: Students who have taken History 102 will receive only one unit of credit for History 109. Transfer credit: CSU, UC, USC

110—United States History 3 Units
An interpretation of the more meaningful and significant issues, events, and ideas of the past which have played a major role in shaping present day America. Main attention is focused upon political and economic aspects with some treatment of social and cultural developments. This course meets the California State requirements in American History. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. Note: This course allows only one unit of credit for students who have completed History 117 or Social Science 131 and no credit for those who have completed History 118. Transfer credit: CSU, UC, USC

111—The Woman in American History 3 Units
A survey of the history of women in America from the colonial period to the present with emphasis on relevant political, economic, and social factors. Traditional roles of women in society are analyzed in terms of literary images, popular culture, and stereotypes. Attitudes and prejudices held by both sexes toward each other, reform movements, religious crusades, women's rights, and emancipation movements are examined in the context of American History. Lecture 3 hours. Prerequisite: None. Note: This course allows only one unit of credit for those who have completed History 117, or Social Science 131 and no credit for those who have completed History 118. Transfer credit: CSU, UC, USC
112—Pacific Coast History  3 Units
A survey of the discovery, exploration, and settlement of Mexico, California, Oregon, Washington, British Columbia, and Alaska. Emphasis is placed upon the development of their particular political, economic, and cultural institutions, along with their relationships with each other and the rest of the world. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. Transfer credit: CSU, UC, USC

113—Social, Cultural, and Political Background of the Mexican People  3 Units
An in-depth study of the emergence of the Mexican institutions and traditions from Pre-Columbian days to the present. The course is designed to meet the needs of the college student who wishes to understand the development of the modern Mexican nation. Modern Mexico and its development is the primary concern of this course. Lecture 3 hours. Prerequisite: A grade of "C" or better in a college level political science or history course or Social Science 131 or equivalent or satisfactory score on the Reading subtest of the English Placement Examination. Transfer credit: CSU, UC, USC

114—History of Baja California  3 Units
History 114 is a survey of the prehistory, discovery, exploration, settlement, and modern development of the Baja California states of Mexico. Emphasis is placed on the development of their political, economic and cultural institutions. Their relationship with the United States, and California in particular, is analyzed in terms of their historical and present day experience. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. Note: Optional field trips to places of historical interest in the states of Baja California may be offered. Transfer credit: CSU, UC, USC

117—History of the United States  3 Units
A history of American civilization, European backgrounds, the English colonies, the Revolutionary War, the Constitution, and the political, social, and economic history of the United States to the Civil War. This course (if both semesters are completed) meets the California State requirements in American History and the American Constitution. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. Note: Second semester standing is recommended for all students. History 117 allows only 1½ units of credit for students who have completed History 110. History 117-118 allows only three units of credit for students who have completed History 110. Transfer credit: CSU, UC, USC

118—History of the United States  3 Units
A history of American civilization, the Civil War, Reconstruction, post-war socio-economic patterns, the Progressive Era, World War I, the Depression, World War II, and current commitments. This course (if both semesters are completed) meets the California State requirements in American History and the American Constitution. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. Note: Second semester standing is recommended for all students. History 117-118 allows only three units of credit for students who have completed History 110. Transfer credit: CSU, UC, USC

119—History of the Far East  3 Units
A general survey of East Asian civilization from antiquity through the nineteenth century. Primary emphasis is placed upon the political, religious, social, and economic development of China and Japan with integrated units on Korea and Southeast Asia. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. Transfer credit: CSU, UC, USC

120—History of the Far East  3 Units
A general survey of China, Japan, Korea, and Southeast Asia in the international community from the nineteenth century to the present. Primary emphasis is centered upon the impact of Western culture and the major political and social movements of the twentieth century, Nationalism and Communism. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. Note: History 119 is recommended. Transfer credit: CSU, UC, USC
HUMANITIES

•101—East/West: Culture and Civilization to 1700 3 Units
Humanities 101 is an interdisciplinary, multicultural, team-taught course that examines the historic push and pull of eastern and western civilizations from primitive times until 1700. Important themes, events, and discoveries linking east and west are shown through literature, folklore, art history, philosophy, and science. Students compare and contrast eastern and western views of time and eternity; standards of excellence; decadence and decline; motives, manners, and morals; and problems of extremes as they explore some of the most compelling problems, questions, and issues faced by humans of both hemispheres. The course centers on critical thinking: students are challenged to analyze, synthesize, and propose original ideas through the media of reading, discussion, and writing. Lecture 3 hours. Prerequisite: Eligibility for English 101. Transfer credit: CSU

•102—East/West: Culture and Civilization from 1700 3 Units
Humanities 102 is an interdisciplinary, multicultural, team-taught course that examines the historic push and pull of eastern and western civilizations from 1700 until the present. Important themes, events, and discoveries linking east and west are shown through literature, folklore, art history, philosophy, and science. Students compare and contrast eastern and western views of science and reason; romanticism, skepticism, and pessimism; the gradual change of traditional morals, manners, means and measures; the concept of relativity; and the quantum leap into contemporary thought as they explore some of the most compelling problems, questions, and issues faced by humans of both hemispheres. The course centers on critical thinking: students are challenged to analyze, synthesize, and propose original ideas through the media of reading, discussion, and writing. Lecture 3 hours. Prerequisite: Eligibility for English 101. Transfer credit: CSU

•121—Armenian History and Culture 3 Units
History 121 is a survey of the history of the Armenian people from the origins to the present. Special attention is given to the qualities that have made up Armenian culture and the Armenian attitudes. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU, UC, USC

•131—A History of Africa Since 1800 3 Units
History 131 surveys the development of Africa from 1800 to the present. Themes to be covered include: colonization and underdevelopment, neo-colonialism, nationalism and African independence movements. Case studies of individual African countries will be used to analyze the various themes. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination or 12 units of college courses with a "C" average or better. Transfer credit: CSU, UC, USC

•135—History of the Vietnam War 3 Units
History 135 studies the background of U.S. involvement in Vietnam from the French occupation to the winding down of the war during the Nixon years. The course focuses on such matters as the historical and cultural realities of the situation, the gradual and growing U.S. commitment during the Eisenhower and Kennedy Administrations, and the height of the American buildup during the Johnson Presidency. An attempt is made to discuss the "lessons" of Vietnam and major unresolved issues deriving from the war. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a "B" average in high school U.S. History and Government, or 12 units of college courses with a "C" average.

•151—The United States in the Twentieth Century 3 Units
History 151 is designed for the non-transfer student; this course analyzes the political, economic, and social history of the United States since 1900. Emphasis is placed on the critical issues of contemporary life in the perspective of their historical background in the current century. Meets the U.S. History requirement for the A.A. degree. Lecture 3 hours. Prerequisite: None.

ECONOMIC HISTORY OF THE UNITED STATES, See Economics 111

INTRODUCTION TO SOCIAL SCIENCE,
See Social Science 125-126, 131-132
understanding, self expression, power, freedom, individuality and survival. Through comparative analyses of readings and materials from various disciplines, students evaluate whether the solutions of the past are compatible with the problems of today and tomorrow. Lecture 3 hours. **Prerequisite:** Eligibility for English 101. **Transfer credit:** CSU, UC, USC

**106—Modern Society in its Milieux** 3 Units

Humanities 106 is an interdisciplinary, team-taught, cross-cultural course emphasizing foreign literatures in translation. Students are encouraged to read, think, discuss and write critically in dealing with some important concerns of modern times as interpreted by different societies. Students do comparative analyses of literature from various countries in their historical, political, and social contexts. The linguistic style of each foreign language is stressed. Lecture 3 hours. **Prerequisite:** Eligibility for English 101. **Transfer credit:** CSU

**110—Science, Literature, and Human Insight** 3 Units

Humanities 110 is an interdisciplinary, team-taught course in which students learn to apply the principles of comparative critical analysis in order to better understand the relationships between literature, science, and technology. Through directed reading, class discussion, and writing, students develop logical thought processes enabling them to reason, to distinguish facts from judgment, to propose ideas, and to reach logical conclusions. Through their study of literature, students learn about human behavior and motivations through their study of scientific and technological achievements, they learn about the methods and limitations of science. Major historical and contemporary themes linking science and literature are presented for evaluation. Lecture 3 hours. **Prerequisite:** Eligibility for English 101. **Transfer credit:** CSU, UC, USC

**111—Irish History, Literature, and Culture from the Beginning to the Present** 3 Units

Humanities 111 is a broad-based, interdisciplinary team-taught course that covers the entire history of Ireland: its mythology, folklore, art, music, literature, and major political events, including Ireland’s relationship with other countries. Through assigned readings, discussions, and writing, the students gain critical insights into the causes and consequences of Ireland’s turbulent history and struggle for independence. The course also deals with the impact of Irish culture on Europe, England, and America through the centuries. Lecture 3 hours. **Prerequisite:** Eligibility for English 101. **Transfer credit:** CSU, UC, USC

**115—World Mythology** 3 Units

Humanities 115 is an introduction to the body of mythology that has had the greatest impact, from antiquity until the present, on the western world. Through reading, discussion, and writing, the students critically examine important themes of major Egyptian, Judeo-Christian, Greek, Roman, Norse and Oriental myths as they are represented in literature and art. Lecture 3 hours. **Prerequisite:** Eligibility for English 101. **Transfer credit:** CSU, UC

**117—Kaleidoscope: Patterns of Creative Expression Through Dance, Drama, Film, and Literature** 3 Units

Humanities 117 is an interdisciplinary, team-taught course that focuses on literature, drama, dance, and film and examines their relationships with other areas of college study. The course recognizes that, like the pieces in a kaleidoscope, individual art works and art forms are only components of larger patterns. As students compare and contrast works from various cultures and times, they are encouraged to read, think, discuss, and write critically about the interaction among artist, society, and work of art. Students explore the creative process and ask what has led to, as well as what results from, works of art. Students learn to analyze, synthesize, draw inferences, propose new ideas, support theses, reach logical conclusions, and become active participants in the artistic process. Lecture 3 hours. **Prerequisite:** Eligibility for English 101. **Transfer credit:** CSU

**120—Literature and the Cultural Arts** 3 Units

Humanities 120 is an interdisciplinary course that focuses on the interrelationships of literature and the cultural arts (architecture, music, painting, and sculpture), with emphasis on the literature, to show not only their independence but also their synthesis. Through critical reading, discussion, and writing, students analyze the influences of each genre upon the creative impulses of the others. Humanities 120 examines literary and cultural achievements, developments, and values in the major periods of western history that served as a foundation for modern thought and letters. The course may be team taught. Lecture 3 hours. **Prerequisite:** Eligibility for English 101. **Transfer credit:** CSU, UC, USC
• 125—Crosscurrents: American Social Values 3 Units

Humanities 125 is an interdisciplinary, intercultural, team-taught course designed to enrich non-native students’ knowledge and understanding of American society. Through comparative analyses of readings and materials from literature and various disciplines, students examine the development and current reality of commonly held American ideals, attitudes, and institutions and better comprehend the American balance between freedom and responsibility. Students are encouraged to develop critical thinking skills through reading, writing, and discussion. Lecture 3 hours. **Prerequisite:** Eligibility for English 101. **Transfer credit:** CSU

• 135—Humanities and the World of Work 3 Units

Humanities 135 is an interdisciplinary course that combines instruction in literature, the arts, ethics, problem solving, and decision making to help career students develop human values that may influence their personal and professional growth throughout their lives. Contemporary problems are evaluated in relation to a broad time context. Intercultural considerations are examined. Critical analysis of course materials helps students learn to deal with the variety of situations and tasks they may encounter in their career fields. Students use information presented in the course to prepare case studies related to their individual fields. Students also examine social and ethical responsibilities associated with their careers or professions and develop an awareness of the relationship between cultural resources and career satisfaction. Lecture 3 hours. **Prerequisite:** Grade of “C” or better in English 120 or English 165 or Business—General 101 or English 131 or a satisfactory score on the English Placement Examination.

**ITALIAN**

• 101—Beginning Italian I 5 Units

Italian 101 presents the fundamentals of Italian grammar. The aim of the course is to train students in accurate pronunciation and in comprehension, speaking, reading, and writing of simple Italian. The course objectives include reading and oral reproduction of simple prose. Lecture 5 hours. **Prerequisite:** Eligibility for English 101. **Transfer credit:** CSU, UC, USC

• 102—Beginning Italian II 5 Units

Italian 102 completes the study of the fundamentals of grammar. It offers students an opportunity to further develop their skills in oral performance through continued instruction in diction, intonation, and speaking. The course also includes training in reading comprehension of prose of increasing difficulty, discussion in Italian of cultural readings, and an introduction to the nature and characteristics of Italian folklore. Lecture 5 hours. **Prerequisite:** Italian 101 or equivalent. **Transfer credit:** CSU, UC, USC

• 103—Intermediate Italian I 4 Units

Italian 103 includes further study of Italian grammar. The aim of the course is to train students in reading comprehension of intermediate prose with stress on documentary aspects of Italian life, character analysis, and the study of ideas. Oral and written discussions will be stressed. Lecture 4 hours. **Prerequisite:** Italian 102, or three years of Italian in high school completed within the past two years, or equivalent. **Transfer credit:** CSU, UC, USC

• 104—Intermediate Italian II 4 Units

Italian 104 completes the review of the fundamentals of grammar. The aim of the course is to train students in reading intermediate prose of increasing difficulty with stress on the study of ideas. The training also includes oral discussion and written exposition. Lecture 4 hours. **Prerequisite:** Italian 103, or four years of Italian in high school completed within the past two years, or equivalent. **Transfer credit:** CSU, UC, USC

• 110—Conversational Italian I 2 Units

Italian 110 is an introduction to Italian with emphasis on developing essential skills in communication. The verbal active method is used, stressing oral expression. The course also develops a working knowledge of reading and writing Italian. Lecture 2 hours, laboratory 1 hour. **Prerequisite:** None. **Note:** This course may be taken 2 times; a maximum of 4 units may be earned. This course may not be taken for credit by Students who have completed Italian 102 prior to Italian 110, or who take Italian 102 concurrently with Italian 110.

• 111—Conversational Italian II 2 Units

Italian 111 is an introduction to Italian with emphasis on developing essential skills in communication. The verbal active method is used, stressing oral expression. The course also develops a working knowledge of reading and writing Italian. Lecture 2 hours, laboratory 1 hour. **Prerequisite:** Italian 110 or equivalent. **Note:** This course may be taken 2 times; a maximum of 4 units may be earned. This course may not be taken for credit by students who have taken Italian 102 prior to Italian 111, or who take Italian 102 concurrently with Italian 111.
•112—Italian Fundamentals I 3 Units
Italian 112 presents the fundamentals of Italian grammar and includes training in accurate pronunciation through regular in-class drill and comprehension, speaking, reading, and writing of simple Italian. Lecture 3 hours, laboratory 1 hour. Prerequisite: Italian 111 or equivalent. Transfer credit: CSU, UC, USC

•113—Italian Fundamentals II 3 Units
Italian 113 presents a completion of the fundamentals of Italian grammar and includes continued training in correct pronunciation, diction, and intonation as well as training in reading comprehension of prose of increasing difficulty and discussion in Italian of cultural readings. The course also introduces the notion and characteristics of Italian folklore. Lecture 3 hours, laboratory 1 hour. Prerequisite: Italian 112 or equivalent. Transfer credit: CSU, UC, USC

JOURNALISM

•101—Introduction to Mass Communications 3 Units
Journalism 101 is a survey of the mass communication media, including newspapers, magazines, radio, and television, with emphasis on the newspaper. Study of theory and function of news, features, editorials, and advertising, historical development of the media, legal freedoms and limitations of the media, and the ethics of communication. Stress is placed on the relationships and responsibilities of the mass media to society. Lecture 3 hours. Prerequisite: Eligibility for English 101. Transfer credit: CSU, UC, USC

•102—Reporting the News 3 Units
Journalism 102 is an introductory course in the gathering and writing of news, features, and editorials. Emphasis on clear and concise written expression with laboratory drill in English fundamentals. Study of news sources, acceptable forms for stories, style and methods of various media, elementary editing, and law and ethics of communication. Newspapers and other media at the local community level as well as the national metropolitan levels are utilized. Lecture 3 hours, laboratory 1 hour. Prerequisite: Eligibility for English 101. Transfer credit: CSU, UC, USC

•103—News Writing and Newspaper Production 3 Units
Journalism 103 is a course in writing news, feature, and editorial copy, copy reading and editing, headline writing, newspaper layout and make-up and the mechanics of newspaper production. Study of law and ethics of the press and overall emphasis on the function and responsibility of the newspaper. Second semester stress is on interpretative reporting. Class produces the campus newspaper El Vaquero. Lecture 2 hours, laboratory 4 hours. Prerequisite: Journalism 102, professional publication experience or newspaper experience on the college level. Transfer credit: CSU, UC

•104—Advanced News Writing and Newspaper Production 3 Units
Journalism 104 is an advanced course in writing news, feature, and editorial copy, copy reading and editing, headline writing, newspaper layout and makeup, and the mechanics of newspaper production. Study of law and ethics of the press and over-all emphasis on the function and responsibility of the newspaper. Second semester stress is on interpretative reporting. Class produces the campus newspaper El Vaquero. Lecture 2 hours, laboratory 4 hours. Prerequisite: Journalism 102 or Journalism 103. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer credit: CSU, UC

•105—Field Practice in Advanced News Writing and Newspaper Production 2 Units
Journalism 105 has the student participate in the entire routine of newspaper production, first as an observer and then by writing news, features, and editorial copy. Copy reading and editing, headline writing, newspaper layout and make-up, and the mechanics of newspaper production are also covered. The law and ethics of the press will be studied, with over-all emphasis on the function and responsibility of the newspaper. Second semester emphasis will be on interpretive reporting. The class meets on-site at local newspapers. Questions arising from field practice experiences are discussed and research is done. Lecture 2 hours. Prerequisite: Journalism 103 and 104 (Journalism 104 may be taken concurrently). Note: Concurrent enrollment in Cooperative Education 102, 1 unit, is required. This course may be taken 3 times; a maximum of 6 units may be earned. Transfer credit: CSU

•106—Introduction to Broadcast Journalism (Formerly Journalism 201) 3 Units
Journalism 106 is an interdisciplinary course combining the practice of modern journalism with the techniques of small-crew, on-location video taping. Students will produce several one-hour news magazine programs to ultimately be cablecast via the educational cable channel. Students will learn to gather, write, edit and present
news for broadcast; they will also learn to operate cameras and recorders, direct and produce complete programs. Lecture 2 hours, laboratory 3 hours. Prerequisite: journalism 102 and Television 101 or equivalent. Note: This course may be taken 3 times; a maximum of 9 units may be earned. Transfer credit: CSU

•120—Introduction to Public Relations 3 Units
Journalism 120 is a practical guide to effective public relations, its history and its relationship with the media. The course is designed for persons who wish to make public relations a career, untrained persons who are currently or plan to be involved in publicity activities, and for journalism majors or minors who wish to enhance their studies. Lecture 3 hours. Prerequisite: None.

LATIN

•101—Beginning Latin 5 Units
Latin 101 presents the fundamentals of Latin grammar. The aim of the course is to train students in accurate pronunciation of classical Latin and in comprehension, reading and writing of Latin. The course objectives include the reading of classical Latin, as close to the original as possible, early in the course. Lecture 5 hours. Prerequisite: Eligibility for English 101. Transfer credit: CSU, UC, USC

•102—Elementary Latin 5 Units
Latin 102 completes the presentation of the fundamentals of Latin grammar. The aim of the course is to continue training in accurate pronunciation, reading, and writing skills of classical Latin. The course objectives also include an introduction to Latin literature (including medieval Latin) and practicing sight translations of unseen passages. Lecture 5 hours. Prerequisite: A grade of “C” or better in Latin 101 or two years of Latin in high school with a grade of “B” or better completed within the past two years, or equivalent. Transfer credit: CSU, UC, USC

•103—Intermediate Latin I 3 Units
Latin 103 presents the reading of less difficult original Latin poetry and prose. The aim is to train students to improve their reading ability of Latin prose and poetry and to review Latin grammar so that more difficult literature can be mastered. Lecture 3 hours. Prerequisite: A grade of “C” or better in Latin 102, or three years of Latin in high school completed within the past two years or equivalent. Transfer credit: CSU, UC, USC

•104—Intermediate Latin II 3 Units
Latin 104 continues the reading of Latin poetry and prose with increasingly difficult extracts from classical and medieval authors. The aim of the course is to prepare students for upper division Latin courses in a university environment and to gain an appreciation of Latin literature. Lecture 3 hours. Prerequisite: A grade of “C” or better in Latin 103 or four years of Latin in high school completed within the past two years or equivalent. Transfer credit: CSU, UC, USC

LAW, BUSINESS,
See Business Administration 120, 125

LIBRARY TECHNOLOGY

•101—Introduction to Library Services 3 Units
Not offered.

LINGUISTICS

•101—Introduction to Languages and Linguistics 3 Units
Linguistics 101 provides an introduction to the scientific study of language. By looking at examples from different languages and linguistic communities, linguists try to understand the basic nature of human language, the features common to all systems of verbal communication, and also the extent to which languages can differ. Lecture 3 hours. Prerequisite: A satisfactory score on the English Placement Examination; or a grade of “B” or better in English 191 or English 165; or a grade of “C” or better in Business—General 101 or English 120 or English 131. Transfer credit: CSU, UC, USC

MACHINE TECHNOLOGY

•101—Machine Technology I 5 Units
Machine Technology 101 covers the fundamentals of the machinist trade. Instructions on the proper care and use of precision and hand tools. Basic training in tool grinding, machine set-up, and the operation of lathes, shapers, milling machines, drill presses, and grinders. Lecture 3 hours, laboratory 6 hours. Prerequisite: Concurrent enrollment in
Mathematics 151, or Technical Education 142 or Technical Education 143, or Technical Education 144 and a satisfactory score on the Glendale Community College ESL Placement Test or a grade of “C” or better in English 177. **Note:** Students must register for the full number of hours for which the course is scheduled, but late registration is permitted provided a vacancy in the class exists. **Transfer credit:** CSU

**102—Machine Technology II** 5 Units

Machine Technology 102 is a continuation of the fundamentals of the machinist trade. More advanced training in set-up work, tool grinding, and machine operations. Related lectures will cover types of threads and threading, calculating and cutting of tapers, gears and gear trains. Basic design and capacity of machine tools will be investigated. Lecture 3 hours, laboratory 6 hours. **Prerequisite:** Machine Technology 101 or Machine Technology 105 and concurrent enrollment in Technical Education 144 or a more advanced mathematics course. **Note:** Students must register for the full number of hours for which the course is scheduled, but late registration is permitted provided a vacancy in the class exists. **Transfer credit:** CSU

**103—Machine Technology III** 5 Units

Machine Technology 103 covers more advanced and complicated operations of machine tools and equipment. Precision inspection, production and assembly, are studied. Lectures and demonstrations on specialized machine tools and equipment will give the student a better understanding of their use and capacities. Lecture 3 hours, laboratory 6 hours. **Prerequisite:** Machine Technology 102. Concurrent enrollment in one of the following is recommended, but not required for Certificate of Completion: Welding 117, Drafting 129, Technical Education 145 or Materials and Processes 146. **Note:** Students must register for the full number of hours for which the course is scheduled, but late registration is permitted provided a vacancy in the class exists. **Transfer credit:** CSU

**104—Machine Technology IV** 5 Units

Machine Technology 104 is a continuation of advanced and complicated operations of machine tools and equipment. Lectures and demonstrations will include a thorough investigation of heat-treatment of metals, special metals and their uses, abrasives, grinding wheels, and efficient use of surface, cylindrical, and tool cutter grinders. Basic tool and die work in which the student designs and builds jigs and fixtures if offered to students showing advanced abilities. Lecture 3 hours, laboratory 6 hours. **Prerequisite:** Machine Technology 103. Concurrent enrollment in one of the following is recommended, but not required for Certificate of Completion: Welding 117, 118, or Drafting 129, Technical Education 145. **Note:** Students must register for the full number of hours for which the course is scheduled, but late registration is permitted provided a vacancy in the class exists. **Transfer credit:** CSU

**107—Machine Practice I** 2 Units

Machine Technology 107 is a course to provide practice on machine shop equipment. Students will work on individual projects which they will retain for their use. Training received in this course will develop an ability to visualize and perform various functions necessary in the machine trade. Lecture 1 hour, laboratory 3 hours. **Prerequisite:** None. **Note:** Credit per semester will be indicated on Schedule. A maximum of 32 units of credit will be allowed for the combined work of Machine Technology 107 and Machine Technology 108. This course may be taken 3 times; a maximum of 6 units may be earned. **Transfer credit:** CSU

**108—Machine Practice II** 2 Units

Machine Technology 108 is a course to provide practice on machine shop equipment. Students will work on individual projects which they will retain for their use. Training received in this course will develop an ability to visualize and perform various functions necessary in the machine trade. Lecture 1 hour, laboratory 3 hours. **Prerequisite:** Machine Technology 107. **Note:** Credit per semester will be indicated on Schedule. A maximum of 32 units of credit will be allowed for the combined work of Machine Technology 107 and Machine Technology 108. This course may be taken 3 times; a maximum of 6 units may be earned. **Transfer credit:** CSU

**109—Principles of Tool Engineering** 5 Units

Machine Technology 109 is an advanced course in machine shop training presenting systems of production, interchangeability, and dimensioning as they pertain to tool design and construction of drill jigs, milling grinding, and lathes fixtures, locating and clamping of parts, tooling for horizontal turret lathes, and toolroom inspection and gauging will be studied. The tool engineer and designer’s training, duties and place in a manufacturing organization are investigated. Lecture 3 hours, laboratory 6 hours. **Prerequisite:** Machine Technology 104. **Note:** Students must register for the full number of hours for which the course is scheduled, but late registration is permitted provided a vacancy in the class exists. **Transfer credit:** CSU
•110—Principles of Numerical Control  5 Units
Machine Technology 110 is an advanced course in machine technology presents principles of numerical control, preparation of machining programs and development of control tapes. Design and construction of tools and fixtures, selection and modification of tooling will be studied. Lecture 3 hours, laboratory 6 hours. Prerequisite: Machine Technology 102. Transfer credit: CSU

•111—Principles of Numerical Control  3 Units
Machine Technology 111 presents principles of numerical control, preparation of machining programs and development of control tapes. It is designed for the advanced machine technology student who wishes to explore the field of numerically controlled machining. Lecture 3 hours. Prerequisite: Machine Technology 102 or equivalent. Note: No credit will be granted to students who have received credit for Machine Technology 110.

•112—Machine Practice III  1-4 Units
Machine Technology 112 is designed to allow students or industrial workers to improve and update their machining skills. Areas which are available are lathe, mill, drill, grinding, and inspection, for the purpose of job advancement. Laboratory 3-12 hours. Prerequisite: Machine Technology 101, or equivalent. Note: Hours to vary according to students' needs; 48 hours laboratory equals one unit. This course may be taken 2 times; a maximum of 8 units may be earned.

MANAGEMENT

Classes in Management are offered for students interested in preparing for positions requiring supervision and management skills. The classes are scheduled from semester to semester on a rotation basis according to student need. The courses are also of value to personnel already employed as supervisors and other group leaders in business, public service, and industry. A Certificate of Completion may be earned.

•101—Basic Management Techniques  3 Units
Management 101 covers in general terms the management system organization as it affects the supervisor; direction of subordinates through leadership; appreciation for fiscal and property accounting; procedures for hiring, training, evaluation, discipline, grievances, and dismissal; effective communication; vertical and lateral forces affecting the supervisor; wage and salary administration; and collective bargaining. Lecture 3 hours. Prerequisite: None. Note: It is recommended that the student complete one year of occupational training or equivalent service, industrial, or business experience before taking this course. Transfer credit: CSU

•110—Management/Employee Relations  3 Units
Management 110 covers development of human relations climate; patterns, function, and types of leadership, simulation training; organizational levels; staff relationships; and organizational and group dynamics; informal organizations; working with unions; managing change; wage administration and incentives; procedures and work systems; attitudes; and development of participations. Lecture 3 hours. Prerequisite: None.

•115—Personnel Management  3 Units
Management 115 presents personnel techniques for which supervisors are partially responsible and for which they should have some training in selection, testing, placement, orientation, training, counseling, merit rating, promotion, transfer, and training for responsibility. Lecture 3 hours. Prerequisite: None.

•120—Planning and Organization  3 Units
Management 120 covers techniques for planning; staffing; organization objectives, and flexibility; functions of directing, control, coordinating, and training; service departments; job descriptions; grievance procedures, and maintaining production. Lecture 3 hours. Prerequisite: None.

•125—Industrial Economics  3 Units
Management 125 utilizes significant economic facts in the development of a critical attitude with respect to industrial economics, institutions, and practices relevant to our social environment and to management — supervisory employee relationships to economy and local industry. Lecture 3 hours. Prerequisite: None.

•130—Production Management  3 Units
Management 130 presents management's responsibility for improvement of job methodology and control of both continuous and intermittent manufacturing processes. It emphasizes management's ability to provide for continual work improvement and production control methodology to increase productivity and employee job
enrichment and satisfaction, production control standards, impact of automation, job enrichment, cost control, productivity gains, sales forecasting, and critical path analysis. Lecture and discussion 3 hours. Prerequisite: None.

•135—Cost Control and Analysis 3 Units
Management 135 covers analysis of cost control in industry and its functions. This course presents the supervisor's responsibility for the factors in cost control: costs, materials, waste, salvage. Quality control, quantity control, and time control. Lecture 3 hours. Prerequisite: None.

•140—Wage Administration and Labor Relations 3 Units
Management 140 considers management and union relations with respect to the establishment of a "fair wage" plan; supervisor's responsibility in establishing job descriptions, job specifications, and classifications of jobs; job and workforce requirements and merit evaluation; management and union involvement in job ranking and wage rate grade/ranges; fringe benefits, pension plans, profit sharing, bonus plans, and grievance handling. Federal regulations governing wages. Lecture and discussion 3 hours. Prerequisite: None.

•145—Management Communications — Oral 3 Units
Management 145 covers planning interpersonal communication, speaking techniques, conducting question-and-answer periods, conference leading on the job, objectives of good presentations, use and misuse of visuals in oral presentations, interviewing, bridges and barriers to communication, and what to do about rumors. Lecture 3 hours. Prerequisite: None.

•150—Management Communications — Written 3 Units
Management 150 covers principles of business communications, informal and formal reporting, interpreting written directions, the report and memorandum, and building a vocabulary. Lecture 3 hours. Prerequisite: None.

•155—Industrial Safety 3 Units
Management 155 emphasizes provisions of California's Occupational and Safety Act (CalO-SHA). This course covers management and supervisory responsibility for fire and accident prevention, accident reports and the supervisor, good housekeeping and fire prevention, machine guarding and personnel protective equipment, First Aid Department and the line supervisor's responsibility, job and safety instruction, company regulations and enforcement, use of safety committees, insurance carriers, and the advertising and promotion of an effective industrial safety program. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU

•160—Management Control 3 Units
Management 160 emphasizes the basic principles of controls, such as, delegation of responsibility, purpose and objectives of controls, manufacturing costs, quality control, quantity control, production control, control over materials, control over the organization, and control over personnel. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU

•165—Small Business Management 3 Units
Management 165 covers the role of small business establishments in the American economy. The course will include training in performing the various functions of small business management in the areas of organization, planning, expense control, pricing, staffing, budgeting, accounting, and marketing for retail firms, service firms, and industrial organizations. Lecture 3 hours. Prerequisite: None.

INDUSTRIAL ENGLISH, See English 131-132

MARKETING

•105—Principles of Marketing 3 Units
Marketing 105 is an introductory course intended to acquaint students with the business practices involved in the activities of moving goods and services from the producer to the ultimate consumer. The course reviews the marketing system and the psychology and sociology of consumer decisions. Additional areas of interest include retailing, wholesaling, new product decisions, pricing, distribution, advertising, and marketing research. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU

•110—Store Management and Merchandising 3 Units
Marketing 110 considers problems which are of concern to the store manager, a department store buyer, or to the person who wishes to organize and operate a small store. The course covers plans for financing, selection of location, choice of partnership or corporation, selection and training of employees, merchandising policies, problems of mark-up, mark-down, turnover, stock control, inventory methods, layouts, advertising, and
display. Outside speakers from local stores will be scheduled. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU

**115—Fundamentals of Selling** 3 Units
Marketing 115 is a salesmanship class in which each student selects a sales proposition, makes a careful study of it, and presents it before the class. The methods of approaching a prospect, demonstrating the goods, and closing the sale are discussed and reviewed. Fundamental principles of retail, wholesale and specialty selling are discussed. Successful salespersons are invited to give demonstrations of how sales actually are made. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU

**120—Advertising** 3 Units
Marketing 120 is an introductory course in the purpose and principles of advertising, including the organization and functions of advertising agencies. Buying motives and the writing of good copy are studied. Radio, television, and outdoor advertising methods and costs are covered. This course is not intended to develop artistic ability, but those who can illustrate their copy will find an opportunity to do so. Courses in advertising art are offered by the Art Department. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU

**122—The Business of Radio** 3 Units
Marketing 122 presents a history of the business of radio from its inception to the present day. The course focuses on the various modes of communication and advertising which are unique to radio. As an audio-course, offered through the Southern California Television Consortium, the written and textual materials will be augmented by a series of radio tapes entitled "Please Stand By: A History of Radio", narrated by the well-known radio and television actor Les Tremayne, with Jack Brown. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU

**123—Computerized Advertising Graphics** 2 Units
Marketing 123 is designed to acquaint students with the use of computer software to plan and prepare printed graphics materials. Students will compose and create business projects using state-of-the-art graphic design to make them attractive and professional looking, including a two-page advertising flyer or newsletter, suitable for duplication. Lecture 2 hours, laboratory 1 hour. **Prerequisite:** Graphics and Design 175. **Note:** This course may not be taken for credit by students who have completed Computer and Information Systems 123. **Transfer credit:** CSU

**125—Fashion Merchandising** 2 Units
Marketing 125 is a study of principles of fashion. Includes a study of fashion designers, apparel producers, and fashion retailers. Lecture 2 hours. **Prerequisite:** None. **Note:** This course may not be taken for credit by students who have completed Fashion 125. **Transfer credit:** CSU

**MATERIALS AND PROCESSES,**

See Technical Education 146

**MATHEMATICS**

All students who have not taken a Math course at Glendale College are required to take a Mathematics Placement Examination before enrolling in the following Mathematics courses: Mathematics 100, 101, 102, 103, 110, 111, 112, 128, 140. Contact your counselor for additional information.

