Welcome to Glendale Community College and thank you for choosing us as you pursue your academic, career and personal goals. For over 85 years, student success has been our priority and academic excellence has been our hallmark.

Glendale Community College, through its various programs and courses, is truly one of the premier institutions in the state of California. Our commitment to our students is evidenced as you interact with our dedicated faculty and staff, explore the breadth of our educational programs, and experience our ongoing commitment to academic excellence.

As your community college of choice, the Board of Trustees, administration, faculty and staff, welcome you and wish you much success in your endeavors at Glendale Community College.

Dr. David Viar,
Superintendent/President

The Board of Trustees of the Glendale Community College District consists of five members who are elected by the voters of the community for a four-year term. A Student Trustee is elected annually by the students and is the official representative of the students to the Board. The Superintendent/President of the District serves as Secretary to the Board. The Board meets at least once a month, and agendas are posted in accordance with the Brown Act.

The Board has authority over and responsibility for policies to assure the academic quality, integrity, and effectiveness of the student learning programs and services and the financial stability of the college. Its duties include approval of college policy, adoption of an annual budget, approval of expenditures of all District funds, approval of plans, acquisition of property for District purposes, and approval of employment of academic and classified personnel.

MISSION STATEMENT

Glendale Community College serves a diverse population of students by providing the opportunities and support to achieve their educational and career goals. We are committed to student learning and success through transfer preparation, certificates, associate degrees, career development, technical training, continuing education, and basic skills instruction. The college is dedicated to the importance of higher education in the evolving urban environment of Glendale and the Greater Los Angeles area. Faculty and staff engage students in rigorous and innovative learning experiences that enhance and sustain the cultural, intellectual, and economic vitality of the community.

As part of its mission, Glendale Community College is committed to student success by promoting:

- communication, critical thinking, information competency, quantitative reasoning, global awareness, and personal responsibility;
- collaboration among disciplines and openness to the diversity of the human experience;
- student services, learning support, and state of the art technology, including distance education modalities, that enable students to reach their educational goals in an efficient and timely manner.

VISION STATEMENT

Glendale Community College is the Greater Los Angeles Region’s premier learning community where all students achieve their informed educational goals through outstanding instructional and student services, a comprehensive community college curriculum, and educational opportunities found in few community colleges.

INSTITUTIONAL LEARNING OUTCOMES

Institutional Learning Outcomes (ILOs) are commonly defined as the knowledge, skills, abilities, and attitudes that students are expected to develop as a result of their overall experiences with any aspect of the college, including courses, programs, and student services.

Upon successful completion at Glendale Community College, the student will be able to:

1. **Communication**
   communicate clearly, demonstrate critical thinking, and apply knowledge utilizing writing, speaking, presenting and other modes of communication;

2. **Mathematical Competency/Quantitative Reasoning**
   apply, interpret, and understand mathematical and quantitative concepts;

3. **Information Competency**
   recognize an information need, or define a research topic using library and other resources to locate, evaluate, and use information or data in an ethical and legal manner;

4. **Critical Thinking**
   analyze problems and apply knowledge; collect, synthesize, and evaluate ideas, information and data to develop arguments and derive conclusions;

5. **Global Awareness and Appreciation**
   recognize and analyze the interconnectedness of global, national, and local concerns, analyzing cultural, political, social and environmental issues from multiple perspectives, and to appreciate similarities and differences among cultures;

6. **Personal Responsibility**
   demonstrate and apply decision making skills and develop the capacity for self understanding and recognize lifestyles that promote physical and mental well-being.

OBJECTIVE AND FUNCTIONS

Glendale Community College has one objective: education. Six primary functions support this objective.

1. Associate in Arts/Associate in Science: Education toward the granting of AA/AS degree(s) is provided in accordance with approved graduation requirements. General education and major coursework form the core of the required curriculum, the balance being electives.

2. Education for meeting the lower division requirements of a university or a four-year college: The college offers many courses which are equivalent to those available in the freshman and sophomore years at the University of California, The California State University and other colleges and universities in the United States. A student with a satisfactory high school and community college record will receive full credit for all college and university level work done at GCC provided that the work meets the specific requirements of the college or university to which the student transfers.

3. Education beyond the high school level for vocational competence and/or occupational certification: Training programs are offered for many occupations in business and industry. Certificates are awarded upon completion of the requirements for the occupation-centered curriculums. Courses offered in these programs serve three groups of students: those training for entry-level positions; those preparing for advancement on the job; and those seeking to improve skills to meet new job requirements. Thus, students are offered a balance of technical and general education.

4. Pre-Collegiate BasicSkills: Educational programs prepare students for collegiate level work. Courses are designed to provide the student with basic skills instruction with emphasis on speaking, listening, reading, writing and computation.

5. Education beyond the secondary level for personal improvement: Recognizing the needs of post-secondary students for education which may lead neither to educa-
tion in a higher institution nor to vocational preparation, GCC offers a diversity of courses which satisfy intellectual curiosity and provide knowledge about and appreciation of our universe.

6. Noncredit Continuing Education: A comprehensive program includes basic education, courses leading to the high school diploma, citizenship, English as a second language, career and vocational classes, and courses that satisfy the many special interest needs of the community.

PROGRAMS AND SERVICES

A variety of programs and services implements and supports the objectives and functions stated above.

a. Counseling: Counseling services are available to help students have a successful college experience. Counselors are available to assist students with academic planning, career decision-making, life planning and personal and intra-personal concerns. Counselors provide a climate in which students make thoughtful, independent, decisions for educational and vocational goals. Working through individual interviews with students, small and large groups, and college orientation classes, they help students to become aware of their capabilities and to plan appropriately. A number of specialized counseling service centers are available on campus. These centers include Academic Counseling (Equity Programs, Black Scholars, LA Comunidad, Guardian Scholars), EOPS, DSPS, Career, Transfer (Scholars), Adult Re-Entry, International Student Office, and Admissions & Records (Veterans, Dismissals).

b. Health Services: The Health Center provides first aid, primary health care, crisis counseling, health counseling, and health information and referral services.

c. Basic education: Students with specific learning problems or with grade or subject deficiencies in their high school record may make up such deficiencies and enter into a program leading to an Associate degree and, if desired, to upper division standing at a four-year institution.

d. Refresher education: Members of the community have the opportunity to refresh, as well as to update their knowledge in classes offered at GCC.

e. Evening education: Persons wishing late afternoon or evening classes may enroll in the Evening College program. Evening College courses parallel and expand the daytime offerings. The college also offers classes on Saturdays.

f. General education for all members of the community: The college offers wide and varied curriculum designed to promote the following objectives:

1. Development of communication and computational skills which form a base for training in critical thinking as exemplified in drawing sound conclusions from premises, making relevant judgments, and discriminating among values.

2. Knowledge of the cultural heritage as the accumulated record of the development of mankind.

3. Appreciation for aesthetic expression, excellence, and creativity as major values.

4. Foundation in knowledge, attitudes, and skills necessary for occupational employment.

5. Cultivation of habits which are essential to physical and emotional growth, citizenship, and societal responsibilities.

6. Development of an awareness of the influence of such environmental problems as population growth, land-use, and pollution on the quality of life through field observation and other experiences.

g. Adult education: A varied adult education program including high school diploma subjects, English as a second language, citizenship, parent preschool education, retirement seminars, and office skills, is offered by the Noncredit Education office.

h. Community services: The college also offers a fee-based program designed to provide public service in a wide variety of avocational, recreational, self-improvement and other career development subjects. None of these courses are offered for college credit. If you have received a traffic ticket, Traffic Violators School is held both weekends and weekdays.

i. Education for creative use of leisure time: The college encourages students to develop skills and an appreciation for creative use of leisure time.

j. Preparation for the future: The college urges students to become more sensitive to world crises created by a burgeoning population and by the increasing demands of people and nations upon resources. Students learn to approach these crises through the scientific method of the natural sciences and through the combined methods of the humanities and social sciences and co-curricular programs. It is important for students to realize that the structure of human society is changing and that new and different technologies will affect the transition.

k. Services to meet the unique needs of ethnic-minority students: The college is committed to cultural diversity within its student body achieved by recruitment of resident Americans of various national origins and by the acceptance of a significant number of foreign-visa students. Meeting the needs of these students realistically is an important function of the college.

ACCREDITATION

Glendale Community College is accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges, 10 Commercial Blvd., Suite 204, Novato, CA 94949, (415) 506-0234, an institutional accrediting body recognized by the Council for Higher Education Accreditation and the U.S. Department of Education. Glendale Community College was evaluated in 2016 and is an Accredited Institution. The next scheduled evaluation will take place in 2023. Glendale Community College accepts credit for courses completed at colleges and universities that have been accredited by one of the regional accrediting associations.
ADVISORY COMMITTEES

Glendale Community College seeks advice about the programs and goals of the institutions. Individual citizens representing organizations, interests, and specific programs contribute their time to ensure that the college is meeting student, industry, and community needs.

ALUMNI ASSOCIATION

The Glendale College Alumni Association office is located in the Foundation Office, John A. Davitt Administration Building, Room AD 149. The Alumni meets on a regular basis, with the meetings open to the public. For membership information or Alumni Council meeting dates, please call (818) 240-1000, ext. 5199.

THE BAJA CALIFORNIA FIELD STUDIES PROGRAM

Glendale Community College has been offering field classes and field trips in the Baja California peninsula of Mexico since 1974. The college maintains a facility in the peninsula, the field station “Estación del Mar Cortés”, which serves as a headquarters for various curricular offerings of interest to its faculty and students. Over the years, courses in marine biology, natural history, oceanography, geology, history of Baja California, philosophy, psychology, health, geography, physical education, English and Spanish have been offered. The Center for Students with Disabilities has also participated in our field activities.

In a setting that emphasizes field observation and cooperative learning, the program aims to expose students to a pristine and complex natural environment coupled with a unique experience in Mexican culture. Different academic experiences are integrated in a setting which results in memorable and long-lasting adventures in learning. By living and learning together, a community of learners is created where the beauty and complexity of the human and natural world can be observed, studied and enjoyed.

Students interested in participating in any of the programs offered should contact the Baja California Field Studies Program office at (818) 240-1000, ext. 3159, for application forms. You can also obtain more information and learn about current offerings at: http://www.glendale.edu/baja.

COMMUNITY SERVICES EDUCATION

Community Services Education is a program of noncredit, fee based classes and activities designed to serve individuals with educational goals that do not require college credit. There are no transcripts, grades or academic requirements. (Some certificate programs require prerequisites.) Community Services Education classes are usually shorter than credit classes and normally do not require lengthy preparation. To request a current catalog call (818) 240-1000, ext. 5015. You can also obtain more information and learn about current offerings at http://www.glendale.edu/cse.

CONTINUING EDUCATION

Continuing Education at the Garfield Campus

Glendale Community College has offered noncredit courses since the early 1930’s. The Garfield Campus administers Continuing Education which includes the Business and Life Skills division and the Noncredit English as a Second Language division. Departments include ESL, Lifelong Learning, Office Business Technology, Student Success Center (D3L), and Parent Education. Classes are held primarily at the Garfield Campus, as well as the Verdugo campus, and throughout the community. Classes are available in the mornings, afternoons, and evenings throughout the week.

Continuing Education office hours are 8:00 a.m. to 9:00 p.m. Monday through Thursday, and 8:00 a.m. to 4:30 p.m. on Friday. All Continuing Education classes are tuition-free. Students may enter a class at any time during the year depending upon availability. For information or to request a current schedule of classes, please call (818) 240-1000, ext. 5678 during business hours.

Workforce Investment Opportunity Act (WIOA): The WIOA staff collaborates with the local Work Source (or One-Stop) Centers to arrange for training programs including certificates in Accounting, Medical/Dental Front Office, General Office Clerk, and Introduction to Hospitality and Tourism. Students must meet federal standards regarding unemployment status and they must be assessed prior to receiving a voucher for training. For more information call (818) 240-1000, ext. 5803.

Citizenship

The Garfield Campus offers English as a Second Language Citizenship classes for those who want to learn more about the history and government of the USA and prepare for their oral interview. The Citizenship Center is located at the Garfield Campus and offers information regarding citizenship eligibility, application procedures and deadlines; legal referrals; INS forms needed for naturalization; photographs for INS application or passport; typing and preparation of the INS 400 form; and assistance in preparing for the exam. For more information call (818) 240-1000, ext. 5717.

English as a Second Language

The Noncredit ESL program offers literacy through advanced courses. Classes are held at the Garfield Campus, main campus, and in various locations throughout Glendale. They are designed to meet the various needs of the student population. Courses are open-entry/open-exit and are tuition-free. In addition to the regular program, special offerings include:

- First Language Support classes in Literacy for Hispanic and Armenian students
- First Language Support classes for Hispanic students, Levels 1, 2, and 3
- Citizenship
- English for Older Adults
- College Readiness ESL
- Conversation

For more information, please call (818) 240-1000, ext. 5033.
COOPERATIVE WORK EXPERIENCE EDUCATION*

Cooperative Work Experience Education (CWEE) combines on-the-job experience with classroom instruction. It is designed to expand skills and knowledge and to improve self-understanding by integrating classroom study with planned supervised work experience. CWEE is based on the principle that well educated individuals develop most effectively by incorporating related education and work experience. These structured experiences in business, industry, government, and human services bring an enrichment to college studies which enhances the student’s total development. It is called CWEE because the education objectives are carefully planned and coordinated with the student’s employer to provide realistic employment experience.

The objectives are:
1. Provide opportunity for students to secure employment on a part-time or full-time basis.
2. Gain realistic work experience that is meaningfully related to the student’s college study program.
3. Provide opportunity to acquire knowledge, skills, and attitudes essential for successful employment.

Student Benefits of Cooperative Work Experience Education
1. Learn or improve job skills under actual working conditions.
2. Gain perspective on career goals through application of classroom theory to “real life experience.”
3. Build self-identity and confidence as a worker through individual attention given by instructor/coordinator and employers.
4. Opportunity to test personal abilities in work environments.
5. Have a more realistic approach to the job market.
6. Gain a better understanding of human relations.
7. Refer to work experience education on future job applications.

DISTANCE EDUCATION

Glendale Community College offers a variety of Distance Education courses to meet your needs including Online courses and Hybrid courses. Distance Education utilizes Moodle as a Learning Management System (LMS). Internet and other technologies are used in learning exercises every week to ensure regular and effective contact between instructor and student. Distance Education courses are equivalent to a classroom-based course. Courses are taught by the same qualified instructors and follow the same curriculum and standards as the classroom-based course. Distance Education courses provide flexibility in scheduling and are especially helpful to self-directed learners. It is recommended that students be comfortable with computers, particularly the internet, before taking an online or hybrid course.

Two forms of Distance Education are offered at GCC:

Online Courses
The majority of class instruction, assignments, and communications are done online. Online instruction may be delivered synchronously (in real-time) and/or asynchronously (not real time). **Online courses require a mandatory on-campus orientation and may also require on-campus testing.**

Hybrid Courses
A portion of the class instruction, assignments, and communication are done online and the rest is during on-campus classroom meetings. The online portion of the class instruction may be delivered synchronously (in real-time) and/or asynchronously (not real time).

Distance Education courses are equivalent to a classroom-based course. Courses are taught by the same qualified instructors and follow the same curriculum and standards as the classroom-based course. Students in distance education courses are required to ‘attend’ class and participate just as if they were in a face-to-face course.

Once enrolled in an online or hybrid course, students must retrieve and read the Welcome Letter sent by the instructor two days before the semester begins via GCC email and complete the Course Check-In Assignment described in the Welcome Letter.

Any portion of a course provided through distance education is conducted consistent with guidelines issued by the Chancellor pursuant to section 409 of the Procedures and Standing Orders of the Board of Governors.

GLENDALE COLLEGE POLICE DEPARTMENT

The Glendale College Police Department is open 365 days a year. To report a crime or suspicious activity please call (818) 551-5205 or stop by in person at SM 153. For emergencies you may dial extension 4000 from a college phone or call (818) 551-4911 from a cell or telephone. The department is an authorized terminal user of all local, regional, state and federal criminal justice information systems (e.g., wanted persons, DMV, stolen vehicles/property, criminal records, etc.). Our goal is to provide timely and appropriate responses to community problems and needs.

Police Officers of the GCC Police Department are armed, duly sworn peace officers of the State of California. Empowered by section 830.32 of the California Penal Code, officers possess the same authority, and adhere to the same state-mandated standards, as municipal police officers. Therefore, under California law, the officers authority extends to any place in the state for the purpose of performing their primary duty or when making an arrest pursuant to section 836 of the California Penal Code; however, efforts are concentrated on the college and its immediate environment. Our department enjoys a positive and close working relationship with the City of Glendale Police Department, with whom we share proximity, mutual interests, and geographic jurisdiction. GCCPD officers may work in uniform or plain-clothes. They provide a full range of police related services, including: primary emergency response; preventative patrol; initial investigation of observed, reported, or suspected crime;
enforcement of all applicable laws; follow-up and specialized criminal investigation; crime prevention; community liaison and relations; V.I.P./dignitary protection; special event security; traffic activities (enforcement and accident investigation); parking enforcement and, campus escorts of students, faculty or staff.

Persons arrested by the GCCPD officers are processed in accordance with prevailing practices in Los Angeles County, which can include: citation and release; booking into the City of Glendale Police Jail; filing of charges with, and prosecution through, the District Attorney’s Office; and formal trial. Additionally, GCC affiliates (student, faculty, staff) may be subject to additional (Administrative/Code of Conduct) sanctions.

REPORTING A CRIME

Walking-In
You can report a crime at the police station 365 days a year. The police station is located in the Sierra Madre building, SM 153.

Emergency Call Boxes
Emergency Call Boxes (ECBs) are located in, or adjacent to, most campus parking lots. They are connected to the Police Department Communications Center by phone line, and each one emits an identifier code that alerts the Police Dispatcher of the location of the box being activated. It is important for campus community members to learn the locations of EC Bs, especially those located along frequently traveled campus routes (maps are available at the station). To use the system:
1. Follow the instructions on the box.
2. When the button is pushed and the ECB is activated it immediately alerts the Police Dispatcher by phone. Speak clearly into the box.
3. If, for any reason, you are unable to talk into the ECB, you can summon assistance by pushing the button and waiting next to the ECB. An officer is dispatched to the ECB each time it is activated.

Incident Reporting
The College endorses a reporting policy that strongly encourages victims to report all criminal incidents to the police immediately, regardless of their nature. It is important that all criminal activity occurring on campus be reported to ensure that appropriate action can be taken. On-campus crime should be reported to the GCCPD. Emergencies are best reported using campus emergency extension 4000, and non-emergencies are better reported using campus extension 5205.

The GCCPD has the primary jurisdiction and responsibility for investigating crime and providing police service to the campus. The GCCPD relinquish primary authority to the City of Glendale Police Department for providing operational responsibility for all Part 1 violent crime including the investigation of willful homicide, forcible rape, robbery and aggravated assault occurring on GCC District property.

Informational Disclosures
The preceding information has been disclosed in accordance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Act. All information disclosed has been reported using the Uniform Crime Reporting procedures as set forth by the FBI and the California Department of Justice. Additional information including data regarding criminal activity that has occurred on our campuses and the public property adjacent to our campuses over a 3-year period is available at www.glendale.edu/police. You can also view the current Security Report at http://www.glendale.edu/cleryact.

GLENDALE COLLEGE FOUNDATION, INC.
Created in 1983 by a group of committed community volunteers, Glendale College Foundation, Inc. now has an endowment of more than $11 million. That small group of volunteers has expanded into an active 35-member Board of Directors that provides guidance, support and direction every step of the way.

To accomplish its broad mission of supporting Glendale Community College, the Foundation focuses on three main goals that:
- Raise funds for GCC facilities and programs
- Create public awareness of the needs of the college
- Promote the college to businesses and the community.

Glendale College Foundation, a 501(c)(3) charitable organization and an integral part of GCC, distributes more than $500,000 in scholarships and special grants annually. The Foundation needs the support of donors like you to continue its work into the future. Every gift, no matter the amount, is greatly appreciated. You can donate in the form of cash, stocks or credit card payments. Payroll deduction is also available as well as secure online payments at www.glendale.edu/donation.

For more information on these and other options, please stop by our office or visit our website at: www.glendale.edu/foundation or call (818) 551-5199.

H.S.E. TESTING
The High School Equivalent tests (HSE) can give you the opportunity to earn a high school equivalency certificate and may reduce considerably the number of elective courses required for a high school diploma. The HSE tests five areas: Writing Skills, Social Studies, Science, Literature and Mathematics. The HSE Test is given at the Garfield Campus, 1122 E. Garfield Avenue, Glendale. For test dates and registration information, please call (818) 240-1000, ext. 5055. For information regarding free optional preparation courses offered at the Garfield Campus call (818) 240-1000, ext. 5686.

INTERNATIONAL STUDENTS
Glendale Community College welcomes students from all nationalities who desire to study in the United States. During any given semester, there are approximately 550 to 600 International visa students (F-1 category) enrolled full-time at the College representing over 60 countries. International students who seek admission to GCC may receive application materials from the International Student Office, located on the second floor of the San Rafael Building. Prospective International applicants are encouraged to contact the office at the following: Phone: (818) 240-1000, ext. 5439 or 6645, E-mail: gcciso@glendale.edu. The GCC
Web site www.glendale.edu/international provides a menu option for “International Students” from the home page. Here, students can print out the International Application Forms & “Checklist” of instructions. There is also an “online” application link available. International Student Office hours are Monday through Thursday 8:30 a.m. to 5:00 p.m., and Friday 8:30 a.m. to 1:00 p.m.

In order to be admitted to GCC, International students must submit the following forms and credentials: “International Student Application Form” and required processing fee of $60.00; official transcripts and diploma of High School record, or any college/university work completed, along with English translations; official TOEFL score min. 45 iBT exam or IELTS “band” score of 4.5 to 5 min.; Affidavit of Support Form and official bank statement certification, along with one-page personal essay. Please Note: International students under 18 years of age must show High School or Secondary School “equivalency” of completion (as defined by country system) by the time they register for classes.

Also Note: New students can be processed for “Credit ESL/languages” studies without the TOEFL or IELTS exam. Also Note: New students can be processed for “Credit ESL/languages” studies without the TOEFL or IELTS exam.

Please contact the International Student Office for details or use the GCC Web site links provided.

Final Note: It is strongly recommended that new students overseas complete the above admission requirements in a timely manner—to ensure proper class registration and given U.S. Embassy/Consulate delays and general visa processing issues.

The college offers admission to International students for the Fall and Spring semesters, along with limited class scheduling during the short-term Winter & Summer sessions. The International Student Office provides full support services for International students including academic counseling, immigration advising, a new student orientation day each semester, and special student programming activities throughout the year. The office also provides information on off-campus housing and “homestay” host family placements, and helps to administer a mandatory group health insurance plan for all students.

MYGCC.GLENDALE.EDU

MyGCC is a private website available to GCC students after they have applied for admission and have received a student ID number. Log on to MyGCC from home, or from any computer with an Internet connection. Go to mygcc.glendale.edu 24/7. Enter your Student ID and Password, and access a wide range of information, most of it personalized. Students are responsible for activating their college issued email address and monitoring their MyGCC student portal. All official correspondence from the college will be sent to your college issued email address.

MyGCC provides students with their current and previous class schedules, registration information, student e-mail, financial aid information, and course history, including grades. Students can also change their mailing address through MyGCC. Through links, students can also connect to many GCC resources such as registration, class schedules, library workshops, scholarships, and more.

Click the links to plan your schedule, enroll in classes, make a payment, and see appointment details.

1. Log in - Online
2. Plan - Search for classes, validate prerequisites, organize schedule prior to registration.
3. Enroll - Click the Enroll button to confirm classes in your shopping cart. Click Finish Enrolling, review your new class schedule.
4. Pay - Click on make a payment to view outstanding charges.

SCHOLARS PROGRAM

www.glendale.edu/scholars

The Glendale Community College Scholars Program is the College’s honors program. The Scholars Program has been created to serve the needs of academically promising students, offering them opportunities for more intensive study, plus service and collegial friendships. The Scholars Program is based on a 5-course core curriculum that participants plan individually with the Scholars Counselor. The curriculum emphasizes critical thinking and in-depth analysis of issues.

Students who successfully complete the Scholars Program benefit from enhanced admissions consideration through the UCLA College of Letters and Science, through the UCLA Transfer Alliance Program (TAP); the Scholars Program Director and Scholars Counselor certify qualified Scholars for their TAP applications to UCLA. Good standing for TAP certification and Scholars Program completion indicate a strong academic and Scholars service record. GCC is also a member of the Honors Transfer Council of California, which has a growing number of college and university transfer partners. In general, campuses nationwide recognize GCC’s Scholars Program as a competitive edge on students’ transfer applications.

Academic advancement and transfer assistance are the main advantages of being a Scholar. Further, also as a priority of the Scholars Program, participants perform many valuable charity and community service efforts, both on and off campus, fundraising events, and also collegial social events and activities, including the preparation of a Scholars Journal, throughout the year. In their academic, service, and social contexts, Scholars develop bonds with fellow students. Scholars benefit from priority registration, specialized counseling, and smaller class sizes. As an organization, The Scholars Program aims to serve the campus community as well as the individual needs of its students, always mindful of the development of the well-rounded, service-oriented student.
Minimum Requirement for the Program*

• High School GPA (unweighted) of 3.25, or college GPA of 3.0
• Eligibility for English 101
• Completion of Scholars Application, which is downloaded from the Scholars Program Website.
• Completion of the GCC Application prior to submitting the Scholars application
• Transcripts from all high schools and colleges attended
• Writing Sample (prompt is on the Scholars application)
• Letter of recommendation written by an instructor or counselor who knows the student and his or her work well.

For more information, visit the website, send an email to scholars@glendale.edu, or call (818) 240-1000, ext. 5699. The Scholars Program Director’s office is in LB 216.

Note: All requirements listed are used as guidelines and can be rescinded or adjusted at the discretion of the College Scholar Advisory Committee.

STUDY ABROAD PROGRAMS

Glendale Community College believes it is essential for students today to cultivate an informed and sensitive awareness of all parts of the world in order to better co-exist with other nations and with people from cultures different from their own. In harmony with this belief, the college is following the guidelines developed by the Council on International Educational Exchange for the U.S. Department of State, which focus on expansion of student opportunities for study and work abroad as well as the guidelines of the California colleges for International Education, a consortium of California community colleges.

The college offers summer, winter, and spring programs to exciting places like Paris, Prague, Armenia, New Zealand, Australia, Argentina, Italy, Greece, Ireland, and other places of special interest to Glendale College students. Interested students should phone (818) 240-1000, ext. 5718 or drop by AD 145C. You can also read about our offerings on our web page at www.glendale.edu/studyabroad or email us at studyabroad@glendale.edu.

TRANSFER CREDIT

The College recognizes that students may have previous academic experience from other institutions that are comparable to our courses. The College reserves the decision to evaluate and award credit value for courses from other institutions of higher education.

Regionally Accredited Colleges/Universities

Students who wish to have college credit transferred from other regionally accredited colleges and universities need to have official transcripts mailed directly from the originating institution to the Office of Admissions & Records at GCC. It is the function of the Admissions & Records Office at GCC to verify the official status of all incoming transcripts prior to the evaluation and posting of transfer credit. All transcripts submitted to GCC for evaluation become the property of GCC. Unofficial transcripts or copies of transcripts carried by individuals may be used for academic advising or counseling purposes only; transfer credits will NOT be posted to the GCC academic record from transcripts that are not received directly from the issuing institution.

Transfer of Credit

The student must have previously completed courses or be currently enrolled at GCC in order for incoming transcripts to be evaluated. All credit units accepted will be recorded on the GCC transcript. Once transfer credit is posted to a student transcript, it cannot be removed. A student must complete a Transcript Evaluation form with their academic counselor if courses are to be evaluated for GCC graduation, a certificate, and IGETC or Breadth certification. An evaluation may take 8 to 12 weeks to complete. Evaluations may take longer during peak periods. When requesting a transcript evaluation from out-of-state and private institutions, all courses to be evaluated must include course descriptions from the time that they were completed. All math and English courses require a course syllabus as well.

Acceptable Credit

Only lower-division degree-applicable credit will be accepted; classes must be college level rather than remedial or developmental. An upper-division course may only be accepted as subject credit for an associate degree. All courses to be used for an associate degree, certificate, IGETC, or Breadth certification must be completed with a grade of “C” or better. All questions related to acceptable credit will be forwarded to the appropriate academic department. All courses to be used for IGETC and/or Breadth certification will follow the rules outlined in the Standards of Rules, Regulations and Policies for both certifications.

Institutions Outside the United States

College credit transferred from outside the United States will need to be evaluated by an independent international credentials evaluation agency. A list of these agencies are available through the Admissions & Records Office and the International Student Center. An official copy of the evaluation must be sent to the College by the agency. It is mandatory to include the breakdown of upper/lower division coursework, the semester unit equivalency, and the grade (A-F or Pass/No Pass). No course taken outside of the United States can be used for Reading and Written Expression, Oral Communication, or the American Institution requirements. Courses can only be used for the GCC AA or AS degree; not for IGETC or Breadth certification.

TRANSFERS TO FOUR-YEAR COLLEGES AND UNIVERSITIES

Students may take courses at Glendale Community College which will qualify them to transfer to most four-year colleges and universities with junior standing. The requirements of colleges vary so it is not possible to prescribe a program of work which will apply to all of them. However, written agreements for both general
education and major requirements have been established with many of the four-year colleges and universities in California.

Students should consult their counselor to develop a plan to achieve their goal of transferring. Students can utilize the Glendale Community College Transfer Center website at www.glendale.edu/transfercenter to obtain information regarding the different pathways to transfer to a four-year university from Glendale Community College.

Student Right-to-Know Act
In accordance with the Federal Student Right-to-Know Act, the college is required to make information about the completion and transfer rates of first-time freshmen available to current and prospective students. For current completion and transfer rates, contact the Research & Planning office in AD 135.

VETERAN EDUCATION
Glendale Community College is approved as a degree-granting institution for the attendance of veterans and veteran’s dependents entitled to educational assistance. After filing an application for admission, a veteran wishing to attend on one of the V.A. assistance bills should complete all necessary forms with the college Veterans Certifying Official located in AA-1. The Certifying Official can be reached by calling (818) 240-1000, ext. 3360 or 5204 or by emailing gccvrc@glendale.edu.

An Intent-To-Register form must be submitted to the Veterans Certifying Official for each semester that they wish to receive the Montgomery GI Bill or Post 9-11 (Chapter 33) benefits.

It is the veteran’s responsibility to promptly notify the college Veterans Certifying Official of any change in program, which would affect their VA assistance. The College Veterans Certifying Official will forward all appropriate documents concerning the application to the VA processing center located in Muskogee, Oklahoma.

Veterans who are taking a course which lasts less than a semester will be paid only for the actual enrollment period.

The educational assistance allowance payable to Veterans is:

- Full time —12 units or more
- 3/4 time —9-11½ units
- 1/2 time —6-8½ units
- 1/4 time —3-5½ units

Veterans must select an approved program of study, and will only be paid for courses taken from the student education plan (SEP). Veterans must see the Veteran’s counselor in the Veterans Resource Center office to develop a student education plan (SEP). An appointment can be made by calling (818) 240-1000, ext. 3360 or by emailing gccvrc@glendale.edu.

Veterans can also visit the Veteran Resource Center located in AA-2. The Veteran Resource Center is an informational center that can assist with any questions regarding Veterans educational benefits at GCC, as well as a great opportunity to meet with other Veterans and talk about their goals. Veterans can also join the Veteran’s Association Club. For more information, visit www.glendale.edu/veterans.
ACADEMIC FREEDOM POLICY

The Board of Trustees of Glendale Community College affirms that institutions of higher education are conducted for the common good and not to further the interest of either the individual faculty member or the institution as a whole. The common good depends upon the free search for truth and its exposition.

Academic freedom is essential to these purposes and applies to all disciplines. Freedom in research is fundamental to the advancement of truth. Academic freedom in all disciplines is fundamental for the protection of the rights of the faculty and the student. It carries with it duties correlative with rights, regardless of employment status.

The academic community “is a questioner, a worrier, a critic, and idealist, seeking a better way toward human aspiration and fulfillment.” Academic freedom is essential for the maintenance of excellence in education, and moreover, exists so that society may have benefits of objective and independent criticism, and honest answers to scientific, social and artistic questions that might otherwise be withheld for fear of offending an influential social group or transient social attitude. Accordingly, there shall be no adverse consequences to employment status (hiring, promotion, and retention) as a result of expressions protected by academic freedom.

Academic Freedom

Faculty members are entitled to full freedom in research and in the publication of the results, subject to the adequate performance of their other academic duties; but research for pecuniary return should be based upon an understanding with the authorities of the institution.

Faculty are entitled to freedom in discussing their subject, but they should be careful not to introduce into their teaching controversial matter which has no relation to their subject. College faculty are members of a learned profession, and officers of an educational institution. When they communicate as individuals, they should be free from institutional censorship or discipline, but their special position in the community imposes special obligations. As scholars and educational officers, they should remember that the public may judge their profession and their institution by their utterances. Hence they should at all times be accurate, should exercise appropriate restraint, should show respect for the opinions of others, and should make every effort to indicate that they are not speaking for the institution.

Faculty are entitled to due process, where applicable under the provision of the Guild contract, and where applicable under the Grievance Procedure as conducted under the provisions of Board policy 4050.

Academic Responsibility

Membership in the academic community imposes on students, faculty members, and administrators an obligation to respect the dignity of others, to acknowledge their right to express differing opinions, and to foster and defend intellectual honesty, in instruction and counseling, and expression on and off campus. In addition, faculty are responsible for but not limited to policies and procedures defined in board policy, administrative regulations, and the employment contract between the district and the Guild.

Students are entitled to an atmosphere conducive to learning and to even-handed treatment in all aspects of the faculty-student relationship. (BP 4030)

POLICY ON ACADEMIC HONESTY

College study is the process of acquainting students with values and procedures central to scholarship. All students are expected to do their own work. All forms of cheating and plagiarism are absolutely forbidden. This is the official policy of Glendale Community College.

The following behaviors serve as an operational description of student violations of academic honesty:

1. The student takes or copies answers from another student or source or uses unauthorized materials during a test.
2. The student turns in an assignment (labs, art projects, homework, prewritten or purchased papers, or work downloaded from the Internet) which is not his/her own.
3. The student uses words or ideas which are not his/her own without acknowledgment of the source (plagiarism).
4. The student knowingly deceives an instructor with the intent to improve his/her standing in class.
5. The student submits the same paper or project previously submitted in another class without the permission of the current instructor.
6. The student depends upon tools or assistance prohibited by the instructor in writing papers, preparing reports, solving problems, or carrying out other assignments.
7. The student acquires, without permission, tests or other academic materials belonging to a member of the GCC faculty or staff.

When a student engages in academic dishonesty, faculty have the option of requiring the student to see a college counselor or assigning a lower or failing (F) for the assignment. Violations of this policy will be reported to the Vice President of Instruction and will become part of the Glendale College Cheating Incident file, unless the instructor finds compelling reasons not to report a violation. The Vice President of Instruction may then impose sanctions authorized by Administrative Regulation 5420. The sanctions include, but are not limited to, issuing a reprimand, suspending the student for up to ten days of instruction, and/or requesting a hearing by the Campus Judicial Board to see if the student should be suspended, or permanently expelled from the college.

The student has the right of due process for all the above sanctions.
ALCOHOL/DRUG ABUSE NOTIFICATION
The college is committed to achieving and maintaining a campus community that fosters personal and institutional excellence and strives to provide conditions under which the work of the college can proceed freely, with the highest standards of quality and institutional integrity. The harmful effects of substance abuse diminish the quality of our campus life.

To assist in achieving a campus free from the problems of substance abuse, the college has adopted policies prohibiting the unlawful manufacture, sale, distribution, possession, or use of controlled substances and alcohol on all college properties or at official functions, both on or off-campus. Any member or group of the campus community violating these policies and regulations will be subject to disciplinary action.

Prohibitions, Sanctions and Penalties
Community College District Administrative Regulation 5500 prohibits the:

- Use, possession, or distribution of narcotics, other legally controlled substances, or alcoholic beverages except as expressly permitted by law and Glendale Community College regulations.
- Presence on campus or at a college-sponsored function while under the influence of narcotics, other legally controlled substances, or alcoholic beverages except as expressly permitted by law and Glendale Community College regulations.

A violation of the provisions of this policy, and/or relevant local, state, or federal law which prohibits the use, possession or sale of alcohol or other controlled substances may result in the imposition of specific sanctions as identified within the Standards of Student Conduct (Administrative Regulation 5420). These sanctions or penalties include a verbal warning, a written reprimand, disciplinary probation, suspension, disciplinary suspension or expulsion.

Legal Sanctions
Numerous Federal, State and local statutes and ordinances, which may change over time, relate to the manufacture, distribution, possession, or use of a controlled substance or alcohol and impose legal sanctions for both felony and misdemeanor convictions for violations. Drugs considered to be controlled substances are listed in Schedules I through V of the Controlled Substances Act (29 U.S.C. 812) and are further defined by Regulations 21 CFR 1308.11 through 1308.15.

Drug-related penalties include the following:

- Simple possession of controlled substances: civil fines up to $10,000 per violation, jail sentence, and denial of Federal benefits
- Manufacture, sale or distribution of all scheduled drugs: prison sentence for a Felony
- Distribution or possession with the intent to distribute a controlled substance on college property: up to TWICE the prescribed sentence for the original offense and TWICE the prescribed parole time (required)
- Possession of one or more ounce(s) of marijuana for personal use: fine or jail time for a misdemeanor
- Possession of less than one ounce of marijuana: fine of up to $100
- Cultivation, possession for sale, or sale of marijuana: Felony

In addition, it is a misdemeanor to sell, furnish, give, or cause to be sold, furnished or given away, any alcoholic beverage to a person under 21 or any obviously intoxicated person, and no one under 21 may purchase alcoholic beverages. It is also unlawful for any person under 21 to possess alcoholic beverages on any street or highway, or in any place open to the public.

Health Risks Associated with Alcohol and Drug Abuse
The abuse of alcohol and drugs can produce intoxication and physical symptoms such as hangovers, blackouts, impaired motor function, damage to the liver, stomach, intestine, cardiovascular system, brain and neurological systems, addiction and death. Alcohol and drugs are not only toxic to the body, but may also result in the transmission of infections associated with intravenous drug use such as HIV and hepatitis. Pregnant women risk fetal damage and birth defects including hyperactivity, neurological abnormalities, and development difficulties.

In addition to the above problems, the use of these substances can cause severe family, social and psychological problems, as well as intellectual impairment which may be permanent. Abuse of alcohol and drugs is a major cause of serious and fatal traffic accidents; alcohol-related accidents are the number one cause of deaths for persons aged 15-24. Chemical dependency is a disease that, if not arrested, is fatal.

Educational Program and Assistance—Where to Get Help
A list of “Chemical Dependency and Substance Abuse Referral Resources/Agencies,” as well as additional information on chemical dependency and substance abuse is available from the Health Center on the first floor of the San Rafael Building. If you have any questions regarding the college policies and regulations, please contact the Student Activities Office in the Campus Center.

ANIMALS ON CAMPUS
Glendale Community College District is committed to providing its employees, students, and visitors with a healthy environment in which to work and study. No animals are allowed on campus except those animals that are individually trained to provide services to individuals with disabilities.
NON-DISCRIMINATION AND EQUAL OPPORTUNITY POLICY

Glendale Community College District is a multicultural community of people from diverse racial, ethnic, linguistic and class backgrounds, national origins, religious and political beliefs, physical and mental abilities, and sexual orientations. The activities, programs, classes, workshops/lectures, and everyday interactions of this district are enriched by our acceptance of one another, and we strive to learn from each other in an atmosphere of positive engagement and mutual respect.

Implicit in this mutual respect is the right of each of us to live, study, teach, and work free from harassment or denigration on the basis of race, age, religious preference, gender, sexual orientation, color, national origin, or disability. Any violation of this right—verbal or written abuse, threats, harassment, intimidation, or violence against person or property—will be considered a violation of the principles of community that are an integral part of the focus, goals, and mission of the Glendale Community College District.

Glendale Community College District is committed to providing an equal opportunity for admissions, student financing, student support programs and activities, and employment regardless of race, religious creed, color, age, sex, sexual orientation, national origin, ancestry, marital status, medical condition, or disability in accordance with federal, state, and local regulations. This Non-discrimination and Equal Opportunity Policy covers admissions, access, and treatment in district programs and activities, and application for and treatment in district employment.

An individual who feels that he or she has been unlawfully discriminated against should, at the earliest possible time, discuss the matter with the appropriate district compliance officer. The compliance officer will be able to explain the grievance procedure to the student, employee, or other individual and will assist in processing the grievance if such a step be necessary.

Title IX represents the section of the Civil Rights Act of 1964 which requires equality of opportunity for females in all educational endeavors. Its original application was geared to equal opportunity in physical education and sports; however, the impact of Title IX is spread across all disciplines and all segments of the community colleges. The Title IX Coordinator is the Vice President, Student Services, Administration Building, room 125, (818) 240-1000, ext. 5126.

Section 504 is a part of the Rehabilitation Act which requires equality of opportunity and access for handicapped individuals in both employment and educational opportunities. For students the section 504 coordinator is the Vice President, Student Services, Administration Building, room 125, (818) 240-1000, ext. 5126. For employees the section 504 coordinator is the Associate Dean, Center for Students with Disabilities, San Rafael Building, (818) 240-1000, ext. 5450.

Equal Employment Opportunity is a means to ensure that the district complies with the Employment Opportunity Act, Civil Rights Act and the Staff Diversity Plan which require that the district not discriminate on the basis of race, religion, color, age, sex, national origin, ancestry, physical handicap, medical condition, or marital status. The Equal Employment Opportunity Coordinator is Valerie Rhaney, Center for Students with Disabilities, San Rafael Building, (818) 240-1000, ext. 5873.

Academic Grievance is a process provided to students who have a grievance regarding the manner in which they have been treated in the academic environment. For academic grievance, please refer to the Scholastic Information and Regulations section of this catalog under Grievance Procedures.

American Disabilities Act is Federal Civil Rights legislation that prohibits discrimination against individuals with disabilities in employment (Title I), public services and transportation (Title II), public accommodations (Title III) and telecommunications (Title IV). The American Disabilities Act Coordinator is the Vice President, Student Services, Administration Building, (818) 240-1000, ext. 5126.

HARASSMENT POLICY

Board Policy 3430
Prohibition of Harassment

All forms of harassment are contrary to basic standards of conduct between individuals and are prohibited by state and federal law, as well as this policy, and will not be tolerated. The district is committed to providing an academic and work environment that respects the dignity of individuals and groups. The District shall be free of sexual harassment and all forms of sexual intimidation and exploitation including acts of sexual violence. It shall also be free of other unlawful harassment, including that which is based on any of the following statuses: race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, or sexual orientation of any person, or because he or she is perceived to have one or more of the foregoing characteristics.

The District seeks to foster an environment in which all employees and students feel free to report incidents of harassment without fear of retaliation or reprisal. Therefore, the District also strictly prohibits retaliation against any individual for filing a complaint of harassment or for participating in a harassment investigation. Such conduct is illegal and constitutes a violation of this policy. All allegations of retaliation will be swiftly and thoroughly investigated. If the District determines that retaliation has occurred, it will take all reasonable steps within its power to stop such conduct. Individuals who engage in retaliatory conduct are subject to disciplinary action, up to and including termination or expulsion.
Any student or employee who believes that he or she has been harassed or retaliated against in violation of this policy should immediately report such incidents by following the procedures described in AR 3435 Discrimination and Harassment Investigations. Supervisors are mandated to report all incidents of harassment and retaliation that come to their attention.

This policy applies to all aspects of the academic environment, including but not limited to classroom conditions, grades, academic standing, employment opportunities, scholarships, recommendations, disciplinary actions, and participation in any community college activity. In addition, this policy applies to all terms and conditions of employment, including but not limited to hiring, placement, promotion, disciplinary action, layoff, recall, transfer, leave of absence, training opportunities and compensation.

To this end the Superintendent/President or designee shall ensure that the institution undertakes education and training activities to counter discrimination and to prevent, minimize and/or eliminate any hostile environment that impairs access to equal education opportunity or impacts the terms and conditions of employment.

The Superintendent/President or designee shall establish administrative regulations that define harassment on campus. The Superintendent/President or designee shall further establish regulations for employees, students, and other members of the campus community that provide for the investigation and resolution of complaints regarding harassment and discrimination, and procedures for students to resolve complaints of harassment and discrimination.

All participants are protected from retaliatory acts by the District, its employees, students, and agents.

This policy and related written regulations (including the regulation for making complaints) shall be widely published and publicized to administrators, faculty, staff, and students, particularly when they are new to the institution, as required in Education Code 66281.5. Employees who violate the policy and regulations may be subject to disciplinary measures up to and including expulsion.

For more information on Board Policy 3430, please contact the Associate Vice President, Human Resources at (818) 240-1000, ext. 5165, or check online at www.glendale.edu.

**NON-SMOKING POLICY ON CAMPUS**

It is the policy of the Glendale Community College district to not allow smoking on campus. On April 15, 2013, the Board of Trustees approved a revision of Board Policy 3570 Smoking Policy which states that smoking is not permitted on any district-owned property. This policy pertains to students, faculty, staff, administrators, visitors, and the general public.

In addition, the Campus Executive Committee of Glendale Community College approved a revision of Administrative Regulation 3570 Smoking Policy. Included in this revision are the following:

- Smoking is not allowed on campus or in any GCC-owned or leased facility or in any district-owned or leased vehicles. This includes all district-owned parking lots, whether inside or outside of a vehicle.
- This also applies to electronic cigarettes or other imitation cigarette devices.
- Violations to the policy are subject to a $100 fine.

The College Police are authorized by the Board of Trustees to enforce this policy and issue citations consistent with California Government Codes 7596-7598.

An information campaign has started at GCC to inform students, staff and the public of this change in policy. Currently, the College Police are educating and enforcing this policy on all District campuses.

Additional sanctions can also be placed through other administrative means such as the Student Code of Conduct or Administrative Regulations as prescribed in campus policies and procedures.

Any person observed littering (such as throwing a cigarette on the ground) can be issued a citation, consistent with California Penal Code 374.4.

This policy does not apply to city-owned land. Information on city restrictions on smoking can be found at the following link: http://www.glendaleca.gov/government/departments/community-development/neighborhood-services/community-outreach/fresh-air-program.

Reference: California Ed. Code Sec. 76030-76033(e)

**STUDENT DIRECTORY INFORMATION POLICY**

Certain categories of student information are considered “open” or directory information. The college policy on the sharing of directory information to outside agencies and individuals (including parents and spouses of enrolled students) is limited to: name, e-mail address; major field of study; dates of attendance; degrees, honors and awards received; and the most recent previous institution attended. A student may request that directory information not be released by signing a request form at the Office of Admissions and Records. The request form must be received by the last day of the second week of instruction for a fall or spring semester or by the last day of the first week of instruction for a winter or summer session. In that case, this information will not be disclosed except with the consent of the student or as otherwise allowed by the Family Educational Rights and Privacy Act of 1974 (FERPA). BP 5040.
MISSION AND PHILOSOPHY OF STUDENT SERVICES

The primary mission of all educational institutions is learning. Glendale Community College recognizes that there are many activities and programs outside of the classroom which enhance the learning process. Consequently, numerous student services have been established to help students move toward the attainment of their goals.

Student Services, by contributing to the overall educational process at the college, is committed to serving the special needs of a diverse student population. Thus, the variety and comprehensive nature of student services at the college is intended to support a multitude of concerns for a large and changing student enrollment.

The programs offered by Student Services are designed to assist students in the decision-making process by helping them identify and clarify personal, career, and educational goals. The intent is to help students select options for improving the quality of their lives. Personal, career, and academic choices are not viewed as separate and disconnected entities but as inter-related issues, the combination and interaction of which determine the present and future quality of each individual's life experience.

Student Services is committed to assisting students to attain their educational goals and personal development through a comprehensive program of student services. The major student support programs are:

Enrollment Services—Outreach and recruitment, admissions, orientation, assessment, counseling, advisement, educational planning, registration and record services to assist students in enrolling in the appropriate courses.

Support Services—Counseling services, learning assistance (writing lab, learning center, and tutoring center), adult re-entry programs, career guidance, job placement, veterans' services, transfer services, disabled student program, health services, and library services to help students develop goals, to plan for achieving desired results, and to support and contribute to student self-realization.

Financial Services—Financial aid, student employment, scholarships, and awards for students who need financial assistance.

Activity Programs—Athletics, student clubs, student government and student activities to broaden the students' involvement in college life.

To assist students in meeting their educational objectives, Student Services is the primary advocate on the students' behalf to provide access for all who wish to attend the college: physical access to facilities on the campus; access to programs and services; and access to the required courses.

Student Services promotes an atmosphere conducive to growth and special programs to eliminate educational, social, cultural, economic, and physical barriers to a person's education.

BOOKSTORE

The college bookstore, located on the first floor of the Student Center uses its proceeds to promote the programs of the Associated Students. Shopping for course materials is convenient and available both in store and online. Now available, Rental and Digital programs! Visit our new website, www.glendalecc-bkstr.com where you will find textbooks, reference books, school supplies, clothing and software products. Shopping made simple. Pay by credit card and pick up your books (reservation) or have your books shipped directly to your home or business.

The bookstore is open 7:30 a.m. to 7:00 p.m. Monday through Thursday and Friday 7:30 a.m. to 1 p.m. Closed on Saturday, and Sunday. Please check the schedule for summer/winter hours.

For student purchases the bookstore will accept the following:* 
1. Personal checks must be imprinted by the bank with check signer's name and address. You must have a valid state driver's license or state ID of the person signing the check. No passports or green cards will be accepted.
2. ATM/Debit Card
3. MasterCard, Visa, Discover, or American Express credit cards will be accepted. (Must show ID)

*Please carry your student I.D. or course printout at all times.

GCC CalWORKs PROGRAM
www.glendale.edu/calworks

The GCC CalWORKs program is the on-campus resource for parents receiving CalWORKs cash aid. Our students are low-income parents with children under 18 who attend GCC in order to pursue educational goals that will lead to a career.

The GCC CalWORKs Parents Program provides encouragement, advice, and honest feedback for a population of students who are rebuilding their lives on a foundation of education, while modeling perseverance and hard work to their children. We help students communicate with County workers (DPSS, GAIN and REP) who oversee their benefits. We process the documents that allow CalWORKs students to access crucial supportive services, including child care and reimbursement for school-related costs such as text books, supplies, transportation, and fees. We also provide funding for Work Study jobs and on-campus child care.

CalWORKs students can be found in classes across all disciplines. Our students’ educational goals include AA/AS Degrees, vocational certificates, preparation for transfer to four-year institutions, and improving basic skills through ESL and HSE courses.

For more information, please visit www.glendale.edu/calworks.
To contact the Verdugo CalWORKs office, please call (818) 240-1000, ext. 5508, or visit SF 115. To contact the Garfield noncredit CalWORKs office, please call (818) 240-1000, ext. 5681, or visit the third floor of the Tropico Building at the Garfield Campus.
CAREER CENTER

The GCC Career Center assists students to choose a major or course of study early in their educational experience. Students are facilitated in the career exploration process by the administration of comprehensive standardized inventories, surveys, computerized systems and career tests. Students are assisted in exploring their values, interests, and abilities for application to the world of work.

The staff provides individualized career counseling, workshops, and career exploration classes.

The Career Center offers information in the following areas:

1. Finding a college major.
2. How to do research and use career resources.
3. Career changes and career planning through the lifespan.
4. The decision making process in careers.
5. Choices for further academic training.
7. Resume writing and job interviewing.
8. Information interviews to test reality.
9. Certificate or transfer choices.
10. Women in non-traditional jobs; minority concerns.
11. Referral to community and college resources.
12. Provide a format for questioning in a positive, supportive environment.

The Career Center is located in the San Rafael Building, second floor. Call (818) 240-1000, ext. 5407 for day and evening hours.

DISABLED STUDENTS PROGRAMS AND SERVICES

Students with verified disabilities or health impairments are eligible for services through the Center for Students with Disabilities. Eligible students include those whose conditions limit one or more of the major life activities and impose educational limitations preventing them from fully benefiting from classes, activities or services offered by the college. These conditions include but are not limited to learning disabilities, speech and hearing impairments, vision loss, emotional or mental illness, orthopedic limitations, neurological and health related impairments.

Qualified students receive disability-related counseling and are assisted in the pursuit of academic, vocational, and personal goals. The professional staff serves as liaison with on-campus resources as well as off-campus agencies and allied health professionals. Support services and specialized instruction are provided to students based on student educational plans and contracts. Services include but are not limited to the following:

CHILD DEVELOPMENT CENTER

The nationally accredited Child Development Center on campus serves as both a laboratory school for students enrolled in Child Development courses and a demonstration site for professionals interested in best practices in early care and education for children from six months to five years of age. In addition to being NAECY (National Association for the Education of Young Children) Accredited, the Child Development Center is a PITC (Program for Infant Toddler Care) demonstration site and hosts early childhood professionals from throughout Southern California interested in learning more about high quality programs for children 0-3 years of age. The Child Development Center operates from 7 a.m. - 6 p.m. five days a week, twelve months a year. This program is open to students, faculty and the community and is supported by parent fees.

The Day Program

The Day Program is available between the hours of 7 a.m. and 6 p.m. five days a week, 12 months a year. This program is open to students, faculty and the community. Three sessions are available: Monday through Friday; Monday, Wednesday, Friday; or Tuesday, Thursday. All sessions are full day only. Children will be admitted into the five-day sessions first, followed by children whose parents wish them to attend only two or three days weekly. The Day Program operates on a 12 month basis and is a self-supporting program funded by parent fees.

The Evening Program

The Evening Program is specifically for enrolled students of GCC. Student parents may choose from one to four nights between the hours of 6 p.m. and 10 p.m., and must enroll each semester. This program is open to children between the ages of 2 and 5 years of age. To ensure that only students who are serious about their education will be participants, all students will be required to be accountable both in course enrollment and course attendance to remain in the program.
State Preschool Program

The State Preschool Program is funded through the California State Department of Education, Child Development Division. The four-hour program is open to students who are income eligible and enrolled at GCC. The State Preschool program is available to eligible student parents of three and four-year-old children.

ENGLISH LABORATORY

The English Lab is a quiet computer lab where all students - not only those enrolled in English classes - can do research and complete assignments. Students who are taking English classes may receive hourly credit for the time they spend here, but we are open to all students who need to use a computer. We are here to help you so if you are unfamiliar with the computers or feel uncomfortable using them, please come by: our friendly and patient staff will be more than happy to offer you assistance.

Visit the English Lab in AD 238. Info line: (818) 240-1000, ext. 5339. www.glendale.edu/english/eng.lab.html.

EXTENDED OPPORTUNITY PROGRAMS AND SERVICES (EOPS)

EOPS programs serve students who have been affected by economic, language, social and educational barriers. The mission of the program is to facilitate the successful and timely completion of student goals and objectives. Through specialized support services and instruction, EOPS encourages enrollment, retention, certificate completion, graduation and university transfer. As part of its mission, EOPS is committed to student success by promoting communication, critical thinking, information competency, application of knowledge, and personal responsibility. The program offers a variety of services that may include, but are not limited to priority registration, orientation, counseling, instruction, book services and financial assistance. For more information on EOPS and program admission application go to the EOPS website at www.glendale.edu/eops.

Cooperative Agencies and Resources for Education (CARE)

CARE is a supplemental component of the EOPS program designed to provide educational support services and activities for students who are single parents. The goal of CARE is to reduce long term welfare dependency and support the needs of the single parent for economic self-sufficiency. CARE students must be eligible for EOPS services first. For more information on CARE and program admission requirements go to the CARE web page www.glendale.edu/care.

NOTE: The Glendale College Extended Opportunity Program and Services (EOPS) was established at GCC in 1972 and is jointly funded by the State of California and the Glendale Community College District.

EOPS and CARE financial assistance may be available to students who in addition to meeting all EOPS/CARE program entrance and continued eligibility requirements are also income eligible based on student’s remaining financial need as determined by the Financial Aid Office. All EOPS/CARE awards are contingent upon EOPS/CARE funding availability.

FINANCIAL AID

The Financial Aid Office (FAO) assists students who are enrolled at GCC for the purpose of earning a degree or certificate, or transferring to a four-year college or university and are seeking financial help. Funds are available to cover the cost of enrollment fees, tuition, books, transportation, and partial living expenses. There are basically two types of financial aid: grants and self help (such as work study and loans). Grants are awarded on the basis of financial need and do not require repayment. Loans provide an opportunity to defer educational costs by borrowing now and paying later. (Please refer to the loan information below for more information and ask for a copy of the GCC loan policy in the Financial Aid Office.) Work study offers students the opportunity to earn a portion of their college expenses through part-time employment during the school year.

The Free Application for Federal Student Aid (FAFSA) is the main application for financial aid. Applying on time is critical. The FAFSA can be completed on-line at www.FAFSA.ed.gov and submitted to the federal processor after October 1, but no later than April 1 of the previous Spring semester to receive priority consideration for the Fall semester. Applications submitted after April 1 of the previous Spring semester will still be reviewed for funds, but will be processed later than the applications received by the priority date.

After receiving the FAFSA, the federal processor will mail/email a Student Aid Report (SAR) to the student for review. If changes are necessary, make the corrections on-line at FAFSA.ed.gov. If no changes are necessary, keep the SAR for your records. Students are not required to submit the SAR to the Financial Aid Office. Once the Financial Aid Office receives your application, you may be asked to submit federal tax transcripts or other documents. It is important that all requested documentation be submitted as soon as possible. Financial Aid awards are made only after a student’s file is complete. New students must complete an admission application and be assigned a Glendale College Student I.D. number before their financial aid application can be reviewed.

Students who are not U.S. citizens or eligible non-citizens may still qualify for state financial aid programs if classified as AB540 and should complete the CA Dream Application at www.dream.csac.ca.gov.

Notifications of required documents are emailed to students and posted to their “To Do List” on MyGCC. Award notices are also sent to the student’s GCC email.

Students receiving financial aid must make satisfactory academic progress toward their educational goal. Please refer to the Satisfactory Academic Progress Policy in this catalog for more information.
All application materials and forms are available online at the Financial Aid Office website: www.glendale.edu/financialaid. The Financial Aid staff is here to assist you. Those needing help or advice are encouraged to contact the Financial Aid Office, located in the San Fernando Complex, SF 110.

**TYPES OF FINANCIAL AID**

**Board of Governors Enrollment Fee Waiver**

This waiver is available to California residents to cover enrollment fees. Students must demonstrate financial need by completing the Free Application for Federal Student Aid (FAFSA) or the Board of Governors Enrollment Fee Waiver Application. Effective in Fall 2016, students who are eligible for a BOG Fee Waiver may lose their eligibility if they fail to sustain a Cumulative GPA (CGPA) of 2.0 or higher and complete more than 50 percent of their coursework. If a student’s CGPA falls below 2.0 for two consecutive primary terms (fall or spring), the student is placed on academic probation. If the cumulative number of units completed is not more than 50 percent in two consecutive primary terms, the student is placed on progress probation.

- **Academic:** Maintain a CGPA of 2.0 or higher
- **Progress:** Complete more than 50% of coursework successfully

Any combination of two consecutive primary terms of academic and/or progress probation may result in the loss of the BOG Fee Waiver eligibility.

**Cal Grants**

The California Student Aid Commission offers grants for students attending a California college. To apply, students must complete the Free Application for Federal Student Aid (FAFSA) by March 2 for the following Fall. Some grants may be available for students who miss the March 2 deadline but file the FAFSA by September 2. Students who have completed fewer than 16 degree applicable units with a letter grade must also have a Cal Grant GPA Verification form completed by their high school or former college (This form is available in the Financial Aid Office).

**Federal Pell Grant Program**

Glendale College participates in the Federal Pell Grant Program which provides federal grants of up to a maximum of $5,920 per year for students, depending upon the family and/or student financial information provided on the FAFSA and the student’s enrollment status. Students may receive Pell Grant for up to the equivalent of six years of undergraduate study. Applicants must be US citizens or eligible non-citizens, complete the Free Application for Federal Student Aid (FAFSA), and submit any other required paperwork. All application materials and forms are available online at the Financial Aid Office website: www.glendale.edu/financialaid.

**Federal Supplemental Educational Opportunity Grant (SEOG)**

Glendale College participates in the Federal Supplemental Educational Opportunity Grant program which provides federal grants for students who qualify. The average grant at GCC is $200 per semester. Applicants must meet all federal Title IV financial aid requirements, complete the Free Application for Federal Student Aid (FAFSA), and submit any other required paperwork. All application materials are available in the Financial Aid Office. Funds are very limited, and only a portion of eligible students will receive an award.

**Federal Work Study**

Students who are interested in the Federal Work Study (FWS) program are required to complete a Free Application for Federal Student Aid (FAFSA) and submit any other required paperwork. If awarded FWS, the student should contact the Job Placement Office to inquire about work opportunities.

**Federal Direct Loan Program**

The Federal Direct Subsidized Loan is a federally supported loan available to needy students. Eligible Glendale College students may borrow between $500 and $4,500 based on need and grade level. Students must be eligible for need-based aid to receive a Direct Subsidized Loan. There is no repayment or interest accrual while a student is enrolled at least half-time. Interest begins to accrue and repayment begins six months after the student is no longer enrolled at least half-time. Combined interest and principal payments begin at a minimum of $50 per month for a maximum of 10 years. Information on other repayment plans is available by attending a Loan Workshop.

The Federal Direct Unsubsidized Loan is available for sophomore level and out-of-state students who do not demonstrate financial need or need to borrow more than the subsidized amount. While the terms of the loan are similar to those noted above, interest accrual begins immediately. Students may be eligible for an additional $2,000-$6,000 through this program.

To apply for a loan under the Federal Direct Loan Program a student must complete a Free Application for Federal Student Aid (FAFSA), submit all required paperwork, and be awarded. “Loan Entrance Workshops” are offered by the Financial Aid Office.

**2017-2018 GCC Cost of Attendance**

The cost of attendance (COA) at GCC is based on federal guidelines and estimates by the California Student Aid Commission (CSAC). Included in the COA are school expenses such as tuition, fees, books, and supplies; living expenses such as room, board (meals), and transportation; and miscellaneous expenses.

HEALTH CENTER

The GCC Health Center is open during most class hours and is located on the first floor of the San Rafael Building. A Registered Nurse is available for health assessment and first aid on a walk-in basis. The nurse will also discuss personal subjects related to health and family issues, birth control and nutrition.

Daily services include blood pressure screenings, low cost Tetanus shots, Tdap and MMR immunizations. No appointment is necessary for these services. TB skin testing occurs on selected dates during the semester and is free to registered students.

Physicians, dietetic interns and an MFT Therapist are available for individual appointments. Specific referrals may be provided. All services are confidential (specific legal exceptions exist).

Visit the GCC Health Center’s website: www.glendale.edu/healthcenter or call (818) 551-5189.

Medical Emergency and Student Accident Policy

If you have a medical emergency on campus or are a witness to an emergency situation, contact College Police, ext. 4000 or the Health Center, ext. 5189 immediately. Nurses are available to triage, or provide first aid. If paramedics need to be called, College Police or Health Center staff can expedite response time.

In the event you are involved in an accident while on campus or at a supervised activity, the accident must be reported immediately to the Health Center. If the accident occurs on campus, the staff of the Health Center will provide first aid. The College Police should be called if the injury occurs when the Health Center is closed. If the accident occurs off campus, it is essential for the accident to be reported to the Health Center staff during working hours as soon as possible. The College does have Student Accident Insurance to assist students with the costs associated with accidents that occur as a result of a student activity, but this policy is a secondary policy. This means that if the student needs to go to the hospital or see a physician, the student must first follow all of the rules of their private insurance. The Student Accident Insurance is designed to assist with additional charges. If the injured individual does not report the accident to the Health Center in a timely manner, there is no guarantee that any of the costs associated with care will be covered.

LEARNING CENTER

The Learning Center offers free instructional help to currently enrolled students. Free tutoring is provided in math, writing, and a variety of other subjects. Tutors are excellent students who have been recommended by their instructors and have taken a tutor training course. Tutoring takes place on an individual basis.

The Writing Center

The Writing Center, located in the Learning Center, provides tutorial assistance by appointment to student who need help improving their general writing skills or who are working on papers for their classes. Staffed by peer tutors and faculty tutors from the English and ESL divisions, the Writing Center helps students at any stage in the writing process.

FOOD FOR THOUGHT PANTRY

The GCC Food Pantry was created in July 2016 to understand food insecurity among GCC students, to increase awareness of hunger and poverty issues among the GCC community, and to provide food, hygiene supplies, and poverty alleviation-related information to students in need.

Volunteer puts together a food package. Photo provided by El Vaquero.

Tutoring Services
Students are encouraged to schedule appointments with tutors in a variety of subjects, including math; most of the social, physical and biological sciences; accounting; music; many foreign languages; and a host of other subject areas. Contact the Learning Center to see how we can help you meet your educational goals.

The Learning Center Workshop Series
The Learning Center offers workshops on a variety of topics. Approximately 60 minutes long, workshops are designed to improve student comprehension of specific topics, such as run-on sentences or introductory paragraphs.

Smarthinking
Free online tutoring is available virtually anytime and anywhere for Glendale College students. Immediately connect and interact with a live tutor. Schedule a personal session with a tutor. Submit a question and receive a reply from a tutor. Submit a paper for a tutor to review. Logging in is easy. Simply log in to your MyGCC account, click on the Main Menu tab, and select Smarthinking.

Other Learning Center Services
Access to the Internet is also available as are instructional DVD's.

Library
The Glendale College Library is one of the most dynamic and technologically advanced libraries in the California community college system. The Library supports the mission of the college by providing collections and services to meet the educational and professional needs of students and faculty. It is a user-friendly, state-of-the-art home to more than 120,000 books, music CDs, magazines and newspapers; 1,200 reserve textbooks; 23,000 e-books; and a variety of web accessible services and materials. Library services and resources are also available remotely on the Library's web site at www.glendale.edu/library. Library hours are listed on the home page.

The library offers seating for 350, twelve group-study rooms, 55 web enabled computers for student use, a 27 computer library instruction lab, and workstations for those with special needs. Printers, copiers, and typewriters are also available.

The library has a strong focus on information competency and its importance to lifelong learning. Both at the reference desk and in the instruction programs, emphasis is placed on building research skills including recognizing, locating, evaluating, and using information ethically. The 2 unit credit course, Library 191, Introduction to Information Competency, is transferable to the University of California and California State University. A series of one-hour, hands-on library workshops introduce students to the basics of Library and Internet research.

The library is located on the third and fourth floors of the Library Building. Phone: (818) 240-1000, ext. 5586.

MATH DISCOVERY CENTER
The Math Discovery Center located in AS 103 offers free drop-in tutoring, computer access, workshops, Self Paced courses and counseling services. Student tutors and/or faculty members are available to answer questions and give explanations about all levels of math. Computers are available for student use providing individual interactive learning software, specific software used in math classes, and internet access to online math resources. No appointment is necessary and students should be enrolled in a math class at GCC to use the MDC. Phone: (818) 240-1000, ext. 5363. http://www.glendale.edu/MDC.

MULTICULTURAL AND COMMUNITY ENGAGEMENT CENTER
Mission
The Multicultural and Community Engagement Center initiates, implements, and sustains civic engagement opportunities that promote diversity, critical thinking, personal responsibility, and communication skills for all students.

This means working to create community service and service learning programs and projects that help students learn about the issues mentioned above and to gain skills that can be used in your personal life, as well as, your future careers. Some of the many reasons to be involved in community service/volunteer work:

- Network with people in your future career
- Explore a possible major
- Use the experience for scholarship and transfer applications
- Learn new skills
- Help those in dire need
- Use the experience on a resume
- Receive a certificate of recognition

The Center can help you find a place to start your volunteer experience with a database of approximately 200 non-profit organizations, which is updated before the start of each semester. In addition to the database, there are many programs and activities that you can participate in on and off-campus. Some of these include:

- Students Talk About Race
- 9/11 Day of Service and Remembrance
- President’s Volunteer Service Award
- Volunteer Fairs
Many courses on campus also provide community service learning options to students, which is community service connected to classroom learning and improves students’ understanding of the course. The Center is located in SM 267, on the balcony next to the cafeteria. For more details about these programs, check out the website at www.glendale.edu/mcec.

STUDENT SUCCESS AND SUPPORT PROGRAM

The Student Success and Support Program is designed to assist students in planning, selecting, and achieving educational goals. The process brings the college and a student into an agreement for the purpose of realizing the student's educational goal through the college's established programs, policies, and requirements. The agreement acknowledges responsibilities of both the college and the student to attain these objectives. The primary purpose of the Student Success and Support Program is enhancing student success. Listed below are the basic components of the Student Success and Support Program partnership shared between the college and the student.

The college agrees to provide:
• An admissions application process.
• An orientation to the college's programs and services.
• An assessment of the student’s study skills, English language proficiency, computational skills, aptitudes, goals, learning skills, career aspirations, academic performance, and need for special services.
• Counseling and advisement to develop an educational plan.
• Follow-up evaluation of each student's progress in achieving an educational goal.

The student agrees to:
• Express an educational goal upon admission.
• Declare a program of study/major before or during the term after which the student completes 15 units.
• Attend class.
• Work diligently to complete course assignments.
• Demonstrate an effort to attain an educational goal.

The college is committed to student success, and with this in mind provides the following services:

Orientation
Orientation workshops are offered throughout the year in academic counseling. The orientation workshop provides students with important information regarding the services programs, and courses available at the college. All new students are required to participate in orientation in order to receive priority registration. Students will learn how to use the college catalog; class schedule, and prepare a class list. For more information, contact academic counseling at (818) 240-1000, ext. 5918. Students can also complete an online orientation by visiting our web site at www.glendale.edu/orientation. Click on Start Online Orientation now!

Assessment
To help the students determine their skill levels in many academic areas including written English expression, reading, and mathematics, the college provides a comprehensive assessment program. Assessment scores assist the students and counselors to determine the appropriate courses for students to enroll in during the first semester.

To receive priority registration, all new students are required to be assessed in English or ESL and mathematics upon application to the college and before the established priority registration deadline. For more information regarding assessment procedures, contact the Assessment Center at ext. 5329 or use the web site at www.glendale.edu/assessment.

Counseling and Educational Planning
One of the most important activities involved in the matriculation process is counseling and educational planning. Professional counselors are available to assist each new student in several areas:
1. Deciding upon an educational objective;
2. Determining the courses required to achieve this objective;
3. Determining the services needed to assist students in achieving their objective;
4. Assisting students in course selection appropriate to their goals.

The Student Educational Plan (S.E.P.)
It is important for all students to have a Student Educational Plan (S.E.P.). The S.E.P. serves as an outline of the preliminary educational program students will undertake. In addition, the S.E.P. identifies the students' goals (i.e. transfer, A.A./A.S. degree, certificate, etc.) and refers them to support services, if needed.

Completion of the student educational plan is required for priority registration. Students should make an appointment with their counselor to begin this process as soon as possible. Any changes in a student's educational objective should be reviewed with a counselor in order to update the student’s S.E.P. for accuracy.

Follow-up
Counseling and teaching faculty provide a number of follow-up services to matriculated students. These services are designed to provide information regarding the students’ academic progress. Special services are provided to students on academic and/or progress probation, students in basic skills courses, and students who are undecided about their educational goal. Referrals are made to on- and off-campus services when appropriate.

Appeals Procedure
A student has the right to challenge or appeal any step in the matriculation process. A petition for the waiver of a specific Student Success and Support Program service or requirement may be filed for any of the following reasons:
1. Review of assessment—Students may challenge a placement decision on the grounds that the placement does not reflect their ability in the area assessed. To challenge a placement decision, a student must complete the GCC prerequisite challenge petition and submit the document to the division chair responsible for the course or their designee (see page 33 for retesting policies).

2. Waiver of prerequisites—Students may challenge a course prerequisite, corequisite or limitation on enrollment on the grounds that the student has the knowledge or skills to successfully complete the course, that the prerequisite course has not been made reasonably available and will cause undue delay in completion of the student’s education goal as detailed in the student educational plan; that the course has not been established in accordance with the district’s process for establishing prerequisites and corequisites; or that the prerequisite is unlawfully discriminatory or is being applied in an unlawfully discriminatory manner. To request a prerequisite waiver, the student must complete the Glendale College Prerequisite Challenge Petition, and submit the document to the division chair responsible for the course. If the petition for a waiver is based upon the student’s contention that he/she has the necessary skills to succeed in the class, the student may be asked to submit evidence of this proficiency. The student will be notified, within fifteen (15) working days, of the receipt of the petition. The student may appeal the decision of a division chair to the vice president of instruction.

3. Complaint of unlawful discrimination—If a student feels that assessment, orientation, counseling, or any other student success and support program procedure or service is being applied in a discriminatory manner, a petition may be filed with the dean of student services. The student will be notified, within five (5) working days of the receipt of the petition, regarding the college’s proposed response to the complaint and any additional steps which will be taken.

4. Waiver of Student Success and Support Program services—If a student wants to waive a mandated Student Success and Support Program service, such as assessment, orientation, counseling for completion of a student educational plan, and student follow-up services, they must complete and submit a student success and support program waiver petition and return it to Admissions and Records.

Other Counseling Services
In addition to educational planning services, the college counseling staff provides a variety of other counseling services to assist students.

1. Career Counseling—The Career Center assists students in determining their academic majors, vocational or career goals. Most students require specific information about certificate, vocational and/or college preparation and career or job requirements. Often students need specialized counseling in seeing how their interests, skills, personal styles and values relate to an academic course of study. Career counseling helps students integrate their aspirations with the work world.

2. University Transfer Counseling—The goal of many students at the college is to transfer to a four-year college or university. All counselors at the college prepare to assist students in preparing to transfer. It is important for students to see a counselor on a regular basis to review the requirements for transfer to the institution of their choice. In addition, the college’s Transfer Center can assist students in meeting with representatives of many local four-year institutions and can provide them with other important transfer information.

3. Disabled Student Programs and Services—Specialized support services and counseling are available through the Center for Students with Disabilities. The Disabled Student Services program offers individual counseling services to students with disabilities. These services are provided to help with educational planning and to identify specific support services required to assist the student with a disability.

4. Extended Opportunity Program and Services—The Extended Opportunity Program and Services office also provides specialized counseling services related to enrollment procedures, financial aid, tutorial services and university transition. The EOPS staff is prepared to serve students whose primary language is not English.

5. Financial Aid—The Financial Aid office provides the student with advising regarding his or her financial circumstances, and will assist the student in obtaining financial support needed to attend the college. Financial aid is available in a number of forms, including grants, loans and work-study programs.

6. Adult Re-entry Services—Services for adult students who are returning to formal education after a lapse of time are offered through the Career Center. Services include career and academic counseling and workshops designed to meet the interests and needs of the adult student.

Course Selection and Enrollment
At the time of registration students will be asked to select classes for enrollment. However, prior to enrollment, it will be necessary for them to see a counselor and complete a student education plan; a list of courses they are eligible to take which will lead toward the completion of their educational objective. It is to their advantage to see a counselor as soon as possible prior to the next semester, to work out their class schedule for the next semester.

The process of enrolling in classes is explained in the orientation session. Students access MyGCC Student Center online regarding their date and time for registration, as well as the other requirements for completing this process.

Instruction and Progress Toward Goals
Students’ active and diligent participation in their classes is the single-most important factor leading to their eventual academic success. Students are expected to attend all classes and to complete all course assignments in a timely fashion. To assist students in making progress toward their goal the college will provide them with a variety of support services, such as tutoring, other learning assistance activities, financial support (where applicable) and other forms of assistance to increase
their educational development. Students are responsible for notifying the college of any specific needs they have, or of any change in their goal.

Periodically students may be contacted by the college for information regarding their progress towards completing their stated goals. This contact may involve a meeting with a counselor, or other staff member of the college, or it may take the form of written communication to the students regarding their progress. In either case, it is up to students to follow up on this communication so that the college may better serve them.

Completion of Student Goals
The college’s goal is to assist in achieving the objectives students have for themselves; however, the students must determine when this is accomplished. They are responsible for notifying the college of any change in their goals or status as it relates to the college. The college can provide students with assistance to make changes as easy as possible. Students should feel free to contact any staff member to assist them during a period of transition when they are leaving the college for some other activity or environment.

SCHOLARSHIPS

Any currently enrolled student who has completed at least 12 units of college credit, and has a GPA of 2.5 or higher at GCC may apply for scholarships through their MyGCC account. Selections are made by the GCC Scholarship Committee or award sponsors based on academic achievement, financial need, campus leadership, or other criteria established by the scholarship donors. Interested students may submit a single application online during the fall or spring semesters. For more information, or to apply, go to http://glendale.edu/scholarships, or call the Scholarship Office at (818) 240-1000, ext. 5591.

STUDENT CENTER

The J. Walter Smith Student Center contains offices for the Associated Students of Glendale College (ASGCC), the Office of Student Affairs, and student club offices. Also, there is a conference center with meeting rooms that members of the campus community may reserve for social and business functions. Arrangements for the use of Student Center meeting rooms may be made through the Office of Student Affairs at (818) 240-1000, ext. 5592.

STUDENT EMPLOYMENT SERVICES/
JOB PLACEMENT CENTER

The Student Employment Services office is located on the third floor of the San Rafael Building. The mission of the Student Employment Services is to provide ongoing, comprehensive assistance to all Glendale College students in obtaining on- and off-campus employment.

The Student Employment Services staff assists students in finding off-campus positions related to their disciplines. Students are advised on application and interview techniques and resume writing. In addition to providing part and full-time job listings, the center sponsors on-campus recruiting by interested businesses who wish to hire students.

Off-campus jobs can be accessed through a variety of resources including local posting and online job search sites. On-campus positions are also available for currently enrolled students. Glendale College participates in several work study programs. (i.e.: Federal Work Study, CalWORKs, Work Study, EOPS Work Study, and College Employment Program.) Visit the Job Placement Center in the San Rafael Building, second floor for details

SUPPLEMENTAL INSTRUCTION
(SI)/ COLLABORATIVE LEARNING

Another innovative program that the college offers its students is the Collaborative Learning (SI) workshops that are available each semester with selected courses. These workshops provide students with an enjoyable, structured way to study and/or solve problems collaboratively under the supervision of an instructor or specially trained student leader. Regular workshop participants usually reach a better understanding of course content and tend to pass at a much higher rate and with better grades than non-participants. A list of workshop offerings is available in the current class schedule or through counseling services. The program coordinator is happy to answer questions about this free service at (818) 240-1000, ext. 5357.

TRANSFER CENTER

The Transfer Center is designed to assist students with the process of transferring to four-year colleges and universities. We provide counseling, transfer workshops, college tours, host university representatives who advise students, a transfer information website, and maintain a library of college admissions materials. The Transfer Center is especially committed to the goal of increasing the transfer rate of under-represented students to institutions of higher learning. We are located on the second floor of the San Rafael Building and can be reached by phone at (818) 240-1000, ext. 5442. Our Internet address is www.glendale.edu/transfercenter.

VETERAN’S RESOURCE CENTER

The Veteran’s Resource Center is located in AA-1 & 2. The Veteran’s Resource Center is an informational center that can assist with any questions regarding Veteran’s educational benefits at GCC, as well as a great opportunity to meet with other Veterans and talk about their goals. Veterans can also join the Veteran’s Association Club. For more information, visit “Veteran Information” www.glendale.edu/veterans. Please see page 16 of this catalog for more information regarding Veteran’s educational assistance.
STUDENT AFFAIRS & ORGANIZATIONS

The Office of Student Affairs coordinates a wide variety of activities, programs, and services to help students broaden their educational experiences at Glendale College. The goal of the student activities program is to provide students with opportunities to develop their leadership skills through participation in student government, cultural programs, campus activities, and student clubs and organizations.

ASSOCIATED STUDENTS OF GLENDALE COMMUNITY COLLEGE (ASGCC)

The Associated Students of Glendale Community College (ASGCC) is the official student government organization. Elected each semester, the ASGCC Legislature meets weekly to determine budgetary expenditures, establish and review policies, and coordinate programs and services that benefit students. Legislature meetings are held every Tuesday morning in the ASGCC conference room located in the J. Walter Smith Student Center. For more information go to www.glendale.edu/as.

ASGCC Membership

Students who pay the student services fee each semester automatically become members of the Associated Students of Glendale Community College. This membership enables students to participate in activities, programs, and services financed by the ASGCC. The student services fee partially finances the annual ASGCC budget that provides financial support to more than 100 campus programs and activities.

Eligibility Requirements for ASGCC Candidates and Officers

All students are encouraged to participate in ASGCC affairs and run for an elected position within the organization. Candidates for an elective office must complete the required nominating petitions and meet the eligibility requirements before their candidacy is approved by the Office of Student Activities. Candidates must be enrolled in at least six units and have a minimum cumulative grade point average of 2.0 to be eligible to run for office. Once a student is elected to office, he or she must carry and complete a minimum of 9 units and maintain a 2.0 grade point average throughout their term to remain eligible.

Student Government Elections

The ASGCC sponsors campus-wide student government elections during the fall and spring semesters. Any currently enrolled GCC student who is a member of the Associated Students may vote in an ASGCC election.

ASGCC Officers

The ASGCC Legislature consists of 21 student leaders who are elected by the student body. Elected officers include the ASGCC President, Vice President of Administration, Vice President of Finance, Vice President of Campus Activities, Vice President of Campus Relations, and Vice President of Campus Organizations. These five positions make up the ASGCC Executive Committee. The Legislature membership also includes a total of 15 senators including three Senators of Administration, three Senators of Finance, three Senators of Campus Activities, three Senators of Campus Relations, and three Senators of Campus Organizations. There are also five Representative-at-Large members who are appointed by the Legislature.

Student Newspaper

The El Vaquero is the official student newspaper of Glendale Community College. Written and edited by journalism students, the paper focuses on campus news and issues related to students. The El Vaquero is published biweekly and is available to the campus community free of charge.

ATHLETIC PROGRAM

Glendale Community College offers a comprehensive and competitive intercollegiate athletic program for both men and women. The Vaquero athletic teams compete as members of the Western State Conference. Men’s sports include baseball, basketball, cross-country, football, golf, soccer, tennis, and track and field. Women’s sports include basketball, cross-country, golf, soccer, volleyball, tennis, track and field and softball.

The men’s and women’s athletic programs are supported by full-time coaches and staff including a certified athletic trainer. Additionally, a full-time athletic counselor provides academic support services to athletes including educational planning, enrollment advisement, and career guidance. For more information, please visit the college website at www.glendale.edu/athletics.

STUDENT CLUBS AND ORGANIZATIONS

Students are encouraged to participate and play an active role in campus life by joining a student club or organization. Supervised by the Office of Student Affairs, more than 50 clubs and organizations give students an opportunity to explore specialized interests and serve the campus community. These groups are usually organized according to five main themes including academic achievement, cultural awareness, community service, special interests, and religious awareness.

Academic Organizations: Alpha Gamma Sigma (AGS) the Scholars, EOPS Club, SPARK, and VOICES are organizations focused on promoting student access and achievement. These groups also provide valuable service to the college community and raise funds to support scholarships.
Cultural Organizations: These groups provide students with opportunities to learn about other cultures and meet students with similar backgrounds. Cultural organizations have included the Armenian Student Association, Black Student Alliance, Korean Club, Persian Students Association, GCC Gay Straight Alliance, Hawak Kamay Filipino Club, and the International Students Association.

Special Interest Clubs: Numerous special interest clubs enable students to participate in activities with others who share similar interests. Special interest clubs have included groups such as the Amnesty Club, Culinary Arts Club, Investors Club, Pre-Pharmacy Club, Sociology Club, Environmental Club, and the GCC Theatre Guild.

Religious Clubs: Religious clubs offer students a chance to promote religious awareness and interact with other students with similar beliefs. Active religious clubs have included the Campus Crusade for Christ, Christ in Action, SGI Buddhist Club, Korean Christian Club, and the Christian Fellowship.

Veterans Association Club: This is a new club open to all veterans. Go to glendale.edu/veterans for more information.

Additional information about campus activities and student leadership programs is available in the Office of Student Affairs.

Penn State Band practicing on Sartoris Field on the evening of January 1, one day before playing in the Rose Parade and Rose Bowl game.
ADMISSION AND REGISTRATION

ADMISSION REQUIREMENTS

Glendale Community College will admit any California resident possessing a high school diploma or the equivalent thereof, or who is 18 years of age or older. Non-residents, including international students, may be admitted. Information concerning residency may be found on page 36 of this catalog.

APPLICATION

An applicant may apply for admission to the College by completing an application on-line at www.glendale.edu. An applicant need only submit one application per academic year. An academic year is summer through spring.

High School Students

High school students in the 9th, 10th, 11th or 12th grade who are making satisfactory progress towards high school graduation are eligible to apply and enroll in classes at GCC. The student must complete the on-line application and the Selected Student form with appropriate signatures, and a current high school (unofficial) transcript. The Selected Student form and high school transcript must be submitted for each subsequent semester of attendance. If the student is accepted, the student may enroll in six units during a semester, or three units during an inter-session. In order to continue taking classes at the College after the initial semester, the student must have completed the college class with a grade of “C” or better, and remain in good standing at their high school. Once the student has graduated from their high school, the student must reapply to GCC as a high school graduate and submit proof of graduation to the Admissions and Records Office.

ASSESSMENT

All first time students must take the assessment tests prior to registering for their first semester at the College. The assessment tests are English or ESL and mathematics. The English and mathematics tests are computerized and are administered everyday. Check the Assessment Schedule for exact time. An appointment must be scheduled to take the ESL test. The Assessment Center is located in SF 112. No student will be admitted to take a test without a picture I.D.

Chemistry Placement

This test is required for placement into CHEM 101. It is not needed if the student has completed CHEM 110 with a grade of “C” or better.

English Placement

This examination is similar in difficulty to material found in most newspapers and popular magazines. It includes both reading and written language sections. It is needed for placement into the nursing program and most English classes as well as many language, social science, speech, business, and humanities courses.

English as a Second Language (ESL) Placement

This exam is needed to qualify for initial placement into any ESL course. The exam includes reading comprehension, written grammar, listening comprehension, and a writing sample.

English as a Second Language (ESL) (Noncredit) Placement

This test is used to place students in noncredit ESL courses and requires an appointment.

Mathematics Placement

This test is designed for initial placement only. Students are encouraged to look at the math sample tests in the Assessment Center or via the website to determine the appropriate test to take for their skill level. Calculators are not allowed on the exams. Once placed in a GCC mathematics course, students advance in the mathematics sequence according to the course prerequisites.

Placement Test Policies

The following test taking policy is strictly enforced at the Assessment Center. Placement re-testing is not allowed without permission of the appropriate division chair. Test scores for placement are valid for only a specific period of time; the table below lists the longevity of each test. Once that period of time expires, the student will have to retest.

CATALOG RIGHTS

New Students

When a new student begins attending GCC, he or she will come under the catalog requirements in effect at that time; thus, a student who begins in the fall 2017 semester will follow the requirements for graduation, IGETC certification for either the CSU or UC, G.E. Certification for the CSU, and certificates of completion that are listed in the 2017-2018 GCC catalog.

Continuing Students

1. A student remaining in continuous attendance in regular sessions at the campus of any California community college or in any combination of California community colleges and the California State University may, for the purpose of meeting graduation requirements or G.E. certification for the California State University, elect to meet the catalog requirements in effect at the time of beginning his or her continuous enrollment at the California State University or at a California community college.

2. Students may maintain their continuing student status for catalog purposes provided that they complete a course and earn units at GCC at least one semester during an academic year without missing two consecutive semesters.
Returning Students
1. Students who return to GCC to complete a degree or certificate program and would normally be placed under the new catalog requirements in effect, may petition for their original catalog year if the following conditions are met:
   a. Student has earned 45 semester units prior to leaving GCC with a minimum GPA of 2.00 and these units are recorded on the student’s official transcript at GCC. Units earned may reflect courses taken at GCC, as well as courses taken at other institutions.
   b. Student has seen a counselor, has completed a SEP, and has officially declared a major and an educational goal (including transfer institution, if applicable).

The above does not apply to students planning to complete the general education for CSU or IGETC certification for transfer.

CLASS AUDIT POLICY
A student may audit a class at GCC providing that the following conditions are met:
1. Auditors must be eligible for admission to the college as regularly enrolled students. Jump Start students do not qualify to take a class using the audit policy.
2. Enrollment for the purpose of auditing will be on a space available basis, and requires the approval of the instructor.
3. Priority in class enrollment shall be given to students desiring to take the course for credit; therefore, enrollment for audit purposes will not be permitted until the second week of instruction.
4. Once audit enrollment is completed, no student will be permitted to change his or her enrollment to receive credit. A student shall not be permitted to change his or her enrollment from credit to audit.
5. A non-refundable audit fee of $15 per unit, plus Health and Student Services fees, shall be payable at the time of enrollment as an auditor according to established fees by the California State Legislature and GCC District Board of Trustees. Students enrolled in 10 or more units will not be charged a fee for auditing up to three units.
6. No credit will be received for auditing a course. The college will not maintain any attendance or academic records.

CONTINUOUS ENROLLMENT
Although not continuous, new and returning students who submit applications during the current academic year (summer through spring) are not required to submit more than one application per academic year. Students will be able to obtain registration date and time for any term during the academic year by going to MyGCC.glendale.edu.

ELIGIBILITY FOR COURSES
It is the policy of the Glendale Community College District that every class offered, unless otherwise indicated in the official catalog and schedule of classes, shall be fully open to enrollment and participation by any person who meets the academic prerequisites of such class, and who is otherwise eligible for admission to and enrollment in the college. Students may occasionally have had experience in a given area which they may feel will substantially satisfy the stated prerequisite for a course. In this situation, the student must have a prerequisite/corequisite challenge process petition approved to make such substitution. Once such a petition has been approved, students may not later receive credit for a course for which they substituted the outside experience. Students who are considering developing a petition should first read the section on Credit by Examination.

Credit for lower level courses will not be granted if credits have been earned in higher level courses. Some courses have no stated prerequisite; however, many courses have expected skill levels in reading, writing, listening/speaking and math. It has been substantiated that students enrolled in a course with the stated skill levels are more successful in satisfactorily completing the course. Students should check the current schedule of classes for a complete explanation on how to match skill level to an appropriate course.

Counselors consider these factors when assisting students to complete their Student Educational Plan (SEP). Students will select courses from the SEP as they make out their programs during a registration period.

ENROLLMENT PRIORITY
Effective Fall 2014, in compliance with Title V - Enrollment Priorities, all new incoming students must be fully matriculated to receive enrollment priority for registration. Full matriculation includes completion of an assessment placement test, orientation, and counseling - Abbreviated Student Educational Plan (SEP). Timely completion of the assessment placement, orientation, and counseling - Abbreviated SEP may result in a higher registration priority. Students who do not complete this process by the admission application deadline will receive a lower registration priority. Admission application deadlines are printed in the spring and fall class schedules in addition to being posted on the Admissions and Records Important Dates Calendar online at www.glendale.edu

LOSS OF ENROLLMENT PRIORITY AND APPEAL PROCESS
Continuing Students would lose enrollment priority if they have either earned more than 100 units (not including non-degree applicable courses) or have been on academic or progress probation for two (2) consecutive semesters (Spring/Fall). If the student has lost their priority registration, a registration hold will be posted to the student’s MyGCC student portal. The registration hold prevents the student from registering during priority registration. Once priority registration has commenced, the registration hold will automatically be released and the student will be allowed to register during open registration.

Students are allowed to appeal their Loss of Enrollment Priority in an attempt to reinstate original priority registration date/time. Students must complete & submit an “Appeal of Loss of Enrollment Priority” petition form to the Admissions and Records Office along with supporting documentation, by the petition deadline (please contact the Admissions Office for information on deadlines). Once the petition has been reviewed by the Admissions and Records Director, a decision will be rendered
and the student will then be notified through their MyGCC student portal. If the petition is approved the registration hold will be removed and the student will be able to register. If the petition is denied, the student will need to register during open registration.

**FEES**

Fees are established by the California State Legislature and the GCC District Board of Trustees.

- **Enrollment Fee**: $46 per unit
- **Nonresident Tuition**: $205 per unit
- **Health Services Fee**: $18 fall/spring
- **Capital Outlay Fee**: $14 summer/winter
- **Student Services Fee**: $12.50
- **Student Photo I.D. Fee**: $10
- **Refund Processing Fee**: $10
- **Rush service is an additional fee**: $5 per copy
- **Parking**: $45 for summer/winter; $75 for fall/spring
- **Refund Processing Fee**: $10
- **Returned Check/Charge Back**: $30
- **Verification of Enrollment**: First two are free; $5
- **Rush service is an additional fee**: $5

All fees are subject to change without notice.

Financial aid may be available to students who meet the qualification requirements. The enrollment fee is waived for students who qualify for financial aid. Students with financial aid eligibility should contact the college Financial Aid Office.

*Mandatory Fee. There is an exemption procedure for fees that are not mandated by the California State Legislature. Contact the respective department for details.

**REFUND/REPAYMENT POLICY**

Refund Policy for all Students:
1. Refunds are automatic for those students who withdraw/drop a class within the first five or six weeks of the first week of a six or eight week class.
2. Request for parking fee refunds must be initiated by students when they return their parking permits during the specific dates indicated in the Schedule of Classes and on the GCC website. There is a $10 refund processing fee.
3. A student will be eligible for a refund who withdraws or drops units in accordance with the following:
   - **Fall and Spring Semester** - Students must withdraw/drop a class within the first two weeks of a semester length class, or within the first week of a six or eight week class.
   - **Summer and Winter Session** - Students must withdraw/drop a class within the first week of a five or six week class.
   - C. The student should check the Schedule of Classes or with the Admissions and Records Office for the drop/withdrawal date if a class is of shorter duration than those mentioned above.
Repayment Requirement Policies for Students Receiving Financial Aid:

Students who receive financial aid in the form of a Pell Grant, Cal Grant, or EOPS Grant are subject to state and federal regulations that may require repayment of all or part of the funds received if they drop some or all of their units during a semester.

Students who receive financial aid and never attend class:
Federal regulations only allow students to receive financial aid for classes they actually attend. Students who receive financial aid for classes that they drop before the first day of class, or that they otherwise never attend, must return those funds.

Students who receive financial aid for classes they attend and then drop:
Financial aid is based on the number of units a student is enrolled in as of the registration deadline. Students who receive financial aid for 6 units or more and then drop to less than 6 units prior to the registration deadline established by the Admissions and Records Office may be required to repay some of the funds received.

Students who drop all classes prior to completing 60% of the semester: Federal Return to Title IV regulations governing the federal student financial aid programs stipulate that students who withdraw from the college before completing at least 60% of the semester have not “earned” the funds they received and must repay some of their financial aid. The Financial Aid Office is required by law to notify the student of the overpayment due within 30 days, once it is determined that the student has withdrawn from school. There is no appeal process. Federal regulations do not allow a college to make any exceptions to the Return to Title IV requirements. Students who have not received the total amount of financial aid that they may have earned prior to withdrawing from school may be entitled to a post-withdrawal disbursement. In these cases, students will be notified within 30 days regarding the amount due them and how accepting additional funds will affect their standing under the Financial Aid Satisfactory Academic Progress policy.

Financial Aid Overpayments: If a student owes a repayment of federal student aid, the student must repay the amount in full. If the student fails to repay the amount due, the college may refer the account to the US Department of Education and the student may lose eligibility for any further federal student financial aid.

REGISTRATION

Each student must officially register in classes. The classes should be chosen from the student’s educational plan. These classes constitute the official program of the student.

All students register according to the dates and times assigned to them. To be a continuing student, the registrant must have been enrolled in the immediately prior semester or session. New and returning students who submit applications during the current academic year (summer through spring) are considered active and eligible for registration for the entire academic year, and those students will receive registration information by going to MyGCC.glendale.edu. For information concerning this process, consult the semester Schedule of Classes or go to the GCC website.

After the beginning of the semester, students may:

- enroll in open semester-length courses with the permission of the instructor;
- enroll in closed semester-length courses with the permission of the instructor through the second week of instruction; and
- enroll in courses less than 16 weeks provided that 15% of the class meetings have not been held.

No registrations or adds of semester-length classes are allowed after the end of the second week of instruction. No student will be enrolled in a class and have a grade recorded subsequent to the completion of a given semester unless it is established that the procedures for enrolling set up by the College are proved to have failed.

RESIDENCE REQUIREMENTS

The following statement of the rules regarding residency is intended for general information only. More detailed information can be obtained from the Office of Admissions. At the time of application and at registration each student is required to verify residence information. Even though a student may be otherwise admissible to GCC, the student may be classified as a tuition-paying student in accordance with the residence requirements.

A “resident student” means any person who can verify physical presence in California for one year or more on the date preceding the first day of instruction of a semester or intersession during which the person proposes to attend, who can demonstrate intent to make California a home for other than a temporary purpose and financial independence.

Alien Students: A student who is an alien may establish his or her residence if he or she is not precluded by the Immigration and Nationality Act from establishing domicile in the U.S.

All immigration documentation and proofs of California residency must be submitted to the Admissions and Records Office PRIOR to the start of the semester of attendance.

A “non-resident student” means any person who has had residence in California for less than one year on the date preceding the first day of instruction of a semester or intersession during which the person proposes to attend.

A “non-resident student” may be admitted to GCC, but will be required to pay either an out-of-state or an international student tuition charge as appropriate to their circumstances. The tuition rates are established on a yearly basis. For information concerning the current rates please contact the Student Fees Office.
In determining the place of residence the following rules apply:
1. There can be only one residence.
2. A residence is the place where one remains when not called elsewhere for labor or other special or temporary purpose, and to which he returns in seasons of repose.
3. A residence cannot be lost until another is gained.
4. Residence can be changed only by the union of act and intent.
5. A man or woman may establish his or her residence. A woman’s residence shall not be derived from that of her husband.
6. The residence of the parent with whom an unmarried minor child maintains his or her place of abode is the residence of the unmarried minor child. When the minor lives with neither parent his or her residence is that of the parent with whom he or she maintained his or her last place of abode, provided the minor may establish his or her residence when both parents are deceased and a legal guardian has not been appointed.
7. The residence of an unmarried minor who has a parent living cannot be changed by his or her own act, by the appointment of a legal guardian, or by relinquishment of a parent’s right of control.
8. An alien, including an unmarried minor alien, may establish his or her residence, unless precluded by the Immigration and Nationality Act (8 U.S.C. 1101, et seq.) from establishing residence in the United States.
9. The residence of an unmarried minor alien shall be derived from his or her parents pursuant to the provisions listed above (6 & 7).

*California Education Code Section 68062

**STUDENT RECORDS**

Annually Glendale Community College informs students of the Family Educational Rights and Privacy Act of 1974, as amended; of the provisions of Sections 76200-76246 of the Education Code of the State of California; and of the provisions of Sections 54600-54630 of Title 5 of the California Administrative Code. These references, with which the institution intends to comply fully, were designated to protect the privacy of education records, to establish the right of students to inspect and review their education records, to provide the process by which students may challenge the accuracy of those records, and to provide guidelines for the correction of inaccurate or misleading data through informal and formal hearings. Students also have the right to file complaints with the Family Education Rights and Privacy Act (FERPA) Office concerning alleged failures by the institution to comply with the Act.

An institutional guide explains in detail the procedures to be used by the institution for compliance with the provisions of the Act. Copies of the guide may be found in the campus library as well as in the Office of Admissions and Records. Questions concerning the Family Educational Rights and Privacy Act may be referred to the Office of Admissions.

**STUDENT RESPONSIBILITY**

Glendale Community College provides its students with a wide variety of academic assistance and support services. It is the responsibility of each student to meet the requirements printed in the college catalog, the class schedule and college announcements.

The college establishes certain academic policies and requirements which must be completed before a degree or certificate can be granted. These include major and unit requirements, as well as verification of satisfying course prerequisites. Students also are responsible to see that they meet the admission requirements to the college or university of their choice if they elect to pursue an educational goal beyond their sophomore year. While counselors, faculty, administrators and staff will provide students with information and assistance, responsibility for meeting these requirements remains with the students.

To insure timely information from the college, students must inform the Office of Admissions and Records of changes in personal data, including change of name and address. It is the student’s responsibility to enroll properly for classes. A student who fails to enroll officially in a class will not be given credit for that class. It is the student’s responsibility to withdraw officially from the college or drop classes when he or she stops attending and to observe established deadlines. Otherwise, “F” grades may be assigned.

Other areas regarding student responsibility are included in the catalog under sections for: Admission and Registration; and Scholarship Information and Regulations.

**TRANSCRIPTS**

Transcripts should be sent directly from the high school, college, or university to the Admissions and Records Office at Glendale College. All transcripts become the property of Glendale College and will not be returned.

Glendale Community College reserves the right to evaluate work completed in other colleges or universities. The external credit units and cumulative grade points will be posted on the student’s Glendale College transcript. Please see page 15 of this catalog for information regarding the issuance of external transfer credit. Transfers with acceptable grades will be granted advanced standing in-so-far as the work corresponds with that of Glendale College.

Upon the written request of a student, a transcript of the student’s record at Glendale College will be forwarded to a college or university, individual, firm, etc. providing that such student has no outstanding financial obligation to the college. Students are entitled to two free transcripts. Records may be withheld for monies owed the college, library fines, unreturned P.E. supplies and/or equipment, health holds, or for disciplinary problems. For more information visit our website at www.glendale.edu.
ACADEMIC RENEWAL WITHOUT COURSE REPETITION

The following procedure provides an opportunity for students to obtain alleviation of previously recorded, substandard academic performance which is not reflective of subsequent demonstrated ability.

1. A student may request academic renewal for not more than 24 units of substandard work (D's and F's completed at GCC) through a petition. The petition should be submitted to the Admissions and Records office and will be reviewed by the Petitions Committee.

2. If and when the petition is granted, all grades will remain on the permanent record and transcript. Courses will be noted on the transcript that units and grades have been disregarded from the grade point average. Academic renewal cannot be reversed.

3. The student seeking academic renewal is responsible for presenting official transcripts to the effect that the previously recorded 24 maximum units were of substandard academic performance and is not reflective of more recently demonstrated academic ability.

4. Evidence of recent academic ability as shown on official transcript must include one of the following:
   a. 12 semester graded (A-F) units with at least a 3.00 GPA
   b. 24 semester graded (A-F) units with at least a 2.50 GPA
   c. 36 semester graded (A-F) units with at least a 2.00 GPA

5. There must be at least 18 months between the end of the most recent academic renewal and the date of initiation of the request and such renewal.

6. A student may request academic renewal only once.

7. A student may repeat work taken during academic renewal only if such repetition is necessary to allow normal progression toward an acceptable educational objective.

8. A student must include all work, including academic renewal, in computation of the cumulative grade-point average toward honors at graduation.

For further information regarding academic renewal contact the Office of Admissions and Records.

ATTENDANCE AND DROP POLICY

Students are expected to attend all class meetings. There are no authorized absences from class and irregular attendance may result in exclusion from classes.

It is the student’s responsibility to register properly for classes. A student who fails to enroll officially in a class will not be given credit for that class.

Students also have the responsibility of officially withdrawing from college or dropping from class when they stop attending, and of observing established deadlines. Otherwise, “F” grades may be assigned.

It is the responsibility of each student to know the attendance and absence policy of each class in which he or she is enrolled. It is the responsibility of each instructor to inform his or her class of the attendance and absence policies at the beginning of each semester.

Students shall be dropped from class for failure to attend the first class meeting during the first week of instruction if they have not made prior arrangements with the instructor. Students also may be dropped for continuous or cumulative absences for the number of hours a sixteen-week class is scheduled to meet in a two-week period.

CHANGE OF GRADES

The District recognizes the long standing prerogative of faculty to set standards of performance and to apply them to individual students. Therefore, the instructor is the final authority in determining grades that are assigned to students and that appear on their permanent academic records. The Superintendent/President or designee shall establish administrative regulations on grade changes. The following policies apply to changes of grades except for changes of Incomplete (I) and Withdrawal (W) grades.

1. All course grades are final when filed by the instructor at the end of the term. These grades become a part of the student’s permanent record.

2. A change of grade shall occur in cases of clerical error, administrative error, or where the instructor re-evaluates the student’s performance and discovers an error in the original evaluation. A clerical error is an error made by the instructor in calculating or recording the grade. A change of grade shall not occur as a consequence of the acceptance of additional work or re-examination beyond the specified course requirements.

3. A request for a grade change shall be initiated by the student affected or by the instructor within the next regular semester following the award of the original grade. If the instructor determines that there is a valid basis for the change, a Change of Grade form shall be used to notify the Admissions and Records Office. If the instructor determines that there is not a valid basis for the change and denies the student’s request, the instructor’s decision, subject to the appeals process described below, is final.

4. The Change of Grade form must be completed by the instructor, signed by the division chairperson, and submitted to the Admissions and Records Office. Once the change of grade is processed, students shall be notified by the Admissions and Records Office.

Students have the right to formally appeal a final grade in a course. Appeals are limited to situations in which the student believes the grade was prejudicially, capriciously, or arbitrarily assigned. Appeals must first be directed to the instructor of the course, orally or in writing. If further action is necessary, the student should appeal in writing to the division chair and then to the Dean of Instruction, then Vice President, Instructional Services. If the issue continues to be unresolved, a written appeal can be directed to the college Judicial Board. (See Grievance Policy)
CLASSIFICATION OF STUDENTS

Students are classified as follows: Full time—enrolled in twelve (12) or more units in a regular semester or four (4) or more units during an inter-session. Part time—enrolled in less than twelve (12) units during a regular semester or less than four (4) units during an inter-session. Freshman—one who has completed less than 30 units; Sophomore—one who has completed 30 units or more.

CLEARANCE OF OBLIGATIONS

Students or former students are expected to meet financial obligation due to the District. Pursuant to Title 5, Section 59410, college services such as grades, transcripts, diplomas, registration privileges or any combination thereof may be withheld from any student or former student who has not made satisfactory arrangements to meet his or her financial obligation to the district. When, in the judgment of the district, the financial obligation has been satisfied, college services will be reinstated.

COURSE REPETITION

In the past, students have elected to repeat courses for different reasons including alleviating a substandard grade (F, D, NC, NP) or non-evaluative symbol (W), to improve skills or to comply with an employer’s requirements. However, due to changes in regulations (Title 5 and CCCCO), a student’s ability to repeat a course is now more limited.

Under the new regulations, students will be limited to three “takes” of a course to alleviate a substandard grade. Previous enrollments will count toward the total three allowable takes per course. All substandard grades and withdrawals shall count toward the three enrollments.

Furthermore, only three types of courses may be repeatable (regardless of grade), including courses that are designed specifically for intercollegiate athletics, intercollegiate academic or vocational competition courses, or courses for which the repetition of the course is required by a University of California or California State University. All repeatable courses are indicated as such in the course description section of this catalog.

The new regulations also require grouping active participatory courses previously designated as “activities” courses into “families” and limiting enrollment in courses within the families to four experiences regardless of grade.

Course families are courses with related content where the content progresses into levels from one course to the next (Title 5 §55000) or in which the content is linked around themes. Areas that are now required to group courses into families are: Physical Education and Visual and Performing Arts. Listed below are GCC’s Course Families: (For specific courses in each family, refer to the course description section of the catalog)

Course Families

ART - Ceramics; Ceramic Hand Building
STUDIO ARTS - 2D Art Foundations; Life Drawing; Oil Media; Water Media; Printmaking; Special Projects in Studio Arts; Sculpture; and 3D Design

DANCE - Ballet Technique; Modern Dance Technique; Jazz Technique; American Vernacular Dances; Cultural Dance; Choreographic Studies; Performance Skills; Production Studies; and Movement for Theatre

MUSIC - Piano; Classical Guitar; Contemporary Guitar; Voice Training

THEATRE ARTS - Acting; Directing, Playwriting, Management; Costume and Makeup; Scenic and Lighting, Technical Theatre: Stagecraft/Building; Musical Theatre; Theatre Production-Rehearsal and Performance; Technical Theatre Production-Running Crew

PHYSICAL EDUCATION/KINESIOLOGY - Adapted P.E., Badminton, Basketball, Cardio Fitness, Cycling, Golf, Martial Arts, Motor Performance Fitness, Soccer/Football, Tennis, Volleyball

Petitioning for Additional Enrollments

There are exceptions under which a student may be allowed to enroll in a class to alleviate a substandard grade. Students may petition to enroll in a class for a third time (second repeat) by completing the Request for Third Enrollment form. The student must obtain approvals from the instructor and division chair. The student must register in person at the Admissions and Records Office during the first week of a semester/inter-session.

GCC may permit one additional enrollment in the same credit class for the fourth time, but the student will need to submit a Petition to Waive College Requirement form (Admissions and Records Office). The petition only allows a student to repeat a course due to significant lapse of time (3 years) since the course was last taken, OR when there are specific documented extenuating circumstances such as flood, fire, or other extraordinary conditions beyond the student’s control. No additional units attempted or grade points are allowed for the repeated course.

For further information on how these new regulations may affect you, please see your counselor. Information about the new regulations can be found on the State Chancellor’s Office website: http://extranet.cccco.edu/Divisions/Legal/Discrimination.aspx.

In computing the grade-point average of a student who repeats a course in which a “D”, “F”, “NC”, or “NP” grade was received, the previous grade is disregarded and the new one is counted in calculation of the student’s GPA if the new grade is equal to or higher than the original grade. After satisfactory completion of a course, students should submit a Request to Count the Higher Grade petition to the Admissions and Records Office in order to have their academic records adjusted. The original grade on the academic record will not be changed or eradicated.

In some cases, students may also be able to repeat a course for credit when the student has “used up” the four class experiences within a family. For repeatable courses, a student may petition to enroll in a course for additional experiences if the course is determined to be legally mandated (i.e. First Aid), required to meet industry standards, or due to extenuating circumstances (Per Title 5 § 55040 (8) & (9), and § 55045).
Degrees requirements, GE breath certifi-

cation. AP credit may be granted for ful-
it is not repeatable for Credit by Exam.

certificates for AP Exams with a score of three or higher if the
division concerned has determined that the material cov-
ered is comparable to a specific course offering within that
division. AP credit may be granted for fulfillment of GCC's
degree requirements, GE breath certification for the CSU,
and IGETC. However, when a student transfers to any other
college or university, that institution routinely re-evaluates
AP units in accordance with its own internal policies. Thus,
AP units remain intact and do not transfer as GCC courses.
For AP credit for transfer to a four-year college/university,
see the Transfer Center.

It is the student's responsibility to petition for credit through
the Admissions and Records Office. Since several universi-
ties require a minimum score in order to receive subject
credit, students must discuss the applicability of AP credit
with an academic counselor prior to submitting a petition
to the Admissions and Records Office.

Units for which credit is given pursuant to the AP Exams
shall not be counted in determining the 12 semester units
of credit in residence required for graduation.

Credit for AP will be granted only during the fall and spring
semesters to students who have successfully completed or
are enrolled in at least 12 units at GCC.

The maximum number of credits allowable for Advanced
Placement—including any Credit by Exam units—shall
not exceed 30 units. Credit by Exam transferred from other
institutions is counted toward this maximum.

CREDIT BY EXAMINATION

Upon consent of the instructor and under special circum-
stances students who are regularly enrolled in good stand-
ing, have completed 12 or more units in residence, and
believe they are qualified by experience or previous training,
amay apply to take a special examination to establish credit
in a course in which they are not formally registered.

Students may not petition for credit by exam if they enrolled
in the course and received a letter grade of “I”, “D”, “NP” or
“F”. Students may not petition for credit by exam for a course
if that course is at a lower level in the subject sequence than
a course for which the student has already received credit
through completion of the course.

Students may attempt Credit by Exam only once in a par-
ticular course. If a course has already been taken for credit,
it is not repeatable for Credit by Exam.

Students wishing to challenge courses approved for
examination must obtain the form “Petition for Credit by
Examination” from their counselor and discuss eligibility
according to criteria set up by the college. An interview
must be requested with the instructor of the course at which
time the students’ qualifications for challenging the course
will be determined and arrangements will be made for the
examinations.

Units for which credit is given pursuant to these exams
will not be counted in determining the 12 semester units
of credit in residence required for graduation.

Courses open to Credit by Exam include the following:

- Accounting 110
- Administration of Justice 101, 110, 116, 118, 120
- Architecture 101
- AT 114 (Commercial Pilot Certificate required), 120 (Pri-
  vate Pilot Certificate required), 122 (Instrument Rating
  required), 125 (Instrument Rating required), 135 (FAA
  Commercial Pilot Certificate required or satisfactory
  score on FAA Commercial Pilot Knowledge Exam)
- Business Administration 111, 112, 113, 114, 115, 204
- CABOT 104, 106, 162, 205, 210, 206, 208, 265, 270, 275, 276
- Chemistry 101, 102, 110
- CS/IS 135
- Economics 101*, 102*
- Electronics and Computer Technology 110
- Engineering 101
- Geology 101
- Health 101, 102, 104, 106, 110
- History 101*, 102*, 117*, 118*
- Machine Technology 101, 111
- Metallurgy 150
- Nursing Science (all)
- Political Science 101*, 106
- Psychology 101*
- Sociology 101*
- Technical Education 142, 143

NOTE: No student may earn more than 12 units by “examination”.
*Also available through CLEP

College Level Examination Program Policy (CLEP)

CLEP is designed to award academic credit to students who
have completed 12 or more semester units in residence at
GCC with a cumulative GPA of at least 2.0 and have gained
the equivalency of college course work through means other
than enrollment in a formal college program.

Glendale College also grants credit for some of the various
subject exams. For amount and type of credit awarded contact
Admissions and Records or your counselor. Students transferr-
ing to other colleges and universities should check with the
receiving institution as to the awarding of credit for both the
general examinations and the subject examinations.

Units for which credit is given pursuant to these exams will
not be counted in determining the 12 semester hours of credit
in residence required for graduation, nor will CLEP credit be
used toward IGETC certification.

# Per CSU Executive Order 1036, students seeking to use this AP subject exam for GE certification prior to transfer must have passed the exam before this term.

### CREDIT FOR INTERNATIONAL BACCALAUREATE EXAMINATIONS

GCC recognizes the International Baccalaureate (IB) Examinations. Course credit is granted for IB Exams with a score of four or higher if the division concerned has determined that the material covered is comparable to a specific course offering within that division. IB credit may be granted for fulfillment of GCC’s degree requirements, GE breath certification for the CSU, and IGETC. However, when a student transfers to any other college or university, that institution routinely re-evaluates IB units in accordance with its own internal policies. Thus, IB units remain intact and do not transfer as GCC courses. For IB credit for transfer to a four-year college/university, see the Transfer Center.

It is the student’s responsibility to petition for credit through the Admissions and Records Office. Since several universities require a minimum score in order to receive subject credit, students must discuss the applicability of IB credit with an academic counselor prior to submitting a petition to the Admissions and Records Office.

Units for which credit is given pursuant to the IB Exams shall not be counted in determining the 12 semester hours of credit in residence required for graduation. Credit for IB will be granted only during the fall and spring semesters to students who have successfully completed or are enrolled in at least 12 units at GCC.

The maximum number of credits allowable for International Baccalaureate—including any Credit by Exam units—shall not exceed 30 units. Credit by Exam transferred from other institutions is counted toward this maximum.

Please cross-reference individual campus catalogs to determine how IB examinations are granted for subject credit. Transfer GE information was obtained from both the CSU AA-2015-19 MOU and IGETC Standards V.1.7 documents.
CREDIT FOR MILITARY TRAINING

Glendale College will recognize and grant credit to veterans for educational training completed in the armed forces provided such credit is not a duplication of work taken previously. College work completed through the United States Armed Forces Institute will be accepted. In order to receive credit for military training, veterans must petition for such credit and present authentic military service and training records including a copy of discharge papers showing an honorable discharge.

Applicants desiring credit for military training will be required to provide appropriate documents before credit for military service can be granted (see page 16). Credit awarded for military training may include credit for hygiene and physical education toward the Associate degree.

PASS/NO PASS COURSES (P/NP)

There are two categories of Pass/No Pass courses.

The first category consists of courses which must be taken on a P/NP basis only. Courses in this category include:

- Accounting 121, 155, 156
- Art 158, 288
- CABOT 93, 206, 208, 209
- English 120, 182, 183, 189, 191
- Internship 50 - ADST, ACCT, BIOL, BUSAD, CABOT, CS/IS, Dance, Physical Education
- Mathematics 155, 190, 255, 301, 341
- Nursing Science 201, 202, 203, 204, 216, 219, 255
- Physical Education 134
- Student Development 100, 101, 103, 125, 127, 128, 129, 141, 143

The second category consists of courses which may be selected at the student's option. The student must complete the Petition for Pass/No Pass and have it on file in the Office of Admissions and Records by Friday of the third week for a semester-length class or by Tuesday of the second week for all other classes.

Students electing to take classes on a P/NP basis participate in the class as a regular student. If the grade awarded by the instructor is “C” or higher, the course grade is recorded as “P”. If the instructor-assigned grade is “D” or “F”, the course grade is recorded as “NP”.

Units earned on a P/NP basis will not be used to calculate GPA's. However, units attempted for which “NP” is recorded shall be considered in progress probation and dismissal procedures.

The courses designated must be outside of courses required for the student’s major. The number of P/NP units designated may not exceed twelve (12) in residence at GCC (exclusive of those earned in courses which are graded only on P/NP) with no more than six units during any semester or summer/winter intersession. Once a petition is filed to take a class as P/NP, no student shall be permitted to change his/her enrollment to receive a letter grade of A to F.

Courses which may be selected by petition for Pass/No Pass:

- Accounting 110, 120, 121, 130, 150, 157, 160, 165, 170, 175, 180, 201, 202, 210, 220, 225, 230, 235
- Administration of Justice (all)
- Alcohol/Drug Studies 101, 103, 110
- American Sign Language 101, 102, 103, 104, 105, 202
- Anthropology 101, 102, 103, 104, 105, 111
- Architecture (all except 106, 141)
- Armenian 101, 102, 103, 104, 115, 116, 125, 126, 127
- Art (all except 158, 257, 288)
- Aviation and Transportation 112, 113
- Biology 131, 145, 146
- Business Administration (all)
- Chemistry
- Child Development (all except 158, 175, 176)
- Chinese 101, 102
- CABOT (all except 90, 92, 94, 260)

- Sociology (all)
- Spanish 101, 102, 103, 104, 115, 125, 126
- Speech Communication 104, 105, 108
- Student Development 145
- Theatre Arts 100-104, 107, 109-111, 121-123, 129, 134, 140, 151
FINAL EXAMINATIONS

At the end of each semester a final examination schedule is followed. Students must attend all classes in accordance with the schedule for that period. This arrangement permits the giving of final examinations in those classes which require them and the completion of the instructional program in the other classes. No student shall be excused from taking a final examination where such is required as part of a course.

GRADES, GRADE POINTS, AND GRADE-POINT AVERAGE

The standing of students in each course will be determined by class work and examinations. Grades will be reported and grade points allowed as follow:

A - Excellent ....................................... 4 grade points per unit
B - Good .............................................. 3 grade points per unit
C - Satisfactory .................................... 2 grade points per unit
D - Less than satisfactory ......................... 1 grade point per unit
F - Failing ........................................... 0 grade points

(cannot be removed by examination)

P - Pass (at least satisfactory—units awarded, not counted in GPA)
NP- No Pass (less than satisfactory or failing—units not awarded in GPA but included in computation of progress probation)

Grade-Point Average (GPA)

The GPA is computed by dividing the total number of grade points earned by the GPA units. A “W” notation does not enter into computation of the GPA. Also, such computations do not include the unit value of courses for which “P” or “NP” are recorded or for courses completed under the regulations established for credit by examination. If a course is repeated for the purpose of improving previous substandard work, the units attempted and grade points earned are counted according to the course repetition policy. An “I” grade made up carries the grade points per unit appropriate to the grade given on makeup.

Non-Evaluative Symbols

Units for which the following grading symbols have been assigned will not be counted in the computation of the GPA.

I - Incomplete (Included in the computation of progress probation)
W - Withdrawn (Included in computation of progress probation)
IP - In Progress—To be used when class extends beyond the normal end-of an academic term
RD - Report Delayed
MW - Military withdrawal- to be used when student receives military orders

An incomplete grade may only be given when an unforeseen emergency prevents a student from completing work in a course. The incomplete grade must be removed by the end of the 12th week in the semester following the term in which the incomplete was assigned, regardless of whether or not the student is registered for classes at the college. The nature of the unforeseen emergency and the conditions for removal of the “I” shall be stated by the instructor in an on-line contract. The contract shall include the grade to be assigned if the course work is not completed. The instructor will generate this contract when final grades are entered on-line. Once the work stipulated has been completed and evaluated, or the time limit for completing the work has passed, a final grade will be assigned.

GRIEVANCE PROCEDURES

Glendale Community College District is committed to providing a prompt and equitable means of resolving student complaints against actions taken by the college and its employees. In accordance with applicable State and Federal laws, the district maintains grievance procedures that are available to any student who reasonably believes a college decision or action has adversely affected his or her status, rights, or privileges as a student.

What can a student grieve?

Students may file grievances against actions by GCC employees in areas including, but not limited to the following: the exercise of rights of free expression; violation of published GCC rules, Board policies, and administrative regulations; academic decisions that may affect a course grade; and the assignment of final course grades (according to prescribed legal limits).

Where can a student get a copy of the GCC student grievance procedures?

Copies of GCC Board Policy 5530 and Administrative Regulations 5530 can be obtained from a division chairperson, the Dean of Student Affairs, the Dean of Instructional Services, the Dean of Student Services, and the Director of Admissions and Records. Additionally, students may access these regulations on the GCC web site at www.glendale.edu.

