Welcome to Glendale Community College. For over 80 years student success has been our priority and educational excellence has been our hallmark. Let me be the first to welcome you and tell you about this fine institution.

Glendale Community College is one of the premier institutions in the state of California because our excellent faculty and staff make you their focus. Whether you are looking to transfer to a four year college, attain an Associate of Arts degree, Associate of Science degree or career technical certificate we have the programs for you. In addition to our stellar academic curriculum, we also offer noncredit programs and classes for life-long learners.

Our campus, nestled in the Verdugo Mountains with spectacular views, open spaces and Spanish/Mediterranean style architecture, features state of the art facilities from a world-class planetarium and digital arts program - to athletics, performing arts and academic offerings.

Your life as a student will be a unique experience unmeasured by anything else in the state. You will benefit from and enjoy your learning experience with us. Thank you for choosing Glendale College where we make you our top priority.

Dr. Dawn Lindsay
Superintendent/President
The Board of Trustees of the Glendale Community College District consists of five members who are elected by the voters of the community for a four-year term. A Student Trustee is elected annually by the students and is the official representative of the students to the Board. The Superintendent/President of the District serves as Secretary to the Board. The Board meets at least once a month, and agendas are posted in accordance with the Brown Act.

The Board is the policy-forming body of the District, deriving power from, and subject to, the U.S. Constitution, statutes of the State of California, and directives from the Board of Governors of the California Community Colleges.

The duties of the Board include approval of college policy, adoption of an annual budget, approval of expenditure of all District funds, approval of current and long-range educational plans, acquisition of property for District purposes, and approval of employment of academic and classified personnel.
In 1926, higher education was reserved for a relative few, but farsighted citizens in Glendale recognized the need to open doors to academic and vocational instruction to a broader base of the community. As a result, Glendale citizens voted to form a community college, or junior college as it was then called, as part of the Glendale Unified School District.

The first semester, 139 students responded to the public notice that college classes were to be offered in the buildings of Glendale Union High School at Broadway and Verdugo. The College was an immediate success and by 1929 the student population increased to 435, with 27 faculty members.

Through the years Glendale Junior College continued to grow. It moved to the present site in 1937 with the support of a bond election and funds matched equally by a WPA grant. Total cost for purchase and construction of the new 59 acre site was $390,000.

In 1971, as the College became more responsive to the needs of the greater Glendale community, the name was officially changed to Glendale Community College District.

Fast forward to 2010 - Glendale Community College is a dynamic institution with more than 25,000 students. They are enrolled in college-credit at the main campus, continuing education at the Garfield campus, community services classes held throughout the community, and the Professional Development Center located in Montrose. The College serves an ethnically diverse student body with no single group forming a majority.

The faculty has used its energy to develop a wide ranging curriculum intended to prepare students for the 21st century. Student Services faculty provide invaluable academic, career, and financial counseling to students. Today the goal of those farsighted citizens of Glendale has been achieved. Higher education is available to all who come to Glendale Community College.

GENERAL INFORMATION

MISSION STATEMENT

Glendale Community College welcomes students of all diverse backgrounds, goals, ages, abilities, and learning styles. As an institution of higher education, we are committed to student learning and success. Using personal interaction, dynamic and rigorous instruction, and innovative technologies, we foster the development of critical thinking and lifelong learning. We provide students with the opportunity and support to gain the knowledge and skills necessary to meet their educational, career, and personal goals. Our commitment is to prepare students for their many evolving roles and responsibilities in our community, our state, and our society.

As part of this mission, Glendale Community College is committed to:

• providing a rich and rigorous curriculum that helps students understand and appreciate the artistic and cultural heritage of this society, the history and development of civilization, the scientific environment in which they live, and the challenges of their personal lives;
• emphasizing the coherence among disciplines and promotion of openness to the diversity of the human experience;
• helping students to develop important skills that are critical for success in the modern workplace, such as verbal and written communication, mathematics, the effective use of technology for work and research, information analysis and evaluation, problem solving, and the ability to work with others and conduct their lives with responsibility;
• providing an extensive array of student services and learning tools, including state-of-the-art technology, to assist students in all aspects of their college experience;
• creating a supportive, non-discriminatory environment which enables students to reach their educational goals in an efficient and timely manner.

OBJECTIVES AND FUNCTIONS

Pursuant to its stated mission, Glendale Community College has one objective: education.

Six primary functions support this objective.

a. Associate in Arts/Associate in Science: Education toward the granting of AA/AS degree(s) is provided in accordance with approved graduation requirements. General education and major coursework form the core of the required curriculum, the balance being electives.

b. Education for meeting the lower division requirements of a university or a four-year college: The college offers many courses which are equivalent to those available in the freshman and sophomore years at the University of California, The California State University and other colleges and universities in the United States. A student with a satisfactory high school and community college record will receive full credit for all college and university level work done at Glendale Community College provided that the work meets the specific requirements of the college or university to which the student transfers.

c. Education beyond the high school level for vocational competence and/or occupational certification: Training programs are offered for many occupations in business and industry. Certificates are awarded upon completion of the requirements for the occupation-centered curriculums. Courses offered in these programs serve three groups of students: those training for entry-level positions; those preparing for advancement on the job; and those seeking to improve skills to meet new job requirements. Thus, students are offered a balance of technical and general education.

d. Pre-Collegiate Basic Skills: Educational programs prepare students for collegiate level work. Courses are designed to provide the student with basic skills instruction with emphasis on speaking, listening, reading, writing and computation.

e. Education beyond the secondary level for personal improvement: Recognizing the needs of post-secondary students for education which may lead neither to education in a higher institution nor to vocational preparation, Glendale Community College offers a diversity of courses which satisfy intellectual curiosity and provide knowledge about and appreciation of our universe.

f. Non-Credit/Adult Education level: A comprehensive program includes basic education, courses leading to the high school diploma, citizenship, English as a second language, career and vocational classes, and courses that satisfy the many special interest needs of the community.

PROGRAMS AND SERVICES

A variety of programs and services implements and supports the objectives and functions stated above.

a. Counseling: Counseling services are available to help students have a successful college experience. Counselors are available to assist students in dealing with concerns related to many aspects of their lives, including academic planning, career decision-making, life planning and personal and intra-personal concerns. Counselors provide a climate in which students make thoughtful, independent, decisions for educational and vocational goals. Working through individual interviews with students, small and large groups, and college orientation classes, they help students to become aware of their capabilities and to plan appropriately. A number of specialized counseling service centers are available on campus. These centers include Academic Counseling, EOPS, DSPS, Career Center, Transfer Center, Adult Re-Entry Center, Admissions & Records Office and the International Student Office.
b. Health Services: The Health Center provides first aid, primary health care, crisis counseling, health counseling, information and referral services.

c. Basic education: Students with specific learning problems or with grade or subject deficiencies in their high school record may make up such deficiencies and enter into a program leading to an Associate degree and, if desired, to upper division standing at a four-year institution.

d. Refresher education: Members of the community have the opportunity to refresh, as well as to update their knowledge in classes offered at Glendale Community College.

e. Evening education: Persons wishing late afternoon or evening classes may enroll in the Evening College program. Evening College courses parallel and expand the daytime offerings. The college also offers classes on Saturdays.

f. General education for all members of the community: The college offers wide and varied curriculum designed to promote the following objectives:

1. Development of communication and computational skills which form a base for training in critical thinking as exemplified in drawing sound conclusions from premises, making relevant judgments, and discriminating among values.

2. Knowledge of the cultural heritage as the accumulated record of the development of mankind.

3. Appreciation for aesthetic expression, excellence, and creativity as major values.

4. Foundation in knowledge, attitudes, and skills necessary for occupational employment.

5. Cultivation of habits which are essential to physical and emotional growth, citizenship, and societal responsibilities.

6. Development of an awareness of the influence of such environmental problems as population growth, land-use, and pollution on the quality of life through field observation and other experiences.

g. Adult education: A varied adult education program including high school diploma subjects, English as a second language, citizenship, parent preschool education, retirement seminars, and office skills, is offered by the Non-credit Education office.

h. Community services: The college also offers a fee-based program designed to provide public service in a wide variety of avocational, recreational, self-improvement and other career development subjects. None of these courses are offered for college credit. If you have received a traffic ticket, Traffic Violators School is held both weekends and weekdays.

i. Education for creative use of leisure time: The college encourages students to develop skills and an appreciation for creative use of leisure time.

j. Preparation for the future: The college urges students to become more sensitive to world crises created by a burgeoning population and by the increasing demands of people and nations upon resources. Students learn to approach these crises through the scientific method of the natural sciences and through the combined methods of the humanities and social sciences and co-curricular programs. It is important for students to realize that the structure of human society is changing and that new and different technologies will affect the transition.

k. Services to meet the unique needs of ethnic-minority students: The college is committed to cultural diversity within its student body achieved by recruitment of resident Americans of various national origins and by the acceptance of a significant number of foreign-visa students. Meeting the needs of these students realistically is an important function of the college.

**ACCREDITATION**

Glendale Community College is accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges, 10 Commercial Blvd., Suite 204, Novato, CA 94949, (415) 506-0234, an institutional accrediting body recognized by the Council for higher Education Accreditation and the U.S. Department of Education. Glendale Community College accepts credit for courses completed at colleges and universities that have been accredited by one of the regional accrediting associations.

**ACHIEVING COLLEGE EXCELLENCE (ACE) PROGRAM**

Achieving College Excellence (ACE) is a learning community designed for students whose goal is to transfer to a four-year university as quickly and efficiently as possible. Throughout the freshman year, ACE students take courses together, work collaboratively in a dedicated study area equipped with Apple laptops, have access to tutoring in math, receive coaching and mentoring from instructors who work as a team to encourage student success, and obtain career and educational guidance from the program’s academic counselor.

**Advantages of being part of the ACE learning community:**

- Summer bridge program to help first-year students prepare for college, develop friendships and become acquainted with their instructors
- A one-year transfer track curriculum
- Guaranteed enrollment in ACE courses
- Access to mobile computer lab and ACE study area
- Ready-made support system that includes tutoring, mentoring and academic counseling
- A sense of belonging as part of the ACE community

**Eligibility Requirements for the ACE Program -**

In the Fall semester of the student’s freshman year:
• Eligibility for English 120 (assessed by the English Placement Test), and
• Eligibility for Math 145 or 119 (assessed by the Mathematics Placement Test)

For more information or an ACE application form, visit http://www.glendale.edu/ace or call 818/240-1000 ext. 3001 or email ace@glendale.edu.

ADVISORY COMMITTEES

Glendale Community College seeks advice about the programs and goals of the institutions. Individual citizens representing organizations, interests, and specific programs contribute their time to ensure that the college is meeting student, industry, and community needs.

ALCOHOL/DRUG ABUSE NOTIFICATION

The college is committed to achieving and maintaining a campus community that fosters personal and institutional excellence and strives to provide conditions under which the work of the college can proceed freely, with the highest standards of quality and institutional integrity. The harmful effects of substance abuse diminish the quality of our campus life.

To assist in achieving a campus free from the problems of substance abuse, the college has adopted policies prohibiting the unlawful manufacture, sale, distribution, possession, or use of controlled substances and alcohol on all college properties or at official functions, both on or off-campus. Any member or group of the campus community violating these policies and regulations will be subject to disciplinary action.

Prohibitions, Sanctions and Penalties

Community College District Administrative Regulation 5420 prohibits the:

Use, possession, or distribution of narcotics, other legally controlled substances, or alcoholic beverages except as expressly permitted by law and Glendale Community College regulations.

Presence on campus or at a college-sponsored function while under the influence of narcotics, other legally controlled substances, or alcoholic beverages except as expressly permitted by law and Glendale Community College regulations.

A violation of the provisions of this policy, and/or relevant local, state, or federal law which prohibits the use, possession or sale of alcohol or other controlled substances may result in the imposition of specific sanctions as identified within the Standards of Student Conduct (Administrative Regulation 5420). These sanctions or penalties include a verbal warning, a written reprimand, disciplinary probation, summary suspension, disciplinary suspension or expulsion.

Legal Sanctions

Numerous Federal, State and local statutes and ordinances, which may change over time, relate to the manufacture, distribution, possession, or use of a controlled substance or alcohol and impose legal sanctions for both felony and misdemeanor convictions for violations. Drugs considered to be controlled substances are listed in Schedules I through V of the Controlled Substances Act (29 U.S.C. 812) and are further defined by Regulations 21 CFR 1308.11 through 1308.15.

Drug-related penalties include the following:

• Simple possession of controlled substances: civil fines of up to $10,000 per violation, jail sentence, and denial of Federal benefits
• Manufacture, sale or distribution of all scheduled drugs: prison sentence for a FELONY
• Distribution or possession with the intent to distribute a controlled substance on college property: up to TWICE the prescribed sentence for the original offense and TWICE the prescribed parole time (required)
• Possession of one or more ounce(s) of marijuana for personal use: fine or jail time for a misdemeanor
• Possession of less than one ounce of marijuana: fine of up to $100
• Cultivation, possession for sale, or sale of marijuana: FELONY

In addition, it is a misdemeanor to sell, furnish, give, or cause to be sold, furnished or given away, any alcoholic beverage to a person under 21 or any obviously intoxicated person, and no one under 21 may purchase alcoholic beverages. It is also unlawful for any person under 21 to possess alcoholic beverages on any street or highway, or in any place open to the public.

Health Risks Associated with Alcohol and Drug Abuse

The abuse of alcohol and drugs can produce intoxication and physical symptoms such as hangovers, blackouts, impaired motor function, damage to the liver, stomach, intestine, cardiovascular system, brain and neurological systems, addiction and death. Alcohol and drugs are not only toxic to the body, but may also result in the transmission of infections associated with intravenous drug use such as HIV and hepatitis. Pregnant women risk fetal damage and birth defects including hyperactivity, neurological abnormalities, and development difficulties.

In addition to the above problems, the use of these substances can cause severe family, social and psychological problems, as well as intellectual impairment which may be permanent. Abuse of alcohol and drugs is a major cause of serious and fatal traffic accidents; alcohol-related accidents are the number one cause of deaths for persons aged 15-24. Chemical dependency is a disease that, if not arrested, is fatal.

Educational Program and Assistance—Where to Get Help

A list of “Chemical Dependency and Substance Abuse Referral Resources/Agencies,” as well as additional information on chemical dependency and substance abuse is available from the Health Center on the first floor of the San Rafael Building. If you have any questions regarding the college policies and regulations, please contact the Student Activities Office in the Campus Center.
ALUMNI ASSOCIATION
The Glendale College Alumni Association was established in 1988. Since its inception, the Association’s membership is ever on the rise. Membership is open, not only to GCC alumni, but to “friends of the college” (the administration, faculty and staff, students and members of the community), as well.

The Association’s foremost goal is that of giving back. Annually, the Alumni Association awards scholarships to a number of deserving GCC students. Members of the community are also recognized by the Association for distinguished service to GCC and for career achievement and community service. Additionally, through its newsletter and website, the Association strives to foster communication among its members and to keep its membership abreast of current campus news and events. In full support of our present student body and the diverse activities on campus, the Association encourages participation of its members in the College’s educational, cultural and athletic events. In its efforts to promote support of the students and campus events, the Association works in tandem with the Glendale College Foundation.

The Glendale College Alumni Association office is located in the Foundation Office, John A. Davitt Administration Building, Room AD 149. The Alumni Board meets on a regular basis, with the meetings open to the public. For membership information or Alumni Board meeting dates, please call 818/240-1000, ext. 5199.

THE BAJA CALIFORNIA FIELD STUDIES PROGRAM
Glendale Community College has been offering field classes and field trips in the Baja California peninsula, Republic of Mexico since 1974. The college maintains a facility in the peninsula, the field station “Estación del Mar Cortés”, which serves as a headquarters for various curricular offerings of interest to its faculty and students. Over the years, course offerings in the areas of marine biology, history of Baja California, philosophy, psychology, health, geography, physical education, English, Spanish, and geology have been offered. During the Fall and Spring semesters field trips are offered and during the Summer and Winter sessions field classes are taught.

In a setting that emphasizes field observation and cooperative learning, the program aims to expose students to a pristine and complex natural environment coupled with a unique experience in the Mexican culture. Different areas of learning are integrated in a setting which results in memorable and long-lasting adventures in learning. Students and faculty participate in the planning and organization of each class. By living and learning together, a community of learners is created where the beauty and complexity of the human and natural world can be observed, studied and enjoyed.

Students interested in participating in any of the programs offered should contact their counselors, the appropriate instructors, or the program coordinator (818) 240-1000, ext. 3159, for application forms. You can also read about current offerings on the Web at :http://www.glendale.edu/baja/.

COMMUNITY SERVICES EDUCATION
Community Services Education is a program of noncredit, fee based classes and activities designed to serve individuals with educational goals that do not require college credit. There are no transcripts, grades or academic requirements. (Some certificate programs require prerequisites.) Community Services Education classes are usually shorter than credit classes and normally do not require lengthy preparation. To request a current catalog call (818) 240-1000 ext. 5015.

CONTINUING EDUCATION
Continuing Education at the Garfield Campus
Glendale Community College has offered noncredit courses since the early 1930’s. The Garfield Campus houses the Continuing Education Office, the Business Skills Center classes, CalWORKs/WIA training programs, a Developmental Skills Laboratory, and English as a Second Language courses. Home Arts, Parent Education and Lifelong Learning courses are also part of our Continuing Education programs. These programs are based on the college’s main campus (Life Skills Building) and classes are held throughout the community. Classes are available in the mornings, afternoons, and evenings throughout the week.

Continuing Education office hours are 8 a.m. to 9 p.m. Monday through Thursday, and 8 a.m. to 4:30 p.m. on Friday. All Continuing Education classes are tuition-free. Students may enter a class at any time during the year. For information or to request a current schedule of classes, please call (818) 548-5233 (24-hour voicemail) or (818) 240-1000 ext. 5678 or 5681 during business hours.

Workforce Investment Act (WIA): The WIA staff collaborates with the local Work Source (or One-Stop) Centers to arrange for training programs including certificates in Accounting, Computer Processing, Dental/Medical Front Office, and Multi-clerical. Students must meet federal standards regarding unemployment status and they must be assessed prior to receiving a voucher for training. For more information call (818) 240-1000 ext. 5681.

Citizenship
The Garfield Campus offers English as a Second Language Citizenship classes for those who want to learn more about the history and government of the USA and prepare for their oral interview. The Citizenship Center is located at the Garfield Campus and offers information regarding citizenship eligibility, application procedures and deadlines; legal referrals; INS forms needed for naturalization; photographs for INS application or passport; typing and preparation of the INS 400 form; and assistance in preparing for the exam.

12 2010-2011 Catalog—Glendale Community College
The objectives are:

1. To provide opportunity for the student to secure employment on a part-time or full-time basis.
2. To gain realistic work experience that is meaningfully related to the student's college study program.
3. To provide the student opportunity to acquire knowledge, skills, and attitudes essential for successful employment.

**Student Benefits of Cooperative Work Experience Education**

1. Opportunity to learn or improve employment skills under actual working conditions.
2. Gains perspective on career goals through application of classroom theory to “real life experience.”
3. Builds self-identity and confidence as a worker through individual attention given by instructor/coordinator and employers.
4. Opportunities to test personal abilities in work environments.
5. Has a more realistic approach to the job market.
6. Gain a better understanding of human relations.
7. May refer to work experience education on future job applications.

**DISTANCE EDUCATION**

Glendale Community College offers a variety of Distance Education courses to meet your needs including Online courses, Hybrid courses, and Telecourses. Distance Education utilizes the internet and other technologies such as CD-Rom, video, audio, and interactive exercises.

**Online Courses**

The majority of class instruction, assignments, and communications are done online. Online courses require a mandatory on-campus orientation and may also require on-campus testing.

**Hybrid Courses**

A portion of the class instruction, assignments, and communication are done online and the rest is during on-campus classroom meetings.

**Telecourses**

Include video and audio lessons generally delivered via the television or videotapes. Telecourses require an on-campus initial meeting and five three-hour on-campus sessions, including examinations.

Distance Education courses are equivalent to a classroom-based course. Courses are taught by the same qualified instructors and follow the same curriculum and standards as the classroom-based course.

Distance Education courses provide flexibility in scheduling and are especially helpful to self-directed learners. It is recommended that students be comfortable with computers, particularly the internet, sending email, and word processing programs such as Microsoft Word before taking an online or hybrid course.

Take a short quiz at http://www.glendale.edu/online/de4me to determine if you are a good fit for Distance Education. Go to www.glendale.edu/online for more information about Distance Education or call (818) 240-1000 x3456.

**EVENING PROGRAMS**

Glendale Community College recognizes the need to provide a comprehensive program for students who work during the day. The college offers a full range of classes in the evenings and on Saturdays. Usually classes meet once or twice a week for sessions of two to five hours. Many programs of the college may be completed while attending only during the evening hours. Additionally, PACE (see PACE Program) offers a set curriculum for business and liberal arts transfer students which may be completed attending one evening per week and two Saturdays per month. Any student who complies with established registration procedures may enroll in evening classes.

The teaching staff is made up of persons highly qualified to instruct these classes, including many full-time professors. Business and professional persons who have obtained proper teaching credentials also give the benefit of their knowledge and skills to the students.

College facilities, including the library, bookstore, laboratories, health center, counseling center, career center, and snack shop are open for evening students. Counseling appointments may be arranged by telephoning (818) 240-1000, ext. 5918.
GCC POLICE DEPARTMENT

The Glendale Community College campus is situated in an area of natural beauty nestled in the Verdugo Mountains. While we all appreciate the inherent charm of the campus and its surrounding area, it is important to remember that the campus is not immune to crime.

The occurrence of crime is a problem in any community. The GCC Police Department is constantly working to deter criminal activity from occurring on campus. However, we cannot do it alone. As a member of the campus community you can assist the police department by notifying us immediately of anything suspicious or unusual. By acting as our eyes and ears you can become involved and participate in making Glendale Community College a safer place.

We believe that a well-informed community is better served, more capable of protecting itself, and therefore safer. Becoming aware of potential dangers and taking preventative measures will help to protect you. It also assists us in minimizing risks and keeping GCC a pleasant environment in which to pursue an education.

However, you cannot participate in preventing crime without timely and relevant information. Therefore, please take the time to read the following, and call or stop by the GCC Police Department for more information.

Steven P. Wagg
Chief of Police

About Our Department

The police department provides service 365 days a year from 7:00 am to 12:00 am Monday through Friday and 7:00 am to 11:00 pm Saturdays, Sundays, and holidays. The department is an authorized terminal user of all local, regional, state and federal criminal justice information systems (e.g., wanted persons, DMV, stolen vehicles/property, criminal records, etc.). Our goal is to provide timely and appropriate responses to community problems and needs.

Police Officers of the Glendale Community College Police Department are armed, duly sworn peace officers of the State of California. Empowered by section 830.32 of the California Penal Code, officers possess the same authority, and adhere to the same state-mandated standards, as municipal police officers. Therefore, under California law, the officers authority extends to any place in the state for the purpose of performing their primary duty or when making an arrest pursuant to section 836 of the California Penal Code; however, we concentrate our efforts on the campus and its immediate environment. Our department enjoys a positive and close working relationship with the City of Glendale Police Department, with whom we share proximity, mutual interests, and geographic jurisdiction. GCCPD officers may work in uniform or plain-clothes. They provide a full range of police related services, including: primary emergency response; preventative patrol; initial investigation of observed, reported, or suspected crime; enforcement of all applicable laws; follow-up and specialized criminal investigation; crime prevention; community liaison and relations; V.I.P./dignitary protection; special event security; traffic activities (enforcement and accident investigation); parking enforcement and, campus escorts of students, faculty or staff.

Persons arrested by the GCCPD officers are processed in accordance with prevailing practices in Los Angeles County, which can include: citation and release; booking into the City of Glendale Police Jail; filing of charges with, and prosecution through, the District Attorney’s Office; and formal trial. Additionally, GCC affiliates (student, faculty, staff) may be subject to additional (Administrative/Code of Conduct) sanctions.

REPORTING A CRIME

Walking-In

You can report a crime at the police station 365 days a year from 7:00 am to 12:00 a.m. Monday through Friday and 7:00 a.m. to 11:00 pm Saturdays, Sundays and holidays. The police station is located in the Sierra Madre building, SM 153.

Emergency Call Boxes

Emergency Call Boxes (ECBs) are located in, or adjacent to, most campus parking lots. They are connected to the Police Department Communications Center by phone line, and each one emits an identifier code that alerts the Police Dispatcher of the location of the box being activated. It is important for campus community members to learn the locations of ECBs, especially those located along frequently traveled campus routes (maps are available at the station). To use the system:

1. Follow the instructions on the box.
2. When the button is pushed and the ECB is activated it immediately alerts the Police Dispatcher by phone. Speak clearly into the box.
3. If, for any reason, you are unable to talk into the ECB, you can summon assistance by pushing the button and waiting next to the ECB. An officer is dispatched to the ECB each time it is activated.

Incident Reporting

The College endorses a reporting policy that strongly encourages victims to report all criminal incidents to the police immediately, regardless of their nature. It is important that all criminal activity occurring on campus be reported to ensure that appropriate action can be taken. On-campus crime should be reported to the GCCPD. Emergencies are best reported using campus emergency extension 4000, and non-emergencies are better reported using campus extension 5205.

The GCCPD has the primary jurisdiction and responsibility for investigating crime and providing police service to the campus. The Glendale Community College District Police relinquish primary authority to the City of Glendale Police Department for providing operational responsibility for all Part 1 violent crime including the investigation of willful homicide, forcible rape, robbery and aggravated assault occurring on Glendale Community College District property.
Informational Disclosures
The preceding information has been disclosed in accordance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Act. All information disclosed has been reported using the Uniform Crime Reporting procedures as set forth by the Federal Bureau of Investigation and the California Department of Justice. Additional information is available at www.glendale.edu/police.

G.E.D. TESTING
The General Education Development Tests (GED) can give you the opportunity to earn a high school equivalency certificate and may reduce considerably the number of elective courses required for a high school diploma. The GED Tests five areas: Writing Skills, Social Studies, Science, Literature and Mathematics. The GED Test is given monthly at the Garfield Campus at 1122 E. Garfield Avenue, Glendale. For test dates and registration information, please call (818) 240-1000 ext 5042. For information regarding free optional preparation courses offered at the Garfield Campus call (818) 240-1000 ext. 5686.

GLENDALE COLLEGE FOUNDATION, INC.
Created in 1983 by a group of committed community volunteers, Glendale College Foundation, Inc. now has an endowment of more than $8 million. That small group of volunteers has expanded into an active 35-member Board of Directors that provides guidance, support and direction every step of the way.

To accomplish its broad mission of supporting Glendale Community College, the Foundation focuses on three main goals that:
• Raise funds for GCC facilities and programs
• Create public awareness of the needs of the college
• Promote the college to businesses and the surrounding community

An executive director and a dedicated professional staff work closely with the Board, which is made up of business and community leaders and GCC representatives. Through events such as the Athletic Hall of Fame dinner, the golf tournament, community appeals and a major gifts program, the Foundation provides invaluable support for:
• Essential needs to cover unforeseen shortfalls in public funding
• Student financial relief and assistance in special circumstances
• Grants to faculty and staff in all academic disciplines, as well as, career training
• Other critical projects in academic areas

Glendale College Foundation, a 501(c)(3) charitable organization and an integral part of GCC, distributes more than $400,000 in scholarships and special grants annually. The Foundation needs the support of donors like you to continue its work into the future. Every gift, no matter the amount, is greatly appreciated. You can donate in the form of cash, stocks or credit card payments.

Unrestricted gifts are used for critical needs as identified by the Foundation and college each year. If you donate $1,000 or more, you may join our President’s Circle. You may also establish an endowed gift for a minimum of $2,500. A matching gift program is also available. By naming Glendale College Foundation, Inc in your will or trust, you can leave a legacy of giving. For more information on these and other options, you are invited to learn more at www.glendale.edu/foundation or by calling (818) 551-5199.

INTERNATIONAL STUDENTS
Glendale Community College welcomes students from all nationalities who desire to study in the United States. During any given semester, there are approximately 550 international visa students (F-1 category) enrolled full-time at the College representing some 50 countries.

International students who desire admission to GCC may receive application materials from the International Student Office, located on the second floor of the San Rafael Bldg. Prospective international applicants are encouraged to contact the office at the following: Phone: (818) 240-1000, ext. 5439 & 5440, E-mail: gcciso@glendale.edu. The GCC Web site www.glendale.edu also provides a special menu option for “International Students” from the home page. Here, students can print out the international application forms, or apply online via the electronic application form. Office hours are Monday through Thursday 8 a.m. to 5 p.m., and Friday 8:30 a.m. to 4 p.m.

In order to be admitted to GCC, international students must submit the following forms and credentials: GCC “International Student Application Form” and required application processing fee of $50.00; official transcripts and diploma of High School record, or any college/university work completed, along with English translations; official TOEFL score report of 450/133 CBT; or 45 on new iBT; Affidavit of Support Form and official bank certification; one-page personal statement along with Health Form.

Note: International students under 18 years of age must show High School or Secondary School “equivalency” of completion (as defined by country system) by the time they register.

New students can also be processed for “Credit ESL/language” studies without the TOEFL score. Please contact the International Student Office for details. Please note: It is strongly recommended that student applicants overseas complete the above requirements in a timely manner—given U.S. Embassy/Counsulate delays and general visa security issues. The college offers admission to international students for the fall, winter/spring, and summer enrollment periods.

The International Student Office provides full support services for international students including academic counseling, immigration advising, a new student orientation day each semester, and a special International Week during the spring semester. The office also provides information on off-campus housing arrangements and administers a group health insurance plan for its students.
Be considered a violation of the principles of community that intimidation, or violence against person or property—will of this right—verbal or written abuse, threats, harassment, orientation, color, national origin, or disability. Any violation on the basis of race, age, religious preference, gender, sexual study, teach, and work free from harassment or denigration of mutual respect.

ea each other in an atmosphere of positive engagement and everyday interactions of this district are enriched by and every day interactions of this district are enriched by our acceptance of one another, and we strive to learn from each other in an atmosphere of positive engagement and mutual respect.

Implicit in this mutual respect is the right of each of us to live, study, teach, and work free from harassment or denigration on the basis of race, age, religious preference, gender, sexual orientation, color, national origin, or disability. Any violation of this right—verbal or written abuse, threats, harassment, intimidation, or violence against person or property—will be considered a violation of the principles of community that are an integral part of the focus, goals, and mission of the Glendale Community College District.

Glendale Community College District is committed to providing an equal opportunity for admissions, student financing, student support programs and activities, and employment regardless of race, religious creed, color, age, sex, sexual orientation, national origin, ancestry, marital status, medical condition, or disability in accordance with federal, state, and local regulations. This Non-discrimination and Equal Opportunity Policy covers admissions, access, and treatment in district programs and activities, and application for and treatment in district employment.

An individual who feels that he or she has been unlawfully discriminated against should, at the earliest possible time, discuss the matter with the appropriate district compliance officer. The compliance officer will be able to explain the grievance procedure to the student, employee, or other individual and will assist in processing the grievance, should such a step be necessary.

Title IX represents the section of the Civil Rights Act of 1964 which requires equality of opportunity for females in all educational endeavors. Its original application was geared to equal opportunity in physical education and sports; however, the impact of Title IX is spread across all disciplines and all segments of the community colleges. The Title IX Coordinator is the Vice President, Student Services, Administration Building, room 125, (818) 240-1000, ext. 5126.

Section 504 is a part of the Rehabilitation Act which requires equality of opportunity and access for handicapped individuals in both employment and educational opportunities. For students the section 504 coordinator is the Vice President, Student Services, Administration Building, room 125, (818) 240-1000, ext. 5126. For employees the section 504 coordinator is Joy Cook, Center for Students with Disabilities, San Rafael Building, (818) 240-1000, ext. 5450.

Equal Employment Opportunity is a means to ensure that the district complies with the Employment Opportunity Act, Civil Rights Act and the Staff Diversity Plan which require that the district not discriminate on the basis of race, religion, color, age, sex, national origin, ancestry, physical handicap, medical condition, or marital status. The Equal Employment Opportunity Coordinator is Valerie Rhaney, Center for Students with Disabilities, San Rafael Building, (818) 240-1000, ext. 5873.

Academic Grievance is a process provided to students who have a grievance regarding the manner in which they have been treated in the academic environment. For academic grievance, please refer to the Scholastic Information and Regulations section of this catalog under Grievance Procedures.

American Disabilities Act is Federal Civil Rights legislation that prohibits discrimination against individuals with disabilities in employment (Title I), public services and transportation (Title II), public accommo-
PACE PROGRAM

PACE, Project for Adult College Education, is especially designed for working adults who wish to further their education by obtaining an Associate in Arts degree. Completion of the PACE curriculum satisfies the general education transfer requirements for the CSU System and many independent colleges and universities.

PACE is a proven educational delivery system with thousands of successful graduates throughout Southern California. Its innovative approach combines the traditional classroom format with instructional television, special conferences, and collaborative learning techniques. Each semester, PACE students attend classes one evening per week, eight Saturdays, and view video tapes.

We are proud to offer working adults an option for career advancement and self-development. PACE provides convenience while continuing the traditional high academic standards of GCC. For more information call (818) 240-1000, ext. 5153.

SCHOLARS PROGRAM

www.glendale.edu/scholarsprogram

The Glendale Community College Scholars Program was created to serve the needs of transfer-oriented, academically accomplished students. Within the program, students can choose between Liberal Arts and The Science Academy. Both programs offer opportunities for more intensive study, preparing students for success in upper division courses.

The Scholars Program is a learning community centered around critical thinking, in-depth analysis of issues, and service learning. In the core curriculum, students can expect to evaluate complex problems objectively, considering how biases both inform and impede intellectual inquiry. Being a member of the program has many advantages including: priority registration, individualized academic counseling, leadership training, and priority consideration at many universities, including UCLA and UC Irvine.

Minimum Requirement for the Program*
- High School GPA of 3.25, or college GPA of 3.0
- Eligibility for English 101
- Full-time student status
- Completion of Online Scholars Application** with the following:
  - Transcripts
  - Writing Sample (Annual Essay Topic can be found online)
  - Letter of recommendation (either counselor or instructor)
  - SAT or ACT scores (optional)

*For admission to the Science Academy, students must also be eligible for Math 110

**Students must also complete the GCC application

For more information, visit www.glendale.edu/scholarsprogram or contact Dana Marterella, scholars@glendale.edu. 818/240-1000 x5146.

Note: All requirements listed are used as guidelines and can be rescinded or adjusted at the discretion of the College Scholar Advisory Committee.

STUDY ABROAD PROGRAMS

Glendale Community College believes it is essential for students today to cultivate an informed and sensitive awareness of all parts of the world in order to better co-exist with other nations and with people from cultures different from their own. In harmony with this belief, the college is following the guidelines developed by the Council on International Educational Exchange for the U.S. Department of State, which focus on expansion of student opportunities for study and work abroad as well as the guidelines of the California colleges for International Education, a consortium of California community colleges.

The college offers summer, winter, and spring programs to exciting places like Paris, Prague, Armenia, New Zealand, Australia, Argentina, Italy, Greece, Ireland, and other places of special interest to Glendale College students. Interested students should phone (818) 240-1000, ext. 5718 or drop by AD 145C. You can also read about our offerings on our web page at www.glendale.edu/studyabroad or email us at studyabroad@glendale.edu.

TRANSFERS TO FOUR-YEAR COLLEGES AND UNIVERSITIES

Students may take courses at Glendale Community College which will qualify them to transfer to most four-year colleges and universities with junior standing. The requirements of colleges vary so it is not possible to prescribe a program of work which will apply to all of them. However, written agreements for both general education and major requirements have been established with many of the four-year colleges and universities in California. Students should consult their counselor to develop a plan to achieve their goal of transferring. Students can utilize the Glendale Community College Transfer Center website at www.glendale.edu/transfercenter to obtain information regarding the different pathways to transfer to a four-year university from Glendale Community College.

Student Right-to-Know Act

In accordance with the Federal Student Right-to-Know Act, the college is required to make information about the completion and transfer rates of first-time freshmen available to current and prospective students. For current completion and transfer rates, contact the Research & Planning office in AD 135.

VETERAN EDUCATION

Glendale Community College is approved as a degree-granting institution for the attendance of veterans and veteran’s dependents entitled to educational assistance. After filing an application for admission, a veteran wishing to attend on one of the V.A. assistance bills should complete all necessary forms with the college Veterans Clerk located in the Admissions and Records Office.
An Intent-To-Register form must be submitted to the Veterans Clerk for each semester that they wish to receive the Montgomery GI Bill or Post 9-11 (Chapter 33) benefits. It is the veteran’s responsibility to promptly notify the college Veterans Clerk of any change in program, which would affect his/her VA assistance. Veterans who are taking a course which lasts less than a semester will be paid only for the actual enrollment period. Veterans must be enrolled in at least one additional unit of academic subjects than the number of units in which they are enrolled in Cooperative Education-Work Experience. The educational assistance allowance payable to Veterans is:

- Full time — 12 units or more
- 3/4 time — 9-11½ units
- 1/2 time — 6-8½ units
- 1/4 time — 3-5½ units
STUDENT SERVICES

MISSION AND PHILOSOPHY OF STUDENT SERVICES

The primary mission of all educational institutions is learning. Glendale Community College recognizes that there are many activities and programs outside of the classroom which enhance the learning process. Consequently, numerous student services have been established to help students move toward the attainment of their goals.

Student Services, by contributing to the overall educational process at the college, is committed to serving the special needs of a diverse student population. Thus, the variety and comprehensive nature of student services at the college is intended to support a multitude of concerns for a large and changing student enrollment.

The programs offered by Student Services are designed to assist students in the decision-making process by helping them identify and clarify personal, career, and educational goals. The intent is to help students select options for improving the quality of their lives. Personal, career, and academic choices are not viewed as separate and disconnected entities but as inter-related issues, the combination and interaction of which determine the present and future quality of each individual’s life experience.

Student Services is committed to assisting students to attain their educational goals and personal development through a comprehensive program of student services. The major student support programs are:

- **Enrollment Services**—Outreach and recruitment, admissions, orientation, assessment, counseling, advisement, educational planning, registration and record services to assist students in enrolling in the appropriate classes.

- **Support Services**—Counseling services, learning assistance (writing lab, learning center, and tutoring center), adult re-entry programs, career guidance, job placement, veterans’ services, transfer services, disabled student program, health services, and library services to help students develop goals, to plan for achieving desired results, and to support and contribute to student self-realization.

- **Financial Services**—Financial aid, student employment, scholarships, and awards for students who need financial assistance.

- **Activity Programs**—Athletics, student clubs, student government and student activities to broaden the students’ involvement in college life.

To assist students in meeting their educational objectives, Student Services is the primary advocate on the students’ behalf to provide access for all persons who wish to attend the college: physical access to facilities on the campus; access to programs and services; and access to the required courses.

Student Services promotes an atmosphere conducive to growth and special programs to eliminate educational, social, cultural, economic, and physical barriers to a person’s education.

BOOKSTORE

The college bookstore is located on the first floor of the Student Center. The store is operated by professional managers and staff, and its income is used to promote the programs of the Associated Students. College textbooks, reference books, school supplies, clothing, software, film and gift items are available. Shopping for your textbooks made easy. Order your textbooks online at our safe and secure website, www.glendalebookstore.com. Pay by credit card and pick up your books (reservation) or have your books shipped directly to your home or business.

The bookstore is open 7:30 a.m. to 7:30 p.m. Monday through Thursday and 7:30 a.m. to 1 p.m. Friday during the fall and spring semesters, with extended hours the first two weeks of each semester. Please check the schedule for summer and winter hours.

For student purchases the bookstore will accept the following:

1. Personal checks must be imprinted by the bank with check signer’s name and address. You must have a valid California Driver’s License or California ID or a photocopy of the ID, of the person signing the check. No passports or green cards will be accepted.

2. **ATM/Debit Card**

3. **MasterCard, Visa, Discover, or American Express credit cards** will be accepted. Credit card purchases will require proof of signature and if not the cardholder, written authorization is required.

*Please carry your student I.D. and course printout at all times.

CALIFORNIA WORK OPPORTUNITIES AND RESPONSIBILITIES TO KIDS (CALWORKS)

The GCC CalWORKs program is the on-campus resource for parents receiving CalWORKs aid. Our students are low-income parents with children under eighteen who are receiving welfare benefits from the state of California. In order to receive benefits from the state, CalWORKs students must participate in approved activities that will lead to a job or a career. Most two-parent families must participate for a minimum of thirty-five hours per week. Our students have chosen to complete all or some of their hours by receiving education and training at GCC.

The GCC CalWORKs program provides encouragement, advice, and honest feedback for a population of students who are rebuilding their lives on a foundation of education, while modeling perseverance and hard work to their children. We help students communicate with the state workers (DPSS and GAIN) who oversee their benefits. We process the documents that allow CalWORKs students to access crucial supportive services from the state, including child care during class hours and reimbursement for school-related costs such as textbooks, supplies, transportation, and fees. We provide funding for Work Study jobs and on-campus child care.
CalWORKs students can be found in classes across all disciplines. Our students’ educational goals include AA/AS Degrees, vocational certificates, preparation for transfer to four-year institutions, and improving basic skills in ESL and GED courses.

For more information, please call (818) 240-1000, extension 5508 for the main campus, or extension 5681 for the Garfield Campus or go to www.glendale.edu/calworks.

CAREER CENTER

The GCC Career Center feels it is important that students choose a major or course of study early in their educational experience. Students are facilitated in the career exploration process by the administration of comprehensive standardized inventories, surveys, computerized systems and career tests. Students are assisted in exploring their values, interests, and abilities for application to the world of work.

The staff provides individualized career counseling, as well as workshops and classroom interaction.

The Career Center offers information in the following areas:

1. Finding a college major.
2. How to do research and use career resources.
3. Career changes and career planning through the lifespan.
4. The decision making process in careers.
5. Choices for further academic training.
7. Resume writing and job interviewing.
8. Information interviews to test reality.
9. Certificate or transfer choices.
10. Women in non-traditional jobs; minority concerns.
11. Referral to community and college resources.
12. Provide a format for questioning in a positive, supportive environment.

The Career Center is located in the San Rafael Building, second floor. Call (818) 240-1000, ext. 5407 for day and evening hours.

CENTER FOR STUDENT INVOLVEMENT

The Center for Student Involvement at GCC serves as a resource and placement center to help students make service and volunteer work a vital part of their college experience. The center provides services and information to help students make the most of their volunteer experience including general orientations, a database of over 200 local non-profit agencies where service can be performed, reflection sessions which help students discuss their experience with other students doing service, and follow-up activities to ensure the best possible placement. Students perform service for a variety of reasons, including:

• exploration of career options;
• fulfillment of civic duty and/or social responsibility;
• experience in chosen field of study/major;
• experience to list on resume and/or college application

In addition to volunteer work, the center works with select faculty to implement Service Learning (service that is connected to actual classroom instruction) into certain courses. Students either receive extra-credit or choose volunteer service as their class project. Since this list changes each semester, please check with the center for an updated copy.

Students and faculty are encouraged to propose their own service activity. Contact the center for more information. The CSI can be reached at 818-240-1000, extension 5580.

CENTER FOR STUDENTS WITH DISABILITIES

Students with verified disabilities or health impairments are eligible for services through the Center for Students with Disabilities. Eligible students include those whose conditions limit one or more of the major life activities and impose educational limitations preventing them from fully benefiting from classes, activities or services offered by the college. These conditions include but are not limited to learning disabilities, speech and hearing impairments, vision loss, emotional or mental illness, orthopedic limitations, neurological and health related impairments.

Qualified students receive disability-related counseling and are assisted in the pursuit of academic, vocational, and personal goals. The professional staff serves as liaison with on-campus resources as well as off-campus agencies and allied health professionals. Support services and specialized instruction are provided to students based on student educational plans and contracts. Services include but are not limited to the following:

Center for Students with Disabilities

| Disability Related Counseling | Mobility Orientation |
| Vocational Counseling | Alternate Media |
| Priority Registration | Interpreters for the Deaf |
| Registration Assistance | Note Taking Assistance |
| Mobility Assistance | Lip Reading Instruction |
| Special Parking | Job Development |

Instructional Assistance Center

| Learning Disabilities Program | Specialized Tutoring |
| Learning Strategies Instruction | Examination Proctoring |
| Instructional Assistance Center | Learning Style Assessment |

High Tech Center

| Assistive Technologies |
| Equipment Loan |
| Specialized Assessment |

Special Classes

| American Sign Language 151 |
| CABOT 90, 91, 92, 93 and 94 |
| Dance 150 |
| English 160, 162, 166, 168, 172, 174 |
| Physical Education 130, 131, 132, 134 and 135 |
| Student Development 128, 143, 146 |

For information regarding office hours, programs or services please call (818) 240-1000, ext. 5905.
CHILD DEVELOPMENT CENTER

The lab/demonstration school is one of several programs administered by the Child Development Department and housed in the Child Development Center. The Center operates three different programs: Day Program, Evening Program, and State Preschool.

The Day Program

The Day Program is available between the hours of 7 a.m. and 6 p.m. five days a week, 12 months a year. This program is open to students, faculty, and the community. Three sessions are available: Monday through Friday; Monday, Wednesday, Friday; or Tuesday, Thursday. All sessions are available Monday through Friday; Monday, Wednesday, Friday, or Tuesday, Thursday. All sessions are open to students, faculty, and the community. Three sessions are available: Monday through Friday; Monday, Wednesday, Friday; or Tuesday, Thursday. All sessions are full day only. Children will be admitted into the five-day sessions first, followed by children whose parents wish to attend only two or three days weekly. The Day Program operates on a 12-month basis and is a self-supporting program funded by parent fees.

The Evening Program

The Evening Program is specifically for enrolled students of GCC. Student parents may choose from one to four nights between the hours of 6 p.m. and 10 p.m. and must enroll each semester. This program is open to children between the ages of 2 and 12 years of age. To ensure that only students who are serious about their education will be participants, all students will be required to be accountable both in course enrollment and course attendance to remain in the program.

State Preschool Program

The State Preschool Program is funded through the California State Department of Education, Child Development Division. The four-hour program is open to students who are income eligible and enrolled at GCC. The State Preschool program is available to eligible students of ages three and four-year-old children.

Los Angeles Universal Preschool (LAUP)

LAUP is a groundbreaking new non-profit organization funded by First 5 LA to provide a high-quality, part-day preschool experience to every four-year-old living in Los Angeles County whose parents choose to participate.

100 Early Launch Sites were selected to be models. Both our Day Program and Evening State Preschool programs have been selected as Early Launch Sites. There is no income eligibility or employment requirement for parents.

For more information, call (818) 240-1000, ext. 5665 or visit our website at www.glendale.edu/cdc.

COLLABORATIVE LEARNING/ SUPPLEMENTAL INSTRUCTION (SI)

Another innovative program that the college offers is the Collaborative Learning (SI) workshops that are available each semester with selected courses. These workshops provide students with an enjoyable, structured way to study and/or solve problems collaboratively under the supervision of an instructor or specially trained student leader. Regular workshop participants usually reach a better understanding of course content and tend to pass at a much higher rate and with better grades than non-participants. A list of workshop offerings is available in the current class schedule or through counseling services. The program coordinator is happy to answer questions about this free service at (818) 240-1000, ext. 5357.

ENGLISH LABORATORY

The English Laboratory is a computer lab open to all staff and students. The lab has two rooms with Apple Macintosh computers and Windows OS PCs. Instructors may reserve the second lab classroom by request. All computers in the lab have a standard installation of the following software: Microsoft Word, Power Point, Excel, web browsers, and free links to many materials in the GCC library such as the Los Angeles Times, Lexis Nexis Academic, countless online newspapers, journals, and magazines. These materials aid students with their assignments and provide them with the most up-to-date information for research. Writing students benefit from the free availability of word processing programs, which with the help of online spelling checkers and thesauri, help produce better written papers. Instructional aides are available to answer questions about the computers and programs.

The English Lab is in AD 238. Phone: (818) 240-1000, ext. 5339. E-mail: eng.lab@glendale.edu.

EXTENDED OPPORTUNITY PROGRAM AND SERVICES

The Glendale College Extended Opportunity Program and Services (EOPS) was established at GCC in 1972 and is jointly funded by the State of California and the Glendale Community College District. EOPS provides programs and services designed to afford educationally and economically disadvantaged students the opportunity to participate fully in the educational program of the college.

The EOPS program at GCC provides grants to eligible students. The EOPS certificated counselors and the student personnel worker provide services related to enrollment procedures, obtaining financial aid, counseling, and university transition. The EOPS staff is also prepared to serve in many languages besides English (Arabic, Armenian, Persian, Japanese, Spanish, Vietnamese). Each semester EOPS offers a book service to eligible students.

EOPS also offers a Cooperative Agencies Resources for Education (CARE) program, designed to reduce long term CalWORKs welfare dependency and support the needs of single parents for economic self sufficiency. Funding from this program provides books and supplies for classes, gas vouchers, bus passes, and CARE grants.

In order to assist GCC to achieve the goals of the Student Equity Plan, EOPS conducts an active student recruitment program in the multi-ethnic communities of the college service area.
## TYPES OF FINANCIAL AID

FINANCIAL AID

The Financial Aid office assists students seeking financial help to pay for the costs of attending GCC. Funds are available to cover the cost of enrollment fees and/or tuition, books, transportation, and partial living expenses. There are basically two types of financial aid: grants and self help (such as work study and loans). Grants are awarded on the basis of financial need and do not require repayment. Loans provide an opportunity to defer educational costs by borrowing now and paying later. (Please refer to the loan information below for more information and ask for a copy of the GCC loan policy in the Financial Aid Office.) Work study offers students the opportunity to earn a portion of their college expenses through part-time employment during the school year.

The Free Application for Federal Student Aid (FAFSA) must be completed to apply for financial aid. Applying on time is critical. The FAFSA can be completed on-line at FAFSA.ed.gov and submitted to the federal processor after January 1, but no later than April 15 of the previous spring semester, in order to ensure funds will be available for the beginning of fall semester in September. Applications submitted after April 15 of the previous spring semester may still receive funds (if eligible), but they will be made available later in the academic year.

After receiving the FAFSA, the federal processors will email a Student Aid Report (SAR) to the student. Students should review this form. If changes are necessary, make the corrections on-line at FAFSA.ed.gov and submit to the Federal Student Aid Programs. If no changes are necessary, the student should keep the SAR for their records. Students are not required to submit the SAR to the Financial Aid Office. Once the Financial Aid Office reviews your application, you may be asked to submit federal tax returns or other documents. It is important that all requested documentation be returned as soon as possible. Financial Aid awards are made only after a student’s file is complete. New students must submit an application admission and be assigned a Glendale College Student I.D. number before financial aid is awarded.

Applicants with complete applications by the last day of the previous spring semester who have returned all requested materials can expect to receive a financial aid award letter by the beginning of the fall semester. Students receiving financial aid are expected to make satisfactory academic progress toward their educational goal. Please refer to the Satisfactory Academic Progress Policy in this catalog for more information.

The Financial Aid staff is here to assist you. Students often find applying for financial aid a difficult and confusing process. Those needing help or advice are encouraged to go to the Financial Aid Office, located in the San Fernando Complex, SF 110.

TYPES OF FINANCIAL AID

Board of Governors Enrollment Fee Waiver
This waiver is available to California residents to cover resident enrollment fees. Students must demonstrate financial need by completing the Free Application for Federal Student Aid (FAFSA) or the Board of Governors Enrollment Fee Waiver Application.

Cal Grants
The California Student Aid Commission offers grants for students attending a California college. To apply, students must complete the Free Application for Federal Student Aid (FAFSA) by March 2 and September 2 for the following Fall. Students interested in this program must meet these published deadlines; no exceptions are made. Students who have completed fewer than 24 degree applicable units at GCC must also have a GPA Verification form completed by their high school or former college (both forms are available in the Financial Aid Office).

Federal Pell Grant Program
Glendale College participates in the Federal Pell Grant Program which provides federal grants of up to a maximum of $5,100 per year for students, depending upon the financial ability of the family and/or individual and the student’s enrollment status. Applicants must be US citizens or eligible non-citizens and complete the Free Application for Federal Student Aid (FAFSA) and other required supplemental materials. All application materials are available in the Financial Aid Office.

Academic Competitiveness Grants (ACG)
Academic Competitiveness Grants are available to students who are U.S. citizens, enrolled full-time in college, are eligible for a Pell Grant and have completed a “rigorous high school program”.

Federal Supplemental Educational Opportunity Grant (SEOG)
Glendale College participates in the Federal Supplemental Educational Opportunity Grant program which provides federal grants for students who qualify. The average grant at GCC is $200 per semester. Applicants must be US citizens or eligible non-citizens and complete the Free Application for Federal Student Aid (FAFSA) and other required supplemental materials. All application materials are available in the Financial Aid Office.

Federal Work Study
Students who are interested in the federal work study (FWS) program are required to complete a Free Application for Federal Student Aid (FAFSA) and other supplemental materials. All application materials are available in the Financial Aid Office. If awarded FWS, the student goes to the Placement Office to inquire about work opportunities.
Federal Family Education Loan Program

The Federal Subsidized Stafford Student Loan program is a federally supported loan available to needy students. Eligible Glendale College students may borrow between $500 and $4,500 based on need, year in school, and satisfactory academic progress. Students must be eligible for need-based aid to receive a Subsidized Stafford Loan. There is no repayment or interest accrual while a student is enrolled at least half-time. Six months after the student is no longer enrolled, a variable interest rate not to exceed 6% begins to accrue. Combined interest and principal payments begin at a minimum of $50 per month for a maximum of 10 years. The Federal Unsubsidized Stafford Student Loan program is available for students who do not demonstrate financial need. While the terms of the loan are similar to those noted above, interest accrual begins immediately. Some students may be eligible for an additional $4,000 through this program.

To apply for a loan under the Federal Family Education Loan Program a student must complete a Free Application for Federal Student Aid (FAFSA), a Stafford Loan application and GCC supplemental materials as well as attend an “entrance interview” with a member of the Financial Aid staff. Please come to the Financial Aid office to receive a copy of the student loan policy.

Emergency Book Loans

Emergency book loans, not exceeding $100, are available to enrolled students. These loans are administered by the Student Affairs office and are available only to those students awaiting disbursement of a financial aid award. To apply for a loan, a student must complete the Emergency Book Loan Application and be a member of the Associated Student Body (ASGCC). There is a $10 late charge for each loan not paid in 30 days. Funds are limited and therefore it may not be possible to grant all requests. A student may receive only one loan per semester.

HEALTH CENTER

The Glendale College Health Center is open during most class hours and is found on the first floor of the San Rafael Building. Daily services include, blood pressure screening, tetanus shots and measles-mumps-rubella immunizations. A Registered Nurse is available for health assessment, first aid and crisis counseling. They will also discuss such subjects as health and family issues, birth control and nutrition. They have many outside referrals available for registered students who may need help. No appointment is necessary for these services.

TB skin testing, vision screening and hearing tests, occur on selected dates during the semester. Students may schedule appointments with physicians, nurse practitioners, dietetic interns and mental health interns. All services are confidential. (Specific legal exceptions do exist.)

A Health Resource Center is in the Health Center. It contains a computer with Internet access. CD-ROM programs on health subjects are available for research on class projects or general health knowledge. Books, video tapes and audio cassettes, on diet and nutrition, stress, exercise, AIDS and STD’s, are available for student use in the Health Center. Visit the Glendale College Health Center’s website: www.glendale.edu/health or call (818) 551-5189.

Medical Emergency and Student Accident Policy

If you have a medical emergency on campus or are a witness to an emergency situation, contact College Police, ext. 4000 or the Health Center, ext. 5189 immediately. Nurses are available to triage, or provide first aid. If paramedics need to be called, College Police or Health Center staff can expedite response time.

In the event you are involved in an accident while on campus or at a supervised activity, the accident must be reported immediately to the Health Center. If the accident occurs on campus, the staff of the Health Center will provide first aid. The College Police should be called if the injury occurs when the Health Center is closed. If the accident occurs off campus, it is essential for the accident to be reported to the Health Center staff during working hours as soon as possible. The College does have Student Accident Insurance to assist students with the costs associated with accidents that occur as a result of a student activity, but this policy is a secondary policy. This means that if the student needs to go to the hospital or see a physician, the student must first follow all of the rules of their private insurance. The Student Accident Insurance is designed to assist with additional charges. If the injured individual does not report the accident to the Health Center in a timely manner, there is no guarantee that any of the costs associated with care will be covered.

LEARNING CENTER

The Learning Center offers free instructional help to currently enrolled students who want to improve their learning skills. Some of the services offered include:

Tutoring

The Learning Center provides currently enrolled students with free tutoring in most subjects; students must be referred for tutoring by their instructor or counselor. Appointments are available for tutoring in math or writing. Tutoring in other subjects is arranged by Learning Center staff. Tutors are students who have been recommended by their instructors and have completed a required half-unit pass/no pass tutor training course. The course, Student Development 150 - Tutor Training, provides tutors with an introduction to the diversity in teaching and learning styles, as well as various tutoring strategies and techniques. In addition, tutors attend regular staff meetings and training sessions.
The Writing Center
The Writing Center provides peer tutoring to currently enrolled students who need help with writing related to class assignments. The Writing Center’s goal is to help students practice their skills in math, reading and writing. Students may work on a series of lessons that specifically address individual needs as recommended by instructors, or they may use the diagnostic tools to determine which skills need improvement. Although instructors often assign lab work to reinforce skills taught in class, any currently enrolled student may drop in to use the lab. College credit mini-courses in basic vocabulary and grammar (English 182 and 183) are available.

Instructional Videos and DVDs
Instructional videos and DVDs are available for students to view in the Center or check out for home viewing. In addition, many instructors place materials on reserve in the Center as part of class assignments.

Internet Access
Internet access is provided in the CAI Lab if computers are not being used for lab work. Wireless access is available. The Learning Center is located in Administration 232. Phone: (818) 240-1000, ext. 5333. http://www.glendale.edu/LearningCenter E-mail: learningcenter@glendale.edu.

LIBRARY
The Glendale College Library is one of the most dynamic and technologically advanced libraries in the California community college system. The Library supports the mission of the college by providing collections and services to meet the educational and professional needs of students and faculty. It is a user-friendly, state-of-the-art home to more than 120,000 books, music CDs, magazines and newspapers; 1,000 reserve textbooks; 19,000 e-books; and a variety of web accessible services and materials. Library services and resources are also available remotely on the Library’s web site at www.glendale.edu/library. Library hours are listed on the home page.

Librarians are available - in the library, by phone, or online - to assist with research and to answer questions. Library research guides, how-to instructions for using the online catalog and databases, and tips for research in specific subjects are available in the library and online.

The library offers seating for 350, twelve group-study rooms, 55 web enabled computers for student use, a 27 computer library instruction lab, and workstations for those with special needs. Printers, copiers, and typewriters are also available.

The library has a strong focus on information competency and its importance to lifelong learning. Both at the reference desk and in the instruction programs, emphasis is placed on building research skills including recognizing, locating, evaluating, and using information ethically. The 2 unit credit course, Library 191, Introduction to Information Competency, is transferable to the University of California and California State University. A series of one-hour, hands-on library workshops introduce students to the basics of Library and Internet research.

The library is located on the third and fourth floors of the Library Building. Phone: 818/240-1000, ext. 5586.

MATH/DISCOVERY CENTER
The Math/Discovery Center located in AS 103 provides the following services: Drop-in tutoring, computer programs, and videotapes. Selected student tutors and/or faculty members are available to answer questions and give brief explanations about math, physics and chemistry courses. No appointment is necessary. Computer programs are available for student use. These are one-to-one learning processes with a computer that will reinforce certain course topics, correct answers, show solution methods, or be used to review previous courses. Videotapes are also available for viewing in the center. The collection of videotapes includes topics in Basic Math, Elementary and Intermediate Algebra, Pre-Calculus, Calculus, and Statistics.

MATRICULATION SERVICES
Matriculation is a process which is designed to assist students in planning, selecting, and achieving educational goals. The process brings the college and a student into an agreement for the purpose of realizing the student’s educational goal through the college’s established programs, policies, and requirements. The agreement acknowledges responsibilities of both the college and the student to attain these objectives. The primary purpose of matriculation is enhancing student success.

Listed below are the basic components of the matriculation partnership shared between the college and the student.

The college agrees to provide:

• An admissions application process.
• An orientation to the college’s programs and services.
• An assessment of the student’s study skills, English language proficiency, computational skills, aptitudes, goals, learning skills, career aspirations, academic performance, and need for special services.

The college agrees to provide:
Counseling and advisement to develop an educational plan.
- Follow-up evaluation of each student’s progress in achieving an educational goal.

The student agrees to:
- Express a broad educational intent upon admission.
- Declare an educational goal before or during the term after which the student completes 15 units.
- Attend class.
- Work diligently to complete course assignments.
- Demonstrate an effort to attain an educational goal.

The college is committed to student success, and with this in mind provides the following matriculation services:

Admissions
For new students, the first step is applying for admission to GCC. Students will be asked to provide the college with information about themselves so the staff can provide them with the types of services needed to help them achieve their goals and objectives. Some of this information is required by federal or state law, or college policies. Other information will assist the college in determining whether the student needs to be referred to orientation and assessment programs. It is important to submit copies of high school transcripts and transcripts of any previous college work at the time of admission.

Orientation
Orientation workshops are offered throughout the year in academic counseling. The orientation workshop provides students with important information regarding the services programs, and courses available at the college. All new students are encouraged to participate in orientation. Students will learn how to use the college catalog; class schedule, and prepare a class list. For more information, contact academic counseling at 818/240-1000 extension 5918. Students can also complete an online orientation by visiting our web site at www.glendale.edu. Click on new or returning students, then Online Orientation Program.

Assessment
To help the students determine their skill levels in many academic areas including written English expression, reading, and mathematics, the college provides a comprehensive assessment program. Assessment scores assist the students and counselors to determine the appropriate courses for students to enroll in during the first semester.

All new non-exempt students are required to be assessed in English or ESL and mathematics upon application to the college and before the student enrolls in their first semester. For more information regarding assessment procedures, contact the assessment center at extension 5868 or use the web site at www.glendale.edu.

Counseling and Educational Planning
One of the most important activities involved in the matriculation process is counseling and educational planning. Professional counselors are available to assist each new student in several areas:

1. Deciding upon an educational objective;
2. Determining the courses required to achieve this objective;
3. Determining the services needed to assist students in achieving their objective;
4. Assisting students in course selection appropriate to their goals.

The Student Educational Plan (S.E.P.)
It is important for all students to have a Student Educational Plan (S.E.P.). The S.E.P. serves as an outline of the preliminary educational program students will undertake. In addition, the S.E.P. identifies the students’ goals (i.e. transfer, A.A./A.S. degree, certificate, etc.) and refers them to support services, if needed.

Completion of the S.E.P. is required during the student’s first year at the college. Students should make an appointment with their counselor to begin this process as soon as possible. Any changes in a student’s educational objective should be reviewed with a counselor in order to update the student’s S.E.P. for accuracy.

Follow-up
Counseling and teaching faculty provide a number of follow-up services to matriculated students. These services are designed to provide information regarding the students’ academic progress. Special services are provided to students on academic and/or progress probation, students in basic skills courses, and students who are undecided about their educational goal. Referrals are made to on- and off-campus services when appropriate.

Matriculation Appeals Procedure
A matriculating student has the right to challenge or appeal any step in the matriculation process. A petition for the waiver of a specific matriculation service or requirement may be filed for any of the following reasons:

1. Review of assessment—Students may challenge a placement decision on the grounds that the placement does not reflect their ability in the area assessed. To challenge a placement decision, a student must complete the GCC prerequisite challenge petition and submit the document to the division chair responsible for the course or their designee (see class schedule for retesting policies).
2. Waiver of prerequisites—Students may challenge a course prerequisite, corequisite or limitation on enrollment on the grounds that the student has the knowledge or skills to successfully complete the course, that the prerequisite course has not been made reasonably available and will cause undue delay in completion of the student’s education goal as detailed in the student educational plan; that the course has not been established in accordance with the district’s process for establishing prerequisites and corequisites; or that the prerequisite is unlawfully discriminatory or is being applied in an unlawfully discriminatory manner. To request a prerequisite waiver, the student must...
complete the Glendale College Prerequisite Challenge Petition, and submit the document to the division chair responsible for the course. If the petition for a waiver is based upon the student’s contention that he/she has the necessary skills to succeed in the class, the student may be asked to submit evidence of this proficiency. The student will be notified, within fifteen (15) working days, of the receipt of the petition. The student may appeal the decision of a division chair to the vice president of instruction.

3. Complaint of unlawful discrimination—If a student feels that assessment, orientation, counseling, (or any other matriculation procedure or service) is being applied in a discriminatory manner, a petition may be filed with the dean of student services. The student will be notified, within five (5) working days of the receipt of the petition, regarding the college’s proposed response to the complaint and any additional steps which will be taken.

4. Waiver of matriculation services—If a student wants to waive a mandated matriculation service, such as assessment, orientation, counseling for completion of a student educational plan, and student follow-up services, they must complete and submit a Matriculation Services waiver petition and return it to Admissions and Records.

Other Counseling Services
In addition to educational planning services, the college counseling staff provides a variety of other counseling services to assist students.

1. Career Counseling—The Career Center assists students in determining their academic majors, vocational or career goals. Most students require specific information about certificate, vocational and/or college preparation and career or job requirements. Often students need specialized counseling in seeing how their interests, skills, personal styles and values relate to an academic course of study. Career counseling helps students integrate their aspirations with the work world.

2. University Transfer Counseling—The goal of many students at the college is to transfer to a four-year college or university. All counselors at the college prepare to assist students in preparing to transfer. It is important for students to see a counselor on a regular basis to review the requirements for transfer to the institution of their choice. In addition, the college’s Transfer Center can assist students in meeting with representatives of many local four-year institutions and can provide them with other important transfer information.

3. Disabled Student Programs and Services—Specialized support services and counseling are available through the Center for Students with Disabilities. The Disabled Student Services program offers individual counseling services to students with disabilities. These services are provided to help with educational planning and to identify specific support services required to assist the student with a disability.

4. Extended Opportunity Program and Services—The Extended Opportunity Program and Services office also provides specialized counseling services related to enrollment procedures, financial aid, tutorial services and university transition. The EOPS staff is prepared to serve students whose primary language is not English (Arabic, Armenian, Farsi, Spanish and Vietnamese).

5. Financial Aid—The Financial Aid office provides the student with advising regarding his or her financial circumstances, and will assist the student in obtaining financial support needed to attend the college. Financial aid is available in a number of forms, including grants, loans and work-study programs.

6. Adult Re-entry Services—Services for adult students who are returning to formal education after a lapse of time are offered through the Career Center. Services include career and academic counseling and workshops designed to meet the interests and needs of the adult student.

Course Selection and Enrollment
At the time of registration students will be asked to select classes for enrollment. However, prior to enrollment, it will be necessary for them to see a counselor and complete a study list; a list of courses they are eligible to take which will lead toward the completion of their educational objective. It is to their advantage to see a counselor as soon as possible prior to the next semester, to work out their class schedule for the next semester.

The process of enrolling in classes is explained in the orientation session. Students will also be provided with information from the Admissions Office regarding their date and time for registration, as well as the other requirements for completing this process.

Instruction and Progress Toward Goals
Students’ active and diligent participation in their classes is the single-most important factor leading to their eventual academic success. Students are expected to attend all classes and to complete all course assignments in a timely fashion. To assist students in making progress toward their goal the college will provide them with a variety of support services, such as tutoring, other learning assistance activities, financial support (where applicable) and other forms of assistance to increase their educational development. Students are responsible for notifying the college of any specific needs they have, or of any change in their goal.

Periodically students may be contacted by the college for information regarding their progress toward completing their stated goals. This contact may involve a meeting with a counselor, or other staff member of the college,
SCHOOLGOALS
The college’s goal is to assist in achieving the objectives students have for themselves; however, the students must determine when this is accomplished. They are responsible for notifying the college of any change in their goals or status as it relates to the college. The college can provide students with assistance to make changes as easy as possible. Students should feel free to contact any staff member to assist them during a period of transition when they are leaving the college for some other activity or environment.

SCHOLARSHIPS
Any currently enrolled student who has completed at least 12 units of college credit, and has a GPA of 2.5 or higher at Glendale College may apply for scholarships or grants through the Scholarship Office. Selections are made by the GCC Scholarship Committee or award sponsors based on academic achievement, financial need, campus leadership, or other criteria established by the scholarship donors. Interested students may submit a single application during the fall or spring filing periods to be considered for all GCC scholarships for an entire school year. For more information, please call the Scholarship Office at (818) 240-1000, ext. 5591. GCC is honored to list the scholarships that have been generously donated to our students.

STUDENT CENTER
The J. Walter Smith Student Center contains offices for the Associated Students of Glendale College (ASGCC), the Office of Student Affairs, and for student clubs. Also, there is a conference center with meeting rooms that members of the campus community may reserve for social and business functions. Arrangements for the use of Student Center meeting rooms may be made through the Office of Student Affairs at (818) 240-1000, ext. 5592.

STUDENT EMPLOYMENT SERVICES/
JOB PLACEMENT CENTER
The Student Employment Services office is located on the 2nd floor of the San Rafael Building. The mission of the Student Employment Services is to provide ongoing, comprehensive assistance to all Glendale College students in obtaining on- and off-campus employment.

The Student Employment Services staff assists students in finding off-campus positions related to their disciplines. Students are advised on application and interview techniques and resume writing. In addition to providing part- and full-time job listings, the center sponsors on-campus recruiting by interested businesses who wish to hire students.

Job listings are also provided via the Internet through our partnership with MONSTERTRAK. To access these listings you must be a GCC student or an alumnus. You must call the Student Employment Services/Job Placement Center for MONSTERTRAK registration information.

On-campus positions are also available for currently enrolled students. Glendale College participates in several work study programs. (i.e.: Federal Work Study, CalWORKs, Work Study, EOPS Work Study, and College Employment Program.) Visit the Job Placement Center in the San Rafael Bldg. for details.

TRANSFER CENTER
The Transfer Center is designed to assist students with the process of transferring to four-year colleges and universities. We provide counseling, transfer workshops, college tours, host university representatives who advise students, a transfer information website, and maintain a library of college admissions materials. The Transfer Center is especially committed to the goal of increasing the transfer rate of under-represented students to institutions of higher learning. We are located on the second floor of the San Rafael Building and can be reached by phone at 818/240-1000 ext. 5442. Our Internet address is www.glendale.edu/transfercenter.
STUDENT AFFAIRS & ORGANIZATIONS

The Office of Student Affairs coordinates a wide variety of activities, programs, and services to help students broaden their educational experiences at Glendale College. The goal of the student activities program is to provide students with opportunities to develop their leadership skills through participation in student government, cultural programs, campus activities, and student clubs and organizations.

ASSOCIATED STUDENTS OF GLENDALE COMMUNITY COLLEGE (ASGCC)

The Associated Students of Glendale Community College (ASGCC) is the official student government organization. Elected each semester, the ASGCC Legislature meets weekly to determine budgetary expenditures, establish and review policies, and coordinate programs and services that benefit students. Legislature meetings are held every Tuesday morning in the ASGCC conference room located in the J. Walter Smith Student Center.

ASGCC Membership

Students who pay the Student Services fee each semester automatically become members of the Associated Students of Glendale Community College. This membership enables students to participate in activities, programs, and services financed by the ASGCC. The Student Services fee partially finances the annual ASGCC budget that provides financial support to more than 100 campus programs and activities. Included among the ASGCC-funded services are Health Center doctors, immunizations for students, tutoring, evening child care, athletics, emergency book loans, the student newspaper, and many more.

Eligibility Requirements for ASGCC Candidates and Officers

All students are encouraged to participate in ASGCC affairs and run for an elected position within the organization. Candidates for an elective office must complete the required nominating petitions and meet the eligibility requirements before their candidacy is approved by the Office of Student Activities. Candidates must be enrolled in at least six units and have a minimum cumulative grade point average of 2.0 to be eligible to run for office. Once a student is elected to office, he or she must carry and complete a minimum of 9 units and maintain a 2.0 grade point average throughout their term to remain eligible.

Student Government Elections

The ASGCC sponsors campus-wide student government elections during the fall and spring semesters. Any currently enrolled Glendale College student who is a member of the Associated Students may vote in an ASGCC election.

ASGCC Officers

The ASGCC Legislature consists of 21 student leaders who are elected by the student body. Elected officers include the ASGCC President, Vice President of Administration, Vice President of Finance, Vice President of Campus Activities, Vice President of Campus Relations, and Vice President of Campus Organizations. These five positions make up the ASGCC Executive Committee. The Legislature membership also includes a total of 15 senators including three Senators of Administration, three Senators of Finance, three Senators of Campus Activities, three Senators of Campus Relations, and three Senators of Campus Organizations. There are also five Representatives-at-Large members who are appointed by the legislature.

Student Newspaper

The El Vaquero is the official student newspaper of Glendale Community College. Written and edited by journalism students, the paper focuses on campus news and issues related to students. The El Vaquero is published biweekly and is available to the campus community free of charge.

ATHLETIC PROGRAM

Glendale Community College offers a comprehensive and competitive intercollegiate athletic program for both men and women. The Vaquero athletic teams compete as members of the Western State Conference. Men’s sports include baseball, basketball, cross-country, football, soccer, tennis, and track and field. Women’s sports include basketball, cross-country, soccer, volleyball, tennis, track and field and softball.

The men’s and women’s athletic programs are supported by full-time coaches and staff including a certified athletic trainer. Additionally, a full-time athletic counselor provides academic support services to athletes including educational planning, enrollment advisement, and career guidance.

Cheer and Dance Program

The Cheer and Dance Program at Glendale Community College benefits young men and women by providing intense training for regional and national cheer competitions, and preparation to support GCC’s intercollegiate athletics teams. Our program is designed to develop a higher degree of physical athleticism and team work than can be found in the average cheer and dance program. For additional information, please contact Student Affairs office at 818/240-1000 ext. 5913 or visit the college web site at www.glendale.edu/athletics.
STUDENT CLUBS AND ORGANIZATIONS

Students are encouraged to participate and play an active role in campus life by joining a student club or organization. Supervised by the Office of Student Affairs, more than thirty clubs and organizations give students an opportunity to explore specialized interests and serve the campus community. These groups are usually organized according to four main themes including academic achievement, cultural awareness, religious awareness, and special interests.

Academic Achievement: Alpha Gamma Sigma (AGS) and the Scholars are two organizations focused on promoting academic excellence among students. Both AGS and the Scholars provide valuable service to the college community and raise funds to support the college’s scholarship program.

Cultural Organizations: Cultural organizations provide students with opportunities to learn about other cultures and meet students with similar backgrounds. These groups have included the Armenian Student Association, Black Student Alliance, Chinese Student Club, Vietnamese Club, Korean Club, Lebanese-Phoenician Heritage Club, International Students Club, Association of Latin American Students (ALAS), Persian Club and the Deaf Culture Awareness Association.

Special Interest Clubs: Numerous special interest clubs enable students to participate in activities with others who share similar interests. Special interest clubs have included groups such as the Lesbian and Gay Student Union, Investors Club, Active Charities Team, Progressive Alliance, United Womyn’s Council, LACTE, and the Dance Club.

Religious Clubs: Religious clubs offer students a chance to increase religious awareness and interact with other students with similar beliefs. Active religious clubs have included the Latter-day Saints Student Association (LDSSA), Korean Christian Club, the Christian Fellowship and the Real Life Christian Club.

Additional information about campus activities and student leadership programs is available in the Office of Student Affairs.
ADMISSION AND REGISTRATION

ADMISSION REQUIREMENTS

Glendale Community College will admit any California resident possessing a high school diploma or the equivalent thereof, or who is 18 years of age or older and who is determined to be capable of benefiting from the instruction offered. Non-residents, including international students, may be admitted. Information concerning residency may be found elsewhere in this catalog. For further information contact the Office of Admissions and Records.

APPLICATION

An applicant may apply for admission to the College by completing an application on-line at www.glendale.edu.

An applicant need only submit one application per academic year. An academic year is summer through spring.

High School Students

High school students in the 10th, 11th or 12th grade who are making satisfactory progress towards high school graduation are eligible to apply and enroll in classes at GCC. Each semester/session, the student must complete the on-line application, Selected Student form with appropriate signatures, and submit a current high school (unofficial) transcript. If the student is accepted, the student may enroll in six units during a semester, or three units during an inter-session. In order to continue taking classes at the college after the initial semester, the student must have completed the college class with a grade of “C” or better.