**100—College Algebra** 3 Units
Mathematics 100 is a more detailed study of the basic concepts of algebra, including first and second degree equations and inequalities, graphs of linear and quadratic functions, conic sections, polynomial functions, systems of equations, matrices and determinants, Cramer's rule, and remainder and factor theorems, mathematical induction, and probability. Lecture 3 hours. **Prerequisite:** Mathematics 101 with a grade of "C" or better, or 2 years of high school algebra with grades of "C" or better and a satisfactory score on the Mathematics Placement Examination. **Note:** Mathematics 102 may be taken concurrently. **Transfer credit:** CSU, UC, USC

**101—Intermediate Algebra** 5 Units
Mathematics 101 covers fundamental laws, curve plotting, linear equations, negative and fractional indices, quadratic equations, arithmetic and geometric progressions, the binomial theorem, the factor theorem, the remainder theorem, synthetic division, logarithms, and second and third order determinants. Lecture 5 hours. **Prerequisite:** Mathematics 141 with a grade of "C" or better, or Mathematics 146 with a grade of "C" or better, or 1 year of Algebra in high school with a grade of "C" or better and a satisfactory score on the Mathematics Placement Examination. **Transfer credit:** CSU, USC
•102—Trigonometry 3 Units
Mathematics 102 is a course in plane trigonometry which emphasizes the analytic aspects of the subject including trigonometric functions of right, acute and related angles, trigonometric identities and equations, radian measure, functions of two angles, logarithms, right and oblique triangles, inverse functions, complex numbers. Lecture 3 hours. **Prerequisite:** Mathematics 101 with a grade of “C” or better and Mathematics 140 with a grade of “C” or better, or two years of algebra and one year of plane geometry in high school with grades of “C” or better and a satisfactory score on the Mathematics Placement Examination. **Transfer credit:** CSU, UC, USC

•103—Calculus and Analytic Geometry 5 Units
Mathematics 103 is the first of a sequence of three courses which combines the subject matter of analytic geometry and calculus. Functions and their graphs are studied with special attention to differentiation, indefinite and definite integrals with applications. Lecture 5 hours. **Prerequisite:** Mathematics 110 with a grade of “C” or better, or Mathematics 102 with a grade of “C” or better and Mathematics 100 with a grade of “C” or better, or 4 years of high school mathematics including Principles of Mathematics or its equivalent with grades of “C” or better or a special high school student with the high school mathematics sequence in progress and a satisfactory score on the Mathematics Placement Examination. **Transfer credit:** CSU, UC, USC

•104—Calculus and Analytic Geometry 5 Units
Mathematics 104 covers transcendental functions, polar coordinates, techniques of integration, conic sections, indeterminate forms and infinite series. Lecture 5 hours. **Prerequisite:** Mathematics 103 with a grade of “C” or better. **Transfer credit:** CSU, UC, USC

•105—Calculus and Analytic Geometry 4 Units
Mathematics 105 is a course in vector calculus. Topics covered include vector functions, vector differentiation, parametric equations, vectors in 3 and higher dimensional space, multiple integration, and an introduction to vector analysis including divergence, curl, and Stoke’s Theorem. Lecture 4 hours. **Prerequisite:** Mathematics 104 with a grade of “C” or better. **Transfer credit:** CSU, UC, USC

•107—Linear Algebra 3 Units
Mathematics 107 covers the topics of vector spaces, linear transformations and matrices, matrix algebra, determinants, eigenvalues and eigenvectors, and solutions of systems of equations. Lecture 3 hours. **Prerequisite:** Mathematics 104 or equivalent with a grade of “C” or better. **Note:** Mathematics 107, 108 were formerly Mathematics 106. This course may not be taken for credit by students who have completed Mathematics 106. **Transfer credit:** CSU, UC, USC

•108—Ordinary Differential Equations 3 Units
Mathematics 108 covers the solution of ordinary differential equations using various techniques including variation of parameters, the Laplace transform, power series, and numerical methods. Systems of linear differential equations and introductions to boundary value problems, stability of non-linear systems, and Fourier Series are also covered. Applications are drawn from the physical sciences. Lecture 3 hours. **Prerequisite:** Mathematics 104 or equivalent with a grade of “C” or better. **Note:** Mathematics 107, 108 were formerly Mathematics 106. This course may not be taken for credit by students who have completed Mathematics 106. **Transfer credit:** CSU, UC, USC

•109—Hand Calculator 1 Unit
Mathematics 109 is a course in the use and application of both the basic hand calculator and the scientific calculator. Emphasis will be placed upon applications from the scientific fields as well as from business and consumer mathematics. Lecture 2 hours (8 weeks) **Prerequisite:** Mathematics 141 or one year of high school algebra. **Note:** “How to select a calculator” will be discussed at the first class meeting. The student must possess by the second meeting a hand calculator that has a floating decimal display with at least eight significant digits.

•110—Precalculus 5 Units
Mathematics 110 is a course designed for review of those algebraic concepts needed for the study of calculus plus a more thorough study of algebraic and trigonometric functions. Included in the course will be linear and quadratic equations and inequalities, graphs of linear and quadratic functions, conic sections, polynomial functions, systems of equations, matrices and determinants mathematical induction, trigonometric functions, inverse trig functions, trigonometric identities and equations, and right and oblique triangles. Lecture 5 hours. **Prerequisite:** Mathematics 101 with a grade of “C” or better and Mathematics 140 with a grade of “C” or better, or 2 years of Algebra and one year of plane geometry in high school with grades of “C” or better and a satisfactory score
on the Mathematics Placement Examination. **Note:** No more than 6 units may be received from any combination of Mathematics 100, 102, and 110. **Transfer credit:** CSU, UC, USC

**111—Finite Mathematics 5 Units**
Mathematics 111 is an integrated course in mathematics for business, management, and social science majors. Topics in this course include: the mathematics of finance; matrices; linear programming including the simplex method; graphs and networks; logic and set theory; probability with an introduction to statistics; Markov chains; and game theory. Lecture 5 hours. **Prerequisite:** Mathematics 101 with a grade of "C" or better, or 2 years of Algebra in high school with grades of "C" or better and a satisfactory score on the Mathematics Placement Examination. **Transfer credit:** CSU, UC, USC

**112—Calculus for Business 5 Units**
Mathematics 112 is a one semester course in calculus for business, management, and social science majors. Topics in this course include: techniques of differentiating; maximum-minimum problems; curve sketching; exponential and logarithmic function, their derivatives and applications; techniques of integration; numerical integration; simple differential equations; the calculus of functions of several variables, including multiple integration and solving constrained optimization problems using Lagrange Multipliers. Lecture 5 hours. **Prerequisite:** Mathematics 101 with a grade of "C" or better, or two years of algebra in high school with grades of "C" or better and a satisfactory score on the Mathematics Placement Examination. **Transfer credit:** CSU, UC, USC

**128—Introduction to Programming 2 Units**
Mathematics 128 is an introduction to problem solving and algorithms, including representation, design, and structuring of algorithms; also primitive computer architecture and internal organization, data representation, and implementation of algorithms as structured computer programs using the PASCAL language. Lecture 2 hours. **Prerequisite:** Mathematics 110 with a grade of "C" or better, or Mathematics 102 with a grade of "C" or better and Mathematics 100 with a grade of "C" or better, or 4 years of high school Mathematics including Principles of Mathematics or its equivalent with grades of "C" or better and a satisfactory score on the Mathematics Placement Examination. **Transfer credit:** CSU

**130—Fortran 2 Units**
Mathematics 130 is designed to introduce the student to the techniques of writing a program in FORTRAN 77, with mathematical and scientific application. Use of a computer to test programs will be a significant part of the course. Lecture 2 hours. **Prerequisite:** Mathematics 128 with a grade of "C" or better. **Transfer credit:** CSU, UC, USC

**138—Arithmetic for Elementary Teachers 3 Units**
Not offered. **Transfer credit:** CSU

**140—Plane Geometry 3 Units**
Mathematics 140 is a comprehensive course in plane geometry: sets and geometric figures, congruence, parallel lines and parallelograms, circles, inequalities, proportion and similar polygons, loci, constructions, areas of polygons. Lecture 3 hours. **Prerequisite:** Mathematics 141 with a grade of "C" or better, or Mathematics 146 with a grade of "C" or better, or 1 year of Algebra in high school with a grade of "C" or better and a satisfactory score on the Mathematics Placement Examination.

**141—Fundamentals of Algebra 4 Units**
Mathematics 141 is a course in the fundamental operations of algebra: solution of linear and quadratic, algebraic operations, algebraic fractions, and powers and roots. This course is the equivalent of one year of algebra in high school. Lecture 5 hours. **Prerequisite:** None. **Note:** This course may not be taken for credit by students who have completed for Mathematics 146. A maximum of 4 units of credit will be granted for Mathematics 141 and Mathematics 145.

**145—Elementary Algebra I 2 Units**
Mathematics 145 is designed to cover the fundamental operations of algebra normally included in the first semester of a year course taught in the secondary school, and will include signed numbers, solution of linear equations, algebraic manipulations, powers and roots. The course should be elected by students who have never studied algebra or who have studied it for less than one year. Lecture 4 hours. **Prerequisite:** None. **Note:** This course may not be taken for credit by students who have completed Mathematics 141.

**146—Elementary Algebra II 2 Units**
Mathematics 146 is a continuation of Mathematics 145 and completes the topics covered in one full year of beginning algebra as taught in the secondary school. This course covers the fundamental operations of algebra including solutions
of quadratic equations, algebraic fractions, the solution of word problems and radical expressions. Lecture 4 hours. **Prerequisite:** Mathematics 145. **Note:** This course may not be taken for credit by students who have completed Mathematics 141.

**151—Basic Arithmetic** ½-2 Units
Mathematics 151 is a remedial course in the fundamental processes of arithmetic designed to develop both accuracy and speed in the computation using whole numbers, fractions, decimals, percent, and properties of the decimal number system. Lecture 2 hours, laboratory 1 hour. **Prerequisite:** None. **Note:** The student will receive ½ unit of credit for each module successfully completed. This course may not be taken for credit by students who have completed Mathematics 150.

**190—Overcoming Math Anxiety** 1 Unit
Mathematics 190 is designed to provide students of varying mathematical backgrounds with the knowledge, skills, and attitudes to be successful in their mathematics related goals. Topics include problem solving, test-taking, and stress reduction. Lecture 2 hours. **Prerequisite:** None.

**MUTHEMATICS, BUSINESS, See Business — General 130, 135**

**MATHMATICS, TECHNICAL, See Technical Education 143; Electronics & Computer Technology 100**

---

**METALLURGY**

**150—Principles of Metallurgy and Heat Treating** 3 Units
Metallurgy 150 is the study of principles governing the selection, use, and treatment of metals and alloys in manufacturing and related technologies. Lecture 3 hours. **Prerequisite:** None.

---

**MICROBIOLOGY, See Biology 112**

---

**MUSIC**

**101—Fundamentals of Music** 3 Units
Music 101 is designed for those who wish to learn the basics of music. At its conclusion, students will have a functional ability to read and write simple music, and will have an understanding of the piano keyboard. Music 101 includes the study of music symbols and notation, appropriate musical terminology, simple and compound meter, major and minor scales, intervals, triads, and melodic transposition. Special emphasis is given to developing the coordination necessary for rhythmic accuracy. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

**102—Introduction to Musicianship and Harmony** 3 Units
Music 102 is a course designed for those who have some knowledge of scales, all intervals, and primary chords and their resolutions. This course pursues these fundamentals in greater depth and prepares the student for musicianship and theory courses. Lecture 3 hours. **Prerequisite:** Music 101 or equivalent. **Transfer credit:** CSU, UC, USC

**104—Musicianship** 2 Units
Music 104 is a course designed to train the student to recognize the various intervals and rhythms used in composition and to use them in functional application through sight singing and ear training exercises. Music 104 is required for music majors. Lecture 2 hours, laboratory 1 hour. **Prerequisite:** Music 101 or 102 or equivalent. **Note:** For the non-pianist, concurrent study of piano is strongly recommended. Concurrent enrollment in a music performance course is required. This requirement may be satisfied by enrollment in any of the following courses: Music 130, 131, 132, 133, 141, 142, 143, 145, 151, 152, 170. **Transfer credit:** CSU, UC, USC

**105—Musicianship** 2 Units
Music 105 is a continuation of Music 104 with further emphasis on sight singing and ear training as well as the ability to perform melodic passages based on the major and minor modes. Basic harmonic progressions are also emphasized with application to melodic patterns and rhythms. Music 105 is required for music majors. Lecture 2 hours, laboratory 1 hour. **Prerequisite:** Music 104 or equivalent. **Note:** For the non-pianist, concurrent study of piano is strongly recommended. Concurrent enrollment in a music performance course is required. This requirement may be satisfied by enrollment in any of the following courses: Music 130, 131, 132, 133, 141,
142, 143, 145, 151, 152, 170. Transfer credit: CSU, UC, USC

106—Musicianship 2 Units
Music 106 is a continuation of Music 105 with additional emphasis placed on melodic passages with chromatic alterations and rhythmic patterns of more difficult designs. Harmonic progressions making use of secondary chords will also be introduced through ear training and keyboard exercises. Music 106 is required of music majors. Lecture 2 hours, laboratory 1 hour. Prerequisite: Music 105 or equivalent. Note: For the non-pianist, concurrent study of piano is strongly recommended. Concurrent enrollment in a music performance course is required. This requirement may be satisfied by enrollment in any of the following courses: Music 130, 131, 132, 133, 141, 142, 143, 145, 151, 152, 170. Transfer credit: CSU, UC, USC

107—Harmony 3 Units
Music 107 develops an understanding of compositional techniques. Emphasis is placed on scales, intervals, triads, inversions, basic voice leading, figured bass, and simple harmonization. Music 107 is required for music majors. Lecture 3 hours. Prerequisite: Music 101, or 102, or equivalent. Note: Concurrent enrollment in either Music 104, Music 105, or Music 106 is required. For the non-pianist, concurrent study of piano is strongly recommended. Transfer credit: CSU, UC, USC

108—Harmony 3 Units
Music 108 develops an understanding of compositional techniques. Emphasis is placed on cadences, modulations, dominant sevenths, secondary dominants and analysis. Music 108 is required for music majors. Lecture 3 hours. Prerequisite: Music 107 or equivalent. Note: Concurrent enrollment in either Music 104, Music 105, or Music 106 is required. For the non-pianist, concurrent study of piano is strongly recommended. Transfer credit: CSU, UC, USC

109—Harmony 3 Units
Music 109 further develops an understanding of compositional techniques. Emphasis is placed on fully diminished and half diminished chords, and ninth, eleventh, and thirteenth chords. Non-functional harmony, neapolitan sixth chords, and twentieth century practices will also be explored. Music 109 is required for Music majors. Lecture 3 hours. Prerequisite: Music 108 or equivalent. Note: Concurrent enrollment in either Music 104 or Music 105 or Music 106 is required. For the non-pianist, concurrent study of piano is strongly recommended. Transfer credit: CSU, UC, USC

110—Introduction to Fine Arts 3 Units
(Formerly Music 155)
Music 110 is a team-taught course which offers a comparative overview of western art and music from the prehistoric era to the present. This introductory course presents influential figures in each period and analyzes important influences on their work. The relationship between music and art is explored, along with changing trends in thought and techniques. Lecture 3 hours. Prerequisite: None. Note: This course may not be taken for credit by students who have completed Art 110 or Art 155 prior to 1986. Transfer credit: CSU

120—History and Appreciation of Music 3 Units
Music 120 traces the evolution of music over the past 1500 years, with a special emphasis on understanding how to listen for greater enjoyment. Students learn the basic elements of music, such as form and structure, families and subgroups of musical instruments, as well as learning about specific composers and works. Lecture 3 hours. Prerequisite: None. Note: Students having credit for Music 125 or Music 126 may not receive credit for Music 120. This course is designed especially for non-music majors. Music majors should enroll in Music 125 and Music 126. The student is required to attend five (5) classical concerts and submit concert reports. Transfer credit: CSU, UC, USC

122—History of Jazz 3 Units
Music 122 is designed to familiarize the student with jazz music from its roots in nineteenth century New Orleans to the present. Certain selected "Jazz Greats," female and male, will be examined in depth, along with the chronological history of stylistic eras in jazz. Historical information will be illustrated with musical examples. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU, UC, USC

125—History and Literature 3 Units
Music 125 covers the history of music from the early Christian era through the Baroque Period. In addition to lectures and readings, the course includes a study of live and recorded musical performances. Recognition of composers and styles is emphasized. Lecture 3 hours, directed listening 2 hours. Prerequisite: None. Note: Music 125 is recommended for all music majors. Concurrent enrollment in a music performance course is required. This requirement may be satisfied by enrollment in any of the following courses: Music 130, 131, 132, 133, 141, 142, 143, 145, 151, 152, 170. This course is designed primarily for the music majors and meets the partial
transfer requirements of Music History and Literature courses for a music major into a four-year college. Music majors may enroll in Music 126 before enrolling in Music 125. The student is required to attend six (6) classical concerts. 

Transfer credit: CSU, UC, USC

• 126—History and Literature 3 Units
Music 126 begins with the mid-18th century and continues with musical history through the present day. In addition to lectures and readings, the course includes a study of live and recorded musical performances. Recognition of composers and styles is emphasized. Lecture 3 hours, directed listening 2 hours. Prerequisite: None. Note: Music 126 is recommended for all music majors. Concurrent enrollment in a music performance course is required. This requirement may be satisfied by enrollment in any of the following courses: Music 130, 131, 132, 133, 141, 142, 143, 145, 151, 152, 170. This course is designed primarily for the music major and meets the partial transfer requirements of Music History and Literature courses for a music major into a four-year college. Music majors may enroll in Music 126 before enrolling in Music 125. The student is required to attend six (6) classical concerts.

Transfer credit: CSU, UC, USC

• 128—Music of America 3 Units
Music 128 is a survey of the music from Provincial America to the present day, focusing on the major musical forms of each historical period and the events that influenced them. Historical information and musical examples of hymnody, gospel, folk, frontier music, rag-time, jazz, music theatre, concert music, motion picture, television, and electronic music will be included. The course is designed for elective credit for music majors and humanities. Lecture 3 hours. Prerequisite: None.

Transfer credit: CSU, UC, USC

• 130—Chorus 1 Unit
Music 130 is a beginning course in the appreciation and performance of standard choral literature, with special emphasis on principles of part singing, vocal control, interpretation, diction, phrasing, and breath control. Public performances may be required. Lecture 1 hour, laboratory 1 hour. Prerequisite: None. Note: This course may be taken 4 times; a maximum of 4 units may be earned.

Transfer credit: CSU, UC, USC

• 131—College Choir 2 Units
Music 131 is the study and performance of advanced forms of choral music. Emphasis is placed on traditional forms of western choral literature. Singers will be trained in vocal and choral techniques. Public performance will be required. Lecture 2 hours, laboratory 1 hour. Prerequisite: None. Note: Students must demonstrate good musicianship, be able to sing on pitch, maintain steady rhythm, and display a sensitivity to choral blending of voices. An audition may be required. This course may be taken 4 times; a maximum of 8 units may be earned.

Transfer credit: CSU, UC, USC

• 132—Vocal Ensembles 2 Units
Music 132 is the study and performance of choral literature composed for small vocal ensembles. Vocal music in both popular and jazz idioms will be studied in this course. Some traditional seasonal music may be studied. Some of the music will be choreographed. Lecture 2 hours, laboratory 1 hour. Prerequisite: None. Note: An audition by the instructor may be required. Membership in other performance groups may be required. This course may be taken 4 times; a maximum of 8 units may be earned.

Transfer credit: CSU, UC, USC

• 133—Chamber Chorale 2 Units
Music 133 consists of a group of highly selected voices which performs choral literature suitable for a chamber choir. Lecture 2 hours, laboratory 2 hours. Prerequisite: None. Note: Previous choral experience is required. Public performance may be required. An audition is necessary. This course may be taken 4 times; a maximum of 8 units may be earned.

Transfer credit: CSU, UC, USC

• 134—Concert Singers 2 Units
Music 134 offers community singers an opportunity to perform choral masterworks. Emphasis is placed on principles of choral and vocal techniques. Members of the class are encouraged to audition for all solos. Lecture 2 hours, laboratory 1 hour. Prerequisite: None. Note: Students must demonstrate good musicianship, be able to sing on pitch, maintain steady rhythm and display a sensitivity to choral blending of voices. An audition may be required. This course may be taken 4 times; a maximum of 8 units may be earned.

Transfer credit: CSU, UC, USC

• 135—Voice Training I 2 Units
Music 135 stresses the principles of correct vocal production and their application to songs and ballads in English. Emphasis is placed on the following: proper breathing habits, the relationship between breathing and tone making, vocal health, range, resonance, registration, poise, posture, and song presentation. The development of an appreciation for the vocal arts is an important aspect of the course. Lecture 3 hours. Prerequisite: None. Note: This course may be taken 2 times; a maximum of 4 units may be earned.

Transfer credit: CSU, UC, USC
•136—Voice Training II 2 Units
Music 136 is a continuing focus upon the principles of correct vocal production and their application to songs and ballads in English. Foreign art songs are introduced; more difficult exercises both musically and vocally are stressed. Further emphasis is placed on legato singing, diction, interpretation, and expression. The development of an appreciation for the vocal arts is of continuing importance. Lecture 3 hours. Prerequisite: Music 135, or equivalent. Note: This course may be taken 2 times; a maximum of 4 units may be earned. Transfer credit: CSU, UC, USC

•137—Voice Training III 2 Units
Music 137 is a continuation and broadening of the principles of vocal production and proper use of the breath in singing as outlined in Music 135 and 136. More difficult literature is explored, including contemporary music and several songs in foreign languages. Performances and recital Lecture 3 hours. Prerequisite: Music 136 or equivalent. Note: This course may be taken 2 times; a maximum of 4 units may be earned. Transfer credit: CSU, UC, USC

•138—Private Study in Music 1 Unit
With Off-Campus Teachers
Music 138 provides students with college credit for pursuing the serious study of music with off-campus teachers who are approved by the college faculty. Students must receive at least one lesson per week for sixteen weeks, and each lesson must be thirty minutes or more. Daily practice of one hour is expected. A factual written report of dates of lessons, their duration, and amount of weekly practice by students must be regularly presented to the music department member serving as "instructor of record". Both a mid-semester and a final performance are required of students for evaluation by the college music faculty, and upon consideration of a letter grade suggested by the private teacher, the official grade awarded for these studies will be determined by the music faculty of the college. Lecture 1 hour, laboratory 5 hours for each unit. Prerequisite: Concurrent enrollment in one of the following courses relating to their private study. These may include: Music 130, 131, 133, 135, 136, 137, 140, 144, 145, 151, 156, 157, 158, 159, 160, 161, 162, 163, 165. Note: This course may be taken 4 times; a maximum of 4 units may be earned. Transfer credit: CSU, UC, USC

•141—Concert Band 1 Unit
The repertoire includes both serious music for concert band, and music of a more popular nature. The concert band performs at both College and community activities. Lecture 2 hours. Prerequisite: Ability to perform on a standard band instrument. Note: This course may be taken 4 times; a maximum of 4 units may be earned. An audition may be required. Transfer credit: CSU, UC, USC

•143—Stage Band 1 Unit
Music 143 is a workshop for the study and performance of music in the contemporary idiom. Performances are made at Glendale Community College and for various programs in the community. Membership is limited to twenty and is subject to final approval of the instructor following an audition. Laboratory 2 hours. Prerequisite: The ability to perform in a proficient manner upon the trumpet, trombone, saxophone, drums, string bass, guitar, or piano. Note: This course may be taken 4 times; a maximum of 4 units may be earned. Transfer credit: CSU, UC, USC

•144—Woodwind Ensemble 1 Unit
Music 144 is a small instrumental group which plays for College and community activities. Emphasis is on balance, dynamics, phrasing, and interpretation. Instruction 2 hours, directed practice by arrangement 3 hours. Prerequisite: Ability to play a musical instrument in a band or orchestra. Note: This course may be taken 4 times; a maximum of 4 units may be earned. Transfer credit: CSU, UC, USC

•145—Brass Ensemble 1 Unit
Music 145 is a small instrumental group which plays for College and community activities. Emphasis is on balance, dynamics, phrasing, and interpretation. Instruction 2 hours, directed practice by arrangement 3 hours. Prerequisite: Ability to play a musical instrument in a band or orchestra. Note: This course may be taken 4 times; a maximum of 4 units may be earned. Transfer credit: CSU, UC, USC

•151—Sinfonia Orchestra 1 Unit
Music 151 offers instrumentalists from the college and the community experience rehearsing and performing standard orchestral repertoire. Its members are both college music students and adults from the community. More advanced players are offered opportunities to perform solo concertos with the orchestra. Emphasis is placed on interpretation and style. Sinfonia orchestra rehearses one evening each week for three hours and presents concerts each semester. Participation in all performances is mandatory. Lecture 3 hours. Prerequisite: Ability to perform on a standard orchestral instrument. Note: This course may be taken 4 times; a maximum of 4 units may be earned. Transfer credit: CSU, UC, USC
• 152—String Ensemble  
1 Unit  
Music 152 is a small instrumental group which plays for College and community activities. Emphasis is on balance, dynamics, phrasing, and interpretation. Instruction 2 hours, directed practice by arrangement 3 hours. **Prerequisite:** Ability to play a musical instrument in a band or orchestra. **Note:** This course may be taken 4 times; a maximum of 4 units may be earned. **Transfer credit:** CSU, UC, USC

• 156—Classical Guitar I  
2 Units  
Music 156 is for students who wish to learn the elementary techniques of guitar playing. Included are the studies of fundamental music reading, skills, notation for guitar, tuning playing techniques, fingerings, key signatures and scales, and the performance of easy solo guitar music in the first position. Another aspect of the course is to foster an appreciation for the classic guitar, its literature and performing artists. No previous musical training is required. Lecture 1 hour, laboratory 1 hour. Three (3) hours practice by arrangement. **Prerequisite:** None. **Note:** Students are required to have a standard six (6) string guitar to use in class and are expected to practice one (1) hour a day. This course may be taken 2 times; a maximum of 4 units may be earned. **Transfer credit:** CSU, UC, USC

• 157—Classical Guitar II  
2 Units  
Music 157 continues with the study of basic classic guitar techniques. Dynamics, ligados, and grace notes are introduced. Students become acquainted with the entire fingerboard through scales in the 2nd, 4th, 5th, 7th, and 9th positions, and also through selected compositions for the guitar from the 18th and 19th centuries, and solo arrangements of famous tunes. Chord structure is discussed and applied to the fingerboard. Lecture 1 hour, laboratory 1 hour. Three (3) hours practice by arrangement. **Prerequisite:** Music 156 or equivalent. **Note:** Students are required to have a standard six (6) string guitar to use in class and are expected to practice one (1) hour a day. This course may be taken 2 times; a maximum of 4 units may be earned. **Transfer credit:** CSU, UC, USC

• 158—Classical Guitar III  
2 Units  
Music 158 proceeds with techniques and compositions of intermediate level. Included for study are selected pieces from the Renaissance, Baroque, Classic, and Romantic eras, as well as solo arrangements of familiar tunes. Knowledge of the entire fingerboard is further enhanced by the practice of two and three octave scales. Basic skills for transcribing music written for keyboard are introduced. Lecture 1 hour, laboratory 1 hour. Three (3) hours practice by arrangement. **Prerequisite:** Music 157 or equivalent. **Note:** Students are required to have a standard six (6) string guitar to use in class and are expected to practice one (1) hour a day. This course may be taken 2 times; a maximum of 4 units may be earned. **Transfer credit:** CSU, UC, USC

• 159—Classical Guitar IV  
2 Units  
Music 159 continues with the more advanced techniques and selected compositions of greater complexity from the Renaissance, Baroque, Classic, and Romantic eras, and also includes solo arrangements of familiar tunes. Interpretation and stylistic elements are discussed. Lecture 1 hour, laboratory 1 hour. Three (3) hours practice by arrangement. **Prerequisite:** Music 158 or equivalent. **Note:** Students are required to have a standard six (6) string guitar to use in class and are expected to practice one (1) hour a day. This course may be taken 2 times; a maximum of 4 units may be earned. **Transfer credit:** CSU, UC, USC

• 160—Piano I  
2 Units  
Music 160 is designed for students who wish to gain an elementary knowledge of piano keyboard and the rudiments of music reading. The content of the course will be based on the assumption that students have had no previous musical training. Lecture 2 hours. **Prerequisite:** None. **Note:** Music 160 is not open to students having previous instruction or experience in piano playing. This course may be taken 2 times; a maximum of 4 units may be earned. It is recommended that the student have a piano available for practice and is expected to practice one (1) hour a day. **Transfer credit:** CSU, UC, USC

• 161—Piano II  
2 Units  
Music 161 is a course for the advancement of the beginning pianist in skills, interpretation and tonal coloring. Lecture 2 hours. **Prerequisite:** Music 160 or one-half year of piano experience. **Note:** This course may be taken 2 times; a maximum of 4 units may be earned. It is recommended that the student have a piano available for practice and is expected to practice one (1) hour a day. **Transfer credit:** CSU, UC, USC

• 162—Piano III  
2 Units  
Music 162 covers the theory and interpretation of works from the preclassical, classical, and romantic periods as well as modern or contemporary music. Emphasis on development of technique, style, tone-color, dynamics and phrasing. Lecture 2 hours. **Prerequisite:** Music 161 or one year of piano experience. **Note:** This
course may be taken 2 times; a maximum of 4 units may be earned. It is recommended that the student has a piano available for practice and is expected to practice one (1) hour a day. **Transfer credit:** CSU, UC, USC

### 163—Piano IV

2 Units

Music 163 is a continuation of Piano III, with emphasis placed upon the development of each student through the study of all periods and styles of piano literature. Lecture 2 hours. **Prerequisite:** Music 162 or three years of piano experience. Note: This course may be taken 2 times; a maximum of 4 units may be earned. It is recommended that the student has a piano available for practice, and is expected to practice one (1) hour a day. Students are given the opportunity to perform in a recital during the semester. **Transfer credit:** CSU, UC, USC

### 165—Accompanist Training

1-2 Units

Music 165 is a course designed to give training in the piano accompaniment of choral, instrumental solo, and ensemble groups. Lecture 24 hours. Laboratory 3-6 hours. **Prerequisite:** Ability to sight read and play with ease piano literature of more than moderate difficulty. Note: The student may take accompanist training for one (1) or two (2) units each semester. A proportionate amount of work will be required according to the number of units elected by the student and signed for at the time of registration. This course may be taken 4 times; a maximum of 8 units may be earned. **Transfer credit:** CSU, UC, USC

### 166—Organ

2 Units

Music 166 is intended for the beginner as well as the experienced organ student. The course is designed to acquaint the student with the fundamentals of organ technique and repertoire. Materials assigned for study emphasize individual development in preparing for church and concert performance. The course includes field trips to visit various pipe organs in the metropolitan area. Lecture 2 hours, directed practice by arrangement 3 hours. **Prerequisite:** None. **Note:** The student should be able to play with ease keyboard literature of moderate difficulty. This course may be taken 4 times; a maximum of 8 units may be earned. The student is expected to practice 1 hour a day. **Transfer credit:** CSU, UC, USC

### 168—Piano Improvisation

2 Units

Music 168 is a course designed for students who read music and have keyboard facility and want to learn improvisation. Emphasis will be placed on the use of chord structure and keyboard harmony in developing an individual piano style. Lecture 2 hours. **Prerequisite:** Music 161 or one year of piano instruction or equivalent. **Note:** This course may be taken 2 times; a maximum of 4 units may be earned. **Transfer credit:** CSU, UC, USC

### 169—Piano Improvisation II

2 Units

Music 169 is designed for students who have completed 168 or is equivalent. Emphasis will be placed on advanced chord structure in developing an individual improvisational piano style. Lecture 2 hours. **Prerequisite:** Music 168 or equivalent. **Note:** This course may be taken 2 times; a maximum of 4 units may be earned. **Transfer credit:** CSU, UC, USC

### 170—Music Theatre Workshop

3 Units

Music 170 is designed to provide training and experience in the art of musical theatre. Performance of a major production will be the objective of the course. Students will have the opportunity to participate in the rehearsals and the development of the performances. Course work will provide experience in the techniques of stage ensemble, acting, technical stage, costuming, and makeup. Auditions will be held for all roles. Lecture 2 hours, laboratory 3 hours. **Prerequisite:** Ability to sing with good pitch and acceptable vocal quality. **Note:** This course may be taken 4 times; a maximum of 12 units may be earned. **Transfer credit:** CSU, UC, USC

### 171—Commercial Music

3 Units

Music 171 offers prospective musicians an introduction into the many vocational aspects of their field. It is designed to provide a basic understanding of such essentials as fields of commercial music employment opportunities, seeking employment, copyright law, typical financial transactions, modern recording procedures. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU

### 172—Commercial Music Workshop

2 Units

Not Offered. **Transfer credit:** CSU

### 174—Music Copying

2 Units

Music 174 is a course to introduce the student to the skills and materials necessary to become a music copyist and to assist the student in developing those skills to a point of professional acceptability. The greatest emphasis will be placed on penmanship, technique, and style. Differences between “classical” and “commercial” approaches will be examined, with an emphasis being placed on the commercial style. The basic business procedures and techniques of music copying will be presented, as well as suggestions for job procurement. Lecture 2 hours. **Prerequisite:** None.
●175—Synthesizer — Electronic Music I 3 Units
Music 175 is a study of the synthesizer and electronic music through discussion of the history and literature and the practical use of electronic instruments. Instruction 3 hours, directed practice by arrangement 3 hours. Prerequisite: None. Transfer credit: UC, USC

●185—Strings I 2 Units
Music 185 provides class instruction in the basic techniques of stringed instruments. This course is primarily designed as a preparatory course for music majors who plan to enter the field of music education. The course is, however, open to non-music majors; it is of special value to those students who wish to become elementary teachers, but it also provides a fundamental knowledge of the potential of string instruments for purposes of composition and arranging. Lecture 2 hours. Prerequisite: None. Note: The string instruments are violin, viola, cello, and string bass. This course may be taken 2 times; a maximum of 4 units may be earned. The student is expected to practice one (1) hour a day. Transfer credit: CSU, UC, USC

●186—Strings II 2 Units
Music 186 is a continuation of Music 185. Lecture 2 hours. Prerequisite: Music 185 or equivalent. Note: The string instruments are violin, viola, cello, and string bass. This course may be taken 2 times; a maximum of 4 units may be earned. The student is expected to practice one (1) hour a day. Transfer credit: CSU, UC, USC

●187—Strings III 2 Units
Music 187 is a continuation of Music 186. Lecture 2 hours. Prerequisite: Music 186 or equivalent. Note: The string instruments are violin, viola, cello, and string bass. This course may be taken 2 times; a maximum of 4 units may be earned. The student is expected to practice one (1) hour a day. Transfer credit: CSU, UC, USC

●188—Strings IV 2 Units
Music 188 is a continuation of Music 187. Lecture 2 hours. Prerequisite: Music 187 or equivalent. Note: The string instruments are violin, viola, cello, and string bass. This course may be taken 2 times; a maximum of 4 units may be earned. The student is expected to practice one (1) hour a day. Transfer credit: CSU, UC, USC

●190—Woodwinds I 2 Units
Music 190 provides class instruction in the basic techniques of a woodwind instrument and the rudiments of music reading. Music 190 also provides a fundamental knowledge of the potential of woodwind instruments for purposes of composition and arranging. The content of the course will be based on the assumption that students have had no previous musical training. Lecture 2 hours. Prerequisite: None. Note: The woodwind instruments are flute, oboe, clarinet, saxophone and bassoon. This course may be taken 2 times; a maximum of 4 units may be earned. Students are expected to practice at least one (1) hour a day. Transfer credit: CSU, UC, USC

●191—Woodwinds II 2 Units
Music 191 is a continuation of Music 190. Lecture 2 hours. Prerequisite: Music 190 or equivalent. Note: The woodwind instruments are flute, oboe, clarinet, saxophone and bassoon. This course may be taken 2 times; a maximum of 4 units may be earned. Students are expected to practice at least one (1) hour a day. Transfer credit: CSU, UC, USC

●192—Woodwinds III 2 Units
Music 192 is a continuation of Music 191. Lecture 2 hours. Prerequisite: Music 191 or equivalent. Note: The woodwind instruments are flute, oboe, clarinet, saxophone and bassoon. This course may be taken 2 times; a maximum of 4 units may be earned. Students are expected to practice at least one (1) hour a day. Transfer credit: CSU, UC, USC

●193—Woodwinds IV 2 Units
Music 193 is a continuation of Music 192. Lecture 2 hours. Prerequisite: Music 192 or equivalent. Note: The woodwind instruments are flute, oboe, clarinet, saxophone and bassoon. This course may be taken 2 times; a maximum of 4 units may be earned. Students are expected to practice at least one (1) hour a day. Transfer credit: CSU, UC, USC

●195—Brass I 2 Units
Music 195 provides class instruction in the basic techniques of a brass instrument and the rudiments of music notation. Music 195 also provides a fundamental knowledge of brass instruments for purposes of composition and arranging. The content of the course will be based on the assumption that students have had no previous musical training. Lecture 2 hours. Prerequisite: None. Note: The brass instruments are trumpet, horn, trombone and tuba. This course may be taken 2 times; a maximum of 4 units may be earned. Students are expected to practice at least one (1) hour a day. Transfer credit: CSU, UC, USC
● 196—Brass II 2 Units
Music 196 is a continuation of Music 195. Lecture 2 hours. Prerequisite: Music 195 or equivalent. Note: The brass instruments are trumpet, horn, trombone and tuba. This course may be taken 2 times; a maximum of 4 units may be earned. Students are expected to practice at least one (1) hour a day. Transfer credit: CSU, UC, USC.