Non-Grade Grievances

A student may address a complaint about an action taken by a college employee that does not involve course grades through the grievance process. Informal meetings and discussions between persons directly involved in a non-grade grievance are essential at the outset of the dispute and are encouraged at all stages. If a student cannot resolve a non-grade grievance directly with the involved GCC employee, the student may request a meeting with the appropriate administrator/manager or division chairperson. The administrator/manager or division chairperson shall meet with the student and the employee in an attempt to resolve the issue and may meet with the student and GCC employee either jointly or separately. If no informal resolution is reached with the administrator/manager or division chairperson that is satisfactory to the student, the student may request an administrative hearing with the appropriate senior GCC administrator as follows: Instructional Services employees: Vice President, Instructional Services or designee; Student Services employees: Vice President, Student Services or designee; Administrative Services employees: Vice President, Administrative Services or designee; College Administrators: Superintendent/President or designee.
The senior administrator shall meet with student and GCC employee either jointly or separately to attempt to settle grievance through mediation, negotiated agreement, or another mutually acceptable resolution. The final outcome or resolution will be communicated to the involved parties within ten instructional days after the conclusion of the hearing process.

Most complaints, grievances or disciplinary matters can be resolved at the campus level. This is the quickest and most successful way of resolving issues involving a California community college. Issues that are not resolved at the campus level may be presented to:

- The CCC Chancellor’s Office if your complaint does not concern CCC’s compliance with academic program quality and accrediting standards. Complete the web form at http://californiacommunitycolleges.cccco.edu/ComplaintsForm.aspx.
- The Accrediting Commission for Community and Junior Colleges (ACCJC) at http://www.accjc.org/complaint-process if your complaint is associated with the institution’s compliance with academic program quality and accrediting standards. ACCJC is the agency that accredits the academic programs of the California Community Colleges.

## Grade Appeals
This procedure provides a means of resolving a student’s dispute of an academic decision (such as temporary removal from a lab or classroom setting) or the assigned final grade for a course. A student has the right initially to an informal review and explanation of his or her grade by the instructor who in turn is obligated to provide such a review. However, a student may only appeal a grade or academic decision if he or she is prepared to carry the burden of proving one or more of the following conditions as specified by law: a mistake in the assignment of the grade or in the process of its recording, fraud, bad faith, or incompetence.

A student shall initiate the process by filing a grade appeal with the instructor within the next regular semester (as specified in the applicable class schedule) following the award of the original grade. The student is expected to make a reasonable effort to resolve the matter on an informal basis with the instructor. If the student and instructor cannot settle the grade appeal, the student may request a meeting with the appropriate division chairperson. The division chairperson will then meet with the student and the instructor either jointly or separately to attempt to work out the grievance.

</table>
If the student cannot resolve the grade appeal with the instructor and division chairperson, then the student may request a conference with the appropriate dean. The dean will meet with the student and instructor either jointly or separately to resolve the grade appeal through compromise, negotiated settlement, or a recommendation that is satisfactory to all involved parties. If the dean is unable to resolve the complaint, and the student wishes to continue the grade appeal process, then the student may submit a written request to the Vice President, Instructional Services. If the issue continues to be unresolved a written appeal for a formal grade appeal hearing with the Campus Judicial Board.

The Campus Judicial Board will conduct a closed hearing and based on the examination of supporting documents and testimony may take the following actions: Accept the formal grade appeal and recommend an administrative grade change; reject the formal grade appeal; make related recommendations as appropriate.

The Board will issue a written decision that includes a determination of whether the student established a rationale for a grade change according to applicable laws, and recommendations for the relief, if any, that should be afforded to the student. These findings are then submitted to the Superintendent/President for a final review.

After receiving the report of findings and recommended actions from the Campus Judicial Board, the Superintendent/President will issue a written decision to the involved parties that include his or her conclusions and directives. The Superintendent/President’s decision shall be final and binding in all formal grade appeal hearings.

HONORS

Honors at Entrance
Honors at Entrance is granted to selected graduates of accredited United States high schools who have obtained a 3.5 or higher in their sophomore and junior years and first semester of the senior year. The student must be a first-semester-freshman and be enrolled in the college full-time. Students must apply for Honors at Entrance and submit official copies of their high school transcripts to the Office of Admissions and Records. Grades in physical education and military science courses are not included when calculating the GPA.

Dean’s Honors
All students who are in good standing and whose semester grade-point average is 3.50 or higher in 12 or more units; 3.75 to 3.99 in 9 to 11.5 units; or 4.00 in 6 to 8.5 units, with grades of A, B or C are eligible for Dean’s Honors. An earned grade of NP or I disqualifies a student for Dean’s Honors. Dean’s Honors will be posted each semester to the students’ permanent academic records.

Academic Honors at Graduation
Academic Honors are awarded to students at graduation who have achieved a grade-point average of 3.5 or above in all degree-applicable work completed at Glendale Community College.

PETITIONS PROCEDURE

Students with extenuating circumstances warranting special consideration for adjustment or deviation from established procedures and policies of the college may file a petition with the Office of Admissions and Records. The Petition to Waive College Requirement must be supported with appropriate documentation. The notation of withdrawal “W” is not expunged from a transcript for any reason other than California Education Code, Title 5, Section 55024.

REMEDIAL COURSEWORK LIMIT POLICY

Glendale College offers remedial coursework through pre-collegiate basic skills courses in reading, writing, learning skills, study skills, mathematics, and English as a Second Language. These courses are designated as non-degree applicable credit courses. The Superintendent/President or designee shall establish administrative regulations on remedial coursework. (Title 5, Section 55002)

STANDARDS OF SCHOLARSHIP

Glendale Community College interprets a “C” average as a satisfactory scholarship standard.

Students who fail to maintain satisfactory scholarship shall be placed on academic or progress probation and shall be dismissed.

1. Academic Probation
A student shall be placed on academic probation if the student’s cumulative grade-point average for all semester units attempted at GCC is less than 2.0.

2. Progress Probation
A student who has enrolled in a cumulative total of at least twelve (12) semester units shall be placed on progress probation if the percentage of all units in which a student has enrolled for which grades of “W”, “I” and “NC” or “NP” are recorded reaches or exceeds fifty percent (50%).

3. Dismissal
a. A student on probation (academic, progress or a combination of both) who earns any form of probationary status during enrollment at the end of the third consecutive semester of attendance shall be dismissed and shall not be reinstated until at least one semester (fall or spring) has elapsed after the dismissal. Students on dismissal are only allowed to enroll in a short term session for winter or summer.

b. A student having been readmitted on probation after academic dismissal must maintain a grade-point average of at least 2.0 and must not be placed on progress probation. If either the grade-point average falls below 2.0 or the student is assigned the progress probation status, that student shall again be dismissed for one semester (either fall or spring).
Appeal of Dismissal

Following the notification of dismissal from the college, students may appeal the dismissal action by filing a reinstatement petition with the Director of Admissions and Records. The written petition must include the extenuating and verifiable circumstances that warrant an exception to the dismissal action. The petition must be filed with the time lines outlined below or the student waives the rights to appeal the dismissal action.

If the appeal is approved, the student shall be required to participate in a prescribed intervention and complete a reinstatement contract, which shall include the maximum number of units in which he/she shall enroll. Failure to comply with terms and conditions of contract may result in a subsequent dismissal.

Timeline for Appeals

Appeals for reinstatement must be received by the Director of Admissions and Records by August 1 for the fall semester, and by January 31 for the spring semester.

Financial Aid Satisfactory Progress (SAP)

In order to receive financial aid, students must meet the Glendale Community College Standards of Scholarship. In addition, students are expected to meet the following standards required to maintain eligibility for federal or state financial assistance.

General Requirements:

- Eligible Program—A student must be enrolled in an educational program which leads to a degree or certificate that the student has not previously earned and which requires at least two semesters of study.

- Review of Previous College Records—Students are expected to make satisfactory progress according to the College’s standards of scholarship during all periods of enrollment whether or not they are receiving financial aid. Previous enrollment at Glendale College and units transferred from other institutions will be included in determining the student’s maximum time frame and SAP requirements for remaining eligibility for Title IV funds.

- Course Repetitions — Course repetitions within College and federal policy will be allowed, unless the student is on a Financial Aid contract. In that case, repeated courses are not counted toward financial aid eligibility.

Financial Aid Satisfactory Academic Progress (SAP) Standards

1. Complete Educational Goal Within Maximum Time Frame

   Students pursuing a degree or transfer program are allowed a maximum of 72 attempted units within which to complete their educational objective. Students enrolled in a certificate program must complete their program within 30 attempted units. Attempted units are units in which the student received a grade, a W, or a P/NP. All attempted units, including units transferred from other colleges, are included in this calculation, except for ESL and remedial units. Students not meeting this standard are placed on Term Dismissal. Students with prior degrees are automatically placed on Term Dismissal.

2. Successful Progression Toward Educational Goal

   Students must successfully complete at least 67% of all attempted units to meet financial aid eligibility requirements. Attempted units are any units in which the student is enrolled beyond the deadline to drop the class. All attempted units, including units transferred from other colleges, are included in this calculation. Units with grades of F, W, NP and IP are not successfully completed.

3. Maintain a 2.0 Grade Point Average Requirement

   Students must maintain an official GCC cumulative Grade Point Average (GPA) of at least 2.0 to be eligible for financial aid programs. Grades transferred in from other colleges are included.

SAP Warning and Dismissal

Students’ compliance with Financial Aid Satisfactory Academic Progress Standards is measured each semester. Students who are warned that they are in danger of not meeting one or more of the Financial Aid Satisfactory Academic Progress standards must meet the standard(s) by the end of the semester in order to remain eligible for financial aid. Students not meeting this standard after the “Warning” semester are placed on SAP Dismissal and are no longer eligible for financial aid.

Appeal Process for SAP Dismissal or Term Dismissal

Students may appeal their SAP Dismissal or Term Dismissal disqualification from financial aid if failure to meet SAP requirements is due to mitigating circumstances beyond the student’s control. The appeal should include documentation of the mitigating circumstances. Not all appeals are approved. Students appealing a disqualification due to not meeting progress standards may be reinstated for one semester and must meet all Satisfactory Academic Progress standards by the end of that semester. Students appealing a disqualification due to exceeding the Maximum Time Frame for completing an eligible program may be allowed to continue on a Financial Aid Contract. Only the courses on the Financial Aid Contract will count toward financial aid eligibility and must be successfully completed for the student to remain eligible for financial aid.

Academic Dismissal

Students who are placed on Academic Dismissal by the College are not eligible for financial aid. There is no Financial Aid appeal process for this status.

Appeal process for Loss of BOG Fee Waiver

Students who are eligible for the BOG Fee Waiver must meet the Glendale Community College Standards of Scholarship for Academic AND Progress Probation.

If a student fails to meet the minimum requirement for academic and/or progress probation for two (2) consecutive primary terms they will lose their BOG Fee Waiver eligibility. Students may appeal the loss of their BOG Fee waiver with the Financial Aid
Office if failure to meet academic and/or progress probation is/was due to one of the following extenuating circumstances:

- Verified accident, illness, or other circumstances beyond your control
- Changes in economic situation
- Evidence of inability to obtain essential support services
- Disability accommodations not received in a timely manner
- Successful appeal based on significant academic improvement

In Addition, a student can be reinstated if he/she:

- Improves his/her CGPA or course completion to meet the academic and progress standards
- Not attend GCC for two consecutive primary terms (any combination of fall/spring semesters)

**STANDARDS OF STUDENT CONDUCT**

The Standards of Student Conduct provide a prompt and equitable means to address alleged student violations of the college’s behavioral regulations. Students who violate college policies and behavioral regulations shall be subject to the disciplinary procedures outlined in the *Standards of Student Conduct, GCC Administrative Regulation 5500*. These procedures are not intended to substitute for criminal or civil proceedings that may be initiated by other agencies. Prohibited conduct that may subject a student to disciplinary sanctions includes, but is not limited to the following:

1. Disruption of the orderly operation of the college, including but not limited to the delivery of GCC instructional, administrative, or student services; campus activities sponsored or sanctioned by GCC; other authorized non-GCC activities when the act occurs on GCC premises.
2. Violation of published GCC rules, Board policies, and administrative regulations.
3. Knowingly furnishing false information to any GCC employee or campus office for the purpose of completing GCC documents, applications, or forms processed by the college.
4. Forgery, alteration, or other unauthorized use of GCC documents, applications, records, identification, or forms processed by the college.
5. Unauthorized possession or duplication of keys to any GCC premises, entry into or use of any GCC premises, or use of GCC supplies and equipment.
6. Cheating, plagiarism, or other violations of GCC policies and administrative regulations governing academic honesty.
7. Misuse of GCC computer systems in violation of GCC board of policies and regulations governing the use of computer and communications technology.
8. Gaming, gambling, or participating in other activities for the purposes of wagering or betting funds.
9. Soliciting or assisting another to perform any act that would violate the *Standards of Student Conduct* and subject a student to disciplinary sanctions.
10. Violation of judicial and statutory standards of obscenity; engaging in lewd or indecent behavior on campus or at a campus function.
11. Violation of federal, state, or local law on GCC premises, or at GCC sponsored or supervised activities.
12. Use, possession, or distribution of narcotics, other legally controlled substances, or alcoholic beverages except as expressly permitted by law and GCC regulations.
13. Failure to comply with directions of GCC employees who are acting within the scope of their job responsibilities.
14. Presence on campus or at a college-sponsored function while under the influence of narcotics, other legally controlled substances, or alcoholic beverages except as expressly permitted by law and GCC regulations.
15. Abusive behavior directed toward, or hazing of, a member of the campus community or a campus visitor.
16. Illegal or unauthorized possession or use of firearms, explosives, other weapons, or dangerous chemicals.
17. Sexual harassment of a member of the campus community or a campus visitor including, but not limited to unwelcome sexual advances; requests for sexual favors; other verbal, non-verbal, or physical conduct of a sexual nature in violation of GCC board policies and administrative regulations on sexual harassment, and applicable State and Federal laws.
18. Verbal abuse, threats, intimidation, harassment, coercion or other conduct that threatens or endangers the health and safety of a member of the campus community or a college visitor.
19. Assault, battery, or any other physically abusive behavior that threatens or endangers the health and safety of a member of the campus community or campus visitor.
20. Theft or attempted theft of GCC property, or property of a member of the campus community or campus visitor.
21. Actual or attempted vandalism or destruction of GCC property, or property of a member of the campus community or campus visitor.
22. The use of any electronic listening or recording device in any classroom without the prior consent of the instructor, except as necessary to provide reasonable accommodations for students with disabilities.
23. Selling, preparing, or distributing recorded course materials for any purpose unless authorized by the instructor in writing.

Authorized disciplinary sanctions for violations of student behavioral regulations include, but are not limited to written reprimand, loss of privileges, restitution, temporary removal from class, suspension, and permanent expulsion. The college administers these sanctions through the *Standards of Student Conduct* and provides involved students with their due process rights guaranteed by State and Federal constitutional protections. Copies of the *Standards of Student Conduct* are available in the Student Affairs Office located in the J.W. Smith Student Center.
UNIT OF WORK
The credit value in semester units of each course is indicated after the title of the course under “Course Descriptions.” Each unit represents one hour per week of lecture or discussion, or a longer time in laboratory or other exercises not requiring outside preparation. For each hour of lecture-discussion, two hours of preparation are assumed.

UNIT LIMITATIONS
The students’ program of studies will vary according to their needs and objectives. Students registered in 12 or more units are classified as full-time students; those registered for less than 12 units are classified as part-time students. The academic load carried should be in line with the best combined judgment of the student and the counselor. The college recommends that students who are working 20 hours per week should carry no more than 10 units; 30 hours per week, no more than 8 units; and 40 hours per week, no more than 6 units. Individuals having health problems should make proportionate adjustments in their college programs.

Students may not register in more than 19 units, including wait-list units, in a fall or spring semester.

WITHDRAWAL/COURSE DROP POLICY
Once enrolled in courses, students are not considered dropped or withdrawn unless:

• They have dropped the course Online via MyGCC or
• They have dropped the course with an Add/Drop form in person at the Admissions & Records office.

A grade of “W” will not be made on the permanent academic record of a student who drops or is dropped from the course or from college:

• During the first two weeks of a semester-length course;
• During the first week of a course which is at least five weeks in length and less than a semester in length; or
• During the first 20% of a course which is less than five weeks in length

Students who drop or are dropped from semester length courses after the second week and prior to the end of the 12th week will receive grades of “W” on their permanent academic records.

In order to receive a grade of “W” in a five-week summer/winter session course, a student must drop by the end of the third week, and by the end of the fourth week for a six-week summer/winter session class.

Any courses of duration not listed above adhere to a pro rata schedule for deadlines.

A student must drop a course during the period stated to not receive a withdrawal notation (W). There are no extenuating circumstances to remove a “W” from a student record. If circumstances occur after the final drop date to receive a “W”, the student may petition (see page 48 of this section). Extenuating circumstances are verified cases of accident, illness or other circumstances beyond the control of the student. Such withdrawals or drops shall be recorded as a “W”.

Students not dropped or withdrawn from courses during the periods and circumstances described above will not be eligible for a notation of “W” and must be assigned a letter grade in the “A” through “F” category, or “P/NP” in those courses so designated.

According to California Education Code, Title 5, Section 55024, the number of times that a student may withdraw from a class is limited. See your counselor for procedures and policies.
Glendale Community College shall confer the degree of Associate of Arts or Associate of Science upon a student who has satisfactorily completed all of the requirements for graduation. At GCC, a student is allowed to petition for one Associate in Arts or Associate in Arts for Transfer degree (AA or AA-T) and one Associate in Science or Associate in Science for Transfer degree (AS or AS-T) for a total of two Associate degrees. However, if a student seeks to earn additional degrees for employment purposes, or for four-year university admission requirements, he or she may do so if:

- The student has met the minimum requirements for the proposed major/certificate; and
- At least 12 required units in the proposed major are separate and distinct from the required units of the student's first and second degrees earned at GCC; and
- The student has achieved a minimum GPA of 2.0 for all units attempted in pursuit of the degree; and
- The student has completed a graduation petition with an academic counselor, preferably during the beginning of the final semester.

If all of the above requirements are met, the student may be able to petition for more than one degree during the same semester.

The Associate degree is granted to persons who file a Petition for Graduation in the Admissions and Records Office, who are not on academic probation, and who have completed a minimum of 12 of the last 18 semester units of the required college curriculum of 60 degree applicable semester units at GCC. Exceptions to the residence requirement can be made by the Board of Trustees when an injustice or undue hardship would result. The completion of the required 60 semester units must include all of the following:

MAJOR
1. The requirement for the Associate in Arts degree may be met by completing a Major with a minimum of 18 semester units. The approved Majors are listed on the following pages.

List of AA Majors

- Biological Sciences
- Business Administration
- Choreographic Studies and Dance Technique
- English
- Foreign Language
- Health Science
- Interdisciplinary Humanities
- Mass Communications
- Mathematics
- Music
- Physical Sciences
- Social Sciences
- Speech/Communications
- Theater Arts
- Visual Arts

The requirements for the Associate in Science degree may be met by completing an approved major/certificate program of 18 semester units or more. The approved majors/certificate programs are listed on the following pages.

When a course required for a Major is also an approved general education course, the course may be double-counted. However, units are only counted once to satisfy the 60 unit requirement for the Associate Degree.

AMERICAN INSTITUTIONS/STATE & LOCAL GOV’T
2. Three semester units in American Institutions and State & Local Government are required: POL S 101**, 106; (**Students who complete POL S 101 before Spring 2014 must also complete POL S 106).

U.S. HISTORY
3. Three semester units in American History are required: ECON 111/HIST 116; HIST 111(CD), 117, 118.

MATHEMATICS
4. Evidence of proficiency in mathematics is required. This requirement may be fulfilled with a grade of “C” or better in MATH 101, 120, 130, 131, or 220AB (2 units).

HEALTH
5. Three semester units of community and personal hygiene are required: HLTH 104, 106; PSYCH 111(CD)* or equivalent will satisfy this requirement.

PHYSICAL EDUCATION
6. Two semester units of physical education activity classes and/or dance activity classes must be completed unless exempted by established policy.

FIRST AID
7. One semester unit in first aid and CPR is required: HLTH 101, 102; EMT 140.

CULTURAL DIVERSITY
8. Three semester units in Cultural Diversity are required. Courses which satisfy this requirement have been marked by (CD) and appear throughout the graduation requirements. The requirement may be satisfied by completing any one of the graduation requirements with a course marked (CD) or by completing CHLDV 156.
GENERAL EDUCATION

9. **Eighteen (18) semester units** of general education including at least one course in each of the following areas:

   a. **Natural Science.** One course (3 semester units)
      ANTHR 101, 111; ASTRO 102, 103, 110, 120; AT 122; BIOL 101, 102, 103, 112, 115, 120, 121, 122, 123, 125, 125H, 126, 127, 128, 129, 130, 131, 145, 146, 298; CHEM 101, 102, 105, 106, 110, 120, 121; GEOG 101, 107, 111; GEOL 101, 101H, 102, 103, 104, 111H, 112, 120; OCEAN 115, 116; PHYS 101, 101H, 102, 103, 105, 106, 110; PHYS SCI 131; PSYCH 103.

   b. **Social Sciences.** One course (3 semester units)
      ANTHR 102(CD), 102H, 103, 104, 105(CD); BUSAD 110; ECON 101, 102, 102H, 105; ETH S 101(CD), 102(CD), 110(CD), 111(CD), 112, 120, 121, 122, 131, 132, 133, 135(CD).**

   c. **Humanities.** Two courses (6 semester units)—one from each of the two areas below.

      1. Interdisciplinary Humanities—3 semester units required: HUMAN 105(CD), 105H(CD), 106, 110, 111, 115(CD), 117, 120, 125(CD), 130, 135(CD).

      2. Arts, Foreign Language, Literature and Philosophy—3 semester units required:

      d. **Language and Rationality.** At least two courses (6 semester units) one from each of the two areas below.

         1. English Composition—3 semester units
            Evidence of proficiency in written English is required. This requirement may be fulfilled with a grade of “C” or better in ENGL 101 or 101H.

         2. Communication and Analytical Thinking—3 semester units

NOTE: Graduation requirements 2, 3, 5, and 7 can be satisfied by examination. See a counselor for details.

*Courses with an asterisk may be counted in one area only.

**Students who complete POLS 101 prior to spring 2014 must also complete POLS 106.
DEFINITIONS OF GENERAL EDUCATION

AREA A: NATURAL SCIENCE (3 UNITS)
Courses included in this area examine the physical universe, its life forms, and its natural phenomena. Courses must include content, assignments, and methods of instruction and evaluation in which students apply experimental methodology, the testing of hypotheses, and systematic questioning to theoretical, laboratory, and field scenarios. In doing so, students develop an understanding of the basic concepts in the physical and biological sciences while developing an appreciation of the scientific method.

AREA B: SOCIAL SCIENCES (3 UNITS)
Courses approved for this area must analyze human behavior in relation to human social, political and economic institutions. Courses appropriate to this area include those in social science disciplines which develop in their students an understanding of cultural and social organizations in multiple paradigms including those of different ethnic or cultural groups. Coursework provides students the opportunity to apply methodologies used by social scientists, historians, and philosophers to theoretical examples and real-world issues and problems. Courses also include discussion of topics and methodologies within the context of their historical, contemporary, and geographical settings.

AREA C: HUMANITIES (6 UNITS)
1. Interdisciplinary Humanities (3 units)
Courses included in this category require students to analyze and appreciate works of philosophical, historical, literary, aesthetic, and cultural importance within a diverse context focusing on both Western and non-Western cultures at various points in history. Courses approved for this area should address the cultural and artistic expression of human beings. Courses emphasize both multidisciplinary and interdisciplinary approaches drawing on theories, interpretations, and issues from a variety of academic fields including but not limited to those in the humanities, visual arts, and social sciences. Coursework emphasizes students’ responses to humanistic works through expository, analytical and research essays and other assignments designed to evidence students’ growing understanding of harmonies between and discords among disciplines methodologies, ideologies, and topics of interest. In doing so, students make informed judgements regarding artistic and cultural creation.

Courses approved for this area must deal with the cultural and artistic expression of human beings. The courses will ensure opportunities for students to develop an awareness of the ways in which people throughout the ages and in different cultures have responded to themselves and the world around them in artistic and cultural creation and help students develop aesthetic understanding and an ability to make judgments.

2. Arts, Foreign Language, Literature, and Philosophy (3 units)
Courses included in this category require students to analyze and appreciate works of philosophical, historical, literary, aesthetic, and cultural importance within a diverse context focusing on both Western and non-Western cultures. In doing so, students evaluate artistic and cultural creation. Performance and studio arts courses are included in this area if they focus on the integration of history, theory, and criticism relevant to the field. For foreign language courses, the coursework should focus on the written and oral language as well as the history, culture, and other attributes of the country associated with the language. For conversational courses, there must be a prerequisite course equivalent to the third year of high school study or one year of college level language.

AREA D: LANGUAGE AND RATIONALITY (6 UNITS)
1. English Composition (3 units)
This general education area is fulfilled by a student’s completion of English 101. The course includes substantial instruction and practice in expository, analytical, and research essay writing at the college level with a minimum of 6,000 words being written. The course also requires a substantial amount of reading of significant literature. Through their reading and discussion of selected prose works, students learn to identify problems, examine possible solutions, recognize unstated assumptions and values, appraise evidence, evaluate arguments, draw inferences, and test conclusions. Through their writing, students learn to analyze, synthesize, organize information logically, and propose original ideas.

2. Communication and Analytical Thinking (3 units)
Courses approved for this category must ensure opportunities for students to develop logical thought, clear and precise expression and critical evaluation of communication. Courses foster students’ abilities to distinguish fact from judgement, and belief from knowledge. Students learn to critique ideas and theories and to apply course concepts to critically analyze and engage with real world and theoretical problems and issues. Course assignments emphasizing oral and written forms, emphasize writing as appropriate and, in particular, analytical and evaluative writing including research. For courses in computer science, these may include courses focused on programming languages but not general computer classes. For courses in Mathematics, these may include courses focused on quantitative reasoning.
DEGREE AND CERTIFICATE PROGRAMS

Associate in Arts/Science for Transfer (AA-T/AS-T)

Administration of Justice
Anthropology
Art History
Biology
Business Administration
Communication Studies
Early Childhood Education
English
Geography
History
Journalism
Kinesiology
Mathematics
Music
Philosophy
Physics
Political Science
Psychology
Sociology

Mathematics
Music
Physical Science
Social Sciences
Speech/Communication
Theatre Arts
(2 Options)
Visual Arts
(7 options)

Associate in Science Majors (Certificate Programs)

Certificates of completion are offered in the following:

Accounting
Addiction Studies Counseling
Administration of Justice
Animation
Architectural Drafting & Design
Art
Two-dimensional
Three-dimensional
Aviation and Transportation
Aviation Administration
Pilot Training
Bookkeeping
Business Administration
Entrepreneurship/Small Business
Financial Planning & Investment
General Business
International Business
Ceramics
Child Development
Teacher
Infant/Toddler
School-Age Care
Master Teacher
Site Supervisor
Choreographic Studies & Dance Technique
Computer Applications and Business
Office Technologies
Administrative Assistant
General Office
Computer Science
Computer Software Technician
Dance Teaching
Dietary Services Supervisor
Electronics & Computer Technology
Electronics Technology Technician
Engineering / Electro Mechanical Design
Fire Technology
Insurance Specialist: Property & Casualty
Machine & Manufacturing Technology
Machinist
Management
Marketing
Mass Communications
Medical Office
Administrative Medical Assistant
Medical Coding Assistant
Medical Front Office
Music
Photography
Real Estate
Real Estate Appraisal
Registered Nursing
Restaurant Management
Technical Theatre
Web Development
Welding

Certificates Non-Degree

Aviation and Transportation
Flight Attendant
Cinematography and Editing
Computer Information Systems
Computer Programmer
Computer Support Technician
Computerized Accounting Specialist
CSU, Breadth
Digital Content Specialist
Fitness Specialist
Graphic Design
Human Resources Assistant
IGETC
Insurance Professional
Medical Office
Dental Front Office / Billing & Coding
Medical Billing and Coding
Receptionist / Office Clerk
Tax Preparer
Verdugo Fire Academy
Verdugo Recruit Academy
Unix System Administrator

The certificates listed above meet Title 5 codes, and are approved by the California Community College Chancellor’s Office. Certificates listed in any other publication (including on-line) that are not listed above may not be valid certificate programs. Please check with the Admissions Office.
MAJOR REQUIREMENTS FOR THE ASSOCIATE IN ARTS/SCIENCE DEGREES

The following is a list of the majors and certificate programs and their requirements that satisfy the Associate in Arts/Science degree(s) for Glendale Community College.

Please note: all courses used to satisfy the majors for the Associate degrees must be completed with a grade of “C” or better.

Certificate Programs are primarily business and technical programs for students desiring education beyond high school. These programs provide opportunities for students to prepare themselves for a wide variety of careers. In most cases these programs are planned without regard to transfer schools; however, many courses are transferable to four-year colleges or universities if students change their educational goals.

1. Certificates of Achievement shall be issued upon request by the Office of Admissions and Records to students who qualify by completing one of the occupation-centered curriculums. The student must have a grade of “C” or better in all courses constituting the certificate program.

2. To earn a certificate, students must complete the number of units required by the division. No certificate shall consist of less than 12 semester units.

3. At least 12 units of the required courses must be completed at Glendale Community College; therefore, to earn a certificate that requires 12 units, all courses must be completed at GCC.

4. Students pursuing certificate programs of less than 16 units are not eligible for financial aid.

5. Students pursuing an Associate in Science degree need to complete the graduation requirements in addition to the certificate requirements.

ACCOUNTING AS DEGREE OR CERTIFICATE

Program Learning Outcomes: Upon completion of this certificate program, students will be able to demonstrate the ability to read and understand the contents of a corporation’s annual report. Students will be composing entry-level correspondence and respond to correspondence initiated by others. Students will be able to create, edit, and print worksheets using formulas and statistics, date and time, financial and logical functions to solve business information.

Required Courses: ACCTG 101, 102, 120; BUSAD 101, 120; CABOT 105 (or BUSAD 106*), 270 (or ACCTG 180); CS/IS 101.

*CAPOT 105 is appropriate for certificate students.

**No credit will be granted if Accounting 110 is taken after Accounting 101.

***If not used to fulfill CORE requirement

ADDICTION STUDIES COUNSELING AS DEGREE OR CERTIFICATE

Program Learning Outcomes: Upon completion of this program, students will be able to demonstrate the ability to utilize their counseling and cognitive abilities necessary to integrate the counselor skills and ethical standards learned in the preceding Alcohol/Drug Studies Counseling program courses. The program is designed to provide academic preparation and field experience for individuals employed, or preparing for employment, as alcohol and drug abuse specialists in public and private agencies. During the capstone internship classes, students will be able to demonstrate the ability to utilize their counseling and cognitive abilities necessary to integrate the counselor skills and ethical standards learned in the preceding Alcohol/Drug Studies Counseling program courses. Students will be able to demonstrate the cognitive and counseling abilities necessary to integrate the counselor competencies and standards learned in a two year Alcohol/Drug Studies Counseling program, including evidence-based theory and competencies inherent in entry level alcohol/drug counselor positions. To earn a certificate the student must complete the core courses and selected courses from each section as designated, for a total of 42 units.

This program is accredited by the California Association of Alcohol and Drug Educators and designed to meet the certification requirements of both the California Association of Alcohol and Drug Abuse Counselors and the Coalition of Program Standards.

Core Curriculum (9 units): ADST 101, 103, 105.

Behavioral Courses: required: PSYCH 101
Select 3 units from: PSYCH, 104, 110; ETH S 121***; SOC 101.

Required Skill Courses: ADST 110, 112, 119.

Required Internship Courses (8 units): ADST 50 and ADST 152, 153.
Select 3 units: ADST 111, 114.

Field Experience (4 units): ADST 154.

Cultural Diversity (3 units): ANTHR 102; CHLDV 156; ENGL 124; ETH S 101, 102, 110, 111, 120, 121***, 123, 124, 125, 132, 164; HIST 111, 115; HUMAN 105, 105H, 115, 125, 135; MUSIC 128; PHIL 113, 114, 118; PSYCH 111, 113; SOC S 127.

***ETH S 121 may be counted in one area only.
ADMINISTRATION OF JUSTICE
AS DEGREE OR CERTIFICATE

This program is designed to provide a broad-based education in the areas of law enforcement, corrections and the judicial system. The program is appropriate for students seeking employment as a law enforcement officer, correctional officer, probation or parole officer, or as a legal professional such as a paralegal or attorney. Students will demonstrate an understanding of the major components and function of the criminal justice system in America. Students will demonstrate knowledge of criminal laws in California. Students will define ethics in law enforcement and the consequences of unethical behavior. Program Learning Outcomes: Upon completion of this program, students will demonstrate an understanding of concepts in: criminal law, law enforcement procedures, crisis intervention, legal aspects of evidence and forensic science; discuss the aspects of community relations; discuss the techniques used in investigation procedures; and discuss the different aspects of special crimes.

Required Courses (21 units): ADMJ 101, 103, 110, 117, 118, 120, 134 and 170.
Recommended Courses: ADMJ 201, SPCH 101.

ANIMATION
AS DEGREE OR CERTIFICATE

This certificate is designed to provide academic and hands-on learning experience for individuals planning on a career in the field of animation. Industry-workers retrain themselves to diversify their work options within animation, gaming, or visual effects. College-age students and avocational learners gain skills allowing for transfer to four-year colleges or entry into the workplace. Program Learning Outcomes: Upon completion of this program, college-age students and avocational learners will gain skills allowing for transfer to 4-year colleges or entry into the workplace; and Industry-workers retrain themselves to diversify their work options within animation, gaming, or visual effects.

Required Courses: ART 101 or 102, 130, 150, 152, 201, 205, 206; HUMAN 115.

ARCHITECTURAL DRAFTING AND DESIGN
AS DEGREE OR CERTIFICATE

This curriculum prepares students to enter employment as an architectural draftsperson in the building construction field. Program Learning Outcomes: Upon completion of this program, students will demonstrate techniques to accomplish drawings utilizing different computer aided design (CAD) software; develop a portfolio of their work (this portfolio will show the students’ best work from different classes within the department, discuss building construction techniques, principles, and building code); demonstrate skills in the production of working drawings of residential and commercial structures; and discuss how design/drawing techniques, application of the International Building Code (IBC), building construction techniques, and other standards affect the design of their structure.

Required Courses: ARCH 101, 102, 103, 105, 106, 120, 125, 130, 135; ART 130 or 150; BUSAD 152; ENGR 109; T Ed 140, 142*.
Recommended Courses: ART 130
*Units earned for this course may not be counted toward graduation.

ART
AS DEGREE OR CERTIFICATE

Program Learning Outcomes: Students will be able to demonstrate skill in a broad range of media, materials and processes, define and use core concepts in 2D or 3D art, where applicable, produce original work that demonstrates a high level of craft, describe, analyze and provide criticism of works of art in various media, prepare and organize art works for exhibition, if applicable, and understand safe and hazard-free use of art materials and equipment. For students who are interested in art as a career, the following courses (from one of the two options) are required:

Two-dimensional: ART 101, 102, 130, 131, 150, 152, 160, 166, 179, 280.
Select 3 units from: ART 138, 180, 186.
Select 3 units from: ART 164, 170, or PHOTO 101.

VISUAL ARTS - ANIMATION
AA DEGREE

Program Learning Outcomes: Upon completion of this program, college-age students and avocational learners gain skills allowing for transfer to 4-year colleges or entry into the workplace; and Industry-workers retrain themselves to diversify their work options within animation, gaming, or visual effects.

Required Courses: ART 101 or 130, 150, 152, 201, 205, 206; HUMAN 115.

RECOMMENDED COURSES

1. REQUIRED COURSES

(a) ARCHITECTURAL DRAFTING AND DESIGN

(5 units): ART 101, 205, 206; BUSAD 152; ENGR 109; T Ed 140, 142*.

(b) ART

(3 units): BUSAD 152; ENGR 109; T Ed 140, 142*.

2. RECOMMENDED COURSES

(a) MATH

(3 units): MATH 110, 111, 112.*

(b) COMPUTER SCIENCE

(2 units): CS 101, 102.*

(c) ENGLISH

(2 units): ENGL 101, 102.*

(d) SOCIAL SCIENCE

(2 units): SOC 101, 102.*

(e) HUMANITIES

(2 units): HUM 101, 102.*

*Units earned for this course may not be counted toward graduation.

**Numbers in parentheses indicate total units required for the major.

Students who wish to pursue a Bachelor of Arts degree in Art at a four-year institution should take additional courses in the Major as prescribed by the four-year institution. Students are encouraged to consult with a counselor to determine appropriate course selections.

ART
AS DEGREE OR CERTIFICATE

Program Learning Outcomes: Students will be able to demonstrate skill in a broad range of media, materials and processes, define and use core concepts in 2D or 3D art, where applicable, produce original work that demonstrates a high level of craft, describe, analyze and provide criticism of works of art in various media, prepare and organize art works for exhibition, if applicable, and understand safe and hazard-free use of art materials and equipment. Select 3 units from: ART 138, 180, 186.
Select 3 units from: ART 164, 170, or PHOTO 101.

VISUAL ARTS - ART HISTORY
AA DEGREE

Students will be able to use the specialized vocabulary of art history; identify examples of art objects depending on course (ancient, Renaissance, etc.); and analyze the cultural significance of art objects studied. Program Learning Outcomes: Upon completion of this program, students will be able to analyze cultural significance of art objects studied. Identify specific examples of art. Apply the specialized vocabulary of art history.

Required Courses: ART 101, 102, 130.

VISUAL ARTS - TWO/THREE DIMENSIONAL
AA DEGREE

Program Learning Outcomes: Upon completion of this program, students will be able to define and use core concepts in 2D and 3D art; demonstrate skill in a broad range of media, materials and processes; describe, analyze and provide criticism of works of art in various media; prepare and organize art works for exhibition, if applicable; understand safe and hazard-free use of art materials and equipment; produce original work the demonstrate a high level of craft; prepare artist statements, resumes and collateral written materials; and relate works of art to ideas from the study of art history and the humanities. Select one of the following:

Two-Dimensional:
Required Courses: ART 101 or 102, 130, 150.
Select 3 courses from: ART 131, 151, 152, 160, 164, 166, 170, 179, 280; PHOTO 101.

Three-Dimensional:
Required Courses: ART 101 or 102, 130, 138.
Select 3 courses from: ART 152, 157, 179, 180, 181, 186, 187, 190, 280.

AVIATION AND TRANSPORTATION
AS DEGREE OR CERTIFICATE

AVIATION ADMINISTRATION

Aviation Administration is for those who wish to enter civil aviation work as clerks, agents, station and traffic managers, or fixed base operators. Program Learning Outcomes: Upon completion of this program, students will demonstrate an understanding of the differences and similarities between general aviation and commercial aviation; demonstrate the skills required to establish and manage airport operations; and identify effective techniques of flight training and flight school management.

Required Courses: AT 120, 128; BUSAD 101; ENGL 101; PSYCH 101; SPCH 101.
A minimum of 4 units from: AT 121, 122, 123, 124, 125, 126, 127, 129, 131, 132, 134, 136; ACCTG 101 (or 105 and 106), 102, 110; CS/IS 100, 101; ECON 101, 102.

PILOT TRAINING

Program Learning Outcomes: Upon completion of this program, students will demonstrate the skills required to successfully pass the FAA knowledge exam appropriate to the rating sought. Students will demonstrate an understanding of Federal Aviation Regulations and proficiency in cross-country flight planning. Students will demonstrate practical skills required to pass FAA practical testing for the rating sought.

Training offered in this field:

1. Instruction: For those who wish to complete two years of college to become eligible to enter civil aviation as professional pilots
2. Basic Pilot Training: Prepares the student for the FAA Private Pilot Airplane written examination for the Private Pilots License. Required course is AT 120.
3. Advanced Pilot Training: A program designed to give private pilots adequate aeronautical knowledge and experience necessary to enter the field as commercial pilots with an instrument rating as their career. To enter this program, it is recommended the student satisfactorily complete AT 120*.

Required Courses: AT 112, 113, 120, 121, 122, 123, 124, 125.
These courses are recommended: AT 134, 136.
*AT 120 may be taken by exam.

BIOLOGICAL SCIENCE
AA DEGREE

Program Learning Outcomes: Upon completion of this program, students will be able to describe and demonstrate correct use of laboratory equipment; be well-prepared for upper-division biology courses; and be well-qualified as transfer students to a 4 year university biology program.

Required Courses: BIOL 101, 102; CHEM 101, 102; MATH 101.

BOOKKEEPING
AS DEGREE OR CERTIFICATE

Program Learning Outcomes: Upon completion of this program, the student will understand accounting terms and uses as they apply to business; have knowledge of financial statements and their importance to a business, vendors, creditors, and customers; be able to identify the standard elements on the Windows 7 desktop and demonstrate basic mouse operations; to understand basic computer terminologies, and become familiar with global information systems to be able to sign on to an account and use common utilities, including e-mail, Web browsers, and searching a variety of databases for information; and be able to set-up and process a company’s accounting information and Payroll System through the use of computers.

Required Courses: ACCTG 110 or 101, 120, 130; BUSAD 101; CABOT 105, 106, 110.
A minimum of 5 units from: ACCTG 101*, 102, 121, 150, 155, 156, 157, 160, 165, 180; BUSAD 106, 110, 120, 162; CABOT 208, 260, 270, 271; CS/IS 100, 101; Internship 50 (ACCTG).

*If not used to fulfill CORE requirement.
BUSINESS ADMINISTRATION
AA DEGREE

Program Learning Outcomes: Upon completion of this program, students will be able to recognize, analyze, and assess current economic challenges facing global and domestic businesses; analyze, evaluate, and explain business problems using basic concepts and terminology of accounting and finance; and understand and apply the four P’s of marketing, business law, investments, and management.

Required Courses: ACCTG 101, 102; BUSAD 101, 120; CS/IS 100 or 101.

BUSINESS ADMINISTRATION
AS DEGREE OR CERTIFICATE

ENTREPRENEURSHIP/SMALL BUSINESS

Program Learning Outcomes: Upon completion of this program, students will understand and apply the business skills necessary to start or manage a successful small business; be able to create a written business plan; and be able to set-up a payroll system and interpret the data from various forms.

Required Courses: ACCTG 110 or 101, 130, 170; BUSAD 101, 106 (or CABOT 105), 110 or 120, 158, 162; CS/IS 100 or 101 or CABOT 260.

FINANCIAL PLANNING AND INVESTMENT

Program Learning Outcomes: Upon completion of this program, students will be able to understand the terminology of finance and express themselves analytically using time value of money concepts, liquidity analysis, profitability analysis, and equity management concepts; be able to apply the tools of investing to determine the appropriateness of an investment; and be able to develop and prepare a personal income statement and balance sheet.

Required Courses: ACCTG 110 or 101; BUSAD 101, 106 (or CABOT 105), 131, 134; CS/IS 100 or 101 or CABOT 260.

Select two of the following courses: ACCTG 150; BUSAD 120, 135, 136.

GENERAL BUSINESS

Program Learning Outcomes: Upon completion of this program, students will be able to recognize, analyze, and assess current economic challenges facing global and domestic businesses; be able to analyze, evaluate, and explain business problems using basic concepts and terminology of accounting and finance; and be able to understand and apply the four P’s of marketing, business law, investments, management, and marketing.

Required Courses: ACCTG 110 or 101; BUSAD 101, 106 (or CABOT 105), 110; CS/IS 100 or 101 or CABOT 260.

Select three of the following: BUSAD 120, 134, 135, 141, 162.

INTERNATIONAL BUSINESS

Program Learning Outcomes: This certificate presents the business concepts necessary to compete in the International Global Marketplace. It prepares students to import, export, and/or establish an overseas business presence. Students will learn to evaluate cross-cultural issues of marketing a product or service; explain the functions of the U.S. customs Agency and other regulatory agencies; and describe the documentation required by each agency. This program is designed for both the individual entrepreneur and the established company executive.

Required Courses: ACCTG 110 or 101; BUSAD 101, 106 (or CABOT 105), 170; CS/IS 100 or 101 or CABOT 260.

Select any three of the following: BUSAD 120, 158, 162, 175, or 176.

CERAMICS
AS DEGREE OR CERTIFICATE

This certificate is designed for students wishing to prepare for employment in the commercial ceramic industry. Emphasis is on job-related skills such as production forming techniques, surface design techniques, glaze formulation and application, chemical safety, and kiln technology. The certificate is also designed for those setting up their own production studios to work as independent artists. Students will demonstrate skill in a broad range of ceramic techniques, define and use core concepts used in the ceramic area, produce original work that demonstrates a high level of craft, and describe, analyze and provide criticism of ceramic work.

Program Learning Outcomes: Upon completion of this program, students will be able to define and use core concepts used in the ceramic area; describe, analyze and provide criticism of ceramic work; produce original work that demonstrates a high level of craft; and demonstrate skill in a broad range of ceramic techniques.

Required Courses: ART 186, 187, 190, 192, 195; ENGL 101 or 120 or ESL 151

Select six units from: ART 111, 130, 188, 191, 193
CHLDV 133, 135, 138, 140, 141, 142, 150, 156, 181.

INFANT/TODDLER
This curriculum is designed for those students who plan careers in teaching in an infant/toddler education setting. The curriculum requires completion of 27 units of Child Development courses plus a minimum of 16 units of General Education courses, necessary for the California Child Development Permit.

REQUIRED COURSES: CHLDV 133, 135, 138, 140, 141, 142, 147, 150, 156, 180.

SCHOOL-AGE CARE
This curriculum is designed for those students who plan careers in teaching in a school-age child care setting. The curriculum requires completion of 27 units of Child Development courses plus 16 units of General Education courses, necessary for the California Child Development Permit.

REQUIRED COURSES: CHLDV 133, 135, 137, 138, 140, 141, 142, 150, 156, 182.

MASTER TEACHER
This curriculum is designed for those students who plan teaching careers in an early childhood setting. The program requires completion of the 27 units of Child Development curriculum plus 16 units of General Education courses, necessary for the California Child Development Permit.

REQUIRED COURSES: CHLDV 133, 135, 138, 140, 141, 142, 150, 156, 176, 180 or 181 or 182.

SITE SUPERVISOR
This curriculum is designed for those students who plan careers in early childhood administration and supervision. The program requires completion of 33 units in Child Development plus the completion of the requirements for the Associate in Science degree.

REQUIRED COURSES: CHLDV 133, 135, 138, 140, 141, 142, 150, 156, 174, 175, 176, 180 or 181 or 182.
CHOREOGRAPHIC STUDIES AND DANCE TECHNIQUES AA DEGREE

This program is designed to prepare students for transfer to four-year institutions or to work in the dance industry. Students gain the knowledge, skills and abilities required to audition as commercial dancer, company dancer, or choreographer. Students must complete all required core courses for a total of 25.5-26.5 units. Program Learning Outcomes: Upon completion of this program, students will be able to integrate technical dance skills using correct body alignment and muscle coordination and compare various dance forms in relation to historical and cultural context.

Required Courses: DANCE 100 or 102; DANCE 111, 116, 121, 130, 129; 135 or 136, 140 or 127 or 128; BIOL 120.

CHOREOGRAPHIC STUDIES AND DANCE TECHNIQUE AS DEGREE OR CERTIFICATE

This program is designed to provide academic and hands-on learning experience for individuals planning a career as dancer or choreographer in commercial dance or in dance companies. Students gain the knowledge, skills and abilities required to transfer to a four-year college or audition for work in the dance industry. Students must complete the required courses and choose additional courses to total a minimum of 25 units. Program Learning Outcomes: Upon completion of this program, students will be able to demonstrate technical dance skills using correct body alignment and muscle coordination; and explain dance vocabulary of various dance styles. This curriculum is designed for students who plan careers in commercial and concert dance.

Required Courses: DANCE 100 or 102; DANCE 114, 117, 122, 127, 129, 130, 135 or 136, 137, 190 or 194.

A minimum of 6 units must be selected from the following elective courses: ART 102, 125, 130; DANCE 114, 117, 122, 127, 129, 130, 135 or 136, 137, 190 or 194.

A minimum of thirty (30) words a minute and to create, edit, and format advanced features for any business document including forms, medical and legal forms, resumes, job applications, bibliographies, footnotes/ endnotes, newsletters.

Required Courses: ACCTG 110 or 101; BUSAD 106, 110, 152; CABOT 101, 102, 103, 104, 110, 208, 210*, 265, 266, 270, 285; CS/IS 191

* A minimum speed of 40 wpm is required for this certificate.

* A minimum speed is required for each individual certificate program.

GENERAL OFFICE

This program is designed to train students to meet the needs for qualified office staff skilled in office procedures including filing and processing documents; writing and editing documents; communicating with employees and clients; and working with office technologies and Windows OS system software. Students must complete all required core courses for a total of 28 units. Program Learning Outcomes: Upon completion of this program, the student will be able to use a variety of office procedures to perform such tasks as sorting mail and answering telephones; filing and processing documents; edit and revise memos, e-mails, letters and reports; the student will be able to identify the personal traits that lead to effective human relation skills in business and develop skills to work more effectively with customers and other employees, including communicating with clients verbally face-to-face and over the telephone; the student will be able to perform basic operations in Word, Excel, Access, and PowerPoint; compose entry-level correspondence using appropriate business language and cohesive, grammatically correct sentences; become familiar with Global information systems and be able to sign on to an account and use common utilities including e-mail and Web browsers to search a variety of databases for information; acquire the necessary knowledge and skills of accounting and bookkeeping to be able to use journals and ledgers to prepare balance sheets and income statements and be able to translate accounting records into a basis for sound decision making in a variety of businesses; be able to use a variety of office procedures to perform such tasks as sorting mail, filing and processing documents; develop interpersonal skills to conduct and participate in job interviews, practice effective human relation skills in business, handle telephone conversations with ease, and develop skills to communicate more effectively with customers and other employees verbally; and type by touch at a minimum of thirty (30) words a minute and to create, edit, and format advanced features for any business document including forms, medical and legal forms, resumes, job applications, bibliographies, footnotes/ endnotes, newsletters.

Required Courses: BUSAD 110; CABOT 101, 102, 103, 104, 105, 110, 208, 210*, 260; CS/IS 191.

* A minimum speed of 40 wpm is required for this certificate.

* A minimum speed is required for each individual certificate program.
COMPUTER SCIENCE
AS DEGREE OR CERTIFICATE
This program is designed for those students interested in computer science, either as a professional concentration, or for transfer to a four-year computer science program. Upon completion of this certificate program, students will be able to name the four basic parts of computer organization and have a working knowledge of assembly language. Students will be able to describe recursion, linked lists, queues, and stacks and algorithm efficiency, as well as, procedural, functional, logic and object-oriented programming languages. Students must complete the required courses and choose additional courses to total a minimum of 37 units. Program Learning Outcomes: Upon completion of this program, students will prepare a software project to implement a single scientific, mathematical, business, or technical function.
REQUIRED COURSES: CS/IS 165, 166, 211, 212, 280.
ADDITIONAL COURSES: (20 units) CS/IS 101, 112, 125, 130, 135, 137, 139, 172, 174, 190; MATH 103, 104, 107; PHIL 123; PHY 101
NOTE: Courses taken more than 3 years before the granting of the certificate must have division chair approval.

COMPUTER SOFTWARE TECHNICIAN
AS DEGREE OR CERTIFICATE
This program is designed to train students to meet the rapidly growing need for qualified hardware/software technicians, having a blend of hardware and software skills. Students will write a computer program using C/C++, Java, or Visual Basic. Students must complete all required CORE courses, and choose other courses from the additional courses listed to total 32 units. Program Learning Outcomes: Upon completion of this program, the student will write a computer program using either C/C++, Java, or Visual Basic; and demonstrate the ability to independently create, save, modify and print a document using a word processing program and appropriate assistive technology.
REQUIRED COURSES: CS/IS 101, 112 or 135, 190.
ADDITIONAL COURSES: BUSAD 106, 110; CS/IS 130, 135, 137, 139; ENTRE 101, 102
RECOMMENDED PREPARATION: CABOT 206, 208.

DANCE TEACHING
AS DEGREE OR CERTIFICATE
The Dance Teaching degree is designed to prepare students for transfer to four year institutions or enter the workforce teaching dance to all age groups in private studios, fitness centers, community centers, and school and after school programs. Students must complete the required courses and choose additional courses to total a minimum of 33 - 34 units. Program Learning Outcomes: Upon completion of this certificate program, students will be able to teach technical dance skills using correct body alignment and muscle coordination, design dance lesson plans for children, adults, and seniors, and create dance programs for private studios, fitness centers, and community centers.
REQUIRED COURSES: DANCE 100, 107, 130 or 136, 158; HLTH 101 and 110 or BIOL 120; INTERN 50 (DANCE).
SELECT ONE OF THREE OPTIONS:
OPTION ONE — DANCE 114, 116, 121
OPTION TWO — DANCE 111, 117, 121
OPTION THREE — DANCE 111, 116, 137
A minimum of six units from DANCE 124, 125, 127; BUSAD 158, 162; MUSIC 101; PSYCH 106; SOC S 101, 124; T ART 130, 173.

DIETARY SERVICES SUPERVISOR
AS DEGREE OR CERTIFICATE
This certificate prepares students to supervise healthcare facilities as food service supervisors in convalescent, nursing and retirement homes. The curriculum focuses on the fundamentals of culinary science, sanitation, nutrition, modified diets, and sound management practices. Students must complete all required core courses for a total of 22 units. Program Learning Outcomes: Students will demonstrate cooking techniques commonly found in professional food service establishments. Students will plan sanitation policies and practices at an ongoing food service establishment. Students will evaluate patients’ nutritional needs and formulate appropriate diets.
REQUIRED COURSES: CULIN 111 or 112, 113, 116, 142; HRM 256; NUTR 114 or 125, 118; CULIN 50 (2 units).

ELECTRONICS & COMPUTER TECHNOLOGY — ELECTRONICS TECHNOLOGY TECHNICIAN
AS DEGREE OR CERTIFICATE
The ECT/Electronics Technology Technician Certification program is designed to provide knowledge and training for entry into electronics and electrical industry career areas. Students must complete all required core courses for a total of 23 units. Program Learning Outcomes: Upon completion of this program, students will have knowledge and training for entry into electronics and electrical industries; demonstrate knowledge in electrical and voltage concepts; demonstrate knowledge in photovoltaic concepts; and have knowledge of California State Contractors and Electronics Technician Association examinations.
REQUIRED COURSES: ECT 100, 110, 113, 160, 161, 201; ECT 162 or 163; ENGR 100 and 107.
ENGINEERING/ELECTRO-MECHANICAL DESIGN
AS DEGREE OR CERTIFICATE

Program Learning Outcomes: Upon completion of this program, students will demonstrate skills in the production of working drawings of engineering structures; demonstrate techniques to accomplish drawings and 3D models utilizing different various computer aided design (CAD) software; and discuss how the design process and design/drawing techniques are used with other engineering processes to create a finished product.

Required Courses: ENGR 100, 101, 104, 106, 108 and 109, T ED 140 and 143.

ENGLISH
AA DEGREE

Students completing an AA degree in English develop core competencies in several areas including communication, critical thinking, global awareness, information competency, and personal responsibility. This is achieved through the study of texts and the enhancement of reading, writing, and research skills. Program Learning Outcomes: Upon completion of this program, students will be able to apply literary and rhetorical concepts in order to critically read, write, think, and research.

Required Courses: ENGL 105** and 106** or ENGL 109** and 110**.

**These courses may not be used in more than one area.

FIRE TECHNOLOGY
AS DEGREE OR CERTIFICATE

This program is offered for students interested in preparing for careers in fire prevention and fire fighting. The courses also provide in-service and upgrade instruction for firefighting personnel. Students will demonstrate the skills required in the field of fire technology. These skills include: fire prevention techniques, behavior of fire, fire-fighting tactics and strategy, and the equipment used in fire protection. Other topics may include: fire investigation, hazardous materials, building construction, and crisis intervention. Program Learning Outcomes: Upon completion of this program, students will discuss the skills required for fire prevention techniques; discuss the aspects of fire behavior; discuss the skills required for fire-fighting tactics and strategy; and discuss the skills required for the use of equipment used in fire protection.

Recommended Courses: ADMJ 101, 103, 107; SPCH 101.

FOREIGN LANGUAGE
AA DEGREE

Program Learning Outcomes: Upon completion of this program, students will demonstrate increased reading and listening comprehension of the target languages; utilize oral and written communicative skills to produce the target languages; and demonstrate increased knowledge of the target languages' cultures.

Required Courses: A minimum of 18 units in one of the following options:

Option 1: Any French or Spanish language (title will reflect the language chosen)

Option 2: Ten (10) units in any one foreign language and Eight (8) units in another.

VISUAL ARTS - GRAPHIC ART
AA DEGREE

Program Learning Outcomes: Upon completion of this program, students will be able to continually develop curriculum incorporating the critical elements of Graphic Design; continually develop curriculum incorporating the industry standard technical elements of Graphic Design; and demonstrate articulation with surrounding 4 year institutions and with the local Graphic Design Community.

Required Courses: ART 101 or 102, 130, 132, 133, 134.

Select three (3) courses from the following: ART 135, 136, 142, 150, 156.

HEALTH SCIENCE
AA DEGREE

Program Learning Outcomes: Upon completion of this program, students will be able to identify anatomical structures and describe the functions of important systems in the human body; be accepted to a nursing program; and be well-prepared for courses in the nursing program or a 4-year university program of their choice.

Required Courses: (14 units from either Option A or B) plus 6 elective units:

Option A: BIOL 115 (or BIOL 122), 120; CHEM 110 or 120

Option B: BIOL 120, 121; CHEM 110 or 120

Electives (6 units): Choose one course from each category

Category 1—Speech: SPCH 100, 101, 103

Category 2—Social Science: ANTHR 102, PSYCH 101, SOC 101
INSURANCE SPECIALIST: PROPERTY & CASUALTY AS DEGREE OR CERTIFICATE

Program Learning Outcomes: Upon completion of this program, students will learn to describe and apply insurance concepts such as principles of indemnity, valued policy, and liability limits; describe elements of a contract, insurance contracts, and conditions commonly found in property and liability insurance policies; discuss loss exposures, personal risk insurance, and types of personal insurance policies.

Required Courses: ACCTG 101; BUSAD 101, 106, 111, 112, 113, 114, 115, 116, 120, 205, 50 (1 unit); CABOT 270; CS/IS 100 or CABOT 260 or 270.

Recommended Courses: BUSAD 203 or 204

INTERDISCIPLINARY HUMANITIES AA DEGREE

Program Learning Outcomes: Upon completion of this program, students will apply literary, rhetorical, and interdisciplinary studies concepts, and discipline-specific concepts (such as dance or French) in order to critically read, write, think, and research about the idea of creativity.

Option: Creativity
Select 6 units from: HUMAN 106, 117, 120.
Select 3 units from: HUMAN 105, 110.
Select 9 units from at least 3 of the following disciplines: ANTHR 101; ART 150, 186; BIOL 123; DANCE 110, 115, 120, 130; ENGL 103, 111; ETH S 101; PHILO 116, 117; SPAN 105, 106; T ART 103, 104, 109, 121, 123, 134.

MACHINE AND MANUFACTURING TECHNOLOGY — MACHINIST AS DEGREE OR CERTIFICATE

Program Learning Outcomes: Upon completion of this program, students will demonstrate the skills required in the field of machine and manufacturing technology, such as computer numerical machining (CNC) for various machine tools; demonstrate the skills required in the field of machine and manufacturing technology, such as use of manual machining equipment; demonstrate the skills required in the field of machine and manufacturing technology, such as metallurgy and heat treating; and demonstrate the skills required in the field of machine and manufacturing technology, such as technical mathematics.

Required Courses: MACH 101, 102, 103, 104; MTLGY 150.

MANAGEMENT AS DEGREE OR CERTIFICATE

Program Learning Outcomes: Upon completion of this program, students will have learned the five functions of a manager: planning, organizing, staffing, leading and controlling. The student will learn to listen effectively, and plan, present, and evaluate various types and lengths of speeches and other oral presentations.

Required Courses: ACCTG 110 or 101; BUSAD 101, 106 (or CABOT 105), 110, 120 or 144, 141, 152 (or SPCH 101 or 111); CS/IS 100 or 101 or CABOT 260.

MARKETING AS DEGREE OR CERTIFICATE

Program Learning Outcomes: Upon completion of this program, students will be able to recognize and develop an appreciation for customer need, and to understand and apply the four P’s of marketing: Product, Price, Place (distribution), and Promotion, as well as develop a basic marketing plan and implement a strategy.

Required Courses: ACCTG 110 or 101; BUSAD 101, 106 (or CABOT 105), 162, 164, 166; CS/IS 100 or 101 or CABOT 260.

Select one course from the following: BUSAD 136, 152 (or SPCH 100 or 111); CABOT 280.

MASS COMMUNICATIONS AA DEGREE

This program prepares students to recognize and replicate the methods by which the Mass Media inform and persuade, with language or pictures, and the cognitive and emotional impact mass media messages have on the audience. Students are prepared to transfer to baccalaureate degree programs in mass communications and communications, including public relations. Students must complete all required core courses and choose other courses from the additional course listed to total 18 units. Program Learning Outcomes: Upon completion of this program, students will be able to analyze and differentiate the primary influences of dominant mass media on major cultural practices and social and political institutions; and research and explain the historical influences of dominant communication technologies on society, culture and human behavior.

Required Courses: ENGL 101; JOURN 102, 103, 104; MCOMM/JOURN 101.

A minimum of 3 units must be selected from the following: JOURN 106, 107; MCOMM/JOURN 49**; MCOMM 120.

**A maximum of 6 units in MCOMM/JOURN 49 may be counted toward the 18 units required.
MASS COMMUNICATIONS
AS DEGREE OR CERTIFICATE

This program is designed to train students to meet the need for qualified public relations and other communications professionals through instruction in nonfiction writing, media production, media theory and media literacy. Students must complete all required core courses, and choose other courses from the additional courses listed to total 24 units.

Program Learning Outcomes: Upon completion of this program, students will be able to analyze and differentiate the primary influences of dominant mass media on major cultural practices and social and political institutions; research and explain the historical influences of dominant communication technologies on society, culture and human behavior.

Required Courses: MCOMM/JOURN 101; JOURN 102, 103 or 104, 107; ENGL 101, 102 or 104.

A minimum of 3 units from: CABOT 206, 208; CS/IS 123; JOURN 106; MEDIA 101, 111.

A minimum of 3 units from: ECON 101; ENGL 105, 106, 109, 110, 111, 116, 122, 123, 125, 127, 128; HIST 140, 141; POL S 101.

MATHEMATICS
AA DEGREE

This program prepares students for study in STEM fields requiring the skills to solve applications using derivatives, integrals, differential equations, and linear algebra. Students are also prepared to transfer to baccalaureate degree programs in mathematics. Students must complete all core courses to a total of 25 units. Program Learning Outcomes: Upon completion of this program, students will be able to solve applications in math and science using derivatives, integrals, differential equations and linear algebra; evaluate limits, derivatives and integrals; solve a variety of rudimentary and second order differential equations; and analyze, synthesize and evaluate theorems in Linear Algebra.

Required Courses: MATH 103, 104, 105, 107, 108.

MEDIA - SEE CINEMATOGRAPHY AND EDITING

VISUAL ARTS - MEDIA ARTS
AA DEGREE

Program Learning Outcomes: Upon completion of this program, students will demonstrate an effective ability to work as a member of a team to achieve the challenges of technical and conceptual goals of the project from origination to the completion of the high quality final deliverable media productions; demonstrate mastery of conceptual editing techniques to support storytelling and solving story problems through the use of editing dialogue, sound design, music, and sound effects to complete the creation of the master for final deliverables; and demonstrate an understanding of composition, film language and lighting techniques to support the creative vision of the director.

Required Courses: ENGL 112 or JOURN 102; MCOMM 101; MEDIA 101, 104, 107, 110 and 112.

MEDICAL OFFICE
AS DEGREE OR CERTIFICATE

ADMINISTRATIVE MEDICAL ASSISTANT

The Administrative Medical Assistant program prepares the student for employment as an administrative medical assistant in a physician’s office or clinic including performing administrative duties, communicating effectively with patients, applying HIPAA rules, and educating patients regarding office policies. Program Learning Outcomes: Upon completion of this program students will be able to schedule appointments, perform medical office duties, handle financial matters including medical insurance collection, manage electronic health records and other ancillary medical records, and to complete the insurance and reimbursement process. The required internship in the medical office of a physician's clinic provides the student with the administrative experience necessary to enter the workforce.

Required Courses: MOA 180, 182, 183, 185; HIT 182, 184, 193; BIOI 114; BUSAD 204, 50.

MEDICAL CODING ASSISTANT

The Medical Coding Assistant program prepares students for a position as a medical coder in an acute care hospital, clinic or physician's office, long-term care facility, and other health care settings. Program Learning Outcomes: Upon completion of this program students gain competencies in the application of biomedical knowledge and legal, ethical, and medical standards, the communication and analysis of statistical data and in planning and implementation of clinical informational and data systems. Coders ensure that valid codes are applied to medical diagnoses and procedures per coding classification guidelines. They facilitate reimbursement, analyze patient outcomes, and medical research. Due to the breadth of this multidiscipline program, required by the industry, and AHIMA accreditation, a higher number of units is required for this program.

Required Courses: MOA 180, 182, 183; HIT 182, 184, 194, 193, 195, 196; BIOI 114; BUSAD 50.
MEDICAL FRONT OFFICE
This curriculum is designed for students who are preparing for a position in offices of physicians, medical clinics, hospitals, and allied facilities. These students will acquire basic communication skills, learn specialized medical terminologies needed to complete appropriate forms in preparing, maintaining/filing, and charting medical records including insurance claims; use appropriate computer programs to key basic documents and navigate the Internet. Program Learning Outcomes: Upon completion of this program, the student will acquire the basic communication skills; learn the specialized medical terminologies needed to complete appropriate forms in preparing, maintaining/filing, and charting medical records including insurance claims; and use appropriate computer programs to key basic documents and to navigate the Internet (the student should achieve a minimum speed of 25 words per minute).

Required Courses: CABOT 102, 103, 104, 110, 205*, 208; MOA 181 or 182, 185.
Select one course from the following: CABOT 105; 50(2 units); MOA 183
*A minimum speed of 25 wpm is required for this certificate.
A minimum speed is required for each individual certificate program.
NOTE: Substitutions for some of the above classes may be made with department approval.

MUSIC AA DEGREE
Students will be able to demonstrate technical skills requisite for artistic self-expression in at least one major performance area at a level appropriate for the particular music concentration; demonstrate an understanding of the common elements and organizational patterns of music and their interaction, and the ability to employ this understanding in aural, verbal, and visual analysis; demonstrate a basic knowledge of music history through the present time; and demonstrate keyboard competency in intermediate to advanced piano performance literature. Program Learning Outcomes: Upon completion of this program, students will be able to demonstrate an understanding of the common elements and organizational patterns of music and their interaction, and the ability to employ this understanding in aural, verbal, and visual analyses; demonstrate a basic knowledge of music history through the present time. Demonstrate keyboard competency in intermediate to advanced piano performance literature; and demonstrate technical skills requisite for artistic self-expression in at least one major performance area at a level appropriate for the particular music concentration.

Required Courses: MUSIC 103 or 113, 125, 126, 201, 202, 203, 211, 212, 213.
Two units of MUSIC 140.

MUSIC AS DEGREE OR CERTIFICATE
Program Learning Outcomes: Upon completion of this program, students will be able to demonstrate intermediate technical skills requisite for artistic self-expression in at least one major performance area at a level appropriate for the particular music concentration. Students will demonstrate fundamental theoretical and historical analytical music score skills, and demonstrate basic keyboard competency in introductory piano performance literature. The courses are divided into four categories: core classes, instrumental and vocal classes, performing ensembles, and electives.

Required Courses: MUSIC 201, 211.
Select one course from the following: MUSIC 120, 121, 122, 125, 126, 127.
One unit of MUSIC 140.
Select one course from the following: MUSIC 135, 136, 137
Select one course from the following: MUSIC 160, 161, 162, 163, 164, 165, 166.
Electives (8 units required): MUSIC 103, 113, 121, 122, 127, 150, 153, 154, 155, 156, 157, 158, 171, 176, 177, 178, 185, 186.

NURSING - SEE REGISTERED NURSING

PHOTOGRAPHY AS DEGREE OR CERTIFICATE
The GCC Photography program is designed to prepare students for a professional photographic practice. Our students pursue careers in a wide range of photographic practices, from commercial and fine art to documentary and event photography. Many practicing photographers attend classes to refine and update their existing skills. Students seek employment as photographers, photography assistants or as digital retouchers. Courses are designed to encourage students to pursue individual projects while developing their technical ability. Students in the degree and certificate programs are required to learn both traditional and digital photography techniques.

Program Learning Outcomes: Upon completion of this program, students will be able to produce a cohesive photographic project that is conceptually and technically well developed; demonstrate proficiency in available light photography; demonstrate proficiency in studio strobe lighting Proficiency in digital photography workflows and color; and demonstrate proficiency in black and white processing/printing.

Required Courses: ART 199; PHOTO 101, 103, 106, 112, 130;
Choose one course from: PHOTO 107, 118, 140, 142;
Recommended Courses: PHOTO 105, 115, 121, and 145.
VISUAL ARTS - PHOTOGRAPHY

AA DEGREE

Program Learning Outcomes: The student will be proficient in black and white processing/printing; digital photography workflows and color; and proficient in available light photography. The student will be able to produce a cohesive photographic project that is conceptually and technically well developed.

REQUIRED COURSES: ART 199; PHOTO 101, 106, 130
Minimum of 4 units from: PHOTO 107, 118, 140, 142
RECOMMENDED COURSES: PHOTO 103, 115, 121, 145

PHYSICAL SCIENCE

AA DEGREE

Program Learning Outcomes: Upon completion of this program, students will be able to explain the difference between evidence and theory in science and cite an example in their explanation; use instruments and computers to accurately measure, graph, and analyze physical properties (these instruments will include calipers, micrometers, mass balances, spectrometers, interferometers, and digital oscilloscopes depending upon which courses the student had taken); interface computers and sensors using digital conversion technology and the Data Studio Software package to perform experiments in mechanics, electricity and magnetism, thermodynamics, and chemistry

REQUIRED COURSES: A minimum of 18 units from at least two of the following 3 categories:
Category 1: PHYS 101, 102, 103, 105, 106
Category 2: CHEM 101, 102, 103, 105, 106
Category 3: ASTRO 102, 103, 110, 120;
GEOL 101, 102, 103, 104, 105, 111, 112, 120;
OCEAN 115, 116; PALEO 101.

REAL ESTATE

AS DEGREE OR CERTIFICATE

In the Real Estate curriculum, special attention is given to the California license requirements. A student must take the Real Estate Principles course (RE 101), a Real Estate Practice course (RE 120), and one other real estate course before taking the state examination. An applicant for the broker’s license must have taken the eight (8) real estate courses required for this Real Estate Certificate before taking the California State Broker Examination. Students will develop a clear action plan to launch a successful real estate career upon graduation.

Program Learning Outcomes: Upon completion of this program, students will be able to develop a clear action plan to launch a successful real estate career after graduation; and meet the requirements necessary to take and pass the California Department of Real Estate Brokers licensing exam.

REQUIRED COURSES: RE 101, 120, 130, 140, 150, 162 or 163.
A minimum of 6 units must be selected from the following: ACCTG 101 or 110; BUSAD 120; RE 125, 161, 164, 180, 190, 195, 250.
NOTE: After completing all 24.5 units required for this certificate, a Real Estate Internship course is recommended.

REAL ESTATE APPRAISAL

AS DEGREE OR CERTIFICATE

In the Real Estate curriculum, the California Office of Real Estate Appraisal (OREA) determines the courses required to attain an appraisal license, including: 1) Trainee License, 2) Residential License, and 3) Certified Residential Licenses. Many of these courses are also applicable to the salesperson’s or broker’s license of the California Department of Real Estate (DRE). In certain cases, courses can be used for both OREA and DRE requirements. (See the Real Estate Broker Certificate).

Program Learning Outcomes: Students will be able to apply the basic principles and procedures used in valuing residential properties. They will be able to choose the appropriate method to determine value for a specific property, estimate gross income and calculate expenses for income producing property and meet Appraisal Qualifications Board (AQB) licensing requirements for filling out forms and completing the USPAP form.

REQUIRED COURSES: RE 101, 130, 140, 150, 161, 162, 163, 164, 165. A minimum of 3 units must be selected from the following to complete a total of 29 units: ACCTG 101 or 110; BUSAD 120; RE 180, 190, 195, 250.

REGISTERED NURSING

AS DEGREE OR CERTIFICATE

Program Learning Outcomes: Upon completion of this program, students will be able to demonstrate the cognitive skills necessary to integrate the nursing concepts learned in a two year ADN program, including clinical evidence-based concepts inherent in entry level registered nursing practice; demonstrate cognitive skills necessary to integrate the nursing concepts learned in the first year of the ADN program; and demonstrate the psychomotor skills necessary to integrate the nursing concepts learned in a two year ADN program, including clinical evidence-based concepts inherent in entry level registered nursing practice. Glendale College offers programs leading to a certificate or degree in Registered Nursing (RN). The program of study of the Department of Nursing is approved by the California Board of Registered Nursing (BRN). Students will be able to demonstrate the cognitive skills necessary to integrate the nursing concepts learned in a two year ADN program, including clinical evidence-based concepts inherent in entry level registered nursing practice. Students will be able to demonstrate cognitive skills necessary to integrate the nursing concepts learned in the first year of the ADN program. Students will be able to demonstrate psychomotor skills necessary to integrate the nursing concepts learned in a two-year ADN program, including clinical evidence-based concepts inherent in entry level registered nursing practice. For further information visit the website at www.glendale.edu/nursing.

I. PROGRAMS

A. GENERIC ASSOCIATE DEGREE NURSING (ADN) PROGRAM
This curriculum qualifies the student for an Associate in Science degree with a major in Nursing. Graduates are eligible to apply for the national licensing examination (NCLEX-RN) and RN licensure in California.
B. **ADVANCED PLACEMENT OPTIONS (LVN-RN)**

Plans A and B provide advanced placement access into the RN curriculum for the LVN whose license is active and in good standing in California.

1. **PLAN A—CAREER LADDER**

   Qualifies the student for an AS degree with a major in Nursing. Graduates are eligible to apply for the national licensing examination (NCLEX-RN) and RN licensure in California.

2. **PLAN B—30 UNIT OPTION**

   Qualifies the student to meet the BRN requirements for eligibility to apply for the licensing examination and licensure in California. (NCLEX-RN). The student receives a certificate of completion but is not considered a graduate of Glendale College or the Department of Nursing. A license obtained through this option may not qualify the graduate for licensure by endorsement in other states.

**NOTE:** The BRN may deny a license regulated by the Business and Professional Code, Section 480, on such grounds as: being convicted of a crime, acts of dishonesty, fraud or deceit, abuse of vulnerable populations, etc. Refer to the Department of Nursing for further information.

II. **PROGRAM REQUIREMENTS**

A. **GENERAL REQUIREMENTS**

1. All required coursework in the Department of Nursing programs must be completed with a “C” or better.

2. Applicants must meet the placement and testing requirements for the program for which they are applying.

3. Proof of high school graduation, a higher degree, GED, California Proficiency Exam, or foreign high school evaluated as equivalent to an American high school diploma.

4. Students accepted into the Nursing Program must comply with current department policies which include: possession of current Fire Safety and CPR cards; complete a physical exam, lab tests, and immunizations; be free from physical, mental, and emotional disorders which may prevent them from performing tasks and responsibilities in nursing; and undergo drug screening and a background check as required by clinical affiliates prior to being allowed into a clinical setting. Students with questions regarding these requirements may contact the division office.

B. **GENERIC ADN**

1. Required prerequisite courses (or their equivalent) include BIOL 112*, Microbiology; BIOL 120*, Human Anatomy; BIOL 121*, Physiology; PSYCH 101, General Psychology; ENGL 101, Freshman English; and eligibility to enroll in MATH 101.

   *There is a 7-year recency requirement for BIOL 112, 120 and 121. See Academic Counseling to petition extenuating circumstances.

2. Coursework required for certificate/licensure includes BIOL 112, 120, 121; ENGL 101; NS 200, 201, 205, 208, 210, 211, 212, 213, 214, 215, 216 or 220, 222, 223; PSYCH 101; SPCH 101.

3. Graduation requirements*: Any course or courses satisfying the Humanities (6 units); Multicultural course; American History, American Institutions, State and Local government, and Mathematics proficiency. (Please see Index for graduation requirements). *Students who have a BA/BS (any major) from a regionally accredited college or university can receive an AS degree when completing the prerequisites; SPCH 101; and the Nursing program.

C. **LVN-RN**

1. **CAREER LADDER**

   a. Prerequisite requirement: Current active California VN licensure in good standing.

   b. Required prerequisite courses: Same as Generic ADN program.

   d. A.S. graduation requirements: Same as Generic ADN.

   **NOTE:** A student may apply to take the NCLEX-RN without completion of degree requirements when coursework required for licensure (II.B.2. or II.C.c.) has been completed. Please see the Nursing Department for further information.

2. **30-UNIT OPTION**

   a. Prerequisite requirement: Current active California VN license in good standing.

   b. Prerequisite courses: BIOL 121, Physiology and BIOL 112, Microbiology.

   c. Coursework required for licensure includes NS 213, 214, 215, 216 or 220, 217, 218 and 222.

D. Transfer and challenge opportunities are available by departmental policy. Please consult the Counseling Department or the Department of Nursing or the webpage (www.glendale.edu/nursing) for further information.

Glendale College Nursing Students 1970s
RESTAURANT MANAGEMENT
AS DEGREE OR CERTIFICATE

This certificate provides students with the professional preparation required to meet the new trends and demands of management in the food service industry. Certificate courses focus on the fundamentals of operating a food service establishment, emphasizing personnel supervision, purchasing, menu development, cost control, and beverage service, as well as other aspects of management. Program Learning Outcomes: Upon completion of this program, students will demonstrate skills and knowledge required in the field of restaurant management including: professional cooking, sanitation practices, institutional purchasing, beverage and bar operations, banquet and catering presentation, and management principles for food service personnel.

Required Courses: CULIN 111, 113, 116, HRM 115, 117, 201, 203, 207, 214 or 216, 256; CULIN 50 (six units).

Recommended Courses: BUSAD 144, CABOT 102; CULIN 112.

SOCIAL SCIENCES
AA DEGREE

Program Learning Outcomes: Upon completion of this program, the student will have developed a broad and critical understanding of the complex interconnections between the human and environmental forces in their world. The student will be able to demonstrate critical thinking skills and a basic understanding of the complex interrelationships between human kind and the biophysical environment.

Required Courses: A minimum of 18 units from the following:
1. Select courses (minimum 6 units) to satisfy each of the following 3 areas:
   (POL S 101 completed in the Spring 2014 or after satisfies both areas 2 and 3).
   State and Local Government: POL S 106 (POL S 101 completed in the Spring 2014 or after satisfies both areas 2 and 3).
   American History: ECON 111 or HIST 116; HIST 111, 117*, 118*.
*These courses may not be used in more than one area.

SPEECH/COMMUNICATION
AA DEGREE

Program Learning Outcomes: Upon completion of this program, students will be able to demonstrate oral and written communication skills to produce effective speeches; demonstrate increased appreciation of the speech communication process, and demonstrate the ability to apply critical thinking skills in the areas of speaking and listening.

Complete the required courses and choose from either option 1 or 2 to complete the Speech/Communication major for the AA degree.

Required Courses: ENGL 101 and SPCH 101.

Select three courses from the following: SPCH 100, 103, 104, 106, 108

Option 1 - Select one course: PSYCH 101 or SOC 101.

Option 2 - Select three units from: SPCH 107, 111, 115, 120, 160.

THEATRE ARTS
AA DEGREE

Choose from one of the following options:

Option 1: General
Students will identify theatre as a collaborative art form; analyze a play from script to performance; apply skills and knowledge of theatre in preparation for transferability or vocation; and identify theatre terms and occupations.

Program Learning Outcomes: Upon completion of this program, students will be able to apply skills and knowledge of theatre in preparation for transferability or vocation; analyze a play from script to performance; identify theatre terms and occupations; and identify theatre as a collaborative art form.

Required Courses: T ART 101, 171;
Three units from: T ART 100, 103;
Four units from: T ART 160, 161, 162, 163, 164, 180, 181, 182, 183, 184;
Nine units from: DANCE 130, 140, 145; SPCH 105; T ART 102, 107, 111, 121, 123, 129;
One course from: ENGL 116, 125; HUMAN 117; SPCH 105; T ART 104, 106, 111, 140, 155.

Required Courses: CULIN 111, 113, 116, HRM 115, 117, 201, 203, 207, 214 or 216, 256; CULIN 50 (six units).

Recommended Courses: BUSAD 144, CABOT 102; CULIN 112.

THEATRE ARTS
AA DEGREE

Choose from one of the following options:

Option 1: General
Students will identify theatre as a collaborative art form; analyze a play from script to performance; apply skills and knowledge of theatre in preparation for transferability or vocation; and identify theatre terms and occupations.

Program Learning Outcomes: Upon completion of this program, students will be able to apply skills and knowledge of theatre in preparation for transferability or vocation; analyze a play from script to performance; identify theatre terms and occupations; and identify theatre as a collaborative art form.

Required Courses: T ART 101, 171;
Three units from: T ART 100, 103;
Four units from: T ART 160, 161, 162, 163, 164, 180, 181, 182, 183, 184;
Nine units from: DANCE 130, 140, 145; SPCH 105; T ART 102, 107, 110, 119, 121, 123, 129;
One course from: ENGL 116, 125; HUMAN 117; SPCH 105; T ART 104, 106, 111, 140, 155.

Required Courses: CULIN 111, 113, 116, HRM 115, 117, 201, 203, 207, 214 or 216, 256; CULIN 50 (six units).

Recommended Courses: BUSAD 144, CABOT 102; CULIN 112.

   American History: ECON 111 or HIST 116; HIST 111, 117*, 118*.
*These courses may not be used in more than one area.

Auditorium Building 1959
Option 2: Acting
The student will learn to demonstrate respect and appreciate plays and theatre as a collaborative art form; analyze and evaluate play scripts; apply skills and knowledge of theatre in preparation for transferability or vocation; demonstrate a basic knowledge of physical stage and dramatic text terminology; and interpret and implement verbal and written instructions. Program Learning Outcomes: Upon completion of this program, students will be able to apply skills and knowledge of theatre in preparation for transferability or vocation; analyze a play from script to performance; identify theatre terms and occupations; and identify theatre as a collaborative art form.

Required Courses: T ART 101, 103, 107, 109, 111, 129; Two units from: DANCE 125, 140, 145, 190; Four units from: T ART 123, 171, 180, 181, 182, 183, 184; Four units from: T ART 160, 161, 162, 163, 164; Three units from: ENGL 116, 125; HUMAN 117; MUSIC 135, 170; SPCH 101, 105, 106; T ART 102, 104, 121, 134, or 140.

Technical Theatre
As Degree or Certificate
This certificate provides training in basic technical theatre skills for career employment in production and performance within the theatre industry. Program Learning Outcomes: Upon completion of this program, students will apply skills and knowledge of theatre in preparation for transferability or vocation; be able to analyze a play from script to performance; be able to identify theatre terms and occupations; and will identify theatre as a collaborative art form.

Required Courses: T ARTS 101, 171, 173
Three (3) units from the following: T ARTS 100, 103, 172
Four (4) units from the following: T ARTS 180, 181, 182, 183, 184
Four (4) units from the following: T ARTS 121, 122, 123, 109, 110

Web Development
As Degree or Certificate
This certificate is designed for both the IT professional and the college student seeking a thorough preparation for the field of Web development. Course work includes Internet technologies, Web graphic design skills, programming and scripting for the Web. Program Learning Outcomes: Upon successful completion of this program, the student will be able to use industry standard tools and techniques to produce, publish and maintain Web sites and Web content. A major skill-building project spanning three semesters is included in the course work.

Required Courses: CS/IS 190, 255, 260, 261, 262, 263, 264, 265, 266, ART 250, 251, and 255.
CERTIFICATE PROGRAMS - NON-DEGREE

Certificate Programs are primarily business and technical programs for students desiring education beyond high school. These programs provide opportunities for students to prepare themselves for a wide variety of careers. In most cases these programs are planned without regard to transfer schools; however, many courses are transferable to four-year colleges or universities if students change their educational goals.

1. Certificates of Achievement shall be issued upon request by the Office of Admissions and Records to students who qualify by completing one of the occupation-centered curriculums. The student must have a grade of "C" or better in all courses constituting the certificate program.

2. To earn a certificate, students must complete the number of units required by the division. No certificate shall consist of less than 12 semester units.

3. At least 12 units of the required courses must be completed at Glendale Community College; therefore, to earn a certificate that requires 12 units, all courses must be completed at GCC.

4. Students pursuing certificate programs of less than 16 units are not eligible for financial aid.

AVIATION AND TRANSPORTATION – FLIGHT ATTENDANT

The Flight Service-Airline and Travel Careers program prepares men and women of all ages to compete for positions available as flight attendants in the airline and travel industry. As training progresses, students perform volunteer service at area airports to gain invaluable public personal contact experience. Students must complete all required courses to total 24 units. Program Learning Outcomes: Students will demonstrate skills required to seek and obtain employment as a flight attendant; identify and assess behavior patterns associated with panic; demonstrate knowledge of location and use of aircraft emergency equipment, and demonstrate skills required during emergency evacuation of aircraft.

REQUIRED COURSES: AT 129, 130, 132, 137, 138; HLTH 102; Choose 12 units from: AT 128; BUSAD 152; HTM 115; GEOG 101, 102; HUMAN 135, SOC 101, and SOC S 124.

CINEMATOGRAPHY AND EDITING

Program Learning Outcomes: Upon completion of this program, students will demonstrate an effective ability to work as a member of a team to achieve the challenges of technical and conceptual goals of the project from origination to the completion of the high quality final deliverable media productions; demonstrate mastery of conceptual editing techniques to support storytelling and solving story problems through the use of editing dialogue, sound design, music, and sound effects to complete the creation of the master for final deliverables; and demonstrate an understanding of composition, film language and lighting techniques to support the creative vision of the director.

REQUIRED COURSES: ENGL 112; MEDIA 103, 107, 110, 112, 213, 290; PHOTO 121.

A minimum of 3 units must be selected from the following: ART 210, 220; MEDIA 105; PHOTO 106, 130; T ART 100.

COMPUTER INFORMATION SYSTEMS

This program in Computer Information Systems (CIS) is designed to prepare students for employment in the IT workforce as entry-level Programmers, entry-level Database Programmers, Application Analysts, Programmer Analysts, Business Analysts, System Analysts, PC Support Specialists, Technical Support, User Support Specialists and etc. Students will demonstrate their proficiency through performance in laboratory exercises and objective examinations. The student will analyze simple business or technical problems relevant to programming, and prepare solutions to them; implement a program in either C/C++ or Java, using objects; and demonstrate an understanding of the operations and processes of a computer relevant to programming. To earn a certificate, students must complete the required core courses, and choose other courses from the additional courses listed to total 32 units. Program Learning Outcomes: Upon completion of this program, the student will analyze simple business or technical problems relevant to programming, and prepare solutions to them; implement a program in either C/C++ or Java, using objects; and demonstrate an understanding of the operations and processes of a computer relevant to programming.

REQUIRED COURSES: BUSAD 106 or ENGL 101, CS/IS 101, 112, 120 or 135, 172, 190, 191.

ADDITIONAL COURSES: BUSAD 110; CS/IS 120, 130, 135, 137, 139; 140, CS/IS 50 (3 units).

NOTE: Course taken more than 3 years before the granting of the certificate must have approval of the division chair for acceptance.
COMPUTER PROGRAMMER

Program Learning Outcomes: Upon completion of this program, the student will be able to analyze a programming task/problem; based on that analysis, design and implement an object oriented program using multiple classes in a high level language; and demonstrate the ability to independently create, save, modify and print a document using a word processing program and appropriate assistive technology.

Required Courses: CABOT 102; CS/IS 101, 112, 130, 135, 137, 139.

NOTE: Course taken more than 3 years before the granting of the certificate must have approval of the division chair for acceptance.

COMPUTER SUPPORT TECHNICIAN

Program Learning Outcomes: Upon completion of this program, the student will demonstrate an understanding of computer structure and operations. Students will possess a basic knowledge of computer operation and capabilities with the skills to troubleshoot problems or aid in user support.

Required Courses: CABOT 102, BUSAD 110; CS/IS 101, 112, 172, 190;

Recommended Preparation: CABOT 206 or 208.

NOTE: Course taken more than 3 years before the granting of the certificate must have approval of the division chair for acceptance.

COMPUTERIZED ACCOUNTING SPECIALIST

This certificate is designed to train students in the major computerized accounting packages in demand by local employers. Mastery of these types of programs will provide the foundation necessary for students to understand and adapt to other programs which may be utilized in small to mid-sized businesses. Program Learning Outcomes: Upon completion of this program, the student will be able to understand accounting terms and uses as they apply to business. Knowledge of financial statements and their importance to a business, vendors, creditors and customers; be able to utilize a windows operating system; understand basic computer terminologies; and become familiar with Global information systems; to be able to sign on to an account and use common utilities, including e-mail and Web browsers, and searching a variety of databases for information; set-up and process a company’s accounting information and Payroll System through the use of computers; and develop advanced skills in assorted accounting software.

Required Courses: ACCTG 110, 120, 121, 130, 180.

NOTE: Course taken more than 3 years before the granting of the certificate must have approval of the division chair for acceptance.

CSU — GENERAL EDUCATION

This certificate of completion will be awarded to a student who completes the general education requirements (totaling 39 units) as stated on page 85 of this catalog. After completing all requirements, students must request CSU Breadth certification to be posted to their official GCC transcript by submitting the Transcript Request form to the Admissions & Records Office.

For Program Learning Outcomes please see page 85 in the GCC catalog

DIGITAL CONTENT SPECIALIST

This program will provide the creative and technical skills to create, edit, optimize, and distribute digital content including web graphics, photographic images, and video. Completers will be able to develop, deploy, and manage web servers and optimize digital content for deployment on client side websites. The program will provide the employment skills required for Digital Content Creators, Digital Content Management while providing skills to support Photographers, Graphic Designers and Video Editors. Students must complete all required core courses for a total of 25 units. Program Learning Outcomes: Upon successful completion of the required coursework, the student will be able to design, create, and manage webpages using current software and technology; create an industry-ready motion graphic animation; produce, optimize, and distribute industry-ready image, video and audio content, for the Web and mobile devices; produce, optimize and distribute industry-ready images for the Web; create and manage a client-side Web site and server; create, modify, organize, and upload Web-specific files to a server; create databases and tables in SQL (Structured Query Language) database.

Required Courses ART 134, 220, 251; CS/IS 260, 261; MEDIA 103, 105; PHOTO 130.
FITNESS SPECIALIST

The Fitness Specialist Certificate is designed to prepare students with the knowledge, skills and abilities required to become Personal Trainers and/or Group Fitness Instructors. It is primarily geared toward preparing students to successfully obtain certifications from NASM, NSCA (for personal training) or ACE (for group fitness instruction), and to develop comprehensive knowledge of scientific evidence, tools and protocols specific to the fitness industry. Practical experience is integrated into curriculum for the development of skill mastery. Students are recommended to have basic knowledge of human biology, basic English writing and speaking skills, and the ability to perform moderate physical activity before beginning this program. Students must complete all required core courses for a total of 24.5-25.5 units. **Program Learning Outcomes:** Upon completion of this program students will demonstrate the knowledge, skills and abilities required for the NASM-CPT and NSCA-CPT exams; demonstrate the knowledge, skills and abilities required for the ACE-GFI exam; demonstrate understanding of the fundamental science of kinesiology and apply its principles to assess, design, implement and lead fitness programs for individuals and groups in a diverse population; and utilize universal risk management strategies.

**REQUIRED COURSES:** KIN 151, 155, 156, 157, 166 or 167 and PE 103; HLTH 102.

Two (2) units from the following: HLTH 128; BUSAD 158.

Two (2) units from the following: PE 110, 111, 180, 295; KIN 168 and PE 104; DANCE 101, 190, 194; PE 50

**RECOMMENDED PREPARATION:** BIOL 115

VERDUGO FIRE ACADEMY

**Program Learning Outcomes:** Upon completion of this program, students will be able to discuss the skills required for fire prevention techniques; discuss the aspects of fire behavior; discuss the skills required for fire-fighting tactics and strategy; and discuss the skills required for the use of equipment used in fire protection. The Verdugo Fire Academy is a State Board of Fire Services and California State Fire Marshall’s accredited Regional Fire Academy sponsored by Glendale College and the Glendale Fire Department. Students receive a variety of California State Fire Marshall’s certificates upon graduation from the Academy.

**REQUIRED COURSES:** FIRE 116, 117, 118, 119; EMT 139, 140.

VERDUGO RECRUIT ACADEMY

**Program Learning Outcomes:** Upon completion of this program, students will discuss the skills required for fire prevention techniques; discuss the aspects of fire behavior; discuss the skills required for fire-fighting tactics and strategy; and discuss the skills required for the use of equipment used in fire protection. The Verdugo Recruit Academy is for new hire firefighters from the Area C fire agencies. The Area C fire agencies include Glendale, Burbank, Pasadena and other foothill fire departments for a total of 11 cities participating. Recruits from these agencies receive uniform training to assure consistent application of fire fighting practices within the Area C dispatch communities.

**REQUIRED COURSES:** FIRE 120; EMT 139 and 140.

GRAPHIC DESIGN

This certificate is intended to prepare students to communicate ideas and information using current graphic design practices. Students learn that by creating effective visual communication they make information accessible and comprehensible and give visual order, identification, and meaning to the many ideas existing within society. This program is designed for the students’ entry into the profession in a variety of areas: salaried “in-house” graphic designer for an agency, printing house or design studio, part-time or hourly designer for firms specializing in graphic design areas, or free-lance graphic designer. Students must complete all required courses to total 30 units. **Program Learning Outcomes:** Upon completion of this program, the student will demonstrate continual development of curriculum incorporating the critical elements of Graphic Design; continual development of curriculum incorporating the industry standard technical elements of Graphic Design; and demonstrate articulation with surrounding 4 year institutions and with the local Graphic Design Community.

**REQUIRED COURSES:** ART 130, 133, 134, 135, 136, 137, 250, 251, 255; PHOTO 121.
Non-Degree Certificate Programs

HUMAN RESOURCES ASSISTANT
This certificate is designed for students who intend to seek employment in a Human Resources department in private industry or in a governmental agency (e.g. city, county, state, school district, etc.). This coursework will help to prepare students for entry-level positions with job titles such as HR Assistant, HR Clerk, HR Technician, etc. This coursework also helps prepare students for the Professional Human Resources Certification and Senior Professional Human Resources Certification examinations. Students must complete all required courses to total 20 units. Program Learning Outcomes: Upon completion of this program, students will learn to apply the principles and methods involved in the recruitment, selection and placement of employees with regard to affirmative action programs, training, experience and aptitudes. Students will be able to model techniques of effective customer and employee relations.

REQUIRED COURSES: BUSAD 110 or 203, 144; CABOT 265, 270, 285, 105 or BUSAD 106; BUSAD 50 (2 units) (Must be in a Human Resources office)

IGETC
This certificate of completion will be awarded to a student who completes the general education requirements as stated on page 85 of this catalog. After completing all requirements, students must request IGETC certification to be posted to their official GCC transcript by submitting the Transcript Request form to the Admissions & Records office.

For Program Learning Outcomes please see page 85 in the GCC catalog

INSURANCE PROFESSIONAL
This certificate is designed for students who already have a two-year or higher degree and/or have employment experience in an insurance office or an insurance-related business. This coursework will help prepare students for positions above entry-level, such as appraiser, agent, estimator, senior administrative assistant, broker, underwriter, and senior sales associate. Completion of this program will also help prepare students for insurance certifications. This program is approved by the Insurance Education Association (IEA). Students learn to describe elements of a contract, insurance contracts, and conditions commonly found in property and liability insurance policies. Program Learning Outcomes: Upon completion of this program, students will learn to discuss loss exposures, personal risk insurance, and types of personal insurance policies, as well as, define commercial insurance and commercial insurance policies.

REQUIRED COURSES: BUSAD 112, 113, 114, and 115.

Choose courses from the following list to complete 16-17 units: ACCTG 101; BUSAD 101, 106, 120; CABOT 270; CS/IS 100 or 101 or CABOT 260; CABOT 50*.

MEDICAL OFFICE
This curriculum is designed for students who are preparing for a position in offices of physicians, medical clinics, hospitals, and allied facilities. These students will acquire basic communication skills, learn specialized medical terminologies needed to complete appropriate forms in preparing, maintaining/filing, and charting medical records including insurance claims; use appropriate computer programs to key basic documents and navigate the Internet.

Upon completion of this program, the student will learn specialized medical (orthodontics/dentistry), terminologies needed to complete appropriate forms in preparing, maintaining/filing, and charting medical records including insurance claims and using the Internet. This certificate program is designed for students who are preparing for a position in the office of dentists, dental clinics, oral surgeons’ offices, orthodontist offices, and allied facilities.

REQUIRED COURSES: CABOT 102, 103, 104, 200, 50* (3 units) *(Must be in a dental office); CS/IS 19; MOA 187; Select one of the following CABOT 105 or 260 or CABOT 156 (medical).

MEDICAL BILLING AND CODING
Program Learning Outcomes: Upon completion of this program, the student will learn specialized medical terminologies needed to complete appropriate forms in preparing, maintaining/filing, and charting medical records including insurance claims. The student will learn to use appropriate computer programs to create needed documents/correspondence in performing medical billing and coding, including using the Internet. This certificate is designed for students who are preparing for a position as a medical biller/coder and will work in a physician's office, a medical clinic, a hospital, or a billing agency.

REQUIRED COURSES (18 units): MOA 181 or 182, 183; CABOT 102, 208, 205, 50* (2-3 units). *(Must be in a medical office or medical facility.)
RECEPTIONIST/OFFICE CLERK

This program is designed to train students to meet the needs for qualified office receptionists and clerks with emerging skills in office procedures including answering phones, document processing and filing, and document creation. Program completers are familiar with basic computer terminology and basic email functions, web browsers, and databases. Students must complete all required core courses for a total of 18 units.

Program Learning Outcomes: Upon completion of this program, the student will be able to use a variety of office procedures to perform such tasks as sorting mail, answering telephones, and filing and processing documents using the latest computer technologies; be able to identify the personal traits that lead to effective human relation skills in business and develop skills to work more effectively with customers and other employees in a business environment; be able to type by touch at a minimum of twenty-five (25) words a minute to produce cohesive, grammatically correct sentences, to create, edit, and format basic business letters, business reports, academic reports, memorandum, envelopes and labels; be able to identify the standard elements on the Windows 7 desktop and demonstrate basic mouse operations; to understand basic computer terminologies; and become familiar with Global information systems to be able to sign on to an account and use common utilities, including e-mail and Web browsers, and searching a variety of databases for information.

Required Courses: CABOT 101, 102, 103, 104, 110, 205* and 208; CS/IS 191.

TAX PREPARER

This certificate is designed to train students in the preparation of Federal and California state income tax returns. Students will develop a working knowledge of Federal and State Income tax law as it applies to individuals.

Program Learning Outcomes: Upon completion of this program, students will be able to demonstrate ability to read and understand the contents of a corporation’s annual report; develop a working knowledge of Federal and State Income tax law as it applies to individuals; and be able to prepare an individual tax return. The student must complete all CORE courses totaling 17-18 units.

Required Courses: ACCTG 101 or 110, 150, 155, 130, 156, 160.

NOTE: Courses taken more than 3 years before the granting of the certificate must have division chair approval.

UNIX/LINUX SYSTEM ADMINISTRATOR

Upon successful completion of this certificate program, the student will be able to install, configure and maintain an industry standard computer with the Unix/Linux operating system that is connected to the Internet.

Required Courses: CS/IS 172, 174, 190.

Additional Course (select one or more): CS/IS 112, 135, 151, 193, 196, 197.

*This certificate does not satisfy the major requirements for the AS degree.
ASSOCIATE DEGREES FOR TRANSFER
AA-T/AS-T

California Community Colleges are now offering associate degrees for transfer to the CSU. These may include Associate in Arts (AA-T) or Associate in Science (AS-T) degrees. These degrees are designed to provide a clear pathway to a CSU major and baccalaureate degree. California Community College students who are awarded an AA-T or AS-T degree are guaranteed admission with junior standing somewhere in the CSU system and given priority admission consideration to their local CSU campus or to a program that is deemed similar to their community college major. However, this degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system.

Students who have been awarded an AA-T or AS-T degree are able to complete their remaining requirements for the baccalaureate degree within 60 semester or 90 quarter units. Current and prospective community college students are encouraged to meet with a counselor to review their options for transfer and to develop an educational plan that best meets their goals and needs.

The following is required for all AA-T or AS-T degrees:
1. Minimum of 60 CSU-transferable semester units.
2. Minimum grade point average (GPA) of at least 2.0 in all CSU-transferable coursework. While a minimum of 2.0 is required for admission, some majors may require a higher GPA. Please consult with a counselor for more information.
3. Students must complete all CSU General Education-Breadth (CSU GE Breadth) or the Intersegmental General Education Transfer Curriculum (IGETC) requirements with a grade of “C” or better. The Pass/No Pass grading option is not appropriate for the CSU “Golden Four” requirements (CSU Breadth areas A1, A2, A3, and B4 or IGETC areas 1A, 1B, 1C, and 2).
4. Certified completion of the CSU GE Breadth or IGETC patterns.
5. Completion of a minimum of 18 semester units in an AA-T or AS-T major. All courses in the major must be completed with a grade of C or better or a “P” if the course is taken on a “Pass-No Pass” basis (title 5 § 55063).

*Units for major may be double-counted for CSUGE or IGETC

**Elective units to reach 60 unit total must be CSU transferable

CSUGE (40 units) or IGETC (37-39 units)

Total Units Required for Degree (60 units)

Planning to Transfer?

ASSIST is a computerized student-transfer information system that can be accessed over the World Wide Web. It displays reports of how course credits earned at one public California college or university can be applied when transferred to another. ASSIST is the official repository of articulation for California’s public colleges and universities and provides the most accurate and up-to-date information available about student transfer in California.

www.assist.org

Your official source for California articulation and student transfer information.
AA-T — ART HISTORY

The AA-T in Art History is designed to prepare the student for transfer to four-year institutions of higher education and is specifically intended to satisfy lower-division requirements for a baccalaureate degree in Art History at a California State University. The knowledge and skills offered in this degree lead students to develop foundational knowledge in the field of administration of Justice including topics and issues related to global, national, and local aspects within this field of study. Program Learning Outcomes: Upon completion of this program, students will demonstrate an understanding of the major components and function of the criminal justice system in America; demonstrate knowledge of criminal laws in California, and define ethics in law enforcement and the consequences of unethical behavior.

Required Core: ADMJ 101 and 103 (6 units)
List A: Select two courses (6 units) ADMJ 116, 118, 120
List B: Select two courses (6 units) Any course from List A not used above; MATH 136; PSYCH 101; SOC 101.
Required Units for Major: 18-19 units*

AA-T — ADMINISTRATION OF JUSTICE

The AS-T in Administration of Justice is designed to prepare the student for transfer to a four-year institution of higher education and is specifically intended to satisfy lower-division requirements for a baccalaureate degree in Administration of Justice at a California State University. The knowledge and skills offered in this degree lead students to develop foundational knowledge in the field of administration of Justice including topics and issues related to global, national, and local aspects within this field of study. Program Learning Outcomes: Upon completion of the program, students will demonstrate an understanding of the major components and function of the criminal justice system in America; demonstrate knowledge of criminal laws in California, and define ethics in law enforcement and the consequences of unethical behavior.

Required Core: (9 units) ART 101, 102, and 150
List A: Select one course (3 units) ART 108, 109, 112, 115, 116
List B: Select one course (3 units) ART 130, 138, 152, 180, 186, 220; PHOTO 101
List C: Select one course (3 units) Any List A or B course not already used; ART 103, 104, 105, 107, 111
Required Units for Major: 18-19 units*

AA-T — ANTHROPOLOGY

The AA-T in Anthropology is designed to prepare the student for transfer to four-year institutions of higher education and is specifically intended to satisfy lower-division requirements for a baccalaureate degree in Anthropology at a California State University. The knowledge and skills offered in this degree lead students to develop foundational knowledge in the field of anthropology including those topics and issues related to global, national, and local aspects of the field of study. Program Learning Outcomes: Upon completion of this program, students will be able to analyze and describe how culture acts as our primary adaptive response.

Required Core: (9 units) ANTH 101 and 111, 102, 103
List A: Select one course (3 units) ANTH 104, 105
List B: Select one to two courses (3-5 units) Any course from List A not used above; BIOL 101, 102, 120, 123; GEOG 101, 111; GEOL 101, 102, 111, 112; SOC S 200,
List C: Select one course (3 units) Any course from List A or B not used above; ETH S 101, 125; GEOG 103; HIST 133, 140; HUMAN 115; PHILO 113, 114.
Required Units for Major: 19.5-21 units*
AS-T — BUSINESS ADMINISTRATION

The AS-T in Business Administration is designed to provide students with the common core of lower division courses required to transfer and pursue a baccalaureate degree in Business Administration. This includes business degrees with options such as accounting, finance, human resources management, international business, management, operations management, and marketing. The AS-T in Business Administration degree aligns with the CSU Bachelor of Science in Business Administration.

Program Learning Outcomes: Upon completion of this program, students will be able to recognize, analyze, and assess current economic challenges facing global and domestic businesses; analyze, evaluate, and explain business problems using basic concepts and terminology of accounting and finance; and understand and apply the four P’s of marketing, business law, investments, and management. Students must complete the IGETC certification for this degree.

Required Core: (19 units) ACCTG 101, 102; BUSAD 120; ECON 101, 102
List A: MATH 136
List B: Select two courses (8 units) CS/IS 101; BUSAD 101 or 106.

Required Units for Major: 30-32 units*

AA-T — COMMUNICATION STUDIES

The AA-T in Communication Studies is designed to prepare the student for transfer to four-year institutions of higher education and specifically intended to satisfy lower-division requirements for the Baccalaureate Degree in Communication Studies at a California State University. The knowledge and skills offered in this degree help our students build satisfying and productive relationships in their careers as well as in their personal and civic lives. Program Learning Outcomes: Upon completion of this program, students will be able to demonstrate oral and written communication skills to produce effective speeches; demonstrate increased appreciation of the speech communication process, and demonstrate the ability to apply critical thinking skills in the areas of speaking and listening.

Required Core: SPCH 101
List A: Select two courses (6 units) SPCH 100, 103, or 104
List B: Select two courses (6 units) Any course from list A not used above; JOURN/MCOMM 101; SPCH 106, 107, 108, 191+, 192+, 193+;
List C: Select one course (3 units) Any course from List A or B not used above; ENGL 102 or 102H, 104; JOURN 102; PSYCH 101 or 101H; SOC 101.

Required Units for Major: 18*  
+A maximum of three units combined may be applied to the major

AS-T — EARLY CHILDHOOD EDUCATION

The AS-T in Early Childhood Education is designed to prepare the student for transfer to a four-year institution of higher education and is specifically intended to satisfy lower-division requirements for a baccalaureate degree in Child Development at a California State University. The knowledge and skills offered in this degree lead students to develop foundational knowledge in the field of Child Development including those topics and issues related to global, national, and local aspects of the field of study. Program Learning Outcomes: Upon completion of this program, students will be able to promote Child Development by developing an understanding of young children and their needs, as well as, the multiple interacting influences on children’s development and learning in order to create healthy, respectful supportive and challenging environments for all children; build family and community relationships; observe, document and assess child development and learning to support young children and families; plan, implement and evaluate developmentally appropriate, culturally and linguistically relevant experiences that promote and/or support development and learning for all children; and identify and conduct themselves as members of the early childhood profession, using ethical guidelines and other professional standards related to early childhood best practices.

Required Core: (24 units) CHLDV 133, 135, 138, 140, 141*, 142, 156, 180*, 181*, 182* (*141 must be taken concurrently with 180, 181, or 182)

Required Units for Major: 24 units*

AA-T — ENGLISH

The AA-T in English is designed to prepare the student for transfer to four-year institutions of higher education and is specifically intended to satisfy lower-division requirements for a baccalaureate degree in English at a California State University. Program Learning Outcomes: The knowledge and skills offered in this degree lead students to develop foundational knowledge in grammar, composition, literary analysis, and logical argumentation in the field of English. These skills provide tools for inquiry into local, national, and global topics within the discipline.

Required Core: (6 units) ENGL 102, 104
List A: Select two courses (6 units) ENGL 105, 106, 109, 110, 122, 123
List B: Select one course (3 units) Any course from List A not already used; ENGL 103, 114, 115, 116, 125
List C: Select one (3 units) Any course from List A or B not already used; ENGL 111, 117, 127, 222; HUM 115; LING 101; T ART 101; SPAN 124H.

Required Units for Major: 18*
**AA-T — GEOGRAPHY**

The AA-T in Geography is designed to prepare the student for transfer to four-year institutions of higher education and is specifically intended to satisfy lower-division requirements for a baccalaureate degree in geography at a California State University. The knowledge and skills offered in this degree lead students to develop foundational knowledge in the field of geography including those topics and issues related to global, national, and local aspects of the field of study.

**Required Core:** GEOG 101, 102, 111

**List A:** Select two courses (6-9 units) GEOG 103, 107, 110;

**List B:** Select two courses (6 units) Any course from List A not already used; ANTH 102; GEOG 106; GEOL 101.

**Required Units for Major:** 19-22 units*

**AA-T — HISTORY**

The AA-T in History is designed to prepare the student for transfer to four-year institutions of higher education and is specifically intended to satisfy the lower-division requirements for the Baccalaureate Degree in History at a California State University. The knowledge and skills offered in this degree lead students to develop foundational knowledge in the field of history including those topics and issues related to global, national, and local aspects of the field of study. **Program Learning Outcomes:** Upon completion of this program, students will engage in wide reading, deep thinking, and clear communication about the vast record of human experience. Students will learn how to discover facts, weigh interpretations, and draw conclusions in order to comprehend the present, envision alternative scenarios, and identify with generations to come.

**Required Core:** (6 units) HIST 117, 118

**List A:** (6 units) HIST 101 or 140, 102 or 141

**List B:** Select one course from each area

- **Area 1:** (3 units) ANTHR 102; ART 118; HIST 103, 104, 105, 111, 113, 114, 115, 119, 120, 121, 131, 132; ETH S 101, 102, 110, 120, 121, 123, 124, 125, 132, 164; GEOG 102, 103, 105; POL S 110; ENGL 111, 124; SPAN 102

- **Area 2:** (3 units) Any history course from area 1 not already used; ART 113; ENGL 111, 124; HIST 132, 136, 152; PHIL 113, 114, 118, 121; POL S 101, 110, 110H, 111; SOC S 101, 134; SPCH 108.

**Required Units for Major:** 18-20 units*

**AA-T — JOURNALISM**

The AA-T in Journalism is designed to prepare the student for transfer to four-year institutions of higher education and is specifically intended to satisfy the lower-division requirements for a baccalaureate degree in Journalism at a California State University. **Program Learning Outcomes:** Upon completion of this program, the student will have the skills necessary to recognize and produce well-written news and feature articles; the ability to visually present news material (articles and pictures) in an appealing way; and demonstrate knowledge of what is newsworthy.

**Required Core:** (9 units) JOURN 102, 103; MCOMM 101

**List A:** Select one (3 units) JOURN 104, 110, 250

**List B:** Select two courses (6 units) ENGL 104; PHOTO 101; POL S 101

**Required Units for Major:** 18-19 units*

**AA-T — KINESIOLOGY**

The AA-T in Kinesiology is designed to provide a fundamental understanding of principles and theories related to human movement, anatomy, physiology, mechanics and motor learning. The completion of the required coursework will satisfy lower division kinesiology requirements needed to transfer to most four year institutions. This degree is intended for students who are interested in pursuing a variety of majors in the Kinesiology field. **Program Learning Outcomes:** Upon completion of this program, the student will have the skills necessary to be successful in upper division courses at the university. The student will be able to demonstrate critical thinking skills necessary to understand and analyze knowledge specific to kinesiology; exhibit knowledge of the skeletal and neuromuscular structures of the human body; demonstrate oral and written communication that meets appropriate professional and scientific standards in kinesiology; perform basic motor skills and apply a variety of concepts, theories, and methods common to kinesiology to bridge the gap between theory and practice; and apply and access universal risk management tools used to promote safe practices in physical activity.

**Required Core:** KIN 100/PE 120; BIOL 120 and 121;

Select one course from any of the following Movement Based Course areas for a minimum of three (3) units:

- Combative: PE 131, 217, or 227
- Fitness: PE 102, 164, 180, 194
- Individual Sports: PE 140, 202, 261
- Team Sports: PE 150, 200, 274

**List A:** Select two courses (6 units minimum)

CHEM 101 or 120; HLTH 102; MATH 136; PHYSICS 105

**Required Units for Major:** 22-24 units*
AS-T — MATHEMATICS

The AS-T in Mathematics provides students with the mathematical concepts and skills to attain upper division status in mathematics at most four-year colleges and universities. This coursework will satisfy the lower division mathematics requirements at the California State University. Successful completion of the transfer degree in Mathematics guarantees the student acceptance to the California State University. Students also have the mathematical preparation to transfer to baccalaureate programs in Mathematics, Physics, Engineering, or Computer Science. Students must complete all core courses and choose other courses from the additional courses listed to a total of 23-25 units. Program Learning Outcomes: Upon completion of this program, students will be able to solve applications in math and science using derivatives, integrals, differential equations and linear algebra; evaluate limits, derivatives and integrals; solve a variety of rudimentary and second order differential equations; and analyze, synthesize and evaluate theorems in Linear Algebra.

Required Core: (14 units) MATH 103 or 103H, 104 or 104H, and 105 or 105H;
List A: Select one course (4 units) MATH 107, 107H, 108, 108H;
List B: Select one course from the following: Any course from List A not used above; CS/IS 112, 135, 139; MATH 136;
PHYSICS 101, 101H.

Required Units for Major: 21-23 units*

AA-T MUSIC

The AA-T Music designed to prepare the student for transfer to four year institutions of higher education and is specifically intended to satisfy lower-division requirements for a baccalaureate degree in music at a California State University. The knowledge and skills offered in this degree lead students to develop foundational knowledge in the field of music including those topics and issues related to global, national, and local aspects of the field of study.

Program Learning Outcomes: Upon completion of this program, students will be able to identify major topics, developments, debates, and issues in music, students will be able to apply their knowledge of key concepts in music to discuss, analyze, and synthesize a variety of theoretical and practical foci in music. Students will be able to gain a global, national, and local perspective on issues pertaining to music preparing them for multiple pathways for future study and career opportunities

Required Core: MUSIC 201, 202, 203, 204, 211, 212, 213, 214;
Required two units: MUSIC 140;
Select four courses (4 units) MUSIC 143, 146, 147, 230, 231, 240, 241, 242.

Required Units for Major: 22 units*

AA-T — PHILOSOPHY

The AA-T in Philosophy is designed to prepare the student for transfer to four-year institutions of higher education and is specifically intended to satisfy the lower division requirements for the Baccalaureate Degree in Philosophy at a California State University. The knowledge and skills offered in this degree lead students to develop foundational knowledge in the field of philosophy including those topics and issues related to global, national, and local aspects of the field of study.

Program Learning Outcomes: Upon completion of this program, students will be able to identify and evaluate arguments. Students will be able to recognize the importance of reasoning in seeking truth. Students will be able to articulate and distinguish competing theories and perspectives.

Required Core: Select two courses (6 units) PHILO 117 or 123; PHILO 101 or 116
List A: Select one course (3 units) PHILO 119, 120;
List B: Select two courses (6 units) Any course from List A not used above; HIST 101, 102; PHILO 113 or 114 or 121; PHILO 112 or 118
List C: Select one course (3 units) Any course from List A or B not used above: HUMAN 105, 106, 110, 111, 115, 117, 125, 130; PHILO 112 or 118 (if not used above)

Required Units for Major: 18-20 units*

AS-T — PHYSICS

The AS-T in Physics provides a foundation in physics and mathematics for students planning to transfer into a baccalaureate program in physics or physics education. Successful completion of the transfer degree in Physics guarantees the student acceptance to a California State University to pursue a baccalaureate degree in Physics or a related Field.

Program Learning Outcomes: Upon completion of this program, students will be able to apply appropriate physical laws and mathematical techniques to analyze various physical situations. Students will be able to perform various scientific experiments and to analyze data to check agreement with theoretical predictions.

Required Core: PHY 101, 102, 103; MATH 103, 104, 105.

Required Units for Major: 28 units*
AA-T — POLITICAL SCIENCE

The AA-T in Political Science is designed to prepare the student for transfer to four-year institutions of higher education and is specifically intended to satisfy the lower division requirements for the Baccalaureate Degree in Political Science at a California State University. The knowledge and skills offered in this degree lead students to develop foundational knowledge in the field of political science including those topics and issues related to global, national, and local aspects of the field of study. **Program Learning Outcomes:** Upon completion of this program, students will be able to critically analyze and evaluate political institutions and processes in their state, national and international environments.

**Required Core:** (3 units) POL S 101 (POLS 106 is also required if POLS 101 is completed prior to Spring 2014)

- List A: Select three courses (9 units) MATH 136; POL S 102, 103, 104
- List B: Select two courses (6 units) ANTHR 102; ETH S 102, 120, 121, 123, 132; GEOG 102; HIST 104, 117, 118; MCOMM 101; POL S 108, 110, 111; SOC 102.

**Required Units for Major:** 18-19 units*

---

AA-T — PSYCHOLOGY

The AA-T in Psychology is designed to prepare the student for transfer to four-year institutions of higher education and is specifically intended to satisfy lower-division requirements for a baccalaureate degree in Spanish at a California State University. The knowledge and skills offered in this degree lead students to develop foundational knowledge in the field of Spanish including grammar, composition, oral expression, and literary analysis in the field of Spanish. These skills also provide tools for inquiry into local, national, and global topics within the discipline. This degree is extremely relevant due to the high percentage of Speakers that live in California. **Program Learning Outcomes:** Upon completion of this program, students will be able to demonstrate reading and listening comprehension skills, and oral and written communicative skills in Spanish. Students will be able to demonstrate a broad knowledge of the cultures of the Spanish speaking world and the history and/or literature of Spanish speaking countries as a foundation for upper-division courses in Spanish.

**Required Core:** MATH 136; PSYCH 101 or 101H; SOC S 200

- List A: Select one course BIOL 115, 122; PSYCH 103
- List B: (3 units) Any course from List A not already used; PSYCH 104
- List C: (3 units) Any course from List A or B not already used; ANTHR 102; BIOL 120; CHEM 101, 102; ENGL 102, 104; PSYCH 105, 106, 110, 111, 113, 115, 131, 203; SOC 101.

**Required Units for Major:** 19.5-20.5 units*

---

AA-T — SOCIOLOGY

The AA-T in Sociology is designed to prepare the student for transfer to four-year institutions of higher education and specifically intended to satisfy the lower division requirements for the Baccalaureate Degree in Sociology at a California State University. The major has been designed to meet lower-division requirements for Sociology majors at most transfer institutions. **Program Learning Outcomes:** Upon completion of this program, students will be able to critically analyze and evaluate social phenomena, which involve social institutions and processes, within various contexts from the local to the global.

**Required Core:** SOC 101

- List A: SOC 102, MATH 136
- List B: Select two courses (6 units) ETH S 121; PSYCH 104, PSYCH/SOC 131; SOC 104;
- List C: Select one course (3 units) Any course from List B not used above; PSYCH 101 or 101H; SOC 105 or 140.

**Required Units for Major:** 18-19 units*

---

AA-T — SPANISH

The AA-T in Spanish is designed to prepare the student for transfer to four-year institutions of higher education and is specifically intended to satisfy lower-division requirements for a baccalaureate degree in Spanish at a California State University. The knowledge and skills offered in this degree lead students to develop foundational knowledge in the field of Spanish including grammar, composition, oral expression, and literary analysis in the field of Spanish. These skills also provide tools for inquiry into local, national, and global topics within the discipline. This degree is extremely relevant due to the high percentage of Speakers that live in California. **Program Learning Outcomes:** Upon completion of this program, students will be able to demonstrate reading and listening comprehension skills, and oral and written communicative skills in Spanish. Students will be able to demonstrate a broad knowledge of the cultures of the Spanish speaking world and the history and/or literature of Spanish speaking countries as a foundation for upper-division courses in Spanish.

**Required Core:** SPAN 101, 102, 103 or 115, 104

- List A: Select one course (3 units) HIST 103, 104; SPAN 125, 126.

**Required Units for Major:** 23 units*
AA-T - STUDIO ARTS

The AA-T in Studio Arts prepares students for transfer to four year institutions and satisfies lower division requirements for a baccalaureate degree in Studio Art at California State University. Studio Arts AA-T degree recipients will demonstrate skill in a range of two dimensional and/or three dimensional media, complete a portfolio of original artworks, and apply knowledge of art history, contemporary art, and public culture to a critical understanding of art-making in society. Program Learning Outcomes: Upon completion of this program, students will be able to demonstrate intermediate mastery in a range of 2D/3D visual media; employ basic concepts in 2D design and drawing, or 3D design and drawing-for-sculpture; create portfolio-ready, original artworks; and discuss and apply visual concepts and aesthetics from art history, contemporary art, and popular culture.