ASSESSMENT

All first time matriculating students (see matriculation for definition) are strongly encouraged to assess prior to registering for their first semester at the College. The recommended assessment tests are English or ESL and mathematics. The English and mathematics tests are computerized and are administered everyday. Check the Assessment Schedule for exact time. An appointment must be scheduled to take the ESL test. The Assessment Center is located in SF 112. No student will be admitted to take a test without a picture ID.

Arithmetic Test

For students, including nursing applicants, without higher math experiences.

Chemistry Placement

This test is required for placement into Chemistry 101. It is not needed if the student has completed Chemistry 110 with a grade of “C” or better.

English Placement

This examination is similar in difficulty to material found in most newspapers and popular magazines. It includes both reading and written language sections. It is needed for placement into the nursing program and most English classes as well as many language, social science, speech, business, and humanities courses.

English as a Second Language (ESL) Placement

This exam is needed to qualify for initial placement into any ESL course. The exam includes reading comprehension, written grammar, listening comprehension, and a writing sample.

English as a Second Language (ESL) (Non-credit) Placement

This test is used to place students in non-credit ESL courses and requires an appointment.

Mathematics Placement

This test is designed for initial placement only. Once placed in a Glendale College mathematics course, students advance in the mathematics sequence according to the course prerequisites.

General

The following test taking policy is strictly enforced at the Assessment Center. Placement re-testing is not allowed without permission of the appropriate division chair. Test scores for placement are valid for only a specific period of time; the table below lists the longevity of each test. Once that period of time expires, the student will have to retest.

CATALOG RIGHTS

New Students

When a new student first begins attending Glendale Community College, he or she will come under the catalog requirements in effect at that time; thus, a student who begins in fall 2010 semester will follow the requirements for graduation, IGETC certification for either the CSU or UC, G.E. Certification for the CSU, and certificates of completion that are listed in the 2010-2011 Glendale Community College catalog.

Continuing Students

1. A student remaining in continuous attendance in regular sessions at the campus of any California community college or in any combination of California community colleges and the California State University may, for the purpose of meeting graduation requirements or G.E. certification for the California State University, elect to meet the catalog requirements in effect at the time of beginning his or her continuous enrollment at the California State University or at a California community college.

2. Students may maintain their continuing student status for catalog purposes provided that they complete a course and earn units at Glendale Community College at least one semester during an academic year without missing two consecutive semesters.
Returning Students
1. Students who return to Glendale Community College to complete a degree or certificate program and would normally be placed under the new catalog requirements in effect, may petition for their original catalog if the following conditions are met:
   a. Student has earned 45 semester units with a minimum GPA of 2.00 and these units are recorded on the student’s official transcript at Glendale Community College. Units earned may reflect courses taken at Glendale Community College as well as courses taken at other institutions.
   b. Student has seen a counselor, has completed an SEP, and has officially declared a major and an educational goal (including transfer institution, if applicable).
The above does not apply to students planning to complete the general education for CSU or IGETC certification for transfer.

CLASS AUDIT POLICY
A student may audit a class at Glendale Community College providing that the following conditions are met:
1. Auditors must be eligible for admission to the college as regularly enrolled students. Jump Start students do not qualify to take a class using the audit policy.
2. Enrollment for the purpose of auditing will be on a space available basis, and requires the approval of the instructor.
3. Priority in class enrollment shall be given to students desiring to take the course for credit; therefore, enrollment for audit purposes will not be permitted until the second week of instruction.
4. Once audit enrollment is completed, no student will be permitted to change his or her enrollment to receive credit. A student shall not be permitted to change his or her enrollment from credit to audit.
5. A non-refundable audit fee of $15 per unit shall be payable at the time of enrollment as an auditor. Auditors shall not be charged the enrollment fee for auditing a class. Students enrolled in 10 or more units will not be charged a fee for auditing up to three units.
6. No credit will be received for auditing a course. The college will not maintain any attendance or academic records.

CONTINUOUS ENROLLMENT
Although not continuous, new and returning students who submit applications during the current academic year (summer through spring) are not required to submit more than one application per academic year. These students will not have priority registration, but will be able to obtain registration date and time for any term during the academic year by going to MyGCC.glendale.edu.

ELIGIBILITY FOR COURSES
It is the policy of the Glendale Community College District that every class offered, unless otherwise indicated in the official catalog and schedule of classes, shall be fully open to enrollment and participation by any person who meets the academic prerequisites of such class, and who is otherwise eligible for admission to and enrollment in the college. Students may occasionally have had experience in a given area which they may feel will substantially satisfy the stated prerequisite for a course. Where it is desired to offer such experience for the regular prerequisite, the student must have a petition approved to make such substitution. Once such a petition has been approved students may not later receive credit for a course for which they substituted the outside experience. Students who are considering developing a petition should first read the section on Credit by Examination.
Credit for lower level courses will not be granted if credits have been earned in higher level courses. Some courses have no stated prerequisite; however, many courses have expected skill levels in reading, writing, listening/speaking, and math. It has been substantiated that students enrolled in a course with the stated skill levels are more successful in satisfactorily completing the course. Students should check the current schedule of classes for a complete explanation on how to match skill level to an appropriate course.
Counselors consider these factors when assisting students to complete their Student Educational Plan (SEP). Students will select courses from the SEP as they make out their programs during a registration period.

FEES
Fees are established by the California State Legislature and the Glendale Community College District Board of Trustees.

Enrollment Fee: All students, resident and non-resident, must pay the basic enrollment fee of $20 per unit for each semester or summer/winter session.

Nonresident Tuition: Nonresident tuition is a mandatory fee of $181 per semester unit (plus the enrollment fee of $20 per unit) for students who are residents of other states, who are foreign nationals or who have taken legal residence in California for less than one year.

Health Services Fee: A Health Services fee of $15 per semester and $12 for a summer or winter inter-session is required of all students. Services include blood pressure screening, vision screening and hearing tests, tetanus, measles, mumps, and rubella immunizations, and assistance with health insurance questions. A registered nurse is available, and students may schedule appointments with physicians, nurse practitioners, and mental health counselors. The health fee may be waived for individuals who are members of a bona fide religious organization that believes in prayer for healing. Membership must be documented.
Student Services Fee: The $12.50 Student Services fee is assessed each semester and summer/winter session. This fee provides membership in the A.S.G.C.C. In addition, payment of the fee funds and allows student access to various college activities: the college bookstore, the college newspaper, inter-collegiate athletics, scholarship program, the emergency loan fund and instructional support.

Student Photo I.D. Fee: All new students are asked to purchase a photo I.D. card. Students are required to take their photo during the semester in which it was purchased. The fee for the photo I.D. is $10. The card is used at the library, the bookstore, offices in College Services and instructional labs at the college.

Instructional Materials Fee: Various types of instructional materials may be required in some classes. For those students who wish to purchase the materials from the College, an Instructional Materials fee be assessed. The courses that require materials or an Instructional Materials fee are noted in the Schedule of Classes. These materials include, but are not limited to, electronic data, tools, equipment, clothing, and those materials which are necessary for a student’s vocational training.

Supplementary Fees:
- College Catalog: $5 per copy
- Course Audit Fee: $15 per unit
- GED Test Fee: $100 per battery of tests or $20 per test

Official College:
- Transcript: $7.50
- Immediate service for processing transcripts is an additional $5 per copy

Parking:
- $30 for summer/winter
- $60 for fall/spring

Refund Processing Fee: $10

Verification of Enrollment: $5

All fees are subject to change without notice.

Financial aid may be available to students who meet the qualification requirements. The enrollment fee and the health services fee are waived for students who qualify for financial aid. Students with questions concerning financial aid eligibility should contact the college Financial Aid Office.

*Mandatory Fee. There is an exemption procedure for fees that are not mandated by the California State Legislature. Contact the Admissions and Records Office for details.

REFUND/REPAYMENT POLICY

Refund Policy for all Students:
1. Refunds are automatic for those students who withdraw/drop unit(s) by the due date.
2. Request for parking fee refunds must be initiated by students when they return their parking permits during the specific dates indicated in the Schedule of Classes:
3. There is a $10 refund processing fee.
4. A student will be eligible for a refund who withdraws or drops units in accordance with the following:

A. Fall and Spring Semester - Students must withdraw/drop a class within the first two weeks of a semester length class, or within the first week of a six or eight week class.
B. Summer and Winter Session - Students must withdraw/drop a class within the first week of a five or six week class.
C. The student should check the Schedule of Classes or with the Admissions and Records Office for the drop/withdrawal date if a class is of shorter duration than those mentioned above.

Repayment Requirement Policies for Students Receiving Financial Aid:

Students who receive financial aid in the form of a Pell Grant, SEOG Grant, Cal Grant or EOPS Grant are subject to state and federal regulations that may require repayment of all or part of the funds received if they drop some or all of their units during a semester.

Students who receive financial aid and never attend class: Federal regulations only allow students to receive financial aid for classes that they actually attend. Students who receive financial aid for classes that they drop before the first day of class or that they otherwise never attend, must return those funds.

Students who receive financial aid for classes they attend and then drop: Financial aid is based on the number of units a student is enrolled in as of the Registration Deadline. Students who receive financial aid for 6 units or more and then drop to less than 6 units prior to the Registration Deadline established by the Admissions and Records Office, may be required to repay some of the funds received.

Students who drop all classes prior to completing 60% of the semester: Federal Return to Title IV regulations governing the federal student financial aid programs stipulate that students who withdraw from the college before completing at least 60% of the semester have not “earned” the funds they received and must repay some of their financial aid. The Financial Aid Office is required by law to notify the student of the overpayment due within 30 days, once they determine that the student has withdrawn from school. The specific date at which the 60% point of the semester occurs is sent to students in the information accompanying their Financial Aid Award Notification. Students who have not received the total amount of financial aid that they may have earned prior to withdrawing from school may be entitled to a post-withdrawal disbursement. In these cases, students will be notified within 30 days regarding the amount due them and how accepting additional funds will effect their standing under the Financial Aid Satisfactory Academic Progress policy. Please note the following:

- There is no appeal process. Federal regulations do not allow a college to make any exceptions to the Return to Title IV requirements.
- Students who do not repay the funds owed or set up a repayment plan with the Financial Aid Office are disqualified from eligibility for federal student aid at any college or university.
Financial Aid Overpayments: If a student owes a repayment on federal student aid, the student has the option of repaying the amount in full or meeting with the Associate Dean of Financial Aid to discuss a repayment plan. If the student fails to repay the amount due or set up a payment plan, the college is required to notify the US Department of Education accordingly and the student loses eligibility for any further federal student financial aid.

MYGCC - ONLINE REGISTRATION

Students can register online using MyGCC. Students can plan their schedule, add or drop a class, pay fees and change their mailing address via MyGCC. Log on to www.glendale.edu/mygcc. Enter your GCC student ID number and password. Logging into MyGCC will take you to your Student Center home page where you can see your class schedule, personal information, enrollment appointment, student email, etc. For more information, go to page 16 in this catalog.

REGISTRATION

Each student must officially register in classes. The classes should be chosen from the student’s educational plan. These classes constitute the official program of the student.

All students register according to the dates and times assigned to them. To be a continuing student, the registrant must have been enrolled in the immediately prior semester or sessions. New and returning students who submit applications during the current academic year (summer through spring) are considered active and eligible for registration for the entire academic year, and those students will receive registration information by going to MyGCC.glendale.edu.

All students may register by going to MyGCC.glendale.edu. For information concerning this process, consult the semester Schedule of Classes or call the Office of Admissions and Records, (818) 240-1000, ext. 5910. Students may NOT enroll for two sections of the same course in any one semester.

After the beginning of the semester, students may:

- enroll in open semester-length courses through the first week of the semester without the permission of the instructor;
- enroll in closed semester-length courses with the permission of the instructor through the second week of instruction; and
- enroll in courses less than 16 weeks provided that 15% of the class meetings have not been held.

No registrations or adds of semester-length classes are allowed after the end of the second week of instruction.

No student will be enrolled in a class and have a grade recorded subsequent to the completion of a given semester unless it is established that the procedures for enrolling set up by the College are proved to have failed.

RESIDENCE REQUIREMENTS

The following statement of the rules regarding residency is intended for general information only. More detailed information can be obtained from the Office of Admissions.

At the time of application and at registration each student is required to verify residence information. Even though a student may be otherwise admissible to Glendale Community College, the student may be classified as a tuition-paying student in accordance with the residence requirements.

A “resident student” means any person who can verify physical presence in California for one year or more on the day preceding the first day of instruction of a semester or intersession during which the person proposes to attend, who can demonstrate intent to make California a home for other than a temporary purpose and, if classified as a non-resident in the preceding term, financial independence.

Alien Students: A student who is an alien may establish his or her residence if he or she is not precluded by the Immigration and Nationality Act from establishing domicile in the U.S.

All immigration documentation and proofs of California residency must be submitted to the Admissions and Records Office PRIOR to the start of the semester of attendance.

A “non-resident student” means any person who has had residence in California for less than one year on the day preceding the first day of instruction of a semester or intersession during which the person proposes to attend.

A “non-resident student” may be admitted to GCC, but will be required to pay either an out-of-state or an international student tuition charge as appropriate to their circumstances.

Financial Aid Overpayments: If a student owes a repayment on federal student aid, the student has the option of repaying the amount in full or meeting with the Associate Dean of Financial Aid to discuss a repayment plan. If the student fails to repay the amount due or set up a payment plan, the college is required to notify the US Department of Education accordingly and the student loses eligibility for any further federal student financial aid.

At the time of application and at registration each student is required to verify residence information. Even though a student may be otherwise admissible to Glendale Community College, the student may be classified as a tuition-paying student in accordance with the residence requirements.

A “resident student” means any person who can verify physical presence in California for one year or more on the day preceding the first day of instruction of a semester or intersession during which the person proposes to attend, who can demonstrate intent to make California a home for other than a temporary purpose and, if classified as a non-resident in the preceding term, financial independence.

Alien Students: A student who is an alien may establish his or her residence if he or she is not precluded by the Immigration and Nationality Act from establishing domicile in the U.S.

All immigration documentation and proofs of California residency must be submitted to the Admissions and Records Office PRIOR to the start of the semester of attendance.

A “non-resident student” means any person who has had residence in California for less than one year on the day preceding the first day of instruction of a semester or intersession during which the person proposes to attend.

A “non-resident student” may be admitted to GCC, but will be required to pay either an out-of-state or an international student tuition charge as appropriate to their circumstances.

Financial Aid Overpayments: If a student owes a repayment on federal student aid, the student has the option of repaying the amount in full or meeting with the Associate Dean of Financial Aid to discuss a repayment plan. If the student fails to repay the amount due or set up a payment plan, the college is required to notify the US Department of Education accordingly and the student loses eligibility for any further federal student financial aid.
8. An alien, including an unmarried minor alien, may establish his or her residence, unless precluded by the Immigration and Nationality Act (8 U.S.C. 1101, et seq.) from establishing residence in the United States.
9. The residence of an unmarried minor alien shall be derived from his or her parents pursuant to the provisions listed above (6 & 7).

*California Education Code Section 68062

STUDENT DIRECTORY INFORMATION POLICY

Certain categories of student information are considered “open” or directory information. The college policy on the sharing of directory information to outside agencies and individuals (including parents and spouses of enrolled students) is limited to: name, e-mail address; major field of study; dates of attendance; degrees, honors and awards received; and the most recent previous institution attended. A student may request that directory information not be released by signing a request form at the Office of Admissions and Records. The request form must be received by the last day of the second week of instruction for a fall or spring semester or by the last day of the first week of instruction for a winter or summer session. In that case, this information will not be disclosed except with the consent of the student or as otherwise allowed by the Family Educational Rights and Privacy Act of 1974 (FERPA).

STUDENT RECORDS

Annually Glendale Community College informs students of the Family Educational Rights and Privacy Act of 1974, as amended; of the provisions of Sections 76200-76246 of the Education Code of the State of California; and of the provisions of Sections 54600-54630 of Title 5 of the California Administrative Code. These references, with which the institution intends to comply fully, were designated to protect the privacy of education records, to establish the right of students to inspect and review their education records, to provide the process by which students may challenge the accuracy of those records, and to provide guidelines for the correction of inaccurate or misleading data through informal and formal hearings. Students also have the right to file complaints with the Family Education Rights and Privacy Act (FERPA) Office concerning alleged failures by the institution to comply with the Act.

An institutional guide explains in detail the procedures to be used by the institution for compliance with the provisions of the Act. Copies of the guide may be found in the campus library as well as in the Office of Admissions and Records.

Questions concerning the Family Educational Rights and Privacy Act may be referred to the Office of Admissions.

STUDENT RESPONSIBILITY

Glendale Community College provides its students with a wide variety of academic assistance and support services. It is the responsibility of each student to meet the require-ments printed in the college catalog, the class schedule and college announcements.

The college establishes certain academic policies and requirements which must be completed before a degree or certificate can be granted. These include major and unit requirements, as well as verification of satisfying course prerequisites. Students also are responsible to see that they meet the admission requirements to the college or university of their choice if they elect to pursue an educational goal beyond their sophomore year. While counselors, faculty, administrators and staff will provide students with information and assistance, responsibility for meeting these requirements remains with the students.

To insure timely information from the college, students must inform the Office of Admissions and Records of changes in personal data, including change of name and address. It is the student’s responsibility to enroll properly for classes. A student who fails to enroll officially in a class will not be given credit for that class. It is the student’s responsibility to withdraw officially from the college or drop classes when he or she stops attending and to observe established deadlines. Otherwise, “F” grades may be assigned.

Other areas regarding student responsibility are included in the catalog under sections for: Admission and Registration; and Scholarship Information and Regulations.

TRANSCRIPTS

Transcripts should be sent directly from the high school or college to Glendale Community College. All transcripts become the property of Glendale Community College and will not be returned.

Glendale Community College reserves the right to evaluate work completed in other colleges or universities. The external credit units and cumulative grade points will be posted on the student’s Glendale College transcript. Transfers with acceptable grades will be granted advanced standing in-so-far as the work completely corresponds with that of Glendale Community College.

Upon the written request of a student, a transcript of the student’s record at Glendale Community College will be forwarded to a college or university, individual, firm, etc. providing that such student has no outstanding financial obligation to the college. Records may be withheld for monies owed the college, library fines, unreturned P.E. supplies and/or equipment, health holds, or for disciplinary problems. For more information visit our website at www.glendale.edu.
ACADEMIC RENEWAL WITHOUT COURSE REPETITION

The following procedure provides an opportunity for students to obtain alleviation of previously recorded, substandard academic performance which is not reflective of subsequent demonstrated ability.

1. A student may request academic renewal (for not more than two consecutive semesters of work accomplished at GCC) through a petition to the Petitions Committee.

2. If and when the petition is granted, the student’s permanent record will be annotated so that it is readily evident to all users of the record that no units for work taken during the disregarded term(s) even if satisfactory, will apply toward units for graduation or other unit commitment. However, all work will remain legible on the permanent record to insure a true and complete academic history.

3. Although none of the units completed during such semesters count toward a degree, passing work could satisfy a general education requirement (as subject credit only) for the Associate degree.

4. The student seeking academic renewal is responsible for presenting evidence to the effect that the previously recorded work was substandard academic performance (semester grade-point average less than 2.0) and is not reflective of more recently demonstrated academic ability.

5. Evidence of recent academic ability as shown on official transcript must include one of the following:
   a. 15 semester units with at least a 3.00 GPA
   b. 30 semester units with at least a 2.50 GPA
   c. 45 semester units with at least a 2.00 GPA

6. There must be at least 24 months between the end of the most recent academic renewal semester and the date of initiation of the request and such renewal.

7. A student may request academic renewal only once.

8. A student may repeat work taken during academic renewal semester only if such repetition is necessary to allow normal progression toward an acceptable educational objective.

9. A student must include all work, including academic renewal semesters, in computation of the cumulative grade-point average toward honors at graduation.

For further information regarding academic renewal contact the Office of Admissions and Records.

ATTENDANCE AND DROP POLICY

Students are expected to attend all class meetings. There are no authorized absences from class and irregular attendance may result in exclusion from classes.

It is the student’s responsibility to register properly for classes. A student who fails to enroll officially in a class will not be given credit for that class.

Students also have the responsibility of officially withdrawing from college or dropping from class when they stop attending, and of observing established deadlines. Otherwise, “F” grades may be assigned.

It is the responsibility of each student to know the attendance and absence policy of each class in which he or she is enrolled. It is the responsibility of each instructor to inform his or her class of the attendance and absence policies at the beginning of each semester.

Students may be dropped from class for failure to attend the first class meeting during the first week of instruction if they have not made prior arrangements with the instructor.

Students also may be dropped for continuous or cumulative absences for the number of hours a sixteen-week class is scheduled to meet in a two-week period.

CHANGE OF GRADES

The college recognizes the long-standing prerogative of faculty to set standards of performance and to apply them to individual students. Therefore, the instructor is considered to be the final authority in determining grades that are assigned to students and that appear on their permanent academic records. The following policies apply to changes of grades except for changes of Incomplete (I) and Withdrawal (W) grades.

1. In general, all course grades are final when filed by the instructor at the end of the term. These grades become a part of the student’s permanent record.

2. A change of grade shall occur in cases of clerical error, administrative error, or where the instructor re-evaluates the student’s performance and discovers an error in the original evaluation. A clerical error is an error made by the instructor in calculating or recording the grade. A change of grade shall not occur as a consequence of the acceptance of additional work or re-examination beyond the specified course requirements.

3. A request for a grade change shall be initiated by the student affected or by the instructor within the next regular semester following the award of the original grade. If the instructor determines that there is a valid basis for the change, a Change of Grade form shall be used to notify the Office of Admissions and Records. If the instructor determines that there is not a valid basis for the change and denies the student’s request, the instructor’s decision, subject to the appeals process described below, is final.

4. The Change of Grade form must be completed by the instructor, signed by the division chairperson, and submitted to the Office of Admissions and Records. Once the change of grade is processed, students shall be notified by the Office of Admissions and Records.

Students have the right to formally appeal the final grade in a course. Appeals are limited to situations in which the student believes the grade was prejudicially, capriciously, or arbitrarily assigned. Appeals must first be directed to the instructor of the course, orally or in writing. If further action is necessary, the student should appeal in writing to the division chair and then to the Vice President, Instructional Services. If the issue continues to be unresolved, a written appeal can be directed to the college Judicial Board. (See Grievance Policy)
CLASSIFICATION OF STUDENTS

Students are classified as follows: Full time—enrolled in twelve (12) or more units in a regular semester or four (4) or more units during an inter-session. Part time—enrolled in less than twelve (12) units during a regular semester or less than four (4) units during an inter-session. Freshman—one who has completed less than 30 units; Sophomore—one who has completed 30 units or more.

CLEARANCE OF OBLIGATIONS

Students or former students are expected to meet proper financial obligation due to the District. Pursuant to California Education Code, Section 72237, college services such as grades, transcripts, diplomas, registration privileges or any combination thereof may be withheld from any student or former student who has not made satisfactory arrangements to meet his or her financial obligation to the district. When, in the judgment of the district, the financial obligation has been satisfied, college services will be reinstated.

COURSE REPETITION

Repetition of courses is subject to the following conditions:

1. A course may be repeated two times to alleviate substandard work recorded on the student's record. The term “substandard” is defined as course work for which the grading symbol “D,” “F,” “NC,” or “NP” was recorded. In computing the grade-point average of a student who repeats a course in which a “D,” “F,” “NC,” or “NP” grade was received, the previous grade is disregarded and the new one is counted in calculation of the student's GPA if the new grade is equal to or higher than the original grade. After satisfactory completion of a course, students should submit a Request to Count the Higher Grade petition to the Admissions Office in order to have their academic records adjusted. Nevertheless, the original grade on the academic record shall not be changed or eradicated.

2. Students may repeat courses in which they received grades of “A,” “B,” “C,” “CR,” or “P,” if it has been determined by the college Petitions Committee that a significant lapse of time has occurred since the student previously took the course or course content has been revised. No additional units attempted or grade points are allowed for the repeated course.

3. Repetitions are permitted in specific classes in which skills or proficiencies are enhanced through supervised repetitions and practices, or where active participating experience in individual study or group assignments is the basic means by which learning objectives are achieved. Catalog descriptions of courses in which repetitions are permitted will include the number of repetitions permitted and/or the maximum number of units that may be earned through repetition.

CREDIT FOR ADVANCED PLACEMENT EXAMINATIONS

GCC recognizes the Advanced Placement Program of the College Entrance Examination Board. Course credit is granted for Advanced Placement Examinations with a score of three or higher if the division concerned has determined that the material covered is comparable to a specific course offering within that division. Advanced Placement credit may be granted for fulfillment of GCC’s degree requirements, GE breath certification for the CSU, and IGETC. However, when a student transfers to any other college or university, that institution routinely re-evaluates Advanced Placement units in accordance with its own internal policies. Thus, Advanced Placement units remain intact and do not transfer as GCC courses. For AP credit for transfer to a four-year college/university, see the Transfer Center.

It is the student’s responsibility to petition for credit through the Office of Admissions and Records. Since several universities require a minimum score in order to receive subject credit, students must discuss the applicability of AP credit with an academic counselor prior to submitting a petition to the Office of Admissions and Records.

Units for which credit is given pursuant to the Advanced Placement Examinations shall not be counted in determining the 12 semester hours of credit in residence required for graduation. Credit for Advanced Placement will be granted only during the fall and spring semesters to students who have successfully completed or are enrolled in at least 12 units at GCC.

The maximum number of credits allowable for Advanced Placement—including any Credit by Examination units—shall not exceed 30 units. Credit by examination transferred from other institutions is counted toward this maximum.

CREDIT BY EXAMINATION

Upon consent of the instructor and under special circumstances students who are regularly enrolled in good standing, have completed 12 or more units in residence, and believe they are qualified by experience or previous training, may apply to take a special examination to establish credit in a course in which they are not formally registered. Students may petition for credit by examination if they enrolled in the course and received a letter grade of “I,” “D” or “F.” Students may not petition for credit by examination for a course if that course is at a lower level in the subject sequence than a course for which the student has already received credit through completion of the course.

Students may attempt Credit by Examination only once in a particular course. If a course has already been taken for credit, it is not repeatable for Credit by Examination.

Courses open to Credit by Examination include the following:

- Accounting 105, 110
- Administration of Justice 101, 108, 110, 116, 118, 120
- Architecture 101
- Art 147 and 148

College Level Examination Program Policy (CLEP)
The College Level Examination Program is designed to award academic credit to students who have completed 12 or more semester units in residence at GCC with a cumulative GPA of at least 2.0 and have gained the equivalency of college course work through means other than enrollment in a formal college program.

Glendale Community College also grants credit for some of the various subject examinations. For amount and type of credit awarded contact Admissions and Records or your counselor. Students transferring to other colleges and universities should check with the receiving institution as to the awarding of credit for both the general examinations and the subject examinations.

Units for which credit is given pursuant to these examinations will not be counted in determining the 12 semester hours of credit in residence required for graduation.

CREDIT FOR MILITARY TRAINING
Glendale Community College will recognize and grant credit to veterans for educational training completed in the armed forces provided such credit is not a duplication of work taken previously. College work completed through the United States Armed Forces Institute will be accepted. In order to receive credit for military training, veterans must petition for such credit and present authentic military service and training records including a copy of discharge papers.

Applicants desiring credit for military training will be required to provide appropriate documents before credit for military service can be granted. Credit awarded for military training will include credit for hygiene toward the Associate degree.

PASS/NO PASS COURSES
(Formerly known as Credit/No Credit)
There are two categories of Pass/No Pass courses.

The first category consists of courses which must be taken on a Pass/No Pass basis only. Courses which fall into this category include:

- Accounting 121, 155, 156
- Allied Health 145
- Armenian 110, 111
- Art 158, 288
- Chinese 110-112
- CABOT 93, 107, 130, 156, 200, 206, 208, 220
- CS/IS 99, 191, 192, 200-202, 206, 208, 209
- English 152, 181-187, 189, 191
- English as a Second Language 117, 127
- French 110, 111
- German 110
- Independent Studies 101
- Internship 150
- Italian 110, 111
- Japanese 110, 111
- Korean 110, 111
- Mathematics 155, 190, 255
- Music 239
- Nursing Science 201-204, 216, 219, 220, 232, 233, 255, 260
- Photography 102, 119
- Physical Education 101, 102, 119, 199, 134
- Real Estate 165
- Russian 110, 111
- Social Science 146
- Spanish 110, 111
- Speech 150-153

The second category consists of courses which may be selected at the student’s option. The student must complete the Petition for Pass/No Pass and have it on file in the Office of Admissions and Records by Friday of the third week for a semester-length class or by Tuesday of the second week for all other classes. Students electing to take classes on a Pass/No Pass basis participate in the class as a regular student. If the grade awarded by the instructor is “C” or higher, the course grade is recorded as “P”. If the instructor-assigned grade is “D” or “F,” the course grade is recorded as “NP”.

All units earned on a Pass/No Pass basis in accredited institutions of higher education will be counted in satisfaction of Glendale Community College curriculum requirements. Units earned on a Pass/No Pass basis will not be used to calculate GPAs. However, units attempted for which “NP” is recorded shall be considered in progress probation and dismissal procedures.

Students not on probation may designate a course(s) for Pass/No Pass. The courses designated must be outside of courses
required for the student’s major. The number of Pass/No Pass units designated may not exceed twelve (12) in residence at GCC (exclusive of those earned in courses which are graded only on Pass/No Pass) with no more than six units during any semester or summer/winter intersession.

Courses which may be selected by petition for Pass/No Pass:
- Accounting 105, 106, 110, 111, 120, 121, 130, 131, 130, 157, 160, 165, 170, 175, 180, 201, 202, 210, 211, 220, 225, 230, 235
- Administration of Justice (all except 160)
- Alcohol/Drug Studies 101, 103, 110, 115
- American Sign Language 101-103, 105, 110, 151, 201, 202
- Anthropology 101-105, 101, 110, 115
- Architecture (all except 106, 107, 141, 250)
- Armenian 115, 116, 125-127, 201
- Art (all except 147, 148, 158, 257, 288)
- Aviation and Transportation 112, 113
- Biology 127, 128, 131, 132, 135, 139, 145, 146
- Business Administration (all)
- Chemistry 110, 114, 143
- Child Development (all except 158, 175, 176)
- CABOT (all except 90, 90, 92, 93, 130, 200, 206, 208, 209, 220, 260)
- CS/IS (all except 99, 142, 191, 192, 200-202, 206, 208, 209)
- Culinary Arts (all except 128)
- Dance (all except 158, 160, 171)
- Economics 101, 102, 107
- Egyptian Hieroglyphs 101, 102
- ECT 106, 107, 111, 112, 212, 222, 226
- English 103, 105-117, 122-128, 140-142, 150, 151, 155-157
- ESL 115, 116, 123, 125, 128, 133, 135, 141, 145, 151, 155
- Ethnic Studies 101, 102, 110, 111, 112, 122, 124, 125, 132, 164
- Fire Technology (all)
- Geography 103, 106, 107, 110, 111, 120
- Geology 101, 105, 110, 112
- Health 101, 102, 104, 106, 107, 109, 110
- History 101, 102, 106-109, 111-115, 119-122, 131-133, 135, 136, 151, 152
- Hospitality and Tourism Management (all)
- Humanities 101, 102, 105, 110, 111, 115, 117, 120, 125, 130, 135
- Independent Studies 049
- Interdisciplinary Studies 110
- Italian 130
- Journalism 110
- Library 101, 191
- Linguistics 101
- Math 119, 120, 101, 141, 145, 146, 219, 220, 245, 246
- Media Arts 101-104, 111, 112, 117, 202, 205, 207, 218
- Medical Office Administration 187
- Music (all except 239)
- Nursing Science 250
- Paleontology 101
- Philosophy (all)
- Photography (all except 102, 104, 119, 257)
- P.E. 105, 107, 111-116, 120-286, (except 128 and 228) 288-295
- Physical Science 131
- Physics 110
- Political Science 102, 106-108, 110-112, 151

FINAL EXAMINATIONS

At the end of each semester a final examination schedule is followed. Students must attend all classes in accordance with the schedule for that period. This arrangement permits the giving of final examinations in those classes which require them and the completion of the instructional program in the other classes. No student shall be excused from taking a final examination where such is required as part of a course.

GRADES, GRADE POINTS, AND GRADE-POINT AVERAGE

The standing of students in each course will be determined by class work and examinations. Grades will be reported and grade points allowed as follow:

- A - Excellent.................................................. 4 grade points per unit
- B - Good .................................................... 3 grade points per unit
- C - Satisfactory ............................................. 2 grade points per unit
- D - Passing (less than satisfactory) .......... 1 grade point per unit
- F - Failing ...................................................... 0 grade points (cannot be removed by examination)
- P - Pass (at least satisfactory—units awarded, not counted in GPA)
- NP- No Pass (less than satisfactory or failing—units not awarded in GPA but included in computation of progress probation)

Grade-Point Average

The grade-point average is computed by dividing the total number of grade points earned by the numbers of units attempted. A “W” notation does not enter into computation of the grade-point average. Also, such computations do not include the unit value of courses for which “P” or “NP” are recorded or for courses completed under the regulations established for credit by examination. If a course is repeated for the purpose of improving previous substandard work, the units attempted and grade points earned are counted according to the course repetition policy. An “I” made up carries the grade points per unit appropriate to the grade given on makeup.

Non-Evaluative Symbols

Units for which the following grading symbols have been assigned will not be counted in the computation of the GPA.

- I - Incomplete (Included in the computation of progress probation)
- W - Withdrawn (Included in computation of progress probation)
In Progress—To be used when class extends beyond the normal end of an academic term.

RD- Report Delayed

An incomplete grade may only be given when an unforeseen emergency prevents a student from completing work in a course. The incomplete grade must be removed by the end of the 12th week in the semester following the term in which the incomplete was assigned, regardless of whether or not the student is registered for classes at the college. The nature of the unforeseen emergency and the conditions for removal of the “I” shall be stated by the instructor in an on-line contract. The contract shall include the grade to be assigned if the course work is not completed. The instructor will generate this contract when final grades are entered on-line. Once the work stipulated has been completed and evaluated, or once the time limit for completing the work has passed, a final grade shall be assigned on-line.

GRIEVANCE PROCEDURES

Glendale Community College District is committed to providing a prompt and equitable means of resolving student complaints against actions taken by the college and its employees. In accordance with applicable State and Federal laws, the district maintains grievance procedures that are available to any student who reasonably believes a college decision or action has adversely affected his or her status, rights, or privileges as a student.

What can a student grieve?

Students may file grievances against actions by GCC employees in areas including, but not limited to the following: the exercise of rights of free expression; violation of published GCC rules, Board policies, and administrative regulations; academic decisions that may affect a course grade; the assignment of final course grades (according to prescribed legal limits).

Where can a student get a copy of the GCC student grievance procedures?

Copies of GCC Board Policy 5101 and Administrative Regulations 5101 can be obtained from a division chairperson, the Dean of Student Affairs, the Dean of Instructional Services, the Dean of Student Services, and the Dean of Admissions and Records. Additionally, students may access these regulations on the GCC web site at www.glendale.edu.

Non-Grade Grievances

A student may address a complaint about an action taken by a college employee that does not involve course grades through the grievance process. Informal meetings and discussions between persons directly involved in a non-grade grievance are essential at the outset of the dispute and are encouraged at all stages. If a student cannot resolve a non-grade grievance directly with the involved GCC employee, the student may request a meeting with the appropriate administrator/manager or division chairperson. The administrator/manager or division chairperson shall meet with the student and the employee in an attempt to resolve the issue and may meet with the student and GCC employee either jointly or separately. If no informal resolution is reached with the administrator/manager or division chairperson that is satisfactory to the student, the student may request an administrative hearing with the appropriate senior GCC administrator as follows: Instructional Services employees: Vice President, Instructional Services or designee; College Services employees: Vice President, College Services or designee; Administrative Services employees: Vice President, Administrative Services or designee; College Administrators: Superintendent/President or designee.

The senior administrator shall meet with the student and GCC employee either jointly or separately to attempt to settle the grievance through mediation, negotiated agreement, or another mutually acceptable resolution. The final outcome or resolution will be communicated to the involved parties within ten instructional days after the conclusion of the hearing process.

Grade Appeals

This procedure provides a means of resolving a student's dispute of an academic decision (such as temporary removal from a lab or classroom setting) or the assigned final grade for a course. A student has the right initially to an informal review and explanation of his or her grade by the instructor who in turn is obligated to provide such a review. However, a student may only appeal a grade or academic decision if he or she is prepared to carry the burden of proving one or more of the following conditions as specified by law: a mistake in the assignment of the grade or in the process of its recording, fraud, bad faith, or incompetence.

A student shall initiate the process by filing a grade appeal with the instructor within the next regular semester (as specified in the applicable class schedule) following the award of the original grade. The student is expected to make a reasonable effort to resolve the matter on an informal basis with the instructor. If the student and instructor cannot settle the grade appeal then the student may request a meeting with the appropriate division chairperson. The division chairperson will then meet with the student and the instructor either jointly or separately to attempt to work out the grievance.

If the student cannot resolve the grade appeal with the instructor and division chairperson, then the student may request a conference with the appropriate dean. The dean will meet with the student and instructor either jointly or separately to resolve the grade appeal through compromise, negotiated settlement, or a recommendation that is satisfactory to all involved parties. If the dean is unable to resolve the complaint, and the student wishes to continue the grade appeal process, then the student may submit a written request for a formal grade appeal hearing with the Campus Judicial Board.

The Campus Judicial Board will conduct a closed hearing and based on the examination of supporting documents and testimony may take the following actions: Accept the formal grade appeal and recommend an administrative grade change; Reject the formal grade appeal; Make related recommendations as appropriate.

The Board will issue a written decision that includes a determination of whether the student established a rationale for a grade change according to applicable laws, and recommendations for the relief, if any, that should be afforded to the student. These findings are then submitted to the Superintendent/President for a final review.
After receiving the report of findings and recommended actions from the Campus Judicial Board, the Superintendent/President will issue a written decision to the involved parties that include his or her conclusions and directives. The Superintendent/President’s decision shall be final and binding in all formal grade appeal hearings.

HONORS

Honors at Entrance
Honors at Entrance is granted to selected graduates of accredited United States high schools who have obtained a 3.5 or higher in their sophomore and junior years and first semester of the senior year. The student must be a first-semester-freshman and be enrolled in the college full-time. Students must apply for Honors at Entrance and submit official copies of their high school transcripts to the Office of Admissions and Records. Grades in physical education and military science courses are not included when calculating the GPA.

Dean's Honors
A Dean's Honors List is published each semester. It includes all students who are in good standing and whose semester grade-point average is 3.50 or higher in 12 or more units; 3.75 to 3.99 in 9 to 11.5 units; or 4.00 in 6 to 8.5 units, with grades of A, B or C. An earned grade of NC disqualifies a student for Dean's Honors.

Dean's Honors will be posted each semester to the students' permanent academic records. In addition, the student will receive a Dean’s Honors certificate to commemorate their academic achievement.

Academic Honors at Graduation
Academic Honors are awarded to students at graduation who have achieved a grade-point average of 3.5 or above in all work at GCC and in all work attempted.

PETITIONS PROCEDURE

Students with extenuating circumstances warranting special consideration for adjustment or deviation from established procedures and policies of the college may file a petition with the Office of Admissions and Records. The petition must be supported with appropriate documentation.

The notation of withdrawal “W” is not expunged from a transcript for any reason other than California Education Code, Title V, Section 55024.

POLICY ON ACADEMIC HONESTY

College study is the process of acquainting students with values and procedures central to scholarship. All students are expected to do their own work. All forms of cheating and plagiarism are absolutely forbidden. This is the official policy of Glendale Community College.

The following behaviors serve as an operational description of student violations of academic honesty:
1. The student takes or copies answers from another student or source or uses unauthorized materials during a test.
2. The student turns in an assignment (labs, art projects, homework, prewritten or purchased papers, or work downloaded from the Internet) which is not his/her own.
3. The student uses words or ideas which are not his/her own without acknowledgment of the source (plagiarism).
4. The student knowingly deceives an instructor with the intent to improve his/her standing in class.
5. The student submits the same paper or project previously submitted in another class without the permission of the current instructor.
6. The student depends upon tools or assistance prohibited by the instructor in writing papers, preparing reports, solving problems, or carrying out other assignments.
7. The student acquires, without permission, tests or other academic materials belonging to a member of the GCC faculty or staff.

When a student engages in academic dishonesty, faculty have the option of requiring the student to see a college counselor, assigning a lower or failing (F) final grade in the course (or denying promotion from a non-credit course).

Violations of this policy will be reported to the Vice President of Instruction and will become part of the Glendale College Cheating Incident file, unless the instructor finds compelling reasons not to report a violation. The Executive Vice President of Instruction may then impose sanctions authorized by Administrative Regulation 5420. The sanctions include, but are not limited to, issuing a reprimand, suspending the student for up to ten days of instruction, and/or requesting a hearing by the Campus Judicial Board to see if the student should be suspended, or permanently expelled from the college.

The student has the right of due process for all the above sanctions.

REMEDIAL COURSEWORK LIMIT POLICY

Glendale Community College offers remedial coursework through pre-collegiate basic skills courses in reading, writing, learning skills, study skills, mathematics, and English as a Second Language. These courses are designated as non-degree applicable credit courses.

A student’s need for remedial coursework shall be determined by the student’s counselor through the use of the appropriate assessment instruments. Once enrolled, no student shall attempt and/or receive more than 30 units of credit for remedial coursework at GCC.

The following students are exempted from the limitation on remedial coursework:
1. Students enrolled in one or more courses of ESL.
2. Students identified by the Disabled Student Program and Services as being eligible for their learning disability services.
3. After attempting and/or completing 30 semesters units of remedial coursework and showing satisfactory progress by maintaining a 2.00 cumulative grade-point average, students may be allowed additional units of remedial coursework upon petition to the College Petitions Committee. If a waiver of the 30 unit limit is granted, the committee will specify the additional course(s) in which the student may enroll as well as any other conditions which the student must meet to satisfy the waiver.

Progress shall be monitored on a semester basis.
A student not exempted from the 30 unit limitation shall be dismissed from the credit program and referred to adult non-credit education courses. Upon successful completion of appropriate remedial coursework or upon demonstration of skills which will reasonably assure success in college-level courses, the student may request reinstatement to the credit program at the college in order to proceed with college-level coursework.

STANDARDS OF SCHOLARSHIP

Glendale Community College interprets a “C” average as a satisfactory scholarship standard—which means that the student should receive grade points equal to twice the number of units attempted.

Students who fail to maintain satisfactory scholarship may be placed on academic or progress probation and may be dismissed.

1. **Academic Probation**
   A student will be placed on academic probation if the student’s cumulative grade-point average for all units attempted at accredited postsecondary institutions is less than 2.0. Glendale Community College recognizes academic probationary status assigned by another college or university.

2. **Progress Probation**
   A student who has enrolled in a cumulative total of at least nine (9) units shall be placed on progress probation if the percentage of all units in which a student has enrolled at accredited postsecondary institutions for which grades of “W”, “I” and “NC” are recorded reaches or exceeds fifty percent (50%). Glendale Community College recognizes progress probationary status assigned by another college or university.

3. **Dismissal**
   a. A student on probation (academic, progress or a combination of both) who earns any form of probationary status during enrollment in two consecutive sessions of attendance shall be dismissed and shall not be reinstated until at least one semester has elapsed after the dismissal. A student dismissed at the end of the fall semester may enroll in winter session. A student dismissed at the end of spring semester may enroll in summer session. Glendale Community College recognizes academic dismissal assigned by another college or university. Students dismissed from other colleges or universities must abide by the procedures for students dismissed from Glendale Community College with respect to seeking readmission after dismissal.
   b. A student having been readmitted on probation after academic dismissal must maintain a semester grade-point average of at least 2.0 and must not be placed on progress probation. If either the semester grade-point average falls below 2.0 or the student is assigned the progress probation status, that student will again be dismissed for one semester.

**Appeal for Reinstatement**

Following the notification of dismissal from the college, students may appeal to the dean of admissions and records for reinstatement if unusual and verifiable circumstances caused dismissal.

These circumstances could be, but are not limited to: family emergency, health problems, or extreme financial difficulty.

**Timeline for Appeals**

Appeals for reinstatement must be received by the Dean of Admissions and Records by August 1 for the fall semester, and by January 31 for the spring semester.

**Financial Aid Satisfactory Progress Policy**

In order to receive financial aid, students must meet the Glendale Community College Standards of Scholarship while enrolled. In addition, students are expected to meet the following standards during periods of enrollment for which federal or state financial assistance is received.

1. **Eligible Program**—A student must enroll in an educational program which leads to a degree or certificate that the student has not previously earned and which requires at least two semesters of study.

2. **Review of Previous College Records**—Previous education at Glendale Community College and/or units completed at other accredited institutions will be included in determining the student’s maximum time period for Title IV funds. Students are expected to make satisfactory progress according to the college’s standards of scholarship during all periods of enrollment whether or not they are receiving Title IV aid. Students on academic and/or progress probation are eligible to receive Title IV aid during their probationary semester(s).

3. **Incremental Periods for Review of Satisfactory Progress**—Under both the college’s general satisfactory progress standards for academic or progress probation/dismissal, as well as its financial aid satisfactory progress standards of unit completion, the student’s progress shall be evaluated after the completion of each academic year. i.e., spring/summer semesters.

4. **Grades of F, W, NP, and IP will not count as units completed.**

5. **Course repetitions within college policy will be allowed—unless the student is on a Satisfactory Academic Progress contract.**

6. **Maximum Time Frame for Completing Educational Goal**—Students pursuing a degree or transfer program are allowed a maximum of 72 degree applicable units within which to complete their educational objective. Students enrolled in a certificate program must complete the program within the number of units as stated in the college catalog. Remedial course work may not exceed a 30 unit maximum. Students enrolled full-time are expected to complete 24 units during the academic year. Students enrolled three quarter, half-time, or less than half-time must complete the required minimum 18, 12, or 2 unit(s) relative to appropriate enrollment status.

7. **Financial Aid Probation**—During any academic year in which Title IV aid is received, students are expected to complete a minimum of 24, 18, or 12 units relative to the full-time, three-quarter time, or half-time enrollment status upon which receipt of the aid was determined; i.e., students receiving a Pell Grant based on the full-time payment schedule must complete 24 units during the academic year. Students receiving only FWS, and/or a Stafford loan
must complete a minimum of 6 units each semester or 12 units for the school year. Students who complete less than
the number of units for which they were paid aid during
the academic year are sent a warning letter and placed on
financial aid probation for the subsequent school year. Students on financial aid probation are considered to be eligible
to receive Title IV aid, during the probation period.
In addition, students who do not maintain a grade point
average of at least 2.0 are placed on probation for the
next award year.
8. Financial Aid Dismissal—A student who does not
satisfactorily complete a minimum number of units
relative to full-time, three-quarter time, or half-time
status for two consecutive academic years on aid will be
placed on unit dismissal. A student who has reached or
exceeded the 30 or 72 unit maximum time frame with-
out completing his/her educational objective is placed
on term dismissal. Students who fail to maintain a 2.0
grade point average are dismissed from the college for
failure to meet its general standards of academic and/or
progress probation are also no longer eligible to receive
further Title IV aid. Students placed on Academic Dis-
missal by the college are immediately terminated from
financial aid.
9. Academic contracts—Students who have reached their
maximum time frame without completing their edu-
cational objectives and who successfully appeal their
dismissal from Title IV aid are placed on Academic
Contracts. An Academic Contract lists the specific courses
the associate dean for financial aid and/or the Financial
Aid Appeals Committee has approved the students to
take to complete their educational goals. Students on an
Academic Contract are considered eligible for Title IV
aid, but they are paid only for specific classes required
to complete their educational objective.
10. Academic Contract Dismissal—Students on an Aca-
demic Contract who fail to meet the conditions of the
contract are dismissed from further Title IV aid and are
sent an Academic Contract dismissal letter.
11. Appeal Procedures—Students dismissed from finan-
cial aid for failure to meet either the college’s general
standards, the financial aid standards, or for failure to
complete their educational goals within the maximum
time frame provided may appeal. Please see the Financial
Aid Office regarding the appeals process and appropriate
forms. The student’s financial aid eligibility is reinstated
if the appeal is approved. There is no appeal for termina-
dation due to Academic Dismissal.

STANDARDS OF STUDENT CONDUCT

The Standards of Student Conduct provide a prompt and
 equitable means to address alleged student violations of
the college’s behavioral regulations. Students who violate college
policies and behavioral regulations shall be subject to the disci-
plinary procedures outlined in the Standards of Student Conduct.
These procedures are not intended to substitute for criminal or
civil proceedings that may be initiated by other agencies.

Prohibited conduct that may subject a student to disciplinary
sanctions includes, but is not limited to the following:
1. Disruption of the orderly operation of the college, including
but not limited to the delivery of GCC instructional, admin-
istrative, or student services; campus activities sponsored
or sanctioned by GCC; other authorized non GCC activities
when the act occurs on GCC premises.
2. Violation of published GCC rules, Board policies, and
administrative regulations.
3. Knowingly furnishing false information to any GCC
employee or campus office for the purpose of complet-
ing GCC documents, applications, or forms processed by
the college.
4. Forgery, alteration, or other unauthorized use of GCC
documents, applications, records, identification, or forms
processed by the college.
5. Unauthorized possession or duplication of keys to any
GCC premises, entry into or use of any GCC premises, or
use of GCC supplies and equipment.
6. Cheating, plagiarism, or other violations of GCC policies and
administrative regulations governing academic honesty.
7. Policies and regulations governing the use of computer
and communications technology.
8. Gaming, gambling, or participating in other activities for
the purposes of wagering or betting funds.
9. Soliciting or assisting another to perform any act that
would violate the Standards of Student Conduct and subject
a student to disciplinary sanctions.
10. Violation of judicial and statutory standards of obscenity;
engaging in lewd or indecent behavior on campus or at a
campus function.
11. Violation of federal, state, or local law on GCC premises, or
at GCC sponsored or supervised activities.
12. Use, possession, or distribution of narcotics, other legally
controlled substances, or alcoholic beverages except as
expressly permitted by law and GCC regulations.
13. Failure to comply with directions of GCC employees or law
enforcement officers; failure to identify oneself or provide
identification to these persons when requested to do so.
14. Presence on campus or at a college-sponsored function
while under the influence of narcotics, other legally con-
trolled substances, or alcoholic beverages except as expressly
permitted by law and GCC regulations.
15. Abusive behavior directed toward, or hazing of, a member
of the campus community or a campus visitor.
16. Illegal or unauthorized possession or use of firearms, explo-
sives, other weapons, or dangerous chemicals.
17. Sexual harassment of a member of the campus community
or a campus visitor including, but not limited to unwelcome
sexual advances; requests for sexual favors; other verbal, non
verbal, or physical conduct of a sexual nature in violation

2010–2011 CATALOG • GLENDALE COMMUNITY COLLEGE
of GCC board policies and administrative regulations on sexual harassment, and applicable State and Federal laws.

18. Verbal abuse, threats, intimidation, harassment, coercion or other conduct that threatens or endangers the health and safety of a member of the campus community or a college visitor.

19. Assault, battery, or any other physically abusive behavior that threatens or endangers the health and safety of a member of the campus community or campus visitor.

20. Theft or attempted theft of GCC property, or property of a member of the campus community or campus visitor.

21. Actual or attempted vandalism or destruction of GCC property, or property of a member of the campus community or campus visitor.

Authorized disciplinary sanctions for violations of student behavioral regulations include, but are not limited to written reprimand, loss of privileges, restitution, temporary removal from class, suspension, and permanent expulsion. The college administers these sanctions through the Standards of Student Conduct and provides involved students with their due process rights guaranteed by State and Federal constitutional protections. Copies of the Standards of Student Conduct are available in the Student Affairs Office located in the J.W. Smith Student Center.

UNIT OF WORK

The credit value in semester units of each course is indicated after the title of the course under “Course Descriptions.” Each unit represents one hour per week of lecture or discussion, or a longer time in laboratory or other exercises not requiring outside preparation. For each hour of lecture-discussion, two hours of preparation are assumed.

UNIT LIMITATIONS

The students’ program of studies will vary according to their needs and objectives. Students registered in 12 or more units are classified as full-time students; those registered for less than 12 units are classified as part-time students. The academic load carried should be in line with the best combined judgment of the student and the counselor. The college recommends that students who are working 20 hours per week should carry no more than 10 units; 30 hours per week, no more than 8 units; and 40 hours per week, no more than 6 units. Individuals having health problems should make proportionate adjustments in their college programs.

A first semester student, one who has not completed at any college one semester of resident study of 12 semester units of credit or a quarter of resident study of 8 semester units of credit, should not register for more than 16 units plus one unit of music performance and a physical education activity. Students may not register in more than 19 semester units without special permission. These unit limitations apply to the total of day and evening college courses.

WITHDRAWAL/COURSE DROP POLICY

Once enrolled in courses, students are not considered dropped or withdrawn unless:

- They have dropped the course Online via MyGCC or
- They have dropped the course with an Add/Drop form in person at the Admissions & Records office.

A grade of “W” will not be made on the permanent academic record of a student who drops or is dropped from the course or from college:

- During the first two weeks of a semester-length course;
- During the first week of a course which is at least five weeks in length and less than a semester in length; or
- During the first 20% of a course which is less than five weeks in length

Students who drop or are dropped from semester length courses after the second week and prior to the end of the 12th week will receive grades of “W” on their permanent academic records.

In order to receive a grade of “W” in a five-week summer/winter session course, a student must drop by the end of the fourth week, and by the end of the fifth week for a six-week summer/winter session class.

Any courses of duration not listed above adhere to a pro rata schedule for deadlines.

A student must drop a course during the period stated to not receive a withdrawal notation (W). There are no extenuating circumstances to remove a “W” from a student record. If circumstances occur after the final drop date to receive a “W”, the student may petition (see page 55 of this section). Extenuating circumstances are verified cases of accident, illness or other circumstances beyond the control of the student. Such withdrawals or drops shall be recorded as a “W”. Students not dropped or withdrawn from courses during the periods and circumstances described above will not be eligible for a notation of “W” and must be assigned a letter grade in the “A” through “F” category, or “P/NP” in those courses so designated.

According to California Education Code, Title V, Section 55024, the number of times that a student may withdraw from a class is limited. See your counselor for procedures and policies.
GRADUATION REQUIREMENTS

Glendale Community College shall confer the degree of Associate of Arts or Associate of Science upon a student who has satisfactorily completed all of the requirements for graduation. A student may receive only one A.S. and one A.A. degree. The Associate degree is granted to persons who file a Petition for Graduation in the Office of Admissions and Records, who are not on academic probation, and who have completed a minimum of 12 of the last 18 semester units of the required college curriculum of 60 degree applicable semester units at Glendale Community College. The completion of the required 60 semester units must include all of the following:

MAJOR
1. The requirement for the Associate in Arts degree may be met by completing an approved Area of Emphasis or Major with a minimum of 18 semester units: The approved Areas of Emphasis and Majors are listed on the following pages.

The requirement for the Associate in Science degree may be met by completing an approved major/certificate program of 24 semester units or more. The approved majors/certificate programs are listed on the following pages.

When a course required for an Area of Emphasis or Major is also an approved general education course, the course may be double-counted. However, units are only counted once to satisfy the 60 unit requirement for the Associate Degree.

AMERICAN INSTITUTIONS
2. Two semester units in American Institutions are required: Political Science 101, 105, 151***; Social Science 125-126**, 132***.

STATE & LOCAL GOVERNMENT
3. One semester unit in State and Local Government is required. Courses which satisfy this requirement include Political Science 106, 151***; Social Science 125-126**, 132***.

U.S. HISTORY
4. Three semester units in American History are required. Courses which satisfy this requirement include Economics 111/History 116; History 110, 111(CD), 117, 118, 150, 151; Social Science 125-126**, 131.

MATHEMATICS
5. Evidence of proficiency in mathematics is required. This requirement may be fulfilled with a grade of "C" or better in Mathematics 101, 120, or 220 (2 units).

HEALTH
6. Three semester units of community and personal hygiene are required. Health 104, 106; Psychology 111(CD)* or equivalent will satisfy this requirement.

PHYSICAL EDUCATION
7. Two semester units of physical education activity classes and/or dance activity classes must be completed unless exempted by established policy (see pg.180).

FIRST AID
8. One semester unit in first aid and CPR is required. Courses which satisfy this requirement include Health 101, 102 or 109.

CULTURAL DIVERSITY
9. Three semester units in Cultural Diversity are required. Courses which satisfy this requirement have been marked by (CD) and appear throughout the graduation requirements. The requirement may be satisfied by completing any one of the graduation requirements with a course marked (CD) or by completing Child Development 156.

GENERAL EDUCATION
10. Eighteen (18) semester units of general education including at least one course in each of the following areas:
   a. Natural Science. One course (3 semester units) must be selected:
   b. Social Sciences. One course (3 semester units) must be selected:
      Anthropology 102(CD), 102H, 103, 104, 105(CD); Business Administration 110; Economics 101, 102, 102H, 105; Ethnic Studies 101(CD), 102(CD), 110(CD), 120(CD)-125(CD), 132(CD), 164(CD); Geography 102 (CD), 103, 105, 106, 110, 114; History 101-109, 112-114, 115(CD), 119-122, 131-133, 135, 136; Interdisciplinary Studies 110; Mass Communications 101; Political Science 102, 103, 103H, 109-111; Psychology 101, 101H, 103-106, 108-110, 111(CD)*, 113(CD), 114,115, 131, 150; Social Science 101, 124, 127(CD), 134, 136; Sociology 101, 102, 104, 105, 131; Speech 108.
   c. Humanities. Two courses (6 semester units)—one from each of the two areas below must be selected.
      1. Interdisciplinary Humanities—3 semester units required: Humanities 101(CD), 102(CD), 105(CD), 105H(CD), 106, 110, 111, 115(CD), 117, 120, 125(CD), 130, 135(CD).
2. **Arts, Foreign Language, Literature and Philosophy**—One course (3 semester units) must be selected.

d. **Language and Rationality.** At least two courses (6 semester units) from Language and Rationality must be selected.

1. **English Composition**—3 semester units required. Evidence of proficiency in written English is required. This requirement may be fulfilled with a grade of “C” or better in English 101 or English 101H.

2. **Communication and Analytical Thinking**—One course (3 semester units) must be selected.

**NOTE:** Graduation requirements 2, 3, 4, 6, and 8 can be satisfied by examination. See a counselor for details.

*Courses with an asterisk may be counted in one area only.

**These courses satisfy requirements 2, 3, and 4.

***This course satisfies 2 and 3.
### DEGREE AND CERTIFICATE PROGRAMS

#### AA Degrees

**Areas of Emphasis**

**Arts and Humanities**
- Biological Science
- Business Administration
- Choreographic Studies and Dance Techniques
- English
- Foreign Language (2 options)

**Science and Mathematics**
- Health Science (2 options)
- Interdisciplinary Humanities (3 options)
- Mass Communications
- Mathematics
- Music
- Physical Education

**Social and Behavioral Sciences**
- Physical Science
- Social Sciences
- Speech/Communication
- Theatre Arts (2 Options)
- Visual Arts (7 options)

**Majors**
- Biological Science
- Health Science (2 options)
- Interdisciplinary Humanities (3 options)
- Mass Communications
- Mathematics
- Music
- Physical Education

#### AS Degrees

**Certificate/Majors**
- Accounting
- Administration of Justice
- Advertising Art
- Animation
  - Classical
  - Digital
- Architectural Drafting & Design
- Specialist in Alcohol/Drug Studies
- Art
  - Two-dimensional
  - Three-dimensional
- Aviation and Transportation
- Aviation Administration
- Flight Attendant
- Pilot Training
- Bookkeeping
- Business Administration
  - Financial Planning & Investment
  - General Business
  - International Business
  - Entrepreneurship/Small Business
- Ceramics
- Child Development
  - Teacher - Preschool
  - Teacher - Infant/Toddler
  - Teacher - School-Age Care
  - Master Teacher
- Management
- Marketing
- Mass Communications
- Medical Administrative Services
  - Medical Front Office
  - Medical Secretary
  - Medical Transcription
- Music
- Photography
- Real Estate
- Real Estate Appraisal
- Recreation Leadership
- Registered Nursing
- Restaurant Management
- Retail Management
- Television Production
  - Corporate Television
  - Mass Media
  - Videography
- Theatre Arts
- Web Development
- Welding, Occupational (Combination Welder)

**Certificates-Non-degree**
- Beginning Culinary Arts
- Computer Applications Technician
- Computer Operator
- Computer Support Technician
- Computerized Accounting Specialist
- CSU, General Education
- Dental Front Office/Billing & Coding
- Desktop Publishing Technician
- Electro/Mechanical Fabrication Technician
- ECT - Computer Repair Technician
- Fire Academy
- Human Resources Assistant
- IGETC
- International Business Professional
- Medical Billing and Coding
- Receptionist/Office Clerk
- Tax Preparer
- Verdugo Fire Academy
- Verdugo Recruiting Academy
- Unix System Administrator

---

The certificates listed above meet Title 5 codes, and are approved by the California Community College Chancellor's Office. Certificates listed in any other publication (including on-line) that are not listed above may not be valid certificate programs. Please check with the Admissions Office.
The following is a list of the areas of emphasis and their requirements that satisfy the Associate in Arts degree for Glendale Community College. Please note that all courses used to satisfy the area of emphasis for the Associate in Arts degree must be completed with a grade of “C” or better. Students transferring to the University of California, the California State University, or a private college or university are advised to see their counselor or the Transfer Center for additional transfer requirements. Completion of CSU GE or IGETC as part of the 60 units for the AA degree may be appropriate.

**ARTS AND HUMANITIES**
These courses emphasize the study of cultural, literary, humanistic activities and artistic expression of human beings. Students will evaluate and interpret the ways in which people through the ages in different cultures have responded to themselves and the world around them in artistic and cultural creation. Students will also learn to value aesthetic understanding and incorporate these concepts when constructing value judgments. This area of emphasis is recommended for transfer students seeking an Associate Degree prior to transferring to a college or university pursuing a major in the arts and humanities.

Select a minimum of 18 units from the following, with at least 3 units from Arts and 3 units from Humanities:

**Arts**
Art 101, 101H, 102, 102H, 103-113, 115, 116, 118-120, 121, 125, 199; Dance 100, 102; English 103; Music 101, 102, 104, 105, 107, 108, 110, 120, 121, 122, 125-128; Theatre Arts 101, 102, 107.

**Humanities**

**SCIENCE AND MATHEMATICS**
These courses emphasize the facts and principles which form the foundations of living and non-living systems, as well as mathematical concepts and quantitative reasoning and their application. Students will understand and appreciate the methodologies of science as investigative tools and the limitations of scientific endeavors. Students will understand basic computational skills as well the understanding of basic mathematical concepts. This area of emphasis is recommended for transfer students seeking an Associate Degree prior to transferring to a college or university pursuing a major in engineering, mathematics, or science.

Select a minimum of 18 units from the following, with at least 3 units from Life Science, 3 units from Physical Science, and 3 units from Mathematics:

**Life Sciences**
Anthropology 101, 111; Biology 101, 101H, 102, 102H, 103, 103H, 112, 115, 120-123, 125, 125H, 126-128, 130, 132, 135, 137.

**Physical Sciences**

**Mathematics**

**SOCIAL AND BEHAVIORAL SCIENCES**
These courses emphasize individual behavior and behavior in human social, political, and economic institutions. The pattern of coursework completed will ensure opportunities for students to develop understanding of the perspectives and methods of the social and behavioral sciences. Students will be exposed to a pattern of coursework designed to help them gain an understanding and appreciation of the contributions and perspectives of men, women and of ethnic and other minorities and a comparative perspective on both Western and non-Western societies. This area of emphasis is recommended for transfer students seeking an Associate Degree prior to transferring to a college or university pursuing a major in the social and behavioral sciences.

Select a minimum of 18 units from the following, with courses from at least two disciplines:

MAJOR REQUIREMENTS FOR THE ASSOCIATE IN ARTS DEGREE

The following is a list of the majors and their requirements that satisfy the Associate in Arts degree for Glendale Community College.

Please note that all courses used to satisfy the major for the Associate in Arts degree must be completed with a grade of "C" or better.

**BIOLOGICAL SCIENCE**
Required: Biology 101, 102; Chemistry 101, 102; Mathematics 101.

**BUSINESS ADMINISTRATION**
Required: Accounting 101 (or 105 and 106), 102; Business Administration 101, 120; Computer Science/Information Systems 100 or 101.

**CHOREOGRAPHIC STUDIES AND DANCE TECHNIQUES**
The following dance courses are required (19 units): Dance 100, 111 (1.5 units), 116 (1.5 units), 121 (1.5 units), 130 (1.5 units), 131 (1 unit) or 132 or 129; 135 or 136 (3 units), 140 (1 unit) or 127 or 128; and Biology 120.

**ENGLISH**
Required: English 105-106 or English 109-110.
* A maximum of 6 units of English 103 and 112 combined may be counted toward the 18 units required.

**FOREIGN LANGUAGE**
Required: A minimum of 18 units in one of the following options:

- **Option 1:** Any French, Korean, or Spanish language, excluding 110-113 level courses. (The title will reflect the language chosen)
- **Option 2:** Ten (10) units in one foreign language and eight (8) units in another, excluding 110-113 level courses.

**HEALTH SCIENCE**
Required Core (14 units from either Option A or B) plus 6 electives units:

- **Option A:** Biology 115 (or Biology 122), 120; Chemistry 110 or 120
- **Option B:** Biology 120, 121; Chemistry 110 or 120

**ELECTIVES (6 units):** Choose one course from each category
Category 1—Speech: Speech 100, 101, 103
Category 2—Social Science: Anthropology 102, Psychology 101, Sociology 101

**INTERDISCIPLINARY HUMANITIES**
Required: A minimum of 18 units in one of the following options:

- **Option 1:** East-West Culture and Civilization
  - Required: Humanities 101, 102, and either Humanities 105 or 110.
  - Select 9 units from at least 3 of the following disciplines: Anthropology 101; Art 108, 109; Ethnic Studies 124, 164; History 107, 119, 120, 132, 135; Humanities 115; Philosophy 113, 114, 116, 119, 120, 121; Political Science 101, 111.

- **Option 2:** Creativity
  - Select 6 units from: Humanities 106, 117, 120.
  - Select 3 units from: Humanities 105, 110.
  - Select 9 units from at least 3 of the following disciplines: Anthropology 101; Art 150, 186; Biology 123; Dance 110, 115, 120, 130; English 103, 111, 130; Ethnic Studies 101; French 105, 106; Philosophy 116, 117; Spanish 105, 106; Theatre Arts 103, 104, 109, 121, 123, 134.

- **Option 3:** American Responses to Other Cultures
  - Select 9 units from: Humanities 105, 110, 111, 125.
  - Select 9 units from at least 3 of the following disciplines: English 111, 124, 126, 127, 128; Ethnic Studies 101, 102, 110, 120, 121, 123, 132, 164; French 124, 125, 126; Geography 102; German 125, 126; History 103, 104, 111, 113, 114, 119, 120, 121, 131, 132, 135; Philosophy 121, 122; Social Science 134; Sociology 102, 105; Spanish 124, 126, 127, 128.

**MASS COMMUNICATIONS**
Required: English 101; Journalism 102, 103, 104; Mass Communications/Journalism 101.
A minimum of 3 units must be selected from the following: Journalism 106, 107; Mass Communications/Journalism 049**; Mass Communications 120.

**MATHEMATICS**
Required: Mathematics 103, 104, 105, 107, 108.

**MUSIC**
Required: Music 103 or 113, 104, 105, 107, 108, 125, 126, and 2 units of Music 140.
Piano proficiency equivalent to the level of Piano III (Music 162)
PHYSICAL EDUCATION
Required: Biology 115 or 120-121; Health 101, 104; Physical Education 120, 124 or 125, 128 or Culinary Arts 125.
Complete any combination of 3 units in any of the following:
  a. a racket sport
  b. a team sport
  c. an individual sport
  d. a fitness activity.

PHYSICAL SCIENCE
Required: A minimum of 18 units from courses chosen from at least 2 of the following 3 categories:
Category 1: Physics 101, 102, 103, 105, 106
Category 2: Chemistry 101, 102, 103, 105, 106
Category 3: Astronomy 102, 103, 110, 120;
Geology 101, 102, 103, 104, 105, 111, 112, 120;
Oceanography 115, 116; Paleontology 101.

SOCIAL SCIENCES
Required: A minimum of 18 units from the following:
1. Select courses (minimum 6 units) to satisfy each of the following 3 areas:
   American Institutions: Political Science 101, 105, 151;
   Social Science 125-126, 132.
   State and Local Government: Political Science 106, 151;
   Social Science 125-126, 132.
   American History: Economics 111 or History 116; History 110, 111, 117, 118, 150, 151; Social Science 125-126, 131.
2. Select 12 units from four different disciplines:
   Anthropology 101 - 105, 111; Economics 101, 102, 102H, 105, 110, 111; Ethnic Studies 101, 102, 110, 111, 120 - 125, 132, 164; Geography 101 - 103, 105 - 107, 110, 111, 114, 120, 121; History 101 - 109, 112 - 116, 117*, 118*, 120 - 122, 131, 132, 135, 136, 152;
*These courses may not be used in more than one area.

SPEECH/COMMUNICATION
Required: English 101 and Speech 101.
Select 3 courses from the following: Speech 100, 102 - 107
Select 1 course from the following: Psychology 101; Sociology 101; Theatre Arts 103

THEATRE ARTS
Choose from one of the following options:
Option 1: Theatre Arts
   Required: Theatre Arts 101; three units from Theatre Arts 160 - 164; three units from Theatre Arts 103 or 108;
   Nine units from: Dance 140, Speech 101, Theatre Arts 102, 107, 109, 110, 121, 123, 129, 130;
Option 2: Acting
   Required: Dance 140, 141; Theatre Arts 101, 103, 104, 107, 109, 111;
   One course from either Theatre Arts 129 or 131;
   Three units from Theatre Arts 160-164;
   One course from: Art 101, 102; Dance 101, 125, 126, 134, 145; English 116, 125, 126; Humanities 117; Music 129, 135, 170; Speech 101, 105, 106; Theatre Arts 102, 122, 134, 140.

VISUAL ARTS
Required: A minimum of 18 units in one of the following options:
Option 1: Art History
   Required: Art 101, 102, 130.
   • Select 3 courses from: Art 103 - 109, 112, 113, 116, 118, 120, 121, 138, 150.
Option 2: Two Dimensional
   Required: Art 101 or 102, 130, 150.
   • Select 3 courses from: Art 131, 151, 152, 160, 164, 170, 174; Photography 101.
Option 3: Graphic Art
   Required: Art 101 or 102, 130, 132, 134.
   • Select 3 courses from: Art 135, 136, 142, 146, 150, 156.
Option 4: Three Dimensional
   Required: Art 101 or 102, 130, 138.
   • Select 3 courses from: Art 152, 157, 180, 181, 186, 187, 190.
Option 5: Photography
   Required: Art 101 or 102; Photography 101
   • Select 4 courses from: Photography 103, 105 or 108, 109 or 110; Art 130 or 134 or 138.
Option 6: Animation
   Required: Art 101 or 102, 130, 150, 152, 201, 205, 206; Humanities 115.
Option 7: Media Arts
   Required: English 112 or Journalism 102; Mass Communications 101; Media Arts 101, 104, 107, and 112.
ASSOCIATE IN SCIENCE
MAJORS AND CERTIFICATE PROGRAMS

Certificate Programs are primarily business and technical programs for students desiring education beyond high school. These programs provide opportunities for students to prepare themselves for a wide variety of careers. In most cases these programs are planned without regard to transfer schools; however, many courses are transferable to four-year colleges or universities if students change their educational goals.

1. Certificates of Achievement shall be issued upon request by the Office of Admissions and Records to students who qualify by completing one of the occupation-centered curriculums. The student must have a grade of “C” or better in all courses constituting the certificate program.

2. To earn a certificate, students must complete the number of units required by the division. No certificate shall consist of less than 12 semester units.

3. At least 12 units of the required courses must be completed at Glendale Community College, therefore; to earn a certificate that requires 12 units, all courses must be completed at Glendale Community College.

4. Students pursuing certificate programs of less than 18 units are not eligible for financial aid.

ACCOUNTING

The accounting curriculum provides comprehensive training for career employment as accountants.

**Required Courses:** ACCTG 101, or 105 and 106, 102, 120; BUSAD 101, 120; CABOT 105 (or BUSAD 106*), 270 (or ACCTG 180); CS/IS 101.

A minimum of 5 units must be selected from: ACCTG 110**, 121, 130, 150, 155-157, 160, 165, 170, 175, 180***, 201, 202, 210, 220, 225, 230, 235; BUSAD 106*, 131, 135, 136; CABOT 106, 271; ECON 101, 102; Internship 050 (Accounting).

*CABOT 105 is appropriate for certificate students.

**No credit will be granted if Accounting 110 is taken after Accounting 101 or 106.

***If not used to fulfill CORE requirement

ADMINISTRATION OF JUSTICE

This program is designed to provide a broad-based education in the areas of law enforcement, corrections and the judicial system. The program is appropriate for students seeking employment as a law enforcement officer, correctional officer, probation or parole officer, or as a legal professional such as a paralegal or attorney.

The required core courses (21 units) are: Adm of Justice 101, 103, 110, 117, 118, 120 and 134.

Recommended courses: PSYCH 114 and/or Speech 101.

ADVERTISING ART

This curriculum combines fundamental fine arts courses with those of a technical nature to provide a comprehensive course study in visual communication. The program is intended to prepare students to communicate ideas and information using any visual medium. This program is designed for the student’s entry into the profession in a variety of areas: salaried “in-house” artist for an agency, printing house or design studio artist, part-time or hourly artist for firms specializing in graphic art areas, or free-lance artist.

**Required Courses:** Art 102, 130, 131, 134-137, 150; CABOT 206 (or equivalent); CS/IS 123 (Quark Xpress recommended); PHOTO 101; and 3 units from either Art 101 or 107.

ANIMATION

These certificates are designed to provide academic and hands-on learning experience for individuals planning on a career in the field of animation.

CLASSICAL ANIMATION

**Required Courses:** Art 101 or 102, 130, 146 or 210, 150, 152, 153, 201, 205, 206, 209; Theatre Arts 108 or 103; Dance 140.

DIGITAL ANIMATION

**Required Courses:** Art 101 or 102, 146, 152, 220, 230-234; PHOTO 121 and 122.

SPECIALIST IN ALCOHOL/DRUG STUDIES

The program is designed to provide academic preparation and field experience for individuals employed, or preparing for employment, as alcohol and drug abuse specialists in public and private agencies. To earn a certificate the student must complete the core courses and selected courses from each section as designated, for a total of 39 units.

The program is accredited by the California Association of Alcohol and Drug Educators and designed to meet the certification requirements of both the California Association of Alcohol and Drug Abuse Counselors and the Coalition of Program Standards.

**Core Curriculum** (9 units): Alcohol/Drug Studies 101, 103, 105.

**Behavioral Courses:** Select 6 units from: PSYCH 101, 108, 110, 114; Ethnic Studies 121**; SOC 101*.

**Required Skill Courses:** A/D Studies 110 and 112.

Select 3 units from: A/D Studies 111, 113, 114, 115, 118, 119**.

**Field Experience** (4 units): A/D Studies 150 and 151.

**Field Placement** (8 units): A/D Studies 152, 153; and Intern 050.

**Cultural Diversity** (3 units): Anthro 102; Child Dev 156; English 124, 141, 142; Ethnic Studies 101, 102, 110, 111, 120, 121**; 122 - 125, 132, 164; History 111, 115; Humanities 101, 102, 105, 105H, 115, 125, 135; Music 128; Philosophy 113, 114, 118; Psychology 111, 113; Social Science 127.

*Three units required from Psychology 101, 108 or Sociology 101.

**Ethnic Studies 121 may be counted in one area only.
ARCHITECTURAL DRAFTING AND DESIGN
This curriculum prepares students to enter employment as an architectural draftsperson in the building construction field.

**Required Courses**: ARCH 101, 102, 103, 105, 106, 120, 125, 130, 135; Art 130 or 150; BUSAD 152; Engineering 109; Tech Ed 140, 142*.

**Recommended Courses**: Art 130; Cooperative Ed 102

*Units earned for this course may not be counted toward graduation.