● 197—Brass III 2 Units
Music 197 is a continuation of Music 196. Lecture 2 hours. Prerequisite: Music 196 or equivalent. Note: The brass instruments are trumpet, horn, trombone and tuba. This course may be taken 2 times; a maximum of 4 units may be earned. Students are expected to practice at least one (1) hour a day. Transfer credit: CSU, UC, USC.

● 198—Brass IV 2 Units
Music 198 is a continuation of Music 196. Lecture 2 hours. Prerequisite: Music 197 or equivalent. Note: The brass instruments are trumpet, horn, trombone and tuba. This course may be taken 2 times; a maximum of 4 units may be earned. Students are expected to practice at least one (1) hour a day. Transfer credit: CSU, UC, USC.

● 200—Jazz Improvisation I 2 Units
Music 200 is designed to introduce instrumental skills in improvisation so that the students may create their own jazz solos. Each class session will include playing, practice, ear training, scales, modes, and sample written solos. Lecture 2 hours. Prerequisite: Basic proficiency in performing on an instrument. Note: This course may be taken 2 times; a maximum of 4 units may be earned. Transfer credit: CSU, UC, USC.

● 210—Piano Tuning and Repair 2 Units
Music 210 is a course designed to introduce the student to the skills and materials necessary for piano tuning and repairing. Emphasis will be placed on practical application of repairs and piano knowledge with an overview of the history and physics of the piano. Differences between aural and electronic tuning will be examined, with emphasis being placed on aural perception. Lecture 2 hours, laboratory 1 hour. Prerequisite: None.

● 211—Piano Tuning and Repair II 2 Units
Music 211 is a continuation of Music 210 with advanced training in the skills and techniques of piano tuning and repair. Emphasis will be placed on preparing the student for possible employment within the music industry or for self employment. Lecture 2 hours, laboratory 1 hour. Prerequisite: Music 210 or equivalent.

● 212—Piano Action Construction I 2 Units
Music 212 is an intermediate class covering the fundamentals of piano action. This course will acquaint the student with many aspects of piano design with an emphasis on placement of the action parts. The application of design will be realized in the construction of full size action models with each student confronting many of the skills necessary in piano construction. Lecture 2 hours, laboratory 1 hour. Prerequisite: Music 210 or 211 or equivalent.

● 213—Piano Action Construction II 2 Units
Music 213 is an intermediate class covering the fundamentals of piano construction. This course will acquaint the student with many aspects of piano design with an emphasis on soundboard, bridge, pinblock, metal frame, and case design. The relationship of piano parts will be realized in the construction of full size models with each student obtaining hands-on experience in many of the skills necessary in piano construction. Lecture 2 hours, laboratory 1 hour. Prerequisite: Music 212 or equivalent.

Office Administration program
NATURAL HISTORY, See Biology 130

NORWEGIAN

○110—Basic Conversational Norwegian I 2 Units
Norwegian 110 is an introduction to the Norwegian language with emphasis on developing essential skills in communication. The verbal active method used stresses oral expression. The course develops a working knowledge of reading and writing as well, and includes the use of tapes, cassettes, and films. Lecture 2 hours, laboratory 1 hour. Prerequisite: None. Note: This course may be taken 2 times; a maximum of 4 units may be earned.

NURSING, See Allied Health

NUTRITION, See Family and Consumer Studies 125, 225

OCEANOGRAPHY

○115—Oceanography 4 Units
Oceanography 115 is an introduction to physical, chemical, and geologic and biologic oceanography. Field study will include cruises on oceanographic research vessels when possible, examination of off-shore drilling platforms and the investigation of physical and biologic phenomena along the California coast. Lecture 3 hours per week, field study 2½ days per semester. Prerequisite: None. Note: The student is responsible for transportation costs of approximately $10 connected with the field study. Transfer credit: CSU, UC, USC

OFFICE ADMINISTRATION

○101—Office Procedures 3 Units
Office Administration 101 is a detailed study of general office procedures, including the selection of office supplies; processing of mail; use of postal and telegraph services; receptionist and telephone techniques; handling travel arrangements; data processing; preparation of reports; banking procedures; payroll, insurance, and tax records; legal forms; and job interview. Lecture 3 hours. Prerequisite: Office Administration 205 (2 units) or Office Administration 200 (2 units) with a grade of “C” or better or one year of typing in high school and eligibility for one of the following: Business—General 101 or English 120 or English 131.

○103—Basic Office Skills 1 Unit
Office Administration 103 offers instruction and practical application in clerical office procedures which include duplicating—selecting appropriate supplies and process (carbon, photocopy or fluid), preparing copy for masters, and operating duplicating machines; as well as proofreading and copy correction techniques; telephone techniques; and fundamentals of alphabetic filing and recordkeeping. Lecture 1½ hours, laboratory 1½ hours (8 weeks). Prerequisite: Office Administration 205 (2 units) or Office Administration 200 (2 units) with a grade of “C” or better or one year of typing in high school. Note: Recommended for students who desire to become aides to the instructional staff or in administrative offices at Glendale Community College.

○105—Filing Methods and Systems 1 Unit
Office Administration 105 covers principles and procedures for establishment and use of various filing systems including practice in alphabetic, numeric, geographic, and subject filing methods and covers principles and procedures for storage and retrieval, retention, transfer, and disposal of records. Lecture 2 hours, laboratory 1 hour (8 weeks). Prerequisite: Eligibility for one of the following: Business—General 101 or English 120 or English 131.

○110—Machine Transcription—Business 2 Units
Office Administration 110 is a machine transcription course which will enable students to transcribe business communications, with emphasis on excellence in typing and proficiency in the use of English skills, such as spelling, grammar, and punctuation. Lecture 1.5 hours, laboratory 1.5 hours. Prerequisite: Eligibility for Business—General 110 and a grade of “C” or better in the following: (1) Office Administration 210 (3 units) or equivalent, (2) Business—General 105; (3) Office Administration 250 (1 unit) or equivalent. Note: Office Administration 250 may be taken concurrently.
120—Beginning Shorthand  1-5 Units
Office Administration 120 is an introductory course in shorthand covering theory, speed development, and beginning transcription skills. Lecture 5 hours. Prerequisite: Office Administration 205 or equivalent and eligibility for Business General 101. Note: Office Administration 205 may be taken concurrently. Students who can take dictation at least 60 words a minute should enroll in Office Administration 125 (3 units). In classes where individualized instruction is given, a student may complete one module of instruction for one unit of credit. This course may be taken 4 times; a maximum of 5 units may be earned. Transfer credit: CSU

125—Shorthand Transcription I  1-3 Units
Office Administration 125 is a continuation of Office Administration 120, which incorporates review of theory, transcription techniques, and English skills to produce mailable letters. Lecture 3 hours. Prerequisite: A grade of “C” or better in the following: (1) Office Administration 120 (5 units), Office Administration 135 (1 unit), or one year of shorthand in high school; (2) Business—General 105; (3) Business—General 101 or Business—General 120 or eligibility for Business—General 110; and (4) Office Administration 210 (3 units) or equivalent (concurrent enrollment is permitted if fewer than 3 units were earned); concurrent enrollment in Office Administration 140 (enrollment for the second unit is optional upon achievement of 80 wpm). Note: Concurrent enrollment in Office Administration 215 is recommended. Students who have earned “B” grade in second-year shorthand in high school should enroll in Office Administration 130 (3 units). In classes where individualized instruction is given, a student may complete one module of instruction for one unit of credit. This course may be taken 3 times; a maximum of 3 units may be earned. Transfer credit: CSU

130—Shorthand Transcription II  1-3 Units
Office Administration 130 is a finishing course for the executive secretary. Emphasis will be on office style dictation of business communications, applying transcription skills acquired in Office Administration 125. Lecture 3 hours. Prerequisite: A grade of “C” or better in the following: (1) Office Administration 125 (3 units) or a “B” grade in second-year shorthand in high school; (2) Business—General 105; (3) Business—General 101 or Business—General 120 or eligibility for Business—General 110; (4) Office Administration 110 (3 units); and (5) Office Administration 215 (3 units) or equivalent (concurrent enrollment is permitted if fewer than 3 units were earned); concurrent enrollment in Office Administration 140 (enrollment for the second unit is optional upon achievement of 100 wpm). Note: This course may be taken 3 times; a maximum of 3 units may be earned. Transfer credit: CSU

135—Shorthand Review  1-2 Units
Office Administration 135 is a quick, thorough review of the theory of shorthand, which provides an opportunity to brush up on principles, brief forms, phrases, and high-frequency words. Lecture 2 hours. Prerequisite: Prior training in shorthand. Note: This course may be taken 2 times; a maximum of 2 units may be earned.

140—Shorthand Speed Development  1-2 Units
Office Administration 140 is a course offering shorthand speed development on an individualized basis with dictation ranging from 50 words a minute to 160 words a minute. Lecture 2 hours. Prerequisite: Office Administration 120 (4 units) or Office Administration 135 (1 unit) or one year of high school shorthand or equivalent. Note: This course may be taken 4 times; a maximum of 6 units may be earned.

162—Legal Procedures  5 Units
Office Administration 162 is a course offering specialized training in preparation of legal paperwork and forms, development of specialized vocabulary and spelling, familiarization with law office routines, and other legal procedures. Lecture 5 hours. Prerequisites: A grade of “C” or better in the following: (1) Office Administration 210 (3 units), or equivalent, and (2) Office Administration 101 (3 units), and eligibility for one of the following: Business—General 101 or English 120 or English 131. Note: Office Administration 125 (3 units) is recommended. No credit will be granted to students who have completed Office Administration 160 and 161. Transfer credit: CSU

165—Legal Machine Transcription  2 Units
Office Administration 165 is a machine transcription course which will enable students to transcribe legal communications and to type legal forms commonly used in legal offices. Emphasis will be placed on excellence in typing and proficiency in use of English skills, such as spelling, grammar, and punctuation. Lecture 1½ hours, laboratory 1½ hours. Prerequisite: A grade of “C” or better in the following: (1) Office Administration 210 (3 units) or equivalent, (2) Business—General 105, and (3) Business—General 101 or Business—General 120 or eligibility for Business—General 110.
1987-88 GLENDALE COMMUNITY COLLEGE CATALOG 209

•182—Medical Terminology 5 Units
Office Administration 182 is designed to familiarize those interested in the medical field with origin, correct spelling, pronunciation, meaning and current usage of common medical terms and their application to clinical records and reports. Emphasis will be placed on the roots, prefixes, suffixes, and word combinations. Lecture 5 hours.
Prerequisite: Eligibility for one of the following: Business—General 101 or English 120 or English 131. Note: This course may not be taken for credit by students who have completed Office Administration 180 and 181.

•185—Medical Office Procedures - Administrative 3 Units
Office Administration 185 is a course offering an introduction to the medical office and concentrating on the Medical Assistant’s role in the maintenance of a professional and efficient medical office, including career guidelines and professional qualifications; public relations; courteous and effective handling of patients, doctors, and co-workers; preparation and care of medical records; correspondence; financial records; insurance; and general management of a medical facility. Training will be applicable in offices of physicians, medical hospitals and clinics, dental and medico-legal agencies and government-sponsored medical facilities. Lecture 3 hours.
Prerequisite: Office Administration 182 with a grade of “C” or better or equivalent.

•190—Medical Machine Transcription I 2 Units
Office Administration 190 is a machine transcription course which will enable students to transcribe medical communications and to type medical forms commonly used in medical offices. Emphasis will be placed on excellence in typing and proficiency in use of English skills, such as spelling, grammar, and punctuation. Lecture 1½ hours, laboratory 1½ hours. Prerequisite: A grade of “C” or better in the following: (1) Office Administration 182, (2) Office Administration 210(3 units) or equivalent; (3) Business—General 105, and (4) Business—General 101 or Business—General 120 or eligibility for Business—General 110.

•195—Medical Machine Transcription II 2 Units
Office Administration 195 covers machine transcription of case histories, surgical and pathological reports for hospital records, and letters dictated by physicians representing the medical specialties. Lecture 1½ hours, laboratory 1½ hours. Prerequisite: Office Administration 190 with a grade of “C” or better and concurrent enrollment in or completion of Office Administration 215 (3 units) with a grade of “C” or better or equivalent.

•196—Medical Transcription Plus I 5-10 Units
Office Administration 196 is Part I of Medical Transcription Plus, a unique and imaginative approach to medical transcribing that offers intensive, specialized training. Upon successful completion of Office Administration 196, students will be qualified for Office Administration 198, Part II of Medical Transcription Plus. In Office Administration 196, the anatomy and language of four organ systems of human anatomy will be learned as well as the preparation of the various reports that are part of a patient’s hospital chart. The four organ systems are: 1. musculo-skeletal system, 2. cardio-vascular system, 3. respiratory system, and 4. gastro-intestinal system. Lecture 5 hours, laboratory 15 hours. Prerequisites: Typing speed of 45 w.p.m.; eligibility to enroll in either Business—General 110 or English 101.

•198—Medical Transcription Plus II 5-10 Units
Office Administration 198 is Part II of Medical Transcription Plus. Unique and imaginative in approach to medical transcribing, it offers intensive, specialized training. Upon successful completion of Office Administration 198, students will be qualified for immediate employment in medical records departments, specialized departments within medical centers or medical schools, any doctor’s office, and private services. In Office Administration 198, the anatomy and language of five organ systems of human anatomy will be learned and preparation of various reports continued. The five organ systems are: 1. endocrine system, 2. genito-urinary system, 3. nervous system, 4. integumentary system, and 5. special senses system. Lecture 5 hours, laboratory 15 hours. Prerequisites: Same as above. Note: This course may not be taken for credit by students who have completed all of the following: Office Administration 182, 190, 195, and 215.

•201—Computer Keyboarding 1 Unit
Office Administration 201 develops the basic skills and keyboard techniques used in the method of “touch” keyboarding. This method involves the ability to read copy and transmit what is seen to the keyboard without having to look at the fingers. Speed is emphasized in order to operate the equipment quickly. Accuracy is stressed because a single error may result in inputting or retrieving incorrect information or no information at all. Lecture 1 hour, laboratory 3 hours (9 weeks)
Prerequisite: Eligibility for Business—General 101 or equivalent. Note: This course may be taken 3 times; a maximum of 3 units may be earned.
205—Beginning Typing 1-3 Units
Office Administration 205 develops the basic skills of keyboard techniques to give the foundation for advanced training in typing. Training is given in the preparation of memorandums, personal letters, business letters, simple tabulation, outlines, and manuscripts. Lecture 2 hours, laboratory 3 hours.
Prerequisite: Eligibility for one of the following: Business—General 101 or English 120 or English 131. Note: Students who can type at least 30 words a minute should enroll in Office Administration 210. The student will receive one unit of credit for each module of individualized instruction successfully completed. This course may be taken 3 times; a maximum of 3 units may be earned. Transfer credit: CSU

210—Intermediate Typing 1-3 Units
Office Administration 210 is a continuation of Office Administration 205, providing refinement and development of technique with increased emphasis on accuracy and speed. The course provides a detailed study of business letters, special office forms, tabulated reports, and manuscripts. Lecture 2 hours, laboratory 3 hours. Prerequisite: Office Administration 205 (3 units) with a grade of "C" or better or equivalent and eligibility for one of the following: Business—General 101 or English 120 or English 131. Note: Students who can type at least 40 words a minute should enroll in Office Administration 215. The student will receive one unit of credit for each module of individualized instruction successfully completed. This course may be taken 3 times; a maximum of 3 units may be earned. Transfer credit: CSU

215—Advanced Typing 1-3 Units
Office Administration 215 is a vocational course and the standards are set in terms of business demands. This program is designed to help the student to develop and integrate all of the "back-up" skills, knowledge, and techniques into complete production typewriting skill. Emphasis is placed upon the development of accuracy and speed both in straight-copy material and production projects and upon the application of related learnings. Lecture 2 hours, laboratory 3 hours.
Prerequisite: Office Administration 210 (3 units) with a grade of "C" or better or equivalent and eligibility for either Business—General 110 or English 101. Note: The student will receive one unit of credit for each module of individualized instruction successfully completed. This course may be taken 3 times; a maximum of 3 units may be earned. Transfer credit: CSU

225—Legal Typing 1 Unit
Office Administration 225 is a course offering specific training in and supervision of preparation of legal documents. Lecture 1 hour, laboratory 1 hour. Prerequisite: Office Administration 210 (3 units) with a grade of "C" or better or equivalent and eligibility for one of the following: Business—General 101 or English 120 or English 131.

230—Typewriting Speed/Control Building 1-2 Units
Office Administration 230 is designed to provide intensive training and practice in building typewriting speed and control. The student is allowed to pursue individual goals. Lecture 1.5 hours, laboratory 1.5 hours. Prerequisite: Office Administration 205 (3 units) or equivalent. Note: This course may be taken 4 times; a maximum of 4 units may be earned. Concurrent enrollment in Office Administration 210 and Office Administration 215 is permissible if the student needs additional speed and/or accuracy practice.

240—Word Processing—IBM Memory Typewriter 1 Unit
Not offered.

245—Word Processing—IBM Mag Card II Typewriter 1-2 Units
Not offered.

246—Word Processing—IBM Memory/Mag Card II Typewriters 1-2 Units
(Formally Office Administration 240 and 245)
Not offered.

250—Word Processing Systems 1-3 Units
Office Administration 250 will enable students to develop competency in operating various office information word processing systems. In learning these systems, students will become knowledgeable in the areas of WP standalones, office information shared logic systems, and distributed logic systems. The course includes general operating techniques; use of edit and repagination, search and replace, and glossary features; and printout for the following types of projects: correspondence, repetitive letters, multiple-page documents, indented format, outline format, and columnar projects. Lecture 2 hours, laboratory 3 hours. Prerequisite: Eligibility for Business—General 110 and concurrent enrollment in, or completion of, Office Administration 210 (3 units) with a grade of "C" or better. Note: This course may be taken 4 times, using different software or hardware, a maximum of 3 units credit may be
earned in Office Administration 250 and Computer and Information Systems 250. This course will enable students to develop competencies in three word processing systems in one semester: the Wang Office Information System 140, NBI System 3,000 and 4,000, and the DECmate II Word Processor. Transfer credit: CSU

•252—Voice Processing/Dictation 1 Unit
Office Administration 252 is a course which will enable students to develop competencies in voice processing/dictation techniques. Students enrolled in this course will learn how to prioritize and annotate mail, how to organize their responses for dictation, and how to dictate from an outline. They will use state-of-the-art dictation standalone units for desk-top dictation as well as the Dictaphone Centralized Dictation Nucleus Management Center for telephone dictation. Lecture 2 hours, laboratory 1 hour. 19 weeks; Prerequisite: Eligibility for Business—General 101.
Note: This course may not be taken for credit by students who have completed Computer and Information Systems 252.

•255—Advanced Word Processing Systems 1-3 Units
Office Administration 255 is an advanced systems course and involves advanced word processing software features (i.e. list processing and mail merge; data base: sort; and math). In addition, the course will include training in other phases of information processing such as telecommunications (OCR, electronic mailbox, networking). Lecture 1 hour, laboratory 3 hours. Prerequisite: Concurrent enrollment, or a grade of "C" or better in Office Administration 110 and 215 (3 Units); and a grade of "C" or better in Office Administration 250 (3 units), and 260; or equivalent. Note: Completion of Office Administration 260 with a grade of "C" or better is strongly recommended. This course may be taken 4 times; a maximum of 3 units of credit may be earned in Office Administration 255 and Computer and Information Systems 255.

•260—Word Processing Concepts in the Modern Office 2 Units
Office Administration 260 covers the effect of automated office equipment on office organization structures including the four phases of word processing (origination, production, reproduction, and distribution); the roles of management and secretaries; and career opportunities in the word processing field. Lecture 2 hours. Prerequisite: Eligibility for one of the following: Business—General 101 or English 120 or English 131.

•270—Word Processing Management 3 Units
Not Offered.

•280—Information Word Processing 9 Units
Office Administration 280 has been designed to meet the immediate employment needs of private industry. This program is non-traditional in approach, and offers students an intensive semester-length course in information word processing, with hands-on training on state-of-the-art information processing systems. Upon successful completion of this course, students will have the necessary skills and knowledge to obtain immediate employment in industry. Lecture 6 hours, laboratory 9 hours. Prerequisite: Concurrent enrollment in or completion of Office Administration 210, with a grade of "C" or better or equivalent, Office Administration 110, and eligibility for Business—General 110. Note: Concurrent enrollment in or completion of Office Administration 260 is strongly recommended.

•285—Information Word Processing Upgrade 1 Unit
Office Administration 285 is a course designed to further enhance the skills and knowledge of those students who are presently employed in, or have had prior experience in, information word processing. This course will encompass a wide spectrum of advanced information systems applications, tailor-made to meet the students' specific needs. Lecture 1 hour, laboratory 3 hours (9 weeks); Prerequisite: Office Administration 255 or equivalent. Note: This course may be taken 4 times; a maximum of 4 units may be earned on different hardware and software.

PALEONTOLOGY

•191—General Paleontology 3 Units
A survey of the classification and history of life including both plants and animals. An interpretation of the significance of fossils as evidence of organic evolution and of the adaptations of life to its physical and biological environments. The sequences of floras and faunas as found in the rocks. An outline of the human's physical development. Lecture 3 hours. Prerequisite: None. Note: A good high school record or second semester standing is recommended. Transfer credit: CSU, UC, USC

PROFESSIONAL APPEARANCE, See Family and Consumer Studies 133
PHILOSOPHY

•101—Introduction to Philosophy  3 Units
Philosophy 101 is an overview of the classical and modern problems of philosophy. A consideration of the nature of knowledge, views of the cosmos or world, and the problems of truth, beauty, ethics, and theology. Lecture 3 hours. Prerequisite: Sophomore standing preferred. A satisfactory score on the Reading subtest of the English Placement Examination or a “B” average in United States History and Government courses in high school or 12 units of college courses with a “C” average. Transfer credit: CSU, UC, USC

•112—Human Values and Environmental Issues  2 Units
Philosophy 112 is a study of human attitudes toward the physical world and the biological organisms within it. Topics covered will be the definition of values, a study of historical viewpoints, and a brief assessment of the consequences of such attitudes in creating and/or solving environmental problems. Students will briefly study certain current environmental problems, then consider various ways in which a consciously considered value system might be deliberately applied to specific kinds of solutions to them. Lecture 2 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a “B” average in United States History and Government courses in high school or 12 units of college courses with a “C” average. Transfer credit: CSU, UC, USC

•113—Comparative World Religions: Near East  3 Units
Philosophy 113 is a comparative study of the salient ideas and philosophical developments in Zoroastrianism, Judaism, Christianity, Islam, and the primitive and national religions of the past. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination, or a “B” average in United States History and Government courses in high school or 12 units of college courses with a “C” average. Transfer credit: CSU, UC, USC

•114—Comparative World Religions: Far East  3 Units
Philosophy 114 is a comparative study of the salient ideas and philosophical developments in Hinduism, Buddhism, other Indian religions, Taoism, Confucianism, and Shinto. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a “B” average in United States History and Government courses in high school or 12 units of college courses with a “C” average. Transfer credit: CSU, UC, USC

•116—Ethics  3 Units
Philosophy 116 is an analysis of the concept of the good, the scope of morality, the deterministic controversy, the standards of evaluation, and the major ethical systems. Attention is given to contemporary positivism, John Dewey, Marxist ethics, authority as an ethical principle, intuitionism, egoistic hedonism, utilitarianism, ethical idealism, Immanuel Kant, modern Aristotelianism, and existentialism. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination, or a “B” average in United States History and Government courses in high school or 12 units of college courses with a “C” average. Transfer credit: CSU, UC, USC

•117—Introduction to Logic  3 Units
Philosophy 117 is a study of the structure and functions of language, inductive and deductive forms of reasoning and argumentation. Includes the study of formal argumentation and its application to ordinary language, symbolic forms of reasoning, and propositional functions. Analyzes analogical argumentation, the methods of experimental inquiry, the nature of scientific hypothesis, and probability theory. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination, or a “B” average in United States History and Government courses in high school or 12 units of college courses with a “C” average. Transfer credit: CSU, UC, USC

•119—History of Philosophy: Ancient Period  3 Units
Philosophy 119 is a critical study of the philosophic systems and ideas of the Western civilization from the ancient Greeks to the end of the Medieval period, with special emphasis on the Pre-Socratics, Plato, Aristotle, Roman philosophical thinkers, and the impact of Christian thought on Western culture. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination, or a “B” average in United States History and Government courses in high school or 12 units of college courses with a “C” average. Transfer credit: CSU, UC, USC

•120—History of Philosophy: Modern Period  3 Units
Philosophy 120 is a critical study of the philosophic systems and ideas of the modern period which have had a dominant impact on Western civilization, with special emphasis on Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, Kant,
Hegel, Marx, Nietzsche, Twentieth Century British and American philosophers. Lecture 3 hours.

**Prerequisite:** A satisfactory score on the Reading subtest of the English Placement Examination, or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. **Transfer credit:** CSU, UC, USC

**121—Islam: A Way of Life** 3 Units

Philosophy 121 is a study of Islam as both a religion and culture. The study of the religion includes a consideration of beliefs and practices of the faith, and the history of the man, Muhammad, who revealed the faith. The study of the culture includes a consideration of the early successors to Muhammad, religious and political power. Lecture 3 hours. **Prerequisite:** A satisfactory score on the Reading subtest of the English Placement Examination or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. **Transfer credit:** CSU, UC, USC

**122—Latin American Philosophy** 3 Units

Philosophy 122 is the study of the various forms which philosophy has taken in Latin America. The course examines the background of Inca, Aztec, and European thought patterns. It emphasizes philosophy of civilization and philosophy of art, including the contributions of the Mexican muralist, Representative viewpoints, such as scholasticism, romanticism, and evolutionism are described. The course underlines the vitality of Latin American positivism, and it concludes with rival twentieth century currents of thought. Lecture 3 hours. **Prerequisite:** A satisfactory score on the Reading subtest of the English Placement Examination or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. **Transfer credit:** CSU, UC, USC

**102—Introduction to Darkroom** 2 Units

Photography 102 offers students experience in darkroom printing from contact to 11 x 14 enlargements. Lecture 1 hour, laboratory 3 hours. **Prerequisite:** Photography 101 or Photography 111. **Transfer credit:** CSU, USC

**103—Intermediate Photography** (See Note)

Photography 103 offers students experience in the use of meters, filters, indoor and outdoor portraiture, and lighting. Lecture, laboratory — (See Note). **Prerequisite:** Photography 101 or Photography 111 (which may be taken concurrently). **Note:** One hour is required for each one-half unit earned. May be taken for the number of units indicated on the Schedule. This course may be taken 4 times; a maximum of 6 units may be earned. **Transfer credit:** CSU, USC

**105—Advanced Photography** (See Note)

Photography 105 is an advanced course for competent students with previous training and experience. Portfolio preparation, Individual assignments. Lecture and laboratory — (See Note). **Prerequisite:** Photography 103. **Note:** One hour is required for each one-half unit earned. May be taken for the number of units indicated on the schedule. This course may be taken 3 times; a maximum of 8 units may be earned. **Transfer credit:** CSU

**107—Special Projects — Photography** (See Note)

Photography 107 offers art majors an opportunity to combine artistic ability with photo technique, to complete projects related to a specific field; such as botany, technical graphics, advertising design. Lecture and laboratory. **Prerequisite:** None. **Note:** Two hours are required for each unit earned. May be taken for one, two, or three units according to the Schedule. This course may be taken 4 times; a maximum of 6 units may be earned. Art 130 is recommended. Special assignments will be required for architecture majors. **Transfer credit:** CSU

**108—Photocommunication** 2 Units

Photography 108 consists of units in journalism, cover design, slide presentations, brochures, magazine illustration, and TV still communication. Lecture 1 hour, laboratory 3 hours. **Prerequisite:** Previous course in photography at college or high school or experience in the field. **Note:** This course may be taken 4 times; a maximum of 8 units may be earned. **Transfer credit:** CSU, UC, USC
PHYSICAL EDUCATION

All first-time college students are required to enroll in physical education activity classes for their first two consecutive semesters of attendance at Glendale Community College, except that persons may be exempt upon presentation of evidence that they (1) have attained the age of 21 years, or (2) are registered for 8 units or less, or (3) have a medical excuse on file, or (4) are enrolled in special programs such as extended day only, licensed vocational nursing, or block-unit occupational programs.

It is recommended that a variety of activities be taken during a student’s attendance at Glendale Community College. Physical Education classes may be taken 4 times unless otherwise noted. All classes are coeducational unless otherwise noted.

120 — Physical Education

126 — Sports Officiating — Track and Field, Softball

127 — Physical Education Activities

130 — Adapted Activities
● 135—Beginning Archery
   ½-2½ Units
   Not offered. Transfer credit: CSU, UC, USC

● 136—Intermediate Archery
   ½-2½ Units
   Not offered. Transfer credit: CSU, UC, USC

● 137—Advanced Archery
   (Varsity) ½-2½ Units
   Not offered. Transfer credit: CSU, UC, USC

● 140—Beginning Badminton
   ½-2½ Units
   Not offered. Transfer credit: CSU, UC, USC

● 141—Intermediate Badminton
   ½-2½ Units
   Additional practice and more detailed instruction in fundamentals, development of singles and doubles play, and court strategy. Lecture ½-1½ hours, laboratory 1¼-3½ hours. Prerequisite: Physical Education 140. Transfer credit: CSU, UC, USC

● 142—Advanced Badminton
   (Varsity) ½-2½ Units
   Not offered. Transfer credit: CSU, UC, USC

● 147—Intermediate Baseball
   ½-2½ Units
   Instruction in rules and game strategy is included in Physical Education 147 as well as practice in fundamental techniques of throwing, fielding, batting, and team play. Fall Semester only. Lecture ½-1½ hours, laboratory 1¼-3½ hours. Prerequisite: None. Transfer credit: CSU, UC, USC

● 148—Advanced Baseball
   (Varsity) ½-2½ Units
   Development of team play for competitive participation. Spring Semester only. Daily. Lecture ½-1½ hours, laboratory 1¼-3½ hours. Prerequisite: Some previous playing experience in baseball. Note: Limited to students trying out for the varsity teams. Transfer credit: CSU, UC, USC

● 150—Beginning Basketball
   ½-2½ Units
   Instruction and practice in the fundamental techniques and rules of the game. Development of team play and competitive participation. Lecture ½-1½ hours, laboratory 1¼-3½ hours. Prerequisite: None. Transfer credit: CSU, UC, USC

● 154—Intermediate Basketball
   ½-2½ Units
   Instruction in rules and game strategy, practice in fundamental techniques. Lecture ½-1½ hours, laboratory 1¼-3½ hours. Prerequisite: None. Transfer credit: CSU, UC, USC

● 157—Advanced Basketball
   (Varsity) ½-2½ Units
   Individual instruction and development of team play for competitive participation. Fall Semester only. Daily. Lecture ½-1½ hours, laboratory 1¼-3½ hours. Prerequisite: Some experience on an organized team. Note: Limited to students competing for the varsity team. Transfer credit: CSU, UC, USC

● 160—Advanced Basketball
   (Varsity) (Women) ½-2½ Units
   Physical Education 160 provides the opportunity for individual instruction and development of team play for competitive participation with other community colleges. Lecture ½-1½ hours, laboratory 1¼-3½ hours. Prerequisite: Some previous playing experience in basketball. Note: Limited to students competing for the varsity team. Transfer credit: CSU, UC, USC

● 162—Beginning Bicycling
   ½-2½ Units
   Not offered. Transfer credit: CSU, UC, USC

● 163—Intermediate Bicycling
   ½-2½ Units
   Not offered. Transfer credit: CSU, UC, USC

● 164—Rhythmic Aerobics
   ½-2½ Units
   Physical Education 164 offers vigorous exercise set to contemporary music. The course is designed for students wishing to develop or maintain aerobic fitness while also learning about the physiology of fitness. Routines of rhythmic exercise are designed to develop or maintain cardio-respiratory endurance and body flexibility. The course is designed for students at all levels of fitness. Lecture 1-1½ hours, laboratory 1¼-3½ hours. Prerequisite: None. Transfer credit: CSU, UC, USC

● 166—Weight Training for Women
   ½-2½ Units
   Physical Education 166 is designed to give the female student an opportunity to develop a physical fitness program through weight training. It provides opportunity for the further development of body flexibility, strength and coordination, along with contributing to the general physical well-being of the individual. Students will be prepared to set up and design a personal weight training program to fit their individual needs. Lecture ½-1½ hours, laboratory 1¼-3½ hours. Prerequisite: None. Transfer credit: CSU, UC, USC

● 167—Body Mechanics and Weight Training (Men)
   ½-2½ Units
   Conditioning exercises to increase body flexibility and strength of musculature in various parts of the body; to develop skilled body control with respect to agility, balance, and coordination; and to produce skills in relaxation. Lecture ½-1½ hours, laboratory 1¼-3½ hours. Prerequisite: None. Transfer credit: CSU, UC, USC
168—Intermediate Body Mechanics (Men) ½-2½ Units
Conditioning exercises to increase strength, body flexibility, and overall physical fitness. Instruction and practice of techniques of weight training. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: Physical Education 167. Transfer credit: CSU, UC, USC

169—Body Mechanics — Women 1-2½ Units
Physical Education 169 will offer the student experiences in conditioning exercises to increase body flexibility, increase cardio-respiratory endurance, and increase the strength of the musculature in various parts of the body. Physical Education 169 will help to develop skilled body control with respect to agility, balance, and coordination; and to produce skills in relaxation. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: None. Transfer credit: CSU, UC, USC

170—Bowling ½-2½ Units
Instruction and practice in the fundamental techniques and rules of the game. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: None. Note: Each student is responsible for the lane fee. Transfer credit: CSU, UC, USC

172—Cross-Country Running (Varsity) (Men) ½-2½ Units
Designed for competitive participation. Fall Semester only. Daily. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: None. Note: Recommended for distance runners and track students wishing to condition themselves for track. Transfer credit: CSU, UC, USC

173—Cross-Country Running (Varsity) (Women) 2½ Units
Designed for competitive participation. Fall Semester only. Lecture 1½ hours, laboratory 3½ hours. Prerequisite: None. Note: Recommended for distance runners and track students wishing to condition themselves for track. Transfer credit: CSU, UC, USC