Required Core: (12 units) ART 102, 130, 138, 150
List A: Select one (3 units) ART 101, 109, 116
List B: Select three (9 units) ART 144, 151 or 152, 160, 170, 180, 186, 220; PHOTO 101

Required Units for Major: 24-25 units*

AA-T — THEATRE ARTS

The AA-T in Theatre Arts is designed to prepare the student for transfer to four-year institutions of higher education and is specifically intended to satisfy the lower division requirements for the Baccalaureate Degree in Theatre Arts at a California State University. The knowledge and skills offered in this degree lead students to develop foundational knowledge in the field of Theatre Arts including those topics and issues related to global, national, and local aspects of the field of study. Students have a variety of courses in the fundamentals of theatre including areas for dramatic criticism, theory, performance, technical stage, and preparation in all aspects of theatre arts production. Program Learning Outcomes: Upon completion of this program, students will be able to identify major topics, ideas, debates and issues in theater arts. Students will be able to apply their knowledge of key concepts in theatre arts to discuss, analyze, and synthesize a variety of theoretical and practical foci within the discipline. Students will be able to gain a global, national, and local perspective on issues pertaining to the theatre arts preparing them for multiple pathways for future study and career opportunities.

Required Core: (9 units) T ART 101 or 102, 103, 160, 161, 162, 163, 164, 180, 181, 182, 183, 184
*If not used in Required Core.

Required Units for Major: 18-19 units*
Early picture of the Science and Administration Building. The Science building became the Camino Real Building.
GENERAL EDUCATION REQUIREMENTS
FOR GRADUATION FROM COLLEGES
AND UNIVERSITIES

It is important for students who plan to transfer to a four-
year college or university at the close of their community
college studies to decide early which college they will enter.
Having decided this, they should plan their program in
accordance with the requirements of that institution.

Transfer courses are designed to parallel lower-division
offerings at four-year colleges and universities. Through
the transfer curriculum, GCC students may complete
freshman and sophomore requirements and transfer to
the university with junior or upper division status. With
careful planning, students may also complete graduation
requirements for the Associate in Arts /Science, or AA-T/
AS-T degree at the same time that they are completing the
Baccalaureate degree requirements.

A student may transfer a maximum of 70 units from a
community college to campuses of either the University
of California or the California State University systems.
It is advised (and at some schools required) that students
transfer with at least 60 transferable units to ensure that
they are admitted to the four-year institution with junior
or upper division status.

The following pages list the General Education requirements
for some of the four-year colleges and universities in this
area. Requirements for additional colleges and universities
are available from your counselor or the Transfer Center.

Agreements concerning transferability are constantly
being updated, therefore the student is cautioned to check
with a counselor or the Transfer Center for exact transfer
information. Some University of California (UC) transfer
credit may be limited; consult a counselor or the Transfer
Center for additional information.

CSU BREADTH & IGETC GENERAL EDUCATION
REQUIREMENTS FOR CERTIFICATION

Listed below are the Program Learning Outcomes (PLOs) for the
general education requirements for certification to the California
State University and/or the University of California. GCC offers
certification through CSU or IGETC as a certificate program, as
well as part of the AA-T and AS-T degree requirements. After
completion of all requirements.

Mathematical Competency: Students will be able to understand,
interpret, and manipulate numeric or symbolic information.

Information Competency: Students will be able to recognize the
need for information and define a research topic.

Critical Thinking: Students will be able to evaluate the credibility
and significance of information, effectively interpret, analyze,
synthesize, explain and infer concepts and ideas; solve problems
and make decisions; and construct and deconstruct arguments.

Global Awareness: Students will be able to recognize and analyze
the interconnectedness of global, national, and local concerns,
analyzing cultural, political, social and environmental issues
from multiple perspectives; they recognize the interdependence
of the global environment and humanity.

Personal Responsibility: Students will be able to demonstrate an
understanding of the consequences, both positive and negative,
of their own actions; set personal, academic, and career goals; and
seek and utilize the appropriate resources to reach such goals.

In order for students to show completion of their general education
requirements, upon completion of all requirements, students
must request CSU Breadth or IGETC certification be posted
to their official GCC transcript by completing the Transcript
Request Form, checking the appropriate box (CSU or IGETC),
and submitting it to the Admissions & Records Office.
GENERAL EDUCATION REQUIREMENTS
This list of courses from which 39 units must be selected for certification has been submitted to the California State University and is effective for students entering GCC for the summer 1987 and thereafter.

All courses completed Fall, 1993 and thereafter must be completed with grades of “C” or better.

History and Constitution Requirement
All students seeking a baccalaureate degree are required by California law to demonstrate competence in the Constitution of the United States, American History, and the principles of state and local government. This CSU graduation requirement may be completed prior to transfer. In accordance with Ex. Order 405 the following requirements are satisfied as indicated:

**American History:** ECON 111; HIST 110, 111, 116, 117, 118

**American Institutions:** POL S 101

(POL S 101 completed in Spring 2014 or after satisfies both American Institutions and State and Local Government)

**State and Local Government:** POL S 106

Breadth Requirement
Breadth Requirement courses which the president of GCC or the designated officer will certify as meeting the intent expressed in Executive Order No. 595 are listed below. Students will complete a minimum of thirty-nine (39) units from this list. No more than thirty (30) units may be certified in Areas B-D inclusive.

A. COMMUNICATION, ENGLISH LANGUAGE, AND CRITICAL THINKING (9 units)

A1 - SPCH 101; BUSAD 152

A2 - ENGL 101, 101H, 194

A3 - ENGL 102, 102H, 104; HUMAN 105, 105H*, 110; PHIL 117, 123; SPCH 100, 103, 104

B. SCIENTIFIC INQUIRY AND QUANTITATIVE REASONING (9 units)

Select one course from each of the following: Physical Sciences, Biological Sciences and Mathematics. One Science course (either Physical or Biological) must include a lab activity.

B1 - PHYSICAL SCIENCE:
ASTRO 102, 103, 110, 120
CHEM 101, 102, 105, 106, 110, 120, 121
GEOG 101, 107, 111
GEOL 101, 101H, 102, 103, 104, 105, 111, 111H, 112, 120
OCEAN 115, 116
PHYS SCI 131
PHY 101, 101H, 102, 103, 105, 106, 110
Lab courses are underlined (B3).

B2 - BIOLOGICAL SCIENCE:
ANTHR 101, 111
BIOL 101, 102, 103, 112, 114, 115, 120, 121, 122, 123, 125, 125H, 126
PSYCH 103, 203
Lab courses are underlined (B3).

B4 - MATHEMATICS:

C. ARTS AND HUMANITIES (9 units)
9 semester units with at least one course each in Arts and Humanities.

C1 - ARTS:
DANCE 100, 102
ENGL 103
HUMAN 117*, 120*
MUSIC 101, 102, 121, 122, 125, 126, 127, 128, 202, 203, 211, 212
T ART 101, 102

C2 - HUMANITIES:
ARMEN 101, 102, 103, 104, 115, 116, 117, 125, 126, 127, CHIN 101, 102
ECON 111* (Same as HIST 116)
ENGL 105, 106, 109, 110, 111, 116, 117, 122, 123, 125, 127, 128
FREN 101, 102, 103, 104
HIST 101%, 104%, 111, 116* (Same as ECON 111), 117, 118*, 119%*, 120%*, 131%*, 136*, 140%, 152%
HUMAN 105H*, 106, 111, 115, 117*, 120*, 125, 130
ITAL 101, 102, 103, 104
JAPAN 101, 102, 103, 104
KOREA 101, 102
PHIL 101, 112, 113, 114, 116, 118, 119, 120, 121, 122
SPAN 101, 102, 103, 104, 115, 116, 124H, 125, 126
SPCH 106
T ART 107

*May be used in only one (1) area.
% If completed Fall 2013 or after

D. SOCIAL, POLITICAL AND ECONOMIC INSTITUTIONS (9 units)
Courses must be selected from at least two disciplines.

ANTHR 102, 102H, 103, 104, 105, 150
ECON 101, 102, 102H, 105, 111 (same as HIST 116)
ETH S 101, 102, 110, 111, 120, 121, 122, 123, 124, 125, 132, 164
GEOG 102, 103, 106, 110
HIST 101*, 102, 103, 104*, 105, 106, 113, 115*, 118*, 119*, 120*, 121, 122, 131*, 132, 133, 135, 136*, 140%, 141%, 152*
INTERDIS 110
JOURN 101
LING 101
MCOMM 101
POL S 101, 102, 103, 104%, 108, 110, 111
PSYCH 101, 101H, 104, 115, 131%
SOC S 101, 105, 110, 127,
SOC 101, 102, 103, 131%, 140
SPCH 108

*May be used in only one (1) area.
% If completed Fall 2013 or after

E. LIFELONG UNDERSTANDING AND SELF-DEVELOPMENT (3 units)

CHLDV 135
ATHPE, DANCE, KIN, PE (all activity courses) (1 unit only)
HLTH 102, 104, 106
KIN 100
NUTR 125
PSYCH 105, 106, 110, 111, 113, 131* (Same as SOC 131)
SOC S 134
SOC 104, 105, 131* (Same as PSYCH 131)
ST DV 125%, 145

*May be used in only one (1) area.
% If completed Fall 2013 or after
The Intersegmental General Education Transfer Curriculum (IGETC) will permit a student to transfer from a community college to a campus in either the California State University or University of California system without the need, after transfer, to take additional lower-division, general education courses to satisfy campus general education requirements.

Completion of the IGETC is not a requirement for transfer to a CSU or UC, nor is it the only way to fulfill the lower division, general education requirements of the CSU or UC prior to transfer. Students may find it advantageous to take courses fulfilling CSU’s general education requirements or those of a particular UC campus.

The course requirements for all areas must be completed before the IGETC can be certified. All courses must be completed with grades of “C” or better.

AREA 1 — ENGLISH COMMUNICATION
CSU - 3 courses, one from each group below.
UC - 2 courses, one from group A and B.

GROUP A: ENGLISH COMPOSITION (1 course, 3 semester units)
ENGL 101+, 101H+

GROUP B: CRITICAL THINKING—ENGLISH COMPOSITION (1 course, 3 semester units)
ENGL 102+, 102H+, 104

GROUP C: ORAL COMMUNICATION (CSU ONLY) (1 course, 3 semester units)
SPCH 101

AREA 2 — MATHEMATICAL CONCEPTS AND QUANTITATIVE REASONING (1 course, 3 semester units)

AREA 3 — ARTS AND HUMANITIES (3 courses, 9 semester units)
At least 1 course from Arts and 1 from Humanities.

(Area 3A) ARTS COURSES: (2 courses, 6 semester units)
DANCE 100, 102
MUSIC 101, 120, 121, 122, 125+, 126, 127, 211†
T ART 101, 102, 107

(Area 3B) HUMANITIES COURSES: (1 course, 3 semester units)
ARMEN 101+, 103, 104, 116+, 117, 125, 126, 127
CHIN 102†
ECON 111* (same as HIST 116)
ENGL 105, 106, 109, 110, 111, 116, 117, 122, 123, 125, 128
FREN 102, 103, 104
HIST 101+, 102+, 103+, 104, 105, 106, 111, 113, 115
116* (same as ECON 111), 117+, 118+, 119, 120, 121, 131†, 132, 133, 136*, 140, 151, 152†
HUMAN 105+, 105H+, 106, 110, 111, 115, 117, 120, 125
ITAL 102, 103
JAPAN 102, 103, 104
KOREA 102
PHIL 101, 113, 114, 116, 118, 119, 120, 121
SPAN 102+, 103, 104, 124H, 125, 126

AREA 4 — SOCIAL AND BEHAVIORAL SCIENCES (3 courses, 9 semester units)
Courses from at least two disciplines or an interdisciplinary sequence.
ANTHR 102+, 102H+, 103, 104, 105, 150
ECON 101, 102+, 102H+, 105+, 110, 111* (same as HIST 116)
ETH S 101, 102, 110, 111, 120, 125, 164
GEOG 102, 103, 106, 110
HIST 101%, 103%, 116* (same as ECON 111), 118%, 119%, 120%, 122, 131%, 135, 136*, 152*
JOURN 101†
LING 101
MCOMM 101†
POL S 101, 102, 103+, 104, 108, 110, 111
PSYCH 101+, 101H+, 103**, 104, 106, 113, 115, 131% (Same as SOC 131)
SOC S 105, 134,
SOC 101, 102, 103, 104, 105, 131% (Same as PSYCH 131), 140
SPCH 108

**Psych 103 may be used if taken before Fall 2011

AREA 5 — PHYSICAL AND BIOLOGICAL SCIENCES (2 courses, 7-9 semester units)
One Physical Science course and one Biological Science course; at least one must include a laboratory.

(Area 5a) PHYSICAL SCIENCE COURSES: (2 courses, 7-9 semester units)
ASTRO 102, 110+, 120+
CHEM 101+, 101H+, 102+, 105, 106, 110+, 120+, 121+
GEOG 101, 107, 111
GEOL 101+, 101H+, 102, 103, 105, 111+, 111H+, 112, 115
OCEAN 115, 116
PHYS SCI 131*
PHY 101+, 101H+, 102+, 105, 106, 110+
Lab courses are underlined (5C)

(Area 5b) BIOLOGICAL SCIENCES: (1 course, 3 semester units)
ANTHR 101, 111
BIOL 101+, 102+, 103+, 112, 115+, 120+, 121+, 122+, 123, 125+, 126*
PSYCH 103*, 203
Lab courses are underlined (3C)

LANGUAGE OTHER THAN ENGLISH (UC REQUIREMENT ONLY)
Proficiency equivalent to two years of high school in the same language.
ASL 101; ARMEN 101+, 115+; CHIN 101; FREN 101; ITAL 101; JAPAN 101; KOREA 101; SPAN 101+, 115+

CSU GRADUATION REQUIREMENT IN U.S. HISTORY, CONSTITUTION AND AMERICAN IDEALS
(Not part of IGETC; may be completed prior to transfer)
American History: ECON 111; HIST 111, 116, 117, 118, 150
American Institutions: POL S 101
(POL S 101 completed in Spring 2014 or after satisfies both American Institutions and State and Local Government)
State and Local Govt: POL S 106

*INDICATES THAT TRANSFER CREDIT MAY BE LIMITED BY UC OR CSU OR BOTH. PLEASE CONSULT WITH A COUNSELOR.

NOTE: IGETC MUST BE COMPLETED AND CERTIFICATION MUST BE REQUESTED PRIOR TO ATTENDANCE AT A UC OR CSU.
GENERAL EDUCATION ARTICULATION AGREEMENT

GENERAL EDUCATION CORE LITERACY REQUIREMENTS:
Students are required to take 8 courses from 6 GE Core Literacy areas. Students may fulfill any GE Core Literacy Requirement with transfer coursework taken before starting USC, but are required to take at least two GE Core Literacy courses from the Dornsife College of Letters, Arts and Sciences after starting at USC.

College courses taken before high school graduation can fulfill GE requirements, but not the lower-division writing requirement, or the foreign language requirement, nor can they earn USC course equivalence.

For a complete USC articulation agreement visit https://camel2.usc.edu/articagmt/artic.aspx

TRANSFERABLE GENERAL EDUCATION CATEGORIES:

CATEGORY A: The Arts (1 course required)
- DANCE 100, 102
- ENGL 116, 117
- HUMAN 117
- MUSIC 120, 121, 122, 125, 126, 127, 128
- T ART 101, 102, 107

CATEGORY B: Humanistic Inquiry (2 courses required)
- ENGL 105, 106, 109, 110, 111, 122, 123, 125, 128
- HIST 101, 102, 103, 113, 117, 118, 119, 120, 131, 133, 140, 141
- HUMAN 105, 105H, 106, 110, 111, 115, 120, 125
- PHIL 101, 113, 114, 116, 119, 120, 121
- POL S 104
- SPAN 124H

CATEGORY C: Social Analysis (2 courses required)
- ADMJ 101
- ANTH 102, 102H, 103, 104, 105, 150
- ECON 110, 111
- ETH S 101, 102, 110, 120, 121, 123, 124, 125, 132, 164
- GEOG 102, 103, 105, 106, 110
- POL S 103, 103H, 108, 110, 110H, 111
- PSYCH 113
- SOC S 131, 132, 134, 136
- SOC 101, 102, 103, 104

CATEGORY D: Life Sciences (1 course required)
- ANTH 101 with 111
- BIOL 101, 115, 121, 122, 125 with 126, 125H with 126
- PSYCH 103 with 203

CATEGORY E: Physical Science (1 course required)
- CHEM 101, 120
- GEOG 101 with 111
- GEOL 101 with 111, 101H with 111, 102 with 112, 105 with 115
- OCEAN 115 with 116
- PHY 131
- PHY 101, 101H, 105

CATEGORY F: Quantitative Reasoning (1 course required)
- ECON 101, 102, 102H, 105
- MATH 100, 103, 103H, 110, 110A, 112, 133, 135, 136
- PHIL 123

CATEGORY G: Citizenship in a Global Era (1 course required)
- ETH S 164
- HIST 105, 121, 126
- POL S 103, 110, 110H, 111
- SOC S 136

CATEGORY H: Traditions and Historical Foundations (1 course required)
- HIST 101, 102, 103, 117, 118, 119, 120, 140, 141
- HUMAN 115
- MUSIC 125, 126
- PHIL 113, 114, 119, 120
- POL S 104
- T ART 102

LOWER DIVISION WRITING REQUIREMENT:
Any course below fulfills the lower division writing requirement if completed after graduating from high school and before starting at USC:
- ENGLISH 102, 102H, 104

COURSES THAT FULFILL FOREIGN LANGUAGE LEVELS:
Many majors require a third-semester foreign language course or equivalent. (The International Relations major requires the equivalent of a fourth semester.) Courses that fulfill foreign language levels if completed after graduating from high school are listed below. Students will be required to take a foreign language placement exam to continue in language courses at USC.

LANGUAGE REQUIREMENT Third Level:
- ARMS 103, 117; FREN 103; ITAL 103; JAPAN 103; SPAN 103

LANGUAGE REQUIREMENT Fourth Level:
- ARMEN 104; FREN 104; ITAL 104; JAPAN 104; SPAN 104

POLICIES REGARDING GE COURSES:
—No more than four (4) semester units of pass/no pass credit may be applied to GE requirements.
—Once a student enrolls at USC, he or she must complete all remaining GE and writing requirements at USC.
COURSE DESCRIPTIONS

Courses are listed in numerical order under department headings, which are in alphabetical order. Each course is listed by number with the course title and the number of units. Following each course description are the number of hours of lecture and laboratory and prerequisites of the course. Transferability of the course is indicated for institutions to which students tend to matriculate. Whether or not all courses described will be offered during the present academic year will depend on the student enrollment.

COURSE PREREQUISITES/COREQUISITES/RECOMMENDED PREPARATION

Prerequisites
“Prerequisite means a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a course or educational program.”

Students are expected to have satisfied the prerequisite requirements as stated in this catalog for all courses. All prerequisite classes must have been completed with a satisfactory grade. “Satisfactory grade means that, for the course in question, the student’s academic record has been annotated with the symbol A, B, C, or P.”

Corequisites
“Corequisite means a condition of enrollment consisting of a course that a student is required to simultaneously take in order to enroll in another course.”

Classes listed as corequisites must have been either completed or be taken concurrently.

Recommended Preparation
“Recommended preparation means a condition of enrollment that a student is advised, but not required, to meet before or in conjunction with enrollment in a course or educational program.”

Recommended preparation has been judged by individual departments to be important to success in a course.

Equivalent
Whenever “equivalent” is listed as an alternative prerequisite, it is understood to indicate knowledge and/or skills learned through personal experience, education, and/or training equivalent to listed prerequisite courses. The criteria for such equivalency are established by each instructional discipline to ascertain whether there has been sufficient mastery of the content of the academic prerequisite.

Note: Title 5, Section 55003 (p) permits a student to appeal a course prerequisite based on the unavailability of the required course (see waiver of prerequisites).

DEGREE AND TRANSFER CREDIT

Not all courses offered at Glendale Community College award Associate in Arts and/or Associate in Science degree credit. Courses that do not award credit toward the AA/AS degrees contain the statement “non-degree applicable” in their course description and may not be counted toward the 60 unit requirement for graduation. All students completing non-degree applicable courses prior to Fall 1990 will continue to receive graduation credit for these courses. Transfer credit is noted at the end of each course description. The note “UC” means the course is transferable to the University of California, all campuses. The note “CSU” means the course is transferable to the California State University, all campuses. The note “USC” means the course is transferable to the University of Southern California. Agreements concerning transferability are constantly being updated, therefore the student is cautioned to check with a counselor or the Transfer Center for exact transfer information. Some University of California (UC) transfer credit may be limited; consult a counselor or the Transfer Center for additional information.

VARIABLE UNITS

Certain courses in this catalog have variable units indicated and specify the maximum number of units that may be acquired by repetitive enrollment in the class. Students who complete variable unit classes and earn less than the maximum units as indicated may repeat those classes only until the maximum indicated units have been earned.

OPEN ENROLLMENT

Unless specifically exempted by statute, every course, course section, or class for which average daily attendance is to be reported for state aid shall be open for enrollment and participation by anyone who has been admitted to the college and who meets the prerequisites of such courses.
COURSE FAMILIES

New regulations require grouping active participatory courses previously designated as “activities” courses into “families” and limiting enrollment in courses within the families to four experiences regardless of grade. Course families are courses with related content where the content progresses into levels from one course to the next (Title 5 §55000) or in which the content is linked around themes. Areas required to group courses into families are Physical Education and Visual and Performing Arts. Here are GCC’s Course Families:

ART - Ceramics; Ceramic Hand Building
STUDIO ARTS - 2D Art Foundations; Life Drawing; Oil Media; Water Media; Printmaking; Special Projects in Studio Arts; Sculpture; and 3D Design
DANCE - Ballet Technique; Modern Dance Technique; Jazz Technique; American Vernacular Dances; Cultural Dance; Choreographic Studies; Performance Skills; Production Studies; and Movement for Theatre
MUSIC - Piano; Classical Guitar; Contemporary Guitar; Voice Training
THEATRE ARTS - Acting; Directing, Playwriting, Management; Costume and Makeup; Scenic and Lighting; Technical Theatre; Stagecraft/Building; Theatre Production-Rehearsal and Performance
PHYSICAL EDUCATION/KINESIOLOGY - Adapted Physical Education; Badminton; Basketball; Cardio Fitness; Cycling; Golf; Martial Arts; Motor Performance Fitness; Soccer/Football; Tennis; Volleyball

COURSE ID NUMBERING SYSTEM (C-ID)

The Course ID Numbering System (C-ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. A C-ID number next to a course signals that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course number. Thus, if a schedule of classes or catalog lists a course bearing a C-ID number, for example, COMM 110, students at that college can be assured that it will be accepted in lieu of a course bearing the C-ID COMM 110 designation at another community college. In other words, the C-ID designation can be used to identify comparable courses at different community colleges. Students may consult the ASSIST database at www.assist.org for specific information on C-ID course designations. Students can confirm how each college’s course will be accepted at a particular four-year college or university for transfer credit. The C-ID numbering system is useful for students attending more than one community college and is applied to any of the transferable courses students need as preparation for transfer. Because these course requirements may change and because courses may be modified and qualified for or deleted from the C-ID database, students should always check with a counselor to determine how C-ID designated courses fit into their educational plans for transfer. Counselors can always help students interpret or explain this information.

All courses that have been approved for C-ID designation at Glendale Community College include the C-ID number within the course description as listed on the following pages.
### ACCOUNTING

#### 101 FINANCIAL ACCOUNTING
5.0 Units

ACCTG 101 introduces students to the use of accounting information, and to analysis using accounting and financial concepts and terminology. Accounting information is presented from the user’s viewpoint. The course covers financial accounting, dealing with such topics as the accounting cycle, revenue and expense recognition, internal control, external reporting requirements, cash flow, financial statement analysis, GAAP, IFRS and asset, liability, and stockholder’s equity valuation. Ethical issues and open-ended exercises requiring critical judgment and narrative response by students may be used throughout the course. Note: Accounting 101 may not be taken by students who have completed ACCTG 106 with a grade of “C” or better. Lecture 5 hours. Recommended Preparation: Concurrent enrollment or completion of CABOT 260 or 270, or equivalent spreadsheet experience. Prerequisite: None. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID ACCT 110)

#### 102 MANAGERIAL ACCOUNTING
5.0 Units

ACCTG 102 continues student development in the use of accounting concepts. It presents managerial accounting from an information-user, decision-making viewpoint. Emphasis is placed on developing students’ ability to critically judge and evaluate issues covered in the course. The majority of the course covers managerial accounting for business operations, stressing four-year college transfer expectations, with the remainder concerned with financial management, and evaluating businesses. Ethical issues and open-ended exercises requiring critical judgment and narrative response by students may be used throughout the course. Lecture 5 hours. Prerequisite: ACCTG 101 or equivalent. Recommended Preparation: Concurrent enrollment or completion of CABOT 260 or 270, or equivalent spreadsheet experience. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID ACCT 120)

#### 110 BASIC ACCOUNTING I
4.0 Units

ACCTG 110 is an introductory course in bookkeeping including study of the accounting equation, the theory of debit and credit, accounting devices, working papers and business forms, and the preparation of balance sheets and income statements. Lecture 4 hours/Laboratory 1 hour. Prerequisite: None. Course Typically Offered: Fall/Spring.

#### 120 COMPUTERIZED ACCOUNTING SYSTEMS
3.0 Units

ACCTG 120 provides students with computer skills required for employment in the field of computerized accounting. This course provides an introduction to accounting application software for bookkeepers, accountants, and business managers. Lecture 3 hours. Recommended Preparation: Concurrent Enrollment in ACCTG 101 or ACCTG 110 or equivalent experience in accounting. Course Typically Offered: Fall/Spring.

#### 121 PEACHTREE/GREAT PLAINS
3.0 Units

ACCTG 121 is an advanced course allowing students to prepare sophisticated practice sets from assorted accounting software packages. Lecture 3 hours. Recommended Preparation: ACCTG 101 or ACCTG 110 or equivalent. Course Typically Offered: Fall/Winter.

#### 130 PAYROLL ACCOUNTING
3.0 Units

ACCTG 130 is in-depth and practical instruction in payroll accounts. It offers an opportunity for the student to learn essential concepts of payroll and to master these concepts thoroughly by completing a wide variety of realistic activities. It covers payroll laws, payroll calculations, paying and recording payroll, federal and state payroll taxes, returns and payroll systems, manual and computerized. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring.

#### 150 PRINCIPLES OF INCOME TAXATION
3.0 Units

ACCTG 150 is a course that focuses on the analysis and preparation of tax returns, itemized deductions, and a technical proficiency in federal and state tax law as it applies to the individual. This course provides the foundation of knowledge required for tax practitioners. Note: A maximum of 3 units will transfer. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

#### 155 VOLUNTEER INCOME TAX ASSISTANCE (VITA) I
3.0 Units

ACCTG 155 is a course that teaches the fundamental knowledge of Federal and State Income Tax Preparation. The concentration is on tax information for the low income and elderly. The course also emphasizes computer generated tax returns. Lecture 3 hours. Prerequisite: ACCTG 150 or equivalent. Course Typically Offered: Winter (Every Other Year).

#### 156 VOLUNTEER INCOME TAX ASSISTANCE (VITA) II
1.0 Unit

ACCTG 156 is a course in which students learn and apply the fundamental knowledge of income tax preparation. With the assistance of the instructor and state and federal agents, the students will assist low income and elderly citizens in the preparation of Federal and State tax forms. Lecture .5 hour/Laboratory 2 hours. Prerequisite: ACCTG 155 or equivalent. Note: May be taken 4 times for credit. Course Typically Offered: Spring.

#### 157 VOLUNTEER INCOME TAX ASSISTANCE (VITA) LEADERSHIP
1.0 Unit

ACCTG 157 is a course in which students learn and apply leadership skills by aiding first year VITA volunteers in interviewing and preparing state and federal taxes. Students will guide and direct VITA Volunteers in assisting low-income and elderly citizens in the preparation of their federal and state tax forms. Lecture .5 hour/Laboratory 2 hours. Prerequisite: ACCTG 156 or equivalent. Note: May be taken 4 times for credit. Course Typically Offered: Fall/Spring.
160 ADVANCED INCOME TAX 3.0 Units
ACCTG 160 covers the tax effects of accounting methods, rental and royalty income, business income and expenses, mechanisms for realizing income such as corporations and partnerships, and minimization of taxes through tax planning. This course is of assistance to tax practitioners, individuals seeking an overview of the various methods of taxation, and those planning to take the Enrolled Agents examination given by the Internal Revenue Service. Lecture 3 hours. Prerequisite: ACCTG 150 or equivalent. Course Typically Offered: Spring. Transfer Credit: CSU.

165 TAX PLANNING, TAX RESEARCH, AND TAX FRAUD 3.0 Units
ACCTG 165 is a course in the principles of tax planning and tax research. Topics include general principles of tax planning, self-employed versus employee tax planning, family tax planning, fixed and other assets tax planning, deduction tax planning, retirement planning, tax research procedures, Internal Revenue Code, treasury and judicial interruptions, primary and secondary courses and tax procedures. Lecture 3 hours. Recommended Preparation: ACCTG 150. Course Typically Offered: Fall/Spring.

170 CALIFORNIA BUSINESS TAXES 2.0 Units
ACCTG 170 is an advanced course in California non-income business taxation. Topics include sales and use taxes, real and personal property taxes, withholding on dispositions of real estate, environmental taxes and fees, city business license taxes, and miscellaneous taxes. Lecture 2 hours. Prerequisite: ACCTG 101 or equivalent. Course Typically Offered: Spring (Every Other Year).

175 ESTATE, GIFT, AND TRUST TAXATION 2.0 Units
ACCTG 175 covers estate, gift, and trust taxation. Topics include computation of gross estate tax, valuation of gross estate, deductions from the gross estate, transfers by gift, basis of property transferred by gift, present and future interests, exclusions from gift taxes, generation-skipping transfer tax (GST), and taxation of trusts. Lecture 2 hours. Recommended Preparation: ACCTG 150 or equivalent.

180 FINANCIAL ANALYSIS AND COMMUNICATIONS 2.0 Units
ACCTG 180 is a course in which the students apply the tools of the accounting profession to solve problems and complex case studies which are common in the industry. Topics include the use of general ledger, database, spreadsheet programs, advanced financial ratios, extensive budget creation with variance analysis, and real time adjustments, setting up a general ledger package, decision making formulas, preparing financial statements, and producing spreadsheets for various accounting decisions. Lecture 2 hours. Recommended Preparation: ACCTG 101 or equivalent; and CABOT 260 or CABOT 265 or CABOT 270 or equivalent. Course Typically Offered: Fall/Spring.

201 INTERMEDIATE ACCOUNTING I 5.0 Units
ACCTG 201 is an advanced course in financial accounting. Topics include the income statement preparation, statement of cash flow, time value of money, income measurement, balance sheet preparation, cash and receivables, and inventories. Lecture 5 hours. Prerequisite: ACCTG 101 or equivalent. Course Typically Offered: Fall (Every Other Year).

202 INTERMEDIATE ACCOUNTING II 5.0 Units
ACCTG 202 is a course that further develops the concepts of liabilities and owner’s equity. The course covers short and long term liabilities, leases, pensions and payroll liabilities, corporate income taxes, detailed preparation of Statement of Cash Flows, presentation of accounting changes and errors and disclosure and reporting responsibilities of a corporation. Lecture 5 hours. Prerequisite: ACCTG 101 or equivalent. Course Typically Offered: Fall (Every Other Year).

210 ADVANCED ACCOUNTING 5.0 Units
ACCTG 210 is an advanced course in financial accounting. Topics include business combinations, consolidated statements, goodwill, intercompany transactions, cash flow, earnings per share, special issues in investments, subsidiary equity transactions, leverage buyouts, and partnerships, multinational accounting, interim reporting and disclosures, governmental and not-for-profit accounting, debt restructuring, corporate reorganizations, and liquidations. Lecture 5 hours. Prerequisite: ACCTG 201 or equivalent. Course Typically Offered: Spring (Every Other Year).

220 COST ACCOUNTING 3.0 Units
ACCTG 220 is an advanced course in managerial accounting. Topics include job costing, product costing, process costing, joint-process costing, activity based costing systems, support service costs, value chain, quality management, cost-volume-profit models, budgeting, variance analysis, capital investment decisions, and transfer pricing. Lecture 3 hours. Prerequisite: ACCTG 102 or equivalent. Course Typically Offered: Spring (Every Other Year).

225 AUDITING 3.0 Units
ACCTG 225 is an advanced course that addresses the concepts of audit evidence and materiality. Topics include the audit profession, audit risks, audit analysis, statistical sampling, planning the audit, conducting the audit, and reporting the results of an audit. Lecture 3 hours. Prerequisite: ACCTG 101 or equivalent. Course Typically Offered: Fall/Spring.

230 ACCOUNTING INFORMATION SYSTEMS 3.0 Units
ACCTG 230 is an advanced course that addresses the concepts of information and database systems used in a business. Topics include accounting information systems, data communications, database systems, information systems and processes, and other areas covered on the uniform CPA exam. Lecture/Demonstration 3 hours. Prerequisite: ACCTG 101 or equivalent. Course Typically Offered: Spring.

235 FRAUD EXAMINATION 3.0 Units
ACCTG 235 is an advanced course that addresses the principles and methodology of fraud detection and deterrence. The course includes such topics as skimming, cash larceny, check tampering, register disbursement schemes, billing schemes, payroll and expense reimbursement schemes, non-cash misappropriations, corruption, accounting principles and fraud, fraudulent financial statements, and interviewing witnesses. Lecture 3 hours. Prerequisite: ACCTG 101 or equivalent. Course Typically Offered: Fall.
250 ACCOUNTING ETHICS
3.0 Units
ACCTG 250 is an advanced course that addresses the concepts of ethical reasoning and the decision process. Topics include professional judgment, corporate governance, American Institute of Certified Public Accountants (AICPA) code of conduct, accounting fraud, legal and regulatory obligations, earnings management, quality of financial reporting and International Financial Reporting Standards (IFRS) ethics. Lecture 3 hours. Transfer Credit: CSU.

101 INTRODUCTION TO THE ADMINISTRATION OF JUSTICE
3.0 Units
ADMJ 101 covers the history and philosophy of administration of justice in America, recapitulation of the system, identification of the various subsystems, role expectations, and their interrelationships, theories of crime, punishment, and rehabilitation, ethics, education, and training for professionalism in the system. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC. (C-ID AJ 110)

103 CONCEPTS OF CRIMINAL LAW
3.0 Units
ADMJ 103 is a study of the legal definition of crime and defenses; purposes and functions of the substantive criminal law; historical foundations; the limits of the criminal law; focus upon the case study approach. This course utilizes case law and case studies to introduce students to criminal law. The completion of this course offers a foundation upon which upper-division criminal justice course will build. Lecture 3 hours. Prerequisite: ADMJ 101 or equivalent. Transfer Credit: CSU, UC, USC. (C-ID AJ 120)

107 COMMUNITY RELATIONS
3.0 Units
ADMJ 107 focuses on the in-depth exploration of the roles of administration of justice practitioners and their agencies. Through interaction and study, the student becomes aware of the interrelationships and role expectations among the various agencies and the public. Principal emphasis is placed upon the professional image of the system of administration of justice and the development of positive relationships between members of the system and the public. Lecture 3 hours. Prerequisite: ADMJ 101 or equivalent. Transfer Credit: CSU, USC.

110 PRINCIPLES & PROCEDURES OF THE JUSTICE SYSTEM
3.0 Units
ADMJ 110 presents an in-depth study of the role and responsibilities of each segment within the administration of justice system: Law enforcement, judicial, corrections. A past, present, and future exposure to each sub-system procedure from initial entry to final disposition and the relationship each segment maintains with its system members. Special emphasis is on the judicial processes. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU.

116 CRIMINAL INVESTIGATION
3.0 Units
ADMJ 116 focuses on the fundamentals of investigation, crime scene search and recording, collection and preservation of physical evidence, scientific aids, modus operandi, sources of information, interviews and interrogation, follow-up and case preparation, mechanical truth devices, truth serums, crime laboratory. Lecture 3 hours. Recommended Preparation: ADMJ 101 or equivalent. Transfer Credit: CSU.

117 CRISIS INTERVENTION
3.0 Units
ADMJ 117 is designed to provide those skills necessary to deal with interpersonal conflict. The course addresses some of the interpersonal problems creating stress, conflict and anger and reviews some of the basic psychological techniques used in dealing with interpersonal problems. Specifically, the course familiarizes the student with intervention techniques in attempt suicides, death/injury notifications, domestic situations, disputes between landlord and tenants and intervention techniques with crime victims. The course covers recommended techniques in dealing with job related stress. A review of theoretical concepts and practical role playing situations provides the framework for the course. Lecture 3 hours. Prerequisite: None.

118 YOUTHFUL OFFENDERS
3.0 Units
ADMJ 118 reviews the organization, functions, and jurisdiction of juvenile agencies, the processing and detention of juveniles, juvenile case disposition, juvenile statutes and court procedures. There are discussions on selected delinquency theories and a review of current correctional methods utilized in the treatment and control of juvenile delinquency in America. Lecture 3 hours. Prerequisite: ADMJ 101 or equivalent (ADMJ 101 may be taken concurrently.) Transfer Credit: CSU. (C-ID AJ 120)

120 LEGAL ASPECTS OF EVIDENCE
3.0 Units
ADMJ 120 is concerning the origin, development, philosophy, and constitutional and procedural considerations affecting arrest, search, and seizure, kinds and degrees of evidence and rules governing admissibility, judicial decisions interpreting individual rights and case studies. Lecture 3 hours. Prerequisite: ADMJ 101 or equivalent. Transfer Credit: CSU. (C-ID AJ 124)
129
SPECIAL CRIMES AND DANGEROUS DRUGS
3.0 Units
ADMJ 129 is designed to give all levels of law enforcement officers a fundamental understanding of narcotic addiction and the effects of hypnotic drugs as these factors are involved in the daily routine of police work. The course reviews the principles of detecting and investigating special crime offenses. The course also focuses on gambling, confidence games, loanharking, prostitution, and other crimes associated with organized crime activity. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.

130
LAW ENFORCEMENT SUPERVISION AND MANAGEMENT
3.0 Units
ADMJ 130 provides an overview of the basic concepts, problems, issues, and concerns of a contemporary police organization. The four major areas the course examines and evaluates are: the preparation of the individual officer for future promotional examinations, the current major police supervisory principles and ideologies, the proven techniques and skills required in the practice of sound supervision in police service, and a survey of management theory. Lecture 3 hours. Prerequisite: ADMJ 101 or equivalent.

134
REPORT WRITING
3.0 Units
ADMJ 134 encompasses a survey of report writing and Records and Identification Bureaus. A study to aid police officers to analyze what they see, and to make a permanent and coherent record of facts to be used in criminal prosecution and administration procedures. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.

155
FIREARMS TRAINING
1.5 Units
ADMJ 155 is presented to fulfill the requirements of the P.C. 832 Module II training specifications. Lecture 1 hour/Laboratory 1.5 hours. Prerequisite: None.

165
INTRODUCTION TO FORENSIC SCIENCE
3.0 Units
ADMJ 165 focuses on the history and principles of forensic science. Topics include crime scene investigation, identification, individualization, and collection and preservation of physical evidence; the establishment of identity through fingerprints, dental records, and DNA; biological and trace evidence; health and safety issues at the crime scene; and crime scene documentation through case notes, photography, videography, and sketches. Lecture 3 hours. Prerequisite: ADMJ 101 or equivalent.

170
ETHICS IN LAW ENFORCEMENT
3.0 Units
ADMJ 170 defines the principles of a person's character as they relate to ethics. It examines how ethical choices impact the professional law enforcement environment and the subsequent effect on police service. Additionally, the course considers how character and personal values influence the training, supervision, management, and leadership of successful law enforcement organizations. This course addresses the implications of societal changes and the challenges they create in modern police work. Lecture 3 hours. Recommended Preparation: ADMJ 101 and Eligibility for ENGL 101.

201
INTRODUCTION TO HOMELAND SECURITY
3.0 Units
ADMJ 201 will introduce students to the vocabulary and important components of Homeland Security. The importance of the agencies associated with Homeland Security and their interrelated duties and relationships will be discussed. Students will examine historical events that impact Homeland Security, and explore state, national, and international laws impacting Homeland Security. The most critical threats confronting Homeland Security will be examined. Lecture 3 hours. Prerequisite: None. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.

202
INTELLIGENCE ANALYSIS AND SECURITY MANAGEMENT FOR HOMELAND SECURITY
3.0 Units
ADMJ 202 examines intelligence analysis and its relationship to the security management of terrorist attacks, man-made disasters, and natural disasters. It also explores vulnerabilities of the United States national defense and private sectors, as well as the threats posed to these institutions by terrorists, man-made disasters, and natural disasters. Students will discuss substantive issues regarding intelligence support of Homeland Security measures implemented by the United States and explore how the intelligence community operates. Lecture 3 hours. Recommended Preparation: ADMJ 201 and Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU.

203
TRANSPORTATION SECURITY AND BORDER PATROL
3.0 Units
ADMJ 203 provides an overview of modern border and transportation security challenges, as well as different methods employed to address these challenges. The course covers the time period from post 9-11 to the present. The course explores topics associated with border security and security for transportation infrastructure, including: seaports, ships, aircraft, airports, trains, train stations, trucks, highways, bridges, rail lines, pipelines, and buses. The course includes an exploration of technological solutions employed to enhance security of borders and transportation systems. Students are required to discuss the legal, economic, political, and cultural concerns and impacts associated with transportation and border security. The course is designed to develop students’ understanding of the variety of challenges inherent in transportation and border security. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.

1931-1932
### ALCOHOL/DROUGHS STUDIES

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Units</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>101</td>
<td>ALCOHOL/DRUG ABUSE AND DEPENDENCY</td>
<td>3.0</td>
<td>ADST 101 surveys the use and abuse of alcohol and other drugs in various cultures, their acute and chronic effects on the human body, and the development of psychological and physical dependence. An overview of current theories in dependency is presented. The course addresses the consequences of chemical dependency on the individual, the family system, and society. Lecture 3 hours. <strong>Prerequisite:</strong> ADST 101 or equivalent (ADST 103 may be taken concurrently). <strong>Recommended Preparation:</strong> Eligibility for ENGL 120 or ESL 151. <strong>Course Typically Offered:</strong> Fall/Spring. <strong>Transfer Credit:</strong> CSU.</td>
</tr>
<tr>
<td>103</td>
<td>CHEMICAL DEPENDENCY: INTERVENTION, TREATMENT, AND RECOVERY</td>
<td>3.0</td>
<td>ADST 103 uses a biopsychosocial perspective to introduce students to the process of intervention, treatment, and recovery. The course introduces crisis intervention, treatment techniques, and other essential tools and methodologies needed to help the chemically dependent person overcome addiction. Lecture 3 hours. <strong>Prerequisite:</strong> ADST 101 or equivalent (ADST 103 may be taken concurrently). <strong>Recommended Preparation:</strong> PSYCH 101. <strong>Course Typically Offered:</strong> Fall/Spring. <strong>Transfer Credit:</strong> CSU.</td>
</tr>
<tr>
<td>105</td>
<td>PHARMACOLOGY: ALCOHOL AND OTHER DRUGS</td>
<td>3.0</td>
<td>ADST 105 emphasizes the specific action and effects of psychoactive drugs, including beverage alcohol, on the human brain and body. The history of drugs as substances of abuse is presented along with the pharmacological and physiological implications of tolerance and habituation. The part played by pharmacological therapy as a component of current abuse and addiction treatment models is examined. Several prevention models are also presented. Lecture 3 hours. <strong>Prerequisite:</strong> ADST 101 and 103 (ADST 101 and ADST 103 may be taken concurrently). <strong>Course Typically Offered:</strong> Fall/Spring. <strong>Transfer Credit:</strong> CSU.</td>
</tr>
<tr>
<td>110</td>
<td>COUNSELING TECHNIQUES AND CASE MANAGEMENT</td>
<td>3.0</td>
<td>ADST 110 is designed to prepare the student for the field experiences of the addiction counseling internship. It examines several models of addiction counseling and the theoretical rationale of each. The course emphasizes therapeutic traits needed by a counselor working with a chemically addicted population. The course also includes the competencies/functions of a counselor, legal and ethical issues in counseling, and case management of individuals, groups and families. Issues of personal and professional growth are also discussed. Lecture 3 hours. <strong>Prerequisite:</strong> ADST 101 and 103. <strong>Recommended Preparation:</strong> PSYCH 101. <strong>Course Typically Offered:</strong> Fall/Spring. <strong>Transfer Credit:</strong> CSU.</td>
</tr>
<tr>
<td>111</td>
<td>FAMILY DYNAMICS AND ADDICTION</td>
<td>3.0</td>
<td>ADST 111 introduces the student to the individual and group dynamics present within the family in which chemical dependency exists. Family systems and personality theories are presented and applied to the treatment of the family as a unit. The theoretical and practical aspects of counseling are presented and cover the active phases of addiction and early stages of recovery. Lecture 3 hours. <strong>Prerequisite:</strong> ADST 101 and 103. <strong>Recommended Preparation:</strong> PSYCH 101. <strong>Course Typically Offered:</strong> Fall/Spring. <strong>Transfer Credit:</strong> CSU.</td>
</tr>
<tr>
<td>112</td>
<td>GROUP COUNSELING AND THE THERAPEUTIC PROCESS</td>
<td>3.0</td>
<td>ADST 112 is an introduction to the dynamics of group interaction and the facilitator functions of the counselor. The course emphasizes group process and management in the “here and now” as a method of bringing about behavioral change. The course includes a strong experiential component as all students participate as both members and facilitators in group process throughout the semester. Lecture 3 hours. <strong>Prerequisite:</strong> ADST 101 and 103. <strong>Recommended Preparation:</strong> PSYCH 101. <strong>Course Typically Offered:</strong> Fall/Spring. <strong>Transfer Credit:</strong> CSU.</td>
</tr>
<tr>
<td>114</td>
<td>SPECIAL POPULATIONS</td>
<td>3.0</td>
<td>ADST 114 examines the degree to which ethnicity, cultural factors, and sexual identity can contribute to the misuse of alcohol and other drugs. Discussions include various ethnic populations as well as gender, sexual orientation, and life span issues related to substance use and abuse. Lecture 3 hours. <strong>Prerequisite:</strong> ADST 101 and 103. <strong>Recommended Preparation:</strong> PSYCH 104 or ETH S 121. <strong>Course Typically Offered:</strong> Fall/Spring. <strong>Transfer Credit:</strong> CSU.</td>
</tr>
<tr>
<td>119</td>
<td>CHEMICAL DEPENDENCY AND CO-OCCURRING DISORDERS</td>
<td>3.0</td>
<td>ADST 119 assists the student to better understand and interact with clients with various mental health disorders that complicate coexisting substance abuse problems. It includes personality and mood disorders and various other pathologies, as well as organic brain disorder and their synergistic effect with alcohol and other drugs. The course also covers the diagnostic, therapeutic, and recovery phases for these clients. Lecture 3 hours. <strong>Prerequisite:</strong> ADST 105 or equivalent (ADST 105 may be taken concurrently). <strong>Recommended Preparation:</strong> PSYCH 115. <strong>Course Typically Offered:</strong> Fall/Spring.</td>
</tr>
<tr>
<td>150</td>
<td>SELF-HELP GROUPS AND RECOVERY</td>
<td>2.0</td>
<td>ADST 150 provides students with an opportunity to observe and evaluate Alcoholics Anonymous and several other self-help groups involved in the treatment of alcohol/drug dependency and related disorders. Alcoholics Anonymous is studied as the foundation or blueprint for emerging self-help groups. The 'Twelve Steps' of recovery from Alcoholics Anonymous are studied from both a psychological and self-help perspective. Lecture 2 hours. <strong>Prerequisite:</strong> ADST 101 and ADST 103. <strong>Recommended Preparation:</strong> Eligibility for ENGL 120 or ESL 151. <strong>Transfer Credit:</strong> CSU.</td>
</tr>
</tbody>
</table>
152 INTERNSHIP I
3.0 Units
ADST 152 is one of two semester-length internships in which the student is assigned to an alcohol/drug related treatment program or agency to acquire work experience. The student functions under agency supervision to gain case management experience which may include working with individuals, couples, and/or families, as well as groups. The course explores the extent to which knowledge of personal family history impacts counselor competencies and relationships with agencies and clients. Internship experiences are explored as they relate to lecture content. The internship hours apply to the additional hours required for state/national credentialing. Lecture 3 hours. Prerequisite: ADST 110 and 112, or equivalent. Corequisite: ADST 50 (1 Unit). Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

153 INTERNSHIP II
3.0 Units
ADST 153 is one of two semester-length internships in which the student is assigned to an alcohol/drug related program or agency. The student functions under agency supervision to gain case management experience which may include working with individuals, couples, and/or families, as well as groups. Course theory focuses on legal and ethical issues, including relationships with clients, colleagues, and agencies. Internship experiences are explored as they relate to lecture content. The internship hours apply to the additional hours required for state/national credentialing. Lecture 3 hours. Prerequisite: ADST 110 and 112, or equivalent. Corequisite: ADST 50 (1 Unit). Transfer Credit: CSU.

154 SELF-HELP GROUPS, RECOVERY & COMMUNITY NETWORKING
4.0 Units
ADST 154 provides students with an opportunity to attend, observe and evaluate Alcoholics Anonymous, Al-Anon, Narcotics Anonymous, Gamblers Anonymous and other self-help groups involved in the treatment of alcohol/drug dependency and related disorders. Alcoholics Anonymous is studied as the foundation and blueprint for other well utilized self-help groups. The class provides an opportunity for the student to survey and analyze a variety of resources in the community involved in the treatment of alcohol and drug dependency. In analyzing the facilities, students examine policies and procedures as well as employment opportunities and expectations regarding services. Lecture 4 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Prerequisite: ADST 103 or equivalent. Course Typically Offered: Summer. Transfer Credit: CSU.

AMERICAN SIGN LANGUAGE

101 AMERICAN SIGN LANGUAGE I
4.0 Units
ASL 101 is an introductory course that provides instruction on deafness, deaf culture, and the language used by the deaf community. Note: This course is not intended for students with proficiency in ASL or who have attended schools where ASL was the language of instruction. Lecture 4.5 hour. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

102 AMERICAN SIGN LANGUAGE II
4.0 Units
ASL 102 is designed to provide a continuation of the introductory course. The major focus of this course is to develop students’ American Sign Language vocabulary and comprehension of signed material. Lecture 4.5 hour. Prerequisite: ASL 101 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.
ANTR 101 introduces the concepts, methods of inquiry, and scientific explanations for biological evolution and its application to the human species. Issues and topics will include, but are not limited to, genetics, evolutionary theory, human variation and biocultural adaptations, comparative primate anatomy and behavior, and the fossil evidence for human evolution. The scientific method serves as foundation of the course. The course may include a lab component. Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID ANTH 110)

PREHISTORY

ANTHR 103 is an introductory course students interpret archaeological materials and information to see how archaeologists can reconstruct and inform our understanding of prehistory and periods of early history. Stress is placed on studying worldwide prehistoric cultural sequences and exploring the transformative processes and cultural changes leading into the historic periods of developing civilizations. The course specifically addresses early and significant examples of domestication, urbanization, developing social stratification, social conflict, manifestations of religious activities and advances in technological development. Note: This course is eligible to be taken on a Pass/No Pass basis. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.
104 MAGIC, RELIGION, AND WITCHCRAFT  
3.0 Units
ANTHR 104 is a cross-cultural survey of religion and the supernatural. The course includes an examination of magic, witchcraft, and forms of religious expression in a wide variety of cultures around the world. The course considers the forms and functions of supernatural beliefs and rituals in various societies to derive insight into the roles of religious beliefs and institutions in human life. The course covers ritual, witchcraft, magic, symbolism, altered states of consciousness, and religious change. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

105 CULTURE AND COMMUNICATION  
3.0 Units
ANTHR 105 is an introductory course serves as a foundation for understanding language from an anthropological perspective, addressing such core questions as how, what, when, where, why, and with whom we communicate. This course surveys three core areas in linguistic anthropology—structural linguistics: phonetics, phonology, morphology, and syntax, as well as the biocultural basis of language; historical linguistics: origins and evolution/change, dialects, and language families; and sociocultural linguistics: language acquisition in cultural context, emphasizing the relationship between language and culture, and issues of language conservation and loss. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC. (C-ID ANTH 130)

111 PHYSICAL ANTHROPOLOGY LABORATORY  
1.0 Unit
ANTHR 111 is the laboratory course for Physical Anthropology. Laboratory exercises include the observation and interpretation of: natural selection and evolution; Mendelian, molecular, and population genetics; non-human primate anatomy, taxonomy, and behavior; fossil evidence of hominid evolution; forensic anthropology; human osteology; and human physical variation. Laboratory 3 hours. Prerequisite: ANTH 101 (may be taken concurrently) Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID ANTH 115L)

150 ARCHAEOLOGY  
3.0 Units
ANTHR 150 is an introduction to the study of concepts, theories, data and models of anthropological archaeology that contribute to our knowledge of the human past. The course includes a discussion of the nature of scientific inquiry; the history and interdisciplinary nature of archaeological research; dating techniques; methods of survey, excavation, analysis, and interpretation; cultural resource management; professional ethics; and selected cultural sequences. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Spring. Transfer Credit: CSU. (C-ID ANTH 150)

ARCHITECTURE

101 DRAFTING AND BASIC DESIGN  
3.0 Units
ARCH 101 is a study in the fundamentals of drafting techniques used in architectural drawing, and the basic design procedure relative to good residential planning. The course studies residential building codes, drafting of working drawings, scale drawing of construction details, framing concepts, and proper dimensioning techniques. Lecture 1.5 hours/Laboratory 4.5 hours. Recommended Preparation: ART 130, Eligibility for ENGL 120 or ESL 151 Transfer Credit: CSU.

102 ARCHITECTURAL DRAFTING AND DESIGN  
3.0 Units
ARCH 102 is the study of the design of the single family dwelling with emphasis on the ranch type structure. Discussion covers the latest construction innovations, framing techniques, scale detail drawing, and the drafting of working drawings. Study explores in greater detail the applicable building codes pertinent to residential construction, modular construction, solar planning, insulation requirements, orientation, and other facets of construction. Lecture 1.5 hours/Laboratory 4.5 hours. Prerequisite: ARCH 101 or equivalent. Recommended Preparation: ENGR 109. Transfer Credit: CSU.

103 DESCRIPTIVE GEOMETRY  
3.0 Units
ARCH 103 is a study of the applied science of graphical representation of lines, planes, surfaces, and solids. Architectural applications are used for subject matter including simple shapes and shadows. Note: This course is required for architecture majors. This course may not be taken for credit by students who have completed ENGR 103. Lecture 1.5 hours/Laboratory 4.5 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC.

105 PERSPECTIVE GRAPHICS WITH INTRODUCTION TO SKETCHUP AND RHINOCEROS  
3.0 Units
ARCH 105 is a course in technical perspective. Skills are developed in manual drawing techniques of various architectural subjects using formal two-dimensional methods. Introduction to two three-dimensional drawing programs, SketchUp and Rhinoceros is also included. Software topics include graphical user interface, surface editing, rendering, 2d drawing, extrusions, lofting, and digital output. Lecture 1.5 hours/Laboratory 4.5 hours. Prerequisite: ARCH 101 or equivalent. Transfer Credit: CSU, UC, USC.

106 BUILDING CODES  
3.0 Units
ARCH 106 offers students fundamental instruction regarding the use of current, relevant codes and standards required to review and check plans and specifications in compliance with non-structural aspects of the International Building Code (IBC) Lecture 3 hours. Prerequisite: ARCH 101 or equivalent. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU.

108 ARCHITECTURAL PRINT READING  
3.0 Units
ARCH 108 covers all aspects of architectural print reading including orthographic projection, basic view utilization, residential and commercial standards, dimensioning techniques, uniform building code (UBC), and architectural terminology including abbreviations and symbols. Note: ARCH 108 may not be taken for credit by students who have credit for ARCH 101, 102, 103, 105. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU.
113 INTRODUCTION TO GEOSPATIAL TECHNOLOGY FOR ARCHITECTS AND ENGINEERS
3.0 Units
ARCH 113 teaches the fundamentals of the Geographic Information System (GIS) software and its application in the Architectural and Engineering fields. Emphasis is placed on applied lessons to: create and modify maps, solve spatial analysis problems, and import/export data for use with Computer Aided Design (CAD) software. Lecture 2 hours/Laboratory 4 hours. Recommended Preparation: ENGR 109 and knowledge of Microsoft Excel.

120 RESIDENTIAL ARCHITECTURAL DESIGN I
3.0 Units
ARCH 120 presents a study of the numerous considerations required to build a two story dwelling. Discussion covers fundamentals of design, structural considerations, building code considerations, and techniques of construction. Lecture 1.5 hours/Laboratory 4.5 hours. Prerequisites: ARCH 102 or equivalent. Recommended Preparation: ENGR 109, ARCH 105, ARCH 250. Transfer Credit: CSU.

125 RESIDENTIAL ARCHITECTURAL DESIGN II
3.0 Units
ARCH 125 presents a study of the numerous considerations required to build a typical two story, four unit townhouse or apartment complex. Discussion reviews fundamentals of design, building code considerations, techniques of construction, working drawings and construction details. Additional work includes structural considerations, heating, insulation, sound proofing, sanitary systems, foundation design, presentation techniques, and model building techniques. Lecture 1.5 hours/Laboratory 4.5 hours. Prerequisite: ARCH 120 or equivalent. Recommended Preparation: ENGR 109, ARCH 250. Transfer Credit: CSU.

130 COMMERCIAL ARCHITECTURAL DESIGN I
3.0 Units
ARCH 130 is a study of the concepts of basic commercial building construction. Emphasis is placed on the planning and design of a small commercial retail center of concrete block construction. Current construction techniques and applicable building codes are covered. Lecture 1.5 hours/Laboratory 4.5 hours. Prerequisites: ARCH 102 or equivalent. Recommended Preparation: ARCH 120, ARCH 250. Transfer Credit: CSU.

135 COMMERCIAL ARCHITECTURAL DESIGN II
3.0 Units
ARCH 135 is a study of the concepts of two story commercial building construction. Emphasis is placed on the basic planning and design of medium sized, two-story commercial buildings of concrete block or tilt-wall construction. Current construction techniques and applicable building codes are covered. Lecture 1.5 hours/Laboratory 4.5 hours. Prerequisite: ARCH 130. Recommended Preparation: ENGR 109, ARCH 250. Transfer Credit: CSU.

141 INTERIOR DESIGN
3.0 Units
ARCH 141 begins with the study of the floor plan and architecture background and moves through the selection and arrangement of furniture, floor, and window treatments, lighting, and accessory planning. Emphasis is placed on the use of design elements such as color, line, shape, texture, pattern, space, and their interaction with one another in the interior environment. Note: This course may not be taken for credit by students who have completed ART 141. Lecture 1.5 hours/Laboratory 4.5 hours. Recommended Preparation: ARCH 101 or equivalent. Transfer Credit: CSU.

142 ADVANCED INTERIOR DESIGN
3.0 Units
ARCH 142 is a concentrated, in depth exploration of the dynamics of space planning and design, along with the design development phases for residential and commercial structures. The student develops drawings and studies models to describe the characteristics of the interior space and construction techniques of the structure. The complete design and documentation process is addressed including: building and program analysis, space planning, lighting design, colors, finishes, furniture, and accessories. Each component evolves from the schematic design phase, through design development, to the final presentation phase. Lecture 1.5 hours/Laboratory 4.5 hours. Prerequisite: ARCH 141 or ART 141 or equivalent. Transfer Credit: CSU.

150 BASIC RHINOCEROS APPLICATIONS
3.0 Units
ARCH 150 teaches the fundamentals of Rhinoceros software, its use as a design tool, and the ability to digitally fabricate the designs. Topics include freeform modeling in the NURBS (Non-Uniform Rational B-Splines) environment, complex surface editing, digital output, rendering, creating presentations, and integrating Rhinoceros with other CAD programs and into a productive workflow. Lecture 2 hours/Laboratory 4 hours. Recommended Preparation: ARCH 101 or ENGR 101 or equivalent.

229 INTRODUCTION TO 3DS MAX FOR ARCHITECTURE AND ENGINEERING
3.0 Units
ARCH 229 teaches the fundamentals of 3DS MAX and its use in the Architecture and Engineering industry. Topics include residential and commercial building walkthroughs, rendering, and lighting, adding textures and creating presentation files for residential and commercial architecture and engineering development. Current industry standard digital animation software will be used. Lecture 2 hours/Laboratory 4 hours. Prerequisite: ENGR 109 or ARCH 250, or equivalent.

230 ADVANCED 3DS MAX FOR ARCHITECTURE AND ENGINEERING
3.0 Units
ARCH 230 teaches advanced features of the 3DS MAX software program. Topics include advanced architectural and engineering projects, importing of drawing geometry from AutoCAD and other computer-aided design (CAD) programs, and advanced lighting and texturing techniques. Current industry standard digital animation software (3DS MAX) will be used. Lecture 2 hours/Laboratory 4 hours. Prerequisite: ARCH 229 or equivalent.
ARCH 240 provides instruction in the creation of an architectural portfolio. Topics include usage of software, page layout, and specific portfolio requirements for colleges. Also included is instruction to assemble a collection of sketches, ideas and written descriptions related to a project. Students will develop new or existing projects for use in their portfolio. Portfolios will be used for transfer purposes and as a record of work completed. Lecture 1 hour/Laboratory 4.5 hours. Prerequisite: ARCH 120, 130, and 250; or equivalent.

ARCH 250 teaches the fundamentals of the latest version of Autodesk Revit Architecture design software. Projects of a residential and commercial nature are utilized. Techniques used in the creation of floor plans, section views, elevations, schedules, and other construction documents are covered. Lecture 2 hours/Laboratory 4 hours. Prerequisite: ARCH 101 or equivalent.

ARCH 251 teaches the advanced features of the Autodesk Revit Architecture design software. Projects of a residential and commercial nature are utilized. Techniques used in the creation of floor plans, section views, elevations, schedules, and other construction documents are covered. Lecture 2 hours/Laboratory 4 hours. Prerequisite: ARCH 101 or equivalent.

ARCH 252 teaches the features of the latest versions of the Autodesk Revit MEP (Mechanical, Electrical and Piping) and the Revit Structure software programs. Topics include design and documentation of mechanical, electrical, and piping systems for commercial and residential structures; the use of structural components; the development of structural plans and details. Lecture 2 hours/Laboratory 4 hours. Prerequisite: ARCH 250 or equivalent.

ARMEN 101 BEGINNING ARMENIAN I
5.0 Units
ARMEN 101 covers the Armenian alphabet, its letters and their sounds, and the fundamentals of Armenian grammar. Students are taught to pronounce correctly, to acquire a practical vocabulary, and to understand, read, write, and speak simple Armenian. Basic knowledge of the Armenian Culture is presented. Note: This course may not be taken for credit by students who have completed ARMEN 115, 116 or 117. Students with oral proficiency or who have attended schools where Armenian was the language of instruction should enroll in ARMEN 115. Lecture 5 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring/Summer. Transfer Credit: CSU, UC, USC.

ARMEN 102 BEGINNING ARMENIAN II
5.0 Units
ARMEN 102 continues the development of fundamental language skills, including comprehension, reading, listening, and more advanced writing skills. The student continues to acquire a practical vocabulary for speaking everyday Armenian. Students read simple texts in poetry and prose that are culturally significant. Note: This class may not be taken for credit by students who have completed ARMEN 115, 116 or 117. Lecture 5 hours. Prerequisite: ARMEN 101 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

ARMEN 115 ARMENIAN FOR THE ARMENIAN SPEAKING I
5.0 Units
ARMEN 115 provides intensive training in oral and written Armenian for students who already have a familiarity with the language but little and/or no formal instruction in it. Students study the structure of the Armenian language, basic grammar, spelling rules, vocabulary, composition, and oral communication. Students read and discuss literary works in Armenian that are culturally significant. Note: This course may not be taken for credit by students who have completed ARMEN 101 or 102. Students with oral proficiency or who have attended schools where Armenian was the language of instruction should enroll in ARMEN 115. Lecture 5 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC.

ARMEN 116 ARMENIAN FOR THE ARMENIAN SPEAKING II
5.0 Units
ARMEN 116 continues to emphasize reading comprehension, composition, oral communication, spelling rules, intensive vocabulary, and a more advanced study of the structure of the Armenian language. Students read and discuss literary works that are culturally significant in Armenian. Note: This course may not be taken for credit by students who have completed ARMEN 101 or 102. Students with oral proficiency or who have attended schools where Armenian was the language of instruction should enroll in ARMEN 115, 116, or 117, depending on their level. Lecture 5 hours. Prerequisite: ARMEN 115 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

ARMEN 117 ARMENIAN FOR THE ARMENIAN SPEAKING III
5.0 Units
ARMEN 117 emphasizes critical thinking and writing skills using Armenian literature. Students read complete works of fiction and non-fiction, determine what questions those works raise, and discuss and write about their understanding of the texts which provide advanced vocabulary and grammatical structures. Students work to eliminate weaknesses in grammar. Emphasis is placed upon syntax, sentence structure, and idiomatic usage. Writing forms and strategies are taught within the contexts of contemporary ideas and cultural diversity as reflected in selected readings. Lecture 5 hours. Prerequisite: ARMEN 102 or 116 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

ARMEN 125 ANCIENT AND MEDIEVAL ARMENIAN LITERATURE
3.0 Units
ARMEN 125 provides students with a basic knowledge of Armenian literature and culture from the 5th to the 19th century. Topics covered include the characteristics and evolution of the Armenian language, an overview of Armenian mythology, and ancient and medieval literature. Lecture 3 hours. Prerequisite: ARMEN 102 or 115 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.
101H HONORS ART HISTORY: PREHISTORIC-GOTHIC
3.0 Units
ART 101H is a survey of architecture, painting, sculpture, and related art forms created by early western cultures and civilizations. The visual arts of prehistoric times, Mesopotamia, ancient Egypt, Greece, and Rome and the development of Christian art from its origins through the medieval era are discussed. Emphasis is placed on integrating the development of art forms with the geographic, social, political, philosophical, and religious characteristics of these cultures. The honors course will be enhanced in one or more of the following ways: 1. Students will take essay exams that require analysis of artworks in terms of style, subject matter, and social and historical context. 2. Students will read assignments prior to class sessions in order to use class time more productively for further analysis and discussion of specific examples. 3. Students will visit a local art museum and write an analysis of a work of art. This analysis must include a discussion of the subject matter and style of the artwork selected as well as a discussion of how it reflects the time in which the object was created. 5. Students will be required to write a traditional 5-10 page term paper on a topic relevant to the content of the course. This paper must be correctly cited and referenced. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC.

102 ART HISTORY: RENAISSANCE-MODERN
3.0 Units
ART 102 is a survey of western architecture, painting, and sculpture from the Renaissance to modern times. The visual arts of the Renaissance, Baroque, and Modern periods in Europe and the United States are discussed. Emphasis is placed on integrating the development of art forms with the geographic, social, political, philosophical, and religious characteristics of these cultures. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID ARTH 110)
ART 102H
HONORS ART HISTORY:
RENAISSANCE-MODERN
3.0 Units
ART 102H is a survey of western architecture, painting, and sculpture from the Renaissance to modern times. The visual arts of the Renaissance, Baroque, and Modern periods in Europe and the United States are discussed. Emphasis is placed on integrating the development of art forms with the geographic, social, political, philosophical, and religious characteristics of these cultures. The honors course will be enhanced in one or more of the following ways: 1. Students will take essay exams that require analysis of artworks in terms of style, subject matter, and social and historical context. 2. Students will read assignments prior to class sessions in order to use class time more productively for further analysis and discussion of specific examples. 3. Students will read and prepare a written analysis of one or more journal articles from scholarly art historical publications. 4. Students will visit a local art museum and write an analysis of a work of art. This analysis must include a discussion of the subject matter and style of the artwork selected as well as a discussion of how it reflects the time in which the object was created. 5. Students will be required to write a traditional 5-10 page term paper on a topic relevant to the content of the course. This paper must be correctly cited and referenced. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC.

ART 103
ANCIENT ART
3.0 Units
ART 103 is a survey of the architecture, painting and sculpture from their origins in prehistoric time through their development in ancient Egypt and Mesopotamia. The impact of these works on today's art is also considered. Lecture 3 hours. Recommended Preparation: ART 101. Transfer Credit: CSU, UC, USC.

ART 104
GREEK AND ROMAN ART
3.0 Units
ART 104 provides an in-depth study of the architecture, painting, and sculpture of ancient Greece and Rome. Emphasis is placed on the interaction of religious ideas, economic trends, philosophy, and politics of the period and the art objects that are produced during the time period. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

ART 105
MIDDLE ART
3.0 Units
ART 105 is a survey of the architecture, painting, and sculpture of the period between ancient Rome and the Renaissance. It introduces the student to the philosophical ideas, economic trends, and political events that produced the art of the period. Lecture 3 hours. Recommended Preparation: ART 101. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

ART 106
RENAISSANCE/BAROQUE ART
3.0 Units
ART 106 is a survey of the art, sculpture, and architecture in the West from the early Renaissance through the Baroque periods (1300-1750). Emphasis is placed on the interaction of religious ideas, economic trends, philosophy and politics of the period and the art objects that were produced during this time period. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC.

ART 107
MODERN ART
3.0 Units
ART 107 is a survey of the growth of Nineteenth and Twentieth Century trends in painting, sculpture, and architecture in Europe and the United States. It explores the relationship between contemporary art and our historical and social values. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

ART 108
ART OF THE EASTERN WORLD I
3.0 Units
ART 108 is a survey of the sculpture, painting, and architecture of India, China, Japan, Korea, and Persia from prehistoric times to 1200 A.D. It includes an introduction to the religious, philosophical, social and political ideas which influenced the art of these regions and times. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

ART 109
ART OF THE EASTERN WORLD II
3.0 Units
ART 109 is a survey of the sculpture, painting, and architecture of India, China, Southeast Asia, Japan, and the Islamic expansion in the Near East and Spain. The philosophical, social, and political ideas that produced Asian Art from 1200-1850 will also be considered. Note: for this course to be approved as meeting the C-ID requirement, the student must also successfully complete ART 108. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

ART 110
HISTORY OF WORLD CERAMICS
3.0 Units
ART 110 is a survey of the most important and influential periods of prehistoric, Mediterranean, European, Middle Eastern, Pre-Columbian, and Asian ceramic art. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

ART 111
PRE-COLUMBIAN ART OF THE AMERICAS
3.0 Units
ART 111 is a survey of the arts of Pre-Columbian Mesoamerica and Andean South America. Major monuments of sculpture, architecture, ceramics, and textiles from civilizations including the Maya, Aztec, and Inca are examined in their cultural contexts. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC. (C-ID ARTH 145)

ART 113
AMERICAN ART
3.0 Units
ART 113 is a survey of art covering major artists, stylistic movements, and cultural trends within the borders of the United States from the Colonial period to WWII. Emphasis is placed on the relationship between art of the United States and European culture, as well as the indigenous influences directing the artistic tradition. The course will concentrate on integrating the development of art forms with the geographic, social, political, philosophical and religious character of the culture. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

ART 115
SURVEY OF NON-WESTERN ART HISTORY
3.0 Units
ART 115 is a survey of the art outside the western European tradition, focusing on the major artistic traditions of Africa, Asia, Oceania, North America, and South America from ancient times up to the impact of European contact. The course will focus on the role of visual arts in non-western cultural perspectives, including models of sacred ritual, social authority, medium, and of the human form. Emphasis will be placed on recognition of major art works, their artistic traditions, and of what these reveal about the cultural norms and attitudes that produced them. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.
116  ART OF AFRICA, OCEANIA, AND NORTH AMERICA  
3.0 Units  
ART 116 is a survey of visual culture within select regions in Africa, Oceania, and indigenous North America emphasizing historical, religious, and socio-cultural contexts. The course will focus on the role of visual arts, including models of sacred ritual, social authority, medium, and of the human form. The relationship of art to its cultural perspective, including social status, gender, belief systems, the environment, and lifecycle stages, is also addressed. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC. (C-ID ARTH 140)  

118  WOMEN IN VISUAL ARTS  
3.0 Units  
ART 118 is an introduction to the history of women as artists in European and American traditions. Women's roles in non-Western cultures are also discussed as well as images of women in art. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.  

119  CONTEMPORARY ART  
3.0 Units  
ART 119 is a survey of contemporary art from 1945 to the present. The origins and full development of postmodern and subsequent aesthetic philosophies in the United States and Europe are discussed. Emphasis is placed on the emergence of non-traditional media, as well as painting and sculpture, within the social and political characteristics of the contemporary world. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.  

120  HISTORY OF WESTERN ARCHITECTURE FROM PREHISTORY TO 1300  
3.0 Units  
ART 120 follows the historical development of western architecture from prehistory to ca. 1300. Sites, buildings, and design will be examined in the context in which they were produced. Selected periods and cultures covered include: the Ancient Near East and Egypt, Aegean and Greece, Etruscan and Roman, Early Christian and Byzantine, Islamic, Carolingian and Ottonian, Romanesque, and Gothic. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.  

121  HISTORY OF ARCHITECTURE II  
3.0 Units  
ART 121 is a survey course of architectural styles from the Renaissance to the present. Note: This course may not be taken for credit by students who have completed ART 180 prior to Fall 1986 (History of Architecture). Lecture 3 hours. Prerequisite: None. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.  

125  MOTION PICTURE HISTORY AND CULTURE  
3.0 Units  
ART 125 is an introduction to the history of cinema from the perspective of its influence on popular culture, as well as the reverse influence of historic events and cultural shifts upon the creation of cinematic art. Other topics will include the assimilation of major artistic movements within the art of cinema, and the development of film theory. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.  

130  2-D FOUNDATIONS  
3.0 Units  
ART 130 is an introduction to the concepts, applications, and historical references related to two-dimensional art and composition. The course includes the study of the basic principles and elements of line, shape, texture, value, color and spatial illusion. Students will develop a visual vocabulary for creative expression. The course includes lecture presentations, studio projects, problem solving, and written assignments. Lecture 2 hours/Studio 1 hour. Prerequisite: None. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID ARTS 100) (Art Foundation Family)  

131  DESIGN II  
3.0 Units  
ART 131 is advanced study in two-dimensional art structure. The study is developed in a series of problems. Some problems concentrate on advanced color study, some on space manipulation, some on understanding (through practice) the current concepts at work in the fine and decorative art fields. Whenever possible problems reflect directions dominating the current art scene. Lecture 2 hours/Studio 1 hour. Prerequisite: ART 130 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (Art Foundation Family)  

132  TYPOGRAPHY  
3.0 Units  
ART 132 is an introduction to the history, theory and application of letter forms and typography as they apply to graphics, advertising and other disciplines within design and visual communication. Projects cover principles of typography, letter structure, typeface selection, fundamentals of computer typesetting and typographic layout. Lecture 2 hours/Studio 3 hours. Prerequisite: ART 130 or equivalent. Recommended Preparation: ART 133. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.  

133  DIGITAL ILLUSTRATION  
3.0 Units  
ART 133 is a beginning level digital illustration course. Students explore illustration style, problem solving, and the creative use of Adobe Illustrator on the Macintosh computer. Students create projects using course information. The course covers various problem solving methods, appropriate solutions for spot illustrations, and basic Illustrator tools: palettes, creating and converting anchor points, creating and reshaping paths, basic coloring, gradients, layers, and creating, styling, and editing type. Lecture 2 hours/Laboratory 3 hours. Recommended Preparation: ART 150 or equivalent. Course Typically Offered: Fall/Spring.  

134  GRAPHIC DESIGN FOUNDATIONS  
3.0 Units  
ART 134 is an introduction to the tools and techniques of graphic design problem solving. The history of graphic design is integrated as a foundation for current technique. Adobe InDesign on the Macintosh platform is the primary software utilized for the final production of assigned projects. Students explore aspects of graphic imagery, typography, and layout. The creation of portfolio level work is stressed throughout the course. Presentation skills necessary to communicate with future clients are introduced. Critiques focus on appropriate solutions, visual interest, and craftsmanship. Lecture 2 hours/Laboratory 3 hours. Prerequisite: ART 132 or equivalent. Recommended Preparation: ART 133 or equivalent, PHOTO 121 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.
135   DIGITAL PUBLICATION DESIGN
3.0 Units

ART 135 focuses on the principles of graphic design to create layouts that can be viewed across multiple platforms. Emphasis is placed on industry standard software such as Adobe InDesign, on the Macintosh platform. Students integrate typography and graphics to create a variety of projects that explore the technical and aesthetic nature of digital publication design through print and electronic publication (EPUB). The creation of portfolio level work is stressed throughout the course. Verbal and visual presentation skills necessary to communicate with future clients are emphasized. Critiques focus on appropriate solutions, visual interest and craftsmanship. Lecture 2 hours/Laboratory 3 hours. Prerequisite: ART 132 or equivalent. Recommended Preparation: ART 133, 134, and, PHOTO 121 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

136   GRAPHIC DESIGN IDENTITY AND LOGO DEVELOPMENT
3.0 Units

ART 136 focuses on the creation of logos for use as a distinctive symbol of a company, object, publication, person, service, or idea. Emphasis is placed on the basic graphic design principles of typography and color as well as overall layout, to create effective visual communication. The creation of portfolio level work is stressed throughout the course. During class critiques of assigned projects, the verbal and visual presentation skills necessary to communicate with future clients are a priority. Critiques focus on appropriate solutions, visual interest, and craftsmanship. Lecture 2 hours/Laboratory 3 hours. Prerequisite: ART 135 or equivalent Recommended Preparation: ART 132, ART 133, or equivalent, ART 134 or equivalent, ART 135 or equivalent. Course Typically Offered: Spring. Transfer Credit: CSU.

137   GRAPHIC DESIGN PORTFOLIO
3.0 Units

ART 137 provides students with instruction in the development of a graphic design portfolio, representative of technical and creative skills and career objectives. Portfolio organization, resume presentation and overall Graphic Design skills are stressed. Students are required to develop a portfolio using current technology, and existing portfolio pieces as well as established approaches and practices that have remained constant and continue to apply to all types of presentations. Critiques focus on appropriate solutions, visual interest, and craftsmanship. Lecture 2 hours/Laboratory 3 hours. Prerequisite: ART 136 or equivalent. Recommended Preparation: ART 132 or equivalent, ART 133 or equivalent, ART 134 or equivalent, ART 135 or equivalent. Course Typically Offered: Fall. Transfer Credit: CSU.

138   3-D FOUNDATIONS
3.0 Units

ART 138 is an introduction to the concepts, applications, and historical references related to three-dimensional design and spatial composition, including the study of the elements and organizing principles of design as they apply to three-dimensional space and form. Students develop a visual vocabulary for creative expression through lecture presentations and use of appropriate materials for non-representational three-dimensional studio projects. Lecture 2.5 hours/Laboratory 1.5 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID ARTS 101)

139   INTRODUCTION TO PRE-PRESS
3.0 Units

ART 139 is an introduction to pre-press for those desiring retraining and those entering the field. Current pre-press concerns and trends are analyzed and discussed. Topics include: computer software and hardware, chromatics, images, documents, networks and communication, output, reviewing and proofing, paper, and printing. Lecture 2 hours/Studio 4 hours. Prerequisite: None. 

141   INTERIOR DESIGN
3.0 Units

ART 141 begins with the study of the floor plan and architecture background and moves through the selection and arrangement of furniture, floor, and window treatments, lighting, and accessory planning. Emphasis is placed on the use of design elements such as color, line, shape, texture, pattern, space, and their interaction with one another in the interior environment. Note: This course may not be taken for credit by students who have completed ARCH 141. Lecture 1.5 hours/Laboratory 4.5 hours. Recommended Preparation: ARCH 101 or equivalent. Transfer Credit: CSU.

144   COLOR THEORY
3.0 Units

ART 144 focuses on the study of the principles, theories, and applications of additive and subtractive color in two dimensions. Topics include major historical and contemporary color systems, production of projects in applied color, and the elements of design as they apply to color. Lecture 2 hours/Studio 2 hours. Prerequisite: ART 130 or equivalent. Transfer Credit: CSU. (C-ID ARTS 270)

150   DRAWING FOUNDATIONS
3.0 Units

ART 150 is an introduction to principles, elements, and practices of drawing, employing a wide range of subject matter and drawing media. The course focuses on perceptually based drawing, observational skills, technical abilities, and creative responses to materials and subject matter. Lecture 2 hours/Studio 2 hours. Recommended Preparation: ART 130 or equivalent. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID ARTS 110) (Art Foundation Family)

151   INTERMEDIATE DRAWING
3.0 Units

ART 151 is an exploration of artistic concepts, styles, and creative expression related to intermediate-level drawing. The course focuses on complex subject matter and concepts using a variety of drawing mediums, techniques, and methodologies. Students in this course build on fundamental drawing skills to develop personalized approaches to content and materials in exercises covering multiple historical and contemporary approaches to drawing. Lecture 2 hours/Studio 2 hours. Prerequisite: ART 150 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID ARTS 205) (Art Foundation Family)
152 **FIGURE DRAWING**  
3.0 Units  
ART 152 is an introduction to drawing the human figure from observation using a wide variety of drawing media and techniques. Topics include an introduction to human anatomy and the historical and contemporary roles of figure drawing in the visual arts. Students in this course will learn both descriptive and interpretive approaches to drawing the figure. Lecture 2 hours/Studio 2 hours. **Prerequisite:** ART 150 or equivalent.  
**Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC. (C-ID ARTS 200)  
(Life Drawing Family)

158 **LIFE DRAWING LABORATORY**  
1.0 Unit  
**NON-DEGREE APPLICABLE**  
ART 158 enables life drawing students to have additional supervised life drawing studio time, and to increase their technical drawing and design skills relative to current enrollment in a life drawing course.  
**Note:** This is a Pass/No Pass only. Laboratory 3 hours. **Prerequisite:** None. **Corequisite:** Enrollment in one of the following: ART 152 or 201 or 205, or 206. **Course Typically Offered:** Fall/Spring. (Life Drawing Family)

160 **PAINTING I**  
3.0 Units  
ART 160 develops skill, technique, and composition in drawing and painting, using media such as oils and acrylics. Problems include representation and abstraction. Lecture 2 hours/Studio 2 hours. **Prerequisite:** ART 150 or equivalent. (ART 150 may be taken concurrently.) **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC. (C-ID ARTS 210) (Oil Media Family)

161 **PAINTING II**  
3.0 Units  
ART 161 is the application of principles, theories and techniques of drawing and painting to problems of still life, figure, landscape, and non-objective painting. Lecture 2 hours/Studio 2 hours. **Prerequisite:** ART 160 or equivalent. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC. (Oil Media Family)

164 **WATER COLOR I**  
3.0 Units  
ART 164 is a study of water color medium and techniques. The problems of painting are directed with a regard for special qualities of water color. Class assignments include various approaches to landscape painting, still life, and figure painting. Other studio problems emphasizing abstraction and non-objective painting are explored. Outdoor painting trips are used to help gain experience and skills in landscape painting. Lecture 2.5 hours/Laboratory 1.5 hours. **Prerequisite:** ART 150 or equivalent. (ART 150 may be taken concurrently.) **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC. (Water Media Family)

165 **WATER COLOR II**  
3.0 Units  
ART 165 is a continuation of the study of water color painting for the more advanced student. The application of general principles and theories of painting in reference to the special qualities of the water color medium is expanded. Class problems include experimentation of a variety of techniques and stylistic approaches. Individual interpretation and expression are encouraged. Lecture 2.5 hours/Laboratory 1.5 hours. **Prerequisite:** ART 164 or equivalent. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC. (Water Media Family)

166 **FIGURE PAINTING**  
3.0 Units  
ART 166 is an intermediate studio art course that focuses on painting the human figure from life. Students will combine their knowledge of life drawing and painting to complete a series of figure paintings. Class time will include material demonstrations of techniques in painting, lectures focused on classical and contemporary approaches to the human body, and studio practice from live models. This course will also emphasize color mixing as it relates to figureation and will address advanced topics in composition and aesthetics. Lecture 2 hours/Studio 2 hours. **Prerequisite:** ART 152 or equivalent. **Recommended Preparation:** ART 160. **Course Typically Offered:** Fall/Spring. (Oil Media Family)

170 **PRINTMAKING I**  
3.0 Units  
ART 170 is an introduction to various printing processes including linoleum cuts, woodcuts, engraving, drypoint, etching, and aquatint. Creative personal approaches to printmaking are encouraged. Technical and expressive qualities of the various media are explored. Lecture 2 hours/Studio 2 hours. **Prerequisite:** ART 130 or 150 or equivalent. **Course Typically Offered:** Spring. **Transfer Credit:** CSU, UC, USC. (C-ID ARTS 220) (Print Making Family)

171 **PRINTMAKING II**  
3.0 Units  
ART 171 explores various approaches and techniques of intaglio printing with special emphasis on color printing. Lecture 2 hours/Studio 2 hours. **Prerequisite:** ART 170 or equivalent. **Course Typically Offered:** Spring. **Transfer Credit:** CSU, UC, USC. (Print Making Family)
### 179 PORTFOLIO PRESENTATION FOR STUDIO ARTISTS
3.0 Units

ART 179 is an intermediate studio art course that assists students with preparation of a professional quality fine-art portfolio for use in transfer, exhibition, or employment. Students will refine and develop a coherent body of artwork that reflects their technical skill, creativity, and style. Students will also learn to write artist statements and artist resumes, document their work in photographic and digital form, and sharpen their presentation skills. Lecture 2 hours/Studio 2 hours. **Prerequisite:** ART 130 or equivalent. **Recommended Preparation:** ART 152. (Special Projects Family)

### 180 SCULPTURE FUNDAMENTALS
3.0 Units

ART 180 is an introduction to three-dimensional sculptural principles, techniques, and concepts utilizing a wide range of materials and practices. Various sculpture methods are practiced with attention to creative self-expression and historical context. Lecture 2 hours/Studio 2 hours. **Prerequisite:** ART 130 or equivalent. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC. (C-ID ARTS 240) (Sculpture Family)

### 181 SCULPTURE II
3.0 Units

ART 181 allows the student to continue explorations into the sculptural discipline. A series of sculptural problems, including modeling the complete figure in clay, building three-dimensional forms with plaster and wire armature, carving in hard stone such as alabaster, carving in wood, construction and assemblage, and mixed media are studied in depth. Emphasis is on mastery of technique, further development of aesthetic and conceptual consideration, and self-motivation. The instructor works with each student on an individual basis to provide technical and conceptual assistance. Lecture 2 hours/Studio 2 hours. **Prerequisite:** ART 180 or equivalent. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC (Sculpture Family).

### 186 CERAMICS I
3.0 Units

ART 186 is an introductory study in the field of ceramics. Students learn various forming techniques, with an emphasis on wheel throwing and the production of functional pottery forms. Surface design techniques, such as stamping, carving, slip and oxide decoration, wax resist and glaze application methods are covered. Introductory clay and glaze composition are covered as well as basic kiln design. Lecture 2 hours/Studio 2 hours. **Prerequisite:** None. **Course Typically Offered:** Winter/Spring/Summer/Fall. **Transfer Credit:** CSU, UC, USC. (C-ID ARTS 230) (Ceramics Family)

### 187 CERAMICS II
3.0 Units

ART 187 is a continued study in the fundamentals of the ceramic process that focuses on wheel throwing techniques. These skills are sharpened by concentrated exercises to increase the student’s ability to produce work of greater quality, size, and range of form. Students research, formulate, and test a glaze of their own choice. Various methods of firing ceramic vessels are explored. Lecture 2 hours/Studio 2 hours. **Prerequisite:** ART 186 or equivalent. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC (Ceramics Family).

### 188 ADVANCED CERAMICS I
3.0 Units

ART 188 is an advanced course involving work on the potter’s wheel requiring consistency and accuracy of results. Students learn how to create ceramic vessels of matching sizes and shapes by designing and forming multiples and sets of objects. Awareness of three-dimensional form and surface design are heightened by individual and group critiques. The students work towards a more individual statement by further experimentation with a variety of clay bodies, glazes, and firing techniques. Under supervision the students assist in a loading and firing of kilns. Lecture 2 hours/Studio 2 hours. **Prerequisite:** ART 187 or equivalent. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC. (Ceramics Family)

### 189 ADVANCED CERAMICS II
3.0 Units

ART 189 is a course designed for the advanced student who wishes to pursue an individual direction in depth. Students propose a semester research project, concentrating on specific techniques, materials, and firing procedures. Upon instructor approval of the proposal, students are expected to work semi-independently, formulating personal clay bodies, glazes, and firing techniques. Reading and research assignments are made where applicable. A written analysis of a current ceramic exhibition is required. Lecture 2 hours/Studio 2 hours. **Prerequisite:** ART 188 or equivalent. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC. (Ceramics Family)

### 190 CERAMIC HANDBUILDING
3.0 Units

ART 190 is an introduction to basic ceramic hand-building techniques and processes. Traditional methods of forming, joinery, and construction are introduced. Students learn to design and analyze functional and nonfunctional objects. The class explores traditional hand-built pottery as well as contemporary, expressive, hand-built forms. Lecture 2 hours/Studio 2 hours. **Prerequisite:** None. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC. (Ceramics Handbuilding Family)

### 191 ADVANCED CERAMIC HANDBUILDING
3.0 Units

ART 191 allows the students to explore complex problems of design and construction. They work with the ceramic medium in conjunction with other materials while exploring possibilities of designing for architecture. In-depth studies of surface design and decorative techniques are included. Lecture 2 hours/Studio 2 hours. **Prerequisite:** ART 190 or equivalent. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC. (Ceramics Handbuilding Family)
192 
**EARTENWARE**

**3.0 Units**

ART 192 is an intermediate course in ceramics, dealing specifically with earthenware, or low-fired ceramics. A variety of forming techniques are studied, including slab and wheel. Students experiment with earthenware clay bodies, glazes, underglazes, and slips. Specific projects involve glaze formulation and testing, underglazing, majolica (in-glaze painting), and overglazing (lusters, China paints, and decals). Lecture 2 hours/Studio 2 hours. **Prerequisite:** ART 186 or 190 or equivalent. **Recommended Preparation:** ART 130. **Transfer Credit:** CSU, UC, USC.

193 
**RAKU**

**3.0 Units**

ART 193 is an introductory course in ceramics dealing exclusively with the raku firing process. Projects are drawn from a variety of forming methods including coil, slab, pinch and wheel, which will be fired by the Japanese raku process. Students prepare Raku clays and glazes to use in the execution of their projects. Lecture 2 hours/Studio 2 hours. **Prerequisite:** ART 186 or 190 or equivalent. **Recommended Preparation:** ART 130. Course Typically Offered: Fall. **Transfer Credit:** CSU, UC, USC.

194 
**ADVANCED RAKU**

**3.0 Units**

ART 194 is an advanced course in ceramics dealing exclusively with the raku firing process. Students propose and execute an advanced research project in Raku forming and firing techniques. Students develop and select Raku clays, glazes, and firing techniques to use in the execution of their research project. Advanced firing procedures are emphasized. Lecture 2.5 hours/Laboratory 1.5 hours. **Prerequisite:** ART 193 or equivalent. **Transfer Credit:** CSU.

195 
**GLAZE CALCULATION**

**3.0 Units**

ART 195 is an introduction to basic glaze and clay calculations. The students learn to calculate molecular weights, molecular glaze formulas, and batch recipes. Students use general glaze theory with calculating procedures to analyze and substitute (or create from the beginning) glazes and clay bodies. The course involves simple arithmetical computations and includes certain ceramic laboratory skills and safety precautions for handling chemicals. This course prepares the student for employment in the ceramic industry. Lecture 2 hours/Studio 2 hours. **Prerequisite:** ART 187 or 191.

196 
**ADVANCED EARTENWARE**

**3.0 Units**

ART 196 is an advanced course in ceramics, dealing specifically with earthenware, or low-fired ceramics. Students experiment with earthenware clay bodies, glazes, underglazes, and slips. Students propose an individual research project to study a specific earthenware technique in depth. Students may choose to focus on glaze formulation and testing, underglazing, majolica (in-glaze painting), or overglazing (lusters, China paints, and decal). Students learn technique specific loading and firing techniques for the electric kiln. Oxidation firing effects will be explored. Lecture 2 hours/Studio 2 hours. **Prerequisite:** ART 192 or equivalent. **Transfer Credit:** CSU.

199 
**HISTORY OF PHOTOGRAPHY**

**3.0 Units**

ART 199 is a survey of international photography from its beginnings through contemporary developments in the field. Students examine photography as a medium of artistic and social communication. Lecture 3 hours. **Prerequisite:** None. **Course Typically Offered:** Spring. **Transfer Credit:** CSU, UC, USC.

201 
**DRAWING FOR ANIMATION**

**3.0 Units**

ART 201 introduces students to drawing for animation. Learning to draw from the imagination is a primary goal of this course. Students learn to analyze and construct the human figure and animals as well as to create environments for animated characters. Topics discussed include gesture and attitude drawings. Lecture 2 hours/Studio 2 hours. **Prerequisite:** ART 152 or equivalent. **Recommended Preparation:** ART 130. Course Typically Offered: Fall. **Transfer Credit:** CSU.

205 
**FUNDAMENTALS OF ANIMATION I**

**3.0 Units**

ART 205 provides students with instruction in the fundamental principles of traditional animation with a focus on timing. Students learn to apply drawing and observation skills to a series of animation pencil tests. Principles such as squash and stretch, overlapping action, and anticipation are discussed. Other topics include creating effective key poses and attitude drawings. Lecture 2 hours/Studio 2 hours. **Prerequisite:** ART 201 or equivalent. **Recommended Preparation:** ART 130.

206 
**FUNDAMENTALS OF ANIMATION II**

**3.0 Units**

ART 206 provides students with the opportunity to conceive and execute an animated short film, which requires the student to use representational skills in service of expressing a well-designed story idea. Lecture 2 hours/Studio 2 hours. **Prerequisite:** ART 205 or equivalent. **Recommended Preparation:** ART 130. **Note:** May be taken 2 times for credit.

209 
**INTRODUCTION TO CHARACTER DESIGN**

**3.0 Units**

ART 209 introduces students to character design for animation. Students explore and develop traits of particular characters and particular archetypes. Students draw from life as well as from the imagination. Topics to be discussed include shape, silhouette, color, caricature, underlying structure, and costume. Students will be expected to keep a sketchbook and to create model sheets for their own personal designs. Lecture 2 hours/Studio 2 hours. **Prerequisite:** None. **Transfer Credit:** CSU.

210 
**INTRODUCTION TO ANIMATION STORYBOARD**

**3.0 Units**

ART 210 prepares students to analyze scripts and to represent stories visually for animation. Students explore how elements of cinematic storytelling such as composition, staging and editing are used to support and enhance story. Acting for animation and producing industry-standard storyboards are discussed. Lecture 2 hours/Studio 2 hours. **Prerequisite:** ART 201 or equivalent. **Course Typically Offered:** Spring.

220 
**INTRODUCTION TO MOTION GRAPHICS**

**3.0 Units**

ART 220 provides students with introductory instruction in motion graphics, compositing, visual effects, and animation techniques using Adobe After Effects. Students learn to use digitally scanned photography or artwork, vector based content, video, and audio to create animated sequences. Fundamental aesthetic concepts in creating motion graphics are covered, including composition, color, motion, and timing. Students are exposed to basic technical concepts, such as aspect ratio, output type, and compression/decompression. Lecture 2 hours/Studio 2 hours. **Prerequisite:** PHOTO 121 or equivalent. **Course Typically Offered:** Fall/Spring.
221 ADVANCED MOTION GRAPHICS
3.0 Units
ART 221 provides students with advanced instruction in motion graphics and compositing techniques using Adobe After Effects. Students learn to create broadcast-quality motion graphic animations. Building on the skills learned in ART 220, students are required in this course to realize their designs with a high degree of fidelity to their original design concepts. Lecture 2 hours/Studio 2 hours. Prerequisite: ART 220 or equivalent. Course Typically Offered: Fall/Spring.

229 INTRODUCTION TO 3D STUDIO MAX
1.5 Units
ART 229 teaches the fundamentals of 3DS MAX. Students will acquire basic modeling, rendering, lighting, texturing, and animation skills. Issues associated with creating presentation files for product development will be discussed. Note: Current industry standard digital animation software will be used. Lecture 1 hour/Studio 2 hours. Recommended Preparation: Basic computer skills.

230 INTRODUCTION TO 3D COMPUTER GRAPHICS
3.0 Units
ART 230 introduces students to the Maya user interface and essential modeling, rendering, character set up, and animation tools and techniques. This course is intended to provide the student with an understanding of theoretical concepts required for future projects. Note: Current industry standard digital animation software will be used. Lecture 2 hours/Studio 2 hours. Recommended Preparation: CABOT 206 and ART 152. Course Typically Offered: Winter/Spring/Summer/Fall.

231 INORGANIC MODELING
3.0 Units
ART 231 provides foundation instruction in the modeling of inorganic objects, such as vehicles, furniture, or buildings. The course begins with a thorough review of the modeling interface. Students learn to apply polygonal modeling techniques to create game-ready or cinema-ready three-dimensional objects. Methods of optimizing geometries for output are covered. Note: Current industry standard digital animation software (Maya) will be used. Lecture 2 hours/Studio 2 hours. Recommended Preparation: ART 230 or equivalent. Course Typically Offered: Fall/Spring.

232 ORGANIC MODELING
3.0 Units
ART 232 provides instruction in the modeling of organic objects, such as the human body, the body of an animal, or a fantasy character. Students learn to apply polygon and non uniform rational b-spline (NURBS) modeling techniques to create game-ready or cinema-ready three-dimensional computer graphic (CG) characters. Note: Current industry standard digital animation software will be used. Lecture 2 hours/Studio 2 hours. Prerequisite: ART 231 or equivalent. Course Typically Offered: Fall/Spring.

233 CHARACTER SET-UP/KINEMATICS
3.0 Units
ART 233 provides students with training in character set-up techniques. The course begins with a thorough review of the animation and character set-up toolset. Skills taught include installation of the skeleton within wireframe mesh, establishment of animation controls such as inverse kinematic (IK) handles and set-driven-key relationships, and binding of mesh to skeleton using rigid and smooth models. Note: Current industry standard digital animation software (Maya) will be used. Lecture 2 hours/Studio 2 hours. Recommended Preparation: ART 230 or equivalent. Course Typically Offered: Fall/Spring.

234 ADVANCED 3D CHARACTER SET-UP
3.0 Units
ART 234 provides students with advanced training in character set-up techniques. Skills covered include binding of the character using joints and influence objects, installation and modification of the Full-Body Inverse kinematic (FBIK) skeleton, the creation of blendshape targets, and the facial animation control system. The student will be encouraged to design a character set-up and test it for use in an animated scene. Note: Current industry standard digital animation software will be used. Lecture 2 hours/Studio 2 hours. Prerequisite: ART 233 or equivalent. Course Typically Offered: Fall/Spring.

235 3D CHARACTER ANIMATION
3.0 Units
ART 235 provides students with three-dimensional (3-D) character animation training. The course begins with a thorough review of the animation toolset. Equal emphasis is placed on technical competence and aesthetic sensitivity. Topics covered include animation controls to pose a character, forward and inverse kinematic animation, keyframes and breakdowns, timing and movement, and audio/dialog track. Note: Current industry standard digital animation software (Maya) will be used. Lecture 2 hours/Studio 2 hours. Recommended Preparation: ART 230 or equivalent. Course Typically Offered: Fall.

237 CREATING TEXTURES FOR 3D ANIMATION
3.0 Units
ART 237 provides introductory instruction in the theory and practice of texturing three dimensional (3-D) computer graphic objects. The course begins with a thorough general review of the Maya interface. Maya’s rendering module is then discussed in depth so that students understand thoroughly how texturing functions within the overall rendering process. Students learn how to unwrap UV’s on a polygon object and create a UV snapshot. Note: Current industry standard digital animation software (Maya) will be used. Lecture 2 hours/Studio 2 hours. Prerequisite: ART 230 or equivalent.

238 ADVANCED TEXTURING FOR 3D ANIMATION
3.0 Units
ART 238 provides instruction in advanced texturing of 3-D objects for integration into a 3-D game environment or photo-real cinematic sequence. This class is entirely project-based. The instructor leads the students through the texturing process for a 3-D character and a complex inorganic object. The process of unwrapping UV’s and painting textures in Photoshop is covered with the focus on developing real world production skills. Note: Current industry standard digital animation software will be used. Lecture 2 hours/Studio 2 hours. Prerequisites: ART 237 or equivalent.
240 INTRODUCTION TO JEWELRY
3.0 Units
ART 240 is an introduction to fundamental jewelry/metal-smithing techniques and materials with emphasis on design, fabrication, forming, and casting. Techniques include: piercing, soldering, finishing, patinas, bezel setting stones, and lost wax casting. Lecture 2 hours/Studio 2 hours. Prerequisite: None. Transfer Credit: CSU.

241 INTERMEDIATE JEWELRY
3.0 Units
ART 241 is a continued study in the fundamentals of jewelry and metal-smithing. Students will gain greater proficiency in fabrication, forming, and casting while exploring articulated and embellished forms. Class experience will cover jewelry concepts, design, production, and presentation. Lecture 2 hours/Studio 2 hours. Prerequisite: ART 240 or equivalent. Note: May be taken 3 times for credit. Transfer Credit: CSU.

245 DIGITAL SCULPTURE I
3.0 Units
ART 245 provides students with foundation instruction in digital character sculpture, enabling students to create a basic polygonal mesh in Maya, import this mesh into a digital sculpture software application, and then use the software to add sculptural and textural detail to it. The entire toolset of the digital sculpture software is covered, in addition to practical concerns involved in integrating digital sculptural content into movies or games. Note: Current industry standard digital animation software (ZBrush or Mudbox) will be used. Lecture 2 hours/Studio 2 hours. Recommended Preparation: ART 230 or equivalent. Course Typically Offered: Fall/Spring.

246 DIGITAL SCULPTURE II
3.0 Units
ART 246 provides students with advanced instruction in digital character sculpture, building on skills acquired in Art 245. At the end of the course, students will sculpt and texture a highly realistic digital character. The course is project-based and runs as a traditional art studio course, with the instructor guiding students through the stages of character creation. Note: Current industry standard digital animation software will be used. Lecture 2 hours/Studio 2 hours. Prerequisite: ART 245 or equivalent. Course Typically Offered: Fall/Spring.

247 PORTFOLIO DEVELOPMENT-ANIMATION
3.0 Units
ART 247 provides students with instruction in marketing their skills to the video game and digital animation industry. Students receive guidance in preparing still images and movies so that they are of the quality required for presentation. Students are required to participate in online digital animation message boards and to set up their own weblogs to share their projects with others. Lecture 2 hours/Studio 2 hours. Prerequisite: ART 221, 232, 234, 235, 238, or 246. Note: May be taken 2 times for credit.

250 WEB GRAPHICS
3.0 Units
ART 250 is an introductory Web graphic course that covers Web design principles and Web graphic creation and preparation for use in the design of Web sites. Emphasis is placed on project planning and Web environment issues that affect design. Students create assigned projects with industry standard software: Adobe Illustrator and Photoshop. Concept and design are emphasized throughout the course. Lecture 2 hours/Laboratory 3 hours. Recommended Preparation: ART 133, PHOTO 121. Course Typically Offered: Fall/Spring.

255 WEB MOTION GRAPHICS
3.0 Units
ART 255 is a Web and device design course using industry standard software to create spot and full-page interactive, vector-based animations for publication to multiple platforms for use on desktop and mobile devices. Design quality and concept are emphasized throughout the course. Lecture 2 hours/Laboratory 3 hours. Prerequisite: ART 250 or equivalent. Course Typically Offered: Spring.

257 ADVANCED WEB DESIGN WITH FLASH
4.0 Units
ART 257 is an Adobe Flash course that covers Action Scripting for Web designers. Emphasis is placed on project planning and Web environment issues that affect design. Students create projects with industry standard software such as Adobe Illustrator in addition to Adobe Flash. Aesthetic presentation and its relationship to design ergonomics are emphasized throughout the course. Lecture 2 hours/Studio 4 hours. Prerequisite: ART/PHOTO 255 or equivalent.

267 INTRODUCTION TO GAME DEVELOPMENT
3.0 Units
ART 267 presents a detailed overview of the game development process, addressing subjects such as game technologies, content creation strategies, production techniques, game psychology, and criteria that determine game success. Career paths in the game entertainment field will be discussed, as well as the history of video game design and programming. The student will examine future industry predictions and the Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall.

268 GAME PLAY MECHANICS AND PROTOTYPING
3.0 Units
ART 268 trains students in the design of a complete game concept document. Lectures will focus on case studies of successful games and game concept presentations, with special attention paid to the factors that make a game concept marketable both conceptually and in terms of gameplay. Students will be given assignments to analyze the strengths and weaknesses of game design proposals. Game authoring software will be fully described so that students are able to envision using software components to create game content. The class ends with a final project in which students create and present their own game concept documents. Lecture/Demonstration 3 hours. Recommended Preparation: ART 267 or CS/IS 267, or equivalent. Course Typically Offered: Spring.
ART 270

3D GAME LEVEL DESIGN I

3.0 Units

ART 270 introduces students to the tools and concepts used to create levels for games and simulations using a level design editor. Students will apply basic principles of game design, including the design of rules, a core game mechanic, victory, and loss conditions using industry-standard game development tools. Current industry-standard game development software will be used. Lecture/Demonstration 4 hours. Prerequisite: ART 267 or CS/IS 267, or equivalent. Recommended Preparation: ART 230. Course Typically Offered: Fall.

ART 271

3D GAME LEVEL DESIGN II

3.0 Units

ART 271 covers advanced subjects in 3D Game Level Design, such as material construction, volumes, physics objects, particle systems, and the game environment animation system. Students will be encouraged to incorporate externally generated content into the game environment. Current industry standard game development software will be used. Lecture/Demonstration 4 hours. Prerequisite: ART 270 or equivalent. Recommended Preparation: ART 231, ART 235, ART 237, or ART 245. Course Typically Offered: Fall.

ART 280

CURRENT TECHNIQUES AND TRENDS IN STUDIO ARTS

3.0 Units

ART 280 is an intermediate studio art course that considers alternative technical and practical methods in drawing, painting, printmaking, and mixed-media art. The course will examine trends in the studio techniques, fabrication processes, and presentation methods of currently exhibiting fine artists. The course will encourage students to apply these non-traditional methods to the ways they conceive, plan, execute and exhibit their own work. Lecture 2 hours/Studio 2 hours. Prerequisite: ART 130 or equivalent. Recommended Preparation: ART 150, and 152 or 160. Transfer Credit: CSU.

ART 282

METHODS IN WOOD SCULPTURE

3.0 Units

ART 282 explores a variety of techniques in basic wood working for the sculptor. Using both hand tools and power tools, students become familiar with the procedures for creating an object from wood. There will be an emphasis on safety in the shop. Lecture 2 hours/Studio 2 hours. Recommended Preparation: ART 138 or equivalent; eligibility for ENGL 191 or ESL 141.

ART 285

SCULPTURE LAB

1.0 Unit

NON-DEGREE APPLICABLE

ART 285 enables sculpture students to have additional supervised studio time, and to increase their laboratory skills relative to concurrent enrollment in sculpture classes. Laboratory 3 hours. Prerequisite: None. Corequisite: Enrollment in one of the following: ART or 138 or 180 or 181. Course Typically Offered: Fall/Spring.

ART 286

PORTRAIT SCULPTURE

3.0 Units

ART 286 is an introduction to traditional and contemporary portrait sculpture. Students learn technical modeling and casting skills, the physical and expressive possibilities of the human head, and appropriate use of tools and materials. Lecture 2 hours/Studio 2 hours. Recommended Preparation: ART 138 or equivalent, ART 180 or equivalent, and eligibility for ENGL 191 or ESL 141.

ART 287

ANATOMY FOR THE SCULPTOR

3.0 Units

ART 287 introduces the sculptor to human anatomy through the ecorche technique. Using a live model and other references, the student will sculpt a human figure from the skeleton up through the musculature to the fatty tissues and the skin. The medium will be the industry standard polymer clay on an aluminum armature. Lecture 2 hours/Studio 2 hours. Recommended Preparation: ART 138 or equivalent, ART 180 or equivalent, and eligibility for ENGL 191 or ESL 141.

ART 288

THREE-DIMENSIONAL DESIGN LAB

1.0 Unit

NON-DEGREE APPLICABLE

ART 288 enables 3-D design students to have additional supervised studio time, and to increase their laboratory skills relative to concurrent enrollment in 3-D design classes. Studio 4 hours. Corequisite: ART 138. Course Typically Offered: Fall/Spring.

ART 289

METHODS IN WOOD ENGRAVING

3.0 Units

ART 289 explores a variety of techniques in wood engraving. Using both hand tools and power tools, students become familiar with the procedures for creating an object from wood. There will be an emphasis on safety in the shop. Lecture 2 hours/Studio 2 hours. Recommended Preparation: ART 138 or equivalent; eligibility for ENGL 191 or ESL 141.

ART 292

BOOK MAKING LAB

1.0 Unit

NON-DEGREE APPLICABLE

ART 292 enables book makers to have additional supervised studio time, and to increase their laboratory skills relative to concurrent enrollment in book making classes. Studio 4 hours. Corequisite: ART 138. Course Typically Offered: Fall/Spring.
ATHLETICS AND PHYSICAL EDUCATION

The Kinesiology Division/Athletics Physical Education (ATHPE) department offers student-athletes courses for in-season competition and off-season training in intercollegiate athletics. Student-athletes should consult the coach of their sport to determine the appropriate courses. Physical activity courses not associated with an intercollegiate athletics team can be found in the Physical Education (PE) department in the catalog. Health courses for the graduation requirement for Health or First Aid can be found in the Health (HLTH) department in the catalog. Theory courses related to the study of human movement including those required for the KIN AA-T degree or Fitness Specialist Certificate can be found in the Kinesiology (KIN) department in the catalog.

101 STRENGTH AND CONDITIONING FOR INTERCOLLEGIATE ATHLETES
(Previously PE 199)
1.5 Units
ATHPE 101 is designed for intercollegiate athletic training in short sessions. Students will be provided with instruction in sport-specific training techniques with the goal of improving overall muscular strength, endurance, and power. Students will develop and maintain a strength and conditioning program using sport-specific drills and equipment. Note: This class is structured to provide strength and conditioning programs specific to intercollegiate athletics during the short session. Lecture .5 hours/Laboratory 1 hour. Prerequisite: None. Note: May be taken 4 times for credit. Transfer Credit: CSU, UC, USC.

102 BASEBALL CONDITIONING
(Previously PE 145)
1.5 Units
ATHPE 102 is designed for the student-athlete and is intended to provide focused strength and conditioning exercises with an emphasis on safety, injury prevention, rules, and game plays for baseball. Note: ATHPE 102 is designed for the intercollegiate baseball team. Laboratory 4.5 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

103 INTERCOLLEGIATE BASEBALL
(Previously PE 148)
2.5 Units
ATHPE 103 is an advanced course designed for students who plan to compete at the collegiate level in the sport of baseball. This course emphasizes conditioning, advanced skill, theory, tactics, strategy and intercollegiate competition. Student-athletes are required to meet the standards for the California Community College Athletic Association (CCCAA) eligibility guidelines and decorum policies. Note: ATHPE 103 is designed for intercollegiate baseball. Lecture 1.5 hours/Laboratory 3 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

104 OFF-SEASON TRAINING FOR BASEBALL
(Previously PE 147)
1.0 to 2.5 Units
ATHPE 104 provides instruction and practice for intercollegiate baseball, focusing on fundamental techniques of competitive baseball. This course is designed to provide further advancement in fundamental skill, team strategies, effective communication, and conditioning for intercollegiate competition. Note: ATHPE 104 is off-season training for students who are interested in competing on the intercollegiate baseball team. Lecture .5-1.5 hours/Laboratory 1.5-3.0 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

106 WOMEN’S INTERCOLLEGIATE BASEBALL
(Previously PE 160)
2.5 Units
ATHPE 106 is an advanced course designed for students who plan to compete at the collegiate level in the sport of women’s basketball. This course emphasizes advanced skill, theory, tactics, strategy and intercollegiate competition. Student-athletes are required to meet the standards of the California Community College Athletic Association (CCCAA) eligibility guidelines and decorum policies. Note: ATHPE 106 is designed for the intercollegiate women’s basketball team. Laboratory 4.5 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

107 OFF-SEASON TRAINING FOR INTERCOLLEGIATE WOMEN’S BASKETBALL
(Previously PE 156)
1.0 to 2.5 Units
ATHPE 107 provides instruction and practice for intercollegiate women’s basketball focusing on fundamental techniques of competitive women’s basketball. This course is designed to provide further advancement in individual skill, team strategies, effective communication, and conditioning for intercollegiate competition. Note: ATHPE 107 is off-season training for students who are interested in competing on an intercollegiate women’s basketball team. If a student has taken PE 156 prior to Fall 2016, such classes will count towards the four total enrollment limit. Lecture 1.5-3 hours/Laboratory 1.5-3.0 hours. Prerequisite: None. Note: May be taken 4 times for credit. Transfer Credit: CSU, UC, USC.

108 MEN’S INTERCOLLEGIATE BASKETBALL
(Previously PE 157)
2.5 Units
ATHPE 108 is an advanced course designed for students who plan to compete at the collegiate level in the sport of men’s basketball. This course emphasizes advanced skill, theory, tactics, strategy and intercollegiate competition. Student-athletes are required to meet the standards of the California Community College Athletic Association (CCCAA) eligibility guidelines and decorum policies. Note: ATHPE 108 is designed for the intercollegiate men’s basketball team. Laboratory 4.5 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.
109 OFF-SEASON TRAINING FOR INTERCOLLEGIATE MEN’S BASKETBALL
(Previously PE 155)
2.5 Units
ATHPE 109 provides instruction and practice for intercollegiate men’s basketball focusing on fundamental techniques of competitive men’s basketball. This course is designed to provide further advancement in individual skill, team strategies, effective communication, and conditioning for intercollegiate competition. Note: ATHPE 109 is off-season training for students who are interested in competing on an intercollegiate men’s basketball team. If a student has taken PE 155 prior to Fall 2016, such classes will count towards the four total enrollment limit. Lecture .5-1.5 hours/Laboratory 1.5-3.0 hours. Prerequisite: None. Note: May be taken 4 times for credit. Transfer Credit: CSU, UC, USC.

111 WOMEN’S INTERCOLLEGIATE CROSS COUNTRY
(Previously PE 173)
2.5 Units
ATHPE 111 is an advanced course designed for students who plan to compete at the collegiate level in the sport of women’s cross country. This course emphasizes advanced skill, theory, tactics, strategy and intercollegiate competition. Student-athletes are required to meet the standards of the California Community College Athletic Association (CCCAA) eligibility guidelines and decorum policies. Note: ATHPE 111 is designed for the intercollegiate women’s cross country team. Lecture 1.5 hours/Laboratory 3 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

112 MEN’S INTERCOLLEGIATE CROSS COUNTRY
(Previously PE 172)
2.5 Units
ATHPE 112 is an advanced course designed for students who plan to compete at the collegiate level in the sport of men’s cross country. This course emphasizes advanced skill, theory, tactics, strategy and intercollegiate competition. Student-athletes are required to meet the standards of the California Community College Athletic Association (CCCAA) eligibility guidelines and decorum policies. Note: ATHPE 112 is designed for the intercollegiate men’s cross country team. Lecture 1.5 hours/Laboratory 3 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

113 OFF-SEASON TRAINING FOR INTERCOLLEGIATE CROSS COUNTRY
(Previously PE 269)
1.0 to 2.5 Units
ATHPE 113 provides instruction and practice for intercollegiate women’s and men’s cross country focusing on fundamental techniques of running. This course is designed to provide further advancement in individual skill, team strategies, effective communication, and conditioning for intercollegiate competition. Note: ATHPE 113 is off-season training for students who are interested in competing on an intercollegiate women’s and men’s cross country team. Lecture 5.0-1.5 hours/Laboratory 1.5-3.0 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

116 FOOTBALL CONDITIONING
1.5 Units
ATHPE 116 is designed for the student-athlete interested in conditioning for intercollegiate football. The course is intended to provide strength and conditioning exercises with an emphasis on safety, injury prevention, rules, and game plays for football. Note: ATHPE 116 is designed for the intercollegiate football team. Laboratory 4.5 hours. Prerequisite: None.

117 INTERCOLLEGIATE FOOTBALL
(Previously PE 198)
2.5 Units
ATHPE 117 is an advanced course designed for students who plan to compete at the collegiate level in the sport of football. This course emphasizes conditioning, advanced skills, effective communication, tactics, strategy and intercollegiate competition. Student-athletes are required to meet the standards of the California Community College Athletic Association (CCCAA) eligibility guidelines and decorum policies. Note: ATHPE 117 is designed for intercollegiate football. If a student has taken PE 198 prior to Fall 2016, such classes will count towards the four total enrollment limit. Lecture 1.5 hours/Laboratory 3 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

118 OFF-SEASON TRAINING FOR INTERCOLLEGIATE FOOTBALL
(Previously PE 197)
1.0 to 2.5 Units
ATHPE 118 provides instruction and practice for intercollegiate football focusing on fundamental techniques of competitive football. This course is designed to provide further advancement in fundamental skill, team strategies, effective communication, and conditioning for intercollegiate competition. Note: ATHPE 118 is off-season training for students who are interested in competing on the intercollegiate football team. If a student has taken PE 197 prior to Fall 2016, such classes will count towards the four total enrollment limit. Lecture 5.0-1.5 hours/Laboratory 1.5-3.0 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

120 INTERCOLLEGIATE WOMEN’S GOLF
(Previously PE 205)
2.5 Units
ATHPE 120 is an advanced course designed for students who plan to compete at the collegiate level in the sport of women’s golf. This course emphasizes advanced skill, theory, tactics, strategy and intercollegiate competition. Student-athletes are required to meet the standards of the California Community College Athletic Association (CCCAA) eligibility guidelines and decorum policies. Note: ATHPE 120 is designed for intercollegiate women’s golf team. If a student has taken PE 205 prior to Fall 2016, such classes will count towards the four total enrollment limit. Each student-athlete must provide their own golf clubs. Lecture 1.5 hours/Laboratory 3 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.
121 OFF-SEASON TRAINING FOR INTERCOLLEGIATE WOMEN'S GOLF
1.0 to 2.5 Units
ATHPE 121 provides instruction and practice for intercollegiate women's golf focusing on fundamental techniques of competitive women's golf. This course is designed to provide further advancement in individual skill, team strategies, effective communication, and conditioning for intercollegiate competition. Note: ATHPE 121 is off-season training for students who are interested in competing on an intercollegiate women's golf team. Each student-athlete must provide their own golf clubs. Lecture 5-1.5 hours/Laboratory 1.5-3.0 hours. Prerequisite: None. Note: May be taken 4 times for credit. Transfer Credit: CSU, UC.

122 INTERCOLLEGIATE MEN'S GOLF
2.5 Units
ATHPE 122 is an advanced course designed for students who plan to compete at the collegiate level in the sport of men's golf. This course emphasizes advanced skill, theory, tactics, strategy and intercollegiate competition. Student-athletes are required to meet the standards of the California Community College Athletic Association (CCCAA) eligibility guidelines and decorum policies. Note: ATHPE 122 is designed for the intercollegiate men's golf team. Each student-athlete must provide their own golf clubs. Lecture .5-1.5 hours/Laboratory 1.5-3.0 hours. Prerequisite: None. Note: May be taken 4 times for credit. Transfer Credit: CSU, UC.

123 OFF-SEASON TRAINING FOR INTERCOLLEGIATE MEN'S GOLF
1.0 to 2.5 Units
ATHPE 123 provides instruction and practice for intercollegiate men's golf focusing on fundamental techniques of competitive men's golf. This course is designed to provide further advancement in individual skill, team strategies, effective communication, and conditioning for intercollegiate competition. Note: ATHPE 123 is off-season training for students who are interested in competing on an intercollegiate men's golf team. Each student-athlete must provide their own golf clubs. Lecture 5-1.5 hours/Laboratory 1.5-3.0 hours. Prerequisite: None. Note: May be taken 4 times for credit. Transfer Credit: CSU, UC.

125 WOMEN'S INTERCOLLEGIATE SOCCER
(Previously PE 243)
2.5 Units
ATHPE 125 is an advanced course designed for students who plan to compete at the collegiate level in the sport of women's soccer. This course emphasizes advanced skill, theory, tactics, strategy and intercollegiate competition. Student-athletes are required to meet the standards of the California Community College Athletic Association (CCCAA) eligibility guidelines and decorum policies. Student-athletes will need to be familiar with both the Federation International Football Association (FIFA) and the National Collegiate Athletic Association (NCAA). Note: ATHPE 125 is designed for the intercollegiate women's soccer team. Lecture/Demonstration 1.5 hours/Laboratory 3 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

126 OFF-SEASON TRAINING FOR INTERCOLLEGIATE WOMEN'S SOCCER
(Previously PE 246)
1.0 to 2.5 Units
ATHPE 126 provides instruction and practice for intercollegiate women's soccer focusing on fundamental techniques of competitive soccer. This course is designed to provide further advancement in individual skill, team strategies, effective communication, and conditioning for intercollegiate competition. Note: ATHPE 126 is off-season training for students who are interested in competing on an intercollegiate women's soccer team. Lecture .5-1.5 hours/Laboratory 1.5-3.0 hours. Prerequisite: None. Note: May be taken 4 times for credit. Transfer Credit: CSU, UC, USC.