ART
For students who are interested in art as a career, the following courses (from one of the two options) are required:

**Two-dimensional**: Art 101, 102, 130, 131, 150, 152, 160.
Select 3 units from: Art 138, 180, 186.
Select 3 units from: Art 164, 170, or Photography 101.

**Three-dimensional**: Art 101, 102, 130, 131, 138, 150, 152, 180, 186, 187, 190.

AVIATION AND TRANSPORTATION—AVIATION ADMINISTRATION
Aviation Administration is for those who wish to enter civil aviation work as clerks, agents, station and traffic managers, or fixed base operators.

**Required Courses**: Aviation & Transportation 120, 128; BUSAD 101; English 101; Psychology 101; Speech 101.
A minimum of 4 units from: Aviation & Transportation 121-127, 129, 131, 132, 134, 136; ACCTG 101 (or 105 and 106), 102, 110; CS/IS 100, 101, 102.

AVIATION AND TRANSPORTATION—FLIGHT ATTENDANT
The Flight Service-Airline and Travel Careers program prepares men and women of all ages to compete for the highly prized positions available as flight attendants in the airline and travel industry. As training progresses, students perform volunteer service at area airports in order to gain invaluable personal public contact experience.

**Required Courses**: Aviation & Transportation 129, 130, 132, 137, 138; Health 102.
Choose 12 units from: Aviation & Transportation 128, BUSAD 152; HTM 115, GEOG 101, 102, Humanities 135, Psychology 114, Sociology 101, and Social Science 124.

AVIATION AND TRANSPORTATION—PILOT TRAINING
Training offered in this field:

1. Instruction: For those who wish to complete two years of college to become eligible to enter civil aviation as professional pilots
2. Basic Pilot Training: Prepares the student for the FAA Private Pilot Airplane written examination for the Private Pilots License. Required course is Aviation & Transportation 120.
3. Advanced Pilot Training: A program designed to give private pilots adequate aeronautical knowledge and experience necessary to enter the field as commercial pilots with an instrument rating as their career. To enter this program, it is recommended the student satisfactorily complete Aviation & Transportation 120*.

**Required Courses**: Aviation & Transportation 112 (2 units), 113 (2 units), 120, 121, 122, 123, 124, 125.

*Aviation & Transportation 120 may be taken credit by exam.

BOOKKEEPING
This certificate has been designed for students who wish to become bookkeepers in private industry or government service. Students who wish to become public accountants should take the accounting curriculum.

**Required Courses**: ACCTG 110 or 101 or 105 and 106, 120, 130; BUSAD 101; CABOT 105, 106, 110.

*If not used to fulfill CORE requirement.

BUSINESS ADMINISTRATION - FINANCIAL PLANNING AND INVESTMENT
This certificate is intended for students interested in the business aspects of financial planning or investments.

**Required Courses**: ACCTG 110 or 101, or 105 and 106; BUSAD 101, 106 (or CABOT 105), 131, 134; CS/IS 100 or 101 or CABOT 260.
Select two of the following courses: ACCTG 150; BUSAD 120, 135, 136.

BUSINESS ADMINISTRATION - GENERAL BUSINESS
This certificate is designed for students who are interested in a broad knowledge of business. Students completing this certificate are interested in working in a medium or large business environment.

**Required Courses**: ACCTG 110 or 101, or 105 and 106; BUSAD 101, 106 (or CABOT 105), 110; CS/IS 100 or 101 or CABOT 260.
Select three of the following courses: BUSAD 120, 134, 135, 141, 162.

BUSINESS ADMINISTRATION - INTERNATIONAL BUSINESS
This certificate presents the business concepts necessary to compete in the International Global Marketplace. It prepares students to import, export, and/or establish an overseas business presence. This program is designed for both the individual entrepreneur and the established company executive.

**Required Courses**: ACCTG 110 or 101, or 105 and 106; BUSAD 101, 106 (or CABOT 105), 170; CS/IS 100 or 101 or CABOT 260.
Select any three of the following courses: BUSAD 120, 158, 162, 175, 176.
BUSINESS ADMINISTRATION - ENTREPRENEURSHIP/SMALL BUSINESS

This certificate is designed for students who wish to start or manage a small business. It teaches fundamental knowledge of the basic business disciplines necessary for a successful small business.

**Required Courses**: ACCTG 110 or 101, or 105 and 106, 130, 170; BUSAD 101, 106 (or CABOT 105), 110 or 120, 158, 162; CS/IS 100 or 101 or CABOT 260.

CERAMICS

This certificate is designed for students wishing to prepare for employment in the commercial ceramic industry. Emphasis is on job-related skills such as production forming techniques, surface design techniques, glaze formulation and application, chemical safety, and kiln technology. The certificate is also designed for those setting up their own production studios to work as independent artists.

**Required Courses**: Art 186, 187, 190, 192, 195; English 101 or 120 or 131 or ESL 151.

Select six units from the following: Art 111, 130, 188, 191, 193.

CHILD DEVELOPMENT

The following Glendale College Child Development Certificate options are designed to support and encourage the professional development of students who aim for a career in: Infant, Toddler, and Preschool Education; School Age Child Care; and Early Childhood Administration and Supervision. Each certificate is outlined in acknowledgment of the California Child Development Permit, which is issued through the California Commission on Teacher Credentialing. The permit enables an educator to move along a career ladder which supports a hierarchy of professional goals and competencies relative to employment and leadership. The required courses listed for the following child development certificates meet the requirements of the Commission on Teacher Credentialing for teachers of Child Development Centers, Extended Day Care Centers, and other publicly funded children's centers; the requirements of the California Child Development Permits: Preschool and School-Age Matrixes, and Administrative Code, Title XXII for teachers and directors of state licensed infant/toddler, preschool, and school-aged programs; the recommendations of the California Community Colleges Home Economic Program Plan for child development students; and the paraprofessional criteria in the 2001 No Child Left Behind.

The following General Education courses are required for the Teacher - Preschool, InfantToddler, School Age Care, Teacher and Master Teacher certificates.

*Select 16 units from the Glendale College Associate Degree General Education area 10A-D (see AA/AS requirements) with at least one course from each of the following areas:

- 10.a. Natural Science OR 10.d. (2). Mathematics course
- 10.b. Social Science
- 10.c. Humanities
- 10.d.(1). English Composition

**Teacher - Preschool**

**Required Courses**: *See Gen. Ed. requirements; Child Development 133, 135, 140, 142 and 181 (concurrently with CD 141). A minimum of nine units must be selected from the following: CD 137, 138, 147, 150-152, 154-156, 158 (or Dance 158), 160, 174, 175, 176, 210, 215, 220.

**Teacher - Infant/Toddler**

**Required Courses**: *See Gen. Ed. requirements; Child Development 133, 135, 140, 142, 147 and 180 (concurrently with CD 141). A minimum of six units must be selected from the following: CD 137, 138, 150-152, 154-156, 158 (or Dance 158), 160, 174, 175, 210, 215, 220.

**Teacher - School-Age Care**

**Required Courses**: *See Gen. Ed. requirements; Child Development 133, 135, 137, 140, 142 and 182 (concurrently with CD 141). A minimum of six units must be selected from the following: CD 138, 147, 150-152, 154-156, 158 (or Dance 158), 160, 174, 175, 210, 215, 220.

**Master Teacher**

**Required Courses**: *See Gen. Ed. requirements; Child Development 133, 135, 140, 141 (concurrently with CD 180, 181, or 182), 142, 176.

A minimum of six units must be selected from the following: CD 137, 138, 147, 150, 151*, 152*, 154*, 155*, 156*, 158* (or Dance 158), 160, 174, 175, 210*, 215, 220.

In addition, complete one of the following specialties for six units:

- **Arts**: CD 152*, 154*, CD/Dance 158*.
- **Special Needs**: CD 155* and ASL 101.
- **Cultural Diversity**: CD 156* and Ethnic Studies 121.
- **Curriculum**: CD 151* and 210.

*These courses may not be used to meet more than one requirement.

**Site Supervisor**

The Site Supervisor certificate is issued to students who have completed the requirements for the Associate in Science degree as well as the following requirements for the Site Supervisor certificate.

**Required Courses**: Child Development 133, 135, 140, 141 (concurrently with CD 180, 181, or 182), 142, 174, 175, 176. A minimum of six units must be selected from the following: CD 137, 138, 147, 150-152, 154-156, 158 (or Dance 158), 160, 210, 215, 220.
CHOREOGRAPHIC STUDIES AND DANCE TECHNIQUE

The curriculum is designed for students who plan careers in commercial and concert dance.

**Required Courses** (18 units): 3 units from Dance 100 or 102; Dance 114 (2.5 units), 117 (1.5 units), 1 unit from either Dance 112, 113, 122, 123, 132 or 134; Dance 129 (1.5 units), 130 (1.5 units), 131 (1.5 units), 135 or 136 (3 units), 137 (1.5 units), and 1 unit from Dance 190 or 194.

A minimum of 6 units must be selected from the following elective courses: Art 102, 125, 130; Dance 124, 1 unit from Dance 126, 127, or 128; Dance 140, 141, 145; Health 110; Humanities 115, 120; Music 101, 135, 230, 236, 237; Physical Education 294; Theatre Arts 101, 103, 104, 109, 123, 130, 134.

**COMPUTER APPLICATIONS AND BUSINESS OFFICE TECHNOLOGIES**

These certificates prepare students with the skills and abilities for a career at both the operational and managerial levels required in today's office.

**A minimum speed is required for each individual certificate program.**

**CABOT 230** is available to help students reach this goal. Students should request a card from their GCC instructor verifying their keyboarding speed. This card is valid for one year and must be current at the beginning of the semester/session in which the certificate is awarded. Replacement cards may be obtained by retesting. See Business Division.

**Administrative Assistant**

**Required Courses:** ACCTG 110 or 101 or 105 & 106; BUSAD 106, 110, and 152; CABOT** 101, 102, 103, 104, 110, 208, 210*, 265, 266, 270, 285; CS/IS 191.

*A minimum speed of 40 wpm is required for this certificate.

**General Office**

**Required Courses:** BUSAD 110; CABOT** 101, 102, 103, 104, 105, 110, 208, 210*, and 260; CS/IS 191.

*A minimum speed of 35 wpm is required for this certificate.

**Legal Secretary**

**Required Courses:** BUSAD 106, 110, and 152; CABOT** 102, 103, 104, 105, 106, 110, 156, 162, 165, 208, 210*, 265, 266, 270; CS/IS 191.

*A minimum speed of 60 wpm is required for this certificate.

**CORE CURRICULUM**

**NOTE:** Substitutions for some of the above classes may be made with department approval.

**COMPUTER APPLICATIONS SPECIALIST**

This certificate gives students the necessary skills and training to create, enhance, manipulate, and manage files in the Microsoft Office Suite.

**Required Courses:** CABOT 208, 209, 230*, 265, 266, 270, 271. In addition, any three of the following three-unit courses: CABOT 275, 276, 280, 281, 285, 286.

**COMPUTER APPLICATIONS AND BUSINESS OFFICE TECHNOLOGIES**

This certificate gives students entry-to intermediate-level skills and training in the Microsoft Office Suite. The course work helps to prepare students for entry-level positions in a variety of business office settings.

**Required Courses:** CABOT 208, 230*, 265, 270.

Any two of the following three-unit courses: CABOT 275, 280, 285, or 286.

*A minimum speed of 35 wpm is required for this certificate.

**This certificate does not satisfy the major requirements for the Associate in Science degree.

**COMPUTER INFORMATION SYSTEMS**

This curriculum is designed for those students interested in Computer Information Systems. To earn a certificate students must complete the required core courses, and choose other courses from the additional courses listed to total 32 units.

**NOTE:** Courses taken more than 3 years before the granting of the certificate must have approval of the division chair for acceptance.

**Required Courses:** BUSAD 106 or English 101; CS/IS 101, 110 or 112, 120 or 135, 172, 190, 191.

**Additional Courses:** BUSAD 110; CS/IS 120, 130, 135, 137, 139, 140; Internship 050 (CS/IS).

**COMPUTER NUMERICAL CONTROL TECHNICIAN**

This certificate is designed to prepare the student as an industrial Computer Numerical Control Technician, which is an occupation listed under the manufacturing technology curriculum established by the Southern California Aerospace Industry Education Council.

**Required Courses:** CS/IS 101; ECT 103, 104, 110*; Engineering 102, 107; Machine Technology 101, 110; Materials and Processes 146.

Additionally, students should have completed basic English communication skills, general mathematics through trigonometry (e.g. TE 142** and 143 or equivalent), general science (e.g. TE 145 or equivalent), and Metallurgy 150 or Metals 150.

*or higher level

**This course may not be applied toward graduation.

**COMPUTER OPERATOR**

The student completing this certificate will have a basic knowledge of the operation of computer systems in a business environment. To earn a certificate the student must complete the required CORE courses totaling 21 units.

**CORE CURRICULUM**

CABOT 102; CS/IS 101, 172 (or CS/IS 203 and CABOT 206 or 208), 190 and 191; ECT 112 and 250.

**NOTE:** Courses taken more than 3 years before the granting of the certificate must have division chair approval. *This certificate does not satisfy the major requirements for the AS degree.*
COMPUTER PROGRAMMER

Students completing this certificate will have a basic knowledge of programming.

Required Courses: CABOT 102; CS/IS 101, 110, 120 or 137, 130, 135, 139.

Note: Courses taken more than 3 years before the granting of the certificate must have division chair approval.

COMPUTER SCIENCE

This program is designed for those students interested in computer science, either as a professional concentration, or for transfer to a four-year computer science program. Students must complete all required courses and choose additional courses to total a minimum of 37 units.

Required Courses: CS/IS 165, 166, 211, 212, 280.

Additional Courses: CS/IS 110 or 112, 125, 130, 135, 137, 139, 172, 190; Mathematics 103, 104, 107; Philosophy 123; Physics 101.

Note: Courses taken more than 3 years before the granting of the certificate must have division chair approval.

COMPUTER SOFTWARE TECHNICIAN

This program is designed to train students to meet the rapidly growing need for qualified hardware/software technicians, having a blend of hardware and software skills. Students must complete all required CORE courses, and choose other courses from the additional courses list to total 32 units.

Required Courses: CS/IS 101, 110 or 135, 190; ECT 103*, 110*, 112*.

Additional Courses: BUSAD 106, 110; CABOT 206, 208; CS/IS 110, 120, 130, 135, 137, 139, 191, 203; ECT 100, 101*, 102*, 124*, 201*, 204*

*Corequisite required

Note: Courses taken more than 3 years before the granting of the certificate must have division chair approval.

COMPUTER SUPPORT TECHNICIAN

Students completing this certificate will possess a basic knowledge of computer operation and capabilities with the skills to troubleshoot problems or aid in user support.

Required Courses: CABOT 102, BUSAD 110; CS/IS 101, 110 or 112, 172 (or 203 and CABOT 206 or 208), 190, 191.

Note: Courses taken more than 3 years before the granting of the certificate must have division chair approval. *This certificate does not satisfy the major requirements for the AS degree.

COMPUTERIZED ACCOUNTING SPECIALIST

This certificate is designed to train students in the major computerized accounting packages in demand by local employers. Mastery of these types of programs will provide the foundation necessary for students to understand and adapt to other programs which may be utilized in small to mid-sized businesses. The student must complete all CORE courses totaling 17 units.

Required Courses: Accounting 110, 120, 121, 130, and 180.

Note: Courses taken more than 3 years before the granting of the certificate must have division chair approval. *This certificate does not satisfy the major requirements for the Associate in Science degree.

CSU-GENERAL EDUCATION

This certificate of completion will be awarded to a student who completes the general education requirements (totalling 39 units) as stated on page 77 of this catalog.

*This certificate does not satisfy the major requirements for the Associate degree.

BEGINNING CULINARY ARTS

The beginning culinary arts program is designed as an introduction to the basics of food preparation, sanitation and service, preparing students for employment in the industry.

Required Courses: Culinary Arts 111, 113, 122, 124; Co-operative Education 102 or Internship 050 (3 units).

Note: This certificate does not satisfy the major requirements for the Associate in Science degree.

DANCE TEACHING

This program is designed for students interested in a career in dance teaching at private studios, community centers, senior centers, and fitness centers.

Required Courses: Dance 100, 107; 1.5 units from each of the following: Dance 111, 116, 121, 130; 114 or 117 or 137; 2.5 units from either Dance 135 or 136; Health 101 and 110; 1 unit of Internship 050 (Dance).

A minimum of six units is required from Dance 112, 123, 124, 125, 127, 131, 138; BUSAD 158, 162; Music 101; PSYCH 106; Social Science 101, 124; Theatre Arts 130, 133.

DENTAL FRONT OFFICE/BILLING & CODING

This certificate program is designed for students who are preparing for a position in the office of dentists, dental clinics, oral surgeons’ offices, orthodontist offices, and allied facilities.

Required Courses: CABOT 102, 103, 104, 200, 050 or CO ED 102 (must be in a dental office); CS/IS 191; MOA 187; and one of the following: CABOT 105 or 260 or MOA 190 and CABOT 156 (medical).

DESKTOP PUBLISHING TECHNICIAN

This certificate is designed to train students in the use of Desktop Publishing tools and allow the student to develop the use of those tools in an applied area of their choice. The student must complete all CORE courses totaling 8-10 units and then choose an additional 8-10 units to complete a total of 18 units in their choice of applied areas. Applied areas include print, video, audio, and multimedia offerings to allow the student flexibility in course selection.

Required Courses: CABOT 102, 103, 110, 200 or 050 or CO ED 102 (must be in a dental office); CS/IS 191; MOA 187; and one of the following: CABOT 105 or 260 or MOA 190 and CABOT 156 (medical).

2010-2011 CATALOG • GLENDALE COMMUNITY COLLEGE
DIETARY SERVICES SUPERVISOR
This certificate prepares students to supervise healthcare facilities as food service supervisors in convalescent, nursing and retirement homes. The curriculum focuses on the fundamentals of culinary science, sanitation, nutrition, modified diets, and sound management practices.

**Required Courses:** Culinary Arts 111 or 112, 113, 114 or 125, 116, 118, 142; HTM 256; Cooperative Education 102 (3 units).

ELECTRO/MECANICAL FABRICATION TECHNICIAN
Aviation and Transportation 150; ECT 110, 113; Engineering 102, 109; Technical Education 140, 142.*

*These certificates do not satisfy the major requirements for the Associate in Science degree.

ELECTRONICS AND COMPUTER TECHNOLOGY
**Core Curriculum**

**Required Courses (for all options):** ECT 100, 101, 102, 103, 104, 113, 250 (3 units), 251 (2 units).

The following specialty courses are required for each individual certificate of completion.

**Electronics Engineer Technician**
Core Curriculum (as listed above): ECT 201, 202, 223, 252 (1 unit), 253 (1 unit); Comp Integrated Manuf 101, 102.

**Computer Engineer Technician**
Core Curriculum (as listed above); ECT 112, 203, 204, 212, 250 (1 unit), 252 (1 unit), 253 (2 units).

ReCOMMENDED ELECTIVES
For E.E.T.: ECT 112, 203, 204; Engin 100; Tech Ed 140.
For C.E.T. are: CIM 101; ECT 113; Engineering 100, 107

**Electronics and Computer Technology Non-Degree Option**

**Computer Repair Technician**
**Required Courses:** ECT 103, 110, 112, 113, 212, 226, 250 (3 units), 251 (1 unit), 252 (1 unit) and 253 (1 unit).

*These certificates do not satisfy the major requirements for the Associate in Science degree.

**Electronics and Computer Technology**

**Core Curriculum**

**Required Courses:** Engineering 100, 101, 104, 106, 108 and 109; Technical Education 140 and 143.

**Fire Academy**

**Verdugo Fire Academy**
The Verdugo Fire Academy is a State Board of Fire Services and California State Fire Marshal’s accredited Regional Fire Academy sponsored by Glendale College and the Glendale Fire Department. Students receive a variety of California State Fire marshal’s certificates upon graduation from the Academy.

**Required Courses:** FIRE TECH 116, 117, 118, 119; EMT 139, 140.

**FIRE TECHNOLOGY**
This program is offered for students interested in preparing for careers in fire prevention and fire fighting. The courses also provide in-service and upgrade instruction for firefighting personnel.

**Required Courses (3 units in each course):** FIRE TECH 101, 102, 103, 105, 115.

In addition, a minimum of 12 units must be selected from the following: FIRE TECH 104, 107, 108, 109, 110, 111, 112, 114, 116, 117, 118, 151; Administration of Justice 117.

Recommended: Admin of Justice 101, 103, 107; Speech 101.

**FITNESS SPECIALIST CERTIFICATE**
This certificate prepares the student to work in various fitness leadership positions in the health/fitness industry or to become self-employed in health/fitness training and consultation. The program emphasizes the relationship of human physiology, exercise training, lifestyle behavior modification and disease prevention, distinguishing between the needs of healthy persons and those with health challenges. This program is based on the guidelines of the American College of Sports Medicine (ACSM).

**Required Courses:** BIO 115*; Health 102, 110, 111, 116, 117, 118, 128; and Internship 050.

*Waived for students completing Biology 120 and 121.

**HUMAN RESOURCES ASSISTANT**
This certificate is designed for students who intend to seek employment in a Human Resources department in private industry or in a governmental agency (e.g., city, county, state, school district, etc.). This coursework will help to prepare students for entry-level positions with job titles such as HR Assistant, HR Clerk, HR Technician, etc. This coursework also helps prepare students for the Professional Human Resources Certification and Senior Professional Human Resources Certification examinations.

**Required Courses:** BUSAD 110 or 203, 144; CABOT 265, 270, 285, 105 or BUSAD 106; BUSAD 050 or CO ED 102 (Must be in a Human Resources Office).

**IGETC**
This certificate of completion will be awarded to a student who completes the general education requirements as stated on page 76 of this catalog.

*This certificate does not satisfy the major requirements for the Associate degree.
INSURANCE SPECIALIST: PROPERTY & CASUALTY
This certificate is designed to prepare students for entry-level positions in insurance offices such as appraiser, agent, estimator, administrative assistant, broker, risk manager, and salesperson. Coursework required for the certificate is intended to help prepare students for insurance certifications.

REQUIRED COURSES: ACCTG 101; BUSAD 050 (1 unit), 101, 106, 111, 112, 113, 114, 115, 116, 120, 205; CABOT 270; CS/IS 100 or CABOT 260 or 270.
Recommended courses: BUSAD 203 or 204

INTERNATIONAL BUSINESS PROFESSIONAL
This program is designed for students who currently hold a 2-year or higher degree and/or have employment/professional experience in international business. This coursework will help prepare students for positions above entry-level in operations involving international trade, commerce and/or business, or provide them with the basic understanding of the complexities involved if they plan to operate on their own. Students who do not hold a degree (2-year or higher) and do not possess significant experience in the area, should consider pursuing the 25-28 unit International Business Certificate.

REQUIRED COURSES: BUSAD 170, 177, 178; SOC SCI 124; GEOG 105; and BUSAD 175 or 176.

MACHINE AND MANUFACTURING TECHNOLOGY - MACHINIST
This program is designed to provide the fundamentals of the machinist trade. This includes basic, advanced and complicated operations of machine tools, and the use of computers in programming numerical control milling machines.

REQUIRED COURSES: Computer Aided Manufacturing 210, 230; Machine Technology 101, 102, 103, 104; Metals 150; TECH ED 140, 142*.
The following courses are recommended: Computer Aided Manufacturing 211, 231; Cooperative Education 102; Engineering 102; Machine Technology 112.
* These course units may not be applied toward the 60 units for graduation.

MANAGEMENT
This curriculum is designed for students who are preparing to work in an entry-level to mid-management position.

REQUIRED COURSES: ACCTG 110 or 101 or 105 and 106; BUSAD 101, 106 (or CABOT 105), 110, 120 or 144, 141, 152 or Speech 101 or 111; CS/IS 100 or 101 or CABOT 260.
NOTE: Substitutions for some of the above classes may be made with department approval.

MARKETING
This curriculum is designed for students who need the marketing basics and are planning beginning careers in marketing, advertising, retailing, and sales.

REQUIRED COURSES: Accounting 110 or 101 or 105 and 106; BUSAD 101, 106 (or CABOT 105), 162, 164, 166; CS/IS 100 or 101 or CABOT 260.
Select one course from the following: BUSAD 136, 152 (or Speech 100 or 111); CABOT 280.

MASS COMMUNICATIONS
REQUIRED COURSES: Mass Communications/Journalism 101; Journalism 102, 103 or 104, 107; English 101 and 102 or 104.
A minimum of 3 units from: CABOT 206 and 208; CS/IS 123, 124, 192; Journalism 106; Media Arts 101, 111.

MEDICAL OFFICE ADMINISTRATION
This curriculum is designed for students who are preparing for a position in offices of physicians, medical clinics, hospitals, and allied facilities.

**Courses taken more than five years before the granting of these certificates must have the approval of the division chair for acceptance.
*A minimum speed is required for each individual certificate program. CABOT 230 is available to help students reach this goal. Students should request a card from their GCC instructor verifying their keyboarding speed. This card is valid for one year and must be current at the beginning of the semester/session in which the certificate is awarded. Replacement cards may be obtained by retesting. See Business Division.

MEDICAL BILLING AND CODING
This certificate is designed for students who are preparing for a position as a medical biller/coder and will work in a physician's office, a medical clinic, a hospital, or a billing agency.

REQUIRED COURSES (18 UNITS): MOA 181 or 182, 183; CABOT 102, 208, 205, and 050*(2-3 units) or CO ED 102*(2-3 units).
*Must be in a medical office or medical facility.
NOTE: This certificate does not satisfy the major requirements for the Associate in Science degree.

MEDICAL FRONT OFFICE
REQUIRED COURSES: CABOT 102, 103, 104, 110, 205*, 208; MOA 181 or 182 and 185.
Choose one option from the following: 1. CABOT 105; 2. CABOT 156, MOA 190 and CABOT 050(2 units) or CO ED 102(2 units); 3. MOA 183.
*A minimum speed of 25 wpm is required for this certificate.

MEDICAL SECRETARY
REQUIRED COURSES: CABOT 102, 103, 104, 105, 110, 156, 208, 210*, 265, 270; MOA 182, 185, and 190.
*A minimum speed of 40 wpm is required for this certificate.

MEDICAL TRANSCRIPTION
REQUIRED COURSES: CABOT 102, 103, 105, 156, 208, 210*, 265; MOA 182 and 190.
*A minimum speed of 50 wpm is required for this certificate.
NOTE: Substitutions for some of the above classes may be made with department approval.
MUSIC
This certificate prepares students for entry level positions within the professional music industry, working in a studio or performing live, as instrumentalists, vocalists, or composers. The courses are divided into four categories: core classes, instrumental and vocal classes, performing ensembles, and electives.
Core Classes (9 units required): Music 101, 102, 104, 105, 107, 108, 120 or 125 and 126.
Instrumental and vocal classes (6 units required, 2 units from each of the following groups):
1. Music 135, 136, 137
2. Music 140
3. Music 160, 161, 162, 163

NURSING
Glendale College offers programs leading to a certificate or degree in Registered Nursing (RN). The program of study from the Department of Nursing is approved by the California Board of Registered Nursing (BRN). For further information visit the website at www.glendale.edu/nursing.

I. PROGRAMS
A. GENERIC ASSOCIATE DEGREE NURSING (ADN) PROGRAM
This curriculum qualifies the student for an Associate in Science degree with a major in Nursing. Graduates are eligible to apply for the national licensing examination (NCLEX-RN) and RN licensure in California.
B. ADVANCED PLACEMENT OPTIONS (LVN-RN)
Plans A and B provide advanced placement access into the RN curriculum for the LVN whose license is active and in good standing in California.
1. PLAN A—CAREER LADDER
Qualifies the student for an AS degree or a certificate with a major in Nursing. Graduates are eligible to apply for the national licensing examination (NCLEX-RN) and RN licensure in California.
2. PLAN B—30 UNIT OPTION
Qualifies the student to meet the BRN requirements for eligibility to apply for the licensing examination and licensure in California. (NCLEX-RN). The student receives a certificate of completion but is not considered a graduate of Glendale College or the Department of Nursing. A license obtained through this option may not qualify the graduate for licensure by endorsement in other states.

II. PROGRAM REQUIREMENTS
A. GENERAL REQUIREMENTS
1. All required coursework for programs in the Department of Nursing must be completed with a “C” or better.
2. Applicants must meet the placement and testing requirements for the program for which they are applying.
3. Proof of high school graduation, a higher degree, GED, California Proficiency Exam, or foreign high school evaluated as equivalent to an American high school diploma.
4. Students accepted into the Nursing Program must comply with current department policies which include: possession of current Fire Safety and CPR cards; complete a physical exam, lab tests, and immunizations; be free from disorders which may prevent them from being able to perform tasks and responsibilities in nursing; and undergo a background check as required by clinical affiliates prior to being allowed into a clinical setting. Students who have questions regarding these requirements may contact the division office.

B. GENERIC ADN
1. Required prerequisite courses (or their equivalent) include BIO 112*, Microbiology; BIO 120*, Human Anatomy; BIO 121*, Physiology; PSYCH 101, General Psychology; English 101, Freshman English; and eligibility to enroll in Mathematics 101.
*There is a 10-year recency requirement for Biology 112, 120 and 121. See Academic Counseling to petition extenuating circumstances.
2. Coursework required for certificate/licensure includes BIO 112, 120, 121; English 101; Nursing Science 200, 205, 208, 210, 211, 212, 213, 214, 215, 216 or 220, 222, 223; PSYCH 101; Speech 101.
3. Graduation requirements*: Any course or courses satisfying the Humanities (6 units); Multicultural course; American History, American Institutions, State and Local government, and Mathematics proficiency. (Please see Index for graduation requirements).
*Students who have a BA/BS (any major) from a regionally accredited college or university can receive an AS degree when completing the prerequisites; Speech 101; and the Nursing program.

C. LVN-RN
1. CAREER LADDER
a. Prerequisite requirement: Current active California VN licensure in good standing.
b. Required prerequisite courses: Same as Generic ADN program.
d. A.S. graduation requirements: Same as Generic ADN.
NOTE: A student may apply to take the NCLEX-RN without completion of degree requirements when coursework required for licensure (II.B.2. or II.C.c.) has been completed. Please see the Nursing Department for further information.

2. 30-Unit Option
   a. Prerequisite requirement: Current active California VN license in good standing.
   b. Prerequisite courses: BIO 121, Physiology and BIO 112, Microbiology; English 101, Freshman English; eligibility for Math 101; PSYCH 101, General Psychology; and Speech 101, Public Speaking.

D. Transfer and challenge opportunities are available by departmental policy. Please consult the Counseling Department or the Department of Nursing or the webpage (www.glendale.edu/nursing) for further information.

PHOTOGRAPHY

This certificate is designed to prepare students for entry-level skills to work within the entertainment, magazine or printer industry as a professional assistant, staff commercial photographer, or lab technician.

Recommended courses: PHOTO 116, 117, 118, and 121.

REAL ESTATE

In the Real Estate curriculum, special attention is given to the California license requirements. A student must take the Real Estate Principles course (RE 101), a Real Estate Practice course (RE 120), and one other real estate course before taking the state examination. An applicant for the broker’s license must have taken the eight (8) real estate courses required for this Real Estate Certificate before taking the California State Broker Examination.

Required Courses: Real Estate 101, 120, 130, 140, 150, 162 or 163.

A minimum of 6 units must be selected from the following: ACCTG 101 (or 105 and 106) or 110; BUSAD 120; Real Estate 125, 161, 164, 180, 190, 195, 250.

NOTE: After completing all 24.5 units required for this certificate, a Real Estate Internship course is recommended.

REAL ESTATE APPRAISAL

In the Real Estate curriculum, the California Office of Real Estate Appraisal (OREA) determines the courses required to attain an appraisal license, including: 1) Trainee License, 2) Residential License, and 3) Certified Residential Licenses. Many of these courses are also applicable to the salesperson’s or broker’s license of the California Department of Real Estate (DRE). In certain cases, courses can be used for both OREA and DRE requirements. (See the Real Estate Certificate)

Required Courses: Real Estate 101, 130, 140, 150, 161-165.

A minimum of 3 units must be selected from the following to complete a total of 29 units: ACCTG 101 or 105 and 106 or 110; BUSAD 120; Real Estate 180, 190, 195, 250.

RECEPTIONIST/OFFICE CLERK

Required Courses: CABOT** 101, 102, 103, 104, 110, 205*, and 208; CS/IS 191.

*A minimum speed of 25 wpm is required. CABOT 230 is available to help students reach this goal. Students should request a card from their GCC instructor verifying their keyboarding speed.

**Courses taken more than five years before the granting of the certificate must have the approval of the division chair for acceptance. This certificate does not satisfy the major requirements for the AS degree.

RECREATION LEADERSHIP

Required Courses: Health 102, 104 or 106, 110; P.E. 120 (2 units); Recreation Leadership 109.

A minimum of 13 units from: Administration of Justice 101 or 118; Art 101 or 102 or 112; BIO 121, 122; Music 120, 230 or 231; PSYCH 101 or 110; Speech 101.

Recommended electives: Cooperative Education 102; P.E. 124, 125, 126, and additional courses in basketball, dance, soccer, softball, tennis, and volleyball.

RESTAURANT MANAGEMENT

This certificate provides students with the professional preparation required to meet the new trends and demands of management in the food service industry. Certificate courses focus on the fundamentals of operating a food service establishment, emphasizing personnel supervision, purchasing, menu development, cost control, and beverage service, as well as other aspects of management.

Required Courses: Culinary Arts 111, 113, 116, HTM 115, 117, 201, 203, 207, 214 or 216, 256; Internship 050 or Cooperative Education 102 (six units).

Recommended elective units: BUSAD 144; CABOT 102; CA 112.
RETAIL MANAGEMENT
This certificate prepares students with the skills and abilities for the fast-paced challenges in the competitive retail environment. It is intended for students who wish to prepare for employment and advancement in a variety of retail environments including technology, accounting, human resources, management, marketing, selling, inventory, and clerical functions.

REQUIDRED COURSES: ACCTG 110 or 101 or 105 and 106; BUSAD 106, 110, 141, 144, 152, 162, 164; CABOT 110, and either CS/IS 100 or 101 or CABOT 260.

TAX PREPAREER
This certificate is designed to train students in the preparation of federal and California state income tax returns. Completion of the required courses will provide students with the foundation necessary to obtain employment with a Certified Public Accounting firm or private company, and work in the tax preparation field. The student must complete all CORE courses totaling 16-17 units.

REQUIDRED COURSES: ACCTG 101 or 110, 150, 155, 130, 156, 160.

NOTE: Courses taken more than 3 years before the granting of the certificate must have division chair approval. This certificate does not satisfy the major requirements for the Associate degree.

TELEVISION PRODUCTION
The Television Production curriculum is designed to prepare students for a career in the television industry. Typical entry level positions would be Production Assistant or Assistant Editor. The program is also suited for those desiring employment as independent video producers/directors.

Three options are presented: Mass Media, Videography, and Corporate Television.

MASS MEDIA OPTION
REQUIDRED COURSES: Journalism 102, 106; Mass Communications/ Journalism 101; Media Arts 101, 104, 107, 112; Theatre Arts 101.
A minimum of 3 units must be selected from the following: BUSAD 164; Cooperative Education 102 (2 units); Internship 050 (3 units); Media Arts 111; Speech 100; Theatre Arts 140.

VIDEORAPHY OPTION
REQUIDRED COURSES: Art 125, 130; Journalism 102; Media Arts 101, 104, 107, 112; PHOTO 101.
A minimum of 3 units must be selected from the following: Art 131; Cooperative Education 102 (2 units); Internship 150 (3 units); Media Arts 111; PHOTO 103; Theatre Arts 134.

CORPORATE TELEVISION OPTION
REQUIDRED COURSES: BUSAD 101, 166; Journalism 102; Media Arts 101, 104, 107, 112.
A minimum of 3 units must be selected from the following: Art 130; CABOT 200; Cooperative Education 102 (2 units); Internship 050 (3 units); Media Arts 111; PSYCH 114.

TECHNICAL THEATRE
This certificate provides training in basic technical theatre skills for career employment in production and performance within the theatre industry.

REQUIDRED COURSES (22 units): English 101 or 120 or ESL 151; Speech 101 or 105; Theatre Arts 101, 103, 109 (1 unit), 121 (2 units), 123 (1 unit), 130 or 131 (3 units) and 3 units from either 160, 161, 162, 163 or 164.
A minimum of 8 units from the following elective courses: Art 101, 102, 125, 130, 132, 152; English 102, 116, 121, 125, 126; Humanities 117; Dance 101, 134, 140, 141, 145; Speech 101 or 105; Theatre Arts 102, 104, 106, 110, 122, 133, 134, 140.

WEB DEVELOPMENT
This certificate is designed for both the IT professional and the college student seeking a thorough preparation for the field of Web development. It focuses on the skills needed to build commercial Web sites. Course work includes Internet technologies, Web graphic design skills, programming and scripting for the Web. A major skill-building project spanning three semesters is included in the course work.

REQUIDRED COURSES: CS/IS 190, 255, 260 - 266, Art/Photography 250, 251, and 255.

WELDING, OCCUPATIONAL (COMBINATION)
Occupational welding is a two-year program designed to prepare the student for entry into the welding field as a combination welder, skilled in metallic arc, tungsten inert gas, flux cored wire, metal inert gas welding, plasma arc cutting, oxy-fuel welding, cutting and brazing of common metals. The emphasis will be on obtaining a welding certification at the completion of the required courses.

REQUIDRED COURSES: Engineering 102; Welding 121, 122, 123, 124, 125 (1 unit); Metallurgy 150.
Choose six (6) units from the following courses: BUSAD 158; Machine Tech 107, 112; TECH ED 140, 142; Welding 125 (2 units), 126 (3 units).
* The units earned for this course may not be applied toward graduation.

UNIX SYSTEM ADMINISTRATOR
This certificate is designed for students who are preparing for a position as a Unix System Administrator. The ideal student is one who has significant experience in the field and wants formalized training.

REQUIDRED COURSES: CS/IS 190, 172, 174, and 050 or CO ED 102.
This certificate does not satisfy the major requirements for the Associate degree.
GENERAL EDUCATION REQUIREMENTS FOR GRADUATION FROM COLLEGES AND UNIVERSITIES

It is important for students who plan to transfer to a four-year college or university at the close of their community college studies to decide early which college they will enter. Having decided this, they should plan their program in accordance with the requirements of that institution.

In general, students who are eligible for admission to a university at the time of twelfth year graduation are admitted to that institution after completion of community college work provided they have maintained a satisfactory record in all work taken since twelfth grade.

Ordinarily students with high school deficiencies (i.e. course work, GPA, SAT/ACT etc.) are not permitted to transfer to a four-year college or university in advanced standing until they have proven their ability to do college work.

The requirements for college and university entrance with advanced standing vary significantly. Students should contact their counselor or the Transfer Center for these requirements.

Transfer courses are designed to parallel lower-division offerings at four-year colleges and universities. Through the transfer curriculum, Glendale Community College students may complete freshman and sophomore requirements and transfer to the university with junior or upper division status. With careful planning, students may also complete graduation requirements for the Associate in Arts degree* at the same time that they are completing the Baccalaureate degree requirements.

A student may transfer a maximum of 70 units from a community college to campuses of either the University of California or the California State University systems. It is advised (and at some schools required) that students transfer with at least 60 transferable units to ensure that they are admitted to the four-year institution with junior or upper division status.

The following are the General Education requirements for some of the four-year colleges and universities in this area. Requirements for additional colleges and universities are available from your counselor or the Transfer Center.

Agreements concerning transferability are constantly being updated, therefore the student is cautioned to check with a counselor or the Transfer Center for exact transfer information. Some University of California (UC) transfer credit may be limited; consult a counselor or the Transfer Center for additional information.

Planning to Transfer?

ASSIST is a computerized student-transfer information system that can be accessed over the World Wide Web. It displays reports of how course credits earned at one California college or university can be applied when transferred to another. ASSIST is the official repository of articulation for California’s colleges and universities and therefore provides the most accurate and up-to-date information available about student transfer in California.

www.assist.org

Your official source for California articulation and student transfer information.
INTERSEGMEN TAL GENERAL EDUCATION TRANSFER CURRICULUM
Valid through Summer 2010

The Intersegmental General Education Transfer Curriculum (IGETC) will permit a student to transfer from a community college to a campus in either the California State University or University of California system without the need, after transfer, to take additional lower-division, general education courses to satisfy campus general education requirements. Completion of the IGETC is not a requirement for transfer to a CSU or UC, nor is it the only way to fulfill the lower division, general education requirements of the CSU or UC prior to transfer. Students may find it advantageous to take courses fulfilling CSU's general education requirements or those of a particular UC campus. The course requirements for all areas must be completed before the IGETC can be certified. All courses must be completed with grades of “C” or better.

AREA 1—ENGLISH COMMUNICATION
CSU - 3 courses, one from each group below.
UC - 2 courses, one from group A and B.

GROUP A: ENGLISH COMPOSITION
(1 course, 3 semester units)
English 101+, 101H+

GROUP B: CRITICAL THINKING—ENGLISH COMPOSITION
(1 course, 3 semester units)
English 102+, 102H+, 104

GROUP C: ORAL COMMUNICATION
(CSU ONLY)
(1 course, 3 semester units)
Speech 101

AREA 2—MATHEMATICAL CONCEPTS and QUANTITATIVE REASONING
(1 course, 3 semester units)

AREA 3—ARTS and HUMANITIES
(3 courses, 9 semester units)
At least one course from the Arts and one from the Humanities.

ARTS COURSES:
Dance 100, 102
Music 101, 102, 110, 120+, 121, 122, 125+, 126+, 127, 128
Theatre Arts 101, 102, 107

HUMANITIES COURSES:
Armenian 102+, 103, 104, 116+, 125 - 127
Chinese 102+, 103, 104
Economics 111* (same as History 116)
English 105 - 111, 114 - 117, 122 - 126, 128, 130, 141, 142
French 102 - 104, 121, 124 - 126
German 102 - 104, 125, 126
History 101+, 102+, 103 - 107, 108+, 109+, 110+, 111+, 112 - 115, 116* (same as Economics 111), 117+, 118+, 119 - 121, 131 - 133, 135, 136* (same as Social Science 136), 150, 152*
Humanities 101, 102, 105+, 105H+, 106, 110, 111, 115, 117, 120, 125
Italian 102, 103, 130
Japanese 102 - 104
Korean 102, 103, 104
Philosophy 101, 113, 114, 116, 118 - 122
Russian 102
Social Science 136*
Spanish 102+, 103, 104, 124+, 124H+, 125+, 126+, 127, 128

AREA 4—SOCIAL and BEHAVIORAL SCIENCES
(3 courses, 9 semester units)
Courses from at least two disciplines or an interdisciplinary sequence:
Anthropology 102+, 102H+, 103 - 105
Economics 101, 102+, 102H+, 105+, 110, 111* (same as History 116)
Ethnic Studies 101, 102, 110, 111, 120 - 125, 132, 164
Geography 102, 103, 105, 106, 110
History 116* (same as Economics 111), 122, 136*, 152*
Journalism 101+
Linguistics 101
Mass Communications 101
Political Science 101, 102, 103+, 103H+, 108, 110, 111
Psychology 101+, 101H+, 103, 104, 106, 109 (same as Sociology 105), 113, 115
Social Science 124, 131+, 132+, 134, 136* (same as History 136)
Sociology 101, 102, 104, 105 (same as Psychology 109), 140
Speech 108

AREA 5—PHYSICAL and BIOLOGICAL SCIENCES
(2 courses, 7-9 semester units)
One Physical Science course and one Biological Science course; at least one must include a laboratory.

PHYSICAL SCIENCES:
(Astrophysics 102, 110+, 110H+, 120+)
Chemistry 101+, 101H+, 102, 102H+, 103+, 105, 106, 110, 114+, 120+, 121+
Geography 101, 107, 111
Geology 101, 101H+, 102, 103, 105, 106, 111, 111H+, 112
Oceanography 115, 116
Paleontology 101
Physical Science 131+
Physics 101+, 101H+, 102, 102H+, 103, 103H+, 105, 106, 110+
BIOLOGICAL SCIENCES:
(Laboratory courses are underlined)
American Sign Language 101;
Armenian 101+, 102, 103, 104, 115+;
Chinese 101, 102, 103, 104; French 101, 102, 103, 104; German 101, 102, 103, 104; Italian 101, 102, 103, 104; Japanese 101, 102, 103, 104; Korean 101, 102, 103, 104, 115+;
Russian 101, 102; Spanish 101, 102, 103, 104, 115+.

CSU GRADUATION REQUIREMENT IN U.S. HISTORY, CONSTITUTION AND AMERICAN IDEALS
(Not part of IGETC; may be completed prior to transfer.)
American Institutions: Political Science 101, 105; Social Science 125-126, 132
American History: Economics 111; History 110, 111, 116, 117, 118, 150, 151; Social Science 125-126, 131
State and Local Government: Political Science 106; Social Science 125-126, 132

NOTE: Courses used to meet this requirement may not be counted as part of the IGETC.
+ INDICATES THAT TRANSFER CREDIT MAY BE LIMITED BY UC OR CSU OR BOTH. PLEASE CONSULT WITH A COUNSELOR.
* COURSES DESIGNATED WITH AN ASTERISK MAY BE COUNTED IN ONE AREA ONLY.
NOTE: IGETC MUST BE COMPLETED AND CERTIFICATION MUST BE REQUESTED PRIOR TO ATTENDANCE AT A UC OR CSU.
GENERAL EDUCATION REQUIREMENT
This list of courses from which 39 units must be selected for certification has been submitted to the California State University and is effective for students entering Glendale Community College for the summer 1987 session and thereafter. All courses completed Fall, 1993 and thereafter must be completed with grades of "C-" or better.

History and Constitution Requirement
All students seeking a baccalaureate degree are required by California law to demonstrate competence in the Constitution of the United States, in American History, including the study of American Institutions and Ideals, and in the principles of state and local government established under the Constitution of the State of California. In accordance with Ex. Order 405 the following requirements are satisfied as indicated:

American Institutions:
Political Science 101, 105; Social Science 125-126, 132
American History:
Economics 111; History 110, 111, 116, 117, 118, 150, 151; Social Science 125-126, 131
State and Local Government:
Political Science 106; Social Science 125-126, 132

Breadth Requirement
Breadth Requirement courses which the president of Glendale Community College or his designated officer will certify as meeting the intent expressed in Executive Order No. 595 are listed below. Students will complete a minimum of thirty-nine units. All courses must be completed with grades of "C-" or better. A maximum of 12 units may be repeated. No more than thirty (30) units may be certified in Arts B-D inclusive.

A. ENGLISH LANGUAGE, COMMUNICATION AND CRITICAL THINKING (9 units)
   English 101, 101H, (Required)
   Speech 101 (Required)
   English 102, 102H, 104, 118
   Humanities 105, 105H, 110
   Philosophy 117, 123
   Speech 100, 102 - 104

B. SCIENTIFIC INQUIRY AND QUANTITATIVE REASONING (9 units)
   Select one course from each of the following: Biological Sciences, Physical Sciences, and Mathematics. One Science course (either Biological or Physical) must include a laboratory activity.

   BIOLOGICAL SCIENCE:
   Anthropology 101, 111*
   *Denotes laboratory activity.

   PHYSICAL SCIENCE:
   Astronomy 102*, 103, 110, 110H, 120
   Geography 101, 107, 111*
   Geology 101, 101H, 102, 103, 104, 105*, 111*, 111H*, 112*, 120
   Oceanography 115, 116*
   Paleontology 101
   Physical Science 131*
   Technical Education 145
   *Denotes laboratory activity.

   MATHEMATICS:

C. ARTS AND HUMANITIES (9 units)
   9 semester units with at least one course each in Arts and Humanities. C1 - ARTS:
   Art 101, 101H, 102, 102H, 103 - 113, 115, 116, 118-120, 121, 125, 199
   Dance 100, 102
   English 103
   Humanities 117*, 120**
   Music 101, 102, 104, 105, 107, 108, 110, 120 121, 122, 125 - 128
   Theatre Arts 101, 102
   C2 - HUMANITIES:
   Armenian 101 - 104, 115, 116, 125 - 127
   Chinese 101 - 104
   English 105 - 111, 114 - 117, 122 - 130, 141, 142
   French 101 - 104, 121, 124 - 126
   German 101 - 104, 125, 126
   History 136*, 152**
   Humanities 101, 102, 106, 111, 115, 117**, 120**, 125, 130
   Italian 101 - 104, 130
   Japanese 101 - 104
   Korean 101 - 104, 115, 116
   Philosophy 101, 112 - 114, 116, 118 - 122
   Russian 101, 102, 115
   Social Science 136**
   Spanish 101 - 104, 115, 116, 124, 124H, 125 - 128
   Speech 106
   Theatre Arts 107
   **May be used in only one (1) area.

D. SOCIAL SCIENCES (9 units)
   Courses must be selected from at least two disciplines.
   D - 0 SOCIOLOGY:
   Sociology 101, 102
   D - 1 ANTHROPOLOGY AND ARCHEOLOGY
   Anthropology 102, 102H, 103 - 105
   D - 2 ECONÓMICS
   Economics 101, 102, 102H, 105, 110
   D - 3 ETHNIC STUDIES
   Ethnic Studies 101, 102, 110, 111, 120 - 125, 132, 164
   D - 4 GENDER STUDIES
   History 115*
   D - 5 GEOGRAPHY
   Geography 102, 103, 105, 106, 110
   D - 6 HISTORY
   History 101 - 109, 112 - 114, 115**, 119 - 122, 131 - 133, 135, 152**
   D - 7 INTERDISCIPLINARY SOCIAL OR BEHAVIORAL SCIENCES
   History 136**
   Interdisciplinary Studies 110
   Journalism 101
   Linguistics 101
   Mass Communications 101
   Social Science 101, 124, 127, 136**
   Sociology 140
   Speech 108
   D - 8 POLITICAL SCIENCE, GOVERNMENT, AND LEGAL INSTITUTIONS
   Political Science 102, 103, 103H, 108, 110, 111
   D - 9 PSYCHOLOGY
   Psychology 101, 101H, 103, 104, 115
   **May be used in only one (1) area.

E. LIFELONG UNDERSTANDING AND SELF-DEVELOPMENT (3 units)
   Child Development 135
   Culinary Arts 125
   Dance (all courses) (1 unit only)
   Health 102, 104, 106
   Physical Education (all activity courses) (1 unit only)
   Physical Education 107
   Psychology 105, 106, 108 - 111, 113, 131
   Recreation Leadership 105
   Social Science 134
   Sociology 104, 105, 131
GENERAL EDUCATION CATEGORIES AND THE DIVERSITY REQUIREMENT
Effective Fall 2009 through Summer 2010

All USC students must complete six general education (GE) courses. In addition, there are requirements in writing, diversity, and (for certain majors) foreign language.

Students may use transfer courses to fulfill the lower division writing requirement (shown below), and four of the six GE requirements (I, II, III, and V, listed below). GE categories IV and VI and the upper division writing requirement must be taken at USC. **Students may not fulfill GE or writing requirements with transfer courses taken after starting at USC.** Diversity and foreign language requirements may be fulfilled with transfer courses taken before entering, or during a summer term after entering USC.

College courses taken before high school graduation cannot be used to fulfill any of the requirements listed except for GE categories I and III.

For more information, see the booklet “Transferring to USC,” available from the USC Office of Admission or on the World Wide Web at: http://www.usc.edu/dept/admissions/undergrad/transfer/index.html

LOWER DIVISION WRITING REQUIREMENT: Any of the courses below fulfills the lower division writing requirement if completed after graduating from high school and before starting at USC (an additional upper division writing course must be completed at USC):

   ENGLISH 102, 102H, 104

FOREIGN LANGUAGE SKILL LEVEL: Certain USC majors must complete the third semester (or fifth quarter) of a college-level foreign language with a passing grade (C- or higher), or pass USC’s placement examination at a level equivalent to third semester competency. Students who do not finish their third semester (or fifth quarter) before transferring to USC must take USC’s placement examination to determine their level of competency. If the test score indicates placement into a level which the student has already completed, the student will be advised, but not required, to repeat the course at USC for no additional credit. Therefore, if your major requires the foreign language skill level and if you have started taking a foreign language, you are advised to complete the requirement before transferring to USC.

LANGUAGE REQUIREMENT Third Level:
   Armenian 103; Chinese 103; French 103; German 103; Italian 103; Japanese 103; Korean 103; Spanish 103

LANGUAGE REQUIREMENT Fourth Level:
   Armenian 104; Chinese 104; French 104; German 104; Italian 104; Japanese 104; Spanish 104

DIVERSITY REQUIREMENT: All students who entered any college in fall 1993 or thereafter must meet USC’s diversity requirement. Courses which meet the diversity requirement if completed after graduating from high school are:

   English 141, 142
   Ethnic Studies 102, 110, 120, 121, 122, 123, 124, 125, 126
   History 111; 115
   Humanities 125
   Psychology 113
   Social Science 134
   Sociology 101, 104

POLICIES REGARDING GE COURSES:

—No more than four (4) semester units of pass/no pass credit may be applied to GE requirements.
—Once a student enrolls at USC, he or she must complete all remaining GE and writing requirements at USC.
COURSES ARE LISTED IN NUMERICAL ORDER UNDER DEPARTMENT HEADINGS, WHICH ARE IN ALPHABETICAL ORDER. EACH COURSE IS LISTED BY NUMBER WITH THE COURSE TITLE AND THE NUMBER OF UNITS. FOLLOWING EACH COURSE DESCRIPTION ARE THE NUMBER OF HOURS OF LECTURE AND LABORATORY AND PREREQUISITES OF THE COURSE. TRANSFERABILITY OF THE COURSE IS INDICATED FOR INSTITUTIONS TO WHICH STUDENTS TEND TO MATRICULATE. WHETHER OR NOT ALL COURSES DESCRIBED WILL BE OFFERED DURING THE PRESENT ACADEMIC YEAR WILL DEPEND ON THE STUDENT ENROLLMENT.

COURSE PREREQUISITES/COREQUISITES/RECOMMENDED PREPARATION

Prerequisites
“Prerequisite means a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a course or educational program.”

Students are expected to have satisfied the prerequisite requirements as stated in this catalog for all courses. All prerequisite classes must have been completed with a satisfactory grade. “Satisfactory grade means that, for the course in question, the student’s academic record has been annotated with the symbol A, B, C, or P.”

Corequisites
“Corequisite means a condition of enrollment consisting of a course that a student is required to simultaneously take in order to enroll in another course.”

Classes listed as corequisites must have been either completed or be taken concurrently.

Recommended Preparation
“Recommended preparation means a condition of enrollment that a student is advised, but not required, to meet before or in conjunction with enrollment in a course or educational program.”

Recommended preparation has been judged by individual departments to be important to success in a course.

Equivalent: Whenever “equivalent” is listed as an alternative prerequisite, it is understood to indicate knowledge and/or skills learned through personal experience, education, and/or training equivalent to listed prerequisite courses. The criteria for such equivalency are established by each instructional discipline to ascertain whether there has been sufficient mastery of the content of the academic prerequisite.

Note: Title 5, Section 55534 (a) permits a student to appeal a course prerequisite based on the unavailability of the required course (see waiver of prerequisites).
ACCTG 101 introduces students to the use of accounting information, and to analysis using accounting and financial concepts and terminology. Accounting information is presented from the user's viewpoint. The course covers financial accounting, dealing with such topics as the accounting cycle, revenue and expense recognition, internal control, external reporting requirements, financial statement analysis, and asset, liability, and owners' equity valuation. Ethical issues and open-ended exercises requiring critical judgment and narrative response by students may be used throughout the course. Note: This course may not be taken for credit by students who have completed Accounting 106 with a grade of C or better. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

ACCTG 105 is an introductory course in bookkeeping including study of the accounting equation, the theory of debit and credit, accounting devices, working papers and business forms, and the preparation of balance sheets and income statements. Lecture 4 hours, laboratory 1 hour. Prerequisite: None.

ACCTG 102 provides students with computer skills required for employment in the field of computerized accounting. This course provides an introduction to accounting application software for bookkeepers, accountants, and business managers. Lecture 3 hours, laboratory 3 hours. Recommended preparation: ACCTG 101 or 110 or equivalent. Transfer Credit: CSU, UC, USC

ACCTG 106 is a continuation of Accounting 105. The topics covered include deferrals and accruals, receivables and payables, cash control and the voucher system, inventory systems, fixed assets, payroll, systems analysis and accounting concepts and principles. Note: Accounting 105 and 106 together cover the same material as Accounting 101. This course may not be taken for credit by students who have completed Accounting 101. Lecture 3 hours. Prerequisite: ACCTG 105 or equivalent. Transfer Credit: CSU

ACCTG 110 is an introductory course in bookkeeping including study of the accounting equation, the theory of debit and credit, accounting devices, working papers and business forms, and the preparation of balance sheets and income statements. Lecture 4 hours, laboratory 1 hour. Prerequisite: None.

ACCTG 120 provides students with computer skills required for employment in the field of computerized accounting. This course provides an introduction to accounting application software for bookkeepers, accountants, and business managers. Lecture 3 hours, laboratory 3 hours. Recommended preparation: ACCTG 101 or 110 or equivalent. Transfer Credit: CSU, UC, USC

ACCTG 121 is an advanced course allowing students to prepare sophisticated practice sets from assorted accounting software packages. Lecture 3 hours, laboratory 3 hours. Recommended preparation: ACCTG 101 or 110 or equivalent.

ACCTG 122 is an advanced course allowing students to prepare sophisticated practice sets from assorted accounting software packages. Lecture 3 hours, laboratory 3 hours. Recommended preparation: ACCTG 101 or 110 or equivalent.

ACCTG 130 is in-depth and practical instruction in payroll accounting. It offers an opportunity for the student to learn essential concepts of payroll and to master these concepts thoroughly by completing a wide variety of realistic activities. It covers payroll laws, payroll calculations, paying and recording payroll, federal and state payroll taxes, returns and payroll systems, manual and computerized. Lecture 3 hours, laboratory 1 hour. Prerequisite: None.

ACCTG 150 is a course that focuses on the analysis and preparation of tax returns, itemized deductions, and a technical proficiency in federal and state tax law as it applies to the individual. This course provides the foundation of knowledge required for tax practitioners. Note: A maximum of 3 units will transfer. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

ACCTG 155 is a course that teaches the fundamental knowledge of federal and state income tax preparation. The concentration will be on the tax information for the low income and elderly. Note: The course is designed for non-professionals. Lecture 6 hours. (6 weeks) Prerequisite: None.

ACCTG 156 is a course in which students learn and apply the fundamental knowledge of income tax preparation. With the assistance of the instructor and state and federal agents, the students will assist low income and elderly citizens in the preparation of Federal and State tax forms. Lecture 1 hour, laboratory 4 hours. Prerequisite: ACCTG 155 or equivalent.

ACCTG 157 is a course in which students learn and apply leadership skills by aiding first year VITA volunteers in interviewing and preparing state and federal taxes. Students will guide and direct VITA Volunteers in assisting low-income and elderly citizens in the preparation of their federal and state tax forms. Lecture 1 hour, laboratory 4 hours. Prerequisite: ACCTG 156 or equivalent.

ACCTG 160 covers the tax effects of accounting methods, rental and royalty income, business income and expenses, mechanisms for realizing income such as corporations and partnerships, and minimization of taxes through tax planning. This course is of assistance to tax practitioners, individuals seeking an overview of the various methods of taxation, and those planning to take the Enrolled Agents examination given by the Internal Revenue Service. Lecture 3 hours. Prerequisite: ACCTG 150 or equivalent. Transfer Credit: CSU.
165 TAX PLANNING AND RESEARCH
3.0 Units
ACCTG 165 is a course in the principles of tax planning and tax research. Topics include general principles of tax planning, self-employed versus employee tax planning, family tax planning, fixed and other assets tax planning, deduction tax planning, retirement planning, tax research procedures, Internal Revenue Code, treasury and judicial interruptions, primary and secondary courses and tax procedures. Lecture 3 hours. Recommended preparation ACCTG 150.

170 CALIFORNIA BUSINESS TAXES
2.0 Units
ACCTG 170 is an advanced course in California non-income business taxation. Topics include sales and use taxes, real and personal property taxes, withholding on dispositions of real estate, environmental taxes and fees, city business license taxes, and miscellaneous taxes. Lecture 2 hours. Prerequisite: ACCTG 101 or ACCTG 106 or equivalent.

175 ESTATE, GIFT, AND TRUST TAXATION
2.0 Units
ACCTG 175 covers estate, gift, and trust taxation. Topics include computation of gross estate tax, valuation of gross estate, deductions from the gross estate, transfers by gift, basis of property transferred by gift, present and future interests, exclusions from gift taxes, generation-skipping transfer tax (GST), and taxation of trusts. Lecture 2 hours. Recommended preparation: ACCTG 150 or equivalent.

180 FINANCIAL ANALYSIS AND COMMUNICATIONS
2.0 Units
ACCTG 180 is a course in which the students apply the tools of the accounting profession to solve problems and complex case studies common in the industry. Topics include the use of general ledger, database, and spreadsheet programs, advanced financial ratios, extensive budget creation with variance analysis, and real-time adjustments, setting up a general ledger package, decision making formulas, creating financial statements and producing spreadsheet for various accounting decisions. Lecture 2 hours. Recommended preparation: ACCTG 101 or equivalent.

201 INTERMEDIATE ACCOUNTING I
5.0 Units
ACCTG 201 is an advanced course in financial accounting. Topics include the income statement preparation, statement of cash flow, time value of money, income measurement, balance sheet preparation, cash and receivables, and inventories. Lecture 5 hours. Prerequisite: ACCTG 101 or ACCTG 106 or equivalent.

202 INTERMEDIATE ACCOUNTING II
5.0 Units
ACCTG 202 is a course that further develops the concepts of liabilities and owner’s equity. The course covers short and long term liabilities, leases, pensions and payroll liabilities, corporate income taxes, detailed preparation of Statement of Cash Flows, presentation of accounting changes and errors and disclosure and reporting responsibilities of a corporation. Lecture 5 hours. Prerequisite: ACCTG 201 or equivalent.

210 ADVANCED ACCOUNTING
5.0 Units
ACCTG 210 is an advanced course in financial accounting. Topics include business combinations, consolidated statements, goodwill, intercompany transactions, cash flow, earnings per share, special issues in investments, subsidiary equity transactions, leverage buyouts, and partnerships, multinational accounting, interim reporting and disclosures, governmental and not-for-profit accounting, debt restructuring, corporate reorganizations, and liquidations. Lecture 5 hours. Prerequisite: ACCTG 201 or equivalent.

220 COST ACCOUNTING
3.0 Units
ACCTG 220 is an advanced course in managerial accounting. Topics include job costing, product costing, process costing, joint-process costing, activity based costing systems, support service costs, value chain, quality management, cost-volume-profit models, budgeting, variance analysis, capital investment decisions, and transfer pricing. Lecture 3 hours. Prerequisite: ACCTG 102 or equivalent.

225 AUDITING
3.0 Units
ACCTG 225 is an advanced course that addresses the concepts of audit evidence and materiality. Topics include the audit profession, audit risks, audit analysis, statistical sampling, planning the audit, conducting the audit, and reporting the results of an audit. Lecture 3 hours. Prerequisite: ACCTG 101 or ACCTG 106 or equivalent.

230 ACCOUNTING INFORMATION SYSTEMS
3.0 Units
ACCTG 230 is an advanced course that addresses the concepts of information and database systems used in a business. Topics include accounting information systems, data communications, database systems, information systems and processes, and other areas covered on the uniform CPA exam. Lecture / Demonstration 3 hours. Prerequisite: ACCTG 101 or ACCTG 106 or equivalent.

235 FRAUD EXAMINATION
3.0 Units
ACCTG 235 is an advanced course that addresses the principles and methodology of fraud detection and deterrence. The course includes such topics as skimming, cash larceny, check tampering, register disbursement schemes, billing schemes, payroll and expense reimbursement schemes, non-cash misappropriations, corruption, accounting principles and fraud, fraudulent financial statements, and interviewing witnesses. Lecture 3 hours. Prerequisite: ACCTG 101 or ACCTG 106 or equivalent.

ADMINISTRATION OF JUSTICE

Classes in Administration of Justice are offered in the Evening College Program for students interested in preparing for careers in a wide variety of fields related to law enforcement, corrections, private security, and judicial procedures. Special short term seminars are also offered periodically. A certificate of completion may be earned.

101 INTRODUCTION TO THE ADMINISTRATION OF JUSTICE
3.0 Units
Administration of Justice 101 covers the history and philosophy of administration of justice in America, recapitulation of the system, identification of the various subsystems, role expectations, and their interrelationships, theories of crime, punishment, and rehabilitation, ethics, education, and training for professionalism in the system. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC.
103 CONCEPTS OF CRIMINAL LAW
1.0 to 3.0 Units
Administration of Justice 103 is a study of the legal definition of crime and defenses, purposes and functions of the substantive criminal law, historical foundations, the limits of the criminal law, focus upon the case study approach. Lecture 3 hours. Prerequisite: ADMJ 101 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer Credit: CSU, UC, USC

107 COMMUNITY RELATIONS
1.0 to 3.0 Units
Administration of Justice 107 focuses on the in-depth exploration of the roles of administration of justice practitioners and their agencies. Through interaction and study, the student becomes aware of the interrelationships and role expectations among the various agencies and the public. Principal emphasis is placed upon the professional image of the system of administration of justice and the development of positive relationships between members of the system and the public. Lecture 3 hours. Prerequisite: ADMJ 101 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer Credit: CSU, UC, USC

108 CONTEMPORARY POLICE OPERATIONS AND ISSUES
1.0 to 3.0 Units
Administration of Justice 108 is designed to develop basic understandings and a reasonable degree of skill with reference to the following problems and issues: responsibilities, power, and duties of the patrol officer, discretion, patrol procedures, field interrogation, preliminary handling of field problems, stake-outs, arrest procedures, vehicle code and transportation of prisoners, special police problems, moral and legal aspects of firearm usage. The course covers contemporary issues in police operations such as patrol efficiency, crime prevention, corruption, recruitment, training and stress management. Lecture 3 hours. Prerequisite: ADMJ 101 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer Credit: CSU

110 PRINCIPLES & PROCEDURES OF THE JUSTICE SYSTEM
1.0 to 3.0 Units
Administration of Justice 110 presents an in-depth study of the role and responsibilities of each segment within the administration of justice system: Law enforcement, judicial, corrections. A past, present, and future exposure to each sub-system procedure from initial entry to final disposition and the relationship each segment maintains with its system members. Special emphasis is on the judicial processes. Lecture 3 hours. Prerequisite: None. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer Credit: CSU

116 CRIMINAL INVESTIGATION
1.0 to 3.0 Units
Administration of Justice 116 focuses on the fundamentals of investigation, crime scene search and recording, collection and preservation of physical evidence, scientific aids, modus operandi, sources of information, interviews and interrogation, follow-up and case preparation, mechanical truth devices, truth serums, crime laboratory. Lecture 3 hours. Prerequisite: ADMJ 101 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer Credit: CSU

117 CRISIS INTERVENTION
1.0 to 3.0 Units
Administration of Justice 117 is designed to provide those skills necessary to deal with interpersonal conflict. The course addresses some of the interpersonal problems creating stress, conflict and anger and reviews some of the basic psychological techniques used in dealing with interpersonal problems. Specifically, the course familiarizes the student with intervention techniques in attempt suicides, death/ injury notifications, domestic situations, disputes between landlord and tenants and intervention techniques with crime victims. The course covers recommended techniques in dealing with job related stress. A review of theoretical concepts and practical role playing situations provides the framework for the course. Lecture 3 hours. Prerequisite: None. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

118 YOUTHFUL OFFENDERS
1.0 to 3.0 Units
Administration of Justice 118 reviews the organization, functions, and jurisdiction of juvenile agencies, the processing and detention of juveniles, juvenile case disposition, juvenile statutes and court procedures. There are discussions on selected delinquency theories and a review of current correctional methods utilized in the treatment and control of juvenile delinquency in America. Lecture 3 hours. Prerequisite: ADMJ 101 or equivalent (ADMJ 101 may be taken concurrently.) Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer Credit: CSU

120 LEGAL ASPECTS OF EVIDENCE
1.0 to 3.0 Units
Administration of Justice 120 is concerning the origin, development, philosophy, and constitutional and procedural considerations affecting arrest, search, and seizure, kinds and degrees of evidence and rules governing admissibility, judicial decisions interpreting individual rights and case studies. Lecture 3 hours. Prerequisite: ADMJ 101 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer Credit: CSU

129 SPECIAL CRIMES AND DANGEROUS DRUGS
1.0 to 3.0 Units
Administration of Justice 129 is designed to give all levels of law enforcement officers a fundamental understanding of narcotic addiction and the effects of hypnotic drugs as these factors are involved in the daily routine of police work review of the principles of detecting and investigating special crime offenses. The course also focuses on gambling, confidence games, loansharking, prostitution, and other crimes associated with organized crime activity. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Note: This course may be taken 2 times; a maximum of 6 units may be earned.
130 LAW ENFORCEMENT SUPERVISION AND MANAGEMENT
1.0 to 3.0 Units
Administration of Justice 130 provides an overview of the basic concepts, problems, issues, and concerns of a contemporary police organization. The four major areas the course examines and evaluates are: the preparation of the individual officer for future promotional examinations, the current major police supervisory principles and ideologies, the proven techniques and skills required in the practice of sound supervision in police service, and a survey of management theory. Lecture 3 hours. Prerequisite: ADMJ 101 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

134 REPORT WRITING
1.0 to 3.0 Units
Administration of Justice 134 encompasses a survey of report writing and Records and Identification Bureaus. A study to aid police officers to analyze what they see, and to make a permanent and coherent record of facts to be used in criminal prosecution and administration. Lecture 8 to 40 hours. Transfer Credit: CSU

155 FIREARMS TRAINING
0.5 to 1.5 Units
Administration of Justice 155 is presented to fulfill the requirements of the P.C. 832 Module II training specifications. Lecture 1 to 3 hours, laboratory 2 to 5 hours. Prerequisite: None. Note: This course may be taken 3 times; a maximum of 4.5 units may be earned.

205 ADVANCED FIELD OFFICER COURSE
0.5 to 2.5 Units
Administration of Justice 205 is designed primarily but not exclusively for students employed as peace officers or private security officers. The course benefits those persons who need retraining or wish to develop specific job skills. This program updates the field officer on selected police skills and procedures, and also examines the problem of stress as it relates to the practice of law enforcement. The course must be taken for a minimum of 24 hours. Lecture 8 to 40 hours. Prerequisite: ADMJ 101 or equivalent. Note: This course may be taken 3 times; a maximum of 7.5 units may be earned.

ALCOHOL/DRUG STUDIES

101 ALCOHOL/DRUG ABUSE AND DEPENDENCY
3.0 Units
Alcohol/Drug Studies 101 surveys the use and abuse of alcohol and other drugs in various cultures, their acute and chronic effects on the human body, and the development of psychological and physical dependence. An overview of current theories in dependency is presented. The course addresses the consequences of chemical dependency on the individual, the family system, and society. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

103 CHEMICAL DEPENDENCY: INTERVENTION, TREATMENT, AND RECOVERY
3.0 Units
Alcohol/Drug Studies 103 uses a biopsychosocial perspective to introduce students to the process of intervention, treatment, and recovery. The course introduces crisis intervention, treatment techniques, and other essential tools and methodologies needed to help the chemically dependent person overcome addiction. Lecture 3 hours. Prerequisite: AD ST 101 or equivalent (AD ST 101 may be taken concurrently.) Recommended preparation: Psych 101. Transfer Credit: CSU

105 PHARMACOLOGY: ALCOHOL AND OTHER DRUGS
3.0 Units
Alcohol/Drug Studies 105 emphasizes the specific action and effects of psychoactive drugs, including beverage alcohol, on the human brain and body. The history of drugs as substances of abuse is presented along with the pharmacological and physiological implications of tolerance and habituation. The part played by pharmacological therapy as a component of current abuse and addiction treatment models is examined. Several prevention models are also presented. Lecture 3 hours. Prerequisite: AD ST 101 and 103 (AD ST 103 may be taken concurrently.) Transfer Credit: CSU

110 COUNSELING TECHNIQUES AND CASE MANAGEMENT
3.0 Units
Alcohol/Drug Studies 110 is designed to prepare the student for the field experiences of the addiction counseling internship. It examines several models of addiction counseling and the theoretical rationale of each. The course emphasizes therapeutic traits needed by a counselor working with a chemically addicted population. The course also includes the competencies/functions of a counselor, legal and ethical issues in counseling, and case management of individuals, groups and families. Issues of personal and professional growth are also discussed. Lecture 3 hours. Prerequisite: AD ST 101 and 103. Recommended preparation: Psych 101. Transfer Credit: CSU

111 FAMILY DYNAMICS AND ADDICTION
3.0 Units
Alcohol/Drug Studies 111 introduces the student to the individual and group dynamics present within the family in which chemical dependency exists. Family systems and personality theories are presented and applied to the treatment of the family as a unit. The theoretical and practical aspects of counseling are presented and cover the active phases of addiction and early stages of recovery. Lecture 3 hours. Prerequisite: AD ST 101 and 103. Recommended preparation: Psych 101. Transfer Credit: CSU

112 GROUP THERAPY AND THE THERAPEUTIC PROCESS
3.0 Units
Alcohol/Drug Studies 112 is an introduction to the dynamics of group interaction and the facilitator functions of the counselor. The course emphasizes group process and management in the ‘here and now’ as a method of bringing about behavioral change. Throughout the semester all students participate as both members and facilitators in group process, providing a strong experiential component to the course. Lecture 3 hours. Prerequisite: AD ST 101 and 103. Recommended preparation: Psych 101. Transfer Credit: CSU
113 CHEMICAL DEPENDENCY AND HUMAN SEXUALITY
3.0 Units
Alcohol/Drug Studies 113 explores the symbiotic relationship of alcohol and drug abuse to sexuality, sexual pathology, and intimacy dysfunction. The course builds on an overview of human needs and sexuality development. Clinical research involving chemical dependency, and sexual dysfunction is reviewed and discussed. Strategies of sex therapy and counseling are presented, along with specific intervention and treatment techniques. Lecture 3 hours. Prerequisite: AD ST 101 and 103. Recommended preparation: PSYCH 101. Transfer Credit: CSU

114 SPECIAL POPULATIONS
3.0 Units
Alcohol/Drug Studies 114 examines the degree to which ethnicity, cultural factors, and sexual identity can contribute to the misuse of alcohol and other drugs. Discussions include various ethnic populations as well as gender, sexual orientation, and life span issues related to substance use and abuse. Lecture 3 hours. Prerequisite: AD ST 101 and 103. Recommended preparation: PSYCH 104 or SOC SCI 121. Transfer Credit: CSU

115 ADULT CHILDREN OF DYSFUNCTIONAL FAMILIES
3.0 Units
Alcohol/Drug Studies 115 explores the effects of alcoholism and drug dependence and other severe psychological disorders within the dynamics of the family system. The effects of emotional and physical deprivation, violence, and child abuse are examined. Issues central to family dynamics and the development of dysfunctional affective behavioral patterns that commonly are carried into adulthood are discussed along with treatment options. Lecture 3 hours. Prerequisite: AD ST 101 and 103. Recommended preparation PSYCH 110. Transfer Credit: CSU

118 CHEMICAL DEPENDENCY AND DOMESTIC VIOLENCE
3.0 Units
Alcohol/Drug Studies 118 provides the student with an overview of domestic violence and its association with chemical dependency. The course illustrates historical, legal, and psychological perspectives of domestic violence in families. The cultural and social aspects of domestic violence, including the relationship of violence and chemical dependency are studied comprehensively. Approaches to breaking the cycle of violence, specific assessment and intervention techniques, and community resources are also addressed. Lecture 3 hours. Prerequisite: AD ST 101 and 103. Recommended preparation: PSYCH 113.

119 CHEMICAL DEPENDENCY AND CO-OCCURRING DISORDERS
3.0 Units
Alcohol/Drug Studies 119 assists the student to better understand and interact with clients with various mental health disorders that complicate coexisting substance abuse problems. It includes personality and mood disorders and various other pathologies, as well as organic brain disorder and their synergistic effect with alcohol and other drugs. The course also covers the diagnostic, therapeutic, and recovery phases for these clients. Lecture 3 hours. Prerequisite: AD ST 105 or equivalent. Recommended preparation: PSYCH 115.