194—Structural Dynamics and Stretch ½-2½ Units
Physical Education 194 provides practical experience through exercise in conjunction with discussion periods to enable the student to develop a knowledge of body-mind interaction in the area of athletics. The student learns how to influence and control this interaction, with regard to pain and energy flow, suppleness, relaxation, stretch and strength factors. Lecture 1-2½ hours, laboratory 1-2½ hours. Prerequisite: None. Transfer credit: CSU, UC, USC

195—Football Theory 2 Units
Theory and development of offensive and defensive formations. Lecture 4 hours. Prerequisite: Physical Education 198 taken concurrently. Note: Recommended for physical education majors. This course may be repeated for a total of four (4) units. Transfer credit: CSU, UC, USC

197—Intermediate Football ½-2½ Units
Instruction and practice in techniques of individual offense and defense. Spring Semester only. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: None. Transfer credit: CSU, UC, USC

198—Advanced Football (Varsity) ½-2½ Units
Development of team play for competitive participation. Fall Semester only. Daily. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: Previous experience on an organized team. Note: Limited to students trying out for the varsity team. Transfer credit: CSU, UC, USC

200—Touch Football ½-2½ Units
Instruction and practice in fundamentals, with the development of team play and competition. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: None. Transfer credit: CSU, UC, USC

202—Beginning Golf ½-2½ Units
Instruction and practice in the fundamentals of golf. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: None. Transfer credit: CSU, UC, USC

203—Intermediate Golf ½-2½ Units
Advanced instruction and practice on the golf course are included in this course. Lecture 1½-3½ hours, laboratory 1½-3½ hours. Prerequisite: Physical Education 202 or equivalent. Transfer credit: CSU, UC, USC

205—Advanced Golf (Varsity) ½-2½ Units
Development of play for competitive participation. Spring Semester only. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: Some previous playing experience in golf. Note: Limited to students competing for the varsity team. Transfer credit: CSU, UC, USC

207—Beginning Gymnastics (Men) ½-2½ Units
Not offered. Transfer credit: CSU, UC, USC

208—Beginning Gymnastics ½-2½ Units
Physical Education 208 covers techniques in tumbling and apparatus activities with emphasis upon body balance, coordination, and rhythm.
Lecture ½-1½ hours, laboratory 1½-3½ hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

- **213—Hiking and Backpacking** ½-2½ Units
  Not Offered. **Transfer credit:** CSU, UC, USC

- **218—Beginning Judo** ½-2½ Units
  Not Offered. **Transfer credit:** CSU, UC, USC

- **219—Martial Arts** ½-2½ Units
  Not Offered. **Transfer credit:** CSU, UC, USC

- **220—Judo** ½-2½ Units
  Not Offered. **Transfer credit:** CSU, UC, USC

- **222—Paddle Tennis** ½-2½ Units
  Instruction and practice in the basic strokes, fundamental techniques, and rules of the game. A sport very similar to regular tennis. Lecture ½-1½ hours, laboratory 1½-3½ hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

- **224—Racquetball** ½-2½ Units
  Introduction and practice in the fundamental techniques and rules of the game. Each student is responsible for a minimal court fee. Lecture ½-1½ hours, laboratory 1½-3½ hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

- **226—Running Aerobics** 1-2½ Units
  Physical Education 226 is an introduction to running aerobics as a lifetime activity. The purpose of this course is to make the student aware of the physiological and psychological benefits derived from running aerobics. Lecture ½-1½ hours, laboratory 1½-3½ hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

- **227—Self Defense for the Woman** ½-2½ Units
  Physical Education 227 teaches practical self defense techniques for women stressing both physical and psychological preparedness for defense. Lecture ½-1½ hours, laboratory 1½-3½ hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

- **229—Soccer** ½-2½ Units
  Instruction and practice in the basic fundamentals, techniques, and rules. Development of team play, with emphasis on offensive and defensive strategy. Lecture ½-1½ hours, laboratory 1½-3½ hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

- **230—Advanced Soccer** ½-2½ Units
  Instruction and practice in intercollegiate play including techniques, rules, strategy, and history as well as comprehensive physical training. Lecture ½-1½ hours, laboratory 1½-3½ hours. **Prerequisite:** None. **Note:** Some experience playing soccer is recommended. **Transfer credit:** CSU, UC, USC

- **231—Softball** ½-2½ Units
  This course will furnish practice in the fundamental skills of throwing,fielding, hitting, and team play. Instruction in rules and game strategy will be given. Conditioning and stretching exercises are presented to increase strength and flexibility. Lecture ½-1½ hours, laboratory 1½-3½ hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

- **235—Advanced Softball** (Varsity) ½-2½ Units
  Physical Education 235 provides the opportunity for individual instruction and development of team play for competitive participation with other community colleges. Lecture ½-1½ hours, laboratory 1½-3½ hours. **Prerequisite:** Some previous playing experience in softball. **Note:** Limited to students competing for the varsity team. **Transfer credit:** CSU, UC, USC

- **237—Beginning Swimming** ½-2½ Units
  Not Offered. **Transfer credit:** CSU, UC, USC

- **238—Intermediate Swimming** ½-2½ Units
  Not Offered. **Transfer credit:** CSU, UC, USC

- **239—Swimming Conditioning** ½-2½ Units
  Not Offered. **Transfer credit:** CSU, UC, USC

- **240—Advanced Swimming and Diving** (Varsity) ½-2½ Units
  Not Offered. **Transfer credit:** CSU, UC, USC

- **242—Beginning Diving** ½-2½ Units
  Not Offered. **Transfer credit:** CSU, UC, USC

- **245—Intermediate Water Polo** ½-2½ Units
  Not Offered. **Transfer credit:** CSU, UC, USC

- **247—Advanced Water Polo** (Varsity) ½-2½ Units
  Not offered. **Transfer credit:** CSU, UC, USC

- **250—Senior Lifesaving** ½-2½ Units
  Not Offered. **Transfer credit:** CSU, UC, USC

- **253—Water Safety Instruction** ½-2½ Units
  Not Offered. **Transfer credit:** CSU, UC, USC

- **256—Synchronized Swimming** ½-2½ Units
  Not Offered. **Transfer credit:** CSU, UC, USC

- **259—Underwater Safety Instruction** ½-2½ Units
  Not offered. **Transfer credit:** CSU, UC, USC
• 261—Beginning Tennis ½-2½ Units
Instruction and practice in the basic strokes, fundamental techniques and rules of the game. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: None. Transfer credit: CSU, UC, USC

• 262—Intermediate Tennis ½-2½ Units
Instruction and practice in individual fundamentals, development of team play and court strategy. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: Some previous playing experience in tennis. Transfer credit: CSU, UC, USC

• 263—Advanced Tennis ½-2½ Units
Individual instruction and development of advanced techniques for competitive participation. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: Physical Education 262 or equivalent. Transfer credit: CSU, UC, USC

• 266—Advanced Tennis (Varsity) (Men) ½-2½ Units
Development of team play for competitive participation. Offered Spring Semester only. Daily. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: Some previous playing experience in tennis. Note: Limited to students trying out for the varsity team. Transfer credit: CSU, UC, USC

• 267—Advanced Tennis (Varsity) (Women) ½-2½ Units
Development of advanced techniques for competitive participation with other community colleges. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: Some previous experience in tennis. Note: Recommended for students trying out for the varsity team. Offered Spring Semester only. Transfer credit: CSU, UC, USC

• 270—Intermediate Track and Field ½-2½ Units
Instruction and practice in fundamental techniques of running and field events. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: None. Transfer credit: CSU, UC, USC

• 272—Advanced Track and Field (Varsity) (Men) ½-2½ Units
Designed for competitive participation. Spring Semester only. Daily. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: None. Note: Limited to students trying out for the varsity team. Transfer credit: CSU, UC, USC

• 273—Advanced Track and Field (Varsity) (Women) 2½ Units
Designed for competitive participation. Spring Semester only. Lecture 1½ hours, laboratory 3½ hours. Prerequisite: None. Note: Limited to students trying out for the varsity team. Transfer credit: CSU, UC, USC

• 274—Beginning Volleyball ½-2½ Units
Instruction and practice in volleyball techniques with team tournaments. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: None. Transfer credit: CSU, UC, USC

• 275—Intermediate Volleyball ½-2½ Units
Instruction and practice in volleyball techniques with team tournaments for experienced players. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: Physical Education 274 or equivalent. Transfer credit: CSU, UC, USC

• 276—Advanced Volleyball ½-2½ Units
Development of advanced techniques in volleyball for competitive participation with other community colleges. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: Physical Education 275 or equivalent. Transfer credit: CSU, UC, USC

• 281—Advanced Volleyball (Varsity) (Men) ½-2½ Units
Instruction and practice in individual fundamentals, development of team play and court strategy for competitive participation. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: Previous playing experience in volleyball. Note: Recommended for physical education majors. Limited to students trying out for varsity volleyball teams. Transfer credit: CSU, UC, USC

• 282—Advanced Volleyball (Varsity) (Women) ½-2½ Units
Physical Education 282 provides the opportunity for individual instruction of development of team play for competitive participation with other community colleges. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: Some previous playing experience in volleyball. Note: Limited to students competing for the varsity team. Transfer credit: CSU, UC, USC

• 285—Beginning Water Skiing ½-2½ Units
Not Offered. Transfer credit: UC, USC
PHYSICAL SCIENCE

•131—General Physical Science  4 Units
Physical Science 131 is designed to give a cultural appreciation of the scientific method and an elementary working knowledge of the fields studied. Emphasis is placed on the methods by which scientific facts are established and related by means of scientific theories. The course is an integrated survey of physics, chemistry, geology, and astronomy. Elementary mathematical concepts are introduced as required. Lecture 4 hours, discussion 1 hour, laboratory 1 hour. Prerequisite: None. Transfer credit: CSU, UC, USC

PHYSICS

•101—Engineering Physics  5 Units
Physics 101 is a course in the mechanics and properties of matter. An intensive study of motion, dynamics and statics, oscillations, wave motion, and sound, with emphasis upon vector analytical methods. Lecture 5 hours, laboratory 2 hours. Prerequisite: Physics 105 with a grade of "C" or better or physics taken in high school with a grade of "C" or better and Mathematics 103 with a grade of "C" or better. (Mathematics 104 must be taken concurrently or prior to taking Physics 101.) Note: Physics 101 is restricted to engineering and science majors. Transfer credit: CSU, UC, USC

•102—Engineering Physics  4 Units
Physics 102 is a study of static electricity including Gauss' Law, potentials and electric fields, direct and alternating current theory, laws of magnetism and magnetic properties of matter, electromagnetism and induced currents, Maxwell's Equations and radiation theory. Lecture 4 hours, laboratory 2 hours. Prerequisite: Physics 101 with a grade of "C" or better and Mathematics 104 with a grade of "C" or better. Transfer credit: CSU, UC, USC

•103—Engineering Physics  5 Units
Physics 103 covers heat, thermodynamics, optics, and modern physics. An intensive study of the concept of fluids, temperature, heat, calorimetry, heat transfer, thermodynamics, entropy, and kinetic theory. A thorough presentation of geometrical and physical optics with considerable emphasis on modern physics including quantum physics, wave mechanics, and special relativity. Lecture 5 hours, laboratory 2 hours. Prerequisite: Physics 101 with a grade of "C" or better and Mathematics 104 with a grade of "C" or better. Transfer credit: CSU, UC, USC

•105—General Physics  4 Units
Physics 105 is a general course including properties of matter, mechanics, heat, wave motion, and sound. Lectures, demonstrations, problems, and laboratory work. Lecture 3 hours, discussion 1 hour, laboratory 2 hours. Prerequisite: Physics or chemistry (any one of: Physics 110 or one year of physics in high school, Chemistry 141 or Chemistry 110, or one year of chemistry in high school) and trigonometry (one semester of trigonometry in high school or Mathematics 102 which may be taken concurrently with Physics 105). Note: Required of pre-dental and premedical students. Transfer credit: CSU, UC, USC

•106—General Physics  4 Units
Physics 106 is a general course including the study of light, electricity, magnetism, and modern physics. Lectures, demonstrations, problems, and laboratory work. Lecture 3 hours, discussion 1 hour, laboratory 2 hours. Prerequisite: Physics 105. Note: Required of pre-dental and premedical students. Transfer credit: CSU, UC, USC

•110—Introduction to Physics  3 Units
Physics 110 is a brief presentation of some of the more important and usual phenomena in physics with classroom demonstrations and lectures in mechanics, heat, sound, light, electricity, magnetism, and modern physics. Lecture 3 hours.
Prerequisite: Mathematics 141 and Mathematics 140, or one year of algebra and one year of geometry in high school. Note: This course may not be taken for credit by students who have completed Physics 101 or Physics 105. Transfer credit: CSU, UC, USC

APPLIED PHYSICS, See Technical Education 145

PHYSIOLOGY, See Biology 121

POLICE SCIENCE, See Administration of Justice

POLITICAL SCIENCE

• 101—Introduction to Government 3 Units
Political Science 101 is an introduction to the principles and problems of government in the United States with emphasis placed on the Federal government and the interplay of democratic politics at the national level. Political Science 101 meets the California State requirement in the United States Constitution. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a “B” average in United States History and Government courses in high school or 12 units of college courses with a “C” average. Note: Political Science 101 allows only one unit of credit for students who have completed Political Science 105 or Social Science 131-132. Recommended for students seeking a Baccalaureate (4-year) degree. Transfer credit: CSU, UC, USC

• 102—Modern Comparative Governments 3 Units
Political Science 102 is a comparative study of the constitutional principles, governmental institutions, political parties, and recent history of policy and action of selected foreign governments. Lecture 3 hours. Prerequisite: Political Science 101 or Political Science 105, or Social Science 131-132 and a satisfactory score on the Reading subtest of the English Placement Examination or a “B” average in United States History and Government courses in high school or 12 units of college courses with a “C” average. Transfer credit: CSU, UC, USC

• 103—Introduction to World Politics 3 Units
Political Science 103 develops an intellectual framework which will order students' thoughts on world politics and enable them to analyze and evaluate present and potential issues and events that affect international power and the pursuit of peace. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination or a “B” average in United States History and Government courses in high school or 12 units of college courses with a “C” average. Transfer credit: CSU, UC, USC

• 104—American Political Culture 3 Units
Political Science 104 is an examination of American attitudes towards politics and government through an analysis of American literature. Lecture and discussion 3 hours. Prerequisite: Completion of one of the following courses: Political Science 101, 102, 103, 105, 106, 108, or equivalent. Transfer credit: CSU, UC, USC

• 105—American Political Ideals 2 Units
Political Science 105 is a study of the theory and practices of the American democratic political process and formal institutional functions. Special emphasis is placed on the Federal Constitution and how it operates in the context of political democracy. The role of parties and groups in politics is analyzed. Political Science 105 meets the California State requirement in the United States Constitution. Lecture 2 hours. Prerequisite: None. Note: It is recommended that the California State requirement in American History be completed prior to enrollment in this course. This course may not be taken for credit by students who have completed Political Science 101 or Social Science 131-132. Students who have successfully completed Political Science 106 will be granted only two units of credit for completion of Political Science 151. Students who have successfully completed Political Science 105 and Political Science 106 will not be granted credit for Political Science 151. Recommended for students seeking an Associate in Arts degree. Transfer credit: CSU, UC, USC

• 106—American State and Local Government 1 Unit
Political Science 106 is a study of the origins, structures, and functions of California government and politics with emphasis on the State level, but including the city, county and district levels. Lecture 2 hours. (9 weeks) Prerequisite: None. Note: It is recommended that this course be taken after the completion of the Constitution requirement. This course may not be taken for credit by students who have completed Social Science
131-132. Students who have successfully completed Political Science 106 will be granted only two units of credit for completion of Political Science 151. Students who have successfully completed Political Science 105 and 106 will not be granted credit for Political Science 151. Transfer credit: CSU, UC, USC

- **107—Probability and Statistics** 3 Units
  Political Science 107 is an introduction to the areas of probability and statistics. A consideration of the methods of gathering, classifying, and analyzing statistical data. Lecture 3 hours. **Prerequisite:** A satisfactory score on the Reading subtests of the English Placement Examination or a “B” average in United States History and Government courses in high school or 12 units of college courses with a “C” average. One year of high school algebra or Mathematics 141 or equivalent. Transfer credit: CSU, UC, USC

- **109—Field Studies in Comparative Government**
  Area Studies 1-6 Units
  Political Science 109 provides units of credit for the study of government and politics in foreign countries at the student's own expense in programs provided by agencies approved in advance by the college and under the direction of a Glendale Community College instructor. (The agency must be bonded or maintain a trust account.) One unit of credit is earned for each 48 hours of course activity. **Prerequisite:** None. **Note:** Approval of program and units of credit attempted must be obtained from the Administrative Dean—Instruction prior to foreign travel. Transfer credit: CSU

- **110—Contemporary World Problems** 3 Units
  Political Science 110 covers current problems of too many people, too little food, and too little space. Accent is on the political and sociological solutions to the problems posed by excess fertility and declining food per capita in select areas of the world. Lecture 3 hours. **Prerequisite:** A satisfactory score on the Reading subtest of the English Placement Examination or a “B” average in United States History and Government courses in high school or 12 units of college courses with a “C” average. Transfer credit: CSU, UC, USC

- **111—The Modern Middle East: Its Political and Economic Impact** 3 Units
  Political Science 111 is a survey of the countries of the Middle East: historical antecedents, peoples, cultures, religions; the impact of colonialism and imperialism on the emergence of modern states and their impact upon modern world politics and economics. Lecture 3 hours. **Prerequisite:** None. Transfer credit: CSU, UC, USC

- **151—Fundamentals of Government and You** 3 Units
  Political Science 151 is designed for the non-transfer student; this course deals with the individual as a student, as a worker, and as a member of society. It examines the benefits, controls, and rights of the individual which result from our political system as it operates through government. Meets the requirements of the A.A. Degree in the United States Constitution and state and local government. Lecture 3 hours. **Prerequisite:** None. **Note:** Students who have successfully completed Political Science 106 will be granted only two units of credit for completion of Political Science 151. Students who have successfully completed Political Science 105 and Political Science 106 will not be granted credit for Political Science 151.

**PRESCHOOL CHILD, See Family and Consumer Studies 135**

**PRINTING**

- **101—Survey of Graphic Arts Fundamentals** 2 Units
  Not Offered. Transfer credit: CSU

- **102—Letterpress Presswork Procedures** 2 Units
  Not Offered. Transfer credit: CSU

- **103—Offset Printing Process** 2 Units
  Not Offered. Transfer credit: CSU

- **104—Advanced Offset Processes** 2 Units
  Not Offered. Transfer credit: CSU

**PRINTING, SILK SCREEN, See Art 174, 175**
PSYCHOLOGY

• 101—General Psychology 3 Units
Psychology 101 is an intensive study of human behavior; emotions, learning, memory, motivation, and thinking; the individual differences in ability, intelligence, personality, maturation, and development; personal applications. Lecture 3 hours. **Prerequisite:** A satisfactory score on the Reading subtest of the English Placement Examination or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. **Note:** Sophomore standing preferred. Transfer credit: CSU, UC, USC

• 102—Advanced General Psychology 3 Units
Not offered. Transfer credit: CSU, UC, USC

• 103—Physiological Psychology 3 Units
Psychology 103 is an exploration of the relationship between mind and body, emphasizing the neurological correlates of behavior. The course includes the structure and functions of the nervous system, methodology, concepts of physiological psychology, and current developments. Lecture 3 hours. **Prerequisite:** Psychology 101. Transfer credit: CSU, UC, USC

• 104—Social Psychology 3 Units
Psychology 104 deals with people as social beings. Topics covered include moral development, cooperation and competition, aggression, violence and war, prejudice, attitudes, conformity, the social psychology of sexual behavior, group processes, and non-verbal communication. Lecture 3 hours. **Prerequisite:** Psychology 101. Transfer credit: CSU, UC, USC

• 105—Psychology of Human Sexuality 3 Units
Psychology 105 is a study of human sexuality, including internal and external anatomy, physiological functioning, cultural and psychological influences, dysfunctions and their causes and corrections, sexual communication, conception, pregnancy and childbirth, and methods of birth control and family planning. Lecture 3 hours. **Prerequisite:** A grade of "C" or better in Psychology 101 or Psychology 131. Transfer credit: CSU, UC, USC

• 106—Developmental Psychology 3 Units
Psychology 106 is a general study of the psychology of the human growth process from the beginning of life to death. This course emphasizes the interrelationships between the growth process and psychological adjustment. Emotional, cognitive, social, personality, sensory and motor development will be considered, together with the major developmental tasks that affect these throughout an individual's lifetime. Lecture 3 hours. **Prerequisite:** Satisfactory score on the Reading subtest of the English Placement Examination. Transfer credit: CSU, UC, USC

• 107—Probability and Statistics 3 Units
Psychology 107 is an introduction to the areas of probability and statistics. A consideration of the methods of gathering, classifying, and analyzing statistical data. Lecture 3 hours. **Prerequisite:** A satisfactory score on the Reading subtest of the English Placement Examination or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. One year of high school algebra or Mathematics 141 or equivalent. Transfer credit: CSU, UC, USC

• 108—Loss, Death and Grief 3 Units
Psychology 108 is a study of loss experiences, including death, together with their impact on the grieving survivor. This course will examine historical and contemporary attitudes and practices. Various kinds of losses, including but not limited to loss by death, will be defined and explored. Stages of dying, death preparation, and stages of grieving and recovery will be included together with recommendations from modern experts for facilitating recovery. Lecture 3 hours. **Prerequisite:** None. Transfer credit: CSU

• 109—Introduction to Gerontology 3 Units
Psychology 109 is an introduction to the study of social gerontology, aging and its implications for the individual and society utilizing a multidisciplinary approach. Lecture 3 hours. **Prerequisite:** None. **Note:** This course may not be taken for credit by student who have completed Sociology 105. Transfer credit: CSU, UC, USC

• 110—The Psychology of Personal and Social Adjustment 3 Units
Psychology 110 is a study of the processes of human adjustment. The forces that shape healthy and unhealthy personality patterns will be studied. Principles will be applied to the problems of personal growth, interpersonal relationships, education, careers, marriage, parenthood and life values. Lecture 3 hours. **Prerequisite:** None. Transfer credit: CSU, UC, USC
•113—Psychology of Women 3 Units
Psychology 113 is a study of the psychological factors which contribute to the present emotional, sexual and economic status of the American woman. This study is designed to help the student better understand the experiences of women through the examination of family structure, social structure, female sexual and self-esteem. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU, UC, USC

•114—Psychology of Human Interaction 3 Units
Psychology 114 is designed to provide a study of the intrapsychic and interpersonal impediments to the effective maintenance of relationships in business, social and family contexts, together with recommendations for appropriate corrective action. The dynamic process of interaction exchange, the active participation of all parties, and specific blocks to effectiveness in these areas will be examined in depth. Intensive study of interaction goals, methods, and styles will aid students to identify and correct difficulties in a wide variety of interactional situations. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination. Transfer credit: CSU, UC, USC

•115—Abnormal Psychology 3 Units
Psychology 115 deals with maladaptive or abnormal behavior of human beings. Topics covered include classifications, clinical pictures, causal factors, treatment and outcomes of maladaptive patterns, assessment, therapy, and prevention. Lecture 3 hours. Prerequisite: Psychology 101. Transfer credit: CSU

•131—Marriage and Family Living 3 Units
Psychology 131 is a study of the psychological factors that contribute to marital adjustment. Major topics will include the nature of masculinity and femininity, the emotion of love, the partner selection process, marital compatibility, parenthood, marital conflict, and divorce. Lecture 3 hours. Prerequisite: None. Note: This course may not be taken for credit by students who have completed Sociology 131. Transfer credit: CSU, UC, USC

REAL ESTATE

Classes in Real Estate are offered for students interested in the field of real estate. The courses are designed to accommodate the real estate education needs of students in preparing for real estate careers as well as those already engaged in real estate services. The curriculum provides instruction designed to assist those wishing to obtain real estate sales and real estate broker licenses. Most of the courses are scheduled in the Extended Day program. A Certificate of Completion may be earned.

•101—Real Estate Principles 3 Units
Real Estate 101 covers the basic laws and principles of California real estate and gives understanding, background, and terminology necessary for advanced study in specialized courses. The course is of assistance to those preparing for the real estate sales license examination. Lecture 3 hours. Prerequisite: None. Note: This course may be taken 3 times; a maximum of 9 units may be earned. Transfer credit: CSU

•120—Real Estate Practice 3 Units
Real Estate 120 covers the day-to-day operations in real estate roles and brokerage, including listing, prospecting, advertising, financing, sales techniques, escrow, and ethics. This course applies toward State’s educational requirement for the broker’s examination. Lecture 3 hours. Prerequisite: A grade of “C” or better in Real Estate 101 or equivalent. Transfer credit: CSU

•130—Real Estate Economics 3 Units
Real Estate 130 deals with those trends and factors which affect the value of real estate; the nature and classification of land economics; the development of property, construction and subdivision; economic values and real estate evaluation; real estate cycles and business fluctuations, residential market trends, real property, and special purpose property trends. Lecture 3 hours. Prerequisite: A grade of “C” or better in Real Estate 101 or
collections, rent schedules, tenant selection, neighborhood analysis, purchasing, evictions, preventive maintenance, depreciation, record keeping, and economics of property; and compiles a set of procedures for practical utilization in property management. Lecture 3 hours. Prerequisite: A grade of "C" or better in Real Estate 101 or equivalent. Transfer credit: CSU

• 200—buying and selling a business 3 Units
Real Estate 200 presents all the information necessary to conduct the purchase or sale of a small business. This course focuses on what a real estate agent should know so that he or she could properly list, offer, negotiate and sell a business. The techniques of marketing, financing, financial reporting, taxation, merging and business management are covered in detail. Lecture 3 hours. Prerequisite: None. Note: This course may not be taken for credit by students who have completed Finance 200. Transfer credit: CSU

• 250—escrow I 3 Units
Real Estate 250 is an introduction to the terminology, legal aspects, and process in the escrow function in real estate transactions. Emphasis is on the process of taking, processing, and closing of escrow. Lecture 3 hours. Prerequisite: A grade of "C" or better in Real Estate 101 or equivalent. Transfer credit: CSU

• 251—escrow II 3 Units
Real Estate 251 is an advanced study of the principles and methods of handling escrows involving title to land, exchanges, sale of Deed of Trust and Note, and Leasehold. Included is a study of the various forms and practice employed in the drawing of the escrow instructions, required documents, and buyers' and sellers' closing statement. Lecture 3 hours. Prerequisite: A grade of "C" or better in Real Estate 250 or equivalent.

• 252—escrow III 3 Units
Real Estate 252 is an advanced study of three-part exchange escrows with cash outs, bulk sales, condominiums, subdivisions, and depository escrows and mobile home escrows. Lecture 3 hours. Prerequisite: A grade of "C" or better in Real Estate 251 or equivalent.

• 253—escrow IV 3 Units
Real Estate 253 is a study of the advanced techniques involved in preparing and settling the ten primary exchange escrows, from the even-exchange through the multiple-compound exchange with companion pickup and resale escrows. Lecture 3 hours. Prerequisite: None.
•275—Tax Aspects and Exchange of Real Estate 3 Units
Real Estate 275 is an advanced course on tax principles governing the acquisition, ownership, operation, and disposition of real property as well as tax planning and integration of tax concepts and procedures. Lecture 3 hours. Prerequisite: A grade of “C” or better in Real Estate 120 and Real Estate 140 or equivalent.

RECREATION LEADERSHIP

•105—Physical Education and Recreation for the Handicapped 2 Units
Recreation Leadership 105 is designed to train people to provide physical education and recreational activities for the handicapped, this course will help the student understand and appreciate needs, desires, and problems related to various handicaps as well as learn how to provide such activities. Lecture 2 hours, laboratory 2 hours. Prerequisite: None. Transfer credit: CSU, USC

•109—Recreation Leadership 2 Units
Recreation Leadership 109 is a basic training course for playground directors and recreation leaders. A study in the organization and administration of community and school recreation programs. Emphasis is placed on training in leadership techniques and on the development of programs in recreation, sports, and athletics. Lecture 2 hours, laboratory 1 hour. Prerequisite: None. Note: Recommended for physical education majors and students entering the recreation field. Transfer credit: CSU, UC, USC

RUSSIAN

•110—Basic Conversational Russian I 2 Units
Fundamentals of grammar and correct pronunciation are taught in Russian 110 so that the student can employ a small working vocabulary in conversation and writing. The ability to read simple Russian is also developed. Lecture 2 hours, laboratory 1 hour. Prerequisite: None. Note: This course may be taken 2 times; a maximum of 4 units may be earned.

SECRETARIAL STUDIES, See Office Administration

SIGN LANGUAGE

•101—Sign Language I 4 Units
Sign Language 101 is designed to provide basic instruction in sign language for students desiring to become interpreters for institutions, hospitals, schools, and industry. It is also intended to provide training for those who are deaf and those who have hard-of-hearing or deaf people with related learning disabilities in their homes. Lecture 3 hours, laboratory 3 hours. Prerequisite: None. Note: This course may be taken 2 times; a maximum of 8 units may be earned. Transfer credit: USC

•102—Sign Language II 4 Units
Sign Language 102 is designed to provide a continuation of the first course for students interested in vocational opportunities and for those with family members who can profit from this method of communication. Lecture 3 hours, laboratory 3 hours. Prerequisite: Sign Language 101 or equivalent. Note: This course may be taken 2 times; a maximum of 8 units may be earned. Transfer credit: USC

•103—Sign Language III 4 Units
Sign Language 103 expands on the first two courses by utilizing basic learnings, incorporating idiomatic language, and developing smooth transitions from character to character to build competency. Lecture 3 hours, laboratory 3 hours. Prerequisite: Sign Language 102 or equivalent. Note: This course may be taken 3 times; a maximum of 12 units may be earned. Transfer credit: USC

SOCIAL SCIENCE

•101—Introduction to Education 2 Units
Social Science 101 is an introductory course designed to acquaint the student with the field of teaching, with the personal and professional qualifications needed by the successful teacher, with the duties and opportunities of the professional educator, and with the availability of teacher training facilities and requirements. Lecture 2 hours. Prerequisite: A satisfactory score on the
Reading subtest of the English Placement Examination or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. Transfer credit: CSU

102—Educational Participation in the Community I 1 Unit
Social Science 102 provides field experience in community agencies such as social services, guidance clinics, health services, schools and others are emphasized. Weekly class meetings utilize role playing, case studies, lecture, and discussion to promote understanding of these experiences. Student logs detailing activities, reactions, and impressions during the field experience are required. Lecture 1 hour, laboratory/fieldwork 10 hours to be arranged. Prerequisite: Guidance 196 and Psychology 111 with grades of "C" or better. Note: This course may be taken 4 times; a maximum of 4 units may be earned. Transfer credit: CSU

103—Educational Participation in the Community II 1 Unit
Not Offered. Transfer credit: CSU

110—Computers and Society 3 Units
Social Science 110 is a survey course designed to introduce the terminology and concepts of electronic data processing and to discuss the impact of computers upon organizations, and upon American social and political life. It is directed toward students who do not need an in-depth technical knowledge of computing but who desire an understanding of the fundamentals of computing and its impact upon the individual and society. Lecture 3 hours. Prerequisite: None. Note: Social Science 110 will not transfer as a business data processing course. Transfer credit: CSU, UC, USC

121—Ethnic and Racial Minorities 3 Units
Social Science 121 is a survey of the major ethnic and racial minorities in the United States. A basis for a better understanding of the socio-economic, cultural and political conditions among the following minorities: Afro-American, Mexican-American, Chinese, Japanese, and American Indian. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtests of the English Placement Examination or a "B" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. Note: This course is included in the list of State-approved college courses for school staff preparation in the history, culture, and current problems of racial and ethnic minorities (Article 3.3, Education Code Section 13344.1). Transfer credit: CSU, UC, USC

122—Mexican-American Studies 3 Units
Social Science 122 is a study of the Mexican-Americans in contemporary society. An analysis of the role, accomplishments and contributions of the Mexican-American people. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtests of the English Placement Examination or a "C" average in United States History and Government courses in high school or 12 units of college courses with a "C" average. Note: This course is included in the list of State approved college courses for school staff preparation in the history, culture, and current problems of racial and ethnic minorities (Article 3.3, Education Code Section 13344.1). Transfer credit: CSU, UC, USC

123—Asians in America 3 Units
Social Science 123 is a survey course which examines the experience of Asian American groups (Chinese, Japanese, Filipinos, Koreans, and others) from the mid-nineteenth century to the present. The course emphasizes these themes as it considers each immigrant group: stereotypes, push and pull factors in immigration, labor experiences, racism and discrimination in American society as applied to Asian Americans, contributions of Asian Americans to American society, community life before and since World War II, problems of the Asian American community today. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU, UC, USC

124—International/Intercultural Studies 3 Units
Social Science 124 is a course designed to provide an introduction to the human imperatives of global awareness (or understanding) through contemporary challenges. Studies are conducted on the ways in which the individual personality is shaped in a particular culture and civilization. Objectively the students will: (1) Grasp the nature of values, habits, and systems for survival which are culturally and socially engendered. (2) Recognize the effects of culture and society on their lives as well as the lives of people in other countries. (3) Acquire familiarity with the process of analyzing a culture and society in terms of value orientations. (4) Be able to identify and present a case for cultural pluralism in the American educational system. Lecture 3 hours. Prerequisite: None. Transfer credit: CSU, UC, USC

125—The American Experience—American Heritage 3 Units
Social Science 125 covers issues and events, from colonial times through the first World War which are discussed and evaluated in relation to their social, cultural, political, and economic significance. Important contributions of significant men
and women to the historical development of the country are highlighted. Students are introduced to the contemporary American political process and its formal institutional functions in a comparative study of federal, state, and local governments. The operation of the federal constitution in a political democracy is emphasized. The roles of political parties and special interest groups are examined. Students learn the structure and function of government in relation to the individual. Major rights and freedoms of citizens and non-citizens in the United States and California are delineated and discussed. The completion of Social Science 125 and 126 fulfills the California State requirements in American History, Institutions and State and Local Government. Lecture 3 hours. **Prerequisite:** A grade of "C" or better in English 164 or equivalent. **Note:** Social Science 125 and 126 are designed for F-1 visa students who speak a language other than English as their first language, or naturalized citizens, or immigrants seeking naturalization who have never taken U.S. Government or U.S. History taught in English or in a U.S. high school. All others should take the standard courses in U.S. History and Government. No credit allowed for students who have completed History 110, 111, 117, 118, or 151; Economics 111; Political Science 101, 105, 106, or 151; Social Science 131 or 132. **Transfer credit:** CSU, UC, USC

**131—Introduction to Social Science** 4 Units
Social Science 131 meets the California State requirements in American History. The interrelationship of the social sciences and their application to the problems of group living in the twentieth century are developed through a survey of the principal facts and concepts of history and sociology. Problems are studied in relationship to the historical development of the United States. The student is led to acquire a body of knowledge through an analysis of historical and contemporary social problems. Lecture 4 hours. **Prerequisite:** None. **Note:** Social Science 131 allows only two units of credit for students having credit in History 110 or 111. If History 117-118 are completed for credit, then no units are allowed for Social Science 131. **Transfer credit:** CSU, UC, USC

**132—Introduction to Social Science** 4 Units
Social Science 132 meets the California State requirements in the American Constitution, and State and Local Government. The interrelationship of the social sciences and their application to the problems of group living in the twentieth century are developed through a survey of the principal facts and concepts of political science and economics. Problems are studied in relationship to governments in the United States. The student is led to acquire a body of knowledge through an analysis of contemporary political and economic problems. Lecture 4 hours. **Prerequisite:** None. **Note:** Social Science 132 allows only two units of credit for students having credit in Political Science 101 or Political Science 105. If only Political Science 106 has been completed for credit, three units are allowed. **Transfer credit:** CSU, UC, USC

**133—A History of Great Ideas** 3 Units
*(Formerly Physical Science 133)*
Social Science 133 is intended to stimulate the intellectually curious by exploring the notable ideas and discoveries in the history of mankind. It is a seminar, colloquial style discussion class that examines the forces in history that have shaped modern industrialized man and his culture. Some of the notable ideas and individuals studied include reason and faith, Einstein's relativity,
Newtonian mechanics, Copernicus and heliocentricity, Darwinian evolution, Pasteur and the germ theory, the nature of man, theology, democracy, automation and transportation, electricity, Gutenberg and the printing press, and the computer. The students' understanding of the present will be enhanced by a better understanding of the past. Lecture 3 hours. Prerequisite: A satisfactory score on the Reading subtest of the English Placement Examination. Transfer credit: CSU

SOCIETY

141—Student Leadership 2 Units
Fundamentals of student leadership. A study of leadership theory, parliamentary law, committee techniques, democratic organization, principles and functions of student government and group leadership problems. Lecture 2 hours, laboratory 3 hours by arrangement. Prerequisite: None. Note: Open to all students interested in developing leadership skills. Officers of all student organizations are urged to enroll.