127 MEN'S INTERCOLLEGIATE SOCCER
(Previously PE 230)
2.5 Units
ATHPE 127 is an advanced course designed for students who plan to compete at the collegiate level in the sport of men's soccer. This course emphasizes advanced skill, theory, tactics, strategy and intercollegiate competition. Student-athletes are required to meet the standards of the California Community College Athletic Association (CCCAA) eligibility guidelines and decorum policies. Student-athletes will need to be familiar with both the Federation International Football Association (FIFA) and the National Collegiate Athletic Association (NCAA). Note: ATHPE 127 is designed for the intercollegiate men's soccer team. Lecture/Demonstration 1.5 hours/Laboratory 3 hours. Prerequisite: None. Note: May be taken 4 times for credit. Transfer Credit: CSU, UC, USC.

128 OFF-SEASON TRAINING FOR INTERCOLLEGIATE MEN'S SOCCER
(Previously PE 247)
1.0 to 2.5 Units
ATHPE 128 provides instruction and practice for intercollegiate men's soccer focusing on fundamental techniques of competitive soccer. This course is designed to provide further advancement in individual skill, team strategies, effective communication, and conditioning for intercollegiate competition. Note: ATHPE 128 is off-season training for students who are interested in competing on an intercollegiate men's soccer team. Lecture .5-1.5 hours/Laboratory 1.5-3.0 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

130 INTERCOLLEGIATE SOFTBALL
(Previously PE 235)
2.5 Units
ATHPE 130 is an advanced course designed for students who plan to compete at the collegiate level in the sport of softball. This course emphasizes conditioning, advanced skill, theory, tactics, strategy and intercollegiate competition. Student-athletes are required to meet the standards for the California Community College Athletic Association (CCCAA) eligibility guidelines and decorum policies. Note: ATHPE 130 is designed for intercollegiate softball. If a student has taken PE 235 prior to Fall 2016, such classes will count towards the four total enrollment limit. Lecture 1.5 hours/Laboratory 3 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.
131 OFF-SEASON TRAINING FOR INTERCOLLEGIATE SOFTBALL  
(Previously PE 234)  
1.0 to 2.5 Units  
ATHPE 131 provides instruction and practice for intercollegiate softball focusing on fundamental techniques of competitive softball. This course is designed to provide further advancement in fundamental skill, team strategies, effective communication, and conditioning for intercollegiate competition. Note: ATHPE 131 is off-season training for students who are interested in competing on the intercollegiate softball team. If a student has taken PE 234 prior to Fall 2016, such classes will count towards the four total enrollment limit. Lecture .5-1.5 hours/Laboratory 1.5-3.0 hours. Prerequisite: None.  
May be taken 4 times for credit. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

133 INTERCOLLEGIATE WOMEN’S TENNIS  
(Previously PE 267)  
2.5 Units  
ATHPE 133 is an advanced course designed for students who plan to compete at the collegiate level in the sport of women’s tennis. This course emphasizes advanced skill, tactics, strategy and intercollegiate competition. Student-athletes are required to meet the standards of the California Community College Athletic Association (CCCAA) eligibility guidelines and decorum policies. Note: ATHPE 133 is designed for the intercollegiate women’s tennis team. If a student has taken PE 267 prior to Fall 2016, such classes will count towards the four total enrollment limit. Each student-athlete must provide their own tennis rackets. Lecture 1.5 hours/Laboratory 3 hours. Prerequisite: None. May be taken 4 times for credit.  
Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

134 OFF-SEASON TRAINING FOR INTERCOLLEGIATE WOMEN’S TENNIS  
1.0 to 2.5 Units  
ATHPE 134 provides instruction and practice for intercollegiate women’s tennis focusing on fundamental techniques of competitive women’s tennis. This course is designed to provide further advancement in individual skill, team strategies, effective communication, and conditioning for intercollegiate competition. Note: ATHPE 134 is off-season training for students who are interested in competing on an intercollegiate women’s tennis team. Each student-athlete must provide their own tennis rackets. Lecture .5-1.5 hours/Laboratory 1.5-3.0 hours. Prerequisite: None. May be taken 4 times for credit. Transfer Credit: CSU, UC, USC.

135 INTERCOLLEGIATE MEN’S TENNIS  
(Previously PE 266)  
2.5 Units  
ATHPE 135 is an advanced course designed for students who plan to compete at the collegiate level in the sport of men’s tennis. This course emphasizes advanced skill, tactics, strategy and intercollegiate competition. Student-athletes are required to meet the standards of the California Community College Athletic Association (CCCAA) eligibility guidelines and decorum policies. Note: ATHPE 135 is designed for the intercollegiate men’s tennis team. If a student has taken PE 266 prior to Fall 2016, such classes will count towards the four total enrollment limit. Each student-athlete must provide their own tennis rackets. Lecture 1.5 hours/Laboratory 3 hours. Prerequisite: None. May be taken 4 times for credit.  
Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

136 OFF-SEASON TRAINING FOR INTERCOLLEGIATE MEN’S TENNIS  
1.0 to 2.5 Units  
ATHPE 136 provides instruction and practice for intercollegiate men’s tennis focusing on fundamental techniques of competitive men’s tennis. This course is designed to provide further advancement in individual skill, team strategies, effective communication, and conditioning for intercollegiate competition. Note: ATHPE 136 is off-season training for students who are interested in competing on an intercollegiate men’s tennis team. Each student-athlete must provide their own tennis rackets. Lecture .5-1.5 hours/Laboratory 1.5-3.0 hours. Prerequisite: None. May be taken 4 times for credit. Transfer Credit: CSU, UC.

138 WOMEN’S INTERCOLLEGIATE TRACK AND FIELD  
(Previously PE 273)  
2.5 Units  
ATHPE 138 is an advanced course designed for students who plan to compete at the collegiate level in the sport of women’s track and field. This course emphasizes advanced skill, tactics, strategy and intercollegiate competition. Student-athletes are required to meet the standards of the California Community College Athletic Association (CCCAA) eligibility guidelines and decorum policies. Note: ATHPE 138 is designed for the intercollegiate women’s track and field team. Lecture 1.5 hours/Laboratory 3 hours. Prerequisite: None. May be taken 4 times for credit. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

139 MEN’S INTERCOLLEGIATE TRACK AND FIELD  
(Previously PE 272)  
2.5 Units  
ATHPE 139 is an advanced course designed for students who plan to compete at the collegiate level in the sport of men’s track and field. This course emphasizes advanced skill, tactics, strategy and intercollegiate competition. Student-athletes are required to meet the standards of the California Community College Athletic Association (CCCAA) eligibility guidelines and decorum policies. Note: ATHPE 139 is designed for the intercollegiate men’s track and field team. Lecture 1.5 hours/Laboratory 3 hours. Prerequisite: None. May be taken 4 times for credit. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

140 OFF-SEASON TRAINING FOR INTERCOLLEGIATE TRACK AND FIELD  
(Previously PE 270)  
1.0 to 2.5 Units  
ATHPE 140 provides instruction and practice for intercollegiate women’s and men’s track and field focusing on fundamental techniques of running and field events. This course is designed to provide further advancement in individual skill, team strategies effective communication, and conditioning for intercollegiate competition. Note: ATHPE 140 is off-season training for students who are interested in competing on an intercollegiate women’s and men’s track and field team. Lecture .5-1.5 hours/Laboratory 1.5-3.0 hours. Prerequisite: None. May be taken 4 times for credit. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.
143 WOMEN’S INTERCOLLEGIATE VOLLEYBALL
(Previously PE 282)
2.5 Units
ATHPE 143 is an advanced course designed for students who plan to compete at the collegiate level in the sport of women’s volleyball. This course emphasizes advanced skill, theory, tactics, strategy and intercollegiate competition. Student-athletes are required to meet the standards of the California Community College Athletic Association (CCCAA) eligibility guidelines and decorum policies. Note: ATHPE 143 is designed for the intercollegiate volleyball team. Lecture/Demonstration 1.5 hours/Laboratory 3 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

144 OFF-SEASON TRAINING FOR INTERCOLLEGIATE VOLLEYBALL
(Previously PE 277)
1.0 to 2.5 Units
ATHPE 144 provides instruction and practice for intercollegiate volleyball focusing on fundamental techniques of competitive volleyball. This course is designed to provide further advancement in individual skill, team strategies, effective communication, and conditioning for intercollegiate competition. Note: ATHPE 144 is off-season training for students who are interested in competing on an intercollegiate volleyball team. Lecture 5-1.5 hours/Laboratory 1.5-3.0 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

145 WOMEN’S INTERCOLLEGIATE BEACH VOLLEYBALL
2.5 Units
ATHPE 145 is an advanced course designed for students who plan to compete at the collegiate level in the sport of women’s beach volleyball. This course emphasizes advanced skill, theory, tactics, strategy and intercollegiate competition. Student-athletes are required to meet the standards of the California Community College Athletic Association (CCCAA) eligibility guidelines and decorum policies. Note: ATHPE 145 is designed for the intercollegiate beach volleyball team. Lecture 1.5 hours/Laboratory 3 hours. Prerequisite: None. Transfer Credit: CSU, UC.

112 PRIVATE PILOT LABORATORY I
2.0 Units
AT 112 is a flight training laboratory course intended to begin the student’s preparation for the Federal Aviation Administration Private Pilot Certificate Oral and Practical Tests. Topics covered include: Preflight inspection, weather briefings, starting procedures and use of checklists, taxi procedures, normal and cross wind takeoffs and landings, slips, four fundamentals of aircraft control, emergency procedures, traffic patterns, ground reference maneuvers, stalls, and radio communications. Laboratory 6 hours. Prerequisite: AT 120 or equivalent.

113 PRIVATE PILOT LABORATORY II
3.0 Units
AT 113 is a flight training laboratory course intended to complete the student’s preparation for the Federal Aviation Administration Private Pilot Certificate Oral and Practical Tests. Topics covered include: night flying techniques, short and soft field takeoffs and landings, navigation, emergency procedures, power on/off stalls, s-turns across a road, turns around a point, and instrument flight procedures. Laboratory 9 hours. Prerequisite: AT 112 or equivalent.

114 INSTRUMENT FLIGHT LAB
4.0 Units
AT 114 is a flight training lab course instructing students to operate an airplane by reference to instruments. Topics include: basic and advanced attitude instrument flying, recovery from unusual attitudes, holding patterns, IFR en-route procedures, IFR cross-country planning, departure and arrival procedures, and precision and non-precision approach procedures. Lecture 2 hours/Laboratory 6 hours. Prerequisite: AT 113 or possession of an FAA Private Pilot Certificate (Single Engine Land) and AT 125 or proof of satisfactory completion of FAA Instrument Rating Knowledge Examination (AT 125 may be taken concurrently). Recommended Preparation: Eligibility for ENGL 120 or ESL 151.

115 COMMERCIAL FLIGHT TRAINING
4.0 Units
AT 115 is a flight training lab course preparing the student for the Federal Aviation Administration Commercial Pilot Practical Examination. Topics addressed include: operation of complex and high-performance aircraft including the use of constant-speed propellers and retractable landing gear, maximum performance takeoffs and landings, steep turns, chandeliers, lazy eights, and eights on pylons. Students will log fifteen hours of complex aircraft time. Lecture 2 hours/Laboratory 6 hours. Prerequisite: AT 114 or possession of FAA Private Pilot Certificate (airplane, single-engine land) with a minimum of 200 hours of flight time, and; AT 135 or proof of completion of the FAA Commercial Pilot Knowledge Exam (AT 135 may be taken concurrently.)

120 PRIVATE PILOT GROUND SCHOOL
5.0 Units
AT 120 prepares the student for the Private Pilot Written Examination, and is taught under Federal Aviation Administration approved Private Pilot Ground School Certificate HH85190Q. The course covers powerplant operations, radio procedures and radio navigation, meteorology, and enroute navigation procedures common to the private pilot. Lecture 5 hours. Prerequisite: None. Transfer Credit: CSU.

121 NAVIGATION
3.0 Units
AT 121 introduces the students to the aspect of dead reckoning and pilotage navigation using the aeronautical chart. Composite navigation and vector analysis using the flight compute familiarize the student with the practical features of navigation. Current and future methods of radio navigation are explained. Lecture 3 hours. Prerequisite: None. Recommended Preparation: completion of AT 120 or possession of a private pilot’s certificate. Transfer Credit: CSU.

122 METEOROLOGY
3.0 Units
AT 122 presents the basic principles of meteorology with emphasis placed on the physical laws that operate in the atmosphere, particularly as they affect aircraft flight. Weather maps, reports, and forecasts and their interpretation are stressed. Weather briefings and self-evaluation will discussed. Lecture 3 hours. Prerequisite: None. Recommended Preparation: completion of AT 120 or possession of a private pilot’s certificate. Transfer Credit: CSU, UC.
123 AIRCRAFT STRUCTURE AND AERODYNAMICS
3.0 Units
AT 123 provides the pilot with the necessary understanding of the aerodynamics of the aircraft and of the construction techniques and processes involved in the building of aircraft. This course meets the requirements for commercial pilots in the study of aircraft. Lecture 3 hours. Prerequisite: None. Recommended Preparation: completion of AT 120 or possession of a private pilot's certificate. Transfer Credit: CSU.

124 RADIO PROCEDURES AND FLIGHT REGULATIONS
3.0 Units
AT 124 is designed to provide the commercial pilot student with the necessary knowledge of radio navigation, radio-telephone communication procedures, and Federal Aviation Regulations required to pass the Federal Aviation Administration Commercial Pilot Written Examination. Lecture 3 hours. Prerequisite: None. Recommended Preparation: completion of AT 120 or possession of a private pilot's certificate. Transfer Credit: CSU.

125 INSTRUMENT RATING GROUND SCHOOL
3.0 Units
AT 125 introduces the student to the use of radio navigation, weather briefing, advanced navigation, standard instrument approaches, procedures and Federal Aviation Regulations pertaining to instrument flight. Students are prepared for the Federal Aviation Administration Instrument Pilot Written Examination. Lecture 3 hours. Prerequisite: AT 120 or successful completion of the Private Pilot Written Examination or a Private Pilot Certificate. Transfer Credit: CSU.

127 FLIGHT TRAINING MANEUVERS
3.0 Units
AT 127 presents in detail the procedures and methods for conducting the maneuvers required for the safe, skillful operation of the airplane. The performance and application of the various maneuvers required by the Federal Aviation Administration for the Private and Commercial Pilot Flight Tests are examined. Lecture 3 hours. Prerequisite: None. Recommended Preparation: completion of AT 120 or possession of a private pilot's certificate. Transfer Credit: CSU.

128 AIRPORT OPERATIONS
3.0 Units
AT 128 is an analytical lecture course of study which acquaints the student with practical airport administration problems that exist today. Completion of this course enables the student to perform and function effectively in any of the many diversified airport operations. Course coverage includes airport development, site selection, local advertising, financial considerations and benefits to the community. Aviation safety within the confines of the airport, airport maintenance, familiarization with the Federal Aviation Administration and Federal Air Regulations governing airports as well as the National Transportation Safety Board. Lecture 3 hours. Recommended Preparation: AT 120 and 130, or equivalent. Transfer Credit: CSU.

129 FLIGHT ATTENDANT I
3.0 Units
AT 129 prepares men and women for the highly competitive flight attendant positions and travel careers in the airlines and travel industry. Lecture 3 hours. Prerequisite: None.

130 AIR TRANSPORTATION
3.0 Units
AT 130 introduces the student to the development of air transportation, problems in commercial air transportation, commercial aircraft, organization and functions of the airlines, regulations, airline routes in the United States and the pilot qualifications, schedules and services, revenue sources and potential operating overhead. The importance of airports, airways, advertising, and public relations is stressed. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU.

132 FLIGHT ATTENDANT II
3.0 Units
AT 132 prepares men and women for the highly competitive flight attendant positions and travel careers in the airline and travel industry. Lecture 3 hours. Prerequisite: AT 129 or equivalent.

134 AMERICAN AVIATION TRAVEL HISTORY AND OPERATIONS
3.0 Units
AT 134 introduces the students to aviation travel history and the manner in which related events have affected the nation socially, economically and politically. This study of aviation emphasizes the development, testing, and utilization of aircraft in California. Lecture 3 hours. Prerequisite: None.

135 COMMERCIAL PILOT GROUND SCHOOL
3.0 Units
AT 135 prepares students for the Federal Aviation Administration Commercial Pilot Knowledge Examination. Topics addressed include: advanced aerodynamics, advanced aircraft weight and balance computations, advanced meteorology, advanced aerospace physiology, operation of complex and high-performance aircraft including use of constant-speed propellers, retractable landing gear, anti-icing/de-icing, oxygen, and cabin pressurization systems, Federal Aviation Regulations Parts 61, 91, and 135, maximum performance takeoffs and landings, steep turns, chandelies, lazy eights, and eights on pylons. Lecture 3 hours. Prerequisite: AT 120 or equivalent.

136 HUMAN FACTORS IN AVIATION
3.0 Units
AT 136 is designed to acquaint current and prospective pilots and flight crew with an overview of human factors and aviation psychology. The influence of psychological and physiological factors on aviation safety, and on the aviation professional’s personal and occupational life, is examined. Topics include human error; attention, cognition and perception; communications; risk management; aeronautical decision making (ADM); multicultural and diversity factors; CRM (Crew Resource Management group dynamics); attitudes and persuasion; motivation and leadership; aircraft accident analysis; training (learning & regression); conformity and boredom; flight physiology; stress and fatigue; displays and flight deck design; automation; and applications in space technology. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU.

137 AIRLINE TRAVEL CAREERS
3.0 Units
AT 137 is designed for students pursuing careers in airline travel. The course presents the current industry hiring qualifications and requirements for entry level industry employees. Lecture 3 hours. Prerequisite: None.
138  INTRODUCTION FLIGHT ATTENDANT TRAINING
3.0 Units
AT 138 introduces students to the Federal Aviation Regulations (FARs) that ensure the safety and comfort of passengers and crewmembers. Students learn to explain all FARs to passengers and identify strategies for reducing potential emergencies. **Note:** AT 138 and 151 combined: maximum credit 3 units. Lecture 3 hours. **Recommended Preparation:** Eligibility for ENGL 120 or ESL 151.

139  TECHNICALLY ADVANCED AIRCRAFT
3.0 Units
AT 139 introduces the student pilot to advanced avionics systems incorporated into an aircraft’s cockpit. This course prepares the pilot to operate Global Positioning System (GPS) navigation systems as well as the latest integrated flight systems known as “glass cockpits.” It covers the variety of information provided by these advanced navigation and communication systems as well as proper procedures in the event of their failure. Lecture 3 hours. **Prerequisite:** AT 120 or equivalent.

152  INTRODUCTION TO UNMANNED AERIAL VEHICLES
3.0 Units
AT 152 is an introductory course to understanding the functions, characteristics, regulations, and applications of unmanned aerial systems and vehicles. The course includes detailed coverage of unmanned aerial systems and their uses in military, commercial, civil, and public settings. Lecture 3 hours. **Recommended Preparation:** Eligibility for ENGL 120 or ESL 151.

153  INTRODUCTION TO UNMANNED AERIAL SYSTEMS
3.0 Units
AT 153 is an introductory course to understanding the functions, characteristics, regulations, and applications of unmanned aerial systems and vehicles. The course includes a detailed discussion of unmanned aerial systems and their uses in military, commercial, civil, and public settings. Lecture 3 hours. **Recommended Preparation:** Eligibility for ENGL 120 or ESL 151 and AT 152.
RECOMMENDED BIOLOGY HEALTH SCIENCE COURSE SEQUENCE

Although Biology 115 is not a prerequisite for Biology 120, it is strongly recommended that students without a science background in biology take Biology 115 prior to Biology 120. Students who have taken Biology 115 are better prepared for the rigor of Anatomy and Physiology. Students are advised NOT to take Biology 112 concurrently with Biology 120 or Biology 121.

Students are recommended to take the chemistry requirement before or concurrently with Biology 120.

114 HUMAN FORM AND FUNCTION
3.0 Units
BIOL 114 provides the student with a broad descriptive introduction to the structure and function of the human body. Topics covered include: cells, tissues, the major body systems and some of the major human conditions and diseases. This course is aligned with accreditation standards for the Commission on Accreditation for Health Informatics and Information Management (CAHIIM), and is required for completion of the Associate of Science Degree program in Health Information Technology (HIT). Note: BIOL 114 is designed for Health Information Technology students. It is not recommended for pre-nursing students. Lecture 3 hours. Recommended Preparation: high school biology, MOA 181 or 182, MOA 185, eligibility for ENGL 120 or ESL 151, BUSAD 106, or equivalent. Transfer Credit: CSU.

115 HUMAN BIOLOGY
4.0 Units
BIOL 115 is an introductory course covering biological principles as they apply to the human body. The central theme is the structure and function of the human organism. Topics covered include: human evolution, the human species in the environment, cells, tissues, the major body systems, heredity, and the major human conditions and diseases. A weekly laboratory allows students the opportunity to gain practical experience in the techniques necessary to study the health sciences. Lecture 3 hours/ Laboratory 3 hours. Recommended Preparation: High school biology. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC.

120 HUMAN ANATOMY
5.0 Units
BIOL 120 covers the systems of the human body including microscopic and gross anatomy of the following systems: integumentary, skeletal, muscular, nervous, circulatory, respiratory, lymphatic and immune, digestive, urinary, male and female reproductive, and endocrine. The effects of disease and aging on these systems are also included in the course. The laboratory includes the study of tissues using the microscope, a study of bones of the human skeleton, and the use of models to illustrate respective systems of the human body. Dissections of a sheep brain, cow heart, and cow eye are made to illustrate comparative parts of human anatomy. Observations are also made of a human cadaver. This course is primarily intended for nursing, kinesiology, and other health related majors. Lecture 3 hours/Laboratory 6 hours. Recommended Preparation: BIOL 115 is strongly recommended for students with a limited background in the biological sciences. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID BIOL 110B)
121 INTRODUCTION TO PHYSIOLOGY
4.0 Units
Biol 121 covers the functions, homeostasis, and integration of the organ systems of the human body. The organ systems studied include: integumentary, nervous, sensory, bone, muscle, endocrine, blood, lymphatic, and immune, cardiovascular, respiratory, urinary, digestive, and reproductive systems. Laboratory activities include using the scientific method to predict experimental outcomes, acquire data, analyze it and draw conclusions, and apply concepts learned in both lecture and the laboratory to clinical pathophysiological scenarios. This course is primarily intended for Nursing, Kinesiology, and other health related majors. Lecture 3 hours/Laboratory 3 hours. Prerequisite: Biol 120 and Chem 101 or Chem 110 or Chem 120. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID BIOL 120B)

122 INTRODUCTION TO BIOLOGY
4.0 Units
Biol 122 is a survey course in the biological sciences designed to meet the laboratory science or life science requirement for most general education programs. Biology 122 covers the scientific method, molecular and cellular organization and function, genetics, and plant/animal anatomy and physiology. This course also covers evolution, a survey of biodiversity, ecology, and the impact of humans on the environment. Lecture 3 hours/Laboratory 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC.

123 EVOLUTION
3.0 Units
Biol 123 examines the history of life on earth, and the mechanisms that have led to the diversity we see today. Topics to be covered include a brief history of evolutionary thought, adaptive vs. neutral evolution (natural selection and genetic drift), biogeography, the origin of life, population genetics and speciation, an exploration of the fossil record and modern systematics, and recent work in the fields of sexual selection, behavior, development, and human evolution. Lecture 3 hours. Prerequisite: None. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

125 MARINE BIOLOGY
3.0 Units
Biol 125 is a general survey of the ecosystems and diversity of life in the marine environment. The course includes an introduction to the sciences of geological, chemical and physical oceanography as the basis to understand the environment where marine organisms exist. A comparative approach is used to study the physiological and anatomical adaptations of the different marine organisms to their environment. This course compares the ecology of the major marine ecosystems including: the epipelagic, deep sea, hydrothermal vents, intertidal, estuaries, coral reefs and polar. Major aspects of evolutionary, cell and molecular theory are addressed throughout the course. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC.

125H HONORS MARINE BIOLOGY
3.0 Units
Biol 125H is a general survey of the ecosystems and diversity of life in the marine environment. The course includes an introduction to the sciences of geological, chemical and physical oceanography as the basis to understand the environment where marine organisms exist. A comparative approach is used to study the physiological and anatomical adaptations of the different marine organisms to their environment. This course compares the ecology of the major marine ecosystems including: the epipelagic, deep sea, hydrothermal vents, intertidal, estuaries, coral reefs and polar. Major aspects of evolutionary, cell and molecular theory are addressed throughout the course. The Honors course will be enhanced in one or more of the following ways: 1) Students will complete a set of selected readings from science journals or books. Critical analysis of these readings is expected and students will be evaluated with extra questions during the regular examinations of the course. 2) Students will attend a field trip where they are expected to work in groups for the collection, analysis, and presentation of data. 3) Students will prepare a written and oral presentation on a specific topic that was not presented in the regular lecture. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC.

126 FIELD AND LABORATORY INVESTIGATIONS IN MARINE BIOLOGY
1.0 Unit
Biol 126 is an introductory science laboratory offering a general survey of the diversity of life in the marine environment and the ecology of some of its major ecosystems. This course covers aspects of marine geology/geography, microscopy, pH, cell respiration, photosynthesis, biodiversity, and ecology. The laboratory exercises utilize the comparative method in order to study the anatomy, physiology, and evolution of some of the major phyla of marine organisms. This course requires the participation in at least three field trips, which introduce the student to research methods, marine biodiversity, the biology of marine animals, and the ecology of marine ecosystems. Field trips total a minimum of 9 hours. Laboratory 3 hours. Prerequisite: Biol 125 (Biol 125 may be taken concurrently.) Course Typically Offered: Fall/Spring/Summer. Transfer Credit: CSU, UC, USC.

131 REGIONAL NATURAL HISTORY
3.0 Units
Biol 131 offers individual and group investigation of the biological environment and the impact of human activities upon it. Students examine the inter-relationship between living organisms and their habitats by special projects. Library research, a scientific paper, and/or an oral presentation may be a part of the course. Field studies will investigate a variety of world localities. When taught in Baja California, Mexico, the field portion of the course is based at the Glendale College Field Station in Bahia de los Angeles. Lecture 2 hours/Laboratory 3 hours. Recommended Preparation: A biology or ecology course in high school or college. Transfer Credit: CSU.
298
UNDERGRADUATE RESEARCH IN MICROBIOLOGY AND MOLECULAR BIOLOGY
3.0 Units
BIOL 298 is intended to give undergraduate students hands-on experience in microbiology and molecular biology research while working collaboratively in a laboratory setting with a faculty-led team of students on various projects. It allows the student to practice and apply various scientific techniques and methods (e.g. wet lab skills) and concepts learned in biology (e.g. molecular biology, microbiology, genomics, and bioinformatics). Students are expected to apply knowledge from prerequisite courses, to use their problem solving skills in carrying out assigned projects, and to write up and present the results of their research on-campus Lecture 1 hour/Laboratory 6 hours. Prerequisite: BIOL 101 or BIOL 112, or equivalent. Recommended Preparation: BIOL 103, eligibility for ENGL 101. Transfer Credit: CSU, UC.

106
WRITTEN BUSINESS COMMUNICATIONS
3.0 Units
BUSAD 106 is a writing course for students completing programs in business. The course prepares students to accomplish tasks and solve problems through the written word. The mechanics, strategies, and processes of technical writing, as well as creative and critical thinking skills, are applied to a variety of tasks which simulate typical events in business. Techniques are covered for creating effective business letters, information summaries, proposals, and reports, including references and research sources and appropriate styles and formats. In addition, original essays responding to a review of rhetorical works in the fields of business and economics are prepared. The impact of organizational procedures on business communications is explored, and the automated technology which facilitates this communication is applied to a variety of tasks common to the business organization. Lecture 2.5 hours/Laboratory 1.5 hours. Prerequisite: Eligibility for ENGL 101 or completion of CABOT 105. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU.

112
APPLIED WORKPLACE ETHICS
1.0 Unit
BUSAD 112 covers contemporary and controversial ethical issues facing the business world today. Real-world scenarios and situations will be discussed to aid students in developing their own ethical decision-making framework for the responsibilities and obligations they will face as members of the workforce. Lecture 1 hour. Prerequisite: None. Course Typically Offered: Spring (Every Other Year).

113
PRINCIPLES OF PROPERTY AND LIABILITY INSURANCE
3.0 Units
BUSAD 113 is intended to help individuals learn basic information regarding property and liability insurance for use in employment as insurance professionals in entry-level and higher positions. It covers the fundamentals of insurance including the types of insurers, institutions that provide insurance, how it is regulated, and measurement of financial performance. This course is intended to help prepare students for a variety of entry-level positions in the insurance industry and for a number of insurance certification examinations. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring.

114
PERSONAL INSURANCE
3.0 Units
BUSAD 114 is intended to help individuals learn basic information regarding personal insurance for use in employment as insurance professionals in entry-level and higher positions. This course may also be of value to anyone who wishes to obtain the knowledge to manage his or her personal insurance needs. Information about automobile, homeowners, and residential insurance (e.g. earthquake, marine, etc.) is included in the course. Financial planning, life insurance, and health insurance are also covered. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring.
115 COMMERCIAL INSURANCE
3.0 Units
BUSAD 115 is intended to help individuals learn basic information regarding commercial insurance for use in employment as insurance professionals in entry-level and higher positions. The course includes information on property insurance, business insurance, commercial crime insurance, equipment breakdown insurance, inland and ocean marine insurance, commercial general liability insurance, commercial automobile insurance, and other types of commercial insurance coverage. Lecture 3 hours. **Prerequisite:** None. **Course Typically Offered:** Fall/Spring.

116 PRINCIPLES OF LIFE AND HEALTH INSURANCE
3.0 Units
BUSAD 116 is intended to help individuals learn basic information regarding life and health insurance for use in employment as insurance professionals in entry-level and higher positions. It covers the fundamentals of insurance, including the types of insurers, institutions that provide insurance, how it is regulated, and measurement of financial performance. This course is intended to help prepare students for a variety of entry-level positions in the insurance industry, and completion of the course will satisfy the requirements to “sit” for the State of California written test for a Life and Health Agent License. Lecture 3 hours. **Prerequisite:** None. **Course Typically Offered:** Fall/Spring.

120 BUSINESS LAW I
3.0 Units
BUSAD 120 is a study of law as it influences business conduct, including growth of law and recent changes, especially the new Uniform Commercial Code, and principles of contracts, sales, and agency. Lecture 3 hours. **Prerequisite:** None. **Course Typically Offered:** Winter/Spring/Summer/Fall. **Transfer Credit:** CSU, UC, USC. (C-ID BUS 125)

131 INTRODUCTION TO FINANCE
3.0 Units
BUSAD 131 introduces the student to the many financial decisions faced by a modern business, along with the analytical tools and concepts necessary for an evaluation of these decisions. The material is applicable to large corporations, small businesses and nonprofit organizations. Note: One year of accounting is recommended. Lecture 3 hours. **Prerequisite:** None. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU.

134 INVESTMENTS
3.0 Units
BUSAD 134 is designed to develop the student’s understanding of the various public investments available, their potential risks and rewards, and the situations in which they are best utilized. Topics include investment principles and objectives, the operation of securities markets, investment banking, and asset selection and allocation. Lecture 3 hours. **Prerequisite:** None. **Course Typically Offered:** Spring (Every Other Year). **Transfer Credit:** CSU.

135 MONEY AND BANKING
3.0 Units
BUSAD 135 is a course designed to help students secure employment with investment banking houses, commercial banks, finance companies, stock and commodity exchanges, and securities dealers. It is a study of the American monetary system and American financial institutions. The course allows students to obtain a critical understanding of the Federal Reserve structure, monetary and fiscal policy, and the commercial banking process. Lecture 3 hours. **Prerequisite:** None. **Course Typically Offered:** Spring (Every Other Year). **Transfer Credit:** CSU.

136 MONEY MANAGEMENT
3.0 Units
BUSAD 136 covers the basic principles of efficient money management. The fundamentals of financial planning and the control of current financial actions to reach future financial goals are studied, including such topics as providing for major investments, retirement and pension planning, the tax environment, and the effect of new laws and regulations. Lecture 3 hours. **Prerequisite:** None. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU.

141 INTRODUCTION TO MANAGEMENT
3.0 Units
BUSAD 141 introduces the student to the basic managerial functions within an organization, which include planning and decision making, organizing, staffing, directing, leading, and controlling. These functions apply to managers at all levels, from small business to top executive management. Lecture 3 hours. **Prerequisite:** None. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU.

144 HUMAN RESOURCES I
3.0 Units
BUSAD 144 presents a comprehensive overview of human resources management. It is designed for students in managerial, professional, or entrepreneurial career tracks for profit, not-for-profit, governmental, volunteer, military, and other types of organizations. Lecture 3 hours. **Prerequisite:** None. **Course Typically Offered:** Spring (Every Other Year).

145 HUMAN RESOURCES II
3.0 Units
BUSAD 145 teaches how human resources (HR) management impacts the organization. Emphasis is placed on integrating human resources and organizational strategies. This course helps to prepare students for Professional Human Resources (PHR) and Senior Professional Human Resources (SPHR) certifications. Lecture 3 hours. **Prerequisite:** BUSAD 144 or equivalent.

152 MANAGEMENT COMMUNICATIONS-OVERAL
3.0 Units
BUSAD 152 covers planning interpersonal communication, speaking techniques, conducting question-and-answer periods, job interviews, conference leading on the job, objectives of good informal and formal presentations, use and misuse of visuals in oral presentations, and bridges and barriers to communications. Lecture 3 hours. **Prerequisite:** None. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU.

158 SMALL BUSINESS DEVELOPMENT
3.0 Units
BUSAD 158 covers the process of planning, organizing, and managing a small business. Topics include developing a business plan, forming and marketing a small business, legal aspects of business ownership, accounting, budgeting, financing, and risk management. The skills taught in this course help individuals start new ventures as well as aid existing business owners to plan their growth. Lecture 3 hours. **Prerequisite:** None. **Recommended Preparation:** Eligibility for ENGL 191 or ESL 141 and BUSAD 101 or equivalent. **Course Typically Offered:** Fall/Spring.
162
**PRINCIPLES OF MARKETING**  
3.0 Units

BUSAD 162 is an introductory course intended to acquaint students with the business practices involved in the activities of moving goods and services from the producer to the ultimate consumer. The course reviews the marketing system and the psychology and sociology of consumer decisions. Additional areas of interest include retaining, wholesaling, new product decisions, pricing, distribution, advertising, and marketing research. Lecture 3 hours.  
**Prerequisite:** None.  
**Course Typically Offered:** Fall/Spring.  
**Transfer Credit:** CSU.

164
**RETAIL STORE MANAGEMENT**  
3.0 Units

BUSAD 164 is an overview of the retail business that focuses on retail strategies, retail promotions, visual merchandising, and advertising in today’s business world. Instruction on purchasing, pricing, location, financial management, store security, information systems, and communications will be included. Lecture 3 hours.  
**Prerequisite:** None.  
**Course Typically Offered:** Fall (Every Other Year).

166
**ADVERTISING**  
3.0 Units

BUSAD 166 is an introductory course in the purpose and principles of advertising, including the organization and functions of advertising agencies. Buying motives and the writing of good copy are studied. Radio, television, and outdoor advertising methods and costs are covered. This course is not intended to develop artistic ability, but those who can illustrate their copy will find an opportunity to do so. Courses in advertising art are offered by the Art Department. Lecture 3 hours.  
**Prerequisite:** None.  
**Course Typically Offered:** Fall/Spring.  
**Transfer Credit:** CSU.

170
**INTRODUCTION TO INTERNATIONAL BUSINESS**  
3.0 Units

BUSAD 170 provides the student with an overview of the basic issues in international business. These include deciding on a business organization for foreign operations, establishing banking relationships, raising capital, currency exchange and marketing in foreign environment, with particular emphasis on Pacific Rim, Western European and South American markets. Import/Export regulations and locating manufacturing abroad are also be covered. Lecture 3 hours.  
**Prerequisite:** None.  
**Course Typically Offered:** Fall/Spring.  
**Transfer Credit:** CSU.

175
**IMP/EXP PAC**  
3.0 Units

BUSAD 175 is a project course teaching the real-world process of establishing an import/export business. The student is guided in preparing a business plan for an import/export activity. Each country in the Pacific Rim is discussed in terms of current business conditions and import/export opportunities. Asia, our largest trading area, is the most successful, fastest growing economic area in the world. The special business cultures and techniques contributing to its success and the success of its firms are presented. A major part of the course is a discussion of the business aspect of the cultural views and practices necessary to do business in these countries.  
**Note:** Students are expected to have a strong background in business and an interest in participating in the global economy. It is recommended that those students without practical business experience first complete BUSAD 101 and 170. Lecture 3 hours.  
**Recommended Preparation:** BUSAD 101 and 170, or equivalent.  
**Course Typically Offered:** Spring (Every Other Year).  
**Transfer Credit:** CSU.

176
**IMPORT/EXPORT WITHIN NAFTA AND LATIN AMERICAN COUNTRIES**  
3.0 Units

BUSAD 176 discusses the special issues of doing business with NAFTA countries (Canada and Mexico) and with Latin America. The NAFTA countries are not only geographically the closest countries to the United States but have the most favorable trading conditions. These facts make NAFTA countries strong candidates for establishing an import/export business. Other Latin American countries are also analyzed from the governmental, social, economic, and geographic systems in these business opportunities. A major part of this course is a discussion of the business aspect of the cultural views and practices necessary to do business in the Americas.  
**Note:** Students are expected to have a strong background in business and an interest in participating in the global economy. Practical business experience, especially in international business, is the best background for this course. However, it is recommended that those students without practical business experience first complete BUSAD 101 and 170. Lecture 3 hours.  
**Recommended Preparation:** BUSAD 101 and 170, or equivalent.  
**Course Typically Offered:** Fall/Spring.  
**Transfer Credit:** CSU.

177
**INTRODUCTION TO INTERNATIONAL MARKETING**  
3.0 Units

BUSAD 177 examines the concepts, principles, theory, and practice of international marketing. Topics include the United States and foreign marketing organizations, United States international marketing positions, market entry strategies, analysis of foreign markets, culture and marketing, product design, pricing, distribution, promotion, and sales. Lecture/Demonstration 3 hours.  
**Recommended Preparation:** BUSAD 101 and 170 or equivalent.  
**Course Typically Offered:** Fall (Every Other Year).

178
**INTRODUCTION TO INTERNATIONAL FINANCE**  
3.0 Units

BUSAD 178 is a study of international business financing and development, including the roles of different types of lenders, domestic and foreign government assistance programs, various methods of payment, identifying and managing risk in the international financial arena, and tax considerations. Lecture/Demonstration 3 hours.  
**Recommended Preparation:** BUSAD 101 and 170 or equivalent.

180
**PRINCIPLES OF IMPORT/EXPORT**  
3.0 Units

BUSAD 180 prepares students to participate in the international economy through importing and/or exporting activities. Topics include methods for locating products to import or export, import/export marketing strategies, pricing, and distribution channels, international payment transfers, import/export financing, shipping and receiving international goods, and strategies for successful importing and exporting. Also included are the trade patterns by countries and commodities, with a focus on issues concerning the euro and trade in Europe’s single market, the World Trade organization, NAFTA, and navigating the business worlds of Asia, Africa, and Latin America while tapping into the e-commerce phenomena. Lecture/Demonstration 3 hours.  
**Recommended Preparation:** BUSAD 101 and 170 or equivalent.
185 GEOGRAPHICAL INFORMATION SYSTEMS (GIS) FOR BUSINESS
3.0 Units
BUSAD 185 teaches the fundamentals of GIS industry-standard software and its application to business. Emphasis is placed on applied lessons to create and modify maps, conduct geospatial research, and solve business related geospatial problems. Lecture 3 hours. Recommended Preparation: CABOT 270 or equivalent.

202 LEADERSHIP FUNDAMENTALS
3.0 Units
BUSAD 202 introduces the basic concepts and theories of a leader’s role in influencing others to achieve a common goal. Decision making, problem solving, and critical thinking concepts will be emphasized. The role of a leader to an organization’s success, as well as the difficulties and challenges involved, will also be emphasized. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Spring (Every Other Year).

203 CUSTOMER SERVICE AND RELATIONS
3.0 Units
BUSAD 203 focuses on strategies for developing a first-class customer service environment in a culturally diverse, e-commerce, globally competitive business climate. The course covers topics that promote a customer-focused organization and will teach students to handle problems and complaints, promote teamwork, ‘win back’ customers, personalize service, and create loyalty and retention of clientele of various types (e.g. patients, clients, customers, patrons, patients, and so on). Understanding and influencing customer behavior through customer relationship management strategies will be emphasized. Lecture 3 hours. Prerequisite: None.

204 CUSTOMER SERVICE SKILLS
1.0 Unit
BUSAD 204 offers instruction and hands-on practice of customer service skills for selected workplace environments in a culturally diverse, e-commerce, globally competitive business climate. The course will teach students to effectively accommodate guests, clients, customers, patrons, patients, and other types of clientele in various types of businesses. Activities and examples will be used from business areas such as medical offices, public and government entities, restaurants, grocery establishments, and a variety of other retail businesses, and may be taught on campus or on site of such businesses (see ticket notes in schedule for the focus and location for any listed ticket number). Lecture 1 hour. Prerequisite: None. Course Typically Offered: Fall/Spring.

210 FOUNDATIONS OF PROJECT MANAGEMENT
3.0 Units
BUSAD 210 covers the fundamental concepts and applied techniques for cost-effective management of both long-term development programs and short-term projects. The content deals with planning, scheduling, organizing, and controlling projects. The course uses cases from a wide variety of industries, including construction, information systems, nonprofit organizations, the government, and the military. Project management principles and methodology are provided with special focus on planning, controlling, and managing projects to successful completion. The topics are divided into two categories: the behavioral aspects of a project and the technical components that make up the project. Behavioral issues include management and leadership, cultural differences, organizational structures, and conflict and negotiation. The course examines technical issues including the relation between the performing organization and the project; determining strategy and project selection; developing the project plan; estimating costs, schedules, and the critical path; methods for determining project status; and risks, quality, and procurement. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU.

212 ADVANCED PROJECT MANAGEMENT
3.0 Units
BUSAD 212 covers the advanced topics of project management (PM) including: scheduling; risk and quality management; and cost control. Comprehensive instruction in scheduling and other PM tools is provided. The topic of delivering complex projects is introduced, with a focus on resource management, scheduling, control, and opportunity and risk management. Lecture 3 hours. Prerequisite: BUSAD 210. Transfer Credit: CSU.

CHEMISTRY

101 GENERAL CHEMISTRY
5.0 Units
CHEM 101 is the first course in a two-semester sequence which covers important chemistry concepts including physical properties of matter, chemical reactions, stoichiometry, electronic structure of atoms, quantum mechanics, chemical bonding, and the three phases of matter. Lecture and laboratory activities are integrated into one cohesive lecture-lab section. The latter part of the course covers solution chemistry with emphasis on chemical kinetics, thermodynamics, and electrochemistry. Laboratory activities supports the above-mentioned topics, including both qualitative and quantitative analysis of data and propagation of errors. Lecture 3 hours/Laboratory 6 hours. Prerequisite: 1) Eligibility for ENGL 120 or ESL 151. 2) MATH 101 or 120 or 220B or 1.5 years of high school Algebra. 3) CHEM 110 or 1 year of high school chemistry (laboratory included) and satisfactory score on the Math/Chemistry Placement Exams. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID CHEM 110)
CHEM 121 is the second half of the year sequence and covers the fundamentals of organic and biochemistry. Note: This course is not for science majors. Lecture 4 hours/Laboratory 3 hours. Prerequisite: CHEM 120. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

121 FUNDAMENTALS OF COLLEGE CHEMISTRY (ORGANIC AND BIOCHEMISTRY) 5.0 Units

CHEM 121 is the second half of the year sequence and covers the fundamentals of organic and biochemistry. Note: This course is not for science majors. Lecture 4 hours/Laboratory 3 hours. Prerequisite: CHEM 120. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

106 ORGANIC CHEMISTRY 5.0 Units
CHEM 106 is a study of the preparation, properties, and reactions of both aliphatic and aromatic hydrocarbons, halogen derivatives, alcohols, and ethers. Methods of synthesis are stressed, and reaction mechanisms and modern structural principles are introduced. Note: Required of pre-medical and pre-dental students, recommended for majors in chemistry, petroleum engineering, sanitary and municipal engineering, and pharmacy, and for certain home economics, public health and agriculture majors. Lecture 3 hours/Laboratory 6 hours. Prerequisite: CHEM 102. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID CHEM 160S)
137 SCHOOL AGE CHILDREN IN CHILD CARE
3.0 Units
CHLDV 137 is designed for students interested in working in before and after school or out-of-school programs for children aged 5-12. The course introduces School Age program philosophies and program types, examines needs and concerns relating to school-age children in child care and strategies for managing classrooms and guiding children’s behavior. Knowledge of developmental ages and stages is emphasized. This course includes designing developmentally appropriate curriculum and experiences for school age children and creating developmentally appropriate environments. Lecture 3 hours. Prerequisite: CHLDV 135 or equivalent. Recommended Preparation: Eligibility for ENGL 120 or ESL 151 and MATH 145. Course Typically Offered: Fall. Transfer Credit: CSU.

138 HEALTH, SAFETY, AND NUTRITION
3.0 Units
CHLDV 138 introduces the laws, regulations, standards, policies and procedures and early childhood curriculum related to child health, safety and nutrition. The characteristics of good health and the recognition of the symptoms of communicable diseases are examined. The habits and attitudes essential for physical and mental health of teachers, parents and children are identified. This course is intended to examine the current concepts in the field of health, safety and nutrition and their relationship to the young child and program planning. Emphasis is given to the components of quality care for young children and the importance of collaboration with families and health care professionals. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU. (C-ID ECE 220)

140 PRINCIPLES AND PRACTICE OF TEACHING
3.0 Units
CHLDV 140 examines the underlying theoretical principles of developmentally appropriate practices applied to programs, environments, emphasizing the key role of relationships, constructive adult-child interactions, and teaching strategies in supporting physical, social, creative and intellectual development for all children. This course includes a review of the historical roots of early childhood programs and the evolution of the professional practices promoting advocacy, ethics and professional identity. Note: Verification of tuberculosis clearance required. Lecture 3 hours. Prerequisite: CHLDV 133 Course Typically Offered: Fall/Spring. Transfer Credit: CSU. (C-ID ECE 120)

141 STUDENT TEACHING SEMINAR
2.0 Units
CHLDV 141 provides for a demonstration of developmentally appropriate early childhood teaching competencies under guided supervision. Students utilize practical classroom experiences to make connections between theory and practice, develop professional behaviors, and build a comprehensive understanding of children and families. Child centered, play-oriented approaches to teaching, learning, and assessment; and knowledge of curriculum content areas is emphasized as student teachers design, implement and evaluate experiences that promote positive development and learning for all young children. Note: Verification of current TB clearance required. Lecture 2 hours. Prerequisite: CHLDV 150. Corequisite: Concurrent enrollment in CHLDV 180, 181 or 182. Recommended Preparation: CHLDV 156 (may be taken concurrently). Note: Verification of current TB clearance required. Course Typically Offered: Fall/Spring. Transfer Credit: CSU. (C-ID ECE 210)

142 CHILD, FAMILY, AND COMMUNITY
3.0 Units
CHLDV 142 examines the developing child in a societal context focusing on the interrelationship of family, school and community with an emphasis on historical and socio-cultural factors. The processes of socialization and identity development will be highlighted, showing the importance of reciprocal, reciprocal relationships that support and empower families. Lecture 3 hours. Prerequisite: CHLDV 135 or equivalent Course Typically Offered: Fall/Spring. Transfer Credit: CSU. (C-ID CDEV 110)

147 WORKING WITH INFANTS AND TODDLERS
3.0 Units
CHLDV 147 applies current theory and research to the care and education of infants and toddlers in group settings. The course examines essential policies, principles and practices that lead to quality care and developmentally appropriate curriculum for children birth to 36 months. Lecture 3 hours. Prerequisite: CHLDV 135 or equivalent. Recommended Preparation: Eligibility for ENGL 120 or ESL 151 and MATH 145. Course Typically Offered: Spring. Transfer Credit: CSU.

150 INTRODUCTION TO CURRICULUM
3.0 Units
CHLDV 150 provides an overview of principles involved in planning, implementing and evaluating developmentally appropriate curriculum. It includes processes for planning and implementing developmentally appropriate environments and experiences; selection of appropriate materials, emerging curriculum, scheduling, room arrangement, and planning developmentally appropriate activities and curricula for young children from birth to age eight in child care and early childhood development settings. Included are focuses on children’s play, the role of assessment, webbing, activity planning, daily scheduling and curriculum areas such as art, science, math, literature, music, language arts, and dramatic play are examined. Note: Verification of tuberculosis clearance required. Lecture 2 hours/Laboratory 3 hours. Prerequisite: CHLDV 140. Course Typically Offered: Fall/Spring. Transfer Credit: CSU. (C-ID ECE 130)

152 MUSIC FOR YOUNG CHILDREN
3.0 Units
CHLDV 152 explores musical experiences appropriate to the development of the infant, the preschool child, the elementary school child, and the exceptional child. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151 and MATH 145. Course Typically Offered: Fall. Transfer Credit: CSU.

154 EARLY CHILDHOOD EDUCATION AND THE ART EXPERIENCE
3.0 Units
CHLDV 154 provides students with the basic knowledge of the content and style of children’s art and its link to thinking. Emphasis is placed on the developmental areas of children’s growth and the ways teachers can provide appropriate and stimulating activities. Students have the opportunity to merge theory and practice and gain skills to facilitate creative expression. Exceptional children, diversity, and the Reggio Emilia approach are featured. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU.
155 CHILDREN WITH SPECIAL NEEDS
3.0 Units
CHLDV 155 provides instruction in identifying normal and special development of children, and includes methods of management and teaching techniques which prove helpful in working with children with special needs. A humanistic view of the whole child and the valuing and supporting of his/her rights is emphasized. The class includes discussions about parents of exceptional or special children, along with educational services and community agencies. Lecture 3 hours. Prerequisite: CHLDV 135 (may be taken concurrently.) Recommended Preparation: Eligibility for ENGL 120 or ESL 151 and MATH 145. Course Typically Offered: Fall, Transfer Credit: CSU.

156 TEACHING IN A DIVERSE SOCIETY
3.0 Units
CHLDV 156 examines the development of social identities in diverse societies including theoretical and practical implications of oppression and privilege as they apply to young children, families, programs, classrooms and teaching. Various classroom strategies will be explored emphasizing culturally and linguistically appropriate anti-bias approaches supporting all children in becoming competent members of a diverse society. Course includes self-examination and reflection on issues related to social identity, stereotypes and bias, social and educational access, media and schooling. Note: Verification of Current TB Clearance Required. Lecture 3 hours. Prerequisite: CHLDV 140, and verification of TB clearance. Course Typically Offered: Fall/Spring. Transfer Credit: CSU. (C-ID ECE 230)

158 MOVEMENT DEVELOPMENT: BIRTH THROUGH TWELVE YEARS
3.0 Units
CHLDV 158 focuses on designing developmentally appropriate creative dance experiences for young children. It provides those students who are interested in teaching movement to children the opportunity to acquire knowledge and techniques related to motor development and use of creative dance to explore subjects across the early childhood and early elementary curriculum. The course introduces basic principles and theories of motor development in children from birth to age twelve, focusing on designing developmentally-appropriate and creative dance experiences for young children. Note: This course will not fulfill physical education activity requirements. Note: Students who previously completed DANCE 158 are not eligible for credit for completion of CHLDV 158. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151 and MATH 145. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

160 GUIDING CHILDREN AND ADOLESCENTS
3.0 Units
CHLDV 160 is a course that focuses on the processes, techniques, models, research, and selected issues in child guidance as applied to adolescence in family and community settings. Students will develop a personal approach to guidance based on current scientific research and theory concerning human development. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU.

174 ADMINISTRATION OF EARLY CHILDHOOD PROGRAMS I
3.0 Units
CHLDV 174 is an introduction to the administration of early childhood programs. Topics covered include general responsibilities of a program director, program types, developing and managing program budgets, program management skills, an examination of relevant laws and regulations governing early childhood programs, and the development and implementation of policies and procedures. The course also examines administrative tools, philosophies, and techniques needed to organize, open and operate an early care and education program. Lecture 3 hours. Prerequisite: CHLDV 140 or equivalent. Recommended Preparation: Eligibility for ENGL 120 or ESL 151, MATH 145 and early childhood teaching experience. Course Typically Offered: Fall. Transfer Credit: CSU.

175 ADMINISTRATION OF EARLY CHILDHOOD PROGRAMS II
3.0 Units
CHLDV 175 explores effective strategies for personnel management and leadership in early care and education settings, including legal and ethical responsibilities, supervision techniques, professional development, and reflective practices for a diverse and inclusive early care and education program. Comprehensive methods for analyzing the different components of an early childhood program to effect organizational change are discussed. Particular emphasis is on the art of leadership and interpersonal relationships. Lecture 3 hours. Prerequisite: CHLDV 174. Recommended Preparation: ENGL 120 or ESL 151, MATH 145 and early childhood teaching experience. Course Typically Offered: Spring. Transfer Credit: CSU.

176 MENTOR TEACHER PRACTICES
3.0 Units
CHLDV 176 is designed to examine the methods and principles of supervising student teachers, entry level teachers, volunteers and other adults in early care and education settings. Emphasis is on the roles and development of early childhood professionals as mentors and leaders. Lecture 3 hours. Prerequisite: CHLDV 141 or equivalent Recommended Preparation: Eligibility for ENGL 120 or ESL 151 and MATH 145. California Child Development Permit or equivalent and 2 years of teaching experience. Course Typically Offered: Fall. Transfer Credit: CSU.
180 STUDENT TEACHING FIELD PRACTICE - INFANT/TODDLER FOCUS
1.0 Unit

CHLDV 180 provides a semester teaching experience in an infant/toddler setting. The teacher candidate, under the supervision of a cooperating teacher and a college supervisor, assumes complete responsibility for the instruction of children. The course is designed to provide opportunities for practical application of skills and knowledge previously gained in the classes specified in the infant/toddler and child development curriculum. Field experience provides the teacher candidate the opportunity to participate in classroom activities, design and teach a developmentally appropriate focus under the guidance of the supervising/mentor teacher, assess themselves as a prospective teacher, and participate in seminar discussions. The environment and routines are emphasized as an integrating context for planning instruction. Laboratory 3 hours. Corequisite: CHLDV 141. Course Typically Offered: Fall/Spring. Transfer Credit: CSU. (C-ID ECE 210)

181 STUDENT TEACHING FIELD PRACTICE - PRESCHOOL FOCUS
1.0 Unit

CHLDV 181 provides a semester teaching experience in a preschool setting. The teacher candidate, under the supervision of a cooperating teacher and a college supervisor, assumes complete responsibility for the instruction of children. The course is designed to provide opportunities for practical application of skills and knowledge previously gained in the classes specified in the preschool and child development curriculum. Field experience provides the teacher candidate the opportunity to participate in classroom activities, design and teach a developmentally appropriate focus under the guidance of the supervising/mentor teacher, assess themselves as a prospective teacher, and participate in seminar discussions. Laboratory 3 hours. Corequisite: CHLDV 141. Course Typically Offered: Fall/Spring. Transfer Credit: CSU. (C-ID ECE 210)

182 STUDENT TEACHING FIELD PRACTICE - SCHOOL AGE FOCUS
1.0 Unit

CHLDV 182 provides a semester teaching experience in a school age setting. The teacher candidate, under the supervision of a cooperating teacher and a college supervisor, assumes complete responsibility for the instruction of children. The course is designed to provide opportunities for practical application of skills and knowledge previously gained in the classes specified in the school age and child development curriculum. Field experience provides the teacher candidate the opportunity to participate in classroom activities, design and teach a developmentally appropriate focus under the guidance of the supervising/mentor teacher, assess themselves as a prospective teacher, and participate in seminar discussions. Laboratory 3 hours. Corequisite: CHLDV 141. Course Typically Offered: Fall/Spring. Transfer Credit: CSU. (C-ID ECE 210)

215 EMERGENT LITERACY IN EARLY CHILDHOOD
3.0 Units

CHLDV 215 provides specialization in young children's strategies and activities for developing language and emerging literacy, birth through age eight. Emphases are placed on the study of oral language development and play related to early literacy. The course is designed to demonstrate a framework for considering the developing young child in relation to cultural, social, and family environments. Topics include: dialogic reading, early literacy, second language learning, play and literacy, family literacy, and becoming a conversationalist with children. Note: CHLDV 200, 201, 202 and 215 combined: maximum credit 3 units. Lecture 3 hours. Prerequisite: CHLDV 140 and 150 (CHLDV 140 and 150 may be taken concurrently.) Transfer Credit: CSU.

220 STRESS, COPING AND RESILIENCY FOR THE PROFESSIONAL EDUCATOR
3.0 Units

CHLDV 220 identifies stressors which diminish the effectiveness of the learning environment and place children at-risk for school problems. The Family Resiliency Model is utilized to examine critical family dynamics which affect children's emotional and psychological development. Stressors which spill over from the broader community (e.g. community violence, and natural catastrophes), as well as stressors which emerge from within the classroom (e.g. peer conflict, teacher-student conflict, and teacher burnout) are examined. Practical skills are provided to future teachers to assist them in managing their personal stress in developing effective communication and conflict management skills, and in creating a safe, competence-producing, and cooperative learning environment. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151 and MATH 145. Transfer Credit: CSU.
CHINESE

101 BEGINNING CHINESE I
5.0 Units
CHIN 101 presents the fundamentals of Chinese grammar within a cultural context. Students are trained to pronounce Chinese (Mandarin) correctly, to acquire a small working vocabulary which they use in conversation and phonetic transcription, and to read and write approximately 150 Chinese characters. Note: This course is not intended for students with oral proficiency or who have attended schools where Mandarin Chinese was the language of instruction. Lecture 5 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

102 BEGINNING CHINESE II
5.0 Units
CHIN 102 continues to present the fundamentals of Chinese grammar within a cultural context. Students are further trained to pronounce Chinese (Mandarin) correctly, to build their conversational and written vocabulary, and to read and write approximately 150 more Chinese characters. Lecture 5 hours. Prerequisite: CHIN 101 or equivalent. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

COMPUTER AIDED MANUFACTURING

210 COMPUTER AIDED MANUFACTURING BASIC MILLING
3.0 Units
CAM 210 introduces the use of computers in programming numerical control milling machines. Lecture 3 hours. Prerequisite: None.

211 INTERMEDIATE MILLING
3.0 Units
CAM 211 is an intermediate course in the use of computers to aid in the programming of numerical control milling machines in manufacturing. Lecture 3 hours. Prerequisite: CAM 210 or equivalent.

220 COMPUTER AIDED MANUFACTURING, BASIC LATHE
3.0 Units
CAM 220 introduces the operation of computers in programming numerical control lathe machines. Lecture 3 hours. Prerequisite: None.

230 COMPUTER AIDED MANUFACTURING, BASIC MILLING PRACTICE
1.0 Unit
CAM 230 is a laboratory class that allows students to practice on the MasterCam program and complete assignments from CAM 210. Laboratory 3 hours. Prerequisite: CAM 210 or equivalent (CAM 210 may be taken concurrently.)

231 INTERMEDIATE MILLING LABORATORY
1.0 Unit
CAM 231 is a laboratory class for students to practice on the Master-Cam program and to complete assignments from Computerized Numerical Control 211. This class provides additional time on computers to expand knowledge of and proficiency in the use of Computer Aided Manufacturing programs. Laboratory 3 hours. Prerequisite: CAM 211 or equivalent (CAM 211 may be taken concurrently.)

240 BASIC LATHE PRACTICE
1.0 Unit
CAM 240 is a laboratory class allowing students to practice on the MasterCam program and to complete assignments from CAM 220. Laboratory 3 hours. Prerequisite: CAM 220 (CAM 220 may be taken concurrently.)

COMPUTER APPLICATIONS & BUSINESS OFFICE TECHNOLOGIES

90 SELF-PACED INTRODUCTION TO ADAPTED WORD PROCESSING
2.0 Units
NON-DEGREE APPLICABLE
CABOT 90 is designed to provide individualized, self-paced instruction to students with disabilities. The course combines specially designed assistive computer technology and a word processing program to enhance basic word processing skill acquisition and facilitate the production of simple written documents. Note: This course is primarily intended for students who meet Title V eligibility requirements for Disabled Students Programs and Services. Lecture 1.5 hours/Laboratory 1.5 hours. Recommended Preparation: Eligibility for ENGL 189, ESL 131, or ESL 133 Course Typically Offered: Fall/Spring.

91 INTRODUCTION TO ADAPTED WORD PROCESSING FOR STUDENTS WITH VISUAL IMPAIRMENTS
2.0 Units
NON-DEGREE APPLICABLE
CABOT 91 is designed to instruct students with visual impairments in the use of a word processing application program with either screen reading or text magnification assistive computer technology, for producing basic written documents and academic assignments. Note: This course is primarily designed for students who meet Title 5 eligibility requirements for Disabled Student Programs and Services. Lecture 2 hours. Prerequisite: None. Course Typically Offered: Fall/Spring.

92 INTRODUCTION TO ADAPTED WORD PROCESSING
3.0 Units
NON-DEGREE APPLICABLE
CABOT 92 is designed to instruct students with disabilities in the use of a word processing application program and assistive computer technology to produce and format written documents and academic assignments. Note: This course is primarily intended for students who meet Title V eligibility requirements for Disabled Students Programs and Services. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 191 or ESL 141. Course Typically Offered: Fall/Spring.

93 ADAPTED COMPUTER LABORATORY
1.0 Unit
NON-DEGREE APPLICABLE
CABOT 93 provides access to the High Tech Center computer lab for students with disabilities, who have completed CABOT 92 or the equivalent. Under the supervision of High Tech Center faculty, students will learn to utilize assistive technology and specialized instruction within the framework of the student's abilities. Note: Open Entry/Open Exit. This is a Pass/No Pass only. Individualized projects and specialized instructional support will be developed and implemented based upon student needs and technological developments. This course is primarily designed for students who meet Title 5 eligibility requirements for Disabled Student Programs and Services. Laboratory 3 hours. Prerequisite: Successful completion of CABOT 92 or demonstration of comparable knowledge and skills. Note: May be taken 4 times for credit. Course Typically Offered: Fall/Spring.
103 BUSINESS VOCABULARY DEVELOPMENT
3.0 Units

CABOT 103 is designed to develop skill in the acquisition and proper use of English vocabulary used in business communications. Both general and specialized vocabularies specific to business professions are covered. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring.

104 FILING METHODS AND SYSTEMS
1.0 Unit

CABOT 104 covers principles and procedures for establishment and use of various filing systems. This includes practice in alphabetic, numeric, geographic, and subject filing methods and covers principles and procedures for storage and retrieval, retention, transfer, and disposal of records. Lecture 1.5 hours. Prerequisite: Successful completion of CABOT 92 or demonstration of comparable knowledge and skills. Note: May be taken 4 times for credit. Course Typically Offered: Fall/Spring.

105 INTRODUCTION TO OFFICE CORRESPONDENCE
3.0 Units

CABOT 105 is an entry-level writing course for students completing programs in business. The course prepares students to accomplish tasks and solve problems through the written word. Techniques are covered for creating effective documents in appropriate styles and formats. These documents include business letters, memos, e-mail messages, telephone messages, and other written communications typically generated by an employee in an entry-level position. In addition, short original essays responding to a review of rhetorical works in the fields of business and economics will be prepared. Lecture 3 hours. Prerequisite: CABOT 102. Recommended Preparation: Eligibility for ENGL 120 or ESL 151 or the equivalent and keyboarding skill at rate of 30 wpm. Course Typically Offered: Fall/Spring.

106 EXAMINATION PREPARATION
3.0 Units

CABOT 106 is designed to instruct students with disabilities in the use of mainstream application program and assistive computer technology to produce written documents. Concepts related to spreadsheet/database applications and advanced word processing features are included. Note: This course is primarily designed for students who meet Title 5 eligibility requirements for Disabled Student Programs and Services. Lecture 3 hours. Prerequisite: Successful completion of CABOT 92 or demonstration of comparable knowledge and skills. Note: May be taken 4 times for credit. Course Typically Offered: Fall/Spring.

110 COLLEGIATE BUSINESS MATHEMATICS
3.0 Units

CABOT 110 is a course in applied routine mathematical tasks typically performed by entry-level clerical employees in today’s business offices. Students will learn to select and apply appropriate procedures to solve problems arising in various business situations. Emphasis is on real-world business math applications in such areas as payroll, cash and trade discounting, and both simple and compound interest. This course offers students a solid preparation for entering courses in accounting, retailing, banking, and marketing, and is a core requirement for most CABOT certificate programs. Completion of this course is intended to increase students’ success on pre-employment exams for entry-level civil-service-type office positions (e.g. county, city, state, and school district) as well as for an array of private industry office positions. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring.

162 LEGAL OFFICE PROCEDURES
3.0 Units

CABOT 162 is a course offering specialized training in preparation of legal paperwork and forms, development of specialized vocabulary and spelling, familiarization with law office routines, and other legal procedures. Lecture 3 hours. Prerequisite: None. Recommended Preparation: CABOT 210 or equivalent, CABOT 101 and concurrent enrollment in or completion of CABOT 265 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

205 COMPUTER KEYBOARDING/TYPING I
3.0 Units

CABOT 205 develops the basic skill of keyboard techniques to give the foundation for advanced training in typing. Training is given in the preparation of memorandums, personal letters, business letters, simple tabulation, outlines, and manuscripts. Lecture 2 hours/Laboratory 3 hours. Prerequisite: None. Transfer Credit: CSU.
206 MACINTOSH BASICS
1.0 Unit
CABOT 206 provides students with a basic introduction to the Macintosh Operating System. Topics covered include managing the desktop using a mouse and pull-down menus, creating and manipulating folders, files, and windows, and other standard operations used in every Macintosh application. The course includes an introduction to word processing, Internet applications and multimedia integration using Apple Creativity Apps. Lecture 1 hour. Prerequisite: None. Course Typically Offered: Fall/Spring.

208 WINDOWS BASICS
1.0 Unit
CABOT 208 provides students with a basic introduction to the Windows environment. Topics covered include the skills necessary to manage the desktop, to use the mouse and pull-down menus, to create and manipulate folders, files, windows, and perform other standard Windows operations, and to perform simple Internet searches. Lecture 1 hour. Prerequisite: None. Course Typically Offered: Fall/Spring.

209 ADVANCED WINDOWS
1.0 Unit
CABOT 209 reviews the fundamental skills taught in CABOT 208 and continues with more advanced features. Topics covered include modifying the desktop work environment, customizing with control panel, and advanced file and document management. Lecture 1 hour. Prerequisite: CABOT 208 or OBT 80 or equivalent. Knowledge of computer keyboarding. Course Typically Offered: Fall/Spring.

210 COMPUTER KEYBOARDING/TYPING II
3.0 Units
CABOT 210 is a continuation of CABOT 205, providing refinement and development of technique with increased emphasis on accuracy and speed. The course provides a detailed study of business letters, special office forms, tabulated reports, and manuscripts. Lecture 2 hours/Laboratory 3 hours. Recommended Preparation: CABOT 205 (3 units) or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

260 BEGINNING MICROSOFT OFFICE APPLICATIONS
4.0 Units
CABOT 260 provides students with the necessary skills and training to create, enhance, manipulate, and manage files in four different software programs. Some of the topics for this course consist of: creating a document with a table, a chart, and a watermark, working with large worksheets, data tables, amortization schedules, and hyperlinks, designing, maintaining, and querying databases, and creating slide shows with embedded visuals. Lecture/Demonstration 4 hours. Recommended Preparation: CABOT 200 and 208, or equivalent. (CABOT 200 and 208 may be taken concurrently.) Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU.

265 MICROSOFT WORD I
3.0 Units
CABOT 265 provides students with beginning features and functions of Microsoft Office Word, a word processing software program. This course prepares students for the Microsoft Office Specialist (MOS) core certification exam in Word. Some of the topics for this course consist of: creating and editing a word document, creating a research paper, using a wizard to create a resume, creating a cover letter with a table, and creating a document with a table, a chart, and a watermark. Lecture/Demonstration 3 hours. Recommended Preparation: CABOT 208 or equivalent. (CABOT 208 may be taken concurrently), and CABOT 205 or equivalent or ability to type by touch at a minimum of 25 wpm. Course Typically Offered: Fall/Spring/Summer.

270 MICROSOFT EXCEL I
3.0 Units
CABOT 270 provides students with instruction in beginning features and functions of Microsoft Office Excel, a spreadsheet software program. This course prepares students for the Microsoft Office Specialist (MOS) core certification exam in Excel. Some of the topics for this course consist of: creating a worksheet with an embedded chart, working with financial functions, data tables, amortization schedules, and hyper-links, and creating static and dynamic Web pages. Lecture/Demonstration 3 hours. Recommended Preparation: CABOT 200 and 208, or equivalent. (CABOT 200 and 208 may be taken concurrently.) Course Typically Offered: Fall/Spring.

271 MICROSOFT EXCEL II
3.0 Units
CABOT 271 provides students with advanced features and functions of Microsoft Office Excel, a spreadsheet software program. This course prepares students for the Microsoft Office Specialist (MOS) expert certification exam in Excel. Some of the topics for this course include using Visual Basic for Applications (VBA), creating templates and working with multiple workbooks. Lecture/Demonstration 3 hours. Prerequisite: CABOT 270 or equivalent. Course Typically Offered: Fall/Spring.

275 MICROSOFT ACCESS I
3.0 Units
CABOT 275 provides students with instruction in beginning features and functions of Microsoft Office Access, a database software program. This course prepares students for the Microsoft Office Specialist (MOS) core certification exam in Access. Some of the topics for this course consist of: creating a database using design and datasheet views, querying a database, maintaining a database, and creating reports and forms. Lecture/Demonstration 3 hours. Recommended Preparation: CABOT 200 and 208, or equivalent. (CABOT 200 and 208 may be taken concurrently.) Course Typically Offered: Fall (Every Other Year).

285 MICROSOFT OFFICE SPECIALIST (MOS) EXAMINATION
1.0 Unit
CABOT 285 prepares students for the Microsoft Office Specialist (MOS) Expert Certification Exam. Topics include the necessary skills and knowledge required to pass the MOS Expert Certification Exam. Lecture 1 hour. Prerequisite: Course Typically Offered: Fall (Every Other Year).
276 MICROSOFT ACCESS II
3.0 Units
CABOT 276 provides students with advanced features and functions of Microsoft Office Access, a database software program. This course prepares students for the Microsoft Office Specialist (MOS) certification exam in Access. Some of the topics for this course consist of creating a report using design view, enhancing forms with Object Linking and Embedding (OLE) fields, hyperlinks, and subforms, and customizing forms using Visual Basic for Applications (VBA), charts, and Pivot Table objects. Lecture/Demonstration 3 hours. Prerequisite: CABOT 275 or equivalent. Course Typically Offered: Spring.

280 MICROSOFT POWERPOINT I
3.0 Units
CABOT 280 provides students with instruction in beginning features and functions of Microsoft Office PowerPoint, a presentation software program. This course prepares students for the Microsoft Office Specialist (MOS) core certification exam in PowerPoint. Some of the topics for this course consist of: using a design template and auto layouts to create a presentation, using outline view and clip art to create a slide show, using embedded visuals to enhance a slide show, and creating a presentation on the Web. Lecture/Demonstration 3 hours. Recommended Preparation: CABOT 200 and 208, or equivalent. (CABOT 200 and 208 may be taken concurrently.) Course Typically Offered: Fall/Spring.

281 MICROSOFT POWERPOINT II
3.0 Units
CABOT 281 provides students with advanced features and functions of Microsoft Office PowerPoint, a presentation software program. This course prepares students for the Microsoft Office Specialist (MOS) expert certification exam in PowerPoint. Some of the topics for this course consist of: creating a presentation containing interactive object Linking and Embedding (OLE) documents, creating a self-running presentation using animation effects, and using Visual Basic for Applications (VBA). Lecture/Demonstration 3 hours. Prerequisite: CABOT 280 or equivalent.

285 MICROSOFT OUTLOOK
3.0 Units
CABOT 285 introduces students to the beginning features and functions of Microsoft Office Outlook. This course prepares students for the Microsoft Office Specialist (MOS) certification exam in Outlook. Lecture/Demonstration 3 hours. Recommended Preparation: CABOT 208 or equivalent. Course Typically Offered: Spring (Every Other Year).

286 MICROSOFT PUBLISHER
3.0 Units
CABOT 286 introduces students to the beginning features and functions of Microsoft Office Publisher, a desktop publishing program. Students create flyers, brochures, newsletters, letterheads, forms, and other publications that incorporate text, graphics, illustrations, and photographs. Lecture/Demonstration 3 hours. Recommended Preparation: CABOT 208 or equivalent. Course Typically Offered: Fall (Every Other Year).

COMPUTER INTEGRATED MANUFACTURING

101 INTRODUCTION TO ROBOTICS
1.5 Units
CIM 101 is an introductory course that provides a comprehensive study of the fundamentals of industrial robotics. It prepares the student for more advanced studies in robotic automation and related technologies. Specific areas of concentration include power and industry applications. Lecture 1.5 hours.Prerequisite: None. Transfer Credit: CSU.

102 AUTOMATION & PRODUCTION CONTROLS
1.5 Units
CIM 102 is the continuation of electronic control automation systems, emphasizing the terms, principles, and techniques used in automated manufacturing processes. Programmable logic control applications are emphasized in central system industrial design. Lecture 1.5 hours. Prerequisite: CIM 101. Transfer Credit: CSU.

COMPUTER SCIENCE/INFORMATION SYSTEMS

100 COMPUTER CONCEPTS
3.0 Units
CS/IS 100 is a survey course designed to introduce concepts and applications to students with no previous exposure to computing. It is directed toward students who want a single survey course in computer concepts, and who may be using a computer in a work situation. Note: This course is not intended for CIS, IT or CS majors and may not be taken for credit by students who have completed CS/IS 101. Lecture 3 hours. Recommended Preparation: Eligibility for BUSAD 106 Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

112 INTRODUCTION TO PROGRAMMING USING JAVA
3.0 Units
CS/IS 112 is the introductory course in computer programming using the Java programming language. Programming techniques including defining the problem, pseudocode, writing, executing, and debugging application programs and program documentation are presented. Lecture 3 hours. Recommended Preparation: CS/IS 101 or equivalent. Course Typically Offered: Fall/Spring/Summer. Transfer Credit: CSU, UC, USC. (C-ID ITIS 120 & BUS 140)
123  
**DESKTOP PUBLISHING**  
3.0 Units  
CS/IS 123 is intended to acquaint the student with currently available office publishing technology. Students compose and create business flyers, brochures and newsletters as well as explore the use of business graphics programs. Students develop the skills necessary to plan, install, and maintain an office publishing system. This course does not teach basic design concepts, but rather provides the student with new production tools for the office environment. Lecture 3 hours. Preerequisite: None. Course Typically Offered: Spring (Every Other Year). Transfer Credit: CSU.

125  
**DISCRETE STRUCTURES FOR COMPUTING**  
4.0 Units  
CS/IS 125 is a course in discrete structures that furnishes a strong foundation of mathematical tools for modeling problems and applications in computer science. Topics include logic operations, combinatorics, undirected and directed graphs, trees, relations and sets, proofs, Boolean algebra, algebraic systems, finite state automata, and discrete probability. Lecture 3.5 hours/Laboratory 1.5 hours. Prerequisite: MATH 101 or a satisfactory score on the Mathematics Placement Examination. CS/IS 135 or equivalent. Transfer Credit: CSU, UC, USC. (C-ID COMP 152)

126  
**DIGITAL IMAGING**  
3.0 Units  
CS/IS 126 is an in-depth study course which introduces and teaches the concepts of Digital Imaging. Current imaging editing software, such as Photoshop, is used in the class. This course does not teach basic design concepts, but teaches the student techniques for the production of digital files which can be used for printing and display. Lecture 3 hours. Recommended Preparation: CS/IS 101. Course Typically Offered: Fall/Spring.

130  
**INTRODUCTION TO ALGORITHMS**  
3.0 Units  
CS/IS 130 is a course in programming, algorithm development and problem-solving using both object-oriented and structured approaches. It includes a study of syntax and data structures with applications in science, engineering, and industry. This course is suitable either for students planning to transfer or those wishing to develop a marketable skill. Lecture 3 hours. Prerequisite: CS/IS 112 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

132  
**MOBILE APPLICATION DEVELOPMENT – ANDROID**  
3.0 Units  
CS/IS 132 provides an introduction to the art and practice of mobile application development for the Android operating system. Students use the software development kit (SDK) to create programs including: how to craft Graphical User Interfaces (GUIs); creating location-based applications; and accessing web services. Lecture 3 hours. Prerequisite: CS/IS 112 or equivalent.

133  
**MOBILE APPLICATION DEVELOPMENT – IOS**  
3.0 Units  
CS/IS 133 provides an introduction to the art and practice of mobile application development for the Apple iOS operating system. Students use the Xcode IDE and Swift to create mobile applications. Lecture 3 hours. Prerequisite: CS/IS 135 or equivalent. Transfer Credit: CSU.

135  
**PROGRAMMING IN C/C++**  
3.0 Units  
CS/IS 135 is a course in programming using the C/C++ languages which are easily transportable languages with uses in applications programming for real-time, business, and image processing systems, as well as systems programming. Types, operators, control flow functions, object-oriented programming, classes, data abstraction, and program structure pointers and arrays are covered in the programming assignments. Lecture 3 hours. Prerequisite: CS/IS 112 or equivalent. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID COMP 122)

137  
**C++ AND ADVANCED TOPICS**  
4.0 Units  
CS/IS 137 prepares the student for C++ programming in the workplace and other real world environments. The course focuses on the advanced object-oriented programming concepts needed for today’s programs as well as other advanced concepts such as templates and generics, files and streams, and operator overloading. The course provides students an opportunity to work on advanced projects of the student’s choosing within the scope of the course. Lecture/Demonstration 4 hours. Prerequisite: CS/IS 135 or equivalent. Course Typically Offered: Fall (Every Other Year). Transfer Credit: CSU, UC, USC.

139  
**JAVA**  
4.0 Units  
CS/IS 139 is a hands-on course where the student works with programs to develop a knowledge of Java concepts in an interactive environment. Stand alone applications and network applets are created and tested across operating systems and hardware platforms. Lecture 4 hours. Prerequisite: CS/IS 130 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

151  
**PYTHON PROGRAMMING**  
3.0 Units  
CS/IS 151 is a course in programming computers in the Python language for those who plan to be programmers or those interested in graphics and Graphical User Interface (GUI) programming. Python is used in both business and game applications. The course covers the basics of the Python language and reviews computer science concepts. Data types, decision structures, loops, functions, object-oriented programming, and some basic graphics and GUI concepts will be presented. Lecture 3 hours. Recommended Preparation: CS/IS 112 or equivalent. Course Typically Offered: Spring (Every Other Year).

157  
**ROBOT MOTION PLANNING**  
3.0 Units  
CS/IS 157 provides an introduction to the art and practice of programming mobile robots using modern programming language(s) such as C++, Java or Python. It uses the context of robot programming to develop skills in software development. Students gain experience specifying open-loop and feedback behaviors, handling RGB input video, range images, tactile sensing, and other robot sensors, and reasoning about the spatial context of navigation and localization tasks. The vast majority of the course experience consists of implementation of and experimentation with these skills through hands-on labs. Lecture 2 hours/Laboratory 3 hours. Recommended Preparation: CS/IS 135 Course Typically Offered: Fall/Winter. Transfer Credit: CSU.
165 COMPUTER ARCHITECTURE AND ASSEMBLY LANGUAGE
4.0 Units
CS/IS 165 introduces the student to computer architecture as well as the world of assembly language programming. The mapping of statements and constructs in a high-level language onto sequences of machine instructions is studied, as well as the internal representation of simple data types and structures. Numerical computation is examined, noting the various data representation errors and potential procedural errors. Lecture/Demonstration 4 hours. Prerequisite: CS/IS 112 or equivalent. Course Typically Offered: Fall (Every Other Year). Transfer Credit: CSU, UC, USC. (C-ID COMP 142)

166 ADVANCED COMPUTER ARCHITECTURE AND ASSEMBLY LANGUAGE
3.0 Units
CS/IS 166 covers the extension of basic addressing concepts to more advanced address ability such as base register and self-relative addressing, as well as comparative computer architecture focusing on such organizations as multiple register processors and stack machines. Students study the basics of virtual memory input-output and an introduction to the concept of micro programmable systems. Low-level system translation processes associated with assemblers, system functions such as relocatable loading and memory management, applications of data structures, and hashing techniques are covered. Lecture 3 hours. Prerequisite: CS/IS 165 or equivalent Course Typically Offered: Spring (Every Other Year). Transfer Credit: CSU, UC, USC.

172 UNIX/LINUX OPERATING SYSTEM
4.0 Units
CS/IS 172 discusses the various features of the UNIX and Linux operating systems. These operating systems are industry standard in modern computer systems. This course will be taught using current Linux distributions on Glendale Community College computers and on student home computers. Lecture/Demonstration 4 hours. Recommended Preparation: CS/IS 135 or 139, or equivalent Course Typically Offered: Fall (Every Other Year). Transfer Credit: CSU, UC, USC.

174 UNIX/LINUX SYSTEM ADMINISTRATION
4.0 Units
CS/IS 174 is a course designed to acquaint the student with UNIX system administration. Topics covered include the tasks performed by a system administrator. Topics covered will include installation, system startup and shutdown, networking, files system structure, Sun Microsystem’s Network File System (NFS), process control, backups, user administration, email, web hosting, interoperability with Windows, and security. Lecture/Demonstration 4 hours. Recommended Preparation: CS/IS 172 or equivalent. Course Typically Offered: Spring (Every Other Year).

180 SYSTEMS ANALYSIS
3.0 Units
CS/IS 180 course presents a systematic methodology for analyzing a business problem or opportunity, determining what role, if any, computer-based technologies can play in addressing the business need, articulating business requirements for the technology solution, specifying alternative approaches to acquiring the technology capabilities needed to address the business requirements, and specifying the requirements for the information systems solution in particular, in-house development, development from third-party providers, or purchased commercial-off-the-shelf packages. Lecture 3 hours. Prerequisite: CS/IS 101 Course Typically Offered: Spring (Every Other Year). Transfer Credit: CSU, UC, USC. (C-ID ITIS 140)

183 DIGITAL FORENSICS FUNDAMENTALS
3.0 Units
CS/IS 183 is an introduction to the methods used to properly conduct a computer forensics investigation beginning with a discussion of ethics, while mapping to the objectives of the International Association of Computer Investigative Specialists (IACIS) certification. Topics covered include: an overview of computer forensics as a profession; the computer investigation process; understanding operating systems boot processes and disk structures; data acquisition and analysis; technical writing; and a review of familiar computer forensics tools. Lecture 3 hours. Prerequisite: None. Recommended Preparation: CS/IS 194 or CS/IS 196 or knowledge of workstation hardware and storage.

185 DATABASE MANAGEMENT SYSTEMS
3.0 Units
CS/IS 185 covers basic database administration tasks and key concepts of data quality and data security. In addition to developing database applications, the course helps the students understand how large-scale packaged systems are highly dependent on the use of Database Management Systems (DBMSs). Building on the transactional database understanding, the course provides an introduction to data and information management technologies that provide decision support capabilities under the broad business intelligence umbrella. Lecture 3 hours. Recommended Preparation: CS/IS 101 or equivalent. Transfer Credit: CSU.

186 WORKSTATION SECURITY AND SUPPORT
3.0 Units
CS/IS 186 familiarizes the student with workstation security measures and workstation operations. The Internet environment has spawned privacy and security issues, network administrators must be trained to solve security threats as well as maintain user workstations. The student will learn to recognize threats to workstation security. This course also prepares the student to build and maintain workstations in a network and Internet environment as well as work in a helpdesk or support capacity. Lecture/Demonstration 3 hours. Prerequisite: None.

190 INTRODUCTION TO COMPUTER NETWORKS
3.0 Units
CS/IS 190 introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. The principles and structure of IP (Internet Protocol) addressing and the fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for further study of computer networks. It uses the OSI (Open Systems Interconnection) and TCP (Transmission Control Protocol) layered models to examine the nature and roles of protocols and services at the application, network, data link, and physical layers. This course affords preparation for the CompTIA Network+ certification exam. Lecture/Demonstration 3 hours. Recommended Preparation: CS/IS 101 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU. (C-ID ITIS 150)
3.0 Units
CS/IS 193 is a course that introduces students to the concepts, principles, and techniques, supplemented by hands-on exercises, for attacking and disabling a network within the context of properly securing a network. The course emphasizes network attack methods with the emphasis on student use of network attack techniques and tools and appropriate defenses and countermeasures. Students receive course content information through a variety of methods: lecture and demonstration of hacking tools will be used in addition to a virtual environment. Students experience a hands-on practical approach to penetration testing measures and ethical hacking. Lecture 3 hours. Recommended Preparation: CS/IS 190 and CS/IS 196 or equivalent. Transfer Credit: CSU. (C-ID ITIS 164)

194 INFORMATION TECHNOLOGY ESSENTIALS
4.0 Units
CS/IS 194 provides an introduction to the computer hardware and software skills needed to help meet the growing demand for entry-level Information Technology (IT) professionals. The fundamentals of computer hardware and software, as well as advanced concepts such as security, networking, and the responsibilities of an IT professional are introduced. Preparation for the CompTIA A+ certification exams is included. Lecture 4 hours. Recommended Preparation: None. Transfer Credit: CSU.

3.0 Units
CS/IS 196 is a course designed to help prepare the student for industry-recognized certification in advanced networking infrastructure. This course focuses on security installation, configuration and administration in the modern networking environment. The course includes an introduction to the fundamental principles and topics of Information Technology Security and Risk Management at the organizational level. Lecture/Demonstration 3 hours. Recommended Preparation: CS/IS 190 or equivalent. Course Typically Offered: Spring (Every Other Year).

ADVANCED NETWORKING: SERVER OPERATIONS
3.0 Units
CS/IS 197 is a course designed to acquaint the student with the knowledge and skills required to build, maintain, troubleshoot and support server hardware and software technologies. Students learn to identify environmental issues; understand and comply with disaster recovery and physical/software security procedures; become familiar with industry terminology and concepts; understand server roles/specializations and interactions within the overall computing environment. Lecture/Demonstration 3 hours. Recommended Preparation: CS/IS 190 or equivalent. Course Typically Offered: Spring (Every Other Year).

DATA STRUCTURES
4.0 Units
CS/IS 211 is designed to provide a thorough coverage of data structures with data abstraction applied to a broad spectrum of practical applications. Students who take this course master the principles of programming as a tool for problem solving. The students solve practical problems in a computer equipped laboratory using an Object Oriented Programming (OOP) Language, typically JAVA or C++. Lecture 3.5 hours/Laboratory 1.5 hours. Prerequisite: CS/IS 135 or equivalent. Course Typically Offered: Fall (Every Other Year). Transfer Credit: CSU, UC, USC. (C-ID COMP 132)

ADVANCED DATA STRUCTURES
3.0 Units
CS/IS 212 is designed to provide a thorough coverage of data structures with data abstraction applied to a broad spectrum of practical applications. Students who take this course master the principles of programming as a tool for problem solving. Students solve practical problems in a computer-equipped laboratory using an object-oriented programming language, such as JAVA. Some specific topics covered include hash tables, trees, persistent structures, indexed files, and databases. Lecture 3 hours. Prerequisite: CS/IS 211 or equivalent. Course Typically Offered: Spring (Every Other Year). Transfer Credit: CSU, UC, USC.

ORACLE/SQL
3.0 Units
CS/IS 234 covers the introduction to the advanced use of Oracle Relational Database Management System and the use of Oracle’s Structured Query Language (SQL*Plus) query tool. This course focuses on the design and organization of a specific schema diagram and how to build SQL statements to access the data. This course also focuses on DML (Data Manipulation), DDL (Data Definition), and DCL (Data Control) and Procedural Language/Structured Query Language (PL/SQL), the programming language that uses SQL. Note: This course may not be taken for credit by students who have completed CS/IS 232 and/or CS/IS 233. Lecture 3 hours. Recommended Preparation: CS/IS 100, CS/IS 101 or equivalent. Transfer Credit: CSU.

INTRODUCTION TO E-COMMERCE/E-BUSINESS
3.0 Units
CS/IS 255 is a course designed to acquaint the student with Electronic Commerce. This course focuses on the fundamentals of doing business on the Internet. It includes hardware and software requirements, security strategies, payment systems, business strategies and integration with existing business systems. Lecture/Demonstration 3 hours. Prerequisite: None.

INTRODUCTION TO WEB SITE DEVELOPMENT
3.0 Units
CS/IS 260 provides students with training and experience in developing and managing Internet Web sites. Primary emphasis is placed on the development of the client-side of the Web for business purposes. Topics include forms, scripting, authoring, and file management software. Students use Web-building development techniques for the client-side of the Web. Lecture/Demonstration 3 hours. Note: Having the ability to type at least 20 wpm is strongly recommended. Recommended Preparation: None. Course Typically Offered: Fall/Spring/Summer. Transfer Credit: CSU.
261
INTERACTIVE WEB DEVELOPMENT
3.0 Units
CS/IS 261 provides students with training and experience in developing and managing an Internet Web server for business. Students will use an Apache Web Server, create and use MySQL database tables, and program in the PHP (PHP Hypertext Preprocessor) Web programming language to create interactive Web sites. Students will also manage their own Web servers to accomplish their course objectives. Lecture/Demonstration 3 hours. Note: Having the ability to type at least 20 wpm is strongly recommended. Recommended Preparation: CS/IS 260 or equivalent. Course Typically Offered: Fall (Every Other Year).

262
WEB SCRIPTING
3.0 Units
CS/IS 262 is a hands-on course designed to acquaint the student with creating Web scripts. This course focuses on the fundamentals of programming with a browser scripting language. Students learn to write, debug, and test Web page scripts and functions. Lecture/Demonstration 3 hours. Recommended Preparation: CS/IS 260 or equivalent. Course Typically Offered: Spring (Every Other Year).

263
DATABASE-DRIVEN WEB PAGE CREATION
3.0 Units
CS/IS 263 is a hands-on course designed to introduce the student to the latest techniques in database-driven Web page creation. This course focuses on the methods and techniques used to generate on-the-fly Web pages from Internet databases. Students will learn to write, debug, and test Extensible Markup Language (XML) data and then create Web pages using a style sheet language. XML and the XML Style sheet language (XSL) will be used in this course. Lecture/Demonstration 3 hours. Recommended Preparation: CS/IS 260 or equivalent. Course Typically Offered: Spring (Every Other Year).

264
WEB DEVELOPMENT PROJECT I: PLANNING
1.0 Unit
CS/IS 264 is the first of three practical experience-building courses for the Web Development certificate. In this course, the student will complete a thorough Web site plan including site navigation, production charts and storyboards. Lecture 1 hour/Laboratory 2 hours. Prerequisite: CS/IS 260 or equivalent. Course Typically Offered: Fall/Spring.

265
WEB DEVELOPMENT PROJECT II: CONSTRUCTION
1.0 Unit
CS/IS 265 is the second of three practical experience-building courses for the Web Development certificate. In this course, the student will execute the plans created in CS/IS 264. Industry standard software will be used to build and test the web site. File management and version control techniques will be evaluated. Lecture/Demonstration 1 hour. Prerequisite: CS/IS 264 or equivalent. Course Typically Offered: Fall/Spring.

266
WEB DEVELOPMENT PROJECT III: MAINTENANCE
1.0 Unit
CS/IS 266 is the last of three practical experience-building courses for the Web Development certificate. In this course, the student will focus on the skills needed to maintain a complex Web site. Techniques for site rejuvenation and visitor log evaluation software are also covered. Lecture/Demonstration 1 hour. Prerequisite: CS/IS 265 or equivalent. Course Typically Offered: Fall/Spring.

267
INTRODUCTION TO GAME DEVELOPMENT
3.0 Units
CS/IS 267 presents a detailed overview of the game development process, addressing subjects such as game technologies, content creation strategies, production techniques, game psychology, and criteria that determine game success. Career paths in the game entertainment field will be discussed, as well as the history of video game design and programming. The student will examine future industry predictions and the relationship between industry inner workings and production tools. Lecture 3 hours. Prerequisite: None.

280
CONCEPTS OF PROGRAMMING LANGUAGES
3.0 Units
CS/IS 280 discusses issues in the design, implementation and use of high-level programming languages, the historical background, and how languages reflect different design philosophies and user requirements. Technical issues in the design of major procedural programming languages and other approaches to programming languages, such as functional programming, logic programming, and object oriented programming, are studied. Lecture 3 hours. Recommended Preparation: CS/IS 135 and 139, or equivalent. Course Typically Offered: Spring (Every Other Year). Transfer Credit: CSU, UC, USC.

CULINARY ARTS

111
FUNDAMENTALS OF PROFESSIONAL COOKING 1
4.0 Units
CULIN 111 provides an introduction and application of the principles of food preparation for the consumer by professionals. The course emphasizes hands-on cooking, tasting and evaluation to teach professional culinary techniques. The course also stresses how ingredients and culinary processes affect product outcome. Lecture 1.5 hours/Laboratory 7.5 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU.

112
FUNDAMENTALS OF PROFESSIONAL COOKING 2
4.0 Units
CULIN 112 is a continuation of CULIN 111. It is the introduction and application of the principles of food preparation. The course emphasizes high production standards, attractive service, use of proper equipment, and efficient use of time. The course also stresses work simplification, nutrition requirements, and preparation of specialized food. Lecture 1.5 hours/Laboratory 7.5 hours. Prerequisite: CULIN 111 or equivalent. Transfer Credit: CSU.
113 INSTITUTIONAL SANITATION PRACTICES FOR FOOD SERVICE AND HOSPITALITY
3.0 Units
CULIN 113 studies sanitation practices as they affect the individual and the food service and hospitality operation. It considers the prevention and control of problems encountered through guest and employee experiences. Topics include: how to prevent and control pathogens, safe food handler practices, protecting food through its flow through the establishment, food safety management systems, the Hazard Analysis Critical Control Point (HACCP) system, integrated pest management, employee training, and local and state regulations. Students will use materials from the National Restaurant Association Educational Foundation to complete the ServSafe certification program. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU.

116 INSTITUTIONAL PURCHASING FOR FOOD SERVICE AND HOSPITALITY
3.0 Units
CULIN 116 examines policies, procedures, and controls and their implementation in purchasing merchandise and supplies for the foodservice and hospitality industries. Topics include purchasing equipment, service ware, furniture, fixtures, contract services, and food and beverage. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU.

122 INTERNATIONAL COOKING
3.0 Units
CULIN 122 is an introduction to culinary principles and techniques derived from countries throughout the world. Specific areas of instruction covered include selection of proper equipment and utensils, correct methods of preparation and procedures. Food preparation and presentation are also emphasized. Note: This course may be taken 4 times emphasizing a different cuisine each time. Lecture 3 hours. Prerequisite: None. Note: May be taken 4 times for credit.

124 INTRODUCTION TO BAKING AND PASTRY ARTS
5.0 Units
CULIN 124 is a professional approach to all aspects of the pastry kitchen as related to the food service industry. The course emphasizes various methods of cake preparation, as well as the basics of baking technology. The course is designed to give students enough knowledge to understand the works of the pastry kitchen and bake shop. Lecture 3 hours/Laboratory 6 hours. Prerequisite: None. Note: May be taken 2 times for credit.

142 NUTRITION CONTROVERSY
2.0 Units
CULIN 142 is a presentation of current nutrition and dietary controversies. Emphasis is placed on dietary planning for optimum health and disease prevention as it relates to menu planning in the food service industry. Lecture 2 hours. Prerequisite: None.

150 HEALTHY CUISINE FOR KIDS
1.0 Unit
CULIN 150 is designed for school nutrition professionals who prepare and serve children in schools and child care centers every day. It provides an understanding of the basic nutrition principles for preparing healthy foods, and the culinary skills needed to apply nutrition principles in preparing healthy meals for children. Lecture .75 hour/Laboratory .75 hour. Prerequisite: None.

151 CUISINE OF EAST ASIA
3.0 Units
CULIN 151 is an introduction to the cuisine of East Asia. The course explores the development and evolution of the particular ingredients associated with each region or country. Culinary history, formative influences and general characteristics that have influenced the development of each region's cuisine will be studied, such as geography, climate, religion and trade. Specific areas of instruction will include the identification and use of characteristic ingredients and the selection of proper equipment and cooking methods. Note: Students who have successfully completed CULIN 122 will not receive credit for completion of CULIN 151. Note: uniform, equipment, and lab fee are required. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU.

212 COMMERCIAL FOOD PREPARATION
5.0 Units
CULIN 212 is designed for students pursuing a career in the hotel and restaurant industry. Students will be working in a commercial hotel kitchen where they will learn large scale food preparation and production. Lecture 3 hours/Laboratory 6 hours. Prerequisite: CULIN 111. Recommended Preparation: CULIN 112

224 ADVANCED BAKING AND PASTRY ARTS
5.0 Units
CULIN 224 focuses on advanced aspects of baking and pastry for retail pastry shops, hotels, restaurants and catering operations. Students will apply advanced techniques through practical laboratory experience in high-quality pastry production. The focus will be on European-style products, including laminated dough, pastries, cakes, petit fours, fancy desserts, torted mousses, chocolate, and confections. Decoration is strongly emphasized. Lecture 3 hours/Laboratory 6 hours. Prerequisite: CULIN 124 or equivalent.

DANCE
It is recommended that a variety of activities be taken during a student’s attendance at Glendale College. Courses in dance satisfy the physical education requirement. Child Development 158 and Dance 158 do not meet the physical education requirement. All classes are coeducational unless otherwise noted. There are nine families included in Dance (See page 88 for more information on course families):
- Ballet Technique (Dance 110, 111, 114). Through demonstration and discussion of ballet techniques, students taking courses within the Ballet Technique Family will advance their physical skills, ballet vocabulary, alignment, coordination, and mental discipline.
- Modern Dance Technique (Dance 115-117). Through demonstration and discussion of modern dance techniques, students taking courses within the Modern Dance Technique Family will advance their physical skills, dance vocabulary, alignment, and coordination necessary to excel in various modern dance forms.
- Jazz Technique (Dance 120, 121, 137). In the Jazz Technique Family, students advance their physical skills, jazz dance vocabulary, and acquire techniques to meet the demands for dance in theatre, film, and video through learning about jazz dance techniques.
American Vernacular Dances (Dance 124, 125, 126, 129). The American Vernacular Dances Family teaches the student through demonstration and discussion of vernacular dance techniques, how to advance their physical skills, dance vocabulary, alignment, and coordination necessary to meet the demands of high intensity performance skills needed in these types of dances; Cultural Dance (Dance 101, 127, 128, 133).

Within the Cultural Dance Family, students are exposed to a sampler of dance techniques from different ethnic groups with historical and cultural context;

Production Studies (Dance 135, 136). The Production Studies Family emphasizes integration of technical skills and advanced performance production. Production Studies is a crucial skill that needs developing over several semesters;

Movement for Theatre (Dance 140, 141, 145). The Movement for Theatre Family provides necessary movement skills for actors and theatre actors.

100 SURVEY OF DANCE HISTORY
3.0 Units

DANCE 100 is a survey of dance forms created by western cultures and civilizations. An introduction of the prehistory of dance and development of dance in ancient Egypt, Greece, and Rome is followed by an investigation of the history of dance in the western world through the Christian era into contemporary times. Elements relating to social dance, ethnic dance, court dance, ballet, modern dance, dance, musical theater dance, jazz, and tap dance are included. Emphasis is placed on the development of dance forms with the geographic, social, political, philosophical, and religious characteristics of these cultures. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC.

101 INTRODUCTION TO DANCE
1.5 Units

DANCE 101 provides a variety of experiences in movement relative to the acquisition of concepts and skills necessary to develop a basic understanding of dance as a performing art form. Lecture 1 hour/Laboratory 1.5 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (Cultural Dance Family)

102 MIDDLE EASTERN DANCE HISTORY
3.0 Units

DANCE 102 is a survey of dance forms originating in North Africa, the Arabian Peninsula, Iran, Armenia, the Levant and Turkey, with emphasis placed on their practice and development during the 19th and 20th centuries. An overview of Middle Eastern and Islamic values in relation to the body, gender, art, and spirituality provides a context for the examination of these dance forms and their relationship to the culture that created them. Elements relating to social dance, gendered dance, spiritual dance, Raqs Sharqi ('Belly Dance'), and theatrical dance are included. The role of cultural exchange and the migration of these dance forms on their development is investigated. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

107 SURVEY OF DANCE TEACHING METHODOLOGY
3.0 Units

DANCE 107 is a survey of dance teaching methodologies currently used in the dance industry. An introduction of dance technique methodology and appropriate dance pedagogy is followed by lesson planning, dance program development, and student evaluation process. Lecture 3 hours. Prerequisite: DANCE 101 or equivalent.

110 BALLET TECHNIQUE I
2.0 Units

DANCE 110 provides the student with practical experience in the traditional ballet techniques and styles. Through demonstration, exercise, and discussion the course emphasizes the development of the basic physical skills, ballet vocabulary, alignment, coordination, and mental discipline necessary to excel in all dance forms. Lecture 1 hour/Laboratory 3 hours. Prerequisite: None. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (Ballet Technique Family)

111 BALLET TECHNIQUE II
2.0 Units

DANCE 111 provides the students with practical experience in the traditional ballet techniques and styles on an intermediate level. Through exercise and discussion the course emphasizes further development of the physical skills, ballet vocabulary, alignment, coordination, and mental discipline necessary for intermediate performance skills. Lecture 1 hour/Laboratory 3 hours. Prerequisite: DANCE 110 or equivalent. Course Typically Offered: Winter/Spring/ Summer/Fall. Transfer Credit: CSU, UC, USC. (Ballet Technique Family)

112 BALLET PERFORMANCE SKILLS
1.5 Units

DANCE 112 provides the student with practical experience in performance skills and technical development. Emphasis is given to specific training methods and performance styles of the historic ballet traditions. Lecture 1 hour/Laboratory 1.5 hours. Prerequisite: DANCE 111 or equivalent by audition. Transfer Credit: CSU, UC, USC.

114 BALLET TECHNIQUE III
2.0 Units

DANCE 114 provides the students with practical experience in the contemporary ballet techniques and styles on an advanced level. Through exercise and discussion the course emphasizes further development of the technical skills, performance skills, and audition techniques. Lecture 1 hour/Laboratory 3 hours. Prerequisite: DANCE 111 or equivalent. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (Ballet Technique Family)

115 MODERN DANCE TECHNIQUE I
2.0 Units

DANCE 115 provides the students with practical experience in the modern dance techniques and styles. Through demonstration, exercise, and discussion the course emphasizes the development of the basic physical skills, dance vocabulary, alignment, and coordination necessary to excel in various modern dance forms. Lecture 1 hour/Laboratory 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (Modern Dance Family)
116 MODERN DANCE TECHNIQUE II
2.0 Units
DANCE 116 provides an opportunity to extend student's knowledge of modern dance technique. Through demonstration, exercise, and discussion, the course emphasizes the development of greater technical detail and control of the body needed in advanced modern dance production. Lecture 1 hour/Laboratory 3 hours. Prerequisite: DANCE 115 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (Ballet Technique Family)

117 MODERN DANCE TECHNIQUE III
2.0 Units
DANCE 117 provides students with practical experience in the contemporary/modern dance techniques and styles on an advanced level. Through exercise and discussion the course emphasizes further development of the technical skills, performance skills, and audition techniques. Lecture 1 hour/Laboratory 3 hours. Prerequisite: DANCE 116 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (Ballet Technique Family)

120 JAZZ TECHNIQUE I
2.0 Units
DANCE 120 provides the student with practical experience in the jazz dance techniques and styles. Through demonstration, exercise, and discussion the course emphasizes the development of the basic physical skills, dance vocabulary, alignment, and coordination necessary to excel in various jazz dance forms. Lecture 1 hour/Laboratory 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (Jazz Technique Family)

121 JAZZ TECHNIQUE II
2.0 Units
DANCE 121 provides further opportunities to extend the student's knowledge of jazz dance, and to acquire techniques to meet the demands for dance in theatre, film, and video today. Lecture 1 hour/Laboratory 3 hours. Prerequisite: DANCE 120 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (Jazz Technique Family)

122 JAZZ PERFORMANCE SKILLS
1.5 Units
DANCE 122 provides the student with practical experience in performance skills and more advanced technical development. Emphasis is given to specific advanced technical development. Emphasis is given to specific performance values and rehearsal techniques necessary to meet the demands of current profession and dance for theater, film, and television. Lecture 1 hour/Laboratory 1.5 hours. Prerequisite: DANCE 121 or equivalent. (DANCE 121 may be taken concurrently). Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (Performance Skills Family)

124 HIP-HOP I
1.5 Units
DANCE 124 provides students with practical experience in current hip-hop techniques, such as popping, locking, and ticking. Through exercise and discussion the course emphasizes the development of coordination, strength, cardiovascular fitness, and rhythm necessary to meet the demands of high intensity performance skills in the popular street dancing trends. The students are also encouraged to develop individual interpretation and personal style indigenous to this dance form. Lecture 1 hour/Laboratory 1.5 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (American Vernacular Dance Family)

125 TAP DANCE I
1.5 Units
DANCE 125 provides students with practical experience in basic tap dance techniques. Through discussion and movement, the course emphasizes the development of coordination, rhythm, and performance skills. Students learn tap dance combinations and dances. A brief history of the development of the tap dance medium is included. Lecture 1 hour/Laboratory 1.5 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (American Vernacular Dance Family)

126 TAP DANCE II
1.5 Units
DANCE 126 provides students with advanced, practical experience in tap dance techniques. Through discussion and movement, the course emphasizes the development of coordination, rhythm, and performance skills. Students learn advanced tap dance combinations and dances. Lecture 1 hour/Laboratory 1.5 hours. Prerequisite: DANCE 125 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (American Vernacular Dance Family)

127 SALSA I
1.5 Units
DANCE 127 provides students with practical experience in beginning salsa dance. Through discussion and movement, the course emphasizes the development of coordination, rhythm, and partnering skills. Students learn beginning salsa moves and patterns. Lecture 1 hour/Laboratory 1.5 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (Cultural Dance Family)

128 MIDDLE EASTERN DANCE
1.5 Units
DANCE 128 provides students with beginning level practical experience in Belly Dance and a selection of related ethnic dance forms originating in Armenia, Egypt, Morocco, Iran, Turkey, and Afghanistan. Through discussion, study, and demonstration of the movement vocabulary, the development of basic technical and interpretational skills is emphasized. The course includes an introductory exploration of the historical and cultural context of the selected dances. Lecture 1 hour/Laboratory 1.5 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (Cultural Dance Family)
129  
**HIP-HOP II**  
1.5 Units  
DANCE 129 provides further opportunities to extend the student’s knowledge of popular dance culture and to acquire Hip-Hop techniques to meet the demands for dance in video and dance clubs today. Lecture 1 hour/ Laboratory 1.5 hours. **Prerequisite:** DANCE 124 or equivalent. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC. (American Vernacular Dance Family)

130  
**CHOREOGRAPHY**  
1.5 Units  
DANCE 130 provides the student with basic skills and knowledge of the choreographic principles. Through discussion and practical experience, the students develop a basic understanding of dance as a performing art form. Lecture 1 hour/ Laboratory 1.5 hours. **Prerequisite:** DANCE 101 or 110 or 115 or 120 or 124 or equivalent. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC. (Choreographic Studies Family)

131  
**COMMERCIAL DANCE**  
2.5 Units  
DANCE 131 is a course designed to give the student a working knowledge of the dance industry. It provides an inside look at film, television, and stage work and develops technical dance excellence and performance skills. The student prepares for entrance into the dance field with audition, rehearsal and performance techniques. **Note:** An audition may be required. Laboratory 1.5 hours. **Prerequisite:** DANCE 135 or equivalent. **Transfer Credit:** CSU, UC, USC.

133  
**SALSA II**  
1.5 Units  
DANCE 133 provides students with practical experience in intermediate Salsa dance. Through discussion and movement, the course emphasizes the development of coordination, rhythm, and partnering skills. Students learn intermediate salsa moves and patterns to meet the demands for dance in the commercial industry and in dance clubs today. Lecture 1 hour/ Laboratory 1.5 hours. **Prerequisite:** DANCE 127 or performing form or by audition. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC. (Cultural Dance Family)

135  
**DANCE PRODUCTION-REPERTOIRE**  
2.5 Units  
DANCE 135 provides the students with the opportunity to perform in a dance production choreographed by faculty and alumni. Emphasis is given to integration of technical skills and advanced performance skills. **Note:** An audition may be required. Laboratory 1.5 hours. **Prerequisite:** DANCE 130 and 112 or DANCE 113, 122, 123, 134 or equivalent. **Course Typically Offered:** Fall. **Transfer Credit:** CSU, UC, USC. (Cultural Dance Family)

136  
**DANCE PRODUCTION-STUDENT CHOREOGRAPHY**  
2.5 Units  
DANCE 136 provides the student with the opportunity to choreograph and perform in a dance production. Emphasis is given to the integration of technical skills, performance experience, and application of the choreographic principles. **Note:** An audition may be required. Laboratory 1.5 hours. **Prerequisite:** DANCE 130 and 112 or DANCE 113, 122, 123, 134 or equivalent. **Course Typically Offered:** Spring. **Transfer Credit:** CSU, UC, USC. (Cultural Dance Family)

137  
**JAZZ TECHNIQUE III**  
2.0 Units  
DANCE 137 provides students with practical experience in advanced jazz techniques and styles on an advanced level. Through exercise and discussion the course emphasizes further development of technical skill, performance skills, and audition techniques. Lecture 1 hour/ Laboratory 1.5 hours. **Prerequisite:** DANCE 121 or equivalent. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC. (Cultural Dance Family)

138  
**SURVEY OF LATIN BALLROOM DANCE**  
1.5 Units  
DANCE 138 provides students with practical experience in Latin Ballroom dance. A selection of popular Latin Ballroom dances will be offered such as Cha-Cha, Samba, Rumba, Mambo, Merengue, and Paso Doble. Lecture 1 hour/ Laboratory 1.5 hours. **Prerequisite:** None. **Transfer Credit:** CSU, UC, USC.

140  
**MOVEMENT FOR THEATER I**  
1.0 Unit  
DANCE 140 provides the student the opportunity to study stage movement, physical characterization and mime as related to theatre. The students will increase their knowledge through practical application of the movement aspects of theatre. Lecture 1 hour/Laboratory 1.5 hours. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC. (Movement for Theatre Family)

145  
**MOVEMENT FOR MUSICAL THEATER**  
1.5 Units  
DANCE 145 provides the student with the opportunity to study dance, choreography, and movement as it applies to musical theater. The class culminates in the performance of a musical. Lecture 1 hour/Laboratory 1.5 hours. **Prerequisite:** None. **Transfer Credit:** CSU, UC, USC. (Movement for Theatre Family)

150  
**PHYSICAL REINTEGRATION**  
1.5 Units  
DANCE 150 is an experimental movement class, for the student with neurological and/or physical disabilities. Areas covered include: exploration of body image awareness; integration of sensory modalities with motor processes; orientation; and relaxation. **Note:** Verification of disability must be on file in the Disabled Student Center. Lecture 1 hour/Laboratory 1.5 hours. **Prerequisite:** None. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC.

158  
**MOVEMENT DEVELOPMENT: BIRTH THROUGH TWELVE YEARS**  
3.0 Units  
DANCE 158 provides those students who are interested in teaching movement to children the opportunity to acquire knowledge and techniques related to motor development. The course introduces basic principles and theories of motor development in children from birth to age twelve, focusing on designing developmentally-appropriate and creative dance experiences for young children. **Note:** This course will not fulfill physical education activity requirements. Lecture 3 hours. **Prerequisite:** None. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU.
190 BEGINNING YOGA 1.5 Units
DANCE 190 introduces the student to the principles and techniques of Yoga. The course emphasizes Yoga positions to facilitate stretching and toning muscles, limbering joints, and aiding spinal alignment. The use of Yoga breathing techniques and meditation exercises to revitalize the body and calm the mind is included. Lecture 1 hour/Laboratory 1.5 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC.

194 PILATES 1.5 Units
DANCE 194 provides the students with practical experience in the mat work of the Pilates method of body conditioning. Through demonstration, exercise, and discussion the course emphasizes the development of strength, flexibility, and relaxation techniques. Students develop a basic understanding of how to influence and control the body-mind interaction in the area of dance, athletics, and general fitness. Lecture 1 hour/Laboratory 1.5 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

ECONOMICS

101 PRINCIPLES OF MICROECONOMICS 3.0 Units
ECON 101 is an introductory course focusing on choices of individual economic decision-makers. Topics include scarcity, specialization and trade, market equilibrium, elasticity, production and cost theory, market structures, factor markets, and market failure. Lecture 3 hours. Prerequisite: ECON 102; and MATH 141, 146, or 246B. Course Typically Offered: Fall/Spring/Summer. Transfer Credit: CSU, UC, USC. (C-ID ECON 201)

102 PRINCIPLES OF MACROECONOMICS 3.0 Units
ECON 102 is an introductory course focusing on aggregate economic analysis. Topics include market systems, aggregate measures of economic activity, macroeconomic equilibrium, money and financial institutions, monetary and fiscal policy, international economics, and economic growth. Lecture 3 hours. Prerequisite: ECON 102; and MATH 141, 146, or 246B. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID ECON 202)

102H HONORS PRINCIPLES OF MACROECONOMICS 3.0 Units
ECON 102H is an introductory course focusing on aggregate economic analysis. Topics include market systems, aggregate measures of economic activity, macroeconomic equilibrium, money and financial institutions, monetary and fiscal policy, international economics, and economic growth. This course is enhanced in one or more of the following ways: students use a macroeconomic computer model to explore macroeconomic policies and explain the theoretical basis of the results achieved in the computer model; students write an essay critically assessing macroeconomic policies relative to different political viewpoints; and students complete writing assignments using critical thinking skills to assess macroeconomic policies. Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151; MATH 141, 146, or 246B. Transfer Credit: CSU, UC, USC.

105 THE AMERICAN ECONOMY 3.0 Units
ECON 105 provides an introduction to the American economy, a foundation for understanding it and the problems that it faces. The course provides a description of the important institutions of our system and an analytical approach to the understanding of the basic economic problems generally suited for non-business majors. Note: No credit will be granted for ECON 105 if ECON 101 and 102 have been taken previously. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC.

110 ELECTRICITY AND ELECTRONICS PRINCIPLES 4.0 Units
ECT 110 teaches the principles and applications of electricity and electronics. Topics include basic laboratory equipment, various electronics components, and designing/troubleshooting electronic circuit. This course provides students with the knowledge and skills of electricity and electronics and enhances their success in both their present career and/or advanced education in this field. Lecture 3 hours/Laboratory 3 hours. Recommended Preparation: ECT 100, Eligibility for ENGL 120 or ESL 151

113 PRINTED CIRCUIT BOARDS AND SOLDERING TECHNOLOGY 1.5 Units
ECT 113 is a comprehensive course providing functional training in the concepts of high-reliability soldering, solder extraction, and electronics component removal/replacement, including terminal interconnections using wire-wrap techniques. It covers rework, repair, and specialized high-technology industrial equipment. This course also encompasses rework, repair, and modification of electronic printed circuit boards. Additionally, automated industrial wave solder processes are studied. Lecture 1 hour/Laboratory 1.5 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.

ANALYTICAL ELECTRONICS 3.0 Units
ECT 100 is designed to offer the student a comprehensive study in the mathematics specifically used in the electronics and computer technology field. Phases covered include application of DC circuit analysis, AC fundamentals, simultaneous equations, AC circuit analysis statistics of numerical data. This class helps in preparing students to pass the Photovoltaic Installer examination and becoming certified by Electronics Technician Association (ETA) International. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.
160 INSPECTION AND CODES FOR ELECTRICIANS
3.0 Units
ECT 160 is a course designed to introduce the student to the National Electrical Code (NEC) using national, state, and local codes. Included in the course are duties of the electrical inspector with emphasis on code enforcement, inspection procedures, plan reading, electrical symbols and terminology. Methods of performing electrical inspections and interpreting electrical systems are based on the current electrical codes and standards. Emphasis will be placed on the importance of safety, asbestos abatement awareness, and anchoring and supporting for earthquake mitigation. Quality workmanship, efficient and well-designed electrical systems, and retrofitting will be emphasized. Lecture 3 hours. Prerequisite: ECT 110 or equivalent. Transfer Credit: CSU.

161 RESIDENTIAL ELECTRONICS SYSTEMS INTEGRATOR (RESI) TRAINING
3.0 Units
ECT 161 is an introduction to the Residential Electronics Systems Integrator (RESI). Topics include the design of prewiring for home theater and telecommunications equipment interconnection, network installation, and wiring for cable television, satellite and antenna outlets, telephone equipment outlets, audio and video entertainment, and computer equipment. Students may become certified by the Electronics Technician Association (ETA) International by passing the knowledge examination assessment and obtaining RESI BASIC skills and knowledge. Lecture 3 hours. Recommended Preparation: ECT 110 or equivalent.

162 INTRODUCTION TO SOLAR PRINCIPLES
3.0 Units
ECT 162 covers key aspects of solar power. This class covers the basics of solar energy and prepares the student to enter the job market as a solar technician in sales, installation, or repair. Topics also include the concepts behind installing and troubleshooting solar panels. This class helps in preparing students to pass the Photovoltaic Installer examination and becoming certified by Electronics Technician Association (ETA)International. Lecture 3 hours. Recommended Preparation: ECT 110, MATH 146, 141, or 246B.

163 ENERGY MANAGEMENT
3.0 Units
ECT 163 covers key aspects of energy management and prepares students to enter the job market as energy managers and energy professionals. Topics include concepts of greenhouse gas emissions management and energy savings. This class prepares students for passing the Certified Energy Management (CEM) examination and becoming certified by the Association of Energy Engineers (AEE). Lecture 3 hours. Recommended Preparation: ECT 110, ECT 115 and ENGL 120 or ESL 151. Transfer Credit: CSU.

167 CONTRACTOR’S LICENSE LAW
3.0 Units
ECT 167 covers key legal aspects of contracting. Students learn how to maintain a contractor’s license, legal practice, management, construction standards, safety regulations and insurance policies. Topics also include contractor’s license law, lien laws, laborcode, payroll deductions, organization, estimate and planning principles. Lecture 3 hours. Recommended Preparation: ECT 100, ECT 160. Eligibility for ENGL 120 or ESL 151.

201 SOLID STATE DEVICES
3.0 Units
ECT 201 encompasses the study of Solid-State semiconductor theory, including diode rectifiers, filtered power supplies, transistor and amplifiers, oscillators, and thyristor devices. Students also construct solid-state circuits, and perform circuit analysis and diagnostics of electronic parameters using state-of-the-art digital electronic test equipment. Lecture 3 hours. Prerequisite: ECT 110 or equivalent (ECT 110 may be taken concurrently) Recommended Preparation: ENGL 120 or ESL 151. Transfer Credit: CSU.

202 INTEGRATED CIRCUIT ELECTRONICS
3.0 Units
ECT 202 is a comprehensive study and applied analysis of linear integrated circuit (IC) electronics technology. Lab develops skills in constructing, testing, and analyzing operational amplifier, differentiator and integrator, voltage and current regulator, oscillator and function generator, active filter, converter, and phase-lock loop IC circuits, using advanced electronics test equipment. Lecture 3 hours. Prerequisite: ECT 201 or equivalent. Corequisite: ECT 253. Transfer Credit: CSU.

EMERGENCY MEDICAL TECHNOLOGY

139 INTRODUCTION TO EMERGENCY MEDICAL SERVICES
2.0 Units
ECT 139 introduces foundational concepts related to the emergency medical care of sick and injured persons. This course is designed for students interested in pursuing emergency medical services or other health-care occupations as a career. Topics also include the framework of emergency medical services as well as the unique challenges of ethical dilemmas and stress management in the emergency setting. Successful completion of the class includes certification in cardiopulmonary resuscitation (CPR) for healthcare providers from the American Heart Association (AHA). Note: EMT 139 may not be taken concurrently with EMT 140. Lecture 2 hours. Recommended Preparation: BIOL 115 and ENGL 120 or ESL 151 Course Typically Offered: Winter/Spring/Summer/Fall.

140 EMERGENCY MEDICAL TECHNICIAN (EMT)
8.0 Units
ECT 140 is designed to prepare students for certification and employment as an Emergency Medical Technician (EMT) in the state of California. Course material proceeds from introductory theory and practice of emergency medical care through increasingly complex concepts and management of immediate life-threatening situations and emergencies. Critical thinking and decision-making skills are stressed throughout the course. Coursework also includes a Clinical/ride-along component. Upon successful completion of EMT 139 and EMT 140, a course completion certificate is awarded to students who successfully complete the didactic portion of the class with 75% or better and pass the certifying skills exam. Successful completion of the EMT courses provides eligibility to sit for the National Registry EMT exam and apply for certification in the state of California. Note: Student must be eighteen years of age prior to the last day of class. In addition to the scheduled hours, twenty-four hours of ride along must be completed in order to be eligible to pass the class. Lecture 6 hours/Laboratory 6 hours. Prerequisite: EMT 139. Course Typically Offered: Fall/Spring.
100  
INTRODUCTION TO ENGINEERING  
3.0 Units  
ENGR 100 introduces students to the profession and disciplines of engineering and the engineering design process. Instruction includes computer skills and communication strategies utilized in engineering. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC. (c-ID ENGR 110)

101  
ENGINEERING DRAFTING AND BASIC DESIGN  
3.0 Units  
ENGR 101 is an in-depth study course designed to present training in the manipulation of instruments, lettering, orthographic projection, sketching, drawing auxiliary and pictorial views, sectioning and dimensioning. Lecture 2 hours/Laboratory 4 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC.