150 SELF-HELP GROUPS AND RECOVERY
2.0 Units
Alcohol/Drug Studies 150 provides students with an opportunity to observe and evaluate Alcoholics Anonymous and several other self-help groups involved in the treatment of alcohol/drug dependency and related disorders. Alcoholics Anonymous is studied as the foundation or blueprint for emerging self-help groups. The ‘Twelve Steps’ of recovery from Alcoholics Anonymous are studied from both a psychological and self-help perspective. Lecture 2 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

151 COMMUNITY RESOURCES
2.0 Units
Alcohol/Drug Studies 151 provides an opportunity for the student to survey and analyze a variety of resources in the community involved in the treatment of alcohol and drug dependency. The continuum of treatment care in surrounding local communities is represented in the agencies, programs, and facilities explored and evaluated. Students create, as a class project, a local resource directory of treatment services. Lecture 2 hours. Prerequisite: AD ST 150 or equivalent. Transfer Credit: CSU

152 INTERNSHIP I
3.0 Units
Alcohol/Drug Studies 152 is one of two semester-length internships in which the student is assigned to an alcohol/drug related treatment program or agency to acquire work experience. The student functions under agency supervision to gain case management experience which may include working with individuals, couples, and/or families, as well as groups. The course explores the extent to which knowledge of personal family history impacts counselor competencies and relationships with agencies and clients. Internship experiences are explored as they relate to lecture content. The internship hours apply to the additional hours required for state/national credentialing. Lecture 3 hours. Prerequisite: AD ST 110 or 111 or 112 or equivalent. Corequisite AD ST 50 (1 Unit). Transfer Credit: CSU

153 INTERNSHIP II
3.0 Units
Alcohol/Drug Studies 153 is one of two semester-length internships in which the student is assigned to an alcohol/drug related program or agency. The student functions under agency supervision to gain case management experience which may include working with individuals, couples, and/or families, as well as groups. Course theory focuses on legal and ethical issues, including relationships with clients, colleagues, and agencies. Internship experiences are explored as they relate to lecture content. The internship hours apply to the additional hours required for state/national credentialing. Lecture 3 hours. Prerequisite: AD ST 110 or 111 or 112 or equivalent. Corequisite AD ST 50 (1 Unit). Transfer Credit: CSU
AMERICAN SIGN LANGUAGE

101 AMERICAN SIGN LANGUAGE I 4.0 Units
ASL 101 is an introductory course that provides instruction on deafness, deaf culture, and the language used by the deaf community. Lecture 4 hours, laboratory 30 minutes. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Note: This course is not intended for students with proficiency in ASL or who have attended schools where ASL was the language of instruction. This course may be taken 2 times; a maximum of 8 units may be earned. Transfer Credit: CSU, UC, USC

102 AMERICAN SIGN LANGUAGE II 4.0 Units
ASL 102 is designed to provide a continuation of the introductory course. The major focus of this course is to develop students' American Sign Language vocabulary and comprehension of signed material. Lecture 4 hours, laboratory ½ hour. Prerequisite: ASL 101 or equivalent. Note: This course may be taken 2 times; a maximum of 8 units may be earned. Transfer Credit: CSU, UC, USC

103 AMERICAN SIGN LANGUAGE III 4.0 Units
ASL 103 expands on the first courses by developing smooth transitions in production of American Sign Language in dialogue form. Emphasis is placed on realistic dialogue situations and discussion groups conducted in the target language. Lecture 4 hours, laboratory ½ hour. Prerequisite: ASL 102 or equivalent. Note: This course is offered during the Fall semester only. This course may be taken 3 times; a maximum of 12 units may be earned. Transfer Credit: CSU, UC, USC

104 AMERICAN SIGN LANGUAGE IV 4.0 Units
ASL 104 is a continued expansion of the preceding three courses emphasizing the course of dialogue form and develops narrative forms such as story telling and daily events. Emphasis will be placed on realistic dialogue situations and abstract situations. Conducted in the target language. Lecture 4 hours, laboratory ½ hour. Prerequisite: ASL 103 or equivalent. Note: This course is offered during the Spring semester only. Transfer Credit: CSU, UC, USC

105 CONVERSATIONAL AMERICAN SIGN LANGUAGE I 2.0 Units
ASL 105 offers intensive practice in expression and comprehension of American Sign Language. It provides the student with practical conversation practice on everyday topics, including culture, and allows for expansion of vocabulary and use of handshapes. This class allows for opportunities to interact with fellow students and the instructor in order to improve conversational skills. Lecture 2 hours. Prerequisite: ASL 101 or equivalent. Note: This course may be taken 3 times; a maximum of 6 units may be earned. Transfer Credit: CSU

151 INTRODUCTION TO THE STRUCTURE OF AMERICAN SIGN LANGUAGE 2.0 Units
ASL 151 focuses on the grammatical and syntactical structures of American Sign Language (ASL). Topics covered include sociolinguistic variation, discourse styles, syntax, morphology, and phonology. Emphasis is placed on instruction in vocabulary, and basic sentence structure. Lecture 2 hours, laboratory 1 hour. Prerequisite: None. Note: This course may be taken 4 times; a maximum of 8 units may be earned. Lectures will be conducted entirely in ASL. Prerequisite: None.

201 THE STRUCTURE OF AMERICAN SIGN LANGUAGE FOR PROFESSIONAL INTERPRETERS 3.0 Units
ASL 201 is a skills-based course for working interpreters to improve their interpreting skills by incorporating current theories of interpreting into their own work. The course presents an overview of current models of interpreting and models of cognitive processing. Weekly on-camera practice and self-critique will be utilized to improve individual work. Lecture 3 hours. Prerequisite: None. Note: This course is designed for non-certified working interpreters interested in pursuing their certification as well as certified working interpreters needing to earn Continuing Education Units for their Certification Maintenance Program for Registry of Interpreters for the Deaf (RID) and the National Association of the Deaf (NAD).

ANTHROPOLOGY

101 PHYSICAL ANTHROPOLOGY 3.0 Units
Anthropology 101 is a study of human genetics, the relationship of humans to the animal world, evolutionary theory, fossil humans, racial differentiation, classification, and distribution, and current and ongoing evolution. Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

102 CULTURAL ANTHROPOLOGY 3.0 Units
Anthropology 102 is an introduction to human culture. The course includes an examination of different theories of culture, the methods of fieldwork and the comparison of cultures from around the world including our own. The course covers the extensive variation in traditional and contemporary aspects of society from every major geographic region in terms of linguistic, social, political, economic, and technological organization. The course includes an exploration of kinship, marriage, gender, domestic groups, ritual, belief systems and the arts. Emphasis is placed on the conditions of modern society from the cultural heterogeneity of the inner cities of the United States to the impact of globalization on indigenous populations, migrant populations and nation states. Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

102H HONORS CULTURAL ANTHROPOLOGY
3.0 Units

Anthropology 102H is an introduction to human culture. The course includes an examination of different theories of culture, the methods of fieldwork and the comparison of cultures from around the world including our own. The course covers the extensive variation in traditional and contemporary aspects of society from every major geographic region in terms of linguistic, social, political, economic, and technological organization. The course includes an exploration of kinship, marriage, gender, domestic groups, ritual, belief systems and the arts. Emphasis is placed on the conditions of modern society from the cultural heterogeneity of the inner cities of the United States to the impact of globalization on indigenous populations, migrant populations and nation states. The honors course will be enhanced in one or more of the following ways: 1. Students will read three selected short ethnologies by Elman Service out of Profiles in Ethnology. 2. Students will be required to write a research paper (8-12 pages) on approved thesis in the general field of cultural anthropology. 3. There will be an increased emphasis on critical thinking skills by increasing the value of essay answers on midterm examinations. Anthropology 103 is a general course in archaeology for beginning students. The material covered includes professional opportunities, methods of locating and digging sites, preserving and restoring artifacts, and methods of dating artifacts. Pre-history is traced through the various Stone Ages in the Old World into recorded historical times, emphasizing famous classical sites. Attention is similarly given to pre-history in the Americas. Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

103 ARCHAEOLOGY
3.0 Units

Anthropology 103 is a general course in archaeology for beginning students. The material covered includes professional opportunities, methods of locating and digging sites, preserving and restoring artifacts, and methods of dating artifacts. Pre-history is traced through the various Stone Ages in the Old World into recorded historical times, emphasizing famous classical sites. Lecture 5 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

104 MAGIC, RELIGION, AND WITCHCRAFT
3.0 Units

Anthropology 104 is a cross-cultural survey of religion and the supernatural. The course includes an examination of magic, witchcraft, and forms of religious expression in a wide variety of cultures around the world. The course considers the forms and functions of supernatural beliefs and rituals in various societies to derive insight into the roles of religious beliefs and institutions in human life. The course covers ritual, witchcraft, magic, symbolism, altered states of consciousness, and religious change. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

105 CULTURE AND COMMUNICATION
3.0 Units

Anthropology 105 provides students with an overview of what is known about human languages, including the unique nature of human language, its structure, its universality, and its diversity. The course includes an introduction to linguistics: the universal and structural properties of language, as well as a look at language use in its social and cultural settings. This includes analysis of the ways in which culture and communication shape each other, with discussions of language socialization, gender, and socioeconomic factors in language use. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

111 PHYSICAL ANTHROPOLOGY LAB
1.0 Unit

Anthropology 111 is the laboratory course for Physical Anthropology. Laboratory exercises include the observation and interpretation of: natural selection and evolution, Mendelian, molecular, and population genetics, non-human primate taxonomy and behavior, fossil evidence of hominid evolution, forensic anthropology, and human physical variation. Laboratory 3 hours. Prerequisite: ANTHR 101 (ANTHR 101 may be taken concurrently.) Transfer Credit: CSU, UC, USC

ARCHITECTURE

101 DRAFTING AND BASIC DESIGN
3.0 Units

Architecture 101 is a study in the fundamentals of drafting techniques used in architectural drawing, and the basic design procedure relative to good residential planning. The course studies residential building codes, drafting of working drawings, scale drawing of construction details, framing concepts, and proper dimensioning techniques. Lecture 2 hours, laboratory 4 hours. Prerequisite: ART 130. (ART 130 may be taken concurrently.) Recommended preparation: Eligibility for ENGL 120 or ESL 151. Note: Required for architecture majors. Recommended for art majors. Transfer Credit: CSU

102 ARCHITECTURAL DRAFTING AND DESIGN
3.0 Units

Architecture 102 is the study of the design of the single family dwelling with emphasis on the ranch type structure. Discussion covers the latest construction innovations, framing techniques, scale drawing, and the drafting of working drawings. Study explores in greater detail the applicable building codes pertinent to residential construction, modular construction, solar planning, insulation requirements, orientation, and other facets of construction. Lecture 2 hours, laboratory 4 hours. Prerequisite: ARCH 101 or equivalent. Transfer Credit: CSU

103 DESCRIPTIVE GEOMETRY
3.0 Units

Architecture 103 is an applied science treating of graphic representation of lines, planes, surfaces, and solids. Architectural applications are used for subject matter. Simple shades and shadows. Lecture 2 hours, laboratory 4 hours. Recommended preparation: ARCH 101 or ENGR 101 or equivalent. Transfer Credit: CSU, UC, USC

105 PERSPECTIVE GRAPHICS
3.0 Units

Architecture 105 is a course in technical perspective. Skills are developed in drawing of various architectural subjects and their shadows, rendering in various media, sketching in people, objects and landscape background and foreground. Lecture 2 hours, laboratory 4 hours. Prerequisite: ARCH 101 or equivalent. Transfer Credit: CSU, UC, USC
106 BUILDING CODES I
3.0 Units
Architecture 106 offers students fundamental instruction regarding the use of current, relevant codes and standards required to review and check plans and specifications in compliance with non-structural aspects of the uniform Building Code (UBC). Lecture 3 hours. Prerequisite: ARCH 101 or equivalent. Recommended preparation: Eligibility for Engl 120 or ESL 151.

108 ARCHITECTURAL PRINT READING
3.0 Units
Architecture 108 covers all aspects of architectural print reading including orthographic projection, basic view utilization, residential and commercial standards, dimensioning techniques, uniform building code (UBC), and architectural terminology including abbreviations and symbols. Lecture 3 hours. Prerequisite: None. Note: Architecture 108 may not be taken for credit by students who have credit for Architecture 101, 102, 103, 105, or 107.

113 INTRODUCTION TO GEOSPATIAL TECHNOLOGY FOR ARCHITECTS AND ENGINEERS
3.0 Units
Architecture 113 teaches the fundamentals of the Geographic Information System (GIS) software and its application in the Architectural and Engineering fields. Emphasis is placed on applied lessons to: create and modifying maps, solve spatial analysis problems, and import/export data for use with Computer Aided Design (CAD) software. Lecture 2 hours, laboratory 4 hours. Recommended preparation: ENGR 109 and knowledge of Microsoft Excel.

120 RESIDENTIAL ARCHITECTURAL DESIGN I
3.0 Units
Architecture 120 presents a study of the numerous considerations required to build a two story dwelling, a two story apartment complex, or a retail building. Discussion covers fundamentals of design, building code considerations, and techniques of construction. Lecture 2 hours, laboratory 4 hours. Prerequisite: ARCH 101 or equivalent. Recommended preparation: ARCH 102, ARCH 105 and ENGR 109. Note: This course may not be taken for credit by students who have completed Architecture 109. Transfer Credit: CSU

125 RESIDENTIAL ARCHITECTURAL DESIGN II
3.0 Units
Architecture 125 presents a study of the numerous considerations required to build a typical two story single family home, a typical two story apartment complex, or a small store. Discussion reviews fundamentals of design, building code considerations, techniques of construction, and introduces working drawings and construction detail. Additional work includes beam loading calculation, heating, insulation, sound proofing, sanitary systems, soil problems, presentation techniques, and model building techniques. Lecture 2 hours, laboratory 4 hours. Prerequisite: ARCH 120 or equivalent. Recommended preparation: ENGR 109. Note: This course may not be taken for credit by students who have completed Architecture 109. Transfer Credit: CSU

130 COMMERCIAL ARCHITECTURAL DESIGN I
3.0 Units
Architecture 130 is a study of the concepts of basic commercial building construction. Emphasis is placed on the basic planning and design of a small commercial building of concrete block construction. Current construction techniques, and applicable building codes are covered. Note: This course may not be taken for credit by students who have completed Architecture 110. Lecture 2 hours, laboratory 4 hours. Prerequisite: ARCH 102 or equivalent. Recommended preparation: ARCH 120 and ARCH 250. Transfer Credit: CSU

135 COMMERCIAL ARCHITECTURAL DESIGN II
3.0 Units
Architecture 135 is a study of the concepts of basic commercial building construction. Emphasis is placed on the basic planning and design of a small commercial building of concrete block construction. Current construction techniques, and applicable building codes are covered. Lecture 2 hours, laboratory 4 hours. Prerequisite: ARCH 130 or equivalent. Recommended preparation: ENGR 109 and ARCH 250. Note: This course may not be taken for credit by students who have completed Architecture 110. Transfer Credit: CSU

141 INTERIOR DESIGN
3.0 Units
Architecture 141 begins with the study of the floor plan and architectural background and moves through the selection and arrangement of furniture, floor, and window treatments, lighting, and accessory planning. Emphasis is placed on the use of design elements such as color, line, shape, texture, pattern, space, and their interaction with one another in the interior environment. Lecture 2 hours, laboratory 4 hours. Prerequisite: ARCH 101 or equivalent. Note: This course may not be taken for credit by students who have completed Art 141. Transfer Credit: CSU

150 BASIC RHINOCEROS APPLICATIONS
3.0 Units
Architecture 150 teaches the fundamentals of Rhinoceros software, its use as a design tool, and the ability to digitally fabricate the designs. Topics include free form modeling in the NURBS (Non-Uniform Rational B-Splines) environment, complex surface editing, digital output, rendering, creating presentations, and integrating Rhinoceros with other CAD programs and into a productive workflow. Lecture 2 hours, laboratory 4 hours. Recommended preparation: ARCH 101 or ENGR 101 or equivalent.

229 3DS MAX FOR ARCHITECTURE AND ENGINEERING
1.5 Units
Architecture 229 teaches the fundamentals of 3DS MAX and its use in the Architecture and Engineering industry. Topics include residential and commercial building walkthroughs, rendering, and lighting, adding textures and creating presentation files for residential and commercial architecture and engineering development. Lecture 1 hour, laboratory 2 hours. Prerequisite: ART 229 or equivalent. Recommended preparation: ENGR 109. Note: Current industry standard digital animation software will be used.

250 INTRODUCTION TO AUTODESK REVIT ARCHITECTURE
3.0 Units
Architecture 250 teaches the fundamentals of the latest version of Autodesk Revit Architecture design software. Projects of a residential and commercial nature are utilized. Techniques used in the creation of floor plans, section views, elevations, schedules, and other construction documents are covered. Lecture 2 hours, laboratory 4 hours. Prerequisite: ARCH 101 or equivalent. Recommended preparation: Basic knowledge of AutoCAD.
251 ADVANCED REVIT
3.0 Units
Architecture 251 teaches the advanced features of the Autodesk Revit Architecture design software and an introduction to the Revit Structure software. Projects concerning the structural design and drafting of a residential and commercial buildings are utilized. Techniques used in the creation of foundation plans, structural sections and details, and other construction documents are covered. Lecture 2 hours, laboratory 4 hours. Prerequisite: None.

ARMENIAN

101 BEGINNING ARMENIAN I
5.0 Units
Armenian 101 covers the Armenian alphabet, its letters and their sounds, and the fundamentals of Armenian grammar. Students are taught to pronunciation correctly, to acquire a practical vocabulary, and to understand, read, write and speak simple Armenian. Note: Students with oral proficiency or who have attended schools where Armenian was the language of instruction should enroll in Armenian 115. Lecture 5 hours, laboratory ½ hour. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

102 BEGINNING ARMENIAN II
5.0 Units
Armenian 102 continues the development of fundamental language skills, including comprehension, reading of simple texts in poetry and prose, and writing with a fair degree of grammatical correctness. The course teaches the speaking of everyday Armenian, and also prepares the student for more advanced work in the language. Note: This course may not be taken for credit by students who have completed Armenian 115 or 116. Lecture 5 hours, laboratory ½ hour. Prerequisite: ARMEN 101 or equivalent. Transfer Credit: CSU, UC, USC

103 INTERMEDIATE ARMENIAN I
5.0 Units
Armenian 103 includes further study of Armenian grammar, word analysis, vocabulary building, and reading and comprehension of intermediate literary texts and articles. Conversational fluency, composition writing, and familiarity with Armenian culture are the focus of this class. The class is conducted entirely in Armenian. Note: This course is offered during the Fall semester only. Lecture 5 hours, laboratory ½ hour. Prerequisite: ARMEN 102 or equivalent. Transfer Credit: CSU, UC, USC

104 INTERMEDIATE ARMENIAN II
5.0 Units
Armenian 104 reviews the fundamentals of Armenian grammar. It continues to stress word analysis and efficient methods of vocabulary building. Students will read literary texts of increasing difficulty and engage in conversation and composition, with emphasis on critical thinking. Students will evaluate various cultures in the Armenian language. Note: This course is offered during the Spring semester only. Lecture 5 hours, laboratory ½ hour. Prerequisite: ARMEN 103 or equivalent. Transfer Credit: CSU, UC, USC

110 BASIC CONVERSATIONAL ARMENIAN I
3.0 Units
Armenian 110 is an introduction to Armenian with emphasis on developing essential skills in communication. The verbal active method is used, stressing oral expression. The course develops a beginning knowledge of reading and writing in Armenian, and also introduces the student to Armenian culture. Note: Not open to students who have oral proficiency or who have attended schools where Armenian was the language of instruction. This course may not be taken for credit by students who have completed Armenian 115 and/or Armenian 116. Lecture 3 hours. Prerequisite: None.

111 BASIC CONVERSATIONAL ARMENIAN II
3.0 Units
Armenian 111 continues the improvement of communication skills acquired in Armenian 110. It further develops language skills, including the reading and comprehension of simple texts, gives a broader idea of the structure of the language, and attempts to generate interest in the Armenian culture and further study. Lecture 3 hours. Prerequisite: ARMEN 110 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

115 ARMENIAN FOR THE ARMENIAN SPEAKING I
5.0 Units
Armenian 115 provides intensive training in oral and written Armenian for students who already have a familiarity with the language but little and/or no formal instruction in it. Thus, structure of the language, basic grammar, spelling rules, vocabulary, composition, and oral communication are included. Note: This course may not be taken for credit by students who have completed Armenian 101 or 102. Students with oral proficiency or who have attended schools where Armenian was the language of instruction should enroll in Armenian 115. Lecture 5 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

116 ARMENIAN FOR THE ARMENIAN SPEAKING II
5.0 Units
Armenian 116 is a continuation of Armenian 115. Emphasis is on reading comprehension, composition, oral communication, spelling rules, intensive vocabulary, and preparation for more advanced study of the structure of the language. Note: Students who have completed Armenian 102 may not take this course for credit. Lecture 5 hours. Prerequisite: ARMEN 115 or equivalent. Transfer Credit: CSU, UC, USC

125 ANCIENT AND MEDIEVAL ARMENIAN LITERATURE
3.0 Units
Armenian 125 will provide students with a basic knowledge of Armenian literature and culture from the 5th to 19th century. Topics to be covered include the characteristics and evolution of the Armenian language, an overview of Armenian mythology, and ancient and medieval literature. Lecture 3 hours. Prerequisite: ARMEN 101 or 115 or equivalent. Transfer Credit: CSU, UC, USC

126 ARMENIAN LITERATURE IN THE ENLIGHTENMENT ERA
3.0 Units
Armenian 126 will provide students with a basic knowledge of Armenian literature from the early 19th century to the early 20th century. Topics to be covered include: the impact of the European Enlightenment on Armenian literature, secularism, language reform in the mid-19th century, classicism and romanticism in Armenian literature, Realism and critical realism in late 19th century literature. Lecture 3 hours. Prerequisite: ARMEN 101 or 115 or equivalent. Transfer Credit: CSU, UC, USC
127
20TH AND 21ST CENTURY ARMENIAN LITERATURE
3.0 Units

Armenian 127 will provide students with a basic knowledge of Armenian literature from 1910 to the present. Topics to be covered include: the revolutionary poems of the 1920's in Soviet Armenia, the so-called 'literature of nostalgia' of the post-genocide Armenian Diaspora, literary hardship and stagnation in Stalin-era Armenian literature, the moderately relaxed period of post-Stalinist Armenia, and the contemporary literature in both Armenia and Diaspora. Lecture 3 hours. Prerequisite: ARMEN 101 or 115 or equivalent. Transfer Credit: CSU, UC, USC

201
EMERGENCY ARMENIAN FOR FIREFIGHTERS
1.0 Unit

Armenian 201 prepares professionals to communicate better with the Armenian-speaking community. Students learn basic Armenian phrases and questions necessary to carry out specific job duties in their occupations, such as the language for fire scenes, still alarms, and fire-related medical concerns. Discussions will also cover cross-cultural issues that affect interactions between firefighters and the Armenian-speaking community. Lecture 1 hour. Prerequisite: None. Note: This course may be taken 2 times; a maximum of 2 units may be earned.

ART

101
ART HISTORY: PREHISTORIC-GOTHIC
3.0 Units

Art 101 is a survey of architecture, painting, sculpture, and related art forms created by early western cultures and civilizations. The visual arts of prehistoric times, Mesopotamia, ancient Egypt, Greece, and Rome and the development of Christian art from its origins through the medieval era are discussed. Emphasis is placed on integrating the development of art forms with the geographic, social, political, philosophical, and religious characteristics of these cultures. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

101H
HONORS ART HISTORY: PREHISTORIC-GOTHIC
3.0 Units

Art 101H is a survey of architecture, painting, sculpture, and related art forms created by early western cultures and civilizations. The visual arts of prehistoric times, Mesopotamia, ancient Egypt, Greece, and Rome and the development of Christian art from its origins through the medieval era are discussed. Emphasis is placed on integrating the development of art forms with the geographic, social, political, philosophical, and religious characteristics of these cultures. The honors course will be enhanced in one or more of the following ways: 1. Students will take essay exams that require analysis of artworks in terms of style, subject matter, and social and historical context. 2. Students will read assignments prior to class sessions in order to use class time more productively for further analysis and discussion of specific examples. 3. Students will read and prepare a written analysis of one or more journal articles from scholarly art historical publications. 4. Students will visit a local art museum and write an analysis of a work of art. This analysis must include a discussion of the subject matter and style of the artwork selected as well as a discussion of how it reflects the time in which the object was created. 5. Students will be required to write a traditional 5-10 page term paper on a topic relevant to the content of the course. This paper must be correctly cited and referenced. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

102
ART HISTORY: RENAISSANCE-MODERN
3.0 Units

Art 102 is a survey of western architecture, painting, and sculpture from the Renaissance to modern times. The visual arts of the Renaissance, Baroque, and Modern periods in Europe and the United States are discussed. Emphasis is placed on integrating the development of art forms with the geographic, social, political, philosophical, and religious characteristics of these cultures. The honors course will be enhanced in one or more of the following ways: 1. Students will take essay exams that require analysis of artworks in terms of style, subject matter, and social and historical context. 2. Students will read assignments prior to class sessions in order to use class time more productively for further analysis and discussion of specific examples. 3. Students will read and prepare a written analysis of one or more journal articles from scholarly art historical publications. 4. Students will visit a local art museum and write an analysis of a work of art. This analysis must include a discussion of the subject matter and style of the artwork selected as well as a discussion of how it reflects the time in which the object was created. 5. Students will be required to write a traditional 5-10 page term paper on a topic relevant to the content of the course. This paper must be correctly cited and referenced. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

102H
HONORS ART HISTORY: RENAISSANCE-MODERN
3.0 Units

Art 102H is a survey of western architecture, painting, and sculpture from the Renaissance to modern times. The visual arts of the Renaissance, Baroque, and Modern periods in Europe and the United States are discussed. Emphasis is placed on integrating the development of art forms with the geographic, social, political, philosophical, and religious characteristics of these cultures. The honors course will be enhanced in one or more of the following ways: 1. Students will take essay exams that require analysis of artworks in terms of style, subject matter, and social and historical context. 2. Students will read assignments prior to class sessions in order to use class time more productively for further analysis and discussion of specific examples. 3. Students will read and prepare a written analysis of one or more journal articles from scholarly art historical publications. 4. Students will visit a local art museum and write an analysis of a work of art. This analysis must include a discussion of the subject matter and style of the artwork selected as well as a discussion of how it reflects the time in which the object was created. 5. Students will be required to write a traditional 5-10 page term paper on a topic relevant to the content of the course. This paper must be correctly cited and referenced. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

103
ANCIENT ART
3.0 Units

Art 103 is a survey of the architecture, painting and sculpture from their origins in prehistoric times through their development in ancient Egypt and Mesopotamia. The impact of these works on today's art is also considered. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

104
GREEK AND ROMAN ART
3.0 Units

Art 104 provides an in-depth study of the architecture, painting, and sculpture of ancient Greece and Rome. Emphasis is placed on the interaction of religious ideas, economic trends, philosophy, and politics of the period and the art objects that are produced during the time period. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

<tbody>
<tr>
<td>105</td>
<td>MEDIEVAL ART</td>
<td>3.0</td>
<td>Art 105 is a survey of the architecture, painting, and sculpture of the period between ancient Rome and the Renaissance. It introduces the student to the philosophical ideas, economic trends, and political events that produced the art of the period. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC</td>
<td>None.</td>
<td>CSU, UC, USC</td>
</tr>
<tr>
<td>106</td>
<td>RENAISSANCE/BAROQUE ART</td>
<td>3.0</td>
<td>Art 106 is a survey of the art, sculpture and architecture in the West from the early Renaissance through the Baroque periods (1300-1750). Emphasis is placed on the interaction of religious ideas, economic trends, philosophy and politics of the period and the art objects that were produced during this time period. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC</td>
<td>None.</td>
<td>CSU, UC, USC</td>
</tr>
<tr>
<td>107</td>
<td>MODERN ART</td>
<td>3.0</td>
<td>Art 107 is a survey of the growth of Nineteenth and Twentieth Century trends in painting, sculpture, and architecture in Europe and the United States. It explores the relationship between contemporary art and our historical and social values. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC</td>
<td>None.</td>
<td>CSU, UC, USC</td>
</tr>
<tr>
<td>108</td>
<td>ART OF THE EASTERN WORLD I</td>
<td>3.0</td>
<td>Art 108 is a survey of the sculpture, painting, and architecture of India, China, Japan, Korea, and Persia from prehistoric times to 1200 A.D. It includes an introduction to the religious, philosophical, social and political ideas which influenced the art of these regions and times. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC</td>
<td>None.</td>
<td>CSU, UC, USC</td>
</tr>
<tr>
<td>109</td>
<td>ART OF THE EASTERN WORLD II</td>
<td>3.0</td>
<td>Art 109 is a survey of the sculpture, painting, and architecture of India, China, Southeast Asia, Japan, and the Islamic expansion in the Near East and Spain. The philosophical, social, and political ideas that produced Oriental art from 1200-1850 are considered. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC</td>
<td>None.</td>
<td>CSU, UC, USC</td>
</tr>
<tr>
<td>110</td>
<td>ART/MUSIC APPRECIATION (Also listed as Music 110)</td>
<td>3.0</td>
<td>Art 110 is a team-taught course which provides a comparative historical overview of western art and music from the prehistoric era to the present. This introductory course presents influential figures in each period and analyzes important influences on their work. The relationship between music and art is explored, along with changing trends in thought and techniques. Note: This course may not be taken for credit by students who have completed Music 110. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC</td>
<td>None.</td>
<td>CSU, UC, USC</td>
</tr>
<tr>
<td>111</td>
<td>HISTORY OF WORLD CERAMICS</td>
<td>3.0</td>
<td>Art 111 is a survey of the most important and influential periods of pre-historic, Mediterranean, European, Middle Eastern, Pre-Columbian, and Asian ceramic art. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC</td>
<td>None.</td>
<td>CSU, UC, USC</td>
</tr>
<tr>
<td>112</td>
<td>PRECOLUMBIAN ART OF THE AMERICAS</td>
<td>3.0</td>
<td>Art 112 is a study of the arts of Pre-Columbian Mesoamerica and Andean South America. Major monuments of sculpture, architecture, ceramics, and textiles from civilizations including the Maya, Aztec, and Inca are examined in their cultural contexts. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC</td>
<td>None.</td>
<td>CSU, UC, USC</td>
</tr>
<tr>
<td>113</td>
<td>AMERICAN ART</td>
<td>3.0</td>
<td>Art 113 is a survey of art covering major artists, stylistic movements, and cultural trends within the borders of the United States from the Colonial period to WWII. Emphasis is placed on the relationship between art of the United States and European culture, as well as the indigenous influences directing the artistic tradition. The course will concentrate on integrating the development of art forms with the geographic, social, political, philosophical and religious character of the culture. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC</td>
<td>None.</td>
<td>CSU, UC, USC</td>
</tr>
<tr>
<td>115</td>
<td>SURVEY OF NON-WESTERN ART HISTORY</td>
<td>3.0</td>
<td>Art 115 is a survey of the art outside the western European tradition, focusing on the major artistic traditions of Africa, Asia, Oceania, North America, and South America from ancient times up to the impact of European contact. The course will focus on the role of visual arts in non-western cultural perspectives, including models of sacred ritual, social authority, medium, and of the human form. Emphasis will be placed on recognition of major art works, their artistic traditions, and of what these reveal about the cultural norms and attitudes that produced them. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC</td>
<td>None.</td>
<td>CSU, UC, USC</td>
</tr>
<tr>
<td>116</td>
<td>ART OF AFRICA, OCEANIA, AND NORTH AMERICA</td>
<td>3.0</td>
<td>Art 116 is an introduction to the art of primitive Africa, Australia, New Guinea and North America. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC</td>
<td>None.</td>
<td>CSU, UC, USC</td>
</tr>
<tr>
<td>117</td>
<td>WOMEN IN VISUAL ARTS</td>
<td>3.0</td>
<td>Art 117 is an introduction to the history of women as artists in European and American traditions. Women's roles in non-Western cultures are also discussed as well as images of women in art. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC</td>
<td>None.</td>
<td>CSU, UC, USC</td>
</tr>
<tr>
<td>118</td>
<td>CONTEMPORARY ART</td>
<td>3.0</td>
<td>Art 118 is a survey of contemporary art from 1945 to the present. The origins and full development of postmodern and subsequent aesthetic philosophies in the United States and Europe are discussed. Emphasis is placed on the emergence of non-traditional media, as well as painting and sculpture, within the social and political characteristics of the contemporary world. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC</td>
<td>None.</td>
<td>CSU, UC, USC</td>

</table>
120 HISTORY OF WESTERN ARCHITECTURE FROM PREHISTORY TO 1300 3.0 Units
Art 120 follows the historical development of western architecture from prehistory to ca. 1300. Sites, buildings, and design will be examined in the context in which they were produced. Selected periods and cultures covered include: the ancient Near East and Egypt, Aegean and Greece, Etruscan and Roman, Early Christian and Byzantine, Islamic, Carolingian and Ottonian, Romanesque, and Gothic. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

121 HISTORY OF ARCHITECTURE II 3.0 Units
Art 121 is a survey course of architectural styles from the Renaissance to the present. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

124 SOUTHERN CALIFORNIA ART MUSEUMS 1.0 Unit
Art 124 is an introduction to the history of art museums, specifically the Southern California Art Museums. The course covers collections, current exhibitions, conservation of artifacts and administrative functions. There are guided visits to: The J. Paul Getty Museum’s Greek and Roman art collection as well as research, conservation and administration departments, The Huntington Library Art Museum’s educational setting for and collection of Eighteenth Century English art, The Norton Simon Collection, and The Los Angeles County Museum of Art’s major current exhibit. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

125 HISTORY OF MOTION PICTURES 3.0 Units
Art 125 is the historical and aesthetic introduction to the appreciation of motion pictures through the analysis of audio and visual techniques which can make the film an expressive means of communication. Selected motion pictures are screened. Note: Each week students will be required to see one film chosen from the instructor’s list of pertinent films available on television and in local theaters. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

130 DESIGN I 3.0 Units
Art 130 is an introduction to the structure of two-dimensional art. This course provides fundamental understanding and control of the elements of design and the principles by which they can be related to solving design problems. The course is basic for art students and is helpful to students in related fields. Note: Students receiving a score of 4 or 5 on the Advanced Placement Examination (CEEB) in Studio Art may be given credit for Art 130 and Art 150 at Glendale Community College contingent upon approval of their portfolio by the art faculty. Lecture 2 hours, studio 2 hours. Prerequisite: None. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer Credit: CSU, UC, USC

131 DESIGN II 3.0 Units
Art 131 is advanced study in two-dimensional art structure. The study is developed in a series of problems. Some problems concentrate on advanced color study, some on space manipulation, some on understanding (through practice) the current concepts at work in the fine and decorative art fields. Whenever possible problems reflect directions dominating the current art scene. Lecture 2 hours, studio 2 hours. Prerequisite: ART 130 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer Credit: CSU, UC, USC

132 TYPOGRAPHY I 3.0 Units
Art 132 is an introduction to basic composition and principles of typography. The course includes a survey of type from its origins to current technology and an introduction to typographic nomenclature and type specification. Using hand skills and the Macintosh computer, projects focus on typographic design, resonance and composition. Students develop skills regarding visually interesting letter forms and their uses in typographic design. Critiques of final art projects focus on appropriate solutions, visual interest, and craftsmanship. Lecture 2 hours, studio 2 hours. Prerequisite: ART 130 or equivalent. Transfer Credit: CSU

133 DIGITAL ILLUSTRATION 3.0 Units
Art 133 is a beginning level digital illustration course. Students explore illustration style, problem solving, and the creative use of Adobe Illustrator on the Macintosh computer. Students create projects using course information. The course covers various problem-solving methods, appropriate solutions for spot illustrations, and basic Illustrator tools: palettes, creating and converting anchor points, creating and reshaping paths, basic coloring, gradients, layers, and creating, styling, and editing type. Lecture 2 hours, studio 2 hours. Prerequisite: ART 130 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

134 GRAPHIC DESIGN FOUNDATIONS 3.0 Units
Art 134 is an introduction to the tools and techniques of graphic design problem solving. The history of graphic design will be integrated as a foundation for current technique. Graphic design software applications on the Macintosh platform and various output techniques are utilized for the final production of assigned projects. Projects will explore aspects of graphic imagery, typography, and layout. Presentation skills necessary to communicate with future clients are introduced. Critiques focus on appropriate solutions, visual interest and craftsmanship. Lecture 2 hours, studio 2 hours. Prerequisite: ART 130 or equivalent. (ART 130 may be taken concurrently.) Transfer Credit: CSU

135 GRAPHIC DESIGN LAYOUT SOFTWARE 3.0 Units
Art 135 focuses on the principles of graphic design using the computer to create layouts that would be used in print media. Emphasis is placed on industry standard software such as Adobe InDesign and QuarkXPress on the Macintosh platform. Students integrate typography and graphics to create a variety of projects that explore the technical and aesthetic nature of graphic design. The creation of portfolio level work is stressed throughout the course. Verbal and visual presentation skills necessary to communicate with future clients are emphasized. Critiques focus on appropriate solutions, visual interest and craftsmanship. Lecture 2 hours, studio 2 hours. Prerequisite: ART 134 or equivalent. Transfer Credit: CSU
136 GRAPHIC DESIGN IDENTITY AND LOGO DESIGN
2.5 Units
Art 136 is a course that focuses on the creation of logos for use as a distinctive symbol of a company, object, publication, person, service, or idea. Emphasis is placed on the basic graphic design principles of typography and color as well as overall layout, to create effective visual communication. The creation of portfolio level work is stressed throughout the course. During class critiques of assigned projects, the verbal and visual presentation skills necessary to communicate with future clients are prioritized. Critiques focus on appropriate solutions, visual interest, and craftsmanship. Lecture 2 hours, studio 1 hours. Prerequisite: ART 135 or equivalent. Transfer Credit: CSU

137 GRAPHIC DESIGN PORTFOLIO
2.5 Units
Art 137 includes extensive study of visual communication and graphic identities. Course projects provide in-depth investigation of problem solving strategies and design fundamentals used in the creative process of design. Through the development and synthesis of concept, image, and text, students begin to formulate a personal language to express a personal vision. Multi-faceted projects continue the students' development of problem solving and project management skills. The most appropriate computer software, hand tools, and techniques are used to produce portfolio quality designs. During class critiques of final art projects the verbal and visual presentation skills needed to communicate with future clients are emphasized. Critiques focus on appropriate solutions, visual interest, and craftsmanship. Lecture 2 hours, studio 1 hours. Prerequisite: ART 135 or equivalent. Transfer Credit: CSU

138 THREE-DIMENSIONAL DESIGN
3.0 Units
Art 138 offers the study of space and form relationships expressed three dimensionally in line, plane, volume, texture and color, and the interaction of these basic design elements. Experiences are provided in various materials appropriate to three dimensional considerations with emphasis on design concepts and mastery of technical skills. This course is required for art majors and recommended for students of graphic and industrial design, architecture, interior and environmental design, stage design, and related fields. Lecture 2 hours, studio 2 hours. Recommended preparation: ART 130. Transfer Credit: CSU, UC, USC

139 INTRODUCTION TO PRE-PRESS
3.0 Units
Art 139 is an introduction to pre-press for those desiring retraining and those entering the field. Current pre-press concerns and trends are analyzed and discussed. Topics include: computer software and hardware, chromatics, images, documents, networks and communication, output, reviewing and proofing, paper, and printing. Lecture 2 hours, studio 4 hours. Prerequisite: None. Note: This course may be taken 3 times; a maximum of 9 units may be earned.

140 INTERIOR DESIGN
3.0 Units
Art 140 begins with the study of the floor plan and architectural background and moves through the selection and arrangement of furniture, floor, and window treatments, lighting, and accessory planning. Emphasis is placed on the use of design elements such as color, line, shape, texture, pattern, space, and their interaction with one another in the interior environment. Lecture 3 hours. Recommended preparation: ART 130. Note: This course may not be taken for credit by students who have completed Architecture 141. Transfer Credit: CSU

141 GRAPHIC DESIGN PROJECTS
3.0 Units
Art 141 emphasizes graphic design solutions and professional digital file preparation so that students will be able to communicate their designs effectively and professionally to a printer. Advanced graphic design problem solving techniques such as the use of typography and page layout and imagery are integrated throughout the course. Graphic design software applications on the Macintosh platform will be utilized in the creation of a series of assigned projects. Critiques focus on appropriate solutions, visual interest, and craftsmanship. Lecture 2 hours, studio 2 hours. Prerequisite: ART 136 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

142 GRAPHIC DESIGN PROJECTS
3.0 Units
Art 142 focuses on graphic design solutions and professional digital file preparation so that students will be able to communicate their designs effectively and professionally to a printer. Advanced graphic design problem solving techniques such as the use of typography and page layout and imagery are integrated throughout the course. Graphic design software applications on the Macintosh platform will be utilized in the creation of a series of assigned projects. Critiques focus on appropriate solutions, visual interest, and craftsmanship. Lecture 2 hours, studio 2 hours. Prerequisite: ART 136 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

143 COLOR THEORY & APPLICATION
3.0 Units
Art 143 is an introductory course in color theory and application designed to meet the needs of art/non-art majors and minors in related fields of study such as: drama, music, production, apparel design, architecture, interior design, set design, lighting, fabric design, advertising and poster art. This course also deals with the nature and properties of color, its expressive potential and symbolic qualities. Lecture 2 hours, laboratory 2 hours. Recommended preparation: ART 130. Transfer Credit: CSU

144 VISUAL LITERACY
3.0 Units
Art 144 is an introduction to the creative problem solving process. This course provides students with a fundamental understanding of strategies for achieving creative and innovative solutions which emphasize personal interpretation and expression. Students analyze various modes of problem solving, image generation, and image combination to select the appropriate mode for creating visual imagery. Projects introduce the use of metaphor, cliche’, symbol, art history, and signifiers in art conceptualization. Lecture 2 hours, studio 4 hours. Recommended preparation: ART 130. Transfer Credit: CSU, UC, USC

145 PUBLICATION DESIGN I
3.0 Units
Art 145 provides students with training and experience in developing and designing printed publications. Current publication design trends are analyzed and discussed. Topics include book typography, grids, parts of a book, and imposition techniques. Lecture 2 hours, studio 4 hours Prerequisite: ART 130 and 132 (ART 132 may be taken concurrently). Recommended preparation: Eligibility for ENGL 120 or ESL 151.

146 PUBLICATION DESIGN II
3.0 Units
Art 146 provides students with training and experience in production techniques for publications. Current publication production techniques are analyzed and discussed. Topics include ink, bookbinding, papers, and imposition techniques. Lecture 2 hours, studio 4 hours. Prerequisite: ART 147 or equivalent. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Note: This course may be taken three times; a maximum of 9 units may be earned.
150

**DRAWING I**

3.0 Units

Art 150 is a basic drawing course dealing with the fundamentals of pictorial organization. The various means of representing the three-dimensional aspects of forms on a flat surface are emphasized. Drawings for this course are normally size 18" x 24" unless otherwise specified for special projects. Lecture 2 hours, studio 2 hours. **Recommended preparation:** ART 130 or equivalent. **Note:** This course may be taken 2 times; a maximum of 6 units may be earned. Students receiving a score of 4 or 5 on the Advanced Placement Examination (CEEB) in Studio Art may be given credit for Art 150 at Glendale Community College contingent upon approval of their portfolio by the art faculty. **Transfer Credit:** CSU, UC, USC

151

**DRAWING II**

3.0 Units

Art 151 is a second semester drawing course designed to enable students to further their abilities in drawing forms in depth, composition, and various drawing techniques. Lecture 2 hours, studio 2 hours. **Prerequisite:** ART 150 or equivalent. **Note:** This course may be taken 2 times; a maximum of 6 units may be earned. **Transfer Credit:** CSU, UC, USC

152

**LIFE DRAWING I**

3.0 Units

Art 152 is a beginning course in drawing the figure from life. Quick drawings, as well as progressively longer drawings are done to explore the relationship of movement to form. Emphasis is placed on personal expression and interpretation as well as on proportion and structure. Special studies in artistic anatomy are also developed. This course is recommended for all art majors. Lecture 2 hours, studio 2 hours. **Prerequisite:** ART 150 or equivalent. (ART 150 may be taken concurrently.) **Recommended preparation:** ART 130. **Transfer Credit:** CSU, UC, USC

153

**LIFE DRAWING II**

3.0 Units

Art 153 is the continuation of basic studies in drawing the figure from life. Emphasis is placed on using the figure in compositions. Creative use of the figure is stressed. Drawings should extend beyond "studies" and become personal statements. Increases emotional expression in drawings. Students may do one or more problems in three dimensions. Lecture 2 hours, studio 2 hours. **Prerequisite:** ART 153 or equivalent. **Transfer Credit:** CSU, UC, USC

154

**ADVANCED LIFE DRAWING I**

3.0 Units

Art 154 is the continuation of basic studies in drawing the figure from life. Emphasis placed on using the figure in compositions. Creative use of the figure is stressed. Drawings should extend beyond "studies" and become personal statements. Increases emotional expression in drawings. Students may do one or more problems in three dimensions. Lecture 2 hours, studio 2 hours. **Prerequisite:** ART 154 or equivalent. **Transfer Credit:** CSU, UC, USC

155

**ADVANCED LIFE DRAWING II**

3.0 Units

Art 155 is the continuation of basic studies in drawing the figure from life. Figure compositions are stressed. Students are encouraged to use the figure in creative and expressive drawings. A major project is required, this may follow an avenue of individual interest. Lecture 2 hours, studio 2 hours. **Prerequisite:** ART 154 or equivalent. **Transfer Credit:** CSU, UC, USC

156

**ILLUSTRATION I**

3.0 Units

Art 156 is designed to acquaint the student with various types of illustration such as book, movie poster, editorial, spot, and magazine story. Emphasis is placed on learning a number of specific techniques which enable the student to work quickly while achieving a professional look. A variety of media is explored. The focus of this course is fine arts rather than technical or product illustration. Lecture 2 hours, studio 2 hours. **Prerequisite:** None. **Note:** This course may be taken 2 times; a maximum of 6 units may be earned. **Transfer Credit:** CSU

157

**GALLERY STUDIES/ART PRESENTATION**

3.0 Units

Art 157 is an introduction to the principles and practices for gallery/museum presentations of various art media. The course includes: basic preparator and curatorial work, installation techniques in a professional gallery setting utilizing various art media, publicity, administrative and curatorial tasks and procedures. Also included is the development of a personal artist statement, resume, visual materials and a cover letter for individual portfolio presentation. Lecture 2 hours, studio 4 hours. **Prerequisite:** None. **Note:** This course may be taken 2 times; a maximum of 6 units may be earned. **Transfer Credit:** CSU

158

**LIFE DRAWING LABORATORY**

1.0 Unit

**NON-DEGREE APPLICABLE**

Art 158 enables life drawing students to have additional supervised life drawing studio time, and to increase their technical drawing and design skills relative to current enrollment in a life drawing course. Studio 4 hours. **Corequisite:** Enrollment in one of the following: ART 152, 153, 154, 155, 201, 205, or 206. **Note:** This course may be taken 4 times; a maximum of 4 units may be earned.

160

**PAINTING I**

3.0 Units

Art 160 develops skill, technique, and composition in drawing and painting, using media such as oils and acrylics. Problems include representation and abstraction. Lecture 2 hours, studio 2 hours. **Prerequisite:** ART 150 or equivalent. (ART 150 may be taken concurrently.) **Recommended preparation:** ART 130. **Transfer Credit:** CSU, UC, USC

161

**PAINTING II**

3.0 Units

Art 161 is the application of principles, theories and techniques of drawing and painting to problems of still life, figure, landscape, and non-objective painting. Lecture 2 hours, studio 2 hours. **Prerequisite:** ART 160 or equivalent. **Transfer Credit:** CSU, UC, USC

162

**ADVANCED PAINTING I**

3.0 Units

Art 162 applies the principles of painting developed in Art 161 and 162 to the more advanced student. Contemporary concepts in painting are explored. Individual assignments are given which emphasize personal interpretation and expression. Lecture 4 hours, studio 2 hours. **Prerequisite:** ART 161 or equivalent. **Recommended preparation:** ART 151. **Transfer Credit:** CSU, UC, USC

163

**ADVANCED PAINTING II**

3.0 Units

Art 163 is a continuation of Art 162. Special problems are assigned to the student on an individual basis. Painting problems may include figure painting and the figure in relation to architectural forms. The student is encouraged to work from imagination as well as from direct visual experience. Field trips to museums and galleries are included in the course of instruction. Lecture 2 hours, studio 2 hours. **Prerequisite:** ART 162 or equivalent. **Transfer Credit:** CSU, UC, USC
164 WATER COLOR I
3.0 Units
Art 164 is a study of the water color medium and techniques. The problems of painting are directed with a regard for the special qualities of water color. Class problems include various approaches to landscape painting, still-life, and figure painting. Other problems emphasizing abstraction and non-objective painting are explored. Outdoor painting trips are used to help gain experience and skill in landscape painting. Lecture 2 hours, studio 2 hours. Prerequisite: ART 150 or equivalent. (ART 150 may be taken concurrently.) Recommended preparation: ART 130. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer Credit: CSU, UC, USC

165 WATER COLOR II
3.0 Units
Art 165 is a continuation of the study of water color painting for the more advanced student. The application of general principles and theories of painting in reference to the special qualities of the water color medium is expanded. Class problems include experimentation of a variety of techniques and stylistic approaches. Individual interpretation and expression are encouraged. Lecture 2 hours, studio 2 hours. Prerequisite: ART 164 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer Credit: CSU, UC, USC

170 PRINTMAKING I
3.0 Units
Art 170 is an introduction to various printing processes including linoleum cuts, woodcuts, engraving, drypoint, etching, and aquatint. Creative personal approaches to printmaking are encouraged. Technical and expressive qualities of the various media are explored. Lecture 2 hours, studio 2 hours. Prerequisite: ART 130 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer Credit: CSU, UC, USC

171 PRINTMAKING II
3.0 Units
Art 171 explores various approaches and techniques of intaglio printing with special emphasis on color printing. Lecture 2 hours, studio 2 hours. Prerequisite: ART 170 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer Credit: CSU, UC, USC

172 LITHOGRAPHY I
3.0 Units
Art 172 is an introduction to the techniques and methods of lithography using metal plates as well as stone. This first semester course in lithography deals primarily with black and white as the graphic foundation for lithography. The student is encouraged to explore the creative possibilities of the medium and its wide variety of expressive qualities. Lecture 2 hours, studio 2 hours. Prerequisite: ART 171 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer Credit: CSU, UC, USC

173 LITHOGRAPHY II
3.0 Units
Art 173 explores various approaches to color printing involving multiple plates as well as stones. Lecture 2 hours, studio 2 hours. Prerequisite: ART 172 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer Credit: CSU, UC, USC

174 SILK SCREEN PRINTING
3.0 Units
Art 174 is an introduction to silk screen printing. The course includes preparation of equipment, various methods of stencil preparation, printing on paper and cloth and printing with a variety of paints and dyes. The first two or three problems are designed for all beginning students. The following projects provide options for choice. Students may choose an option that relates to their personal interests and career plans. The range of these optional project choices includes fine arts, graphic arts, decorative arts, and artist craftman type projects. In the second semester, students are encouraged to do more challenging projects. Each new project provides a gain in the student’s command of screen printing techniques. Individual interests are used to personalize the instruction to the maximum. Lecture 2 hours, studio 2 hours. Recommended preparation: ART 130. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer Credit: CSU, UC, USC

175 SILK SCREEN PRINTING
3.0 Units
Art 175 is an advanced study of silk screen printing. The course includes the preparation of specialized equipment and research and experimentation to encourage creative use of the medium. Challenging problems are selected which relate to the personal interests of each student. Lecture 2 hours, studio 2 hours. Prerequisite: ART 174 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer Credit: CSU, UC, USC

180 SCULPTURE I
3.0 Units
Art 180 is a series of sculptural problems in relief and in the round, which leads the student through exploratory investigations of various media and techniques, such as clay modeling, plaster, and stone carving, construction and assemblage. Emphasis is on problems of historical and contemporary interest and importance. This course is recommended for art majors and pre-dental, industrial design, and stage design students. Lecture 2 hours, studio 2 hours. Recommended Preparation: ART 130 and ART 138. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer Credit: CSU, UC, USC

181 SCULPTURE II
3.0 Units
Art 181 allows the student to continue explorations into the sculptural discipline. A series of sculptural problems, including modeling the complete figure in clay, building three-dimensional forms with plaster and wire armature, carving in hard stone such as alabaster, carving in wood, construction and assemblage, and mixed media are studied in depth. Emphasis is on mastery of technique, further development of aesthetic and conceptual consideration, and self-motivation. The instructor works with each student on an individual basis to provide technical and conceptual assistance. Lecture 2 hours, studio 2 hours. Prerequisite: ART 180 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer Credit: CSU, UC, USC
186 CERAMICS I 
3.0 Units

Art 186 is an introductory study in the field of ceramics. Students will learn various forming techniques, with an emphasis on wheel throwing and the production of functional pottery forms. Surface design techniques, such as stamping, carving, slip and oxide decoration, wax resist and glaze application methods will be covered. Introductory clay and glaze composition are covered as well as basic kiln design. Lecture 2 hours, studio 4 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

187 CERAMICS II 
3.0 Units

Art 187 is a continued study in the fundamentals of the ceramic process that focuses on wheel throwing techniques. These skills are sharpened by concentrated exercises to increase the student’s ability to produce work of greater quality, size, and range of form. Students will research, formulate, and test a glaze of their own choice. Various methods of firing ceramic vessels will be explored. Lecture 2 hours, studio 4 hours. Prerequisite: ART 186 or equivalent. Transfer Credit: CSU, UC, USC

188 ADVANCED CERAMICS I 
3.0 Units

Art 188 is an advanced course involving work on the potter’s wheel requiring consistency and accuracy of results. Students learn how to create ceramic vessels of matching sizes and shapes by designing and forming multiples and sets of objects. Awareness of three-dimensional form and surface design are heightened by individual and group critiques. The students work towards a more individual statement by further experimentation with a variety of clay bodies, glazes, and firing techniques. Under supervision the students assist in the loading and firing of kilns. Lecture 2 hours, studio 4 hours. Prerequisite: ART 187 or equivalent. Transfer Credit: CSU, UC, USC

189 ADVANCED CERAMICS II 
3.0 Units

Art 189 is a course designed for the advanced student who wishes to pursue an individual direction in depth. Students propose a semester research project, concentrating on specific techniques, materials, and firing procedures. Upon instructor approval of the proposal, students are expected to work semi-independently, formulating personal clay bodies, glazes, and firing techniques. Reading and research assignments will be made where applicable. A written analysis of a current ceramic exhibition is required. Lecture 2 hours, studio 4 hours. Prerequisite: ART 188 or equivalent. Note: This course may be taken 3 times; a maximum of 9 units may be earned. Transfer Credit: CSU, UC, USC

190 CERAMIC HANDBUILDING 
3.0 Units

Art 190 is an introduction to basic ceramic hand-building techniques and processes. Traditional methods of forming, joinery and construction are introduced. Students learn to design and analyze functional and non-functional objects. The class explores traditional hand-built pottery, as well as contemporary, expressive hand-built forms. Lecture 2 hours, studio 4 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

191 ADVANCED CERAMIC HANDBUILDING 
3.0 Units

Art 191 allows students to explore complex problems of design and construction. They work with the ceramic medium in conjunction with other materials while exploring possibilities of designing for architecture. In-depth studies of surface design and decorative techniques are included. Lecture 1 hour, studio 5 hours. Prerequisite: ART 190 or equivalent. Note: This course may be taken 3 times; a maximum of 9 units may be earned. Transfer Credit: CSU, UC, USC

192 EARTHENWARE 
3.0 Units

Art 192 is an intermediate course in ceramics dealing specifically with earthenware, or low-fired ceramics. A variety of forming techniques are studied, including slab and wheel. Students experiment with earthenware clay bodies, glazes, underglazes, and slips. Specific projects will include glaze formulation and testing, underglazing, majolica (in-glaze painting), and overglazing (lusters, china paints, and decals). Students learn how to load an electric kiln. Students repeating the class learn how to fire an electric kiln. Lecture 2 hours, studio 4 hours. Prerequisite: ART 186 or 190 or equivalent. Recommended preparation: ART 130. Transfer Credit: CSU, UC, USC

193 RAKU 
3.0 Units

Art 193 is an introductory course in ceramics dealing exclusively with the raku firing process. Projects are drawn from a variety of forming methods including coil, slab, pinch, and wheel, which are fired by the Japanese raku process. Students also prepare raku clays and glazes to use in the execution of their projects. Lecture 2 hours, studio 4 hours. Prerequisite: ART 186 or 190 or equivalent. Recommended preparation: ART 130. Note: This course may be taken 4 times; a maximum of 12 units may be earned. Transfer Credit: CSU, UC, USC

195 GLAZE CALCULATION 
3.0 Units

Art 195 is an introduction to basic glaze and clay calculation. The students learn to calculate molecular weights, empirical formula, unity formula, and batch formula. Students use general glaze theory with calculating procedures to analyze and substitute (or create from beginning) glazes and clay bodies. The course involves simple arithmetical computations and includes certain ceramic laboratory skills and safety precautions for handling chemicals. This course prepares the vocational student for employment in the ceramic industry. Lecture 2 hours, studio 4 hours. Prerequisite: ART 187 or 191. Note: This course may be taken 4 times; a maximum of 12 units may be earned. Transfer Credit: CSU, UC, USC

199 HISTORY OF PHOTOGRAPHY 
3.0 Units

Art 199 is a survey of international photography from its beginnings through contemporary developments in the field. Students examine photography as a medium of artistic and social communication. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC
201 DRAWING FOR ANIMATION
3.0 Units
Art 201 introduces students to drawing for animation. Learning to draw from the imagination is a primary goal of this course. Students will learn to analyze and construct the human figure and animals as well as to create environments for animated characters. Topics to be discussed include gesture and attitude drawing, structure, weight, anatomy, and perspective. Drapery and lighting will also be discussed. Lecture 2 hours, studio 2 hours. Prerequisite: ART 152 or equivalent. Recommended preparation: ART 130. Note: This course may be taken 2 times; a maximum of 6 units may be earned. Transfer Credit: CSU

205 FUNDAMENTALS OF ANIMATION I
3.0 Units
Art 205 provides students with instruction in the fundamental principles of traditional animation with a focus on timing. Students will learn to apply drawing and observation skills to a series of animation pencil tests. Principles such as squash and stretch, overlapping action, and anticipation will be discussed. Other topics include creating effective key poses and attitude drawings. Lecture 2 hours, studio 2 hours. Prerequisite: ART 201 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

206 FUNDAMENTALS OF ANIMATION II
3.0 Units
Art 206 provides students with the opportunity to conceive and execute an animated short film, which requires the student to use representational skills in service of expressing a well-designed story idea. Lecture 2 hours, studio 4 hours. Prerequisite: ART 205 or equivalent. Recommended preparation: ART 130. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

207 ANIMATION PRE-PRODUCTION
3.0 Units
Art 207 provides students the opportunity to build upon their knowledge of the fundamental concepts and techniques of classical animation. Students learn the procedures involved in developing a creative idea in a situation modeled on the professional animation film production process. Emphasis is placed on developing interesting characters in a simple story. Lecture 2 hours, studio 2 hours. Prerequisite: ART 206 or equivalent.

208 ANIMATION PRODUCTION
3.0 Units
Art 208 offers the student experience with the production and post-production aspects of creating a traditional character animated project. Students learn the procedures involved in bringing a creative idea from concept to final product. The focus of the semester is the creation of a short film in a pencil-test format. Lecture 2 hours, studio 2 hours. Prerequisite: ART 207 or equivalent.

209 INTRO TO CHARACTER DESIGN
3.0 Units
Art 209 introduces students to character design for animation. Students explore and develop traits of particular characters and particular archetypes. Students draw from life as well as from the imagination. Topics to be discussed include shape, silhouette, color, caricature, underlying structure, and costume. Students will be expected to keep a sketchbook and to create model sheets for their own personal designs. Lecture 5 hours. Prerequisite: None.

210 INTRODUCTION TO ANIMATION STORYBOARD
3.0 Units
Art 210 prepares students to analyze scripts and to represent stories visually for animation. Students explore how elements of cinematic storytelling such as composition, staging and editing are used to support and enhance story. Acting for animation and how staging and editing are used to support and enhance story will be discussed. Lecture 2 hours, studio 2 hours. Recommended preparation: ART 130, 205, 206, ENGL 115 or 116, and TH ART 103. Note: This course may be taken 4 times; a maximum of 12 units may be earned.

218 INTERACTIVE MULTIMEDIA II
(Also listed as CS/IS 218/Media Arts 218)
3.0 Units
Art 218 provides students with advanced training and experience in the creation of interactive multimedia programs. Industry standard software, such as Macromedia Director, is used with primary emphasis placed on the authoring process. Topics covered in the course include: Lingo scripting, interface design, navigation principles, cross-platform development, integration of audio, video, animated and virtual reality (VR) elements, and distribution for CD-ROM, DVD, and the Internet. Students create their own multimedia CD-ROM as a final project. Lecture 2 hours, laboratory 4 hours. Prerequisite: MEDIA 111 or CS/IS 111. Recommended preparation: ART 146, 220, and MEDIA 101. Note: This course may not be taken for credit by students who have completed Computer Science/Information Systems 218 or Media Arts 218.
229 INTRODUCTION TO 3D STUDIO MAX
1.5 Units
Art 229 teaches the fundamentals of 3DS MAX. Students will acquire basic modeling, rendering, lighting, texturing, and animation skills. Issues associated with creating presentation files for product development will be discussed. Note: Current industry standard digital animation software will be used. Lecture 1 hour, studio 2 hours. Recommended preparation: Basic computer skills.

230 INTRODUCTION TO 3D COMPUTER GRAPHICS
3.0 Units
Art 230 introduces students to the Maya user interface and essential modeling, rendering, character set up, and animation tools and techniques. This course is intended to provide the student with an understanding of theoretical concepts required for future projects. Note: Current industry standard digital animation software will be used. Lecture 2 hours, studio 4 hours. Recommended preparation: CABOT 206 and ART 152.

231 INORGANIC MODELING
3.0 Units
Art 231 provides instruction in the modeling of inorganic objects, such as vehicles, furniture, or buildings. Students learn to apply polygon and non-uniform rational b-spline (NURBS) modeling techniques to create game-ready or cinema-ready three-dimensional objects. Methods of optimizing geometries for output will be covered. Note: Current industry standard digital animation software will be used. Lecture 2 hours, studio 4 hours. Prerequisite: ART 230 or equivalent.

232 ORGANIC MODELING
3.0 Units
Art 232 provides instruction in the modeling of organic objects, such as the human body, the body of an animal, or a fantasy character. Students learn to apply polygon and non-uniform rational b-spline (NURBS) modeling techniques to create game-ready or cinema-ready three-dimensional computer graphic (CG) characters. Note: Current industry standard digital animation software will be used. Lecture 2 hours, studio 4 hours. Prerequisite: ART 231 or equivalent.

233 CHARACTER SET-UP/KINEMATICS
3.0 Units
Art 233 provides students with training in character set-up techniques. Skills covered include installation of the skeleton within wireframe mesh, establishment of animation controls such as inverse kinematic (IK) handles and set-driven-key relationships, and binding of mesh to skeleton using rigid and smooth models. Note: Current industry standard digital animation software will be used. Lecture 2 hours, studio 4 hours. Prerequisite: ART 230 or equivalent.

234 ADVANCED 3D CHARACTER SET-UP
3.0 Units
Art 234 provides students with advanced training in character set-up techniques. Skills covered include binding of the character using joints and influence objects, installation and modification of the Full-Body Inverse kinematic (FBIK) skeleton, the creation of blendshape targets, and the facial animation control system. The student will be encouraged to design a character set-up and test it for use in an animated scene. Note: Current industry standard digital animation software will be used. Lecture 2 hours, studio 4 hours. Prerequisite: ART 233 or equivalent.

235 3D CHARACTER ANIMATION
3.0 Units
Art 235 provides students with 3-D character animation training. Equal emphasis is placed on technical competence and aesthetic sensitivity. Topics covered include animation controls to pose a character, forward and inverse kinematic animation, keyframes and breakdowns, timing and movement, and audio/dialog track. Note: Current industry standard digital animation software will be used. Lecture 2 hours, studio 4 hours. Prerequisite: ART 230 or equivalent. This course may be taken 2 times; a maximum of 6 units may be earned.

237 CREATING TEXTURES FOR 3D ANIMATION
3.0 Units
Art 237 provides instruction in the theory and basic practice of texturing 3-D computer graphic objects. Maya's rendering module is discussed in depth so that students understand thoroughly how texturing functions within the overall rendering process. Students learn how to unwrap UV's on a polygon object and create a UV snapshot. Students also learn how to work in Photoshop and Maya simultaneously. Note: Current industry standard digital animation software will be used. Lecture 2 hours, studio 4 hours. Prerequisite: ART 230 or equivalent.

238 ADVANCED TEXTURING FOR 3D ANIMATION
3.0 Units
Art 238 provides instruction in advanced texturing of 3-D objects for integration into a 3-D game environment or photo-real cinematic sequence. This course is entirely project-based. The instructor leads the students through the texturing process for a 3-D character and a complex inorganic object. The process of unwrapping UV's and painting textures in Photoshop is covered with the focus on developing real-world production skills. Note: Current industry standard digital animation software will be used. Lecture 2 hours, studio 4 hours. Prerequisites: ART 237 or equivalent.
245
DIGITAL SCULPTURE I
3.0 Units
Art 245 provides students with foundation instruction in digital character sculpture, enabling students to create a basic polygonal mesh in Maya, import this mesh into a digital sculpture software application, and then use the software to add sculptural and textural detail to it. The entire toolset of the digital sculpture software will be covered, in addition to practical concerns involved in integrating digital sculptural content into movies or games. Note: Current industry standard digital animation software will be used. Lecture 2 hours, studio 4 hours. Prerequisite: ART 230 or equivalent.

246
DIGITAL SCULPTURE II
3.0 Units
Art 246 provides students with advanced instruction in digital character sculpture, building on skills acquired in Art 245. At the end of the course, students will sculpt and texture a highly realistic digital character. The course is project-based and runs as a traditional art studio course, with the instructor guiding students through the stages of character creation. Note: Current industry standard digital animation software will be used. Lecture 2 hours, studio 4 hours. Prerequisite: ART 245 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

247
PORTFOLIO DEVELOPMENT-ANIMATION
3.0 Units
Art 247 provides students with instruction in marketing their skills to the video game and digital animation industry. Students receive guidance in preparing still images and movies so that they are of the quality required for presentation. Students are required to participate in online digital animation message boards and to set up their own weblogs to share their projects with others. Lecture 2 hours, studio 4 hours. Prerequisite: ART 221, 232, 234, 235, 238, or 246.

250
DESIGNING WEB GRAPHICS
(Also listed as Photography 250)
2.5 Units
Art 250 is an introductory Web graphic course that covers Web design principles and Web graphic creation and preparation for use in the design of Web sites. Emphasis is placed on project planning and Web environment issues that affect design. Students create assigned projects with industry standard software, Adobe Illustrator and Photoshop. Concept and design are emphasized throughout the course. Lecture 2 hours, studio 1 hour. Prerequisite: None. Note: Art/Photography 250 may be taken 3 times; a maximum of 7.5 units may be earned.

251
WEB DESIGN WITH DREAMWEAVER
(Also listed as Photography 251)
3.0 Units
Art 251 is an intermediate-level web design course. Using industry standard software, students design and create web pages, using layout controls, tables, frames, layers, cascading style sheets, form creation, various types of links, rollovers, and layer animation. Design quality and concept are emphasized throughout the course. Note: Students who have completed Photography 251 may not take this class for credit. Lecture 2 hours, studio/lab 2 hours. Prerequisite: ART/PHOTO 250 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

255
WEB DESIGN WITH FLASH
(Also listed as Photography 255)
3.0 Units
Art 255 is a web design course using industry standard software to create full-page, interactive vector-based web animations. Students learn the construction of multiple-layered animations with interactive buttons, movie clips, graphics, and embedded sound files with optimization for the web. Design quality and concept are emphasized throughout the course. Lecture 2 hours, studio/lab 2 hours. Prerequisite: ART/PHOTO 250 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned.

257
ADVANCED WEB DESIGN WITH FLASH
(Also listed as Photography 257)
4.0 Units
Art 257 is an Adobe Flash course that covers Action Scripting for Web designers. Emphasis is placed on project planning and Web environment issues that affect design. Students create projects with industry standard software such as Adobe Illustrator in addition to Adobe Flash. Aesthetic presentation and its relationship to design ergonomics are emphasized throughout the course. Lecture 2 hours, studio 4 hours. Prerequisite: ART/PHOTO 255 or equivalent. Note: Art/Photography 257 may be taken 2 times; a maximum of 8 units may be earned.

267
INTRO TO GAME DEVELOPMENT
3.0 Units
Art 267 presents a detailed overview of the game development process, addressing subjects such as game technologies, content creation strategies, production techniques, game psychology, and criteria that determine game success. Career paths in the game entertainment field will be discussed, as well as the history of video game design and programming. The student will examine future industry predictions and the Lecture 5 hours. Prerequisite: None.

282
METHODS IN WOOD SCULPTURE
3.0 Units
Art 282 explores a variety of techniques in basic wood working for the sculptor. Using both hand tools and power tools, students become familiar with the procedures for creating an object from wood. There will be an emphasis on safety in the shop. Lecture 2 hours, studio 2 hours. Recommended preparation: Art 138 or equivalent; eligibility for English 191 or ESL 141. Note: This course may be taken 4 times; a maximum of 12 units may be earned.

283
FIGURE MODELING
3.0 Units
Art 283 develops an understanding of measurement, proportion, movement, geometric shape, and the basic form of the human body through observation of live models. Students explore their expressive sculptural sensibilities using clay as the primary medium. Lecture 2 hours, studio 2 hours. Recommended preparation: Art 138, 180 or equivalent. Note: This course may be taken 2 times; a maximum of 6 units may be earned.
284  MOLD MAKING FOR SCULPTURE  
3.0 Units  
Art 284 explores a variety of mold making techniques, and experiments with a variety of casting materials. While the concentration in this class is on technical processes, students acquire these skills in order to expand and enhance their options for expressive sculpture. Lecture 2 hours, studio 2 hours. **Recommended preparation:** Art 138, 180 or equivalent. **Note:** This course may be taken 2 times; a maximum of 6 units may be earned.

285  SCULPTURE LAB  
1.0 Unit  
**NON-DEGREE APPLICABLE**  
Art 285 enables sculpture students to have additional supervised studio time, and to increase their laboratory skills relative to concurrent enrollment in sculpture classes. Studio 4 hours. **Corequisite:** Students enrolled in this course must be concurrently enrolled in ART 138, 180, 181, 282, 283, or 284. **Note:** This course may be taken 4 times; a maximum of 4 units may be earned.

286  PORTRAIT SCULPTURE  
3.0 Units  
Art 286 is an introduction to traditional and contemporary portrait sculpture. Students learn technical modeling and casting skills, the physical and expressive possibilities of the human head, and appropriate use of tools and materials. Lecture 2 hours, studio 2 hours. **Recommended preparation:** ART 138 or equivalent, ART 180 or equivalent, and eligibility for ENGL 191 or ESL 141. **Note:** This course may be taken 4 times; a maximum of 12 units may be earned.

287  ANATOMY FOR THE SCULPTOR  
3.0 Units  
Art 287 introduces the sculptor to human anatomy through the ecorche technique. Using a live model and other references, the student will sculpt a human figure from the skeleton up through the musculature to the fatty tissues and the skin. The medium will be the industry standard polymer clay on an aluminum armature. Lecture 2 hours, studio 2 hours. **Recommended preparation:** ART 138 or equivalent, ART 180 or equivalent, and eligibility for ENGL 191 or ESL 141. **Note:** This course may be taken 2 times; a maximum of 6 units may be earned.

288  THREE-DIMENSIONAL DESIGN LAB  
1.0 Unit  
**NON-DEGREE APPLICABLE**  
Art 288 enables 3-D design students to have additional supervised studio time, and to increase their laboratory skills relative to concurrent enrollment in 3-D design classes. Studio 4 hours. **Corequisite:** Art 138. **Note:** This course may be taken 4 times; a maximum of 4 units may be earned.

110H  HONORS ASTRONOMY OF THE SOLAR SYSTEM  
3.0 Units  
Astronomy 110H is a survey of the methods astronomers use and the findings they have made in their studies of the planets, satellites, asteroids, comets and other objects that make up the solar system. The honors course will be enhanced in one or more of the following ways: 1. Students will read and work through a study guide of Galileo's The Sidereal Messenger. 2. Students will visit a local observatory or planetarium and write a report about their visit. 3. Working in teams, students will prepare Internet-based report on the following topics: 'The chronology of space exploration for a selected solar object.' 'Surface or atmosphere features seen on a selected solar object.' 'What we know about a selected small body in the solar system.' Summaries will be presented in class. **Note:** This course may not be taken for credit by students who have completed Astronomy 101. Lecture 3 hours. **Prerequisite:** None. **Transfer Credit:** CSU, UC, USC

120  ASTRONOMY OF STARS AND GALAXIES  
3.0 Units  
Astronomy 120 is a survey of the methods astronomers use and findings they have made in their studies of the stars and galaxies. **Note:** This course may not be taken for credit by students who have completed Astronomy 101. Lecture 3 hours. **Prerequisite:** None. **Transfer Credit:** CSU, UC, USC

AVIATION & TRANSPORTATION

Students enrolling in some Aviation and Transportation courses will be required to purchase certain tools and equipment to meet the requirements of those courses. Students wishing to obtain tool and equipment lists in advance of registration should contact the appropriate instructor or department chair or go to the Aviation Web site at www.glendale.edu/aviation. Prior to applying for the FAA Examination, students are required to submit the proper paperwork to Admissions and Records to obtain the official certificate.
Aviation and Transportation 112 is a flight training lab course intended to begin the student’s preparation for the Federal Aviation Administration Private Pilot Certificate Oral and Practical Tests. Topics covered include: preflight inspection, weather briefings, starting procedures and use of checklists, taxi procedures, normal and cross wind takeoffs and landings, slips, four fundamentals of aircraft control, emergency procedures, traffic patterns, ground reference maneuvers, stalls, and radio communications. Laboratory 9 hours. Prerequisite: AT 112 or equivalent.

Aviation and Transportation 113 is a flight training laboratory course intended to complete the student’s preparation for the Federal Aviation Administration Private Pilot Certificate Oral and Practical Tests. Topics include: night flying techniques, short and soft field takeoffs and landings, navigation, emergency procedures, power on/off stalls, turns across a road, turns around a point, and instrument flight procedures. Laboratory 9 hours. Prerequisite: AT 112 or equivalent.

Aviation and Transportation 114 is a flight training lab course instructing students to operate an airplane by reference to instruments. Topics include: basic and advanced attitude instrument flying, recovery from unusual attitudes, holding patterns, IFR enroute procedures, IFR cross-country planning, departure and arrival procedures, and precision and non-precision approach procedures. Lecture 2 hours, laboratory 6 hours. Prerequisite: AT 113 or possession of an FAA Private Pilot Certificate (Single Engine Land) and AT 125 or proof of satisfactory completion of FAA Instrument Rating Knowledge Examination (AT 125 may be taken concurrently.)

Aviation and Transportation 115 is a flight training lab course preparing the student for the Federal Aviation Administration Commercial Pilot Practical Examination. Topics addressed include: operation of complex and high-performance aircraft including the use of constant-speed propellers and retractable landing gear, maximum performance takeoffs and landings, steep turns, chandeliers, lazy eights, and eights on pylons. Students will log fifteen hours of complex aircraft time. Lecture 2 hours, laboratory 6 hours. Prerequisite: AT 114 or possession of FAA Private Pilot Certificate (airplane, single-engine land) with a minimum of 200 hrs of flight time, and; AT 135 or proof of completion of the FAA Commercial Pilot Knowledge Exam (AT 135 my be taken concurrently.)

Aviation and Transportation 116 is a flight training course designed for the student who wishes to become an aviation flight instructor. Teaching theory, and types and methods of instruction an effective instructor uses are discussed. Analysis and performance of flight maneuvers are stressed. Lecture 3 hours. Prerequisite: AT 119 and 120, or successful completion of the Private Pilot Written Examination or a Private Pilot Certificate.