SPANISH

101—Beginning Spanish I 5 Units
Spanish 101 covers the fundamentals of Spanish grammar. Students are trained to pronounce Spanish correctly, to acquire a small working vocabulary which they use in conversation and writing, and to read simple Spanish. Lecture 3 hours, language laboratory 2 hours. Prerequisite: Eligibility for English 101. Note: Students may not receive credit for Spanish 101 if they have received credit for Spanish 115. In addition to regular class hours, the student must spend two half hour periods a week in the laboratory. Transfer credit: CSU, UC, USC

102—Beginning Spanish II 5 Units
Spanish 102 is based upon the reading and interpretation of idiomatic Spanish prose, with a further study of pronunciation and review of the fundamentals of Spanish grammar. Lecture 3 hours, language laboratory 2 hours. Prerequisite: Spanish 101, or two years of Spanish in high school completed within the past two years. Note: This course may not be taken for credit by students who have completed Spanish 116. In addition to the regular class hours, the student must spend two half-hour periods a week in the laboratory. Transfer credit: CSU, UC, USC
•103—Intermediate Spanish I 4 Units
Spanish 103 includes further study of Spanish grammar and idioms, intensive and extensive reading in contemporary colloquial Spanish. The emphasis is on written composition, and practical application of the grammar skills acquired in Spanish 101 and 102. This class is conducted entirely in Spanish. Lecture 4 hours. Prerequisite: Spanish 102, or three years of Spanish in high school completed within the past two years. Note: In addition to the regular class hours, the student must spend two half-hour periods a week in the laboratory. Transfer credit: CSU, UC, USC

•104—Intermediate Spanish II 4 Units
Spanish 104 is a continuation of Spanish 103 with reading of more difficult literary texts, and increased emphasis on composition and conversation. This class is conducted entirely in Spanish. Lecture 4 hours. Prerequisite: Spanish 103, or four years of Spanish in high school completed within the past two years. Note: In addition to the regular class hours, the student must spend two half-hour periods a week in the laboratory. Transfer credit: CSU, UC, USC

•105—Conversational Spanish 3 Units
Spanish 105 is a course of intensive practice in the expression and comprehension of spoken Spanish. Lecture 3 hours. Prerequisite: One year of college Spanish, or three years of high school Spanish, or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer credit: CSU, UC, USC

•106—Advanced Conversational Spanish 3 Units
Spanish 106 is a course of intensive practice in the expression and comprehension of spoken Spanish. Lecture 3 hours. Prerequisite: One year of college Spanish, or three years of high school Spanish, or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer credit: CSU, UC, USC

•110—Basic Conversational Spanish I 2 Units
Spanish 110 is an introduction to Spanish with emphasis on developing essential skills in communication. The verbal active method used stresses oral expression. The course develops working knowledge of reading and writing as well. Includes use of tapes or cassettes in the language laboratory. Lecture 2 hours, laboratory 1 hour. Prerequisite: None. Note: No credit will be granted to those students who have taken Spanish 102 prior to Spanish 110 or who take Spanish 102 concurrently with Spanish 110. This course may be taken two times; a maximum of 4 units may be earned.

•111—Basic Conversational Spanish II 2 Units
Spanish 111 is an introduction to Spanish with emphasis on developing essential skills in communication. The verbal active method used stresses oral expression. The course develops working knowledge of reading and writing as well. Includes use of tapes or cassettes in the language laboratory. Lecture 2 hours, laboratory 1 hour. Prerequisite: Spanish 110. Note: This course may not be taken for credit by students who have completed Spanish 102 prior to Spanish 111 or who take it concurrently with Spanish 111. This course may be taken 2 times; a maximum of 4 units may be earned.

•115—Spanish for the Spanish Speaking I 5 Units
Spanish 115 provides intensive training in oral and written Spanish for students who have a familiarity with the language but little or no formal instruction in it. Structure of the language, oral communication, fundamentals of grammar, and composition are included. Lecture 5 hours. Prerequisite: A native Spanish-speaking background. Note: This course may not be taken for credit by students who have completed Spanish 101. Transfer credit: CSU, UC, USC

•116—Spanish for the Spanish Speaking II 5 Units
Spanish 116 is a continuation of Spanish 115. Emphasis is on reading comprehension, composition, oral communication, and a more advanced study of the structure of the language. Lecture 5 hours. Prerequisite: Spanish 115. Note: This course may not be taken for credit by students who have completed Spanish 102. This course will meet the prerequisite for Spanish 103. Transfer credit: CSU, UC, USC

•117—Basic Conversational Spanish for Medical Personnel 1 Unit
Spanish 117 is an introduction to Spanish, with emphasis on developing essential skills in communication, for medical personnel. The verbal active method is used and oral expression is stressed. The course also develops working knowledge of reading and writing Spanish. Lecture 3 hours. Prerequisite: Spanish 111 or equivalent. Note: This course may be taken 2 times; a maximum of 2 units may be earned.
118—Conversational Spanish for Law Enforcement and Fire Fighting Personnel 1 Unit
Spanish 118 is an introduction to Spanish, with emphasis on developing essential skills in communication, for law enforcement and fire fighting personnel. The verbal active method is used and oral expression is stressed. The course also develops a working knowledge of reading and writing Spanish. Lecture 3 hours. Prerequisite: Spanish 111 or equivalent. Note: This course may be taken 2 times; a maximum of 2 units may be earned.

124—English Translations of Masterpieces of Hispanic Literature 3 Units
Spanish 124 is a study of samplings of the best in Hispanic essays, novels and short stories, translated into English for the non-Spanish speaking student. Lecture 3 hours. Prerequisite: English 101. Note: This course may not be taken for credit by students who have completed Spanish 125 or Spanish 126. Transfer credit: CSU, UC, USC

125—Survey of Spanish Literature 3 Units
Spanish 125 is a lower division survey of the literature of peninsular Spain, from the ballads of the Medieval period to the twentieth century. Reading and class lectures are entirely in Spanish and are supplemented by tapes, records and films. Lecture 3 hours. Prerequisite: Spanish 104 and Spanish 106, or equivalent. Note: Students may receive only one unit of credit for Spanish 125 if they have received credit for Spanish 124. Transfer credit: CSU, UC, USC

126—Survey of Spanish American Literature 3 Units
Spanish 126 is a lower division survey of the literature of Spanish America, from the prehispanic literature of the Incas, as recorded by el Inca Garcilaso de la Vega, and the histories of the Mayas in the Popol Vuh, to the literature of the twentieth century. Reading and lectures will be entirely in Spanish. Tapes and records will be used to supplement text and lectures. Lecture 3 hours. Prerequisite: Spanish 104 and Spanish 106 or equivalent. Note: Students may receive only one unit of credit for Spanish 126 if they have received credit for Spanish 124. Transfer credit: CSU, UC, USC

127—Mexican Literature From Pre-Hispanic to Present Day 3 Units
Spanish 127 is a study of the literature of Mexico from Nahua poetry to current authors. Reading and class lectures are entirely in Spanish and are supplemented by tapes, records and films. Lecture 3 hours. Prerequisite: Spanish 104 and Spanish 106, or Spanish 116 or equivalent. Transfer credit: CSU, UC, USC

128—Cuban Literature 3 Units
Spanish 128 is a study of the literature of Cuba from the period of exploration to the present. Lecture 3 hours. Prerequisite: Spanish 104 and Spanish 106, or Spanish 116, or equivalent. Transfer credit: CSU, UC, USC

138—Spanish for School Personnel 2 Units
Spanish 138 is a study of the fundamentals of Spanish grammar and correct pronunciation so that teachers and other school personnel can communicate with parents and pupils whose language is Spanish. Dialogues are emphasized. Lecture and practice 2 hours. Prerequisite: None.

146—Language for Business — Bilingual 5 Units
Not offered.

SPEECH COMMUNICATIONS

100—Interpersonal Communication 3 Units
Speech 100 is designed to provide students with an understanding of factors affecting human communication on a day-to-day basis and to provide laboratory experiences aimed at developing skills in such areas as language, listening, assertiveness, conflict resolution, nonverbal behaviors, group problem solving, and cross cultural communication. The instructional approach is deductive — inductive — deductive involving lecture/discussions, activities demonstrating concepts covered, and further lecture/discussion for purposes of additional clarification. Lecture 3 hours. Prerequisite: Eligibility for English 120. Transfer credit: CSU, UC, USC

101—Public Speaking 3 Units
Emphasis is placed upon organization and delivery of extemporaneous speeches. Experience is provided in group discussion, oral reading, and informative and persuasive speaking. This course satisfies speech requirements of those expecting to transfer to specialized and professional work: in colleges and universities. Lecture 3 hours. Prerequisite: Eligibility for English 101. Transfer credit: CSU, UC, USC
• 102—Public Speaking  3 Units  
Not Offered. Transfer credit: CSU, UC, USC

• 103—Group Discussion  3 Units  
Speech 103 involves techniques and theories of discussion with emphasis on group productivity and oral communication in groups. Use of logical, clear reasoning in research, analysis of problems, effectiveness of participation, and leadership in the discussion mode are also examined. Class activities include role playing, problem solving, panel discussions, and symposium forum discussions. Lecture 3 hours. Prerequisite: A satisfactory score on the English Placement Examination; or a grade of "B" or better in English 191 or English 165 or Business—General 101; or a grade of "C" or better in English 120 or English 131. Transfer credit: CSU, UC, USC

• 105—Voice and Diction  3 Units  
Speech 105 is designed to improve vocal quality and force, pitch flexibility, rate, articulation, and pronunciation. The student will develop an understanding of the speech mechanism. Emphasis will be placed on improvement through increased self-perception and practice exercises. Lecture 3 hours. Prerequisite: Eligibility for English 101. Note: It is recommended that ESL students complete English 168 with a grade of "C" or better before registering for this class. Transfer credit: CSU, UC, USC

• 139—Communication With the Deaf  2 Units  
Speech 139 provides instruction in sign language, finger-spelling, and lipreading. Combined, they are referred to as total communication. The history and purposes of such signs and practice in their use are included. Lecture and practice 3 hours. Prerequisite: None.

• 150—Cognitive and Linguistic Reintegration  2 Units  
Speech 150 is designed for students evidencing functional difficulty in the areas of auditory memory, processing and comprehension, and/or oral expression — secondary to an acquired neurological disorder. Lecture 2 hours, laboratory 1 hour. Prerequisite: The student must have an acquired neurological disorder affecting cognitive andlinguistic competence. Note: This course may be taken 4 times; a maximum of 8 units may be earned.

• 151—Communication Skills for the Language Disabled Adult  2 Units  
Speech 151 is designed for students who demonstrate a significant deficit in receptive language skills and/or expressive language skills. Emphasis will be placed on active student experimentation with specific communication skills acquired in the individual’s laboratory component of the class. Lecture 2 hours, laboratory 1 hour. Prerequisite: Only students who have a communication disability may enroll. Note: This course may be taken 4 times; a maximum of 8 units may be earned.

• 152—Speech Lab  1 Unit  
Speech 152 provides a setting for diagnostic testing and the subsequent development of an individualized educational plan for specialized group instruction of students who have communication disorders. Laboratory 3 hours. Prerequisite: Student must meet the Title 5 regulations for eligibility to receive special education service. Note: This course may be taken 4 times; a maximum of 4 units may be earned.

TECHNICAL EDUCATION

• 140—Fundamentals of Engineering Documentation 3 Units
Technical Education 140 is a fundamental course in reporting technical information for those participating in engineering or manufacturing programs. Lecture 3 hours. Prerequisite: A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE test, or the English Placement Examination, or English 162 or satisfactory completion of an oral examination, and English 164 or English 191, or equivalent. Note: Technical Education 140 is required in Architectural Drafting and Design, Drafting/Electro-Mechanical Design, and Technical Graphics and Design certificate programs. Also recommended for Electronics, Machine Technology and Welding certificates.

• 142—Technical Mathematics 3 Units
Technical Education 142 is a review of the basic principles of arithmetic. This course is specifically designed for those students in the various mechanical trade programs. It will provide a working knowledge and understanding of basic shop mathematics as required in the mechanical technical trades. Phases covered include: Metric system, applied geometry, shop trigonometry, tapers, screw threads, gears, and measuring instruments. Lecture 3 hours. Prerequisite: None. Note: Technical Education 142 will meet the prerequisite requirements for Technical Education 143.

• 143—Technical Mathematics 3 Units
Technical Education 143 is a review of the basic principles of arithmetic covered briefly. Practical algebra through quadratic equations will be covered. The work is illustrated by practical problems drawn from the industrial field. Lecture 3 hours. Prerequisite: Satisfactory completion of Technical Education 142, or equivalent.

• 145—Applied Physics 3 Units
Technical Education 145 studies the application of physics to industry. Fundamental concepts, pressure and buoyancy in fluids, simple and compound machines, hydraulic and pneumatic machines, work, energy, and power, composition and resolution of forces, heat — its measurement, transfer, and conversion to work, light and color, magnetism, atomic energy, and electronics. Lecture 3 hours. Prerequisite: Satisfactory completion of Technical Education 142 or Electronics and Computer Technology 100 or Mathematics 141, or equivalent. Transfer credit: CSU

• 146—Materials and Processes 3 Units
Technical Education 146 is a study of the manufacture and properties of ferrous and non-ferrous alloys, ceramic products, wood, cements, plastics, fuels, glass, concrete, rubber, etc. Their uses, adaptability, and limitations in industry will be studied. Current methods of manufacture and technique will be covered. The course covers testing of materials by the destructive and nondestructive methods and the physical properties of materials. Lecture 3 hours. Prerequisite: Satisfactory completion of Technical Education 145, Physics 110, Physical Science 131, or equivalent. Note: Technical Education 146 is a mandatory requirement for the engineering major certificate. Transfer credit: CSU

• 147—Survey of Robotics 1 Unit
Technical Education 147 is a survey course designed to familiarize students enrolled in Technical Education industrial courses with the fundamentals of robotics and robot industrial systems. It is a basic study of the high-technology field of robotics, in order to develop an awareness of the field as it applies to individual areas of technical expertise. Areas covered include Artificial Intelligence, Robot Classifications and Axis Geometry, Elements of Robot Systems, Power and Positioning, Servo Systems, Teach-Pendents, Controllers, and Sensors. Hands-on experience in the use and positioning of actual robot trainers is emphasized. Lecture 2 hours, laboratory 1 hour. (9 weeks) Prerequisite: None.

TELEVISION

• 101—Introduction to Television Production (Formerly Educational Media Technology 104) 3 Units
Television 101 is intended for the student majoring in the preparation of instructional television materials and the operation of video equipment. The topics to be covered will include the recognition and utilization of video equipment, production of instructional television programs, and an examination of the most recent video technologies. Field trips to professional production facilities will also be included. Lecture 2 hours, laboratory 4 hours. Prerequisite: None. Note: This course may be taken 3 times; a maximum of 9 units may be earned. Transfer credit: CSU

• 102—Television Production Systems 3 Units
Television 102 will teach students how to operate professional television production equipment
such as three-tube color cameras, 3/4" video-cassette recorders, waveform monitors, vector-scope, character generators, and computerized 3/4" video editing systems. Projects will emphasize portable production techniques. Related topics will include Time Code, components of the video signal, on-line and off-line editing, and time-base correction. This course may be taken concurrently with the Television Production Lab (Television 104). Lecture 2 hours, laboratory 4 hours. **Prerequisite:** Television 101 or equivalent.

**104—Intermediate Television Production**
3 Units
Television 104 is designed to meet the needs of the student majoring in the techniques and disciplines of television production. The emphasis will be on actual production of television programs for the campus and community. Students will also be involved in programming operations for the educational cable channel. Lecture 2 hours, laboratory 4 hours. **Prerequisite:** Television 101, or equivalent. **Note:** This course may be taken 3 times; a maximum of 9 units may be earned. **Transfer credit:** CSU

**BROADCASTING-JOURNALISM,**
See Journalism 106

**THEATRE ARTS**

**101—Introduction to Theatre,**
**Television and Motion Pictures**
3 Units
Theatre Arts 101 is designed to give students a broad introduction to the performing arts and technical skills of television, film, and theatre. The course will use field trips, play analysis, lectures, and audiovisual presentations to give students a first or renewed appreciation of these three dramatic media. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

**102—Theatre History**
3 Units
Theatre Arts 102 is a survey of the history of the theatre through its major influences concentrating on Greek, Roman, Renaissance, Elizabethan, Restoration and Modern era. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

**103—Fundamentals of Acting**
**(Vocal Interpretation)**
3 Units
Theatre Arts 103 is a course planned to introduce the student to the theory and basic mechanics of vocal control and interpretation necessary for the successful study of acting. Lecture 3 hours, laboratory 2 hours. **Prerequisite:** None. **Note:** Concurrent enrollment in Dance 183 is required. This course may be taken 2 times; a maximum of 6 units may be earned. **Transfer credit:** CSU, UC, USC

**104—Fundamentals of Acting**
**(Body Control)**
3 Units
Theatre Arts 104 deals with the development of bodily control and interpretation and the integration of a controlled voice and body. Lecture 3 hours, laboratory 2 hours. **Prerequisite:** Theatre Arts 103. **Transfer credit:** CSU, UC, USC

**105—Theatre Arts Workshops**
1-3 Units
Students enrolled in this course will be formed into a company to present the Glendale Community College drama productions. Students will be assigned to work in accordance with their interests and talents. The following phases of a producing theatre are involved: acting, directing, playwriting, business administration, and publicity. Rehearsals are mandatory each week. Usually 10-15 hours per week. Usually ten weeks are spent preparing a production. Two productions are attempted each semester. **Prerequisite:** Theatre Arts 103-104 either completed or in progress, or equivalent. **Note:** This course may be taken 4 times; a maximum of 12 units may be earned. A proportionate amount of work will be assigned according to the number of units elected. **Transfer credit:** CSU, UC, USC

**107—Drama Heritage**
3 Units
Theatre Arts 107 is a survey of dramatic literature from the classical to the modern period from the production point of view. Periods of study include Greek, Medieval, Renaissance, Restoration, and Modern Realism. The course will combine the reading of plays with field trips to local theatres and in-class audio-visual presentations to give the student the means to analyze and appreciate the plays both as literature and performance. Lecture 3 hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

**109—Stage Make-up**
1 Unit
Instruction in the use and application of all types of stage make-up. Students from this course will compose the make-up crew for all College productions. Theatre Arts majors should have at least one semester of make-up. Laboratory 3 hours. **Prerequisite:** None. **Transfer credit:** CSU, UC, USC

**110—Stage Make-up**
1 Unit
Theatre Arts 110 is a continuation of Theatre Arts 109 with emphasis on unusual character make-up. Laboratory 3 hours. **Prerequisite:** Theatre Arts 109. **Transfer credit:** CSU, UC, USC
• 121 — Stage Scenic Design  2 Units
Theatre Arts 121 is a practical course in instruction in the fundamentals of designing stage scenery. All the sets used in Glendale Community College productions are designed by this class. Some ability in art, costuming, or theatre techniques is helpful. Lecture, 1 hour, laboratory 3 hours. Prerequisite: Theatre Arts 131 (3 units) or equivalent. Transfer credit: CSU, UC, USC

• 122 — Stage Scenic Design  2 Units
Theatre Arts 122 is a continuation of Theatre Arts 121 with more emphasis on originality of design. Lecture 1 hour, laboratory 3 hours. Prerequisite: Theatre Arts 121. Transfer credit: CSU, UC, USC

• 123 — Stage Costume Design Workshop  1-4 Units
Theatre Arts 123 is a course in the designing and construction of group costumes for stage, ensembles, etc. This course includes the planning for and the buying of suitable materials, design and color schemes, the design and construction of costumes and accessories, arrangement and maintenance of the costume wardrobe. Students in this course design and make costumes for school dramatic programs. Lecture 2 hours, laboratory 6 hours. Prerequisite: Family and Consumer Studies 117 and/or Family and Consumer Studies 101. (Family and Consumer Studies 117 may be taken concurrently). Note: This course may be taken 4 times; a maximum of 8 units may be earned. A proportionate amount of work will be required according to the number of units elected by the students (2. To be Arranged hrs. per unit). Transfer credit: CSU, UC, USC

• 131 — Technical Stage  (See Note)
Theatre Arts 131 is a laboratory class in the construction, painting, and handling of scenery and scenic effects and in the operation of the stage. All technicians for staging the various Glendale Community College productions are drawn from this class. It is required that class members have free time to devote to rehearsals and performances. Theatre Arts majors should have at least one semester of technical stage. See also Theatre Arts 105. Prerequisite: None. Note: This course may be taken 4 times; a maximum of 9 units may be earned. A proportionate amount of work will be required according to the number of units elected by the student and signed for at the time of registration. Transfer credit: CSU, UC, USC

• 134 — Practical and Theoretical Aspects of Stage Lighting  2 Units
Theatre Arts 134 is for the advanced student in technical theatre. It is a course designed to develop the skills and techniques which are necessary for the student's participation and appreciation of the art of stage lighting. It is hoped that the student will develop, as a result of familiarity with stage lighting practice, a sense of balance and rhythm with regard to color, light and shadow, and mass. Laboratory 6 hours. Prerequisite: Theatre Arts 131 (6 units) or equivalent. Transfer credit: CSU, UC, USC

• 140 — Introduction to Performance for the Camera  3 Units
Theatre Arts 140 is a comprehensive introduction to performing in the media of television and film. The course explores the styles and the mastery of technical specifics demanded by each medium. The approach is to teach on-camera techniques simply and correctly, while providing a broad understanding of why and how things are done in media production. Practical aspects of facilitating a performance career are covered: getting an agent, joining the unions, and acquiring the necessary tools of the trade, such as pictures and resumes. Lecture 3 hours, laboratory 2 hours. Prerequisite: None.

VOCATIONAL NURSING, See Allied Health

WELDING

• 117 — Introduction to Welding  3 Units
Welding 117 consists of Oxy-Acetylene welding, flame cutting, (manual and automatic), bronze and silver brazing and soldering. These processes are discussed and demonstrated. The student is given experience in applying the principles by individual practice on a sequence of selected plates and manipulative exercises on various metals. Lecture 1-2 hours, laboratory 3-4 hours. Prerequisite: A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164, or English 191, or equivalent. Note: This course may be taken 4 times; a maximum of 12 units may be earned. Transfer credit: CSU

• 118 — General Welding  2-3 Units
Welding 118 consists of theory and techniques in basic Shielded Metal Arc Welding and Flux
Cored Arc Welding. The student is given experience in applying the principles by individual practice on a sequence of selected plates and manipulative exercises on mild steel. Lecture 1-2 hours, laboratory 3-4 hours. **Prerequisite:** Welding 117. **Note:** This course may be taken 4 times; a maximum of 12 units may be earned.

**121—Occupational Welding** 5 Units
Welding 121 is the first in a series of occupational welding courses designed to prepare the student for employment in the welding industry. It covers the theory of welding processes, welding safety, terms, basic metallurgy, and the fundamentals of metallic arc and oxy-acetylene welding. Lecture 3 hours, laboratory 6 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent. **Note:** This course may be taken 3 times; a maximum of 15 units may be earned.

**122—Occupational Welding** 5 Units
Welding 122 is second in a series of occupational welding courses designed to prepare the student for employment in the welding industry. It covers fundamentals of blueprint reading, interpreting shop drawings and sketches, advanced metallic arc and oxy-acetylene welding and provides, an introduction to tungsten inert gas and metal inert gas arc welding. Lecture 3 hours, laboratory 6 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent and Welding 121 or equivalent. **Note:** This course may be taken 3 times; a maximum of 15 units may be earned.

**123—Occupational Welding** 5 Units
Welding 123 is third in a series of occupational welding courses designed to prepare the student for employment in the welding industry. It covers basic preparation for welding certification, advanced metallic arc, tungsten inert gas, metal inert gas, and oxy-acetylene welding, including specific welding exercises needed to prepare the student for the manipulative phase of the certification examination. Lecture 3 hours, laboratory 6 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent and Welding 122 or equivalent. **Note:** This course may be taken 3 times; a maximum of 15 units may be earned.

**124—Occupational Welding** 5 Units
Welding 124 is fourth in a series of occupational welding courses designed to prepare the student for employment in the welding industry. It will cover final preparation for a welding certification in metallic arc, tungsten inert gas, and metal inert gas arc welding. Lecture 3 hours, laboratory 9 hours. **Prerequisite:** A satisfactory score on the Glendale Community College ESL Placement Test, or the ABLE Test, or the English Placement Examination, or English 164 or English 191, or equivalent and Welding 123 or equivalent. **Note:** This course may be taken 3 times; a maximum of 15 units may be earned.

**125—Advanced Welding Procedures** 1-4 Units
Welding 125 is advanced welding procedures and practices for experienced students or industrial workers who wish to improve and update their manipulative skills or prepare for a specific certification in metallic arc, tungsten inert gas, or metal inert gas welding. Laboratory 3-12 hours by arrangement. **Prerequisite:** Welding 117 or Welding 121, or equivalent. **Note:** Hours to vary according to student needs; 48 hours laboratory equals 1 unit. This course may be taken 4 times; a maximum of 16 units may be earned.

**WORD PROCESSING, See Office Administration; Computer and Information Systems**

**WORK EXPERIENCE, See Cooperative Education**
Nationally-ranked Vaquero Football
GENERAL EDUCATION REQUIREMENTS FOR GRADUATION FROM COLLEGES AND UNIVERSITIES

The requirements for college and university entrance with advanced standing vary significantly.

It is important for students who plan to transfer to a four-year college or university at the close of their community college studies to decide early which college they will enter. Having decided this, they should plan their program in accordance with the requirements of that institution.

All art courses were re-numbered effective Fall, 1986. Not all college and universities have updated the articulation agreements relating to the re-numbering of the art courses as of this printing of the 1987-1988 edition of the catalog. Prior to taking an art course for General Education it is recommended that the acceptability of the course be verified with the Office of School Relations at the college or university to which transfer is being anticipated.

In general, students who are eligible for admission to a university at the time of twelfth year graduation are admitted to that institution with full credit for all courses which are listed by that university as first two-year courses which they have completed at Glendale Community College, provided they have maintained a satisfactory record in all work taken since twelfth year graduation.

Ordinarily students with high school deficiencies are not permitted to transfer to a higher institution in advanced standing until they have proven their ability to do college work. They may remove their high school grade subject deficiencies by completing specific courses and maintaining a specific grade-point average.

TRANSFER TO THE UNIVERSITY OF CALIFORNIA

Applicants from the community college are subject to regulations governing admissions in advanced standing. They may not disregard their college record and apply for admission in freshman standing. Applicants for admission to advanced standing must meet the requirements listed below. See INTRODUCING THE UNIVERSITY OR ANSWERS FOR TRANSFERS for details.

ADMISSION AS A FRESHMAN

A freshman applicant is a student who has graduated from high school but has not enrolled since then in a regular session in any college or university. (This does not include attending a summer session immediately after high school graduation.)

If at the time of high school graduation the applicant has not met the requirements for admission to freshman standing described below or has not qualified by examination alone, he or she must meet the requirements for admission as a transfer student. If the applicant has registered in a community college, a four-year college, a university, or extension classes of college level since graduating from high school, the regulations governing admission to advanced standing apply.

To be eligible for admission to the University as a freshman, an applicant must meet the (1) Subject Requirement, (2) Scholarship Requirement, and (3) Examination
 Requirement described below. (The same requirements apply to freshman applicants who are not residents of California, except that they must meet a higher Scholarship Requirement.)

**ADMISSION REQUIREMENTS FOR RESIDENTS OF CALIFORNIA**

**SUBJECT REQUIREMENT**

To satisfy this requirement, students must have successfully completed a specific sequence of high school courses in the subjects as listed.

These required high school courses are often called the "a-f subjects". To be accepted by the University, they must appear on a list certified by the high school principal as "Courses to Meet Requirements for Admission to the University of California" and filed with the Director, Admissions and Outreach Services, of the University.

It will take 15 units* of high school work to fulfill the Subject Requirement. At least 7 of the 15 units must have been earned in courses taken during the last two years of high school.

(a) **History:** One year of United States history or one-half year of United States history and one-half year of civics or American government, taken in the ninth grade or later.

(b) **English:** Four years of college-preparatory English—composition and literature (All English courses must require substantial, recurrent practice in writing of extensive and structured papers, and must also require extensive reading of significant literature, to include classical or contemporary works in a variety of forms. It is expected that courses appropriate for the final years of high school study will demand a substantially higher level of the requirements and skills outlined above. Also, not more than one year (two semesters) of 9th grade English will be accepted for this requirement.

(c) **Mathematics:** Three years of mathematics—algebra, geometry, and advanced (second year) algebra.

(d) **Laboratory Science:** A year course in one laboratory science, taken in 10th grade or later.

(e) **Foreign Language:** Two years in one foreign language. (Any foreign language with a written literature will be accepted.)

(f) **College Preparatory Electives:** Four years. Four units in addition to those required in a. through e. above, to be chosen from at least two of the following subject areas: history, English, advanced mathematics, laboratory science**, foreign language, social science, and visual and performing arts. Elective courses should aim to improve a student's analytical ability, promote artistic development, and strengthen written and oral skills.

*A one-year course in high school is equivalent to one credit/unit.

**A science course in the ninth grade is an acceptable science elective provided it is designed to prepare students for laboratory science courses in the tenth grade and beyond.

**SCHOLARSHIP REQUIREMENT**

Applicants with grade-point averages of 3.3 or higher in the a-f subjects taken after the ninth grade, are eligible for admission to the University regardless of their scores on the standardized tests used for the Examination Requirement described below. Applicants are eligible if their grade-point averages are below 3.3 but above 2.77,
if they achieve the composite or total test score specified on the Eligibility Index. Grade-point averages are based on semester grades, unless the applicant's high school gives only year grades.

Grades earned in a-f subjects taken in the ninth grade or earlier will not be used to calculate the grade-point average for admission. However, these courses will be used to meet the Subject Requirement, if they are completed with grades of "C" or better.

If an applicant takes more than the minimum number of courses required in an a-f subject, only the highest grades will be used to calculate the grade-point average.

Mathematics Requirement—With regard to the "c" subject requirement, grades earned in the third year of mathematics (intermediate algebra) will be used only if they improve the student's grade-point average.

College Preparatory Elective Courses—Of the 4 units in elective courses called for under the new "f" subject requirement, 2 units must be completed with a grade of "C" or better, and all 4 units must be accepted by the high school for graduation. The best grades earned in any 2 of these units taken in grades 10 through 12 will be used in computing the grade-point average for admission.

Honors Level Courses—Students who take demanding, advanced academic courses in high school strengthen their preparation for University work and increase their chances of success in undergraduate study. To encourage students to take such courses in high school, the University gives extra weight to grades earned in honors level courses.

The grades earned in up to four units (eight semesters) of honors level courses taken during the last two years of high school will be counted on a scale of "A" equals 5 grade points, "B" equals 4, "C" equals 3. These courses must be in the following a-f subjects: history, English, advanced mathematics, laboratory science, and foreign language, and must be certified by the high school as offered at the honors level. In these fields and additionally, in the fields of computer science, social science, and the visual and performing arts, courses that are designed to prepare students for an Advanced Placement examination of the College Board and college courses that are transferable to the University are acceptable as honors level courses.

Repeated Courses—Any a-f course in which a student received a grade of "D" or "F" must be repeated with a higher grade or, in sequential areas of mathematics, chemistry, and foreign language only, validated by successful completion of advanced course work.

Note: Students who have completed a-f courses with "D" or "F" grades, should consult with their counselors concerning how these grades can be remedied and how the University will use them in evaluating their scholarship record.

EXAMINATION REQUIREMENT

To satisfy this admission requirement, an applicant must submit scores from the standardized test described below.

Students applying for admission to the fall term to a campus and/or undergraduate major where enrollment demands are expected to be great should take the tests as early as possible, and by December of their senior year at the latest. By doing so, they assure that their applications will receive prompt and full consideration.

The following tests are required of all freshman applicants:

1. One Aptitude test, either a. or b: (a) the Scholastic Aptitude Test (SAT)—The verbal and mathematics scores on this test must be from the same sitting; and (b) the American College Test (ACT)—The composite score will be used.
2. Three College Board Achievement Tests (ACH). These must include (a) English composition;* (b) Mathematics, Level 1 or 2; and (c) one test chosen from English literature, foreign languages, science, or social studies.

*The Achievement Test in Literature may not be substituted.

ADMISSION AS A TRANSFER STUDENT

Requirements for Residents of California:

The requirements for admission to the University as a transfer student depend on an applicant's high school record. Also, the transcript from the last college attended must show that (1) the applicant was a student in good standing, and (2) the student had earned a grade-point average of 2.0 or better in courses for which the University gives transfer credit.* Applicants whose averages were below 2.0 at any college attended may have to meet additional admission requirements.

MINIMUM ADMISSION REQUIREMENTS FOR TRANSFER APPLICANTS

To qualify for admission to the University as a transfer student, it is necessary to meet one of the three sets of requirements described below.

1. Those eligible for admission to the University upon graduation from high school — meaning that the Subject,** Scholarship, and Examination Requirements are satisfied — are eligible to transfer with a “C” (2.0) average in all transferable college coursework.

2. If the Scholarship Requirement is met but the Subject Requirement* is not satisfied, college courses in the subjects missing to be eligible to transfer must be taken. A grade of “C” or better in each of these required courses and an overall “C” (2.0) average in all transferable college coursework must be earned. If less than 12 quarter or semester units of transferable college coursework are completed, the Examination Requirement for freshman applicants must be satisfied.

3. Students not eligible for admission to the University upon graduation from high school having not met the Scholarship Requirement or having not met the Scholarship Requirement and did not complete all required “a-f” subjects must:
   a. Complete 84 quarter units or 56 semester units of transferable college credit with a grade point average of at least 2.4, and satisfy either (b) or (c) below.
   b. Take college courses in the subjects lacking and earn a grade of “C” or better in each one. (The University will waive up to two units of the required high school coursework except in mathematics** and English.)
   c. Complete one College course in mathematics**, one in English, and one selected from either U.S. history, laboratory science, or foreign language and earn a grade of “C” or better in each course. The course in mathematics* must be equivalent to two years of high school algebra (elementary and advanced) and one year of geometry, or it must have these courses as prerequisites. All courses, with the exception of mathematics, must be transferable.

