
2014 – 2015

Introduction

This report is Glendale Community College’s first Annual Report on Integrated Planning, Program Review, and Resource Allocation. The purpose of this report is to show the college’s progress in implementing and sustaining the integrated model that resulted from the accreditation recommendations of 2010. This report is published at the end of every planning/program review/resource allocation cycle.

The specific goals of this report are to document the following items:

• The college’s evaluation of planning, program review, and resource allocation

• The college’s evaluation of the integrated model as a whole

• Recommendations for improving the integrated model of planning, program review, and resource allocation

This report is structured around the three components of the integrated model. Progress within each component is reported separately to focus on the individual component. At the end, a summary evaluation shows progress on the entire integrated model and recommendations for the next cycle in the 2011-2012 academic year.