102  
ENGINEERING PRINT READING FOR INDUSTRY  
2.0 Units  
ENGR 102 is a study of the fundamentals of orthographic drawing to develop the student’s ability to understand and utilize the information presented on a blueprint. Such areas as size dimensional systems, tolerancing, SI metrics, value engineering and related industrial terminology are presented to strengthen the student’s ability to interpret an engineering drawing. Note: A recommended course for basic drafting review and non-drafting majors. This course may not be taken for credit by students who have completed ENGR 104, 106, or 108. Lecture 2 hours/Laboratory 1 hour. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU.

103  
DESCRIPTIVE GEOMETRY  
3.0 Units  
ENGR 103 presents a study of a valuable engineering tool which facilitates the solution of engineering problems graphically. A study of lines and planes in space. The representation of surfaces, solids, interferences, and intersections. Excellent training in visualization and interpretation of engineering drawings. Note: This course may not be taken for credit by students who have completed ARCH 103. Lecture 2 hours/Laboratory 4 hours. Prerequisite: ARCH 101 or ENGR 101 or equivalent. Recommended Preparation: ENGR 109. Transfer Credit: CSU, UC, USC.

109  
COMPUTER AIDED DESIGN AUTOCAD 1  
3.0 Units  
ENGR 109 is an activity based course in two-dimensional computer-aided design using AutoCAD software. Students learn and practice tools to create and edit drawings in accordance with industry standards. Topics include object construction, object properties, layers, orthographic projections, auxiliary views, sectioning, parametric tools, basic dimensioning, templates, plotting and the application of geometric dimensioning and tolerancing. Lecture 1.5 hours/Laboratory 4.5 hours. Prerequisite: ARCH 101 or ENGR 101 or equivalent. Transfer Credit: CSU, UC.

110  
ADVANCED AUTOCAD APPLICATIONS  
3.0 Units  
ENGR 110 is an advanced course in engineering design. Advanced techniques and concepts of computer-aided design will be presented with an emphasis on three-dimensional design and modeling for both architectural and engineering applications. Lecture 2 hours/Laboratory 4 hours. Prerequisite: ENGR 109 or equivalent. Transfer Credit: CSU, UC, USC.

111  
SOLIDWORKS APPLICATIONS  
3.0 Units  
ENGR 111 is a basic course in mechanical engineering drafting and design utilizing SolidWorks software, with an emphasis on three-dimensional design, modeling, and mechanical engineering design and manufacturing applications. Lecture 2 hours/Laboratory 4 hours. Prerequisite: ENGR 101 or equivalent. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU.

112  
ADVANCED SOLIDWORKS APPLICATIONS  
3.0 Units  
ENGR 112 teaches the advanced concepts of the SolidWorks software, its use as a mechanical engineering design and manufacturing tool, and the ability to fabricate, design, and create parts and assemblies. Topics include mechanical design modeling in the 3D environment, complex solid and surface modeling, digital input and output, analysis, and integrating SolidWorks with other Computer Aided Design (CAD) and Computer Aided Manufacturing (CAM) programs for a productive design workflow. Lecture 2 hours/Laboratory 4 hours. Prerequisite: ENGR 111 or equivalent. Transfer Credit: CSU.

120  
3D PRINTING AND MODELING  
2.0 Units  
ENGR 120 provides students with the basic knowledge of 3D printing (i.e., additive manufacturing; rapid prototyping) and modeling, as well as its impact within the engineering and manufacturing community. Students have the opportunity to explore the interaction between computer aided design (CAD), computer aided manufacturing (CAM), and additive manufacturing systems by participating in the design and prototyping of an actual part. Emphasis is placed on Fused Deposition Modeling (FDM) technology using the Stratasys Fortus modeling system and accompanying Insight software platform. Lecture 1 hour/Laboratory 3 hours. Recommended Preparation: ENGR 109, ENGR 111, CAM 230, ARCH 250, ART 230, or equivalent.

121  
SOLID IMAGING TECHNOLOGY  
3.0 Units  
ENGR 121 provides students with comprehensive and working knowledge of solid imaging applications and procedures with relationship to the engineering, manufacturing and design community. Fabrication of three-dimensional models from students’ computer aided designs will demonstrate various types of imaging software currently being used. Three-dimensional printing and fused deposition modeling techniques are features. Lecture 2 hours/Laboratory 4 hours. Prerequisite: ENGR 110 or CAM 211, ART 231 or equivalent.

130  
INTRODUCTION TO ROBOTICS  
2.0 Units  
ENGR 130 provides an introductory study of the fundamentals of mobile robotics and the associated engineering concepts. It prepares students for more advanced studies in robotics and related technologies. Students gain experience with fundamental concepts in robot design, computer aided design and drafting, sensors and actuators, programming, and electronics. The vast majority of the course experience consists of implementation of and experimentation with these skills through hands-on labs. Lecture 1 hour/Laboratory 3 hours. Prerequisite: None.
131 ELECTRONICS AND ELECTRICAL CIRCUITS
3.0 Units
ENGR 131 is intended for students wishing to major in engineering at the university level. It provides an introduction to the basic concepts and theory of electricity and magnetism with an emphasis on passive electrical elements such as resistors, capacitors and inductors (RLC) and their applications in alternating current (AC) or direct current (DC) circuits. Students also learn how to build, test and analyze simple RCL circuits in the laboratory, and use simulation software and test equipment such as power supply, multimeter, signal/function generator, oscilloscope, and spectrum analyzer. Related mathematics and physics concepts are developed alongside these concepts of electrical engineering. Lecture 2 hours/Laboratory 3 hours. Recommended Preparation: MATH 102 or 110. Course Typically Offered: Fall/Winter. Transfer Credit: CSU, UC.

132 INTRODUCTION TO DIGITAL ELECTRONICS
3.0 Units
ENGR 132 is intended for students planning to major in engineering at the university level. It provides an introduction to the basic concepts and theory of digital electronics. Students also learn how to build, test, and analyze simple digital circuits in the laboratory, and use simulation software and test equipment such as power supply, multimeter, signal/function generator, oscilloscope, and logic analyzer. Related mathematics and physics concepts are contextualized within the development of these electrical engineering concepts. Lecture 2 hours/Laboratory 3 hours. Recommended Preparation: MATH 102 or 110. Transfer Credit: CSU, UC, USC.

140 MATERIALS SCIENCE AND ENGINEERING
3.0 Units
ENGR 140 is a study of the manufacture and properties of materials including ferrous and non-ferrous alloys, ceramic products, wood, cements, plastics, fuels, glass, concrete, and rubber. Their uses, adaptability, and limitations in industry will be studied. Current methods of manufacture and technique will be covered. The course covers the testing of materials by destructive and nondestructive methods and by the testing of their physical properties. Lecture 3 hours. Prerequisite: CHEM 101, PHY 101, and MATH 103 or equivalent. Transfer Credit: CSU, UC. (C-ID ENGR 140)

151 COMPUTER AIDED DRAFTING LABORATORY
2.0 Units
ENGR 151 provides practice drafting and engineering computer equipment. Students work on individual projects. Training received in this course develops an ability to visualize and perform various computer functions necessary in the engineering trade. Laboratory 6 hours. Prerequisite: ENGR 109 or equivalent.

152 ENGINEERING MECHANICS - STATICS
3.0 Units
ENGR 152 covers the composition and resolution of co-planar and non-planar force systems, equilibrium of rigid bodies, distributed forces, forces in trusses, frames and cables, shear and bending moments in beams, and moments of inertia of areas and bodies. Lecture 3 hours. Prerequisite: PHY 101 or equivalent and MATH 104 or equivalent. Transfer Credit: CSU, UC, USC. (C-ID ENGR 130)

156 PROGRAMMING AND PROBLEM-SOLVING IN MATLAB
3.0 Units
ENGR 156 provides an introduction to MATLAB to provide students with a working knowledge of computer based problem-solving methods with applications for science and engineering. It introduces the fundamentals of procedural and object-oriented programming, numerical analysis, and data structures. Students gain experience working with MATLAB toolboxes and with development and debugging of programs using MATLAB and Simulink. Examples and assignments in the course are drawn from practical applications in engineering, physics, and mathematics. Lecture 2 hours/Laboratory 3 hours. Prerequisite: MATH 103 or equivalent. Transfer Credit: CSU, UC, USC. (C-ID ENGR 220)

230 DYNAMICS
3.0 Units
ENGR 230 covers the fundamentals of kinematics and kinetics of particles and rigid bodies. Topics include: kinematics of particle motion; Newton's second law, work-energy and momentum methods; kinematics of planar motions of rigid bodies; work-energy and momentum principles for rigid body motion as well as an introduction to mechanical vibrations. Lecture 3 hours. Prerequisite: ENGR 152 or equivalent. Transfer Credit: CSU. (C-ID ENGR 230)

240 ELECTRICAL ENGINEERING FUNDAMENTALS
4.0 Units
ENGR 240 is an introduction to the theory and analysis of electrical circuits; basic circuit elements including the operational amplifier; circuit theorems; direct current circuits; forced and natural responses of simple circuits; sinusoidal steady state analysis; and the use of a standard computer-aided circuit analysis program. Consideration is given to power, energy, impedance, phasors, frequency response and their use in circuit design. Lecture 3 hours/Laboratory 3 hours. Prerequisite: PHY 102 and MATH 105. Corequisite: MATH 108. Transfer Credit: CSU, USC. (C-ID ENGR 260)

241 STRENGTH OF MATERIALS
3.0 Units
ENGR 241 is the application of mechanics to determine the effect of forces and torques on materials. Students apply this knowledge to the design of load bearing components. The course covers the following topics: stress, strain, axial loading, torsion, flexural stresses, transverse shear stress, horizontal shear stresses, stress transformations, Mohr's circle, thin-walled pressure vessels, ductile and brittle failure theories, shear and bending moment diagrams, stresses in a beam, methods of superposition, and elastic strain energy. Statically indeterminate systems are studied using Castiglione's theorem. Lecture 3 hours. Prerequisite: ENGR 152 or equivalent. Transfer Credit: CSU. (C-ID ENGR 240)
298
UNDERGRADUATE RESEARCH IN ENGINEERING I
3.0 Units
ENGR 298 is the first of a two-course series intended to simulate a real-world design experience via an interdisciplinary project in a team-based environment. It introduces the student to the design and prototype development phase of an in-depth engineering design process requiring integration of multiple systems. Students from a variety of disciplines conceive, design and begin to prototype a system involving electrical, mechanical, and mechanical engineering disciplines. Emphasis is placed on written and oral communication skills as students set project goals, manage interfaces between component subsystems, work in design teams, track progress against tasks, write detailed documentation, and deliver design review presentations. Students are expected to apply knowledge from prerequisite and recommended preparation courses in the design and implementation of their project. Lecture 1 hour/Laboratory 6 hours. Prerequisite: ENGR 109, ENGR 111, ENGR 131, or equivalent, or consent of instructor. Recommended Preparation: CS/IS 157 or CAM 230. Transfer Credit: CSU, UC.

299
UNDERGRADUATE RESEARCH IN ENGINEERING II
3.0 Units
ENGR 299 is the second of a two-course series intended to simulate a real-world design experience via an interdisciplinary project in a team-based environment. It introduces the student to the fabrication and testing phase of an in-depth engineering design process requiring integration of multiple systems. Students from a variety of disciplines carry out the design project initiated in ENGR 298. Emphasis is placed on written and oral communication skills as students implement, test, and analyze the product designed in ENGR 298. Lecture 1 hour/Laboratory 6 hours. Prerequisite: ENGR 298 or equivalent, or consent of instructor. Transfer Credit: CSU, UC.

ENGLISH

101
FRESHMAN ENGLISH
3.0 Units
ENGL 101 is a foundation course in critical reading and writing skills required of those students intending to transfer to a university. Through their reading and discussion of selected prose works, students learn to identify problems, examine possible solutions, recognize unstated assumptions and values, appraise evidence, evaluate arguments, draw inferences, and test conclusions. Through their writing, students learn to analyze, synthesize, organize information logically, and propose original ideas. Students also receive instruction in research and MLA documentation and are required to complete a fully documented research paper. Lecture 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background or satisfactory completion of ENGL 120 or ESL 151 or equivalent. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID ENGL 100)

101H
HONORS FRESHMAN ENGLISH
3.0 Units
ENGL 101H is a foundation course in critical reading and writing skills required of those students intending to transfer to a university. Through their reading and discussion of selected prose works, students learn to identify problems, examine possible solutions, recognize unstated assumptions and values, appraise evidence, evaluate arguments, draw inferences, and test conclusions. Through their writing, students learn to analyze, synthesize, organize information logically, and propose original ideas. Students also receive instruction in research and MLA documentation and are required to complete a fully documented research paper. The honors course will be enhanced in one or more of the following ways: 1. Accelerated standards of reading levels, emphasizing major writers 2. Accelerated standards of critical thinking, including critical writing and problem-centered research 3. Introduction to and emphasis on types or schools of literary criticism, including professional models of such. Lecture 3 hours. Prerequisite: ENGL 101. Transfer Credit: CSU, UC, USC.

102
CRITICAL THINKING AND LITERARY ANALYSIS
3.0 Units
ENGL 102 helps students to develop their critical thinking and writing skills beyond the level achieved in English 101. The course emphasizes the application of logical reasoning, analysis, and strategies of argumentation in critical thinking and writing, using literature (both fiction and non-fiction) and literary criticism as subject matter. Students also receive instruction in literary research, complete a fully documented research paper, and are introduced to the process of revision. Furthermore, students develop a deeper understanding of the human condition through the study of literature. Lecture 3 hours. Prerequisite: ENGL 101. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID ENGL 120)

102H
HONORS CRITICAL THINKING AND LITERARY ANALYSIS
3.0 Units
ENGL 102H helps students to develop their critical thinking and writing skills beyond the level achieved in English 101. The course emphasizes the application of logical reasoning, analysis, and strategies of argumentation in critical thinking and writing, using literature (both fiction and non-fiction) and literary criticism as subject matter. Students also receive instruction in literary research, complete a fully documented research paper, and are introduced to the process of revision. Furthermore, students develop a deeper understanding of the human condition through the study of literature. The honors course will be enhanced in one or more of the following ways: 1. Accelerated standards of reading levels, emphasizing major writers 2. Accelerated standards of critical thinking, including critical writing and problem-centered research 3. Introduction to and emphasis on types or schools of literary criticism, including professional models of such. Lecture 3 hours. Prerequisite: ENGL 101. Transfer Credit: CSU, UC, USC.

103
CREATIVE WRITING WORKSHOP
3.0 Units
ENGL 103 consists of an introduction to the theory and practice of creative verbal expression in the major imaginative literary forms: (1) non-fiction and fiction prose, (2) poetry, and (3) drama. Emphasis is placed on step by step instruction in creating the finished piece of writing, with much group discussion of student writing. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID ENGL 200)
104 CRITICAL THINKING AND ARGUMENTATION
3.0 Units
ENGL 104 helps students to develop their critical thinking and writing skills beyond the level achieved in English 101. Students learn to read and think critically and to develop their analytical and argumentative writing skills providing a more advanced understanding of the relationship of language to logic and by further promoting the ability to reason effectively and reach valid conclusions. Writing forms and strategies are taught within the contexts of contemporary ideas and cultural diversity as reflected in selected readings. In addition, the course provides instruction in advanced research techniques and students will be required to complete a fully documented research paper. Furthermore, students develop an appreciation for the role and scope of rhetoric in their daily lives. Lecture 3 hours. Prerequisite: ENGL 101. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID ENGL 140)

105 SURVEY OF ENGLISH LITERATURE FROM ANGLO-SAXON PERIOD TO 1780
3.0 Units
ENGL 105 is a survey course covering the development of English Literature from the beginning to 1780 and emphasizing the development of thought in relation to historical and social backgrounds. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID ENGL 160)

106 SURVEY OF ENGLISH LITERATURE FROM 1780 TO THE PRESENT TIME
3.0 Units
ENGL 106 is a survey course covering the development of English Literature from 1780 to the present time. English 106 continues the study of the development of thought as an expression of our cultural heritage. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID ENGL 165)

109 INTRODUCTION TO WORLD LITERATURE FROM ANCIENT TIMES TO 1700
3.0 Units
ENGL 109 is a comparative study of selected works, in translation and in English, of literature from around the world, including Europe, the Middle East, Asia, and other areas, from antiquity to the mid or late seventeenth century. The course may include selections from the Old and New Testaments, The Qur'an, The Epic of Gilgamesh; world mythologies; and representative works from the Middle Ages and the Renaissance. Emphasis is placed upon the classics. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC. (C-ID ENGL 140)

110 INTRODUCTION TO WORLD LITERATURE FROM 1700 TO THE PRESENT TIME
3.0 Units
ENGL 110 is a comparative study of selected works, in translation and in English, of literature from around the world, including Europe, the Middle East, Africa, Asia, and other areas, from the mid or late seventeenth century to the present. Emphasis is placed upon cultural history and the history of important ideas reflected in the literary works as well as the development of literary techniques and style. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC. (C-ID ENGL 145)

111 WOMEN IN LITERATURE
3.0 Units
ENGL 111 is a comparative study of the roles assigned to women in literature by both male and female authors. The course critically examines the literary and cultural stereotypes of women in the short story, novel, poetry, and drama. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

112 SCREENWRITING
3.0 Units
ENGL 112 is a basic course in the principles and practice of writing for film and cinema. Emphasis is placed upon the essentials of screenplay structure, format, sequence, characterization, and the dramatic scene. The course will include critical analysis through reading selected screenplays and viewing specific dramatic scenes portrayed on film. Students will learn fundamentals of dramatic screenwriting and be familiarized with the elements and tools of screenwriting. Students must complete a finished short script by the end of the course. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Course Typically Offered: Fall. Transfer Credit: CSU.

116 INTRODUCTION TO DRAMA
3.0 Units
ENGL 116 is an historical survey of drama as a genre from the Classical period to the present day. The course will introduce students to the elements of drama, and emphasize class analysis or representative plays from selected periods. Students are encouraged to express their interpretations of plays and write critical papers about dramatic works. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

117 FILM AS LITERATURE
3.0 Units
ENGL 117 is the study of film as literature from thematic, cultural, historical, and aesthetic perspectives. Students are encouraged to incorporate analytical perspectives from literary and film criticism into discussion and written work. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.
Glendale Community College English Course Sequence

All students who have not taken an English course at Glendale Community College or another accredited college or have a qualifying AP English score are required to take an English placement exam prior to enrolling any English course.

Concurrent Enrollment Required
2017-04
120 COMPOSITION AND READING
4.0 Units
NON-DEGREE APPLICABLE
ENGL 120 is designed for students who want to prepare for the writing required in college classes and other settings. The course emphasizes practice in the writing of thesis-based essays and the critical analysis of selected prose works dealing with important contemporary ideas. English 120 provides practice in the mechanics, style, and organization of paragraphs and essays. Note: This is a Pass/No Pass only. Lecture 4 hours. Prerequisite: Placement based on a composite of test scores and academic background or ENGL 191. Recommended Preparation: ENGL 192 (ENGL 192 may be taken concurrently.) Course Typically Offered: Winter/Spring/Summer/Fall.

122 AMERICAN LITERATURE TO 1865
3.0 Units
ENGL 122 introduces students to a large range of works by major American writers, as well as to works by minor American writers representing marginalized voices in the United States, from Colonial times to the Civil War. The course relates these works to the history of ideas developing contemporarily in the United States. Important historical movements are traced so that students may gain increased understanding of America’s heritage. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC. (C-ID ENGL 130)

123 AMERICAN LITERATURE FROM 1865 TO THE PRESENT
3.0 Units
ENGL 123 introduces students to a broad range of American authors and their relationships to major literary and intellectual movements, from the second half of the nineteenth century to the present. This course provides a generous sample of the works of major and minor American writers from the Civil War to the present day. It enriches students’ understanding of selected, major American works, traces important literary movements with their sociological implications, and enables students to apply critical judgment to contemporary American writing. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC. (C-ID ENGL 135)

125 SHAKESPEARE
3.0 Units
ENGL 125 is an introduction to the works of Shakespeare. The course is focused on a close study of Shakespeare’s major plays. It also provides a background and insights into the Elizabethan world so that the student may more fully understand and appreciate Shakespeare’s writings. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

127 CHILDREN’S LITERATURE
3.0 Units
ENGL 127 introduces representative works of children’s literature and develops students’ close reading and analytical writing skills, while promoting an appreciation for the aesthetic and psychological aspects of literature written for children. It is also designed to develop the ability of students to select and use literature with children, fiction, non-fiction, picture books, and poetry. Students evaluate the appropriateness of a given literary work for an individual child; practice story-telling techniques; and prepare activities to help children appreciate and grow through literature. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Course Typically Offered: Spring. Transfer Credit: CSU. (C-ID ENGL 180)

128 THE BIBLE AS LITERATURE
3.0 Units
ENGL 128 is a general introduction to the Bible: its characters, recurrent themes, images and symbols. The course presents information regarding the literary divisions, the language, and text of each book as well as its composition, authorship, date, and contents. Attention is given to literary, historical, geographical, archaeological, and theological matters, including the formation of the canon, modern approaches to biblical study, and principal English versions of the Scriptures. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Fall (Even Years Only). Transfer Credit: CSU, UC, USC.

182 BASIC COMMUNICATION-VOCABULARY
1.0 Unit
NON-DEGREE APPLICABLE
ENGL 182 is designed to help students develop a wide variety of vocabulary skills. The modular system of this computer-based course allows students to work on one skill at a time. Students work independently and review a topic as many times as necessary to achieve full understanding and mastery of it. Laboratory 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring.

183 BASIC COMMUNICATION-GRAMMAR
1.0 Unit
NON-DEGREE APPLICABLE
ENGL 183 is designed to provide the student with the basic background and skills necessary for recognizing and remedying frequently made grammatical errors. This course, which is individualized, self-paced, interactive, and audio tutorial, introduces the student to basic English constructions and sentence-level writing problems. Credit is awarded upon completion of all the modules. Laboratory 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring.

188 INTRODUCTION TO ACADEMIC READING
3.0 Units
NON-DEGREE APPLICABLE
ENGL 188 is a reading course designed for students who need to improve their basic reading comprehension skills. Various word attack skills are covered: syllabication/phonics, word analysis through the study of prefixes, suffixes, and word roots. Basic grammar rules regarding parts of speech, punctuation and capitalization are reviewed. Methods and strategies to improve comprehension, application, and analysis are examined, along with Know-Will Know-Learn (KWL), Survey-Question-Read-Recite-Review (SQ3R), highlighting, outlining and summarizing in order to differentiate between general and specific details, and determine the topic and main ideas in paragraphs. Lecture 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background or ABSE 186 and 187. Course Typically Offered: Fall/Spring.
189 WRITING WORKSHOP I
3.0 Units
NON-DEGREE APPLICABLE
ENGL 189 is designed for students who need to practice writing clear sentences and paragraphs in standard English. The course is a writing workshop. It involves the students actively in reading, writing, discussing, and re-writing. Individualized computer lessons provide tutorials and practice in the grammar and mechanics of writing. Computer applications help students plan, write, check, and revise what they have written. The course helps students increase their familiarity with the style, form, and structures of written English and improves their ability to compose and edit sentences and paragraphs in English. Lecture 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background or ABSE 187. Concurrent enrollment in or satisfactory completion of ENGL 188 is required. Course Typically Offered: Fall/Spring.

190 INTERMEDIATE ACADEMIC READING
3.0 Units
NON-DEGREE APPLICABLE
ENGL 190 is a reading course designed for students who wish to improve their college reading comprehension skills. Various textbook study strategy methods are covered: memory improvement, vocabulary building through the study of prefixes, suffixes, roots, and the use of context clues. Basic grammar rules: sentence structures, punctuation, and capitalization are reviewed. The emphasis is on strengthening higher-level reading comprehension, as well as improving critical thinking while reading. Methods to improve literal comprehension are covered by way of reading strategies Survey-Question-Read-Recite-Review (SQ3R), and Know-Will Know-Learn(KWL), highlighting, note-taking, outlining, summarizing, differentiating between general and specific details, determining the topic and main ideas (stated and implied), and patterns of organization in short essays. Critical reading strategies include making inferences and recognizing fact vs. opinion, tone, and purpose. Lecture 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background or ENGL 188. ENGL 190 must be taken prior to or concurrently with ENGL 191.

191 WRITING WORKSHOP II
4.0 Units
NON-DEGREE APPLICABLE
ENGL 191 is designed for students who need to practice writing more thoughtful and well-organized short compositions in standard English. Conducted as a writing workshop, the class also involves reading, and discussion of articles, stories and possibly longer works. Individualized computer lessons provide tutorials and practice in the grammar and mechanics of writing. Computer applications help students plan, write, check, and revise what they have written. The course helps students increase their familiarity with the style and organizational format of written English and improves their ability to compose, edit, and revise sentences, paragraphs, and short compositions. Note: A maximum of 8 units of credit will be awarded for ENGL 191, 120. Lecture 4 hours. Prerequisite: Placement is based on a composite of test scores and academic background or ENGL 189. Concurrent enrollment in or completion of ENGL 190 is required. Course Typically Offered: Winter/Spring/Summer/Fall.

192 ADVANCED COLLEGE READING
3.0 Units
NON-DEGREE APPLICABLE
ENGL 192 is a reading course designed for students who are generally good readers, but who wish to improve their speed of comprehension and to develop critical reading skills. Various textbook study strategy methods are covered including memory improvement, speed-reading technique, vocabulary building through the study of prefixes, suffixes, roots, and the use of context clues. Basic grammar rules including syntax, punctuation, and capitalization are reviewed. Comprehension skills are covered including Survey-Question-Read-Recite-Review (SQ3R) and Know-Will Know-Learn (KWL) highlighting, note-taking, outlining, summarizing, paraphrasing, differentiating between general and specific details, determining the topic and main ideas (stated and implied), understanding inference, discerning the difference between fact vs. opinion, and patterns of organization in longer essays. The emphasis is to continue the strengthening of higher-level reading comprehension and improve critical thinking while reading. Methods to improve literal and inferential comprehension are covered as are the use of analogies, propaganda, the evaluation of an argument, and critical reading Lecture 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background or satisfactory completion of ENGL 190. Recommended Corequisite: Concurrent enrollment in ENGL 120 Course Typically Offered: Winter/Spring/Summer/Fall.

194 COMPOSITION, READING, AND FRESHMAN ENGLISH
7.0 Units
ENGL 194 is designed for students who want to prepare for the writing required in college classes and other settings and continue through to transfer-level college English (the course combines English 120 (the level below English 101) and Freshman English 101). In addition to offering practice in the mechanics, style, and organization of paragraphs and essays, the course emphasizes practice in the writing of thesis-based essays and the critical analysis of selected prose works dealing with important contemporary ideas. English 194 students read and discuss selected thematically organized prose works, learn to identify problems, examine possible solutions, recognize unstated assumptions and values, appraise evidence, evaluate arguments, draw inferences, and test conclusions. Through their writing, students learn to analyze, synthesize, organize information logically, and propose original ideas. Students also receive instruction in research and Modern Language Association (MLA) documentation and will be required to complete one short and one longer fully documented research paper. Note: Students who have successfully completed ENGL 120, or ENGL 101 are not eligible to receive credit for ENGL 194. Lecture 7 hours. Prerequisite: ENGL 191 or placement based on a composite of test scores and academic background. Recommended Preparation: ENGL 192. ENGL 194 may be taken concurrently. Recommended Corequisite: LIB 190. Transfer Credit: CSU.

212 ADVANCED SCREENWRITING
3.0 Units
ENGL 212 is a continuation of English 112. Students will learn to think critically and develop their screenwriting skills through reading selected screenplays and viewing dramatic scenes portrayed on film. Students will analyze films to learn the fundamentals of character development, three act structure, and cinematic sequences. Students will develop a variety of feature length scenarios, choosing one to outline as a feature length film. Lecture 3 hours. Prerequisite: ENGL 112 or equivalent. Course Typically Offered: Spring (Odd Years Only).
ENGLISH AS A SECOND LANGUAGE

The Credit ESL Program prepares students for academic and work life in the United States. The various writing, reading, and listening and speaking classes in the program prepare students to strengthen their communication skills through reading, writing, listening, speaking, and/or conversing and/or debating, and interpersonal interactions. ESL students learn to listen, understand, debate, and express themselves clearly and concisely as well as, using information communicated by others.

111 GRAMMAR AND WRITING I
5.0 Units
NON-DEGREE APPLICABLE
ESL 111 focuses on grammar and composition for students at the beginning level of academic English as a second language. This course provides instruction in vocabulary, basic grammar, sentence structure, and writing. Students write academic one to two-paragraph descriptive and narrative compositions of 100-150 words in length. The course stresses the correct use of a variety of grammatical structures and verb tenses within compositions. Lecture 5 hours. Prerequisite: Placement is based on a composite of test scores and academic background. Recommended Preparation: Concurrent enrollment in an appropriate ESL listening and speaking course and a reading course. Course Typically Offered: Fall/Spring.

115 LISTENING AND SPEAKING I
3.0 Units
NON-DEGREE APPLICABLE
ESL 115 is designed for students who cannot communicate effectively even in the most basic situations on the community college campus. Dialogues are presented, and students participate in role plays of campus-related situations in class and on the campus at large. Clear speaking, listening, and pronouncing are stressed in classroom drills and activities. Laboratory assignments are required for students identified based on individual student needs. Lecture 5 hours. Prerequisite: Placement is based on a composite of test scores and academic background. Recommended Preparation: Concurrent enrollment in an ESL-grammar and writing course. Course Typically Offered: Fall/Spring.

116 READING AND VOCABULARY FOR ESL I STUDENTS
3.0 Units
NON-DEGREE APPLICABLE
ESL 116 is designed to help beginning ESL students read academic passages. The course places heavy emphasis on academic interdisciplinary vocabulary development. Students use various reading strategies to increase their comprehension. Lecture 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background. Recommended Preparation: Concurrent enrollment in an appropriate ESL listening and speaking course and an ESL grammar and writing course and a reading course. Course Typically Offered: Fall/Spring.

118 BASIC SPELLING FOR NON-NATIVE SPEAKERS
2.0 Units
NON-DEGREE APPLICABLE
ESL 118 is a course designed to improve the spelling proficiency of those students whose native language is not English. There is a special emphasis on the relationship of pronunciation to spelling. Lecture 2 hours. Prerequisite: Eligibility for ESL 123. Course Typically Offered: Fall/Spring.

123 GRAMMAR AND WRITING II
5.0 Units
ESL 123 focuses on grammar and composition for students at the low intermediate level of English as a second language. Students write two-to-three paragraph compositions of 200-250 words in length. The course stresses the correct use of a variety of grammatical structures and verb tenses within compositions. Lecture 5 hours. Prerequisite: Placement is based on a composite of test scores and academic background. Recommended Preparation: Concurrent enrollment in an appropriate ESL listening and speaking course and a reading course. Course Typically Offered: Winter/Spring/Summer/Fall.

125 LISTENING AND SPEAKING II
4.0 Units
NON-DEGREE APPLICABLE
ESL 125 presents listening comprehension strategies as well as practice in the pronunciation of individual sounds, word and sentence stress, and intonation patterns. Oral communication skills are strengthened through such activities as dialogues and role playing, as well as pair, group, and class discussion. Both formal and informal vocabulary and idioms are taught and tested. Lecture 4 hours. Prerequisite: Placement is based on a composite of test scores and academic background or satisfactory completion of ESL 115. Recommended Preparation: Concurrent enrollment in an appropriate ESL grammar and writing course and a reading course. Course Typically Offered: Fall/Spring.

126 READING AND VOCABULARY FOR ESL II STUDENTS
3.0 Units
NON-DEGREE APPLICABLE
ESL 126 is designed to help low-intermediate Credit ESL students read academic reading materials. The course places heavy emphasis on academic interdisciplinary vocabulary development. Students use various reading strategies to increase their reading comprehension. Lecture 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background or completion of ESL 116. Recommended Preparation: Concurrent enrollment in ESL listening/speaking course and a Credit ESL grammar/writing course. Course Typically Offered: Winter/Spring/Summer/Fall.

128 ACADEMIC SPELLING FOR NON-NATIVE SPEAKERS
2.0 Units
NON-DEGREE APPLICABLE
ESL 128 is designed to promote the spelling proficiency of ESL students at the intermediate level. There is special emphasis given to the relationship of pronunciation and morphology to spelling. Vocabulary pertaining to study skills, academic endeavor, and the higher education environment generally is a special feature of the course. Lecture 2 hours. Prerequisite: Placement is based on a composite of test scores and academic background or ESL 123 and ESL 126. Recommended Preparation: Concurrent enrollment in an appropriate ESL listening and speaking course and a reading course. Course Typically Offered: Fall/Spring.
It is recommended that students enroll in grammar and writing, listening and speaking, and reading classes in the same semester. Placement in the Credit ESL course sequence is based on a composite of test scores and academic background.
133
GRAMMAR AND WRITING III
5.0 Units
ESL 133 focuses on grammar and composition for students at the intermediate level of academic English as a second language. The course covers increasingly complex grammatical structures that students incorporate into compositions of 300-350 words in length. Lecture 5 hours. Prerequisite: Placement is based on a composite of test scores and academic background or ESL 123 and ESL 126. Recommended Preparation: Concurrent enrollment in an appropriate ESL listening and speaking course and a reading course. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC.

135
LISTENING AND SPEAKING III
2.0 Units
ESL 135 stresses listening comprehension as well as oral communication by means of reports, short speeches, and small group and class discussion of high-interest topics. The standard pronunciation of individual sounds, as well as stress and intonation patterns are presented, drilled and tested. The students will study formal and informal idioms and vocabulary to improve their ability to communicate orally. Some work is done to correct the problems of individual students. In addition, laboratory assignments may be made based on individual student needs. Lecture 4 hours. Prerequisite: Placement is based on a composite of test scores and academic background or satisfactory completion of ESL 125. Recommended Preparation: Concurrent enrollment in an appropriate ESL grammar and writing course and a reading course. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

136
READING AND VOCABULARY FOR ESL III STUDENTS
3.0 Units
ESL 136 is designed to help intermediate Credit ESL students to read academic materials in order to analyze, discuss, and write about their understanding of the texts. The course places heavy emphasis on academic interdisciplinary vocabulary development. Students use various strategies to increase their reading comprehension of both fiction and non-fiction texts. Lecture 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background or completion of ESL 126. Recommended Preparation: Concurrent enrollment in an appropriate Credit ESL listening/speaking course and a Credit ESL grammar/writing course. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU.

141
GRAMMAR AND WRITING IV
5.0 Units
ESL 141 is designed for students at the high intermediate level of academic English as a second language. This course focuses on thesis-based essays, critical analysis of academic reading, and techniques to improve the organization, syntax, and grammar of essays. Increasingly complex grammatical structures are covered, and students incorporate these structures into four-to-five paragraph essays of 400-450 words in length. Essays are written in response to readings and discussions. Lecture 5 hours. Prerequisite: Placement is based on a composite of test scores and academic background or ESL 133 and ESL 136. Recommended Preparation: Concurrent enrollment in an appropriate ESL listening and speaking course and in an appropriate reading course. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC.

145
LISTENING AND SPEAKING IV
2.0 Units
ESL 145 stresses fluency and clarity in delivery of speeches as well as in various communicative activities. These may involve the preparation and presentation of reports, summaries, and persuasive speeches. Students are exhorted to use the vocabulary and grammatical structures appropriate to formal settings. Culturally appropriate subtleties such as body language are reviewed in order to maximize the efficacy of communication. Listening comprehension and lecture/note-taking skills are practiced and evaluated. Note: This course is taught at a level of vocabulary equivalent to ESL 141. Lecture 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background or satisfactory completion of ESL 135. Recommended Preparation: Strongly recommended that student be concurrently enrolled in an ESL grammar/writing class at the 133 level or higher. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

146
READING AND VOCABULARY FOR ESL IV STUDENTS
3.0 Units
ESL 146 is designed to encourage advanced ESL students to read extensively and to promote English language proficiency and reading skills. Students read complete works on related topics, analyze what questions those works raise, and discuss and write about their understanding of the texts. Students are asked to read texts from content courses or from literature. Lecture 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background or completion of ESL 136. Recommended Preparation: Concurrent enrollment in an appropriate Credit ESL listening/speaking course and a Credit ESL grammar/writing course. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

151
READING AND COMPOSITION V
4.0 Units
ESL 151 is designed for students at the advanced level of academic English as a second language. The course provides extensive practice in thesis-based essays, critical analysis of academic reading, and techniques to improve the organization, syntax, and grammar of the essays. Students write four-to-five paragraph essays of 500+ words in length. Library research techniques are introduced and a research paper is completed. Lecture 4 hours. Prerequisite: Placement is based on a composite of test scores and academic background or ESL 141. Recommended Preparation: Concurrent enrollment in an appropriate ESL listening and speaking course. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC.
LISTENING AND SPEAKING V 2.0 Units
ESL 155 concentrates on reducing foreign accents in the speech of otherwise articulate non-native students. Intensive practice in the production of individual sounds, rhythm, stress, intonation, phraseology helps students communicate more effectively and helps prepare them for upper division ESL phonetics courses. Students learn to use formal diction by making oral presentations and participating in class debates. They practice expressive speaking, appropriate facial expressions, and hand and body gestures. Laboratory assignments may be made at the discretion of the instructor. Lecture 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background or satisfactory completion of ESL 145. Recommended Preparation: Student be concurrently enrolled in an ESL grammar and writing class at the 141 level or higher. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

ENTREPRENEURSHIP

CONCEPTS OF ENTREPRENEURSHIP 2.0 Units
ENTRE 101 explains the role of entrepreneurial businesses in the United States and the impact on our national and global economy. The course evaluates the skills and commitment necessary to successfully operate an entrepreneurial venture. Additionally, ENTRE 101 reviews the challenges and rewards of entrepreneurship as a career choice as well as entrance strategies to accomplish such a choice. Lecture 2 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring.

THE ENTREPRENEURIAL MINDSET 3.0 Units
ENTRE 102 is an introduction to innovation in its true economic and social context by studying the unlimited opportunities that an entrepreneurial mindset can provide. Students study the skills, attitudes, and behaviors that successful entrepreneurs have historically possessed, as well as the issues, circumstances, and obstacles that shaped their time. Additionally, students analyze modern day successful entrepreneurs who faced hardship and adversity by embracing an entrepreneurial mindset. The characteristics of the entrepreneurial mindset will be dissected and applied to the student’s own mindset and entrepreneurial potential. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.

OPPORTUNITY ANALYSIS 2.0 Units
ENTRE 180 teaches the student to assess the current economic, social, and political climate for small business development or opportunities. In addition, students learn to explain how demographic, technological, and social changes create opportunities for small business ventures. Lecture 2 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.

WATER DISTRIBUTION OPERATION AND MAINTENANCE I 3.0 Units
ENV T 130 provides an understanding of drinking water distribution systems operation and maintenance. Topics covered include design criteria, storage, pumping, flow control, construction methods, disinfection, control of water quality in a water distribution system, federal and state drinking water regulations, maintenance and administration of a water distribution system. Field trips and/or a semester project may be required. This course meets the initial educational requirements for a distribution operator certification exam. Lecture 3 hours. Prerequisite: None.

WATER TREATMENT OPERATION AND MAINTENANCE I 3.0 Units
ENV T 120 provides an entry level understanding of drinking water treatment. Topics covered include history of water treatment, responsibilities of the plant operator, reasons for treating water, source water management, water treatment facilities, treatment process and technologies, disinfection and plant maintenance. This course provides the background into the importance of treating water, its functionality, past and present technology and the future of drinking water. Lecture 3 hours. Prerequisite: None.

INTRODUCTION TO ENVIRONMENTAL TECHNOLOGY 3.0 Units
ENV T 150 introduces students to a range of fields that encompass the rapidly expanding environmental technology industries. This course will cover basic principles and skill sets applicable to ‘green’ technology sectors. Students will learn about ‘green-collar’ employment and career opportunities. Lecture 3 hours. Prerequisite: None.

ENVIRONMENTAL SCIENCE (SEE GEOGRAPHY)

WATER DISTRIBUTION OPERATION AND MAINTENANCE II 3.0 Units
ENV T 131 provides an understanding of drinking water distribution systems operation and maintenance. Topics covered include design criteria, storage, pumping, flow control, construction methods, disinfection, control of water quality in a water distribution system, federal and state drinking water regulations, maintenance and administration of a water distribution system. Field trips and/or a semester project may be required. This course meets the initial educational requirements for a distribution operator certification exam. Lecture 3 hours. Prerequisite: None.

ENTHENTIC STUDIES

LATIN AMERICAN CULTURAL EXPERIENCE 3.0 Units
ETH S 101 surveys the cultural background that has shaped the present Latin American societies. The course analyzes such areas as society culture, the psychology of the Latin American, city and rural life styles, religion, women, education and the role of the university, the artists and their role in politics, cultural imperialism, music and artistic expression, Latin American cinema, art in revolutionary societies, new song movement. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

LATINOS IN THE UNITED STATES 3.0 Units
ETH S 102 surveys the social, political, economic and cultural development and experience of the various Latin Americans in the United States. The survey includes the following groups: Mexicans, Puerto Ricans, Cubans and other Caribbean’s, Central and South Americans. The course also analyzes the contributions made by the Latin Americans to the economic development of the North American society. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

CONTEMPORARY ETHNIC WOMEN 3.0 Units
ETH S 110 surveys the contemporary status of ethnic women in North American society. This course makes relevant cross-cultural comparisons using contemporary issues and their relationship to the ethnic women of today. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.
ETHS 111 is a survey course which examines the history and experiences of European immigrants in America from the late eighteenth century to the present. The course examines the immigration process itself, consider specific groups (British, Irish, German, Italian, Polish, Jewish, Greek, etc.) assess the reaction to immigration by white Americans, and evaluate the contribution made by European immigrants to American society. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

ETHS 123 is a survey course which examines the experience of Asian American groups (Chinese, Japanese, Filipinos, Koreans, and others) from the mid-nineteenth century to the present. The course emphasizes these themes as it considers each immigrant group: stereotypes, push and pull factors in immigration, labor experiences, racism and discrimination in American society as applied to Asian Americans, contributions of Asian Americans to American society, community life before and since World War II, problems of the Asian American community today. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

ETHS 124 is an in-depth survey of the history of Japanese immigrants and their descendants in America from the 19th century to the present. The course is designed to meet the needs of students who wish to more fully understand the experience of the Japanese immigrants and their descendants in America. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC.

ETHS 125 examines indigenous American societies, from before European contact through the present. This historical examination compares regional cultural groups, using an interdisciplinary approach to reach an understanding of pre-literate peoples. A primary goal is to develop skills for critical cross-cultural comparison. Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID SJS 110)

ETHS 132 surveys the African American experience in the United States. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

ETHS 164 examines the development of the Armenian Diaspora from the abandonment of the Armenian Question by the United States and the European Powers in 1923, to the unfolding of current events that are critically affecting the Armenian case today. The course focuses on: the growing Armenian-American community, Armenian emigration from the Middle East and Soviet Armenia, pressures of assimilation in the U.S., activities of community organizations toward preserving Armenian culture, current Armenian affairs and U.S. foreign policy. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

FIRE TECHNOLOGY

Classes in Fire Technology are offered for students interested in preparing for careers in fire prevention and fire fighting. The course also provides in-service and upgrading instruction for fire fighting personnel. A certificate of completion may be earned.

The Verdugo Fire Academy is a State Board of Fire Services and California State Fire Marshal’s accredited Regional Fire Academy sponsored by Glendale Community College and the Glendale Fire Department. Instructors for the program are fire service professionals drawn from many fire departments in Southern California. The academy requires approximately 780 hours of classroom and drill ground instruction totaling thirty two units (32). The four courses, FIRE 116, 117, 118, and 119 are currently offered in sequential semesters as an extended program solely on weekends. Students receive a variety of California State Fire Marshal’s certificates upon graduation from the academy in addition to their basic academy completion certificate.
FIRE 101
PRINCIPLES OF FIRE EMERGENCY SERVICES
3.0 Units
FIRE 101 provides an overview to fire protection; career opportunities in fire protection and related fields; philosophy and history of fire protection/service; fire loss analysis; organization and function of public and private fire protection services; fire departments as part of local government; laws and regulations affecting the fire service; fire service nomenclature; specific fire protection functions; basic fire chemistry and physics; introduction to fire protection systems; introduction to fire strategy and tactics. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Transfer Credit: CSU.

FIRE 102
FIRE BEHAVIOR AND COMBUSTION
3.0 Units
FIRE 102 offers instruction in fire behavior and control, matter and energy, units of measurement, flammable liquids, toxic gases, chemicals, radioactive hazards, and fire fighting techniques. Fire Technology 102 meets or exceeds the California State Fire Marshal’s Office core requirement for Fire 5. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU.

FIRE 103
FIRE PREVENTION
3.0 Units
FIRE 103 continues to present organization and function of the fire prevention organizations, inspection, surveying and mapping procedures, recognition of fire hazards, engineering a solution to the hazard, enforcement of the solution, public relations as affected by fire prevention. FIRE 103 meets or exceeds the California State Fire Fire Marshal’s Office core requirement for Fire 2. Lecture 3 hours. Prerequisite: FIRE 101 or equivalent. Transfer Credit: CSU.

FIRE 104
BUILDING CONSTRUCTION FOR FIRE PROTECTION
3.0 Units
FIRE 104 investigates the components of building construction that relate to fire safety. The elements of construction and design of structures are shown to be key factors when inspecting buildings, preplanning fire operations, and operating during fires. The development and evolution of building and fire codes are studied in relationship to past fires in residential, commercial, and industrial occupancies. Fire Technology 104 meets or exceeds the California State Fire Marshal’s Office core requirement for Fire 4. Lecture 3 hours. Prerequisite: FIRE 101 or equivalent. Note: May be taken 2 times for credit. Transfer Credit: CSU.

FIRE 105
FIRE PROTECTION SYSTEMS
3.0 Units
FIRE 105 presents the methods, techniques and practical application of port able fire extinguishing equipment, sprinkler systems, protection systems for special hazards, and fire alarm and detection systems. FIRE 105 meets or exceeds the California State Fire Marshal’s Office core requirement for Fire 3. Lecture 3 hours. Prerequisite: FIRE 101 or equivalent. Transfer Credit: CSU.

FIRE 106
PRINCIPLES OF FIRE AND EMERGENCY SERVICES SAFETY AND SURVIVAL
3.0 Units
FIRE 106 introduces the basic concepts of occupational health and safety as it relates to emergency service organizations. Course covers risk evaluation and control procedures for emergency and non-emergency situations. The course curriculum will be guided by the National Fire Protection Association 1500 and Fire Department Occupational Health and Safety Programs’ standards. Lecture 3 hours. Prerequisite: FIRE 101 or equivalent.

FIRE 107
FIRE HYDRAULICS
3.0 Units
FIRE 107 is designed for review of basic mathematics, hydraulic laws and formulas as applied to the fire service, application of formulas and mental calculation to hydraulic problems, water supply problems, underwriters’ requirements for pumps. Lecture 3 hours. Prerequisite: FIRE 101 or equivalent. Transfer Credit: CSU.

FIRE 108
FIRE APPARATUS AND EQUIPMENT
3.0 Units
FIRE 108 covers the general technical knowledge of driving laws, driving techniques, construction, and operation of pumping engines, ladder trucks, aerial platforms, specialized equipment, and apparatus maintenance. Lecture 3 hours. Prerequisite: FIRE 101 or equivalent. Transfer Credit: CSU.

FIRE 109
RESCUE PRACTICES
3.0 Units
FIRE 109 offers instruction in rescue practices, the human body, emergency care of victims, childbirth, artificial respiration, toxic gases, chemicals and diseases, radioactive hazards, rescue problems and techniques. Lecture 3 hours. Prerequisite: FIRE 101 or equivalent. Transfer Credit: CSU.

FIRE 110
FIRE COMPANY ORGANIZATION AND PROCEDURE
3.0 Units
FIRE 110 consists of the review of fire department organization, fire company organization, the company officer, personnel administration, communications, equipment, maintenance, training, fire prevention, fire fighting, company fire fighting capability, records and reports, supervision and leadership techniques. Lecture 3 hours. Prerequisite: FIRE 101 and 103 or equivalent. Transfer Credit: CSU.

FIRE 111
FIRE INVESTIGATION TECHNOLOGY
3.0 Units
FIRE 111 offers an introduction to arson and incendiaryism, arson laws, and types of incendiary fires. Methods of determining fire cause, recognizing and preserving evidence, interviewing and detaining witnesses. Procedures in handling juveniles, court procedure and giving court testimony. Lecture 3 hours. Prerequisite: FIRE 101 or equivalent. Transfer Credit: CSU.

FIRE 112
WILDLAND FIRE CONTROL
3.0 Units
FIRE 112 is designed to provide the employed firefighter or fire science major with a fundamental knowledge of the factors affecting wildland fire prevention, fire behavior, and control techniques. Lecture 3 hours. Prerequisite: FIRE 101 or equivalent. Transfer Credit: CSU.
114 HAZARDOUS MATERIALS
3.0 Units
FIRE 114 is an introduction to basic fire chemistry and physics. This course covers problems of flammability as encountered by fire-fighters when dealing with toxic substances, fuels, explosives, oxidizers and radioactive materials. It also covers fire fighting practices pertaining to hazardous materials in storage and transit. Lecture 3 hours. Prerequisite: FIRE 101 or equivalent. Transfer Credit: CSU.

115 FIREFIGHTING STRATEGY AND TACTICS
3.0 Units
FIRE 115 presents the review of fire chemistry, equipment, personnel, basic fire fighting tactics and strategy, methods of attack, pre-planning fire problems. Related codes and ordinances are also reviewed. Lecture 3 hours. Prerequisite: FIRE 101 or equivalent. Transfer Credit: CSU.

116 FIRE ACADEMY I
4.0 Units
FIRE 116 trains students in the theory and practice of fire fighting technology. Topics include organization of the fire service, fire characteristics and behavior, fire prevention and public education, extinguishing agents, fire protection systems, and fire service communications. This course, together with FIRE 117, Fire Academy II, FIRE 118, Fire Academy III and FIRE 119, Fire Academy IV meets the State Board of Fire Services training requirements for Fire-fighter I certification. Experience requirements will need to be met prior to application for Firefighter I certification. Lecture 3 hours/Laboratory 3.67 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.

117 FIRE ACADEMY II
12.0 Units
FIRE 117 is designed to train students in the theory and practice of fire fighting technology. Topics include use and application of self-contained breathing apparatus, salvage and overhaul operations, fire control techniques, fire hose, nozzles, streams and water supply, fire service ground ladders, and portable fire extinguishers. This course together with FIRE 116, FIRE 118, and FIRE 119 meets the State Board of Fire Services training requirements for Firefighter I certification. Experience requirements will need to be met prior to application for Firefighter I certification. Lecture 9 hours/Laboratory 11 hours. Prerequisite: FIRE 116.

118 FIRE ACADEMY III
4.0 Units
FIRE 118 is designed to train students in the theory and practice of fire fighting technology. Topics include techniques of firefighting tool and equipment, ventilation techniques, rapid intervention team operations, rescue, vehicle extrication, forcible entry, and wild land firefighting operations. This course together with FIRE 116, FIRE 117, and FIRE 119, meets the State Board of Fire Services training requirements for Firefighter I certification. Experience requirements will still need to be met prior to application for Firefighter I certification. Lecture 5.4 hours/Laboratory 6.11 hours. Prerequisite: FIRE 117.

119 FIRE ACADEMY IV
12.0 Units
FIRE 119 is designed to train students in the theory and practice of fire fighting technology. Topics include urban search and rescue operation, rescue systems, trench rescue operations, the incident command system, and hazardous materials including weapons of mass destruction. The course also provides students with live fire exercises in flammable liquids, compressed gases, aircraft and survival, and advanced structural firefighting techniques. Multi-company fire ground operations, including truck and engine company operations are included. This course together with FIRE 116, FIRE 117, and FIRE 118, meets the State Board of Fire Services training requirements for Firefighter I certification. Experience requirements will still need to be met prior to application for Firefighter I certification. Lecture 9 hours/Laboratory 11 hours. Prerequisite: FIRE 118.

120 VERDUGO FIRE RECRUIT ACADEMY
16.0 Units
FIRE 120 trains students in the theory and practice of fire fighting technology. Topics include organization of the fire service, fire characteristics and behavior, fire prevention and public education, extinguishing agents, fire protection systems, fire service communications, use and application of self-contained breathing apparatus, salvage and overhaul operations, fire control techniques, fire hose, nozzles, streams and water supply, fire service ground ladders, and portable fire extinguishers. This course also involves arduous physical training and strict paramilitary conduct expectations. Note: This course is intended for persons employed in the fire service. This course is very fast paced and arduous. The conduct expectations of this course are similar to that of a typical fire department structured as a para-military organization. No credit if taken after FIRE 116, 117, 118, or 119. Lecture 11.5 hours/Laboratory 27 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Completion of FIRE 101, 102, 103, 105, and 115. CPAT certification (Candidate Physical Ability Test).

144 PHYSICAL STANDARDS FOR THE FIREFIGHTER
1.5 Units
FIRE 144 is designed to give in-service firefighters and other interested students physical conditioning and manipulative drills in order to prepare the student for the California Candidate Physical Ability Test (CPAT). This course will provide information on the CPAT and the Biddle Associate Validated Test. Students will learn about firefighter wellness programs and current National Fire Protection Association (NFPA) standards. Note: Students taking this course will be required to engage in strenuous physical activity and will train in a para-military environment. Lecture 1 hour/Laboratory 1.5 hours. Prerequisite: None.

150 TRAINING INSTRUCTOR 1A
2.0 Units
FIRE 150 offers students the basic methods and techniques employed by fire service personnel to select, develop and organize material for in-service training programs, evaluation, and application of principles of skills development through practice teaching demonstrations. This is the initial offering of a two-course series. This course applies to California Fire Service Training and Education System. Lecture 2.5 hours. Prerequisite: FIRE 101 or employment in a fire related occupation.
151
TRAINING INSTRUCTOR 1B
2.0 Units
FIRE 151 is the second of a two-course series providing fire service personnel with a variety of methods and techniques for selection, development, application and analysis of evaluative measures applicable to fire service instruction. Student teaching demonstrations are required of each participant. Lecture 2.5 hours. Prerequisite: FIRE 150 or equivalent.

152
FIRE MANAGEMENT I
2.0 Units
FIRE 152 offers instruction to develop supervisory management skills. The course introduces key management concepts and practices utilized and include decision-making, time management, and leadership styles, personnel evaluations and counseling guidelines. This course applies to California Fire Service Training and Education System certifications. Lecture 2.5 hours. Prerequisite: FIRE 110 or employment in a fire related occupation. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.

155
FIRE COMMAND 1B
2.0 Units
FIRE 155 contains instruction in tactics, strategies, and scene management principles for hazardous materials incidents, emergency medical services (EMS) multi-casualty incidents, and wildland fire fighting incidents. This course also includes simulation time pertaining to the initial decision processes at a working incident. The course includes areas of discussion on the fire officer, components of triage, fire behavior, fire ground resources, operations, and management. This course applies to California Fire Service Training and Education System certifications. Lecture 2.5 hours. Prerequisite: Incident Command Systems (ICS) 200, or employment in a fire related occupation. Recommended Preparation: Eligibility for ENGL 101 or ESL 151.

156
FIRE PREVENTION 1A
5.0 Units
FIRE 156 is the first in a three-course series providing fundamental instruction regarding the history and philosophy of fire prevention, organization, and operation of a fire prevention bureau, use of fire codes, identification and correction of fire hazards, and the relationship of fire prevention to fire safety education and detection and suppression systems. This course applies to the California fire Service Training and Education System certifications. Lecture 2.5 hours. Prerequisite: FIRE 110 or employment in a fire related occupation. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.

157
FIRE PREVENTION 1B
2.0 Units
FIRE 157 is the second in a three-course series presenting the methods and techniques for fire prevention, use of codes, identification and correction of fire hazards in buildings and facilities containing hazardous materials. This course applies to the California fire Service Training and Education System certifications. Lecture 2.5 hours. Prerequisite: FIRE 156 or employment in a fire related occupation. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.

FRENCH

101
BEGINNING FRENCH I
5.0 Units
FREN 101 presents the fundamentals of French grammar. The students are guided to pronounce correctly, to acquire a small working vocabulary which they use in conversation and writing and to learn to read simple French. Note: This class is not intended for students with oral proficiency or who have attended schools where French was the language of instruction. Lecture 5 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC.

102
BEGINNING FRENCH II
5.0 Units
FREN 102 is a continuation of the study of French grammar fundamentals. Students continue developing correct pronunciation and analyze more difficult elementary texts. The emphasis is on oral expression as students learn correct use of verbs and idioms and incorporate efficient methods of vocabulary building. There is also more in-depth study of French culture. Lecture 5 hours. Prerequisite: FREN 101 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

103
INTERMEDIATE FRENCH I
5.0 Units
FREN 103 focuses on the continued development of the language skills of listening, speaking, reading, and writing through the study of the French and Francophone cultures. Students are introduced to simple poems, literary texts, cinema, and music. Knowledge is gained about French and Francophone contemporary society and culture. An intermediate level of fluency in the language is expected. This course is taught in French. Lecture 5 hours. Prerequisite: FREN 102 or equivalent. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

104
INTERMEDIATE FRENCH II
5.0 Units
FREN 104 reviews the fundamentals of French grammar. It continues to stress correct pronunciation and efficient methods of vocabulary building. Students read intermediate French prose of increasing difficulty and engage in conversation and composition, with an emphasis on critical thinking. Students discover aspects of French culture and compare them to their own cultures using the French language. This course is taught in French. Lecture 5 hours. Prerequisite: FREN 103 or equivalent. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.
GEOGRAPHY AND ENVIRONMENT

50 GEOGRAPHY INTERNSHIP
1.0 to 3.0 Units
GEOG 50 is a discipline-specific course, which allows students to earn from 1.0 – 3.0 units for a structured, supervised internship either on-campus or off-campus under the supervision of a faculty advisor. It is designed to provide students with appropriate preparation and a hands-on work experience in one of the following fields: Geographic Information Systems, Environmental Analysis, Urban Planning, International Development, and Geographic Education. The purpose of this class is to enhance students’ knowledge, skill levels, and professional competency in their targeted career. This course is recommended for the self-motivated student, and requires faculty advisor approval to register. Laboratory 3-9 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Prerequisite or Corequisite: Enrollment in appropriate discipline-specific theory or lab course at GCC. Transfer Credit: CSU.

101 PHYSICAL GEOGRAPHY
3.0 Units
GEOG 101 is a spatial study of the Earth’s dynamic physical systems and processes. Topics include Earth-sun geometry, weather, climate, water, landforms, soil, and the biosphere. Emphasis is on the interrelationships among environmental and human systems and processes and their resulting patterns and distributions. Tools of geographic inquiry are also briefly covered; they may include: maps, remote sensing, Geographic Information Systems (GIS) and Global Positioning Systems (GPS). Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID GEOG 110)

102 CULTURAL GEOGRAPHY
3.0 Units
GEOG 102 is a systematic study of the cultural variables of humankind: population, religion, language, economic activities, settlements. Emphasis upon selected cultural problems of humankind’s occupancy. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID GEOG 120)

103 WORLD REGIONAL GEOGRAPHY
3.0 Units
GEOG 103 is a survey of the world’s major cultural and physical regions with emphasis on those elements that are important to an understanding of contemporary global issues and concerns. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID GEOG 125)

106 HUMAN IMPACT ON THE ENVIRONMENT
3.0 Units
GEOG 106 is a description and analysis of humanity’s impact on the natural environment over time. Natural earth systems and natural climatic change are studied in the context of geologic time, followed by systematic analyses of human impact on the atmosphere, hydrosphere, lithosphere, and biosphere. Emphasis is placed on the human activities that cause environmental change, as well as potential solutions and pathways to sustainability. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

107 WEATHER, CLIMATE AND CLIMATE CHANGE
3.0 Units
GEOG 107 is an introduction to the atmosphere with an emphasis on its properties and physical processes. The course focuses on the atmosphere’s composition and structure, incoming solar radiation and energy balance, temperature, seasonal changes, atmospheric moisture, clouds and fog, precipitation, air pressure, winds, air masses and fronts, tornadoes, hurricanes, weather forecasting, El Niño, climate and climate change. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC. (C-ID GEOG 130)

110 GEOGRAPHY OF CALIFORNIA
3.0 Units
GEOG 110 takes a thematic approach to explore California’s issues, processes and topics relevant to geography including climate, landforms, natural vegetation, water resources, cultural landscape, ethnic diversity, urban and agricultural regions, and the economy. This course explores the physical and human landscapes that have evolved as a result of the human-environment interface. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC. (C-ID GEOG 140)

111 PHYSICAL GEOGRAPHYLABORATORY
1.0 Unit
GEOG 111 is the laboratory course for Physical Geography. Laboratory exercises include the observation and interpretation of weather data, statistical analysis of climate data, development of cartographic techniques, map interpretation, aerial photography interpretation, and landform description and analysis. Local field trips are required. Laboratory 3 hours. Prerequisite: GEOG 101 (GEOG 101 may be taken concurrently). Recommended Preparation: MATH 141, MATH 146, or two units of MATH 246. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID GEOG 111)

114 GEOGRAPHY OF BAJA CALIFORNIA
2.0 Units
GEOG 114 is a field study of Mexico’s Baja California peninsula using the geographic methodology. Emphasis is placed on the physical and cultural landscape, students are exposed to basic geographic data collection techniques and concepts, allowing for students to observe and document elements of Baja California’s climate, hydrology, wildlife, geomorphology, agriculture, economy, religion, and history, and how these elements interact to create Baja’s unique landscape and culture. Note: This class is taught in conjunction with a field trip to Baja California. Lecture 2 hours. Prerequisite: GEOG 101 or 102 or 105 or 110 or equivalent. Transfer Credit: CSU, UC.
GEOGRAPHY FIELD STUDIES

1.0 to 3.0 Units
GEOG 160 is a field-based lecture course that explores the physical and cultural geography of a selected region or regions. Physical and cultural processes, characteristics and landscapes are observed, documented and analyzed. Specific content varies by geographic region, but includes both physical and cultural components. Lecture 1-3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU. (C-ID GEOG 160)

GEOL 101 is an introduction to the principles of geology with emphasis on Earth processes. This course focuses on the internal structure and origin of the Earth and the processes that change and shape its surface. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID GEOL 101)

101H HONORS PHYSICAL GEOLOGY
3.0 Units
GEOL 101 is an introduction to the principles of geology with emphasis on Earth processes. This course focuses on the internal structure and origin of the Earth and the processes that change and shape its surface. The honors course will be enhanced in one or more of the following ways: 1. Students do weekly quantitative problem sets in the geosciences; 2. Students prepare a research project and present it in the class; Relevant topics include: global geochemical cycles, planetary geology from remotely sensed data, problems in plate tectonic, climate change history, and interactions of man with the Earth. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151, Eligibility for MATH 110. Transfer Credit: CSU, UC, USC. (C-ID GEOL 100)

ENVIRONMENTAL GEOLOGY

3.0 Units
GEOL 102 is a study of the earth or natural hazards like earthquakes, volcanism, climate change, pollution and human interactions with the earth environment. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID GEOL 130)

FIELD GEOLOGY

2.0 to 6.0 Units
GEOL 104 is a field study of geologic features within several geologic provinces. Emphasis is placed on the recognition, interpretation, recording, and reporting of geologic information observed in the field. Petrologic, paleontologic, structural, and stratigraphic information is compiled and integrated into an interpretation of the geologic history of the area investigated. An extended period in the field may be substituted for a number of shorter field trips. Field trips will normally be taken on weekends and/or during vacation periods. The itinerary, schedule, and field area will be determined at the first class meeting (see current class schedule). The student is responsible for the cost of food and transportation, the approximate cost is $35 for each two units of work, this figure may vary considerably depending on the location of the study area. Travel is usually by chartered bus. Field Geology requires a great deal of rigorous activity and living conditions in the field are often primitive. Lecture and field study will be the semester equivalent of one hour of lecture and three hours of laboratory per week for each two units of credit, a typical semester of work would include 16 hours of lecture and six days in the field. Note: Two units of non-overlapping field study will often be offered for the fall and spring semesters, extended periods of study may be available during summer session. Weather conditions may require rescheduling of some trips. Lecture 1 hour/Laboratory 5 hours. Prerequisite: GEOL 101, 102, 103, 105; OCEAN 115; PALEO 101; or equivalent. Note: May be taken 3 times for credit. Transfer Credit: CSU, UC, USC.

105 EARTH AND LIFE THROUGH TIME

3.0 Units
GEOL 105 is an introduction to Earth’s history and the life it supports. Subjects include geologic dating, plate tectonics, stratigraphy, fossils, biological evolution, the planet’s origin and the processes that have influenced paleogeography during the past 4.6 billion years. Lecture 3 hours. Recommended Preparation: GEOL 101 or equivalent, eligibility for ENGL 120 or ESL 151 or equivalent Transfer Credit: CSU, UC, USC. (C-ID GEOL 110)

Note:
Transfer Credit:
CSU, UC, USC
Fall/Spring.
May be taken 3 times for credit.
1972-1973
111 PHYSICAL GEOLOGY LABORATORY
1.0 Unit

GEOL 111 is an introduction to common laboratory practices and exercises in physical geography, such as identifying common minerals and rocks and understanding simple topographic and geological sections and maps. Laboratory 3 hours. Prerequisites: GEOL 101 or GEOL 101H. (GEOL 101 or GEOL 101H may be taken concurrently.) Transfer Credit: CSU, UC, USC. (C-ID GEOL 100L)

111H HONORS PHYSICAL GEOLOGY LABORATORY
1.0 Unit

GEOL 111H is an introduction to common laboratory practices and exercises in physical geography, such as identifying common minerals and rocks and understanding simple topographic and geological sections and maps. The honors course will be enhanced in one or more of the following ways: 1. Lab exercises will regularly involve exercises utilizing skills expected of students who are eligible for MATH 110. 2. Students will perform lab exercises in which they will: a.) Learn how to read a geological map at an advanced level b.) Manipulate geophysical and/or geochemical datasets using a computer. c.) Identify a larger number of rocks and minerals than non-honors students Laboratory 3 hours. Prerequisites: GEOL 101 or GEOL 101H. (GEOL 101 or GEOL 101H may be taken concurrently.) Transfer Credit: CSU, UC, USC.

112 ENVIRONMENTAL GEOLOGY LABORATORY
1.0 Unit

GEOL 112 is an introduction to the common laboratory practices and exercises in environmental geology. Laboratory exercises include analyzing topographic and geological maps and aerial satellite imagery. Also included are identifying common minerals and rock samples, water and soil analysis and integrating data from the World Wide Web in problem solving exercises. Laboratory 3 hours. Prerequisites: GEOL 102. (GEOL 102 may be taken concurrently.) Transfer Credit: CSU, UC, USC. (C-ID GEOL 120L)

115 EARTH AND LIFE THROUGH TIME LAB
1.0 Unit

GEOL 115 is the laboratory component of GEOL 105, Earth and Life through Time lecture. Activities in this laboratory course cover geologic dating, plate tectonics, stratigraphy, fossils, biological evolution, the planet’s origin and the processes that have influenced paleogeography during the past 4.6 billion years. Note: Students who completed GEOL 105 prior to Spring 2016 will not receive credit for completion of GEOL 115. Laboratory 3 hours. Prerequisites: GEOL 105 (GEOL 105 may be taken concurrently.) Transfer Credit: CSU, UC. (C-ID GEOL 110L)

120 EARTHQUAKES
3.0 Units

GEOL 120 introduces the student to the current knowledge of earthquakes, with special reference to California, emphasizing their occurrence, causes and properties and the way the dangers from earthquakes can be reduced. The material presented is appropriate for students seeking to fulfill general science requirements as well as for those wishing to acquire a specialized knowledge of the subject. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC.

H E A L T H

The Kinesiology Division/Health Department offers a variety of courses in the study of community personal hygiene and first aid/CPR, many of which meet the graduation requirements for Health and First Aid. Physical activity courses can be found in the Physical Education (PE) department in the catalog. Intercollegiate athletics courses can be found under the Athletic Physical Education department (ATHPE) in the catalog. Theory courses related to the study of human movement including those required for the KIN AA-T degree or Fitness Specialist Certificate can be found in the Kinesiology (KIN) department in the catalog.

101 FIRST AID
1.0 Unit

HLTH 101 covers prevention and causes of accidents or sudden illness. It meets the requirements of the American Red Cross for certification in Community First Aid and CPR. Lecture 1 hour. Prerequisite: None. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC.

102 STANDARD FIRST AID AND CPR
3.0 Units

HLTH 102 covers the proper care for emergencies involving adults, children and infants. Students gain the knowledge and skills necessary in an emergency to help sustain life and minimize the consequences of injury or sudden illness until advanced medical help arrives. The course includes first aid, cardiopulmonary resuscitation (CPR), automated external defibrillator (AED), injury management, and disease transmission prevention. This course meets the requirements of the American Red Cross for certification in First Aid/CPR/AED school and community. Lecture/Demonstration 3 hours. Prerequisite: None. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID KIN 101)

104 HEALTH EDUCATION
3.0 Units

HLTH 104 covers current issues in health and their effects upon the quality of human life. The course emphasizes the holistic approach to health and wellness and explores the latest concepts in nutrition, disease prevention, mental health and stress management, sexual relationships and lifestyles, drug use and abuse, and consumer and environmental health issues. Instruction focuses on individual responsibility for wellness, cultural diversity, and effective interpersonal communication. Note: This course may not be taken for credit by students who have completed HLTH 106 or PSYCH 111. Lecture 3 hours. Prerequisite: Eligibility for ENGL 189 or ESL 133 or equivalent Recommended Preparation: Eligibility for ENGL 120 or ESL 151, and completion of LIB 190. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC.
106  
**WOMEN’S HEALTH EDUCATION**  
3.0 Units  
HLTH 106 explores the various dimensions of health as they relate to women, with an emphasis on personal and social concerns of women’s past and present health trends. Topics explored include disease development, fitness and nutrition, substance abuse, reproductive health, and age-associated changes. A preventive care approach is taken for promotion of lifetime wellness and enhanced quality of life. The holistic model of wellness is examined with exploration of psychological, physiological, and social barriers to women’s health. This course is open to students of all genders.  
*Note:* This course may not be taken for credit by students who have completed HLTH 104 or PSYCH 111. Lecture 3 hours.  
**Prerequisite:** Eligibility for ENGL 190 or ESL 151 or equivalent.  
**Recommended Preparation:** Eligibility for ENGL 120 or ESL 151, and completion of LIB 190.  
**Course Typically Offered:** Fall/Spring.  
**Transfer Credit:** CSU, UC, USC.

128  
**NUTRITION FOR PHYSICAL FITNESS AND DISEASE PREVENTION**  
3.0 Units  
HLTH 128 examines the relationship between nutrition, physical fitness and disease risk in various populations. The impact of food choices on body physiology is explored as it pertains to disease risk and exercise performance. The process of metabolism as a means toward energy production for physical activity and weight management is discussed. Other topics covered include specifics of nutrition labeling, eating disorders, body composition, fitness guidelines, and ergogenic aids. Lecture 3 hours.  
**Recommended Preparation:** BIOL 115 or equivalent.  
**Course Typically Offered:** Fall.  
**Transfer Credit:** CSU, UC, USC.

---

**HEALTH INFORMATION TECHNOLOGY**

182  
**LEGAL ASPECTS OF HEALTH CARE AND ETHICS**  
3.0 Units  
HIT 182 provides the student with an introduction to legal issues pertaining to healthcare, health information, and the patient’s health record as a legal document. The course includes instruction on patient privacy and confidentiality, patient rights, release of information, informed consents, advance directives, compliance, criminal activities including fraud and abuse, the Health Insurance Portability and Accountability Act (HIPAA), and Electronic-Health. This course is aligned with accreditation standards for the Commission on Accreditation for Health Informatics and Information Management (CAHIIM), an independent accrediting organization whose mission is to serve the public interest by establishing and enforcing quality standards for Health Informatics and Health Information Management (HIM) educational programs. Lecture 3 hours.  
**Prerequisite:** MOA 180.  
**Recommended Preparation:** MOA 185 and eligibility for ENGL 120, ESL 151, BUSAD 106 or equivalent.  
**Transfer Credit:** CSU.

184  
**HEALTH CARE DELIVERY SYSTEMS**  
2.0 Units  
HIT 184 provides students with an introduction to healthcare delivery systems, including ambulatory, long-term and managed care, mental health, rehabilitation medicine, hospice and home health. This course also focuses on regulatory and accreditation requirements, funding and reimbursement, licensing and government regulations within the health care delivery system. This course is aligned with standards for the Commission on Accreditation for Health Informatics and Information Management (CAHIIM). Lecture 2 hours.  
**Prerequisite:** MOA 180.  
**Recommended Preparation:** MOA 185 and eligibility for ENGL 120, ESL 151, BUSAD 106 or equivalent.  
**Transfer Credit:** CSU.

186  
**HEALTH CARE QUALITY MANAGEMENT**  
3.0 Units  
HIT 186 provides the student with an understanding of healthcare quality management and performance improvement principles within a hospital setting, focusing on historical, theoretical, and practical applications and methodologies. Instruction includes data collection and analysis; regulatory, accreditation, and patient safety compliance; credentialing and utilization; and case and risk management. This course is aligned with accreditation standards for the Commission on Accreditation for Health Informatics and Information Management (CAHIIM), an independent accrediting organization whose mission is to serve the public interest by establishing and enforcing quality standards for Health Informatics and Health Information Management (HIM) educational programs. Lecture 3 hours.  
**Prerequisite:** MOA 180.  
**Recommended Preparation:** MOA 185 and eligibility for ENGL 120, ESL 151, BUSAD 106 or equivalent.  
**Transfer Credit:** CSU.

190  
**COMPUTER BASICS FOR ELECTRONIC HEALTH RECORDS (EHR)**  
3.0 Units  
HIT 190 provides students with an introduction to computer applications in healthcare and health information technology and management. The coursework includes: application of basic computer and communication concepts; software applications and technologies; systems development and analysis; file structures; work flow mapping; queries and reports for information retrieval; and migration to the electronic health record querying databases. The course also covers presentation and manipulation of data; data security and protection of health information; and information systems planning and life-cycle. Lecture 3 hours.  
**Recommended Preparation:** MOA 180 and MOA 185 and eligibility BUSAD 106 or equivalent.
193 CURRENT PROCEDURAL TERMINOLOGY (CPT) CODING
3.0 Units
HIT 193 provides the student with an introduction to Healthcare Common Procedure Coding Systems (HCPCS) and Current Procedural Terminology (CPT) coding for ambulatory services related to facility and professional services, with an overview of coding conventions, principles, regulatory guidance, and coding software. This course is aligned with accreditation standards for the Commission on Accreditation for Health Informatics and Information Management (CAHIIM), an independent accrediting organization whose mission is to serve the public interest by establishing and enforcing quality standards for Health Informatics and Health Information Management (HIM) educational programs. Lecture 3 hours. Prerequisite: MOA 180. Recommended Preparation: MOA 185 and eligibility for ENGL 120, ESL 151, BUSAD 106 or equivalent. Transfer Credit: CSU.

194 INTERNATIONAL CLASSIFICATION OF DISEASES (ICD) CLINICAL MODIFICATIONS (CM) VERSION 10
3.0 Units
HIT 194 provides the student with an overview of nomenclature and classification systems, with a focus on coding inpatient clinical information from medical records. Instruction includes coding diagnoses, utilizing the International Classification of Diseases (ICD), clinical Modifications (CM) Version 10 sequencing, and coding conventions. This course is aligned with accreditation standards for the Commission on Accreditation for Health Informatics and Information Management (CAHIIM), an independent accrediting organization whose mission is to serve the public interest by establishing and enforcing quality standards for Health Informatics and Health Information Management (HIM) educational programs. Lecture 3 hours. Prerequisite: MOA 180. Recommended Preparation: MOA 185 and eligibility for ENGL 120, ESL 151, BUSAD 106 or equivalent. Transfer Credit: CSU.

195 INTERNATIONAL CLASSIFICATION OF DISEASES: PROCEDURE CLASSIFICATION SYSTEM
3.0 Units
HIT 195 provides the student with an introduction to the overview, structure, and organization of the International Classification of Diseases, Procedure Classification System (ICD-10-PCS). Instruction in coding procedures adheres to national coding guidelines, uses information from cases and health records, and applies coding software (Encoder). This course is aligned with accreditation standards for the Commission on Accreditation for Health Informatics and Information Management (CAHIIM), an independent accrediting organization whose mission is to serve the public interest by establishing and enforcing quality standards for Health Informatics and Health Information Management (HIM) educational programs. Lecture 3 hours. Prerequisite: MOA 180. Recommended Preparation: MOA 181 or 182, MOA 185, HIT 196 (currently MOA 183). Transfer Credit: CSU.

196 MEDICAL INSURANCE AND REIMBURSEMENT
4.0 Units
HIT 196 provides the student with an introduction to the basics of medical insurance billing and current payment methodologies in the inpatient, hospital outpatient, and physician's office settings. The focus is on compliance with regulatory requirements and common billing practices. This course is aligned with accreditation standards for the Commission on Accreditation for Health Informatics and Information Management (CAHIIM), an independent accrediting organization whose mission is to serve the public interest by establishing and enforcing quality standards for Health Informatics and Health Information Management (HIM) educational programs. Lecture 4 hours. Prerequisite: MOA 180. Recommended Preparation: MOA 185 and eligibility for ENGL 120, ESL 151, BUSAD 106, or equivalent. Transfer Credit: CSU.

197 DISEASE PROCESSES
3.0 Units
HIT 197 is an introduction to the disease processes in the human body and drugs used in their treatment. The course emphasizes the basic physiological concepts of common diseases: the etiology, signs and symptoms, and methods of diagnosis, along with prognoses, medical treatments, and therapeutic procedures. Lecture 3 hours. Prerequisite: MOA 182. Recommended Preparation: MOA 185 and eligibility for BUSAD 106 or equivalent. Transfer Credit: CSU.

198 HEALTH CARE DATA REPORTING
3.0 Units
HIT 198 provides an introduction to the interpretation of healthcare statistical formulas, presentation of data, and the application of medical research tools. Students learn the use of healthcare data in relation to: long-range healthcare planning and development; application of automated systems; integration of reports; and registration of vital statistics. This course is aligned with accreditation standards for the Commission on Accreditation for Health Informatics and Information Management (CAHIIM), an independent accrediting organization whose mission is to serve the public interest by establishing and enforcing quality standards for Health Informatics and Health Information Management (HIM) educational programs. Lecture 3 hours. Prerequisite: MOA 180. Recommended Preparation: MOA 185 and eligibility for BUSAD 106 and MATH 145 or equivalent. Transfer Credit: CSU.

101 HISTORY OF WESTERN EUROPE
3.0 Units
HIST 101 studies the growth of Western European civilization from the decline of the Roman Empire to the Reformation. It is an introduction to the study of history, giving a general perspective of the development of those political, economic, and social institutions that explain our present-day civilization. An attempt is made to orient the student's thinking to present world problems. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID HIST 170)

102 HISTORY OF WESTERN EUROPE
3.0 Units
HIST 102 studies the growth of Western European civilization from absolutism to the present. It is an introduction to the study of history, giving a general perspective of the development of those political, economic, and social institutions that explain our present-day civilization. An attempt is made to orient the student's thinking to present world problems. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID HIST 180)
103 HISTORY OF EARLY LATIN AMERICA
3.0 Units
HIST 103 is a general survey course of Latin America from its colonization to its independence. The course introduces the following topics: the imposition of European civilization in Latin America, the development of the different colonies, colonial institutions, European empires’ attempt to monopolize Latin American territories and the wars of independence. Special attention is given to the short and long-term effects of colonization. The course ends with an introduction to Decolonial Theory. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

104 HISTORY OF CONTEMPORARY LATIN AMERICA
3.0 Units
HIST 104 is a general survey of 19th and 20th Century Latin American history. The course focuses on the political, economic, and social development of Latin America. In addition, the course offers an historical review of United States – Latin America relations. The course is designed to acquaint the student with the area’s basic history so as to better appreciate and understand contemporary social and political change in Latin American societies. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

105 TWENTIETH CENTURY CENTRAL AMERICA AND THE CARIBBEAN
3.0 Units
HIST 105 is an introductory course focusing on the contemporary political, economic, and social history in Central America and the Caribbean. The course focuses on the 20th Century, with special attention given to the role and impact of United States policy in the region. This class discusses race, gender, ethnicity and social class in Central America and the Caribbean. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC.

106 HISTORY AND POLITICS OF THE RUSSIAN PEOPLE
3.0 Units
HIST 106 is a survey of major political, social, ideological, and economic developments in Russia from the 10th century to the present. Emphasis is on the Romanov Empire, political movements and reforms in the 19th century, revolutions in the early 20th century, the USSR and its collapse, the Russian Federation and its policies toward the former Soviet republics and other regional and international issues. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

111 THE WOMAN IN AMERICAN HISTORY
3.0 Units
HIST 111 is a survey of the history of women in America from the colonial period to the present with emphasis on relevant political, economic and social factors. Traditional roles of women in society are analyzed in terms of literary images, popular culture, and stereotypes. The efforts of women to change their traditional roles are examined along with the attitudes and prejudices they encountered from both sexes in their efforts to bring about change. In addition, women’s contributions to various wars, reform movements, religious crusades, the women’s rights movements are examined in the context of American history to establish the real contributions women have made to this country. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC.

113 HISTORY OF MEXICO
3.0 Units
HIST 113 is an in-depth study of the emergence of the Mexican institutions and traditions from Pre-Colombian societies to the present. The course is designed to meet the needs of the college student who wishes to understand the development of the modern Mexican nation. Modern Mexico and its development is the primary concern of this course. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

115 REBELLIOUS WOMEN IN MODERN AMERICA
3.0 Units
HIST 115 investigates the legal, economic, political and social issues surrounding the dramatic transformation of gender relations in contemporary society. Topics included are women’s private lives, public, and political roles, and the public policy that has affected women’s lives. The course focuses on leaders of the Women’s Movement in the United States who worked to change laws, open doors to new occupations, and create and influence new institutions, as well as old ones. Using biography, primary sources documents, and socio-historical studies, the course focuses on women in the 1940s, then moves forward into the Women’s Movement of the 1950s, 1960s, 1970s, and the conservative reaction to the movement in the 1980s and 1990s. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

116 ECONOMIC HISTORY OF THE UNITED STATES
3.0 Units
HIST 116 is a history of the economic development of the United States from its settlement to the present. Emphasis is placed on the growth and development of economic institutions slavery, reconstruction, work, the industrial revolution, workers’ movements, and U.S. imperialism. Note: This course may not be taken for credit by students who have completed ECON 111. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.
118 UNITED STATES HISTORY, 1865 - PRESENT  
3.0 Units  
HIST 118 is a survey course that looks in depth at United States history from the Reconstruction period to the present. The Reconstruction period, the Gilded Age, Populism and Progressivism, Imperialism, the Great Depression and New Deal, World War II, the Cold War, Vietnam, Watergate, and the Carter, Reagan, Bush, and Obama years are examined. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID HIST 140)  

119 HISTORY OF THE FAR EAST  
3.0 Units  
HIST 119 is a general survey of East Asian civilization from antiquity though the Nineteenth Century. Primary emphasis is placed upon the political, religious, social and economic development of China and Japan with some attention on Korea and Southeast Asia. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC.  

120 HISTORY OF THE FAR EAST  
3.0 Units  
HIST 120 is a general survey of China, Japan, Korea, and Southeast Asia in the international community form the nineteenth century to the present. Primary emphasis is centered upon the impact of Western culture and the major political and social movements of the Twentieth Century, Nationalism, and Communism. Lecture 3 hours. Recommended Preparation: HIST 119 and eligibility for ENGL 101. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.  

121 ARMENIAN HISTORY  
3.0 Units  
HIST 121 is a survey of the history of the Armenian people from ethogenesis to the present. Topics include: The Artashesian, Arshaguni, Bagratid, and Cilician kingdoms; Armenia under the domination of Persian, Roman, Byzantine, Arab, Mongol, Turkish, and Russian empires; the religious and cultural heritage of the Armenian people; the emergence of the Armenian Question in the 19th Century; World War I and the Armenian Genocide; the first Republic of Armenia and international treaties up to 1923; Soviet Armenia; the Nagorno-Karabakh conflict; re-establishment of an independent Armenian Republic in 1991 and its relations with the Armenian Diaspora, Russia, the Middle East, Europe, and the United States in the 21st century. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.  

122 CALIFORNIA HISTORY  
3.0 Units  
HIST 122 is a survey of the discovery, exploration, and settlement of California. Emphasis is placed development of particular political, economic, and social institutions, along with California’s relationships with the United States and the rest of the world. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.  

131 A HISTORY OF AFRICA SINCE 1800  
3.0 Units  
HIST 131 surveys the development of Africa from 1800 to the present. Themes covered include: colonization and underdevelopment, neo-colonialism, nationalism, and African independence movements. Case studies of individual African countries are used to analyze the various themes. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC.  

132 HISTORY OF THE PHILIPPINES  
3.0 Units  
HIST 132 examines the geographical, cultural, and historical realities of the Philippines from the Spanish colonial period until the present. Particular emphasis is given to past and present U.S.-Philippine relations and the contemporary social, economic, and political situation in the Philippines. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.  

133 A HISTORY OF SCIENCE  
3.0 Units  
HIST 133 is a history of the notable scientific ideas and discoveries in Western civilization. It is a seminar, colloquial style discussion that examines the forces in history that led to the development of the major scientific revolutions and thinkers that have shaped modern industrialized humanity and culture. Some of the thinkers and scientists studied include the philosophy of science, the scientific method, science and pseudoscience, how science interacts with other cultural elements, ancient science, magic and renaissance science, the Copernican Revolution, the Newtonian Revolution, the Darwinian Revolution, Pasteur and the medical revolution, and the Einstein Revolution. The course enhances the students’ understanding of the present by a better understanding of the past. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.  

135 THE VIETNAM WAR AND CULTURAL LEGACIES  
3.0 Units  
HIST 135 examines the history of U.S. involvement in Southeast Asia during the twentieth century and the legacies of the Vietnam War up to the present. The course surveys the histories of Chinese influence in the region, French colonialism, and the different phases of U.S. commitment. It studies wartime experiences on the U.S. home front, the Cold War conflict and rivalry, and decolonization across the world. The course also explores how Vietnam continues to influence the U.S. as shown in its foreign policy and subsequent wars, its political debates, and its popular culture. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101 or equivalent. Transfer Credit: CSU, UC, USC.
HIST 136 explores the history, causes, and potential solutions to the problems of war. The history of individual wars is examined with a broader picture of war in general, including ancient warfare, the Middle Passage, the rise of modern war, and the development of total war. An interdisciplinary approach is taken in exploring the immediate causes of war, including historical, economic, political, anthropological, sociological, and psychological causes. The course probes moral and philosophical aspect for the ultimate causes of war. Finally, solutions are considered, including diplomacy, treaties, the United Nations, a one-world government, and the dismantling of nation- states. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

HIST 140 is a general survey of the world from earliest times up to 1500 with emphasis on the development of human ideas, arts, and institutions. The characteristics of the medieval and modern worlds are examined. The principles-cultural, social, economic, and political-which brought the modern world into being are analyzed. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID HIST 160)

HIST 141 is a general political survey of the world from the 1500s to the present, with emphasis on the development of human ideas, arts, and institutions. The characteristics of the medieval and modern worlds are analyzed. The principles-cultural, social, economic, and political-which brought the modern world into being are analyzed. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID HIST 160)

HRM 115 promotes the opportunity to evaluate occupational needs in the hospitality industry through study and field experience. Local, private, as well as national food service, lodging, and transportation businesses are explored. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU.

HRM 117 is an analysis of menu planning procedures: Inventories, costs, profit and loss sheets, menu work sheets, and weight and measures in quality recipes. Students learn to prepare weekly, monthly, and annual reports and determine food cost per meal, labor cost per meal, operational and total cost per meal. Lecture 2 hours/Laboratory 3 hours. Prerequisite: None. Transfer Credit: CSU.

HRM 201 covers the principles of operating a food service which are common to all types of commercial and industrial food service. The course covers such areas as sales promotion, advertising, personnel, legal aspects, insurance, labor management relations. . Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU.
DINING ROOM SERVICES

HRM 207 is an introduction and application of the principles of preparing food sales and presenting service at special events and functions within the scope of the hospitality industry such as teas, receptions, weddings and banquets. The course covers the management of a dining room including good housekeeping techniques, fine food, and efficient service. Types of dining service included are: waited table service (French, Russian, American, English), limited service, counter, tray service, catering, and vending. Lecture 2 hours/Laboratory 4 hours. Prerequisite: None.

BEVERAGE AND BAR OPERATIONS

HRM 214 is an overview of the beverage industry with emphasis on the identification, use, and service of alcoholic beverages. There is an in-depth analysis of the various elements of beverage operations including purchasing, cost control, marketing, and management as well as an understanding of the history of each type of white and brown alcoholic spirits. There is an additional emphasis on researching the current trends in the beverage industry, e.g.: smoothie concepts, juice bars, coffee and tea bars, etc. Lecture 2 hours/Laboratory 3 hours. Prerequisite: None.

WINE SELECTION AND PRESENTATION

HRM 216 is an introductory course designed to provide students with an understanding of wine making principles, including history, grape growing, fermentation, and winery operations. The course includes wine tasting and field trip to a winery. Lecture 3 hours. Prerequisite: Students must be at least 21 years of age and possess a valid form of picture identification to verify age.

FRONT OFFICE OPERATIONS

HRM 220 provides instruction and procedures in the front-office operation of a hospitality lodging enterprise. Emphasis is placed on the following aspects: public and employee relations, guest accommodations/reservations, forecasting, office routines and reports, machine operation, room rates, and the application of computer programs. Lecture 3 hours. Prerequisite: None.

HOUSEKEEPING MANAGEMENT OPERATIONS

HRM 221 acquaints the student with housekeeping duties as they pertain to rooms and accommodations in a hotel or motel. The course focuses on the comfort of guests as a priority concern. Emphasis is placed on effective communication between housekeeping, front office and engineering/maintenance. Students receive instruction in report writing. Lecture 3 hours. Prerequisite: None.

INTRODUCTION TO HOTEL AND RESORT OPERATIONS

HRM 222 is an introduction to the operating systems and components of a hotel-resort facility, which includes front office, housekeeping, food and beverage, sales and marketing, accounting, property maintenance, human resources management and information systems. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU.

MANAGEMENT OF HOSPITALITY PERSONNEL OPERATIONS

HRM 256 covers management skills for students pursuing a career in supervision within the restaurant/hospitality industry. It includes the application of basic management concepts and techniques necessary in achieving objectives in the management of human resources. Using case studies, students analyze the hospitality workplace, management responsibilities in coaching, training, and providing employee feedback. Decision making and leadership development is also discussed. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU.

THE HUMAN STRUGGLE

HUMAN 105 is an interdisciplinary, intercultural course designed to challenge students to further develop critical reading, writing, and thinking abilities through comparative study of materials from literature and various disciplines. Students evaluate some of the most relevant issues faced by people of the United States and other cultures throughout history, with emphasis on values and ethics. The course examines the creative impulses and destructive forces that have influenced the human struggle for order, acceptance, knowledge, understanding, self expression, power, freedom, individuality and survival. Students improve their abilities to analyze, synthesize, develop original ideas, distinguish fact from opinion or belief, and use logic and reason in language and thought to determine whether the solutions of the past are compatible with the problems of today and tomorrow. Writing instruction focuses on improving advanced composition skills. The course may be team-taught. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC.
105H
HONORS THE HUMAN STRUGGLE
3.0 Units
HUMAN 105H is an interdisciplinary, intercultural course designed to challenge students to further develop critical reading, writing, and thinking abilities through comparative study of materials from literature and various disciplines. Students evaluate some of the most relevant issues faced by people of the United States and other cultures throughout history, with emphasis on values and ethics. The course examines the creative impulses and destructive forces that have influenced the human struggle for order, acceptance, knowledge, understanding, self expression, power, freedom, individuality and survival. Students improve their abilities to analyze, synthesize, develop original ideas, distinguish fact from opinion or belief, and use logic and reason in language and thought to determine whether the solutions of the past are compatible with the problems of today and tomorrow. Writing instruction focuses on improving advanced composition skills. The course may be team-taught. The honors course will be enhanced in one or more of the following ways: 1. Accelerated standards of reading levels, emphasizing primary sources. 2. Accelerated standards of critical thinking, including critical writing and thesis-based essay exams. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC.

106
MODERN SOCIETY IN ITS MILIEUX
3.0 Units
HUMAN 106 is an interdisciplinary, team-taught, cross-cultural course emphasizing foreign literatures in translation. Students are encouraged to read, think, discuss and write critically in dealing with some important concerns of modern times as interpreted by different societies. Students do comparative analyses of literature from various countries in their historical, political, and social contexts. The linguistic style of each foreign language is stressed. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

110
SCIENCE, LITERATURE, AND HUMAN INSIGHT
3.0 Units
HUMAN 110 is an interdisciplinary, intercultural, team-taught course in which students further apply the principles of critical thinking and comparative critical analysis in order to better understand the relationships among literature, science, and technology. Through directed reading, class discussion, and writing, students develop logical thought processes enabling them to reason, inductively and deductively, to distinguish fact from judgment, to examine evidence an credibility of sources, to propose new ideas, and to reach logical conclusions. Through their study of literature, students learn about human values, behavior and motivations; through their study of scientific and technological achievements, they learn about the methods and limitations of science. Major historical and contemporary themes linking science and literature are presented for evaluation. Writing instruction focuses on improving advanced composition skills. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC.

111
IRISH HISTORY, LITERATURE, AND CULTURE FROM THE BEGINNING TO THE PRESENT
3.0 Units
HUMAN 111 is a broad-based, interdisciplinary team-taught course that covers the entire history of Ireland: its mythology, folklore, art, music, literature, and major political events. The course also focuses on the impact of Irish culture on England, Europe, Spain, Canada, and the United States through the centuries. Through assigned readings, discussions, and writing, the students gain critical insights into the causes and consequences of Ireland's turbulent history and struggle for independence as well as its literary and sociopolitical contributions to world culture and civilization. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

115
WORLD MYTHOLOGY
3.0 Units
HUMAN 115 is an interdisciplinary course in which students analyze ancient myths in the context of the cultures from which they arose. It provides a basis for increased understanding of art forms from all over the world, including literature, painting, sculpture, and architecture. Students explore the role myths play in answering the ultimate questions of human life and in expressing the values of the societies which developed and/or perpetuated the stories. Students see the impact of psychology, oral transmission, and environment (social, geo-political, and economic) on belief systems. Most importantly, students relate myths to questions and issues of the present day, relevant to their own lives and the lives of those with whom they share the country and the planet. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC.

117
CREATIVITY,CULTURE, AND SOCIETY: KALEIDOSCOPE
3.0 Units
HUMAN 117 is an interdisciplinary, team-taught course focusing on literature, drama, dance, and film and examining their relationships with other areas of college study. The course recognizes that, like the pieces in a kaleidoscope, individual art works and art forms are only components of larger patterns. As students compare and contrast works from various cultures and times, they are encouraged to read, think, discuss, and write critically about the interaction among artist, society, and work of art. Students explore the creative process and ask what has led to, as well as what results from, works of art. Students learn to analyze, synthesize, draw inferences, propose new ideas, support theses, reach logical conclusions, and become active participants in the artistic process. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC.
120 LITERATURE AND THE CULTURAL ARTS
3.0 Units
HUMAN 120 is an interdisciplinary course that focuses on the interrelationships of literature and the cultural arts (architecture, music, painting, and sculpture), with emphasis on the literature, to show not only their independence but also their synthesis. Through critical reading, discussion, and writing, students analyze the influences of each genre upon the creative impulses of the others. Humanities 120 examines literary and cultural achievements, developments, and values in the major periods of western history that served as a foundation for modern thought and letters. The course may be team taught. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Course Typically Offered: Fall/Spring/Summer. Transfer Credit: CSU, UC, USC.

125 CROSSCURRENTS: AMERICAN SOCIAL VALUES
3.0 Units
HUMAN 125 is an interdisciplinary course designed to enrich students’ knowledge and understanding of the cultural influences of ethnic, racial and gender diversity in the shaping of American society-past and present-and to enable them to speculate critically on American society in the future. Students analyze materials from literature, history, and other disciplines. The course explores the development and current reality of commonly held American ideals, attitudes and institutions and their role in the unique balance between freedom and responsibility. Students are encouraged to develop their critical thinking skills through reading, writing, and discussion. This course may be interactively team-taught. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC.

130 THE INDIVIDUAL, THE GROUP, AND THE ORGANIZATION
3.0 Units
HUMAN 130 is an interdisciplinary, team taught, intercultural course that emphasizes personal and global issues, problems, and patterns of communication in the work environment as they apply to individual workers, groups and organizations. Students develop critical reading, writing, and thinking skills by analyzing and discussing an international array of essays, works of fiction, plays, poems, songs, and films concerning work, and by engaging in individual and collaborative activities designed to pose ethical and decision-making problems. Writing instruction focuses on improving composition skills. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU.

135 HUMANITIES & THE WORLD OF WORK
3.0 Units
HUMAN 135 is an interdisciplinary course that combines instruction in fiction and nonfiction, film, ethics, problem solving, and decision making to help students examine today’s multicultural society and workplace and develop values that may influence their personal and professional growth throughout their lives. Students analyze and discuss contemporary issues, problems and trends, and become familiar with the history of discrimination on the basis of color, ethnicity, gender, and sexual orientation and the impact of this discrimination on educational opportunities, career choice, and employability. Students participate in group and individual activities designed to develop and reinforce analytical skills. They also keep journals in which they react to assignments and class presentations. Critical analysis of course materials helps students learn to deal with a variety of situation and tasks they may encounter in their career fields. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC.

49 INDEPENDENT STUDIES
1.0 TO 3.0 Units
GCC may make available in the curriculum of each division, lower division units of study, known as Independent Study. The purpose of the Independent Study course is to provide gifted students with an opportunity to explore a subject in greater depth than usual, to familiarize students with some basic research techniques, to interest students in possible career areas, and to take advantage of special academic interests. Emphasis shall be on individual research projects, library research and preparation of research papers. There is no prescribed course outline. Students develop a research project, have it approved by the sponsoring instructor and appropriate division chairperson, then submit the finished project, which may be library research, or perhaps a supervised experimental program related to a specific course of instruction. This course may be offered in all disciplines. Registration is open to any student at GCC who is currently registered for 6 or more units and who is admitted to Independent Study by the instructor. A student is limited to one Independent Study per semester and no more than 12 units credit toward the AA Degree or Certificate, and no more than 6 units per division. The units received may be acceptable for college transfer subject to the approval of the individual college. The instructor shall make arrangements for students’ Independent Study registration with the Curriculum Management Office. Attendance accounting procedures shall be cleared with the Admissions and Records Office by the instructor. This course may be offered in any of the disciplines listed below: ACCT, ANTHR, ART, ASL, ASTRO, AT, BIOL, CABOT, CAM, CHEM, CHLDV, CS/IS, CULIN, DANCE, ECON, ECT, ENGL, ENGR, ETH S, FIRE, GEOG, GEOL, HIST, ITAL, JOURN KOREA, MATH, MCOMM, MEDIA, MUSIC, NS, OCEAN, PE, PHILO, PHY, POL S, PSYCH, SPAN, SPCH, ST DV, T ART, WELD. Laboratory 3-9 hours. Prerequisite: Concurrent registration in 6 or more units. Transfer Credit: CSU.
INDUSTRIAL TECHNOLOGY

155 VERDUGO POWER ACADEMY
17.5 Units

The Verdugo Power Academy produces candidates for an Electrical Line Mechanic (ELM) training program. Development of basic skills needed to be successful trainees will be emphasized. These skills include: overall safety considerations, power pole climbing skills, knowledge of the basic tools and materials involved with the electrical theory that is specific to this trade. A 175 hour power pole-climbing certificate of completion is granted to students who successfully complete this course. Note: Students during the course of instruction will be required to lift up to 60 lbs with repetition and will be required to climb and perform installation and maintenance operations at the top of 30 foot power poles. Physical or psychological limitations should be taken into account when enrolling in the class. Lecture 8.0 hours/ Laboratory 9.5 hours. Prerequisite: None.

156 ADVANCED METERING TECHNOLOGY
4.0 Units

ITECH 156 is an introduction to Automated Meter Infrastructure (AMI)/Smart Grid technology. This includes increased use of information controls, optimization of grid operations and resources, and use of distributed resources and renewable energy. Additionally included is the development and integration of demand response, energy efficient resources, smart metering, transfer of information to consumers and standards for the communication and interoperability of appliances and equipment connected to the electric grid. Lecture 3 hours/ Laboratory 3 hours. Prerequisite: None.

157 VERDUGO POWER ACADEMY I
7.5 Units

The Verdugo Power Academy I is the first course in a two course sequence that prepares candidates for an Electrical Line Mechanic (ELM) position. Development of basic skills needed to be successful candidates is emphasized. These skills include: overall safety considerations and knowledge of the basic tools and materials involved with the electrical theory that is specific to this trade. Note: A maximum of 17.5 units will be granted for any combination of ITECH 155, ITECH 157 and ITECH 158. Lecture 4 Hours /Laboratory 10.5 Hours. Prerequisite: None.

158 VERDUGO POWER ACADEMY II
10.0 Units

The Verdugo Power Academy II is the second course in a two course series that prepares candidates for an Electrical Line Mechanic (ELM) position. Development of basic skills needed to be successful candidates will be emphasized. These skills include: overall safety considerations, power pole climbing skills, knowledge of the basic tools and materials involved with the electrical theory that is specific to this trade. A 175 hour power pole-climbing certificate of completion is granted to students who successfully complete this course. Lecture 4 hours/Laboratory 18 hours. Prerequisite: ITECH 157

160 WIND TURBINE FUNDAMENTALS
3.0 Units

ITECH 160 introduces the industrial technology student to wind turbine mechanical related systems and their foundation; PLC (Programmable Logic Controllers) and control algorithms; turbine maintenance procedures; rotor construction, installation and airfoils; and SCADA (Supervisory Control and Data Acquisition) systems. Lecture 3 hours/Laboratory 1 hour. Prerequisite: None.

200 NATE CERTIFICATION CORE TRAINING
2.0 Units

ITECH 200 examines the core technical knowledge required to become a North American Technician Excellence (NATE) certified technician. The course emphasizes the basic physics and electrical theory required to be a qualified technician. The course covers heating, ventilation, air conditioning and refrigeration specific knowledge in the areas of safety, tools, heat transfer/ comfort and electrical systems. Lecture 2 hours. Prerequisite: None. Recommended Preparation: Eligibility for English 120 or ESL 151.

201 CAQI/QM/QS ELECTRICAL MODULE
1.0 Unit

ITECH 201 examines electrical theory, schematic diagrams, and electrical components common to air conditioning and heating systems. The knowledge gained will be used to effectively understand and troubleshoot systems and components. Lecture 1 hour. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.

202 CAQI/QM/QS SYSTEM DIAGNOSTICS MODULE
1.0 Unit

ITECH 202 examines the knowledge required to establish a system diagnostic process. This includes the use of data and tools to maintain system performance in a dynamic environment. Lecture 1 hour. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.

203 CAQI/QM/QS REFRIGERATION MODULE
1.0 Unit

ITECH 203 examines the practical fundamentals and theory behind basic air conditioning and heat pump systems. Topics include the physical properties of air conditioning and refrigerants, basic system components and accessories, basic zone systems, air filtration, humidification and ventilation. The use of field instruments for measuring refrigerant pressures and temperatures, velocity and volume, and system airflow adjustments is covered. Lecture 1 hour. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.

204 CAQI/QM/QS SYSTEMS PERFORMANCE MODULE
1.0 Unit

ITECH 204 examines the knowledge required to establish heating/ventilating air conditioning (HVAC) system performance. The process starts with the fundamentals and theory behind residential and light commercial HVAC performance. This course will also introduce the concept and ramifications of the HVAC being a subsystem in the building envelope and addresses the direct and indirect problems that will affect system performance. Lecture 1 hour. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.

205 CAQI/QM/QS AIR DISTRIBUTION MODULE
1.0 Unit

ITECH 205 examines the practical fundamentals and theory behind basic air distribution systems. The course reviews the basic physical properties of air, common definitions used in the trade, psychrometrics, the comfort index and indoor air quality. The course also reviews the skill sets required to properly design, install, commission, maintain, service and diagnose air distribution systems. Lecture 1 hour. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.
INTERNATIONAL FIELD STUDIES

48 INTERNATIONAL FIELD STUDIES 1.0 to 3.0 Units

International Field Studies provides college credit for travel and study in foreign countries at the student’s own expense in programs provided by agencies approved in advance by the College and under the direction of a Glendale Community College instructor. This course may be offered in any of the disciplines listed below: ANTHR, ART, BIOL, CHLDV, CULIN, ECON, ENGL, ETH S, GEOG, HIST, MUSIC, PHIL, POL S, PSYCH, SOC, SPCH, SPAN, STDV. Note: Each repetition must be in a different country and/or area of the world. Lecture 1-3 hours/Laboratory 2-9 hours. Prerequisite: None. Transfer Credit: CSU

INTERDISCIPLINARY STUDIES

110 RESPONSES TO POVERTY 3.0 Units

IDS 110 is an introduction to the causes and immediate effects of poverty as it exists today. This course examines poverty within the context of cultural, economical, political, psychological and social forces. Consequences of poverty in other countries are also considered. Theories and practical means to address poverty will be considered and analyzed. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

ITALIAN

101 BEGINNING ITALIAN I 5.0 Units

ITAL 101 teaches the fundamentals of Italian grammar. Students are trained to pronounce Italian correctly, to acquire a small working vocabulary which they use in conversation and writing, and to read simple Italian. Note: This course is not intended for students with oral proficiency or who have attended schools where Italian was the language of instruction. Lecture 5 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

102 BEGINNING ITALIAN II 5.0 Units

ITAL 102 is a continuation of Italian 101 and completes the elementary grammar. It includes the reading of simplified texts with emphasis on oral expressions, and further study of Italian history and culture. Lecture 5 hours. Prerequisite: ITAL 101 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC

103 INTERMEDIATE ITALIAN I 5.0 Units

ITAL 103 includes further study of Italian grammar. The purpose of the course is to train students in reading comprehension of intermediate prose with stress on documentary aspects of Italian life, character analysis, and the study of ideas. Oral and written discussions are stressed. Lecture 5 hours. Prerequisite: ITAL 102 or equivalent. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC

104 INTERMEDIATE ITALIAN II 5.0 Units

ITAL 104 completes the review of the fundamentals of grammar. The purpose of the course is to train students in reading intermediate prose of increasing difficulty with stress on the study of ideas. The training also includes oral discussion and written exposition. Lecture 5 hours. Prerequisite: ITAL 103 or equivalent. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC

130 ITALIAN CULTURE AND CIVILIZATION THROUGH CINEMA 3.0 Units

ITAL 130 analyzes the social, economic, religious and political evolution of Italian culture as seen through Italian cinema from the beginning of the 20th century to the present. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

JAPANESE

101 BEGINNING JAPANESE I 5.0 Units

JAP 101 presents the fundamentals of Japanese grammar within a cultural context. The students are trained to pronounce correctly, to acquire a small working vocabulary for conversation and writing, and to read and write hiragana, katakana, and some kanji (native Japanese alphabets). Note: This course is not intended for students with oral proficiency or who have attended schools where Japanese was the language of instruction. Lecture 5 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC

102 BEGINNING JAPANESE II 5.0 Units

JAP 102 expands on the vocabulary and grammar introduced in JAP 101, and includes reading and writing of short passages and elementary compositions. Lecture 5 hours. Prerequisite: JAP 101. Course Typically Offered: Winter/Spring. Transfer Credit: CSU, UC, USC

103 INTERMEDIATE JAPANESE I 5.0 Units

JAP 103 introduces students to the structures and idioms of Japanese. The emphasis is placed on social conversation and on the process of thinking in Japanese with an emphasis on expression and interpretation. Lecture 5 hours. Prerequisite: JAP 102. Course Typically Offered: Winter/Spring. Transfer Credit: CSU, UC, USC

104 INTERMEDIATE JAPANESE II 5.0 Units

JAP 104 continues the study of Japanese grammar with the focus on idiom and expression. Lecture 5 hours. Prerequisite: JAP 103. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC

105 INTERMEDIATE JAPANESE III 5.0 Units

JAP 105 continues the study of idiom and expression with an emphasis on discussion of social values and lifestyle in Japan. Lecture 5 hours. Prerequisite: JAP 104. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC

106 INTERMEDIATE JAPANESE IV 5.0 Units

JAP 106 continues the study of social values and lifestyles in Japan with an emphasis on the social and historical aspects of modern Japan. Lecture 5 hours. Prerequisite: JAP 105. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC

107 ADVANCED JAPANESE I 5.0 Units

JAP 107 continues the study of modern Japanese and social interaction. Lecture 5 hours. Prerequisite: JAP 106. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC

108 ADVANCED JAPANESE II 5.0 Units

JAP 108 continues the study of modern Japanese and social interaction. Lecture 5 hours. Prerequisite: JAP 107. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC

109 ADVANCED JAPANESE III 5.0 Units

JAP 109 continues the study of modern Japanese and social interaction. Lecture 5 hours. Prerequisite: JAP 108. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC

110 ADVANCED JAPANESE IV 5.0 Units

JAP 110 continues the study of modern Japanese and social interaction. Lecture 5 hours. Prerequisite: JAP 109. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC

207 CAQI/QM/QS SYSTEM ECONOMIZER MODULE 1.0 Unit

ITECH 207 examines the knowledge required to establish an economizer system’s diagnostic process. This includes the operating aspects ultimately applied to that process which conclude with the system working safely, reliably, and operating at the highest capacity and energy efficiency possible. Lecture 1 hour. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.
102 BEGINNING JAPANESE II
5.0 Units
JAPAN 102 students continue to learn the fundamentals of Japanese grammar within a cultural context. Students receive further training in correct pronunciation and continue to learn kanji (Chinese characters). Students also continue practicing hiragana and katakana. Discussions in Japanese stress verb forms and vocabulary building. Lecture 5 hours. Prerequisite: JAPAN 101 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

103 INTERMEDIATE JAPANESE I
5.0 Units
JAPAN 103 continues the study of Japanese grammar and vocabulary and begins the study of short narrative writings. Conversational fluency, composition writing and familiarity with Japanese culture are emphasized in this course. Emphasis is placed on the customs, culture, and institutions of the Japanese people. Students continue developing their skills using hiragana and katakana and learn 100 new kanji. Lecture 5 hours. Prerequisite: JAPAN 102 or equivalent. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

104 INTERMEDIATE JAPANESE II
5.0 Units
JAPAN 104 completes the study of Japanese grammar and continues the study of short narrative writings. Conversational fluency, composition writing and increased familiarity with Japanese culture are emphasized in this course. Emphasis is placed on the customs, culture, and institutions of the Japanese people. Students continue developing their skills using hiragana and katakana and learn 250 new kanji. Lecture 5 hours. Prerequisite: JAPAN 103 or equivalent. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

101 INTRODUCTION TO MASS COMMUNICATIONS
3.0 Units
JOUR 101 is an introductory course exploring the history, institutions, and social impact of mass communication media, including print, photography, recordings, film, television, computers, and the role of advertising and public relations. The course is taught from a perspective of theories of persuasion, the symbolic power of images, and the relationship between information and knowledge. Special attention is given to the impact of these media on how we live and believe as individuals and as a society. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC.

102 REPORTING THE NEWS
3.0 Units
JOUR 102 is an introductory course in the gathering and writing of news, features, and editorials. Students learn to write clearly and concisely via laboratory drills in English fundamentals. Topics of study include: news sources, acceptable forms for stories, style and method of various media, elementary editing, and law and ethics of communication. Newspapers and other media at the local community level as well as the national metropolitan levels are utilized. Lecture 3 hours/Laboratory 1 hour. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU. (C-ID JOUR 110)

103 STUDENT PUBLICATIONS STAFF
3.0 Units
JOUR 103 is a course in writing news, feature, and editorial copy, copy reading and editing, headline writing, newspaper layout and make-up, and the mechanics of newspaper production. Students study laws and ethics of the press and there is an overall emphasis on the function and responsibility of the newspaper. Multiple formats are considered, including online and broadcast journalism. This course produces the campus newspaper, El Vaquero. Lecture 2 hours/Laboratory 3 hours. Recommended Preparation: JOUR 102 or equivalent; Eligibility for ENGL 101; LIB 191 Course Typically Offered: Fall/Spring. Transfer Credit: CSU. (C-ID JOUR 130)

104 STUDENT PUBLICATIONS EDITOR
3.0 Units
JOUR 104 is an intermediate course in writing news, feature, and opinion articles; copy reading and editing; headline writing; newspaper layout and make-up; and the mechanics of newspaper production. There is an increased emphasis on in-depth reporting for print as well as online and broadcast media. There is further study of law and ethics of the press with an overall emphasis on the function and responsibility of the newspaper, internet and social media. There is also a greater emphasis on interpretative reporting. This course produces the campus newspaper, El Vaquero as well as the website for the paper, which includes a broadcast component. Social Media Platforms such as Twitter and Facebook are also implemented. Students in this class assume responsibility for editing and managing El Vaquero, the print and online editions. Lecture 2 hours/Laboratory 3 hours. Prerequisite: JOUR 103 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU. (C-ID JOUR 131)

106 INTRODUCTION TO BROADCAST JOURNALISM I
3.0 Units
JOUR 106 covers the process of gathering, writing, editing, and presenting the news on radio and television. Particular emphasis is placed on writing for broadcast, news judgment, visual considerations versus sound, interviewing techniques, ethics, scripting, and news organizations infrastructure. Lecture 3 hours/Laboratory 1 hour. Recommended Preparation: None. Course Typically Offered: Fall. Transfer Credit: CSU.
107 MAGAZINE WRITING
3.0 Units

JOUR 107 focuses on feature writing for magazines and newspapers. Students learn how to find feature ideas and develop them into articles for student or professional publications. The creative story-telling side of journalism is stressed. The free-lance market for feature writers is discussed. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Spring. Transfer Credit: CSU.

110 PHOTOJOURNALISM
3.0 Units

JOUR 110 provides instruction in techniques for producing photos for news and feature articles. Students learn effective ways to take photos to accompany articles, as well as to use photos to tell a story of their own. Both conventional and digital photography are used. Lecture 2 hours/Laboratory 3 hours. Recommended Preparation: Eligibility for ENGL 101 and PHOTO 101. Course Typically Offered: Every Other Year. Transfer Credit: CSU.

116 INTRODUCTION TO BROADCAST JOURNALISM II
3.0 Units

JOUR 116 continues to develop the process of gathering, writing, editing, and presenting the news on radio and television. This course involves practical application of the skills. Students produce, report, and anchor a news segment for cable broadcast. In addition, they will produce and host a half-hour magazine format show for cable broadcast. Emphasis is placed on writing for broadcast, new judgment, visual versus sound considerations, interviewing techniques, ethics, scripting, and new organizations’ infrastructure. Students will also be introduced to various radio formats and perform on the campus radio station. Lecture 3 hours/Laboratory 1 hour. Prerequisite: JOURN 106 or equivalent.

210 ADVANCED NEWS WRITING
3.0 Units

JOUR 210 emphasizes public affairs reporting. Students will cover public meetings both on and off campus, including trials, school board meetings, and city council meetings. They will also contribute to the college newspaper, El Vaquero. The emphasis is on print journalism, but students will also be exposed to broadcasting, the Internet, and podcasting. Emphasis will be given to journalistic law and ethics. Lecture 3 hours/Laboratory 1 hour. Prerequisite: JOURN 102 or equivalent. Transfer Credit: CSU. (C-ID JOUR 210)

250 VISUAL COMMUNICATION
3.0 Units

JOUR 250 surveys the most significant techniques and examples of visual communication employed in the mass media, including newspapers, magazines, television, the Internet, and advertising. The course is designed to lead students to an understanding of the possibilities of visual communication in the mass media. The course exposes students to both practitioners and scholars in the field to demonstrate how the media use images and how the students might incorporate visual images into their own work. Students develop their critical thinking skills by learning the language and theory of visual media. Lecture 3 hours/Laboratory 1 hour. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Fall. Transfer Credit: CSU. (C-ID JOUR 170)

KINESIOLOGY

100 INTRODUCTION TO KINESIOLOGY (Previously PE 120)
3.0 Units

KIN 100 takes an interdisciplinary approach into the study of kinesiology. Students will have the opportunity to pursue interests in careers in the field of kinesiology. The philosophy, history scientific foundations, and future of kinesiology, exercise science, health and wellness, fitness and sport are covered. Students have the opportunity to explore professional career opportunities in teaching, coaching, athletic training, sport management, fitness leadership, and health and wellness. Note: Course is designed for kinesiology majors. Lecture 3 hours. Prerequisite: None. Recommended Preparation: Eligibility for ENGL 190/191 or ESL 141 and completion of LIB 190. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC (C-ID KIN 100).

144 BASEBALL THEORY
2.0 Units

KIN 144 covers the basic theoretical foundations of the sport of baseball. Note: KIN 144 is recommended for kinesiology majors. Lecture 2 hours. Recommended Preparation: Knowledge of Baseball fundamentals. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

146 ADVANCED BASEBALL THEORY
2.0 Units

KIN 146 covers advanced theory and strategies used in the sport of baseball. Note: KIN 146 is recommended for Kinesiology majors and students planning to participate in varsity baseball for a second year. Lecture 2 hours. Prerequisite: KIN 144. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

151 APPLIED EXERCISE SCIENCE
4.0 Units

KIN 151 introduces the student to the fundamental scientific concepts applicable to exercise and physical fitness. Areas of study include: functional anatomy, kinesiology, biomechanics and exercise physiology. The acute and chronic effects of exercise will be addressed with practical applications to fitness programming and instruction. Course is designed to prepare student for the scientific content requirements that are common to the certified personal trainer (CPT) and group fitness instructor (GFI) exams offered by several national certification agencies. Note: This course is designed as a part of the Fitness Specialist Certificate curriculum. Note: Students who successfully completed HLTH 117 prior to Spring 2016 will not receive credit for completion of KIN 151. II. Course Lecture 3 hours/Laboratory 3 hours. Recommended Preparation: BIOL 115 or equivalent, eligibility for ENGL 101 or equivalent.

152 EXERCISE PSYCHOLOGY
2.0 Units

KIN 152 explores cognitive behavior modification techniques which may be used to promote the adoption of and adherence to a regular exercise routine. Theoretical methods are studied and applied to practical exercise programming situations. Factors directly affecting the decision to perform exercise, including external barriers and reinforcements and behavioral tendencies, are investigated. Note: This course is designed as a part of the Fitness Specialist Certificate curriculum. Students who successfully completed HLTH 111 prior to Spring 2016 will not receive credit for completion of KIN 152. Lecture 2 hours. Recommended Preparation: Eligibility for ENGL 101 or equivalent.
155 FOUNDATIONS FOR GROUP EXERCISE INSTRUCTION
3.0 Units
KIN 155 covers the theory and practice of designing and leading group exercise classes. This course covers critical competencies required for students interested in taking the certified Group Exercise Instructor (GEI) or Group Fitness Instructor (GFI) exams offered by several national certification agencies. The foundations for group exercise instruction include: health risk stratification and fitness assessment, group exercise session design, effective demonstration, delivery and motivation, specialized group exercise certifications and considerations for special populations. Note: This course is designed as a part of the Fitness Instructor Program curriculum. Note: Students who successfully completed HLTH 110 prior to spring 2016 will not receive credit for completion of KIN 155. Lecture 3 hours. Recommended Preparation: BIOL 115 or equivalent, eligibility for ENGL 101 or equivalent, KIN 167, or 168 or equivalent.

156 FOUNDATIONS FOR PERSONAL FITNESS TRAINING
4.0 Units
KIN 156 covers the theory and practice of individualized exercise prescription for personal training. The course covers critical competencies required for students interested in taking the certified personal trainer (CPT) exams offered by several national certification agencies. The foundations for personal training include: exercise science review, health risk stratification, fitness assessment, fitness program and session design, proper execution of exercises, cueing and error correction, lifestyle coaching skills and considerations for special populations. The lab provides students practical application of knowledge and skills in personal training. Note: This course is designed as a part of the Fitness Instructor Program curriculum. Note: Students who successfully completed PE 119 prior to spring 2016 will not receive credit for completion of KIN 156. Lecture 3 hours. Recommended Preparation: BIOL 115 or equivalent, eligibility for ENGL 101 or equivalent, KIN 167, or 168 or equivalent and KIN 151 or equivalent.

157 PREVENTION AND CARE OF ATHLETIC INJURIES
3.0 Units
KIN 157 is open to those individuals who are interested in the prevention, care and treatment of sport(s) injuries. The course covers the responsibilities of the athletic trainer, emergency procedures, mechanisms, characteristics and evaluation of sport injuries as well as their acute care. This course provides an in-depth examination of selected topics in sports medicine and a thorough knowledge of the prevention and care of injuries commonly occurring during physical activity. Note: Students who successfully completed HLTH 110 prior to spring 2016 will not receive credit for completion of KIN 157. Lecture/Demonstration 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC.