*Definition of grade-point average: Grade points are computed according to the standard that the letter grade A equals 4 points, B equals 3, C equals 2, D equals 1 and F equals no points. The grade-point average is determined by dividing the total number of units attempted by the student in transferable courses into the number of grade points earned on those units. Students may repeat transferable courses that were completed with a grade lower than C up to a maximum of 16 quarter units, or their equivalent.

**Those graduating from high school before June 1986, need only two years of college preparatory electives, one year of advanced coursework in laboratory science, mathematics, or foreign language, or two years of a second foreign language must be taken. In addition, the requirement that seven of the 15 units of “a-f” coursework be taken in the last two years of high school need not be satisfied.
UNIVERSITY OF CALIFORNIA, BERKELEY
COLLEGE OF LETTERS AND SCIENCE

The College of Letters and Science has brought its breadth requirements into alignment with Berkeley's conversion to the semester system.

I. General University Requirements:

   English Subject A — Students completing English 101 in Glendale Community College with grade of "C" or better satisfy this requirement. Candidates for a bachelor's degree must satisfy the Requirement in American History and Institutions by demonstrating knowledge of American History and of the principles of American Institutions under the federal and state constitutions. The new requirement options apply to ALL students who enter UCB on any level in Fall 1981 or after. The Requirement may be met by one of the following methods:

   A. History Requirement: The entire requirement may be met by completion in high school of two semesters of U.S. History with a grade of "C" or better, with one semester of history with a grade of "C" or better and a semester of U.S. Government or Civics in high school with a grade of "C" or better.

   B. By completing one course from the following list for each of the requirements:
      - Economics 111 — Economic History of United States
      - History 110 — United States History
      - History 117 — History of the United States
      - History 118 — History of the United States

      The Institutions requirement may be met by completing one of the following courses:
      - Social Science 132 — Introduction to Social Science
      - Political Science 101 — Introduction to Government

   C. By passing certain tests with scores as follows:
      1. By passing two essay examinations, one in each of the subjects. The exams are based upon a reading list (three topics), and graded pass/not pass, and are offered on campus every semester. Students wishing to take either or both exams may obtain the reading lists, sample questions, and test dates at the AH&I Office, Room 29 Dwinelle Hall.
      2. For the American History requirement, by passing The College Board Achievement Test with a score of 500 or better.
      3. For the American History Requirement, by passing The College Board Advanced Placement Examination in American History with a score of 3, 4, or 5.

   D. By mixing the above alternatives for either requirement; that is, for either requirement the student may choose an examination, or complete a course, or submit evidence of equivalency.

II. Reading and Composition:

   English 101-102 (accepted for quarter-system requirement; not yet evaluated for semester-system requirement, which will be enforced in Fall 1988)

III. Foreign Language

   College graduation requirements currently include competency at the third level in one foreign language. Students may satisfy this requirement in any one of the following ways:

   A. With one foreign language:
      1. In high school: Completion of three years of one foreign language with minimum grades of C-.
with minimum grades of C- or by combining high school and college level courses (i.e., completion of two years of one foreign language with minimum grades of C- in high school and completion of the second semester UCB transfer course in the same foreign language with a minimum grade of C-).

2. In college-level courses: Completion of two (2) semesters of UCB transfer courses in one foreign language with minimum grades of C-.

B. By demonstrating equivalent knowledge through examination, including the CEEB Advanced Placement Examination and the CEEB Achievement Test (taken before admission to the College). Some foreign language departments on the Berkeley and other UC campuses offer acceptable foreign language placement examinations, as well.

The last course in the sequence offered for completion of the foreign language requirement must be taken for a letter grade. No course fulfilling the foreign language requirement may be used to satisfy another breadth requirement of the College. Transfer students with 56 semester or more (84 or more quarter units) units who are admitted to the College must have satisfied the foreign language requirement prior to their admission.

IV. Quantitative Reasoning
Students may satisfy the quantitative reasoning requirement in any one of the following ways:

A. Achievement of a minimum score of 600 in the Mathematics Section of the Scholastic Aptitude Test (SAT).

B. Achievement of a minimum score of 550 in the CEEB Achievement Test in Mathematics (Level I or Level II).

C. Completion of one semester of any of the following courses: Computer and Information Systems 110, 120, 130, 150; Mathematics 100, 103, 104, 105, 107, 108, 110, 111, 112, 130. (Mathematics 101 and 102 combined will clear the requirement, but not give transfer credit).

A minimum letter grade of C- is required in any course offered in satisfaction of the quantitative reasoning requirement. No course fulfilling the quantitative reasoning requirement may be used to satisfy another breadth requirement. Transfer students with 56 or more semester units (84 or more quarter units) who are admitted to the College must have satisfied the quantitative reasoning requirement prior to their admission.

V. Six (6) (minimum total 16 semester units) Courses Outside the Field of the Majors
In order to satisfy the current breadth requirement of six courses outside the field of the student's major, a student must complete at least two courses from each of the two fields outside the field of the major. The fields are humanities, social science, and natural science. If one of the outside fields is natural science, the required two courses in that field may not include courses in statistics, mathematics, or computer science. If one of the outside fields is humanities, the required two courses may not be elementary courses in foreign language. Courses in statistics, mathematics, computer science, and elementary foreign language, however, may be used for the additional four breadth courses outside the major field, distributed as the student wishes.

General Education courses to be taken outside the major field as listed below:

NATURAL SCIENCE — Anthropology 101; Astronomy 101, 102, 103; Biology 101, 102, 112, 116, 120, 121, 122, 123, 125, 126, 127, 130, 135; Chemistry 101, 102, 103, 105, 106; Geography 101; Geology 101 or 110, 103, 105;
Mathematics 103, 104, 105, 107-108, 110, 111; Oceanography 115; Paleontology 101; Physical Science 131; Physics 101, 102, 103, 105, 106, 110; Psychology 103

SOCIAL SCIENCE — Anthropology 102, 103; Economics 101, 102, 105, 107, 111; Ethnic Studies 101, 102, 110, 111, 122, 124, 132, 164; Geography 102, 105, 106; History 101, 102, 103, 104, 106, 107, 108, 109, 110, 111, 112, 113, 114, 117, 118, 119, 120, 121, 131; Linguistics 101; Political Science 101, 102, 103, 104, 105, 106, 107, 110, 111; Psychology 101, 102, 104, 106, 107, 109; Social Science 121, 131, 132; Sociology 101, 102, 105, 107

A. Humanities Majors

1. Natural Science: Two courses (May not include courses in mathematics, statistics, or computer science.) See above.

2. Social Science: Two courses. See above

3. Four courses from Natural Science and/or Social Science (Courses in mathematics, statistics, or computer science may be included if they are not applied to the quantitative reasoning requirement.) See above.

B. Social Science Majors

1. Natural Science: Two courses (May not include courses in mathematics, statistics, or computer science.) See above

2. Humanities: Two courses (May not include courses in elementary foreign language.) See above

3. Four courses from Natural Science and/or Humanities (Courses in mathematics, statistics, and computer science may be included if they are not applied to the quantitative reasoning requirement; courses in elementary foreign language may be included if they are not applied to the foreign language requirement.) See above

C. Natural Science Majors except for Mathematics, Statistics, Computer Science Majors

1. Social Science: Two courses. See above

2. Humanities: Two courses. (May not include courses in elementary foreign language.) See above.

3. At least two additional courses (to complete a minimum total of 16 semester units) from Social Science and/or Humanities (Courses in elementary foreign language may be included if they are not applied to the foreign language requirement.) See above

D. Mathematics, Statistics, Computer Science Majors

1. Natural Science: Two courses (May not include courses in mathematics, statistics, or computer science.) See above

2. Social Science: Two courses. See above

3. Humanities: Two courses (May not include courses in elementary foreign
language.) See above
4. Additional courses, if necessary (to complete a minimum total of 16 semester units), from Social Science and/or Humanities (Courses in elementary foreign language may be included if they are not applied to the foreign language requirement.) See above

E. History Majors
1. Natural Science: Two courses (May not include courses in mathematics, statistics, or computer science.) See above
2. Social Science: One course (May not include a course in History.) See above
3. Humanities: One course (May not include a course in History or in elementary foreign language.) See above
4. At least two additional courses (to complete a minimum total of 16 semester units) from Natural Science, Social Science, Humanities
   (Courses in mathematics, statistics, and computer science may be included if they are not applied to the quantitative reasoning requirement; courses in elementary foreign language may be included if they are not applied to the foreign language requirement; courses in History may be included.) See above

Courses offered in satisfaction of the breadth requirement of six (6) (minimum total of 16 semester units) courses outside the field of the student’s major must have a minimum value of two semester units. Students may satisfy this requirement by completing courses with minimum letter grades of D- or with Pass grades, if courses are taken on a passed or not passed basis. If a course is offered in satisfaction of this requirement, it may not be applied toward the satisfaction of any other breadth requirement.

UNIVERSITY OF CALIFORNIA, DAVIS
COLLEGE OF LETTERS AND SCIENCE

The requirement for junior standing is the completion of not less than 56 units of college work. Following are the breadth requirements for the A.B. degree in the College.

a. General University Requirements:
   English Subject A — Students completing English 101 in Glendale Community College with grade “C” or better satisfy this requirement.
   American History and Institutions — Satisfied with “C” grades in American History and Government courses in high school.

b. English Composition
   1. Pass an examination in English Composition while a registered student at Davis no earlier than the final quarter of the sophomore year, or
   2. Complete, with a minimum grade of “C-” or “Pass,” two UCD courses in English composition, as follow:
      a. One course from Glendale Community College English 101 or 102
      b. UC Davis, English 103 which must be taken at UC Davis.

c. Foreign Language
   For the A.B. degree. Satisfy by electing one of the following options:
   1. In high school, earn a qualifying score on a CEEB Achievement Test in a foreign language. A score of 500 will be accepted for any examination;
   2. In college, complete 8 units (or the equivalent) in one foreign language;
   3. At UCD, earn a satisfactory score on a Foreign Language Placement or Proficiency Examination.
d. Area Requirement
For the A.B. degree: Complete a minimum of 35 units from the Humanities, Social Sciences and Natural Sciences with a minimum of 8 and a maximum of 13.5 units in any one area. (A maximum of 4 of the 8 units offered in satisfaction of the Foreign Language Requirement and all other foreign language units may be counted toward the Humanities Requirement.)
For the B.S. degree: Complete a minimum of 13.5 units from the Social Sciences and/or Humanities areas; 60 units in the Natural Sciences. (All foreign language units may be offered toward satisfaction of this 13.5 unit Social Science/ Humanities Requirement.)
Consult the Davis General Catalog to determine the classification of subjects according to Social Sciences, Humanities and Natural Sciences.

e. Major Requirements
Consult appropriate departmental section in the UCD General Catalog.

UNIVERSITY OF CALIFORNIA, IRVINE

There are five schools central to the academic structure at Irvine: Biological Sciences, Fine Arts, Humanities, Physical Sciences, and Social Sciences. Each of these schools offers majors or areas of concentration under its broad subject field. In addition to these five schools, majors and degrees are offered in the Department of Information and Computer Science and in the program in Social Ecology (people and their social and physical environments). A wide range of majors and emphases is available within all these areas.

Professional education is offered in the School of Engineering, the Graduate School of Management, and the College of Medicine. The Office of Teacher Education offers instruction leading to California teaching credentials.

The breadth requirement is a pattern of subjects every student must complete before graduation. At UCI this requirement is designed to expose UCI graduates to a broad spectrum of fundamental areas of intellectual experience. The subject matter, problems, and techniques presented in breadth courses will serve as a first introduction to an academic area (e.g., history) and through a connected set of courses will provide a coherent experience in that academic area.

In satisfying these breadth requirements, a student may count no more than a year of work taken within the discipline of the student's major. For example, a student majoring in philosophy may count only one year of philosophy courses toward breadth.

Students are required to complete coursework in each of the following categories:

I. Writing—The lower-division writing requirement may be met by a year sequence in English composition. (Transfer students on the quarter system should see a counselor for additional information.) Courses used to meet the writing requirement must be completed with a minimum grade of C (2.0), or a Pass or Credit grade equivalent to C. Any student entering with only one semester of English composition through which the Subject A (English Composition) requirement is fulfilled will not have satisfied any part of the writing requirement. Once a student matriculates to UCI, the student can take only UCI courses in satisfaction of the low requirements.

II. Natural Sciences—This requirement may be met by a year sequence in general chemistry or basic physics, or by two semester or three quarter approved courses in biological sciences or physical sciences with the exception of mathematics. These courses may or may not include a laboratory.

III. Social and Behavioral Sciences—This requirement may be met by a year of work in any of the following areas: anthropology and comparative culture, economics,
geography, political science, psychology, sociology or social ecology. Students may elect to take an introductory course followed by a second course in one area or an introductory course in each of two areas. History, for the purposes of the breadth requirement, is not considered a social or behavioral science, but rather is included in Category IV.

IV. Humanistic Inquiry—This requirement may be met by a year of work in one of the following areas: classics, history, philosophy, humanities, English literature, comparative literature, dramatic literature, art history, or history of music. Performance courses may not be used in satisfaction of this requirement.

V. Foreign Language, Linguistics, Logic, Mathematics, Computer Science—This requirement may be met by a year sequence in one of the following areas: probability and statistics, calculus, linguistics, computer science, or the second year of a foreign language. Logic must be taken at UCI.

Note: Students majoring in Biological Sciences can satisfy the Humanities requirement for their major as well as the Humanistic Inquiry category of the breadth requirement by completing the lower-division writing requirement (I) and a year of courses selected from classics, history, philosophy, humanities, English literature, or comparative literature in the Humanistic Inquiry (IV) breadth requirement.

Students majoring in the School of Physical Sciences are required to take an additional one year from one of the following breadth areas: Social and Behavioral Sciences (III), Humanistic Inquiry (IV), or the Foreign Languages or Linguistics portion of Category V. The approved courses are the same ones listed for the UCI breadth requirement, with the exception that a first year sequence of a single foreign language is acceptable.

Glendale Community College courses meeting The UC, Irvine Breadth Requirement are:

I. Writing—English 101-102

II. Natural Sciences—any two courses from Biology 101, 102, 112, 115+, 120, 121, 122+, 125, 127 and 128, 135 or any two courses from Astronomy 101, 103, Physical Science 131 or Physics 110 or Chemistry 101-102 or Geology 101-102 or 105 and 110+ or Physics 101+ and (102+ or 103+) or Physics 105++-106+

III. Social and Behavioral Sciences—To fulfill this requirement students may take an introductory course in each of two disciplines, or an introductory course followed by a second course in that discipline. Introductory courses marked by *: Administration of Justice 101; Anthropology 101*, 102*, 103*; Economics 101*, 102*, 105*, 111; Geography 101*, 102*, 105*; Political Science 101*, 102*, 103, 104, 110; Psychology 101*, 103, 104, 106; Social Science 121, 124, 131++, 132++; Sociology 101*, 102

V. Foreign Language, Linguistics, Logic, Mathematics, Computer Science—Two courses from one discipline: Mathematics 103 and Mathematics 111 or Economics 107+ or Political Science 107+ or Psychology 107+ or Sociology 107)+, or Mathematics 103-104 or French 103-104, German 103-104, Italian 103-104, Latin 103-104, Spanish 103-104

*University of California credit limit.
UNIVERSITY OF CALIFORNIA, LOS ANGELES, COLLEGE OF FINE ARTS

Requirements for the A.B. degree:

Completion of the approved major in the College of Fine Arts:

Major in

Art History: Art 103, 104, 105, 106, 107, 108, 109, 112, 116. Students should not have more than 10 additional units of Art and Photography.

Art: One course from 103, 104, 105, 106, 107, 108, 109, 112, 116. Four semesters of studio courses; any combination of Painting, Drawing, Sculpture, Printmaking or Photography. Students should not have more than 10 additional units of art and photography.

Dance: Audition is required. All preparation for the major to be taken at UCLA. Exemptions will be determined by audition. Recommended: Dance 179, 180, 181, 193. Students should not have more than 10 additional units of Dance courses.

Music: Audition is required. All preparation for the major to be taken at UCLA. Students will be placed into the 20ABC sequence upon admission. Recommended: Music 104, 105, 106, 107, 108, 109. Students should not have more than 10 additional units of music courses.

Motion Picture/Television: All college of Fine Arts general college requirements must be completed by the end of June prior to Fall entry. Overall grade-point average of “B” or better. Must have junior standing. A portfolio is required. Students should not have more than 10 additional units of Theatre or MPTV courses.

Theatre: English 125; Theatre Arts 103. Students should not have more than 10 additional units of Theatre or MPTV courses.

World Arts and Cultures: Anthropology 102. Other core requirements must be completed at UCLA. Students should not have more than 6 units of performance or studio courses in any area.

History/Art: History 101, 102; two courses from Art 103 and 104**, 105, 106, 107; two courses from either 108, 109 or 112, 116.

*Detailed information regarding audition or portfolio requirements will be mailed to the applicant after the application is received. Deadline for Applications for Admission is November 30th of the year preceding Fall entry.

**Art 103 and 104 must both be taken to count as one course.

A. GENERAL COLLEGE REQUIREMENTS

1. English 101 (composition, grammar and rhetoric) with grade of “C” or better (not acceptable on credit/no credit basis). This requirement must be completed before entry to Fine Arts.

2. English 102 (composition and literature) with grade of “C” (2.0 GPA) or better (not acceptable on credit/no credit basis). This requirement must be completed before entry to Fine Arts.

3. Foreign Language — (minimum 8 units) Two semesters of one college language. No credit will be given for duplication of native tongue. Proficiency examinations may not be used to complete this requirement. Language to be completed before entry to Fine Arts. Arabic 101, 102; Armenian 101, 102; French 101, 102; German 101, 102; Italian 101, 102; Latin 101, 102; Spanish 101, 102.
4. Science/Math — (minimum 6 units) One course Physical or Biological Science. One course Natural Science or Mathematics or another Physical or Biological Science (no laboratory required).  

**Physical or Biological Science**  
Astronomy 101; Biology 101, 102, 112, 116, 120, 121, 122, 125, 135; Chemistry 101, 102, 103, 105, 106, 107, 110, Geology 101, 102, 103, 105, 110; Oceanography 115; Paleontology 101; Physical Science 131; Physics 101, 102, 103, 105, 106.

**Natural Science or Mathematics**  
Anthropology 101; Biology 123; Geography 101; Mathematics 100, 103, 104, 105, 107, 108, 110, 111, 112, 138; Physics 110; Psychology 103

5. Social Science — (9 semester units—3 units in each category) One course in History prior to the 17th Century, one course in History after the 17th Century, and one Social Science elective (may be another History course).  

**History Prior to 17th Century**  
History 101, 107  

**History After the 17th Century**  

**Social Science Elective**  
Anthropology 102, 103; Economics 101, 102, 105, 111; Ethnic Studies 102, 110, 111, 122, 124, 132, 164; Geography 102, 105, 110; Political Science 101, 102, 103, 104, 105, 106, 110, 111; Psychology 101, 102, 106, 113; Social Science 121, 122, 123, 125, 126, 131, 132; Sociology 101, 102.

6. Humanities (9 units—3 units in each category) Courses in performance, studio, movie/film or those in the student's major department do not meet this requirement. One course in Arts (history, criticism, appreciation), one course in Language, one course in Philosophy or Religion.  

**The Arts**  

**Literature**  
Arabic 124; English 105, 106, 107, 108, 109, 110, 111, 122, 123, 124, 125**, 126, 127, 128, 130; French 124, 125, 126; German 125, 126; Humanities 115; Spanish 124, 125, 126, 127, 128

**Philosophy/Religion**  
Philosophy 101, 112, 113, 114, 116, 117, 119, 120, 121, 122

A “C” average is required for the general college requirements. If a course is taken credit-no credit or pass-no pass, the passing grade must be a “C” or better.

B. GENERAL UNIVERSITY REQUIREMENTS  

1. Subject A—Required, no unit credit.

2. American History and Institutions — Any course used to meet this requirement may also apply on the General College Requirements. This requirement may be met in one of the two following ways:

   a. Completion of two semesters in high school of American History or American Government or a combination, with a “B” average.

   b. Completion of one course chosen from the following with grade of “C” or better. (Credit/No Credit is acceptable): Economics 111; English 122, 123; History 110, 111, 118, 160; Political Science 101, 104, 105, 106; Social Science 132.

*Not for music majors.  
**Not for theatre majors.
UNIVERSITY OF CALIFORNIA, LOS ANGELES,  
COLLEGE OF LETTERS AND SCIENCE

General University Requirements

a. Subject A. Every undergraduate entrant must demonstrate an acceptable ability in English composition. This requirement may be met by (1) achieving a grade of 5, 4, or 3 in the College Entrance Examination Board (CEEB) Advanced Placement Examination in English, or (2) achieving a score of 600 or higher in the CEEB Achievement Test in English composition. Students completing English 101 in Glendale Community College with a grade of “C” or higher satisfy this requirement.

b. American History and Institutions. Completion of requirements set by Glendale Community College meets the State requirement.

College Requirements

Effective Fall, 1986 all entering students must follow the General Education Requirement and meet Basic Proficiency Levels. Complete as much as possible before transfer to UCLA. In addition, students should be aware of admission and major requirement when planning programs.

ENGLISH COMPOSITION: English 101 or 102 with at least a grade of “C”
QUANTITATIVE REASONING: 1 course from Mathematics 103, 104, 105, 107, 108, 111, 112; Economics 107; Political Science 107; Psychology 107; Sociology 107 with at least a grade of “C” or a math SAT score of 600 or a CEEB math score of 550.
FOREIGN LANGUAGE: Through course 102 (effective for all students entering Fall, 1988) or ETS(AP) score 3 or above in French, German, or Spanish.

GENERAL EDUCATION REQUIREMENTS

PHYSICAL SCIENCES (3 courses or 8 semester units) (for Physical Science majors, only 1 course is required) Astronomy 101; Chemistry 101*, 102*, 103, 110; Geography 101; Geology 101, 102, 105, 110; Mathematics 103, 104, 105, 107, 108, 112; Oceanography 115; Physics 101, 102, 103, 105, 106, 110

*A maximum of 6 units of General Education for these courses.

LIFE SCIENCES (3 courses or 8 semester units) (for Life Science majors only 1 course is required) Anthropology 101; Biology 101, 102, 112, 115, 120, 121, 122, 123, 125, 127, 135; Paleontology 101; Psychology 103

SOCIAL SCIENCES (Four courses—two from Historical Analysis and two from Social Analysis)

Historical Analysis: (Historical Analysis majors are not required to satisfy this area.) History 101, 102, 103, 104, 106, 107, 108, 109, 110, 113, 117, 118, 119, 120, 121, 131

Social Analysis: (Social Analysis majors are not required to satisfy this area.) Anthropology 102, 103; Economics 101, 102, 111; Geography 102, 105; Political Science 101, 102, 103; Psychology 101; Sociology 101

HUMANITIES (Four courses—one from Literature. No more than two from any other subgroup) (Humanities majors are required to take only one course, in addition to a literature course, for a total of 2 courses.)

Literature: Arabic 124; English 105, 106, 107, 108, 109, 110, 122, 123, 124, 125; French 124, 125, 126; German 125, 126; Humanities 110; Spanish 124, 125, 126, 127

Philosophy: Philosophy 101, 113, 114, 116, 119, 120, 122

Language and Linguistics: One semester of foreign language at course 103 or above; Linguistics 101

Culture and Civilization Arts: Art 101, 102, 108, 112, 113, 116, 125; English 126; Humanities 120; Music 120, 125, 126; Theatre Arts 102
Thirty-two semester units of General Education are required for UCLA graduation. Courses from the major department are not applicable. However, required preparatory courses outside the major may be applied. Exemptions are noted above.

**UNIVERSITY OF CALIFORNIA, RIVERSIDE**

There now exists on campus two colleges offering undergraduate work and awarding the baccalaureate degree. See the UCR Catalog for programs offered.

Students who are undecided on a major register with the Undeclared Majors Advising Center where special counseling is provided.

Students may transfer from one disciplinary college to another or may complete a double major in two colleges.

The School of Education offers credential programs for teachers, including certification in Special Education.

General University Requirements:

- English Subject A — Students completing English 101 at Glendale Community College with Grade "C" or better satisfy this requirement.
- American History and Institutions — History 117 or 118 or Political Science 101 or Political Science 105 at Glendale Community College satisfies this requirement.
- May also be met by one high school unit in American History or one-half high school unit in American History and one-half high school unit in civics or American government.
- Students are advised to consult the general catalog for courses required for a specific major.

**College of Humanities and Social Sciences Requirements**

The following requirements are in effect for candidates for the bachelor's degree from the College of Humanities and Social Sciences:

- English Composition: Students must demonstrate writing proficiency by satisfying any of the following: (1) achievement of level 3 or above on the College Advanced Placement Test in English; (2) achievement of a passing score on the California State Universities and Colleges English Equivalency Examination; (3) six units of English composition with a grade of "C" or better at a community or junior college, or university other than University of California at Riverside; (4) completion of English 101-102 with a grade of "C" or better.

- Humanities: Fifteen units to be taken in two or more different departments or programs, and excluding non-literature English courses and studio, technical and performance courses. Courses eligible for this requirement are those offered by the following departments or programs: Art History, Art (Studio), Classics, Comparative Literature, Creative Writing, Dance, English, French, and Italian, German and Russian, History, Humanities and Social Sciences Interdisciplinary, Linguistics, Music, Philosophy, Religious Studies, Spanish, and Theater. Up to three units from courses in programs in Black Studies, Chicano Studies, and Latin American Studies may be counted toward the humanities requirement. The fifteen units shall include at least three units focusing on an ethnic group or foreign area.

- Social Sciences: Twelve units to be taken in two or more different departments or programs from the following list: Anthropology, Economics, Human Development, Political Science, Psychology, Sociology and Urban Studies. Up to three units from courses in programs in Black Studies, Chicano Studies and Latin American Studies may be counted toward the social science requirement. The twelve units shall include at least three units focusing on an ethnic group or foreign area.
Sciences: Eight units are to be taken in courses offered by the College of Natural and Agricultural Sciences, with the exception that three units in the history of science or the philosophy of science may be used in partial satisfaction of this requirement.*

No courses from a student's major discipline may be used in satisfaction of requirements in Humanities and Sciences, although courses in a second major or courses required for the major but outside the major discipline may be used in satisfaction of the requirements. Also, the same course may not be used to meet two breadth requirements.

*At the University of California at Riverside, this means courses offered by the following departments and majors: Biochemistry, Biology, Biomedical Sciences, Botany and Plant Sciences, Chemistry, Entomology, Environmental Sciences, Geography, Geology, Geophysics, Mathematics, Paleobiology, Physical Sciences, Physics, Plant Pathology, Plant Sciences, Soil Science, Statistics, and Computer Science.

College of Natural and Agricultural Sciences Requirements

The College of Natural and Agricultural Sciences strongly advises transfer students to complete their lower division science work while at Glendale Community College. Sacrificing lower division science work to satisfy Breadth Requirements for the college may adversely affect chances for completion of the degree within two years following transfer.

The requirements are:

Bachelor of Arts Degree

English Composition: English 101-102 with a grade of C or better, or a score of 3 or above on the College Advanced Placement Test in English.

Foreign Language: 12 units, (a) in one language by completing course 3 or equivalent, or (b) by completing 6 units or equivalent in each of two languages. (Exception: Biology majors seeking the A.B. degree must complete course 3 in a single foreign language.) Completion of four years or equivalent of one foreign language in high school will meet the College requirement. Students who choose option (b) may satisfy the requirement for one of the two languages by completing two years of that language in high school.

Natural Sciences: 12 units.

Bachelor of Science Degree

English 101-102, with a grade of C or better, or a score of 3 or above on the
College Advanced Placement Test in English.

Natural Sciences: 12 units.

University of California, San Diego, Muir College

Writing. One course: English 101 (NOTE: One more Writing course may be required at Muir after transfer.)

Choose 2 Groups under Section A and 2 under Section B, and complete two courses in each of the 4 chosen Groups. No work is required in the 2 remaining Groups unless demanded by the major.

Section A

Social Sciences Group: 2 courses from one subject area:
  Anthropology 101, 102, 103
  Economics 101, 102, 105, 111
  History 117-118
  Political Science 101, 102, 103, 104, 110, 111
  Psychology 101, 103, 104, 105, 110, 113, 131
  Sociology 101, 102, 105

Mathematical Sciences Group: 2 courses from among:
  Math 103*, 104*, 105*, 107*, 108*

Natural Sciences Group: 2 courses (6 or more units) from one subject area (lab not required by the College):
  Biology 101*, 102*, 112, 120, 121, 122, 123, 124, 125, 126, 130, 137
  Chemistry 101*, 102*, 103*, 105*, 106*, 107
  Physics 101*, 102*, 103*

Section B

Fine Arts Group: 6 or more units from one subject area:
  Art 101, 102, 108, 112, 113, 116, 118, 121, 125; Music 120, 122, 125, 126; Theatre Arts 101, 102

Humanities Group: 6 or more units in one subject area:
  Literature Area: English 105-106, 107-108, 109-110, 122-123; French 124, 125, 126; German 125, 126; Spanish 124, 125, 126, 127, 128.
  Philosophy Area: Philosophy 101, 113, 114, 116, 119, 120, 121
LANGUAGE LEARNING GROUP. 2 consecutive courses in Spanish or other language, starting at whatever level the student is prepared to enter. Examples: Spanish (or other language) 101-102, 102-103, 103-104, 104-125, 125-126

*Offerings from among which science majors should choose their courses; math courses marked this way are recommended also for majors in economics and psychology.

UNIVERSITY OF CALIFORNIA, SAN DIEGO, REVELLE COLLEGE

MATHEMATICS. Math 103* and 104* (105*, 107* and 108* recommended as electives)

NATURAL SCIENCE. 2 courses each in Chemistry and Physics, and one in Biology.

Chemistry 101* and 102* (103*, 105*, 106* recommended as electives)
Physics 101* and 102* (103* recommended as elective)

Biology 101*

FOREIGN LANGUAGE. Transfer students must pass Revel's language proficiency test or pass a fourth quarter class at UCSD to satisfy requirement. Language 103 at Glendale Community College is recommended for preparation.

HUMANITIES (COMPOSITION AND LITERATURE) Two courses:

   English 101 and 102

SOCIAL SCIENCES. 2 courses from one subject area:

   Anthropology 101, 102, 103
   Economics 101, 102, 105, 111
   History 117, 118
   Political Science 101, 102, 103, 104, 110, 111
   Psychology 101, 103, 104, 105, 110, 113, 131
   Sociology 101, 102, 105

ADDITIONAL SOCIAL SCIENCES OR HUMANITIES. 2 courses (6 units) from the above list of Social Sciences OR 2 from the following list:

   Art 101, 102
   English 105, 106, 107, 108, 109, 110, 111, 122, 123, 124, 125, 127, 128, 130, 135
   French 124, 125, 126
   German 125,126
   History 101, 102, 107, 108, 109, 119, 120
   Humanities 120
   Music 125, 126
   Philosophy 101, 113, 114, 116, 119,120, 121
   Spanish 124, 125, 126, 127, 128

FINE ARTS. In addition to courses used to meet minimum requirements in the section just above, take at least 3 units from the following:

   Music 101, 102, 107, 108, 109, 120, 122, 125, 126, 170
   Photography 101
   Theatre Arts 101, 102, 103, 104, 107

*Offerings from among which science majors should choose their courses; math courses marked this way are recommended also for majors in economics and psychology.

UNIVERSITY OF CALIFORNIA, SAN DIEGO, THIRD COLLEGE

WRITING. Two courses: English 101 and 102 (sequence should be completed prior to transfer)

NATURAL SCIENCE. Two courses (6 or more units). Take at least one course from the life sciences and one from the physical sciences): Biology 101*, 102*, 112, 120,
121, 122, 123, 124, 125, 126, 130, 137
Chemistry 101*, 102*, 103*, 105*, 106*, 107, 110, 112, 120, 121
Physics 101*, 102*, 103*, 105, 106, 110

OPERATIVE LOGIC. Choose any two of the following numbered categories and take at least one course in each of the chosen two:

1. *Computer Science. Computer and Information Systems 130; Mathematics 129 and Math 130
3. *Statistics. Economics 107; Political Science 107; Psychology 107; Sociology 107

SOCIETAL ANALYSIS. Choose any TWO of the following numbered categories and take at least one course in each of the chosen two; at least one of the courses must be in category No. 3 or 4:

1. *Communications. Journalism 101
2. *Economics. Economics 101 or 102
3. *Third World Studies-Literature. Spanish 124, 125, 126, 127, 128
4. *Third World Studies-History. Anthropology 102; Ethnic Studies 101, 102, 122, 124, 132; Geography 102; History 103, 104, 113, 114, 119, 120, 131; Social Science 121, 122, 123
5. *Urban and Rural Studies. May be completed after transfer.

HUMANITIES, FINE ARTS, FOREIGN LANGUAGE, OR SOCIAL SCIENCE (6 or more units from one subject area). Any one of the following sequences (a sequence is defined as two courses connected with a hyphen):

Anthropology 101#-102#-103# (any two); Art 101#-102# (any 2), 112-113;
Economics 101#-102#; English 105-106, 107-108, 109-110, 122-123; French 124-125-126 (any 2); German 125-126; History 101-102, 103-104, 107-108-109 (any 2), 117#-118#, 119-120; Music 107-108-109 (any 2), 125-126; Philosophy 113-114, 119#-120#; Political Science 101#-102#-103# (any 2); Psychology 101#-103#, 111-112; Social Science 125-126, 131-132; Sociology 101#-102#; Spanish (or other language) 101-102, 102-103, 103-104, 104-125, 125-126

#Recommended if you plan to major in that particular subject.
*Offerings from among which science majors should choose their courses; math courses marked this way are recommended also for majors in economics and psychology.

UNIVERSITY OF CALIFORNIA, SAN DIEGO, WARREN COLLEGE

WRITING. 2 courses: English 101 and one more course from English 102 or 103
FORMAL SKILLS. 2 courses: Math 103* and 104* (105*, 107* and 108* recommended as electives)

THE MAJOR. As in the other three Colleges, a major requires 12 to 15 upper division courses based on appropriate preparation in lower division. Such preparation is the same in Warren College as in all the others; all majors are available to students in every College.

SECONDARY AREAS OF CONCENTRATION (the MINORS). Two minors are required, one of them non-contiguous — that is, not in the same category as the major. A minor consists of 6 courses, of which 3 are usually in lower division and 3 in upper division. To avoid interference with your academic progress, you should try to select your two minors early, and take a full year's work (2 semesters or 3 quarters) in each of them before transfer. These should be the introductory courses for majors.

Present programs of secondary concentration include the following:

+ + + + +

ALSO REQUIRED (as in the other 3 Colleges); Electives to bring the total to 45 courses (180 quarter units — the equivalent of 120 semester units). At least 18 of these courses (including 12 in the major and usually 6 in the two minors) must be at the upper-division level.

*Offerings from among which science majors should choose their courses; math courses marked this way are recommended also for majors in economics and psychology.

UNIVERSITY OF CALIFORNIA, SANTA BARBARA
COLLEGE OF LETTERS AND SCIENCE — BACHELOR OF ARTS

Subject A Requirement

UCSB has a Subject A requirement which may be satisfied by 1) earning a score of 600 or higher on the CEEB Achievement Examination in English; 2) earning a score of 3 or higher on the CEEB Advanced Placement Exam in English Composition and Literature; and 3) completion of an acceptable course in English composition with a “C” grade or better prior to transfer.