Aviation and Transportation 117 is a course of ground instruction designed for the student who wishes to become an aviation flight instructor. Teaching theory, and types and methods of instruction an effective instructor uses are discussed. Analysis and performance of flight maneuvers are stressed. Lecture 3 hours. Prerequisite: AT 119 and 120, or successful completion of the Private Pilot Written Examination or a Private Pilot Certificate.

Aviation and Transportation 118 is a course of ground instruction designed for the student who is receiving flight training to gain experience necessary to meet the qualifications of a private pilot with an airplane rating. The course covers the practical flight concepts a pilot may encounter in most flight situations. Lecture 3 hours. Prerequisite: AT 120 or successful completion of the Private Pilot Written Examination or a Private Pilot Certificate.

Aviation and Transportation 119 is a ground training course designed for the student who is receiving flight training to gain experience necessary to meet the qualifications of a private pilot with an airplane rating. The course covers the practical flight concepts a pilot may encounter in most flight situations. Lecture 3 hours. Prerequisite: AT 120 or successful completion of the Private Pilot Written Examination or a Private Pilot Certificate.

Aviation and Transportation 120 prepares the student for the Private Pilot Written Examination, and is taught under Federal Aviation Administration approved Private Pilot Ground School Certificate HH85190Q. The course covers powerplant operations, radio procedures and radio navigation, meteorology, and enroute navigation procedures common to the private pilot. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

Aviation and Transportation 121 introduces the student to the aspect of dead-reckoning and pilotage navigation using the aeronautical chart. Composite navigation and vector analysis using the flight computer familiarizes the student with the practical features of navigation. Lecture 3 hours. Recommended preparation: AT 120 or possession of a private pilot’s certificate. Transfer Credit: CSU

Aviation and Transportation 122 presents the basic principles of meteorology with emphasis placed on the physical laws that operate in the atmosphere, particularly as they affect aircraft flight. Weather maps, reports, and forecasts and their interpretation are stressed. Lecture 3 hours. Recommended preparation: AT 120 or possession of a private pilot’s certificate. Transfer Credit: CSU, UC

Aviation and Transportation 123 is designed to provide the commercial pilot student with the necessary knowledge of radio navigation, radio-telephone communication procedures, and Federal Aviation Regulations required to pass the Federal Aviation Administration Commercial Pilot Written Examination. Lecture 3 hours. Recommended preparation: AT 120 or possession of a private pilot’s certificate. Transfer Credit: CSU

Aviation and Transportation 124 is designed to provide the commercial pilot student with the necessary knowledge of radio navigation, radio-telephone communication procedures, and Federal Aviation Regulations required to pass the Federal Aviation Administration Commercial Pilot Written Examination. Lecture 3 hours. Recommended preparation: AT 120 or possession of a private pilot’s certificate. Transfer Credit: CSU
125 INSTRUMENT RATING GROUND SCHOOL
3.0 Units
Aviation and Transportation 125 introduces the student to the use of radio navigation, weather briefing, advanced navigation, standard instrument approaches, procedures and Federal Aviation Regulations pertaining to instrument flight. Students are prepared for the Federal Aviation Administration Instrument Pilot Written Examination. Lecture 3 hours. Prerequisite: AT 120 or successful completion of the Private Pilot Written Examination or a Private Pilot Certificate. Transfer Credit: CSU

126 AIRCRAFT POWERPLANTS
3.0 Units
Aviation and Transportation 126 introduces the student to aircraft powerplants, their construction, operation, maintenance, and servicing as they apply to the pilot. This course meets the requirements of the Federal Aviation Administration for Commercial Pilots in the study of aircraft engines. Lecture 3 hours. Recommended preparation: AT 120 or possession of a private pilot's certificate. Transfer Credit: CSU

127 FLIGHT TRAINING MANEUVERS
3.0 Units
Aviation and Transportation 127 presents in detail the procedures and methods for conducting the maneuvers required for the safe, skillful operation of the airplane. The performance and application of the various maneuvers required by the Federal Aviation Administration for the Private and Commercial Pilot Flight Tests are examined. Lecture 3 hours. Recommended preparation: AT 120 or possession of a private pilot's certificate. Transfer Credit: CSU

128 AIRPORT OPERATIONS
3.0 Units
Aviation and Transportation 128 is an analytical lecture course of study which acquaints the student with practical airport administration problems that exist today. Completion of this course enables the student to perform and function effectively in any of the many diversified airport operations. Course coverage includes airport development, site selection, local advertising, financial considerations and benefits to the community. Aviation safety within the confines of the airport, airport maintenance, familiarization with the Federal Aviation Administration and Federal Air Regulations governing airports as well as the National Transportation Safety Board. Lecture 3 hours. Recommended preparation: AT 120 and 130, or equivalent. Transfer Credit: CSU

129 FLIGHT ATTENDANT I
3.0 Units
Aviation and Transportation 129 prepares men and women for the highly competitive flight attendant positions and travel careers in the airlines and travel industry. Lecture 3 hours. Prerequisite: None.

130 AIR TRANSPORTATION
3.0 Units
Aviation and Transportation 130 introduces the student to the development of air transportation, problems in commercial air transportation, commercial aircraft, organization and functions of the airlines, regulations, airline routes in the United States and the pilot qualifications, schedules and services, revenue sources and potential operating overhead. The importance of airports, airways, advertising, and public relations is stressed. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

131 AIR TRAFFIC CONTROLLER
5.0 Units
Aviation and Transportation 131 prepares students for the Federal Aviation Administration Control Tower Operator Written Examination and assists them in the requirements necessary to apply for the position of air traffic control specialist, and is of value to those students preparing for the position of dispatcher, meteorologist, commercial pilot, and positions concerned with aircraft operations. Student and private pilots find this course informative, students preparing for their instrument rating receive much valuable information which assists them in preparing for the written examination and the flight check. Lecture 6 hours. Prerequisite: None.

132 FLIGHT ATTENDANT II
3.0 Units
Aviation and Transportation 132 prepares men and women for the highly competitive flight attendant positions and travel careers in the airline and travel industry. Lecture 3 hours. Prerequisite: AT 129 or equivalent.

134 AMERICAN AVIATION TRAVEL HISTORY AND OPERATIONS
3.0 Units
Aviation and Transportation 134 introduces the students to aviation travel history and the manner in which related events have affected the nation socially, economically and politically. This study of aviation emphasizes the development, testing, and utilization of aircraft in California. Lecture 3 hours. Prerequisite: None.

135 COMMERCIAL PILOT GROUND SCHOOL
3.0 Units
Aviation and Transportation 135 prepares students for the Federal Aviation Administration Commercial Pilot Knowledge Examination. Topics addressed include: advanced aerodynamics, advanced aircraft weight and balance computations, advanced meteorology, advanced aerospace physiology, operation of complex and high-performance aircraft including use of constant-speed propellers, retractable landing gear, anti-icing/de-icing, oxygen, and cabin pressurization systems, Federal Aviation Regulations Parts 61, 91, and 135, maximum performance takeoffs and landings, steep turns, chandeliers, lazy eights, and eights on pylons. Lecture 3 hours. Prerequisite AT 120 or equivalent.

136 AVIATION PSYCHOLOGY
3.0 Units
Aviation and Transportation 136 acquaints the professional pilot and flight attendant with an overview of aviation psychology. The influence of psychological factors on aviation safety, and the aviation professional's personal and occupational life is examined. Topics include human factors, human error, motivation and leadership, aviation stress management, group dynamics, attitudes and persuasion, assertiveness training, aircraft accident analysis, passenger psychology, career development, training, flight physiology, self-assessment, family and relationship issues, communications, ethics in professional aviation, and applications in space technology. Lecture 3 hours. Prerequisite: None.

137 AIRLINE TRAVEL CAREERS
3.0 Units
Aviation and Transportation 137 is designed for students pursuing careers in airline travel. The course presents the current industry hiring qualifications and requirements for entry level industry employees. Lecture 3 hours. Prerequisite: None.

138 INTRODUCTION FLIGHT ATTENDANT TRAINING
3.0 Units
Aviation and Transportation 138 introduces students to the Federal Aviation Regulations (FARs) that ensure the safety and comfort of passengers and crew members. Students learn to explain all FARs to passengers and identify strategies for reducing potential emergencies. Note: Aviation and Transportation 138 and 151 combined: maximum credit 3 units. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Note: AT 138 and 151 combined: maximum credit, 3 units.
150
AIRCRAFT STRUCTURES
4.0 to 8.0 Units
Aviation and Transportation 150 is a course to prepare the student for employment in the aircraft industry in the area of structural construction and repair. Lecture 12 hours, laboratory 18 hours. **Prerequisite:** None.

101
GENERAL BIOLOGY
4.0 Units
Biology 101 is the first half of a one-year course designed for biological science majors. It covers fundamental biological principles and processes from the philosophy of the scientific method through biochemistry, molecular biology, cell respiration and photosynthesis, cell structure and function, mitosis and meiosis, Mendelian genetics, molecular genetics and gene regulation. Lecture 3 hours, discussion 1 hour, laboratory 2 hours. **Prerequisite:** CHEM 101. **Transfer Credit:** CSU, UC, USC

101H
HONORS GENERAL BIOLOGY
4.0 Units
Biology 101H is the first half of a one-year course designed for biological science majors. It covers fundamental biological principles and processes from the philosophy of the scientific method through biochemistry, molecular biology, cell respiration and photosynthesis, cell structure and function, mitosis and meiosis, Mendelian genetics, molecular genetics and gene regulation. The honors course will be enhanced in one or more of the following ways: 1. Students will complete assignments derived from peer review journals or current scholarly biology books. Scholars will be held to a higher standard in completing these assignments than the non-scholars. 2. Library research workshops will provide a more in-depth examination of instructed materials. Lecture 3 hours, discussion 1 hour, laboratory 2 hours. **Prerequisite:** CHEM 101. **Transfer Credit:** CSU, UC, USC

102
GENERAL BIOLOGY
5.0 Units
Biology 102 provides a continuation of the study of fundamental biological processes introduced in Biology 101. The course begins with developmental processes, followed by anatomy and physiology of plants and the anatomy and physiology of animals. The final unit covers evolutionary biology, systematics, chemosynthetic theories of the origin of life, population biology, and ecological principles. Laboratory is essentially a separate course involving a student research project on Drosophila genetics, developmental biology labs, and an extensive survey of biodiversity. Lecture 3 hours, discussion 2 hours, laboratory 4 hours. **Prerequisite:** BIOL 101 and CHEM 101. **Transfer Credit:** CSU, UC, USC

102H
HONORS GENERAL BIOLOGY
5.0 Units
Biology 102H provides a continuation of the study of fundamental biological processes introduced in Biology 101. The course begins with developmental processes, followed by anatomy and physiology of plants and the anatomy and physiology of animals. The final unit covers evolutionary biology, systematics, chemosynthetic theories of the origin of life, population biology, and ecological principles. Laboratory is essentially a separate course involving a student research project on Drosophila genetics, developmental biology labs, and an extensive survey of biodiversity. The honors course will be enhanced in one or more of the following ways: 1. Students will complete assignments derived from peer review journals or current scholarly biology books. Scholars will be held to a higher standard in completing these assignments than the non-scholars. 2. Library research workshops will provide a more in-depth examination of instructed materials. Lecture 3 hours, discussion 2 hours, laboratory 4 hours. **Prerequisite:** BIOL 101 and CHEM 101. **Transfer Credit:** CSU, UC, USC

103
MOLECULAR BIOLOGY AND GENETICS
4.0 Units
Biology 103 is an extension of the study of molecular biology, cell biology and genetics introduced in Biology 101/102. This course examines the structure and function of nucleic acids and proteins in the living cell, as well as how these molecules are studied and manipulated in the laboratory. Topics include regulation of gene expression, recombinant DNA technology, chromosome mapping and viral and prokaryotic genetics. Lecture 4 hours. **Prerequisite:** BIOL 101 and CHEM 105 (Chem 105 may be taken concurrently.) **Transfer Credit:** CSU, UC, USC

103H
HONORS MOLECULAR BIOLOGY AND GENETICS
4.0 Units
Biology 103H is an extension of the study of molecular biology, cell biology and genetics introduced in Biology 101/102. This course examines the structure and function of nucleic acids and proteins in the living cell, as well as how these molecules are studied and manipulated in the laboratory. Topics include regulation of gene expression, recombinant DNA technology, chromosome mapping and viral and prokaryotic genetics. The honors course (as an added option) will be enhanced in one or more of the following ways: 1. Scholars will be held to a higher standard on the Internet Search assignment. 2. Library research workshops will provide a more in-depth examination of instructed material. Lecture 4 hours. **Prerequisite:** BIOL 101 and CHEM 105 (Chem 105 may be taken concurrently.) **Transfer Credit:** CSU, UC, USC

112
MICROBIOLOGY
5.0 Units
Biology 112 is a study of life using microorganisms (algae, bacteria, molds, protozoa, viruses, and yeasts) as prototypes. The course includes microbial biochemistry, genetics, cellular and ultra-cellular activities, applied uses, and pathogenicity of these forms of life. In the laboratory students also identify one unknown microbial organism. Lecture 3 hours, laboratory 6 hours. **Prerequisite:** CHEM 101, 110, or 120. **Transfer Credit:** CSU, UC, USC
115 HUMAN BIOLOGY
4.0 Units
Biology 115 is an introductory course covering biological principles as they apply to the human body. The central theme is the structure and function of the human organism. Topics covered include: human evolution, the human species in the environment, cells, tissues, the major body systems, heredity, and the major human conditions and diseases. A weekly laboratory allows students the opportunity to gain practical experience in the techniques necessary to study the health sciences. Note: This course may not be taken for credit by students who have completed Biology 120 or 121. Lecture 3 hours, discussion 1 hour, laboratory 2 hours. Recommended preparation: High school biology. Transfer Credit: CSU, UC, USC

118 PRINCIPLES OF BIOLOGY
3.0 Units
Biology 118 is a television survey course covering the major concepts in biological science. The emphasis is on the dynamic processes and inter-relationships occurring in the living world. This course is designed for students majoring in fields other than the biological sciences. Note: This course may not be taken for credit by students who have completed Biology 122. Lecture 3 hours. Prerequisite: None.

120 HUMAN ANATOMY
5.0 Units
Biology 120 comprehensively covers the systems of the human body. The laboratory includes the study of tissues using the microscope and a detailed study of the human skeleton. Dissections on the cat muscles and blood vessels, sheep brain, and cow eye, as well as the human cadaver, are included to illustrate comparative parts of human anatomy. Note: Primarily for nursing, physical education, and health science majors. Lecture 3 hours, discussion 2 hours, laboratory 4 hours. Recommended preparation: BIOL 115 is strongly recommended for students with a limited background in the biological sciences. Note: Primarily for nursing, physical education, and health science majors. Transfer Credit: CSU, UC, USC

121 INTRODUCTION TO PHYSIOLOGY
4.0 Units
Biology 121 studies the functions of the systems of the human body. Course format includes lecture and extensive lab activity including EEG, EKG, spirometry, urinalysis, blood analysis, etc. Physiology is required for nursing students and is elective for others. Lecture 3 hours, discussion 1 hour, laboratory 2 hours. Prerequisite: BIOL 120 and CHEM 101 or CHEM 110 or CHEM 120. Transfer Credit: CSU, UC, USC

122 INTRODUCTION TO BIOLOGY
4.0 Units
Biology 122 is designed to give an overview of the biological sphere of life and an elementary working knowledge of the fields studied. It takes a liberalized approach to the study of five kingdoms of living organisms. The emphasis is on the dynamic processes and functional inter-relationships between which shape and influence the world. The problems facing the planet today are emphasized. Primarily for students majoring in fields other than the biological sciences. Lecture 3 hours, discussion 1 hour, laboratory 2 hours. Recommended preparation: Eligibility for ENGL 120 is strongly recommended. Note: This course allows only 1 unit of credit for those students completing Biology 118. Transfer Credit: CSU, UC, USC

123 EVOLUTION
3.0 Units
Biology 123 examines the history of life on earth, and the mechanisms that have led to the diversity we see today. Topics to be covered include a brief history of evolutionary thought, adaptive vs. neutral evolution (natural selection and genetic drift), biogeography, the origin of life, population genetics and speciation, an exploration of the fossil record and modern systematics, and recent work in the fields of sexual selection, behavior, development, and human evolution. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

125 MARINE BIOLOGY
3.0 Units
Biology 125 is an introduction to biology offering a general survey of the ecosystems and diversity of life in the marine environment. The course includes an introduction to the sciences of geological, chemical and physical oceanography as the basis to understand the environment where marine organisms exist. A comparative approach is used to learn about the physiological and anatomical adaptations of the different marine organisms to their environment. Aspects of the three major areas of biology, evolutionary, cell and molecular theory, are addressed throughout the course. The honors course will be enhanced in one or more of the following ways: 1. Students will complete a set of selected readings. Critical analysis of these readings is expected and the student will be evaluated during discussions and essays in regular examinations. 2. Students will be required to attend a field trip to the intertidal zone of a local Marine Life Refuge. After supervised collection of organisms, the students will have a discussion about the specimens collected and their interactions with the environment. 3. The students will have additional readings throughout the semester. Readings may include articles from science journals such as Oceanus, American Scientist, Scientific American or books like Song for The Blue Ocean by C. Safina and The Edge of the Sear by R. Caron. 4. Students will attend a field trip where they are expected to work in-groups for the collection, analysis, and discussion of the data. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

125H HONORS MARINE BIOLOGY
3.0 Units
Biology 125H is an introduction to biology offering a general survey of the ecosystems and diversity of life in the marine environment. The course includes an introduction to the sciences of geological, chemical and physical oceanography as the basis to understand the environment where marine organisms exist. A comparative approach is used to learn about the physiological and anatomical adaptations of the different marine organisms to their environment. Aspects of the three major areas of biology, evolutionary, cell and molecular theory, are addressed throughout the course. The honors course will be enhanced in one or more of the following ways: 1. Students will complete a set of selected readings. Critical analysis of these readings is expected and the student will be evaluated during discussions and essays in regular examinations. 2. Students will be required to attend a field trip to the intertidal zone of a local Marine Life Refuge. After supervised collection of organisms, the students will have a discussion about the specimens collected and their interactions with the environment. 3. The students will have additional readings throughout the semester. Readings may include articles from science journals such as Oceanus, American Scientist, Scientific American or books like Song for The Blue Ocean by C. Safina and The Edge of the Sear by R. Caron. 4. Students will attend a field trip where they are expected to work in-groups for the collection, analysis, and discussion of the data. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC
126 FIELD AND LAB INVESTIGATIONS IN MARINE BIOLOGY  
1.0 Unit  

Biology 126 is an introductory science laboratory offering a general survey of the diversity of life in the marine environment and an introduction to some of its major ecosystems. The laboratory exercises utilize the comparative method in order to study the anatomy, physiology and evolution of some of the major phyla of marine organisms. This course requires the participation in at least four field trips. Field trips introduce the student to the ecology of marine ecosystems. Lab/field work 3 hours. Prerequisite: BIOL 125 (BIOL 125 may be taken concurrently.) Note: Field trips totaling a minimum of 9 hours are required. Field trips require student contribution for meals and transportation. Transfer Credit: CSU, UC, USC

127 HUMAN ECOLOGY  
3.0 Units  

Biology 127 is a survey course that introduces the student to basic ecological principles and the impact of human activities on ecosystems from historic to modern times. This survey course covers: basic principles of population biology and ecology, nutrient and energy cycling, agricultural impact and natural resource consumption by humans, the long-range needs for human coexistence with natural environments, the human population issue, the energy challenge and pollution. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

128 ECOLOGY AND CONSERVATION LAB  
1.0 Unit  

Biology 128 is offered as a practical supplement to Biology 127. Ecology and conservation allows the student to apply concepts and theory presented in Biology 127 to practical field situations. Students learn environmental monitoring and analysis techniques along with research data analysis and interpretation. Laboratory 3 hours. Prerequisite: BIOL 127 (Biology 127 may be taken concurrently.) Transfer Credit: CSU, UC, USC

129 DIRECTED STUDIES IN MARINE ECOLOGY  
1.0 to 3.0 Units  

Biology 129 is a course emphasizing individual investigation of the natural marine environment through field and laboratory studies. Students examine the inter-relationship between marine organisms and their habitats by special projects dealing with a particular problem. Library research, a scientific paper, and an oral presentation of the directed studies are an integral part of the course. Field studies investigate various localities during different semesters, such as, Baja California, the Channel Islands, the northern California coast, and local marine habitats. Note: Three hours are required for each unit earned. The course may be repeated for a maximum of 6 units. Field trips require student contribution for meals and transportation. Lab/field work 3 to 9 hours. Prerequisite: Biology 125, or 101 and 102. Transfer Credit: CSU

130 NATURAL HISTORY OF SOUTHERN CALIFORNIA  
1.0 to 3.0 Units  

Biology 130 is the ecological studies of alpine to lower desert and aquatic communities. Emphasis is placed on laboratory investigation of the types, distribution, and diversity of plants and animals within each community. Environmental factors such as climate, soils, and landforms are integrated with community studies. Lab studies are reinforced through two overnight field trips to desert or mountain areas. (See current class schedule.) Note: Overnight field trips will require student contribution for meals and transportation. Lecture 3 hours, laboratory 3 hours. Recommended preparation: A course in either high school or college biology or equivalent. Transfer Credit: CSU, UC, USC

131 NATURAL HISTORY FIELD STUDIES  
1.0 to 3.0 Units  

Biology 131 offers individual and group investigation of the biological environment and the impact of human activities upon it. The course format includes discussion sessions as well as field studies. Students examine the inter-relationship between biological organisms and their habitats by special projects dealing with a particular problem. Library research, a scientific paper, and/or an oral presentation of the directed studies may be a part of the course. Field studies investigate a variety of world localities. The cost of land and air arrangements is borne by each student, and are kept to a minimum while still providing clean and comfortable lodging. Lab/field work 3 to 9 hours. Prerequisite: A biology or ecology course in high school or college, or the equivalent. Note: Three hours are required for each unit earned. The course may be taken for one, two, or three units according to the schedule. This course may be taken 4 times; a maximum of 6 units may be earned. Transfer Credit: CSU

132 INTRO TO MARINE SCIENCE  
3.0 Units  

Biology 132 serves as an introduction to oceanography, marine biology, and the related marine technologies. Topics covered include sea floor topography and geologic processes, water circulation, and the diversity of marine organisms and their physiological and ecological adaptations to the marine technologies dealing with the development and utilization of marine biological and geological resources. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

135 INTRODUCTION TO BOTANY  
4.0 Units  

Biology 135 is an introductory course covering biological principles as they apply to the plant world. The central theme is the importance of plant structure and variation in life on earth. Topics covered include plants and human affairs, plant cells, photosynthesis, the role of plants in ecological cycles, and a survey of the earth’s plant forms. Lecture 3 hours, discussion 1 hour, laboratory 2 hours. Recommended preparation: High school biology. Transfer Credit: CSU, UC, USC

137 FIELD BOTANY  
5.0 Units  

Biology 137 is a study of the plant materials and the ecology of the plant communities of Southern California. Two weekend field trips are included. Lecture 3 hours, discussion 2 hours, laboratory 4 hours. Prerequisite: None. Transfer Credit: CSU
138 HORTICULTURE
3.0 Units
Biology 138 is a study of the names and requirements of exotic and native plants used in ornamental horticulture in the Los Angeles area. Basic principles and practices in propagation, pruning, diseases, and insect control as well as extensive laboratory work with living specimens in the greenhouse are elements included in this course. Field trips to local nurseries and parks are planned. Lecture 2 hours, discussion 1 hour, laboratory 1 hour. Prerequisite: None. Transfer Credit: CSU

139 PLANT PROPAGATION
3.0 Units
Biology 139 is the study and practice of growing plants from seed and by asexual methods for commercial or home use. Propagation methods, structures, plant pests and diseases, and control of the plants being propagated are discussed. Laboratory work in seeding, transplanting, cutting, budding, and grafting are done by the student. Lecture 2 hours, discussion 1 hour, laboratory 2 hours. Prerequisite: None. Transfer Credit: CSU

145 BIOLOGY OF BIRDS
2.0 Units
Biology 145 is a nine-week introductory course dealing with the identification, classification, ecology, anatomy, and behavior of birds. Course study emphasizes the natural history of local birds as well as representative bird groups from around the world. Lecture 3 hours. laboratory see Note. Prerequisite: None. Note: Several laboratory sessions are required with each session lasting five hours. (See current schedule of classes.) Transfer Credit: CSU

146 MARINE MAMMALS
2.0 Units
Biology 146 provides an introduction to the diverse group of mammals that have secondarily adapted to life in the sea. Lecture topics include the evolution of these groups, adaptations for feeding, breeding, diving and communicating in the marine environment (anatomy, physiology, and behavior), the ecological importance of marine mammals, and a brief history of marine mammal exploitation and conservation. When taught in Baja California, Mexico, the field portion of the course takes place at the Glendale College Field Station in Bahia de Los Angeles. Focus is on local species that commonly occur in the area, including California sea lions, blue, fin and Bryde's whales, as well as common and bottlenose dolphins. This field portion includes travel to gray whale breeding lagoons on the Pacific coast of Baja. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

106 WRITTEN BUSINESS COMMUNICATIONS
3.0 Units
Business Administration 106 is a writing course for students completing programs in business. The course prepares students to accomplish tasks and solve problems through the written word. The mechanics, strategies, and processes of technical writing, as well as creative and critical thinking skills, are applied to a variety of tasks which simulate typical events in business. Techniques are covered for creating effective business letters, information summaries, proposals, and reports, including references and research sources and appropriate styles and formats. In addition, original essays responding to a review of rhetorical works in the fields of business and economics are prepared. The impact of organizational procedures on business communications is explored, and the automated technology which facilitates this communication is applied to a variety of tasks common to the business organization. Lecture 4 hours. Prerequisite: Eligibility for ENGL 101 or completion of CABOT 105. Recommended Preparation: Concurrent enrollment or completion of CABOT 107. Transfer Credit: CSU

110 HUMAN RELATIONS IN BUSINESS
3.0 Units
Business Administration 110 aids future employees, as well as present employees, in understanding and applying human relations concepts to the business environment. Topics include attitude, morale, motivation, communication, business etiquette, productivity, ethics, customer services, and leadership. Note: Students with no prior business experience should complete Business Administration 101 or CABOT 101 before taking this course. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

111 INTRODUCTION TO INSURANCE
1.0 Unit
Business Administration 111 is intended to give students a basic background of the modern property/casualty insurance system. It is designed as a basic overview of insurance for those who have little or no knowledge of insurance but who wish to enter the field of insurance. Lecture 1 hour. Prerequisite: None.
112 APPLIED WORKPLACE ETHICS
1.0 Unit
Business Administration 112 covers contemporary and controversial ethical issues facing the business world today. Real-world scenarios and situations will be discussed to aid students in developing their own ethical decision-making framework for the responsibilities and obligations they will face as members of the workforce. Lecture 1 hour. Prerequisite: None.

113 PRINCIPLES OF PROPERTY AND LIABILITY INSURANCE
3.0 Units
Business Administration 113 is intended to help individuals learn basic information regarding property and liability insurance for use in employment as insurance professionals in entry-level and higher positions. It covers the fundamentals of insurance including the types of insurers, institutions that provide insurance, how it is regulated, and measurement of financial performance. This course is intended to help prepare students for a variety of entry-level positions in the insurance industry and for a number of insurance certification examinations. Lecture 3 hours. Prerequisite: None.

114 PERSONAL INSURANCE
3.0 Units
Business Administration 114 is intended to help individuals learn basic information regarding personal insurance for use in employment as insurance professionals in entry-level and higher positions. This course may also be of value to anyone who wishes to obtain the knowledge to manage his or her personal insurance needs. Information about automobile, homeowners, and residential insurance (e.g. earthquake, marine, etc.) is included in the course. Financial planning, life insurance, and health insurance are also covered. Lecture 3 hours. Prerequisite: None.

115 COMMERCIAL INSURANCE
3.0 Units
Business Administration 115 is intended to help individuals learn basic information regarding commercial insurance for use in employment as insurance professionals in entry-level and higher positions. The course includes information on property insurance, business income insurance, commercial crime insurance, equipment breakdown insurance, inland and ocean marine insurance, commercial general liability insurance, commercial automobile insurance, and other types of commercial insurance coverage. Lecture 3 hours. Prerequisite: None.

116 PRINCIPLES OF LIFE AND HEALTH INSURANCE
3.0 Units
Business Administration 116 is intended to help individuals learn basic information regarding life and health insurance for use in employment as insurance professionals in entry-level and higher positions. It covers the fundamentals of insurance, including the types of insurers, institutions that provide insurance, how it is regulated, and measurement of financial performance. This course is intended to help prepare students for a variety of entry-level positions in the insurance industry, and completion of the course will satisfy the requirements to sit for the State of California written test for a Life and Health Agent License. Lecture 3 hours. Prerequisite: None.

120 BUSINESS LAW I
3.0 Units
Business Administration 120 is a study of law as it influences business conduct, including growth of law and recent changes, especially the new Uniform Commercial Code, and principles of contracts, sales, and agency. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

125 BUSINESS LAW II
3.0 Units
Business Administration 125 deals with the law of sales, negotiable instruments, partnerships, corporations, and trade regulation. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

131 INTRODUCTION TO FINANCE
3.0 Units
Business Administration 131 introduces the student to the many financial decisions faced by a modern business, along with the analytical tools and concepts necessary for an evaluation of these decisions. The material is applicable to large corporations, small businesses and nonprofit organizations. Note: One year of accounting is recommended. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

134 INVESTMENTS
3.0 Units
Business Administration 134 is designed to develop the student’s understanding of the various public investments available, their potential risks and rewards, and the situations in which they are best utilized. Topics include investment principles and objectives, the operation of securities markets, investment banking, and asset selection and allocation. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

135 MONEY AND BANKING
3.0 Units
Business Administration 135 is a course designed to help students secure employment with investment banking houses, commercial banks, finance companies, stock and commodity exchanges, and securities dealers. It is a study of the American monetary system and American financial institutions. The course allows students to obtain a critical understanding of the Federal Reserve structure, monetary and fiscal policy, and the commercial banking process. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

136 MONEY MANAGEMENT
3.0 Units
Business Administration 136 covers the basic principles of efficient money management. The fundamentals of financial planning and the control of current financial actions to reach future financial goals are studied, including such topics as providing for major investments, retirement and pension planning, the tax environment, and the effect of new laws and regulations. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

138 BUYING AND SELLING A BUSINESS
3.0 Units
Business Administration 138 presents all the information necessary to conduct the purchase or sale of a small business. This course focuses on what a real estate agent should know so that he or she could properly list, offer, negotiate and sell a business. The techniques of marketing, financing, financial reporting, taxation, merging and business management are covered in detail. Note: This course may not be taken for credit by students who have completed Real Estate 200. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU
141
INTRODUCTION TO MANAGEMENT
3.0 Units
Business Administration 141 introduces the student to the basic managerial functions within an organization, which include planning and decision making, organizing, staffing, directing, leading, and controlling. These functions apply to managers at all levels, from small business to top executive management. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

144
HUMAN RESOURCES I
3.0 Units
Business Administration 144 introduces the student to the basic managerial functions within an organization, which include planning and decision making, organizing, staffing, directing, leading, and controlling. These functions apply to managers at all levels, from small business to top executive management. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

145
HUMAN RESOURCES II
3.0 Units
Business Administration 145 introduces the student to the basic managerial functions within an organization, which include planning and decision making, organizing, staffing, directing, leading, and controlling. These functions apply to managers at all levels, from small business to top executive management. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

152
MANAGEMENT COMMUNICATIONS-ORAL
3.0 Units
Business Administration 152 introduces the student to the basic managerial functions within an organization, which include planning and decision making, organizing, staffing, directing, leading, and controlling. These functions apply to managers at all levels, from small business to top executive management. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

158
INTRODUCTION TO ENTREPRENEURSHIP
3.0 Units
Business Administration 158 introduces the student to the basic managerial functions within an organization, which include planning and decision making, organizing, staffing, directing, leading, and controlling. These functions apply to managers at all levels, from small business to top executive management. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

162
PRINCIPLES OF MARKETING
3.0 Units
Business Administration 162 introduces the student to the basic managerial functions within an organization, which include planning and decision making, organizing, staffing, directing, leading, and controlling. These functions apply to managers at all levels, from small business to top executive management. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

164
RETAIL STORE MANAGEMENT
3.0 Units
Business Administration 164 introduces the student to the basic managerial functions within an organization, which include planning and decision making, organizing, staffing, directing, leading, and controlling. These functions apply to managers at all levels, from small business to top executive management. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

166
ADVERTISING
3.0 Units
Business Administration 166 introduces the student to the basic managerial functions within an organization, which include planning and decision making, organizing, staffing, directing, leading, and controlling. These functions apply to managers at all levels, from small business to top executive management. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

168
FASHION MERCHANDIZING
3.0 Units
Business Administration 168 introduces the student to the basic managerial functions within an organization, which include planning and decision making, organizing, staffing, directing, leading, and controlling. These functions apply to managers at all levels, from small business to top executive management. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

170
INTRODUCTION TO INTERNATIONAL BUSINESS
3.0 Units
Business Administration 170 introduces the student to the basic managerial functions within an organization, which include planning and decision making, organizing, staffing, directing, leading, and controlling. These functions apply to managers at all levels, from small business to top executive management. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

175
IMPORT/EXPORT BUSINESS IN THE PACIFIC RIM
3.0 Units
Business Administration 175 introduces the student to the basic managerial functions within an organization, which include planning and decision making, organizing, staffing, directing, leading, and controlling. These functions apply to managers at all levels, from small business to top executive management. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

<tr>
<td>176</td>
<td>IMPORT/EXPORT WITHIN NAFTA AND LATIN AMERICAN COUNTRIES</td>
<td>3.0</td>
<td>Business Administration 176 discusses the special issues of doing business with NAFTA countries (Canada and Mexico) and with Latin America. The NAFTA countries are not only geographically the closest countries to the United States but have the most favorable trading conditions. These facts make NAFTA countries strong candidates for establishing an import/export business. Other Latin American countries are also analyzed from the governmental, social, economic, and geographic systems in these business opportunities. A major part of this course is a discussion of the business aspect of the cultural views and practices necessary to do business in the Americas. Note: Students are expected to have a strong background in business and an interest in participating in the global economy. Practical business experience, especially in international business, is the best background for this course. However, it is recommended that those students without practical business experience first complete Business Administration 101 and 170. Lecture 3 hours. Recommended preparation: BUSAD 101 and 170, or equivalent. Transfer Credit: CSU</td>
</tr>
<tr>
<td>177</td>
<td>INTRODUCTION TO INTERNATIONAL MARKETING</td>
<td>3.0</td>
<td>Business Administration 177 examines the concepts, principles, theory, and practice of international marketing. Topics include the United States and foreign marketing organizations, United States international marketing positions, market entry strategies, analysis of foreign markets, culture and marketing, product design, pricing, distribution, promotion, and sales. Lecture 3 hours. Recommended Preparation: BUSAD 101 and 170 or equivalent.</td>
</tr>
<tr>
<td>178</td>
<td>INTRODUCTION TO INTERNATIONAL FINANCE</td>
<td>3.0</td>
<td>Business Administration 178 is a study of international business financing and development, including the roles of different types of lenders, domestic and foreign government assistance programs, various methods of payment, identifying and managing risk in the international financial arena, and tax considerations. Lecture/demonstration 3 hours. Recommended Preparation: BUSAD 101 and 170 or equivalent.</td>
</tr>
<tr>
<td>180</td>
<td>PRINCIPLES OF IMPORT/EXPORT</td>
<td>3.0</td>
<td>Business Administration 180 prepares students to participate in the international economy through importing and/or exporting activities. Topics include methods for locating products to import or export, import/export marketing strategies, pricing, and distribution channels, international payment transfers, import/export financing, shipping and receiving international goods, and strategies for successful importing and exporting. Also included are the trade patterns by countries and commodities, with a focus on issues concerning the euro and trade in Europe’s single market, the World Trade organization, NAFTA, and navigating the business worlds of Asia, Africa, and Latin America while tapping into the e-commerce phenomena. Lecture/demonstration 3 hours. Recommended Preparation: BUSAD 101 and 170 or equivalent.</td>
</tr>
<tr>
<td>185</td>
<td>GEOGRAPHICAL INFORMATION SYSTEMS (GIS) FOR BUSINESS</td>
<td>3.0</td>
<td>Business Administration 185 teaches the fundamentals of GIS industry-standard software and its application to business. Emphasis is placed on applied lessons to create and modify maps, conduct geospatial research, and solve business related geospatial problems. Lecture 3 hours. Recommended preparation: CABOT 270 or equivalent.</td>
</tr>
<tr>
<td>201</td>
<td>INTRO TO BUSINESS ETHICS</td>
<td>3.0</td>
<td>Business Administration 201 discusses contemporary and controversial ethical issues facing the business world. Real-world scenarios and situations will be discussed to aid students in developing their own ethical decision-making framework for the responsibilities and obligations they will face as members of the workforce. Lecture 3 hours. Prerequisite: None.</td>
</tr>
<tr>
<td>202</td>
<td>LEADERSHIP FUNDAMENTALS</td>
<td>3.0</td>
<td>Business Administration 202 introduces the basic concepts and theories of a leader’s role in influencing others to achieve a common goal. Decision making, problem solving, and critical thinking concepts will be emphasized. The role of a leader to an organization’s success, as well as the difficulties and challenges involved, will also be emphasized. Lecture 3 hours. Prerequisite: None.</td>
</tr>
<tr>
<td>203</td>
<td>CUSTOMER SERVICE AND RELATIONS</td>
<td>3.0</td>
<td>Business Administration 203 focuses on strategies for developing a first-class customer service environment in a culturally diverse, e-commerce, globally competitive business climate. The course covers topics that promote a customer-focused organization and will teach students to handle problems and complaints, promote teamwork, ‘win back’ customers, personalize service, and create loyalty and retention of clientele of various types (e.g. patients, patrons, students, customers, and so on). Understanding and influencing customer behavior through customer relationship management strategies will be emphasized. Lecture 3 hours. Prerequisite: None.</td>
</tr>
<tr>
<td>204</td>
<td>CUSTOMER SERVICE SKILLS</td>
<td>1.0</td>
<td>Business Administration 204 offers instruction and hands-on practice of customer service skills for selected workplace environments in a culturally diverse, e-commerce, globally competitive business climate. The course will teach students to effectively accommodate guests, clients, customers, patrons, patients, and other types of clientele in various types of businesses. Activities and examples will be used from business areas such as medical offices, public and government entities, restaurants, grocery establishments, and a variety of other retail businesses, and may be taught on campus or on site of such businesses (see ticket notes in schedule for the focus and location for any listed ticket number). Lecture 1 hour. Prerequisite: None.</td>

<tr>
<td>101</td>
<td>GENERAL CHEMISTRY</td>
<td>5.0</td>
<td>Chemistry 101 is a course in fundamental chemistry designed to set forth the most important facts and theories with which chemistry is concerned. Basic laws and chemical calculations are stressed. Lecture 3 hours, discussion 2 hours, laboratory 4 hours. Prerequisite: 1) Eligibility for ENGL 120 or ESL 151, 2) MATH 101 or 120 or 220 (2 Units) or 1.5 years of high school Algebra. 3) CHEM 110 or 1 year of high school chemistry (laboratory included) and satisfactory score on the Math/Chem Placement Exams. Transfer Credit: CSU, UC, USC</td>
</tr>
</tbody>
</table>
101H
HONORS GENERAL CHEMISTRY
5.0 Units
Chemistry 101H is a course in fundamental chemistry designed to set forth the most important facts and theories with which chemistry is concerned. Basic laws and chemical calculations are stressed. The honors course will be enhanced in one or more of the following ways: 1. Students will be expected to gain an increased conceptual understanding of the subject either through the use of an 'Honors' textbook or supplements. Mastery will be assessed through exams given in essay and quantitative calculation format. 2. Laboratory will include increased emphasis on error analysis and record keeping. All experimental data and results will be entered into a research lab notebook. 3. Working in teams, students will complete an environmental research project utilizing equipment located either on campus or at a local university. Research project findings will be presented in a seminar style format at the end of the semester. Lecture 3 hours, discussion 2 hours, laboratory 4 hours. Prerequisite: 1) Eligibility for ENGL 120 or ESL 151. 2) MATH 101 or 120 or 220 (2 Units) or 1.5 years of high school Algebra. 3) CHEM 110 or 1 year of high school chemistry (laboratory included) and satisfactory score on the Math/Chem Placement Exams. Transfer Credit: CSU, UC, USC

102H
HONORS GENERAL CHEMISTRY
5.0 Units
Chemistry 102H is a continuation of the study of the basic concepts of general chemistry introduced in Chemistry 101, with an emphasis on the theory and technique of qualitative analysis. Working in teams, the honors course will be enhanced in one or more of the following ways: 1. Prepare a research project utilizing methods such as modern library search techniques, scientist interviews, and environmental monitoring on a current topic such as: 'the ozone' drug resistant TB' human genome project. Research project findings will be presented in a seminar style format at the end of the semester. -OR 2. Complete the following: a) Prepare four different compounds in succession from a metal and write a report based on this experiment, b) Perform two quantitative analysis experiments analyzing the specific chemical content of common substances. 3. Students will be expected to gain an increased conceptual understanding of the subject either through the use of an 'honors' textbook or supplements. Lecture 3 hours, discussion 2 hours, laboratory 4 hours. Prerequisite: CHEM 101. Transfer Credit: CSU, UC, USC

103
QUANTITATIVE ANALYSIS
4.0 Units
Chemistry 103 emphasizes the principles and techniques of quantitative analysis, including calibration, volumetric, gravimetric and spectro-metric procedures. Many illustrative examples are solved. Note: Chemistry 103 is required of pre-medical students. Chemistry 103 is recommended for majors in chemistry, physics, pharmacy, mining engineering, geology, metallurgical or petroleum engineering, sanitary and municipal engineering, certain agriculture and public health curricula and medical technologists. Lecture 2 hours, discussion 2 hours, laboratory 4 hours. Prerequisite: CHEM 102. Transfer Credit: CSU, UC, USC

105
ORGANIC CHEMISTRY
5.0 Units
Chemistry 105 is an introductory study of the compounds of carbon, including the preparation, properties, and reactions of both aliphatic and aromatic hydrocarbons, halogen derivatives, alcohols, and ethers. Methods of synthesis are stressed, and reaction mechanisms and modern structural principles are introduced. Note: Required of pre-medical and pre-dental students, recommended for majors in chemistry, petroleum engineering, sanitary and municipal engineering, and pharmacy, and for certain home economics, public health and agriculture majors. Lecture 3 hours, discussion 2 hours, laboratory 4 hours. Prerequisite: CHEM 102. Transfer Credit: CSU, UC, USC

106
ORGANIC CHEMISTRY
5.0 Units
Chemistry 106 is a study of the preparation, properties, and reactions of aliphatic, and aromatic acids, amines, aldehydes, ketones, carbohydrates, heterocyclic compounds, amino acids and proteins. Analysis as well as synthesis of compounds is stressed. Lecture 3 hours, discussion 2 hours, laboratory 4 hours. Prerequisite: CHEM 105. Transfer Credit: CSU, UC, USC

110
ELEMENTS OF GENERAL CHEMISTRY
5.0 Units
Chemistry 110 is a basic course in the fundamental principles, laws, and computations of chemistry emphasizing the descriptive phases and including a brief introduction to the chemistry of the carbon compounds. Lecture 4 hours, discussion 1 hour, laboratory 2 hours. Prerequisite: MATH 141 or 146 or 246 (2 units) or one year of algebra in high school. Transfer Credit: CSU, UC, USC
114 THE CHEMICAL ENVIRONMENT
4.0 Units
Chemistry 114 is a college-level course in chemistry for non-chemistry majors. The term environment is used in the broadest sense, including, for example, foods, drugs, biomolecules, metals, plastics, fertilizers, pesticides, fossil fuels, technology, the earth, water, atmosphere, and pollution. Fundamentals of chemistry including kinetic theory, structure, bonding, reactions, energetics, and nomenclature are developed to provide a framework for interpretation of environmental phenomena. Scientific thinking is analyzed and related to everyday thought. The strengths and limitations of science are considered, with some exposure to social and philosophical implications. Current events in science are emphasized. Elementary mathematical concepts are introduced as needed. Written reports are required. Field trips may be required. Lecture 3 hours, laboratory 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

115 CHEMISTRY FUNDAMENTALS FOR NURSES
3.0 Units
Chemistry 115 is a course in fundamental chemistry for nurses (lecture only) designed to give the basic concepts of chemistry necessary for the nursing profession. Lecture 3 hours. Prerequisite: None.

120 FUNDAMENTALS OF COLLEGE CHEMISTRY (INORGANIC)
5.0 Units
Chemistry 120 is a course in the fundamentals of chemistry with the emphasis on health science related examples. This course and Chemistry 121 are designed for health science (e.g., nursing), home economics, physical therapy, and other majors that need a year of college chemistry that includes inorganic, organic and biochemistry. Chemistry 120 covers inorganic chemistry. Chemistry 120 does not involve the level of mathematical applications that are found in Chemistry 101. Note: This course is not for science majors. At Glendale Community College Chemistry 120 satisfies the prerequisite for Chemistry 121 only. Lecture 4 hours, discussion-laboratory 3 hours. Prerequisite: MATH 141 or 146 or 246 (2 units) or one year of algebra in high school. Transfer Credit: CSU, UC, USC

121 FUNDAMENTALS OF COLLEGE CHEMISTRY (ORGANIC AND BIOCHEMISTRY)
5.0 Units
Chemistry 121 is the second half of the year sequence and covers the fundamentals of organic and biochemistry. Note: This course is not for science majors. Lecture 4 hours, discussion-laboratory 3 hours. Prerequisite: CHEM 120. Transfer Credit: CSU, UC, USC

143 INTRODUCTION TO CHEMISTRY
4.0 Units
Chemistry 143 is an introductory course emphasizing the essential principles of chemistry with a descriptive survey of chemical facts. Reference is made to industrial and practical home chemistry. Note: Recommended as a foundation course for either Chemistry 110 or Chemistry 101. Lecture 3 hours, discussion 1 hour, laboratory 2 hours. Prerequisite: None.

130 PARENTING YOUNG CHILDREN
1.0 Unit
CHLDV 130 assists parents and child development students to gain competency in handling issues related to the growth and development of young children. Students are introduced to the skills and methods of observing and recording behavior, and they assess techniques that encourage self discipline. Lecture 2 hours (8 weeks). Prerequisite: None. Note: This course may be taken 2 times; a maximum of 2 units may be earned.

133 OBSERVATION AND ASSESSMENT
3.0 Units
CHLDV 133 focuses on the appropriate use of assessment and observation strategies to document development, growth, play and learning in order to join with families and professionals in promoting children's success and maintaining quality programs. Recording strategies, rating systems, portfolios, and multiple assessment methods are explored. Lecture 2 hours, laboratory 3 hours. Prerequisite: CHLDV 135. Transfer Credit: CSU

135 CHILD GROWTH AND DEVELOPMENT
3.0 Units
CHLDV 135 examines the major physical, psychosocial, and cognitive/language developmental milestones for children, both typical and atypical, from conception through adolescence. There will be an emphasis on interactions between maturational processes and environmental factors. While studying developmental theory and investigative research methodologies, students will observe children evaluate individual differences and analyze characteristics of development at various stages. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

137 SCHOOL AGE CHILDREN IN CHILD CARE
3.0 Units
CHLDV 137 examines needs and concerns relating to school-age child care. It provides background in the guidance of children ages 5-12, through knowledge of developmental ages and stages. Students discover the kinds of group programs which exist in the community, and analyze the quality environments and activities which safeguard the growth of children. Lecture 3 hours. Prerequisite: CHLDV 135. Transfer Credit: CSU

138 HEALTH, SAFETY, AND NUTRITION
3.0 Units
CHLDV 138 introduces the laws, regulations, standards, policies and procedures and early childhood curriculum related to child health safety and nutrition. The key components that ensure physical health, mental health and safety for both children and staff will be identified along with the importance of collaboration with families and health professionals. Focus on integrating the concepts into everyday planning and program development for all children. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU
140 PRINCIPLES AND PRACTICE OF TEACHING 3.0 Units
CHLDV 140 examines the underlying theoretical principles of developmentally appropriate practices applied to programs, environments, emphasizing the key role of relationships, constructive adult-child interactions, and teaching strategies in supporting physical, social, creative and intellectual development for all children. This course includes a review of the historical roots of early childhood programs and the evolution of the professional practices promoting advocacy, ethics and professional identity. Lecture 3 hours. Prerequisite: CHLDV 135. Transfer Credit: CSU

141 STUDENT TEACHING SEMINAR 2.0 Units
CHLDV 141 is the culmination of the child development curriculum designed to provide an opportunity to synthesize the student teaching experience and move the teacher candidate towards the world of teaching at a professional level. Offered concurrently with Child Development 180/181/182 (Student Teaching Field Work), the course examines student field experiences in light of issues related to aims, persistent problems, theoretical arguments, and research findings in early childhood education. The course also features a strong technological component supporting the completion of electronic teaching portfolios—the capstone assignment in the child development teacher certification program. The seminar setting provides a place for child development teacher candidates to come together in a supportive community of practitioners to discuss issues related to their experiences in early childhood classrooms, as well as broader concerns of education. Lecture 2 hours. Prerequisite: CHLDV 140, and verification of TB clearance. Corequisite: CHLDV 180, 181, or 182. Transfer Credit: CSU

142 CHILD, FAMILY, AND COMMUNITY 3.0 Units
CHLDV 142 examines the developing child in a societal context focusing on the interrelationship of family, school and community with an emphasis on historical and socio-cultural factors. The processes of socialization and identity development will be highlighted, showing the importance of respectful, reciprocal relationships that support and empower families. Lecture 3 hours. Prerequisite: CHLDV 135. Transfer Credit: CSU

147 WORKING WITH INFANTS AND TODDLERS 3.0 Units
CHLDV 147 is designed to provide specialization in the milestones of infant and toddler development, and the various programs currently available. Students consider principles of care-giving, and learn appropriate play activities and materials necessary to enhance early childhood education. Observation of infants and toddlers is required, both in the classroom and outside in the community. Lecture 3 hours. Prerequisite: CHLDV 135. Transfer Credit: CSU

150 INTRODUCTION TO CURRICULUM 3.0 Units
CHLDV 150 presents an overview of knowledge and skills related to providing appropriate curriculum and environments for young children from birth to age eight. With a focus on intentional teaching, this course examines the teacher’s role in promoting practices that support learning and development in young children with an emphasis on the essential role of play. Students will study the overview of content areas including but not limited to: Language and literacy, social and emotional learning, sensory learning, art and creativity, math and science, and the essential integration of all areas. Lecture 3 hours. Prerequisite: CHLDV 140. Transfer Credit: CSU

151 CREATIVE ACTIVITIES FOR PRESCHOOL CHILDREN 3.0 Units
CHLDV 151 provides teaching techniques and opportunities to personally experience creative activities geared to the young child. It focuses on integrating these activities into the curriculum and encouraging the preschool children to explore and enjoy learning from their environment. Creative areas include: arts and crafts, carpentry, blocks, dramatic play, science, and cooking. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

152 MUSIC FOR YOUNG CHILD 3.0 Units
CHLDV 152 explores musical experiences appropriate to the development of the infant, the preschool child, the elementary school child, and the exceptional child. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

154 EARLY CHILDHOOD EDUCATION AND THE ART EXPERIENCE 3.0 Units
CHLDV 154 provides students with the basic knowledge of the content and style of children’s art and its link to thinking. Emphasis is placed on the developmental areas of children’s growth and the ways teachers can provide appropriate and stimulating activities. Students have the opportunity to merge theory and practice and gain skills to facilitate creative expression. Exceptional children, diversity, and the Reggio Emilia approach are featured. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

155 CHILDREN WITH SPECIAL NEEDS 3.0 Units
CHLDV 155 provides skill in identifying normal and special development of children, and includes methods of management and teaching techniques which prove helpful in working with children with special needs. A humanistic view of the whole child and the valuing and supporting of his/her rights is emphasized. Parents of exceptional or special children are considered, along with educational services and community agencies. Lecture 3 hours. Prerequisite: CHLDV 135 (CHLDV 135 may be taken concurrently.) Transfer Credit: CSU

156 TEACHING IN A DIVERSE SOCIETY 3.0 Units
CHLDV 156 is a course that examines the major social, economic, and psychological processes involved in interactions and relationships as related to differences in person and group characteristics focused on how these processes impact work with young children and their families in early childhood programs. Various approaches will be explored, with an emphasis on an anti-bias approach. Self-examination, reflection and integration of practices to promote equity and deepening understanding of how to best support children as they gain a sense of identity and become respectful and confident members of our complex society. Lecture 3 hours. Prerequisite: CHLDV 135. Transfer Credit: CSU
158
MOVEMENT DEVELOPMENT: BIRTH THROUGH TWELVE YEARS
(Also listed as Dance 158)
3.0 Units
CHLDV 158 provides those students who are interested in teaching movement to children the opportunity to acquire knowledge and techniques related to motor development. The course introduces basic principles and theories of motor development in children from birth to age twelve, focusing on designing developmentally-appropriate and creative dance experiences for young children. Note: This course will not fulfill physical education activity requirements. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

160
GUIDING CHILDREN AND ADOLESCENTS
3.0 Units
CHLDV 160 is a course that focuses on the processes, techniques, models, research, and selected issues in child guidance as applied to 0-adolescence in family and community settings. Students will develop a personal approach to guidance based on current scientific research and theory concerning human development. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

174
ADMINISTRATION AND SUPERVISION OF EARLY CHILDHOOD PROGRAMS I
3.0 Units
CHLDV 174 addresses the functions common to the management of programs for young children. Topics covered include the general responsibilities of a director, various program types, licensing and accreditation criteria, and the process for starting a new center or a new year in an existing school. Particular emphasis is on developing sound fiscal and program management skills. Finance and budgeting, organizational structure, record keeping, equipment and space requirements, food services, and establishing general program policies are considered. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

175
ADMINISTRATION AND SUPERVISION OF EARLY CHILDHOOD PROGRAMS II
3.0 Units
CHLDV 175 explores issues regarding communication, supervisory processes, goal consensus, team building, leadership style, center climate, and other organizational issues. Comprehensive methods for analyzing the different components of an early childhood program to effect organizational change are discussed. Particular emphasis is on the art of leadership and interpersonal relationships. Lecture 3 hours. Prerequisite: CHLDV 174. Transfer Credit: CSU

176
MENTOR TEACHER PRACTICES
3.0 Units
CHLDV 176 studies the methods and principles of supervising student teachers in early childhood classrooms. Emphasis is on the role of classroom teachers with experience able to function as mentors to new teachers while simultaneously addressing the needs of children, parents, and other staff. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

180
STUDENT TEACHING FIELD PRACTICE - INFANT/TODDLER
1.0 Unit
CHLDV 180 provides a one-semester teaching experience in an infant/toddler setting. The teacher candidate, under the supervision of a cooperating teacher and a college supervisor, will assume complete responsibility for the instruction of children. The course is designed to provide opportunities for practical application of skills and knowledge previously gained in the classes specified in the school age and child development curriculum. Field experience provides the teacher candidate the opportunity to participate in before and after-school activities, design and provide developmentally appropriate activities and tutoring under the guidance of the supervising/mentor teacher, assess themselves as a prospective teacher, and participate in seminar discussions. Laboratory 3 hours. Corequisite: CHLDV 141. Transfer Credit: CSU

181
STUDENT TEACHING FIELD PRACTICE - PRESCHOOL FOCUS
1.0 Unit
CHLDV 181 provides a one-semester teaching experience in a preschool setting. The teacher candidate, under the supervision of a cooperating teacher and a college supervisor, will assume complete responsibility for the instruction of children. The course is designed to provide opportunities for practical application of skills and knowledge previously gained in the classes specified in the school age and child development curriculum. Field experience provides the teacher candidate the opportunity to participate in before and after-school activities, design and provide developmentally appropriate activities and tutoring under the guidance of the supervising/mentor teacher, assess themselves as a prospective teacher, and participate in seminar discussions. Laboratory 3 hours. Corequisite: CHLDV 141. Transfer Credit: CSU

210
SCAFFOLDING LEARNING IN EARLY CHILDHOOD EDUCATION
3.0 Units
CHLDV 210 compares current cognitive theories and provides methods for bridging the gap between research and classroom practice. Strategies and skills necessary for preparing environments that encourage active learning and problem-solving skills for children are developed. Particular emphasis develops the project approach to implementation, using the acclaimed, innovative Reggio Emilia techniques. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU
CHLDV 215 provides specialization in young children's strategies and activities for developing language and emerging literacy, birth through age eight. Emphases are placed on the study of oral language development and play related to early literacy. The course is designed to demonstrate a framework for considering the developing young child in relation to cultural, social, and family environments. Topics include: dialogic reading, early literacy, second language learning, play and literacy, family literacy, and becoming a conversationalist with children. Note: CHLDV 200, 201, 202 and 215 combined: maximum credit 3 units. Lecture 3 hours. **Prerequisite:** CHLDV 140 and 150 (CHLDV 140 and 150 may be taken concurrently.) **Transfer Credit:** CSU

CHLDV 220 identifies stressors which diminish the effectiveness of the learning environment and place children at-risk for school problems. The Family Resiliency Model is utilized to examine critical family dynamics which affect children's emotional and psychological development. Stressors which spill over from the broader community (e.g. community violence, and natural catastrophes), as well as stressors which emerge from within the classroom (e.g. peer conflict, teacher-student conflict, and teacher burnout) are examined. Practical skills are provided to future teachers to assist them in managing their personal stress in developing effective communication and conflict management skills, and in creating a safe, competence-producing, and cooperative learning environment. Lecture 3 hours. **Recommended preparation:** Eligibility for ENGL 101. **Transfer Credit:** CSU

### CHINESE

**101 BEGINNING CHINESE I**

**5.0 Units**

Chinese 101 teaches the fundamentals of Chinese grammar. Students are trained to pronounce Chinese (Mandarin) correctly, to acquire a small working vocabulary which they use in conversation and phonetic writing, to read and write in phonetic transcription and to read and write approximately 150 Chinese characters. **Note:** Not open to students with oral proficiency or who have attended schools where Mandarin Chinese was the language of instruction. In addition to the regular class hours the student must spend one-half hour a week in the foreign language laboratory. Lecture 5 hours, laboratory ½ hour. **Recomended preparation:** Eligibility for ENGL 120 or ESL 151. **Transfer Credit:** CSU, UC, USC

**102 BEGINNING CHINESE II**

**5.0 Units**

Chinese 102 continues to present the fundamentals of Chinese grammar. Students are further trained to pronounce Mandarin correctly, to build their conversational and written vocabulary, and to read and write approximately 300 more Chinese characters. **Note:** In addition to the regular class hours, the student must do one half-hour a week of language laboratory work. Lecture 5 hours, laboratory ½ hour. **Prerequisite:** CHIN 101 or equivalent. **Transfer Credit:** CSU, UC, USC

**103 INTERMEDIATE CHINESE I**

**5.0 Units**

Chinese 103 includes further study of Chinese grammar and idioms, intensive and extensive reading in contemporary Chinese, and written compositions in Chinese. This class is conducted entirely in Chinese. **Note:** This course is offered during the Fall semester only. Lecture 5 hours, laboratory ½ hour. **Prerequisite:** CHIN 102 or equivalent. **Transfer Credit:** CSU, UC, USC

**104 INTERMEDIATE CHINESE II**

**5.0 Units**

Chinese 104 is a continuation of Chinese 103 with reading of more difficult literary texts, and increased emphasis on composition and conversation. This class is conducted entirely in Chinese. **Note:** This course is offered during the Spring semester only. Lecture 5 hours, laboratory ½ hour. **Prerequisite:** CHIN 103 or equivalent. **Transfer Credit:** CSU, UC, USC

**110 BASIC CONVERSATIONAL CHINESE I**

**MANDARIN**

**3.0 Units**

Chinese 110 is an introduction to the Chinese language (Mandarin) with emphasis on developing essential skills in communication. The verbal active method used stresses oral expression. This course develops a working knowledge of reading and writing as well, and includes the use of tapes, cassettes, and films. **Note:** Not open to students who have oral proficiency or who have attended schools where Chinese was the language of instruction. Lecture 3 hours. **Prerequisite:** None.

**111 BASIC CONVERSATIONAL CHINESE II**

**3.0 Units**

Chinese 111 is a continuation of basic conversational Chinese. It teaches the students to communicate on a more advanced level and provides them with the ability to read and write basic Chinese as a route to further study. The classroom activities emphasize conversational repetition and oral expression. Reading and writing is introduced on a limited basis. Lecture 3 hours. **Prerequisite:** CHIN 110 or equivalent. **Note:** This course may be taken 2 times; a maximum of 6 units may be earned.

### COMPUTER AIDED MANUFACTURING

**210 COMPUTER AIDED MANUFACTURING BASIC MILLING**

**3.0 Units**

Computer Aided Manufacturing 210 introduces the use of computers in programming numerical control milling machines. Lecture 3 hours. **Prerequisite:** None.

**211 INTERMEDIATE MILLING**

**3.0 Units**

Computer Aided Manufacturing 211 is an intermediate course in the use of computers to aid in the programming of numerical control milling machines in manufacturing. Lecture 3 hours. **Prerequisite:** CAM 210 or equivalent.

**220 COMPUTER AIDED MANUFACTURING, BASIC LATHE**

**3.0 Units**

Computer Aided Manufacturing 220 introduces the operation of computers in programming numerical control lathe machines. Lecture 3 hours. **Prerequisite:** None. **Note:** This course may be taken 2 times; a maximum of 6 units may be earned.
230 COMPUTER AIDED MANUFACTURING, BASIC MILLING PRACTICE
1.0 to 2.0 Units
Computer Aided Manufacturing 230 is a laboratory class that allows students to practice on the MasterCam program and complete assignments from Computer Aided Manufacturing 210. Laboratory 3 to 6 hours. Prerequisite: CAM 210 or equivalent (CAM 210 may be taken concurrently.)

231 INTERMEDIATE MILLING LABORATORY
1.0 Unit
Computer Aided Manufacturing 231 is a laboratory class for students to practice on the Master-Cam program and complete assignments from Computerized Numerical Control 211. This class provides additional time on computers to expand knowledge of and proficiency in the use of Computer Aided Manufacturing programs. Laboratory 3 hours. Prerequisite: CAM 211 or equivalent (CAM 211 may be taken concurrently.)

240 COMPUTER AIDED MANUFACTURING, BASIC LATHE PRACTICE
1.0 to 2.0 Units
Computer Aided Manufacturing 240 is a laboratory class that allows students to practice on the MasterCam program and complete assignments from Computerized Numerical Control 211. This class provides additional time on computers to expand knowledge of and proficiency in the use of Computer Aided Manufacturing programs. Laboratory 3 to 6 hours. Prerequisite: CAM 220 (CAM 220 may be taken concurrently.)

COMPUTER APPLICATIONS & BUSINESS OFFICE TECHNOLOGIES

90 SELF-PACED INTRODUCTION TO ADAPTED WORD PROCESSING
1.0 Unit
NON-DEGREE APPLICABLE
CABOT 90 is designed to provide individualized, self-paced instruction to students with disabilities. The course combines specially designed assistive computer technology and a word processing application program to enhance basic skill acquisition and facilitate production of simple written documents. Note: This class is specially designed for students who meet Title V eligibility requirements for Disabled Students Programs and Services. Lecture 1 hour, lab 3 hours. Prerequisite: None.

91 INTRODUCTION TO ADAPTED WORD PROCESSING FOR STUDENTS WITH VISUAL IMPAIRMENTS
3.0 Units
NON-DEGREE APPLICABLE
CABOT 91 is designed to instruct students with visual impairments. The course combines either screen reading or text enlarging assistive computer technology and a word processing application program in order to enhance basic skill acquisition and facilitate production of written documents and academic assignments. Note: This class is specially designed for students who meet Title V eligibility requirements for Disabled Students Programs and Services. Lecture 2 hours, lab 3 hours. Prerequisite: None.

92 INTRODUCTION TO ADAPTED WORD PROCESSING
1.5 Units
NON-DEGREE APPLICABLE
CABOT 92 is designed to instruct students with disabilities in the use of the combination of specially designed assistive computer technology and a word processing application program to enhance basic skill acquisition and facilitate production of written documents and academic assignments. Note: This class is specially designed for students who meet Title V eligibility requirements for Disabled Students Programs and Services. Lecture 2 hours, lab 3 hours. Prerequisite: None.

93 ADAPTED COMPUTER LABORATORY
0.5 to 2.0 Units
NON-DEGREE APPLICABLE
CABOT 93 is designed for the disabled student who has completed the regular Adapted Computer Technology but who must use adapted technologies to efficiently access the computer. Individualized projects will be developed and implemented. Note: This class is specially designed for students who meet Title V eligibility requirements for Disabled Students Programs and Services. Lecture 3 to 6 hours. Prerequisite: None.

94 ADVANCED ADAPTED APPLICATIONS
3.0 Units
NON-DEGREE APPLICABLE
CABOT 94 is designed to instruct students with disabilities to use assistive computer technology and mainstream application programs in order to facilitate production of written documents. Concepts related to basic spreadsheet/database applications and advanced word processing features are included. Note: This class is specially designed for students who meet Title V eligibility requirements for Disabled Students Programs and Services. Lecture 1 hour, lab 3 hours. Prerequisite: None.

101 BUSINESS OFFICE PROCEDURES
3.0 Units
CABOT 101 is a detailed study of general office procedures, including the selection of office supplies, processing of mail, use of postal and telegraph services, receptionist and telephone techniques, handling travel arrangements, data processing, preparation of reports, banking procedures, payroll, insurance, and tax records, legal forms, and job interviews. Lecture 3 hours. Prerequisite: None.

102 ENGLISH FOR BUSINESS
4.0 Units
CABOT 102 is a course designed to help students improve their written communication in English. The course offers a systematic approach to building a foundation in the structure, mechanics, and application of the English language to the business environment by constructing and editing sentences, paragraphs, and documents for logical expression of thought using proper sentence structure, grammar, syntax, punctuation, and business vocabulary. Appropriate computer software is used. Students develop composition skills at progressively complex levels. Note: This course allows one unit of credit for students who have completed English 101, and 2 units of credit for students who have completed English 120 or English 131. Lecture 4 hours. Prerequisite: CABOT 103 and one of the following: Eligibility for English 191 or ESL 141. Recommended preparation: keyboarding skill at the rate of 25 w.p.m. or concurrent enrollment in a keyboarding course.
103 BUSINESS VOCABULARY DEVELOPMENT 3.0 Units
CABOT 103 is designed to develop skill in the acquisition and proper use of English vocabulary in business communications. Both general and specialized vocabularies specific to business professions are covered. In addition, methods for independent study are explored to promote vocabulary expansion beyond the classroom. Lecture 3 hours. Prerequisite: Eligibility for ESL 133 or ENGL 189.

104 FILING METHODS AND SYSTEMS 1.0 Unit
CABOT 104 covers principles and procedures for establishment and use of various filing systems. This includes practice in alphabetic, numeric, geographic, and subject filing methods and covers principles and procedures for storage and retrieval, retention, transfer, and disposal of records. Lecture 3 hours. Prerequisite: None.

105 INTRODUCTION TO OFFICE CORRESPONDENCE 3.0 Units
CABOT 105 is an entry-level writing course for students completing programs in business. The course prepares students to accomplish tasks and solve problems through the written word. Techniques are covered for creating effective documents in appropriate styles and formats. These documents include business letters, memos, e-mail messages, telephone messages, and other written communications typically generated by an employee in an entry-level position. In addition, short original essays responding to a review of rhetorical works in the fields of business and economics will be prepared. Lecture 3 hours. Prerequisite: CABOT 102 and eligibility for either ENGL 120 or ESL 151 or the equivalent. Recommended preparation: Keyboarding skill at rate of 30 wpm.

106 ELECTRONIC CALCULATORS 1.0 Unit
CABOT 106 develops skill in the operation of ten-key electronic display/printing calculators. Students apply calculating machine skills to actual business problems. Note: Recommended for business certificates. Lecture/Demonstration 2 hours (8-week course). Prerequisite: None.

107 BUSINESS WRITER’S WORKSHOP 1.0 Unit
CABOT 107 is an entry-level business writing class for students completing programs in business and for those working in a business office. The course is intended to help prepare students for higher level business writing classes (e.g. CABOT 105 and BUSAD 106) and to help students complete business writing assignments in other business courses (e.g. Accounting) and in the workplace. Instruction and individual help will be given to students preparing simple business documents, including business letters, memos, e-mail messages, telephone messages, and other written communications typically generated by an employee in an entry-level position in a business office. Lecture 5 hours. Recommended preparation: Completion of or concurrent enrollment in CABOT 102, ENGL 191, or ESL 141, or the equivalent.

110 COLLEGIATE BUSINESS MATHEMATICS 3.0 Units
CABOT 110 is a complete course in mathematical topics needed for success in modern business. Students concentrate on analyzing word problems by generating and solving appropriate algebraic equations and selecting appropriate mathematical procedures to solve problems arising in complex business situations. Emphasis is on real-world problems in such areas as payroll, cash and trade discounting, simple and compound interest, depreciation, installment purchases, and note and mortgage valuation. This course offers students a solid preparation for entering courses in accounting, retailing and marketing and is a core requirement for CABOT certificate programs. It also increases the student’s chances of success on pre-employment mathematics tests. Lecture 3 hours. Prerequisite: None.

115 MACHINE TRANSCRIPTION-GENERAL 1.0 Unit
CABOT 115 provides instruction on transcribing dictation from transcribing machines. It emphasizes excellence in keyboarding and proficiency in the use of English mechanics, such as spelling, grammar, punctuation, and sentence structure. Lecture/Demonstration 1 hour. Prerequisite: (1) CABOT 205 or equivalent, (2) CABOT 103, and (3) CABOT 265 or equivalent. CABOT 265 may be taken concurrently. Recommended preparation: CABOT 105.

120 ACCOUNTING PRINCIPLES 1.0 Unit
CABOT 120 is a complete course in basic accounting principles covering areas as payroll, cash and trade discounting, simple and compound interest, depreciation, installment purchases, and note and mortgage valuation. This course offers students a solid preparation for entering courses in accounting, retailing and marketing and is a core requirement for CABOT certificate programs. It also increases the student’s chances of success on pre-employment mathematics tests. Lecture 3 hours. Prerequisite: None.

151 COMPUTER KEYBOARDING 1.0 Unit
CABOT 151 teaches students to use computer keyboards. Accuracy is stressed because a single error may result in inputting incorrect information or no information at all. The effect of modifier and function keys unique to the computer keyboard is reviewed. Note: This course may be taken 3 times, a maximum of 3 units may be earned. Lecture 1 hour/lab 3 hours (8 weeks). Prerequisite: None.

156 VOICE RECOGNITION 1.0 Unit
CABOT 156 teaches students to use voice-recognition software to input information into the computer. Voice commands for formatting and editing documents are included. Lecture/Demonstration 1 hour. Recommended preparation: Eligibility for English 120 or ESL 151; and CABOT 208 or equivalent.

162 LEGAL OFFICE PROCEDURES 3.0 Units
CABOT 162 is a course offering specialized training in preparation of legal paperwork and forms, development of specialized vocabulary and spelling, familiarization with law office routines, and other legal procedures. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

165 MACHINE TRANSCRIPTION-LEGAL 1.0 Unit
CABOT 165 is a machine transcription course which enables students to transcribe legal correspondence and keyboard legal forms commonly used in legal offices. Emphasis is placed on excellence in keyboarding and proficiency in use of English mechanics, such as spelling, grammar, punctuation, and proofreading. Lecture/Demonstration 1 hour. Recommended preparation: (1) CABOT 210 or equivalent, (2) CABOT 103, and (3) eligibility for BUSAD 106

200 INTRODUCTION TO COMPUTER KEYBOARDING 1.0 Unit
CABOT 200 develops the basic skills and keyboard techniques needed to work with a computer keyboard. Accuracy is stressed because a single error may result in inputting incorrect information or no information at all. The effect of modifier and function keys unique to the computer keyboard is reviewed. Note: This course may be taken 3 times, a maximum of 3 units may be earned. Lecture 1 hour/lab 3 hours (8 weeks). Prerequisite: None.

205 COMPUTER KEYBOARDING/TYPING I 3.0 Units
CABOT 205 develops the basic skill of keyboard techniques to give the foundation for advanced training in typing. Training is given in the preparation of memorandums, personal letters, business letters, simple tabulation, outlines, and manuscripts. Lecture 2 hours/lab 3 hours. Prerequisite: None. Transfer Credit: CSU
MACINTOSH BASICS
1.0 Unit
CABOT 206 provides students with a basic introduction to the Macintosh Operating System. Topics covered include the skills necessary for managing the desktop, using the mouse and pull-down menus, creating and manipulating folders, files, and windows, and other standard operations used in every Macintosh application. Lecture 2 hours /lab 1 hour (8 weeks). Prerequisite: None.

WINDOWS BASICS
1.0 Unit
CABOT 208 provides students with a basic introduction to the Windows environment. Topics covered include the skills necessary to manage the desktop, to use the mouse and pull-down menus, to create and manipulate folders, files, windows, and perform other standard Windows operations, and to perform simple Internet searches. Lecture 2 hours /lab 1 hour (8 weeks). Prerequisite: None. Note: This course may be taken 4 times using different operating systems; maximum of 4 units may be earned.

ADVANCED WINDOWS
1.0 Unit
CABOT 209 reviews the fundamental skills taught in CABOT 208 and continues with more advanced features. Topics covered include modifying the desktop work environment, customizing with control panel, and advanced file and document management. Lecture 2 hours /lab 1 hour. Recommended preparation: CABOT 208 or equivalent. Knowledge of computer keyboarding. Note: This course may be taken 4 times using different operating systems; a maximum of 4 units may be earned.

COMPUTER KEYBOARDING/TYPING II
3.0 Units
CABOT 210 is a continuation of CABOT 205, providing refinement and development of technique with increased emphasis on accuracy and speed. The course provides a detailed study of business letters, special office forms, tabulated reports, and manuscripts. Lecture 2 hours/lab 3 hours. Recommended preparation: CABOT 205 (3 units) or equivalent. Transfer Credit: CSU

WORD PROCESSING FOR ACADEMIC WRITING
1.0 Unit
CABOT 220 is a course designed to benefit students who are required to write essays, term papers, and research papers. The course teaches students to use a word processing program, enabling them to edit their writing easily and encouraging a more finished product. Students will also learn how to format citations and reference pages using proper MLA and/or APA documentation styles. Lecture/demonstration 1½ hours, laboratory 1½ hours. Prerequisite: None.

COMPUTER KEYBOARDING/TYPING SPEED DEVELOPMENT
1.0 Unit
CABOT 230 is designed to provide intensive training and practice in building typewriting speed and control. The student is allowed to pursue individual goals. Lecture ½ hours, laboratory ½ hours. (8 weeks). Recommended preparation: CABOT 205 or equivalent. Note: This course may be taken 4 times; a maximum of 4 units may be earned.

BEGINNING MICROSOFT OFFICE APPLICATIONS
4.0 Units
CABOT 250 provides students with the necessary skills and training to create, enhance, manipulate, and manage files in four different software programs. Some of the topics for this course consist of: creating a document with a table, a chart, and a watermark. Knowledge of computer keyboarding. Note: This course may be taken 4 times using different operating systems; a maximum of 4 units may be earned.

MICROSOFT WORD I
3.0 Units
CABOT 265 provides students with beginning features and functions of Microsoft Office Word, a word processing software program. This course prepares students for the Microsoft Office Specialist (MOS) core certification exam in Word. Some of the topics for this course consist of: creating a word document, creating a research paper, using a wizard to create a resume, creating a cover letter with a table, and creating a document with a table, a chart, and a watermark. Lecture/demonstration 6 hours (8 weeks). Recommended preparation: CABOT 208 or equivalent (CABOT 208 may be taken concurrently), and CABOT 205 or equivalent or ability to type by touch at a minimum of 25 wpm.

MICROSOFT WORD II
3.0 Units
CABOT 266 provides students with advanced features and functions of Microsoft Office Word, a word processing software program. This course prepares students for the Microsoft Office Specialist (MOS) expert certification exam in Word. Some of the topics for this course consist of: creating a professional newsletter in multiple columns with a table, using imported graphics, creating an online form with combo boxes and check boxes, working with tables of contents and indexes, and generating form letters, mailing labels and envelopes with mail merge. Lecture/demonstration 6 hours (8 weeks). Prerequisite: CABOT 265 or equivalent.