167 WEIGHT TRAINING AND CONDITIONING
1.5 Units
KIN 167 is an introduction to basic weight training which introduces theories of proper body alignment and basic movement principles during activities of daily life, work, and light physical activity. Instruction includes choosing appropriate resistance exercises for major muscle groups and designing a resistance and cardiovascular program to meet health-related fitness goals. Prevention and correction of postural problems is emphasized. Lecture/Demonstration 1.5 hours. Recommended Preparation: ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

168 INTERMEDIATE WEIGHT TRAINING AND CONDITIONING
1.5 Units
KIN 168 is an intermediate course which builds on basic exercise training principles and introduces theories of intermediate training for skill-related fitness goals. This course focuses on training for speed, power, agility, coordination, balance and reaction time, as well as sport-specific training. Intermediate training protocols such as high-intensity intervals, plyometrics and Olympic lifts are covered along with novel implement training using resistance bands, kettlebells and medicine balls. Note: This course may not be taken for credit by students who have successfully completed KIN 169. Lecture/Demonstration 1.5 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

195 FOOTBALL THEORY
2.0 Units
KIN 195 is theory and development of offensive and defensive formations and strategies in football. Note: KIN 195 is recommended for kinesiology majors. Lecture 2 hours. Recommended Preparation: Knowledge of Football fundamentals. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

196 ADVANCED FOOTBALL THEORY
2.0 Units
KIN 196 covers advanced theoretical foundations and strategies of football. Note: KIN 196 is recommended for kinesiology majors and students who are participating in varsity football for a second year. Lecture 2 hours. Prerequisite: KIN 195 or equivalent Transfer Credit: CSU, UC, USC.

228 SOCCER THEORY
2.0 Units
KIN 228 is designed for men and women. It covers the theoretical foundations of the sport of soccer, with emphasis on strategy, game tactics, philosophy, and Federal International Football Association laws of the game. Note: KIN 228 is recommended for kinesiology majors. Lecture 2 hours. Recommended Preparation: Knowledge of Soccer fundamentals. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

229 ADVANCED SOCCER THEORY
2.0 Units
KIN 229 covers advanced theory and strategies used in the sport of soccer for men and women. Emphasis on advanced strategy, game tactics, philosophy, and focus on Federal International Football Association (FIFA) laws of the game. Note: KIN 229 is recommended for Kinesiology majors. Lecture 2 hours. Prerequisite: KIN 228. Transfer Credit: CSU.

236 SOFTBALL THEORY
2.0 Units
KIN 236 covers the theoretical foundations of the sport of softball. Note: KIN 236 is recommended for kinesiology majors. Lecture 2 hours. Recommended Preparation: Knowledge of Softball fundamentals. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.
LIB 190 INTRODUCTION TO INFORMATION COMPETENCY
2.0 Units
LIB 191 is designed to teach and strengthen lifelong research and information competency skills by introducing students to the nature of research and the role of the library in the research process. Students learn the core concepts of information retrieval and essential techniques for finding, evaluating, analyzing, organizing, and presenting information. The topics covered include: using online catalogs to locate books and other library resources; developing research strategies; exercising critical thinking to evaluate information; applying critical and search techniques to electronic databases; understanding citation formats and using the internet as a research tool. Lecture 5 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

LINGUISTICS

LING 101 INTRODUCTION TO LANGUAGE AND LINGUISTICS
3.0 Units
LING 101 provides an introduction to the scientific study of language. The course provides examples from different languages and linguistic communities in order to determine the basic nature of human languages and the extent to which languages may differ. Linguistic concepts are introduced and discussed to encourage critical thinking as a way to understand language as a biological and social phenomenon. Areas of study include but are not limited to: phonetics, phonology, morphology, syntax, semantics, pragmatics, language acquisition, neurolinguistics, and sociolinguistics. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

MACHINE TECHNOLOGY

MACH 101 MACHINE TECHNOLOGY I
3.0 Units
MACH 101 covers the fundamentals of the machinist trade. Instructions on the proper care and use of precision equipment are also included. Basic training utilizing lathes, milling machines, drill presses and grinders is emphasized. Lecture 1 hour/Laboratory 6 hours. Prerequisite: None. Transfer Credit: CSU.

MACH 102 MACHINE TECHNOLOGY II
5.0 Units
MACH 102 is a continuation of the fundamentals of the machinist trade. Advanced training in set-up work, tool grinding, and machine operations is presented. Related lectures cover types of threads and threading, calculating and cutting of tapers, gears and gear trains. Basic design and capacity of machine tools are investigated. Lecture 3 hours/Laboratory 6 hours. Prerequisite: MACH 101 or equivalent. Transfer Credit: CSU.

MACH 103 MACHINE TECHNOLOGY III
5.0 Units
MACH 103 covers more advanced and complicated operations of machine tools and equipment. Precision inspection, production and assembly are studied. Lectures and demonstrations on specialized machine tools and equipment give the student a better understanding of their use and capacities. Lecture 3 hours/Laboratory 6 hours. Prerequisite: MACH 102 or equivalent. Transfer Credit: CSU.

MACH 104 MACHINE TECHNOLOGY IV
5.0 Units
MACH 104 is a continuation of advanced and complicated operations of machine tools and equipment. Lectures and demonstrations include a thorough investigation of heat-treatment of metals, special metals and their uses, abrasives, grinding wheels, and efficient use of surface, cylindrical, and tool cutter grinders. Basic tool and die work in which the student designs and builds jigs and fixtures is offered to students showing advanced abilities. Lecture 3 hours/Laboratory 6 hours. Prerequisite: MACH 103 or equivalent. Transfer Credit: CSU.

MACH 107 MACHINE PRACTICE I
2.0 Units
NON-DEGREE APPLICABLE
MACH 107 provides practice on machine shop equipment. Students work on individual projects which they retain for their use. Training received in this course develops an ability to visualize and perform various functions necessary in the machine trade. Lecture 1 hour/Laboratory 3 hours. Prerequisite: None.
108 MACHINE PRACTICE II
2.0 Units

NON-DEGREE APPLICABLE
MACH 108 provides practice on machine shop equipment. Students work on individual projects which they retain for their use. Training received in this course develops an ability to visualize and perform various functions necessary in the machine trade. Lecture 1 hour/Laboratory 3 hours. Prerequisite: MACH 107 or equivalent.

109 PRINCIPLES OF TOOL ENGINEERING
5.0 Units

MACH 109 is an advanced course in machine shop training presenting systems of production. Interchangeability, and dimensioning as they pertain to tool design and construction of drill jigs, milling, grinding, and lathe fixtures, locating and clamping of parts, tooling for horizontal turret lathes, and tool room inspection and gauging are examined. Training required for engineers and designers noting duties and positions in manufacturing organizations are investigated. Lecture 3 hours/Laboratory 6 hours. Prerequisite: MACH 104 or equivalent.

110 PRINCIPLES OF NUMERICAL CONTROL
5.0 Units

MACH 110 is an advanced course in machine technology presenting principles of numerical control, preparation of machining programs and development of control tapes. Design and construction of tools and fixtures, selection and modification of tooling are studied. Lecture 3 hours/Laboratory 6 hours. Prerequisite: MACH 102 or equivalent. Transfer Credit: CSU.

111 PRINCIPLES OF NUMERICAL CONTROL
3.0 Units

MACH 111 presents principles of numerical control, preparation of machining programs and development of control tapes. It is designed for the advanced machine technology student who wishes to explore the field of numerically controlled machining. Note: This course may not be taken for credit by students who have completed MACH 110. Lecture 3 hours. Prerequisite: MACH 101 or equivalent (MACH 101 may be taken concurrently.)

112 MACHINE PRACTICE III
1.0 Unit

MACH 112 is designed to allow students or industrial workers to improve and update their machining skills. Techniques practiced are uses of lathe, mill, drill, grinder. Inspection strategies for the purpose of job advancement are presented. Laboratory 3 hours. Prerequisite: MACH 107 or equivalent.

113 INTERMEDIATE ENGINE LATHE PROCESS
2.0 Units

NON-DEGREE APPLICABLE
MACH 113 is a course that provides specialized training on the engine lathe processes. Building on the basic processes, this class will develop skills working on tapering, threading, grooving, contouring both inside and out. The use of the 3 and 4 jaw chucks, faceplate, rubber chuck and collets is studied. Lecture 1 hour/Laboratory 3 hours. Prerequisite: None.

114 INTERMEDIATE VERTICAL MILL PROCESSES
2.0 Units

NON-DEGREE APPLICABLE
MACH 114 is a course that provides specialized training on the vertical mill. Building on the basic processes, this class develops skills working on vises, fixturing, angular milling, end mills, shell mills, fly cutting, radius cutting, and undercutting. Lecture 1 hour/Laboratory 3 hours. Prerequisite: None.

115 INTRODUCTION TO PUBLIC RELATIONS
3.0 Units

MCOMM 115 is a practical guide to effective public relations, its history and its relationship with the media. The course is designed for persons who wish to make public relations a career, untrained persons who are currently or plan to be involved in publicity activities, and for journalism majors or minors who wish to enhance their studies. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Spring. Transfer Credit: CSU.

MATERIALS & PROCESSES

146 MATERIALS AND PROCESSES
3.0 Units

MATP 146 is a study of the manufacture and properties of ferrous and non-ferrous alloys, ceramic products, wood, cements, plastics, fuels, glass, concrete, rubber, etc. Their uses, adaptability, and limitations in industry are studied. Current methods of manufacture and technique are covered. The course covers testing of materials by the destructive and nondestructive methods and the physical properties of materials. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU.

MATERIALS & PROCESSES

120 INTRODUCTION TO PUBLIC RELATIONS
3.0 Units

MCOMM 120 is a practical guide to effective public relations, its history and its relationship with the media. The course is designed for persons who wish to make public relations a career, untrained persons who are currently or plan to be involved in publicity activities, and for journalism majors or minors who wish to enhance their studies. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Spring. Transfer Credit: CSU.

MATERIALS & PROCESSES

146 MATERIALS AND PROCESSES
3.0 Units

MATP 146 is a study of the manufacture and properties of ferrous and non-ferrous alloys, ceramic products, wood, cements, plastics, fuels, glass, concrete, rubber, etc. Their uses, adaptability, and limitations in industry are studied. Current methods of manufacture and technique are covered. The course covers testing of materials by the destructive and nondestructive methods and the physical properties of materials. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU.

MATHEMATICS

All students who have not taken a Mathematics course at Glendale College are required to take a mathematics placement examination before enrolling in any mathematics course except MATH 190. Contact your counselor for additional information.
100 COLLEGE ALGEBRA
4.0 Units
MATH 100 is a college (transfer) level course in algebra. Topics include functions and their inverses, transformations of functions, first and second degree equations and inequalities, logarithmic and exponential equations, graphs of linear and quadratic functions, conic sections, polynomial functions, exponential functions, logarithmic functions, real world Science, Technology, Engineering, and Mathematics (STEM) applications, remainder and factor theorems, properties and applications of complex numbers, systems of equations, matrix solutions, and sequences and series. Note: A maximum of 6 units may be earned from any combination of MATH 100, 102, 110, 110A and 110B. No credit will be given to students who have passed MATH 110A. Lecture 4 hours. Prerequisite: Placement is based on a composite of test scores and academic background or MATH 101 or MATH 110. Lecture 4 hours. Prerequisite: Placement is based on a composite of test scores and academic background or MATH 101 or 110A or MATH 110. Lecture 4 hours. Prerequisite: MATH 100. Lecture 4 hours. Prerequisite: MATH 100. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID MATH 151)

101 INTERMEDIATE ALGEBRA
5.0 Units
MATH 101 is an accelerated course of Intermediate Algebra. Topics include fundamental laws, curve plotting, linear equations, fractional exponents, quadratic equations and inequalities, arithmetic and geometric sequences and series, the binomial theorem, radical and rational expressions and equations, conic sections, factoring, functions and inverse functions, algebra of functions, graphs of functions, systems of linear and nonlinear equations and inequalities, Cramer's Rule, and exponential and logarithmic functions. This course is the equivalent of Algebra II as traditionally taught in one year of secondary school. Note: Students with two unsuccessful attempts in MATH 101 with a grade of W, D, P, or NP who wish to complete Intermediate Algebra will be required to take the MATH 119/219 and 120/220 sequence. This course may not be taken for credit by students who have completed MATH 120 or 220 sequence. A maximum of 5 units will be granted for MATH 101, 119, 120, 219 and 220. Lecture 5 hours. Prerequisite: Placement is based on a composite of transfer scores and academic background or MATH 141 or 146 or 246B or 2 units of MATH 246. Course Typically Offered: Winter/Spring/Summer/Fall.

102 TRIGONOMETRY
3.0 Units
MATH 102 is a course in plane trigonometry with a review of geometry. The course emphasizes the analytic aspects of the subject. Topics include properties of geometric figures, trigonometric functions of any angle, trigonometric identities, half-angles, trigonometric equations, applications of trigonometric functions, functions, complex numbers, and polar and parametric equations. Note: A maximum of 6 units may be earned from any combination of MATH 100, MATH 102, and MATH 110. Lecture 4 hours. Prerequisite: MATH 100. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU.

103 CALCULUS AND ANALYTIC GEOMETRY
5.0 Units
MATH 103 is the first of a sequence of three courses combining the subject matter of analytic geometry and calculus. Functions and their graphs are studied with special attention to differentiation, limits, rules and integration using various techniques. Applications of both differentiation and integration are covered. Lecture 5 hours. Prerequisite: Placement is based on a composite of test scores and academic background or MATH 110 or MATH 100 and 102. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID MATH 211)

103H HONORS CALCULUS AND ANALYTIC GEOMETRY
5.0 Units
MATH 103H is the first of a sequence of three courses combining the subject matter of analytic geometry and calculus. Functions and their graphs are studied with special attention to differentiation, limits, rules and integration using various techniques. Applications of both differentiation and integration are covered. The honors section of this course features more theory and proof, and one or more projects related to the topics of the course. Lecture 5 hours. Prerequisite: Placement is based on a composite of test scores and academic background or satisfactory completion of MATH 103. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID MATH 221)

104 CALCULUS AND ANALYTIC GEOMETRY
5.0 Units
MATH 104 is a study of the calculus of inverse functions, transcendental functions, techniques of integration, indeterminate forms, applications of integration, differential equations, parametric equations, polar coordinates, conic sections, and infinite sequences and series. Lecture 5 hours. Prerequisite: Placement is based on a composite of test scores and academic background or satisfactory completion of MATH 103. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID MATH 221)

104H HONORS CALCULUS AND ANALYTIC GEOMETRY
5.0 Units
MATH 104H is a study of the calculus of inverse functions, transcendental functions, techniques of integration, indeterminate forms, applications of integration, differential equations, parametric equations, polar coordinates, conic sections, and infinite sequences and series. The honors section of this course features more theory and proof, and one or more projects related to the topics of the course. Lecture 5 hours. Prerequisite: Placement is based on a composite of test scores and academic background or satisfactory completion of MATH 103. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID MATH 221)

105 MULTIVARIABLE AND VECTOR CALCULUS
5.0 Units
MATH 105 is a course in vector calculus. Topics covered include vector functions, vector differentiation, parametric equations, vectors in two, three, and higher dimensional space, multiple integration, and an introduction to vector analysis including divergence, curl, Green's and Stokes' Theorems. Lecture 5 hours. Prerequisite: MATH 104. Transfer Credit: CSU, UC, USC. (C-ID MATH 230)
105H
HONORS MULTIVARIABLE AND VECTOR CALCULUS
5.0 Units
MATH 105H is a course in vector calculus. Topics covered include vector functions, vector differentiation, parametric equations, vectors in two, three, and higher dimensional space, multiple integration, and an introduction to vector analysis including divergence, curl, Green’s and Stokes’ Theorems. The honors section of this course features more theory and proof, and one or more projects related to the topics of the course. Lecture 5 hours. Prerequisite: MATH 104. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID MATH 230)

107
LINEAR ALGEBRA
5.0 Units
MATH 107 covers the topics of vector spaces, linear transformations and matrices, matrix algebra, determinants, eigenvalues and eigenvectors, and solutions of systems of equations. Solution techniques include row operations, Gaussian elimination and matrix algebra. Specific topics in vector spaces and matrix theory include inner products, norms, orthogonality, eigenvalues, eigenspaces, linear transformations and applications. Lecture 5 hours. Prerequisite: MATH 104 with a grade of “C” or better. Recommended Preparation: MATH 105. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID MATH 250)

108
HONORS ORDINARY DIFFERENTIAL EQUATIONS
4.0 Units
MATH 108 covers the solution of ordinary differential equations using various techniques including variation of parameters, the Laplace transform, power series, and numerical methods. Systems of linear differential equations and an introduction to Fourier Series are also covered. Applications are drawn from the physical sciences. Lecture 5 hours. Prerequisite: MATH 104 with a grade of “C” or better. Recommended Preparation: MATH 105. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID MATH 240)

109
ORDINARY DIFFERENTIAL EQUATIONS
4.0 Units
MATH 109 covers the solution of ordinary differential equations. Solution techniques include separation of variables, integrating factors, and series methods. Systems of linear differential equations and an introduction to nonhomogeneous linear systems are also covered. Applications are drawn from the physical sciences. The honors section of this course features more theory and proof, and one or more projects related to the topics of this course. Lecture 5 hours. Prerequisite: MATH 104 with a grade of “C” or better. Recommended Preparation: MATH 105. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

110A
PRECALCULUS I
3.5 Units
MATH 110A is the first of two courses that prepares students for calculus. Topics include first and second-degree equations and inequalities, the study of functions and their graphs (polynomial, absolute value, radical, rational, exponential, logarithmic), and remainder and factor theorems. Additional topics include a review of geometry, followed by an introduction to trigonometric functions, solving right triangles, elementary trigonometric identities, inverse trigonometric functions, and solving triangles using the Laws of Sines and the Law of Cosines. Note: A maximum of 3 units may be earned from the combination of MATH 110A and MATH 100. No credit will be given for MATH 110A if a student has successfully completed MATH 110 or MATH 100 and MATH 102. Lecture 3 hours/Laboratory 1.5 hour. Prerequisite: MATH 101 or MATH 120 or MATH 220B. Transfer Credit: CSU, UC.

110B
PRECALCULUS II
3.5 Units
MATH 110B is the second of two courses that prepares students for calculus. Topics include the study of trigonometric functions, their inverses and their graphs, identities and their proofs, trigonometric equations, and graphs of polar equations. Additional topics include complex numbers, graphs of parametric equations and conic sections, linear and nonlinear systems of equations, the binomial theorem, partial fraction decomposition, introduction to vectors, and mathematical induction. Note: No credit will be given for MATH 110B if a student has successfully completed MATH 110 or MATH 100 and MATH 102. Lecture 3 hours/Laboratory 1.5 hour. Prerequisite: MATH 110A. Transfer Credit: CSU, UC. (C-ID MATH 995)
112  
CALCULUS FOR BUSINESS  
5.0 Units  
MATH 112 is a one semester course in calculus for business, management, and social science majors. Topics in this course include: techniques of differentiating, maximum-minimum problems, curve sketching, derivatives and applications of exponential and logarithmic functions, techniques of integration, simple differential equations, the calculus of functions of several variables, including Lagrange multipliers and multiple integration. Lecture 5 hours. Prerequisite: Placement is based on a composite of test scores and academic background or MATH 101 or 120 or 220B or 2 units of MATH 220. Recommended Preparation: MATH 100. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID MATH 140)  

119  
INTERMEDIATE ALGEBRA I  
3.0 Units  
MATH 119 is the first course of a two-semester sequence of Intermediate Algebra. Topics include: fundamental laws, curve plotting, linear equations, fractional exponents, radical and rational expressions and equations, factoring, functions, Cramer's rule, algebra of functions, graphs of functions, systems of linear equations and inequalities. This course is equivalent to the first part of MATH 101. Note: This course may not be taken for credit by students who have completed MATH 101 or 219. A maximum of 3 units will be granted for MATH 119 and 219. Lecture 5 hours. Prerequisite: Placement is based on a composite of test scores and academic background or MATH 141 or 146 or 246B or 2 units of MATH 246. Course Typically Offered: Winter/Spring/Summer/Fall.  

120  
INTERMEDIATE ALGEBRA II  
2.0 Units  
MATH 120 is the second course of a two-semester sequence of Intermediate Algebra. Topics include: quadratic equations and inequalities, arithmetic and geometric sequences and series, the binomial theorem, conic sections, inverse functions, graphs of functions, systems of nonlinear equations and inequalities, and exponential and logarithmic functions. This course is equivalent to the second part of MATH 101. Note: This course may not be taken for credit by students who have completed MATH 101 or 220. A maximum of 5 units will be granted for MATH 101, 119, 120, 219 and 220. Lecture 4 hours. Prerequisite: MATH 119 or 219C or 3 units of MATH 219. Course Typically Offered: Winter/Spring/Summer/Fall.  

130  
ELEMENTARY & INTERMEDIATE ALGEBRA FOR STATISTICS  
8.0 Units  
NON-DEGREE APPLICABLE  
MATH 130 is a one-semester course leading to transfer-level Statistics (MATH 136), Finite Mathematics (MATH 133), Liberal Arts Mathematics (MATH 135), and Math for Elementary Teachers I (MATH 138). Topics include curve plotting, linear equations and inequalities, radicals, functions and inverse functions, systems of linear equations, exponential and logarithmic functions, factoring, rational expressions, roots and radicals, quadratic equations, descriptive statistics, graphical and numerical statistics for quantitative and categorical data, modeling bivariate data with linear functions, introductory set theory, and introductory probability. Note: This course is designed for non-STEM students who are not majoring in science, technology, engineering, mathematics, or business. This course may not be taken for credit by students who have completed MATH 131. A maximum of 8 units will be granted for MATH 130 and 141, 146, 119 or 219, or a maximum of 9 units will be granted for MATH 130 and 101, 120 or 220. Lecture 8.0 hours. Prerequisite: Satisfactory completion of MATH 144, MATH 145, or 2 units of MATH 245.  

131  
INTERMEDIATE ALGEBRA FOR STATISTICS  
5.0 Units  
MATH 131 is a one-semester course leading to transfer-level Statistics (MATH 136), Finite Mathematics (MATH 133), Liberal Arts Mathematics (MATH 135), and Math for Elementary Teachers I (MATH 138). Topics include curve plotting, linear equations and inequalities, radicals, functions and inverse functions, systems of linear equations, exponential and logarithmic functions, descriptive statistics, graphical and numerical statistics for quantitative and categorical data, modeling bivariate data with linear functions, introductory set theory, and introductory probability. Note: This course is designed for non-STEM students who are not majoring in science, technology, engineering, mathematics, or business. A maximum of 5 units will be granted for MATH 131 and 119 or 219, or a maximum of 7 units will be granted for MATH 131 and 101, 120 or 220. No more than 7 units total will be granted. Lecture 5 hours. Prerequisite: Placement is based on a composite of test scores and academic background or MATH 141 or 146 or 246B or 2 units of MATH 246. Course Typically Offered: Winter/Spring/Summer/Fall.  

133  
FINITE MATHEMATICS  
3.0 Units  
MATH 133 is a one-semester course in mathematics for business, management, and social science majors. Topics in this course include systems of equations, matrices, probability with an introduction to statistics, Markov chains, and game theory. Lecture 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background or MATH 101, 120, 131, 220B or 2 units of MATH 220. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.  

135  
LIBERAL ARTS MATHEMATICS  
3.0 Units  
MATH 135 is a one-semester course designed for liberal arts majors. Topics in this course include probability, statistical inference, voting systems and how to measure power, game theory, and apportionment. Lecture 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background or satisfactory completion of MATH 101, 120, 131, or MATH 220B. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.  

136  
STATISTICS  
4.0 Units  
MATH 136 is a one-semester course designed for students whose major requires a course in statistics. Topics in this course include the nature of statistical methods, types of data, introductory probability, sampling theory, experimental design, confidence intervals, hypothesis testing, regression analysis, and decision making. Emphasis will be placed on the application of statistical concepts to real world data, development of statistical reasoning, and the interpretation of results. Lecture 4 hours. Prerequisite: Placement is based on a composite of test scores and academic background or MATH 101, 120, 131, 220B or 2 units of MATH 220. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID MATH 110)
138 Mathematics for Elementary Teachers I
3.0 Units
MATH 138 is designed for prospective elementary school teachers. Topics in this course include: problem-solving techniques, set operations, functions, number theory, ratio, proportion, and percent. Lecture 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background or satisfactory completion of MATH 101, 120, 130, 131, MATH 220B. Course Typically Offered: Spring. Transfer Credit: CSU, UC.

139 Mathematics for Elementary Teachers II
3.0 Units
MATH 139 is a continuation of MATH 138. It is a second-semester course designed for prospective elementary teachers. Topics include: statistics, probability, and geometry. Geometry topics include: geometric shapes, measurement, triangle congruence and similarity, coordinate plane, and transformations. Lecture 3 hours. Prerequisite: MATH 138. Transfer Credit: CSU, UC.

141 Elementary Algebra
4.0 Units
Non-Degree Applicable
MATH 141 is an accelerated course in the fundamental operations of algebra. The course focuses on solutions of linear and quadratic equations, algebraic operations, factoring, rational expressions, exponents and radicals, systems of linear equations and graphing linear and quadratic equations. This course is the equivalent of the traditional first year of algebra in secondary school and is designed for students to review their algebra. Note: Students with two unsuccessful attempts in MATH 141 with a grade of W, D, F, or NP who wish to complete Elementary Algebra will be required to take the MATH 145/245 and 146/246 sequence. This course may not be taken for credit by students who have completed MATH 146 or 246. A maximum of 4 units will be granted for MATH 141, 145, or 245B. A maximum of 6 units will be granted for MATH 144 and any of the following courses: MATH 155, MATH 255A, 255B, 255C, 255D, or MATH 245A or 245B. Lecture 5 hours/Laboratory 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background. Course Typically Offered: Fall/Spring.

145 Elementary Algebra I
2.0 Units
Non-Degree Applicable
MATH 145 is designed to cover the fundamental operations of algebra normally included in the first semester of a year course taught in secondary school, and includes signed numbers, solutions to linear equations, algebraic manipulations, exponents, polynomials, graphing linear equations, and solving linear systems. This course is designed for students who have studied algebra for less than one year or have not studied algebra recently. Note: This course may not be taken for credit by students who have completed MATH 141 or 245. A maximum of 2 units of credit will be granted for MATH 145 and 245. Lecture 4 hours. Prerequisite: Placement is based on a composite of test scores and academic background. Course Typically Offered: Winter/Spring/Summer/Fall.

146 Elementary Algebra II
2.0 Units
Non-Degree Applicable
MATH 146 is a continuation of MATH 145 and completes the topics traditionally covered in the first year of algebra in secondary school. This course covers the fundamental operations of algebra including factoring, rational expressions, roots and radicals, and quadratic equations. Note: This course may not be taken for credit by students who have completed MATH 141 or MATH 246B. A maximum of 4 units of credit will be granted for MATH 141, MATH 145, MATH 146, MATH 245A, MATH 245B, MATH 246A and MATH 246B. Lecture 1 hour/Laboratory 3 hours. Prerequisite: Satisfactory completion of MATH 145, MATH 245B or MATH 144. Course Typically Offered: Winter/Spring/Summer/Fall.

155 Arithmetic and Prealgebra
4.0 Units
Non-Degree Applicable
MATH 155 is a basic skills course designed to prepare students for their first course in algebra. It includes the fundamental processes of arithmetic and prealgebra. It is designed to develop skill in computation using whole numbers, fractions, decimals, percents, and properties of the decimal number system with an emphasis on the arithmetic of signed numbers. Rules of exponents, first-degree equations, fundamental facts about geometry, solutions to linear equations, algebraic manipulations, exponents, polynomials, graphing linear equations, and solving linear systems are also included. This course is Pass/No Pass only. Lecture 5 hours. Prerequisite: Placement is based on a composite of test scores and academic background. Course Typically Offered: Winter/Spring/Summer/Fall.
All students who have not taken a math course at Glendale Community College or another accredited college or have qualifying AP Math score are required to take a math placement exam prior to enrolling in any math course, except Math 190.

Following the initial placement, students advance in the sequence by successfully completing a math course not by retesting.

The courses below are all transfer-level math courses. Check with your counselor to see what is required by your target four-year school for your degree program. Up-to-date UC and CSU transferability information can be found online at www.assist.org

**AA/AS Graduation Requirement**

1. Dashed lines indicate acceptable, but not recommended paths.
2. Those courses which are in ovals are not transferable to CSU or UC.
3. Math 102 is not UC transferable.
4. Math 138 and Math 139 are UC transferable with maximum credit of one course but do not satisfy IGETC.
5. Math 105, 107, and 108 can be taken in any order or concurrently.
6. Only two attempts are allowed in Math 101, 110 and 141. To complete the sequence, students with two unsuccessful attempts with a grade of W, D, F or NP will be required to take the two-semester version of equivalent course.
7. See counselor for further details and other options.

Mathematics
190  
OVERCOMING MATH ANXIETY  
1.0 Unit  
NON-DEGREE APPLICABLE  
MATH 190 is designed to provide students of varying mathematical backgrounds with the knowledge, skills and attitudes to be successful in their mathematics related goals. Topics include myths, stereotypes, improving attitudes, learning styles, proper placement in classes, problem-solving skills, study skills, note-taking skills, test-taking strategies and stress reduction techniques all specifically tailored for Mathematics. Mathematical recreations, tricks and history may be incorporated into the course. 
Note: There is no Mathematics prerequisite for this course. Lecture 1 hour. 
Prerequisite: None. 
Course Typically Offered: Fall/Spring.

219A  
INTERMEDIATE ALGEBRA I  
1.0 Unit  
MATH 219A is the first part of a self-paced multimedia course. MATH 219ABC collectively is equivalent to the first course of a two-semester sequence of Intermediate Algebra. Topics include fundamental laws, curve plotting, linear equations, fractional exponents, radical and rational expressions and equations, factoring, functions, Cramer's rule, algebra of functions, graphs of functions, systems of linear equations and inequalities. MATH 219ABC collectively is equivalent to MATH 119. 
Note: This course may not be taken for credit by students who have completed MATH 101 or 119. A maximum of 3 units of credit will be granted for MATH 119 and 219. Laboratory 6 hours. 
Prerequisite: MATH 219A or 1 unit of MATH 219. 
Course Typically Offered: Winter/Spring/Summer/Fall.

219B  
INTERMEDIATE ALGEBRA I  
1.0 Unit  
MATH 219B is the second part of a self-paced multimedia course. MATH 219ABC collectively is equivalent to the first course of a two-semester sequence of Intermediate Algebra. Topics include fundamental laws, curve plotting, linear equations, fractional exponents, radical and rational expressions and equations, factoring, functions, Cramer's rule, algebra of functions, graphs of functions, systems of linear equations and inequalities. MATH 219ABC collectively is equivalent to MATH 119. 
Note: This course may not be taken for credit by students who have completed MATH 101 or 119. A maximum of 3 units of credit will be granted for MATH 119 and 219. Laboratory 6 hours. 
Prerequisite: MATH 219A or 2 units of MATH 219. 
Course Typically Offered: Winter/Spring/Summer/Fall.

219C  
INTERMEDIATE ALGEBRA I  
1.0 Unit  
MATH 219C is the third part of a self-paced multimedia course. MATH 219ABC collectively is equivalent to the first course of a two-semester sequence of Intermediate Algebra. Topics include fundamental laws, curve plotting, linear equations, fractional exponents, radical and rational expressions and equations, factoring, functions, Cramer's rule, algebra of functions, graphs of functions, systems of linear equations and inequalities. MATH 219ABC collectively is equivalent to MATH 119. 
Note: This course may not be taken for credit by students who have completed MATH 101, 119, 120, 219, and 220. Laboratory 6 hours. 
Prerequisite: MATH 219B or 2 units of MATH 219. 
Course Typically Offered: Winter/Spring/Summer/Fall.

220A  
INTERMEDIATE ALGEBRA II  
1.0 Unit  
MATH 220A is the first part of a self-paced multimedia course. MATH 220AB collectively is equivalent to the second course of a two-semester sequence of Intermediate Algebra. Topics include quadratic equations and inequalities, arithmetic and geometric sequences and series, the binomial theorem, conic sections, inverse functions, graphs of functions, systems of nonlinear equations and inequalities, and exponential and logarithmic functions. MATH 220AB collectively is equivalent to MATH 120. 
Note: This course may not be taken for credit by students who have completed MATH 101 or 120. A maximum of 5 units of credit will be granted for MATH 101, 119, 120, 219, and 220. Laboratory 6 hours. 
Prerequisite: MATH 119 or 219C or 3 units of MATH 219. 
Course Typically Offered: Winter/Spring/Summer/Fall.

220B  
INTERMEDIATE ALGEBRA II  
1.0 Unit  
MATH 220B is the second part of a self-paced multimedia course. MATH 220AB collectively is equivalent to the second course of a two-semester sequence of Intermediate Algebra. Topics include quadratic equations and inequalities, arithmetic and geometric sequences and series, the binomial theorem, conic sections, inverse functions, graphs of functions, systems of nonlinear equations and inequalities, and exponential and logarithmic functions. MATH 220AB collectively is equivalent to MATH 120. 
Note: This course may not be taken for credit by students who have completed MATH 101 or 120. A maximum of 5 units of credit will be granted for MATH 101, 119, 120, 219, and 220. Laboratory 6 hours. 
Prerequisite: MATH 220A or 1 unit of MATH 220. 
Course Typically Offered: Winter/Spring/Summer/Fall.
245A  
ELEMENTARY ALGEBRA I  
1.0 Unit  
NON-DEGREE APPLICABLE  
MATH 245A is the first part of a self-paced multimedia course. MATH 245AB collectively is equivalent to the first course of a two-semester sequence of Elementary Algebra. Topics include signed numbers, solutions to linear equations, algebraic manipulations, exponents, polynomials, graphing linear equations, and solving linear systems. MATH 245AB collectively is equivalent to MATH 145. Note: This course may not be taken for credit by students who have completed MATH 141 or 145. A maximum of 2 units of credit will be granted for MATH 145 and 245. Laboratory 6 hours. Prerequisite: Placement is based on a composite of test scores and academic background or MATH 155 or 255B or 2 units of MATH 245.

245B  
ELEMENTARY ALGEBRA I  
1.0 Unit  
NON-DEGREE APPLICABLE  
MATH 245B is the second part of a self-paced multimedia course. MATH 246AB collectively is equivalent to the second course of a two-semester sequence of Elementary Algebra. Topics include the fundamental operations of algebra including factoring, rational expressions, roots and radicals, and quadratic equations. MATH 246AB collectively is equivalent to MATH 146. Note: This course may not be taken for credit by students who have completed MATH 141 or 146. A maximum of 4 units of credit will be granted for MATH 141, 145, 146, 245, and 246. Laboratory 6 hours. Prerequisite: MATH 246A or 1 unit of MATH 246. Course Typically Offered: Winter/Spring/Summer/Fall.

245A  
ELEMENTARY ALGEBRA II  
1.0 Unit  
NON-DEGREE APPLICABLE  
MATH 245A is the first part of a self-paced multimedia basic skills course. MATH 255ABCD collectively is designed to prepare students for their first course in algebra. It includes the fundamental processes of arithmetic and prealgebra. It is designed to develop skill in computation using whole numbers, fractions, decimals, percents, and properties of the decimal number system with an emphasis on the arithmetic of signed numbers. Rules of exponents, first degree equations, and fundamental facts about geometry with regard to area and perimeter are also included. Study and test-taking techniques related to mathematics are also covered. MATH 255ABCD collectively is equivalent to MATH 155. Note: This course may not be taken for credit by students who have completed MATH 155. A maximum of 4 units of credit will be granted for MATH 155 and 255. This course is Pass/No Pass only. Laboratory 6 hours. Prerequisite: MATH 255A or 1 unit of MATH 255. Course Typically Offered: Winter/Spring/Summer/Fall.

245B  
ELEMENTARY ALGEBRA II  
1.0 Unit  
NON-DEGREE APPLICABLE  
MATH 245B is the second part of a self-paced multimedia basic skills course. MATH 255ABCD collectively is designed to prepare students for their first course in algebra. It includes the fundamental processes of arithmetic and prealgebra. It is designed to develop skill in computation using whole numbers, fractions, decimals, percents, and properties of the decimal number system with an emphasis on the arithmetic of signed numbers. Rules of exponents, first degree equations, and fundamental facts about geometry with regard to area and perimeter are also included. Study and test-taking techniques related to mathematics are also covered. MATH 255ABCD collectively is equivalent to MATH 155. Note: This course may not be taken for credit by students who have completed MATH 155. A maximum of 4 units of credit will be granted for MATH 155 and 255. This course is Pass/No Pass only. Laboratory 6 hours. Prerequisite: MATH 255A or 1 unit of MATH 255. Course Typically Offered: Winter/Spring/Summer/Fall.
Mathematics/Media Arts

255D
ARITHMETIC AND PREALGEBRA
1.0 Unit

NON-DEGREE APPLICABLE
MATH 255D is the fourth part of a self-paced multimedia basic skills course. MATH 255ABCD collectively is designed to prepare students for their first course in algebra. It includes the fundamental processes of arithmetic and prealgebra. It is designed to develop skill in computation using whole numbers, fractions, decimals, percents, and properties of the decimal number system with an emphasis on the arithmetic of signed numbers. Rules of exponents, first degree equations, fundamental facts about geometry with regard to area and perimeter are also included. Study and test-taking techniques related to mathematics are also covered. MATH 255ABCD collectively is equivalent to MATH 155. 

255C or 3 units of MATH 255. 

255D is the fourth part of a self-paced supplementary instruction course. MATH 255D is the fourth part of a self-paced multimedia basic skills course. MATH 255ABCD collectively is designed to prepare students for their first course in algebra. It includes the fundamental processes of arithmetic and prealgebra. It is designed to develop skill in computation using whole numbers, fractions, decimals, percents, and properties of the decimal number system with an emphasis on the arithmetic of signed numbers. Rules of exponents, first degree equations, fundamental facts about geometry with regard to area and perimeter are also included. Study and test-taking techniques related to mathematics are also covered. MATH 255ABCD collectively is equivalent to MATH 155. Note: This course may not be taken for credit by students who have completed MATH 155. A maximum of 4 units of credit will be granted for MATH 155 and 255. This course is Pass/No Pass only. Laboratory 6 hours. 

Corequisite: MATH 255C or 3 units of MATH 255. 

Course Typically Offered: Winter/Spring/Summer/Fall.

301
SKILLS FOR COLLEGE SUCCESS IN INTERMEDIATE ALGEBRA
2.0 Units

NON-DEGREE APPLICABLE
MATH 301 is designed to complement MATH 101 in the development and practice of essential study techniques and course material for success in intermediate algebra. Topics include integration of web-based supplemental instruction, life management skills, strategies for successful classroom experience, and critical thinking/problem solving strategies. Note: This course is Pass/No Pass only. Lecture 3 hours. Corequisite: MATH 101. 

Course Typically Offered: Fall/Spring.

336
SKILLS FOR COLLEGE SUCCESS IN STATISTICS
1.0 Unit

NON-DEGREE APPLICABLE
MATH 336 is designed to complement MATH 136 in the development and practice of essential study techniques and course material for success in Statistics. Topics include integration of statistical software, life management skills, strategies for successful classroom experience, and critical thinking/problem solving strategies. Note: This course is Pass/No Pass only. Laboratory 3 hours. Corequisite: MATH 136.

341
SKILLS FOR COLLEGE SUCCESS IN ELEMENTARY ALGEBRA
2.0 Units

NON-DEGREE APPLICABLE
MATH 341 is designed to complement MATH 141 in the development and practice of essential study techniques and course material for success in elementary algebra. Topics include integration of web-based supplemental instruction, life management skills, strategies for successful classroom experience, and critical thinking/problem solving strategies. Note: This course is Pass/No Pass only. Lecture 3 hours. Corequisite: MATH 141. 

Course Typically Offered: Fall/Spring.

MEDIA ARTS

101
INTRODUCTION TO TV STUDIO PRODUCTION
3.0 Units

MEDIA 101 provides students with a basic overview of the aesthetics and techniques required in the production of studio based multiple camera video programs. The topics include studio and control room operations, directing, crew responsibilities, operation of video and audio equipment, lighting, video graphics and sound mixing. Projects consist of hands-on experiences in several “live” video studio production situations performed in the Glendale College Television Studio (GCTV Studio.) Lecture 2 hours/Laboratory 4 hours. 

Prerequisite: None. 

Course Typically Offered: Fall/Spring. Transfer Credit: CSU. (C-ID FTVE 135)

107
INTRODUCTION TO AUDIO PRODUCTION
3.0 Units

MEDIA 107 teaches students the basic principles, aesthetics, and techniques required in the production of audio programs and soundtracks for video programs. Specific topics include digital recording and editing, selection and use of microphones, sound studio operation, multi-tracking, equalization, compression, mixing, editing, and synchronization with video. Industry standard software such as Pro Tools will be utilized. Hands-on practice with professional equipment is emphasized. Lecture 2 hours/Laboratory 4 hours. 

Prerequisite: None. 

Course Typically Offered: Fall/Spring. Transfer Credit: CSU. (C-ID FTVE 120)
110 AESTHETICS OF CINEMA
3.0 Units
MEDIA 110 is the study of the aesthetics and creation of cinematic art. Emphasis is placed on aesthetic concepts as well as the techniques and practices employed to achieve the aesthetic goals of the filmmaker. Specific topics include narrative, visual design, cinematography, editing, sound design, genre, and authorship. The course surveys a wide variety of films, filmmakers, and film movements to explore the diverse possibilities presented by the cinematic art form. Lectures, discussions and readings are supplemented by the screening of representative films. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Spring. Transfer Credit: CSU. (C-ID FTVE 105)

111 INTERACTIVE MULTIMEDIA I
3.0 Units
MEDIA 111 introduces students to the aesthetics and techniques employed in the creation of interactive multimedia programs. Topics presented in the course include: project planning, interactive design principles, digital video and audio, computer animation, graphics, and cross-platform distribution. Students create projects using industry standard software such as Macro-media Director. Note: This course may not be taken for credit by students who have completed CS/IS 111. Lecture 2 hours/Laboratory 4 hours. Recommended Preparation: CABOT 206 or equivalent. Transfer Credit: CSU.

112 MOTION PICTURE Editing
3.0 Units
MEDIA 112 is an intermediate-level media production class. Emphasis is on editing techniques and aesthetics for motion picture productions using professional applications. Topics include system set-up, footage importing, append and insert editing, dialog and multi-clip editing, media management, pace, continuity, format workflow, effects, titling and compression. Students output their projects to professional-level deliverable digital video files. Lecture 2 hours/Laboratory 4 hours. Prerequisite: MEDIA 103 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

117 MUSIC VIDEO PRODUCTION
3.0 Units
MEDIA 117 provides students with the advanced aesthetics and techniques required in the production of a music video. Students will gain experience in camera operation, sound recording, and video editing as they relate to the production of music videos. Students will write a simple script and storyboard, and organize and plan the production of a music video project, including scheduling and budgeting. Students will direct, supervise, and critique performers and crew in music video productions. Lecture 2 hours/Laboratory 4 hours. Prerequisite: MEDIA 101 or equivalent. Recommended Preparation: MEDIA 103 or 112; and eligibility for ENGL 120 or ESL 151.

120 WRITING FOR MEDIA
3.0 Units
MEDIA 120 offers an introduction to writing for film, television, radio and electronic media. The course focuses on preparing scripts in proper formats, including fundamental technical, conceptual and stylistic issues related to writing fiction and non-fiction scripts for informational and entertainment purposes in film and electronic media. The course includes a writing evaluation component as a significant part of the course requirement. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC. (C-ID FTVE 110)

202 DVD AUTHORING AND PRODUCTION
3.0 Units
MEDIA 202 is an advanced video production course which trains students in the aesthetics and techniques employed in the creation of video DVD’s. Topics include media asset collection and management, MPE-2 encoding, still and motion menu creation, interactive design, special DVD features, building and formatting the finished DVD. Students will gain proficiency with industry standard software applications. Note: This course features Apple’s DVD Studio Pro and Compressor software. Lecture 2 hours/Laboratory 4 hours. Prerequisite: MEDIA 101 or equivalent. Recommended Preparation: MEDIA 101 or MEDIA 103 or equivalent; and CABOT 206 or equivalent.

207 RADIO WEBCASTING
3.0 Units
MEDIA 207 is designed to provide a realistic working experience in internet radio production. The emphasis is on actual production of audio programs for the campus and community. Students gain experience with announcing, playlist creation, show scheduling, program automation, and other capabilities of the Media Arts Audio Studio. Students create and perform their own radio shows, streaming to the public through Glendale Community College’s web radio station KGCC. Lecture 2 hours/Laboratory 4 hours. Prerequisite: MEDIA 107 or equivalent.

213 CINEMATOGRAPHY
3.0 Units
MEDIA 213 is an intermediate-level exploration of the art and technique of cinematography. Expanding from basic concepts and practices, this course emphasizes the techniques and aesthetics employed by professional cinematographers. Specific topics include cinematic composition, lighting for cinema, digital single lens reflex (DSLR) camera and digital cinema camera operation, on-set practices and digital cinema workflow. Lectures, discussions and readings are supplemented by the screening of representative films. Lecture 2 hours/Laboratory 4 hours. Prerequisite: MEDIA 103 or equivalent. Course Typically Offered: Fall/Spring.

290 INDEPENDENT MEDIA PRODUCTION
2.0 Units
MEDIA 290 is designed to provide a realistic working experience in film and media production. The emphasis is on individual production of short films and media segments in order to build a personal portfolio or demo reel of production work. Students have regular access to professional film and media equipment and gain experience with all capabilities of the Media Arts studio. Students may also create independent media productions for the campus and community. Studio 6 hours. Prerequisite: MEDIA 112 or equivalent. Note: May be taken 3 times for credit. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.
180 ELECTRONIC HEALTH/MEDICAL RECORDS
3.0 Units
MOA 180 provides students with an introduction to the fundamental theories and practices of Health Information Management. The course includes an overview of health services organization and delivery; health data and record structure; health content and standards; and healthcare information technology functions and responsibilities. The course also includes information systems, technologies and requirements and health information privacy and security. This course is aligned with the Commission on Accreditation for Health Informatics and Information Management (CAHIIM). Lecture 2 hours/Laboratory 3 hours. Recommended Preparation: MOA 181 and Eligibility for ENGL 120, ESL 151, BUSAD 106, or equivalent. Course Typically Offered: Fall/Spring.

181 BASIC MEDICAL TERMINOLOGY
3.0 Units
MOA 181 is designed for the student interested in an office position in the health sciences as a health technician, medical receptionist, medical biller/coder, or medical secretary. A comprehensive overview of each body system's common medical terms is emphasized. In addition, anatomy, physiology, and disease processes for each are discussed. Note: This course may not be taken for credit by students who have completed MOA 182. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120, ESL 151, BUSAD 106, or equivalent and MOA 180. Course Typically Offered: Spring/Winter.

182 MEDICAL TERMINOLOGY
3.0 Units
MOA 182 is designed to familiarize those interested in the medical field with origin, correct spelling, pronunciation, meaning and current usage of common medical terms and their application to clinical records and reports. Emphasis is placed on the roots, prefixes, suffixes, and word combinations. A comprehensive overview of each body system's common medical terms is emphasized. In addition, anatomy, physiology, and disease processes for each are discussed. Lecture 2 hours/Laboratory 3 hours. Prerequisite: None. Recommended Preparation: Eligibility for ENGL 120, ESL 151, BUSAD 106, or equivalent and MOA 180. Course Typically Offered: Fall/Spring.

183 INTRODUCTION TO MEDICAL BILLING AND CODING
4.0 Units
MOA 183 is designed to introduce students with the tools necessary to complete coding, billing, insurance and reimbursement procedures in a medical setting. Students will learn to use the Current Procedural Terminology (CPT) and International Classification of Diseases (ICD) including reimbursement forms, procedures and policies. Lecture/Demonstration 4 hours. Recommended Preparation: Eligibility for ENGL 120, ESL 151, BUSAD 106, or equivalent and MOA 181 or 182. Course Typically Offered: Fall/Spring.

185 MEDICAL FRONT OFFICE PROCEDURES
3.0 Units
MOA 185 is an introduction to the medical office that concentrates on the Medical Assistant's role in the maintenance of a professional and efficient medical office, including career guidelines and professional qualifications; public relations; courteous and effective handling of patients, doctors, and coworkers; preparation and care of medical records; correspondence; financial records; insurance; and general management of a medical facility. Training is applicable in offices of physicians, medical hospitals and clinics, dental and medical/legal agencies and government-sponsored medical facilities. Lecture/Demonstration 3 hours. Recommended Preparation: MOA 181 or MOA 182, MOA 180, and Eligibility for ENGL 120, ESL 151 or CABOT 105 or equivalent. Course Typically Offered: Fall/Spring.

187 DENTAL FRONT OFFICE/DENTAL BILLING & CODING
4.0 Units
MOA 187 offers an introduction to the dental office with emphasis on maintaining a dental office, including career guidelines and professional qualifications; compliance with legal and ethical issues; public relations; courteous and effective handling of patients, dentists, and co-workers; preparation and care of dental records; correspondence; financial records; insurance; and general management of a dental facility. The course is designed to familiarize students with the tools necessary to complete billing and coding procedures in a dental setting. Students will learn to use the Current Dental Terminology Reference Book CDT reference books approved by the American Dental Association (ADA) and will be given hands-on experience with ADA Dental Claim Forms. Lecture 3 hours/Laboratory 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring.

METALLURGY
150 PRINCIPLES OF METALLURGY AND HEAT TREATING
3.0 Units
MTLGY 150 is the study of principles governing the selection, use, and treatment of metals and alloys in manufacturing and related technologies. Lecture 3 hours. Prerequisite: None.

MUSIC
101 MUSIC FUNDAMENTALS
3.0 Units
MUSIC 101 is an introductory course designed to provide students with a basic knowledge of the fundamentals of tonal music and music notation. It incorporates the concepts of pitch, rhythm and meter, intervals, diatonic scales, Major and minor keys, triads and inversions, and beginning harmonic analysis. Students learn to notate these elements in bass and treble clefs, and to relate these elements to the piano keyboard. Development of skill in handwritten notation is expected. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC. (C-ID MUS 110)
MUSIC 103 is designed for students who have a basic knowledge of music and music notation. Students review bass and treble clefs, notes and note values, meter signatures and key signatures; identify notes of a piano keyboard; and develop a basic understanding of melody, harmony, and rhythm. In addition, students learn basic piano technique and begin the study of harmony in the context of the piano keyboard. These concepts are used in the analysis and performance of musical exercises and literature. This course prepares students for advanced harmony and musicianship classes. Note: MUSIC 103 is designed for students who have a basic knowledge of music. Students should be able to read musical notation and understand concepts of melody, harmony, and rhythm. Lecture 1.5 hours/Laboratory 1.5 hours. Recommended Preparation: MUSIC 160. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

MUSIC 113 is designed for students who have basic keyboard skills. Students learn transposition, harmonization of melodies, and to work with harmonic progressions in the context of the piano keyboard. In addition, students continue the study of piano technique and literature. These concepts are used in the analysis and performance of musical exercises and literature. This course prepares students for advanced harmony and musicianship classes. Lecture 1.5 hours/Laboratory 1.5 hours. Recommended Preparation: MUSIC 103 or equivalent. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

MUSIC 120 traces the evolution of music over the past 1500 years, with a special emphasis on understanding how to listen for greater enjoyment. Students learn the basic elements of music, such as form and structure, families and subgroups of musical instruments, as well as learning about specific composers and works. Note: This course may not be taken for credit by students who have completed MUSIC 125 or 126. This course is designed especially for non-music majors. Music majors should enroll in MUSIC 125 and 126. The student is required to attend five (5) classical concerts and submit concert reports. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC.

MUSIC 121 is a course in the evolution of popular music in the United States since World War II. Students first study the musical influences which led to the rise of rock and roll in the mid-1950. They then follow the development of the various musical styles which are collectively referred to as rock music. Emerging musical innovations are viewed as reflections of changes within our society. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

MUSIC 122 traces the evolution of jazz music from its earliest influences in the nineteenth century to current styles. Special emphasis is placed on understanding how to listen for greater enjoyment. Students learn basic elements of music, such as meter, form, and structure, and how the elements of music are used in jazz. Students learn to distinguish the instruments used in jazz performance as well as examining the different types of jazz ensembles. Students learn about the leading practitioners of jazz and listen to the masterworks of jazz. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

MUSIC 125 covers the history of music from the early Christian era through the Baroque Period. In addition to lectures and readings, the course includes a study of live and recorded musical performances. Recognition of composers and styles is emphasized. Note: Students are required to attend six (6) concerts featuring music from the historical periods being studied, and to submit six (6) concert reports. Students are urged to take MUSIC 125 and 126 within the same academic year. Lecture 3 hours. Recommended Preparation: It is strongly recommended that students entering MUSIC 126 be able to read music well enough to identify key signatures and transpositions, and be able to follow a musical score. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

MUSIC 126 begins with the mid-18th century and continues with musical history through the present day. In addition to lectures and readings, the course includes a study of live and recorded musical performances. Recognition of composers and styles is emphasized. Note: Students are required to attend six (6) concerts featuring music from the historical periods being studied, and to submit six (6) concert reports. Students are urged to take MUSIC 125 and 126 within the same academic year. Lecture 3 hours. Recommended Preparation: It is strongly recommended that students entering MUSIC 126 be able to read music well enough to identify key signatures and transpositions, and be able to follow a musical score. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

MUSIC 127 is designed to provide non-majors with a broader understanding of the multicultural world community. Students are introduced to non-western music as it occurs in Africa, the Middle East and Asia. Musical expression is viewed as an outgrowth of diverse cultural needs. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

MUSIC 135 stresses the principles of correct vocal production and their application to songs and ballads in English. Emphasis is placed on the following: proper breathing habits, the relationship between breathing and tone making, vocal health, resonance, registration, poise, posture, and song presentation. The development of an appreciation for the vocal arts is an important aspect of the course. Lecture 1.5 hours/Laboratory 1.5 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.
136

VOICE TRAINING II
2.0 Units

MUSIC 136 is a continuing focus upon the principles of correct vocal production and their application to songs and ballads in English. Foreign art songs are introduced; more difficult exercises both musically and vocally are stressed. Further emphasis is placed on legato singing, diction, resonance, interpretation, and expression. The development of an appreciation for the vocal arts is of continuing importance. Lecture 1.5 hours/Laboratory 1.5 hours. Prerequisite: MUSIC 135 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

137

VOICE TRAINING III
1.0 Unit

MUSIC 137 is a continuation and broadening of the principles of vocal production and proper use of the breath in singing as outlined in MUSIC 135 and 136. More difficult literature is explored, including contemporary and world music and songs in foreign languages. Further emphasis is placed on integrating vocal technique into the performance and mastering the shaping of the musical phrase through legato singing. Laboratory 3 hours. Prerequisite: MUSIC 136 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

140

APPLIED MUSIC
0.5 Units

MUSIC 140 is a course in individual and ensemble performance. Students receive eight hours of private instruction on a solo instrument or voice. Emphasis is on solo performance through individual instruction, recital performance through participation in a recital class, and ensemble performance through participation in a performing ensemble. Note: Students must remain in good standing in their corequisite: performing ensemble as defined in the ensemble's course overview. Laboratory 1.5. Prerequisite: The student must demonstrate a basic proficiency on an instrument or voice. This will be determined by individual audition. Corequisite: Concurrent enrollment MUSIC 143, 144, 145, 146, 147, 148, 231, 232, 233, 235, 236, 237, 240, 241, or 242. Note: May be taken 4 times for credit. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID MUS 160)

143

JAZZ BAND
1.0 Unit

MUSIC 143 is a class for students who wish to learn the techniques used in performing jazz and big band literature. Emphasis is placed on developing music reading skills and gaining additional familiarity with improvisational techniques. Students perform with other instrumentalists or with singers. Selected works by contemporary composers are rehearsed and performed. Note: This class may be taken 4 times for credit. Prerequisite: The ability to perform in a proficient manner on the trumpet, trombone, saxophone, drums, string bass, guitar, or piano. An audition is required. Laboratory 3 hours. Prerequisite: The ability to perform in a proficient manner upon the trumpet, trombone, saxophone, drums, string bass, guitar, or piano. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID MUS 180)

144

WOODWIND ENSEMBLE
0.5 to 1.0 Units

MUSIC 144 is a small instrumental group which plays for college and community activities. Emphasis is on balance, dynamics, phrasing, and interpretation. Note: Audition is required. Please contact the instructor at extension 5829 prior to the first class meeting. Studio 3 hours. Prerequisite: Ability to play a musical instrument in a band, orchestra, or chamber music ensemble. Note: May be taken 4 times for credit. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

145

BRASS ENSEMBLE
0.5 to 1.0 Units

MUSIC 145 is a small instrumental group which plays for college and community activities. Emphasis is on balance, dynamics, phrasing, and interpretation. Note: Audition is required. Please contact the instructor at extension 5829 prior to the first class meeting. Studio 3 hours. Prerequisite: Ability to play a musical instrument in a band or orchestra. Note: May be taken 4 times for credit. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

146

COMMUNITY ORCHESTRA:
LITERATURE 1725-1850
1.0 Unit

MUSIC 146 is a class for students who want to learn and perform the standard orchestral repertoire from the Baroque era through the Romantic period. Literature includes overtures, symphonies, and suites. Emphasis is placed on interpretation and style. Note: An audition is required. Concert dress is required. Students must provide an appropriate instrument. Laboratory 3 hours. Prerequisite: The ability to perform on a standard orchestral instrument is required. Note: May be taken 4 times for credit. Transfer Credit: CSU, UC, USC. (C-ID MUS 180)

147

COMMUNITY ORCHESTRA:
LITERATURE 1825-1950
1.0 Unit

MUSIC 147 is a class for students who want to learn and perform the standard orchestral repertoire from the Romantic period through the present. Concerto literature and programmatic music are featured. Emphasis is placed on interpretation and style. Note: An audition is required. Concert dress is required. Students must provide an appropriate instrument. Laboratory 3 hours. Prerequisite: The ability to perform on a standard orchestral instrument is required. Note: May be taken 4 times for credit. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

148

CHAMBER MUSIC
0.5 to 1.0 Units

MUSIC 148 is a class for students who want to learn and perform performance standard chamber music repertoire from the Baroque era through the present. Ensembles from duos to quintets explore literature from various periods and for various instrumentation. Emphasis is placed on interpretation and style. Note: Audition is required. Please contact the instructor at extension 5829 prior to the first class meeting. Students must provide an appropriate instrument. Studio 3 hours. Prerequisite: The ability to perform on a standard string, wind, or keyboard instrument is required. Note: May be taken 4 times for credit. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.
150  
BEGINNING GUITAR  
2.0 Units  
MUSIC 150 is an introductory course in playing the guitar. Students learn basic playing technique, tuning, chords, and scales. An emphasis is placed on reading and performance of music in the open position. Repertoire is drawn from a diverse set of styles including but not limited to classical, folk, blues, rock, and jazz. No previous musical training or experience on the guitar is required. **Note:** This class requires the student to have a full-size guitar in playable condition. Lecture 1.5 hours/Laboratory 1.5 hours. **Prerequisite:** None. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC.

152  
STRING ENSEMBLE  
1.0 Unit  
MUSIC 152 is a small string instrumental group that participates in college and community ensembles and activities. Emphasis is on balance, dynamics, phrasing, interpretation, and the ability to play well in an ensemble. **Note:** An audition is required. Concert dress may be required. Students must supply appropriate instrument. Laboratory 3 hours. **Prerequisite:** The ability to perform a musical instrument in a band, orchestra, or chamber music ensemble is required. **Note:** May be taken 4 times for credit. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC.

153  
CONTEMPORARY GUITAR I  
2.0 Units  
MUSIC 153 is a course in guitar playing in a variety of contemporary styles. Students learn contemporary guitar techniques, triads, movable chords, major scales, and minor scales. Emphasis is placed on reading of music in the lower positions of the guitar in several keys. Repertoire is drawn from a variety of contemporary guitar styles including but not limited to country, rock, blues, and jazz. **Note:** This class requires the student to have a full-size guitar in playable condition. Lecture 1.5 hours/Laboratory 1.5 hours. **Recommended Preparation:** MUSIC 150 or equivalent. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC.

154  
CONTEMPORARY GUITAR II  
2.0 Units  
MUSIC 154 continues the study of guitar playing in a variety of contemporary styles. Students continue to develop contemporary guitar techniques, triads, extended chords, movable chords, major scales, and minor scales. Emphasis is placed on extending reading beyond the open position in multiple keys. Repertoire is drawn from a variety of contemporary guitar styles including but not limited to country, rock, blues, and jazz. **Note:** This class requires the student to have a full-size guitar in playable condition. Lecture 1.5 hours/Laboratory 1.5 hours. **Prerequisite:** MUSIC 153 or equivalent. **Course Typically Offered:** Fall. **Transfer Credit:** CSU, UC, USC.

155  
CONTEMPORARY GUITAR III  
1.0 Unit  
MUSIC 155 continues the study of guitar playing in a variety of contemporary styles. Students continue to develop contemporary guitar techniques at intermediate and advanced levels. Emphasis is placed on reading in multiple positions in all keys and reading at sight. Repertoire is drawn from a variety of contemporary guitar styles including but not limited to country, rock, blues, and jazz. **Note:** This class requires the student to have a full-size guitar in playable condition. Laboratory 3 hours. **Prerequisite:** MUSIC 154 or equivalent. **Course Typically Offered:** Fall. **Transfer Credit:** CSU, UC, USC.

156  
CLASSICAL GUITAR I  
2.0 Units  
MUSIC 156 is for students who wish to learn the elementary techniques of classical guitar playing. Included are the studies of fundamental music reading, skills, notation for guitar, tuning, playing techniques, fingerings, key signatures and scales, and the performance of easy solo classical guitar literature in the first position. Another aspect of the course is to foster an appreciation for the classic guitar, its literature and performing artists. **Note:** This class requires the student to have a full-size guitar in playable condition. Lecture 1.5 hours/Laboratory 1.5 hours. **Recommended Preparation:** MUSIC 150 or equivalent. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC.

157  
CLASSICAL GUITAR II  
2.0 Units  
MUSIC 157 continues with the study of basic classical guitar techniques. Dynamics, ligados, and grace notes are introduced. Students are acquainted with the entire fingerboard through scales in the 2nd, 4th, 5th, 7th and 9th positions, and also through selected compositions for the guitar from the 18th and 19th centuries, and solo arrangements of familiar tunes. Chord structure is discussed and applied to the fingerboard. **Note:** This class requires the student to have a full-size guitar in playable condition. Lecture 1.5 hours/Laboratory 1.5 hours. **Prerequisite:** MUSIC 156 or equivalent. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC.

158  
CLASSICAL GUITAR III  
1.0 Unit  
MUSIC 158 proceeds with techniques and compositions of intermediate level for classical guitar. Included for study are selected pieces from the Renaissance, Baroque, Classic and Romantic eras, as well as solo arrangements of familiar tunes. Knowledge of the entire fingerboard is further enhanced by the practice of two and three octave scales. Basic skills for transcribing music written for keyboard are introduced. **Note:** This class requires the student to have a full-size guitar in playable condition. Laboratory 3 hours. **Prerequisite:** MUSIC 157 or equivalent. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC.

160  
PIANO I  
2.0 Units  
MUSIC 160 is a course in the fundamentals of piano technique. It is designed for students with no prior experience in piano playing. Special attention will be given to the rudiments of music notation and reading. Lecture 1.5 hours/Laboratory 1.5 hours. **Prerequisite:** None. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC.

161  
PIANO II  
2.0 Units  
MUSIC 161 advances the beginning pianist's fundamental skills. Emphasis will be given to beginning concepts of interpretation and tone coloring. Lecture 1.5 hours/Laboratory 1.5 hours. **Prerequisite:** MUSIC 160 or equivalent. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC.
MUSIC 162

PIANO III

1.0 Unit

MUSIC 162 covers the theory and interpretation of works from the preclassical, classical, and romantic periods, as well as modern or contemporary music. Emphasis is on development of technique, style, tone-color, dynamics, and phrasing. Laboratory 3 hours. Prerequisite: MUSIC 161 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

MUSIC 164

PIANO WORKSHOP II

1.0 Unit

MUSIC 164 is for Level Two advanced students who can benefit from individual study and supervised practice time. Piano Workshop II allows students to study solo repertoire, accompanying, ensemble playing, sight-reading, and improvisation. Laboratory 3 hours. Prerequisite: MUSIC 161 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

MUSIC 165

PIANO WORKSHOP III

1.0 Unit

MUSIC 165 is for Level Three advanced students who can benefit from individual study and supervised practice time. Piano Workshop III allows students to study solo repertoire, accompanying, ensemble playing, sight-reading, and improvisation. Laboratory 3 hours. Prerequisite: MUSIC 165 or equivalent. Transfer Credit: CSU, UC, USC.

MUSIC 166

PIANO WORKSHOP IV

1.0 Unit

MUSIC 166 is for Level Four advanced students who can benefit from individual study and supervised practice time. Piano Workshop IV allows students to study solo repertoire, accompanying, ensemble playing, sight-reading, and improvisation. Laboratory 3 hours. Prerequisite: MUSIC 165 or equivalent. Transfer Credit: CSU, UC, USC.

MUSIC 170

MUSIC THEATRE WORKSHOP

3.0 Units

MUSIC 170 is designed to provide training and experience in the art of musical theatre. Performance of a major production is the objective of the course. Students have the opportunity to participate in the rehearsals and the development of the performances. Course work provides experience in the techniques of stage ensemble, acting, technical stage, costuming, and makeup. Auditions are held for all roles. Note: An audition is required. Students must demonstrate the ability to match pitch, sing a harmony part, maintain steady rhythm, and produce an acceptable vocal quality. Lecture 2 hours/Laboratory 3 hours. Prerequisite: Students must demonstrate the ability to match pitch, sing a harmony part, maintain steady rhythm, and produce an acceptable vocal quality. Transfer Credit: CSU, UC, USC.

MUSIC 171

INTRODUCTION TO MUSIC BUSINESS

3.0 Units

MUSIC 171 offers musicians an introduction to the career aspects of the music industry. Jobs and roles in the music industry are examined including: songwriters, film and television composers, arrangers, publishers, producers, engineers, record companies, retail, promotion, manufacturing, distribution, agents, music law, and managers. The course examines copyright legalities, the recording industry, and entrepreneurial opportunities for musicians. Students learn about possible fields of employment and how to effectively present themselves to employers in the music industry. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Spring. Transfer Credit: CSU.

MUSIC 176

INTRODUCTION TO SONGWRITING

3.0 Units

MUSIC 176 is designed for students who would like to acquire the skills to write a popular song. Students learn how the components of lyrics, melody, and chords fit together within the structure of a popular song. In addition, students develop an awareness of the stylistic elements of different types of popular music and songs. Students are introduced to the relevant aspects of the music publishing industry, including copyright law. During the semester students write songs in different styles and learn how to make simple recordings of their songs. Lecture 3 hours. Recommended Preparation: MUSIC 101 or equivalent. Course Typically Offered: Fall.

MUSIC 177

INTRODUCTION TO MUSIC TECHNOLOGY AND SEQUENCING

3.0 Units

MUSIC 177 offers an introduction to the current applications of computers and software used in music creation, music sequencing, and music notation. A thorough understanding of current practices in music technology is essential to a musician’s success in today’s creative world. Students learn how recording, synthesis, notation, and electronic music creation were practiced before the era of desktop computers. Students learn how to use current music software to create music with an emphasis on the musical instrument digital interface (MIDI), sequencing, and synthesis. Students also learn to use notation software to create and display readable music. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

MUSIC 178

INTRODUCTION TO RECORDING AND DIGITAL AUDIO PRODUCTION

3.0 Units

MUSIC 178 offers an introduction to sound recording, acoustics, digital audio, and signal processing. Students learn audio terminology, audio hardware operation, digital audio workstation (DAW) operation, and audio engineering techniques. Hardware is studied including microphones, cables, monitors, recorders, consoles, and signal processors. Students experience hands-on use of current music production hardware and software. Students also learn about recording studio procedures, jobs in the recording industry, mixing techniques, mastering, post production, and the product manufacturing process. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

MUSIC 185

PRO TOOLS 101

1.5 Units

MUSIC 185 is an introductory course in the principles and operation of Pro Tools software. Fundamental software configuration and operation are covered all the way from project set up to session mixdowns. Students build skills through hands on Pro Tools projects that include session setup, audio recording, importing media, MIDI (musical instrument digital interface) recording, editing, navigating, mixing, and session completion. This course is the first class in the Pro Tools Operator certification program and prepares students for the Pro Tools 101 certification exam. The certification exam may be taken at the conclusion of the course. Lecture 1.5 hours. Recommended Preparation: MUSIC 178 or equivalent. Course Typically Offered: Fall/Spring.
186 PRO TOOLS 110
1.5 Units

MUSIC 186 is an intermediate course in the essential principles and operation of Pro Tools software. Intermediate software configuration, operation, and features are covered all the way from project creation to session completion. Students build skills through hands-on Pro Tools projects that include customizing setups, working with external controllers, managing session data and media, loop recording MIDI (musical instrument digital interface) and audio, using virtual instruments and Elastic Audio, working with Beat Detective and Audio Suite, and using intermediate editing, automation, and mixing techniques. This course is the second course in the Pro Tools Operator certification program and prepares students for the Pro Tools 110 certification exam. The certification exam may be taken at the conclusion of the course. Lecture 1.5 hours. Prerequisite: MUSIC 185 or equivalent. Course Typically Offered: Fall/Spring.

201 MUSICIANSHIP I
1.0 Unit

MUSIC 201 is a course designed for those who have an elementary knowledge of music and music notation. Students should be able to read bass and treble clefs, notes and notes values, time signatures and key signatures, and identify notes of a piano keyboard. Using this basic knowledge, fundamental concepts such as meter, scales and intervals are studied. These musical concepts are then applied in ear training, performing, and analysis exercises. Laboratory 3 hours. Corequisite: Concurrent enrollment in MUSIC 211 required. Transfer Credit: CSU, UC. (C-ID MUS 125)

202 MUSICIANSHIP II
(Previously MUSIC 104)
1.0 Unit

MUSIC 202 is a course designed to train the student to recognize, develop, and apply the rhythmic, melodic and harmonic materials studied in Harmony I through ear training, sight singing, dictation, and analysis. Content includes major and minor keys, simple and compound meter, and rhythm containing divisions and subdivisions. Laboratory 3 hours. Prerequisite: MUSIC 211 or equivalent. Corequisite: MUSIC 212 or equivalent Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC. (C-ID MUS 135)

203 MUSICIANSHIP III
(Previously MUSIC 105)
1.0 Unit

MUSIC 203 is a course designed to train the student to recognize, develop, and apply the rhythmic, melodic and harmonic materials studied in Harmony III through ear training, sight singing, dictation, and analysis. Content includes more advanced metrical rhythms, chromatic alterations, secondary chords and modulation to closely-related keys. Note: Students who previously successfully completed MUSIC 105 prior to Fall 2016 will not receive credit for this course. Laboratory 3 hours. Prerequisite: MUSIC 202 or equivalent. Corequisite: MUSIC 213 or equivalent. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

204 MUSICIANSHIP IV
1.0 Unit

MUSIC 204 is a course designed to train the student to recognize, develop, and apply the rhythmic, melodic and harmonic materials studied in Harmony IV through ear training, sight singing, dictation, and analysis. Content includes advanced rhythms and meters, and contemporary scales, harmonies and melodic construction. Lecture 3 hours. Prerequisite: MUSIC 203 or equivalent. Corequisite: Concurrent enrollment in MUSIC 214. Transfer Credit: CSU, UC. (C-ID MUS 155)

211 HARMONY I
(Previously MUSIC 102)
3.0 Units

MUSIC 211 is a course designed for those who have an elementary knowledge of music and music notation. Students should be able to read bass and treble clefs, notes and notes values, time signatures and key signatures, and identify notes of a piano keyboard. Using this basic knowledge, fundamental concepts such as meter, scales, intervals, chords and transposition are studied. These musical concepts are then applied in analysis and compositional exercises. Note: Students who previously successfully completed MUSIC 102 prior to Fall 2016 will not receive credit for MUSIC 211. Lecture 3 hours. Prerequisite: MUSIC 212 or equivalent. Corequisite: Concurrent enrollment in MUSIC 203 required. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC. (C-ID MUS 140)

212 HARMONY II
(Previously MUSIC 107)
3.0 Units

MUSIC 212 is a course designed to provide a working knowledge of the basics of musical composition. Emphasis is placed on voice leading, figured bass, and harmonizing melodies in diatonic harmony, including 7th chords. Students will be introduced to extended diatonic harmony through modulation, secondary chords and sequences, and to formal analysis through the study of binary and ternary forms. Students will both analyze and compose examples of the musical concepts being studied. Note: Students who previously successfully completed MUSIC 107 prior to Fall 2016 will not receive credit for MUSIC 212. Lecture 3 hours. Prerequisite: MUSIC 211 or equivalent. Corequisite: Concurrent enrollment in MUSIC 202 required. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC. (C-ID MUS 130)

213 HARMONY III
(Previously MUSIC 108)
3.0 Units

MUSIC 213 is a course designed to provide student with a deeper understand of traditional composition. Emphasis is placed on secondary chords, borrowed and mixture chords, sequences, modulation, and using these elements in figured bass realization, harmonization, and analysis. MUSIC 108 also includes an introduction to chromatic harmony. Students will conduct formal analysis of music using binary and ternary forms, and will compose examples of the music concepts being studied. Note: Students who previously successfully completed MUSIC 108 prior to Fall 2016 will not receive credit for MUSIC 213. Lecture 3 hours. Prerequisite: MUSIC 212 or equivalent. Corequisite: Concurrent enrollment in MUSIC 203 required. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC. (C-ID MUS 140)
214 HARMONY IV
3.0 Units
MUSIC 214 is a course that further explores chromatic harmony and introduces the student to 20th century compositional techniques. Emphasis is placed on Neapolitan, augmented-sixth, tall, added sixth and altered dominant chords, and modulation to distantly-related keys. Students will compose examples of the music concepts being studied. 20th compositional techniques covered in MUSIC 214 include impressionism, tone rows, pandiatonicism, polylonalism, and advanced approaches to meter and rhythm. Lecture 3 hours. Prerequisite: MUSIC 213 or equivalent. Corequisite: Concurrent enrollment in MUSIC 204 required. Transfer Credit: CSU, UC. (C-ID MUS 150)

230 CHORUS
1.0 Unit
MUSIC 230 is an intermediate course in the appreciation and performance of standard choral literature, with special emphasis on principles of part-singing, vocal control, interpretation, diction, phrasing, and breath control. Public performances are required. Note: Students must demonstrate the ability to match pitches and maintain steady rhythm. An audition is required. Laboratory 3 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID MUS 180)

231 COLLEGE CHOIR
1.0 Unit
MUSIC 231 is a beginning course in the appreciation and performance of standard choral literature, with special emphasis on principles of part-singing, vocal control, interpretation, diction, phrasing, and breath control. Public performances are required. Note: Students must demonstrate the ability to match pitches and maintain steady rhythm. An audition is required. Laboratory 3 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID MUS 180)

232 CHAMBER CHORALE: WINTER PRODUCTIONS
1.0 Unit
MUSIC 232 is a course in the appreciation and performance of choral literature designed for a chamber size ensemble of mixed voices (soprano, alto, tenor, bass). Emphasis is placed on a cappella music suitable for the winter holiday season. Public performance is required. Note: Students must demonstrate the ability to match pitches and maintain steady rhythm. An audition is required. Laboratory 3 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC. (C-ID MUS 180)

233 CHAMBER CHORALE: FESTIVAL
1.0 Unit
MUSIC 233 is a course in the appreciation and performance of choral literature designed for a chamber size ensemble of mixed voices (soprano, alto, tenor, bass). Emphasis is placed on a cappella music of the Renaissance, Romantic motets, appropriate seasonal literature and art music suitable for performance at adjudicated festivals. Public performance is required. Note: Students must demonstrate the ability to match pitches and maintain steady rhythm. An audition is required. Laboratory 3 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC. (C-ID MUS 180)

235 CONCERT SINGERS: MASTERWORKS
0.5 to 1.0 Units
MUSIC 235 is a course in the appreciation and performance of large-scale choral masterworks composed with orchestral or instrumental ensemble accompaniment. Emphasis is placed on music composed after 1600. Public performance is required. Note: Students must demonstrate the ability to match pitches and maintain steady rhythm. An audition is required. Studio 3 hours. Prerequisite: None. Note: May be taken 4 times for credit. Transfer Credit: CSU, UC, USC. (C-ID MUS 180)

236 VOCAL JAZZ ENSEMBLE: TRADITIONAL
1.0 Unit
MUSIC 236 is the study and performance of choral literature composed for small vocal ensembles in the jazz idiom. Traditional jazz and popular repertoire prior to the 1970s is emphasized and traditional seasonal music may be included. Improvisation is emphasized and microphones are used for group and individual vocal production. Note: An audition is required. Transfer Credit: CSU, UC, USC. (C-ID MUS 180)

237 VOCAL JAZZ ENSEMBLE: CONTEMPORARY
1.0 Unit
MUSIC 237 is the study and performance of choral literature composed for small vocal ensembles in the jazz idiom. Contemporary jazz and pop repertoire from the 1950s or later is emphasized. Improvisation is incorporated into performances and microphones are used for group and individual tone production. Note: An audition is required. Transfer Credit: CSU, UC, USC. (C-ID MUS 180)

240 CONCERT SINGERS: HOLIDAY CONCERT
1.0 Unit
MUSIC 240 is a course in the appreciation and performance of traditional choral literature. Students study the cultural, historic and aesthetic context of the music performed. Emphasis is placed on non-orchestral music composed for the winter holiday season. Public performance is required. Note: Students must demonstrate the ability to match pitches and maintain steady rhythm. An audition is required. Laboratory 3 hours. Prerequisite: None. Note: May be taken 4 times for credit. Transfer Credit: CSU, UC, USC. (C-ID MUS 180)
241 CONCERT SINGERS: TRADITIONAL
1.0 Unit
MUSIC 241 is a course in the appreciation and performance of traditional small-scale choral literature from the Renaissance, Baroque, Classical, and Romantic eras. Both a cappella and keyboard-accompanied literature will be studied. Emphasis is placed on music composed before the 20th century. Public performance is required. Note: Students must demonstrate the ability to match pitches and maintain steady rhythm. An audition is required. Laboratory 3 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC. (C-ID MUS 180)

242 CONCERT SINGERS: CONTEMPORARY
1.0 Unit
MUSIC 242 is a course in the appreciation and performance of contemporary choral literature. Emphasis is placed on music composed during the 20th and 21st centuries. Public performance is required. Note: Students must demonstrate the ability to match pitches and maintain steady rhythm. An audition is required. Laboratory 3 hours. Prerequisite: None. Note: May be taken 4 times for credit. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC. (C-ID MUS 180)

NURSING SCIENCE

200 NURSING PERSPECTIVES
1.5 Units
NS 200 presents an overview of current and emerging health and nursing practice issues with their historical influences. Topics provide the entry-level nursing student with an overview of regulatory scopes of practice, ethics and law, health, and health care delivery trends. The influence of commissions and agencies on standards of nursing practice, such as the Quality and Safety Education for Nurses framework (QSEN), is stressed. The student is introduced to core competencies of nursing practice including the delivery of patient-centered care, working as part of interdisciplinary teams, safety, using evidence-based practice, quality improvement, and using information technology. A methodology of contemporary library and healthcare database research is introduced and its application to nursing scholarship and practice is explored. Lecture 1.5 hours. Prerequisite: Selection for enrollment in the Registered Nursing Program. Recommended Preparation: LIB 191. Course Typically Offered: Winter/Summer. Transfer Credit: CSU.

201 NURSING SEMINAR I
1.0 Unit
NS 201 provides additional practice and reinforcement for basic nursing skills for all level one nursing students. It is designed to promote the application of medical-surgical, fundamentals, and pharmacologic classroom content to the clinical situation. The course includes discussion, demonstration, computer simulation, guided practice, and audiovisual presentations. This course is graded Pass/No Pass only. Laboratory 3 hours. Prerequisite: NS 200 and 205, or previous completion of equivalent coursework. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

202 NURSING SEMINAR II
1.5 Units
NS 202 provides an enrichment opportunity for all level two nursing students to further explore the application of medical-surgical, psychiatric, and pharmacologic classroom content to the clinical situation based on Quality and Safety Education for Nurses (QSEN). The course includes discussion, demonstration, computer simulation, guided practice, and audiovisual presentations. Note: This is an optional but highly recommended class in the Registered Nursing curriculum. This course is graded Pass/No Pass only. Lecture 1 hour/Laboratory 1.5 hours. Prerequisite: NS 211, or previous completion of equivalent coursework. Recommended Corequisite: NS 212 and 222, or previous completion of equivalent coursework. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

203 NURSING SEMINAR III
1.5 Units
NS 203 provides an enrichment opportunity for all level three nursing students to further explore the application of medical-surgical and maternal-child health classroom content to the clinical situation. Lifespan scenarios are given application emphasis. This course includes discussion, demonstration, computer simulation, guided practice, and audiovisual presentations. Note: This is an optional but strongly recommended class in the Registered Nursing curriculum. This course is graded Pass/No Pass only. Lecture 1 hour/Laboratory 1.5 hours. Prerequisite: NS 212 (Generic Nursing Program), or NS 217 (Career Ladder LVN-RN Nursing Program), or previous completion of equivalent coursework. Recommended Corequisite: NS 213 and NS 223 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

204 NURSING SEMINAR IV
1.0 Unit
NS 204 provides an enrichment opportunity for all level four nursing students to further explore the application of medical-surgical nursing and leadership classroom content to the contemporary clinical situation. The class provides an arena for the student to practice career-planning and employment-seeking strategies as well as cardiac arrhythmia detection/identification, respiratory complications, and advanced intravenous skills. This course includes discussion, demonstration, use of computer software, guided practice, audiovisual presentations, as well as high fidelity simulation. Note: An optional but highly recommended class in the Registered Nursing curriculum. This course is graded Pass/No Pass only. Lecture .5 hour/Laboratory 1.5 hours. Prerequisite: NS 213 or previous completion of equivalent coursework. Corequisite: NS 214 Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

205 ESSENTIALS OF MEDICATION ADMINISTRATION
0.5 Units
NS 205 is an introductory course which presents the basic knowledge required for safe medication administration. This course is the foundation for the subsequent pharmacology coursework and emphasizes the ability of the student to calculate correct drug dosages. The role of the nurse in pharmacologic therapy is presented, stressing individual accountability in the safe administration of medication. The way drugs work, their absorption, routes of administration, and rationale for use are thoroughly studied. Federal and state regulations that pertain to the administration of medications and regulation of controlled substances are examined. Lecture .5 hour. Prerequisite: Selection for enrollment in the Registered Nursing Program. Recommended Preparation: LIB 191. Course Typically Offered: Winter/Summer. Transfer Credit: CSU.
### 208 PHARMACOLOGY FOR NURSING

2.5 Units

NS 208 introduces the nursing student to the basic knowledge of pharmacology required to administer medications. The nursing process and unmet human needs provide a framework for the study of selected classes of medications. The role of the nurse in promoting safe and effective pharmacologic therapy is stressed. The importance of collaborative health team communication and patient education is incorporated throughout the course. Emphasis is placed on teaching the patient/family and promoting compliance in medication management. Legal and ethical issues related to medication administration are integrated throughout. Lecture 2.5 hours. 

**Prerequisite:** NS 205 or previous completion of equivalent coursework. 

**Transfer Credit:** CSU.

### 210 FUNDAMENTALS OF NURSING

3.5 Units

NS 210 introduces the core concepts, principles, and clinical skills common to all areas and levels of nursing practice. It presents the delivery of nursing care based on a Hierarchy of Human Needs (a unifying theme for conceptual framework in the Nursing Program) which impact health, quality of life, and achievement of potential. The entry-level student is introduced to the components and use of the nursing process in promoting patient-centered care. This course provides the basic platform of nursing knowledge, skills, and caring attitudes upon which subsequent nursing courses build. Clinical experiences in the ambulatory, acute and/or long-term health care settings, as well as simulated experiences in the Nursing Resource Laboratory are included. Lecture 1.5 hours/Laboratory 6 hours. 

**Prerequisite:** NS 200 and NS 205 or previous completion of equivalent coursework. 

**Corequisite:** Enrollment in NS 201 and NS 208, or previous completion of equivalent coursework. 

**Typically Offered:** Fall/Spring. 

**Transfer Credit:** CSU.

### 211 MEDICAL-SURGICAL NURSING I

3.5 Units

NS 211 introduces the student to the basic concepts involved in caring for the patient with a medical-surgical health problem. The course stresses the needs of the older adult and the process as organizing frameworks for nursing knowledge and skills. Providing patient-centered care to meet health care needs of the older adult is stressed. This course continues to emphasize access to and use of electronically obtained information related to nursing and healthcare to promote evidence-based practice. Clinical experiences that provide an opportunity for the student to apply theoretical concepts and utilize basic clinical skills as members of the healthcare team are included. Lecture 1.5 hours/Laboratory 6 hours. 

**Prerequisite:** NS 205 and 210, or previous completion of equivalent coursework. 

**Corequisite:** NS 201 and 208, or previous completion of equivalent coursework. 

**Course Typically Offered:** Fall/Spring. 

**Transfer Credit:** CSU.

### 212 MEDICAL-SURGICAL NURSING II

4.5 Units

NS 212 continues the study of the adult with unmet needs resulting from health problems. This course addresses the needs of patients across the adult life span whose health care needs require more complex nursing interventions and skills using the nursing process. The student is encouraged to build on previously acquired nursing skills, including the use of health care informatics. Clinical experiences are included which provide an opportunity for the student to apply theoretical concepts and build clinical reasoning skills as part of the healthcare team. Lecture 2 hours/Laboratory 7.5 hours. 

**Prerequisite:** NS 211, or NS 217 and 210. 

**Recommended Corequisite:** Enrollment in NS 203. 

**Course Typically Offered:** Fall/Spring. 

**Transfer Credit:** CSU.

### 213 MEDICAL-SURGICAL NURSING III

4.5 Units

NS 213 continues the study of the adult and the older adult with unmet needs resulting from increasingly complex health problems. This course addresses the needs of patients/clients whose health care needs require more advanced nursing interventions, experience, and competence. It also introduces leadership and management concepts. Physical assessment is reintroduced at a more complex level, building on previous knowledge and experiences. A portion of clinical assignments focuses on the older adult with multifaceted health care needs. Clinical experiences include acute and community-based experiences which provide an opportunity for the student to apply theoretical concepts, demonstrate critical thinking, and augment clinical skills. Lecture 2 hours/Laboratory 7.5 hours. 

**Prerequisite:** NS 212, or NS 217 and NS 218 or previous completion of equivalent coursework. 

**Recommended Corequisite:** Enrollment in NS 203. 

**Course Typically Offered:** Fall/Spring. 

**Transfer Credit:** CSU.

### 214 MEDICAL-SURGICAL NURSING IV

6.0 Units

NS 214 continues the study of the adult with unmet needs resulting from complex health problems. This course addresses the needs of patients/clients whose health care needs require complex nursing interventions and proficiency in the planning and delivery of safe, effective, and optimal care. Content includes licensure issues and leadership principles in preparation for entry into practice as a licensed registered nurse. Clinical experiences are structured in a preceptorship format to provide a greater opportunity for the student to refine teamwork and collaboration skills, apply theoretical concepts and manage multiple priorities, as well as enhance critical thinking and clinical skills. Emphasis is placed on the evaluation of electronic information available in the workplace to promote delivery of patient-centered care. Lecture 2.5 hours/Laboratory 10.5 hours. 

**Prerequisite:** Completion of NS 213. 

**Recommended Corequisite:** NS 204. 

**Course Typically Offered:** Fall/Spring. 

**Transfer Credit:** CSU.
215 NURSING PRACTICE IN CONTEMPORARY SETTINGS
2.5 Units
NS 215 provides the fourth semester nursing student with the opportunity to integrate and apply previously learned skills and knowledge from all areas of nursing practice to new, current, and/or evolving health care settings. Classroom content focuses on the forces which have influenced contemporary health care in America as well as the sociological, political, and economic/legal issues which shape the delivery of current health care and the practice of nursing. Classroom and clinical experiences assist the student to acquire additional proficiency which will assist in securing an entry level registered nurse position. Lecture 1.5 hours/Laboratory 3 hours. Prerequisite: NS 213. Corequisite: NS 214. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

216 INTERMEDIATE CLINICAL EXPERIENCE
2.0 Units
NS 216 provides the more advanced nursing student with additional supervised clinical experience in the acute care hospital setting. Clinical assignments are intended to provide the opportunity for the student to augment previously learned basic nursing skills through repetition. The rotation is further designed to encourage the development of new nursing competencies and sets of skills by exposure to new assignments and experiences. This course is graded Pass/No Pass only. Laboratory 6 hours. Prerequisite: NS 212 (Generic Nursing Program), or NS 213 and NS 217 (Career Ladder LVN-RN Program), or equivalent. Course Typically Offered: Winter/Summer. Transfer Credit: CSU.

217 ADVANCED PLACEMENT NURSING BRIDGE COURSE
1.0 Unit
NS 217 is an introduction for the advanced placement student (Licensed Vocational Nurse-Registered Nurse, Foreign Nurse Graduate, or Generic Transfer) to the concepts central to registered nursing practice. It provides clarification of the philosophy, unifying theme, and the nursing process that serve as the foundation for the registered nurse curriculum at Glendale Community College. Topics also provide an overview of regulatory scopes of practice, healthcare delivery trends, and the influence of commissions and agencies on nursing practice, such as the Quality and Safety Education for Nurses framework (QSEN). Methods and review of contemporary library and database research and their application to nursing scholarship and practice are presented. Lecture 1 hour/Laboratory 1.5 hours. Prerequisite: Selection for enrollment in the Registered Nursing Program. Recommended Preparation: LIB 191. Transfer Credit: CSU.

218 NURSING PHARMACOLOGY REVIEW AND UPDATE
1.5 Units
NS 218 encompasses a review of basic pharmacology content and dosage calculation, emphasizing pharmaceutical principles. Current changes in medication administration safety measures are stressed, including intravenous medication administration. The course establishes a current foundation for pharmacological therapy in nursing by providing a review of drug classifications while giving prominence to current changes in these classifications and representative agents. Lecture 1.5 hours. Prerequisite: Selection for enrollment in the Registered Nursing Program.

219 CLINICAL ENRICHMENT
2.0 Units
NS 219 provides the currently enrolled or returning nursing student with additional supervised clinical experience in the acute care hospital setting. Clinical assignments are intended to provide the opportunity for the student to strengthen previously learned basic nursing skills through repetition. This course fosters the knowledge and skills of the student to effectively perform patient-centered care. The rotation is designed to improve general patient care skills by offering experiences which foster confidence, critical thinking, time management and prioritizing skills, communication in the clinical setting, and collaboration/teamwork with all members of the healthcare team. Note: This course is offered only as Pass/No Pass. Laboratory 6 hours. Prerequisite: NS 210 or equivalent.
222
PSYCHIATRIC NURSING
3.5 Units

NS 222 focuses on the dynamics of patients/clients undergoing acute and chronic psychosocial stress. The nursing process, including interviewing skills, is presented within a framework of total mental health team management. Therapeutic relationship is presented as a means of expressing an attitude of caring. The causes of stress are identified from various theoretical perspectives. The student is encouraged to undertake self-exploration and develop a concept of the individual that includes the ability to adapt as a result of successful human need fulfillment. The course provides the student with knowledge and understanding of the interrelatedness of developmental, environmental, cultural, socioeconomic and ethnic factors affecting psychosocial adaptation along the health-illness continuum. Laboratory experiences in mental health settings are included. Lecture 2 hours/Laboratory 4.5 hours. Prerequisite: NS 211, (Generic Nursing Program), or NS 217, NS 218, and (Career Ladder LVN-RN Nursing Program), or previous completion of equivalent coursework.

Recommended Corequisite: Enrollment in NS 202 is highly recommended. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

223
MATERNAL CHILD HEALTH
6.0 Units

NS 223 focuses on the needs of the growing family and incorporates both maternity and pediatric nursing content. The nursing process is stressed in providing patient-centered care as the student learns to adapt previously learned skills and knowledge to the unique needs of maternity and pediatric patients. Observation and direct care of normal and high-risk populations are included. Theory and clinical experiences are structured to provide the second year nursing student with the opportunity to develop essential linkages for decision making and prioritization unique to this specialty. Lecture 3.5 hours/Laboratory 7.5 hours. Prerequisite: NS 222 or previous completion of equivalent coursework. Recommended Corequisite: Enrollment in NS 203 Course Typically Offered: Fall/Spring.

255
BASIC ELECTROCARDIOGRAPHY
2.0 Units

NS 255 is designed to provide an overview and introduce the novice healthcare provider to the basics of electrocardiography (EKG). Course content reviews principles of cardiac anatomy, physiology, and electrophysiology which are foundational to course content. Content includes cardiac hemodynamics, proper lead placement to obtain EKG waveforms, waveform identification, rate calculation, normal rhythm, and arrhythmia recognition and treatment. Note: This course is intended for nursing students, nurses, EMT students, EMTs, or individuals working in health care settings who have sufficient background knowledge to master the content and the concepts. This course is graded Pass/No Pass only. Lecture 2 hours. Prerequisite: None.

114
NUTRITION AND MENU PLANNING
(Previously CULIN 114)
3.0 Units

NUTR 114 examines nutrition guidelines for health maintenance and disease prevention and their relation to quantity food preparation and menu planning. The course emphasizes the development and marketing of healthy recipes and menus for various institutional food service operations, including restaurants, hotels, schools, and hospitals. Topics include alternative ingredients and food preparation techniques to preserve or increase the nutritive value and acceptance of foods. Lecture 3 hours. Recommended Preparation: NUTR 125 and Eligibility for ENGL 101.

118
DIETARY HEALTH CARE
(Previously CULIN 118)
3.0 Units

NUTR 118 is a study of the functions of a health care facility’s dietary department and its policies, procedures, and the management of its food service operations. Consideration is given to appropriate menus for various age groups and disease conditions, accommodation of therapeutic diet prescriptions and special needs, standards of tray service, patient satisfaction, regulatory agency guidelines, and general organizational and operational issues. Lecture 3 hours. Prerequisite: CULIN 111 and NUTR 114, or equivalent. Recommended Preparation: Eligibility for ENGL 101.

125
ELEMENTS OF NUTRITION
(Previously CULIN 125)
3.0 Units

NUTR 125 presents an overview of the many aspects of nutrition, including current dietary trends and related food and nutrition controversies, the nutritive processes of the body, the functions, utilization, food sources, and recommended allowances of nutrients. It emphasizes the USDA Dietary Guidelines for Americans, as well as the general principles of eating for optimal health and disease prevention, supported by scientific research. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC.

OCEANOGRAPHY

115
OCEANOGRAPHY
3.0 Units

OCEAN 115 is an introduction to the physical, chemical, and geological aspects of oceanography. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC.

116
OCEANOGRAPHY LABORATORY
1.0 Unit

OCEAN 116 is an introduction to the common laboratory practices and exercises on the physiochemical and geological aspects of oceanography. Laboratory 3 hours per week including 8 hours of supervised observations and data collection aboard an oceanographic research vessel. Laboratory 3 hours. Prerequisite: OCEAN 115. (OCEAN 115 may be taken concurrently.) Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

PHILOSOPHY

101
INTRODUCTION TO PHILOSOPHY
3.0 Units

PHILO 101 is an overview of the classical and modern problems of philosophy. A consideration of the nature of knowledge, views of the cosmos or world, and the problems of truth, beauty, ethics, and theology. Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID PHIL 100)
113 COMPARATIVE WORLD RELIGIONS:
NEAR EAST
3.0 Units
PHILO 113 is a comparative study of the salient ideas and philosophical developments in Zoroastrianism, Judaism, Christianity, Islam, and primitive and national religions of the past. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

114 COMPARATIVE WORLD RELIGIONS:
FAR EAST
3.0 Units
PHILO 114 is a comparative study of the salient ideas and philosophical developments in Hinduism, Buddhism, other Indian religions, Taoism, Confucianism, and Shinto. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

115 RELIGIONS OF THE WORLD
3.0 Units
PHILO 115 is a comparative study of the salient ideas and philosophical developments in Hinduism, Buddhism, Jainism, Sikhism, Taoism, Confucianism, Shinto, Zoroastrianism, Judaism, Christianity, Islam, and prehistoric and national religions of the past. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.

116 ETHICS FOR MODERN LIFE
3.0 Units
PHILO 116 is an analysis of the concept of the good, the scope of morality, the deterministic controversy, the ethical yardsticks, and the major ethical systems and their roots. Attention is given to contemporary positivism, John Dewey, Marxist ethics, authority as an ethical principle, intuitionism, egoistic hedonism, utilitarianism, ethical idealism, Immanuel Kant, modern Aristotelianism, existentialism, and recent ethical theories. The nature and scope of contemporary moral problems are also examined. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC. (C-ID PHIL 120)

117 INTRODUCTION TO LOGIC
3.0 Units
PHILO 117 is a study of the structure and function of language, inductive and deductive forms of reasoning and argumentation. The course includes the study of formal argumentation, the predicate calculus, the methods of experimental inquiry, the nature of scientific proof, and some probability theory. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Eligibility for ENGL 101. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID PHIL 110)

118 WOMEN, THE EARTH, AND THE DIVINE
3.0 Units
PHILO 118 introduces students to the relationship between social domination of women and domination of the rest of nature. The goal of this course is to help students develop skills in analyzing the impact of the world’s major religions on the lives of women in both the majority and minority cultures and on the life of the planet earth. Topics covered are the definition of values, a study in viewpoints of the major religious traditions, such as Hinduism, Buddhism, Judaism, Christianity and Islam. This course also offers a brief assessment of the consequences of such attitudes in creating and/or solving women’s as well as environmental problems in the United States. Emphasis is placed on developing judgment in the use of primary or secondary sources, and helping students discern what sources they should or should not trust. The course considers the differences among applications of deliberately selected value systems with respect to the treatment of women in the United States. In addition, it presents how the treatment of women in minority cultures affects cross cultural understanding and affects the attitudes of the majority towards minorities. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

119 HISTORY OF PHILOSOPHY:
ANCIENT PERIOD
3.0 Units
PHILO 119 is a critical study of the philosophic systems of the ancient Greeks and Romans, with special emphasis on the Pre-Socratics, Plato, Aristotle, and Roman philosophical thinkers. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC. (C-ID PHIL 130)

120 HISTORY OF PHILOSOPHY:
MODERN PERIOD
3.0 Units
PHILO 120 is a critical study of the philosophic systems and ideas of the early modern period that have had a dominant impact on Western civilization, with special emphasis on Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, and Kant. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC. (C-ID PHIL 140)

121 ISLAM: A WAY OF LIFE
3.0 Units
PHILO 121 is a study of Islam as both a religion and a culture. The study of the religion includes a consideration of beliefs and practices of the faith, and the history of the man, Muhammad, who revealed the faith. The study of the culture includes a consideration of the early successors to Muhammad, religious movements and sects, philosophy, science, and political power. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

123 INTRODUCTION TO SYMBOLIC LOGIC
3.0 Units
PHILO 123 introduces students to the calculus of propositional and predicate logic to enable students to formally evaluate arguments. Students learn to translate English arguments, use truth tables, create natural deduction derivations, use defined identity relations, acquire a precise understanding of soundness and validity, and to begin to develop a working grasp on logic meta theory. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC. (C-ID PHIL 210)
PHOTOGRAPHY

101 INTRODUCTION TO PHOTOGRAPHY
4.0 Units

PHOTO 101 is a beginning photography course in which students will be introduced to basic camera features and photo composition. The course covers consumer level digital camera and 35 mm film camera features such as the aperture, shutter, and light meter, methods to obtain proper exposures and creative control, and composition to improve image quality. Students will learn to process and print traditional black and white photos as well as digital methods of image production. Emphasis is placed on print quality and composition throughout the course. This is a foundation course required for the photography certificate. Lecture 2 hours/Studio 4 hours. Prerequisite: None. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID ARTS 260)

103 MEDIUM AND LARGE FORMAT PHOTOGRAPHY
4.0 Units

PHOTO 103 is an in-depth examination of traditional black and white films and paper. The course covers the Zone System method of pre-visualizing the image during exposure, developing, and printing processes towards reproducing the pre-visualized tones. Students are introduced to medium and large format camera operation, film, paper, chemical characteristics, and large tank processing. Students create projects using course information. Print quality and design are emphasized throughout the course. Lecture 2 hours/Studio 4 hours. Prerequisite: PHOTO 101 or equivalent. Course Typically Offered: Spring. Transfer Credit: CSU.

106 LIGHTING I
4.0 Units

PHOTO 106 is a course in which students explore the creative use of available light, studio hot lamps, and on-camera flash. The course covers principles of light, on-camera flash techniques, exposure control, and light effects on image design. Students create projects using course content. Emphasis is placed on composition and print quality throughout the course. Lecture 2 hours/Studio 4 hours. Prerequisite: PHOTO 101 or equivalent. Course Typically Offered: Fall/Spring.

107 SPECIAL PROJECTS
4.0 Units

PHOTO 107 is designed for advanced photo students to concentrate on a single project during the course. The student will explore and combine an aesthetic and expressive use of the photographic medium to complete projects with developed artists’ statements. Research and reading assignments will be made where applicable. Lecture 2 hours/Studio 2 hours. Prerequisite: PHOTO 106 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

112 LIGHTING II
4.0 Units

PHOTO 112 is a course in which students work in the lighting studio using strobes. The course covers principles of studio light, key, fill, background setups, exposure control for strobes, and portrait and still life techniques. Students create projects using course information. Print quality and design are emphasized throughout the course. Lecture 2 hours/Studio 4 hours. Prerequisite: PHOTO 106 or equivalent. Course Typically Offered: Fall.

114 VIEW CAMERA
4.0 Units

PHOTO 114 explores the 4’ x 5’ film based view camera and operations as related to outdoor and studio shooting. The course covers large format aperture and shutter features, camera movements, exposure calculations, and film processing and printing. Lecture 2 hours/Studio 4 hours. Prerequisite: PHOTO 103 or equivalent. Note: May be taken 2 times for credit.

115 PROFESSIONAL PRACTICES FOR PHOTOGRAPHERS
2.0 Units

PHOTO 115 is an advanced photography course covering principals and practices within the field for hire or exhibition. Students will construct artist resumes and artist statements related to their work. Course includes promotion, portfolio layout, releases, estimates, invoices, gallery negotiations, and image licensing issues for photographers. Students must have a developed body of photographic work that will be used for class projects. Lecture 2 hours. Prerequisite: PHOTO 106 or equivalent. Course Typically Offered: Spring. Transfer Credit: CSU.

118 DOCUMENTARY PHOTOGRAPHY
4.0 Units

PHOTO 118 is a photo course focusing on documentary approaches in photography. Students are introduced to and guided through documentary styles, project and theme development, and technical and design techniques used to communicate theme. Students create a series of related images using course information. Print quality, concept, and design are emphasized throughout the course. Lecture 2 hours/Studio 4 hours. Prerequisite: PHOTO 106 or equivalent.

121 PHOTOSHOP I
3.0 Units

PHOTO 121 introduces students to basic imaging techniques using Photoshop, an industry standard graphics software and image editor. Students will work with tools, layers, adjustments, and layer masks to create graphics, enhance images, and composite. Students create projects using course information. Lecture 2 hours/Studio 2 hours. Prerequisite: None. Course Typically Offered: Fall/Spring.

122 PHOTOSHOP II
3.0 Units

PHOTO 122 is a second level Photoshop course for students who already have a solid understanding of Photoshop basic tools and techniques. Existing Photoshop skills are built upon to create high-resolution composited images. Special effects, and advanced methods of layout, compositing, masking, and image enhancing are covered in the course. Students create projects using course information. Lecture 2 hours/Studio 2 hours. Prerequisite: PHOTO 121 or equivalent. Typically Offered: Fall/Spring.

130 DIGITAL PHOTOGRAPHY
4.0 Units

PHOTO 130 covers the use of Adobe Lightroom and Photoshop for digital photography. Students work with Adobe Lightroom features to organize and edit photos, and Photoshop features to retouch and enhance them. Retouching basics and output for photography are covered in the class. Students will work on projects using their own digital photos. Lecture 2 hours/Studio 4 hours. Prerequisite: PHOTO 101 or equivalent. Course Typically Offered: Fall/Spring.
PHOTOGRAPHY/PHYSICAL EDUCATION

132 DIGITAL PHOTOGRAPHY II
4.0 Units
PHOTO 132 provides second level instruction in digital image editing and cataloging software, like Adobe Lightroom and Photosho for digital photography. Retouching, composing and printing skills are enhanced with hands on training. Students work on projects using their own digital photos. Lecture 3 hours/Laboratory 3 hours. Prerequisite: PHOTO 130 or equivalent. Transfer Credit: CSU.

140 FINE ART PHOTOGRAPHY
4.0 Units
PHOTO 140 is a photo course focusing on fine art approaches in photography. Students are introduced to and guided through artistic styles, project and theme development, and technical and design techniques used in fine art photography. Students createsite self-motivated projects intended for exhibition within a fine art context. Print quality, concept, and design are emphasized throughout the course. Lecture 2 hours/Studio 4 hours. Prerequisite: PHOTO 106 or equivalent.

145 CONTEMPORARY PHOTOGRAPHY AND PRACTICES
2.0 Units
PHOTO 145 is a survey of techniques and practices of contemporary photographers and their relationship to past practices and movements within Photography. Current trends in photographic image making will be presented. Students will examine the crossover of fine art, documentary, commercial and editorial practices as well as the impact of digital methods in photography. Lecture 2 hours. Prerequisite: None. Course Typically Offered: Spring. Transfer Credit: CSU.

PHYSICAL EDUCATION

The Kinesiology Division/Physical Education Department offers a wide variety of activities to meet the varied interests of the Glendale College student. Two units of physical education are required in order to be eligible for the Associate in Arts and/or the Associate in Science degree. Students currently enrolled in the Registered Nursing Program are exempt from the PE graduation requirement. Individuals may be exempt from the physical education requirement upon presentation of evidence that they have a medical excuse on file.

Intercolligate athletics courses can be found under the Athletic Physical Education department (ATHPE) in the catalog. Student-athletes should refer to these courses for participation on intercollegiate athletics teams.

Health courses for the graduation requirement for Health or First Aid can be found in the Health Division. Kinesiology theory courses can be found in the Kinesiology (KIN) department. Kinesiology majors and Fitness Specialist Certificate students should consult the KIN AA-T degree model curriculum and/or the FS Certificate requirements to determine appropriate courses for the major/certificate in the Kinesiology (KIN), Physical Education (PE), Health (HTLH) departments. It is recommended that a variety of activities be taken during a student’s attendance at GCC. All classes are coeducational. There are ten families within the Physical Education/Kinesiology Division (See page 88 for more information on course families):

- Cardio Fitness (PE 101, 102, 103, 104).
- Cardiovascular fitness is a health-related component of physical movement that is brought about by sustained physical activity. These courses cover the relationship between cardiorespiratory endurance training and the changes that occur with increased aerobic or anaerobic capacity. The courses also focus on safety as it relates to physical activity.
- Cycling (PE 110, 111). The courses in this family focus on endurance, strength, intervals, high intensity (race days) and recovery type exercise. Cycling involves using a special stationary exercise bicycle with a weighted flywheel in a classroom setting. The courses also focus on safety as it relates to physical activity.
- Badminton (PE 140, 141). The Badminton Family teaches students of varied abilities basic and intermediate skills related to individual and team play of this racquet sport. The courses also focus on safety as it relates to physical activity.
- Basketball (PE 150, 151, 152). The Basketball Family teaches students of varied abilities to build aerobic endurance and total body strength while incorporating strategic plays. They also learn basic to advanced skills related to individual and team play. The courses also focus on safety as it relates to physical activity.
- Golf (PE 202-204). The Golf Family teaches students of varied abilities to learn basic to advanced skills related to this individual sport. The courses also focus on safety as it relates to physical activity.
- Martial Arts (PE 215, 217). Courses in this family focus on the codified systems and traditions of combat practices relating to self-defense, competition, physical health and fitness, entertainment, as well as mental, physical, and spiritual development. The courses also focus on safety as it relates to physical activity.
- Soccern/Football (PE 200, 201, 238, 239, 240). The Soccern/Football Family teaches students the skills related to these team sports, while incorporating strategic plays. The courses also focus on safety as it relates to physical activity.
- Tennis (PE 261-263). Courses in this family help players of varied abilities to improve their individual and team play in singles or doubles tennis. The courses also focus on safety as it relates to physical activity.
- Volleyball (PE 274-276). The Volleyball Family teaches players of varied abilities to learn basic to advanced skills related to this team sport. The courses also focus on safety as it relates to physical activity.

Adapted Physical Education (PE 130-135). These courses offer a variety of activities that offer a wide range of movement and fitness based courses designed to meet the needs of students registered with Disabled Students Programs and Services (DSPS). The courses in this area will focus on safety as it relates to physical activity and adapting physical activities to meet the needs of students with disabilities.

50 INTERNSHIP IN FITNESS TRAINING
1.0 to 3.0 Units
PE 50 is a discipline-specific course, which allows students to earn from 1.0 – 3.0 units for a structured, supervised internship either on-campus or off-campus under the supervision of a faculty advisor. It is designed to provide students with appropriate preparation and a hands-on work experience in one of the following fields: personal training or group fitness instruction. The purpose of this class is to enhance students’ knowledge, skill levels, and professional competency in their targeted career. Students must work 60 non-paid hours or 75 paid hours per unit earned. This course is recommended for the self-motivated student, and requires faculty advisor approval to register. Note: Students must arrange an approved internship prior to enrolling in this class. The student must work 60 non-paid hours or 75 paid hours per unit earned. This course may be taken 4 times; a maximum of 12 units may be earned. Laboratory 1-3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Prerequisite or Corequisite: Enrollment in appropriate discipline-specific theory or lab course at GCC.
101 WELLNESS AND FITNESS  
1.0 to 2.0 Units  
PE 101 is an open laboratory physical fitness course designed to encourage positive attitudes and habits with regard to cardiovascular efficiency, body composition, muscular strength and endurance, and flexibility. Students are assessed in these areas and an individual fitness profile is established. Fitness activities primarily utilize exercise equipment organized into an aerobic super circuit with additional activities prescribed in an aerobic machine arena. Additional activities are prescribed in an aerobic machine arena, cross training area, and flexibility area. Laboratory 3-6 hours. Prerequisite: None. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC.

102 CARDIOVASCULAR FITNESS  
1.0 to 2.0 Units  
PE 102 is an open laboratory physical fitness course designed to enhance the student’s cardiovascular fitness level. The course emphasizes the development of positive attitudes and habits with regard to cardiovascular efficiency, body composition, muscular toning, and flexibility. Students are assessed in these areas and an individual fitness profile is established. Fitness activities primarily utilize exercise equipment which is organized into an aerobic super circuit. Additional activities are prescribed in an aerobic machine arena, cross training area, and a flexibility area. Laboratory 3-6 hours. Prerequisite: None. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC.

103 WEIGHT TRAINING AND CONDITIONING - LAB  
1.0 Unit  
PE 103 is a laboratory physical fitness course designed to take the theoretical components of KIN 168 and put these components into practical use. The course emphasizes the development and maintenance of a cardiovascular, strength and flexibility program. Fitness activities primarily utilize the exercise equipment discussed in KIN 168. Additional intermediate activities are prescribed using aerobic machine and cross training exercises. Laboratory 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC.

104 INTERMEDIATE WEIGHT TRAINING AND CONDITIONING - LAB  
1.0 Unit  
PE 104 is a laboratory physical fitness course designed to take the theoretical components of KIN 168 and put these components into practical use. The course emphasizes the development and maintenance of a cardiovascular, strength and flexibility program. Fitness activities primarily utilize the exercise equipment discussed in KIN 168. Additional intermediate activities are prescribed using aerobic machine and cross training exercises. Laboratory 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC.

108 GROUP EXERCISE  
(Previously PE 164)  
1.0 Unit  
PE 108 offers various modes of moderate-vigorous aerobic exercise set to contemporary music. Course includes instruction on group exercise formats as well as basic physiology, safety protocols and programming of aerobic fitness. Note: Students who have completed PE 164 or DANCE 164 may not receive credit for this course. Laboratory 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

110 INDOOR CYCLING FOR FITNESS  
1.0 Unit  
PE 110 offers instruction in indoor cycling, a low-impact, non-weight-bearing physical activity, enhancing cardiorespiratory and muscular performance, and promoting mental and emotional well being. Various cycling routines are performed on a stationary spinning bicycle accompanied by both auditory and visual cues. Laboratory 3 hours. Prerequisite: None. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

111 INTERMEDIATE INDOOR CYCLING FOR FITNESS  
(Previously PE 121)  
1.0 Unit  
PE 111 offers instruction in indoor cycling dealing with basic cardiovascular fitness which is achieved through general cycling, fast cycling, sprints, intervals, and climbing. Cycling safety, bike fit, and heart rate training are incorporated with choreographed workouts. Note: This course may not be taken by students who have completed PE 121 prior to Spring 2016. Laboratory 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring/Winter. Transfer Credit: CSU, UC, USC.

130 ADAPTED ACTIVITIES  
1.0 Unit  
PE 130 is a diversified program of developmental activities for students with disabilities which prevent their participation in a regular physical education program. The emphasis is on the student’s remaining abilities, not their disabilities. Note: This course is primarily designed for students who meet Title 5 eligibility requirements for the Disabled Students Programs and Services (DSPS). Laboratory 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

131 ADAPTED SELF DEFENSE  
1.0 Unit  
PE 131 teaches the basics of self-defense training. Instruction includes practice in the fundamental techniques, and the philosophy of self-defense for students with disabilities. Students learn the practice of Tai Chi forms to promote body awareness, motor development and the ability to protect and defend themselves. Note: This course is primarily designed for students who meet Title 5 eligibility requirements for Disabled Students Programs and Services (DSPS). Laboratory 3 hours. Recommended Preparation: PE 134. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

132 ADAPTED AQUATICS  
1.0 Unit  
PE 132 is a diversified program of aquatics for students with disabilities which prevent their participation in a regular physical education aquatics program. The emphasis is on the student’s remaining abilities and adapting them to facilitate swimming, water aerobics, and aquatic skills proficiency. Note: This course is primarily designed for students who meet Title 5 eligibility requirements for Disabled Students Programs and Services (DSPS). Laboratory 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.
134 ADAPTED WELLNESS AND FITNESS LABORATORY
1.0 Unit

PE 134 is a laboratory physical fitness course for students with disabilities. This course is designed to develop and encourage positive attitudes and habits with regard to cardiovascular efficiency, body composition, muscular strength, endurance and flexibility. Students are assessed in these areas and a personalized fitness program is established.

Note: This course is primarily designed for students who meet Title 5 eligibility requirements for Disabled Students Programs and Services (DSPS). Laboratory 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

135 ADAPTED INDOOR CYCLING FOR FITNESS
1.0 Unit

PE 135 offers students with disabilities instruction in indoor cycling. Indoor cycling is a low-impact, non-weight-bearing physical activity, which enhances cardiorespiratory and muscular performance. The course promotes physical, as well as mental and emotional well-being. Various cycling routines are performed on a stationary spinning bicycle accompanied by both auditory and visual cues. Note: This course is primarily designed for students who meet Title 5 eligibility requirements for Disabled Student Programs and Services (DSPS). Laboratory 3 hours. Recommended Preparation: PE 134. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

140 BEGINNING BADMINTON
1.0 Unit

PE 140 provides instruction in the fundamental skills and knowledge of rules and play in the sport of badminton. Development of singles and doubles strategies, competitive participation and the use of badminton as a lifelong physical activity are emphasized. Laboratory 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

150 BEGINNING BASKETBALL
1.0 Unit

PE 150 teaches the beginning concepts of basketball as a life-time activity. Instruction includes practice in fundamental techniques, rules of basketball, development of team play, and competitive participation. Students learn fundamental warm-up and cool-down techniques, basketball fundamentals, safety, and physiological and psychological benefits of playing basketball. Laboratory 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

151 INTERMEDIATE BASKETBALL
1.0 Unit

PE 151 teaches the intermediate concepts of basketball as a life-time activity. Instruction includes a review of the fundamental techniques, rules of basketball, development of team play and competitive participation. Students also learn several offensive and defensive strategies and game planning, how to organize effective practice drills to perfect offensive and defensive player development, and the physiological and psychological benefits of playing basketball, and the psychological considerations of competition. Laboratory 3 hours. Prerequisite: PE 150 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

152 ADVANCED BASKETBALL
1.0 Unit

PE 152 teaches the advanced concepts of basketball and the application of practice and game situational strategies. Instruction includes a review of intermediate techniques, rules of basketball, development of team play and competitive participation. Students also learn several offensive and defensive strategies and game planning, how to organize effective practice drills to perfect offensive and defensive fundamentals, and the physiological and psychological considerations of basketball competition. Laboratory 3 hours. Prerequisite: PE 151 or equivalent. Transfer Credit: CSU.

180 BEGINNING RUNNING AEROBICS
(Previously PE 226)
1.0 Unit

PE 180 teaches the beginning concepts of running aerobics as a life-time activity. Instruction includes training components, heart rate zones, stride technique, and proper alignment. Students learn the fundamental warm-up and cool-down techniques, running health, safety, and physiological and psychological benefits of running. Note: This course may not be taken by students who have completed PE 226 prior to Spring 2016. Laboratory 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

181 INTERMEDIATE RUNNING AEROBICS
1.0 Unit

PE 181 offers instruction and practice in intermediate running aerobics training. This course builds upon the application of the basic training components, heart rate zones, stride technique, and proper alignment learned in PE 181. Students learn the intermediate running training techniques such as speed and hills, design their own training program, and run to compete in 5K road races. Laboratory 3 hours. Prerequisite: PE 180. Transfer Credit: CSU, UC.

182 ADVANCED RUNNING AEROBICS
1.0 Unit

PE 182 offers instruction and practice in advanced running aerobics training. The main goal is to provide the student with continued advancement in running while competing in the 10K distance road race. The course emphasizes advanced training techniques such as variable intensity and durations, interval training, and anaerobic training. Laboratory 3 hours. Prerequisite: PE 181. Note: May be taken 4 times for credit. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

200 BEGINNING FLAG FOOTBALL
1.0 Unit

PE 200 is instruction and practice in the fundamentals of flag football with a focus on the development of team play and competition. This course covers the fundamental motor skills of flag football and introduces the student to the rules of different organizations, proper etiquette, and team strategies for game play. Social skills, sportsmanship and teamwork are emphasized. Laboratory 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.
201 INTERMEDIATE FLAG FOOTBALL
1.0 Unit
PE 201 offers instruction and practice in intermediate flag football techniques and team play in a recreational environment. This course builds upon the basic skills, team play, and offensive and defensive fundamentals learned in PE 200. Rules, football etiquette, and team strategies are major components of this course. Laboratory 3 hours. Prerequisite: PE 200. Transfer Credit: CSU.

202 BEGINNING GOLF
1.0 Unit
PE 202 introduces students to the fundamentals of golf. Instruction and practice on the golf range and course include an overview of equipment, rules and etiquette, proper swinging technique and mental aspects of game play. This course is conducted at an off-campus golf facility. Note: Each student must pay a golf course facilities fee and provide their own golf clubs. Laboratory 3 hours. Prerequisite: None. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

203 INTERMEDIATE GOLF
1.0 Unit
PE 203 offers instruction and practice in intermediate golf. This course builds on the application of the fundamental knowledge and skills developed in PE 202. Students learn intermediate level golf techniques including analysis of the course, shot strategies and problem-solving skills. This course is conducted at an off-campus golf facility. Note: Each student must pay a golf course facilities fee and provide their own golf clubs. Laboratory 3 hours. Prerequisite: PE 202 or equivalent. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

204 ADVANCED GOLF
1.0 Unit
PE 204 offers instruction and practice in advanced golf. This course builds on the application of the intermediate knowledge and skills developed in PE 203. Students learn advanced level golf techniques including advanced skill development, strategies of game play, and mental preparation techniques. This course is conducted at an off-campus golf facility. Note: Each student must pay a golf course facilities fee and provide their own golf clubs. Laboratory 3 hours. Prerequisite: PE 203 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

215 SELF DEFENSE TECHNIQUES FOR WOMEN
(Previously PE 227)
1.0 Unit
PE 215 is designed to help women focus on principles and practical aspects of personal safety. The course covers methods and tactics of practical self-defense, including alternatives for situational defense strategies. It provides rigorous conditioning and develops skills in perception, analysis, escape, compromise, avoidance, blocking, throwing, and striking. Note: Students who have successfully completed PE 227 may not receive credit for this course. Laboratory 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

217 INTRODUCTION TO BRAZILIAN JIU-JITSU
1.0 Unit
PE 217 instructs students in the basics of the martial art of Brazilian Jiu-Jitsu. Instruction focuses on no-gi, ground-based techniques including guard positions, mount positions, escapes, sweeps and submissions. Application focuses on development of fundamental techniques, conditioning and body control as well as the philosophical principles of the “gentle art” of self-defense, and maintaining a mutual respect and consideration between training partners. Laboratory 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC.

238 BEGINNING SOCCER
1.0 Unit
PE 238 teaches the beginning concepts of soccer in a recreational environment. Instruction includes basic skills of soccer: passing, receiving, trapping, dribbling, and control techniques. Students learn the fundamental history, rules, etiquette, and safe play pertaining to soccer. Laboratory 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC.

239 INTERMEDIATE SOCCER
1.0 Unit
PE 239 offers instruction and practice in intermediate soccer techniques and team concepts in a recreational environment. This course builds upon the application of basic skills, team play, and offensive and defensive fundamentals learned in PE 238. Rules, soccer etiquette, and team strategies are major components of this course. Laboratory 3 hours. Prerequisite: PE 238 or equivalent. Transfer Credit: CSU, UC, USC.