*American History and Institutions Requirement

Requirement may be satisfied by:

1) satisfactory completion at an accredited college or university of any two transferable courses in American history. Courses used to fulfill AH I Requirements may also apply to General Education Requirements and major requirements.

2) passing a non-credit exam in this subject offered by the UCSB Departments of History and Political Science the first week of each quarter.

3) by achieving a score of 3 or higher on the CEEB Advanced Placement Exam in American History.

AREA A: English Reading and Composition-2 courses: English 101, 102
 AREA B: Foreign Language—Must be fulfilled by all students who will be first-term freshmen in Fall 1986 or later, or who transfer to UCSB in Fall 1989 or later. Arabic 102; Armenian 102; French 102; German 102; Italian 102; Latin 102; Spanish 102, 116

AREA C: Science-2 courses: 1 from C-1, 1 from C-2
  C-1: Biology 101, 116, 120, 122, 125, 135
  C-2: Astronomy 101; Chemistry 101, 110; Geography 101; Geology 101, 110; Oceanography 115; Physics 101, 105, 110

AREA D: Social Science-2 courses, each from a different discipline: 1 course must be taken from D-3 or D-4.
  D-1: Psychology 101, 106
  D-2: Anthropology 102, 103; Ethnic Studies 102, 111, 124, 132; Geography 102, 105; History 110, 111, 117, 118; Social Science 123; Sociology 101
D-3: Economics 101
D-4: Political Science 101, 102, 103

AREA E: Western Civilization-2 courses in History of Western Civilization or 2 courses in History of Western Philosophy: History 101, 102, or 107, 108, 109; Philosophy 119, 120

AREA F-1: Fine Arts-2 courses, each from a different discipline: Art 101, 102, 108, 112, 113, 116, 120, 121, 125; Music 120, 122, 125, 126, 128, 129; Theatre Arts 101, 102, 107

AREA F-2: Literature-2 courses: 1 from 2-A, 1 from 2-B
  2-A: English 105, 106, 107, 108, 122, 123, 125, 128
  2-B: Arabic 124; English 109, 110; French 124, 125, 126; German 125, 126; Humanities 115; Spanish 124, 125, 126, 127, 128

*American History and Institutions requirement-2 courses. Also, see above. Administration of Justice 101; Economics 111; English 122, 123; Ethnic Studies 102, 111, 122, 124, 132; History 110, 111, 112, 117, 118; Political Science 101, 104, 105; Social Science 121, 122, 123, 125, 126, 131, 132.

UNIVERSITY OF CALIFORNIA, SANTA CRUZ
COWELL, STEVENSON, CROWN, MERRILL, PORTER COLLEGE,
KRESGE, OAKES, COLLEGE VIII

The campus general education requirements are designed to introduce students to various ways of knowing, kinds of information, and reasons for learning, as well as to promote responsible use of what is learned. The following requirements will ensure a minimum breadth of knowledge for each student.

Introduction to disciplines: Two courses from different boards or committees of studies are required in each of the three academic divisions: Humanities and Arts, Social Sciences, and Natural Sciences. No more than one course may be taken from the Arts — Art, Art History, Music, or Theatre Arts. These courses should provide a basic introduction to a major by stressing the discipline's content, scope, and methodology.

Quantitative requirement: One quantitative methods course that involves use of advanced algebra, statistics, or calculus is required.

Writing requirements: Two courses in writing are required in addition to satisfaction of Subject A. One must be a composition course, such as Reading and Composition. If not satisfied at entrance, a course must be completed during the first three quarters of enrollment. The second part of the writing requirement must be satisfied by a writing-intensive course while in residence at UCSC. This course provides instruction and extensive practice in writing applied to a particular subject and can be taken in a number of different disciplines.

Arts requirement: One course in arts is required, usually from Art, Art History, Music, or Theatre Arts.

Topical Course Requirement: These courses apply information from one or more disciplines to issues of broad social or intellectual interest. We do not apply transfer courses to the topical requirement. Students entering with fewer than 45 quarter units must take 3 topical courses while in residence at UCSC; no more than one from each academic division; with 45-83.9 quarter units, two courses will be required; with 84-104.9 quarter units, one course will be required; with 105 or more quarter units, the topical course requirement will be waived.

Third World Requirement: One course is required that studies either ethnic minorities in the United States or a non-Western society or culture.
General Policies
Courses must be transferable to the University of California in order to be applied to the General Education requirements.
Courses used in satisfaction of the requirements must be passed with a grade of C- or higher.
Courses used in satisfaction of the requirements must be the minimum of 3 semester or 4 quarter units.

CALIFORNIA INSTITUTE OF TECHNOLOGY
SPECIAL TRANSFER PROGRAM

A student at Glendale Community College contemplating transfer to the California Institute of Technology must take, as a minimum, the following courses: Physics 101, 102, 103; Math 103, 104, 105, 107, 108; Chemistry 101, 102, 103.

Humanities or Social Science courses which are transferable to the University of California should also be chosen. Caltech requires a minimum of 24 semester hours in such humanities courses for a B.S. degree, and 12 semester hours should be completed in the first two years of which six (6) semester hours should be spent in coursework which requires essays and term papers.

Applicants to the transfer program are required to earn a 3.0, or better GPA and to take transfer examinations, given by the Institute, in Mathematics and Physics.

Students who are interested in this transfer program should contact the Admissions office at Caltech early in their program to discuss any additional aspects of the program, including other possible preparatory courses for specific majors.

CALIFORNIA LUTHERAN UNIVERSITY

A 2.5 (C) grade on all work attempted is required for transfer. For purpose of calculation, all grades are counted, including repeated courses. A repeated course does not "erase" an earlier grade.

Maximum of 70 credits are transferable from a community college. "D" grades are granted transfer credit.

Both BA and BS degrees are offered. The essential general education difference in the two degrees is reflected in a choice between a Foreign Language and a Math/Science option as described in Item "c1" below.

Most majors require at least 32 credits with 20-24 credits at the upper division level. Consult the CLU catalog for specific departmental requirements.

Prospective transfer students are encouraged to schedule an appointment with the Director of Transfer Programs for counseling and preliminary transcript evaluations. Students should call the Admissions Office at (805) 493-3135.

a. Creative Arts ................................................................. 6 units
   One course from: Art 101-109, 110, 118, 120, 121, 125, 130, 131, 134, 135, 136, 137, 138, 150, 151, 152, 153, 154, 155, 172, 186, 187, 188, 189, 190, 191, 192, 193, 203; Music-any course; Theatre Arts-any course; One course-Speech 100 or 101.

b. English ................................................................. 6 units
   One course—English 101; One course—English 102, 105-111, 122-130.

c. Foreign Language ....................................................... 8 units
   French, German, Italian, Spanish 101-104

c1. Bachelor of Science Option ........................................... 8 units
   Computer and Information Systems 101-210; Mathematics 100, 102-108, 110-138, Philosophy 117; Economics 107; Psychology 107; Sociology 107
LOYOLA MARYMOUNT UNIVERSITY

Loyola Marymount University is a Jesuit coeducational university open to all faiths and dedicated to academic excellence and the total development of the students.

Transfer Requirements

The University actively seeks transfer candidates from the community colleges and invites them to arrange counseling appointments with the University's admissions staff. Transfer students will be considered for admission for either the Fall or Spring semester provided all necessary material has been received before the deadline dates. Those who were acceptable for admission to Loyola Marymount at the time of their graduation from high school may be admitted to advanced standing if they have at least a C+ average at the last college attended and at least a C+ average for all previous college work. Those ineligible from high school will be considered, but should present at least 30 semester units of college-level work with a cumulative grade point average of 2.50 or better. An official evaluation of transferable credit will accompany the transfer student's acceptance letter. Transfer candidates should try to complete the following courses during their initial four semesters at the community college: English (Composition and Literature); Calculus I, II and III; Differential Equations; Physics (Mechanics and Electricity and Magnetism); General Chemistry I and II; Computer Programming: Statics.

Admission Procedures

The University welcomes applications from all students regardless of race, color, sex, creed or national origin. Admission is selective and candidates are expected to present better-than-average academic records. In determining an applicant's eligibility, careful consideration is given to the student's academic preparation, national test scores and letters of recommendation. Applications for admission are considered each semester provided all required documents are received before the deadline of the semester for which application is being made. Deadlines are as follow: Fall semester-July 1; Spring semester-December 1.
MOUNT ST. MARY'S COLLEGE

Students interested in transferring to Mount St. Mary's College should contact the college Admissions Office (1 800 222-6762) as well as the directors of professional programs for specific information concerning majors. Up to 66 units may be transferred; requirements may also be satisfied by examination, as indicated in the college catalog. In addition to requirements for the major, the General Studies Curriculum must be completed. The following courses at Glendale Community College will fulfill General Studies Requirements:

GENERAL STUDIES REQUIREMENTS

1. COMMUNICATION SKILLS
   a. WRITTEN (6 units with grade of C or higher): English 101, 102
   b. Oral (1-3 units): Speech 100, 101, 102, 103; Psychology 111, 112

2. ANALYTICAL SKILLS (3 units)
   Courses in logic and most courses in mathematics and the physical sciences will fulfill this requirement. Other courses with strong analytical content may also suffice.

3. ARTS AND SCIENCES (21 units; at least one course in each category A-G)
   a. Art/Music: Art 101, 102, 108, 112, 113, 116; Music 120, 128
   b. Literature: English 105, 106, 107, 108, 109, 110, 111, 122, 123, 124, 125, 126, 128
   d. Natural/Physical Sciences: Anthropology 101; Astronomy 101, 103; Biology 101, 102, 112, 115, 120, 121, 122, 123, 125, 127, 135; Chemistry 101, 102, 103, 110, 115, 120, 121; Geography 101; Geology 101, 102, 103, 105, 110; Oceanography 115; Paleontology 101; Physical Science 131; Physics 105, 106, 110
   e. Mathematics: Mathematics 100, 103, 104, 105, 111, 112, 129, 130
   f. Social/Behavioral Sciences: Anthropology 102, 103; Economics 101; Geography 102; Political Science 102; Psychology 101, 103, 106, 111, 112; Sociology 101, 102, 131
   g. Contemporary Economics/Politics: Economics 102, 105; Political Science 101, 103, 105, 106, 110, 111

4. FOREIGN LANGUAGE (Not required for Bachelor of Fine Arts, Bachelor of Music, and Bachelor of Science degrees)
   The foreign language requirement may be satisfied by:
   (1) successful completion of level 3 (intermediate) of a foreign language by course work or examination
   (2) successful completion of level 2 in each of 2 foreign languages by course work
   (3) for students whose native language is not English, passing the TOEFL examination with scores of 550 or above, or sequential work in ESL to raise student performance to 109 or above.

5. RELIGIOUS STUDIES AND PHILOSOPHY (15 units—must include 3 units Ethics)
   a. Religious Studies (6-9 units): Philosophy 113, 114, 121

NORTHROP UNIVERSITY

Northrop University is an independent, coeducational senior institution accredited by the Western Association of Schools and Colleges, offering undergraduate degrees
in Engineering, Technology and Management. Students are admitted each academic quarter and can receive advanced standing from transferable junior college credits with a grade of "C" or better. Students can receive maximum transferable credit in Engineering by taking the following courses:

Chemistry 101, 102; English 101, 102; History 107, 108, 109, 110 (History 110 is a graduation requirement); Mathematics 103, 104, 105, 107, 108, 130; Physics 101, 102, 103; Speech 101; and four 3-unit courses chosen from the fields of Anthropology, Economics, History, Philosophy, Political Science, Psychology, Sociology.

Students can receive maximum transferable credit in Engineering and Technology by taking the following courses:

Airframe and Powerplant Program; Chemistry 101; History 117 and 118; Engineering 104, 110; English 101, 102; Materials and Processes 146; Mathematics 103, 104; Physics 101, 102; Speech 101; and three 3-unit courses chosen from the fields of Anthropology, Economics, History, Philosophy, Political Science, Psychology, Sociology.

Students can receive maximum transferable credit in Management by taking the following courses:

Accounting 101, 102; Business Administration 120; Business—General 110; Chemistry 101; Computer and Information Systems 101, 140, 180, 185, 190; English 101, 102; History 117; Economics 101, 102; Marketing and Distribution 105; Mathematics 111, 112; Physics 101; Psychology 102.

**OCCIDENTAL COLLEGE**

Students considering transfer in either the sophomore or junior year are strongly urged to check with the Admission Office for further information if the descriptions below are not adequate or do not relate sufficiently to the courses available to them at the college they are attending. They should refer also to the current catalog for information concerning prerequisites for proposed majors.

The CORE Program in Liberal Arts consists of ten components as listed below:

A. Freshman Writing Seminar: English 101 and 102, 103
B. European Culture: History 101, 102, 107, 108, 109 (Three courses must be completed to fulfill requirement.)
C. American Culture (3-6 units): History 110, 111; Political Science 104; Social Science 121, 131, 132
D. World Cultures (7-9 units):
   For World Cultures I requirement, a student who enters with Sophomore standing should enroll in one of the WC I courses offered Winter or Spring term of his/her Sophomore year.
   World Cultures II: Art 108; History 103, 104, 106, 113, 114, 119, 120; Philosophy 113, 114; Political Science 110, 111
E. Mathematics (3-6 units): Mathematics 100, 103, 104, 105, 107, 108, 110, 111
F. Science (Students must take two 4 unit courses or one 4 unit and one 3 unit course): Astronomy 101; Biology 101, 102, 115, 120, 122, 124, 125, 149; Chemistry 101, 102; Geology 101, 102, 103, 105, 110; Oceanography 115; Physical Science 131; Physics 105, 106
G. Creativity (3-6 units) (This requirement may be met by demonstrating competence in one of the creative arts): Art 130, 131, 138, 150, 151, 152, 153, 186; English 103; Graphics 165; Music 101; Speech 101, 103, 104; Theatre Arts 103, 104

The academic year at Occidental consists of three eleven-week terms, with each
student allowed to take no more than three courses per term, plus certain fractional
courses. A minimum of thirty-five courses, exclusive of credit for Physical Education
activity courses, is required for graduation.

Please note that a maximum of 64 semester (96 quarter) units of lower division
credit (equivalent to 18 courses) is accepted for transfer, and that a minimum of
17 courses must be taken at Occidental College in order to receive the A.B. degree.

PACIFIC OAKS COLLEGE

B.A. IN HUMAN DEVELOPMENT

Pacific Oaks offers only upper division courses. Transfer requirements for admission
to the B.A. degree program at the junior level include completion of not less than
60 transferable college semester units with at least a “C” average. These lower division
units need to be in four basic areas as follow:

Oral & Written Expression:
minimum of 9 semester units including English Composition.

Natural Science & Math:
minimum of 9 semester units including a course in science (biology preferred).

Social Science:
minimum of 9 semester units including general psychology and either general
sociology or cultural anthropology.

Humanities:
minimum of 9 semester units.

Courses generally not acceptable for transfer:

- business courses; orientation courses; sectarian religious courses; remedial
courses; occupational courses; library courses.

Except by special arrangement with the Director of Admissions, 70 units are the
maximum that will be accepted from a junior or community college. No more than
94 semester units may be accepted for transfer from any college or university, as
a minimum of 30 units must be taken at Pacific Oaks. A student is required to complete
a total of 124 semester units to receive a B.A. degree.

Transcript evaluations are available for a fee of $20.00 (applicable toward the $30.00
admissions application fee). Official transcripts should be sent from all colleges attended
to the Registrar at Pacific Oaks.

PEPPERDINE UNIVERSITY, SEAVER COLLEGE (MALIBU)

a. Communication (9 units): English 101; Course in Communication theory or Mass
Communication Elective — Speech 101; Foreign Language, Drama, Journalism

b. Fine Arts (3 units): Art 101, 102; Music 120, 125, or 126

c. Humanities (12 units): English 102, 105, 106, 109, 110; History 107, 108, 109
(must take all three); Philosophy 101, 119, 120 (1 course required)

d. Natural Science (Must include one lab course and courses in both life and
physical science) (6 units): Astronomy 101; Biology 101, 102, 112, 122, 131,
137; Chemistry 101, 110; Geology 101, 105, 110; Mathematics 101, 102; Physics
105, 106, 110

e. Religion (8 units): To be taken at Pepperdine (4 units required of those transferring
with 60 units)

f. Social Science (9 units) (3 units must be completed in each group):
History 110 and Political Science 101 or History 117 and 118; Psychology 101;
Sociology 101
Economics 101; Social Science 121; any Political Science course; Psychology 101 OR Sociology 101 (provided another course satisfies the above requirement), Social Science 131, 132

Physical Education (4 terms (not units): Four Activity Courses

**STANFORD UNIVERSITY**

**Distribution Requirements for Undergraduates Entering Stanford**

To fulfill the Distribution Requirements undergraduates entering Stanford in Autumn Quarter, 1983 and thereafter must take ten courses certified for this purpose in eight areas as follows:

Three sequential courses in the Western Culture Program (students may not mix courses from different sequences for this requirement; students are encouraged to satisfy this requirement as early as possible, preferably in the first year);

One course in each of seven other subject areas which together embrace all areas of the undergraduate curriculum (see below for designated Areas numbered Two through Eight);

At least one of the courses in Areas Two through Eight must be designated as concentrating on a non-Western culture.

The subject areas of these Distribution Requirements are as follows:

Area 1: Western Culture (one three-course sequence)
Area 2: Literature and Fine Arts
Area 3: Philosophical, Social, and Religious Thought
Area 4: Human Development, Behavior, and Language
Area 5: Social Processes and Institutions
Area 6: Mathematical Sciences
Area 7: Natural Sciences
Area 8: Technology and Applied Sciences

*Note:* At least one course must be certified as concentration on a non-Western culture.

Course certified as meeting the Distribution Requirements carry a minimum of three units of credit. Normally, a single course will be certified as fulfilling only one Distribution Requirement. Exceptionally, a single course whose content is approximately equally divided between two areas of study may be certified as fulfilling either one of two Distribution Requirements. No single course may fulfill more than one Distribution Requirement for a given student.

**The Language Requirement**

Undergraduates entering Stanford in September 1982 or thereafter are required to complete the third Quarter of first year foreign language study at Stanford. Alternatively, students may demonstrate by a Stanford departmental examination competency at a level comparable to the completion of the third quarter of first year foreign language study at Stanford. Students whom the Office of Undergraduate Admissions determines to have completed the third year course of one foreign language in high school will have satisfied this requirement.

**UNITED STATES INTERNATIONAL UNIVERSITY, SAN DIEGO**

The maximum number of units accepted from a Community College is 70. Only 3 semester units of PE activity courses may be counted toward the degree.

**Total Units Required**

Total units required for all Bachelor degrees other than the Bachelor of Science
in Civil Engineering is 120 semester units. The Bachelor of Science in Civil Engineering is 134 semester units.

**General Studies Requirements for College Transfer Students**

a. English: English 101-102

c. History and Social Science—select one course from three different fields: Anthropology 102, 103; Economics 101 through 111; History 101 through 151; Political Science 101 through 151; Psychology 101 through 131; Social Science 131-132; Sociology 101 through 131

d. Humanities—One course from each group

Group I: Art 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 112, 113, 116, 118, 124, 125; Music 120 through 128

Group II: English 103 through 111 and 122 through 130; Humanities 105 through 135; Speech 100, 101; Theatre Arts 101, 102, 107

Group III: Philosophy 101 through 122

d. Natural Science: Completion of a minimum of 7 semester units of science.

*Engineering students need only one course; either Psychology or Sociology. Business students may use Accounting 101.

**Engineering students need Chemistry 101, 102 and Physics 101, 102 and 103.

Note: Business students need Accounting 101, 102; Economics 101, 102, 107.

**UNIVERSITY OF SOUTHERN CALIFORNIA**

**COLLEGE OF LETTERS, ARTS, AND SCIENCE**

The following courses are general education requirements for the Bachelor of Arts degree which undergraduate students should strive to complete during their freshman and sophomore years. The requirements for junior standing are the completion of 64 units of transfer work. No more than 70 units of community college work will be applied to the degree.

**General Education Requirements**

I. Freshman Composition: English 101-102 and pass USC’s Skill Level Examination.

II. Foreign Language: Pass USC’s Skill Level Examination (A passing score on the Foreign Language Skill Level Examination is usually achieved after three semesters of one language or the equivalent. Some majors do not require foreign language. For more information consult USC’s current bulletins.)

III. Math Skill Level: Pass USC’s Math Skill Level Examination. The best preparation for a passing score is course work in algebra, geometry and advanced algebra. Intensive review prior to the test is highly recommended. A “C” grade or higher in a college calculus course meets the Skill Level requirement and exempts the student from the examination. Mathematics 103 or 112 meets the Math Skill Level.

IV. Areas of Study

1. THE NATURAL WORLD: 3 courses, one from List A, one from List B, one additional from either A or B. (For students entering college prior to Fall, 1986.)

   List A: Anthropology 101; Astronomy 101; Biology 101, 102, 120, 121, 122, 123, 125, 127, 130, 135, 137; Geography 101, Geology 101, 102, 103, 105, 110; Oceanography 115; Paleontology 101; Physical Science 131; Physics 110;
List B: Astronomy 101, 103; Biology 101, 112; Chemistry 101, 102, 103, 105, 106, 110, 120, 121; Physical Science 131; Physics 101, 102, 103, 105, 106, 110.

NEW PLAN: Students entering college Fall 1986 or later must take courses from the following subject lists. (3 courses are required. Each course must be in a different department. One of the 3 must have a Lab. B.A. majors in Science/Math are excepted from the restrictions, but must take 3 Science courses.)

Earth Sciences: Astronomy 101, 103; Geography 101; Geology 101, 102, 103, 105*, 110*; Oceanography 115; Paleontology 101

Life Sciences: Anthropology 101; Biology 101*, 102*, 112*, 120*, 121*, 122*, 123*, 125 (with 126*), 127 (with 128*), 130*, 135*, 137*

*Meets Laboratory Requirement.

2. American Public Life (1 course): Economics 111; History 110, 118; Political Science 101, 104, 105 and 106; Social Science 121, 125, 126, 131, 132

3. Western Culture I (1 course): Art 101, 104, 105, 120; English 109, 128; History 101, 107; Philosophy 113, 119; Theatre Arts 102

4. Western Culture II (1 course) (Not required of Humanities majors): Art 102, 106, 107, 121; English 110; History 102, 108, 109; Philosophy 120

5. Non-Western Cultures (1 course): Art 108, 109; History 119, 120, 121, 131; Philosophy 114, 121; Political Science 111

6. Empirical Approaches (1 course) (2 courses required for Humanities majors; 1 course required for Social Science and Science/Math majors): Anthropology 102, 103; Economics 101, 102, 105; Ethnic Studies 110; Geography 102, 105, 110; Linguistics 101; Political Science 101, 102, 103, 104, 105 and 106, 110, 111; Psychology 101, 103, 104, 105, 106, 109, 110, 113, 114; Social Science 121, 122, 123, 124, 125, 126, 131, 132; Sociology 101, 102, 105

7. Literature (1 course): Arabic 124; English: 105, 106, 107, 108, 109, 110, 111, 122, 123, 124, 125, 126, 128; Spanish 124

8. The Arts (1 course): Art 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 112, 113, 116, 118, 120, 121, 125; Humanities 120; Music 120, 122, 125, 126, 128; Theatre Arts 101, 102, 107

9. Ethical Approaches (1 course): Philosophy 116

No unit or subject credit will be given for courses taken by exam. Some courses are listed for credit in two categories. A student may take these courses for credit in only one category. Only two courses counted toward the major may also fulfill a General Education requirement. Students who began their studies at another institution in the Fall of 1979 will fall under the old requirements of General Education. Students who began their studies at another institution in the Fall of 1980 or after and transfer to USC at a later date are subject to the new G.E. requirements which will vary depending on date of entrance to college work. No more than 12 units of pass/no pass credit may be applied to General Education requirements. In no case may a student count more than two courses from any one department to fulfill General Education requirements in the Areas of Study, except for the Natural World requirement for which each course must be taken in a different department.
Bachelor of Science Degree—General Education Requirements

I. Freshman Composition (See Skill Level, Composition)

II. Foreign Language (See Skill Level, Foreign Languages)

III. Mathematics Skill Level (See Skill Level, Mathematics)

IV. Areas of Study*
   1. The Natural World, List A and List B (No courses required)
   2. Non-Western Cultures, 1 course.
      Choose 3 courses, each course from a different category from the following:
      3. Western Culture I
      4. Western Culture II
      5. American Public Life
      6. Empirical Approaches
         Choose 2 courses, each course from a different category
      7. Literature
      8. The Arts
      9. Ethical Approaches

*All courses in the Areas of Study are to be chosen from the General Education Requirements (Bachelor of Arts) above.

WESTMONT COLLEGE

The following courses will be applied to Westmont College requirements in general education.

To transfer: No minimum. Maximum transferable is 64 units; 2.3 grade point average required (2.0 if student has A.A. or A.S.). Transfer limited to liberal arts courses—minimum grade transferred is C-.

General Education Requirements

A. RELIGIOUS STUDIES. A resident requirement prorated at the rate of 4 units per year at Westmont.

B. PHYSICAL EDUCATION. 4 semesters, each a different activity. One semester of varsity activity may be included.

C. INTERDISCIPLINARY STUDIES. 2 courses. One semester of history of civilization will be applied (History 101-102, 107, 108, 109). The second course (Upper Division) will be completed at Westmont.

D. DISTRIBUTION (BREADTH) REQUIREMENT. One 3-4 unit course in each of the following seven areas:

   Social Science: Economics 101, 102; Ethnic Studies 102, 111, 124, 132;
   Political Science 101, 102, 103, 104, 105, 106, 110, 111; Social Science 121, 122, 123, 124, 125, 126, 131, 132
   Behavioral Science: Anthropology 101, 102; Psychology 101; Sociology 101, 102
   Fine Arts: Art 101, 102, 108, 110, 112, 113, 116, 125; Humanities 120; Music 120, 122, 125, 126, 128; Theatre Arts 101, 102, 107
   Literature: English 102, 105, 106, 107, 108, 109, 110, 111, 123, 124, 125, 126, 128, 130; French 124, 125, 126; Spanish 124, 125, 126, 127, 128
   Philosophy: Philosophy 101, 119, 120.

   Biological Science: Biology 101, 102, 112, 115, 116, 118, 120, 121, 122, 125, 127, 135: Oceanography 115; Paleontology 101
   Physical Science: Astronomy 101; Chemistry 101, 110, 112, 120; Geography 101; Geology 101, 104 (3-4), 105, 110; Mathematics 100, 103, 107, 110,
Whittier welcomes students who transfer from junior or community colleges and four-year institutions. Transferable coursework must be "C-" or above, and a maximum of 70 semester credits can be accepted from the community college. Selected courses from the community college not appearing in the transfer list may be accepted for transfer upon petition to the Whittier College Registrar. (Certain courses purely technical, vocational or remedial in nature, while beneficial to the student, may not be transferable).

Transfer candidates who have completed less than 30 academic units are also asked to submit scores from the Scholastic Aptitude Test (SAT) or the American College Test (ACT). Students are expected to have met the high school subject requirements for entering freshman, which include: 3 years of English, 2 years of a foreign language, 1 year of lab science, 1 year of history, 1 year of algebra, and 1 year of Geometry or another advanced math. Comparable college courses may be taken to complete the required work.

General Education Requirements

Students who have fulfilled the general education requirements of the California State Universities will have met the majority of Whittier College's "Liberal Education" requirements. A transfer counselor in the Office of Admissions can provide students with a detailed evaluation of their standing.

Students who wish to transfer without completion of these general education requirements should check the "Liberal Education" course list for classes that will satisfy the Liberal Education requirements at Whittier College.

Liberal Education Requirements

HUMANITIES (3 units): Arabic 103; English 105, 106, 109, 110, 122, 123; French 103, 104; German 103, 104; Humanities 105, 110, 115, 135; Italian 104; Music 120, 122, 125, 126; Philosophy 101, 113, 114, 116, 119, 120; Spanish 103, 104, 125, 126, 127; Theatre Arts 107
FINE ARTS (3 units): Art 101, 102, 108, 112, 113, 116, 120, 121, 124, 125; English 105, 106, 109, 110; Humanities 120; Music 120, 122, 125, 126, 200; Theatre Arts 101, 102
ENGLISH (6 units): English 101, 102
MATHEMATICS (3 units): Mathematics 100, 103, 107, 108, 111, 112
NATURAL SCIENCE (8 units, lecture and lab combinations only): Astronomy 101 with 102; Biology 101, 102, 112, 115, 120, 121, 122, 125 with 126, 127 with 128, 130, 135, 137; Chemistry 101, 102, 103, 105, 106, 110, 120, 121; Geology 105, 110; Oceanography 115; Physical Science 131; Physics 101, 102, 103, 105, 106
*WESTERN CIVILIZATION (6 units): Art 112, 113; Economics 111; English 109, 110; History 101, 102, 103, 104, 106, 107, 108, 109, 110, 117, 118; Humanities 111; Philosophy 119, 120; Political Science 104, 105; Physical Science 133; Social Science 125, 126, 131, 132
*NON-WESTERN CIVILIZATION (6 units): Anthropology 102; Art 108; History
119, 120; Philosophy 113, 114, 122; Political Science 111
*CONTEMPORARY SOCIETY AND THE INDIVIDUAL (6 units): Anthropology 101, 102; Biology 127-128; Chemistry 112; Economics 101, 102, 105; Family and Consumer Studies 139; Geology 102, 105; Philosophy 112; Political Science 102, 103, 110; Psychology 101, 103, 108, 131; Social Science 110, 121, 124; Sociology 101, 102, 105, 131.

*Courses in these categories are team-taught or paired course offerings at Whittier. Transfers are required to complete from one to three categories at Whittier, depending on standing at entrance.

WOODBURY UNIVERSITY

The Woodbury University General Education curriculum is designed to provide a breadth of knowledge in areas of the Liberal Arts and Sciences, as well as demonstrate competence in written and spoken English Language skills. In addition, because of the important role that Economics plays in society, Business area majors must complete a course in micro and a course in macro economics. Professional design majors must complete one course in economic principles. Woodbury University General Education courses carry a unit value of four (4) quarter-hours. An applicable General Education course must carry a unit value of three (3) semester-hours or more to satisfy one Woodbury course requirement. An earned grade of “C” or higher is required for purposes of transfer.

GENERAL EDUCATION AREA REQUIREMENTS

ENGLISH COMMUNICATIONS AREA (two courses in English Composition and one course in Speech): English 101, 102; Speech 101 or 102

GENERAL EDUCATION BREADTH AREAS

I. HUMANITIES AREA

Minimum of four courses; at least one course in literature and one in fine art history or appreciation. The remaining two courses may be in any level literature, fine arts, philosophy, or general humanities courses.

A. Literature (One course: must include the study of literature or literary drama or poetry, including research and research writing): English 105, 106, 107, 108, 109, 110, 111, 121, 122, 123, 124, 125, 126, 128, 129, 130; Spanish 124, 125, 126, 127, 128; French 124, 125, 126; German 125, 126; Latin 104; Humanities 110, 115; Arabic 124; Theatre Arts 107

B. Fine Arts (One course: must include history and/or appreciation of art, music and theatre): Art 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 112, 113, 116, 118, 120, 121, 125; Ethnic Studies 101; Music 120, 122, 125, 126, 128; Theatre Arts 107

C. General Humanities (Two courses: must include any level literature, fine arts, philosophy, or general humanities courses): Art 130, 131, 134, 135, 136, 137, 138, 141, 144, 150, 151, 152, 153, 154, 155, 160-165, 170-175, 180, 181, 186-192, 195, 200-204; Humanities 105, 106, 111, 120; Philosophy 101, 113, 114, 116, 119, 120, 121, 122; Photography 101, 102; Music 101, 102, 104, 105, 106, 107, 108, 109, 130 (repeat 2 times), 131-137, 138 (minimum 2 units), 141, 143, 144, 145 (minimum 2 units), 151, 152, 156-159, 160-163, 166, 168, 169, 170, 171, 174, 185-198, 200; Theatre Arts 103, 104, 105 (minimum 2 units), 109, 121, 122, 123, 134, 140

II. SOCIAL SCIENCES AREA

Minimum of three courses: one course from the behavioral sciences, one from the history or political science area, and one from the geography or economics area.
History 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 117, 118, 119, 120, 121, 131, 151; Geography 102, 105, 110; Political Science 101, 102, 103, 104, 105, 109, 110, 111; Economics 101, 102, 105, 111; Psychology 101, 102, 103, 104, 105, 106, 108, 109, 110, 113, 114, 131; Social Science 121, 122, 123, 124, 125, 126, 131, 132; Sociology 101, 102, 103, 104, 105, 131; Ethnic Studies 102, 110, 111, 122, 124, 132, 164

III. MATHEMATICS AND SCIENCE AREA
Mathematics 101 (Intermediate Algebra); Anthropology 101; Astronomy 101, 103; Biology 101-125, 127, 130, 135-140, Chemistry 101-143 (except 141-deleted); Geography 101; Geology 101, 102, 103, 105, 110; Oceanography 115; Paleontology 101; Physical Science 131; Physics 101, 102, 103, 105, 106, 110; Mathematics 100, 102, 103, 104, 105, 107, 108, 110, 111, 112; Philosophy 117 (Logic)
THE CALIFORNIA STATE UNIVERSITY

ADMISSION REGULATIONS

Admission standards are prescribed by the Board of Trustees of The California State University and are set forth in each college catalog and in Title 5 of the California Administrative Code. The following is a summary of the provisions of concern to the majority of prospective students.

Eligibility Index

First-time freshman eligibility is governed by an eligibility index. The index is computed using the high school grade point average on all course work completed in the last three years of high school, exclusive of physical education and military science; and the ACT composite, or the SAT total score. The full table of grade point averages, with corresponding test scores and the equation by which the index is computed, may be found in the CSU catalog. Test results of either the CEEB Scholastic Aptitude Test (SAT) or the American College Testing Program Examination (ACT) are acceptable in establishing eligibility.

Freshman

Residents — Applicants who are graduates of a California high school or legal residents of California for tuition purposes, need a minimum eligibility index of 722 using the ACT or 2994 using the SAT.

Nonresidents — Applicants who are neither graduates of a California high school nor residents for tuition purposes, need a minimum eligibility index of 826 (ACT) or 3402 (SAT).

Test Requirements — Applicants who have fewer than 56 semester units of transferable college work, are required to submit scores from either the American College Test Program (ACT) or the Scholastic Aptitude Test of the College Board (SAT).

Transfers — Applicants who are undergraduate transfers in good standing at the last institution attended, are eligible for admission if they meet either of the following provisions:

1. Applicants with 56 or more transferable semester units and are California Residents may be admitted to a campus as an undergraduate
   a. The applicant has completed satisfactorily four years of college preparatory English and two years of college preparatory mathematics or an alternative program determined by the Chancellor to be equivalent;
   b. The applicant has attained a grade point average of 2.0 (grade of C) or better in at least 56 units of transferable college credit;
   c. The applicant was in good standing at the last college attended.

2. Applicants who are not California residents and who have completed 56 units of college credit may be admitted to a campus as an undergraduate transfer upon satisfaction of the requirements of each of the following:
   a. The applicant has completed satisfactorily four years of college preparatory English and two years of college preparatory mathematics or an alternative program determined by the Chancellor to be equivalent;
   b. The applicant has completed at least 56 units of transferable college credit and has attained a grade point average in all units of transferable college credit which places the applicant among the upper one-half of eligible California residents who are applicants for admission, the required minimum grade point average to be determined by the Chancellor;
c. The applicant was in good standing at the last college attended.