MICROSOFT EXCEL I
3.0 Units
CABOT 270 provides students with instruction in beginning features and functions of Microsoft Office Excel, a spreadsheet software program. This course prepares students for the Microsoft Office Specialist (MOS) core certification exam in Excel. Some of the topics for this course consist of: creating a worksheet with an embedded chart, working with financial functions, data tables, amortization schedules, and hyper-links, and creating static and dynamic Web pages. Lecture/demonstration 6 hours (8 weeks). Recommended preparation: CABOT 200 and 208, or equivalent. (CABOT 200 and 208 may be taken concurrently.)
MICROSOFT EXCEL II
3.0 Units
CABOT 271 provides students with advanced features and functions of Microsoft Office Excel, a spreadsheet software program. This course prepares students for the Microsoft Office Specialist (MOS) expert certification exam in Excel. Some of the topics for this course include using Visual Basic for Applications (VBA), creating templates and working with multiple worksheets and workbooks. Lecture/demonstration 6 hours (8 weeks). Prerequisite: CABOT 270 or equivalent.

MICROSOFT ACCESS I
3.0 Units
CABOT 275 provides students with instruction in beginning features and functions of Microsoft Office Access, a database software program. This course prepares students for the Microsoft Office Specialist (MOS) core certification exam in Access. Some of the topics for this course consist of: creating a database using design and datasheet views, querying a database, maintaining a database, and creating reports and forms. Lecture/demonstration 6 hours (8 weeks). Recommended preparation: CABOT 200 and 208, or equivalent. (CABOT 200 and 208 may be taken concurrently.)

MICROSOFT ACCESS II
3.0 Units
CABOT 276 provides students with advanced features and functions of Microsoft Office Access, a database software program. This course prepares students for the Microsoft Office Specialist (MOS) core certification exam in Access. Some of the topics for this course consist of: creating a database using design and datasheet views, querying a database, maintaining a database, and creating reports and forms. Lecture/demonstration 6 hours (8 weeks). Prerequisite: CABOT 275 or equivalent.

MICROSOFT POWERPOINT I
3.0 Units
CABOT 280 provides students with instruction in beginning features and functions of Microsoft Office PowerPoint, a presentation software program. This course prepares students for the Microsoft Office Specialist (MOS) core certification exam in PowerPoint. Some of the topics for this course consist of: using a design template and auto layouts to create a presentation, using outline view and clip art to create a slide show, using embedded visuals to enhance a slide show, and creating a presentation on the Web. Lecture/demonstration 6 hours (8 weeks). Recommended preparation: CABOT 200 and 208, or equivalent. (CABOT 200 and 208 may be taken concurrently.)

MICROSOFT POWERPOINT II
3.0 Units
CABOT 281 provides students with advanced features and functions of Microsoft Office PowerPoint, a presentation software program. This course prepares students for the Microsoft Office Specialist (MOS) expert certification exam in PowerPoint. Some of the topics for this course consist of creating a presentation containing interactive object Linking and Embedding (OLE) documents, creating a self-running presentation using animation effects, and using Visual Basic for Applications (VBA). Lecture/demonstration 6 hours (8 weeks). Prerequisite: CABOT 280 or equivalent.

MICROSOFT OUTLOOK
3.0 Units
CABOT 285 introduces students to the beginning features and functions of Microsoft Office Outlook. This course prepares students for the Microsoft Office Specialist (MOS) certification exam in Outlook. Lecture/demonstration 6 hours. Recommended preparation: CABOT 200 and 208, or equivalent. (CABOT 200 and 208 may be taken concurrently.)

MICROSOFT PUBLISHER
3.0 Units
CABOT 286 introduces students to the beginning features and functions of Microsoft Office Publisher, a desktop publishing program. Students create flyers, brochures, newsletters, letterheads, forms, and other publications that incorporate text, graphics, illustrations, and photographs. Lecture/demonstration 6 hours. Recommended preparation: CABOT 200 and 208, or equivalent. (CABOT 200 and 208 may be taken concurrently.)
101

INTRODUCTION TO COMPUTER AND INFORMATION SYSTEMS
5.0 Units
CS/IS 101 is designed to present the concepts and technology of processing information to students who plan to continue their studies in business information systems or computer science or who plan to work in the field. This course has a hands-on component in which the student learns basic system and application software, Web site development, Internet, and networking. Information competency skills are introduced. Students will focus on the application of concepts and methods through hands-on projects, developing computer-based solutions to business problems. Lecture/demonstration 5 hours, lab 1 hour. Prerequisite: None. Transfer Credit: CSU, UC, USC

102

BUSINESS COMPUTER APPLICATIONS
2.0 Units
CS/IS 102 is specifically intended for students who wish to transfer to a business program in a four-year university. The course is problem oriented and solves advanced business problems with commonly-used software packages in word processing, spreadsheets, and databases as well as operating systems. The knowledge gained in this course allows students to effectively compete in the rigorous computer environment demanded by upper-level business courses. Lecture 3 hours, lab 1 hour. Prerequisite: None. Transfer Credit: CSU

111

INTERACTIVE MULTIMEDIA I
(Also listed as Media Arts 111)
3.0 Units
CS/IS 111 introduces students to the aesthetics and techniques employed in the creation of interactive multimedia programs. Topics presented in the course include: project planning, interactive design principles, digital video and audio, computer animation, graphics, and cross-platform distribution. Students create projects using industry standard software such as Macromedia Director. Note: This course may not be taken for credit by students who have completed Media Arts 111. Lecture 2 hours, lab 4 hours. Recommended preparation: CABOT 206 or equivalent. Transfer Credit: CSU

112

INTRODUCTION TO PROGRAMMING USING JAVA
3.0 Units
CS/IS 112 is a course in programming computers using the Java programming language, which includes defining the problem, flowcharting, writing, executing, and debugging application programs in an object oriented language, and program documentation. Students process programs using the equipment of the on-campus computer. Lecture 3 hours, lab 2 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

118

INTRODUCTION TO ADOBE ILLUSTRATOR
3.0 Units
CS/IS 118 teaches the fundamentals of a microcomputer based two-dimensional/three-dimensional graphics program. The course introduces the student to an array of drawing tools, menu functions, projection methods, and presentation options. This course does not teach basic design concepts, but teaches the student to use specialized software tools. Note: This course may be taken 2 times using different software or hardware. Lecture 3 hours, lab 2 hours. Prerequisite: None.

119

ADVANCED 2D/3D GRAPHIC SOFTWARE
3.0 Units
CS/IS 119 teaches the advanced capabilities of a microcomputer based two-dimensional/three-dimensional graphics program. This course does not teach basic design concepts, but teaches the student to make use of the symbol, animation, worksheet, and database capabilities of the software. Lecture 3 hours, lab 2 hours. Prerequisite: None.

120

VISUAL BASIC
3.0 Units
CS/IS 120 is an extended study of the capabilities of Visual Basic, an object-oriented programming language. The course includes file input/output, working with controls, windows, buttons, menus, multiple forms, databases and designing printed reports. Applications programs in business, education, science, mathematics, or engineering will be written. Lecture 3 hours, lab 2 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

123

DESKTOP PUBLISHING
2.0 Units
CS/IS 123 is intended to acquaint the student with currently available desktop publishing technology. Students compose and create flyers, brochures and newsletters as well as explore the use of graphics programs. Students develop the skills necessary to plan, install and maintain a desktop publishing system. This course does not teach basic design concepts, but rather provides the student with new production tools. Note: This course may be taken 3 times using different hardware or software. Lecture 3 hours, lab 1 hour. Prerequisite: None. Transfer Credit: CSU

124

ADVANCED DESKTOP PUBLISH
3.0 Units
CS/IS 124 is designed to acquaint students with the advanced features of publishing software in order to produce quality printed graphics material. Students compose and create a four-page magazine or newsletter using state-of-the-art graphic design tools. Note: This course may be taken 4 times using different software. Lecture 3 hours, lab 1 hour. Prerequisite: None. Transfer Credit: CSU

125

DISCRETE STRUCTURES FOR COMPUTING
5.0 Units
CS/IS 125 is a course in discrete mathematics which furnishes a strong foundation of mathematical tools for modeling problems in computer science for the computer science major. Topics include logic operations, combinatorics, undirected and directed graphs, Boolean algebra, algebraic systems, and finite state automata and Turing machines. Lecture 5 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

126

DIGITAL IMAGING
3.0 Units
CS/IS 126 is an in-depth study course which introduces and teaches the concepts of Digital Imaging. Current imaging editing software, such as Photoshop, is used in the class. This course does not teach basic design concepts, but teaches the student techniques for the production of digital files which can be used for printing and display. Lecture 3 hours, lab 2 hours. Prerequisite: None.
130 INTRODUCTION TO ALGORITHMS
3.0 Units
CS/IS 130 is a course in programming, algorithm development and problem-solving using the Pascal language with a structured approach. It includes a study of the syntax and data structures of the language with applications in science, engineering, and industry. The course is suitable either for students planning to transfer or those wishing to develop a marketable skill. Lecture 3 hours, lab 3 hours. Recommended preparation: CS/IS 110 or 112 or equivalent. Transfer Credit: CSU, UC, USC

135 PROGRAMMING IN C/C++
3.0 Units
CS/IS 135 is a course in programming using the C/C++ languages which are easily transportable languages with uses in applications programming for real-time, business, and image processing systems, as well as systems programming. Types, operators, control flow functions, object-oriented programming, classes, data abstraction, and program structure pointers and arrays are covered in the programming assignments. Lecture 3 hours, lab 3 hours. Recommended preparation: CS/IS 130 or equivalent. Transfer Credit: CSU, UC, USC

137 VISUAL C++ OBJECT-ORIENTED PROGRAMMING & ADVANCED TOPICS
4.0 Units
CS/IS 137 prepares the student for C++ programming in the workplace and other real world environments. The course will focus on the advanced object-oriented programming concepts needed for today's programs as well as other advanced concepts such as templates and generics, files and streams, and operator overloading. In addition, the course will focus on using the Visual C++ IDE (Integrated Development Environment) and will present some techniques for creating basic Windows-based programs in Visual C++. The course will provide students an opportunity to work on projects involving graphics and game programming with the Ogre 3D graphics engine and on other advanced projects of the student's choosing within the scope of the course. Lecture/demonstration 4 hours. Recommended Preparation: CS/IS 135 or equivalent. Transfer Credit: CSU, UC, USC

139 JAVA
3.0 Units
CS/IS 139 is a hands-on course where the student works with programs to develop a knowledge of Java concepts in an interactive environment. Stand alone applications and network applets are created and tested across operating systems and hardware platforms. Lecture 3 hours, lab 3 hours. Recommended preparation: CS/IS 130 or equivalent. Transfer Credit: CSU, UC, USC

140 COBOL PROGRAMMING I
3.0 Units
CS/IS 140 presents the elements and capabilities of COBOL (common business oriented language), using a structured approach. COBOL programming applies to most common computer system configurations and business problem-solving applications. The course includes rules for COBOL words, statements, divisions, literal, editing, and other features. Lecture 3 hours, lab 3 hours. Prerequisite: None. Transfer Credit: CSU, UC

141 ADVANCED JAVA
3.0 Units
CS/IS 141 is a hands-on course in which students work with advanced features of the Java programming language such as Java Database Connectivity, Servlets, Remote Method Invocation, and multimedia. Emphasis for the course is on creating a complete, distributable project incorporating these features. Lecture 3 hours, lab 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

142 SCIENTIFIC COMPUTING
2.0 Units
CS/IS 142 provides science and engineering students with a background in the standard computer tools used in research and development. The course covers basic Unix operating system practices, the fundamentals of Interactive Data Language (IDL) programming, and their application to the solution of typical scientific and engineering problems. Lecture 2 hours. Recommended Preparation: CABOT 208 or equivalent. Knowledge of a programming language is helpful.
154
C# AND WINDOW FORMS
3.0 Units
Computer Science/Information Systems 154 introduces students to Microsoft .Net Framework C#. Object-oriented programming will be reviewed and enhanced using the language. The differences between programming objects in C# versus other languages, file programming, multithreading, and other intermediate C# topics will be covered. Concepts of graphic user interface (GUI) programming in C# will be explored, including design of forms using the Visual Studio Integrated Development Environment (IDE) controls, event handling, and basic graphics. Lecture 3 hours, lab 3 hours. Prerequisite: CS/IS 135 or equivalent.

165
COMPUTER ARCHITECTURE AND ASSEMBLY LANGUAGE
4.0 Units
CS/IS 165 introduces the student to computer architecture as well as the world of assembly language programming utilizing the PEP/7 assembly language simulator. This course is intended for the serious computer student as well as the computing professional. Lecture 3 hours, lab 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

166
ADVANCED COMPUTER ARCHITECTURE AND ASSEMBLY LANGUAGE
3.0 Units
CS/IS 166 covers the extension of basic addressing concepts to more advanced addressability such as base register and self-relative addressing, as well as comparative computer architecture focusing on such organizations as multiple register processors and stack machines. The student will study the basics of virtual memory input-output and an introduction to the concept of micro programmable systems. Low-level system translation processes associated with assemblers, system functions such as relocatable loading and memory management, applications of data structures, and hashing techniques will be covered. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

172
UNIX/LINUX OPERATING SYSTEM
4.0 Units
CS/IS 172 discusses the various features of the UNIX operating system. This operating system was developed by Bell Labs and is becoming an industry standard in modern computer systems. This course will be taught using UNIX on Glendale Community College Sun computers and LINUX on student home computers. Lecture 3 hours. Recommended preparation: CS/IS 135 and 139, or equivalent. Transfer Credit: CSU, UC, USC

174
UNIX/LINUX SYSTEM ADMINISTRATION
4.0 Units
CS/IS 174 is a course designed to acquaint the student with UNIX system administration. This course will introduce the Unix user to the tasks performed by a system administrator. Topics covered will include installation, system startup and shutdown networking, file system structure, Sun Microsystems’s Network File System (NFS), process control, backups, user administration, email, web hosting, interoperability with Windows, and security. Lecture/demonstration 4 hours. Recommended preparation: CS/IS 172 or equivalent.

180
SYSTEMS ANALYSIS
3.0 Units
CS/IS 180 is a study of systems and procedures, design of a system, its implementation and installation, and finally its operation, evaluation, and modification. Includes analysis of various existing applications in business and industry. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

185
DATABASE MANAGEMENT
3.0 Units
CS/IS 185 is a course designed to acquaint the student with the elements of data base management which creates file structures to reduce the time and cost of writing programs to store and retrieve information. Topics include mass storage devices, access methods, and the relationship of files to the total system. Particular emphasis is placed on the on-line data base management system and its relationship to the operating system. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

186
WORKSTATION SECURITY AND SUPPORT
3.0 Units
CS/IS 186 familiarizes the student with workstation security measures and workstation operations. The Internet environment has spawned privacy and security issues. Network administrators must be trained to solve security threats as well as maintain user workstations. The student will learn to recognize threats to workstation security. This course also prepares the student to build and maintain workstations in a network and Internet environment as well as work in a helpdesk or support capacity. Lecture/demonstration 3 hours. Prerequisite: None.

190
NETWORKING AND TELECOMMUNICATIONS
3.0 Units
CS/IS 190 is a course designed to acquaint the student with the essential elements of networking and telecommunications used in Local Area Networks (LAN), Wide Area Networks (WAN), Intermediate or Metropolitan Area, and Internet Network environments. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

191
INTERNET ORIENTATION
1.0 Unit
CS/IS 191 is a brief orientation to the Internet and to the facilities available at Glendale Community College. Students are introduced to the Internet, learn to use an email utility and also learn to conduct searches for information. This course satisfies the requirement for an Internet account. Lecture 2 hours, lab 1 hour (8 weeks). Prerequisite: None.

192
INTERNET: BEYOND THE BASICS
1.0 Unit
CS/IS 192 is an intermediate level course that enables the student to identify, analyze, and retrieve specific subject information across the Internet. Students select interest areas, exploring and evaluating a variety of resources on the Internet. Lecture 2 hours, laboratory 2 hours (8 weeks). Recommended preparation: CS/IS 191.

196
ADVANCED NETWORKING: SECURITY
3.0 Units
CS/IS 196 is a course designed to help prepare the student for industry-recognized certification in advanced networking infrastructure. This course will focus on security installation, configuration and administration in the modern networking environment. Lecture 3 hours. Recommended preparation: CS/IS 190 or equivalent.

197
ADVANCED NETWORKING: SERVER OPERATIONS
3.0 Units
CS/IS 197 is a course designed to acquaint the student with network servers. This course focuses on server installation, configuration and administration in the modern networking environment. It includes practical experience with several current server operating systems. Lecture/Demonstration 3 hours. Recommended preparation: CS/IS 190 or equivalent.
198 ADVANCED NETWORKING: VIRTUALIZATION
3.0 Units
Computer Science/Information Systems 198 is a course designed to acquaint the student with virtualization of workstations and servers. This course focuses on installation, configuration and administration of virtualized systems in the modern networked computer environment. It includes practical experience with several current workstation and server operating systems as well as several virtualization systems. Lecture 5 hours. Recommended preparation: CS/IS 190 or equivalent.

210 COMPUTER OPERATIONS
3.0 Units
CS/IS 210 studies the use, operation, and capabilities of computer systems. Students learn to operate a mainframe computer and peripheral equipment, with major emphasis of scheduling, data flow, and distribution of reports and maintenance. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

211 DATA STRUCTURES
5.0 Units
CS/IS 211 is designed to provide a thorough coverage of data structures with data abstraction applied to a broad spectrum of practical applications. Students who take this course will apply the principles of programming as a tool for problem solving. The students will solve practical problems in a computer-equipped laboratory using a current programming language. Lecture 5 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

212 ADVANCED DATA STRUCTURES
3.0 Units
CS/IS 212 is designed to provide a thorough coverage of data structures with data abstraction applied to a broad spectrum of practical applications. Students who take this course will master the principles of programming as a tool for problem solving. The students will solve practical problems in a computer-equipped laboratory using an object-oriented programming language, such as JAVA. Some specific topics that will be covered include hash tables, trees, persistent structures, indexed files, and databases. Lecture 3 hours. Prerequisite: CS/IS 211 or equivalent. Transfer Credit: CSU, UC, USC

218 INTERACTIVE MULTIMEDIA II
(Also listed as Art 218/Media Arts 218)
3.0 Units
CS/IS 218 provides students with advanced training and experience in the creation of interactive multimedia programs. Industry standard software, such as Macromedia Director, is used with primary emphasis placed on the authoring process. Topics covered in the course include: Lingo scripting, interface design, navigation principles, cross-platform development, integration of audio, video, animation and virtual reality (VR) elements, and distribution for CD-ROM, DVD, and the Internet. Students create their own multimedia CD-ROM as a final project. Note: This course may not be taken for credit by students who have completed Art 218 or Media Arts 218. Lecture 5 hours. Prerequisite: ART 146, 220, and MEDIA 101.

232 ORACLE/SQL
1.5 Units
CS/IS 232 is an introduction to the Oracle Relational Database Management System and the use of Oracle's Structured Query Language (SQL*Plus) query tool. This class will focus on the design and organization of a specific schema diagram and how to build SQL statements to access the data. Lecture/demonstration 3 hours. Prerequisite: None.

233 ADVANCED ORACLE/SQL
1.5 Units
CS/IS 233 is a more advanced look at the Oracle Relational Database Management System, the use of Oracle's Structured Query Language (SQL*Plus) query tool, as well as an introduction to PL/SQL. This class will build on the skills learned in CS/IS 232 and focuses primarily on DML (Data Manipulation), DDL (Data Definition), and DCL (Data control). The student will also be introduced to Procedural Language/Structured Query Language (PL/SQL), the programming language that uses SQL. Lecture/demonstration 3 hours (8 weeks). Recommended preparation: CS/IS 232 or equivalent.

255 INTRODUCTION TO ECOMMERCE/ EBUSINESS
3.0 Units
CS/IS 255 is a course designed to acquaint the student with Electronic Commerce. This course focuses on the fundamentals of doing business on the Internet. It includes hardware and software requirements, security strategies, payment systems, business strategies and integration with existing business systems. Lecture/demonstration 3 hours. Prerequisite: None.

260 WEB SITE DEVELOPMENT I
3.0 Units
CS/IS 260 provides students with training and experience in developing and managing Internet Web sites. Primary emphasis is placed on the development of the client-side of the Web for business purposes. Topics include forms, scripting, authoring, and file management software. Students use Web-building development techniques for the client-side of the Web. Lecture/demonstration 3 hours. Prerequisite: None.

261 WEB SITE DEVELOPMENT II
3.0 Units
CS/IS 261 provides students with training and experience in developing and managing an Internet Web server for business. Current industry software is analyzed and discussed. Topics include choosing and installing server software, gateways, scripting languages, and security. Lecture/demonstration 3 hours. Prerequisite: CS/IS 260 or equivalent.

262 WEB SCRIPTING
3.0 Units
CS/IS 262 is a hands-on course designed to acquaint the student with creating Web scripts. This course focuses on the fundamentals of programming with a browser scripting language. Students learn to write, debug, and test Web page scripts and functions. Lecture/demonstration 3 hours. Recommended preparation: CS/IS 260 or equivalent.

263 DATABASE-DRIVEN WEB PAGE CREATION
3.0 Units
CS/IS 263 is a hands-on course designed to introduce the student to the latest techniques in database-driven Web page creation. This course focuses on the methods and techniques used to generate on-the-fly Web pages from Internet databases. Students will learn to write, debug, and test Extensible Markup Language (XML) data and then create Web pages using a style sheet language. XML and the XML Style sheet language (XSL) will be used in this course. Lecture/demonstration 3 hours. Recommended preparation: CS/IS 260 or equivalent.

264 WEB DEVELOPMENT PROJECT I: PLANNING
1.0 Unit
CS/IS 264 is the first of three practical experience-building courses for the Web Development certificate. In this course, the student will complete a thorough Web site plan including site navigation, production charts and storyboards. Lecture 1 hour, laboratory 2 hours. Prerequisite: CS/IS 260 or equivalent.
COOPERATIVE EDUCATION

101  GENERAL WORK EXPERIENCE
1.0 to 3.0 Units
Cooperative Education 101 is the supervised employment of students with the intent of assisting them in acquiring desirable work habits, developing career awareness, and promoting positive attitudes about jobs and the world of work. Note: A maximum of 6 units for Cooperative Education 101 may be earned. A maximum of 16 units may be earned for all Cooperative Education. Laboratory 5 to 15 hours. Corequisite: Concurrent enrollment in 7 units, including Cooperative Education.

102  OCCUPATIONAL WORK EXPERIENCE
1.0 to 4.0 Units
Cooperative Education 102 expands occupational learning opportunities and career awareness programs for students through employment in occupational fields for which their college majors are designed. Emphasis is placed on synthesizing and applying the knowledge gained in other course work to the work environment using the development of measurable job-related objectives the students accomplish during the course. Note: A maximum of 16 units may be earned for all Cooperative Education. Laboratory 5 to 20 hours. Corequisite: Employment related to major and concurrent registration in 7 units, including Cooperative Education. Transfer Credit: CSU

CULINARY ARTS

110  FOODS FOR MODERN LIVING
3.0 Units
Culinary Arts 110 offers practical, scientific, and artistic approaches to foods. Emphasis is on basic information relating to food groups. Students gain experience in planning, purchasing, and procedures of food preparation to meet individual situations. Lecture 2 hours, laboratory 3 hours. Prerequisite: None. Transfer Credit: CSU

111  BEGINNING FOOD PREPARATION AND LAB
5.0 Units
Culinary Arts 111 provides an introduction and application of the principles of food preparation for the consumer by professionals. The course emphasizes hands-on cooking, tasting and evaluation to teach professional culinary techniques. The course also stresses how ingredients and culinary processes affect product outcome. Lecture 3 hours, laboratory 6 hours. Prerequisite: None. Transfer Credit: CSU

112  ADVANCED FOOD PREPARATION
5.0 Units
Culinary Arts 112 is a continuation of Culinary Arts 111. It is the introduction and application of the principles of food preparation. The course emphasizes high production standards, attractive service, use of proper equipment, and efficient use of time. The course also stresses work simplification, nutrition requirements, and preparation of specialized food. Lecture 3 hours, laboratory 6 hours. Prerequisite: CULIN 111 or equivalent. Transfer Credit: CSU

113  SANITATION PRACTICES IN THE HOSPITALITY INDUSTRY
3.0 Units
Culinary Arts 113 studies sanitary practices as they affect the individual and the hospitality operation. It considers the prevention and control of problems encountered through guest and employee experiences. Topics include: how to prevent and control pathogens, safe food handler practices, protecting food through its flow through the establishment, the Hazard Analysis Critical Control Point (HACCP) system, integrated pest management, employee training, and state and local regulations. Students use materials from the National Restaurant Association Educational Foundation to complete the ServSafe certification program. Students must pass the ServSafe exam to receive credit for this course. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

114  NUTRITION AND MENU PLANNING
3.0 Units
Culinary Arts 114 examines the principles of nutrition and their relation to quantity food preparation and menu planning. The course emphasizes menu planning in relation to various food customs, numerous age groups, and identified deficiency diseases applicable to quantity food production. Lecture 3 hours. Prerequisite: None.

116  HOSPITALITY PROCUREMENT, PURCHASING, AND SELECTION
3.0 Units
Culinary Arts 116 examines policies, procedures, and controls and their implementation in purchasing merchandise and supplies for the hospitality industry including equipment, service ware, furniture, fixtures, contract services, and food and beverage. The focus of this course is on optimal procurement, purchasing, and selection policies and procedures for the hospitality industry. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU
118 DIETARY HEALTH CARE
3.0 Units
Culinary Arts 118 is a study of the function of a health care facility dietary department, its policies, financial management and organization of the food service. Consideration is given to appropriate menus for all age groups, modified diets, terminology used, types of food service available, standards of tray and cafeteria service, uniform system of accounting, and general legal and operational problems. Lecture 3 hours. Prerequisite: CULIN 114 or equivalent. Recommended preparation: Eligibility for ENGL 120 or ESL 151.

122 INTERNATIONAL COOKING
3.0 Units
Culinary Arts 122 is an introduction to culinary principles and techniques derived from countries throughout the world. Specific areas of instruction covered include selection of proper equipment and utensils, correct methods of preparation and procedures. Food preparation and presentation are also emphasized. Note: This course may be taken 4 times emphasizing a different cuisine each time. Lecture 3 hours. Prerequisite: None.

124 INTRODUCTION TO BAKING AND PASTRY ARTS
5.0 Units
Culinary Arts 124 is a professional approach to all aspects of the pastry kitchen as related to the food service industry. The course emphasizes various methods of cake preparation, as well as the basics of baking technology. The course is designed to give students enough knowledge to understand the works of the pastry kitchen and bake shop. Lecture 3 hours. Prerequisite: None.

125 ELEMENTS OF NUTRITION
3.0 Units
Culinary Arts 125 presents an overview of the many aspects of nutrition including problems of today, the nutritive processes of the body and dietary planning. Functions, utilization, and recommended allowances of nutrients are emphasized. Consumer education is included. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC.

141 NUTRITION AND WEIGHT CONTROL
2.0 Units
Culinary Arts 141 explores causes and control of various eating disorders: including overweight, underweight, and Bulimia (Anorexia Nervosa). The relationship of corrective dietary planning to these disorders is studied. Lecture 2 hours. Prerequisite: None.

142 NUTRITION CONTROVERSIES
2.0 Units
Culinary Arts 142 is a presentation of current nutrition and dietary controversies. Emphasis is placed on dietary planning for optimum health and disease prevention as it relates to menu planning in the food service industry. Lecture 2 hours. Prerequisite: None.

150 HEALTHY CUISINE FOR KIDS
1.0 Unit
Culinary Arts 150 is designed for school nutrition professionals who prepare and serve children in schools and child care centers every day. It provides an understanding of the basic nutrition principles for preparing healthy foods, and the culinary skills needed to apply nutrition principles in preparing healthy meals for children. Lecture 45 minutes, laboratory 45 minutes. Prerequisite: None.

212 COMMERCIAL FOOD PREPARATION
5.0 Units
Culinary Arts 212 is designed for students pursuing a career in the hotel and restaurant industry. Students will work in a commercial hotel kitchen where they will learn large scale food preparation and production. Lecture 3 hours, lab 6 hours. Prerequisite: CULIN 111. Recommended preparation: CULIN 112.

224 ADVANCED BAKING AND PASTRY ARTS
5.0 Units
Culinary Arts 224 focuses on advanced aspects of baking and pastry for retail pastry shops, hotels, restaurants and catering operations. Students will apply advanced techniques through practical laboratory experience in high-quality pastry production. The focus will be on European-style products, including laminated dough, pastries, cakes, petit fours, fancy desserts, tortes, mousses, chocolate, and confections. Decoration is strongly emphasized. Lecture 3 hours, lab 6 hours. Prerequisite: CULIN 124 or equivalent.

DANCE
It is recommended that a variety of activities be taken during a student’s attendance at Glendale Community College. Courses in dance satisfy the physical education requirement. Child Development 158 and Dance 158 do not meet the physical education requirement. Dance classes may be taken four (4) times; a maximum of six (6) units may be earned in any one course. All classes are coeducational unless otherwise noted.

100 SURVEY OF DANCE HISTORY
3.0 Units
Dance 100 is a survey of dance forms created by western cultures and civilizations. An introduction of the prehistory of dance and development of dance in ancient Egypt, Greece, and Rome is followed by an investigation of the history of dance in the western world through the Christian era into contemporary times. Elements relating to social dance, ethnic dance, court dance, ballet, modern dance, musical theater dance, jazz, and tap dance are included. Emphasis is placed on integrating the development of dance forms with the geographic, social, political, philosophical, and religious characteristics of these cultures. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC.

101 INTRODUCTION TO DANCE
0.5 to 2.5 Units
Dance 101 provides a variety of experiences in movement relative to the acquisition of concepts and skills necessary to develop a basic understanding of dance as a performing art form. Lecture 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC.

102 MIDDLE EASTERN DANCE HISTORY
3.0 Units
Dance 102 is a survey of dance forms originating in North Africa, the Arabian Peninsula, Iran, Armenia, the Levant and Turkey, with emphasis placed on their practice and development during the 19th and 20th centuries. An overview of Middle Eastern and Islamic values in relation to the body, gender, art, and spirituality provides a context for the examination of these dance forms and their relationship to the culture that created them. Elements relating to social dance, gendered dance, spiritual dance, Raqs Sharqi ('Belly Dance'), and theatrical dance are included. The role of cultural exchange and the migration of these dance forms on their development is investigated. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC.
105 STEP AEROBICS
(Also listed as Physical Education 105)
1.0 to 2.5 Units
Dance 105 is a contemporary, high intensity, low impact fitness class designed for both men and women, to improve each participant's strength, flexibility, and cardiovascular fitness level through steady-state stepping movements. The student is exposed to a graduated continuous system of rhythmic stepping at various platform heights. The class includes lecture on basic nutrition, exercise concepts, and stress management as the factors apply to a personal fitness program. Class sessions include a warm-up, an exercise routine fitted to each student's level of fitness, and a cool down. Note: A student may earn a maximum of 6 units in Dance 105/Physical Education 105. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

107 SURVEY OF DANCE TEACHING METHODOLOGY
3.0 Units
Dance 107 is a survey of dance teaching methodologies currently used in the dance industry. An introduction of dance technique methodology and age appropriate dance pedagogy is followed by lesson planning, dance program development, and student evaluation process. Lecture 3 hours. Prerequisite: DANCE 101 or equivalent.

110 BALLET TECHNIQUE I
0.5 to 2.5 Units
Dance 110 provides the student with practical experience in the traditional ballet techniques and styles. Through demonstration, exercise, and discussion the course emphasizes the development of the basic physical skills, ballet vocabulary, alignment, coordination, and mental discipline necessary to excel in all dance forms. Lecture ½-1½ hours, laboratory ½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

111 BALLET TECHNIQUE II
0.5 to 2.5 Units
Dance 111 provides the student with practical experience in the traditional ballet techniques and styles on an intermediate level. Through exercise and discussion the course emphasizes further development of the physical skills, ballet vocabulary, alignment, coordination, and mental discipline necessary for intermediate performance skills. Lecture ½-1½ hours, laboratory ½-3½ hours. Prerequisite: DANCE 110 or equivalent. Transfer Credit: CSU, UC, USC

112 BALLET PERFORMANCE SKILLS
1.0 to 2.0 Units
Dance 112 provides the student with practical experience in performance skills and technical development. Emphasis is given to specific training methods and performance styles of historic ballet traditions. Note: An audition may be required. No more than 12 units may be earned for Dance 112 and 113. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: DANCE 111 or equivalent. (DANCE 111 may be taken concurrently.) Transfer Credit: CSU, UC, USC

113 BALLET PERFORMANCE SKILLS: REPertoire
1.0 to 2.0 Units
Dance 113 provides the student with practical experience in performance skills and technical development. Emphasis is given to varied styles and training methods of selected contemporary choreographers. Note: An audition may be required. No more than 12 units may be earned for Dance 112 and 113. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: DANCE 111 or equivalent. (DANCE 111 may be taken concurrently.) Transfer Credit: CSU, UC, USC

114 MODERN DANCE TECHNIQUE III
1.0 to 2.5 Units
Dance 114 provides students with practical experience in the contemporary ballet techniques and styles on an advanced level. Through exercise and discussion the course emphasizes further development of the technical skills, performance skills, and audition techniques. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: DANCE 113 or equivalent. Transfer Credit: CSU, UC, USC

115 MODERN DANCE TECHNIQUE II
0.5 to 2.5 Units
Dance 115 provides students with practical experience in modern dance techniques and styles. Through demonstration, exercise, and discussion, the course emphasizes the development of the basic physical skills, dance vocabulary, alignment, and coordination necessary to excel in various modern dance forms. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

116 MODERN DANCE TECHNIQUE III
1.0 to 2.5 Units
Dance 116 provides an opportunity to extend the student's knowledge of modern dance technique. Through demonstration, exercise, and discussion, the course emphasizes the development of greater technical detail and control of the body needed in advanced modern dance production. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: DANCE 115 or equivalent. Transfer Credit: CSU, UC, USC

117 MODERN DANCE TECHNIQUE III
1.0 to 2.5 Units
Dance 117 provides students with practical experience in the contemporary/modern dance techniques and styles on an advanced level. Through exercise and discussion the course emphasizes further development of the technical skills, performance skills, and audition techniques. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: DANCE 116 or equivalent. Transfer Credit: CSU, UC, USC

120 JAZZ TECHNIQUE I
0.5 to 2.5 Units
Dance 120 provides the student with practical experience in jazz dance techniques and styles. Through demonstration, exercise, and discussion the course emphasizes the development of the basic physical skills, dance vocabulary, alignment, and coordination necessary to excel in various jazz dance forms. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

121 JAZZ TECHNIQUE II
0.5 to 2.5 Units
Dance 121 provides further opportunities to extend the student's knowledge of jazz dance, and to acquire techniques to meet the demands for dance in theatre, film, and video today. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: DANCE 120 or equivalent. Transfer Credit: CSU, UC, USC
122 JAZZ PERFORMANCE SKILLS
0.5 to 2.5 Units
Dance 122 provides the student with practical experience in performance skills and technical development. Emphasis is given to specific performance values and rehearsal techniques necessary to meet the demands of current professional dance for theater, film, and television. Note: An audition may be required. No more than 12 units may be earned for Dance 122 and 123. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: DANCE 121 or equivalent. (DANCE 121 may be taken concurrently). Transfer Credit: CSU, UC, USC

123 JAZZ PERFORMANCE SKILLS: REPERTOIRE
0.5 to 2.5 Units
Dance 123 provides the student with practical experience in jazz performance skills and technical development. Emphasis is given to varied styles and training methods of selected contemporary choreographers. Note: An audition may be required. No more than 12 units may be earned for Dance 122 and 123. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: DANCE 121 or equivalent. (DANCE 121 may be taken concurrently). Transfer Credit: CSU, UC, USC

124 HIP-HOP I
1.0 to 2.5 Units
Dance 124 provides students with practical experience in current hip-hop techniques, such as popping, locking, and ticking. Through exercise and discussion the course emphasizes the development of coordination, strength, cardiovascular fitness, and rhythm necessary to meet the demands of high intensity performance skills in the popular street dancing trends. The students are also encouraged to develop individual interpretation and personal style indigenous to this dance form. Lecture ½-2½ hours, laboratory 1½-5½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

125 TAP DANCE I
1.0 to 2.5 Units
Dance 125 provides students with practical experience in basic tap dance techniques. Through discussion and movement, the course emphasizes the development of coordination, rhythm, and performance skills. Students learn tap dance combinations and dances. A brief history of the development of the tap dance medium is included. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

126 TAP DANCE II
1.0 to 2.5 Units
Dance 126 provides students with advanced, practical experience in tap dance techniques. Through discussion and movement, the course emphasizes the development of coordination, rhythm, and performance skills. Students learn advanced tap dance combinations and dances. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: DANCE 125 or equivalent. Transfer Credit: CSU, UC, USC

127 SALSA I
1.0 to 2.5 Units
Dance 127 provides students with practical experience in beginning salsa dance. Through discussion and movement, the course emphasizes the development of coordination, rhythm, and partnering skills. Students learn beginning salsa moves and patterns. Lecture ½-1½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

128 MIDDLE EASTERN DANCE
1.0 to 2.5 Units
Dance 128 provides students with beginning level practical experience in Belly Dance and a selection of related ethnic dance forms originating in Armenia, Egypt, Morocco, Iran, Turkey, and Afghanistan. Through discussion, study, and demonstration of the movement vocabulary, the development of basic technical and interpretational skills is emphasized. The course includes an introductory exploration of the historical and cultural context of the selected dances. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

129 HIP-HOP II
1.0 to 2.5 Units
Dance 129 provides further opportunities to extend the student's knowledge of popular dance culture and to acquire Hip-Hop techniques to meet the demands for dance in video and dance clubs today. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: DANCE 124 or equivalent. Transfer Credit: CSU, UC, USC

130 CHOREOGRAPHY
0.5 to 2.5 Units
Dance 130 provides the student with basic skills and knowledge of the choreographic principles. Through discussion and practical experience, the students develop a basic understanding of dance as a performing art form. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: DANCE 101 or equivalent. Transfer Credit: CSU, UC, USC

131 COMMERCIAL DANCE
1.0 to 2.5 Units
Dance 131 is a course designed to give the student a working knowledge of the dance industry. It provides an inside look at film, television, and stage work and develops technical dance excellence in various styles. The student prepares for entrance into the dance field with classes and information from visiting guest artists. Note: An audition may be required. No more than 12 units may be earned for Dance 131 and 132. Lecture ½-2 hours, laboratory 1½-3 hours. Prerequisite: DANCE 110,115,120, or equivalent. Transfer Credit: CSU, UC, USC

132 COMMERCIAL DANCE
0.5 to 3.0 Units
Dance 132 provides students with practical experience in intermediate Salsa dance. Through discussion and movement, the course emphasizes the development of coordination, rhythm, and partnering skills. Students learn intermediate salsa moves and patterns to meet the demands for dance in the commercial industry and dance clubs. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: DANCE 127 or equivalent. Transfer Credit: CSU, UC, USC

133 CHOREOGRAPHY AND PERFORMANCE SKILLS
0.5 to 2.5 Units
Dance 133 provides students the opportunity to further explore their knowledge of the choreographic principles through practical participation in the development of a performance piece. Performance skills are developed throughout the rehearsal process. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: DANCE 130 or equivalent. Transfer Credit: CSU, UC, USC

134 DANCE PRODUCTION-REPERTOIRE
0.5 to 3.0 Units
Dance 135 provides the student with the opportunity to perform in a dance production choreographed by faculty and alumni. Emphasis is given to integration of technical skills and advanced performance skills. Note: An audition may be required. No more than 12 units may be earned for Dance 135 and 136. Lecture ½-2½ hours, laboratory 1½-5½ hours. Prerequisite: One of the following: DANCE 112,113,116,122,123 or equivalent. Transfer Credit: CSU, UC, USC
DANCE PRODUCTION-STUDENT CHOREOGRAPHY

0.5 to 3.0 Units

Dance 136 provides the student with the opportunity to choreograph and perform in a dance production. Emphasis is given to the integration of technical skills, performance experience, and application of the choreographic principles. Note: An audition may be required. No more than 12 units may be earned for Dance 135 and 136. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: One of the following: DANCE 112, 113, 116, 122, 123 or equivalent. Transfer Credit: CSU, UC, USC

JAZZ DANCE TECHNIQUE III

1.0 to 2.5 Units

Dance 137 provides students with practical experience in advanced jazz techniques and styles on an advanced level. Through exercise and discussion the course emphasizes further development of technical skill, performance skills, and audition techniques. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: DANCE 121 or equivalent. Transfer Credit: CSU, UC, USC

SURVEY OF LATIN BALLROOM DANCE

0.5 to 2.5 Units

Dance 138 provides students with practical experience in Latin Ballroom dance. A selection of popular Latin Ballroom dances will be offered such as Cha-Cha, Samba, Rumba, Mambo, Merenque, and Paso Doble. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

MOVEMENT FOR THEATER I

1.0 Unit

Dance 140 provides the student the opportunity to study stage movement, physical characterization and mime as related to theatre. The students will increase their knowledge through practical application of the movement aspects of theatre. Lecture ½ hour, laboratory ½ hours. Corequisite: TH ART 103. Transfer Credit: CSU, UC, USC

MOVEMENT FOR THEATER II

1.0 Unit

Dance 141 provides the opportunity for advanced study of stage movement and introduces a comparison of stage, film and video movement techniques. Lecture ½ hour, laboratory ½ hours. Prerequisite: DANCE 140 or equivalent. Corequisite: TH ART 104. Transfer Credit: CSU, UC, USC

MOVEMENT FOR MUSICAL THEATER

0.5 to 2.5 Units

Dance 145 provides the student with the opportunity to study dance, choreography, and movement as it applies to musical theater. The class culminates in the performance of a Musical. Lecture ½ hour, laboratory 1½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

PHYSICAL REINTEGRATION

1.0 to 2.5 Units

Dance 150 is an experimental movement class for students with learning disabilities and/or minor physical limitations. Areas covered include exploration of body image awareness and integration of sensory modalities with motor processes. Also included is orientation and relaxation with the integration of both into the student’s daily life through dance movement. Note: Verification of disability must be on file in the Disabled Student Center. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

MOVEMENT DEVELOPMENT: BIRTH THROUGH TWELVE YEARS

(Also listed as CHLDV 158)

3.0 Units

Dance 158 provides those students who are interested in teaching movement to children the opportunity to acquire knowledge and techniques related to motor development. The course introduces basic principles and theories of motor development in children from birth to age twelve, focusing on designing developmentally-appropriate and creative dance experiences for young children. Note: This course will not fulfill physical education activity requirements. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

AEROBIC FITNESS

(Also listed as P.E. 164)

0.5 to 2.5 Units

Dance 164 offers vigorous exercise set to contemporary music. The course is designed for students wishing to develop or maintain aerobic fitness while also learning about the physiology of fitness. Routines of rhythmic exercise are designed to develop or maintain cardio-respiratory endurance and body flexibility. The course is designed for students at all levels of fitness. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

BEGINNING YOGA

1.0 to 2.5 Units

Dance 190 introduces the student to the principles and techniques of Yoga. The course emphasizes Yoga positions to facilitate stretching and toning muscles, limbering joints, and aiding spinal alignment. The use of Yoga breathing techniques and meditation exercises to revitalize the body and calm the mind is included. Lecture ½-1½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

PILATES

(Also listed as Physical Education 194)

0.5 to 2.5 Units

Dance 194 provides the student with practical experience in the Matwork of the Pilates method of body conditioning. Through demonstration, exercise, and discussion the course emphasizes the development of strength, flexibility, and relaxation techniques. Students will develop a basic understanding of how to influence and control the body-mind interaction in the area of dance, athletics, and general fitness. Lecture ½-1½ hours, laboratory 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

ECONOMICS

PRINCIPLES OF MICROECONOMICS

3.0 Units

Economics 101 is a fundamental course in microeconomic analysis. It covers price theory, economic scarcity, consumer behavior, market equilibrium and disequilibrium, production costs, theory of the firm, market structures and income distribution. Other optional topics include the history of economic thought, externalities, market failure, international economics. The course emphasizes analytical problem solving and mathematical methods wherever possible. Lecture 3 hours. Prerequisite: ECON 102. Transfer Credit: CSU, UC, USC

PRINCIPLES OF MACROECONOMICS

3.0 Units

Economics 102 is a fundamental course in economic analysis. Emphasis is placed on theories of output determination, consumption, investment, inflation, unemployment, and fiscal and monetary policy. Other selected topics may include international balance of payments, growth and development, and urban problems. Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC
ECONOMICS OF THE ENVIRONMENT

110 ECONOMICS OF THE ENVIRONMENT
3.0 Units
Economics 110 searches for an economic understanding of contemporary environmental problems. Economic theory is used to explain why there is inefficient resource allocation. Emphasis is placed on theories of output determination, consumption, investment, inflation, unemployment, and fiscal and monetary policy. Other selected topics may include international balance of payments, growth and development, and urban problems. The honors course will be enhanced in one or more of the following ways: 1. Students will use a macroeconomic computer model to explore macroeconomic policies and be able to explain the theoretical basis of the results achieved in the computer model. 2. Students will write an essay critically assessing macroeconomic policies relative to different political viewpoints. 3. Students will complete writing assignments using critical thinking skills to assess macroeconomic policies. Lecture 3 hours. \textit{Prerequisite}: Eligibility for ENGL 120 or ESL 151. \textit{Transfer Credit}: CSU, UC, USC

105 THE AMERICAN ECONOMY
3.0 Units
Economics 105 provides an introduction to the American economy, a foundation for understanding it and the problems that it faces. The course provides a description of the important institutions of our system and an analytical approach to the understanding of the basic economic problems generally suited for non-business majors. \textit{Note}: No credit will be granted for Economics 105 if Economics 101 and 102 have been taken previously. Lecture 3 hours. \textit{Recommended preparation}: Eligibility for ENGL 120 or ESL 151. \textit{Transfer Credit}: CSU, UC, USC

102H HONORS PRINCIPLES OF MACROECONOMICS
3.0 Units
Economics 102H is a fundamental course in economic analysis. Emphasis is placed on theories of output determination, consumption, investment, inflation, unemployment, and fiscal and monetary policy. Other selected topics may include international balance of payments, growth and development, and urban problems. The honors course will be enhanced in one or more of the following ways: 1. Students will use a macroeconomic computer model to explore macroeconomic policies and be able to explain the theoretical basis of the results achieved in the computer model. 2. Students will write an essay critically assessing macroeconomic policies relative to different political viewpoints. 3. Students will complete writing assignments using critical thinking skills to assess macroeconomic policies. Lecture 3 hours. \textit{Prerequisite}: Eligibility for ENGL 120 or ESL 151. \textit{Transfer Credit}: CSU, UC, USC

111 ECONOMIC HISTORY OF THE U.S. (Also listed as History 116)
3.0 Units
Economics 111 is a history of the economic development of the United States from its settlement to the present. Emphasis is placed on the growth and development of economic institutions, slavery, reconstruction, work, the industrial revolution, workers' movement, and U.S. imperialism. This course meets the California State requirement in American History. \textit{Note}: This course may not be taken for credit by students who have completed History 116. Lecture 3 hours. \textit{Recommended preparation}: Eligibility for ENGL 120 or ESL 151. \textit{Transfer Credit}: CSU, UC, USC

EDUCATIONAL MEDIA TECHNOLOGY

103 MEDIA EQUIPMENT OPERATION AND TECHNIQUES
3.0 Units
Educational Media Technology 103 is an introduction to the operating principles and utilization of media equipment, materials, and facilities. Students gain hands-on experience as technician trainees by participating in laboratory experience in the Media Services Department where they learn to operate and maintain such media equipment as public address systems, record players, tape recorders, projectors, cameras and other instructional materials. Lecture 2 hours, lab 4 hours. \textit{Prerequisite}: None.

EGYPTIAN HIEROGLYPHS

101 BEGINNING HIEROGLYPHS I
3.0 Units
Egyptian Hieroglyphs 101 presents the fundamentals of hieroglyphic writing and Egyptian grammar. The aim of the course is to train students in the reading and writing of simple hieroglyphs. The course includes reading, translation of simple ancient Egyptian prose as well as exercises to illustrate each new point of grammar. Lecture 3 hours. \textit{Recommended preparation}: Eligibility for ENGL 120 or ESL 151. \textit{Transfer Credit}: CSU, UC, USC

102 BEGINNING HIEROGLYPHS II
3.0 Units
Egyptian Hieroglyphs 102 presents the fundamentals of hieroglyphic writing and Egyptian grammar. The aim of the course is to train students in the reading and writing of simple hieroglyphs. The course includes reading, translation of simple ancient Egyptian prose as well as exercises to illustrate each new point of grammar. Lecture 3 hours. \textit{Prerequisite}: HIER 101. \textit{Transfer Credit}: CSU

100 TECHNICAL MATHEMATICS FOR ELECTRONICS
3.0 Units
ECT 100 is designed to offer the student a comprehensive study in the mathematics specifically used in the electronics and computer technology field. Phases covered include application of algebra, DC circuit analysis, AC fundamentals, simultaneous equations, AC circuit analysis, complex numbers, logarithms, and computer number systems. Lecture 3 hours. \textit{Prerequisite}: None.

101 ELECTRONICS CIRCUITS I (DC)
3.0 Units
ECT 101 offers a modern approach to electronics theory that is more compatible with the needs of industry. The study of DC theory and principles are integrated with computer-assisted problems using BASIC programming language. The use of matrices to solve elementary problems is introduced. Fundamental theorems are developed in lecture and put into practice in the laboratory. The laboratory develops the basic skills needed in using meters, power supplies, along with wiring and assembling DC circuits. Lecture 3 hours. \textit{Corequisite}: ECT 250. \textit{Transfer Credit}: CSU

102 ELECTRONICS CIRCUITS II (AC)
3.0 Units
ECT 102 is an extension of the principles of DC electronics applied to AC circuit problems. The extension of BASIC programming is used to solve complex AC circuits. The laboratory further develops equipment skills, introducing the use of oscilloscopes and signal generators. Lecture 3 hours. \textit{Prerequisite}: ECT 101 or equivalent. \textit{Corequisite}: ECT 251. \textit{Transfer Credit}: CSU

103 INTRODUCTION TO DIGITAL LOGIC
3.0 Units
ECT 103 is an introduction to digital systems, number systems, Boolean Algebra, logic techniques, logic gates, multivibrator circuits, counters, multivibrators, programming and codes. Construction and development of TTL logic using integrated circuits. Lecture 3 hours. \textit{Corequisite}: ECT 250. \textit{Transfer Credit}: CSU
ECT 113 is a comprehensive course providing functional training in the concepts of high-reliability soldering, solder extraction, and electronics component removal/replacement, including terminal interconnections using wire-wrap techniques, and specialized high-technology industrial equipment. This course also encompasses rework, repair, and modification of electronic printed circuit boards. Additionally, automated industrial wave solder processes are studied. Laboratory work emphasizes hands-on experience in detailed applications using specialized industrial workstations, and automated industrial wave solder processes equipment. Note: Students who have taken ECT 111 will receive only 2 units of credit for ECT 113. Lecture 3 hours. Corequisite: ECT 250.

ECT 114 CISCO 1 TRAINING 4.0 Units
ECT 114 provides students with classroom and laboratory experience in current and emerging networking technologies. This course covers current industrial and occupational requirements. Instruction includes safety, networking, network terminology and protocols, network standards, Local Area Networks (LANs), Wide Area Networks (WANs), Open System Interconnection (OSI) models, cabling, cabling tools, routers, router programming, star topology, Internet Protocol (IP) addressing, and network standards. Emphasis is given to use of decision-making and problem-solving techniques in applying science, mathematics, communication, and social studies concepts to solve networking problems. Additionally, students analyze recent local, state, and federal safety, building, and environmental codes and regulations. (8 weeks). Lecture 4.5 hours, laboratory 4.5 hours. Prerequisite: ECT 212 or equivalent.

ECT 115 CISCO 2 TRAINING 4.0 Units
ECT 115 is the second of four courses providing students with laboratory experience in current and emerging CISCO technology that will enable them to enter employment and/or obtain further education and training in the computer networking field. Instruction includes safety, networking, network terminology and protocols, network standards, Local Area Networks (LANs), Wide Area Networks (WANs), Open System Interconnection (OSI), Token Ring, Fiber Distributed Data Interface, TCP/IP addressing protocol, dynamic routing, routing and the network administrator’s role and function. Instruction and training are provided in the proper care, maintenance, and use of networking software, tools, and equipment. (8 weeks). Lecture 4.5 hours, laboratory 4.5 hours. Prerequisite: ECT 114 or equivalent.

ECT 116 CISCO 3 TRAINING 4.0 Units
ECT 116 is the third of four modules designed to introduce new content and extend previously learned network skills which enable students to enter the workforce and/or further their education and training in the computer networking field. Instruction introduces and enhances the student’s knowledge of networking technologies and practical experience with the design, configuration, and maintenance of switches, local Area Networks (LANs) and Virtual Local Area Networks (VLANs). Students gain practical experience related to configuring LANs, WANs, Novell networks, Internet Packet Exchange (IPX) routing, and Interior Gateway Routing Protocol (IGRP) and network troubleshooting. Lecture 4.5 hours, laboratory 4.5 hours (8 weeks). Prerequisite: ECT 115 or equivalent.

ECT 117 CISCO 4 TRAINING 4.0 Units
ECT 117 is the fourth of four classes preparing students with the skills they need to design, build, and maintain small to medium size networks. Students perform a series of practical labs to include emulating frame relay, configuring and writing access list, and custom configuring of a Cisco router. Student responsibility includes completion of a threaded case study, complete design of a local and wide area network of a typical school district to include information developed in the current as well as previous classes. Lecture 4.5 hours, laboratory 4.5 hours (8 weeks). Prerequisite: ECT 116 or equivalent.

ECT 118 CISCO CERTIFIED NETWORK PROFESSIONAL I 3.0 Units
ECT 118 focuses on building scalable Cisco networks, using Cisco routers connected to local area networks (LAN) and wide area networks (WAN) typically found at medium to large network sites. This course is the first of four that are part of the training path for those students seeking Cisco Certified Network Professional (CCNP) certification. Lecture 4.5 hours, laboratory 4.5 hours (8 weeks). Prerequisite: None.
119  
**CISCO CERTIFIED NETWORK PROFESSIONAL 2**  
3.0 Units  
ECT 119 emphasizes building Cisco Multi-layer Switched Networks, using high speed Ethernet technologies. This course includes both routing and switching concepts, covering both switched network schemes (Level 2) and hierarchical topology (Level 3) technologies. This course is the second of four that are part of the training path for those students seeking Cisco Certified Network Professional (CCNP) certification. Lecture 4.5 hours, laboratory 4.5 hours. **Prerequisite:** ECT 118 or equivalent.

124  
**INTRODUCTION TO MICROPROCESSORS - DIGITAL TECHNOLOGY**  
3.0 Units  
ECT 124 introduces the characteristics, architecture and operation of 8-bit microprocessors. This course also introduces assembly language programming and peripheral interfacing techniques of single board computers. Practical labs reinforce skills in programming and interfacing techniques. Lecture 3 hours. **Note:** This course may not be taken for credit by students who have completed ECT 104 and 203. Lecture 3 hours. **Prerequisite:** ECT 103 or equivalent. **Corequisite:** ECT 251.

160  
**INSPECTION AND CODES FOR ELECTRICIANS**  
3.0 Units  
ECT 160 is a course designed to introduce the student to the National Electrical Code using national, state and local codes. Included in the course are duties of the electrical inspector with emphasis on code enforcement, inspection procedures, plan reading, electrical symbols and terminology. Methods of performing electrical inspections and interpreting electrical systems are based on the current electrical codes and standards. Emphasis will be placed on the importance of safety, asbestos abatement awareness, and anchoring and supporting for earthquake mitigation. Quality workmanship, efficient and well-designed electrical systems and retrofitting will be emphasized. Lecture 3 hours. **Prerequisite:** ECT 102 or equivalent. **Recommended preparation:** Eligibility for ENGL 120 or ESL 151.

201  
**SOLID STATE DEVICES**  
3.0 Units  
ECT 201 encompasses the study of Solid-State semiconductor theory, including diode rectifiers, filtered power supplies, transistor and FET amplifiers, IC oscillators, and thyristor devices. Laboratory experiments consist of constructing solid-state circuits, and performing circuit analysis and diagnostics of electronic parameters using state-of-the-art digital electronic test equipment. Lecture 3 hours. **Prerequisite:** ECT 102 or equivalent. **Corequisite:** ECT 252. **Transfer Credit:** CSU

202  
**INTEGRATED CIRCUIT ELECTRONICS**  
3.0 Units  
ECT 202 is a comprehensive study and applied analysis of linear integrated circuit (IC) electronics technology. Lab develops skills in constructing, testing, and analyzing operational amplifier, differentiator and integrator, voltage and current regulator, oscillator and function generator, active filter, converter, and phase-lock loop IC circuits, using advanced electronics test equipment. Lecture 3 hours. **Prerequisite:** ECT 201 or equivalent. **Corequisite:** ECT 253. **Transfer Credit:** CSU

203  
**MICROCOMPUTER TECHNOLOGY I**  
3.0 Units  
ECT 203 presents the basic principles of microcomputer integrated circuit technology. It is designed to provide the students with an understanding of the basic principles of integrated circuit microprocessor technology and its applications in 8-bit computers. Lecture 3 hours. **Prerequisite:** ECT 104 or equivalent. **Corequisite:** ECT 253. **Transfer Credit:** CSU

204  
**MICROCOMPUTER TECHNOLOGY II**  
3.0 Units  
ECT 204 is a continuation of ECT 203. Principles of integrated circuits, microcomputers, mnemonics, interfacing, and application are covered, emphasizing 16-bit and 32-bit computers. Lecture 3 hours. **Prerequisite:** ECT 203 or equivalent. **Corequisite:** ECT 253. **Transfer Credit:** CSU

210  
**ELECTRONICS INSTRUMENTS AND MEASUREMENTS**  
3.0 Units  
ECT 210 is a comprehensive study of the theory of operation, characteristics, and applications of electronics specialized test and measurement instruments, including analog and digital meters, oscilloscopes, oscillators, generators, electronic counters, and impedance bridge networks. Precision measurements and relevant mathematical procedures are emphasized in the test, measurement and analysis of the operational parameters and performance of electronic printed circuits. Lecture 3 hours. **Prerequisite:** None. **Transfer Credit:** CSU

212  
**ADVANCED MICROCOMPUTER REPAIR TECHNOLOGIES**  
3.0 Units  
ECT 212 teaches students the methods of troubleshooting and repairing advanced microcomputer systems. Specific areas of concentration include network hardware for both IBM and Apple systems. Some emphasis on network software, such as Novell and X.25, is placed on troubleshooting and repairing of the systems. Lab experiences consist of diagnosis and repair of computer systems at campus locations, or during lab experience. Lecture 3 hours. **Prerequisite:** ECT 112 or equivalent. **Corequisite:** ECT 252.

223  
**COMMUNICATIONS SYSTEMS**  
2.0 Units  
ECT 223 is a comprehensive study of electronic communications systems, from the fundamentals of radio frequency (RF) circuits to complex space-age technology. Specific areas of concentration in this course include RF theory, devices, circuits, and systems, including oscillators, amplifiers, modulators, AM and FM techniques, data communications, and satellite communications. Laboratory experiments deal with RF circuit/system analysis and instrumentation applications, including microcomputer simulation. **Note:** A maximum of 4 units may be earned from any combination of ECT 222, 223 or 224. Lecture 3 hours, laboratory 3 hours. **Prerequisite:** ECT 201 or equivalent.

226  
**PREP FOR A+ CERTIFICATION**  
3.0 Units  
ECT 226 prepares students for the A+ professional certification examination by presenting current Windows operating systems and peripheral equipment troubleshooting and repair. Lecture 3 hours. **Prerequisite:** ECT 212 or equivalent.
250 ELECTRONICS AND COMPUTER TECHNOLOGY LABORATORY I
1.0 Unit
ECT 250 is the laboratory course providing hands-on application of classroom theory for introductory ECT courses. Lecture 3 hours. Corequisite: ECT 101, 103, 112, or 113.

251 ELECTRONICS AND COMPUTER TECHNOLOGY LABORATORY II
1.0 Unit
ECT 251 is the laboratory course providing hands-on application of classroom theory for basic ECT courses. Lecture 3 hours. Corequisite: ECT 102, 104, 110, or 124.

252 ELECTRONICS AND COMPUTER TECHNOLOGY LABORATORY III
1.0 Unit
ECT 252 is the laboratory course providing hands-on application of classroom theory for intermediate ECT courses. Lecture 3 hours. Corequisite: ECT 201 or 212.

253 ELECTRONICS AND COMPUTER TECHNOLOGY LABORATORY IV
1.0 Unit
ECT 253 is the laboratory course providing hands-on application of classroom theory for advanced ECT courses. Corequisite: ECT 202, 203, 204, or 206.

139 INTRODUCTION TO EMERGENCY MEDICAL SERVICES
2.0 Units
Emergency Medical Technology 139 introduces foundational concepts related to the emergency medical care of sick and injured persons. This course is designed for students interested in pursuing emergency medical services or other health care occupations as a career. Topics also include the framework of emergency medical services as well as the unique challenges of ethical dilemmas and stress management in the emergency setting. Successful completion of the class includes certification in cardiopulmonary resuscitation (CPR) for healthcare providers from the American heart Association (AHA). Lecture 2 hours (8 weeks). Recommended Preparation: BIOL 115 and ENGL 120 or ESL 151.

140 EMERGENCY MEDICAL TECHNICIAN-BASIC (EMT-B)
8.0 Units
Emergency Medical Technician 140 is designed to prepare students for certification and employment as an Emergency Medical Technician-Basic (EMT-B) in the state of California. Course material proceeds from introductory theory and practice of emergency medical care through increasingly complex concepts and management of immediate life-threatening situations and emergencies. Critical thinking and decision-making skills are stressed throughout the course. Coursework also includes a ride-along component. Upon successful completion of EMT 139 (Introduction to Emergency Medical Services) and EMT 140, a record of completion is issued. Upon successful completion of EMT 139 and 140, verification of successful coursework is issued to the student. This verification is required to apply for certification as an EMT-Basic. Lecture 6 hours, laboratory 6 hours. Prerequisite: (1) EMT 139 and (2) Student must be eighteen years of age prior to the last day of class. Recommended preparation: Eligibility for ENGL 101.

141 EMT REFRESHER COURSE
1.5 Units
Emergency Medical Technology 141 provides the California Emergency Medical Technician with an update of recent procedural and regulatory changes in EMT practice. New and previously learned competencies related to equipment and techniques employed in emergency care are emphasized. Critical content for emergency response and treatment is reviewed. Lecture 5 hours (5 weeks). Prerequisite: EMT 140 or equivalent course.

101 ENGINEERING DRAFTING AND BASIC DESIGN
3.0 Units
Engineering 101 is an in-depth study course designed to present training in the manipulation of instruments, lettering, orthographic projection, sketching, drawing auxiliary and pictorial views, sectioning and dimensioning. Lecture 2 hours, laboratory 4 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

102 ENGINEERING PRINT READING FOR INDUSTRY
2.0 Units
Engineering 102 is a study of the fundamentals of orthographic drawing to develop the student’s ability to understand and utilize the information presented on a blueprint. Such areas as size dimensional systems, tolerancing, SI metrics, value engineering and related industrial terminology are presented to strengthen the student’s ability to interpret an engineering drawing. Note: A recommended course for basic drafting review and non-drafting majors. This course may not be taken for credit by students who have completed Engineering 104, 106, or 108. Lecture 2 hours, laboratory 1 hour. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

103 DESCRIPTIVE GEOMETRY
3.0 Units
Engineering 103 presents a study of a valuable engineering tool which facilitates the solution of engineering problems graphically. A study of lines and planes in space. The representation of surfaces, solids, interferences, and intersections. Excellent training in visualization and interpretation of engineering drawings. Note: This course may not be taken for credit by students who have completed Architecture 103. Lecture 2 hours, laboratory 4 hours. Prerequisite: ARCH 101 or ENGR 101 or equivalent. Transfer Credit: CSU, UC, ICS

104 ADVANCED ENGINEERING DRAWING
3.0 Units
Engineering 104 is designed to acquaint the trainee with delineation of simple machine parts including problems in visualization, dimensioning and tolerances, screw threads and fasteners, freehand sketching, pictorial drawing, piping, welding, gears and cams, assembly and working drawings. Special emphasis is laid upon the interpretation and production of drawings which conform to standard practice. Lecture 2 hours, laboratory 4 hours. Prerequisite: ENGR 101 or one year of mechanical drawing in high school. Transfer Credit: CSU, UC, ICS
105 GEOMETRIC/DIMENSIONAL AND TRUE POSITIONAL TOLERANCING
3.0 Units
Engineering 105 presents current geometric/dimensional and true positional tolerancing (GD&T) trends and industrial usage throughout various engineering disciplines. Both ANSI Y14.5 82M and ASTM Y14.5 96M are presented with an emphasis on the latest issue of the standard. Lecture 3 hours. Recommended Preparation: ENGR 101 or related industry experience and eligibility for ENGL 120 or ESL 151.

106 ELECTRONIC DRAWING
3.0 Units
Engineering 106 is a course in electromechanical packaging. Specializing in electronic drafting, printed circuit design, basic packaging, cabling and military standards. Emphasis is placed on the actual design and construction of various electronic packages in both individual and group design projects. Note: Students must register for the full number of hours for which the course is scheduled. Lecture 2 hours, laboratory 3 hours. Prerequisite: None. Transfer Credit: CSU

107 ELECTRICAL/ELECTRONICS DRAWING
2.0 Units
Engineering 107 is primarily intended for the student majoring in Electronics Computer Technology (ECT). It provides an introduction to the fundamentals of drafting and technical drawing with specific applications to ECT standards and devices. Students who satisfactorily complete this course are considered to have acquired the minimum drafting skills necessary for entry-level ECT technicians. Note: This course is not intended for engineering or drafting majors. This course may not be taken for credit by students who have completed Drafting 131 or Engineering 101. Lecture 2 hours, laboratory 1 hour. Recommended preparation: ENGR 102 or equivalent. (ENGR 102 may be taken concurrently.)

108 ELECTRO-MECHANICAL PACKAGING
3.0 Units
Engineering 108 is a course in tool design and strength of materials and advanced electromechanical packaging. Emphasis is placed on various individual and group design projects, covering piping, fixture design, package design, and mechanical design. Students are responsible for the complete design, drawings and all related paper work for each project. Note: Students must register for the full number of hours for which the course is scheduled. Lecture 2 hours, laboratory 3 hours. Prerequisite: ENGR 106 or equivalent. Transfer Credit: CSU

109 BASIC AUTOCAD APPLICATIONS
3.0 Units
Engineering 109 is an introductory course in Computer-Aided Drafting and Design systems. Fundamental operational applications will be presented which will enable the students to expand their knowledge of Computer Graphics into other course structures that will require further knowledge as part of their course of instruction. Lecture 2 hours, laboratory 4 hours. Prerequisite: ARCH 101 or ENGR 101 or equivalent. Transfer Credit: CSU

110 ADVANCED AUTOCAD APPLICATIONS
3.0 Units
Engineering 110 is an advanced course in engineering design. Advanced techniques and concepts of computer-aided design will be presented with an emphasis on three-dimensional design and modeling for both architectural and engineering applications. Lecture 3 hours. Prerequisite: ENGR 109 or equivalent. Transfer Credit: CSU, UC, USC

111 BASIC SOLID WORKS
3.0 Units
Engineering 111 is a basic course in engineering, drafting and design, utilizing SolidWorks software, with an emphasis on three-dimensional design, modeling, and engineering applications. Lecture 2 hours, laboratory 4 hours. Recommended preparation: ENGR 102 or equivalent. Transfer Credit: CSU

120 INTRODUCTION TO SOLID IMAGING TECHNOLOGY
2.0 Units
Engineering 120 provides students with the basic knowledge of solid imaging and its impact within the engineering and manufacturing community. Emphasis is placed on combining both engineering and manufacturing processes into a rapid prototype model. Students have the opportunity to explore the interaction between computer aided design (CAD), computer aided manufacturing (CAM), and solid imaging systems by participating in the engineering, manufacturing, prototyping and production of an actual part designed by the class. Lecture 2 hours. Recommended preparation: ENGL 120 or ESL 151, ENGR 102 or equivalent.

121 SOLID IMAGING TECHNOLOGY
3.0 Units
Engineering 121 provides students with comprehensive and working knowledge of solid imaging applications and procedures with relationship to the engineering, manufacturing and design community. Fabrication of three-dimensional models from students' computer-aided designs will demonstrate various types of imaging software currently being used. Three-dimensional printing and fused deposition modeling techniques are features. Lecture 2 hours, laboratory 4 hours. Prerequisite: ENGR 110 or CAM 211, ART 231 or equivalent.

150 COMPUTER AIDED DRAFTING LABORATORY
1.0 to 4.0 Units
Engineering 150 allows students or industry workers to improve and update their engineering and architecture skills. Techniques are practiced using engineering software. Inspection standards for the purpose of job advancement are presented. Laboratory 3 to 12 hours. Prerequisite: None.

151 COMPUTER AIDED DRAFTING LABORATORY
1.0 to 4.0 Units
Engineering 151 provides practice drafting and engineering computer equipment. Students work on individual projects. Training received in this course develops an ability to visualize and perform various computer functions necessary in the engineering trade. Laboratory 3 to 12 hours. Prerequisite: ENGR 109 or equivalent.
101
FRESHMAN ENGLISH
3.0 Units
English 101 is a foundation course in critical reading and writing skills required of those students intending to transfer to a university. Through their reading and discussion of selected prose works, students learn to identify problems, examine possible solutions, recognize unstated assumptions and values, appraise evidence, evaluate arguments, draw inferences, and test conclusions. Through their writing, students learn to analyze, synthesize, organize information logically, and propose original ideas. Students will also receive instruction in research and MLA documentation and will be required to complete a fully documented research paper. Lecture 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background or satisfactory completion of ENGL 120 or ESL 151 or equivalent. Transfer Credit: CSU, UC, USC

101H
HONORS FRESHMAN ENGLISH
3.0 Units
English 101H is a foundation course in critical reading and writing skills required of those students intending to transfer to a university. Through their reading and discussion of selected prose works, students learn to identify problems, examine possible solutions, recognize unstated assumptions and values, appraise evidence, evaluate arguments, draw inferences, and test conclusions. Through their writing, students learn to analyze, synthesize, organize information logically, and propose original ideas. Students will also receive instruction in research and MLA documentation and will be required to complete a fully documented research paper. The honors course will be enhanced in one or more of the following ways: 1. Accelerated standards of reading, writing, and problem-centered research. Lecture 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background or satisfactory completion of ENGL 120 or ESL 151 or equivalent. Transfer Credit: CSU, UC, USC

102
CRITICAL THINKING AND LITERARY ANALYSIS
3.0 Units
English 102 helps students to develop their critical thinking and writing skills beyond the level achieved in English 101. The course emphasizes the application of logical reasoning, analysis, and strategies of argumentation in critical thinking and writing, using literature (both fiction and non-fiction) and literary criticism as subject matter. Students will also receive instruction in literary research, and will complete a fully documented research paper. Lecture 3 hours. Prerequisite: ENGL 101. Transfer Credit: CSU, UC, USC

102H
HONORS CRITICAL THINKING AND LITERARY ANALYSIS
3.0 Units
English 102H helps students to develop their critical thinking and writing skills beyond the level achieved in English 101. The course emphasizes the application of logical reasoning, analysis, and strategies of argumentation in critical thinking and writing, using literature (both fiction and non-fiction) and literary criticism as subject matter. Students will also receive instruction in literary research, and will complete a fully documented research paper. The honors course will be enhanced in one or more of the following ways: 1. Accelerated standards of both critical thinking and literary analysis, including critical writing. 2. Introduction to and emphasis on types or schools of literary criticism, including professional models of such. Lecture 3 hours. Prerequisite: ENGL 101. Transfer Credit: CSU, UC, USC

103
CREATIVE WRITING WORKSHOP
3.0 Units
English 103 consists of an introduction to the theory and practice of creative verbal expression in the major imaginative literary forms: (1) non-fiction and fiction prose, (2) poetry, and (3) drama. Emphasis is placed on step by step instruction in creating the finished piece of writing, with much group discussion of student writing. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

104
CRITICAL THINKING AND ARGUMENTATION
3.0 Units
English 104 helps students to develop their critical thinking and writing skills beyond the level achieved in English 101. Students learn to read and think critically and to develop their analytical and argumentative writing skills providing a more advanced understanding of the relationship of language to logic and by further promoting the ability to reason effectively and reach valid conclusions. Writing forms and strategies are taught within the contexts of contemporary ideas and cultural diversity as reflected in selected readings. In addition, the course provides instruction in advanced research techniques and students will be required to complete a fully documented research paper. Lecture 3 hours. Prerequisite: ENGL 101. Transfer Credit: CSU, UC, USC

105
SURVEY OF ENGLISH LITERATURE FROM ANGLO-SAXON PERIOD TO 1780
3.0 Units
English 105 is a survey course covering the development of English literature from the beginning to 1780 and emphasizing the development of thought in relation to historical and social backgrounds. Lecture 3 hours. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

106
SURVEY OF ENGLISH LITERATURE FROM 1780 TO THE PRESENT TIME
3.0 Units
English 106 is a survey course covering the development of English literature from 1780 to the present time. English 106 continues to study the development of thought as an expression of our cultural heritage. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

107
TWENTIETH CENTURY POETRY I
3.0 Units
English 107 consists of an historical orientation to twentieth century poetry a discussion of the significant poets to approximately mid-century, and an intensive study of the most important modernist and contemporary poets of this period. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC
ENGLISH COURSE SEQUENCE

**COMPOSITION COURSES**
- English 187 — 1 unit
  Basic English Lab
  Non-Degree Applicable

- English 189 — 3 units
  Writing Workshop I
  Non-Degree Applicable

- English 191 — 4 units
  Writing Workshop II
  Non-Degree Applicable

- English 120 — 3 units
  Composition and Reading
  Degree Applicable

**READING COURSES**
- English 186 — 1 unit
  Basic Reading Lab
  Non-Degree Applicable

- English 188 — 3 units
  Intro. to Academic Reading
  Non-Degree Applicable

- English 190 — 3 units
  Intermediate Academic Reading
  Non-Degree Applicable

- English 192 — 3 units
  Advanced College Reading

**LITERATURE COURSES**
*Transfer to UC & CSU*
- English 103
  Creative Writing
- English 105 & 106
  British Survey
- English 107 & 108
  20th Century Poetry
- English 109 & 110
  World Literature
- English 111
  Women in Literature
- English 112
  Screenwriting
- English 114
  Intro. to Poetry
- English 115
  Intro. to Fiction
- English 116
  Intro. to Drama
- English 117
  Film as Literature
- English 122 & 123
  American Survey
- English 124
  Contemporary Fiction
- English 125
  Shakespeare
- English 126
  The Modern Drama
- English 127
  Children’s Literature
- English 128
  Bible as Literature
- English 130
  Science Fiction

**NOTE:** Eligibility for English 101 is recommended or required for all literature classes except English 107 and 108.

**CONCURRENT ENROLLMENT REQUIRED**

**REQUIRED**
108 TWENTIETH CENTURY POETRY II

3.0 Units

English 108 consists of a historical orientation to twentieth-century poetry from about mid-century to the present. The course examines the influence of modernist poets on contemporary English and American poetry, including the innovations of Russian, European, and Latin-American poets. An in-depth study of the major poets of this period emphasizes the development of new trends in response to aesthetic and cultural changes in society. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

109 INTRODUCTION TO LITERATURE OF THE WESTERN WORLD

3.0 Units

English 109 is a survey of the literature of the Western World from ancient times to the Renaissance. It includes selections from the Old and New Testaments, Celtic, Germanic, Norse, and French mythologies, and representative works from the Middle Ages and the Renaissance. Emphasis is placed on the Greek and Roman classics. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

110 INTRODUCTION TO LITERATURE OF THE WESTERN WORLD

3.0 Units

English 110 is a survey of the literature of the Western World from the Enlightenment to the present. Emphasis is placed on the cultural history and history of important ideas reflected in the literary works, as well as the development of literary techniques and style. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

111 WOMEN IN LITERATURE

3.0 Units

English 111 is a comparative study of the roles assigned to women in literature by both male and female authors. The course critically examines the literary and cultural stereotypes of women in the short story, novel, poetry, and drama. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

112 SCREENWRITING

3.0 Units

English 112 is a basic course in the principles and practice of writing for film and cinema. Emphasis is placed upon the essentials of screenplay structure, format, sequence, characterization, and the dramatic scene. The course will include critical analysis through reading selected screenplays and viewing specific dramatic scenes portrayed on film. Students will learn fundamentals of dramatic screenwriting and be familiarized with the elements and tools of screenwriting. Students must complete a finished short script by the end of the course. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Note: This course may be taken 3 times; a maximum of 9 units may be earned. Transfer Credit: CSU

114 INTRODUCTION TO POETRY

3.0 Units

English 114 consists of an introduction to the basic structural, stylistic, and thematic elements of poetry with emphasis on the major poets and their contribution to the craft. An analysis of poetic techniques allows students to compare and contrast the development of various forms of poetry including traditional and experimental verse. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

115 INTRODUCTION TO FICTION

3.0 Units

English 115 introduces students to a variety of structural and stylistic elements, critical concepts, and themes that help them analyze and appreciate works of fiction. Students are encouraged to express their interpretations of readings in classroom discussions, and they learn and practice effective methods of writing about works of fiction. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

116 INTRODUCTION TO DRAMA

3.0 Units

English 116 is an historical survey of drama as a genre from the Classical period to the present day. The course introduces students to the elements of drama, and emphasizes class analysis or representative plays from selected periods. Students are encouraged to express their interpretations of plays and write critical papers about dramatic works. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

117 FILM AS LITERATURE

3.0 Units

English 117 is the study of film as literature from thematic, cultural, historical, and aesthetic perspectives. Students are encouraged to incorporate analytical perspectives from literary and film criticism into discussion and written work. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

120 COMPOSITION AND READING

3.0 Units

English 120 is designed for students who want to prepare for the writing required in college classes and other settings. The course emphasizes practice in the writing of thesis-based essays and the critical analysis of selected prose works dealing with important contemporary ideas. English 120 provides practice in the mechanics, style, and organization of paragraphs and essays. Lecture 4 hours. Prerequisite: Placement based on a composite of test scores and academic background or ENGL 191. Recommended preparation: ENGL 192 (ENGL 192 may be taken concurrently.)