240 ADVANCED SOCCER
1.0 Unit
PE 240 teaches advanced concepts of soccer in a recreational environment. The main goal is to provide the student with continued advancement in soccer while incorporating a better understanding of teamwork and communication. The course emphasizes principles relating to advanced individual skills, theory, tactics, rules, and strategy. Team competition is a major component of the course. Laboratory 3 hours. Prerequisite: PE 239 or equivalent. Transfer Credit: CSU.

261 BEGINNING TENNIS
1.0 Unit
PE 261 covers the beginning concepts of tennis. Emphasis is placed on fundamental skills including rules, terminology, and court etiquette. Instruction is given in the basic strokes: forehand, backhand, volley, and serve. Laboratory 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

262 INTERMEDIATE TENNIS
1.0 Unit
PE 262 builds on fundamental knowledge of tennis rules, etiquette, basic skills, strokes, footwork, scoring and strategy. Emphasis is on intermediate skills development including: shot placement in game situations, the lob and overhead smash, and the use of spins in fundamental strokes. Laboratory 3 hours. Prerequisite: PE 261 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

263 ADVANCED TENNIS
1.0 Unit
PE 263 offers instruction and practice in advanced tennis techniques, strategy, conditioning, and preparation for tournament play. The emphasis is on providing the student with several advanced techniques to utilize during match and tournament play. The course offers students the opportunity to improve their level of play through various advanced drills and techniques that build on fundamental and intermediate skills. Laboratory 3 hours. Prerequisite: PE 262 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.
PE 274 teaches the beginning concepts of volleyball in a recreational environment. Instruction includes six basic skills of volleyball: passing, setting, hitting, serving, blocking and individual defense. Students learn the fundamental history, rules, etiquette, and safe play pertaining to volleyball. Laboratory 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.

**PHYSICAL SCIENCE**

**131 GENERAL PHYSICAL SCIENCE**

4.0 Units

PHSCI 131 is designed to give a cultural appreciation of the scientific method and an elementary working knowledge of the fields studied. Emphasis is placed on the scientific theories. The course is an integrated survey of physics and chemistry with applications from planetary and space sciences. Elementary mathematical concepts are introduced as required. Lecture 4 hours/Laboratory 2 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC.

**50 PHYSICS INTERNSHIP**

1.0 to 3.0 Units

PHY 50 is a discipline-specific course, which allows students to earn from 1.0 - 3.0 units for a structured, supervised internship either on-campus or off-campus under the supervision of a faculty advisor. It is designed to provide students with appropriate preparation and a hands-on work experience in one of the following fields: experimental design and/or construction, theoretical research and data visualization in modern physics, science teaching, other related subject areas. The purpose of this class is to enhance students' knowledge, skill levels, and professional competency in their targeted career. This course is recommended for the self-motivated student, and requires faculty advisor approval to register. Laboratory 3-9 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Prerequisite or Corequisite: Enrollment in appropriate discipline-specific theory or lab course at GCC. Transfer Credit: CSU.

**101 ENGINEERING PHYSICS**

5.0 Units

PHY 101 involves the study of mechanics and properties of matter. The course is an intensive study of motion, dynamics and statics, oscillations, wave motion, and sound with emphasis upon vector analytical methods. The Macintosh computer and spreadsheets are used extensively. Lecture 4 hours/Laboratory 3 hours. Prerequisite: PHY 105 or physics taken in high school with a grade of "C" or better and MATH 103. (MATH 104 must be taken concurrently with or prior to taking PHY 101.) Transfer Credit: CSU, UC, USC. (C-ID: PHYS 205)

**102 ENGINEERING PHYSICS**

4.0 Units

PHY 102 is a study of static electricity including Gauss’ Law, potentials and electric fields, direct and alternating current theory, laws of magnetism and magnetic properties of matter, electromagnetism and induced currents, Maxwell’s equations and radiation theory. Lecture 3 hours/Laboratory 3 hours. Prerequisite: PHY 101 or equivalent and MATH 104 or equivalent. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC. (C-ID: PHYS 210)

**103 ENGINEERING PHYSICS**

5.0 Units

PHY 103 covers heat, thermodynamics, optics, and modern physics and involves an intensive study of the concepts of fluids, temperature, heat, calorimetry, heat transfer, thermodynamics, entropy, and kinetic theory. The course focuses on a thorough presentation of geometrical and physical optics with considerable emphasis on modern physics including quantum physics, wave mechanics, and special relativity. Lecture 4 hours/Laboratory 3 hours. Prerequisite: PHY 101 or equivalent and MATH 104 or equivalent. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC. (C-ID: PHYS 215)

**105 GENERAL PHYSICS**

4.0 Units

PHY 105 is a general course that focuses on properties of matter, mechanics, heat, wave motion, and sound. It includes lectures, demonstrations, problems, and laboratory work. Note: Required of pre-dental and pre-medical students. Lecture 3 hours/Laboratory 3 hours. Prerequisite: MATH 102 or 110. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID: PHYS 105)
101 INTRODUCTION TO GOVERNMENT
3.0 Units
POL S 101 is an introduction to the principles, institutions, policies, and politics of government in the United States and California. Note: Starting Spring 2014, POL S 101 allows only one unit of credit for students who have completed POL S 105 or SOC S 132, and allows two units of credit for students who have completed POL S 106. POL S 101 satisfies both the CSU and GCC American Institutions and State and Local Government graduation requirements. Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID POLS 110)

102 MODERN COMPARATIVE GOVERNMENTS
3.0 Units
POL S 102 is a comparative study of the constitutional principles, governmental institutions, political parties, and recent history of policy and action of selected foreign governments. Lecture 3 hours. Prerequisite: POL S 101 or 103. Course Typically Offered: Winter/Spring. Transfer Credit: CSU, UC, USC. (C-ID POLS 130)

103 INTRODUCTION TO WORLD POLITICS
3.0 Units
POL S 103 develops an intellectual framework which will order students’ thoughts on world politics and enable them to analyze and evaluate various actors, institutions, interactions, and processes as they relate to international power and the pursuit of peace. Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC. (C-ID POLS 140)

104 INTRODUCTION TO POLITICAL THEORY
3.0 Units
POL S 104 is an introduction to the history of political theory. Students are introduced to debates over the nature of justice, the meanings of equality and freedom as well as their implications for the state and state policies, the meaning of democracy, the conditions under which revolution may or may not be justified and other major topics. Lecture 3 hours. Prerequisite: POL S 101 or equivalent. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID POLS 120)

106 AMERICAN STATE AND LOCAL GOVERNMENT
1.0 Unit
POL S 106 is a study of the origins, structures, and functions of California government and politics with emphasis on the state level, but including the city, county, and district levels. Note: POL S 101 starting Spring 2014. Lecture 1 hour. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

108 POLITICS AND PRACTICE OF THE UNITED NATIONS
3.0 Units
POL S 108 is designed to introduce students to international organizations through the study of the origin, structure and function of the United Nations. The course includes discussion of pressing international problems, established international law, and the protocol and procedure of diplomacy. Students learn the applied skills used by actual diplomats that represent their countries at the United Nations through class simulations and at a Model United Nations conference. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

POLITICAL SCIENCE

50 POLITICAL SCIENCE INTERNSHIP
1.0 to 3.0 Units
POL S 50 is a discipline-specific course, which allows students to earn from 1.0 – 3.0 units for a structured, supervised internship either on-campus or off-campus under the supervision of a faculty advisor. It is designed to provide students with appropriate preparation and a hands-on work experience in one of the following fields: research, education, non-profit or community based organizations, governmental office and political campaign organization. The purpose of this class is to enhance students’ knowledge, skill levels, and professional competency in their targeted career. This course is recommended for the self-motivated student and requires faculty advisor approval to register. Laboratory 3-9 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Prerequisite or Corequisite: Enrollment in appropriate discipline-specific theory or lab course at GCC. Transfer Credit: CSU.
110H
CONTemporary World Problems
3.0 Units
POL S 110H examines controversial issues in world politics—from regional conflicts, international economic relations, arms and disarmament, human rights and foreign policy, to environmental considerations. The course places greater responsibility on the students to gather, analyze, and present information accurately and persuasively using formats such as seminar-style discussion, debate, a research paper consisting of original research, and class presentations. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101 or equivalent. Recommended Preparation: LIB 191. Transfer Credit: CSU, UC.

111
The Modern Middle East: Its Political and Economic Impact
3.0 Units
POL S 111 is a survey of the historical background and current politics of the Middle East. Topics covered include: introduction to the land, peoples, cultures, and religions; overview of the modern history of the region, with an emphasis on the Eastern Question; emergence of the modern nation-states following World War I; internal developments in major countries up to the present; Westernization and Islamic resurgence; regional conflicts and international connections; the economic and political impact of oil; European and Russian involvement; Middle Eastern lobbies in the United States and U.S. foreign policy toward the Middle East. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Prerequisite or Corequisite: Enrollment in appropriate discipline-specific theory or lab course at GCC. Transfer Credit: CSU.

112
Model United Nations Laboratory
1.5 Units
POL S 112 introduces students to a selected group of international issues for which students will seek solutions through research and participation in simulations. The course will consist of instruction and direction for intercollegiate Model United Nations Conferences and Competitions which incorporate international current event debates, parliamentary debate and conflict resolution exercises. Note: This class may be taken four times; a maximum of six units may be earned. Lecture 1 hour/Laboratory 1.5 hours. Prerequisite: POL S 108. Course Typically Offered: Spring. Transfer Credit: CSU.

50
Psychology Internship
1.0 to 3.0 Units
PSYCH 50 is a discipline-specific course, which allows students to earn from 1.0 – 3.0 units for a structured, supervised internship either on-campus or off-campus under the supervision of a faculty advisor. It is designed to provide students with appropriate preparation and a hands-on work experience in a field associated with one or more of the following: mental health, psychological research, cognition, emotion, or behavior. The purpose of this class is to enhance students’ knowledge, skill levels, and professional competency in their targeted career. This course is recommended for the self-motivated student, and requires faculty advisor approval to register. Laboratory 3-9 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Prerequisite or Corequisite: Enrollment in appropriate discipline-specific theory or lab course at GCC. Transfer Credit: CSU.

101
General Psychology
3.0 Units
PSYCH 101 is the scientific study of human behavior and mental processes. The content focuses on the exploration of major psychological theories, concepts, methods, and research findings. Topics include the biological bases of behavior, perception, cognition, consciousness, learning, memory, emotion, motivation, development, personality, social psychology, psychological disorders, approaches to psychotherapy, and applied psychology. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID PSY 110)

101H
Honors General Psychology
3.0 Units
PSYCH 101H is the scientific study of human behavior and mental processes. The content focuses on the exploration of major psychological theories, concepts, methods, and research findings. Topics include the biological bases of behavior, perception, cognition, consciousness, learning, memory, emotion, motivation, development, personality, social psychology, psychological disorders, approaches to psychotherapy, and applied psychology. The honors course is enhanced in one or more of the following ways: 1. Students have an increased responsibility for leading class discussions and critical thinking exercises. 2. Homework assignments are focused on critical thinking and the analysis of important topics related to psychology. Note: Sophomore standing preferred. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC. (C-ID PSY 110)

103
Physiological Psychology
3.0 Units
PSYCH 103 provides an introduction to the scientific study of the biological bases of behavior and its fundamental role in the neurosciences. Physiological, hormonal, and neurochemical mechanisms, and brain-behavior relationships underlying the psychological phenomena of sensation, perception, regulatory processes, emotion, learning, memory, and psychological disorders are addressed. The course also includes historical scientific contributions and current research principles for studying brain-behavior relationships and mental processes. Ethical standards for human and animal research are discussed in the context of experimental research. Lecture 3 hours. Prerequisite: PSYCH 101. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID PSY 150)

104
Social Psychology
3.0 Units
PSYCH 104 considers individual human behavior in relation to the social environment. The power of the situation, other individuals, and the social group are examined. Emphasized topics include: aggression, prejudice and stereotypes, interpersonal attraction, attitudes and attitude change, conformity, group phenomena, gender roles, cultural norms, person perception, and social cognition. Lecture 3 hours. Prerequisite: PSYCH 101. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID PSY 170)
105

**PSYCHOLOGY OF HUMAN SEXUALITY**  
3.0 Units

PSYCH 105 is an introductory overview of the field of human sexuality. Human sexuality is examined from psychological, biological, sociocultural, and historical perspectives. Students are encouraged to become aware of their own sexual attitudes, values, and behaviors and to evaluate the consistency of their behaviors within their own moral frameworks. Current sex norms and various aspects of interpersonal and individual sexual adjustment are explored. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

106

**DEVELOPMENTAL PSYCHOLOGY**  
3.0 Units

PSYCH 106 provides an overview, from a psychological perspective, of human development from conception through death, including biological and environmental influences. Theories and research in physical, cognitive, personality, and social development are examined, as well as attention to developmental problems. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID PSY 180)

110

**THE PSYCHOLOGY OF PERSONAL AND SOCIAL ADJUSTMENT**  
3.0 Units

PSYCH 110 has an applied focus for students interested in how psychology is used in everyday life and is related to other social sciences. The course surveys different psychological perspectives and theoretical foundations and how these are applied across a person’s life, taking into account the influence of factors such as culture, gender, ethnicity, historical cohort, and socioeconomic status. A broad understanding of how scientists, clinicians, and practitioners study and apply psychology is emphasized. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall. Transfer Credit: CSU. (C-ID PSY 115)

111

**WOMEN: MIND AND BODY**  
3.0 Units

PSYCH 111 is an investigation into traditional and nontraditional medical model health delivery systems, with special emphasis on women and their bodies. Major topics covered are women as research subjects, cross-cultural perspectives on the use of health care, and current research findings on menstruation, pregnancy, menopause, sexually transmitted diseases, HIV, cancer, and cardiovascular diseases. Psychological concepts of fitness, nutritional awareness, belief systems and emotional management, and stress reduction are addressed. Note: No credit will be given if Health 104 or Health 106 have been completed. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

113

**PSYCHOLOGY OF WOMEN**  
3.0 Units

PSYCH 113 is a study of the psychological factors which contribute to the present emotional, sexual and economic status of the American woman. This study is designed to help the student better understand the experiences of women through the examination of family structure, social structure, female sexuality and self-esteem. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.

115

**ABNORMAL PSYCHOLOGY**  
3.0 Units

PSYCH 115 introduces the scientific study of psychopathology and atypical behaviors, broadly defined. Students investigate abnormal behavior from a variety of perspectives including biological, psychological, and sociocultural approaches. An integrative survey of theory and research in abnormal behavior, and intervention and prevention strategies for psychological disorders are also introduced. Lecture 3 hours. Prerequisite: PSYCH 101. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID PSY 120)

131

**MARRIAGE AND INTIMATE RELATIONSHIPS**  
3.0 Units

PSYCH 131 studies the development of traditional and contemporary patterns of people living together with an emphasis on psychological and sociological theories and research. Topics examined include the historical development of marriage, diverse lifestyles (including single-parenting, the blended family, and gay and lesbian partnerships), partner compatibility, communication techniques, intimacy, conflict, child-rearing, dissolution of partnerships, and speculation about the future of relationships. Note: This course may not be taken for credit by students who have completed SOC 131. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

150

**EDUCATIONAL PSYCHOLOGY**  
3.0 Units

PSYCH 150 is designed to provide students with a fundamental understanding of the theoretical foundations of learning theories and their application in school settings. The course will focus on the evaluation of these applications as each contributed to the development of American Education. It will also provide a basis for understanding both failed and successful efforts toward remediations and reform, using psychology as a means of analysis. Lecture 3 hours. Recommended Preparation: PSYCH 101 or SOC S 101; and eligibility for ENGL 101. Course Typically Offered: Spring. Transfer Credit: CSU.

200

**RESEARCH METHODS FOR PSYCHOLOGY**  
3.5 Units

PSYCH 200 is a lecture and laboratory course focusing on the nature of theory and the principles of descriptive and inferential research. Topics covered in the course include: an analysis of the scientific method, research design, ethical principles, internal and external validity, and scientific writing. The course is built around the application of these topics in a laboratory environment. Note: This course may not be taken for credit by students who have successfully completed SOC S 200. Lecture 3 hours/Laboratory 1.5 hour. Prerequisite: MATH 136 and PSYCH 101. Transfer Credit: CSU. (C-ID PSY 200)
REAL ESTATE

101 REAL ESTATE PRINCIPLES 3.0 Units
RE 101 covers the basic laws and principles of California real estate and gives understanding, background, and terminology necessary for advanced study in specialized courses. The course is of assistance to those preparing for the real estate sales license examination. Lecture 3 hours. Prerequisite: None. Note: May be taken 3 times for credit. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU.

105 REAL ESTATE PRE-LICENSE 3.0 Units
RE 105 is a course that reviews all the material necessary to take the Department of Real Estate Salesperson's or Broker's Examination. Students learn the financial, economic, and political aspects of real estate practice in California. Regulations of the real estate business and licensing of real estate brokers and salespersons are discussed in detail. In addition, the license law, the subdivision law administered by the Real Estate Commissioner, the Regulations of the Commissioner, and extracts from other pertinent California codes, are presented. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring.

120 REAL ESTATE PRACTICE 3.0 Units
RE 120 covers the day-to-day operations from the viewpoint of the real estate salesperson. The topics covered include: listing, prospecting, advertising, financing, sales techniques, escrow, and ethics. This course applies toward the State of California's educational requirement for the salesperson's and broker's examination. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

130 REAL ESTATE ECONOMICS 3.0 Units
RE 130 is an economic history of contemporary real estate and chronicles the events and economic trends influencing real estate values (appraisal). It offers an analysis of the interrelationship between the cost and value of real estate on a local and national level. This course meets the requirements for the appraisal subject matter electives of the 2008 Appraisal Qualifications Board of the Appraisal Foundation and fulfills the statutory pre-licensing requirements of the California Department of Real Estate for salespersons and brokers. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

140 LEGAL ASPECTS OF REAL ESTATE 3.0 Units
RE 140 is a study of California real estate law, including rights incident to property ownership and management, agency, contracts, and application to real estate transfer, conveyancing, probate proceedings, trust deeds, and foreclosure, as well as recent legislation governing real estate transactions. This course applies toward education requirement of broker's examination. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

150 REAL ESTATE FINANCE 3.0 Units
RE 150 covers statistics, modeling, and finance and is accepted for all four levels of appraisal licensure, including trainee, licensed appraiser, certified residential, and certified general. This course meets the requirements of the 2008 Appraisal Qualifications Board of the Appraisal Foundation and meets the California Department of Real Estate (DRE) salesperson and broker pre-license real estate finance requirements. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

161 INCOME APPRAISAL REPORT WRITING 3.0 Units
RE 161 covers real estate appraisal, including methods of appraising such properties as apartment buildings, industrial properties, subdivisions, and rural properties. This course meets the requirements of the 2008 Appraisal Qualifications Board of the Appraisal Foundation. It covers advanced income property applications, case studies, and report writing. This course meets the license requirements for all levels of appraisal licensure. It is required for the trainee license, residential license, certified residential license, and certified general license. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Spring (Every Other Year). Transfer Credit: CSU.
163 BASIC RESIDENTIAL REAL ESTATE APPRAISAL  
3.5 Units  
RE 163 which focuses on residential appraisals, meets the requirements of the 2008 Appraisal Qualifications Board of the Appraisal Foundation and follows their outline modules. It covers the following major areas: 1) Residential Market Analysis and Highest and Best use, 2) Residential Appraiser Site Valuation and Cost Approach, and 3) Residential Sales Comparison and Income Approach. This course meets the license education requirements for all levels of appraisal licensure. It is required for the trainee license, residential license, certified residential license, and certified general license. This course qualifies with the California Department of Real Estate as a statutory/pre-license real estate course for both the salesperson and broker education requirements. In addition, this course may also qualify as the second appraisal course for broker education requirements referred to as Advanced Real Estate Appraisal. Emphasis is on residential properties, such as single-family homes, 1-4 unit apartments, condos, mobile homes, and manufactured homes. Lecture 3.5 hours. Prerequisite: None. Course Typically Offered: Fall (Every Other Year).

165 UNIFORM STANDARDS OF PROFESSIONAL APPRAISAL PRACTICE (USPAP)  
1.0 Unit  
RE 165 meets the requirements of the Appraisal Qualifications Board (AQB) of the Appraisal Foundation for state licensing and certification. This course includes the national examination as required by the AQB. Completion of this course and successful completion of the three-hour national examination (the course final examination) are required by the California Office of Real Estate Appraisers (OREA) for initial trainee licensure. Note: Students with disabilities who require special accommodations must contact the GCC Business Division before registering for information to obtain prior written approval from the AQB. Lecture 1 hour. Prerequisite: None. Course Typically Offered: Fall/Winter.

180 MORTGAGE LOAN BROKERING  
3.0 Units  
RE 180 details the requirements for granting licenses to loan on real property in California. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Winter. Transfer Credit: CSU.

190 PROPERTY MANAGEMENT  
3.0 Units  
RE 190 is a basic course in the management of income properties which analyzes specific types of properties that are managed, formulates and discusses the major problems of leasing, collections, rent schedules, tenant selection, neighborhood analysis, purchasing, evictions, preventive maintenance, depreciation, record keeping, and economics of property, and compiles a set of procedures for practical utilization in property management. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

195 COMMON INTEREST DEVELOPMENTS (HOMEOWNERS ASSOCIATIONS MANAGEMENT)  
3.0 Units  
RE 195 covers the basics of managing, purchasing and selling of common interest developments (CIDs) that are governed by homeowner associations (HOA) including condominiums. All applicable laws will be included in the course. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall (Every Other Year).

250 ESCROW I  
3.0 Units  
RE 250 is an introduction to the terminology, legal aspects, and process in the escrow function in real estate transactions. Emphasis is on the process of taking, processing, and closing of escrow. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU.

SOCIAL SCIENCE

50 SOCIAL SCIENCE INTERNSHIP  
1.0 to 3.0 Units  
SOC S 50 is a discipline-specific course, which allows students to earn from 1.0 – 3.0 units for a structured, supervised internship either on-campus or off-campus under the supervision of a faculty advisor. It is designed to provide students with appropriate preparation and a hands-on work experience in one of the following fields: Non-Pro or community work. The purpose of this class is to enhance students’ knowledge, skill levels, and professional competency in their targeted career. This course is recommended for the self-motivated student, and requires faculty advisor approval to register. Laboratory 3-9 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Prerequisite or Corequisite: Enrollment in appropriate discipline-specific theory or lab course at GCC. Transfer Credit: CSU.

101 URBAN EDUCATION IN AMERICA  
3.0 Units  
SOC S 101 is designed to provide students with a fundamental understanding of the American system of education, especially in urban multi-cultural schools. It deals with the sociology, politics and philosophy of urban education. The course covers current conditions of American schools and selected challenges of California’s diverse urban schools. The focus is on the issues facing teachers working in diverse, multi-racial, multi-ethnic urban settings and on the efforts being made to respond to the needs of urban students. Note: This course requires all students to complete a minimum of 20 hours of verified field observation in an urban school setting. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Fall/Spring. Transfer Credit: CSU.

<tbody>
<tr>
<td>110</td>
<td>AMERICAN POP CULTURE</td>
<td>3.0</td>
<td>SOC S 110 is an interdisciplinary course that examines how popular culture impacts everyday American life. Various forms of popular culture including music, film television, advertising, sports, fashion, design, toys, magazines, comic books and cyber culture are analyzed. Students assess how American popular culture reveals historical forces at work that influence the lives of people living in the United States. Via a contextualized discussion of American popular culture, this course introduces students to other academic fields such as History, Ethnic Studies, Political Science and Economics. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.</td>
</tr>
<tr>
<td>127</td>
<td>LOS ANGELES COUNTY: HISTORY, POLITICS, AND CULTURE</td>
<td>3.0</td>
<td>SOC S 127 examines one of the most culturally diverse places on Earth - Los Angeles County. The region is viewed in three contexts: its history, its portrayals in literature, and the issues it faces today. The historic underpinnings of the region are explored from the Gabrieleno people of the Spanish, Mexican, and United States eras. This course includes the stories of ethnic and racial groups, including some not often associated with the area's history. The last segment of the course examines contemporary issues, opportunities, and problems facing Los Angeles County. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC.</td>
</tr>
<tr>
<td>130</td>
<td>INTRODUCTION TO LGBTQ STUDIES</td>
<td>3.0</td>
<td>SOC S 130 is an interdisciplinary course that introduces the field of lesbian, gay, bisexual, transgender, and queer studies (LGBTQ studies). This course traces the history of LGBTQ identities, communities, organizations, and resistance movements in the United States from the colonial era to the contemporary moment, with particular emphasis since World War II. Students interrogate the political, economic, and cultural inequalities related to sexuality and gender identity as well as examine the historical emergence of LGBTQ as an academic discipline. Through an interdisciplinary lens, this course further explores the diversity of sexuality and gender in relation to the intersections of race, ethnicity, and class. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Transfer Credit: CSU. (C-ID SJS 130)</td>
</tr>
<tr>
<td>134</td>
<td>WOMEN, MEN, AND SOCIETY</td>
<td>3.0</td>
<td>SOC S 134 is a survey course which explores the experience of women and men in American society. The course uses an interdisciplinary approach to look at old and new research about women and men. The sexist assumptions of most academic disciplines requires not just that material on women be integrated into these disciplines but that material on both sexes must be studied in new ways. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.</td>
</tr>
<tr>
<td>145</td>
<td>INTRODUCTION TO COMMUNITY SERVICE LEARNING</td>
<td>2.0</td>
<td>SOC S 145 gives students a background in community service volunteerism and service learning as well as an opportunity to do community volunteer work for credit. The course emphasizes the historic traditions of volunteer service in America and other nations as well as current opportunities for lifelong service. Note: Students must complete 48 hours of volunteer service in an approved setting. Lecture 1 hour/Laboratory 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU.</td>
</tr>
<tr>
<td>146</td>
<td>COMMUNITY VOLUNTEERISM LABORATORY</td>
<td>1.0</td>
<td>SOC S 146 is designed to give students who have successfully completed the Introduction to Community Volunteerism class a chance to continue volunteer service under supervision. Students complete three lab hours of volunteer work per week as well as meet with the instructor and submit a complete journal. Note: This course may be taken 3 times, a maximum of 3 units may be earned. Laboratory 3 hours. Prerequisite: SOC S 145. Note: May be taken 3 times for credit. Transfer Credit: CSU.</td>
</tr>
<tr>
<td>200</td>
<td>RESEARCH METHODS FOR THE SOCIAL SCIENCES</td>
<td>3.5</td>
<td>SOC S 200 is a lecture and laboratory course focusing on the nature of theory and the principles of descriptive and inferential research. Topics covered in the course include: an analysis of the scientific method, research design, ethical principles, internal and external validity, and scientific writing. The course is built around the application of these topics in a laboratory environment. Note: This course may not be taken for credit by students who have successfully completed PSYCH 200. Lecture 3 hours/Laboratory 1.5 hour. Prerequisite: MATH 136 and (PSYCH 101 or SOC 101) Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC.</td>
</tr>
</tbody>
</table>
103 INTRODUCTION TO DEVIANCE AND CRIMINOLOGY
3.0 Units
SOC 103 provides a sociological analysis of crime, criminal behavior, and the criminal justice system. The course explores the history and social construction of crime and criminality and examines the definition of crime and its violations as well as the laws and methods used to control criminal behavior. Moreover, there is discussion of the measurement of crime and basic theoretical explanations of criminal behavior. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID SOCI 160)

104 SOCIOLOGY OF SEX AND GENDER
3.0 Units
SOC 104 is a survey course that provides a sociological analysis of the social construction of masculinity and femininity historically and cross-culturally. It examines the debates on sex and gender. It analyzes the impact of economic and political change on gender expectations and practices. It focuses on macro-analyses of how institutions shape gender and micro-analyses of how individuals are socialized and how they “do” and practice gender. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC. (C-ID SOCI 140)

105 INTRODUCTION TO GERONTOLOGY
3.0 Units
SOC 105 is an introduction to the study of social gerontology, aging and its implications for the individual and society utilizing a multidisciplinary approach. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC.
### SPAN 101 or equivalent.

2017–2018 Catalog: Glendale Community College

**Content**

- **SPAN 101** or equivalent. **Prerequisite:** SPAN 101 or equivalent. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC.  (C-ID SPAN 110)

### 103 INTERMEDIATE SPANISH I

5.0 Units

SPAN 103 teaches culture and facilitates language acquisition through listening, speaking, reading and writing. Content is expanded beyond “survival” needs in order to express opinions on familiar topics as well as abstract issues. Students demonstrate an increased awareness of cultural norms and values by making cross-cultural comparisons. A higher level of accuracy for high frequency structures and vocabulary is expected. Students demonstrate the ability to think critically by analyzing linguistic structures and literary works. This course is taught in Spanish. Lecture 5 hours. **Prerequisite:** SPAN 102 or equivalent. **Course Typically Offered:** Fall. **Transfer Credit:** CSU, UC, USC.  (C-ID SPAN 200)

### 104 INTERMEDIATE SPANISH II

5.0 Units

SPAN 104 continues to expand upon culture and facilitate language acquisition through listening, speaking, reading and writing. Content continues to expand in order to express more complex ideas as well as some abstract issues and plans. Students continue to demonstrate the ability to think critically by analyzing linguistic structures and demonstrate an increased awareness of cultural norms and values by reflecting on and making cross-cultural comparisons. This course is taught in Spanish. Lecture 5 hours. **Prerequisite:** SPAN 103 or SPAN 115 or equivalent. **Course Typically Offered:** Spring. **Transfer Credit:** CSU, UC, USC.  (C-ID SPAN 210)

### 115 SPANISH FOR THE SPANISH SPEAKING I

5.0 Units

SPAN 115 is designed for heritage speakers of Spanish or other linguistically qualified students. It provides instruction that builds upon the existing reading, writing, speaking and listening skills and the cultural heritage and knowledge of these students. Structure of the language, oral and written communication, fundamentals of grammar, and composition are included. The course increases awareness of linguistic registers beyond the familiar routine and develops an appreciation for Hispanic cultures as manifested in Spanish speaking countries and in the United States. This course is conducted entirely in Spanish. **Note:** Heritage and native speakers of Spanish that wish to enroll and do not meet the prerequisite may contact the Language Arts Division to have the prerequisite waived. Lecture 5 hours. **Prerequisite:** SPAN 102 or the equivalent. **Course Typically Offered:** Fall/Spring. **Transfer Credit:** CSU, UC, USC.  (C-ID SPAN 220)

### 124H HONORS ENGLISH TRANSLATIONS OF MASTERPIECES OF HISPANIC LITERATURE

3.0 Units

SPAN 124H is the study of a selected representation of major works of literature of Spain and Spanish America in English translation. Students study the various literary movements to which the works pertain along with the selected literature. Special attention is given to Nobel Prize winning authors in literature from both Spain and Spanish America. No knowledge of Spanish is necessary. The honors class is enhanced in one or more of the following ways: 1. Students write a research paper utilizing critical thinking skills and literary analysis on an approved thesis using the MLA guidelines. 2. There is an increased emphasis on critical thinking skills by increasing the value of essay answers on examinations. 3. Students attend a theatrical presentation of one of the dramas studied and/or attend literary conferences hosted by nearby 4-year institutions Lecture 3 hours. **Recommended Preparation:** Eligibility for ENGL 101. **Course Typically Offered:** Spring. **Transfer Credit:** CSU, UC, USC.

### 125 SURVEY OF SPANISH LITERATURE

3.0 Units

SPAN 125 is a lower division survey of the literature of peninsular Spain, from the medieval period to the 21st century. Reading and class lectures are entirely in Spanish and are supplemented by tapes, records, and films. Lecture 3 hours. **Prerequisite:** SPAN 104 or equivalent. **Course Typically Offered:** Every Other Year. **Transfer Credit:** CSU, UC, USC.

### 126 SURVEY OF SPANISH AMERICAN LITERATURE

3.0 Units

SPAN 126 is a lower division survey of the literature of Spanish America, from the pre-Hispanic literature of indigenous American cultures to the literature of the 21st century. Readings and lectures will be entirely in Spanish. Lecture 3 hours. **Prerequisite:** SPAN 104 or equivalent. **Course Typically Offered:** Every Other Year. **Transfer Credit:** CSU, UC, USC.

### 131 CONVERSATIONAL SPANISH

3.0 Units

SPAN 131 is a course of intensive practice in developing communicative skills in the target language. Students focus on: reinforcing the use of grammatically correct constructions; expanding their vocabulary to enable them to express their opinions; and developing their socio-cultural awareness. Lecture 3 hours. **Prerequisite:** SPAN 102 or the equivalent. **Transfer Credit:** CSU, UC, USC.

All courses are subject to change without notice. Please consult the current catalog for accurate and up-to-date information.
SPEECH COMMUNICATION

100 INTERPERSONAL COMMUNICATION 3.0 Units
SPCH 100 is an introductory course focusing on human communication between two people. Through their reading of research-based theories and principles of interpersonal communication, verbal and nonverbal communication exercises, and class discussions regarding personal identities and ethical conduct, students learn to identify and understand factors affecting interpersonal communication in personal and professional contexts. The course focuses on self-discovery and developing skills in the areas of language, listening, assertiveness, conflict management, nonverbal behaviors, group problem solving, and cross cultural communication. Students discover and identify the factors that influence communication behavior, and the establishment and maintenance of meaningful and necessary relationships. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. ESL students should complete ESL 155. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID COMM 130)

101 PUBLIC SPEAKING 3.0 Units
SPCH 101 is an introductory course focusing on public speaking – the process of learning to speak in front of a group of people in a structured, deliberate, organized manner in a variety of public speaking environments. Through their reading of research-based theories and principles of human communication, and critical analysis of public discourse, students learn to research, compose, present and evaluate various types of speeches including informative and persuasive presentations. The course focuses on developing skills in the areas of language, listening, ethics and diversity, audience analysis, evidence evaluation, presentation skills and oral communication effectiveness. Through class discussions, written assignments, verbal and nonverbal communication exercises, and oral presentations, students learn the essential elements of public speaking and how extemporaneous speeches are used in personal and professional contexts. This course satisfies speech requirements for those students who expect to transfer to colleges and universities. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID COMM 110)

103 GROUP DISCUSSION 3.0 Units
SPCH 103 is an introductory course focusing on the principles and practices of human communication in various group contexts. This course is designed to help students become familiar with the major theories and research regarding group communication. Students experience the challenge of learning how to improve their group communication skills through participation in a variety of group activities. The course focuses on self-discovery and developing skills in the areas of language, listening, leadership, conflict management, problem solving and decision making, nonverbal behaviors, and cross cultural communication in family, social and professional group settings. Knowledge gained through group discussion helps students to become more comfortable and competent participants in the group communication process. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. ESL students should complete ESL 155. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID COMM 140)

104 ARGUMENTATION AND DEBATE 3.0 Units
SPCH 104 is designed to provide students with an understanding of the factors affecting basic argumentation and debate on a day-to-day basis and to provide laboratory experiences aimed at developing skills in such areas as language, listening, assertiveness, conflict resolution, non-verbal behaviors, group problem solving, and cross cultural communication. The instructional approach is deductive-inductive-deductive, involving lecture/discussions, formal, in-class debates and critical analysis of contemporary issues. Lecture 3 hours. Prerequisite: One of the following: SPCH 101 or SPCH 103 or high school public speaking or high school debate. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID COMM 120)

105 VOICE AND DICTION 3.0 Units
SPCH 105 is designed to improve vocal quality and force, pitch flexibility, rate, articulation, and pronunciation. The student develops an understanding of the speech mechanism. Emphasis is placed on improvement through increased self-perception and practice exercises. The student acquires a basic understanding of the International Phonetic Alphabet. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. ESL students should complete ESL 155. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

106 ORAL INTERPRETATION OF LITERATURE 3.0 Units
SPCH 106 teaches the skills, techniques and theories of oral interpretation of literary works. Students learn to use verbal and nonverbal elements to communicate subtextural choices related to structural analysis of a variety of literary genres including prose, poetry and drama. Class exercises and instructor feedback are used to teach these concepts and to focus on the student’s individual strengths and weaknesses. Methods of literary selection and excerpting, along with analysis in relation to performance requirements are demonstrated. Specific skills needed to participate in collegiate forensics competitions are also taught. Note: An audition may be required. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. ESL students should complete ESL 155. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC. (C-ID COMM 170)

1998-1999
107 CAREER COMMUNICATION
3.0 Units
SPCH 107 is an introductory course focusing on effective oral communication in the workplace. Emphasis is placed on examining both theoretical and practical essentials of effective business and professional communication – from preparation and presentation to efficacious observation and analysis. The course focuses on developing skills in the areas of language, listening, verbal and nonverbal behaviors, interviewing, informative and persuasive presentations, conflict management, group problem solving, and cross cultural communication in the workplace. SPCH 107 deals with the specific challenges associated with oral communication in a career setting. The course is designed for students of all majors—not only those seeking a career in business. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. ESL students should complete ESL 155. Transfer Credit: CSU.

108 INTERCULTURAL COMMUNICATION
3.0 Units
SPCH 108 is an introductory course focusing on the principles and practices of intercultural communication. This course is designed to help students become familiar with the major theories and research of intercultural communication in domestic and global contexts. Students examine culturally coded communication behaviors to identify and understand differences in communication patterns among individuals and groups from diverse ethnic and cultural backgrounds. The course provides students with an opportunity to enhance their intercultural communication knowledge and skills through practical exercises and activities. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. ESL students should complete ESL 155. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC. (C-ID COMM 150)

111 INTRODUCTION TO ORAL COMMUNICATION
3.0 Units
SPCH 111 is an introductory course focusing on oral communication. The course is specifically designed for non-native speakers of English whose oral language skills require further development, and those native English speakers whose degree of communication anxiety prevents them from communicating effectively in social, academic and/or workplace settings. Emphasis is placed on examining both theoretical and practical essentials of effective oral communication. SPCH 111 focuses on developing skills in the areas of language, listening, voice, articulation, pronunciation, verbal and nonverbal behaviors, interpersonal conversations, informative presentations, job interviews and workplace communication, conflict management, group problem solving, and cross cultural communication. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU.

115 GENDER AND COMMUNICATION
3.0 Units
SPCH 115 is an introductory course designed to analyze issues of gender and communication. Using a communication approach, the course examines theoretical and perspectives on gender construction by explaining the differences between gender, sex, and sexual orientation, and how gender, race, and class intersect with one another. Students explore the relationship between gender and communication as it relates to verbal and nonverbal communication. Students also learn to identify the perception of gendered communication from various standpoints, including those of heterosexual men and women as well as lesbian, gay, bisexual, transgender, and queer (and/or questioning) individuals/identities (LBGTQ). An emphasis is placed on improving communication skills by exploring the significance of gender in everyday communication interactions. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. ESL students should also have completed ESL 155. Transfer Credit: CSU, UC.

120 INTRODUCTION TO COMMUNICATION THEORY
3.0 Units
SPCH 120 introduces students to the process of human communication through the study of basic communication models, fundamental theories, and relevant research findings. Emphasis is placed on achieving an understanding of the various forms of human communication, and the ways in which researchers contribute to the communication field. Coursework encourages students to research, analyze and apply communication theories to everyday communication practices. SPCH 120 prepares students for upper division coursework in the communication discipline. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 101. ESL students should also have completed ESL 155. Transfer Credit: CSU, UC. (C-ID COMM 180)

160 FORENSICS COMPETITION
3.0 Units
SPCH 160 teaches students to participate in competitive Speech and Debate activities and events which are commonly referred to as Forensics. Students learn the strategies, techniques and skills needed to prepare and deliver presentations before various audiences. Activities range from debate to public speaking to oral interpretation of literature. Students who repeat this course master communication skills through further instruction and practice. Regular participation in tournament, campus and community presentations is required. Note: Students can repeat this competition course three times (four total enrollments). If a student has taken SPCH 190, 191, 192 or 193 prior to Spring 2017, such classes will count towards the four total enrollment limit. Lecture 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC. (C-ID COMM 160B)

STUDENT DEVELOPMENT
100 COLLEGE ORIENTATION
1.0 Unit
ST DV 100 is an introductory college orientation course for newly enrolled and matriculated students. The course covers the following topics: college academic regulations; four-year schools’ requirements for transfer; A.A. degree requirements; certificate program requirements; college services and specialized student support services. At the conclusion of the course, the student prepares a Student Educational Plan. Note: This course is offered only as Pass/No Pass. Lecture 1 hour. Recommended Preparation: Eligibility for ENGL 187 or ESL 123.
101 COLLEGE SUCCESS STRATEGIES
1.0 Unit

ST DV 101 is dedicated to ensuring students’ college success and motivating their journeys toward lifelong learning. Students develop their own plan for personal, academic, and career success through self-evaluation, application of specific techniques, and classroom activities. Topics include effective study strategies, short and long-term goals, time management, and campus resources. This course is about making choices, especially those about setting and meeting personal, academic, and career goals. Note: This course is offered only as Pass/No Pass. Lecture 1 hour. Recommended Preparation: Eligibility for ENGL 190, ENGL 191, ESL 141, ESL 146

Transfer Credit: CSU.

103 COLLEGE ORIENTATION FOR INTERNATIONAL STUDENTS
1.0 Unit

ST DV 103 is an introduction to customs unique to the American culture, prevalent American attitudes, United States Immigration regulations affecting F-1 Visa international students, and general principles for living and studying in the United States of America. Additionally, the course covers college academic regulations, requirements for transfer to four-year colleges and universities, college services, and specialized student support services. At the conclusion of the course, the student is able to produce a Student Educational Plan. Note: This course is offered only as Pass/No Pass. Lecture 1 hour. Prerequisite: None.

125 CAREER PLANNING
1.0 Unit

ST DV 125 is a course that helps students choose a career goal by assessing and analyzing personal values, aptitudes, skills, interests, and traits and relating them to career areas. Decision-making strategies are taught and a tentative career plan is developed. Note: This course is offered only as Pass/No Pass. Lecture 1 hour. Recommended Preparation: ENGL 191 or ESL 141

Transfer Credit: CSU.

127 MAJOR EXPLORATION
1.0 Unit

ST DV 127 is a course designed to help students select majors that will lead to a potential career. Emphasis is placed on introducing students to the required education and training within a particular major. Guest lecturers present on various careers. Students explore factors such as interests, values, and skills that influence their choices of a major. Note: This course is offered only as Pass/No Pass. Lecture 1 hour. Recommended Preparation: Completion of ENGL 188 and ENGL 189, or ESL 133, ESL 135 and ESL 136

128 VOCATIONAL PATHWAYS
1.0 Unit

ST DV 128 is designed to assist students with disabilities prepare a vocational plan and apply decision-making skills to the world in which they live. Students explore career options and construct a well planned career path, show a thorough understanding of the Americans with Disabilities Act (ADA) and its application to their employment options, and increase their awareness of how to live as independent adults. Note: This course is offered only as Pass/No Pass. ST DV 128 may not be taken for credit by students who have successfully completed ST DV 125 or ST DV 145 Lecture 1 hour. Prerequisite: None.

129 TEXT-TO-SPEECH SOFTWARE USE FOR READING AND WRITING ASSISTANCE
1.0 Unit

NON-DEGREE APPLICABLE

ST DV 129 provides instruction in effective use of text-to-speech software. Students with disabilities will learn how to use this program as an assistive device for improving skills in reading, study skills, vocabulary development, prewriting, and editing for correct spelling and word usage. Note: This course is offered only as Pass/No Pass. Lecture 1 hour. Prerequisite: None.

143 STUDY SKILLS LAB
0.5 to 2.0 Units

NON-DEGREE APPLICABLE

ST DV 143 is a laboratory course designed to meet the individualized needs of students with disabilities. Specialized tutoring is offered to assist students in developing compensatory strategies necessary for success in mainstream classes and daily living. Note: This course is offered only as Pass/No Pass. Laboratory 1.5-6 hours. Prerequisite: None.

145 ACHIEVING ACADEMIC AND CAREER SUCCESS
3.0 Units

ST DV 145 is a survey course designed to increase academic motivation and career success throughout the life span. The primary goal of this course is to examine how an individual’s psychological, social, physical, and environmental factors impact academic achievement and academic, career and personal life choices. Topics include learning theory, achievement motivation, identity development, critical thinking strategies, study and time management techniques, career exploration, decision making, and vocational planning. Note: ST DV 145 may not be taken for credit by students who have successfully completed ST DV 125 or ST DV 128. Lecture 3 hours. Recommended Preparation: ENGL 191 or ESL 141

Transfer Credit: CSU, UC.

146 EFFECTIVE STUDY TECHNIQUES
1.5 Units

NON-DEGREE APPLICABLE

ST DV 146 is a lecture course designed to place special emphasis on memory techniques, test preparation strategies, time management, and note-taking skills for students with disabilities. This course helps students develop critical thinking skills as well as compensatory strategies. Lecture 1.5 hours. Prerequisite: None.

TECHNICAL EDUCATION

140 FUNDAMENTALS OF ENGINEERING DOCUMENTATION
3.0 Units

T ED 140 is a fundamental course in reporting technical information for those participating in engineering or manufacturing programs. Note: T ED 140 is required in Architectural Drafting and Design and Drafting/Electro-Mechanical Design certificate programs. Lecture 3 hours. Prerequisite: None.
THEATRE ARTS

Technical Mathematics I

142 TECHNICAL MATHEMATICS I
3.0 Units
NON-DEGREE APPLICABLE
TED 142 is a review of basic mathematics as required in the mechanical trade programs. Subject areas covered include units of measurement (inch and S.I. metric), decimals, percentages and fractions. Problems are drawn from the industrial field. Lecture 3 hours. Prerequisite: None.

143 TECHNICAL MATHEMATICS II
3.0 Units
TED 143 is an advanced study of algebra, trigonometry, and quadratic equations as required in the mechanical trade programs. Problems are drawn from the industrial field. Lecture 3 hours. Prerequisite: TED 142 or equivalent.

THEATRE ARTS

Theatre Arts contains eight families (See page 88 for more information on course families):
Acting (T ART 100, 103, 104, 111, 140). The Acting Family includes acting courses for stage and film, and vocal techniques for the actor; Directing, Playwriting, Management (T ART 106, 151);
Costume & Makeup (T ART 109, 110, 123). The Costume & Makeup Family includes costume and makeup creation and application; Scenic & Lighting (T ART 121, 122, 133, 134). The Scenic & Lighting Family includes design courses and practicum covering scenery, lights, and other stage elements;
Technical Theatre: Stagecraft/Building (T ART 129, 131). Technical Theatre: Stagecraft/Building covers the execution of design and stagecraft, which includes safety, building, painting, and general equipment identification and maintenance. Students in these classes work directly with the shows being presented in the season prior to performance as opposed to theoretical projects; Theatre Production–Rehearsal & Performance (T ART 161-164). Theatre Production–Rehearsal & Performance includes courses that concentrate on rehearsal and performance in theatre production. Courses are broken up by genre and period.

INTRODUCTION TO ACTING

100 INTRODUCTION TO ACTING
3.0 Units
T ART 100 is an acting class designed for the beginner with little or no previous acting experience. Students practice techniques to develop relaxation, concentration, and stage presence in front of an audience. Class work includes group and individual exercises, theatre games, improvisation, and written critique of live theatre productions. Note: During the semester, students are expected to attend professional and Glendale Community College Theatre Department productions as a part of the learning process about acting. Lecture 2 hours/Laboratory 3 hours. Prerequisite: None. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID THTR 115)

INTRODUCTION TO THEATRE

101 INTRODUCTION TO THEATRE
3.0 Units
T ART 101 introduces students to elements of the theatre arts production process as a collaborative art form including playwriting, acting, directing, design, and criticism. While exploring its elements, practices, and collaborators, its historical, social, political, and economic context will be examined. Note: During the semester, students are expected to attend professional and Glendale Community College Theatre Arts Department productions as a part of the learning process. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Winter/Spring/Summer/Fall. Transfer Credit: CSU, UC, USC. (C-ID THTR 111)

THEATRE HISTORY

102 THEATRE HISTORY
3.0 Units
T ART 102 is a survey of the history of the theatre through its major influences concentrating on Greek, Roman, Renaissance, Elizabethan, Restoration, and Modern eras. The history and development of theatre are studied in relationship to the cultural, political, and social conditions for the time. Lecture 3 hours. Prerequisite: None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID THTR 113)

ACTING FUNDAMENTALS I

103 ACTING FUNDAMENTALS I
3.0 Units
T ART 103 is a beginning acting class for theatre majors. Through individual and group exercises, improvisation, theatre games, monologue and scene study, the actor’s voice, body, and imagination are developed. Written assignments include the break down and analysis of scripts and live theatre performances. Acting skills are practiced through rehearsal and performance of monologues and scenes. Note: During the semester, students are expected to attend professional and Glendale Community College Theatre Arts Department productions as part of the learning process. Lecture 2 hours/Laboratory 3 hours. Prerequisite: None. Typically Offered: Fall. Transfer Credit: CSU, UC, USC. (C-ID THTR 151)

ACTING FUNDAMENTALS II

104 ACTING FUNDAMENTALS II
3.0 Units
T ART 104 follows T ART 103, and continues the exploration of theories and techniques used to interpret dramatic writing through the acting of scenes and monologues. Emphasized skills include the actor’s voice and body, character development, script analysis, and the interpretation of a variety of styles and periods of dramatic writing. Note: During the semester, students are expected to attend professional and Glendale Community College Theatre Arts Department productions as a part of the learning process. Lecture 2 hours/Laboratory 3 hours. Prerequisite: T ART 103 or equivalent Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC.

INTRODUCTION TO THEATRICAL DIRECTING

106 INTRODUCTION TO THEATRICAL DIRECTING
3.0 Units
T ART 106 introduces theatre students to the theory, techniques, and skills of theatrical directing and offers students experience in directing short scenes from plays. Note: This class will be limited to twenty students. Lecture 1 hour/Laboratory 6 hours. Prerequisite: T ART 101, 103, and 104. Transfer Credit: CSU, UC, USC.

<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Units</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>T ART 107</td>
<td>DRAMA HERITAGE: PLAY STRUCTURE, FORM, AND ANALYSIS</td>
<td>3.0</td>
<td>T ART 107 is a survey of dramatic literature from the classical to the contemporary periods from the structural, stage production, and analytical points of view. The course combines reading, analyzing and understanding play scripts with field trips to local theatres and in-class audio-visual presentations. The student examines the playwright's methods of creating theatre and learns to distinguish between a play as literature versus a play as performance. <strong>Note:</strong> During the semester, students are expected to attend professional and Glendale Community College Theatre Arts Department productions as a part of the learning process. Lecture 3 hours. <strong>Prerequisite:</strong> None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.</td>
</tr>
<tr>
<td>T ART 109</td>
<td>STAGE MAKEUP I</td>
<td>2.0</td>
<td>T ART 109 provides instruction in the use and application of all types of stage makeup, the functions of makeup in the theatre, analysis of facial features and corrective techniques, research and color theory, and basic three-dimensional technique. Lecture 1 hour/Laboratory 3 hours. <strong>Prerequisite:</strong> None. Course Typically Offered: Fall/Spring. Transfer Credit: CSU, UC, USC.</td>
</tr>
<tr>
<td>T ART 110</td>
<td>STAGE MAKEUP II</td>
<td>1.0</td>
<td>T ART 110 is a continuation of T ART 109 with emphasis on special effects using prosthetics, facial hair and wigs. The course builds upon the basic stage makeup taught in Stage Makeup I with a focus on special effects that significantly change the actor for the purpose of performance. This is an introduction to potential career paths for students interested in makeup design. <strong>Note:</strong> Additional hours may be required to work on GCC productions. The AA-T Theatre Arts Degree requires both T ART 109 and T ART 110 to add up to the 3.0 units. Laboratory 3 hours. <strong>Prerequisite:</strong> T ART 109. <strong>Course Typically Offered:</strong> Spring. Transfer Credit: CSU, UC, USC. (C-ID THTR 175)</td>
</tr>
<tr>
<td>T ART 111</td>
<td>VOICE FOR THE ACTOR</td>
<td>3.0</td>
<td>T ART 111 introduces students to the proper use and maintenance of the voice on stage primarily through the use of the Linklater Technique. The main goal of the course is to help students free their “natural voice” in order to perform on stage with vocal freedom, safety, and control. Elements from Lessac and Berry and instruction in the International Phonetic Alphabet (IPA) will be incorporated in units on articulation and proper placement of sounds. Emphasis will be placed on vocal theory and the basic mechanics of vocal production technique. Lecture 3 hours. <strong>Recommended Preparation:</strong> Eligibility for ENGL 120 or ESL 151. <strong>Course Typically Offered:</strong> Fall/Spring.</td>
</tr>
<tr>
<td>T ART 121</td>
<td>STAGE SCENIC DESIGN I</td>
<td>2.0</td>
<td>T ART 121 is a practical course in the fundamentals of designing stage scenery. All the sets used in Glendale Community College productions are designed by this class. Lecture 1 hour/Laboratory 3 hours. <strong>Prerequisite:</strong> T ART 171 or equivalent. Transfer Credit: CSU, UC, USC.</td>
</tr>
<tr>
<td>T ART 122</td>
<td>STAGE SCENIC DESIGN II</td>
<td>2.0</td>
<td>T ART 122 is a continuation of T ART 121 with more emphasis on originality of design. Students continue a study of research and the collaborative design process in the area of scenic design and set installation techniques, while creating an environment for the performer and audience. Lecture 1 hour/Laboratory 3 hours. <strong>Prerequisite:</strong> T ART 121 or equivalent. Transfer Credit: CSU, UC, USC.</td>
</tr>
<tr>
<td>T ART 123</td>
<td>STAGE COSTUME DESIGN WORKSHOP</td>
<td>3.0</td>
<td>T ART 123 is a course in the history, design, and construction of costumes for the stage. This course includes an exploration of historical practices, the planning for and the buying of suitable materials, design and color schemes, the design and construction of costumes and accessories, arrangement, and maintenance of the costume wardrobe. Students in this course design and make costumes for school dramatic programs. <strong>Note:</strong> Students in this course are expected to be available for additional hours to work on costumes for theatrical productions. Lecture 2 hours/Laboratory 3 hours. <strong>Prerequisite:</strong> None. <strong>Course Typically Offered:</strong> Fall/Spring. Transfer Credit: CSU, UC, USC. (C-ID THTR 174)</td>
</tr>
<tr>
<td>T ART 129</td>
<td>BACKSTAGE LAB FOR PERFORMERS</td>
<td>1.0</td>
<td>T ART 129 is a course designed to introduce performance students to the backstage aspects of technical theatre. Students work on projects that directly support the dance, music, or theatre production in which they are concurrently enrolled. Through the analysis and implementation of production designs for scenery, lights and sound, they gain a greater understanding of the relationship between performance and the backstage support. <strong>Note:</strong> This class will be limited to twenty students. Laboratory 3 hours. <strong>Prerequisites:</strong> None. <strong>Corequisite:</strong> Enrollment in one of the following: DANCE 135; Music 143, 146, 147, 170, 231, 232, 233, 235, 236, or 237; T ART 160, 161, 162, 163, or 164. <strong>Course Typically Offered:</strong> Spring.</td>
</tr>
<tr>
<td>T ART 134</td>
<td>PRACTICAL AND THEORETICAL ASPECTS OF STAGE LIGHTING</td>
<td>2.0</td>
<td>T ART 134 is for the advanced student in technical theatre. It is a course designed to develop the skills and techniques which are necessary for the student’s participation and appreciation of the art of stage lighting. It is hoped that the student will develop, as a result of familiarity with stage lighting practice, a sense of balance and rhythm with regard to color, light and shadow, and mass. Laboratory 6 hours. <strong>Prerequisite:</strong> T ART 171 or equivalent. <strong>Note:</strong> May be taken 3 times for credit. Transfer Credit: CSU, UC, USC.</td>
</tr>
<tr>
<td>T ART 140</td>
<td>INTRODUCTION TO PERFORMANCE FOR THE CAMERA</td>
<td>3.0</td>
<td>T ART 140 is a comprehensive introduction to performing in the media of television and film. The course explores the styles and the mastery of technical specifics demanded by each medium. The approach is to teach on-camera techniques simply and correctly, while providing a broad understanding of why and how things are done in media production. Practical aspects of facilitating a performance career are covered: getting an agent, joining the unions, and acquiring the necessary tools of the trade, such as pictures and resumes. Lecture 3 hours/Laboratory 2 hours. <strong>Prerequisite:</strong> None.</td>
</tr>
</tbody>
</table>
155 INTRODUCTION TO PLAYWRITING
3.0 Units
T ART 155 is the study and practice of writing dramatic works for the stage. Students gain a greater understanding of how to write for the stage through reading plays, analyzing play structure, peer evaluation of writing assignments, participating in the play development process, understanding the commerce of playwriting, and having original works performed in front of an audience. Note: This course may include trips to local professional and/or amateur theatre productions. Students may also present their plays in a staged-reading or performance at the conclusion of the class for a public audience. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC.

160 REHEARSAL AND PERFORMANCE IN MUSICAL THEATRE PRODUCTION
2.0 to 4.0 Units
T ART 160 is a workshop designed to support musical theatre productions. The students enrolled in this course are formed into a company to present the combined Dance, Music, and Theatre Arts Department productions at Glendale Community College. Each student is assigned projects in accordance with his or her interests and talents. The projects involve some phase of theatrical production as it relates to performance skills in the style of classical theatre. Note: Students are expected to be available for rehearsals and every performance for 10 – 15 hours per week. Laboratory units are earned based on the number of hours and type of project completed. Lecture 1 hour/Laboratory 3-9 hours. Prerequisite: None. Course Typically Offered: Fall, Transfer Credit: CSU, UC, USC. (C-ID THTR 191)

161 REHEARSAL AND PERFORMANCE IN CLASSICAL THEATRE PRODUCTION
2.0 to 4.0 Units
T ART 161 is a workshop designed to support a classical theatre production. The students enrolled in this course are formed into a company to present classical plays as part of the Theatre Arts Department productions at Glendale Community College. The productions include works that belong specifically to those playwrights whose style requires a genre of acting, generally referred to as Classical, Greek, Roman, Elizabethan, Spanish Golden Age, and French Classical theatre. Each student is assigned projects in accordance with his or her interests and talents. The projects involve some phase of theatrical production as it relates to performance skills in the style of classical theatre. Note: Students are expected to be available for rehearsals and every performance for 10 – 15 hours per week. Laboratory units are earned based on the number of hours and type of project completed. Lecture 1 hour/Laboratory 3-9 hours. Prerequisite: None. Course Typically Offered: Fall. Transfer Credit: CSU, UC, USC. (C-ID THTR 191)

162 REHEARSAL AND PERFORMANCE IN MODERN THEATRE PRODUCTION
2.0 to 4.0 Units
T ART 162 is a workshop designed to support a modern theatre production. The students enrolled in this course are formed into a company to present plays from the modern repertoire as a part of the season of Theatre Arts Department productions at Glendale Community College. These titles include, but are not limited to the works of the international theatre from the 1840's and the advent of Henrik Ibsen, to the mid 1950's with the work of Tennessee Williams and Eugene O'Neil. Each student is assigned projects in accordance with his or her interests and talents for the selected materials. The projects involve some phase of theatrical production as it relates to performance skills in the style of modern theatre. Note: Audition or interview is required. Note: Students are expected to be available for rehearsals and appear in every performance for 10-15 hours per week. Laboratory units are earned based on the number of hours and type of project completed. Lecture 1 hour/Laboratory 3-9 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC. (C-ID THTR 191)

163 REHEARSAL AND PERFORMANCE IN CONTEMPORARY THEATRE PRODUCTION
2.0 to 4.0 Units
T ART 163 is a workshop designed to support a contemporary theatre production. The students enrolled in this course are formed into a company to present contemporary plays as a part of the season in the Theatre Arts Department at Glendale Community College. Each student is assigned projects in accordance with his or her interests and talents. The projects involve some phase of theatrical production as it relates to performance skills in the style of contemporary world theatre. Included are current or recent successful stage play scripts from Broadway, Off-Broadway, West-end London, and other world theatre centers, dating back to the style changes in realism of 1970's and 1980's. Note: Audition or interview is required. Note: Students are expected to be available for rehearsals and appear in every performance for 10-15 hours per week. Laboratory units are earned based on the number of hours and type of project completed. Lecture 1 hour/Laboratory 3-9 hours. Prerequisite: None. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC. (C-ID THTR 191)

164 REHEARSAL AND PERFORMANCE IN NEW WORKS AND EXPERIMENTAL THEATRE PRODUCTIONS
2.0 to 4.0 Units
T ART 164 is a workshop designed to support new works and experimental theatre production. The students enrolled in this course are formed into a company to present new or experimental plays as a part of the season in the Theatre Arts Department productions at Glendale Community College. Each student is assigned projects in accordance with his or her interests and talents. The projects involve some phase of theatrical production as it relates to performance skills in the style of new plays and plays of a different nature, including but not limited to non-linear, feminist, epic, etc. These productions may include work that is student written or generated by the production team. Note: Audition or interview is required. Note: Students are expected to be available for rehearsals and appear in every performance for 10-15 hours per week. Laboratory units are earned based on the number of hours and type of project completed. Lecture 1 hour/Laboratory 3-9 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC. (C-ID THTR 191)
171 STAGECRAFT
3.0 Units
T ART 171 is an introduction to technical theatre including basic principles of scenic design, construction, painting, and handling of scenery and scenic effects, prop construction, backstage organization, career opportunities and safety procedures within the operation of the stage. Students prepare for stage crew assignments for the various Glendale Community College productions. Additional hours to devote to rehearsals and performances are required. Lecture 1 hour/Laboratory 6 hours. Prerequisite: None. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC. (C-ID THTR 171)

172 INTRODUCTION TO THEATRE DESIGN
3.0 Units
T ART 172 is a survey of scenery, lighting, sound, costumes, makeup, properties, theatrical equipment and construction techniques. Through demonstration and laboratory experiences, students gain an understanding of the organization of theatre (technical personnel) as well as an appreciation for theatrical design. Lecture 2 hours/Laboratory 3 hours. Recommended Preparation: ART 130 or equivalent. Transfer Credit: CSU (C-ID THTR 172)

173 LIGHTING DESIGN FUNDAMENTALS
3.0 Units
T ART 173 is a study and execution of stage lighting with emphasis on equipment, control, color, and their relationship to design. Students learn how to use artificial light sources to create an appropriate environment for a variety of entertainment media including animation, theatre and dance productions. Applying basic techniques of lighting composition, students use highlights, shadows, textures, and colors to achieve the desired effects. Lighting designs are created using virtual lighting simulations on a computer. Lecture 2 hours/Laboratory 3 hours. Prerequisite: None. Course Typically Offered: Spring. Transfer Credit: CSU, UC, USC. (C-ID THTR 173)

180 TECHNICAL THEATRE IN MUSICAL PRODUCTION
2.0 to 4.0 Units
T ART 180 is a practical application of theatre arts technical support. Through lecture and laboratory experiences, students gain experience in the application of production responsibilities in the areas of stage management, house management, construction, scenery, properties, costume, lighting, sound, and running crews for the genre of musical theatre. Note: Students are expected to be available for rehearsals and performances of Glendale Community College productions. Units earned are based on the number of hours and type of project completed. Lecture 1 hour/Laboratory 3-9 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC. (C-ID THTR 192)

181 TECHNICAL THEATRE IN CLASSICAL PRODUCTION
2.0 to 4.0 Units
T ART 181 is a practical application of theatre arts technical support. Through lecture and laboratory experiences, students gain experience in the application of production responsibilities in the areas of stage management, house management, construction, scenery, properties, costume, lighting, sound, and running crews for the classical theatre genre. Lecture 1 hour/Laboratory 3-9 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC. (C-ID THTR 192)

182 TECHNICAL THEATRE IN MODERN PRODUCTION
2.0 to 4.0 Units
T ART 182 is a practical application of theatre arts technical support. Through lecture and laboratory experiences, students gain experience in the application of production responsibilities in the areas of stage management, house management, construction, scenery, properties, costume, lighting, sound, and running crews for the genre of modern theatre. Lecture 1 hour/Laboratory 3-9 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC. (C-ID THTR 192)

183 TECHNICAL THEATRE IN CONTEMPORARY PRODUCTION
2.0 to 4.0 Units
T ART 183 is a practical application of theatre arts technical support. Through lecture and laboratory experiences, students gain experience in the application of production responsibilities in the areas of stage management, house management, construction, scenery, properties, costume, lighting, sound, and running crews for the genre of contemporary theatre. Lecture 1 hour/Laboratory 3-9 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC. (C-ID THTR 192)

184 TECHNICAL THEATRE IN NEW WORKS, DEVISED, AND EXPERIMENTAL PRODUCTION
2.0 to 4.0 Units
T ART 184 is a practical application of theatre arts technical support. Through lecture and laboratory experiences, students gain experience in the application of production responsibilities in the areas of stage management, house management, construction, scenery, properties, costume, lighting, sound, and running crews for new, devised, or experimental play genres in production. Lecture 1 hour/Laboratory 3-9 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC. (C-ID THTR 192)

WELDING

117 INTRODUCTION TO WELDING
2.0 Units
WELD 117 consists of oxyacetylene welding, flame cutting, (manual and automatic), bronze and silver brazing and soldering. These processes are discussed and demonstrated. The student is given experience in applying the principles by individual practice on a sequence of selected plates and manipulative exercises on various metals. Lecture 1 hour/Laboratory 3 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU.

118 GENERAL WELDING
2.0 Units
WELD 118 consists of theory and techniques in basic Shielded Metal Arc Welding and Flux Cored Arc Welding. The student is given experience in applying the principles by individual practice on a sequence of selected plates and manipulative exercises on mild steel. Lecture 1 hour/Laboratory 3 hours. Prerequisite: WELD 117 or equivalent.
121 GENERAL WELDING
3.0 Units
WELD 121 is the first in a series of occupational welding courses designed to prepare the student for employment in the welding industry. It covers the theory of welding processes, welding safety, terms, basic metallurgy, and the fundamentals of metallic and oxyacetylene welding. Lecture 1 hour/Laboratory 6 hours. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.

122 GENERAL WELDING
3.0 Units
WELD 122 is second in a series of occupational welding courses designed to prepare the student for employment in the welding industry. It covers fundamental of blueprint reading interpreting shop drawings and sketches, advanced metallic arc and oxyacetylene welding and provides an introduction to tungsten inert gas and metal inert gas arc welding. Lecture 1 hour/Laboratory 6 hours. Prerequisite: WELD 121 or equivalent. Recommended Preparation: Eligibility for ENGL 120 or ESL 151.

123 OCCUPATIONAL WELDING
3.0 Units
WELD 123 is third in a series of occupational welding courses designed to prepare the student for employment in the welding industry. It covers basic preparation for welding certification, advanced metallic arc, tungsten inert gas, metal inert gas, and oxyacetylene welding, including specific welding exercises needed to prepare the student for the manipulative phase of the certification examination. Lecture 1 hour/Laboratory 6 hours. Prerequisite: None.

124 OCCUPATIONAL WELDING
3.0 Units
WELD 124 is fourth in a series of occupational welding courses designed to prepare the student for employment in the welding industry. It covers the preparation for a welding certification in metallic arc, tungsten inert gas, and metal inert gas arc welding. Lecture 1 hour/Laboratory 6 hours. Prerequisite: None.

125 ADVANCED WELDING PROCEDURES
1.0 Unit
WELD 125 is advanced welding procedures and practices for experienced students or industrial workers who wish to improve and update their manipulative skills or prepare for a specific certification in metallic arc, tungsten inert gas, or metal inert gas welding Laboratory 3 hours. Prerequisite: WELD 117 or 121 or equivalent.

126 OCCUPATIONAL WELDING CERTIFICATE SHOP
1.0 Unit
WELD 126 is designed for the student or industrial worker with a welding background to gain practical experience in specific skill areas of concentration, resulting in state welding certification. Laboratory 3 hours. Prerequisite: WELD 117 or 118 or 125 or equivalent.
Continuing Education
GARFIELD CAMPUS SERVICES

Noncredit Continuing Education courses provide educational opportunities for those seeking occupational or personal improvements. The Garfield Campus at 1122 E. Garfield (between Adams and Chevy Chase) houses the Continuing Education Office, the Business and Life Skills Center, CalWORKs/WIOA training programs, Student Success Center (also known as DSL), and the English as a Second Language (ESL) program. Parent Education and Lifelong Learning are offered on the main campus (Life Skills Building) as well as throughout the community. The Garfield Campus houses a full range of student services that are available free of charge to the community.

Classes are available mornings, afternoons, and evenings throughout the week. All classes are tuition free. Students may enter a class at any time during the year.

For information or to request a current schedule of classes, please call (818) 240-1000 ext. 5678 during business hours. Continuing Education office hours are 8:00 a.m. to 9:00 p.m. Monday through Thursday, and 8:00 a.m. to 4:30 p.m. on Friday.

COUNSELING

Academic counselors are available for assistance with students seeking High School Diplomas and the HSE. Academic Counselors work with State Department of Rehabilitation referrals and California Training Benefits (CTB) students. They assist with transition to credit classes at the Main Campus, and provide other general academic counseling. Hours vary from 8:00 a.m. to 9:30 p.m. For times and appointments call (818) 240-1000, ext. 5055 or 5033.

Mental Health Counseling is offered for short-term and crisis counseling for students who are enrolled in any continuing education program or class. Students should obtain a referral from staff or faculty to make an appointment. Program is located on the second floor of the Mariposa Building (MP 221) For more information call (818) 240-1000, ext. 5035 or 5055.

CHILDCARE & PARENT SUPPORT CENTER

The Parent Support Center for child development offers on-site childcare for continuing education students who have potty-trained children from three to five years of age. There are fees for non-CalWORKs or GAIN students. Hours are Monday through Friday; 8:00 a.m. to 4:30 p.m. For more information call (818) 240-1000, ext. 5035 or 5055.

GARFIELD BOOKSTORE

The Garfield Bookstore is available for students at various times and days throughout the year. Program is located on the second floor of the Tropico Building (TR 213). For more information, call (818) 240-1000, ext. 5802.

GARFIELD LIBRARY

The Garfield Library Collection has over 1,000 volumes to help support the Continuing Education Business, Life Skills, and Noncredit ESL classes. The library also has over 2,300 volumes of children's literature as “classroom sets” available for faculty checkout. Program is located on the second floor of the Tropico Building (TR 201). For more information and hours, call (818) 240-1000, ext. 5098.
ACCOUNT CLERK I
This program prepares students for entry-level bookkeeping positions. Students learn to record customer and vendor data for service based sole proprietorships, and create financial statements from recorded statements.
REQUIRED COURSES: OBT 11, 21, 22, 32, 34, 40, 70, 80, and 90.

ACCOUNT CLERK II
In this program, students learn advanced accounting techniques, computerized accounting systems, and the use of Excel spreadsheets. Students learn to record transactions for a merchandising business organized as a corporation, and create financial statements from recorded transactions.
REQUIRED COURSES: Completion of Account Clerk I or equivalent; OBT 23, 35, 50, 91, 95, 97, and 100.
Complete one of the following courses: OBT 113, 138, or 150

ADULT BASIC EDUCATION CERTIFICATE
This program allows students to increase their basic academic skills, increasing their chances for employment and success in further education. Students will be able to read and comprehend at the 8th grade reading level, write clear and grammatically correct paragraphs using a variety of sentence structures, and be able to add, subtract, multiply and divide whole numbers, decimals, fractions and percentages.
REQUIRED COURSES: ABSE 10, 20, and 50

DENTAL FRONT OFFICE CLERK
This program prepares students for front office work in a dentist’s office. Students learn medical terminology, billing, transcription, and customer service. Students learn to utilize PractiSoft dental software to bill providers and manage a small dental practice.
REQUIRED COURSES: OBT 11, 34, 35, 40, 55, 70, 80, 100 and 140.

BEGINNING ESL CERTIFICATE
This certificate will lead to enhanced academic and entry level job opportunities. Upon completion of this certificate, students will be able to demonstrate mastery of beginning-level English grammar, the ability to write a simple paragraph, and show beginning conversational speaking competence
REQUIRED COURSES: ESL 1 (or ESL 5 for the more mature adult), 10, 20, and 80.

INTERMEDIATE ESL CERTIFICATE
This certificate prepares the student for academic and job opportunities that require a conversant level of English. Upon completion of this certificate, students will be able to demonstrate mastery of intermediate English grammar, the ability to write a 3-paragraph essay and show intermediate-level conversational speaking competence. This certificate also prepares the student for higher level of study that include noncredit business course the HSE program, citizenship courses and matriculation to credit classes.
REQUIRED COURSES: ESL 30, 40, 81 and OBT 071.

ADVANCED ESL CERTIFICATE
This certificate prepares the student for academic job opportunities that demand a fluent level of spoken English. Upon completion this certificate students will be able to demonstrate mastery of advanced English grammar structure, the ability to write a 5-paragraph essay, comprehension of academic, professional, and everyday spoken English, understanding of American idioms and the ability to create, present, analyze, and critique oral presentations. This certificate also prepares students for higher levels of study that include noncredit business courses, he HSE program, citizenship courses and matriculation to credit courses.
REQUIRED COURSES: ESL 50, 82 and OBT 071.

GENERAL OFFICE CLERK I
This program prepares students for entry-level work in an office setting. Students are provided with the basics of keyboarding, filing, and word processing computer applications as well as soft skills such as problem solving and teamwork. Students will produce documents using a word processor and demonstrate understanding of general office etiquette.
REQUIRED COURSES: OBT 11, 34, 35, 40, 55, 70, 80, 100 and 140.

GENERAL OFFICE CLERK II
This program prepares students for independent work in an office setting. Students gain a broad background in business math, computer applications, and business writing, which provides them with the ability to work in most office departments. Students will demonstrate appropriate interpersonal skills and operate a variety of business software, including word processors and spreadsheets to create business correspondence, reports, and other related documents.
REQUIRED COURSES: Completion of General Office Clerk I or equivalent; OBT 12, 21, 31, 32, 50, 90 and 138.
GENERAL OFFICE CLERK III
This program prepares students for work as an administrative assistant or secretary. Students gain advanced keyboarding and computer application skills as well as the fundamentals of accounting. Students will learn to support business office operations and work independently from a variety of inputs; apply time management skills, prepare a wide variety of business correspondence, and compile and edit spreadsheets using common business software.

Required Courses
Completion of General Office Clerk II or equivalent; OBT 13, 22, 33 and 101.
Complete one of the following courses: OBT 111, 113 or 150.

INTRODUCTION TO HOSPITALITY AND TOURISM
This certificate prepares students for entry-level positions in the hospitality and tourism industry as part of a career ladder. Students will gain a foundational understanding of the multiple facets of the industry through case studies and live demonstrations. Students will explore the entry-level and promotional opportunities available in restaurants, hotels, beverage operations, casinos, theme venues, entertainment centers, cruise lines, and other hospitality and tourism businesses. Students will complete a final project using a word processor and demonstrate understanding of customer service. This program also serves as a first step in preparing students for entry into the credit hospitality program at Glendale Community College.

Required Courses: OBT 35, 40, 50, 65, 66, and 70.
Complete two of the following courses: OBT 11, 31, 55, 80, and 140.

HSE PREPARATION CERTIFICATE
This program prepares students to take and pass the HSE test, an equivalency to the high school diploma. Students will attain knowledge, skills, and abilities necessary to pass high school courses, and obtain a high school diploma.

Required Courses: ABSE 10, 20, 50, 60 (or 61).

MEDICAL FRONT OFFICE CLERK
This program prepares students for front office work in a doctor's office or medical facility. Students learn medical terminology, billing, transcription, and customer service. Students learn to utilize MediSoft to maintain accounts and manage a medical practice.

Required Courses OBT 11, 34, 35, 40, 50, 61, 70, 80, and 100.
HIGH SCHOOL DIPLOMA REQUIREMENTS

- 40 credits of English
- 10 credits of World History
- 10 credits of United States History
- 5 credits of American Government
- 5 credits of Economics
- 10 credits of Physical Science
- 10 credits of Biological Science
- 10 credits of Algebra
- 10 credits of Geometry
- 5 credits of Computer Applications
- 5 credits of Health
- 5 credits of Career Preparation (or equivalent work history)
- 10 credits of Humanities (Art, Music or Foreign Language)
- 50 credits of Electives

Total of 185 credits plus demonstration of competency in reading, writing, and mathematics. 20 credits must be completed at Glendale Community College.

COMPETENCY REQUIREMENTS

Reading Competency—One of the following:
- Pass the HSE Language Arts, Reading with a score of 410 or higher
- Score 584 or above on the Test of Adult Basic Education (TABE)
- Score 246 or above on the CASAS Life and Work test level 187 or 188
- Place into English 192
- Pass the English-Language Arts portion of the CAHSEE

Writing Competency—One of the following:
- Pass the HSE Language Arts, Writing with a score of 410 or higher
- Place into English 120 or higher
- Pass the English-Language Arts portion of the CAHSEE

Mathematics Competency—One of the following:
- Place into Mathematics 141 or higher
- Pass the HSE Mathematics with a score of 450 or higher
- Pass the Mathematics portion of the CAHSEE

For HSE testing information please refer to the General Information section of this catalog.
ADULT BASIC AND SECONDARY EDUCATION

10 BASIC ENGLISH

0 Units

ABSE 10 is a beginning composition course. This course covers the basics of sentence and paragraph composition including mechanics, grammar, and spelling. Laboratory 160 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Recommended Preparation: ESL 40 or equivalent.

15 VOCABULARY DEVELOPMENT

0 Units

ABSE 15 introduces common roots, prefixes, suffixes, and word usage as well as the use of context clues to determine word meanings. This course is designed to meet the needs of students who wish to improve their vocabulary and to earn elective high school credit in English. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40 or equivalent.

20 BASIC MATH

0 Units

ABSE 20 is a math course designed for adults who wish to review or master basic arithmetic from whole number operations through fractions, decimals, and percent. Laboratory 120 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Recommended Preparation: ESL 40 or equivalent.

21 ARITHMETIC 1A

0 Units

ABSE 21 introduces students to whole number, fraction, decimal, and percent computation. This course is designed to meet the needs of students who wish to improve their basic math skills and to earn high school credit. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40 or equivalent.

22 ARITHMETIC 1B

0 Units

ABSE 22 introduces students to higher level arithmetic: statistics, measurement, and geometric and algebraic principles. This course is designed to meet the needs of students who wish to improve their math skills and to earn high school credit. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40 or equivalent and ABSE 21 or equivalent.

23 ALGEBRA 1A

0 Units

ABSE 23 is an introduction to algebraic reasoning and modeling. Algebraic modeling is introduced with linear functions. This course is designed to meet the needs of students who wish to begin their study of algebra and to earn high school credit in mathematics. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40 or equivalent, ABSE 22 or equivalent.

24 ALGEBRA 1B

0 Units

ABSE 24 provides students with continued instruction on reasoning and modeling algebraically. Areas presented in this class include descriptive statistics, and quadratic functions/modeling. This course is designed to meet the needs of students who wish to continue their study of algebra and to earn high school credit in mathematics. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40 or equivalent, ABSE 23 or equivalent.

25 GEOMETRY 1A

0 Units

ABSE 25 is the first half of a one-year high school level geometry course. In this course the notion of two-dimensional shapes as part of the Euclidian Plane and exploration of transformations of this plane as a way to determine whether two shapes are congruent are formalized. Students use transformations to prove geometric theorems. This course is designed to meet the needs of students who wish to begin their study of geometry and to earn high school credit in math. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40 or equivalent, ABSE 24 or equivalent.

26 GEOMETRY 1B

0 Units

ABSE 26 is the second half of a one-year high school level geometry course. In this course students investigate similarity and use similarity in the right triangle to define trigonometric ratios. They investigate circles and prove theorems about them. Connecting to their prior experience with the coordinate plane, they prove geometric theorems using coordinates and describe shapes with equations. Students extend their knowledge of area and volume formulas for three dimensional shapes. This course is designed to meet the needs of students who wish to begin their study of geometry and to earn high school credit in mathematics. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40 or equivalent, ABSE 25 or equivalent.

27 APPLIED MATHEMATICS

0 Units

ABSE 27 is designed to help students use mathematical principles and computations in everyday living and business transactions. This course may be taken as a high school elective in mathematics. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40 or equivalent.
30 LIFE SCIENCE 1A
0 Units
ABSE 30 is a high school level course designed to give an overview of life science from cells through the plant kingdom. It includes the characteristics of life, cells structure and function, heredity, evolution, and the classification of plants. This is the first half of a one-year course. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40 or equivalent.

31 LIFE SCIENCE 1B
0 Units
ABSE 31 is a high school level course designed to give an overview of life science from animals to the human body. It includes animal classification and characteristics, human body systems, and the interactions of factors within an ecosystem. This is the second half of a one-year course. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40 or equivalent and ABSE 21 or equivalent.

32 PHYSICAL SCIENCE 1A
0 Units
ABSE 32 is a high school level course designed to acquaint students with the basic physical properties of matter, atoms, compounds, and simple chemical equations. This is the first half of a one-year course. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40 or equivalent.

33 PHYSICAL SCIENCE 1B
0 Units
ABSE 33 is a high school level course designed to expand on basic physical science with concepts of motion, machines, sound, light, electricity and magnetism. This is the second half of a one-year course. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40 and ABSE 32 or equivalent.

34 HEALTH AND GUIDANCE
0 Units
ABSE 34 presents guides to healthy life styles and positive health behaviors. It focuses on decisions regarding drugs, alcohol, tobacco, exercise, safety and nutrition and how these issues impact health and well-being. This course may be taken for high school credit. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40 or equivalent.

40 WORLD HISTORY 1A
0 Units
ABSE 40 is a high school level course designed to give an overview of world history, covering the period beginning with the first humans up to the Scientific Revolution and Enlightenment. This is the first half of a one-year course. This course may be taken for high school credit. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits (.5 unit). Recommended Preparation: ESL 40 or equivalent.

41 WORLD HISTORY 1B
0 Units
ABSE 41 is a high school level course designed to give an overview of world history, beginning with the Scientific Revolution and Enlightenment, up to present day. This is the second half of a one-year course. This course may be taken for high school credit. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits (.5 unit). Recommended Preparation: ESL 40 or equivalent, ABSE 40 or equivalent.

42 US HISTORY 1A
0 Units
ABSE 42 is a high school level course designed to give an overview of United States history, covering the period beginning with the era of exploration through the Civil War. This course may be taken for high school credit. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40 or equivalent.

43 US HISTORY 1B
0 Units
ABSE 43 is a high school level course designed to give an overview of United States history, covering the period beginning with the post-Civil War era through the New Millennium. This course may be taken for high school credit. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40 and ABSE 42 or equivalent.

44 AMERICAN GOVERNMENT
0 Units
ABSE 44 is designed to meet the needs of students who wish to earn high school credit for American Government. The course covers the principles behind American government and then explores the American political process. Each of the three branches of government are explored as well as local government systems. This course may be taken for high school credit. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40 or equivalent.

45 ECONOMICS
0 Units
ABSE 45 is designed to meet the needs of students who wish to earn high school credit for economics. This is a fundamental course in both micro- and macroeconomics. Micro economic topics include demand, pricing theory, and market structures. Macroeconomics involves a study of relevant institutions and polices. Other topics include international and global economics. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40 or equivalent.
48 PSYCHOLOGY
0 Units
ABSE 48 introduces students to the basics of life cycle development issues, the roots of behavior, emotions and consciousness. This course may be taken for high school credit. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Laboratory 320 hours. \textbf{Recommended Preparation:} ESL 40 or equivalent.

50 BASIC READING
0 Units
ABSE 50 is an individualized beginning reading course. This course covers reading techniques, vocabulary development, and comprehension and analysis skills. Laboratory 160 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. \textbf{Recommended Preparation:} ESL 40 or equivalent.

60 HIGH SCHOOL EQUIVALENCY (HSE) PREPARATION
0 Units
ABSE 60 is an individualized course designed to prepare students to take the GED (General Educational Development) or the HiSET (High School Equivalency Test) examination. This course covers all five areas of the examinations: reading, writing, social studies, science, and mathematics and includes small group instruction. Laboratory 320 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. \textbf{Recommended Preparation:} ESL 40 or equivalent.

61 HIGH SCHOOL EQUIVALENCY (HSE) LAB
0 Units
ABSE 61 is an individualized course designed to prepare students to take the GED (General Educational Development) or the HiSET (High School Equivalency Test) examination. This lab course covers all five areas of the examinations: reading, writing, social studies, science, and mathematics. Laboratory 320 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. \textbf{Recommended Preparation:} ESL 40 or equivalent.

70 CAREER EXPLORATION
0 Units
ABSE 70 is designed to assist students in their exploration of possible careers. Students explore their occupational interests, career requirements, and career preparation. Students will utilize the services of the Career Center for their assessment and exploration. This course may be taken for high school credit. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. \textbf{Recommended Preparation:} ESL 40 or equivalent.

110 ENGLISH 9A
0 Units
ABSE 110 helps students develop strategies for reading various texts including fiction, non-fiction, technical, and informational writings. The strategies for writing include multiple genres, such as informational, biographical and historical, with appropriate use of conventions. All strategies are aligned with the California Common Core State Standards and high school grade-specific standards to define college and career readiness expectations. ABSE 110 is equivalent to the first semester of 9th grade English (9A). It meets the requirements for a high school diploma. Note: This is a self-paced course in an open-entry, open-exit lab environment. \textbf{Recommended Preparation:} ESL 40 or equivalent.

111 ENGLISH 9B
0 Units
ABSE 111 helps students explore and analyze both literature and non-fiction, including informational, technical and historical texts. Students are expected to make qualitative evaluations of texts in writing. This course is aligned with the Common Core Standards for reading, writing and language skills required for 9th grade second semester students. ABSE 111 is equivalent to the second semester of 9th grade English (9B). It meets the requirements for a high school diploma. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. \textbf{Recommended Preparation:} ESL 40, ABSE 110 or equivalent.

112 ENGLISH 10A
0 Units
ABSE 112 helps students develop strategies for reading various texts including fiction, non-fiction, technical, and informational writings. The strategies for writing include multiple genres, such as informational, biographical and historical, with appropriate use of conventions. All strategies are aligned with the California Common Core State Standards and high school grade-specific standards to define college and career readiness expectations. ABSE 112 is equivalent to the first semester of 10th grade English (10A). It meets the requirements for a high school diploma. \textbf{Recommended Preparation:} ESL 40, ABSE 111 or equivalent.

113 ENGLISH 10B
0 Units
ABSE 113 helps students develop strategies for reading and analyzing various texts including fiction, poetry and drama. The strategies for writing include multiple genres, such as persuasion, classification and analysis, with appropriate use of conventions. All strategies are aligned with the California Common Core State Standards and high school grade-specific standards to define college and career readiness expectations. ABSE 113 is equivalent to the second semester of 10th grade English (10B). It meets the requirements for a high school diploma. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. \textbf{Recommended Preparation:} ESL 40, ABSE 110 or equivalent.
114 ENGLISH 11A 0 Units
ABSE 114 focuses on reading, analyzing, and writing about American literature selections. An introduction to the modes of analytical, informative, explanatory, and narrative writing is included. A research paper is included as well. All strategies are aligned with the California Common Core State Standards and high school grade-specific standards to define college and career readiness expectations. ABSE 114 is equivalent to the first semester of 11th grade English (11A). It meets the requirements for a high school diploma. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40, ABSE 113 or equivalent

115 ENGLISH 11B 0 Units
ABSE 115 focuses on reading, analyzing, and writing about American Literature selections. Students engage in further practice in the modes of analytical, informative/explanatory, and narrative writing. Research paper writing is included. All strategies are aligned with the California Common Core State Standards and high school grade-specific standards to define college and career readiness expectations. ABSE 115 is equivalent to the second semester of 11th grade English (11B). It meets the requirements for a high school diploma. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40, ABSE 115 or equivalent

116 ENGLISH 12A 0 Units
ABSE 116 focuses on reading, analyzing, and writing about British Literature selections. Students engage in further practice in the modes of analytical, informative/explanatory, and narrative writing. Research paper writing is included. All strategies are aligned with the California Common Core State Standards and high school grade-specific standards to define college and career readiness expectations. ABSE 116 is equivalent to the first semester of 12th grade English (12A). It meets the requirements for a high school diploma. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40, ABSE 115 or equivalent

117 ENGLISH 12B 0 Units
ABSE 117 focuses on reading, analyzing, and writing about British Literature selections. Students engage in further practice in the modes of analytical, informative/explanatory, and narrative writing. Research paper writing is included. All strategies are aligned with the California Common Core State Standards and high school grade-specific standards to define college and career readiness expectations. ABSE 117 is equivalent to the second semester of 12th grade English (12B). It meets the requirements for a high school diploma. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40, ABSE 116 or equivalent

147 WORLD GEOGRAPHY 1A 0 Units
ABSE 147 is designed for students who wish to earn high school credit for World Geography. The course presents information about the world and its resources, surveys the basic principles of geography, and explores how such physical factors as climate and natural resources influence the cultural, economic and political life of people in the United States, Canada, Latin America, Europe, Russia, and Eurasia. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40 or equivalent

148 WORLD GEOGRAPHY 1B 0 Units
ABSE 148 is designed for students who wish to earn high school credit for World Geography. The course presents information about the world and its resources, surveys the basic principles of geography, and explores how such physical factors as climate and natural resources influence the cultural, economic and political life of people in Africa, Asia, Australia, and Antarctica. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40 or equivalent

149 ART HISTORY 1A 0 Units
ABSE 149 is a high school level course designed to give an overview of art and architecture from prehistory times up to the Renaissance. The course includes the art of Europe, Asia, Africa, and the Americas. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40 or equivalent

150 ART HISTORY 1B 0 Units
ABSE 150 is a high school level course designed to give an overview of art and architecture from the early Byzantine era through modern times. The course includes the art of Europe, Asia, Africa, and the Americas. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (.5 unit) towards a high school diploma. Recommended Preparation: ESL 40 and ABSE 149 or equivalent

186 BASIC READING LABORATORY 1.0 Unit
NON-DEGREE APPLICABLE
ABSE 186 is an individualized course of study designed to improve a student’s English reading skills. The course covers reading techniques, vocabulary development, comprehension, and application skills. Laboratory 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background. Course Typically Offered: Fall/Spring.

187 BASIC ENGLISH LABORATORY 1.0 Unit
NON-DEGREE APPLICABLE
ABSE 187 is an individualized course of study designed to improve a student’s English writing skills. The course covers the basics of sentence and paragraph composition, including an introduction to mechanics, grammar, spelling, and paragraph form. Laboratory 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background and completion of ABSE 186. Course Typically Offered: Fall/Spring.
ENGLISH AS A SECOND LANGUAGE

1 ENGLISH AS A SECOND LANGUAGE LITERACY
0 Units
ESL 1 is designed for students who need to acquire fundamental literacy and communicative skills in English to successfully participate in everyday situations. Instruction emphasizes recognizing, printing, and using the alphabet; learning sound/letter relationships to read, write and spell; developing basic vocabulary; recognizing, writing, and using the numbers 1-100; and acquiring the language structures and communicative skills necessary in basic life skills competencies. Instruction integrates listening, speaking, reading, and writing skills. Lecture 224 hours. Recommended Preparation: Placement is based upon performance on a division assessment, or referral by ESL 10 instructors, or student self-referral.

5 ENGLISH AS A SECOND LANGUAGE FOR OLDER ADULT LEARNERS
0 Units
ESL 5 is designed for older adult learners at the low-beginning level of English acquisition. This course provides instruction in reading, writing, sentence structure, spelling and phonemic correspondences, verbal communication skills, and emphasizes oral and written activities. Students read and listen to dialogues and compose and practice original dialogues. Other activities include reading of short stories or paragraphs, writing sentences and short paragraphs, role playing of everyday situations, listening comprehension of everyday spoken English, and development of life skills competencies. Lecture 224 hours. Recommended Preparation: Placement is based upon performance on a division placement assessment or completion of ESL 1.

10 ENGLISH AS A SECOND LANGUAGE LEVEL 1
0 Units
ESL 10 is designed for students at the low-beginning level of English acquisition. This course provides instruction on simple reading and writing, basic sentence and paragraph structure, spelling and phonemic correspondences, and listening and oral communication skills. Students read and listen to dialogues and compose and practice original dialogues. Other activities include reading of short stories or paragraphs, writing sentences and short paragraphs, role playing of everyday situations, listening comprehension, dictation, and life skills competencies. Lecture 224 hours. Recommended Preparation: Placement is based upon performance on a division placement assessment or completion of ESL 1.

20 ENGLISH AS A SECOND LANGUAGE LEVEL 2
0 Units
ESL 20 is designed for students at the high-beginning level of English acquisition. This course provides instruction in reading and writing, basic sentence and paragraph structure, spelling, verbal communication skills, listening comprehension of everyday spoken English, and development of life skills competencies. Emphasis is placed upon the study of grammar and vocabulary necessary for everyday life and general understanding of spoken English. Lecture 224 hours. Recommended Preparation: Placement is based upon performance on a division placement assessment or completion of ESL 10.

30 ENGLISH AS A SECOND LANGUAGE LEVEL 3
0 Units
ESL 30 is designed for students at the low-intermediate level of English acquisition. This course provides instruction in reading and writing, sentence and paragraph structure, verbal communication skills, comprehension of everyday spoken English and development of life skills competencies. Instruction stresses the grammatical study of verbs and vocabulary development. Emphasis is placed upon general understanding of spoken and written English and overall effectiveness in communication. Lecture 224 hours. Recommended Preparation: Placement is based upon performance on a division placement assessment or completion of ESL 20.

40 ENGLISH AS A SECOND LANGUAGE LEVEL 4
0 Units
ESL 40 is designed for students at the high-intermediate level of English acquisition. This course provides instruction in reading and writing, sentence and paragraph structure, verbal communication skills, comprehension of everyday spoken English, and development of life skills competencies. Instruction stresses the grammatical study of clauses, a review of verb tenses, and vocabulary development. Emphasis is placed upon the direct study of English grammar appropriate for academic settings and overall effectiveness in communication. Lecture 224 hours. Recommended Preparation: Placement is based upon performance on a division placement assessment or completion of ESL 30.

50 ENGLISH AS A SECOND LANGUAGE LEVEL 5
0 Units
ESL 50 is designed for students at the advanced level of English acquisition. This course provides instruction in reading and writing; paragraph and essay structure; verbal communication skills; comprehension of academic, professional, and everyday spoken English; and development of life skills competencies. Special attention is given to the development of writing skills. Emphasis is placed upon the direct study of English grammar appropriate for academic settings and overall effectiveness in communication. Lecture 224 hours. Recommended Preparation: Placement is based upon performance on a division placement assessment or completion of ESL 40.

80 ENGLISH AS A SECOND LANGUAGE BEGINNING CONVERSATION
0 Units
ESL 80 is designed for students who cannot effectively communicate in most everyday situations. Controlled dialogues and free conversations are presented as students participate in role plays of common, everyday topics including family life, working conditions, consumer issues, and academic goals. Clear speaking and listening comprehension are stressed in classroom drills and activities. Laboratory assignments may be added by the instructor based on individual student needs. Lecture 112 hours. Recommended Preparation: ESL 10 or equivalent.
81 ENGLISH AS A SECOND LANGUAGE INTERMEDIATE CONVERSATION 0 Units

ESL 81 is designed to help intermediate students improve their oral communication, listening comprehension, and vocabulary. Pronunciation of individual sounds, word and sentence stress, and intonation patterns are practiced. Students role-play in pairs and small groups. Class discussions are also used. Laboratory assignments may be added by the instructor based on individual student needs. Lecture 112 hours. Recommended Preparation: ESL 30 or equivalent.

82 ENGLISH AS A SECOND LANGUAGE ADVANCED CONVERSATION 0 Units

ESL 82 stresses fluency and clarity in formal and informal communicative activities. Activities may involve the preparation and presentation of reports, summaries, and persuasive speeches. Students are encouraged to use the vocabulary and grammatical structures appropriate to formal settings. Cultural subtleties such as body language are reviewed to maximize the production of efficient communication. Listening comprehension and lecture skills are also practiced. Laboratory assignments may be added by the instructor based on individual student needs. Lecture 112 hours. Recommended Preparation: ESL 40 or ESL 50 or equivalent.

90 ENGLISH AS A SECOND LANGUAGE CITIZENSHIP 0 Units

ESL 90 Citizenship is designed for students at the high-beginning level of English acquisition. This course provides instruction in reading and writing, sentence structure, verbal communication skills, and comprehension of everyday spoken English. Emphasis is placed on oral and written English necessary to pass the United States citizenship exam. The course content includes instruction in the history and government of the United States, and educates students in the steps to becoming a United States citizen. Lecture 64 hours. Recommended Preparation: ESL 10 or equivalent.

LIFELONG LEARNING SEMINARS

10 CONTEMPORARY WORLD ISSUES 0 Units

LLS 10 centers on discussion of current social, political, and cultural issues around the world. This class is an opportunity for seniors to discuss, share opinions, and gain insight into the complex events of today’s world. Lecture 36 hours. Note: This is a course designed for the older adult. Prerequisite: None.

21 QUALITY OF LIFE 0 Units

LLS 21 is an interactive class focusing on improving the quality of life, increasing social outlets, and clarifying life issues. Lecture 32 hours. Note: This is a course designed for the older adult. Prerequisite: None.

27 WHERE’S MY MEMORY? 0 Units

LLS 27 explores the far reaches of the human mind – the processes of remembering and forgetting, with special emphasis on age-related memory loss and strategies for memory enhancement. Lecture 12 hours. Note: This is a course designed for the older adult. Prerequisite: None.

30 DISCOVERING YOURSELF THROUGH MEMOIR WRITING AND MORE 0 Units

LLS 30 provides the opportunity for mature adults to recall, discuss and translate their memories into written memoirs by application of varied writing techniques and shared oral expression. Lecture 8 hours, laboratory 24 hours. Note: This is a course designed for the older adult. Prerequisite: None.

44 DIET AND NUTRITION FOR OLDER ADULTS 0 Units

LLS 44 covers nutritional basics as a foundation for personalizing a healthy, simple, and effective diet plan that is best for each mature adult student. Lecture 12 hours. Note: This is a course designed for the older adult. Prerequisite: None.

72 FILM CRITICISM 0 Units

LLS 72 provides exposure to an academic curriculum of film history and criticism for older adults. This class helps students to maintain linkages to both the past and the contemporary world. The discussion of film history and theory develops both analytic and verbal skills. Emphasis is placed on how films historically reflect their time and how social issues have evolved. Selected film clips will be shown. Lecture 12.5 hours. Note: Each session will focus on five different films. Prerequisite: None.

90 ART HISTORY 0 Units

LLS 90 promotes an understanding of the role of art in human development. A variety of periods, geographical areas, and artists will be presented, one school of art per each session. This course is designed for the older adult and will emphasize analyzing the art from the perspective of having lived through the richness of youth, early adulthood, and middle age. Lecture 14 hours. Prerequisite: None.

95 WORLD RELIGIONS 0 Units

LLS 95 provides a general introduction to human religious nature, ancient religions, Judaism, Christianity, Islam, Hinduism and Buddhism. This course is designed for the older adult and focuses on the awareness of the student’s spiritual experience from the senior perspective. Lecture 32 hours. Note: This is a course designed for the older adult. Prerequisite: None.

141 ANCIENT CIVILIZATIONS OF THE WORLD 0 Units

LLS 141 explores the history, archaeology and influence of civilizations in the ancient world. Each session explores a different civilization. This course is designed for the older adult who wants to recharge their interest in and sharpen their awareness of how ancient civilizations laid the groundwork for our contemporary world. Lecture 32 hours. Note: Each session will focus on a different civilization. Prerequisite: None.
OFFICE BUSINESS TECHNOLOGY

11 BEGINNING KEYBOARDING
0 Units

OBT 11 is an individualized class wherein students learn keyboarding by touch, or how to type on a computer without looking at the keyboard. Students use computers to develop their skills. Extensive accuracy and speed development is offered. Lecture 50 hours. Note: Students may enter at any time throughout the semester; the curriculum is individualized. The course is self-paced. Recommended Preparation: ESL 30 or equivalent

12 INTERMEDIATE KEYBOARDING
0 Units

OBT 12 is an individualized class that provides additional practice in keyboarding by touch through the production of business documents. All students work on computers and learn MS Word as they advance. Extensive accuracy and speed development is offered. Lecture 150 hours. Note: Students may enter at any time throughout the semester; the curriculum is individualized. The course is self-paced. Recommended Preparation: OBT 11 or equivalent

13 ADVANCED KEYBOARDING
0 Units

OBT 13 is an individualized class that applies keyboarding and MS Word skills to business documents through the application of advanced features in a variety of specialized situations. All students work on computers and learn Advanced MS Word functions as they progress. Extensive accuracy and speed development is offered. Lecture 100 hours. Note: Students may enter at any time throughout the semester; the curriculum is individualized. The course is self-paced. Recommended Preparation: OBT 12 or equivalent

14 KEYBOARDING FOR HIGH SCHOOL CREDIT
0 Units

OBT 14 is an individualized class that covers keyboarding by touch through the production of business documents. All students work on computers and learn MS Word as they advance. Extensive accuracy and speed development is offered. Lecture 100 hours. Note: Students may enter at any time during the first half of the semester; the course is self-paced. Successful completion of this course is worth 5 high school credits. Recommended Preparation: ESL 30 or equivalent

21 BUSINESS MATH AND CALCULATORS
0 Units

OBT 21 increases students’ basic math skills. The course includes instruction in basic arithmetic, calculators by touch, speed development on calculators, and calculator functions. Lecture/Demonstration 160 hours. Note: Students may enter at any time, and the curriculum is individualized. The course is self-paced. Students may complete one or more sections. Prerequisite: None.

22 BEGINNING ACCOUNT CLERK
0 Units

OBT 22 students study full cycle accounting, financial statements, payroll, and accounts receivable and payable in both manual and computerized formats. Lecture 140 hours. Note: Students may enter at any time; the curriculum is individualized. The course is self-paced. Recommended Preparation: None

23 ADVANCED ACCOUNT CLERK
0 Units

OBT 23 students study advanced accounting, financial statements, uncollectibles, notes payable and receivable, accounts receivable and payable in both manual and computerized formats. Lecture 160 hours. Note: Students may enter at any time; the curriculum is individualized. The course is self-paced. Recommended Preparation: OBT 22 or equivalent

31 BUSINESS WRITING: EMAIL
0 Units

OBT 31, Business Writing: Email discusses various terms, actions, structure, and features that are commonly used when working with email in a business setting. The course covers professional email writing practices, readability, etiquette, plus threats and protection. Lecture/Demonstration 24 hours. Recommended Preparation: ESL 30 or equivalent

33 BUSINESS LETTER WRITING
0 Units

OBT 33 covers business letter composition, English essentials, and the production of other workplace documents such as agendas and minutes. Lecture/Demonstration 32 hours. Prerequisite: None.

34 FILING FUNDAMENTALS
0 Units

OBT 34 covers the use of indexing rules for filing alphabetically, numerically, geographically and by subject. Classroom exercises, practical activities, handouts, and quizzes are designed to prepare students for working with office files and employment tests. Lecture/Demonstration 40 hours. Recommended Preparation: ESL 30 or equivalent

35 ON-THE-JOB COMMUNICATION
0 Units

OBT 35 emphasizes workplace interaction and avoiding barriers to communication as well as understanding and adapting to a variety of personal communication styles. Included are communication strategies for getting along with coworkers, supervisors, and clients. Other topics covered are overcoming negative behaviors in teams/groups, decision making, and problem solving. Oral skills are stressed through practical application of telephone techniques. Lecture/Demonstration 32 hours. Prerequisite: None.

40 21ST. CENTURY EMPLOYMENT STRATEGIES
0 Units

OBT 40 prepares students for success in gaining employment. Topics to be covered include resume development, cover letters, interviewing techniques, job search strategies, employment applications, and job retention. Lecture/Demonstration 96 hours. Recommended Preparation: ESL 40 or equivalent

50 CUSTOMER SERVICE SKILLS
0 Units

OBT 50 teaches practical techniques to overcome the number one complaint of employers: poor customer service skills. Emphasis is on problem solving techniques, handling complaints over the phone or in person, the importance of verbal and non-verbal communication, and appropriate business etiquette. Lecture/Demonstration 32 hours. Recommended Preparation: ESL 30 or equivalent

55 OFFICE EQUIPMENT
0 Units

OBT 55 prepares students for office tasks that require the use of office equipment. Students who have successfully completed the necessary competencies will be assigned in-house job shadowing where they will interact with co-workers and ‘learn-by-doing’ in a real-world setting under the direct supervision of an instructor. Lecture/Demonstration 32 hours. Prerequisite: None.
61 MEDICAL FRONT OFFICE
0 Units
OBT 61 provides the participant with a comprehensive understanding of medical front office duties. Emphasis will be on mastering medical terminology, handling problem situations involving patients over the phone or in person, and learning basic billing and transcription techniques and software. Lecture/Demonstration 200 hours. Note: Student should be able to keyboard at a minimum rate of 20 wpm and perform alpha/numeric filing. Prerequisite: None.

62 DENTAL FRONT OFFICE
0 Units
OBT 62 provides the participant with a comprehensive understanding of dental front office duties. Emphasis will be on mastering dental terminology, handling problem situations involving patients over the phone or in person, and learning basic billing and transcription techniques and software. Lecture/Demonstration 140 hours. Note: Student should be able to keyboard at a minimum rate of 20 wpm and perform alpha/numeric filing. Prerequisite: None.

70 INTRODUCTION TO COMPUTERS
0 Units
OBT 70 provides an introduction to computer concepts for students with no previous exposure to computing. The course focuses on the microcomputer (PC). Lecture/Demonstration 16 hours. Recommended Preparation: ESL 30.

71 COMPUTER BASICS/ESL LEARNERS
0 Units
OBT 71 is a computer literacy course especially created for ESL students. The course will familiarize students with computer vocabulary and will cover an introduction to keyboarding and educational software programs, using the Internet, e-mail, and word processing applications. Students should become more confident in using a computer so they can continue their education in basic computer business classes and improve their independent computing skills. Lecture 64 hours. Prerequisite: None.

80 WINDOWS
0 Units
OBT 80 provides students with a basic introduction to the Windows environment. Topics covered include managing the desktop, the mouse, managing files (creating folders, deleting, moving, and copying files, etc.), and learning system information. Lecture/Demonstration 16 hours. Recommended Preparation: ESL 30.

90 MICROSOFT EXCEL
0 Units
OBT 90 provides students with a basic introduction to spreadsheet software using Microsoft Office Excel. This is a beginning level course that teaches the student how to create a worksheet, use formulas and functions, insert charts, and more. Lecture/Demonstration 48 hours. Recommended Preparation: ESL 30 and OBT 70 or equivalent.

91 MICROSOFT ADVANCED EXCEL
0 Units
OBT 91 introduces spreadsheet software using Microsoft Office Excel. This is an intermediate level course that teaches the student advanced formatting techniques, use of templates and workspace, and advanced functions. Lecture/Demonstration 48 hours. Recommended Preparation: ESL 30 and OBT 90.

95 QUICKBOOKS AUTOMATED ACCOUNTING
0 Units
OBT 95 is an automated accounting program using QuickBooks software. This is an introductory course that teaches students to input basic business information and transactions, such as entering customers/vendors and chart of accounts, as well as writing checks, entering/paying bills and making deposits. Lecture/Demonstration 28 hours. Prerequisite: None.

97 PEACHTREE/SAGE AUTOMATED ACCOUNTING
0 Units
OBT 97 is an automated accounting course using Peachtree Complete Accounting software. This is an introductory course that teaches students to input basic business information and transactions, such as entering customers/vendors and chart of accounts, as well as writing checks, entering/paying bills and making deposits. Lecture/Demonstration 28 hours. Prerequisite: None.

100 BEGINNING MICROSOFT WORD
0 Units
OBT 100 is a basic introduction to word-processing using Microsoft Word. This is a beginning level course that teaches students how to create, edit, print, and store simple documents. The course also includes formatting, search and replace, creating columns, and headers/footers. Lecture/Demonstration 48 hours. Recommended Preparation: ESL 30, typing speed of 25 wpm, and OBT 70 or equivalent.

101 ADVANCED MICROSOFT WORD
0 Units
OBT 101 is an advanced course of word-processing using Microsoft Word. This course teaches the student how to mail merge, format with special features, add visual appeal to documents, format with macros and styles, and protect forms. Lecture/Demonstration 48 hours. Recommended Preparation: ESL 30, typing speed of 25 wpm and OBT 100 or equivalent.

111 MICROSOFT POWERPOINT
0 Units
OBT 111 provides students with a basic introduction to presentation software using Microsoft PowerPoint. Topics covered include: using a design template, using auto layouts to create a presentation, running a slide show, inserting clip art, and creating organizational charts. Lecture/Demonstration 32 hours. Recommended Preparation: ESL 30, typing speed of 25 wpm, OBT 100 or equivalent, OBT 90 or equivalent.

113 MICROSOFT ACCESS
0 Units
OBT 113 is a basic introduction to database using Microsoft Office Access. This is a beginning level course that teaches the student how to create tables, define fields, open and close tables, create relationships between tables, sort tables, and create reports and forms. Lecture/Demonstration 48.0 hours. Recommended Preparation: ESL 30, typing speed of 25 wpm, OBT 100 or equivalent, OBT 90 or equivalent.
138 MICROSOFT OUTLOOK  
0 Units  
OBT 138 provides students with a basic introduction to a personal information management (PIM) program using Microsoft Office Outlook. This is a beginning level course that includes how to communicate by e-mail, manage contacts, plan tasks, use schedules, and manage the inbox. Lecture/Demonstration 32 hours. Recommended Preparation: ESL 30, typing speed of 25 wpm, OBT 100 or equivalent, OBT 90 or equivalent.

140 INTERNET  
0 Units  
OBT 140 provides students with a basic introduction to accessing and using the Internet. Topics covered include how to connect to the Internet, use of web browsers, use of search engines, and how to access services and information on the Internet. Lecture/Demonstration 16 hours. Recommended Preparation: ESL 30.

150 INTEGRATED TECHNOLOGY  
0 Units  
OBT 150 provides students with a basic introduction to integrated technology concepts needed in the business world. The course focuses on microcomputer (PC) software and peripheral devices used to enhance input, output, and storage capability. Student will move data between applications (Word, Excel, PowerPoint, and Access), and install and use devices such as a FAX/Modem, scanner, DVD-R/RW, Digital Cameras and Memory Readers. Lecture/Demonstration 32 hours and Student Laboratory 32 hours. Prerequisite: None.

PARENT EDUCATION – CHILD OBSERVATION

10 INFANTS (0-6 MONTHS)  
0 Units  
PARED 10 focuses study on parenting children from birth through 6 months of age. Parents (or caregivers) attend class with one or more children of the designated age. Lecture 16 hours, laboratory 16 hours. Prerequisite: None.

11 INFANTS (7-12 MONTHS)  
0 Units  
PARED 11 focuses study on parenting children from 7 to 12 months of age. Parents (or caregivers) attend class with one or more children of the designated age. Lecture 16 hours, laboratory 16 hours. Prerequisite: None.

12 TODDLERS (13-19 MONTHS)  
0 Units  
PARED 12 focuses study on parenting children from 13 to 19 months of age. Parents (or caregivers) attend class with one or more children of the designated age. Lecture 24 hours, laboratory 16 hours. Prerequisite: None.

13 TODDLERS (20-26 MONTHS)  
0 Units  
PARED 13 focuses study on parenting children from 20 to 26 months of age. Parents (or caregivers) attend class with one or more children of the designated age. Lecture 24 hours, laboratory 16 hours. Prerequisite: None.

20 TWO-YEAR OLDS  
0 Units  
PARED 20 focuses study on parenting the two-year old child. Parents (or caregivers) attend class with one or more child of the designated age. Lecture 24 hours, laboratory 24 hours. Prerequisite: None.

21 TWO OR THREE-YEAR OLDS  
0 Units  
PARED 21 focuses study on parenting the two or three-year old child. Parents (or caregivers) attend class with one or more children of the designated age. Lecture 24 hours, laboratory 24 hours. Prerequisite: None.

22 TWO, THREE, OR FOUR-YEAR OLDS  
0 Units  
PARED 22 focuses study on parenting children from age two through the pre-kindergarten years. Parents (or caregivers) attend class with one or more children of the designated age. Lecture 24 hours, laboratory 24 hours. Prerequisite: None.

30 THREE-YEAR OLDS  
0 Units  
PARED 30 focuses study on parenting the three-year-old child. Parents (or caregivers) attend class with one or more children of the designated age. Lecture 24 hours, laboratory 24 hours. Prerequisite: None.

31 THREE OR FOUR-YEAR OLDS  
0 Units  
PARED 31 focuses study on parenting the three or four-year old child. Parents (or caregivers) attend class with one or more children of the designated age. Lecture 24 hours, laboratory 24 hours. Prerequisite: None.

41 PRE-KINDERGARTEN  
0 Units  
PARED 41 focuses study on parenting the pre-kindergarten aged child (4 to 5 years of age). Parents (or caregivers) attend class with one or more children of the designated age. Lecture 32 hours, laboratory 32 hours. Prerequisite: None.

50 MULTI-AGE  
0 Units  
PARED 50 focuses study on parenting children from birth through the pre-kindergarten years. Parents (or caregivers) attend class with one or more pre-school age child. Lecture 24 hours, laboratory 24 hours. Prerequisite: None.

51 FATHERING SKILLS  
0 Units  
PARED 51 focuses study on the father’s role in parenting children from birth through the pre-kindergarten years. Fathers attend class with one or more pre-school age child. Lecture 16 hours, laboratory 16 hours. Prerequisite: None.

54 WORKING PARENTS  
0 Units  
PARED 54 focuses study on the working parent’s role in parenting children from birth through the pre-kindergarten years. Special attention is given to the challenges of raising a child while working full-time. Parents attend class with one or more children of the designated age. Lecture 16 hours, laboratory 16 hours. Prerequisite: None.

60 POSITIVE PARENTING SKILLS  
0 Units  
PARED 60 is designed for parents who seek instruction in positive, alternative parenting methods that will redirect inappropriate behavior of children and adolescents of all ages. If needed by the students enrolled, this class may also address single parenting issues. Court referred parents are welcome. Lecture 32 hours. Note: This class is for the parent only. No children may attend. Lecture 1-3 hours/Laboratory-Studio 2-9 hours. Prerequisite: None.
70 THE POLITICS & PRACTICE OF PARENT ASSOCIATIONS
0 Units
PARED 70 is designed for students who wish to learn about the parent’s role in parent/teacher associations. Practical experience is provided in areas of volunteerism, designing school based family enrichment activities, parent association management and participation, as well as organization of school-based newsletters. Lecture 16 hours. Laboratory/Studio 16 hours. Note: This class is for parents only. No children may attend. Prerequisite: None.

90 SINGLE PARENTING
0 Units
PARED 90 focuses study on the special concerns and issues inherent in raising children as a single parent. Lecture 32 hours. Note: This class is for parents only. No children may attend. Prerequisite: None.

103 ANGER MANAGEMENT AND DISCIPLINE
0 Units
PARED 103 is designed for parents who seek assistance in managing their expressions of anger in order to parent more effectively and use appropriate discipline strategies. Lecture 16 hours. Note: This class is for adults only. No children may attend. Prerequisite: None.

STUDENT DEVELOPMENT

1 SUPERVISED TUTORING
0 Units
ST DV 1 is a supervised tutoring course designed to meet the individual academic needs of students requiring instructional assistance. Tutoring is provided for a course in which a student is concurrently registered. Students work with tutors who are recommended, trained and supervised by faculty. An instructor, a librarian, or a counselor must refer students to this program. The referral process is an effort to remedy specific academic needs as identified by the counselor or instructor. Note: Student must be concurrently enrolled in the course for which he/she receives tutoring and must be referred by an instructor, a librarian, or a counselor. Prerequisite: None.