3. Applicants who were eligible for admission as first-time freshmen and who have completed fewer than 56 units of college credit may be admitted to a campus as an undergraduate transfer upon satisfaction of the requirements of each of the following:
   a. The applicant has completed satisfactorily four years of college preparatory English and two years of college preparatory mathematics or an alternative program determined by the Chancellor to be equivalent;
   b. The applicant was eligible for admission to a campus as a first-time freshman, either
      1. on the basis of the admission requirements in effect at the time of the application (consult appropriate college catalog) or
      2. on the basis of the admission requirements in effect at the time of the applicant's graduation from high school and if the applicant has been in continuous attendance at a college since graduation (consult appropriate college catalog)
   c. The applicant has attained a grade point average of 2.0 or better in all transferable college units attempted;
   d. The applicant was in good standing at the last college attended.

4. Applicants who were ineligible for admission as first-time freshmen for failure to meet course requirements and who have completed fewer than 56 units of college credit may be admitted to a campus as an undergraduate transfer upon satisfaction of each of the following:
   a. Except for satisfactory completion of four years of college preparatory English and two years of college preparatory mathematics or an acceptable alternative program, the applicant was eligible for admission to a campus as a first-time freshman, either
      1. on the basis of the admission requirements in effect at the time of the application (consult appropriate college catalog) or
      2. on the basis of the admission requirements in effect at the time of the applicant's graduation from high school and if the applicant has been in continuous attendance at a college since graduation (consult appropriate college catalog)
   b. Subsequent to high school graduation, the applicant has completed satisfactorily four years of college preparatory English and two years of college preparatory mathematics or an alternative program determined by the Chancellor to be equivalent;
   c. The applicant has attained a grade point average of 2.0 (a grade of C) or better in all transferable college units attempted;
   d. The applicant was in good standing at the last college attended.

5. An applicant not eligible under paragraph 3 or paragraph 4 above may be admitted to a campus as an undergraduate transfer upon satisfaction of the requirements of each of the following:
   a. The applicant has completed satisfactorily four years of college preparatory English and two years of college preparatory mathematics or an alternative program determined by the Chancellor to be equivalent;
   b. The degree objective is such that at least 56 semester units, or the equivalent, of appropriate course work are not offered at the college from which the applicant seeks to transfer;
   c. The applicant has completed that portion of the curricular program required by the campus for the degree objective, as is offered at the college from
which the applicant seeks to transfer;

d. The applicant has attained a grade point average of 2.0 (grade of C) or better in all transferable college work attempted;
e. The applicant was in good standing at the last college attended.

BAKERSFIELD, CHICO, DOMINGUEZ HILLS, FRESNO, FULLERTON, HAYWARD, HUMBOLDT, LONG BEACH, LOS ANGELES, NORTHRIDGE, POLYTECHNIC (POMONA, SAN LUIS OBISPO), SACRAMENTO, SAN BERNARDINO, SAN DIEGO, SAN FRANCISCO, SAN JOSE, SONOMA, STANISLAUS

This preliminary list of courses from which 39 units must be selected for certification has been submitted to The California State University and is effective for students entering Glendale Community College for the fall and spring semesters of the school year 1987-88.

GENERAL EDUCATION REQUIREMENT

History and Constitution Requirement

All students seeking a baccalaureate degree are required by California law to demonstrate competence in the Constitution of the United States, in American History, including the study of American Institutions and Ideals, and in the principles of state and local government established under the Constitution of the State of California. In accordance with Ex. Order 405 the following requirements are satisfied as indicated: American Institutions, History 117-118; Political Science 101, 105; Social Science 125-126, 132. American History, Economics 111; History 110, 111; 117-118; Social Science 125-126, 131. State and Local Government, Political Science 106; Social Science 125-126, 132.

Breadth Requirement

Breadth Requirement courses which the President of Glendale Community College or his designated officer will certify as meeting the intent expressed in Administrative Code, Title V, section 40405.2. Students will complete a minimum of thirty-nine (39) units from this list. No more than thirty (30) units may be certified Areas B-D inclusive.

A. COMMUNICATION IN THE ENGLISH LANGUAGE AND CRITICAL THINKING (9 units)

- English 101 (Required)
- Speech 101 (Required)
- English 118
- Humanities 105, 110
- Philosophy 117
- Speech 100, 103

B. PHYSICAL UNIVERSE AND ITS LIFE FORMS (9 units)

Select one course from each of the following: Biological Sciences, Physical Sciences, and Mathematics. One Science course (either Biological or Physical) must include a laboratory activity.

BIOLOGICAL SCIENCE:

- Anthropology 101
- Biology 101*, 102*, 112*, 115*, 120*, 121*, 122*, 123, 125, 126*, 127, 128*, 130*, 132, 135*, 137*

*Denotes laboratory activity.
PHYSICAL SCIENCE:
Astronomy 101, 102*, 103
Chemistry 101*, 102*, 103*, 105*, 106*, 107*, 110*, 112, 120*, 121*
Geography 101
Geology 101, 102, 103, 104, 105, 110
Oceanography 115
Paleontology 101
Physical Science 131*
Physics 101*, 102*, 103*, 105*, 106*, 110
Technical Education 145

*Denotes laboratory activity.

MATHEMATICS:
Mathematics 100, 102, 103, 104, 105, 107, 108, 110, 111, 112

C. ARTS, LITERATURE, PHILOSOPHY AND FOREIGN LANGUAGE (9 units)
Courses must be selected from 3 or 4 areas.

ARTS:
English 103
Humanities 117**, 120**
Music 101, 102, 104, 105, 106, 107, 108, 109, 110, 114, 120, 125, 126, 128
Theatre Arts 101, 102

LITERATURE:
Arabic 124
English 102, 105, 106, 107, 108, 109, 110, 111, 122, 123, 124, 125, 126, 127, 128, 129, 130
French 124, 125, 126
German 125, 126
Humanities 101, 102, 106, 111, 115, 117**, 120**, 125
Spanish 124, 125, 126, 127, 128
Theatre Arts 107

PHILOSOPHY:
Philosophy 101, 112, 113, 114, 116, 119, 120, 121, 122

FOREIGN LANGUAGE:
Arabic 101, 102, 103
Armenian 101, 102
French 101, 102, 103, 104
German 101, 102, 103, 104
Italian 101, 102, 103, 104
Latin 101, 102, 103, 104
Linguistics 101
Spanish 101, 102, 103, 104

**May be used in only one (1) area.

D. SOCIAL, POLITICAL AND ECONOMIC INSTITUTIONS (9 units)
Courses must be selected from 2 or 3 areas.
SOCIAL:
  Anthropology 102, 103
  Ethnic Studies 101, 102, 110, 111, 122, 124, 132, 164
  Geography 102, 110
  Psychology 101, 102, 103, 104, 115
  Social Science 101, 102, 110, 121, 122, 123, 124, 133
  Sociology 101, 102

POLITICAL:
  History 101, 102, 103, 104, 106, 107, 108, 109, 112, 113, 119, 120, 121, 131
  Political Science 102, 103, 104, 108, 109, 110, 111

ECONOMIC:
  Economics 101, 102, 105
  Geography 105

E. LIFELONG UNDERSTANDING AND SELF-DEVELOPMENT (3 units)
  Dance (all courses) (1 unit only)
  Family and Consumer Studies 125
  Health 104
  Physical Education (all courses) (1 unit only)
  Psychology 105, 106, 108, 109, 110, 113, 131
  Recreation Leadership 105
  Sociology 105, 131
FACULTY

*ABRAMS, NORMAN
Assistant Professor of Accounting
B.S., M.B.A., Fairleigh Dickinson University

*ADAMS, PATRICIA L.
Assistant Professor of Psychology
B.A., Drew University, New Jersey
M.A., California State University, Los Angeles
Ph.D., University of Southern California

ADKINS, LINDA
Instructor of Business
B.V.Ed., CSULA

*AEBI, ANDREAS
Assistant Professor of German
M.A., Ph.D., University of Southern California

AGOSTON, JOZSEF
Assistant Professor of Theatre Arts
A.A., Glendale Community College
B.A., California State University, Northridge
M.F.A., University of Southern California

AGUERO, VITALIA E.
Associate Professor of Library Science
Teaching Diploma, University of Havana
B.A., Mount St. Mary's College, Los Angeles
M.A.L.S., Immaculate Heart College, Los Angeles

ALEXANDRE, GORDON
Instructor of History
B.A., University of California at Los Angeles
M.A., California State University, Los Angeles

ALI, SAEED M.
Division Chairperson
Instructor of English as a Second Language
Non-Credit Adult Education
Diploma TEFL, Central Institute of English
M.A., University of California at Los Angeles

*ALPERIN, BARRY J.
Instructor of Real Estate
A.A., Valley College

AMENDOLA, LEWIS R.
Assistant Professor of Nursing
B.A., Marquette University
B.S., M.A., Northern Michigan University
M.S., California State University, Los Angeles

ANDERSON, CLARA JO
Professor of Business
B.S., Indiana University
M.Ed., University of California at Los Angeles

ANDERSON, THOMAS R.
Instructor of Art
A.A., Glendale Community College
B.A., M.A., California State University, Los Angeles

*ARCUDI, WILLIAM
Instructor of Business
B.S., Troy University, Alabama

*ARUTIAN, CAROL L.
Instructor of Art
B.A., California State University, Northridge
M.F.A., Rhode Island School of Design

AVERILL, DONALD F.
Dean, Instruction, Career Education
B.A., M.A., California State University, Los Angeles
Ed.D., University of La Verne

*BAKER, JOANN N.
Assistant Professor of English
B.S., Woodbury College
B.A., Occidental College
M.A., Syracuse University

*BAKER, WILLIAM PAUL
Assistant Professor of Art
B.F.A., M.F.A., University of Southern California

BALCER, THEODOLINDE
Assistant Professor of Allied Health
R.N., S.C.M., Charing Cross Hospital, London, England
B.S., Loma Linda University
M.A., Central Michigan University

BANGS, MERY OLIVE
Professor of English
B.A., Pasadena College
M.A., California State University, Los Angeles

*BARBATO, LOUISE CASSANO
Instructor of English
B.A., M.A., University of California, Los Angeles
Dottore in Lettere, Universita degli Studi Padua, Italy

*BARBER, AUSTIN S.
Instructor of Administration of Justice
A.A., Los Angeles Valley College
B.S., M.A., Pepperdine University

*Part-time
*BARNES, JOHN B.  
Assistant Professor of English  
B.A., Occidental College

*BATAGLIA, ANTONIO  
Instructor of Food and Nutrition Studies

BAUGH, W. JAMES  
Associate Dean, Special Projects  
Director, Montrose Campus  
A.A., Glendale Community College  
B.A., San Jose State College  
M.A., California State University, Los Angeles

BAUMANN, MELITA  
Assistant Professor of Family and Consumer Studies  
B.S., Fairleigh Dickinson University  
M.A., Pacific Oaks College

BEAUCHEMIN, BRIAN  
Head Basketball Coach  
Instructor of Physical Education  
B.A., University of San Francisco  
M.A., California Lutheran College

*BERG, LYNNE  
Instructor of Allied Health  
A.A., R.N., Pasadena City College

*BERKENBILE, FRENY  
Instructor of Business  
B.S., University of Bombay, India  
M.S., Ph.D., University of Oklahoma

*BIBY, JAMES EDGAR  
Instructor of Mathematics  
B.A., M.A., Occidental College

*BLACK, DONALD G.  
Assistant Professor of Business  
B.A., California State University, Los Angeles

*BLOWERS, MARY  
Instructor of Business  
A.A., Pasadena City College  
B.A., M.A., California State University, Los Angeles

*BOLAND, RUTH T.  
Librarian  
B.A., University of California at Los Angeles  
M.S.L.S., University of Southern California

*BOWERS, GORDON ALAN  
Instructor of Administration of Justice  
B.A., University of Southern California  
M.A., Chapman College  
*Part-time

*BRANDON, DENNIS  
Instructor of Philosophy  
A.A., Santa Monica City College  
B.A., M.A., California State University, Northridge

BRIGHOUSE, JEB  
Professor of Political Science  
B.A., Occidental College  
M.A., University of California at Los Angeles

*BRIGHOUSE, SONDRA  
Instructor of Family and Consumer Studies  
B.S., University of California at Los Angeles  
M.A., California State University, Los Angeles

*BRONIGAN, DARLEEN  
Instructor of Physical Education  
B.A., California State University, Northridge

*BROUKAL, MILADA  
Instructor of English  
B.A., University of Paris  
M.A., University of California, Los Angeles

*BROWN, ROBERT W.  
Professor of Art  
A.B., California State University, San Francisco  
M.F.A., California College of Arts and Crafts  
M.F.A., University of Southern California

BROWN, DOROTHY E.  
Instructor of Allied Health  
B.S., M.S., UCLA  
R.N., Bishop Johnson College of Nursing

*BUGBEE, BRUCE E.  
Assistant Professor of Management  
B.S., California State University, Los Angeles  
M.B.A., University of Southern California

*BURKE-KELLY, KATHLEEN  
Instructor of Art  
B.A., B.A., University of California, Irvine  
M.A., California State University, Northridge

*BUSAILAH, MOHAMMAD Y.  
Assistant Professor of Business  
B.S., B.S., University of Arizona  
M.S., Woodbury University

BUTOYI, CHERYL ANDERSEN  
Coordinator of Credit ESL  
Assistant Professor of English  
B.A., University of California, Santa Barbara  
M.A., University of California at Los Angeles

BYRD, LARRY R.  
Associate Professor of Chemistry  
B.S., St. Mary's College of California  
Ph.D., University of California at Irvine
CICUTO, JOHN M.
Associate Professor of Physical Education
B.A., University of California at Fresno
M.A.E., California Lutheran College.

*CLEMENTS, DAVID
Instructor of Art
B.A., University of California, Los Angeles

*CLEMENTS, PHILIP A.
Instructor of Mathematics
B.A., California State University, Northridge
M.S., West Coast University

COBLENTZ, TERRY
Assistant Professor of Physical Education
A.A., Pierce College
B.A., M.A., California State University, Los Angeles

COCHRANE, HAROLD B.
Professor
Emeritus Dean
A.A., Los Angeles Pacific College
A.B., M.A., Ed.D., University of Southern California

*COOK, KEVIN
Instructor of Computer and Information Systems
B.S., California Polytechnic State University, Pomona
M.B.A., University of California, Irvine

COOK, JOY V.
Learning Disabilities & Acquired Brain Injury
Instructor
B.A., M.A., California State University, Northridge

COOTS, STEVEN
Instructor of Physical Education
B.S., University of California, Riverside
M.A., University of LaVerne

*CORCORAN, MICHAEL
Instructor of Family and Consumer Studies
B.A., Whittier College

CORTEY, TERESA
Associate Professor of French
B.A., M.A., Ph.D., University of California at Berkeley

COSTALES, SHARON R.
Counselor
B.A., University of Redlands
M.S., California State University, Los Angeles

*Part-time
COX, PATTI
Instructor of Dance
B.A., Southern Colorado State University
M.A., San Jose State University

CRANDALL, WILLIAM H.
Assistant Professor of History
B.A., M.A., California State University, Los Angeles

CRAVEN, JOHN B.
Professor of English
A.B., La Sierra College
M.A., University of Southern California

CUDNEY, LARRY L.
Instructor of Mathematics
A.A., Santa Monica City College
B.A., M.A., University of California at Los Angeles

CUMMINGS, RUSSELL W.
Instructor of English as a Second Language
B.A., M.A., University of California, Los Angeles

CUNNINGHAM, JEANNE E.
Associate Professor of Psychology
A.A., Glendale Community College
B.A., California State University, Los Angeles
M.S.W., University of Southern California

CUTLER, ROBERT
Instructor of Business
B.S., Brooklyn College
M.P.A., University of Southern California

DALY, MICHAEL J.
Professor of English
B.A., California State University, Northridge
M.A., Ph.D., University of Southern California

DANIELS, LYNDA
Instructor of Physical Education
B.S., California State Polytechnic University, Pomona
M.A., California State University, Los Angeles

DANNE, DENISE
Assistant Professor of English
B.A., M.A., University of California at Los Angeles
M.S., Pepperdine University

DAVENPORT, DAVID A.
Professor of Chemistry
A.A., Glendale Community College
B.S., University of California at Berkeley
M.S., California State University, Northridge

DAVITT, JOHN A.
Superintendent/President
B.S., M.A., University of San Francisco
Ed.D., University of Southern California

DeFRAIN, PATRICIA L.
Associate Professor of Business
B.S., Ohio State University
M.A., University of Washington

DeGRASSI, LEONARD R.
Professor of Art
A.B., B.F.A., M.A., University of Southern California
Corso Perfezionamento Storia d'Arte, Universita Di Roma

DeLANGE, GLENN
Instructor of Music
B.A., M.A., California State University, Los Angeles

DENNIS, PATRICK
Instructor of Mathematics
B.A., San Diego State University
M.A., Claremont Graduate School

DEWERT, GILBERT
Instructor of Geology
B.S., M.S., Massachusetts Institute of Technology
Ph.D., Ohio State University

DIAZ-LOPEZ, FELIX
Assistant Professor of Economics
B.S., Kent State University
M.S., University of Wisconsin
Ph.D., University of Southern California

DIONIS, ROBERT C.
Assistant Professor of Aviation and Transportation
A.A., Los Angeles City College
B.S., California State University, Los Angeles

DODD, JUDY
Instructor of Allied Health
A.A., R.N., Los Angeles Valley College

DONAGHY, ROBERT
Instructor of Physical Education
B.A., M.S., California State University, Los Angeles

DONOVAN, BLANCHE K.
Professor of Physical Education
Division Chairperson
A.B., Occidental College
M.A., California State University, Los Angeles

*Part-time
DOYLE, DENNIS M.
Associate Professor of Reading Education
B.A., St. John's College
M.A., Reading Specialist Credential,
California State University, Los Angeles

DOZOIS, PAUL C.
Associate Professor of Engineering
A.A., Ciendale Community College
B.A., California State University, Los Angeles
M.A., California State University, San Jose

*DUNN, FRANCES
Instructor of English
A.A., Valley College
B.A., M.A., California State University, Los Angeles

*DUTTON, DEBRA
Instructor of Biology
B.S., M.S., California State Polytechnic University, Pomona

*EBERHARDT, KRISTIN
Instructor of Dance
B.A., California State University, Long Beach

EDELMAN, BART
Associate Professor of English
B.A., M.A., Hofstra University

EDGAR, RICHARD D.
Assistant Professor of Chemistry
A.A., Glendale Community College
B.A., University of California, Santa Barbara
M.S., San Diego State University

*EKONG, PAMELA
Instructor of English
B.A., Kalamazoo College
M.A.T., University of Chicago
M.A., University of Ibadan

*EMERSON, AMANDA
Instructor of Business
B.S., M.S. Woodbury University

*EMERSON, RICHARD
Instructor of Computer and Information Systems
B.S., California State Polytechnic University, Pomona
M.S., West Coast University

ERSELIUS, ROBERT
Assistant Professor of Accounting
B.S., University of California at Los Angeles
M.B.A., University of Southern California

*FARAHANI, HOSSAIN M.
Instructor of Economics
M.A., Ph.D., University of Southern California

*FARRAN, CAROLYN SUE
Instructor of Business
B.S., West Virginia State College
M.S., Marshall University

FIELD, MONA
Instructor of Social Sciences
B.A., Immaculate Heart College
M.A., California State University, Los Angeles

FORBES, GREGORY
Assistant Professor of Biology
A.A., Los Angeles Pierce College
B.S., M.S., California Polytechnic University,
San Luis Obispo

FORDE, DAPHNE
Instructor of Allied Health
A.A., East Los Angeles College
B.S., M.S., California State University, Los Angeles

*FORG, PAT
Instructor of Allied Health
A.A., Kaiser Foundation School of Nursing
B.S., Chapman College

*FREDRICKSON, SCOTT
Instructor of Music
A.A., Fullerton College
B.A., M.A., California State University,
Fullerton
M.B.S., Pepperdine University
D.A., University of North Carolina

*FRIEDMAN, FLORENCE
Assistant Professor of Business
R.N., Los Angeles County General Hospital
School of Nursing
B.S., California State University, Los Angeles
M.A., Pasadena College

FRIEDRICH-MEJIA, ERIKA
Professor of German
B.A., M.A., University of Arizona
M.A., Azusa Pacific University
Diplom, Sprachenschule der Landeshauptstadt
Munchen
Certificado de Estudios, Universidad De San
Carlos de Guatemala
M.F.C., Counseling License, State of California

*GALLOWAY, SHANNA
Assistant Professor of Art
B.F.A., University of Texas
M.A., University of Iowa

*Part-time
*GARDNER, ANN COFIELD
Assistant Professor of Sociology
B.A., University of North Carolina at Greensboro
M.A., University of North Carolina at Chapel Hill

*GARDNER, CHARLES
Instructor of Mathematics
A.A., Glendale Community College
B.A., California State University, Los Angeles
M.A., Pasadena College

GEORGE, GERRY A.
Counselor
A.A., Pasadena City College
B.A., M.A., M.S., California State University, Los Angeles

*GEORGEON, GISELE
Instructor of French
A.A., Pasadena City College
B.A., M.A., California State University, Los Angeles

GEORGAS, ANDREW J.
Professor of Art
B.F.A., Bradley University, Illinois
M.F.A., University of Southern California

*GIBSON, URSULA T.
Instructor of Legal Procedures

*GILLOOLY, JESSICA
Assistant Professor of Psychology
B.S., University of Missouri
M.A., California State University, Los Angeles

GIRARD, KINDRA A.
Associate Professor of Biology
B.S., M.A., University of California at Davis

GLANZER, ALLYN
Assistant Professor of Speech
A.A., Orange Coast College
B.A., M.A., California State University, Long Beach

GLEIENNA, RAYMOND
Associate Professor of Chemistry
Division Chairperson
B.S., University of Southern California
M.S., Ph.D., University of California at Berkeley

GORDON, TANIA S.
Assistant Professor of Graphics & Design
A.A., Glendale Community College

*GOTA, JOYCE
Instructor of Nutrition
B.S., University of California, Berkeley
R.D., Royal Victoria Hospital, Montreal, Canada
M.A., California State University, Los Angeles

*GRAHAM, DAVID
Instructor of Accounting
B.S., State University of New York
M.S., Northrup University

GRAY, KENNETH R.
Associate Professor of Theatre Arts
A.A., College of the Sequoias
B.A., M.A., San Diego State University

*GREENE, MARY JANE
Instructor of Accounting
B.A., New York University

GRIFFIN, HOPE C.
Professor of Business
A.B., University of California at Berkeley
M.A., California State University, San Francisco

*GRIFFITH, LINDA
Instructor of English
B.A., Reed College
M.A., University of Wisconsin

*GRIFFITHS, RICHARD WAYNE
Assistant Professor of Photography
B.F.A., Art Center College of Design, Los Angeles
M.Ed., University of La Verne

GRIMSBY, ALLAN
Dean, Student Services
B.A., California State University, Fullerton
M.S., California State University, Los Angeles

*GUDER, VICTOR L.
Director, Concert and Stage Band
B.A., University of California at Los Angeles
M.A., California State University, Fullerton

GUGLIELMINO, RICHARD
Assistant Professor of Physics
B.S., M.A., University of Southern California

GUILMETTE, COLLIN S.
Professor of History
A.B., M.S., University of Southern California

*HAASE, WALTER
Assistant Professor of History
B.A., Occidental College

*Part-time
HANLEY, TIMOTHY G.
Professor of English
B.A., M.A., California State University, Los Angeles

HARLAN, RONALD K.
Associate Professor of Biology
A.A., Chabot College
B.S., California State University, Hayward
M.A., University of California at Santa Barbara

HARRIMAN, SUSAN
Instructor of Speech Communication
B.S., Ohio University
M.A., California State University, Northridge

HARVEY, SALLY J.
Associate Professor of Spanish
A.B., University of California at Los Angeles
M.A., Inter-American School of Spanish, Mexico

HASKINS, ROBERT
Assistant Professor of Physics
M.S., University of Chicago

HAWKINS, DRAKE C.
Professor of Political Science
Division Chairperson
B.S., U.S. Naval Academy, Annapolis
M.A., University of California at Los Angeles

HAWKINS, ROBERT N.
Professor of Geography
B.A., California State University, Los Angeles
M.A., University of California at Los Angeles

HAYNE, RICHARD
Assistant Professor of Emergency Medical Technology
B.A., Whittier College
Mobile Intensive Care Paramedic, Los Angeles County-University of Southern California Medical Center
R.N., Los Angeles County-University of Southern California Medical Center
Ph.D., University of California, Los Angeles

HAYNES, CHERYL
Assistant Professor of Business
B.S., University of Bridgeport, Connecticut
M.S., State University of New York at Albany

HENLEY, MARGARET
Assistant Professor of Chemistry
B.S., University of California at Los Angeles
M.S., Syracuse University

HERNANDEZ, CARMEN D.
Assistant Professor of Spanish
M.A., Mount St. Mary's College

HERRERA, LUIS
Instructor of Electronics
B.S.E.E., California State Polytechnic University, Pomona
M.B.A., Pepperdine University

HEYER, BETTE
Instructor of English
B.A., M.A., Indiana University

HIGH, WALLACE S.
Professor of Psychology
A.A., Modesto Junior College
A.B., University of California at Santa Barbara
M.A., California State University, San Jose

HILL, WILLIAM F.
Assistant Professor of Mathematics
B.A., University of California at Los Angeles
M.A., California State University, Los Angeles

HOLDEN, KAREN B.
Counselor, Job Training
B.S., Indiana University of Pennsylvania
M.S., California Lutheran University

HOLMES, MARY KATHLEEN
Assistant Professor of Mathematics
B.A., M.A., University of California at Los Angeles

HOLMES, ROBERT C.
Instructor of Aviation
B.A., Carleton College
M.B.A., University of Michigan

HOLMES, ROBERT K.
Assistant Professor of Business
B.A., University of Southern California
J.D., Southwestern University

HOOVER, PHYLLIS
Assistant Professor of English
B.A., Pacific Lutheran University, Tacoma, Washington
M.A., University of New Mexico, Albuquerque, New Mexico

HORTON, ERNEST H., JR.
Professor of Philosophy
A.B., Los Angeles Pacific College
M.Div., Asbury Theological Seminary
Ph.D., University of Southern California

HOYT, RICHARD F.
Instructor of Management
B.B.A., Loyola University, Los Angeles
M.B.A., University of Southern California

*Part-time
HUBER, WALTER R.
Professor of Business
A.A., Mount San Antonio College
B.S., M.S., California State University, Los Angeles

HURST, DAVID O.
Professor of Chemistry
B.S., Wheaton College
M.S., University of Illinois

IRWIN, DIANNE E.
Associate Professor of Psychology
A.A., San Bernardino Valley College
B.A., California State University, San Bernardino
M.A., California State University, Fullerton
Ph.D., United States International University, San Diego

IVES, CARLA A.
Associate Professor of Spanish
B.A., M.A., University of California at Santa Barbara

*JACKSON, DONNALEE
Instructor of Family and Consumer Studies
A.A., Glendale Community College

*JAKL, LEONARD
Assistant Professor of Real Estate
B.A., California State University, Los Angeles

*JAKL, SANDRA
Assistant Professor of Physical Education
B.A., California State University, Long Beach

*JANES, CLIFFORD H.
Assistant Professor of Psychology
B.A., University of California at Berkeley
M.A., California State University, Los Angeles

*JOHNSON, LIANNE
Instructor of Allied Health
A.A., Los Angeles Community College
B.A., B.S.N., California State University, Los Angeles

*JOHNSTON, ERIC
Instructor of Anthropology
A.A., Fresno City College
B.A., University of California at Santa Barbara
M.A., University of New Mexico

*JORDAN, GEORGE
Assistant Professor of Real Estate
B.S., University of Pittsburg

*JORDAN, JIMMY
Assistant Professor of Mathematics
B.A., Occidental College

*KABATECK, GLADYS
Counselor
B.A., California State University, Fresno
B.A., M.S., California State University, Los Angeles

*KALUSH, JUDITH
Instructor of Accounting

*KAMARA-KAY, PHILIP S.
Assistant Professor
Counselor
B.A., M.A.Ed., Azusa Pacific College
Ed.D., University of Southern California

*KEAST, LAWRENCE J.
Instructor of Pianoology
B.A., M.A., California State University, Los Angeles

KEEFE, JOSEPH M.
Associate Professor of Botany
B.A., M.A., University of California at Santa Barbara

*KEEGER, JOAN
Instructor of Psychology
B.A., California State University, Los Angeles
M.A., Azusa Pacific

*KIBLER, ROBERT L.
Associate Professor of Fine Arts
B.S., Southeast Missouri State University
M.A., San Diego State University

*KILKEARY, DESMOND B.
Professor of English
B.A., California State University, Humboldt
M.A., California State University, Los Angeles

*KING, IRWIN, KUO CHIN
Instructor of Physics
B.S., California Institute of Technology
M.S., University of Southern California

*KITTLESrud, JAMES D.
Instructor of Computer and Information Systems
B.S., Cleveland State University

*KLEIN, JERRY
Instructor of Anthropology
B.A., California State University, Northridge
M.A., California State University, Los Angeles

*KLIJEWER, GRACE
Assistant Professor of Music
A.A., Reedley Community College, Reedley, California
B.A., Mills College, Oakland, California

*Part-time
*KLINT, RONALD, A.H.
Instructor of Mathematics
A.A., Glendale Community College
B.A., University of California at Los Angeles
M.A., California State University

*KLEOZEMAN, CHRISTINE
Instructor of Accounting
B.S., Brigham Young University
M.A., University of Redlands

*KNECHT, JANE
Assistant Professor of Music
B.A., University of California at Los Angeles
M.A., California State University, Los Angeles

KNIGHT, NANCY
Associate Dean, Disabled Student Services and Programs
B.A., Brooklyn College
M.A., California State University, Los Angeles

*KNUDSEN, MARY CHRISTINE
Assistant Professor of English
B.A., Russell College
M.A., California State University, Los Angeles

KRAY, JOHN S.
Associate Professor of Technical Education
A.S., Los Angeles Trade Technical College
B.A., California State University, Los Angeles

*KRITSELIS, ALEXANDER
Instructor of Art
F.B.A., Academy of Fine Arts, Athens, Greece
M.F.A., Middlesex Polytechnic, Hornsey College of Art, London, England

Los Angeles
J.D., Loyola Law School

VARLLICELLA, PHILIP
Assistant Professor of English
B.A., University of California at Santa Barbara
M.A., University of Michigan

*Part-time
*VAN AMERSFORT, KYLE  
Head Athletic Trainer  
Instructor of Health  
A.A., Golden West Community College  
B.A., San Diego State University  
A.T.C., National Athletic Trainers Association

*VAN BREMEN, DENNIS  
Instructor of Photography  
B.A., California State University, Northridge  
M.A., University of La Verne

VAN DAM, DENIS C.  
Associate Dean, Learning, Tutorial and Assessment Services  
B.A., University of California at Los Angeles  
M.A., California State University, Long Beach  
Ph.D., University of Southern California

VAN DAM, GEORGIA J.  
Assistant Professor of Philosophy  
A.B., Augustana College, Illinois  
M.A., University of Illinois

*VAN LEEUWEN, KATHLEEN  
Instructor of Family and Consumer Studies  
B.A., M.A., Immaculate Heart College

VANDER LEEST, CHRISTINE  
Instructor of Music  
A.A., El Camino Jr. College  
B.M., University of Southern California  
M.A., California State University, Los Angeles

*VANEVENHOVEN, RONALD M.  
Coordinator, Alcohol/Drug Studies Program  
B.A., M.A., California State University, Los Angeles

*VAUGHT, ROBERT  
Assistant Professor of Music  
B.A., M.A., California State University, Los Angeles

VILLALOBOS, JOHN  
Instructor of English  
A.A., Glendale Community College  
B.A., M.A., California State University, Los Angeles

VIZUETTE, SUSAN L.  
Associate Professor of English  
A.B., M.A., Occidental College

*WADE, NANCY L.  
Instructor of Psychology  
R.N., Queen of Angel’s  
M.A., M.F.C.C., Pacific Oaks College

*WALLINGFORD, RONALD H.  
Instructor of Physics  
A.S., Citrus College  
B.S., California State University, Los Angeles  
M.S., University of California, Los Angeles

WANG, YEIMEI  
Coordinator of Special Events  
Associate Professor of Food and Nutrition  
B.S., Marietta College, Ohio  
M.S., University of Southern California

*WARE, ADRA  
Instructor of English  
B.A., California State University, Los Angeles

WATKINS, LOUIS  
Instructor of Business  
A.A., Moorpark College  
B.S., California State University, Northridge

*WATTS, MARV  
Instructor of Mathematics  
B.A., University of California, Riverside

*WEAVER, MARK  
Instructor of Political Science  
B.A., Stanford University  
M.A., University of Pennsylvania

*WEAVER, ROBERT  
Assistant Professor of Art  
B.A., M.F.A., Otis Art Institute

*WEINBERG, JOEL  
Instructor of Mathematics  
B.S., Columbia University  
M.B.A., California State University, Long Beach

*WESTENDORF, M. CARMEN  
Assistant Professor of Spanish  
B.A., California State University, Los Angeles  
M.A., University of California at Los Angeles

WHITE, DAVID  
Instructor of English  
A.A., Pasadena City College  
B.A., M.A., California State University, Los Angeles  
International Grad. Diploma, University of Salsburg, Austria

WHITE, STEVEN  
Assistant Professor of Economics  
B.S., University of Illinois  
M.A., California State University, Los Angeles

*Part-time
*WHITE, VERA  
Instructor of Business  
A.A., Los Angeles Valley College  
B.A., M.A., California State University, Los Angeles  

*WILES, CAROLEE  
Instructor of Physical Education  
and Office Administration  
B.A., M.A., University of California, Los Angeles  

WILLIAMS, RICHARD L.  
Associate Professor of Political Science  
B.A., M.A., San Jose State University  

*WILLIS, LAVERNE  
Assistant Professor of Business  
A.A., Pasadena City College  

*WINSLOW, JO-AN  
Assistant Professor of Real Estate  

*WINTERS, LINDA S.  
Librarian  
B.A., University of Kansas  
M.A., Emory University, Atlanta, Georgia  

WITT, GEORGE J.  
Associate Professor of Mathematics  
B.A., University of California at Irvine  
M.A., California State University, Long Beach  
Ed.D., United States International University  

*WU, ANN  
Instructor of English  
B.A., National Taiwan Normal University  

*VANOVER, ROBERT M.  
Assistant Professor of Management  
B.S., M.S., California State University, Los Angeles  

*YEATES, CLAYNE  
Assistant Professor of Physics  
Ph.D., Brigham Young University  

*YEN, DAT  
Instructor of Real Estate  
B.A., University of Saigon  

*YOUNG, ANDREW  
Assistant Professor of Mathematics  
B.S., University of California, Irvine  
M.A., University of California, San Diego  

*YOUNG, MILTON B.  
Professor of Music  
B.Mus., University of Redlands  
M.Mus., University of Southern California  

*YOWS, SUZANNE  
Instructor of Theatre Arts  
A.B., B.S., Washington University  
M.F.A., California Institute of the Arts  

*ZARIAN, ANNETTE  
Instructor of English  
B.A., California State University, Fresno  
M.A., California State University, Los Angeles  

ZICHI, LINDY E.  
Instructor of Architecture  
B.A., University of California, Santa Barbara  
M.A., California State University, Los Angeles  

*Part-time