122 AMERICAN LITERATURE TO 1865

3.0 Units

English 122 is designed to give the student a generous sample of the works of major American writers from Colonial days to the Civil War, and to relate these works to the history of ideas. Important historical movements are traced so that students may gain increased understanding of America’s heritage. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

123 AMERICAN LITERATURE FROM 1865 TO THE PRESENT

3.0 Units

English 123 is designed to give a generous sample of the works of major American writers from the Civil War to the present day. The course is intended to enrich the student’s understanding of selected major American works. The important literary movements, with their sociological implications, are traced so that the student can acquire a background for critical judgment of contemporary American writing. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC
124 CONTEMPORARY LITERATURE
3.0 Units
English 124 is an introduction to representa-
tive literature after World War II, focusing on
fiction, drama and poetry. The course explores
recent advances in technology, multicultural
diversity, and gender equity, plus other artistic,
political and cultural developments and how
these changes have affected contemporary
literature, emphasis is on American authors,
including recent immigrants. Lecture 3 hours.
Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

125 SHAKESPEARE
3.0 Units
English 125 is an introduction to the works
of Shakespeare. The course is focused on a
close study of Shakespeare’s major plays. It
also provides a background and insights into
the Elizabethan world so that the student
may more fully understand and appreciate
Shakespeare’s writings. Lecture 3 hours.
Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

126 THE MODERN DRAMA
3.0 Units
English 126 is a survey of modern plays and
playwrights. Representative works of Euro-
pean and American dramatists are read with
special attention given to the literary and socio-
logical importance of plays written since 1870.
Also considered are important developments
in stagecraft and theatre construction which
have had an influence on the playwrights.
The aim of the course is to enable students to
recognize differing views of human problems
as dramatized by a wide variety of playwrights
in the last one hundred years and to encour-
age objective, analytical judgments of literary
excellence. Lecture 3 hours. Prerequisite:
Eligibility for ENGL 101. Transfer Credit:
CSU, UC, USC

127 CHILDREN’S LITERATURE
3.0 Units
English 127 is designed to develop the ability
of students to select and use literature with
children. As students read and discuss a broad
range of children’s literature, including both
prose and poetry, they develop standards for
judging children’s literature and determining
the appropriateness of a given literary work
for an individual child. Students practice
story-telling techniques and prepare activi-
ties to help children appreciate literature and
grow through exposure to it. Lecture 3 hours.
Prerequisite: Eligibility for ENGL 120 or ESL
151. Transfer Credit: CSU

128 THE BIBLE AS LITERATURE
3.0 Units
English 128 is a general introduction to
the Bible: its characters, recurrent themes,
images and symbols. The course presents
information regarding the literary divi-
sions, the language, and text of each book
as well as its composition, authorship, date,
and contents. Attention is given to literary,
historical, geographical, archaeological, and
theological matters, including the formation
of the canon, modern approaches to biblical
study, and principal English versions of the
Scriptures. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer
Credit: CSU, UC, USC

130 SCIENCE FICTION LITERATURE
3.0 Units
English 130 is a survey of science fiction from
the late 19th Century to the present, concentra-
ting on 20th Century writers. Students read,
analyze, and discuss the history of science
fiction, major themes, genres (short story,
novels, drama, poetry), media (radio, cinema,
television), fandom (clubs, fan publications,
conventions), and the function of science
fiction as a literary form that reflects human
concern with solving or escaping problems in
an increasingly scientific and technological
age. Lecture 3 hours. Recommended prepara-
tion: Eligibility for ENGL 101. Transfer Credit:
CSU, UC, USC

131 SOUTHWESTERN ETHNIC LITERATURE
3.0 Units
English 131 is a study of representative pieces
of fiction, drama, and poetry written by Chicanos and Native American writers of
the Southwestern United States, primarily
from California, Arizona, and New Mexico.
The course examines ethnic context, artistic
themes, and literary themes, providing
a window to the rich Native American and
Chicano cultures. The course also makes
connections between the literature, art, and
philosophy of Chicanos and Native Amer-
icans. Students develop sensitivity to and an
understanding of cultural differences from
a literary standpoint with attention paid to historical, psychological, and sociological
analysis. Lecture 3 hours. Prerequisite:
Eligibility for ENGL 101. Transfer Credit:
CSU, UC, USC

135
Fluency in American Sign Language.

Prerequisite: understanding of the texts. Lecture 3 hours.

BEGINNING READING I FOR DEAF STUDENTS
3.0 Units

English 160 is designed for beginning-level deaf and hard of hearing readers who use ASL as their primary communication system. The course emphasizes decoding meaning from content, identifying main ideas, drawing conclusions, and making predictions. Lecture 3 hours. Recommended preparation: Fluency in American Sign Language.

BEGINNING READING II FOR DEAF STUDENTS
3.0 Units

English 161 is designed for high beginning level deaf and hard of hearing students who use ASL as their primary communication system. The course emphasizes decoding meaning from content, identifying main ideas, drawing conclusions, and making predictions. Lecture 3 hours. Recommended preparation: ENGL 160 or equivalent.

BEGINNING READING II FOR DEAF STUDENTS
3.0 Units

English 162 is designed for high beginning level deaf and hard of hearing students who use ASL as their primary communication system. The course encourages students to read extensively thereby promoting English language proficiency and reading skills. Students read contemporary short stories, determine what questions those works raise, and discuss and write about their understanding of the texts. Lecture 3 hours. Recommended preparation: ENGL 161 or equivalent.

BEGINNING GRAMMAR I FOR DEAF STUDENTS
3.0 Units

English 166 is designed for beginning-level deaf and hard of hearing students who use ASL as their primary communication system. The course is designed to improve the student’s English grammatical understanding and usage. The course emphasizes the correct use of the simple and progressive verb tenses in simple sentence structures, modals of advice and opinion, modals of possibility and probability, and adverbs of frequency. Lecture 3 hours. Recommended preparation: Fluency in American Sign Language.

BEGINNING GRAMMAR II FOR DEAF STUDENTS
3.0 Units

English 167 is designed for beginning-level deaf and hard of hearing students who use ASL as their primary communication system. The course is designed to improve the student’s English grammatical understanding and usage. The course emphasizes the correct use of the perfect and perfect progressive tenses, simple past and past progressive tenses with time clauses and count and non-count nouns in simple sentence structures. Lecture 3 hours. Recommended preparation: ENGL 166 or equivalent.

INTERMEDIATE GRAMMAR I FOR DEAF STUDENTS
3.0 Units

English 168 is designed for intermediate-level deaf and hard of hearing students who use ASL as their primary communication system. The course emphasizes the correct use of all verb forms, the passive tense, noun phrases, gerunds and infinitives. Lecture 3 hours. Recommended preparation: ENGL 167 or equivalent.

BEGINNING WRITING I FOR DEAF STUDENTS
2.0 Units

English 172 is designed for beginning-level deaf and hard of hearing students who use ASL as their primary communication system. The course is designed to introduce students to formal sentence structure based on the principles of English grammar. Students will learn to identify and write different types of sentences in preparation for further academic writing. Lecture 2 hours, lab 1 hour. Recommended preparation: Fluency in American Sign Language.

BEGINNING WRITING II FOR DEAF STUDENTS
2.0 Units

English 173 is designed for beginning-level deaf and hard of hearing students who use ASL as their primary communication system. The course is designed to introduce students to formal sentence structure based on the principles of English grammar. Students will learn to identify and write different types of sentences in preparation for further academic writing. Lecture 2 hours, lab 1 hour. Recommended preparation: Fluency in American Sign Language.

INTERMEDIATE WRITING I FOR DEAF STUDENTS
2.0 Units

English 174 is designed for intermediate-level deaf and hard of hearing students who use ASL as their primary communication system. The course focuses on paragraph planning and writing, to prepare students for further academic writing. Lecture 2 hours, lab 1 hour. Recommended preparation: ENGL 173 or equivalent.

BASIC COMMUNICATION-VOCAULARY
1.0 Unit

NON-DEGREE APPLICABLE

English 182 is designed to help students develop a wide variety of vocabulary skills. The modular system allows students to work on one skill at a time and to work first on the skills they need the most. The audio-tutorial format allows students to work individually, progressing at their own rate and reviewing a topic as many times as necessary to achieve full understanding and mastery of it. Credit is awarded upon completion of all the modules. Laboratory 3 hours. Recommended preparation: None.

BASIC SPELLING
1.0 Unit

NON-DEGREE APPLICABLE

English 184 is designed for students who need to practice spelling English words the way they sound. Students practice spelling both short and longer words in English. The course focuses on sound-letter relationships, taking into account the factors of position, environment, and stress. In other words, students learn to predict the letter or combination of letters that will most likely be used to spell each English sound at the beginning, middle, and end of English syllables or words. Lecture 1 hour. Recommended preparation: None.
185 ADVANCED SPELLING
1.0 Unit
NON-DEGREE APPLICABLE
English 185 is designed for students who spell words the way they sound, but who need practice in applying more complex spelling generalizations, and in spelling longer words or words that do not follow these generalizations. The course reviews sound-letter relationships, but focuses on the changes that take place in words as they change form or part of speech. Context, history, and meaning are emphasized as ways to predict the correct spelling of English words. Lecture 1 hour. Prerequisite: None.

186 BASIC READING LABORATORY
1.0 Unit
NON-DEGREE APPLICABLE
English 186 is an individualized course of study designed to improve a student’s English reading skills. The course covers reading techniques, vocabulary development, and comprehension and analysis skills. Laboratory 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background.

187 BASIC ENGLISH LABORATORY
1.0 Unit
NON-DEGREE APPLICABLE
English 187 is an individualized course of study designed to improve a student’s English writing skills. The course covers the basics of sentence and paragraph composition, including an introduction to mechanics, grammar, spelling, and paragraph form. Laboratory 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background and completion of ENGL 186

188 INTRODUCTION TO ACADEMIC READING
3.0 Units
NON-DEGREE APPLICABLE
English 188 is a reading course designed for students who need to improve their basic skills. Various word attack skills are covered, including phonics, word analysis through the study of prefixes and word roots, and the use of context clues. Methods to improve comprehension are covered. Students are grouped into ability levels and organized into study sessions. There is extensive use of computer assisted instruction to drill vocabulary and to practice skills covered in class. Lecture 3 hours, lab 1 hour. Prerequisite: Placement is based on a composite of test scores and academic background or ENGL 186 and 187.

189 WRITING WORKSHOP I
3.0 Units
NON-DEGREE APPLICABLE
English 189 is designed for students who need to practice writing clear sentences and paragraphs in standard English. The course is a writing workshop. It involves the students actively in reading, writing, discussing, and re-writing. Individualized computer lessons provide tutorials and practice in the grammar and mechanics of writing. Computer applications help students plan, write, check, and revise what they have written. The course helps students increase their familiarity with the style, form and structures of written English and improves their ability to compose and edit sentences and paragraphs in English. Lecture 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background or satisfactory completion of ENGL 188 is required.

190 INTERMEDIATE ACADEMIC READING
3.0 Units
NON-DEGREE APPLICABLE
English 190 is a reading course designed for students who wish to improve their college reading skills. Various textbook study methods are covered, as are memory improvement, vocabulary building through the study of prefixes and roots, and the use of context clues. Some basic word attack skills are reviewed, but the emphasis of the course is on strengthening higher level reading comprehension as well as improving critical reading. Methods to improve literal and inferential comprehension are covered. Lecture 3 hours, lab 1 hour. Prerequisite: Placement is based on a composite of test scores and academic background. ENGL 190 must be taken prior to or concurrently with ENGL 191.

191 WRITING WORKSHOP II
4.0 Units
NON-DEGREE APPLICABLE
English 191 is designed for students who need to practice writing more thoughtful and well-organized short compositions in standard English. Conducted as a writing workshop, the course also involves reading, and discussion of articles, stories and possibly longer works. Individualized computer lessons provide tutorials and practice in the grammar and mechanics of writing. Computer applications help students plan, write, check, and revise what they have written. The course helps students increase their familiarity with the style and organizational format of written English and improves their ability to compose, edit, and revise sentences, paragraphs, and short compositions. Lecture 4 hours, lab 2 hours. Prerequisite: Placement is based on a composite of test scores and academic background or ENGL 189. Concurrent enrollment in or completion of ENGL 190 is required.

192 ADVANCED COLLEGE READING
3.0 Units
NON-DEGREE APPLICABLE
English 192 is a reading course designed for students who are generally good readers, but who wish to improve their reading speed and comprehension. Various speed reading techniques are covered, as well as vocabulary building through the study of prefixes and roots, and the use of context clues. Comprehension skills are reviewed as are the use of analogies and critical reading methods. Written book reviews and summaries are assigned. Lecture 3 hours, lab 1 hour. Prerequisite: Placement is based on a composite of test scores and academic background or satisfactory completion of ENGL 190. Recommended corequisite: Concurrent enrollment in ENGL 120

197 LITERACY TRAINING METHODS
2.0 Units
NON-DEGREE APPLICABLE
English 197 is a course designed to help literacy tutors with no formal training in education promote the development of reading skills in children and adults. General tutoring methods, practice, responsibilities, and ethics are covered, as are specific methods to help build various reading skills. Lecture 2 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151.
ENGLISH AS A SECOND LANGUAGE

111 GRAMMAR AND WRITING I
5.0 Units
NON-DEGREE APPLICABLE
ESL 111 is designed for students at the beginning level of English. This course provides instruction in vocabulary, basic sentence structure, and simple reading and writing. Students write short paragraphs with correct punctuation and spelling. They practice idiomatic expressions used in writing and discuss cultural differences to help them adapt more quickly to college life in the United States. Lecture 5 hours, lab 1 hour. Prerequisite: Placement is based on a composite of test scores and academic background. Recommended preparation: Concurrent enrollment in an appropriate ESL listening and speaking course and a reading course.

115 LISTENING AND SPEAKING I
3.0 Units
NON-DEGREE APPLICABLE
ESL 115 is designed for students who cannot communicate effectively even in the most basic situations on the college level. Dialogues are presented, and students participate in role plays of campus-related situations in class and on the campus at large. Clear speaking, listening, and pronouncing are stressed in classroom drills and activities. Laboratory assignments may be made by the instructor based on individual student needs. Lecture 5 hours, lab 1 hour. Prerequisite: Placement is based on a composite of test scores and academic background. Recommended preparation: Concurrent enrollment in an appropriate ESL grammar and writing course.

116 READING AND VOCABULARY FOR ESL I STUDENTS
3.0 Units
NON-DEGREE APPLICABLE
ESL 116 is designed to help beginning ESL students read simple passages. The course places heavy emphasis on basic vocabulary development and dictionary skills. Students study the relationships between sounds and spelling, and practice using various reading strategies to increase their reading comprehension. Lecture 3 hours, lab 1 hour. Prerequisite: Placement is based on a composite of test scores and academic background. Recommended preparation: Concurrent enrollment in an appropriate ESL listening and speaking course and an ESL grammar and writing course and a reading course.

117 LISTENING COMPREHENSION & VOCABULARY DEVELOPMENT
3.0 Units
NON-DEGREE APPLICABLE
ESL 117 is a telecourse designed to help beginning ESL students improve their listening comprehension skills and vocabulary development. Students view videos specifically designed for this level and do listening comprehension and vocabulary development exercises in a workbook written to match the videotapes. Students participate in additional drills and activities assigned by the instructor. Note: This course may not be taken for credit by students who have completed ESL 125. Lecture 5 hours. Prerequisite: Placement is based on a composite of test scores and academic background. Recommended preparation: Concurrent enrollment in an appropriate ESL grammar and writing course and a reading course.

118 BASIC SPELLING FOR NON-NATIVE SPEAKERS
2.0 Units
NON-DEGREE APPLICABLE
ESL 118 is a course designed to improve the spelling proficiency of those students whose native language is not English. There is a special emphasis on the relationship of pronunciation to spelling. Lecture 2 hours, lab 1 hour. Prerequisite: Placement is based on a composite of test scores and academic background or ESL 111. Recommended preparation: Concurrent enrollment in an appropriate ESL listening and speaking course and a reading course.

123 GRAMMAR AND WRITING II
4.0 Units
ESL 123 is designed for students at the low intermediate level of English. This course focuses on grammar, reading, and composition. Students write one- to two-paragraph compositions. Special emphasis is placed on the acquisition of vocabulary, idioms, and structures appropriate for writing. The course stresses the correct use of a variety of grammatical structures and verb tenses within compositions. Lecture 5 hours, lab 1 hour. Prerequisite: Placement is based on a composite of test scores and academic background or ESL 111. Recommended preparation: Concurrent enrollment in an appropriate ESL listening and speaking course and a reading course.

125 LISTENING AND SPEAKING II
2.0 Units
NON-DEGREE APPLICABLE
ESL 125 presents listening comprehension strategies as well as practice in the pronunciation of individual sounds, word and sentence stress, and intonation patterns. Oral communication skills are strengthened through such activities as dialogues and role playing, as well as pair, group, and class discussion. Both formal and informal vocabulary and idioms are taught and tested. Lecture 4 hours, lab 1 hour. Prerequisite: Placement is based on a composite of test scores and academic background or satisfactory completion of ESL 115. Recommended preparation: Concurrent enrollment in an appropriate ESL grammar and writing course and a reading course.
126 READING AND VOCABULARY FOR ESL II STUDENTS 3.0 Units
ESL 126 is designed to help lower-intermediate ESL students read academic materials. The course emphasizes vocabulary development by inferring meaning from context and by understanding affixes. Reading skills are practiced on passages from various fields, and a complete work is read. Lecture 3 hours, lab 1 hour. Prerequisite: Placement is based on a composite of test scores and academic background or ESL 116. ESL 123 must be taken prior to or concurrently with ESL 126. Recommended prep: Concurrent enrollment in ESL listening/speaking and grammar/writing course.

127 LISTENING COMPREHENSION & VOCABULARY DEVELOPMENT II 3.0 Units
NON-DEGREE APPLICABLE
ESL 127 is a telecourse designed to help high-beginning to intermediate ESL students improve their listening comprehension skills and vocabulary development. Students view videos specifically designed for this level and do listening comprehension and vocabulary development exercises in a workbook written to match the videotapes. Students participate in additional drills and activities assigned by the instructor. Note: This course may not be taken for credit by students who have completed ESL 135. Lecture 5 hours. Prerequisite: Placement is based on a composite of test scores and academic background or satisfactory completion of ESL 117. Recommended prep: Concurrent enrollment in an appropriate ESL grammar and writing course and a reading course.

128 ACADEMIC SPELLING FOR NON-NATIVE SPEAKERS 2.0 Units
NON-DEGREE APPLICABLE
ESL 128 is designed to promote the spelling proficiency of ESL students at the intermediate level. There is special emphasis given to the relationship of pronunciation and morphology to spelling. Vocabulary pertaining to study-skills, academic endeavor, and the higher education environment generally is a special feature of the course. Lecture 2 hours, lab 1 hour. Placement is based on a composite of test scores and academic background or ESL 123 and ESL 126. Recommended preparation: Concurrent enrollment in an appropriate ESL listening and speaking course and a reading course.

133 GRAMMAR AND WRITING III 4.0 Units
ESL 133 is designed for students at the high intermediate level of English. The course focuses on grammar, controlled composition, and reading. Students study increasingly complex grammatical structures and incorporate these structures into essays of three to five paragraphs in length (approximately 300 words). Lecture 5 hours, lab 1 hour. Placement is based on a composite of test scores and academic background or ESL 123 and ESL 126. Recommended preparation: Concurrent enrollment in an appropriate ESL listening and speaking course and a reading course.

135 LISTENING AND SPEAKING III 2.0 Units
ESL 135 stresses listening comprehension as well as oral communication by means of reports, short speeches, and small group and class discussion of high-interest topics. The standard pronunciation of individual sounds, as well as stress and intonation patterns are presented, drilled and tested. The students will study formal and informal idioms and vocabulary to improve their ability to communicate orally. Some work is done to correct the problems of individual students. In addition, laboratory assignments may be made based on individual student needs. Lecture 4 hours, lab 1 hour. Prerequisite: Placement is based on a composite of test scores and academic background or satisfactory completion of ESL 125. Recommended preparation: Concurrent enrollment in an appropriate ESL grammar and writing course and a reading course.

136 READING AND VOCABULARY FOR ESL III STUDENTS 3.0 Units
ESL 136 is designed to encourage intermediate ESL students to read extensively and promote English language proficiency and reading skills. Students read complete works of fiction and non-fiction, determine what questions those works raise, and discuss and write about their understanding of the texts. Lecture 3 hours, lab 1 hour. Prerequisite: Placement is based on a composite of test scores and academic background or ESL 126. ESL 133 must be taken prior to or concurrently with ESL 136. Recommended prep: Concurrent enrollment in ESL listening/speaking and grammar/writing courses. Transfer Credit: CSU

141 GRAMMAR AND WRITING IV 4.0 Units
ESL 141 is designed for students at the advanced level of grammar and writing. Critical analysis of academic reading materials encourages independent thinking and the expression of informed opinion. Compositions are written in response to readings and discussions and become the vehicle for showing the ability to use advanced grammatical structures of English. Lecture 5 hours, lab 1 hour. Prerequisite: Placement is based on a composite of test scores and academic background or ESL 133 and ESL 136. Recommended preparation: Concurrent enrollment in an appropriate ESL listening and speaking course and in an appropriate reading course. Transfer Credit: CSU, UC, USC

145 LISTENING AND SPEAKING IV 2.0 Units
ESL 145 stresses fluency and clarity in delivery of speeches as well as in various communicative activities. These may involve the preparation and presentation of reports, summaries, and persuasive speeches. Students are exhorted to use the vocabulary and grammatical structures appropriate to formal settings. Culturally appropriate subtleties such as body language are reviewed in order to maximize the efficacy of communication. Listening comprehension and lecture/note-taking skills are practiced and evaluated. Note: This course is taught at a level of vocabulary equivalent to ESL 141. Lecture 3 hours, lab 1 hour. Placement is based on a composite of test scores and academic background or satisfactory completion of ESL 135. Recommended prep: Strongly recommended that student be concurrently enrolled in an ESL grammar and writing class at the 133 level or higher. Transfer Credit: CSU

146 READING AND VOCABULARY FOR ESL IV STUDENTS 3.0 Units
ESL 146 is designed to encourage advanced ESL students to read extensively and to promote English language proficiency and reading skills. Students read complete works on related topics, analyze what questions those works raise, and discuss and write about their understanding of the texts. Students are asked to read texts from content courses or from literature. Lecture 3 hours, lab 1 hour. Placement is based on a composite of test scores and academic background or satisfactory completion of ESL 136. ESL 141 must be taken prior to or concurrently with ESL 146. Recommended prep: Concurrent enrollment in ESL listening, grammar, writing courses. Transfer Credit: CSU
It is recommended that students enroll in grammar and writing, listening and speaking, and reading classes in the same semester. Placement in the Credit ESL course sequence is based on a composite of test scores and academic background.
ESL/Environmental Technology

151 READING AND COMPOSITION V
4.0 Units

ESL 151 is designed for non-native students who are proficient in English and are able to compete with native students in most college courses except those that may require essay exams. The course gives students extensive practice in rhetorical modes of exposition and argument. It emphasizes analytical and expository writing at the essay level, as well as critical reading, and gives students practice in writing essay examinations. The course stresses both organization and in-depth essay development. Students work to eliminate weaknesses in syntax, idiomatic usage, and grammar. Library research techniques are introduced and a short research paper is completed. Lecture 4 hours, lab 1 hour. Prerequisite: Placement is based on a composite of test scores and academic background or ESL 141. Transfer Credit: CSU, UC, USC

155 LISTENING AND SPEAKING V
2.0 Units

ESL 155 concentrates on reducing foreign accents in the speech of otherwise articulate non-native students. Intensive practice in the production of individual sounds, rhythm, stress, intonation, phonology helps students communicate more effectively and helps prepare them for upper division ESL phonetics courses. Students learn to use formal diction by making oral presentations and participating in class debates. They practice expressive speaking, appropriate facial expressions, and hand and body gestures. Laboratory assignments may be made at the discretion of the instructor. Lecture 3 hours, lab 1 hour. Prerequisite: Placement is based on a composite of test scores and academic background or satisfactory completion of ESL 145. Recommended prep: Student be concurrently enrolled in an ESL grammar and writing class at the 141 level or higher. Transfer Credit: CSU

ENVIRONMENTAL TECHNOLOGY

100 MATH FOR WATER AND WASTEWATER OPERATORS
3.0 Units

Environmental Technology 100 provides an introduction to wastewater and water mathematical functions. Topics covered include general math, including significant figures and proper rounding, applicable algebraic and geometry equations, unit analysis, volumes, flows, pressures, conversions, solution strengths, and applicable laboratory and chemistry equations used in water and wastewater treatment operations. Lecture 3 hours. Prerequisite: None.

105 SCIENCE FOR WATER AND WASTEWATER OPERATORS
4.0 Units

Environmental Technology 105 will cover three topic areas, Biology, Chemistry, and Physics as they apply to operation, maintenance, and management of water and wastewater facilities. The course is intended to provide the student with a fundamental understanding of the sciences underlying studies of water and wastewater conveyance and treatment. Lecture 3 hours, lab 3 hours. Prerequisite: None.

110 WASTE WATER MANAGEMENT: BASIC INSTRUMENTATION AND ELECTRICAL CONTROLS
4.0 Units

Environmental Technology 110 is an introduction to power and control circuits and devices used with water and wastewater distribution and treatment systems. Units of instruction include a study of electron theory, magnetism, induction, alternating current, direct current, resistance and capacitance. Practice using electrical meters and test instruments in laboratory classes along with related safety practices will also be covered. Lecture 3 hours, lab 3 hours. Prerequisite: None.

115 INTRODUCTION TO WATER, WASTEWATER, AND RECYCLED WATER MANAGEMENT
3.0 Units

Environmental Technology 115 provides an introduction to water, wastewater, and recycled water management. Topics covered include history of water supply and treatment, wastewater collection and treatment, and recycling water in the world and in the United States; and an overview of the State and federal regulations governing water supply, wastewater treatment and recycled water use, including permitting requirements and operator certification program. This course provides an introduction to managing water and wastewater treatments. Lecture 3 hours. Prerequisite: None.

120 WATER TREATMENT OPERATION AND MAINTENANCE I
3.0 Units

Environmental Technology 120 provides an entry level understanding of drinking water treatment. Topics covered include history of water treatment, responsibilities of the plant operator, reasons for treating water, source water management, water treatment facilities, treatment process and technologies, disinfection and plant maintenance. This course provides the background into the importance of treating water, its functionality, past and present technology and the future of drinking water. Lecture 3 hours, lab 3 hours. Prerequisite: None.

125 WATER TREATMENT OPERATION AND MAINTENANCE II
3.0 Units

Environmental Technology 125 provides an advanced level understanding of drinking water treatment. Topics covered include drinking water regulations, laboratory procedures, iron and manganese control, fluoridation, water treatment plant design, advanced treatment process and technologies such as softening, membrane filtration and demineralization, instrumentation and control, advanced plant maintenance and plant administration. This course provides the background into the importance of advanced water treatment, its functionality, past and present technology and the future of drinking water. This course meets the initial education requirements for treatment operator certification exam. Lecture 3 hours, lab 3 hours. Prerequisite: None.

130 WATER DISTRIBUTION OPERATION AND MAINTENANCE
3.0 Units

Environmental Technology 130 provides an understanding of drinking water distribution systems operation and maintenance. Topics covered include design criteria, storage, pumping, flow control, construction methods, disinfection, control of water quality in a water distribution system, federal and state drinking water regulations, maintenance and administration of a water distribution system. Field trips and/or a semester project may be required. This course meets the initial educational requirements for a distribution operator certification exam. Lecture 3 hours, lab 3 hours. Prerequisite: None.
110 CONTEMPORARY ETHNIC WOMEN
3.0 Units
Ethnic Studies 110 is a survey of the contemporary status of ethnic women in North American society. This course makes relevant cross-cultural comparisons using contemporary issues and their relation to the ethnic women of today. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, I USC

111 EUROPEAN IMMIGRANTS IN AMERICA, 1776 TO PRESENT
3.0 Units
Ethnic Studies 111 is a survey course which examines the history and experiences of European immigrants in America from the late eighteenth century to the present. The course examines the immigration process itself, considers specific groups (British, Irish, German, Italian, Polish, Jewish, Greek, etc.) and assesses the reaction to immigration by white Americans, and evaluate the contributions made by European immigrants to American society. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

112 INTRODUCTION TO ASIAN AMERICAN CULTURE
3.0 Units
Ethnic Studies 122 is a survey course which introduces students to the special elements unique to Asian culture. This course also focuses on the various dilemmas faced by Asian Americans as they begin to contact with the cultural values of the dominant society. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

113 ASIANS IN AMERICA
3.0 Units
Ethnic Studies 123 is a survey course which examines the experience of Asian American groups (Chinese, Japanese, Filipinos, Koreans, and others) from the mid-nineteenth century to the present. The course emphasizes these themes as it considers each immigrant group: stereotypes, push and pull factors in immigration, labor experiences, racism and discrimination in American society as applied to Asian Americans, contributions of Asian Americans to American society, community life before and since World War II, problems of the Asian American community today. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

114 LATIN AMERICAN CULTURAL EXPERIENCE
3.0 Units
Ethnic Studies 101 surveys the cultural background that has shaped the present Latin American societies. The course analyzes such areas as: society culture, the psychology of the Latin American, city and rural life, religion, women, education, and the role of the university, the artists and their role in politics, cultural imperialism, music and artistic expression, Latin American cinema, art in revolutionary societies, new song movement. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

115 ETHNIC AND RACIAL MINORITIES
3.0 Units
Ethnic Studies 121 surveys the major ethnic and racial minorities in the United States to provide a basis for a better understanding of the socio-economic, cultural and political conditions among the following minorities: Afro-American, Mexican-American, Chinese, Japanese, American Indian, and other social minority groups. Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

116 THE AFRICAN AMERICAN EXPERIENCE IN THE UNITED STATES
3.0 Units
Ethnic Studies 132 surveys the African American experience in the United States. It traces the role and contributions of African American people in the development of the United States. The course includes such major topics as: the slave trade, the Revolutionary War and Civil War, and the development of African American communities and culture, as well as contemporary African American issues. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

117 NATIVE AMERICAN STUDIES
3.0 Units
Ethnic Studies 125 examines indigenous American societies, from before European contact through the present. This historical examination compares regional cultural groups, using an interdisciplinary approach to reach an understanding of pre-literate peoples. A primary goal is to develop skills for critical cross-cultural comparisons. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

118 INTRODUCTION TO ENVIRONMENTAL TECHNOLOGY
3.0 Units
Environmental Technology 150 introduces students to a range of fields that encompass the rapidly expanding environmental technology industries. This course will cover basic principles and skill sets applicable to ‘green’ technology sectors. Students will learn about ‘green-collar’ employment and career opportunities. Lecture 3 hours, lab 3 hours. Prerequisite: None.

119 ASIAN AMERICANS IN AMERICA
3.0 Units
Ethnic Studies 124 is an in-depth survey of the history of Japanese immigrants and their descendants in America from the 19th century to the present. The course is designed to meet the needs of students who wish to more fully understand the experience of the Japanese immigrants and their descendants in America. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

120 MEXICAN-AMERICAN STUDIES
3.0 Units
Ethnic Studies 120 surveys the experiences of the various ethnic groups in the United States: Mexicans, Puerto Ricans, Cubans and other Caribbean's, Central and South Americans. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC
THE ARMENIAN DIASPORA
3.0 Units
Ethnic Studies 164 examines the development of the Armenian Diaspora from the abandonment of the Armenian Question by the United States and the European Powers in 1923, to the unfolding of current events that are critically affecting the Armenian case today. The course focuses on: the growing Armenian-American community, Armenian emigration from the Middle East and Soviet Armenia, pressures of assimilation in the U.S., activities of community organizations toward preserving Armenian culture, current Armenian affairs and U.S. foreign policy. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

FIRE TECHNOLOGY

Classes in Fire Technology are offered for students interested in preparing for careers in fire prevention and fire fighting. The course also provides in-service and upgrading instruction for fire fighting personnel. A certificate of completion may be earned.

The Verdugo Fire Academy is a State Board of Fire Services and California State Fire Marshal's accredited Regional Fire Academy sponsored by Glendale Community College and the Glendale Fire Department.

Instructors for the program are fire service professionals drawn from many fire departments in Southern California.

The academy requires approximately 780 hours of classroom and drill ground instruction totaling thirty-two units (32). The four courses, Fire Technology 110, 111, 112 and 113 are currently offered in sequential semesters as an extended program solely on weekends.

Students receive a variety of California State Fire Marshal’s certificates upon graduation from the academy in addition to their basic academy completion certificate.

INTRODUCTION TO FIRE PROTECTION
0.5 to 3.0 Units
Fire Technology 101 presents the philosophy and history of fire protection, history of loss of life and property by fire, review of municipal fire defenses, study of the organization and function of Federal, State, and County, and private fire protection agencies, and survey of professional fire protection career opportunities. Fire Technology 101 meets or exceeds the California State Fire Marshal's Office core requirement for Fire 1. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

FIRE BEHAVIOR AND COMBUSTION
3.0 Units
Fire Technology 102 offers instruction in fire behavior and control, matter and energy, units of measurement, flammable liquids, toxic gases, chemicals, radioactive hazards, and fire fighting techniques. Fire Technology 102 meets or exceeds the California State Fire Marshal's Office core requirement for Fire 2. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

FIRE PREVENTION TECHNOLOGY
0.5 to 3.0 Units
Fire Technology 103 continues to present organization and function of the fire prevention organizations, inspection, surveying and mapping procedures, recognition of fire hazards, engineering a solution to the hazard, enforcement of the solution, public relations as affected by fire prevention. Fire Technology 103 meets or exceeds the California State Fire Marshal's Office core requirement for Fire 2. Lecture 3 hours. Prerequisite: FIRE 101 or equivalent. Transfer Credit: CSU

FIRE FIGHTING TACTICS AND STRATEGIES
0.5 to 3.0 Units
Fire Technology 104 presents the review of fire chemistry, equipment, and personnel, basic fire fighting tactics and strategy, methods of attack, pre-planning fire problems. Review of related codes and ordinances. Lecture 3 hours. Prerequisite: FIRE 101 or equivalent. Transfer Credit: CSU

FIRE PROTECTION EQUIPMENT AND SYSTEMS
0.5 to 3.0 Units
Fire Technology 105 presents the methods, techniques and practical application of portable fire extinguishing equipment, sprinkler systems, protection systems for special hazards, and fire alarm and detection systems. Fire Technology 105 meets or exceeds the California State Fire Marshal's Office core requirement for Fire 3. Lecture 3 hours. Prerequisite: FIRE 101 or equivalent. Transfer Credit: CSU

FIRE APPARATUS AND EQUIPMENT
0.5 to 3.0 Units
Fire Technology 106 covers the general technical knowledge of driving laws, driving techniques, construction, and operation of pumping engines, ladder trucks, aerial platforms, specialized equipment, and apparatus maintenance. Lecture 3 hours. Prerequisite: FIRE 101 or equivalent. Transfer Credit: CSU

WILDLAND FIRE CONTROL
0.5 to 3.0 Units
Fire Technology 112 is designed to provide the employed firefighter or fire science major with a fundamental knowledge of the factors affecting wildland fire prevention, fire behavior, and control techniques. Lecture 3 hours. Prerequisite: FIRE 101 or equivalent. Transfer Credit: CSU

REScue PRACTICEs
0.5 to 3.0 Units
Fire Technology 109 offers instruction in rescue practices, the human body, emergency care of victims, childbirth, artificial respiration, toxic gases, chemicals and diseases, radioactive hazards, rescue problems and techniques. Lecture 3 hours. Prerequisite: FIRE 101 or equivalent. Transfer Credit: CSU

WILDLAND FIRE CONTROL
0.5 to 3.0 Units
Fire Technology 112 is designed to provide the employed firefighter or fire science major with a fundamental knowledge of the factors affecting wildland fire prevention, fire behavior, and control techniques. Lecture 3 hours. Prerequisite: FIRE 101 or equivalent. Transfer Credit: CSU
114
HAZARDOUS MATERIALS
0.5 to 3.0 Units

Fire Technology 114 is an introduction to basic fire chemistry and physics. This course covers problems of flammability as encountered by fire-fighters when dealing with toxic substances, fuels, explosives, oxidizers and radioactive materials. It also covers fire fighting practices pertaining to hazardous materials in storage and transit. Lecture ½-3 hours. Prerequisite: FIRE 101 or equivalent. Transfer Credit: CSU

115
BUILDING CONSTRUCTION
3.0 Units

Fire Technology 115 investigates the components of building construction that relate to fire safety. The elements of construction and design of structures are shown to be key factors when inspecting buildings, preplanning fire operations, and operating at fires. The development and evolution of building and fire codes are studied in relationship to past fires in residential, commercial, and industrial occupancies. Fire Technology 115 meets or exceeds the California State Fire Marshal’s Office core requirement for Fire 4. Lecture 3 hours. Prerequisite: FIRE 101 or equivalent. Transfer Credit: CSU

116
FIRE ACADEMY I
4.0 Units

Fire Technology 116 trains students in the theory and practice of fire fighting technology. Topics include the organization of the fire service, fire characteristics and behavior, fire prevention and public education, extinguishing agents, fire protection systems, and fire service communications. This course, together with Fire Technology 117, Fire Academy II, Fire Technology 118, Fire Academy III and Fire Technology 119, Fire Academy IV meets the State Board of Fire Services training requirements for Firefighter I certification. Experience requirements will need to be met prior to application for Firefighter I certification. Lecture 3 hours, laboratory 3.67 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

117
FIRE ACADEMY II
12.0 Units

Fire Technology 117 is designed to train students in the theory and practice of fire fighting technology. Topics include use and application of self-contained breathing apparatus, salvage and overhaul operations, fire control techniques, fire hose, nozzles, streams and water supply, fire service ground ladders, and portable fire extinguishers. This course together with Fire Technology 116, Fire Technology 118, and Fire Technology 119 meets the State Board of Fire Services training requirements for Firefighter I certification. Experience requirements will need to be met prior to application for Firefighter I certification. Lecture 9 hours, laboratory 11 hours. Prerequisite: FIRE 116.

118
FIRE ACADEMY III
4.0 Units

Fire Technology 118 is designed to train students in the theory and practice of fire fighting technology. Topics include techniques of firefighting tool and equipment, ventilation techniques, rapid intervention team operations, rescue, vehicle extrication, forcible entry, and wild land firefighting operations. This course together with Fire Technology 116, Fire Technology 117, and Fire Technology 119, meets the State Board of Fire Services training requirements for Firefighter I certification. Experience requirements will still need to be met prior to application for Firefighter I certification. Lecture 5.4 hours, laboratory 6.11 hours. Prerequisite: FIRE 117.

119
FIRE ACADEMY IV
12.0 Units

Fire Technology 119 is designed to train students in the theory and practice of fire fighting technology. Topics include urban search and rescue operation, rescue systems, trench rescue operations, the incident command system, and hazardous materials including weapons of mass destruction. The course also provides students with live fire exercises in flammable liquids, compressed gases, aircraft and survival, and advanced structural firefighting techniques. Multi-company fire ground operations, including truck and engine company operations are included. This course together with Fire Technology 116, Fire Technology 117, and Fire Technology 118, meets the State Board of Fire Services training requirements for Firefighter I certification. Experience requirements will still need to be met prior to application for Firefighter I certification. Lecture 9 hours, laboratory 11 hours. Prerequisite: FIRE 118.

120
VERDUGO FIRE RECRUIT ACADEMY
16.0 Units

Fire Technology 120 trains students in the theory and practice of fire fighting technology. Topics include organization of the fire service, fire characteristics and behavior, fire prevention and public education, extinguishing agents, fire protection systems, fire service communications, use and application of self-contained breathing apparatus, salvage and overhaul operations, fire control techniques, fire hose, nozzles, streams and water supply, fire service ground ladders, and portable fire extinguishers. This course also involves arduous physical training and strict paramilitary conduct expectations. Note: This course is intended for persons employed in the fire service. This course is very fast paced and arduous. The conduct expectations of this course are similar to that of a typical fire department structured as a para-military organization. No credit if taken after Fire Technology 116, 117, 118, or 119. Lecture 11.5 hours, laboratory 27 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Completion of FIRE 101, 102, 103, 105, and 115. CPAT certification (Candidate Physical Ability Test).

130
FIRE ACADEMY SKILL MAINTENANCE
1.5 to 2.0 Units

Fire Technology 130 is a refresher for Firefighter I participants. Equipment, drills, and practice are provided for Firefighter I skills maintenance. Topics include a review of fire fighting manipulative skills, building construction and assemblies, basic firefighting tactics, rescue, and fire prevention and physical fitness. Note: A maximum of two (2) units may be earned. Participants are required to have appropriate personal protective equipment (PPE) to include: helmet, eye protection, safety boots, firefighter structural gloves and an approved uniform. Laboratory 1½ - 6 hours. Prerequisite: FIRE 117 or equivalent.
131 FIREFIGHTER SKILLS ENHANCEMENT  
1.5 to 2.0 Units  
Fire Technology 131 presents advanced skill enhancement for students who have recently completed a fire academy and are currently employed in fire service. Topics include advanced fire fighting skills, advanced equipment utilization, firefighting tactics and strategies, and advanced rescue techniques and physical fitness. **Note:** A maximum of two (2) units may be earned. Participants are required to have appropriate personal protective equipment (PPE) to include: helmet, eye protection, safety boots, firefighter structural gloves and an approved uniform. This course is offered Pass/No Pass only. Laboratory 1½–6 hours. **Prerequisite:** FIRE 117 or employment in a related field.

144 PHYSICAL STANDARDS FOR THE FIREFIGHTER  
1.0 to 3.0 Units  
Fire Technology 144 is designed to give in-service firefighters and other interested students physical conditioning and manipulative drills in order to prepare the student for the California Candidate Physical Ability Test (CPAT). This course will provide information on the CPAT and the Biddle Associate Validated Test. Students will learn about firefighter wellness programs and current National Fire Protection Association (NFPA) standards. Lecture 0.5-2 hours, Laboratory 1.5-4 hours **Prerequisite:** None.

150 FIRE INSTRUCTOR 1A  
2.0 Units  
Fire Technology 150 offers students the basic methods and techniques employed by fire service personnel to select, develop and organize material for in-service training programs, evaluation, and application of principles of skill development through practice teaching demonstrations. This is the initial offering of a two-course series. This course applies to California Fire Service Training and Education System. Lecture 5 hours. **Prerequisite:** FIRE 101 or employment in a fire related occupation.

151 FIRE INSTRUCTOR 1B  
2.0 Units  
Fire Technology 151 is the second of a two-course series providing fire service personnel with a variety of methods and techniques for selection, development, application and analysis of evaluative measures applicable to fire service instruction. Student teaching demonstrations are required of each participant. Lecture 5 hours. **Prerequisite:** FIRE 150 or equivalent.

152 FIRE MANAGEMENT I  
2.0 Units  
Fire Technology 152 offers instruction to develop supervisory management skills. The course introduces key management concepts and practices utilized and include decision-making, time management, and leadership styles, personnel evaluations and counseling guidelines. This course applies to California Fire Service Training and Education System certifications. Lecture 2.5 hours. **Prerequisite:** FIRE 110 or employment in a fire related occupation. **Recommended preparation:** Eligibility for ENGL 120 or ESL 151.

153 FIRE INVESTIGATION 1A  
2.0 Units  
Fire Technology 153 is a course presenting methods of investigation of the cause and origin of structure, vehicle, wildland, and other types of fires, including relevant laws and case histories. This course applies to the California Fire Service Training and Education System Certifications. Lecture 2.5 hours. **Prerequisite:** FIRE 116, 117, 118 and 119 or equivalent. **Recommended preparation:** Eligibility for English 120 or ESL 151.

154 FIRE COMMAND 1A  
2.0 Units  
Fire Technology 154 provides instruction pertaining to the initial assessment and action processes at a working fire. The course includes discussion concerning the roles and responsibilities of the fire officer, fire behavior, available fire ground resources, operations and management. This course applies to the California Fire Service Training and Education System certifications. Lecture 2.5 hours. **Prerequisite:** FIRE 110, or Incident Command System (ICS) 200, or employment in a fire related occupation. **Recommended preparation:** Eligibility for ENGL 120 or ESL 151.

155 FIRE COMMAND 1B  
2.0 Units  
Fire Technology 155 contains instruction in tactics, strategies, and scene management principles for hazardous materials incidents, emergency medical services (EMS) multi-casualty incidents, and wildland fire fighting incidents. This course also includes simulation time pertaining to the initial decision processes at a working incident. The course includes areas of discussion on the fire officer, components of triage, fire behavior, fire ground resources, operations, and management. This course applies to California Fire Service Training and Education System certifications. Lecture 2.5 hours. **Prerequisite:** FIRE 154, or Incident Command Systems (ICS) 200, or employment in a fire related occupation. **Recommended preparation:** Eligibility for ENGL 101 or ESL 151.

156 FIRE PREVENTION 1A  
2.0 Units  
Fire Technology 156 is the first in a three-course series and provides fundamental instruction regarding the history and philosophy of fire prevention, organization, and operation of a fire prevention bureau, use of fire codes, identification and correction of fire hazards, and the relationship of fire prevention to fire safety education and detection and suppression systems. This course applies to California Fire Service Training and Education System certifications. Lecture 2.5 hours. **Prerequisite:** FIRE 110 or employment in a fire related occupation. **Recommended preparation:** Eligibility for ENGL 120 or ESL 151.

157 FIRE PREVENTION 1B  
2.0 Units  
Fire Technology 157 is the second in a three-course series presenting the methods and techniques for fire prevention, use of codes, identification and correction of fire hazards in buildings and facilities containing hazardous materials. This course applies to the California Fire Service Training and Education System certifications. Lecture 2.55 hours. **Prerequisite:** FIRE 156 or employment in a fire related occupation. **Recommended preparation:** Eligibility for ENGL 120 or ESL 151.
FRENCH

101 BEGINNING FRENCH I
5.0 Units
French 101 presents the fundamentals of French grammar. The students are trained to pronounce correctly, to acquire a small working vocabulary which they use in conversation and writing, and to learn to read simple French. Note: This course is not intended for students with oral proficiency or who have attended schools where French was the language of instruction. Lecture 5 hours, laboratory ½ hour. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC.

102 BEGINNING FRENCH II
5.0 Units
French 102 continues to present the fundamentals of French grammar. It trains further in correct pronunciation, and presents more difficult elementary prose. The discussions in French will stress the correct use of verbs and idioms and efficient methods of vocabulary building. Lecture 5 hours, laboratory ½ hour. Prerequisite: FREN 101 or equivalent. Transfer Credit: CSU, UC, USC.

103 INTERMEDIATE FRENCH I
5.0 Units
French 103 offers a review of French grammar stressing structure, word analysis, vocabulary building and composition. The student is introduced to simple texts of French prose and poetry. Discussions in French of contemporary literature and topics of interest will enable the student to gain fluency in speaking the French language. Note: This course is offered during the Fall semester only. Lecture 5 hours, laboratory ½ hour. Prerequisite: FREN 102 or equivalent. Transfer Credit: CSU, UC, USC.

104 INTERMEDIATE FRENCH II
5.0 Units
French 104 reviews the fundamentals of French grammar. It continues to stress correct dictation and efficient methods of vocabulary building. Students will read intermediate French prose of increasing difficulty and engage in conversation and composition with emphasis on critical thinking. They will evaluate aspects of their own and French culture in the new medium of the French language. Note: This course is offered during the Spring semester only. Lecture 5 hours, laboratory ½ hour. Prerequisite: FREN 103 or equivalent. Transfer Credit: CSU, UC, USC.

105 CONVERSATIONAL FRENCH I
3.0 Units
French 105 is an intensive practice in oral expression and comprehension of spoken French. Lecture 3 hours. Prerequisite: FREN 102 or equivalent. Transfer Credit: CSU, UC, USC.

110 BASIC CONVERSATIONAL FRENCH I
3.0 Units
French 110 is an introduction to French with emphasis on developing essential skills in communication. The verbal active method used stresses oral expression. The course also develops a working knowledge of reading and writing French. Note: Not open to students who have oral proficiency or who have attended schools where French was the language of instruction. Lecture 3 hours. Prerequisite: None.

111 BASIC CONVERSATIONAL FRENCH II
3.0 Units
French 111 is an introduction to French with emphasis on developing essential skills in communication. The verbal active method is used and oral expression is stressed. The course also develops a working knowledge of reading and writing French. Lecture 3 hours. Prerequisite: FREN 110 or equivalent.

GEOGRAPHY

101 PHYSICAL GEOGRAPHY
3.0 Units
Geography 101 is a study of the basic physical elements of geography, their correlation and integrated patterns of world distribution. Special attention is given to the earth and its astronomical relationships, weather, climate, and landforms. Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC.

102 CULTURAL GEOGRAPHY
3.0 Units
Geography 102 is a systematic study of the cultural variables of humankind: population, religion, language, economic activities, settlements. Emphasis upon selected cultural problems of humankind's occupation. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC.

103 WORLD REGIONAL GEOGRAPHY
3.0 Units
Geography 103 is a survey of the world's major cultural and physical regions with emphasis on those elements that are important to an understanding of contemporary global issues and concerns. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC.

105 CONVERSATIONAL FRENCH I
3.0 Units
French 105 is an intensive practice in oral expression and comprehension of spoken French. Lecture 3 hours. Prerequisite: FREN 102 or equivalent. Transfer Credit: CSU, UC, USC.

110 BASIC CONVERSATIONAL FRENCH I
3.0 Units
French 110 is an introduction to French with emphasis on developing essential skills in communication. The verbal active method used stresses oral expression. The course also develops a working knowledge of reading and writing French. Note: Not open to students who have oral proficiency or who have attended schools where French was the language of instruction. Lecture 3 hours. Prerequisite: None.

111 BASIC CONVERSATIONAL FRENCH II
3.0 Units
French 111 is an introduction to French with emphasis on developing essential skills in communication. The verbal active method is used and oral expression is stressed. The course also develops a working knowledge of reading and writing French. Lecture 3 hours. Prerequisite: FREN 110 or equivalent.

101 PHYSICAL GEOGRAPHY
3.0 Units
Geography 101 is a study of the basic physical elements of geography, their correlation and integrated patterns of world distribution. Special attention is given to the earth and its astronomical relationships, weather, climate, and landforms. Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC.

102 CULTURAL GEOGRAPHY
3.0 Units
Geography 102 is a systematic study of the cultural variables of humankind: population, religion, language, economic activities, settlements. Emphasis upon selected cultural problems of humankind's occupation. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC.

103 WORLD REGIONAL GEOGRAPHY
3.0 Units
Geography 103 is a survey of the world's major cultural and physical regions with emphasis on those elements that are important to an understanding of contemporary global issues and concerns. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC.

105 CONVERSATIONAL FRENCH I
3.0 Units
French 105 is an intensive practice in oral expression and comprehension of spoken French. Lecture 3 hours. Prerequisite: FREN 102 or equivalent. Transfer Credit: CSU, UC, USC.

110 BASIC CONVERSATIONAL FRENCH I
3.0 Units
French 110 is an introduction to French with emphasis on developing essential skills in communication. The verbal active method used stresses oral expression. The course also develops a working knowledge of reading and writing French. Note: Not open to students who have oral proficiency or who have attended schools where French was the language of instruction. Lecture 3 hours. Prerequisite: None.

111 BASIC CONVERSATIONAL FRENCH II
3.0 Units
French 111 is an introduction to French with emphasis on developing essential skills in communication. The verbal active method is used and oral expression is stressed. The course also develops a working knowledge of reading and writing French. Lecture 3 hours. Prerequisite: FREN 110 or equivalent.

101 PHYSICAL GEOGRAPHY
3.0 Units
Geography 101 is a study of the basic physical elements of geography, their correlation and integrated patterns of world distribution. Special attention is given to the earth and its astronomical relationships, weather, climate, and landforms. Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC.

102 CULTURAL GEOGRAPHY
3.0 Units
Geography 102 is a systematic study of the cultural variables of humankind: population, religion, language, economic activities, settlements. Emphasis upon selected cultural problems of humankind's occupation. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC.
110 GEOGRAPHY OF CALIFORNIA
3.0 Units

Geography 110 is a systematic study of the spatial distributions of California's biophysical and cultural phenomena. Special emphasis is placed on the impact of human occupancy. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

111 PHYSICAL GEOGRAPHY LABORATORY
1.0 Unit

Geography 111 is the laboratory course for Physical Geography. Laboratory exercises include the observation and interpretation of weather data, statistical analysis of climate data, development of cartographic techniques, map interpretation, aerial photography interpretation, and landform description and analysis. Local field trips are required. Laboratory 3 hours. Prerequisite: GEOG 101 or GEOG 101H (GEOG 101 may be taken concurrently). Transfer Credit: CSU, UC, USC

114 GEOGRAPHY OF BAJA CALIFORNIA
2.0 Units

Geography 114 is a field study of Mexico's Baja California peninsula using the geographic methodology. Emphasis is placed on the physical and cultural landscape, students are exposed to basic geographic data collection techniques and concepts, allowing for students to observe and document elements of Baja California's climate, hydrology, wildlife, geomorphology, agriculture, economy, religion, and history, and how these elements interact to create Baja's unique landscape and culture. Note: This class is taught in conjunction with a field trip to Baja California. Lecture 2 hours. Prerequisite: GEOG 101 or 102 or 105 or 110 or equivalent. Transfer Credit: CSU, UC, USC

120 INTRODUCTION TO GEOGRAPHICAL INFORMATION SYSTEMS
3.0 Units

Geography 120 is an introduction to the basic principles of geographical information systems (GIS), including data gathering, analysis, and display through digital methods. Students will be introduced to examples of how GIS is currently being used to answer spatial questions on environmental and social issues. Lecture/demonstration 3 hours. Recommended preparation: GEOG 101, 102, 105, 106, or equivalent. Familiarity with Microsoft Windows Operating Systems. Transfer Credit: CSU, UC, USC

121 INTERMEDIATE GEOGRAPHICAL INFORMATION SYSTEMS
3.0 Units

Geography 121 provides further study in the principles and application of geographical information systems (GIS), including data gathering, analysis, and display through digital methods. Students will integrate geographic concepts and techniques used in spatial analysis, network analysis and 3D analysis with both raster and vector data. GIS analysis through spatial statistics, network routing and 3D surface modeling are emphasized. Lecture/demonstrations will introduce these principles through examples and demonstrations of a GIS package on microcomputers. A student project that demonstrates map display and analysis of data is required. Lecture/demonstration 3 hours. Prerequisite: GEOG 120 or equivalent. Recommended preparation: Familiarity with Microsoft Windows Operating Systems. Transfer Credit: CSU, UC, USC

101 PHYSICAL GEOLOGY
3.0 Units

Geology 101 is a study of the physical materials and processes of the earth. Note: This course may not be taken for credit by students who have completed Geology 110. Second semester standing or a good high school record is recommended. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

101H HONORS PHYSICAL GEOLOGY
3.0 Units

Geology 101H is a study of the physical materials and processes of the earth. The honors course will be enhanced in one or more of the following ways: 1. Students will do weekly quantitative problem sets in the geosciences using skills expected of students who are eligible to take Math 110. 2. Students will prepare a research project and present it in class. Relevant topics include: 'global geochemical cycles' 'planetary geology from remotely sensed data' 'problems in plate tectonic climate change history' 'history of life' 'local geological history' 'interactions of man with earth'. Note: This course may not be taken for credit by students who have completed Geology 110. Second semester standing or a good high school record is recommended. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

102 ENVIRONMENTAL GEOLOGY
3.0 Units

Geology 102 is a study of the earth or natural hazards like earthquakes, volcanism, climate change, pollution and human interactions with the earth environment. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

103 GEOLOGY OF CALIFORNIA
3.0 Units

Geology 103 is a study of the characteristics and historical development of the geologic provinces of California. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

104 FIELD GEOLOGY
2.0 to 6.0 Units

Geology 104 is a field study of geologic features within several geologic provinces. Emphasis is placed on the recognition, interpretation, recording, and reporting of geologic information observed in the field. Petrologic, paleontologic, structural, and stratigraphic information is compiled and integrated into an interpretation of the geologic history of the area investigated. An extended period in the field may be substituted for a number of shorter field trips. Field trips will normally be taken on weekends and/or during vacation periods. The itinerary, schedule, and field area will be determined at the first class meeting (see current class schedule). The student is responsible for the cost of food and transportation, the approximate cost is $35 for each two units of work, this figure may vary considerably depending on the location of the study area. Travel is usually by chartered bus. Field Geology requires a great deal of rigorous activity and living conditions in the field are often primitive. Lecture and field study will be the semester equivalent of one hour of lecture and three hours of laboratory per week for each two units of credit, a typical semester of work would include 16 hours of lecture and six days in the field. Note: Two units of non-overlapping field study will often be offered for the fall and spring semesters, extended periods of study may be available during summer session. Weather conditions may require rescheduling of some trips. Prerequisite: GEOL 101, 102, 103, 105; OCEAN 115; PALEO 101; or equivalent. Transfer Credit: CSU, UC, USC
105  
**HISTORICAL EARTH SCIENCE**  
4.0 Units  
Geology 105 is a study of the geologic and paleontologic history of the North American continent. Lecture 3 hours, lab 3 hours. **Prerequisite:** Completion of any one of the following courses: GEOL 101, 102, 103; OCEAN 115; PALEO 101; or equivalent. **Transfer Credit:** CSU, UC, USC  

111  
**PHYSICAL GEOLOGY LABORATORY**  
1.0 Unit  
Geology 111 is an introduction to common laboratory practices and exercises in physical geology, such as identifying common minerals and rocks and understanding simple topographic and geological sections and maps. **Note:** This course may not be taken for credit by students who have completed Geology 110. Laboratory 3 hours (including 5 hours of supervised field observations). **Prerequisite:** GEOL 101. (Geology 101 may be taken concurrently. **Transfer Credit:** CSU, UC, USC  

111H  
**HONORS PHYSICAL GEOLOGY LABORATORY**  
1.0 Unit  
Geology 111H is an introduction to common laboratory practices and exercises in physical geology, such as identifying common minerals and rocks and understanding simple topographic and geological sections and maps. The honors course will be enhanced in one or more of the following ways: 1. Lab exercises will regularly involve exercises utilizing skills expected of students who are eligible for Math 110. 2. Students will perform lab exercises in which they will: a) Learn how to read a geological map at an advanced level b) Manipulate geophysical and/or geochemical datasets using a computer. c) Identify a larger number of rocks and minerals than non-honors students **Note:** This course may not be taken for credit by students who have completed Geology 110. Laboratory 3 hours (including 5 hours of supervised field observations). **Prerequisite:** GEOL 101. (Geology 101 may be taken concurrently. **Transfer Credit:** CSU, UC, USC  

112  
**ENVIRONMENTAL GEOLOGY LABORATORY**  
1.0 Unit  
Geology 112 is an introduction to the common laboratory practices and exercises in environmental geology. Laboratory exercises include analyzing topographic and geological maps and aerial and satellite imagery. Also included are identifying common mineral and rock samples, water and soil analysis and integrating data from the World Wide Web in problem solving exercises. Lecture 3 hours. **Prerequisite:** GEOL 102. (Geology 102 may be taken concurrently. **Transfer Credit:** CSU, UC, USC  

120  
**EARTHQUAKES**  
3.0 Units  
Geology 120 introduces the student to the current knowledge of earthquakes, with special reference to California, emphasizing their occurrence, causes and properties and the way the dangers from earthquakes can be reduced. The material presented is appropriate for students seeking to fulfill general science requirements as well as for those wishing to acquire a specialized knowledge of the subject. Lecture 3 hours. **Prerequisite:** None. **Transfer Credit:** CSU, UC, USC  

101  
**BEGINNING GERMAN I**  
5.0 Units  
German 101 presents the fundamentals of German grammar. The students are trained to pronounce correctly, to acquire a small working vocabulary that they use in conversation and writing, and to learn to read simple German. **Note:** This course is not intended for students with oral proficiency or who have attended schools where German was the language of instruction. Lecture 5 hours, laboratory ½ hour. **Recommended preparation:** Eligibility for ENGL 120 or ESL 151. **Transfer Credit:** CSU, UC, USC  

102  
**BEGINNING GERMAN II**  
5.0 Units  
German 102 continues to present the fundamentals of German grammar. It trains further in correct pronunciation, and presents more difficult elementary prose. The discussions in German will stress correct use of verbs and idioms and efficient methods of vocabulary building. Lecture 5 hours, laboratory ½ hour. **Prerequisite:** GERM 101 or equivalent. **Transfer Credit:** CSU, UC, USC  

103  
**INTERMEDIATE GERMAN I**  
5.0 Units  
German 103 offers a review of German grammar stressing sentence structure, word analysis, vocabulary building and correct diction. Students read intermediate German of increasing difficulty and engage in conversation and composition with emphasis in critical thinking. They evaluate aspects of their own and German culture in the medium of the German language. Lecture 5 hours, laboratory ½ hour. **Prerequisite:** GERM 102 or equivalent. **Transfer Credit:** CSU, UC, USC  

104  
**INTERMEDIATE GERMAN II**  
5.0 Units  
German 104 reviews the fundamentals of German grammar. It continues to stress word analysis, vocabulary building and correct diction. Students read intermediate German of increasing difficulty and engage in conversation and composition with emphasis in critical thinking. They evaluate aspects of their own and German culture in the medium of the German language. Lecture 5 hours, laboratory ½ hour. **Prerequisite:** GERM 103 or equivalent. **Transfer Credit:** CSU, UC, USC  

105  
**CONVERSATIONAL GERMAN I**  
3.0 Units  
German 105 offers intensive practice in oral expression and comprehension of spoken German. Lecture 3 hours. **Prerequisite:** GERM 102 or equivalent. **Transfer Credit:** CSU, UC, USC  

110  
**BASIC CONVERSATIONAL GERMAN I**  
3.0 Units  
German 110 is an introduction to the German language with emphasis on developing essential skills in communication. The verbal active method used stresses oral expression. The course develops a working knowledge of reading and writing as well, and includes the use of tapes, cassettes, and films. **Note:** Not open to students who have oral proficiency or who have attended schools where German was the language of instruction. Lecture 3 hours. **Prerequisite:** None.  

**HEALTH**  

101  
**FIRST AID**  
1.0 Unit  
Health 101 covers prevention and cause of accidents or sudden illness. It meets the requirements of the American Red Cross for certification in Community First Aid and CPR. **Note:** Recommended for physical education majors. Lecture and skill practice 2 hours (8 weeks). **Prerequisite:** None. **Transfer Credit:** CSU, UC, USC
102 STANDARD FIRST AID AND CPR
2.0 Units
Health 102 covers the prevention and care of accidents or student illnesses. It meets the requirements of the American Red Cross for certification in Community First Aid and CPR. Note: Health 102 allows only 1 unit of credit for students who have completed Health 101 or Health 107 and no credit for those who have completed both Health 101 and Health 107. Lecture and skill practice 2 hours, laboratory 1 hour. Prerequisite: None. Transfer Credit: CSU, UC, USC

104 HEALTH EDUCATION
3.0 Units
Health 104 covers current issues in health and their effect upon the quality of human life. The course emphasizes the holistic approach to health and wellness and explores the latest concepts in nutrition, disease prevention, mental health and stress management, sexual relationships and lifestyles, drug use and abuse, and consumer and environmental health issues. Instruction focuses on individual responsibility for wellness, cultural diversity, and effective interpersonal communication. Note: No credit allowed for students who have completed Health 106 or Psychology 111. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

106 WOMEN’S HEALTH EDUCATION
3.0 Units
Health 106 explores the various dimensions of health as they relate to women. Topics explored include disease development, fitness and nutrition, substance abuse, reproductive health, and age-associated changes. A preventive care approach is taken for promotion of lifetime wellness and enhanced quality of life. Note: No credit allowed for students who have completed Health 104 or Psychology 111. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

107 CARDIO-PULMONARY RESUSCITATION
1.0 Unit
Health 107 is a course covering the lifesaving techniques of cardiac-pulmonary resuscitation and stresses mouth-to-mouth resuscitation, manual cardiac compression, first aid for obstructed airway, one and two-person CPR, and infant/child CPR. Lecture 2 hours (8 weeks). Prerequisite: None. Transfer Credit: CSU

109 DECISIONS IN CHILD HEALTH AND CRISIS
3.0 Units
Health 109 is a course which includes the fundamentals of basic anatomy and physiology of children, common childhood acute illness and injury, the emergency medical system, principles of emergency care of children, and safety and preventive techniques. The course enables the student to be aware of the day-to-day health care problems of children and the overwhelming complexity of today’s emergency medical services system. Those who are in contact with children on a regular basis learn to cope with day-to-day and emergency situations and are able to respond in the most appropriate manner upon completion of this course. Note: This course satisfies the First Aid requirement for graduation. Lecture 2½ hours, laboratory ½ hour. Prerequisite: None. Transfer Credit: CSU

110 PREVENTION AND CARE OF ATHLETIC INJURIES
2.0 Units
Health 110 is a course of in-depth examination of selected topics in sports medicine. The course provides a thorough knowledge of the prevention and care of injuries commonly occurring during physical activity. Lecture 2 hours, laboratory 1 hour. Prerequisite: None. Transfer Credit: CSU, UC, USC

111 EXERCISE PSYCHOLOGY
2.0 Units
Health 111 explores cognitive behavior modification techniques that may be used to promote the adoption of and adherence to a regular exercise routine. Theoretical methods are studied and applied to practical exercise programming situations. Factors directly affecting the decision to perform exercise, including external barriers and reinforcements and behavioral tendencies, are investigated. Lecture 2 hours. Prerequisite: None.

116 CAREERS FOR FITNESS LEADERS
(Formerly listed as P.E. 116)
1.0 Unit
Health 116 explores the employment and career opportunities available in the health/fitness industry. It teaches students tactics by which to promote themselves as fitness leaders in various sectors of the industry. Lecture 1 hour. Prerequisite: None.

117 APPLIED EXERCISE PHYSIOLOGY
(Formerly listed as P.E. 112 & 113)
4.0 Units
Health 117 examines how physiological functions of the human body change during exercise. Topics of discussion include cardio respiratory changes, training effect of the musculoskeletal system, energy production, fitness assessment, and the effect of ergogenic aids on exercise performance. All topics are discussed as they relate to practical exercise training. Hands-on laboratory exercises and assessments demonstrate how aspects of exercise physiology should be integrated into practical trainer/client work. Lecture 3 hours, laboratory 3 hours. Recommended preparation: BIOL 115 or equivalent.

118 TECHNIQUES FOR TEACHING GROUP AND PERSONAL FITNESS
(Formerly listed as P.E. 114 & 115)
4.0 Units
Health 118 provides students with an opportunity to learn to teach group fitness classes applying safe and effective instructional techniques and principles. Techniques include sequencing of exercise, proper execution of exercise, error correction, and clear communication in the classroom setting. Students are also given the opportunity to apply these techniques to personalized training situations. Lecture 3 hours, laboratory 3 hours. Recommended preparation: HLT 117.

128 NUTRITION FOR PHYSICAL FITNESS AND DISEASE PREVENTION
3.0 Units
Health 128 examines the relationship between nutrition, physical fitness and disease risk in various populations. The impact of food choices on body physiology is explored as it pertains to disease risk and exercise performance. The process of metabolism as a means toward energy production for physical activity and weight management is discussed. Other topics covered include specifics of nutrition labeling, eating disorders, body composition, fitness guidelines, and ergogenic aids. Lecture 3 hours. Recommended preparation: BIOL 115 or equivalent. Transfer Credit: CSU, UC, USC
HISTORY

101 HISTORY OF WESTERN EUROPE TO 1800
3.0 Units
History 101 studies the growth of western European civilization from the decline of the Roman Empire to the 17th Century. An introduction to the study of history, giving a general perspective of the development of those political, economic, and social institutions which explain our present-day civilization. An attempt is made to orient the student’s thinking to present world problems. Note: Students who have taken History 108 will receive only 1 unit of credit for History 101. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

102 HISTORY OF WESTERN EUROPE TO PRESENT
3.0 Units
History 102 studies the growth of western European civilization from the 17th Century to the present time. It is introduction to the study of history, giving a general perspective of the development of those political, economic, and social institutions which explain our present-day civilization. An attempt is made to orient the student’s thinking to present world problems. Note: Students who have taken History 109 will receive only 1 unit of credit for History 102. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

103 HISTORY OF EARLY LATIN AMERICA
3.0 Units
History 103 is a general survey of the history of Latin America from discovery to independence. The planting of the European civilization in Latin America, the growth of the different colonies, viceroyalties, supporting systems, the international contest for the continents, and the wars of independence in Latin America. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

104 HISTORY OF CONTEMPORARY LATIN AMERICA
3.0 Units
History 104 is a general survey of 19th and 20th century Latin American history. The course focuses on the political, economic and social development of Latin America. In addition, the course offers an historical review of U.S.-Latin America relations. The course is designed to acquaint the student with the area’s basic history so as to better appreciate and understand contemporary social and political change in Latin American societies. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

105 TWENTIETH CENTURY CENTRAL AMERICA AND THE CARIBBEAN
3.0 Units
History 105 is an introductory course focusing on the contemporary political, economic and social history in Central America and the Caribbean. The course stresses the 20th Century, with special attention given to the role and impact of United States policy in the region. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

106 HISTORY AND POLITICS OF THE RUSSIAN PEOPLE
3.0 Units
History 106 is a study of the political, social, economic and cultural development of the Russian people from earliest days to the contemporary period. Emphasis will be laid on the development of the modern Soviet ideology and power politics. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

107 HISTORY OF CIVILIZATION (Pre-History to 800)
3.0 Units
History 107 is a general political survey of the world from earliest times to the Carolingian Empire, c. 800, with emphasis on the development of human ideas, arts, and institutions. Emphasis is placed upon the contributions to civilization made in ancient times by Egypt, Greece, Rome, India, China, and other powers. An attempt is made to give the student a perspective on the past. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

108 HISTORY OF CIVILIZATION (Carolingian Empire to the French Revolution, c.1789)
3.0 Units
History 108 is a general political survey of the world from the Carolingian Empire, c. 800, to the French Revolution, c. 1789, with emphasis on the development of human ideas, arts, and institutions. The characteristics of the medieval and modern worlds are examined. The principles-cultural, social, economic, and political-which brought the modern world into being are analyzed. Note: Students who have taken History 101 will receive only one unit of credit for History 108. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

109 HISTORY OF CIVILIZATION (French Revolution to the Present)
3.0 Units
History 109 is a general political survey of the world from the French Revolution, c. 1789, to the present with emphasis on the development of human ideas, arts, and institutions. An attempt is made to give the student a perspective and a basis for interpreting current world events. Note: Students who have taken History 102 will receive only 1 unit of credit for History 109. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

110 UNITED STATES HISTORY
3.0 Units
History 110 is an introduction of the more meaningful and significant issues, events, and ideas which have played a major role in shaping present day America. Main attention is focused upon political and economic aspects with some treatment of social and cultural developments. This course meets the California State requirement in American History. Note: This course allows only 1 unit of credit for students who have completed History 117, 118, or Social Science 131. Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC
111 THE WOMAN IN AMERICAN HISTORY
3.0 Units
History 111 is a survey of the history of women in America from the colonial period to the present with emphasis on relevant political, economic, and social factors. Traditional roles of women in society are analyzed in terms of literary images, popular culture, and stereotypes. Attitudes and prejudices held by both sexes toward each other, reform movements, religious crusades, women's rights, and emancipation movements are examined in the context of American History. Note: This course allows only 1 unit of credit for students who have completed History 117, or Social Science 131 and no credit for those who have completed History 118. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

112 PACIFIC COAST HISTORY
3.0 Units
History 112 is a survey of the discovery, exploration, and settlement of Mexico, California, Oregon, Washington, British Columbia, and Alaska. Emphasis is placed upon the development of their particular political, economic, and cultural institutions, along with their relationships with each other and the rest of the world. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

113 HISTORY OF MEXICO
3.0 Units
History 113 is an in-depth study of the emergence of the Mexican institutions and traditions from Pre-Colombian societies to the present. The course is designed to meet the needs of the college student who wishes to understand the development of the modern Mexican nation. Modern Mexico and its development is the primary concern of this course. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

114 HISTORY OF BAJA CALIFORNIA
3.0 Units
History 114 is a survey of the prehistory, discovery, exploration, settlement, and modern development of the Baja California states of Mexico. Emphasis is placed on the development of their political, economic and cultural institutions. Their relationship with the United States, and California in particular, is analyzed in terms of their historical and present day experience. Note: Optional field trips to places of historical interest in the states of Baja California may be offered. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

115 REBELLIOUS WOMEN IN MODERN AMERICA
3.0 Units
History 115 investigates the legal, economic, political, and social issues surrounding the dramatic transformation of gender relations in contemporary society. Topics to be included are women's private lives (sexuality and reproductive roles, family roles, parenting), women's public roles (work, volunteerism, occupational segregation, education, religion), women's political roles (the gender gap, female leadership), and public policy that has affected women's private and public lives (welfare, affirmative action, child care legislation). The course focuses on leaders of the women's movement in the United States who worked to change laws, to open doors to new occupations, and to create, and influence new institutions, as well as old. Using biography, primary source documents, and socio-historical studies, the course begins by focusing on women in the 1940s, then moves forward into the Women's Movement of the 1950s, 1960s, and 1970s, and the conservative reactions to the movement in the 1980s and 1990s. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

116 ECONOMIC HISTORY OF THE UNITED STATES
(Also listed as Economics 111)
3.0 Units
History 116 is a history of the economic development of the United States from its settlement to the present. Emphasis is placed on the growth and development of economic institutions, slavery, reconstruction, work, the industrial revolution, workers' movement, and U.S. imperialism. This course meets the California State requirements in American History. Note: This course may not be taken for credit by students who have completed Economics 111. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

117 HISTORY OF THE UNITED STATES
3.0 Units
History 117 is a survey course that looks in depth at United States history from the colonial period to Reconstruction. The English colonies, the Revolutionary War, the Constitution, the New Nation, Jeffersonian and Jacksonian democracy, slavery, Civil War, and Reconstruction will all be examined. This course meets the California State requirements in United States history. Note: History 117 allows only 1 unit of credit for students who have completed History 110. History 117-118 allows only 3 units of credit for students who have completed History 110. Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

118 HISTORY OF THE UNITED STATES
3.0 Units
History 118 is a survey course that looks in depth at United States History from the Post-Reconstruction period to the present. The Gilded Age, Populism and Progressivism, Imperialism, the Great Depression and New Deal, World War II, the Cold War, Vietnam, Watergate, and the Reagan years will all be examined. This course meets the California State requirements in United States history. Note: History 118 allows only 1 unit of credit for students who have completed History 151 and 1 unit of credit for students who have completed History 110. Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

119 HISTORY OF THE FAR EAST
3.0 Units
History 119 is a general survey of East Asian civilization from antiquity through the nineteenth century. Primary emphasis is placed upon the political, religious, social, and economic development of China and Japan with some attention on Korea and Southeast Asia. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

120 HISTORY OF THE FAR EAST
3.0 Units
History 120 is a general survey of China, Japan, Korea, and Southeast Asia in the international community from the nineteenth century to the present. Primary emphasis is centered upon the impact of Western culture and the major political and social movements of the twentieth century, Nationalism and Communism. Lecture 3 hours. Recommended preparation: HIST 119 and eligibility for ENGL 101 Transfer Credit: CSU, UC, USC
121 ARMENIAN HISTORY
3.0 Units
History 121 is a survey of the history of the Armenian people from 1,000 B.C. to the present. Topics include: The Artashesian, Arshaguni, Bagratuni, and Cilician kingdoms, Armenia under the domination of Persian, Roman, Byzantine, Arab, Mongol, Turkish, and Russian empires, the religious, artistic and architectural dimensions of the Armenians' cultural heritage, the literary renaissance and emergence of the Armenian Question in the 19th century, World War I and the Armenian Genocide, the Republic of Armenia and international treaties up to 1923, and developments in Soviet Armenia from 1920 to the present. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

122 CALIFORNIA HISTORY
3.0 Units
History 122 is a survey of the discovery, exploration, and settlement of California. The emphasis is on the development of particular political, economic, and social institutions, along with California's relationships with the United States. Lecture 3 hours.