Instructor of Business Administration
B.A., California State University, Northridge
M.B.A., Pepperdine University

*AGHAZIAN, ARMOND
Instructor of Business Administration
B.A., California State University, Northridge
M.B.A., Pepperdine University

*AGHAZIAN, ARMOND
Instructor of Business Administration
B.A., California State University, Northridge
M.B.A., Pepperdine University

NOTES:

*Adjunct Faculty

Academic Rank is granted based on Administrative Regulation 4133 and the process is overseen by the Academic Senate.
*ALEN, THOMAS E.*
Instructor of English as a Second Language
A.A., Cabrillo College
B.A., University of Washington
M.A., Inter American University of Puerto Rico

*ALLPORT, BRUCE E.*
Instructor of Aviation and Transportation
B.S., M.A., California State University, Pomona

*ALVAREZ, CLAUDIA*
Instructor of Physical Education
B.S., California State University, Northridge
M.A., California State University, Long Beach

*AMES, TRAVIS J.*
Instructor of Economics
B.A., University of California, Los Angeles
M.A., California State University, Fullerton

*AMIRIAN, ANNETTE*
Assistant Professor, Office Business Technology, Continuing Education
M.B.A., California State University, Northridge

*AMIRIAN, ARPI*
Instructor of Computer Applications and Business Office Technologies
A.S., Glendale Community College
B.S., California State University, Northridge
M.A., Woodbury University

*AMIRIAN, SIROUN*
Instructor of Nursing Science
B.S.N., Chamberlain College of Nursing

*A, HANNAH*
Instructor of English as a Second Language, Continuing Education
B.A., California State University, Northridge
M.A., California State University, Los Angeles

*ANDERSEN-WAHLENBERG, TINA*
Program Manager, Center for Students with Disabilities
Professor of Adapted Computer Technology
B.A., Cornell College
M.A. University of Southern California

*ANDERSON, CHARLES P.*
Instructor of Geology
B.A., California State University, Los Angeles
M.S., University of California, Riverside
J.D, Loyola Law School, Los Angeles

*ANDERSON, ENOCH*
Instructor of English
B.A., University of California, Los Angeles
M.A., Claremont Graduate School
Ph.D., Claremont Graduate School

*ANDERSON, SHELLEY*
Instructor of Parent Education, Continuing Education
B.A., California State University, Northridge

*ANDERSON-MCGILL, TAYLOR M.*
Instructor of Biology
B.S., University of California, San Diego
M.S., California State University, Northridge

*ANTONIC MATIC, ALEKSANDRA*
Instructor of Art History
B.A., M.A., University of Art, Belgrade, Serbia

*APPLEBAUM, LAUREN D*
Instructor of Psychology
M.S., M.Phil., Ph.D., Yale University

*AQUE, JONN*
Counselor, Professor
B.S., M.S., California State University, Los Angeles

*ARAKELYAN, OVANES*
Instructor of Music
B.M., University of Southern California
M.A., California State University, Fresno
D.M.A., Claremont Graduate University

*ARAMYAN, SUSANNA*
Assistant Professor, English as a Second Language, Continuing Education
M.A., Yerevan State University
M.A., National University

*ARAQOOON, TALIN*
Counselor
B.S., University of Southern California
M.S., California State University, Los Angeles

*ARBID, ADRIANA*
Instructor of Lifelong Learning Skills, Continuing Education
M.A., University of Southern California
J.D., Western State University College of Law

*ARIZA, ERNEST H.*
Instructor of Environmental Technology
B.S., California State University, Los Angeles

*ARMSTRONG, SARAH E.*
Instructor of Mathematics
B.S., University of Redlands
M.S., Claremont Graduate University

*ARONOFF, SHELLEY*
Professor, Librarian
B.A., M.A., Mills College
M.L.I.S., San Jose State University

*ARRNOY, LIZZETTE*
Instructor of Economics
M.A., California State University, Los Angeles

*ARUTIAN, CAROL L.*
Assistant Professor of Art
B.A., California State University, Northridge
M.F.A., Rhode Island School of Design

*ASHBY, CRAIG*
Instructor of Art/Photography
B.F.A., University of California, San Diego
M.F.A., Art Center College of Design

*ASHE, REMY*
Instructor of Speech Communication
M.A., California State University, Los Angeles

*ASSADI, BARBARA DIANE*
Associate Professor, English as a Second Language, Continuing Education
B.A., M.A., University of Missouri

*ASTLE, SCOTT*
Assistant Professor of Business Administration
B.A., J.D., Brigham Young University

*ATAIAN, SHAKEH*
Counselor, EOPS
B.S., California State University, Northridge
M.S., University of La Verne

*ATIN, SARAH R.*
Instructor of Parent Education, Continuing Education
B.A., Bard College
M.Ed., Western Washington University

*ATTYAH, DAVID J.*
Assistant Professor of Art
B.A., Princeton University
M.A., Harvard University
M.F.A., Tufts University

*AVANESIAN, ROZIK*
Instructor of Computer Applications & Office Technologies
B.A., Woodbury University

*AWAKUNI, EUPHRONIA Z.*
Instructor of English as a Second Language
B.A., Evergreen State College
M.A., Monterey Institute of International Studies

*AZIZIAN, OPHELIA*
Instructor of Physics
M.S., Urmia University, Iran

---

* Adjunct Faculty
*BABAIAN, PIERRO H.
Instructor of Administration of Justice
B.S., California State University, Los Angeles
J.D., Glendale University College of Law

*BABAKHANIAN, MEGHEDI
Instructor of Engineering
B.S., University of California, Los Angeles
B.S., University of California, San Diego

*BACA, ABRAHAM E.
Instructor of Emergency Medical Technology
A.A., Pikes Peak Community College
A.A., Pueblo Community College
B.A., Colorado State University

*BACH, SARAH C.
Instructor of Music
B.M., Eastman School of Music
M.M., Rice University

*BADALEYAN, IRINA H.
Instructor of Mathematics
B.A., M.S., Yerevan State University

*BAGAN, ANTHONY
Instructor of Fire Technology

*BAGHDASARIAN, SHOGER
Assistant Professor of Mathematics
B.S., University of Tehran
M.S., University of Pierre and Marie Curie

*BAGHDASARIAN, NARBEH
Instructor of Biology
M.D., Teheran University Medical School

*BAGHOOMIAN, ZORIK
Instructor of English as a Second Language
B.A., University of California, Los Angeles
M.A., California State University, Northridge

*BAHALLOO, HASSINA M.
Counselor
B.A., M.S., California State University, Northridge

*BAMRI, MOHAMMAD
Instructor of Chemistry
B.S., M.S., Ph.D., Sharif University of Technology

*BALDIWALA, FATEMA S.
Instructor of English
M.A., California State University, Northridge

*BALDWIN, MARY KATHRYN
Associate Professor of English as a Second Language
B.A., M.A., California State University, Northridge

*BALIAN, MURIEL
Assistant Professor of Music
B.A., University of California, Berkeley
M.M., University of Southern California

*BALKIN, LEE E.
Instructor of Physical Education
B.A., University of California, Los Angeles

*BALLENGER, BOB
Instructor of English as a Second Language, Continuing Education
M.J., University of California, Los Angeles

*BALTAYAN, AKOP
Instructor of Accounting
B.S., California State University, Los Angeles
J.D., William Howard Taft University

*BANAAQ, PAOLO
Counselor
A.A., Glendale Community College
B.A., University of California, Los Angeles
M.Ed., University of Southern California

*BARDENS, BEN
Assistant Professor of Digital Animation
B.A., Humboldt State University

*BARSAWI, HASSIM
Instructor of English
B.A., M.A., California State University, Los Angeles

*BARKIN, LINDA
Instructor of Business Administration
B.A., Loyola Marymount University
J.D., University of the Pacific, McGeorge School of Law

*BARRETT, MARY ELIZABETH
Counselor, Center for Students with Disabilities
B.A., M.Ed., Boston College
M.A., C.A.G.S., Gallaudet University

*BARRIO DE MENDOZA, MARIA
Instructor of Spanish
B.A., Universidad Nacional Mayor, San Marcos
M.A., California State University, Long Beach

*BARRIO-SOULLO, RAMONA
Program Manager, Student Equity; Professor, Counselor
B.A., M.A., California State University, Northridge
Ed.D., University of Southern California

*BARSAMIAN, HASMIK
Instructor of English
B.A., M.A., California State University, Los Angeles

*BARSSENYAN, ANAIT
Instructor of Mathematics
B.S., University of California, Los Angeles
M.S., Yerevan State University

*BARSSENYAN, YERANUI
Counselor
B.A., M.S., California State University, Northridge

*BASELLA, MELISSA A.
Instructor of English as a Second Language
B.S., Indiana University of Pennsylvania
M.A., M.A., California State University, Los Angeles

*BATU, TREENA
Instructor of Mathematics
Ph.D., University of Southern California

*BATES, ROBERT E.
Instructor of Accounting
B.S., University of Southern California

*BATTAGLIA, ANTONIO
Instructor of Culinary Arts
A.A., Los Angeles City College
B.V.E., M.A., California State University, Los Angeles

*BECK, ANNE MARIE
Counselor
B.A., University of Oregon
M.S., California State University, Northridge

*BECKETT, A. MARA
Assistant Professor of English as a Second Language
B.A., Humboldt State University
M.A., Ph.D., University of Southern California

*BEDERMAN, SARAH M.
Instructor of English as a Second Language
B.A., University of Michigan
M.A., California State University, Los Angeles
M.A., University of California, Los Angeles

*BEECHER, ALYSON
Instructor of Child Development
B.S., Keene State College
M.A., Gallaudet University

*BEELEER, MARIEKE F.
Instructor of Speech Communication
M.A., Emerson College

*BEEMAN, JOSEPH
Associate Professor of Biology
B.S., University of California, Irvine
M.S., California State University, Los Angeles

*Adjunct Faculty
Adjunct Faculty

*BEHESHTI, BAHAREH
Counselor
M.S., National University

*BELLE, NICOLE T.
Instructor of Photography
B.A., New York University
B.F.A., Rochester Institute of Technology
M.F.A., University of California, Riverside

*BENDER, JASON E.
Assistant Professor of Physical Education
A.A., Santa Rosa Junior College
M.S., Azusa Pacific University
B.A., B.A., J.D., University of California, Los Angeles

*BENEDICT, MARISSA C.
Instructor of Music
B.M., University of Southern California

*BENVENUTO, ADRIANA M.
Instructor of Spanish
B.A., Moorpark College
B.A., University of California, Berkeley
M.Ed., University of California, Los Angeles

*BLACK, DAVID
Instructor of Computer Integrated Manufacturing
B.S., California State Polytechnic University, Pomona

*BLACK, SEAN G.
Instructor of Photography
B.S., Barry University
M.A., California State University, San Bernardino
M.F.A., University of Miami

*BLACK, RYAN
Counseling
B.A., M.S., Azusa Pacific University

*BLACK, DAVID
Instructor of Computer Integrated Manufacturing
B.S., California State Polytechnic University, Pomona

*BLACK, SEAN G.
Instructor of Photography
B.S., Barry University
M.A., California State University, San Bernardino
M.F.A., University of Miami

*BLYNN AVANOSIAN, SYLVIA C.
Instructor of Spanish
B.A., M.A., California State University, Los Angeles

*BOUQUINEN, PATRICIA G.
Instructor of English as a Second Language
B.A., M.A., California State University, Los Angeles

*BLYNN AVANOSIAN, SYLVIA C.
Instructor of Spanish
B.A., M.A., California State University, Los Angeles

*BODURYAN, ANAHIT A.
Counselor, EOPS
B.A., M.A., California State University, Northridge

*BOLIN, MATTHEW R.
Instructor of English as a Second Language
B.A., M.A., California State University, Northridge

*BOND, BETTE J.
Instructor of English as a Second Language, Continuing Education
B.S., Minnesota State University
M.A., Ph.D., Biola University

*BOQUINEN, PATRICIA G.
Instructor of Spanish
B.A., M.A., California State University, Los Angeles

*BOWEN, MARK R.
Instructor of Astronomy and Physics
B.S., College of William and Mary
M.S., San Francisco State University
Ph.D., University of California, Davis

*BOWMAN, ROGER
Associate Professor of History
B.A., M.A., University of California, Los Angeles

*BOWYER, ALFRED
Counselor
B.A., M.S., California State University, Northridge

*BOWYER, ALFRED
Counselor
B.A., M.S., California State University, Northridge

*BOWYER, ALFRED
Counselor
B.A., M.S., California State University, Northridge

*BOWYER, ALFRED
Counselor
B.A., M.S., California State University, Northridge

*BOWYER, ALFRED
Counselor
B.A., M.S., California State University, Northridge

*BOWYER, ALFRED
Counselor
B.A., M.S., California State University, Northridge

*BOWYER, ALFRED
Counselor
B.A., M.S., California State University, Northridge
Adjunct Faculty

**BRGMSUS, IBERIA G.**
Librarian
B.S., California State University, Northridge

**BROTMAN, DANIEL H.**
Instructor of Economics
M.A., Johns Hopkins University
M.L.I.S., San Jose State University

**BROWN, LAURA G.**
Instructor of English as a Second Language
B.A., M.A., California State University, Los Angeles

**BROWN, WONDER M.**
Instructor of Health Information Technology
B.S., California State University, Dominguez Hills

**BRYER, ELIZABETH J.**
Instructor or English
B.A., Barnard College
M.A., University of Arkansas

**BUDARIN, DMITRI V.**
Instructor of Mathematics
M.S., Moscow State University

**BUNNELL, ANDREW C.**
Instructor of English as a Second Language, Continuing Education
B.A., M.A., California State University, Fresno

**BURDZY, ANDREA L.**
Instructor of Theatre Arts
B.F.A., M.F.A., Utah State University

**BURESCH, VICTORIA R.**
Instructor of Anthropology
B.S., University of California, Irvine
M.A., California State University, Fullerton

**BURGHDORF, MARILYN**
Instructor of English as a Second Language, Continuing Education
B.A., M.A., California State University, Northridge

**BURNETT, ANGELA**
Assistant Professor of English as a Second Language
B.A., M.A., University of California, Los Angeles

**BUTTERWORTH, PATRICIA R.**
Instructor of Biology
Ph.D., University of Mexico

**BYRNES, BRENDAN P.**
Instructor of Music
B.F.A., Berklee College of Music
M.F.A., California Institute of the Arts

**CACACE, ROSANNA**
Instructor of English
B.A., M.A., California State University, Northridge
M.A., California State University, Los Angeles

**CALDERON, ERIN E.**
Instructor of Kinesiology
B.S., M.S., California State University, Northridge

**CAMARGO, DANTE**
Instructor of Spanish
B.A., M.A., University of California, Los Angeles

**CAMP, KATHRYN**
Professor of Applied Computer Technology
B.A., Humboldt State
M.A., University of Southern California

**CANELA, MARISELA**
Counselor
B.A., California State University, Northridge
M.S. Loyola Marymount University

**CANNON, ROBERT E.**
Instructor of Speech Communication
B.A., Southern Illinois University
M.A., California State University, Los Angeles

**CARDENAS, TROY**
Instructor of English
B.A., University of California, Berkeley
M.A., University of California, San Diego

**CARD, P. CATHERINE**
Instructor of Music
A.A., Florida School of the Arts
B.M., Jacksonville University
M.M., Bowling Green State University

**CARDON, JAE SHIN**
Instructor of English as a Second Language, Continuing Education
B.A., M.Ed., University of San Diego

**CARRERA, VICTOR L.**
Instructor of Physical Education, Soccer
B.A., California State University, Los Angeles

**CARROLL, JOHN E.**
Instructor of Oceanography
B.S., University of Wyoming
M.A., United States International University

**CASEY, CHRISTOPHER L.**
Instructor of Technology & Aviation
B.S., The Union Institute and University
M.A., University of Phoenix
M.A., Woodbury University
M.A., University of Southern California

**CASHELL, JUDY**
Instructor of Child Development
B.F.A., California College of Arts and Crafts
M.S., Bank Street College of Education

**CASS, AARON E.**
Instructor of Fire Academy
B.A., University of Toronto

**CASTEL DE ORO, JAMES**
Professor, Counselor, EOPS
B.A., St. John's College
M.A., San Diego State University

**CERVANTES, ANGEL**
Instructor of Sociology
B.A., Occidental College
M.A., The Claremont Graduate School

**CHAHAYED, LISA**
Assistant Professor of American Sign Language
A.A.S., Rochester Institute of Technology

**CHAKMAKCHIAN, KATRINE A.**
Instructor of English
B.A., Occidental College
M.A., California State University, Los Angeles

**CHAMRAS, SEVADA**
Division Chair, Physical Sciences; Professor, Chemistry
B.S., University of California, Los Angeles
Ph.D., University of California, Santa Barbara

**CHANG, BRIAN B.**
Instructor of English as a Second Language
B.A., M.A., California State Polytechnic University, Pomona

**CHANG, HSIAO-YING**
Instructor of Mathematics
M.S., Ph.D., University of Iowa

**CHANG, RICHARD**
Instructor of Journalism
B.A., Brown University
M.J., University of California, Berkeley

**CHAVEZ-APPEL, MERCEDES**
Instructor of Speech Communication
B.A., Vanguard University
B.A., Central Washington University
M.A., California State University, Long Beach

*Adjunct Faculty
*CHAVEZ, ROBERT M.
Instructor of Business Administration
A.A., Glendale Community College
B.S., California State University, Northridge

*CHAWAREWONG, NORACHI
Instructor of Business Administration
B.A., M.S., California State University

*CHEESEMAN, BONNIE L.
Instructor of English as a Second Language, Continuing Education
B.A., University of California, Los Angeles
M.Ed., California State University, Los Angeles
M.A., Arizona State University

*CHEN, CHING CHIN
Instructor of Mathematics
B.S., M.S., California State Polytechnic University, Pomona

*CHEN, ROBERT
Instructor of Mathematics
M.S., California State Polytechnic University, Pomona

*CHILINGARIAN, SAMUEL S.
Instructor of Music
B.M., M.M., University of Missouri, Kansas City

*CHIN, CHRISTOPHER
Instructor of Business Administration
M.B.A., Baylor University

*CHIN, PATRICIA
Instructor of Art
B.F.A., M.A., New York Institute of Technology

*CHIU, PAUL
Instructor of Architecture
B.A., Woodbury University

*CHO, BENJAMIN S.
Instructor of English as a Second Language
B.A., California State University, Northridge
M.A., University of Southern California

*CHO, MISTY
Instructor of English as a Second Language, Continuing Education
B.A., Central Washington University
M.A., Soka University of America

*CHOI, HENRY
Instructor of Chemistry
B.S., University of California, Los Angeles
M.S., Ph.D., Cornell University

*CHRISTY, ALEXANDRA H.
Instructor of English as a Second Language, Continuing Education
B.A., University of Virginia
M.A., San Diego State University

*CHUAH, CHENG-CHENG
Instructor of English as a Second Language, Continuing Education
B.A., Scripps College, CA

*CHUN, MIHYUN
Instructor of Music
B.M., M.M., University of Southern California

*CHUNG, CASEY
Instructor of English as a Second Language, Continuing Education
M.A. Columbia University

*CICUTO, CHRIS
Assistant Athletic Director, Men’s Baseball Coach
B.A., University of California, Riverside
M.A., Azusa Pacific University

*CICUTO, JOHN M.
Men’s Athletic Director
Associate Professor of Health & Physical Education
B.A., California State University, Fresno
M.A.E., California Lutheran College

*CIUCA, RAZVAN A.
Instructor of Mathematics
M.S., California State University, Northridge

*CLARIDGE, DANIEL P.
Instructor of Fire Technology
B.A., Seattle Pacific University

*CLIEIT, VICTORIA L.
Instructor of Life Skill, Continuing Education
B.A., M.A., Wayne State University

*CLignetT, CHRISTINA
Instructor of Nursing Science
M.S.N., University of Phoenix

*COATES, SPENSER
Librarian
M.I.S., Catholic University

*COE, NUNE G.
Instructor of Computer Applications and Business Office Technologies
A.S., Glendale Community College

*COFFELT, WENDY
Instructor of Computer and Business Office Technology
M.S.Ed., University of Southern California
J.D., Whittier Law School

*COHEN, HARRIET GANDERSON
Assistant Professor of English as a Second Language, Continuing Education
B.M., Virginia Commonwealth University
M.M., Case Western Reserve University

*COHEN, REUT R.
Instructor of Journalism
B.A., University of California, Irvine
M.A., University of Southern California

*COHEN, SAMANTHA E.
Instructor of English
B.A., University of Wisconsin
M.F.A., California College of the Arts

*COLE, BRIAN M.
Instructor of American Sign Language
B.A., Temple University

*COLEMAN, RICHARD G.
Instructor of Art History
B.A., B.A., M.A., California State University, Northridge

*CONOVER, ROBERT KEITH
Division Chair, Associate Professor of Biology
B.A., University of California, San Diego
Ph.D., University of California, Los Angeles

*CONTI, MARLA R.
Instructor of Geography
B.A., M.A., California State University, Los Angeles

*COOPER, JACQUELINE A
Instructor of English as a Second Language
B.A., M.A., California State University, Los Angeles

*COOTE, LAUREL
Instructor of Hospitality and Tourism Management
B.S., Eastern Illinois University

*CORBETT, ARA G.
Instructor of English
B.A., Loyola Marymount University
M.F.A., Boston University
M.A., California State University, Los Angeles

* Adjunct Faculty
CORNISH, MICHAEL  
Instructor of Biology  
M.A., M.S., California State University, Northridge  
Ph.D., University of California, Los Angeles

CORRIE, CAROLYN J.  
Instructor of English as a Second Language  
B.A., Duke University  
M.A., California State University, Los Angeles  
J.P., University of North Carolina, Chapel Hill

CORTES, RICHARD D.  
Articulation Coordinator, Associate Professor, Counselor  
B.A., M.S., California State University, Northridge  
Ph.D., Claremont Graduate University

COSON, MURNIZ  
Instructor of Economics  
B.S., California State Polytechnic University, Pomona  
M.A., Ph.D., Claremont University

COSTA, DARRELL E.  
Instructor of English  
B.A., University of California, Berkeley  
M.F.A., University of California, Los Angeles

COULTER, CHRISTIAN E.  
Instructor of Music  
B.A., San Jose State University  
M.A., California State University, Los Angeles

COVITT, GARY  
Assistant Professor of Biology  
B.A., Washington University  
D.C., Southern California University of Health Sciences

COX, NATHALIE M.  
Instructor of French  
B.A., M.A.A., Portland State University  
M.A. Ed., Pacific University, OR  
M.S., National University

CRAN, KENNETH J.  
Instructor of English  
B.S., San Diego State University  
M.A., California State University, Northridge

CREEKMUR, TED  
Instructor of Nursing Science  
B.S.N., California State University, Los Angeles

CRIBBS, MARGARET A.  
Librarian  
B.A., University of California, Santa Barbara  
M.S., Simmons College

CROSBY, JEFFERY F.  
Instructor of English as a Second Language  
B.S., Utah State University  
M.A., M.A., California State University, Los Angeles

CROSSAN, CHRISTOPHER H.  
Instructor of English as a Second Language  
B.A., University of California, Los Angeles  
M.A., University of San Francisco  
M.Div., Fuller Theological Seminary

CRUZ, ANDRES  
Instructor of English as a Second Language, Continuing Education  
B.A., California State University, Northridge  
M.A., California State University, Los Angeles

CUBAK, PAUL H.  
Instructor of Fire Academy  
B.S., Columbia Southern University

CUEVAS, MARTHA C.  
Counselor  
B.A., University of California, Santa Barbara  
M.S., California State University, Northridge

CULPEPPER, ANTHONY  
Vice President, Administrative Services  
A.A., Long Beach City College  
B.A., Dominguez Hills  
M.A., Ph.D., Pepperdine University

CUNNINGHAM, MEG  
Instructor of Business Administration  
B.A., M.B.A., University of La Verne

CUNNINGHAM, MEG  
Instructor of Theater Arts  
B.A., California State Polytechnic University, San Luis Obispo  
M.F.A., Carnegie Mellon University

CURIOSI, LIZ  
Instructor of Dance  
B.A., M.F.A., California State University, Long Beach

CURTIS, TINA L.  
Instructor of Music  
B.M., California State University, Northridge  
M.M., University of Southern California

CZECH, MARIA A.  
Instructor of Adult Basic and Secondary Education, Continuing Education  
M.A., Ph.D., University of California, Los Angeles

DABBAGHIAN, VAHE H.  
Instructor of Mathematics  
B.S., M.S., University of California, Irvine  
M.S., California State University, Fullerton

DALIS, PETER N.  
Instructor of Health & Physical Education  
B.A., M.S., University of Southern California

DAILY, COLLEEN E.  
Instructor of Adult Basic and Secondary Education, Continuing Education  
B.A., California State University, Northridge  
M.A., National University

DANIEL, LYNDA L.  
Instructor of Developmental Skills Lab, Continuing Education  
B.A., M.A., California State University, Northridge

DANIELS, CINDY  
Instructor, Learning Disability Specialist  
B.A., University of California, San Diego  
M.A., California State University, Northridge

DANIELS, GANNON D  
Instructor of English  
B.A., Eastern Michigan University  
M.A., University of Southern California  
M.A. California State University, Los Angeles

DANIELS, JEFF C.  
Instructor of English  
B.A., Boston University  
M.A., Trinity College

DANIELSON, ERIC D.  
Instructor of Computer Science/Information Systems  
B.S., Harvey Mudd College  
M.S., University of Southern California

DANON, AVI RAM  
Instructor of English as a Second Language  
B.A., B.S., University of Miami  
M.S., M.S.M.F.T., University of Southern California

DANTZLER, VALICIA  
Instructor of Business Administration  
B.A., M.B.A., University of La Verne

DARCY, MICHAEL T.  
Instructor of English as a Second Language  
B.A., Biola University  
M.A., California State University, Los Angeles

DARIN, CAROLYN V.  
Instructor of English  
B.A., M.A., California State University, Northridge

*Adjunct Faculty
DAVIS, TERESA AGUILAR  
Counselor  
A.A., Glendale Community College  
B.A., California State University, Northridge  
M.S., University of La Verne  

DAVIS, TROY  
Division Chair, Student Services; Counselor  
B.A., M.S., California State University, Long Beach  
Ph.D., Alliant International University  

*DAVOODI, SHARI  
Instructor of Office Business Technology, Continuing Education  
A.A., Glendale Community College, California  
B.S., California State University, Northridge  
M.A., Woodbury University

*DAY, MICHAEL R.  
Instructor of Economics  
B.S., M.A., Wayne State University

*DEASON, THOMAS A.  
Instructor of Aviation & Transportation  
B.S., LeTourneau University

*DEGROEDIS, JACQUELINE A.  
Instructor of Speech Communication  
B.A., M.A., California State University, Northridge

Instructor of Fire Academy  
A.S., Riverside Community College

*DELGADO, ZIZA J.  
Instructor of History  
B.A., M.A., University of California, Berkeley

*DEL REAL ANTONIO  
Counselor  
B.S., M.S., California State University, Northridge

*DELTO, BYRON  
Associate Professor, Music  
B.M., Berklee College of Music  
M.M., San Diego State University

*DELTO, CLAIRE E.  
Instructor of Music  
B.M., Berklee College of Music

*DEMRICHYAN, GEVORK  
Instructor of Mathematics  
B.S., University of California, Irvine  
M.S., California State University, Northridge

*DENHAM, REID L.  
Instructor of Business Administration  
B.S., Brigham Young University  
J.D., Pepperdine University

*DEPEW, PATRICIA  
Instructor of Lifelong Learning, Continuing Education  
B.S., Chapman University  
M.B.S., Liberty University

*DEPOMPA, RONALD L.  
Assistant Professor of Administration of Justice  
A.S., Glendale Community College  
B.S., University of San Francisco  
M.P.A., University of Southern California

*DER BEDROSSIAN, ROMINA K.  
Instructor of English as a Second Language, Continuing Education  
B.S., M.B.A., Woodbury University  
M.A., Point Loma Nazarene University

DER HOVANNESIAN, POLET  
Assistant Professor, Counselor, EOPS  
A.A., Glendale Community College  
B.A., M.S., California State University, Northridge

*DERVISHIAN, NUNE  
Instructor of Speech Communication  
B.A., University of California, Santa Barbara  
M.A., California State University, Los Angeles

*DERZAKARIAN, ARMASH  
Instructor of Psychology  
B.A., University of California, Irvine  
M.A., Argosy University

*DESAI, ROHAN  
Counselor  
B.S., California State Polytechnic University, Pomona  
M.S., California State University, Los Angeles

*DEUKMEJIAN, KAREN T.  
Assistant Professor of English as a Second Language, Continuing Education  
B.A., University of California, Los Angeles  
M.A., M.A., California State University, Los Angeles

*DEWAR, JOHN M.  
Instructor of Administration of Justice  
B.A., M.P.A., Ph.D., University of Southern California

*DIAZ, MARIA ANGEL  
Librarian  
B.A., M.A. University of San Francisco  
M.L.I.S., University of California, Los Angeles

DICIES, ROGER  
Instructor of Art  
B.A., Columbia University  
M.F.A., Art Center College of Design

*DICKINSON, LYNN M.  
Instructor of Mass Communications  
B.A., Wayne State University  
M.P.W., M.A., University of Southern California

*DIEKMAN, DIANA J.  
Assistant Professor of Dance  
B.A., California State University, Northridge

*DIGIOVANNI, FANSHEN  
Instructor of English as a Second Language, Continuing Education  
B.A., University of Michigan, Ann Arbor  
M.A., Teachers College, Columbia University

DIONISIO, DAPHNE P.  
Interim Program Manager, Instructional Services  
Professor, Psychology  
B.A., San Diego State University  
Ph.D., University of Minnesota

DJAMBAZIAN, PATRICIA  
Counselor  
B.A., M.S., California State University, Northridge

*DJRBASHIAN, ASHOT  
Instructor of Mathematics  
B.S., M.S., Yerevan State University  
Ph.D., Mathematical Institute of the Academy of Sciences, Russia

DOMINGUEZ, ROXANNE  
Associate Professor, Counselor  
B.A., University of California, Los Angeles  
M.A., California State University, Dominguez Hills

*DONAYAN, SONA S.  
Assistant Professor of Culinary Arts  
B.S., University of California, Los Angeles  
M.S., California State University, Northridge

*DONOYAN, TSOLEEN  
Instructor of English  
A.A., Glendale Community College, CA  
B.A., M.A., California State University, Los Angeles

*DOUGLAS, EDWARD A.  
Instructor of Theatre Arts  
A.A., Lake City Community College  
B.A., University of West Florida  
M.F.A., California Institute of the Arts

* Adjunct Faculty
DOYLE, DENNIS M.
Associate Professor of English
B.A., St. John's College
M.A., California State University, Los Angeles

DRESCHER, MARC T.
Chief Information Systems Officer
B.S., Montana State University
M.S. Ed., California State University, San Bernardino

*DRUMMOND, KARIN
Instructor of English as a Second Language, Continuing Education
B.A., San Francisco State University
M.A., California State University, Northridge

DUDLEY, CATHERINE M.
Instructor of Nursing Science
A.S., Glendale Community College
B.S.N., M.S.N., University of Phoenix

*DULAY, BREANNA N.
Counselor
B.A., M.S., California State University, Northridge

DULAY, MICHAEL
Division Chair, Social Sciences, Instructor of Psychology
B.A., M.A., California State University, Los Angeles
M.A., Pepperdine University

*DUNLAP, JOHN G.
Instructor of History
M.A. California State University, Los Angeles

*DURET, KATHY
Instructor of Geography
B.A., M.A., California State University, Northridge

DURHAM, CATHY
Program Manager III, Title V Grants
B.S., Louisiana State University
M.B.A., Southwest Missouri State University
Ph.D., University of Maryland

*EASTMAN, CHARLES F.
Instructor of Art
B.A., San Francisco State University

EBERTS, MICHAEL
Professor of Mass Communications
A.A., Los Angeles Valley College
B.A., M.A., California State University, Los Angeles
Ph.D., University of Southern California

*EBNESHAHIDI, ALI
Instructor of Biology
M.S., California State University, Los Angeles
D.C., Los Angeles College of Chiropractic

EDGAR, R. DANIEL
Professor of Chemistry
A.A., Glendale Community College
B.A., University of California, Santa Barbara
M.S., San Diego State University

*EGAN, PATRICK
Instructor of English
B.A., M.A., California State University, Northridge

EGUARAS, AGNES
Dean, Instructional Services
B.A., University of California, Santa Cruz
M.S., University of Southern California

*EL GAMAL, ZOHAA
Assistant Professor of English as a Second Language
B.A., Ain Shams University, Cairo
M.A., The American University, Cairo

*ELDER, ELIZABETH A.
Instructor of English as a Second Language
B.A., University of Wisconsin
M.A., Colorado State University

*ELRAGHY, OMAMMA
Instructor of Biology
M.S., Clemson University

*EMMETT, KAREN
Assistant Professor of Photography
M.F.A., California State University, Fullerton

*ENGLUND-KRUSE, LAURA
Instructor of Geography
A.A., Los Angeles Pierce College
B.A., California State University, Northridge
M.A., California State University, Los Angeles

*EPSTEIN, JACOB B.
Instructor of Mathematics
B.S., B.A., M.A., University of Missouri, Kansas City

*EQUIZARIAN, INGA
Instructor of English as a Second Language, Continuing Education
M.E.A., California State University, Northridge

ERFURT, BARBARA
Professor of Physical Education
B.A., Michigan State University
M.P.H., Loma Linda University

*ERNFST, MEGAN
Assistant Professor, English as a Second Language, Continuing Education
B.A., University of Minnesota
M.A., California State University, Los Angeles

ESCURCERIA, MAURICIO
Instructor of Spanish
M.A.T.S.L., Bennington College, Vermont

ESMAIL, KARIMA,
Associate Professor of Nursing Science
B.S.N., M.S.N., California State University, Los Angeles

*ESMAILI, SABINE J.
Instructor of Mathematics
B.A., M.A., University of California, Berkeley

EUSAN, DANA
Assistant Professor of English as a Second Language, Continuing Education
B.A., University of California, Los Angeles

*EVANS, AMANDA M.
Instructor of English as a Second Language
B.A., M.A., California State University, Northridge

*EVANS, DOMINIQUE
Instructor of Geography
B.S., M.A., California State University, Northridge

*EVINYAN, ZARIK
Instructor of Mathematics
B.S., M.S., Yerevan State University

*EYMAN, RICHARD B.
Instructor of Art
B.F.A., Columbus College of Art and Design
M.F.A., University of Cincinnati

EZELL, DENISE
Director, Learning Resource Center, Instructor of English
B.A., University of Montevallo
M.A., University of Alabama

*FALCON, MICHAEL W.
Instructor of English
B.A., B.F.A., Columbus College of Art and Design
M.F.A., University of Cincinnati

*FALKOWSKI, BARBARA J.
Instructor of Physical Science
B.S., M.S., California State University, Northridge

FALLAH, EDWIN
Assistant Professor of English as a Second Language, Continuing Education
B.A., Karaj Azad University, Iran
M.A., California State University, Northridge

*Adjunct Faculty
FARR, JEANETTE
Associate Professor of Theatre Arts
B.A., California State University, Stanislaus
M.F.A., University of Nevada, Las Vegas

*FEENEY, KALEN
Instructor of American Sign Language
B.S., Willamette University, OR
M.A., Leeds Metropolitan University, England

*FEIG, KIMBERLY
Instructor of Ethnic Studies
B.A., University of California, Santa Barbara
M.A., San Francisco State University
M.A., University of California, Irvine

*FEJTEK, STELA
Learning Disability Specialist, Center for Students with Disabilities
A.A., Glendale Community College
B.A., M.S., California State University, Northridge

FELDMAN, ANDREW
Instructor of Culinary Arts
B.A., Colgate University
A.O.S., Culinary Institute of America

*FELIZ, DAVID A.
Instructor of English as a Second Language
B.S., California State University, Northridge
M.A., California State University, Los Angeles

*FERGUSSON, SANDRA
Instructor of Lifelong Learning, Continuing Education
M.A., M.F.A., University of Southern California

*FERGUSSON, THOMAS
Instructor of Engineering

*FERNANDEZ-PRESA, ROCIO
Instructor of English as a Second Language, Continuing Education
M.A., West Virginia University

*FERNSTROM, RONALD
Instructor of Administration of Justice
B.A., California State University, Northridge

*FIGUEROA, ANA B.
Instructor of Spanish
M.A., Arizona State University

*FINE, RICHARD
Instructor of Mathematics
B.A., M.S., California State University, Northridge

*FISCHMAN, ROBYN D.
Instructor of History
B.A., Sarah Lawrence College, New York
M.A., California State University, Long Beach

*FLEEMAN, MICHAEL
Instructor of Journalism
M.S., Columbia University

*FLESTAD, SHARLENE J.
Instructor of English as a Second Language
M.A., Azusa Pacific University

*FLORES, LUIS
Instructor of Computer Science/Information Systems
B.A., University of Southern California
M.S., National University

FLYNN, BARBARA
Instructor of Parent Education, Continuing Education
B.S., California State Polytechnic University, Pomona
M.A., Philips Graduate Institute

*FLYNN, JOHN (JACK) E.
Instructor of Business, Real Estate
B.A., Yale University
M.F.A., Columbia University

FLYNN, KATHLEEN F.
Professor of English as a Second Language
B.A., Queens College, CUNY
M.A., The Graduate School and University Center, CUNY
M.A., Ph.D., University of Southern California

*FLYNN, SIOBHAN M.
Instructor of English
B.A., Oberlin College
M.A., California State University, Los Angeles

*FOGELMAN, NICOLE
Counselor
M.S., California State University, Northridge

FONAROW, WENDY
Professor of Anthropology
B.A., University of California, San Diego
M.A., Ph.D., University of California, Los Angeles

FOONG CHONG, KIM
Instructor of Mathematics
B.S., University of California, Los Angeles
M.S., California State University, Northridge

*FORDE, MARK A.
Instructor of Culinary Arts
B.A., California University, Riverside

FORDYCE, FORREST
Instructor of English as a Second Language
B.A., M.A., University of Florida
Ph.D., University of California, Los Angeles

*FOSTER, LAUREN E.
Instructor of English as a Second Language, Continuing Education
M.S., California State University, Fullerton

*FOWLER, JACOB E.
Instructor of Art
B.A., University of Northern Colorado
M.F.A., Claremont Graduate University

FRANKIAN, NARINEH
Instructor of Mathematics
B.S., M.A., University of California, Los Angeles

*FRAWLEY, JAMES F.
Instructor of Fire Technology
B.S., University of California, Los Angeles

FREMGEN, ELIZABETH
Instructor of Business and Life Skills, Continuing Education
Associate Professor of Office Business Technology, Continuing Education
B.S., M.B.A., National University

*FRIEDER, MITCHELL L.
Instructor of Culinary Arts
B.A., California State University, Fresno

*FRISBEE, ROBERT J.
Instructor of Chemistry
B.S., B.S., California State Polytechnic University, Pomona
M.S., University of California, Riverside

FRONTINI, FLAVIO
Instructor of Italian
A.A., Santa Monica College
A.B., M.A., University of California, Los Angeles

*FRYDRYCH, EMILY D.
Instructor of Sociology
M.A., University of Chicago

FUHRMANN, JOHN M.
Instructor of Mathematics
B.S., Colorado School of Mines
M.A., University of Colorado, Boulder

*FULLER, LORI ANN
Instructor of Music
B.M., Stetson University
M.M., DePaul University

* Adjunct Faculty
*FUTRELL, MEL J.
Instructor of Aviation and Technology
M.A., University of Souther California
M.A., California State University, Northridge

*GABRIEL, TONY
Assistant Professor of Office Business Technology, Continuing Education
D.D.S., University of Baghdad

*GABRIELIAN, LORIG
Counselor
B.A., University of California, Irvine
M.A., California State University, Dominguez Hills

*GABRIELSSON, SHERI
Instructor of English
B.A., University of California, Los Angeles
M.A., California State Polytechnic University, Pomona

GAGO, FRANCISCO JAVIER
Professor of Biology
Program Manager, Baja Field Studies
A.A., Saddleback College
B.S., California State University, Long Beach
M.S., Ph.D., University of Southern California

*GALLAGHER, PATRICE
Instructor of Computer Applications and Business Office Technologies
A.A., Los Angeles Valley College

*GALLARDO, ROBERT
Assistant Professor of English as a Second Language
M.A., Azusa Pacific University

*GALLEGO, LORENA SANCHEZ
Instructor of Spanish
B.A., B.A., M.A., Arizona State University

*GALVAN, ROSARIO P.
Instructor of Life Skills, Continuing Education
M.A., California State University, Los Angeles

*GALYAN, ANI
Instructor of Accounting
B.S., University of Southern California
J.D., Loyola Law School, Los Angeles

GAMBERG, JULIE
Instructor of English
B.A., Antioch College
M.F.A., Mills College

GARAGLIANO, SAMATHA N.
Instructor of Speech Communication
B.A., M.A., California State University, Los Angeles

*GARCIA, JOSE
Instructor of Mathematics
B.S., University of California, Irvine
M.S., California State University, Los Angeles

GARDNER, GLENN S.
Division Chair, English as a Second Language, Credit Assistant Professor of English as a Second Language
B.A., Columbia University
M.A., California State University, Los Angeles

*GARIBYAN, NARE
Counselor
M.Ed., University of Southern California

*GARIK, TERZIAN
Instructor of Music
B.A., Babajanian Music College, Armenia
M.Music, University of Southern California

*GARRETT, FAYE
Instructor of Accounting
Ph.D., Capella University

*GARRETT, SHARON L.
Instructor of Real Estate
B.S., California State University, Long Beach

GASPARYAN, KEVIN
Program Manager, Professional Development Center
B.S., Yerevan Polytechnic Institute, Armenia

GEE, YOUNG
Associate Professor of English as a Second Language
B.A., San Francisco State University
M.A., University of California, Los Angeles

*GELLERT, ROBERT
Instructor of Chemistry
Ph.D., University of Southern California

GENTILE, JULIE
Instructor of Accounting
B.S., California State University, Long Beach
M.S., Golden Gate University

*GEOPPA, PATRICK A.
Instructor of English
M.S., Illinois State University

*GERZ, JOHN
Assistant Professor of Physics
B.S., California State University, Los Angeles
M.S., California State University, Northridge

GETZ, MARILYN
Associate Professor of Nursing Science
A.A., East Los Angeles College
B.A., M.S., California State University, Los Angeles

GHAHRAMANYAN, ALLA
Instructor of Mathematics
B.S., M.S., Yerevan State University

*GHANNOUM, RIMA R.
Instructor of Life Skills Business, Continuing Education
M.B.A. California State University, Los Angeles

*GHAHIBI, LINETTE M.
Instructor of Mathematics
B.S., University of California, Los Angeles
M.S., University of California, Riverside

*GHRIBIAN GHARGHANI, GEORGE
Instructor of Psychology
Ph.D., University of Memphis

*GHAZARIAN, ANNASHE
Instructor of Sociology
B.S., University of California, Los Angeles
M.S.W., University of Southern California

GHODOUSI, NAHAL E.
Counselor
B.A., M.S., California State University, Northridge

*GILEWSKI, ALEX M.
Instructor of Chemistry
B.S., University of Santa Barbara
M.S., Case Western Reserve University

*GIMBRO, NANCY L.
Instructor of English as a Second Language
B.A., M.A., California State University, Long Beach

GIN, JONATHAN R.
Instructor of Fire Academy
A.A., Pasadena City College
A.S., Pasadena City College
B.S., California State University, Los Angeles

*GIPP, ASHLEY B.
Instructor of English as a Second Language
B.A., University of Illinois
M.A., Graduate Institute of Applied Linguistics

*GIRARDI, RONALD
Instructor of Theatre Arts
B.F.A., California Institute of the Arts

*Adjunct Faculty
GIRARDI, LOURDES  
Division Chair, Language Arts, Associate Professor of Spanish  
B.A., University of Puerto Rico  
M.A., University of California, Los Angeles  

GLOVER, DAVID G.  
Instructor of Computer Science/Information Systems  
B.A., Art Center College of Design  
M.A., M.F.A., California State University, Los Angeles  

*GLUCK, GARY A.  
Instructor of Economics  
M.B.A., California State University, Northridge  

GLUKHOVSKY, PAVEL V.  
Instructor of Chemistry  
Ph.D., Texas A & M University  

GODINEZ, CARLOS E.  
Instructor of Chemistry  
B.A., California State University, Los Angeles  
Ph.D., University of California, Los Angeles  

GOLD, JON  
Division Chair, Health & Physical Education  
Fitness Center Coordinator, Professor of Kinesiology  
B.A., University of California, Los Angeles  
M.A., Azusa Pacific University  

*GOLESTANEH, KAMRAN  
Instructor of Chemistry  
B.S., B.S., California State Polytechnic University, Pomona  

GOMEZ, GABRIEL D.  
Instructor of English  
B.A., Santa Clara University  
M.F.A., University of Southern California  

*GOMEZ, JOSE J.  
Athletic Trainer, Instructor of Health  
B.S., California State University, Fullerton  
M.A., Azusa Pacific University  

*GOMEZ, PAOLA A.  
Instructor of Spanish  
B.A., M.A., California State University, Los Angeles  

*GOMEZ GONZALEZ, LAURA M.  
Instructor of Ethnic Studies  
M.A., California State University, Northridge  

*GOMEZ MOUAKAD, MARISOL  
Instructor of Mass Communication  
B.A., University of Massachusetts  
M.A., The New School  

GONZALEZ, KRYSD.  
Instructor of Sociology  
B.A., California State University, Dominguez Hills  
M.S.W., University of Michigan  

GONZALEZ, RANDY  
Counselor  
A.S., Oxnard College  
B.A., California State University, Channel Island  
M.S., California Lutheran University  

GOODEN, GREGORY F.  
Instructor of Alcohol/Drug Studies  
M.A., Pacific Oaks College  

GORGINANS, SEVAN  
Instructor of Business Administration  
B.A., University of California, Los Angeles  
J.D., Loyola Law School  

*GORJIAN, ZAREH  
Instructor of Computer Science  
B.S., California State University, Northridge  
M.S., University of Southern California  

GOURD, KATHERINE  
Instructor of Biology  
B.A., University of California, Riverside  
M.S., California State University, Northridge  

*GOZALO, CARLOS A.  
Instructor of English as a Second Language, Continuing Education  
B.A., National University  
M.S., University of Southern California  

*GRAMMER, KATHERINE  
Instructor of English as a Second Language, Continuing Education  
B.A., Arizona state University  
M.A., Fuller Theological Seminary  

*GRAYSON, KATHERINE  
Instructor of English as a Second Language  
B.A., M.A., California State University, Northridge  

*GREEN, TERESA L.  
Librarian  
M.L.S., University of California, Los Angeles  

GREEN, AMY L.  
Instructor of Art  
B.F.A., University of Tennessee  
M.F.A., California Institute of the Arts  

GREEN, PETER  
Division Chair, Visual & Performing Arts, Professor of Music  
B.M., B.M. Ed., Memorial University of Newfoundland  
M.M., D.M.A., University of Southern California  

*GREENWOOD, DEBRA  
Assistant Professor of Culinary Arts  
M.A., California State University, Northridge  

*GRIGORIAN, ANI  
Assistant Professor of Office Business Technology, Continuing Education  
B.A., California State University, Northridge  

*GRIGORYAN, MARIAM  
Instructor of English  
B.A., M.A., California State University, Northridge  

GRIMES, AMITY HUME  
Instructor of Parent Education, Continuing Education  
B.S.N., Georgetown University  

GROPER, JESSICA R.  
Assistant Professor of English  
M.A., Claremont Graduate University  

GUGLIELMINO, RICHARD  
Instructor of Physical Sciences, Assistant Professor of Physics  
B.S., M.A., University of Southern California  

*GUARDIANI, ANNA  
Instructor of Biology  
Ph.D., University of California Los Angeles  

GUARINO, JR., ANTHONY J.  
Instructor of Geology  
A.A., Orange Coast College, CA  
B.S., California State University, Long Beach  

*GUERRERO, LOURDES  
Instructor of Ethnic Studies  
B.A., University of California, Berkeley  
M.S.W., Catholic University of America  
Ed.D., University of California, Los Angeles  

GUGLIELMINO, RICHARD  
Instructor of Physical Sciences, Assistant Professor of Physics  
B.S., M.A., University of Southern California  

GUIDRY, NATALIE P.  
Instructor of Physical Education  
B.A., University of California, Riverside  

*GUILLORY, DELOYES M.  
Instructor of English as a Second Language  
M.A. Grand Canyon University  

GUPTA, LINA  
Professor of Philosophy  
B.A., Presidency College  
M.A., University of Calcutta  
Ph.D., Claremont Graduate School  

* Adjunct Faculty
*GUTIERREZ, CRISTINA
Counselor
B.A., M.S., California State University, Northridge

*HACOPIAN, ALFRED
Assistant Professor of Business Administration
B.S., California State University, Northridge
M.B.A., Pepperdine University

*HAIDUK-POLLACK, CINDY
Assistant Professor of Job Search Program, Continuing Education
B.A., University of California, Los Angeles
M.A., University of Phoenix
Ed.D., Walden University

*HALE, DAVID R.
Instructor of Speech
B.A., California State University, Long Beach
M.A., California State University, Los Angeles

*HALEEN, STEVE M.
Instructor of Fire Technology

*HALL, JOANNE E.
Instructor of English
B.A., University of Manchester
M.A., Ph.D., University of Nottingham

*HALLAK, NOUHA H.
Instructor of Psychology
B.A., M.A., California State University, Northridge

*HALLOCK, MATTHEW P.
Instructor of Fire Academy
B.A., M.A., California State University, Long Beach

*HAMBARSUMIAN, MELINEH
Instructor of English as a Second Language, Continuing Education
B.A., University of California, Los Angeles
M.A., M.S., California State University, Los Angeles

HAMILTON, KAREN L.
Instructor of English as a Second Language, Continuing Education
B.A., Pitzer College
M.A., Monterey Institute of International Studies

*HAMOND, ALEX
Instructor of Life Skills, Continuing Education
B.A., California State Polytechnic University, Pomona

*HANDLEY, WILLIAM W.
Instructor of Administration of Justice
B.S., Regents College
M.B.A., University of Phoenix

*HANEY, DAVE
Instructor of Fire Technology
B.S., Cogswell Polytechnical College

*HANFORD, MARCIA C.
Instructor of Office Business Technology, Continuing Education
B.A., M.A., Arizona State University

*HANIFIN, MARY E.
Instructor of Office Business Technology, Continuing Education
B.B.A., Saint Mary’s College

*HANSEL, JOHN W.
Instructor of Graphic Design
B.F.A., Rhode Island School of Design
M.F.A., California Institute of the Arts

*HANSEN, BRENT
Instructor of Business Administration
B.A., Brigham Young University

HANSEN, KYLA M.
Instructor of Art
B.A., University of Nevada, Reno
B.F.A., University of Nevada, Las Vegas
M.F.A., Claremont Graduate University

HANSON, ERIC J.
Dean, Library and Learning Support Services
B.A., University of California, San Diego
M.A., University of Virginia
M.L.I.S., University of California, Los Angeles

*HANSON HEGGER, COREY
Instructor of English as a Second Language
B.A., College of William and Mary
M.Ed., George Mason University

*HANTUNIAN, CLARICE
Instructor of English as a Second Language, Continuing Education
B.A., M.S., Tehran University

HARALDSON, EMILY D.
Assistant Professor of Art History
B.A., Augsburg College, MN
M.A., California State University, Northridge

*HARMON, KAREN A.
Instructor of Accounting
B.A., M.A., University of California, Davis
M.B.A., Claremont Graduate School

HARNETT, MICHAEL C.
Professor of English, Director, Scholar’s Program
A.B., University of Southern California
M.A., Claremont Graduate School
Ph.D., University of California, Santa Barbara

*HARREY, RANDALL N.
Instructor of Fire Academy
B.S., California State University, Long Beach

HARVEY, MARK C.
Instructor of Art
B.F.A., Virginia Commonwealth University
M.F.A., Maryland Institute College of Art

*HASENHUTTL, CLAUDIA E.
Instructor of Geography
M.A., California State University, Northridge

HASSAKOURSIAN, YVETTE
Associate Professor of Mathematics
A.A., Glendale Community College
B.S., M.A., University of California, Los Angeles

*HASSANZADEH, JAMSHID
Instructor of Geology
B.S., M.S., University of Tehran
Ph.D., University of California, Los Angeles

HASSETT, DAVID
Associate Professor of Mathematics
A.A., Fullerton College
B.A., California State University, Fullerton
M.S., California State University, Northridge

HASTINGS, CAMERON
Instructor of Political Science
B.A., University of California, Los Angeles
M.A., California State University, Long Beach

*HATFIELD, BRIAN M.
Instructor of Art

*HAYASHI, HEATHER N.
Librarian
B.S., UC Davis
M.S., Clarion University

*HAYNE, RICHARD
Assistant Professor of Emergency Medical Technology
B.A., Whittier College
Ph.D., University of California, Los Angeles

*HAZLETT, JULIANA P.
Instructor of History
B.A., University of California, Los Angeles
M.A., University of Southern California
Ph.D., University of Colorado, Boulder

*Adjunct Faculty
HEANEY, JOCELYN M.
Instructor of English
B.A., University of California, Berkeley
M.F.A., University of Massachusetts

*HECHANova, Marjorie C.
Instructor of Nursing
B.S., Laguna College, Philippines

*Heinicke, David
Instructor of English as a Second Language
B.A., University of California, Davis
M.S., University of Southern California

*Heitzman, Sara N.
Instructor of Nursing
A.S., Glendale Community College
B.S., California State University, Los Angeles

Helgeson, Jayson J.
Instructor of Music
B.M., Peabody Conservatory
M.M, D.M.A., University of Southern California

*Henderson, Wayne G.
Instructor of Geology
B.A., B.S., The George Washington University, D.C.
M.S., Louisiana State University

*Hendrix, Jeff G.
Instructor of Dance
B.S., University of Texas, Austin
M.F.A, University of California, Irvine

*Henneker, Deborah
Instructor of English as a Second Language, Continuing Education
M.Div., Fuller Theological Seminary

*Henry, Laura J.
Instructor of English as a Second Language
B.S., Pennsylvania State University
M.Ed., DeSales University

Henry, Susan Injejian
Associate Professor of English
B.A., California State University, Northridge
M.A., Columbia University

Hernandez Rios, Maria G.
Instructor of Spanish
M.A., California State University, Northridge

*Herrera, Elisa J.
Instructor of History
B.A., M.A., California State University, Long Beach

*Herrera, Ramon
Instructor of Psychology
A.A., Glendale Community College
B.A., M.A., California State University, Los Angeles

Herwerth, Christopher
Instructor of Engineering
B.A., S.U.N.Y. Stony Brook
B.S., M.S., California State University, Los Angeles

*Hicks, Donald R.
Assistant Professor of Biology
B.S., Auburn University
M.S.T, Florida Atlantic University
Ph.D, Florida Institute of Technology

*Higgins, Kelly
Instructor of Parent Education, Continuing Education
B.A., M.A., Pacific Oaks College

*Hilario, Monia
Instructor of English as a Second Language
B.A., University of California, Los Angeles
M.A., Pepperdine University

Hill, Robert
Dean, Student Services
B.S., M.S., University of La Verne
Ed.D, University of Southern California

*Hill, Lynn M.
Instructor of Business Administration
A.A., Glendale Community College, California
B.S., California State University, Northridge

Hillquist, Rebecca
Associate Professor of Art
B.F.A., Brigham Young University
M.F.A., Art Center College of Design

*Hillquist, Richard
Assistant Professor of Business Administration
B.S., Brigham Young University
M.B.A., Pepperdine University

Hirimonyous, Patricia
Professor of English as a Second Language
B.A., University of California, Riverside
M.A., California State University, Dominguez Hills
M.A., George Mason University
Ph.D, University of Maryland

Hoehn, Susan Clair
Professor, Learning Disability Specialist, Student Development
B.S., Central Michigan University
M.A., University of California, Santa Barbara
Ph.D, University of California, Los Angeles

Hoffman, Michelle Lee
Instructor of Journalism
B.A., M.A., California State University, Northridge

*Holland, Kathleen
Instructor of Social Science
A.A., Moorpark College
B.A., California State University, Northridge
M.A., California State University, Los Angeles

*Holland Dichter, Katherine
Assistant Professor of Health
B.S., M.A., San Diego State University

*Holm, Jesse L.
Counselor, Center for Students with Disabilities, Continuing Education
M.S.W., M.Ed., Boston University

*Holmes, Wendy J.
Instructor of English as a Second Language
B.A., University of Washington
M.A., San Diego State University

Hopkins, David T.
Instructor of Aviation
B.Ed, Sussex University
M.Sc, Cranfield Institute of Technology

*Hopkins, Leif M.
Instructor of Mathematics
B.S. University of California, Los Angeles
M.S, California State University, Los Angeles

Hovasapyan, Samvel A.
Instructor of Mathematics
B.S., M.S., Yerevan State University

*Hovhannisyan, Aida
Instructor of Life Skills, Continuing Education
B.S., M.S., Yerevan State University

*Hovhannisyan, Ani
Instructor of Dance
A.A., Glendale Community College
B.A., California State University, Los Angeles
M.S., California State University, Northridge

*Hovsepian, Melina
Instructor of English as a Second Language
M.A., Azusa Pacific University

* Adjunct Faculty
*HUANG, CARRIE YU
Instructor of Mathematics
M.S., California State University, Los Angeles

HUBER, WALTER R.
Professor of Real Estate
A.A., Mount San Antonio College
B.S., M.S., California State University, Los Angeles

*HUTZELL, JAMES L
Instructor of English as a Second Language, Continuing Education
B.A., M.A., California State University, Los Angeles

*IBACH, HOWARD
Instructor of English
B.A., University of Tampa
M.A., Brown University

*INGELS, CLAIRETT
Instructor of English as a Second Language, Continuing Education
B.A., California State University, Northridge
M.A., United States International University

INGLE, TIFFANY E.
Instructor of English as a Second Language
B.A., Asbury College
M.A., Azusa Pacific University

*ION, CHARLES
Instructor of Music
M.A., California State University, Northridge

*IRWIN, CHRIS
Instructor of Aviation

ISAYAN, SEVADA
Instructor of Computer Science/Information Systems
A.A., Glendale Community College
B.S., M.S., California State Polytechnic University, Pomona

*ISSAIAN, ADENA
Instructor of Chemistry
B.S., University of California, Los Angeles

*JAFFARI, HAMID
Instructor of Mathematics
M.S., California State University, Northridge
M.S., Iowa State University
Ph.D., North Carolina State University

JABALAMELI, ALI
Instructor of Chemistry
B.S., M.S., Ph.D. Jackson State University

*JACKSON, BRETT M.
Instructor of Visual Design
B.A., California State University, Long Beach
M.F.A., Parsons School of Design

*JACOBS, TIMOTHY D.
Instructor of English as a Second Language
B.S., Trinity Baptist College
M.A., Biola University

*JAGLIN, ELIZABETH GAIL
Instructor of English as a Second Language
B.A., California State University, Fresno
M.S., University of Pennsylvania

*JAKL, SANDRA
Assistant Professor of Physical Education
B.A., California State University, Long Beach

*JAMES, ANTHONY J.
Instructor of Fire Academy
B.F.A., Syracuse University

JAMIESON, COREY S.
Instructor of Chemistry
B.S., California State Polytechnic University, San Luis Obispo
Ph.D., University of Hawaii at Manoa

*JANOVAN, DANIEL
Assistant Professor of English as a Second Language, Continuing Education
M.A., University of York, England

*JAVELYAN, MARINE
Instructor of English as a Second Language, Continuing Education
M.A., California State University, Northridge

*JAY, LISA
Instructor of Dance
B.A., M.A., University of Hawaii

JAZÁN, STACY
Professor of Spanish
A.A., Los Angeles Pierce College
B.A., M.A., C.Phil, University of California, Los Angeles
Ph.D., University of California, Los Angeles

*JENSEN, JEFFFRY
Librarian
B.A., La Verne College
M.S.L.S., University of Southern California

*JILIZIAN, VIGEN
Head Coach Men’s Basketball
B.A., University of California, Davis
M.A., Concordia University

*JOHN KAROON
Instructor of Mathematics
M.A., California State University, Los Angeles

JOHNSON, JING XU
Associate Professor of Nursing Science
A.S., Glendale Community College
B.S., M.S.N., California State University, Los Angeles

JOHNSON, ERIC
Instructor of Anthropology
A.A., Fresno City College
B.A., University of California, Santa Barbara
M.A., University of New Mexico

JONES, BRENDA L.
Professor, Librarian
B.S., University of Illinois, Urbana-Champaign
M.L.S., University of California, Los Angeles

*JONES, CASEY
Instructor of Speech Communication
B.A., M.A., University of Denver

JONES, DAVID PAUL
Associate Professor of Mathematics
A.S., Compton College
B.S., M.S., California State University, Los Angeles

*JONES, MICHAEL
Instructor of Art
B.F.A., Commonwealth University
B.F.A., California Institute of the Arts

*JORDAN, NANCY P.
Instructor of Culinary Arts
A.S., Atlantic Culinary Academy, New Hampshire

*JOSEPH, SAM
Assistant Professor of English
B.A., San Francisco State University
M.A., Antioch University

JUDGE, EMELYN
Associate Dean, Health Sciences
Associate Professor of Nursing Science
B.S. Mt. St. Mary’s College
M.N., University of California, Los Angeles

JUZWIAK, WILLIAM
Instructor of English
B.A., M.A., University of California, Los Angeles

KABA, CAROLINE
Associate Professor, Economics
B.A., M.A., American University of Beirut

*Adjunct Faculty
KALANTAR OHANIAN, RICHARD  
Instructor of Engineering  
M.S., California Institute of Technology

KALENDERIAN, AROUS  
Instructor of Nursing Science  
B.S.N., Pacific Union College

KALLAY, ARON  
Instructor of Music  
B.A., Carnegie Mellon University  
M.M., University of Michigan  
D.M.A., University of Southern California

KALLY, CRYSTAL C.  
Instructor of Business Administration  
B.S., University of California, Irvine  
M.B.A., University of Southern California

KALAY, ARON  
Instructor of Music  
B.A., Carnegie Mellon University  
M.M., University of Michigan  
D.M.A., University of Southern California

KALLIK, RICHARD  
Professor of Sociology  
B.A., California State University, Long Beach  
M.A., California State University, Los Angeles

KAMIMURA, RICHARD H.  
Instructor of Art  
B.F.A., M.F.A., California State University, Fullerton

KAMINSKY, ADAM M.  
Instructor of Speech Communication  
M.A., California State University, Northridge

KANEKO, ANN A.  
Instructor of Mass Communications  
B.A., Bennington College  
M.F.A., University of California, Los Angeles

KARE, EDWARD R.  
Dean, Research and Planning  
B.A., M.A., University of North Carolina at Wilmington  
M.A., Western Washington University

KARAKACHIAN, HRATCH  
Instructor of Accounting  
B.S., B.S., M.B.T., University of Southern California  
J.D., University of West Los Angeles

KARAMAYAN, GRANT  
Instructor of Mathematics  
B.A., Ph.D., University of California, Los Angeles  
M.A., University of Southern California  
Ph.D., University of California, Los Angeles

KAREP, EDWARD R.  
Assistant Professor, English as a Second Language, Continuing Education  
B.A., California State University, Los Angeles  
M.A., California State University, Los Angeles

KARTALIAN, LARA R.  
Associate Professor, English  
M.A., California State University, Los Angeles

KASHFIAN, DAVID  
Instructor of Economics  
B.A., M.A., M.S., University of Southern California

KASHIOFF, IVAN  
Instructor of English as a Second Language  
B.A., University of California, Berkeley  
M.A., California State University, Los Angeles

KATZ, MARIA B.  
Instructor of Psychology  
B.A., University of Southern California  
M.A., Atioch University

KAYE, ZOHARA  
Associate Professor, Librarian  
A.S., Glendale Community College, CA  
B.A., California State University, Los Angeles  
M.S., University of California, Los Angeles

KAYZAKIAN, YVETTE  
Instructor of Computer Applications and Business Office Technology  
B.A., Pars College, Iran  
M.A., Tehran University

KAZANCHYAN, ELIZABETH  
Instructor of English as a Second Language, Continuing Education  
B.A., Yerevan State. Pedagogical Inst. of Russian & Foreign Language

KAZANJIAN, PHILIP  
Associate Professor of Business Administration  
B.A., University of Southern California  
Ph.D., Lincoln University School of Law

KELLER, MARY E.  
Librarian  
B.A., University of Southern California

KENYON, VICTOR A.  
Instructor of Chemistry  
B.S., Ph.D., University of California, Santa Cruz

KERR, REID  
Instructor of English  
B.A., B.A., University of North Carolina at Wilmington  
M.A., Western Washington University

KERR, WILLIAM  
Instructor of Music  
B.A., Queens College  
M.M., University of Southern California

KERRIGAN, CLAY R.  
Instructor of English  
B.A., Loyola University Chicago  
M.F.A., California Institute of the Arts

KESHISHIAN, NARINEH NATALIE  
Instructor of English as a Second Language, Continuing Education  
B.A., M.A., California State University, Los Angeles

KESIAN, KOHAR  
Associate Professor, Accounting  
B.S., M.S., University of Phoenix

KEYES, GARY  
Instructor of Sociology  
B.A., University of California, Santa Barbara  
M.A., California State University, Los Angeles

KHACHATOURIANS, ARTHUR  
Instructor of Business Administration  
B.A., University of California, Los Angeles  
J.D., Southwestern Law School, Los Angeles

KHALILBABIAN, ARMINEH N.  
Instructor of English as a Second Language, Continuing Education  
B.A., Queens College, New York  
M.S., M.A., California State University, Los Angeles

KHATCHATRIAN, ANNA  
Instructor of Accounting  
B.S., M.B.A., Woodbury University

KHODAGHOLIAN, SEVANA  
Instructor of Chemistry  
B.S., University of Southern California  
M.S., Ph.D., University of California, Riverside

KIM, EDWARD B.  
Instructor of Mathematics  
M.A., Claremont College

KIM, JULIE  
Instructor of History  
M.A., California State University, Los Angeles  
Ph.D., University of Arizona

* Adjunct Faculty

Instructor of Chemistry  
B.Sc., M.Sc., Ph.D., University of Mumbai 

*MATHIEU, RAY  
Instructor of Accounting  
B.S., San Diego State University  
M.A., University of Phoenix 

MATSUMOTO, LAURA  
Professor of Adapted Computer Technology and Adapted Physical Education  
Head Coach, Men’s Soccer  
B.A., Willamette University  
M.A., University of Southern California 

MAUK, ROBERT  
Instructor of Biology  
B.S., University of California, Los Angeles  
M.S., California State University, Northridge  
Ph.D., University of California, Irvine 

MAYER, PAUL  
Associate Professor of English as a Second Language, Continuing Education  
B.A., California State University, Northridge  
M.A., California State University, Los Angeles  

*MAYERFOFER, DAVID A.  
Instructor of Photography  
B.A., California Polytechnic State University, San Luis Obispo 

*MAYO, HOWARD A.  
Instructor of English as a Second Language  
M.Ed., Temple University 

McColl, Richard T.  
Instructor of Ceramics  
A.A., West Los Angeles College  
B.A., M.F.A., California State University, Long Beach 

*McCoy, Ellen C.  
Instructor of Nursing  
B.S. California Polytechnic State University, Pomona  
M.S.N., California State University, Dominguez Hills 

*McDERMOTT, KAREN M.  
Instructor of Computer Applications and Business Office Technologies  
B.A., Rutgers University  
J.D., University of San Diego 

McDONALD, BRIAN  
Associate Professor of English as a Second Language  
B.A., San Diego State University 
M.A., Alliant International University 

*McDONELL, JILL  
Assistant Professor of English as a Second Language, Continuing Education  
B.A., Occidental College 

*McEVOY, ANI  
Instructor of Nursing Science  
B.S., M.S.N., University of California, Los Angeles 

*McGARRY, PAUL F.  
Instructor of English as a Second Language, Continuing Education  
B.A., University of California, Santa Cruz  
M.S., University of Southern California  
M.A., California State University, Los Angeles 

*McKAIL, MATTHEW SCHUYLER R.  
Instructor of Speech Communication  
B.A., M.A., California State University, Northridge 

*McLAUGHLIN, LAWRENCE J.  
Instructor of Geography  
B.A., University of Southern California  
M.A., California State University, Northridge  
J.D., Loyola University 

*McLEMORE, SARAH K.  
Associate Professor of English  
B.A., Scripps College  
M.A.,Ph.D, University of California, Santa Barbara 

*McQUEEN, CRYSTAL B.  
Instructor of English as a Second Language  
B.A., California State University, Bakersfield  
M.A.T.,University of Southern California 

*McQUILKIN, TONY  
Instructor of Mathematics  
B.A., M.A., University of California, Los Angeles 

*MEAWAY, MEGAN Y.  
Instructor of English as a Second Language  
A.A., West Los Angeles College  
B.A., Pacific Oaks College  
M.Ed., Northeastern University 

Mecheneau, Sarah Nolween  
Instructor of French  
M.A., Michigan State University 

MEDINA, NANCY  
Counselor  
B.A., University of California, Berkeley  
M.S., California State University, Northridge 

* Adjunct Faculty
*MELIKIAN, ARA
Instructor of Mathematics
B.A., London University
M.S., California State University, Los Angeles

*MENA, JORGE
Women’s Soccer Coach, Instructor of Physical Education
B.A., California State University, Los Angeles
M.S., Azusa Pacific University

*MENDOZA, DEIRDRE
Instructor of English
B.A., Hampshire College
M.F.A., Antioch University

MERCER, MOLLY M.
Counselor
B.A., M.S., California State University, Northridge

*MESSICK, LEVIN P.
Instructor of Real Estate
B.A., California State University, Fullerton

*MIEYER, GREG W.
Instructor of Biology
B.A., University of California, Santa Cruz
M.A., Prescott College

MEZA, KEVIN
Transfer Center Coordinator, Counselor, Professor
B.A., M.Ed., University of California, Los Angeles
Ph.D., Claremont Graduate University

*MIDELL DAVID A.
Instructor of Adapted Computer Technology
B.S., Illinois State University
M.A., National Louis University

*MIKAElian, VREJ
Instructor of Mathematics
B.S., M.Ed., University of California, Los Angeles
M.S., California State Polytechnic University, Pomona

*MIKAElian, AREvik
Assistant Professor of Armenian
M.A., Yerevan State University

MIKETTA, JAMES BRETT
Associate Professor of Computer Science/Information Systems
A.A., Glendale Community College
B.S., University of Southern California
M.S., Claremont Graduate School

*MILLER, CARRIE L.
Instructor of Health & Physical Education
A.A., College of the Desert
B.A., Adams State College

*MILLER, DAVID J.
Instructor of English as a Second Language
B.A., Fresno State University
M.A., California State University, Northridge

*MILLER, PAULETTE M.
Instructor of Child Development
B.A., M.A., California State University, Los Angeles

*MILTON, ODY G.
Instructor of Hospitality and Tourism Management
B.A., University of California, Berkeley

*MINAYLOVICH, KRISTIN
Instructor of Art
M.A., University of California, Riverside

*MIRAMONTES, PATRICIA
Instructor of Medical Office Administration
A.S., Riverside Community College, CA

*MIRANDA, DAVID M.
Instructor of Administration of Justice
B.A., Colorado State University
M.Div., Fuller Theological Seminary

*MIRZAYAN, SIMON
Instructor of Computer Science/Information Systems
A.S., Glendale Community College, California

*MISANCHUK, ROSE
Instructor of Art
B.F.A., University of Lethbridge
M.F.A., California State University, Fullerton

*MITCHELL, CRYSTAL A.
Instructor of Art
M.S., Pratt Institute

*MITCHELL-MAELL, GABRIELLE
Instructor of English
B.S., Skidmore College
M.F.A., Sarah Lawrence College

*MITTELBERG, GARY V.
Instructor of Nursing Science
B.S., Wheaton College
B.S.N., Rush University

*MIZUNO, LYNN
Professor of Biology
B.S., University of Southern California
M.S., California State University, Los Angeles
Ph.D., University of Southern California

*MKRTCHYAN, KARINE
Instructor of Health Information Technology
J.D., Southwestern Law School

*MKRTCHYAN-ANTONYAN, ANNA
Instructor of Chemistry
M.S., Armenian State Pedagogical University
M.A., California State University, Northridge

*MO, BINGLI
Instructor of Chemistry
M.Sci., Ph.D., Imperial College, London

*MOGADAM, HAMID
Instructor of Accounting
M.B.A., National University

*MONROE, RACHEL D.
Instructor of Psychology
B.A., Boston College
M.A., Pepperdine University

*MONTECUOLLO, GARY
Chief of Police
Instructor of Administration of Justice
M.P.A., California State University, Northridge

*MOORE, JIWON C.
Professor of Sociology
B.A., M.A., California State University, Northridge
M.A., Ewha Women’s University

*MORALES, ANGELA
Instructor of English
B.A., M.A., University of California, Davis
M.F.A., University of Iowa

*B.A., University of California, Davis
M.F.A., University of Iowa

*MORRIS, JOLIE
Counselor
A.A., Glendale Community College
B.A., M.A., California State University, Los Angeles

*MORRIS, SANJA
Instructor of Philosophy
B.A., University of Belgrade
M.A., California State University, Los Angeles

*MOS, JR., FRANK H.
Instructor of Computer Science/Information Systems
A.S., Community College of San Francisco
B.S., California State Polytechnic University, Pomona
M.S., Claremont Graduate University

*Adjunct Faculty
*MOTT, ROBERT W.
Instructor of English as a Second Language, Continuing Education
M.A., Biola University

*MOVESESYAN, ASHOT
Instructor of Computer Science/Information Systems
B.S., California State Polytechnic University, Pomona

*MULLIN, MARTIN F.
Instructor of Media Arts
B.A., Washington and Lee University

*MULSKI, CLAIRE P.
Assistant Professor of Biology
B.A., Trinity College, Dublin
M.A., Occidental College

*MUNGEN, DONNA M.
Instructor of English
B.A., Howard University, D.C.
M.A., Antioch University

*MUNOZ-HODGSON, KRISHANA
Instructor of English as a Second Language
B.A., Roehampton University, Surrey
M.A., California State University, Los Angeles

*MUNSEY, JEREMIAH S.
Instructor of Theatre Arts
B.A., West Virginia University
M.A., University of Nevada, Las Vegas

*MURATOVIC, ILYANA
Instructor of English as a Second Language, Continuing Education
M.Ed., Seattle University

*MURRAY, DIANE R.
Instructor of Mathematics
Ph.D., Columbia University

*MYKHAYLOV, VADYM
Instructor of Nursing Science
A.A., Los Angeles Valley College
B.S.N., University of Phoenix
M.S.N., Azusa Pacific University

*NAG, MRINMOY
Instructor of Chemistry
B.S.C, Jadavpur University
M.S.C, Indian Institute of Technology, Bombay
Ph.D., Iowa State University

*NAGATANI, KEN
Instructor of Music
B.M., McGill University
M.M., John Hopkins University
D.M.A., University of Southern California

*NAHABEDIAN, NAYIRI
Instructor of Sociology
B.A., M.S.W., University of California, Los Angeles

*NAKAWATASE, TIFFANY D.
Instructor of Sociology
B.A., California State University, Los Angeles

*NALBANDYAN, ZORAYR
Instructor of Mathematics
B.A., M.S., California State University, Los Angeles

*NANDKISHORE, EDGAR R.
Assistant Professor of Business Administration
B.A., St. Stephen's College, University of Delhi
M.B.A., University of Delhi
J.D., Western State University College of Law
Ed.D., University of La Verne

*NARGIZYAN, LIUSINE
Instructor of Music
B.M., 2nd Moscow Regional College
M.M., D.M.A., University of Southern California

*NAVARRO, SANDRA
Associate Professor of English as a Second Language
B.A., University of California, Los Angeles
M.Ed., University of Maryland, College Park

*NAZARYAN, AREVHAT
Instructor of Armenian
B.A., M.A., Yerevan State University

NAZARYAN, ELMIRA
Program Manager, Extended Opportunity Program and Services
Associate Professor, Counselor
A.A., Los Angeles City College
B.A., University of California, Los Angeles
M.S., California State University, Los Angeles

*NAZARYAN, HAIK
Instructor of Physics
B.S., M.S., California State University, Northridge

NELSON, DAVID J.
Program Manager/Director, International Recruitment & Outreach
B.S., M.A., Ohio University

*NELSON, MARK S.
Instructor of Photography
B.A., Bethel College
M.F.A., Claremont Graduate University

*NELSON, MAURENE F.
Instructor of Speech Communication
B.A., M.A., California State University, Los Angeles

*NEMES-PIEDRAHITA, ROSEMARIE
Instructor of Spanish
M.A., University of California, Los Angeles

*NEPOMUCENO, ROSARIO
Assistant Professor of Office Business Technology, Continuing Education
B.S., University of Santo Tomas, Philippines

NEUFELD, RICHARD K.
Instructor of Mathematics
B.S., University of California, Irvine
M.S., California State Polytechnic University, San Luis Obispo

*NEVINS, NANCY
Assistant Professor of English
A.A., Saddleback College
B.A., M.A., California State University, Fullerton

NEWBERRY, LARRY
Associate Professor of Mathematics
B.S., M.S., Wichita State University

*NEWMAN, H. ROBERT
Instructor of Aviation and Transportation
B.S., University of Southern California
M.B.A., University of California, Los Angeles

*NEWTON, GREGORY P.
Instructor of Music
B.Mus., M.M., University of Northern California

*NEWSOME, LAKASHIA N.
Counselor
B.A., California State University, Northridge
M.A., National University

*NEYMAN, ILYA
Instructor of Geography
B.S., University of Oklahoma
M.A., California State University, Northridge

*NEZAMI, MANDY
Instructor of Nutrition
M.A., Montclair State University
M.S., Brooklyn College

*NG, CAROLYN K.
Instructor of English as a Second Language, Continuing Education
B.A., California State University, Los Angeles
Ed.D., Azusa Pacific University

* Adjunct Faculty
NGO, THYE PENG
Instructor of Nursing
A.S., College of the Canyons
M.S.N., Western University of Health Sciences

*NGUYEN, THI H.
Instructor of Chemistry
B.S., Ph.D., University of California, Los Angeles

*NICASSIO, NICHOLAS P.
Instructor of English as a Second Language
B.A., University of California, Santa Barbara
M.A., University of Southern California

*NICOLAISEN, LIEF
Instructor of Administration of Justice
B.S., University of LaVerne
M.A., Azusa Pacific University

*NILSSON, STEVEN A.
Instructor of Photography
B.A., Gustavus Adolphus College
B.F.A., Art Center College of Design

*NISHIZAKI, SANTORI S.
Instructor of Business Administration
B.A., California State University, Los Angeles
M.S., Woodbury University
Ed.D., Pepperdine University

*NOLAN, JENNIFER H.
Instructor of Psychology
M.A., Ph.D., University of California, Irvine

NOORI, PARIS
Professor, Counselor
B.S., Southern Illinois University, Carbondale
M.A., California State University, Los Angeles

*NOUR, AMIR
Controller
Instructor of Accounting
B.S., California State University, Los Angeles
M.B.A., Woodbury University

*NOVOA, SANDRA
Instructor of Spanish
B.A., California State University, Dominguez Hills
M.A., California State University, Los Angeles

*OBEGA, ANJEANETTE N.
Instructor of Psychology
B.A., B.A., M.A., California State University, San Bernardino

*O'COLMAIN, CHERYL A.
Instructor of English as a Second Language
B.A., University of California, Santa Barbara
M.A., University of California, Los Angeles

OGANESYAN, ASMIK
Associate Professor of Chemistry
B.S., Yerevan State University, Armenia
M.S., California State University, Los Angeles

*OGANYAN, VICTORIA
Instructor of Physical Education
B.A., M.A., California State University, Northridge

*OGBARA, MOREMI O.
Instructor of English
B.A., M.A., California State University, Los Angeles

*OH, SORA
Instructor of Mathematics
B.S., California State University, Bakersfield
M.S., California State University, Los Angeles

OHANIS, ARAM
Instructor of Computer Aided Manufacturing
A.S., Glendale Community College

*OK, JERRY
Instructor of Engineering
B.S., M.S., University of California, Los Angeles

*O'HARA, DENA M.V.
Instructor of English
B.A., University of California, Los Angeles
M.A., Loyola Marymount University

*OKEYO, JOSEPH O.
Instructor of Architecture
B.A., M.A., California State University, Los Angeles

*OLGIN, KIRK
Instructor of English as a Second Language, Continuing Education
B.A., M.A., California State University, Los Angeles

*OLILANG, MARIA BELEN O.
Instructor of Health and Physical Education
B.A., California State University, Northridge

OLIVER, AMY S.
Instructor of Photography
B.A., Tufts University
M.A., California Institute of the Arts

*ONG, HAI T.
Instructor of Mathematics
B.S.E.E., M.S., California State University, Los Angeles

ONYEKWE, ROSE
Assistant Professor of Nursing Science
A.S., Glendale Community College, CA
B.S.N., University of Phoenix
M.S.N., California State University, Dominguez Hills
M.S.N., California State University, Long Beach

OPPENBERG, ELLEN
Professor, Learning Disabilities Specialist
B.A., California State University, Northridge
M.A., California State University, Los Angeles

*OPPERMAN, RANDALL J.
Instructor of Fire Science
A.A., Los Angeles Pierce College

ORPPELLI, CRESCENT
Mental Health Counselor
B.A., University of California, Los Angeles

*ORTIZ, JENNIFER I.
Instructor of English
B.A., M.A., Mills College

*OURFALIAN, SEVAN
Instructor of Developmental Skills, Continuing Education
B.S., California State University, Northridge
M.Ed., California Lutheran University

*OVANESSIAN, AIDA
Instructor of Mathematics
M.S., Ph.D., University of Baghdad

*OVSSEPANYAN, ARPINE
Instructor of Developmental Skills, Continuing Education
B.A., M.A., California State University, Northridge

OWENS, DEBORAH
Associate Professor of Child Development
B.S., M.S., University of California, Davis
M.A., Ph.D., Fielding Graduate Institute, Santa Barbara

*PABLOKOJIYASHI, VENEA A.
Instructor of English as a Second Language
B.A., University of Oklahoma
M.A., California State University, Los Angeles

*PADDOCK, NINA S.
Instructor of Nutrition
B.S., University of Puget Sound
M.P.H., Loma Linda University

*PALACIOS, ROBERTO
Instructor of Spanish
B.A., California State University, Long Beach
M.A., University of California, Irvine

*Adjunct Faculty
*PALMA, JORGE M.
Instructor of Machine Technology

*PAN, SABRINA
Counselor
M.Ed. University of Southern California

*PANEC, CARYN
Instructor of Parent Education, Continuing Education
B.A., California State University, Northridge

*PANGANIBAN, JANETTE
Instructor of Office Business Technology, Continuing Education
B.S., California State Polytechnic University, Pomona

*PAPIENSKY, TIMOTHY
Instructor of Architecture
B.F.A., California Institute of the Arts
M.F.A., American Film Institute

PARKER, RANDAL
Instructor of Philosophy
B.A., University of British Columbia
M.A., University of California, Berkeley

*PARKER, STEVEN W.
Instructor of Sociology
B.A., M.A., California State University, Los Angeles

PARKS, LEE M.
Professor of Adapted Physical Education
B.S., M.S., University of New Mexico
Ph.D., University of Southern California

PARYINSKY, JOANNA M.
Instructor of English
B.A., Butler University
M.F.A., Chapman University

*PASCUAL, EMANUEL H.
Instructor of Accounting
A.A., Pasadena City College
B.S., University of Southern California
M.B.A., University of Wisconsin

*PATVAKANYAN, YURI
Instructor of Mathematics
Ph.D., Tbilisi State University, Russia

*PAWLKOWSKI, IWONA M.
Instructor of Theatre Arts
B.A., University of California, Irvine
M.A., Goldsmith's University of London

PAXTON, CAROL
Professor of Mathematics
A.A., Pasadena City College
B.A., M.S., California State University, Los Angeles

*PAYAN, ROSE-MARIE
Instructor of Economics
B.A., University of California, Davis
M.A., University of California, Santa Barbara

*PECORELLI, TRAVIS A.
Instructor of Chemistry
B.S., University of California, Irvine
M.S., Ph.D., University of California, Los Angeles

*PELTIER, CRAIG
Instructor of Fire Technology
A.S., College of the Canyons

*PERERA, RANMALEE A.
Instructor of English as a Second Language
M.A., California State University, Long Beach

*PERERA, SONALI M.
Instructor of Medical Office Administration
M.B.A., Woodbury University
M.H.M., California State University, Los Angeles
B.A., California State University, Dominguez Hills

*PEREZ, ARASELI
Instructor of Child Development
B.A., California State University, Los Angeles
M.A., Pacific Oaks College

PEREZ, RICARDO
Vice President, Student Services
B.A., University of California, Los Angeles
M.A., California State University, Dominguez Hills
Ed.D., University of California, Los Angeles

PERKINS, GREGORY
Counselor, EOPS
B.A., California State University, Long Beach
M.A., California State University, Dominguez Hills

*PERNER, KIMBERLI A.
Instructor of Lifelong Learning Seminars, Continuing Education
B.A., University of California, Berkeley
M.A., Concordia University

*PERSON, JANET
Instructor of English as a Second Language
B.A., Woodbury University
MA, University of Southern California

*PETERSON, MAITE
Instructor of History
B.A., M.A., California State University, Northridge

*PETROSY, VARTAN
Instructor of Aviation and Transportation

PEZESHKIAN, GAYANEH A.
Instructor of Medical Office Administration
B.A., University of California, Los Angeles

PFLUEGER, BETHANY ANN
Professor of Music
B.M., Capital University
M.M., Baylor University

*PHAM, NANCY
Instructor of Nutrition
B.S., M.S., California State University, Los Angeles

*PHAN-YAMADA, TUYETDONG T.
Instructor of Mathematics
B.S. UC Irvine
M.S. California State University, Los Angeles

*PHILLIPS, CLAIRE
Instructor of English
B.A., San Francisco State University
M.A., New York University

*PHILLIPS, JAMIE L.
Instructor of Health Education
B.S., M.S., California State University, Northridge

*PICO, MARISSA D.
Instructor of Health Sciences
B.A., M.A., Stanford University
Ph.D., University of California, Riverside

*PHILLIPS, NIK
Instructor of Health Sciences
B.S., California State University, Long Beach

*PHILLIPS, NIK
Instructor of Medical Office Administration
B.S., M.S., California State University, Northridge

*PIEDRA, MARISSA D.
Instructor of Economics
M.A., California State University, Long Beach

*PINEDA, CATHLENE J.
Instructor of Music
B.M., Mannes College
M.F.A., California Institute of the Arts

*PISCITELLO, BRUCE A.
Instructor of Geography
B.A., M.A., University of California, Los Angeles

* Adjunct Faculty
Adjunct Faculty

*PITTS, MICHAEL
Instructor of Media Arts
A.S., Los Angeles City College
B.A., M.F.A., University of Southern California

*PLASENCIA, SERGIO C.
Instructor of Physical Education
B.A., University of Dayton

*PLOURDE, JASON
Instructor of Physical Education
B.S., California State University, Los Angeles
M.S., Azusa Pacific University

*POE, MARJORIE
Instructor of Music
M.M., Eastman School of Music

*POGOSYAN, ANDRANIK
Instructor of Mathematics
B.S., M.A., University of California, Los Angeles

*POGOSYAN, TIGRAN T.
Instructor of Business Administration
J.D., Western State University College of Law

*POPE, ETHAN
Assistant Professor of Mathematics
B.S., University of Michigan
M.S., Michigan State University

*POPOVA, BILIANA K.
Instructor of Ceramics
B.F.A., M.A., National Art Academy, Bulgaria

*PORTER, ROGER H., JR.
Instructor of Ceramics
B.A., University of Texas, Austin
M.F.A., University of Arizona

*POTTER, CURTIS
Instructor of Aviation and Transportation
B.S., Union Institute and University

*POTTER, MALCOLM
Instructor of Sociology
B.A., California State University, Northridge
M.A., California State University, Los Angeles

*POVLAITIS, CARL A.
Instructor of Administration of Justice
A.S., Monterey Peninsula College
B.S., California State University, Fresno
M.F.A., University of Southern California

*POYNER, JAMES
Instructor of Speech Communication
A.A., Glendale Community College
M.F.A., American Conservatory Theatre Foundation

*PRA, DENIS D.
Instructor of French
M.A., Université Bordeaux III
M.A., Université Grenoble III

*PRADO, REINA A.
Instructor of Ethnic Studies
B.A., San Francisco State University
M.A., University of Arizona
M.A., University of Southern California

*PRECIADO-GARCIA, SAUL
Instructor of Accounting
B.S., San Diego State University
M.B.A., National University
M.A., Keller Graduate School of Management

*PRESTON, LILIA
Instructor of Nursing Science
B.S.N., University of Phoenix

*PRICE, JASON D.
Instructor of Aviation and Transportation

*PRICE, MARION
Assistant Professor of Alcohol and Drug Studies
M.A., Pacific Oaks College

*PRINDLE, MARK R.
Instructor of Geography
B.A., University of California, Los Angeles
M.A., California State University, Northridge

*PROTICH, ANITA M.
Instructor of Music
B.A., Azusa Pacific University
M.M., California State University, Los Angeles

*PUROHIT, DILIP S.
Instructor of Mathematics
B.S., University of Bombay
M.A., University of Texas

*QIAN, WEI
Instructor of English as a Second Language, Continuing Education
B.A., M.A., Hangshou University

QUEEN, JOHN
Professor of Political Science
B.A., University of Maryland
M.A., Ph.D., University of California, Los Angeles

*QUEEN, KATHRYN T.
Instructor of Art
B.F.A., Kansas City Art Institute
M.F.A., University of Colorado Boulder

*QUINTANILLA, JOHANNA V.
Counselor
B.A., M.S., California State University, Northridge

*RAFI, ROKHSAREH (ROXANNE)
Associate Professor, Counselor, EOPS
B.A., M.A., California State University, Los Angeles

*RALMONDO, KRISTA J
Instructor of English as a Second Language, Continuing Education
B.A., MA., Suny Buffalo State

*RALEY, MARTIN P.
Instructor of Philosophy
B.A., Eastern Illinois University
M.Div., Fuller Theological Institute
Ph.D., Chicago Theological Seminary

RAMIREZ, ALFRED
Administrative Dean, Noncredit and Community Education
B.S., M.S., California State University, Los Angeles
Ed.D., California State University, Northridge

RAMIREZ SAELAK, MICHELLE ANN B.
Associate Professor, Nursing Science
B.S., M.S., California State University, Los Angeles

*RAMIREZ JAVIER, ODILON
Instructor of Mathematics
B.S., M.S., California State University, Los Angeles

RAMOS, HAZEL
Instructor of History
A.A., Glendale Community College
B.A., California State Polytechnic University, Pomona
M.A., California State University, Los Angeles

*RAMOS, NELSON EVERADLDO
Instructor of Mathematics
B.A., M.A., California State University, Northridge

*RAMSEYER, ALBERT
Assistant Professor of Real Estate
B.A., University of California, Davis
M.S.B.A., Boston University
M.A., University of Southern California
J.D., Loyola Law School

*Adjunct Faculty
RANDEL, MELISSA R.
Instructor of Theatre Arts
B.A., University of California, Irvine
M.A., California State University, Long Beach

*RANGEL, AMY
Instructor of Music
B.M., Western Michigan University
M.M., California State University, Los Angeles

*RAUDA, IRIS E.
Instructor of Chemistry
B.S., M.S., California State University of Los Angeles
Ph.D., University of California, Los Angeles

*RAUDELSON, GRAHAM H.
Instructor of Music
B.A., Bowling Green State University
M.A., University of Iowa
Ph.D., University of California, Los Angeles

*RAYVA, AMARNATH V.
Instructor of English
B.A., University of California, Berkeley
M.F.A., California Institute of the Arts

*RAYA, JEAN-PAUL
Instructor of English as a Second Language
B.A., M.A., California State University, Los Angeles

*RAYA MENDOZA, HUMBERTO A.
Instructor of Mathematics
M.S., California State University, Northridge

*REDMAN, JUDY
Instructor of Alcohol/Drug Studies
A.A., B.S., Kaplan University

*REDKO, ELENA N.
Instructor of Accounting
B.A., University of California, Los Angeles

REED, MICHAEL
Associate Professor of Geography
B.A., Brown University
M.A., San Diego State University

*REFF, BRIAN C.
Instructor of Culinary Arts
B.S., University of California, Davis

*REGALADO, SHELLEY M.
Instructor of Oceanography
B.S., California State Polytechnic University, San Luis Obispo
M.S., California State University, Los Angeles

*REILLY, MICHELLE
Instructor of Parent Education, Continuing Education
B.A., San Diego State University

*RESLAN, RANDA
Instructor of Chemistry
B.S., M.S., Ph.D., University of California, Los Angeles

REYES, TONI G.
Program Manager, Health Services
Director, Student Health Center
A.D.N., East Los Angeles Community College
B.S.N., Pacific Union College
M.Ed., Cambridge College

*RHODES, KARA N.
Instructor of English as a Second Language
B.A., Ohio State University
M.A., California State University, Los Angeles

RIBEIRO, MARIAH L. R.
Professor, Counselor
B.A., University of California, Los Angeles
M.A., Loyola Marymount University

RICHER, MARGARET
Instructor of English as a Second Language, Continuing Education
B.A., M.A., California State University, Northridge

*RIDDELL, CECILIA
Instructor of Child Development
B.A., Pomona College
M.A.T., Harvard University, Graduate School of Education
Ph.D., University of California, Los Angeles

*RIDGEWAY, DOUGLAS K.
Instructor of Theatre Arts
B.A., California State University, Long Beach
M.F.A., California Institute of the Arts

*RIDGEWAY, RACHEL E.
Instructor of Geology
B.A., University of Texas Austin
M.S., California State University, Los Angeles

*RIVERA, MARTHA
Instructor of Computer Applications and Business Office Technologies
B.A., A.A., Harbor College

*RIVERS, CHRISTOPHER
Instructor of Music
B.A., University of California, San Diego
M.M., California State University, Los Angeles

*RIVEL, KATHERINE A.
Instructor of Anthropology
B.A., University of California, Irvine
M.A., Columbia University

*RISH, MEREDITH
Instructor of Lifelong Learning, Continuing Education
B.A., University of Southern California

*ROBB, DENISE
Instructor of Political Science
B.A., California State University, Los Angeles
M.A., Ph.D., University of California, Irvine

ROBERTS, ADAM C.
Instructor of Biology
M.B.A., M.S., University of California, Los Angeles

ROBERTS, DOROTHY
Instructor of Lifelong Learning, Continuing Education
B.A., M.A., University of California, Berkeley

ROBLES, VANESSA
Instructor of English as a Second Language
B.A., California State Polytechnic University, Pomona
M.Ed., University of California, Los Angeles

ROBLES, VICTOR
Instructor of Dance
B.A., California State University, Long Beach
M.F.A., Florida State University
*ROBLES, ZANAIDA N.
Instructor of Music
B.M., California State University, Long Beach
M.M., California State University, Northridge

*ROCK, PATRICK F.
Instructor of Psychology
B.A., Swarthmore College
M.A., Ph.D., University of California, Los Angeles

*ROCKWELL, CASSIE
Instructor of Business Administration
B.A., Metropolitan State College
M.A., Antioch University

*RODRIGUEZ, ANDREA A.
Instructor of Dance
B.A., University of California, Los Angeles
M.F.A., University of Southern California

*RODRIGUEZ, DAVID
Instructor of Physical Education
B.A., California State University, Los Angeles

*RODRIGUEZ, RICARDO J.
Instructor of Photography
B.F.A., University of Puerto Rico Rio Piedras
M.F.A., Brooks Institute

*RODRIGUEZ, SALVADOR J.
Instructor of Accounting
B.S., California Polytechnic State University, San Luis Obispo
M.S., American Intercontinental University
M.B.A., California Polytechnic State University, Pomona

*ROE, SHANNON M.
Instructor of Political Science
B.A., California State University, Los Angeles

*ROESE R, KAYLA M.
Instructor of Chemistry
B.S., University of California, San Diego
M.S., University of California, Los Angeles

ROHRBACHER, FRANCIEN
Associate Professor of English
B.A., University of California, Los Angeles
M.A., California State University, Northridge

*ROMAN, DANIELA A.
Instructor of Adult Basic and Secondary Education, Continuing Education
B.S., University of Bucharest
M.S., National University

*ROMANO, MARK
Instructor of Political Science
A.A., Glendale Community College
B.A., California State University, Northridge
M.A., University of California, Los Angeles

ROME, JOHN
Instructor of Physical Education, Head Football Coach
B.A., B.A., University of La Verne
M.Ed., Azusa Pacific University

*ROMERO, MICHAEL C.
Instructor of Philosophy
B.A., University of California, Los Angeles
M.A., Biola University

ROMERO, SANDRA
Instructor of Mathematics
B.S., California State University, Long Beach
M.S., University of Southern California

*ROMULO, ALFRED R.
Instructor of English as a Second Language, Continuing Education
B.A., B.A., M.A., California State University, Los Angeles

ROONEY, MARIAN A.C.
Associate Professor, English
M.Phil, Oxford, United Kingdom

*ROONEY, MICHAEL S.
Instructor of Philosophy
A.B., Occidental College
M.A., Villanova University, Pennsylvania

*ROSENBLATT, WILLIAM E.
Instructor of English
B.A., M.A., California State University, Northridge

ROSS, W. BARRETT (BARRY)
Assistant Professor of Business Administration
B.S., M.B.A., University of Southern California
J.D., Southwestern University

*ROSTAMI, NAIRI
Instructor of Mathematics
B.A., M.S., California State University, Los Angeles

*ROSTAMIANI, KAROLINE
Instructor of Biology
Ph.D., University of Southern California

*ROWE, KATHLEEN A. MARTIN
Instructor of English
B.A., Azusa Pacific University
M.A., California State University, Northridge

*RUBALCAVA, ROLANDO
Instructor of English
B.A., M.A., California State University, Northridge

RUBKE, SCOTT
Division Chair, Technology and Aviation
Associate Professor of Aviation and Transportation
B.S., California State University, Northridge

*RUEDAFLORES, STEVEN M.
Instructor of Physical Education
B.A., M.A., Azusa Pacific University

*RUIZ, ARACELI
Instructor of Adult Basic and Secondary Education, Continuing Education
B.A., University of California, Santa Barbara
M.A., M.A., Point Loma Nazarene University

RUSSELL, ELIZABETH
Division Chair, Professor of Mathematics
B.S., M.S., University of North Texas

*RUSSELL, CHRISTY A.
Instructor of English
B.A., University of Michigan
M.A., University of California, Riverside

*RYAN, SUSAN M.
Instructor of English as a Second Language, Continuing Education
B.A., California State University, Fullerton
M.A., University of California, Los Angeles

*SABIU, GHIWA A.
Instructor of Chemistry
B.A., Beirut Arab University
M.A., California State University, Los Angeles

*SADHAWANI, SARA
Instructor of Political Science
B.Phil., M.A., University of Pittsburgh

*SAHAKIAN, EDWIN
Instructor of Aviation & Transportation

*SAHAKIAN, MARI N.
Instructor of English as a Second Language, Continuing Education
B.S., University of California, Los Angeles
M.A., California State University, Los Angeles

*Adjunct Faculty
SAHAKYAN, NICK  
Associate Professor of Armenian  
M.A., Yerevan State University  

*SAZAR, ARSHO S.  
Instructor of Nursing  
A.S., Glendale Community College  
B.S.N., Western Governors University  

*SAZAR, JR., BENJAMIN C.  
Associate Professor, Alcohol/Drug Studies  
B.A., University of California, Los Angeles  
M.S., California State University, Los Angeles  

*SALDANA, MIRTHA  
Instructor of Spanish  
B.S., M.S., Federico Villarrreal National University, Peru  

*SAMANI, NICOLE  
Counselor  
B.A., University of California, Los Angeles  
M.S., California State University, Northridge  

*SANCHEZ, JANICE C.  
Counselor  
M.A., California State University, Dominguez, Hills  

*SANDOR, PATRICK A.  
Assistant Professor of Alcohol/Drug Studies  
M.A., Pacific Oaks College  

*SAPON, MYLINH N.  
Instructor of English as a Second Language  
B.S., California Polytechnic State University, San Luis Obispo  
M.A., Biola University  

*SARGSYAN, ARUSYAK  
Instructor of English as a Second Language, Continuing Education  
B.A., M.A., Yerevan State Linguistic University  

*SARIN, KATHERINE  
Instructor of English as a Second Language, Continuing Education  
M.A., California State University, Los Angeles  

*SARKISIAN, AMY  
Instructor of Art  
B.F.A., Kent State University  
M.F.A., University of California, Los Angeles  

*SARKISIAN, ARA  
Instructor of Machine Technology  
A.S., Glendale Community College  

*SARKISSIAN, GEVIK  
Instructor of Computer Science/Information Systems  
M.S., California State University, Northridge  

*SARKISSIAN, HASMIK  
Instructor of Computer Applications and Business Office Technologies  
A.S., Glendale Community College  
B.S., California State University, Northridge  

SATO, NAOMI  
Instructor of English as a Second Language  
B.S., Bloomburg University  
M.A., University of Southern California  

*SAYANI, SHAHRI H.  
Instructor of Chemistry  
B.S., Ph.D., University of California, Los Angeles  

*SCALICE, KAREN L.  
Instructor of Alcohol/Drug Studies  
A.A., Glendale Community College  
B.A., M.A., Pacific Oaks University  

*SCHANDER, MARY L.  
Assistant Professor, Political Science  
B.A., California Lutheran University  
M.A., University of California, Los Angeles  

*SCHILF, MICHAEL  
Assistant Professor, English  
B.A., Marquette University  
M.F.A., University of Southern California  

SCHLOSSMAN, PAUL A.  
Dean, Student Affairs, Interim Director, Communication & Marketing  
B.S., M.P.A., San Diego State University  
Ed.D., University of California, Los Angeles  

SCHLUETER, RORY  
Professor of Computer Science/Information Systems  
B.S., University of Southern California  
M.S., National University  

*SCHUCK, ROBERT  
Instructor of Adult Basic and Secondary Education, Continuing Education  
B.S., M.S., State University of New York  
B.A., California State University, Northridge  
Ph.D., University of Southern California  

SCHULTEN, CHARLOTTE  
Assistant Professor of Mathematics  
B.S., University of Chicago  
M.S., California Institute of Technology  

*SCHULTZ, LARISSA J.  
Instructor of Hospitality & Tourism Management  
B.A., Wartburg College  
M.A., University of Nevada, Las Vegas  

SCHUMACHER, ALEXA  
Instructor of English  
B.A., Royal Melbourne Institute of Technology  
Ed.Sp., M.S., Nova Southeastern University  

*SCHWARTZ, JASON J.  
Instructor of Chemistry  
B.S., California State University, Los Angeles  
Ph.D., Purdue University  
J.D., Franklin Pierce Law Center, New Hampshire  

*SCHWENKMEYER, KAREN A.  
Instructor of Photography  
B.A., University of California, Santa Cruz  
M.F.A., California Institute of the Arts  

SCOTT JR., MICHAEL D.  
Division Chair, Business  
Associate Professor, Accounting  
A.A., Glendale Community College  
B.S., California State University, Los Angeles  
M.S., Golden Gate University  

*SCOTT, GREGORY  
Instructor of Computer Science/Information Systems  
B.S., M.S., Washington University  

*SCRIVNER, PAUL J.  
Instructor of Geology  
B.S., M.S., University of Southern California  

*SEDVIK, ZIAD  
Instructor of Geology  
A.A., Glendale Community College  
B.S., California State University, Los Angeles  
M.S., California State University, Long Beach  

*SEKHANAN, CHRISTIAN E.  
Instructor of Dance  
B.S., Southville International School and Colleges  

*SELINSKE, TOM G.  
Instructor of Business Administration  
B.S., California State Polytechnic University, Pomona  
M.B.A., Pepperdine University  

* Adjunct Faculty
*Selsby, David J.
Instructor of English
B.A., Occidental College
M.A., University of Sussex

*Semerdzhya, Susanna
Instructor of English as a Second Language, Continuing Education
M.A., California State University, Los Angeles

*Shabani, Zeplour
Instructor of English as a Second Language
B.A., University of California, Santa Barbara
M.A., University of Southern California

*Shade, Stephen
Instructor of English
B.S., Millersville University
M.A., Villanova University
M.F.A., University of Iowa

*Shahnazarian, Patrick
Instructor of Electronics and Computer Technology
B.S., Islamic Azad University
M.S., California State University, Northridge

Shahoian, Shant R.
Instructor of English
B.A., University of California, Los Angeles
M.A., California State University, Northridge

Shahmeh, Rosemary
Associate Professor, Office Business Technology, Continuing Education
B.A., California State University, Los Angeles
M.A., University of Phoenix

*Shamim, Brandon F.
Instructor of Entrepreneurship
B.A., University of Southern California
M.S., University of La Verne

*Shamryan, Marie
Instructor of Nursing
A.S., Glendale Community College
B.S., California State University, Los Angeles

*Shamma, John Elias
Instructor of Environmental Technology
B.S., California State University, Los Angeles
M.S., University of Southern California

*Shanley, Michael F.
Instructor of Speech Communication
M.A., California State University, Northridge

Sheffeystinson, Sandi
Instructor of Computer Applications and Business Office Technologies
B.S., Ohio State University
M.S., Azusa Pacific University
M.A., Ph.D., Kent State University

*Shehee, Taneka
Instructor of Ethnic Studies
B.A., Hampton University
M.A., University of California, Los Angeles

Sherif, Jamie H.
Instructor of French
B.A., Loyola Marymount University
M.A., California State University, Long Beach

*Sherman, James H.
Librarian
M.L.I.S., San Jose State University

*Sherman, Paul Jon
Instructor of Music
B.A., California Institute of the Arts
M.F.A., D.M.A., University of Southern California

*Sherman, Vered
Instructor of Nursing Science
M.S.N., University of Phoenix

*Shields, Robert J.
Instructor of English as a Second Language, Continuing Education
B.A., Humboldt State University
M.A.Ed., University of Phoenix

*Shim, Irene I.
Counselor
B.A., University of California, Los Angeles
M.S., California State University, Northridge

*Shows, Aaron
Instructor of Music
B.F.A., Shenandoah Conservatory
M.F.A., University of North Carolina School of the Arts

*Shroyer, Kristina
Instructor of Business Administration
B.A., University of Iowa
M.S., California State University, Northridge

*Shryock, Aaron M.
Instructor of English as a Second Language
Ph.D., University of California, Los Angeles

*Siegrist, Esthela G.
Instructor of English as a Second Language, Continuing Education
B.A., M.A., California State Polytechnic University, Pomona

*Siemon-Burgeson, Marilyn M.
Instructor of Child Development
B.A., University of Redlands
M.A., Pacific Oaks College

*Simonds, Celia
Instructor of Ethnic Studies
B.A., M.A., California State University, Los Angeles

*Simpson, Katie A.
Instructor of English as a Second Language, Continuing Education
B.A., University of California, Los Angeles
M.Ed., University of Nevada, Las Vegas

*Simpson, Riccardo J.
Instructor of English
B.A., M.F.A., Minnesota State University Moorhead

*Simpson, Steve
Instructor of Office Business Technology, Continuing Education
B.S., Arizona State University

*Sing, Susan Fong
Associate Professor of Art
A.A., Modesto Junior College
B.A., California State College, Stanislaus
M.A., California State University, San Francisco

*Singhaseni, Par
Instructor of Biology
B.S., M.S., California State Polytechnic University, Pomona

*Skauge, Andy
Instructor of Chemistry
Ph.D., Wayne State University

*Smith, Brian
Instructor of Accounting
B.S., Loyola Marymount University
M.B.A., California State University, Northridge

*Smith, Jeffrey
Associate Professor of Speech Communication
B.A., University of Southern California
M.A., The Catholic University of America
Ed.D., Walden University

*Smith, Justin J.
Instructor of History
B.A., M.A., California State University, Long Beach

*Adjunct Faculty
*SMITH, KIMBERLY C.
Instructor of American Sign Language
B.A., California State University, Northridge

SMITH, FRANCIS NICHOLAS
Instructor of Speech Communication
B.A., Sussex University, United Kingdom  
M.Phil, Cambridge University, United Kingdom  
M.A., Pepperdine University

*SOEMARDI, ANDY
Instructor of Accounting
B.A., University of California, Berkeley
M.S., Golden Gate University

*SOHRABIAN, SEVAK
Instructor of Real Estate
B.S., University of Redlands

*SOLIEVA, DILOROM
Instructor of English as a Second Language, Continuing Education
M.A., Azusa Pacific University

SOMO, SALLY V.
Instructor of Sociology
B.S., M.S., San Diego State University

SON, KATHRYN
Instructor of English as a Second Language, Continuing Education
B.A., Pepperdine College, Los Angeles  
M.A., California State University, Los Angeles

*SOTO, JOSE D.
Instructor of Music
B.M., M.M., University of Southern California

SOWTER, SANDY
Instructor of English
B.A., University of California, Berkeley  
M.A., California State University, Long Beach

SPARFELD, TOBIN C.
Instructor of Music
B.A., Principia College  
M.M., Illinois State University  
D.M.A., University of Miami

*SPARKS, WILLIAM J.
Instructor of Child Development
B.A., Pacific Oaks College  
M.A., California State University, Los Angeles

STACH, MURRAY
Associate Professor, Counselor
B.S., University of Wisconsin-Green Bay  
M.A., Pepperdine University  
M.S., California State University, Northridge

*STARK, ANDREA
Assistant Professor of Speech Communication
M.F.A., Northern Illinois University

*STARK, SYDNEY J.
Football Coach, Assistant Professor of Physical Education
B.S., Westminster College of Salt Lake City  
M.A., California Lutheran University

*STARK, DIANNE
Instructor of English as a Second Language, Continuing Education
B.A., University of California, Berkeley  
M.A., University of San Francisco

Instructor of Life Skills, Continuing Education Business
B.A., Boston University  
M.A., San Francisco State University  
M.F.A., Vermont College of Fine Arts

*STUNTZ, LORI A.
Instructor of Music
B.A., San Jose State University  
M.M., D.M.A., University of Southern California

*SWAN, TRACEY VIOLET
Instructor of Dance
M.F.A., University of California, Los Angeles

*SWEENEY, ALESSANDRINA G.
Instructor of Speech Communication
B.A., Loyola Marymount University  
M.A., California State University, Northridge

*SWETT, KAREN L.
Instructor of Speech Communication
B.A., M.A., California State University, Northridge

SWINTON, JAN
Associate Dean, Instructional Services & Workforce Development
B.A., San Diego State University  
M.S., California State University, Los Angeles

*SY, DEOMARLEE L.
Head Coach, Women’s Tennis
B.A., California State University, Northridge

*SYNODINOS, DIMITRIOS J.
Instructor of Political Science
B.A., M.A., California State University, Northridge

*SZILAGYI, KRISTIN B.
Instructor of Life Skills, Continuing Education
B.A., M.A., California State University, Los Angeles

*TABER, COLLEEN M.
Instructor of Computer Applications & Business Office Technologies
B.A., University of California, Los Angeles

*TACUB, ARBY JEAN A.
Instructor of American Sign Language
B.A., M.A., California State University, Northridge

TAGHDIS, MOHAMMAD
Professor, Counselor, Continuing Education
B.S.M.E., University of Akron  
M.B.A., West Coast University  
M.S., National University

*TAIRA, KENNETH M.
Instructor of Computer Science Information Systems
B.S., University of California, Berkeley  
M.S., University of Southern California

* Adjunct Faculty
TALAOC, JEREMY J.  
Assistant Professor of Mathematics  
B.A., University of California, Los Angeles  
M.S., California State University, Northridge

*TANAKAYA, RUSSELL M.  
Instructor of Hotel Restaurant Management  
B.S., University of Houston

*TANNENBAUM, DEBORAH  
Instructor of English as a Second Language, Continuing Education  
B.A., University of California, Los Angeles  
M.A., California State University, Los Angeles

TASHIRO, JEANETTE  
Director, Child Development Center  
A.A., East Los Angeles College  
B.A., California State University, Los Angeles  
M.A., Pacific Oaks College

*TATEVOSSIAN, GEORGE  
Instructor of Humanities  
M.A., California State University, Northridge

TATSUGAWA, SHIHOKO  
Associate Professor of Japanese  
B.A., Meiji Gakuin University, Tokyo  
M.S., California State University, Los Angeles

*TAYLOR, ROBERT M.  
Instructor of English  
B.A., California State University, Long Beach  
M.F.A., Chapman University

TAYLOR, ROBERT S.  
Professor of English  
A.B., University of California, Los Angeles  
M.F.A., Vermont College  
M.A., Claremont College

*TAYO, MARIA JOSEFINA  
Instructor of Nursing Science  
B.S.N., University of the East, Manila

*TELLIYAN, ARMENUI M.  
Instructor of Office Business Technology, Continuing Education  
B.A., M.A., California State University, Northridge

THAIL, SHELLEY  
Assistant Professor of Biology  
B.Sc., Ph.D., University of California, Los Angeles

*THOKE, CLAIRE B.  
Instructor of Office Business Technology, Continuing Education  
B.A., M.A., California State University, Los Angeles

*THOMAS, STEPHANIE K.  
Instructor of Speech Communication  
M.A., Regent University  
M.A., Academy of Art University

*THOMPSON, DEBRA K.  
Assistant Professor of Art History  
M.A., California State University, Northridge  
M.N., University of Washington

THOMPSON, INGER  
Associate Professor of Psychology  
B.A., University of California, Irvine  
M.A., San Francisco State University

*THOMPSON, LESLIE K.  
Instructor of Physical Education  
M.A., Concordia University

*THOMPSON, MARCIA L.  
Instructor of Child Development  
B.S., San Jose State University  
M.A., Pacific Oaks College

*THUENTE, TERRI L.  
Instructor of Journalism  
B.A., California State University, Fullerton

TIERNAN, MONETTE  
Division Chair, Assistant Professor of English  
B.A., California State University, Los Angeles  
M.A., Ph.D., University of Pittsburgh

* TILESTON, THOMAS R.  
Instructor of Economics  
B.A., University of Missouri  
M.A., California State University, Long Beach

TIRMAN, DANIEL  
Instructor of English as a Second Language  
B.A., M.A., Hunter College of CUNY

*TISSOT, CHRISTOPHER G.  
Instructor of Health & Physical Education  
B.A., California State University, Northridge  
M.S., Azusa Pacific University

*TOJEA, JUSTIN F.  
Instructor of Physical Education  
B.A., California State University, Los Angeles

*TOORIAN, ARMEN S.  
Instructor of Engineering  
B.S., M.S., California State Polytechnic University, San Luis Obispo

TORRES, FABIOLA  
Instructor of Ethnic Studies, Distance Education Coordinator  
B.A., M.A., California State University, Northridge

*TORRES, JIMCER S.  
Instructor of Health Information Technology  
B.S., University of Santo Thomas  
Ph.D., Angeles University Foundation

*TOWNS III, LESTER  
Instructor of Physical Education  
B.A., University of Washington  
M.S., Emporia State University

*TRAN, KIM N.  
Instructor of Music  
B.A., Dartmouth College  
M.A., University of California, Los Angeles

*TRAVIS, LORI L.  
Instructor of Speech Communication  
B.A., California State University, Bakersfield  
M.A., California State University, Northridge  
Ed.D., Pepperdine University

*Adjunct Faculty
Adjunct Faculty

*TREJIO, ADRIAN D.
Instructor of Speech Communication
B.A., California State University, Northridge
M.A., New York University
M.A., Gonzaga University

*TREMPER, MARK W.
Instructor of English as a Second Language
B.A., University of California, Davis
M.A., University of Texas at Arlington

*TRONCALE, ANDY M.
Instructor of Fire Technology
B.S., California State University, North Beach

*TROPF, RALPH K.
Instructor of English
M.F.A., University of Nevada, Las Vegas

*TSAGGOURI, ELENI P.
Instructor of History
B.A., University of California, Los Angeles

*TSOU, KALEUNG
Instructor of Computer Science/Information Systems
B.S., DeVry University
M.B.A., Keller Graduate School of Management

*TUCKER, MARK J.
Instructor of Mathematics
A.A., Central Virginia Community College
B.A., M.S., University of Virginia

*TUFENKJIAN, TANYA A.
Counselor
B.A., California State University, Northridge
M.A., California Lutheran University

*TYNI, TODD N.
Instructor of Physical Education
B.A., California State University, Northridge
M.A., California Lutheran University

*ULREY, GERI J.
Instructor of Mass Communications
B.A., Vassar College
M.F.A., University of California, Los Angeles

*UNGER, CHARLES B.
Instructor of Media Arts
B.S., University of Southern California

*UTASH, SIGRUN F.
Instructor of English as a Second Language
B.A., California State University, Northridge
M.A., California State University, Los Angeles

*UZUNYAN, ALVARD
Instructor of Armenian
M.A., Yerevan State University

*VACA, CECILIA
Instructor of Nursing
A.S., Glendale Community College
B.S.N., Western Governors University

*VACAS, FERNANDO
Instructor of Office Business Technology, Continuing Education
B.S.E.E., California State Polytechnic University, Pomona

VALE, TIM
Assistant Professor of Nursing Science
B.S., M.S., California State University, Long Beach

*VALDEZ, JOHN D.
Instructor of English as a Second Language
B.A., University of Redlands
M.A., California State University, Los Angeles

*VALFER, PAMELA M.
Instructor of Art
B.F.A. Minneapolis College of Art and Design
M.F.A., University of Minnesota

*VAN BREMEN, DENNIS
Instructor of English as a Second Language, Continuing Education
B.A., California State University, Northridge
M.Ed., University of La Verne

*VAN HYNING, JENNIFER L.
Instructor of English as a Second Language
B.A., University of Montana
M.A., California State University, Los Angeles
Ph.D., University of Texas at Austin

*VARD, BRENDA L.
Instructor of Theatre Arts
B.A., Regents College
M.A., Antioch University
M.F.A., University of California, Riverside

VAUGHN, KIRK
Associate Professor of English as a Second Language
B.A., Middlebury College
M.Ed., University of California, Los Angeles

*VEGA, ANGELICA A.
Instructor of English as a Second Language
B.A., California State University, Los Angeles

*VENIER, DANIEL
Assistant Professor of English as a Second Language
B.S., Loyola Marymount University
M.A., California State University, Los Angeles

*VERGARA, JACQUELINE
Instructor Basic Skills, Continuing Education
B.A., University of California, Los Angeles
M.A., CUNY Graduate School of Journalism

*VICKERS, BRAD R.
Instructor of Office Business Technology, Continuing Education
M.S., Azusa Pacific University
M.B.A., Woodbury University
J.D., Loyola Law School

*VILLALOBOS, ANA L.
Instructor of Nursing Science
A.S., Glendale Community College
B.S., University of La Verne

*VILLALON, RAMIRO
Instructor of Architecture
A.A., Los Angeles Valley College

*VIRANI, FIONA
Associate Professor of Nursing Science
B.S.N., M.S.N., University of California, Los Angeles

*VODEN, THOMAS
Associate Professor, Mathematics
B.S., University of California, Riverside
M.A., Ph.D., University of California, San Diego

* Adjunct Faculty
*VU, LUAN D.
Instructor of Chemistry
B.S., M.S., University of California, Los Angeles

*WACHS, MICHAEL B.
Instructor of Music
B.A., California State University, Northridge
M.M.E., University of Southern California

*WAGNER, KIRK A.
Instructor of Physical Education
A.S., Pasadena City College
B.S., University of Kansas
M.A., University of Phoenix

*WALKER, NANCY T.
Instructor of English
B.A., M.S., Ph.D., University of Southern California

*WAN, CHRISTOPHER L.
Instructor of Fire Academy
A.S., Rio Hondo College
B.S., California State Polytechnic University, Pomona

*WANG, EILEEN Y.
Instructor of English as a Second Language
B.A., University of California, Irvine
M.A., California State University, Los Angeles

*WARE, ADRA
Assistant Professor of English as a Second Language
B.A., California State University, Los Angeles

*WASHBURN, NANCY
Instructor of Child Development
B.A., M.A., California State University, Los Angeles

*WATKINS, VITA M.
Instructor of English
B.A., M.A., California State University, Los Angeles

*WATTS, LARRY
Instructor of English as a Second Language, Continuing Education
B.A., M.A., California State University, Fullerton

*WEI, YUAN-BANG JOSEPH
Instructor of English as a Second Language
B.A., Soochow University

WEISS, JOEL
Instructor of Kinesiology, Head Women’s Basketball Coach
M.S., University of Texas Pan American
M.A., Nicholls State University

*WELLS, LILLI A.
Instructor of Nutritional Science
B.S., Colorado State University
M.S., University of Bridgeport

*WESSEL, MARK
Instructor of Art
B.A., University of California, Los Angeles
B.F.A., M.F.A., University of Utah

*WHITE, MANUEL
Instructor of Fire Technology
B.A., University of California, Los Angeles

*WHITNEY, EMERSON
Instructor of English
M.F.A., California Institute of the Arts

*WILKE, AMY
Instructor of Culinary Arts
B.S., M.S., Arizona State University

*WILLIAMS, BRIAN D.
Instructor of Political Science
B.A., California State University, San Marcos
M.A., University of California, Riverside

*WILLIAMS, DERICK P.
Instructor of Physical Education, Women’s Head Golf Coach
B.A., Michigan State University

*WILLIAMS, J. GREG
Instructor of English
B.A., Arizona State University
M.A., California State University, Los Angeles

*WILLIAMS, TARA N.
Instructor of Chemistry
B.S., Florida State University
Ph.D., University of Sussex

WILLIAMS, TEYANNA L.
Associate Vice President, Human Resources
B.A., University of California, Los Angeles
M.P.A., California State University, Dominguez Hills
J.D., Arizona State University

*WILSON, CHRISTOPHER R.
Instructor of Office Business Technology, Continuing Education
B.A., California State University, Northridge

*WILSON, MARTINA A.
Instructor of Alcohol/Drug Studies
Certificate Glendale College
B.S. Manchester College

*WILSON, RUTH A.
Instructor of English as a Second Language, Continuing Education
B.A., M.A., Azusa Pacific University

*WINTERFIELD, MARY
Instructor of English as a Second Language
B.S., University of Wisconsin, Madison
M.S., Universidad del Zulia, Venezuela

*WOELLHOF, CARA D.
Instructor of English as a Second Language
B.A., M.A., Azusa Pacific University

*WOJCIECHOWSK, MICHAEL C.
Instructor of Entrepreneurship
B.S., University of Southern California
M.B.A., Pepperdine University

*WOLDEHAIMANOT, BERAKI
Instructor of Geology
B.Sc., Addis Ababa University, Ethiopia
M.Sc., University of Roorkie, India
Ph.D., Justus Liebig University, Giessen, West Germany

*WOLFRAM, JULIANN K.
Instructor of Art
B.A., Scripps College
M.A., M.Phil., University of Kansas

*WOLIN-TUPAS, ROBERTA L.
Instructor of Child Development
A.A., Santa Monica College
B.A., Reed College
M.A., University of California, Los Angeles

*WONG, DARREN R.
Instructor of Dance
B.A., University of California, Irvine

*WOO, MISIK
Instructor of Mathematics
B.A., University of California, San Diego
M.A., University of California, Santa Barbara
M.S., California State University, Los Angeles

*WOODS, DONALD N.
Instructor of Aviation and Transportation
B.S.E.E., University of California, San Diego

*WORTHLEY, CHARLENE
Assistant Professor of English as a Second Language, Continuing Education
B.A., University of California, Los Angeles

*WRIGHT, TIM D.
Instructor of Art
B.A., M.A., University of Southern California
J.D., California Western School of Law

*Adjunct Faculty
YAMAMOTO, DAVID A.
Associate Professor of Photography
B.A., B.A., University of California, Irvine
M.F.A., California Institute of the Arts

*YANG, GRACE H.
Instructor of Chinese
M.A., St. John's University

YBARRA, YVETTE
Assistant Athletic Director, Women’s Volleyball Coach
Assistant Professor of Health and Physical Education
B.A., Boise State University, Idaho

*YEFREMIAN, ANDRE
Instructor of Anthropology
B.A., B.S., University of California, Riverside
M.A., University of Southern California

*YEGANYAN, NUNE
Assistant Professor of English as a Second Language, Continuing Education
B.A., M.S., Yerevan State University, Armenia

*YEGHAJIAN, RACHEL
Instructor of Computer Science
B.S., M.B.A., University of Southern California

*YEGIYANTS, ANNA T.
Instructor of English as a Second Language, Continuing Education
B.S., Yerevan State Pedagogical Institute of the Russian and Foreign Languages
M.S., California State University, Northridge

*YERMIAIN, JAKLIN
Instructor of French
A.A., Glendale Community College, CA
B.A., M.A., University of California, Los Angeles

YOUNG, ANDREW
Associate Professor of Mathematics
B.S., University of California, Irvine
M.A., University of California, San Diego

YOUNG, JAN
Division Chair, Business and Life Skills, Non-Credit, Associate Professor
Adult Basic and Secondary Education Coordinator, Continuing Education
B.A., Skidmore College, New York
M.B.A., University of California, Berkeley

*YOUNG, LINDA
Instructor of English as a Second Language, Continuing Education
B.A., Grand Canyon University
M.A., Azusa Pacific University

*YOUNG, STEVEN R.
Instructor of Business Administration
B.S., University of Phoenix

YU, CHUNghi L.
Instructor of Korean
B.A., Hankuk University of Foreign Studies
M.E., University of Guam
Ed.D, University of Southern California

*ZADOORIAN, LOOSINEH
Instructor of English as a Second Language, Continuing Education
M.A., California State University, Northridge
M.A., Khorasgan Azad University

ZAKARIA, MARISA A.
Instructor of Business Administration
B.S., M.B.A., John Carroll University

*ZAKARYAN, YELANA
Instructor of Chemistry
M.S., Polytechnical University of Yerevan

*ZAMORA, MONICA BARRIOS
Instructor of English as a Second Language, Continuing Education
M.A., California State University, Northridge

*ZAPATA, MAURY P.
Instructor of Economics
A.A., Pasadena City College
B.A., University of California, Berkeley
M.A., California State University, Los Angeles

ZARCONI, JOHN
Instructor of Art
B.A., California State University, Northridge
M.F.A., Art Center College of Design

*ZARGARI, NINA
Instructor of Chemistry
B.S., University of California, Irvine
Ph.D, University of Southern California

*ZARGARIAN, TATIANA
Instructor of Child Development
B.A., M.A., Pacific Oaks College

*ZAYAS, EDGARDO
Instructor of English as a Second Language, Continuing Education
B.A., M.A., Brigham Young University
M.A., University of Redlands

*ZEYNYALYAN, ODETT
Instructor of Engineering
A.S., Glendale Community College, California

*ZHANG, DONG
Instructor of Chemistry
B.S., M.S., Lanzhou University
Ph.D, Chinese Academy of Science

*ZIAEI, BEN
Instructor of Mathematics
B.A., M.S., Hacettepe University

ZIEGLER, TRACEY B.
Assistant Professor, Counselor, Center for Students with Disabilities
B.S., Cabrini College, Pennsylvania
M.S., Mount Saint Mary's College

*ZIEGLER, ZACHARIUS
Instructor of English as a Second Language
B.A., Ramapo College, New Jersey
M.A., California State University Los Angeles

*ZOHREHVAND, LISA
Instructor of English
B.S., M.S., State University of New York, Plattsburgh

*ZOOLALIAN, LINDA A.
Instructor of Music
M.M., D.M.A., University of Southern California
B.M., New England Conservatory of Music

*ZOZULA, WALT
Instructor of Real Estate

* Adjunct Faculty