131 A HISTORY OF AFRICA SINCE 1800
3.0 Units
History 131 surveys the development of Africa from 1800 to the present. Themes to be covered include: colonization and under-development, neo-colonialism, nationalism and African independence movements. Case studies of individual African countries are used to analyze the various themes. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

132 HISTORY OF THE PHILIPPINES
3.0 Units
History 132 examines the geographical, cultural, and historical realities of the Philippines, from the Spanish colonial period to the present. Particular emphasis is given to past and present U.S.-Filipino relations and to the contemporary social, economic, and political situation in the Philippines. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

133 A HISTORY OF SCIENCE
3.0 Units
History 133 is a history of the notable scientific ideas and discoveries in Western civilization. It is a seminar, colloquial style discussion class that examines the forces in history that led to the development of the major scientific revolutions and thinkers that have shaped modern industrialized man and his culture. Some of the subjects and scientists studied include the philosophy of science, the scientific method, science and pseudoscience, how science interacts with other cultural elements, ancient science, magic and renaissance science, the Copernican Revolution, the Newtonian Revolution, the Darwinian Revolution, Pasteur and the medical revolution, and the Einsteinian Revolution. The course enhances the student's understanding of the present by a better understanding of the past. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

135 HISTORY OF THE VIETNAM WAR
3.0 Units
History 135 studies the background of U.S. involvement in Vietnam from the French occupation to the winding down of the war during the Nixon years. The course focuses on such matters as the historical and cultural realities of the situation, the gradual and growing U.S. commitment during the Eisenhower and Kennedy Administrations, and the height of the American build-up during the Johnson Presidency. An attempt is made to discuss the 'lessons' of Vietnam and major unresolved issues deriving from the war. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

136 WAR: HISTORY, CAUSES, SOLUTIONS (Also listed as Social Science 136)
3.0 Units
History 136 explores the history, causes, and potential solutions to the problem of war. The history of individual wars is examined within a broader picture of war in general, including ancient warfare, the Middle Passage, the rise of modern war, and the development of total war. An interdisciplinary approach is taken in exploring the immediate causes of war, including historical, economic, political, anthropological, sociological, and psychological causes. The course probes moral and philosophical aspects for the ultimate causes of war. Finally, solutions are considered including diplomacy, treaties, the United Nations, a one-world government, and the dismantling of nation-states. Note: This course may not be taken for credit by students who have completed Social Science 136. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

150 UNITED STATES HISTORY AND ITS ARTISTIC EXPRESSION
3.0 Units
History 150 examines the political, social, and cultural or artistic history of the United States from the Colonial Era through the present. Special emphasis will be given to those epochs in which the ideas and institutions of ‘We the people of the United States’ were brought forth and matured and to the artistic expressions of the birth and growth of the nation. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

151 THE U.S. IN THE TWENTIETH CENTURY
3.0 Units
History 151 analyzes the political, economic, and social history of the United States since 1900. Special emphasis is placed on the post-World War II period. Current issues are stressed with their historical background. Note: This course allows only 1 unit of credit for students who have completed History 118. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

152 RADICALS AND REBELS: SOCIAL PROTEST IN THE 1960’S
3.0 Units
History 152 introduces students to the history of protest movements in the 1960’s, focusing on the period 1954 to 1974. Students will learn about the social conditions that gave rise to protest movements, the goals, internal dynamics, leadership, strategy and tactics used by these movements, and the impact the various protest movements had on the society within which they existed. Particular emphasis will be placed on an examination of the civil rights movement, the student movement, the anti-Vietnam War movement, the minority empowerment movements, the women's movement, and the counter-culture. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

HOSPITALITY AND TOURISM MANAGEMENT

115 INTRODUCTION TO HOSPITALITY (Formerly listed as HRM 115)
3.0 Units
HTM 115 promotes the opportunity to evaluate occupational needs in the hospitality industry through study and field experience. Local, private, as well as national food service, lodging, and transportation businesses are explored. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU
117 FOOD, BEVERAGE, AND LABOR COST CONTROL
(Formerly listed as HRM 117)
3.0 Units
HTM 117 is an analysis of menu planning procedures: Inventories, costs, profit and loss sheets, menu work sheets, and weight and measures in quality recipes. Students learn to prepare weekly, monthly, and annual reports and determine food cost per meal, labor cost per meal, operational and total cost per meal. Lecture 2 hours, lab 3 hours. Prerequisite: None. Transfer Credit: CSU

120 INTRODUCTION TO TRAVEL/TOURISM
3.0 Units
HTM 120 examines tourism as a developing industry. Topics include travel modes, organizations, laws, and socio-economic impact. Also included is a comprehensive study of travel management, principles, practices, philosophies, and systems. Lecture 3 hours. Prerequisite: None.

201 RESTAURANT MANAGEMENT
(Formerly listed as HRM 201)
3.0 Units
HTM 201 covers the principles of operating a food service which are common to all types of commercial and industrial food service. The course covers such areas as sales promotion, advertising, personnel, legal aspects, insurance, labor management relations. Lecture 3 hours. Prerequisite: None.

203 CATERING AND BANQUET OPERATIONS
3.0 Units
HTM 203 introduces the hospitality student to the hands-on mechanics of catering and banquet services in the hospitality industry and provides a checklist of details, tips, and ideas on properly managing a banquet event. Additional emphasis is placed on the management of on-premise and off-premise catering events. Lecture 2 hours, lab 3 hours. Prerequisite: None.

205 EVENT PLANNING & MEETING MANAGEMENT
4.0 Units
HTM 205 presents sound principles and practices in the growing field of event planning and meeting management. Students will learn how to plan and organize events, meetings, conferences, and conventions. This course prepares students for employment opportunities with trade and professional associations, consulting firms, non-profit organizations, and corporations. Lecture 3 hours, laboratory 3 hours. Recommended preparation: HTM 203 or equivalent. Transfer Credit: CSU

207 DINING ROOM SERVICES
(Formerly listed as HRM 207)
3.0 Units
HTM 207 is an introduction and application of the principles of preparing food sales and presenting service at special events and functions within the scope of the hospitality industry such as teas, receptions, weddings and banquet. The course covers the management of a dining room including good housekeeping techniques, fine food, and efficient service. Types of dining service included are: waited table service (French, Russian, American, English), limited service, counter, tray service, catering, and vending. Lecture 2 hours, lab 4 hours. Prerequisite: None.

214 BEVERAGE AND BAR OPERATIONS
(Formerly listed as HRM 214)
3.0 Units
HTM 214 is an overview of the beverage industry with emphasis on the identification, use, and service of alcoholic beverages. There is an in-depth analysis of the various elements of beverage operations including purchasing, cost control, marketing, and management as well as an understanding of the history of each type of white and brown alcoholic spirits. There is an additional emphasis on researching the current trends in the beverage industry, e.g.: smoothie concepts, juice bars, coffee and tea bars, etc. Lecture 2 hours, lab 3 hours. Prerequisite: None.

216 WINE SELECTION AND PRESENTATION
(Formerly listed as HRM 216)
3.0 Units
HTM 216 covers all aspects of wine production including, but not limited to, the production of wine, wine cellar organization, characteristics of the most popular wine varieties, matching wine with food, wines from numerous countries, and wine tasting techniques. This course includes wine tasting and a field trip to a winery. Lecture 3 hours. Prerequisite: Students must be at least 21 years of age and possess a valid form of picture identification to verify age.

220 FRONT OFFICE OPERATIONS
3.0 Units
HTM 220 provides instruction and procedures in the front-office operation of a hospitality lodging enterprise. Emphasis is placed on the following aspects: public and employee relations, guest accommodations/reservations, forecasting, office routines and reports, machine operation, room rates, and the application of computer programs. Lecture 3 hours. Prerequisite: None.

221 HOUSEKEEPING MANAGEMENT OPERATIONS
3.0 Units
HTM 221 acquaints the student with housekeeping duties as they pertain to rooms and accommodations in a hotel or motel. The course focuses on the comfort of guests as a priority concern. Emphasis is placed on effective communication between housekeeping, front office and engineering/maintenance. Students receive instruction in report writing. Lecture 3 hours. Prerequisite: None.

222 INTRODUCTION TO HOTEL AND RESORT OPERATIONS
3.0 Units
HTM 222 is an introduction to the operating systems and components of a hotel-resort facility, which includes front office, housekeeping, food and beverage, sales and marketing, accounting, property maintenance, human resources management and information systems. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

230 HOSPITALITY LAW
3.0 Units
HTM 230 covers business related torts, real and personal property, and contracts, with an emphasis on hotels, restaurants, resorts and associated businesses. The duties of innkeepers, food and beverage liability, truth in advertising, and management responsibility to employees are also studied. Lecture 3 hours. Prerequisite: HTM 115 or equivalent. Transfer Credit: CSU

256 MANAGEMENT OF HOSPITALITY PERSONNEL OPERATIONS
3.0 Units
HTM 256 covers management skills for students pursuing a career in supervision within the restaurant/hospitality industry. It includes the application of basic management concepts and techniques necessary in achieving objectives in the management of human resources. Using case studies, students analyze the hospitality workplace, management responsibilities in coaching, training, and providing employee feedback. Decision making and leadership development is also discussed. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU
HUMANITIES

101
EAST/WEST: CULTURE AND CIVILIZATION TO 1700
3.0 Units

Humanities 101 is an interdisciplinary, multicultural, team-taught course that examines the historic push and pull of eastern and western civilizations from primitive times until 1700. Important themes, events, and discoveries linking east and west are shown through literature, folklore, art history, philosophy, and science. Students compare and contrast eastern and western views of time and eternity, standards of excellence, decadence and decline, motives, manners, and morals, and problems of extremes as they explore some of the most compelling problems, questions, and issues faced by humans of both hemispheres. The course centers on critical thinking, students are challenged to analyze, synthesize, and propose original ideas through the media of reading, discussion, and writing. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

102
EAST/WEST: CULTURE AND CIVILIZATION FROM 1700
3.0 Units

Humanities 102 is an interdisciplinary, multicultural, team-taught course that examines the historic push and pull of eastern and western civilizations from 1700 until the present. Important themes, events, and discoveries linking east and west are shown through literature, folklore, art history, philosophy, and science. Students compare and contrast eastern and western views of science and reason, romanticism, skepticism, and pessimism, the gradual change of traditional morals, manners, means and measures, the concept of relativity, and the quantum leap into contemporary thought as they explore some of the most compelling problems, questions, and issues faced by humans of both hemispheres. The course centers on critical thinking, students are challenged to analyze, synthesize, and propose original ideas through the media of reading, discussion, and writing. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

105
THE HUMAN STRUGGLE
3.0 Units

Humanities 105 is an interdisciplinary, intercultural course designed to challenge students to further develop critical reading, writing, and thinking abilities through comparative study of materials from literature and various disciplines. Students evaluate some of the most relevant issues faced by people of the United States and other cultures throughout history, with emphasis on values and ethics. The course examines the creative impulses and destructive forces that have influenced the human struggle for order, acceptance, knowledge, understanding, self expression, power, freedom, individuality and survival. Students improve their abilities to analyze, synthesize, develop original ideas, distinguish fact from opinion or belief, and use logic and reason in language and thought to determine whether the solutions of the past are compatible with the problems of today and tomorrow. Writing instruction focuses on improving advanced composition skills. The course may be team-taught. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

105H
HONORS THE HUMAN STRUGGLE
3.0 Units

Humanities 105H is an interdisciplinary, intercultural course designed to challenge students to further develop critical reading, writing, and thinking abilities through comparative study of materials from literature and various disciplines. Students evaluate some of the most relevant issues faced by people of the United States and other cultures throughout history, with emphasis on values and ethics. The course examines the creative impulses and destructive forces that have influenced the human struggle for order, acceptance, knowledge, understanding, self expression, power, freedom, individuality and survival. Students improve their abilities to analyze, synthesize, develop original ideas, distinguish fact from opinion or belief, and use logic and reason in language and thought to determine whether the solutions of the past are compatible with the problems of today and tomorrow. Writing instruction focuses on improving advanced composition skills. The course may be team-taught. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

106
MODERN SOCIETY IN ITS MILIEUX
3.0 Units

Humanities 106 is an interdisciplinary, team-taught, cross-cultural course emphasizing foreign literatures in translation. Students are encouraged to read, think, discuss and write critically in dealing with some important concerns of modern times as interpreted by different societies. Students do comparative analyses of literature from various countries in their historical, political, and social contexts. The linguistic style of each foreign language is stressed. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

110
SCIENCE, LITERATURE, AND HUMAN INSIGHT
3.0 Units

Humanities 110 is an interdisciplinary, intercultural team-taught course in which students further apply the principles of critical thinking and comparative analysis in order to better understand the relationships among literature, science, and technology. Through directed reading, class discussion, and writing, students continue to develop logical thought processes enabling them to reason inductively and deductively, to distinguish fact from judgment, to examine evidence and credibility of sources, to propose new ideas, and to reach logical conclusions. Through their study of literature, students learn about human values, behavior and motivations, through their study of scientific and technological achievements, they learn about the methods and limitations of science. Major historical and contemporary themes linking science and literature are presented for evaluation. Writing instruction focuses on improving advanced composition skills. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC
111
IRISH HISTORY, LITERATURE, AND CULTURE FROM THE BEGINNING TO THE PRESENT
3.0 Units

Humanities 111 is a broad-based, interdisciplinary team-taught course that covers the entire history of Ireland: its mythology, folklore, art, music, literature, and major political events. The course also focuses on the impact of Irish culture on England, Europe, Spain, Canada, and the United States through the centuries. Through assigned readings, discussions, and writing, the students gain critical insights into the causes and consequences of Ireland’s turbulent history and struggle for independence as well as its literary and sociopolitical contributions to world culture and civilization. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

115
WORLD MYTHOLOGY
3.0 Units

Humanities 115 is an interdisciplinary course in which students analyze ancient myths in the context of the cultures from which they arose. It provides a basis for increased understanding of art forms from all over the world, including literature, painting, sculpture, and architecture. Students explore the role myths play in answering the ultimate questions of human life and in expressing the values of the societies which developed and/or perpetuated the stories. Students see the impact of psychology, oral transmission, and environment (social, geopolitical, and economic) on belief systems. Most importantly, students relate myths to questions and issues of the present day, relevant to their own lives and the lives of those with whom they share the country and the planet. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

117
CREATIVITY, CULTURE, AND SOCIETY: KALEIDOSCOPE
3.0 Units

Humanities 117 is an interdisciplinary, team-taught course focusing on literature, drama, dance, and film and examining their relationships with other areas of college study. The course recognizes that, like the pieces in a kaleidoscope, individual art works and art forms are only components of larger patterns. As students compare and contrast works from various cultures and times, they are encouraged to read, think, discuss, and write critically about the interaction among artist, society, and work of art. Students explore the creative process and ask what has led to, as well as what results from, works of art. Students learn to analyze, synthesize, draw inferences, propose new ideas, support theses, reach logical conclusions, and become active participants in the artistic process. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

120
LITERATURE AND THE CULTURAL ARTS
3.0 Units

Humanities 120 is an interdisciplinary course that focuses on the interrelationships of literature and the cultural arts (architecture, music, painting, and sculpture), with emphasis on the literature, to show not only their independence but also their synthesis. Through critical reading, discussion, and writing, students analyze the influences of each genre upon the creative impulses of the others. Humanities 120 examines literary and cultural achievements, developments, and values in the major periods of western history that served as a foundation for modern thought and letters. The course may be team taught. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

125
CROSSCURRENTS: AMERICAN SOCIAL VALUES
3.0 Units

Humanities 125 is an interdisciplinary course designed to enrich students’ knowledge and understanding of the cultural influences of ethnic, racial and gender diversity in the shaping of American society—past and present—and to enable them to speculate critically on American society in the future. Students analyze materials from literature, history, and other disciplines. The course explores the development and current reality of commonly held American ideals, attitudes and institutions and their role in the unique balance between freedom and responsibility. Students are encouraged to develop their critical thinking skills through reading, writing, and discussion. This course may be interactively team-taught. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

130
THE INDIVIDUAL, THE GROUP, AND THE ORGANIZATION
3.0 Units

Humanities 130 is an interdisciplinary, team taught, intercultural course that emphasizes personal and global issues, problems, and patterns of communication in the work environment as they apply to individual workers, groups and organizations. Students develop critical reading, writing, and thinking skills by analyzing and discussing an international array of essays, works of fiction, plays, poems, songs, and films concerning work, and by engaging in individual and collaborative activities designed to pose ethical and decision-making problems. Writing instruction focuses on improving composition skills. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU
135
HUMANITIES & THE WORLD OF WORK
3.0 Units

Humanities 135 is an interdisciplinary course that combines instruction in fiction and nonfiction, film, ethics, problem solving, and decision making to help students examine today's multicultural society and workplace and develop values that may influence their personal and professional growth throughout their lives. Students analyze and discuss contemporary issues, problems and trends, and become familiar with the history of discrimination on the basis of color, ethnicity, gender, and sexual orientation and the impact of this discrimination on educational opportunities, career choice, and employability. Students participate in group and individual activities designed to develop and reinforce analytical skills. They also keep journals in which they react to assignments and class presentations. Critical analysis of course materials helps students learn to deal with a variety of situation and tasks they may encounter in their career fields. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151.

INDEPENDENT STUDIES

49
INDEPENDENT STUDIES
1.0 to 3.0 Units

GCC may make available in the curriculum of each division, lower division units of study, known as Independent Study. The purpose of the Independent Study course is to provide gifted students with an opportunity to explore a subject in greater depth than usual, to familiarize students with some basic research techniques, to interest students in possible career areas, and to take advantage of special academic interests. Emphasis shall be on individual research projects, library research and preparation of research papers. There is no prescribed course outline. Students develop a research project, have it approved by the sponsoring instructor and appropriate division chairperson, then submit the finished project, which may be library research, or perhaps a supervised experimental program related to a specific course of instruction. This course may be offered in all disciplines. Registration is open to any student at GCC who is currently registered for 6 or more units and who is admitted to Independent Study by the instructor. A student is limited to one Independent Study per semester and no more than 12 units credit toward the AA Degree or Certificate, and no more than 6 units per division. The units received may be acceptable for college transfer subject to the approval of the individual college. The instructor shall make arrangements for students' Independent Study registration with the Admissions Office. Attendance accounting procedures shall be cleared with the Admissions and Records Office by the instructor. Prerequisite: Concurrent registration in 6 or more units. Transfer Credit: CSU

101
VOLUNTEER SERVICE
1.0 to 3.0 Units

Independent Study 101 is an independent study course based on a cooperative effort between the student, a volunteering faculty member, and a community-based organization to provide real-world experience in a field of interest while at the same time filling a need in the community. Laboratory 3 to 9 hours. Prerequisite: Concurrent registration in 6 or more units. Recommended preparation: Eligibility for ENGL 120 or ESL 151 or BUSAD 106. This course is designed for students who have previously completed a course with a service-learning component.

INDUSTRIAL TECHNOLOGY

155
VERDUGO POWER ACADEMY
17.0 Units

Industrial Technology 155 produces candidates for an Electrical Line Mechanic (ELM) training program. Development of basic skills needed to be successful trainees will be emphasized. These skills include: overall safety considerations, power pole climbing skills, knowledge of the basic tools and materials involved with the electrical theory that is specific to this trade. A 175 hour power pole-climbing certificate of completion is granted to students who successfully complete this course. Lecture 7 hours, lab 30½ hours. Prerequisite: None.

156
AUTOMATED METER INFRASTRUCTURE / SMART GRID
4.0 Units

Industrial Technology 156 is an introduction to Automated Meter Infrastructure (AMI)/Smart Grid technology. This includes increased use of information controls, optimization of grid operations and resources, and use of distributed resources and renewable energy. Additionally included is the development and integration of demand response, energy efficient resources, smart metering, transfer of information to consumers and standards for the communication and interoperability of appliances and equipment connected to the electric grid. Lecture 3 hours, lab 3 hours. Prerequisite: None.

160
WIND TURBINE TECHNICIAN TRAINING
3.0 Units

Industrial Technology 160 introduces the industrial technology student to wind turbine mechanical related systems and their foundation; PLC (Programmable Logic Controllers) and control algorithms; turbine maintenance procedures; rotor construction, installation and airfoils; and SCADA (Supervisory Control and Data Acquisition) systems. Lecture 3 hours, lab 1 hour. Prerequisite: None.
INTERDISCIPLINARY STUDIES
110 RESPONSES TO POVERTY
3.0 Units
Interdisciplinary Studies 110 is an introduction to the causes and immediate effects of poverty as it exists today. This course examines poverty within the context of cultural, economical, political, psychological and social forces. Consequences of poverty in other countries are also considered. Theories and practical means to address poverty will be considered and analyzed. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

INTERNATIONAL FIELD STUDIES
48 INTERNATIONAL FIELD STUDIES
1.0 to 3.0 Units
International Field Studies provides college credit for travel and study in foreign countries at the student's own expense in programs approved by agencies approved in advance by the College and under the direction of a Glendale Community College instructor. This course may be offered in all disciplines. Note: Each repetition must be in a different country and/or area of the world. Lecture 1 to 3 hours, lab 3 to 9 hours. Prerequisite: None. Transfer Credit: CSU

INTERNSHIP
50 INTERNSHIP
1.0 to 3.0 Units
Internship is a self-motivated course which allows students to earn from 1-3 units for structured supervised work off campus under supervision of a faculty advisor. It is designed to provide students with appropriate preparation, a hands-on discipline-linked work experience that will extend their knowledge and understanding of career demands in a field. This course may be offered in all disciplines. Note: Students must arrange an approved internship prior to enrolling in this class. Lecture 1/2 hour, lab 3 to 9 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

ITALIAN
101 BEGINNING ITALIAN I
5.0 Units
Italian 101 teaches the fundamentals of Italian grammar. Students are trained to pronounce Italian correctly, to acquire a small working vocabulary, which they use in conversation and writing, and to read simple Italian. Note: This course is not intended for students with oral proficiency or who have attended schools where Italian was the language of instruction. Lecture 5 hours, laboratory 1/2 hour. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

102 BEGINNING ITALIAN II
5.0 Units
Italian 102 continues to present the fundamentals of Italian grammar. It trains further in correct pronunciation, and presents more difficult elementary prose. The discussions in Italian will stress correct use of verbs and idioms and efficient methods of vocabulary building. Lecture 5 hours, laboratory 1/2 hour. Prerequisite: ITAL 101 or equivalent. Transfer Credit: CSU, UC, USC

103 INTERMEDIATE ITALIAN I
5.0 Units
Italian 103 includes further study of Italian grammar. The aim of the course is to train students in reading comprehension of intermediate prose with stress on documentary aspects of Italian life, character analysis, and the study of ideas. Oral and written discussions will be stressed. Note: This course is offered during the Fall semester only. Lecture 5 hours, laboratory 1/2 hour. Prerequisite: ITAL 102 or equivalent. Transfer Credit: CSU, UC, USC

104 INTERMEDIATE ITALIAN II
5.0 Units
Italian 104 completes the review of the fundamentals of grammar. The aim of the course is to train students in reading intermediate prose of increasing difficulty with stress on the study of ideas. The training also includes oral discussion and written exposition. Note: This course is offered during the Spring semester only. Lecture 5 hours, laboratory 1/2 hour. Prerequisite: ITAL 103 or equivalent. Transfer Credit: CSU, UC, USC

110 BASIC CONVERSATIONAL ITALIAN I
3.0 Units
Italian 110 is an introduction to Italian with emphasis on developing essential skills in communication. The verbal active method is used, stressing oral expression. The course also develops a working knowledge of reading and writing Italian. Note: Not open to students who have oral proficiency or who have attended schools where Italian was the language of instruction. Lecture 3 hours. Prerequisite: None.

111 BASIC CONVERSATIONAL ITALIAN II
3.0 Units
Italian 111 is a continuation of the study of Italian as a conversational language with emphasis on lifelike situations. Attention is given to essential grammar principles and cultural information. Note: This course may be taken twice, a maximum of 6 units may be earned. This course may not be taken for credit by students who have taken Italian 102 prior to Italian 111, or who take Italian 102 concurrently with Italian 111. Lecture 3 hours. Prerequisite: ITAL 110 or equivalent.

130 ITALIAN CULTURE AND CIVILIZATION THROUGH CINEMA
3.0 Units
Italian 130 analyzes the social, economic, religious and political evolution of Italian culture as seen through Italian cinema from the beginning of the 20th century to the present. Lecture 3 hours. Prerequisite: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

JAPANESE
101 BEGINNING JAPANESE I
5.0 Units
Japanese 101 presents the fundamentals of Japanese grammar. The students are trained to pronounce correctly, to acquire a small working vocabulary for conversation and writing, and to read and write both hiragana and katakana (native Japanese alphabets.) Note: This course is not intended for students with oral proficiency or who have attended schools where Japanese was the language of instruction. Lecture 5 hours, laboratory 1/2 hour. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC
102 BEGINNING JAPANESE II
5.0 Units
Japanese 102 continues to present the fundamentals of Japanese grammar. It trains further in correct pronunciation, and presents kanji (Chinese characters). Discussions in Japanese will stress verb forms and vocabulary building. Lecture 5 hours, laboratory ½ hour. Prerequisite: JAPAN 101 or equivalent. Transfer Credit: CSU, UC, USC

103 INTERMEDIATE JAPANESE I
5.0 Units
Japanese 103 continues the study of Japanese grammar and vocabulary and begins the study of short narrative writings. Conversational fluency, composition writing and familiarity with Japanese culture are the focus of this class. Emphasis will be placed on the customs, culture and institutions of the Japanese people. Note: This course is offered during the Fall semester only. Lecture 5 hours, laboratory ½ hour. Prerequisite: JAPAN 102 or equivalent. Transfer Credit: CSU, UC, USC

104 INTERMEDIATE JAPANESE II
5.0 Units
Japanese 104 completes the study of Japanese grammar and vocabulary and continues the study of short narrative writings. Conversational fluency, composition writing and increased familiarity with Japanese culture are the focus of this class. Emphasis will be placed on the customs, culture, and institutions of the Japanese people. Note: This course is offered during the Spring semester only. Lecture 5 hours, laboratory ½ hour. Prerequisite: JAPAN 103 or equivalent. Transfer Credit: CSU, UC, USC

110 BASIC CONVERSATIONAL JAPANESE I
3.0 Units
Japanese 110 is an introduction to the Japanese language with emphasis on developing essential skills in communication. The verbal active method used stresses oral expression. This course also develops a working knowledge of reading and writing and includes the use of cassettes and films. Note: Not open to students with oral proficiency or who have attended schools where Japanese was the language of instruction. Lecture 3 hours. Prerequisite: None.

111 BASIC CONVERSATIONAL JAPANESE II
3.0 Units
Japanese 111 is a continuation of basic conversational Japanese. It teaches the students to communicate on a more advanced level and provides them with the ability to read and write for further study. Classroom activities emphasize oral expression. Reading and writing are introduced on a limited basis. Lecture 3 hours. Prerequisite: JAPAN 110 or equivalent.

101 INTRODUCTION TO MASS COMMUNICATIONS
3.0 Units
Journalism 101 is an introductory course exploring the history, institutions, and social impact of mass communication media, including print, photography, recordings, film, television, computers, and the role of advertising and public relations. The course is taught from a perspective of theories of persuasion, the symbolic power of images, and the relationship between information and knowledge. Special attention is given to the impact of these media on how we live and believe as individuals and as a society. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

102 REPORTING THE NEWS
3.0 Units
Journalism 102 is an introductory course in the gathering and writing news, features, and editorials. Emphasis is on clear and concise written expression with laboratory drill in English fundamentals. Study of news sources, acceptable forms for stories, style and methods of various media, elementary editing, and law and ethics of communication. Newspapers and other media at the local community level as well as the national metropolitan levels are utilized. Lecture 3 hours, lab 1 hour. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU

103 STUDENT PUBLICATIONS STAFF
3.0 Units
Journalism 103 is a course in writing news, feature, and editorial copy, copy reading and editing, headline writing, newspaper layout and make-up and the mechanics of newspaper production. Study of law and ethics of the press and over-all emphasis on the function and responsibility of the newspaper. Second semester stress is on interpretative reporting. Class produces the campus newspaper El Vaquero. Lecture 2 hours, lab 4 hours. Prerequisite: JOURN 102 or equivalent. Transfer Credit: CSU

104 STUDENT PUBLICATIONS EDITOR
3.0 Units
Journalism 104 is an advanced course in writing news, feature, and editorial copy, copy reading and editing, headline writing, newspaper layout and makeup, and the mechanics of newspaper production. Study of law and ethics of the press and over-all emphasis on the function and responsibility of the newspaper. Second semester stress is on interpretative reporting. Class produces the campus newspaper El Vaquero. Note: An interview and instructor consent may be required. This course may be taken 2 times, a maximum of 6 units may be earned. Lecture 2 hours, lab 4 hours. Prerequisite: JOURN 103 or equivalent. Transfer Credit: CSU

106 INTRODUCTION TO BROADCAST JOURNALISM I
3.0 Units
Journalism 106 covers the process of gathering, writing, editing, and presenting the news on radio and television. Particular emphasis is placed on writing for broadcast, news judgment, visual considerations versus sound, interviewing techniques, ethics, scripting, and news organizations infrastructure. Note: This course is offered during the fall semester only. Lecture 3 hours, lab 1 hour. Prerequisite: None. Transfer Credit: CSU

107 MAGAZINE WRITING
3.0 Units
Journalism 107 focuses on feature writing for magazines and newspapers. Students learn how to find feature ideas and develop them into articles for student or professional publications. The creative story-telling side of journalism is stressed. The free-lance market for feature writers is discussed. Note: This course is offered during the spring semester only. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU
110 PHOTOJOURNALISM
3.0 Units
Journalism 110 provides instruction in techniques for producing photos for news and feature articles. Students learn effective ways to take photos to accompany articles, as well as to use photos to tell a story of their own. Both conventional and digital photography is used. Lecture 2 hours, lab 4 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU

116 INTRODUCTION TO BROADCAST JOURNALISM II
3.0 Units
Journalism 116 continues to develop the process of gathering, writing, editing, and presenting the news on radio and television. This course involves practical application of the skills. Students produce, report, and anchor a news segment for cable broadcast. In addition, they will produce and host a half-hour magazine format show for cable broadcast. Emphasis is placed on writing for broadcast, new judgment, visual versus sound considerations, interviewing techniques, ethics, scripting, and new organizations’ infrastructure. Students will also be introduced to various radio formats and perform on the campus radio station. Lecture 3 hours, lab 1 hour. Prerequisite: JOURN 106 or equivalent.

210 ADVANCED NEWS WRITING
3.0 Units
Journalism 210 emphasizes public affairs reporting. Students will cover public meetings both on and off campus, including trials, school board meetings, and city council meetings. They will also contribute to the college newspaper, El Vaquero. The emphasis is on print journalism, but students will also be exposed to broadcasting, the Internet, and podcasting. Emphasis will be given to journalistic law and ethics. Lecture 3 hours, lab 1 hour. Prerequisite: JOURN 102 or equivalent.

250 VISUAL COMMUNICATION
3.0 Units
Journalism 250 surveys the techniques and examples of visual communication employed in the mass media, including newspapers, magazines, television, the Internet, and advertising. It is designed to lead students to an understanding of the possibilities of visual communication in the mass media. Designed to both show students how the media use images and how they might incorporate visual images into their own work, the course will expose students to both practitioners and scholars in the field. This class will expose students to images and theories of use of images and encourage them to develop their critical thinking skills by learning the language and theory of the disciplines. Lecture 3 hours, lab 1 hour. Prerequisite: JOURN 102 or equivalent. Transfer Credit: CSU

KOREAN

101 BEGINNING KOREAN I
5.0 Units
Korean 101 teaches the fundamentals of Korean grammar. Students are trained to pronounce Korean correctly, to acquire a small working vocabulary which they use in conversation and writing, and to read and write in the native Korean alphabet. Note: This course is not intended for students with oral proficiency or who have attended schools where Korean was the language of instruction. Lecture 5 hours, laboratory ½ hour. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

102 BEGINNING KOREAN II
5.0 Units
Korean 102 continues to present the fundamentals of Korean grammar. Students are trained to pronounce Korean correctly, to acquire a small working vocabulary which they use in conversation and writing, and to read and write in the native Korean alphabet. Lecture 5 hours, laboratory ½ hour. Prerequisite: KOREA 101 or equivalent. Transfer Credit: CSU, UC, USC

103 INTERMEDIATE KOREAN I
5.0 Units
Korean 103 includes further study of Korean grammar and idioms, intensive and extensive reading in contemporary Korean, and written compositions in Korean. This class is conducted entirely in Korean. Note: This course is offered during the Fall semester only. Lecture 5 hours, laboratory ½ hour. Prerequisite: KOREA 102 or equivalent. Transfer Credit: CSU, UC, USC

104 INTERMEDIATE KOREAN II
5.0 Units
Korean 104 is a continuation of Korean 103 at the intermediate reading level, with an increased emphasis on composition and conversation in contemporary Korean society. The course includes further study of Korean grammar and idioms, intensive and extensive reading in modern Korean, and written compositions in Korean. This class is conducted entirely in Korean. Lecture 5 hours, laboratory ½ hour. Prerequisite: KOREA 103 or equivalent. Transfer Credit: CSU, UC, USC

110 BASIC CONVERSATIONAL KOREAN I
3.0 Units
Korean 110 is an introduction to the Korean language with emphasis on developing essential skills in communication. The verbal active method used stresses oral expression. This course also develops a working knowledge of reading and writing. Note: Not open to students who have oral proficiency or who have attended schools where Korean was the language of instruction. Lecture 3 hours. Prerequisite: None.

111 BASIC CONVERSATIONAL KOREAN II
3.0 Units
Korean 111 is a continuation of Korean 110. It teaches the students to communicate on an advanced level and provides them with the ability to read and write for further study. Classroom activities emphasize conversational repetition and oral expression. Reading and writing will be introduced on a limited basis. Lecture 3 hours. Prerequisite: KOREA 110 or equivalent.

115 KOREAN FOR THE KOREAN SPEAKING I
5.0 Units
Korean 115 provides intensive training in oral and written Korean for students who have familiarity with the language but little or no formal instruction in it. Structure of the language, basic grammar, oral communication, spelling rules, vocabulary, and composition are included. Note: students who have completed Korean 101 may not take this course for credit. Students with oral proficiency or who have attended schools where Korean was the language of instruction should enroll in Korean 115. Lecture 5 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC
116 KOREAN FOR THE KOREAN SPEAKING II
5.0 Units
Korean 116 is a continuation of Korean 115. Emphasis is placed on reading comprehension, composition, oral communication, spelling rules, intensive vocabulary, and a more advanced study of the structure of the language. Note: Students who have completed Korean 102 may not take this course for credit. Lecture 5 hours. Prerequisite: KOREA 115 or equivalent. Transfer Credit: CSU, UC, USC

LIBRARY

101 INTRODUCTION TO INFORMATION RESOURCES & RESEARCH METHODS
2.0 Units
Library 101 introduces methods of contemporary research through the use of online databases and the Internet, as well as traditional print materials. Collaborative efforts lead to well-researched and accurately documented term paper presentations. Note: No credit will be given to students who have completed Library 191 prior to Library 101. Students completing both Library 101 and Library 191 will receive a maximum of two units for both classes. Lecture 1½ hours, laboratory 1½ hours. Prerequisite: None. Transfer Credit: CSU, UC

191 INTRODUCTION TO INFORMATION COMPETENCY
2.0 Units
Library 191 is designed to teach and strengthen lifelong research and information literacy skills by introducing students to the nature of research and the role of the library in the research process. Students learn the core concepts of information retrieval and essential techniques for finding, analyzing, organizing, and presenting information. The topics to be covered include: understanding call numbers; utilizing online catalogs to locate books and other library resources; expanding knowledge of reference materials; developing research strategies; exercising critical thinking to evaluate information; applying critical and technical skills to periodical and online databases; understanding bibliographic citation formats and the role annotations play in the evaluation and research process; and using the Internet as a research tool. Lecture /Demonstration 2 hours. Prerequisite: None. Transfer Credit: CSU, UC

LINGUISTICS

101 INTRODUCTION TO LANGUAGE AND LINGUISTICS
3.0 Units
Linguistics 101 provides an introduction to the scientific study of language. The course provides examples from different languages and linguistic communities in order to determine the basic nature of human languages and the extent to which languages may differ. Linguistic concepts are introduced and discussed to encourage critical thinking as a way to understand language as a biological and social phenomenon. Areas of study include but are not limited to: phonetics, phonology, morphology, syntax, semantics, pragmatics, language acquisition, neurolinguistics, and sociolinguistics. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

MACHINE TECHNOLOGY

101 MACHINE TECHNOLOGY I
3.0 Units
Machine Technology 101 covers the fundamentals of the machinist trade. Instructions on the proper care and use of precision equipment are also included. Basic training utilizing lathes, milling machines, drill presses and grinders is emphasized. Lecture 1 hour, lab 6 hours. Prerequisite: None. Transfer Credit: CSU

102 MACHINE TECHNOLOGY II
5.0 Units
Machine Technology 102 is a continuation of the fundamentals of the machinist trade. Advanced training in set-up work, tool grinding, and machine operations is presented. Related lectures cover types of threads and threading, calculating and cutting of tapers, gears and gear trains. Basic design and capacity of machine tools are investigated. Lecture 3 hours, lab 6 hours. Prerequisite: MACH 101 or equivalent. Transfer Credit: CSU

103 MACHINE TECHNOLOGY III
5.0 Units
Machine Technology 103 covers more advanced and complicated operations of machine tools and equipment. Precision inspection, production and assembly are studied. Lectures and demonstrations on specialized machine tools and equipment give the student a better understanding of their use and capacities. Lecture 3 hours, lab 6 hours. Prerequisite: MACH 102 or equivalent. Transfer Credit: CSU

104 MACHINE TECHNOLOGY IV
5.0 Units
Machine Technology 104 is a continuation of advanced and complicated operations of machine tools and equipment. Lectures and demonstrations include a thorough investigation of heat-treatment of metals, special metals and their uses, abrasives, grinding wheels, and efficient use of surface, cylindrical, and tool cutter grinders. Basic tool and die work in which the student designs and builds jigs and fixtures is offered to students showing advanced abilities. Lecture 3 hours, lab 6 hours. Prerequisite: MACH 103 or equivalent. Transfer Credit: CSU

107 MACHINE PRACTICE I
2.0 Units
NON-DEGREE APPLICABLE
Machine Technology 107 provides practice on machine shop equipment. Students work on individual projects which they retain for their use. Training received in this course develops an ability to visualize and perform various functions necessary in the machine trade. Lecture 1 hour, lab 3 hours. Prerequisite: None.

108 MACHINE PRACTICE II
2.0 Units
NON-DEGREE APPLICABLE
Machine Technology 108 provides practice on machine shop equipment. Students work on individual projects which they retain for their use. Training received in this course develops an ability to visualize and perform various functions necessary in the machine trade. Lecture 1 hour, lab 3 hours. Prerequisite: MACH 107 or equivalent.

109 PRINCIPLES OF TOOL ENGINEERING
5.0 Units
Machine Technology 109 is an advanced course in machine shop training presenting systems of production. Interchangeability, and dimensioning as they pertain to tool design and construction of drill, milling, grinding, and lathe fixtures, locating and clamping of parts, tooling for horizontal and vertical lathes, and tool room inspection and gauging are examined. Training required for engineers and designers noting duties and positions in manufacturing organizations are investigated. Lecture 3 hours, lab 6 hours. Prerequisite: MACH 104 or equivalent.
110 **PRINCIPLES OF NUMERICAL CONTROL**  
5.0 Units  
Machine Technology 110 is an advanced course in machine technology presenting principles of numerical control, preparation of machining programs and development of control tapes. Design and construction of tools and fixtures, selection and modification of tooling are studied. Lecture 3 hours, lab 6 hours. **Prerequisite:** MACH 102 or equivalent. **Transfer Credit:** CSU

111 **PRINCIPLES OF NUMERICAL CONTROL**  
3.0 Units  
Machine Technology 111 presents principles of numerical control, preparation of machining programs and development of control tapes. It is designed for the advanced machine technology student who wishes to explore the field of numerically controlled machining. **Note:** This course may not be taken for credit by students who have completed Machine Technology 110. Lecture 3 hours. **Prerequisite:** MACH 101 or equivalent (MACH 101 may be taken concurrently.)

112 **MACHINE PRACTICE III**  
1.0 to 4.0 Units  
Machine Technology 112 is designed to allow students or industrial workers to improve and update their machining skills. Techniques practiced are uses of lathe, mill, drill, grinder. Inspection strategies for the purpose of job advancement are presented. **Note:** Hours to vary according to students’ needs; 48 hours of laboratory equals one unit. Laboratory 3 to 12 hours. **Prerequisite:** MACH 107 or equivalent.

113 **INTERMEDIATE ENGINE LATHE PROCESS**  
2.0 Units  
**NON-DEGREE APPLICABLE**  
Machine Technology 113 is a course that provides specialized training on the engine lathe processes. Building on the basic processes, this class will develop skills working on tapering, threading, grooving, contouring both inside and out. The use of the 3 and 4 jaw chucks, faceplate, rubber chuck and collets is studied. Lecture 1 hour, lab 3 hours. **Prerequisite:** None.

114 **INTERMEDIATE VERTICAL MILL PROCESSES**  
2.0 Units  
**NON-DEGREE APPLICABLE**  
Machine Technology 114 is a course that provides specialized training on the vertical mill. Building on the basic processes, this class develops skills working on vises, fixturing, angular milling, end mills, shell mills, fly cutting, radius cutting, and undercutting. Lecture 1 hour, lab 3 hours. **Prerequisite:** None.

115 **MASS COMMUNICATIONS**  
101 **INTRODUCTION TO MASS COMMUNICATIONS** (Also listed as Journalism 101)  
3.0 Units  
Mass Communications 101 is an introductory course exploring the history, institutions, and social impact of mass communication media, including print, photography, recordings, film, television, computers, and the role of advertising and public relations. The course is taught from a perspective of theories of persuasion, the symbolic power of images, and the relationship between information and knowledge. Special attention is given to the impact of these media on how we live and believe as individuals and as a society. Lecture 3 hours. **Recommened preparation:** Eligibility for ENGL 101. **Transfer Credit:** CSU, UC, USC

120 **INTRODUCTION TO PUBLIC RELATIONS**  
3.0 Units  
Mass Communications 120 is a practical guide to effective public relations, its history and its relationship with the media. The course is designed for persons who wish to make public relations a career, untrained persons who are currently or plan to be involved in publicity activities, and for journalism majors or minors who wish to enhance their studies. Lecture 3 hours. **Prerequisite:** None. **Transfer Credit:** CSU

146 **MATERIALS & PROCESSES**  
3.0 Units  
Materials and Processes 146 is a study of the manufacture and properties of ferrous and non-ferrous alloys, ceramic products, wood, cements, plastics, fuels, glass, concrete, rubber, etc. Their uses, adaptability, and limitations in industry are studied. Current methods of manufacture and technique are covered. The course covers testing of materials by the destructive and nondestructive methods and the physical properties of materials. Lecture 3 hours. **Prerequisite:** None. **Transfer Credit:** CSU

**MATERIALS & PROCESSES**  
120 **INTRODUCTION TO MASS COMMUNICATIONS** (Also listed as Journalism 101)  
3.0 Units  
Mass Communications 101 is an introductory course exploring the history, institutions, and social impact of mass communication media, including print, photography, recordings, film, television, computers, and the role of advertising and public relations. The course is taught from a perspective of theories of persuasion, the symbolic power of images, and the relationship between information and knowledge. Special attention is given to the impact of these media on how we live and believe as individuals and as a society. Lecture 3 hours. **Recommened preparation:** Eligibility for ENGL 101. **Transfer Credit:** CSU, UC, USC

120 **INTRODUCTION TO PUBLIC RELATIONS**  
3.0 Units  
Mass Communications 120 is a practical guide to effective public relations, its history and its relationship with the media. The course is designed for persons who wish to make public relations a career, untrained persons who are currently or plan to be involved in publicity activities, and for journalism majors or minors who wish to enhance their studies. Lecture 3 hours. **Prerequisite:** None. **Transfer Credit:** CSU

146 **MATERIALS AND PROCESSES**  
3.0 Units  
Materials and Processes 146 is a study of the manufacture and properties of ferrous and non-ferrous alloys, ceramic products, wood, cements, plastics, fuels, glass, concrete, rubber, etc. Their uses, adaptability, and limitations in industry are studied. Current methods of manufacture and technique are covered. The course covers testing of materials by the destructive and nondestructive methods and the physical properties of materials. Lecture 3 hours. **Prerequisite:** None. **Transfer Credit:** CSU

101 **INTERMEDIATE ALGEBRA**  
5.0 Units  
Mathematics 101 includes fundamental laws, curve plotting, linear equations, fractional exponents, quadratic equations, arithmetic and geometric progressions, the binomial theorem, radical and rational expressions and equations, conic sections, functions and inverse functions, systems of linear and nonlinear equations, solving by matrices, and exponential and logarithmic functions. Lecture 5 hours. **Prerequisite:** Placement is based on a composite of test scores and academic background or MATH 101 or 120 or 2 units of MATH 220. **Transfer Credit:** CSU, UC, USC

**MATHS & PHYSICS**  
146 **MATERIALS AND PROCESSES**  
3.0 Units  
Materials and Processes 146 is a study of the manufacture and properties of ferrous and non-ferrous alloys, ceramic products, wood, cements, plastics, fuels, glass, concrete, rubber, etc. Their uses, adaptability, and limitations in industry are studied. Current methods of manufacture and technique are covered. The course covers testing of materials by the destructive and nondestructive methods and the physical properties of materials. Lecture 3 hours. **Prerequisite:** None. **Transfer Credit:** CSU

**MATERIALS & PROCESSES**  
120 **INTRODUCTION TO MASS COMMUNICATIONS** (Also listed as Journalism 101)  
3.0 Units  
Mass Communications 101 is an introductory course exploring the history, institutions, and social impact of mass communication media, including print, photography, recordings, film, television, computers, and the role of advertising and public relations. The course is taught from a perspective of theories of persuasion, the symbolic power of images, and the relationship between information and knowledge. Special attention is given to the impact of these media on how we live and believe as individuals and as a society. Lecture 3 hours. **Recommened preparation:** Eligibility for ENGL 101. **Transfer Credit:** CSU, UC, USC

120 **INTRODUCTION TO PUBLIC RELATIONS**  
3.0 Units  
Mass Communications 120 is a practical guide to effective public relations, its history and its relationship with the media. The course is designed for persons who wish to make public relations a career, untrained persons who are currently or plan to be involved in publicity activities, and for journalism majors or minors who wish to enhance their studies. Lecture 3 hours. **Prerequisite:** None. **Transfer Credit:** CSU

146 **MATERIALS AND PROCESSES**  
3.0 Units  
Materials and Processes 146 is a study of the manufacture and properties of ferrous and non-ferrous alloys, ceramic products, wood, cements, plastics, fuels, glass, concrete, rubber, etc. Their uses, adaptability, and limitations in industry are studied. Current methods of manufacture and technique are covered. The course covers testing of materials by the destructive and nondestructive methods and the physical properties of materials. Lecture 3 hours. **Prerequisite:** None. **Transfer Credit:** CSU

101 **INTERMEDIATE ALGEBRA**  
5.0 Units  
Mathematics 101 includes fundamental laws, curve plotting, linear equations, fractional exponents, quadratic equations, arithmetic and geometric progressions, the binomial theorem, radical and rational expressions and equations, conic sections, functions and inverse functions, systems of linear and nonlinear equations, solving by matrices, and exponential and logarithmic functions. Lecture 5 hours. **Prerequisite:** Placement is based on a composite of test scores and academic background or MATH 101 or 120 or 2 units of MATH 220. **Transfer Credit:** CSU, UC, USC
102 TRIGONOMETRY
3.0 Units
Mathematics 102 is a course in plane trigonometry with a review of geometry. The course emphasizes the analytic aspects of the subject. Topics include properties of geometric figures, trigonometric functions of any angle, trigonometric identities, half-angles, trigonometric equations, applications of trigonometric functions, inverse functions, complex numbers, and polar and parametric equations. Lecture 4 hours. Prerequisite: MATH 100. Transfer Credit: CSU

103 CALCULUS AND ANALYTIC GEOMETRY
5.0 Units
Mathematics 103 is the first of a sequence of three courses combining the subject matter of analytic geometry and calculus. Functions and their graphs are studied with special attention to differentiation, limits, rules and integration using various techniques. Applications of both differentiation and integration are covered. Lecture 5 hours. Prerequisite: Placement is based on a composite of test scores and academic background or MATH 110 or MATH 100 & 102. Transfer Credit: CSU, UC, USC

103H HONORS CALCULUS AND ANALYTIC GEOMETRY
5.0 Units
Mathematics 103H is the first of a sequence of three courses combining the subject matter of analytic geometry and calculus. Functions and their graphs are studied with special attention to differentiation, limits, rules and integration using various techniques. Applications of both differentiation and integration are covered. The honors course will be enhanced in one or more of the following ways: 1. Extensive use of the technology (TI Graphing calculator) through extra problems and/or projects in each chapter, for the purposes of verification, as well as experimentation with analytical work. 2. A written biography of a mathematician referenced in the textbook. 3. A model to be made of a volume of revolution. 4. One problem from each section of the text worked out using a Scientific Notebook. 5. The following journal articles read along with questions to be answered: ‘Descartes Derivative’ ‘Monte Carlo Integration’ ‘John Napier and the Logarithm’. These are only examples. Other journal articles could be included. Lecture 5 hours. Prerequisite: MATH 103. Transfer Credit: CSU, UC, USC

104 CALCULUS AND ANALYTIC GEOMETRY
5.0 Units
Mathematics 104 is a study of transcendental functions, techniques of integration, polar coordinates, parametric equations, conic sections, indeterminate forms and infinite series. Lecture 5 hours. Prerequisite: MATH 103. Transfer Credit: CSU, UC, USC

104H HONORS CALCULUS AND ANALYTIC GEOMETRY
5.0 Units
Mathematics 104H is a study of transcendental functions, techniques of integration, polar coordinates, parametric equations, conic sections, indeterminate forms and infinite series. The honors course will be enhanced in one or more of the following ways: 1. Extensive use of the technology (TI Graphing calculator) through extra problems and/or projects in each chapter, for the purposes of verification, as well as experimentation with analytical work. 2. A written biography of a mathematician referenced in the textbook. 3. A model to be made of a volume of revolution. 4. One problem from each section of the text worked out using a Scientific Notebook. 5. The following journal articles read along with questions to be answered: ‘Descartes Derivative’ ‘Monte Carlo Integration’ ‘John Napier and the Logarithm’. These are only examples. Other journal articles could be included. Lecture 5 hours. Prerequisite: MATH 104. Transfer Credit: CSU, UC, USC

105 CALCULUS AND ANALYTIC GEOMETRY
4.0 Units
Mathematics 105 is in course in vector calculus. Topics covered include vector functions, vector differentiation, parametric equations, vectors in three and higher dimensional space, multiple integration, and an introduction to vector analysis including divergence, curl, and Stoke's Theorem. Lecture 5 hours. Prerequisite: MATH 104. Transfer Credit: CSU, UC, USC

105H HONORS CALCULUS AND ANALYTIC GEOMETRY
4.0 Units
Mathematics 105H is a course in vector calculus. Topics covered include vector functions, vector differentiation, parametric equations, vectors in three and higher dimensional space, multiple integration, and an introduction to vector analysis including divergence, curl, and Stoke's Theorem. The honors course will be enhanced in one or more of the following ways: 1. The students will be assigned no less than ten computer labs to examine the concepts (3-dimensional vectors, quadric surfaces, curl and divergence). 2. The student will complete a course computer project on an application from biology, physics, engineering, or business. Lecture 5 hours. Prerequisite: MATH 104. Transfer Credit: CSU, UC, USC

107 LINEAR ALGEBRA
4.0 Units
Mathematics 107 covers the topics of vector spaces, linear transformations and matrices, matrix algebra, determinants, eigenvalues and eigenvectors, and solutions of systems of equations. Lecture 5 hours. Prerequisite: MATH 104. Recommended preparation: MATH 105. Transfer Credit: CSU, UC, USC

107H HONORS LINEAR ALGEBRA
4.0 Units
Mathematics 107H covers the topics of vector spaces, linear transformations and matrices, matrix algebra, determinants, eigenvalues and eigenvectors, and solutions of systems of equations. The honors course will be enhanced in one or more of the following ways: 1. Investigation and projects concerning technologic applications of linear algebra. Specifically, Fourier Series and the Simplex method are widely used applications that would clearly benefit our CS/IS majors. 2. Concentration on the theory central to the study of linear algebra. Specifically, students should be held responsible for statements of theorem and their proofs. Especially central theorems such as the Plus/Minus Theorem, the Projection Theorem, etc. Lecture 5 hours. Prerequisite: MATH 104. Recommended preparation: MATH 105. Transfer Credit: CSU, UC, USC
108 ORDINARY DIFFERENTIAL EQUATIONS
4.0 Units
Mathematics 108 covers the solution of ordinary differential equations using various techniques including variation of parameters, the Laplace transform, power series, and numerical methods. Systems of linear differential equations and an introduction to Fourier Series are also covered. Applications are drawn from the physical sciences. Lecture 5 hours. Prerequisite: MATH 104. Recommended preparation: MATH 105. Transfer Credit: CSU, UC, USC

108H HONORS ORDINARY DIFFERENTIAL EQUATIONS
4.0 Units
Mathematics 108H covers the solution of ordinary differential equations using various techniques including variation of parameters, the Laplace transform, power series, and numerical methods. Systems of linear differential equations and an introduction to Fourier Series are also covered. Applications are drawn from the physical sciences. The honors course will be enhanced in one or more of the following ways: 1. Students will navigate through computer explorations on a software package called ODE Architect. 2. Students will carry out computer and other lab projects in each chapter of the course and submit their results for grading. Lecture 5 hours. Prerequisite: MATH 104. Recommended preparation: MATH 105. Transfer Credit: CSU, UC, USC

110 PRECALCULUS
5.0 Units
Mathematics 110 is a course designed for review of those algebraic concepts needed for the study of calculus. The course includes a more thorough study of algebraic and trigonometric functions. The course emphasizes linear and quadratic equations and inequalities, graphs of linear and quadratic functions, conic sections, polynomial functions, systems of equations, matrices and determinants mathematical induction, trigonometric functions, inverse trigonometric functions, trigonometric identities and equations, and right and oblique triangles. Note: A maximum of 6 units may be earned from any combination of Mathematics 100, 102, and 110. Lecture 5 hours. Prerequisite: Placement is based on a composite of test scores and academic background. Transfer Credit: CSU, UC, USC

111 FINITE MATHEMATICS
3.0 Units
Mathematics 111 is a one-semester course in mathematics for business, management, and social science majors. Topics in this course include systems of equations, matrices, probability with an introduction to statistics, Markov chains, and game theory. Lecture 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background or MATH 101 or 120 or 2 units of MATH 220. Transfer Credit: CSU, UC, USC

112 CALCULUS FOR BUSINESS
5.0 Units
Mathematics 112 is a one semester course in calculus for business, management, and social science majors. Topics in this course include: techniques of differentiating, maximum-minimum problems, curve sketching, derivatives and applications of exponential and logarithmic functions, techniques of integration, simple differential equations, the calculus of functions of several variables, including Lagrange multipliers and multiple integration. Lecture 5 hours. Prerequisite: Placement is based on a composite of test scores and academic background or MATH 101 or 120 or 2 units of MATH 220. Recommended preparation: MATH 100. Transfer Credit: CSU, UC, USC

119 INTERMEDIATE ALGEBRA I
3.0 Units
Mathematics 119 is the first course in a two-semester sequence. It includes fundamental laws, solving and graphing linear equations, basic rules of exponents, determinants, and matrices. Lecture 5 hours. Prerequisite: Placement is based on a composite of test scores and academic background or MATH 141 or 146 or 2 units of MATH 220. Transfer Credit: CSU, UC, USC

120 INTERMEDIATE ALGEBRA II
2.0 Units
Mathematics 120 is the second course of the two-semester intermediate algebra sequence. It includes radicals and fractional exponents, quadratic equations and inequalities, arithmetic and geometric progressions, the binomial theorem, logarithms, and conic sections. Lecture 4 hours. Prerequisite: MATH 119 or 3 units of MATH 219.

135 LIBERAL ARTS MATHEMATICS
3.0 Units
Mathematics 135 is a one-semester course designed for liberal arts majors. Topics in this course include voting systems and how to measure power, game theory, apportionment, probability and statistical inference. Lecture 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background or MATH 101 or 120 or 2 units of MATH 220. Transfer Credit: CSU, UC

136 STATISTICS
4.0 Units
Mathematics 136 is a one-semester course designed for students whose major requires a course in statistics. Topics in this course include: the nature of statistical methods, types of data, introductory probability, sampling theory, experimental design, confidence intervals, hypothesis testing, regression analysis, and decision making. Emphasis will be placed on the application of statistical concepts to real world data, development of statistical reasoning, and the interpretation of results. Lecture 4 hours. Prerequisite: Placement is based on a composite of test scores and academic background or MATH 101 or 120 or 2 units of MATH 220. Transfer Credit: CSU, UC, USC

138 MATHEMATICS FOR ELEMENTARY TEACHERS I
3.0 Units
Mathematics 138 is a one-semester course designed for prospective elementary school teachers. Topics in this course include: problem-solving techniques, set operations, functions, number theory, ratio, proportion and percent, and math study skills. Lecture 3 hours. Prerequisite: Placement is based on a composite of test scores and academic background or MATH 101 or 120 or 2 units of MATH 220. Transfer Credit: CSU, UC

139 MATHEMATICS FOR ELEMENTARY TEACHERS II
3.0 Units
Mathematics 139 is a continuation of Mathematics 138. It is a second-semester course designed for prospective elementary teachers. Topics include: statistics, probability, and geometry. Geometry topics include: geometric shapes, measurement, triangle congruence and similarity, coordinate plane, and transformations. Lecture 3 hours. Prerequisite: MATH 138. Transfer Credit: CSU, UC
The courses below are all transfer-level math courses. Check with your counselor to see what is required by your target four-year school for your degree program. Up-to-date UC and CSU transferability information can be found online at www.assist.org.

**Notes:**
1. Dashed lines indicate acceptable, but not recommended paths.
2. Those courses which are circled are not transferable to CSU or UC.
3. Math 102 is not UC transferable.
4. Math 138 and Math 139 are UC transferable with maximum credit of one course but do not satisfy IGETC.
5. Math 105, 107, and 108 can be taken in any order or concurrently.
6. See counselor for further details and other options.

<th>Title</th>
<th>Units</th>
<th>Description</th>
<th>Prerequisite</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>141</td>
<td>BEGINNING ALGEBRA</td>
<td>4.0</td>
<td>Mathematics 141 is a one semester review course in the fundamental operations of algebra. The course focuses on solution of linear and quadratic equations, algebraic operations, factoring algebraic fractions, exponents and radicals, and systems of linear equations. This course is the equivalent of one year of algebra in high school and is designed for students to review their algebra. Note: This course may not be taken for credit by students who have completed Mathematics 146, 148 or 246. A maximum of 4 units will be granted for Mathematics 141, 145 and 245. Lecture 5 hours.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>145</td>
<td>ELEMENTARY ALGEBRA I</td>
<td>2.0</td>
<td>Mathematics 145 is designed to cover the fundamental operations of algebra normally included in the first semester of a year course taught in the secondary school, and includes signed numbers, solution of linear equations, algebraic manipulations, powers, polynomials, factoring, and rational expressions. The course should be elected by students who have never studied algebra or who have studied it for less than one year. Note: This course may not be taken for credit by students who have completed Mathematics 141 or 148. Lecture 4 hours.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>146</td>
<td>ELEMENTARY ALGEBRA II</td>
<td>2.0</td>
<td>Mathematics 146 is a continuation of Mathematics 145 and completes the topics covered in one full year of beginning algebra as taught in the secondary school. This course covers the fundamental operations of algebra including graphing linear equations, solving linear systems, roots and radicals, and quadratic equations. Note: This course may not be taken for credit by students who have completed Mathematics 141 or 148. Lecture 4 hours.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>155</td>
<td>ARITHMETIC AND PREALGEBRA</td>
<td>4.0</td>
<td>Mathematics 155 is a remedial course designed to prepare students for their first course in algebra. It includes the fundamental processes of arithmetic and prealgebra. It is designed to develop skill in computation using whole numbers, fractions, decimals, percents, and properties of the decimal number system with an emphasis on the arithmetic of signed numbers. Rules of exponents, first-degree equations, fundamental facts about geometry with regard to area and perimeter are also included. Study and test-taking techniques related to mathematics are also covered. Note: A maximum of 4 units of credit will be granted for Mathematics 155 and Mathematics 255. Lecture 5 hours.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>165</td>

</table>

NON-DEGREE APPLICABLE

Mathematics 119-12-, 219-220, and 201 is the first course of the two-semester sequence of self-paced courses covering those topics commonly taught in the second year of high school algebra. Topics include quadratic equations and inequalities, arithmetic and geometric progressions, the binomial theorem, logarithms, and conic sections. Note: A maximum of 5 units of credit will be granted for Mathematics 101, 119-12-, 219-220, and 201. Lecture 4 hours, lab 1 hour.  |
2010-2011 Catalog • Glendale Community College

255 ARITHMETIC AND PREALGEBRA
1.0 to 4.0 Units
NON-DEGREE APPLICABLE
Mathematics 255 is a self-paced basic skill course designed to prepare students for their first course in algebra. It includes the fundamental processes of arithmetic and prealgebra. It is designed to develop skill in computation using whole numbers, fractions, decimals, percents, and properties of the decimal number system with an emphasis on the arithmetic of signed numbers. Rules of exponents, first-degree equations, fundamental facts about geometry with regard to area and perimeter are included. Study and test-taking techniques related to mathematics are also covered. Note: A maximum of 4 units of credit will be granted for Mathematics 255 and 255. This course is Pass/No Pass only. Lecture 5 hours, lab 2 hours. Placement is based on a composite of test scores and academic background.

3.0 Units
CINEMATOGRAPHY
INTRODUCTION TO DIGITAL MEDIA ARTS
103 INTRODUCTION TO DIGITAL CINEMATOGRAPHY
3.0 Units
Media Arts 103 provides students with a basic overview of the aesthetics and techniques required in single-camera 'film style' video production. The topics to be covered include basic cinematography, camera familiarization and operation, lenses, camera angles, camera blocking and movement, coverage, continuity, digital video formats, filters, location production, lighting and simple editing. Projects consist of hands-on experiences with digital video cameras and computers. Lecture 2 hours, lab 4 hours. Prerequisite: None. Transfer Credit: CSU

4.0 Units
VIDEO PRODUCTION PRACTICUM
104 VIDEO PRODUCTION PRACTICUM
3.0 Units
Media Arts 104 is designed to provide a realistic working experience in video production. Emphasis is placed on the actual production of television programs for the campus and community. Students gain experience through direct use of the production capabilities of the GCTV (Glendale College Television) Studio and involvement in developing programming operations for the educational cable channel. Students may also create independent video productions in order to build a portfolio of video production work. Studio 6 hours. Studio 6 hours. Prerequisite: Media 101 or equivalent. Recommended preparation: Media 112 and TH ART 133. Transfer Credit: CSU

3.0 Units
107 INTRODUCTION TO AUDIO PRODUCTION
3.0 Units
Media Arts 107 teaches students the basic principles, aesthetics, and techniques used in the production of audio programs and soundtracks for video programs. Specific topics covered in the course include: magnetic recording, digital recording and editing, selection and use of microphones, sound studio operation, multi-tracking, mixing, editing, and synchronization with video. Hands-on experience with professional equipment is emphasized. Lecture 2 hours, lab 4 hours. Prerequisite: None. Transfer Credit: CSU

3.0 Units
MUSIC VIDEO PRODUCTION
111 INTERACTIVE MULTIMEDIA I
3.0 Units
(Also listed as CS/IS 111)
Media Arts 111 introduces students to the aesthetics and techniques employed in the creation of interactive multimedia programs. Topics presented in the course include: project planning, interactive design principles, digital video and audio, computer animation, graphics, and cross-platform distribution. Students create projects using industry standard software such as Macro-media Director. Note: This course may not be taken for credit by students who have completed Computer Science/Information Systems 111. Lecture 2 hours, lab 4 hours. Recommended preparation: CABOT 206 or equivalent. Transfer Credit: CSU

3.0 Units
DIGITAL VIDEO EDITING
112 DIGITAL VIDEO EDITING
3.0 Units
Media Arts 112 is an intermediate-level video production class. Emphasis will be on non-linear digital video editing, using professional applications. Topics will include system set-up, video capturing, overwrite and insert editing, dialog and multi-clip editing, media management, editing aesthetics, continuity, high-definition, effects, titling, and compression. Students will output their projects to digital videotape and DVD. Note: This course features Apple's Final Cut Pro Software. Lecture 5 hours. Prerequisite: Media 103 or equivalent. Transfer Credit: CSU

3.0 Units
117 MUSIC VIDEO PRODUCTION
3.0 Units
Media Arts 117 provides students with the advanced aesthetics and techniques required in the production of a music video. Students will gain experience in camera operation, sound recording, and video editing as they relate to the production of music videos. Students will write a simple script and storyboard, and organize and plan the production of a music video project, including scheduling and budgeting. Students will direct, supervise, and critique performers and crew in music video productions. Lecture 2 hours, lab 4 hours. Media 101 or equivalent. Recommended preparation: Media 103 or 112; and eligibility for ENGL 120 or ESL 151.

3.0 Units
DVD AUTHORING AND PRODUCTION
202 DVD AUTHORING AND PRODUCTION
3.0 Units
Media Arts 202 is an advanced video production course which trains students in the aesthetics and techniques employed in the creation of video DVD's. Topics include media asset collection and management, MPEG-2 encoding, still and motion menu creation, interactive design, special DVD features, building and formatting the finished DVD. Students will gain proficiency with industry standard software applications. Note: This course features Apple's DVD Studio Pro and Compressor software. Lecture 2 hours, lab 4 hours. Prerequisite: Media 103 or equivalent.
205 MEDIA STREAMING AND MOBILE CONTENT PRODUCTION
3.0 Units
Media Arts 205 provides students with a basic overview of the aesthetics and techniques required in the production of video and audio program material intended for distribution over the Internet, iPods, cellular phones, and personal data assistants (PDAs). The topics to be covered include webcasting, podcasting, production formats, Internet and wireless distribution channels, aesthetic limitations, developing industry practices, and professional opportunities. Projects consist of hands-on experiences in the creation of video and audio content specifically designed for these emerging media formats. Laboratory 4 hours. Prerequisite: Media 103 or equivalent.

207 INTERNET RADIO WEBCASTING
3.0 Units
Media Arts 207 is designed to provide students a realistic working experience in Internet radio production. The emphasis is on the actual production of audio programs for the campus and community. Students gain experience with all capabilities of the Media Arts Audio Studio as well as being involved in programming operations for Glendale Community College’s Internet radio station. Laboratory 6 hours. Prerequisite: Media 107 or equivalent.

218 INTERACTIVE MULTIMEDIA II
(Also listed as Art 218 & CS/IS 218)
3.0 Units
Media Arts 218 provides students with advanced training and experience in the creation of interactive multimedia programs. Industry standard software, such as Macromedia Director, is used with primary emphasis placed on the authoring process. Topics covered in the course include: Lingo scripting, interface design, navigation principles, cross-platform development, integration of audio, video, animated, and virtual reality (VR) elements, and distribution for CD-ROM, DVD, and the Internet. Students create their own multimedia CD-ROM as a final project. Note: This course may not be taken for credit by students who have completed Art 218 or CS/IS 218. Lecture 2 hours, lab 4 hours. Prerequisite: Media 111 or CS/IS 111. Recommended preparation: ART 146, 220, and Media 101.

MEDICAL OFFICE ADMINISTRATION

181 MEDICAL TERMINOLOGY
3.0 Units
Medical Office Administration 181 is designed for the student interested in an office position in the health sciences as a health technician, medical receptionist, medical biller/coder, or medical secretary. A comprehensive overview of each body system’s common medical terms is emphasized. In addition, anatomy, physiology, and disease processes for each are discussed. Note: This course may not be taken for credit by students who have completed CABOT 182. Lecture 5 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151.

182 MEDICAL TERMINOLOGY
(Formerly titled CABOT 182)
5.0 Units
MOA 182 is designed to familiarize students interested in the medical field with origin, correct spelling, pronunciation, meaning and current usage of common medical terms and their application to clinical records and reports. Emphasis is placed on the roots, prefixes, suffixes, and word combinations. Lecture 5 hours. Recommended preparation: Eligibility for ENGL 120.

183 MEDICAL BILLING AND CODING
4.0 Units
MOA 183 is designed to familiarize students with the tools necessary to complete billing and coding procedures in a medical setting. Students will learn to use the Current Procedural Terminology (CPT) and International Classification of Diseases (ICD) reference books and will be given hands-on experience with a popular medical billing software program. Lecture/demonstration 4 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151, or CABOT 105; MOA 182 and CABOT 200 or equivalent.

185 MEDICAL FRONT OFFICE PROCEDURES
3.0 Units
MOA 185 is an introduction to the medical office that concentrates on the Medical Assistant’s role in the maintenance of a professional and efficient medical office, including career guidelines and professional qualifications; public relations; courteous and effective handling of patients, doctors, and coworkers; preparation and care of medical records; correspondence; financial records; insurance; and general management of a medical facility. Training is applicable in offices of physicians, medical hospitals and clinics, dental and medical/legal agencies and government sponsored medical facilities. Lecture 3 hours. Recommended preparation: MOA 182 and CABOT 205 or equivalent.

187 DENTAL FRONT OFFICE
DENTAL BILLING & CODING
4.0 Units
MOA 187 offers an introduction to the dental office with emphasis on maintaining a dental office, including career guidelines and professional qualifications, compliance with legal and ethical issues, public relations, courteous and effective handling of patients, dentists, and co-workers, preparation and care of dental records, correspondence, financial records, insurance, and general management of a dental facility. The course is designed to familiarize students with the tools necessary to complete billing and coding procedures in a dental setting. Students will learn to use the Current Dental Terminology Reference Book CDT reference books approved by the American Dental Association (ADA) and will be given hands-on experience with ADA Dental Claim Forms. Lecture / Demonstration 4 hours, lab 1 hour. Recommended preparation: Eligibility for ENGL 120 or ESL 151, and CABOT 200 or equivalent.

190 MACHINE TRANSCRIPTION-MEDICAL I
1.0 Unit
Medical Office Administration 190 is a machine transcription course which enables students to transcribe medical correspondence and keyboard medical forms commonly used in medical offices. Emphasis is placed on excellence in keyboarding and proficiency in use of English mechanics, such as spelling, grammar, punctuation, and proofreading. Lecture / Demonstration 1 hour. Prerequisite: (1) MOA 182, (2) CABOT 205 or equivalent, and (3) CABOT 103.
METALLURGY

150 PRINCIPLES OF METALLURGY AND HEAT TREATING
3.0 Units
Metallurgy 150 is the study of principles governing the selection, use, and treatment of metals and alloys in manufacturing and related technologies. Note: This course may not be taken for credit by students who have completed Metals 150. Lecture 3 hours. Prerequisite: None.

METALS

150 PRINCIPLES OF METALLURGY AND HEAT TREATING
.0 Units
Metals 150 is the study of principles governing the selection, use, and treatment of metals and alloys in manufacturing and related technologies. Note: This course may not be taken for credit by students who have completed Metallurgy 150. Lecture 3 hours. Prerequisite: None.

MUSIC

The following music performance/ensemble courses may be offered for fewer than the stated units: Music 141, 143, 146, 147, 159, 230, 233 - 238.

101 MUSIC FUNDAMENTALS
3.0 Units
Music 101 is a beginning course for those students who seek a basic knowledge of the fundamentals of music and music notation. Students learn the basic elements of pitch, rhythm, notation, scale structure, tonality, intervals, chords, melody, harmony, musical terminology, and score reading. Students apply these concepts to writing and analyzing simple musical examples. In addition, students learn to relate these concepts to the piano keyboard and to play simple examples. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

102 FUNDAMENTALS FOR MUSIC MAJORS
3.0 Units
Music 102 is a course designed for those who have an elementary knowledge of music and music notation. Students should be able to read bass and treble clefs, notes and note values, time signatures and key signatures, identify notes of a piano keyboard, and have a basic understanding of melody, harmony, and rhythm. Using this basic knowledge, fundamental concepts such as scales, intervals, chords, and transposition are studied. These musical concepts are then applied in ear training, analysis, and compositional exercises in preparation for musicianship and harmony courses. Lecture 3 hours. Recommended preparation: It is strongly recommended that students entering MUSIC 102 be able to read music (clefs, note values, time and key signatures) and identify notes on a piano keyboard. Also that students have access to a piano keyboard. Transfer Credit: CSU, UC, USC

103 KEYBOARD HARMONY I
2.0 Units
Music 103 is designed for students who have a basic knowledge of music and music notation. Students review bass and treble clefs, notes and note values, meter signatures and key signatures, identify notes of a piano keyboard, and develop a basic understanding of melody, harmony, and rhythm. In addition, students learn basic piano technique and begin the study of harmony in the context of the piano keyboard. These concepts are used in the analysis and performance of musical exercises and literature. This course prepares students for advanced harmony and musicianship classes. Note: MUSIC 103 is designed for students who have a basic knowledge of music. Students should be able to read musical notation and understand concepts of melody, harmony, and rhythm. Lecture 2 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

104 MUSICIANSHIP I
2.0 Units
Music 104 is a course designed to train the student to recognize the various intervals and rhythms used in composition and to use them in functional application through sight singing and ear training exercises. Music 104 is required for music majors. Lecture 2 hours, lab 1 hour. Corequisite: MUSIC 107. Recommended preparation: Study of piano is strongly recommended. Students should have some knowledge of rhythmic patterns, scales, intervals, and notation. Transfer Credit: CSU, UC, USC

105 MUSICIANSHIP II
2.0 Units
Music 105 is a continuation of Music 104 with further emphasis on sight singing and ear training as well as the ability to perform melodic passages based on the major and minor modes. Basic harmonic progressions are also emphasized with application to melodic patterns and rhythms. Music 105 is required for music majors. Note: For the non-pianist, concurrent study of piano is strongly recommended. Students should have some knowledge of scales, intervals, key signatures, triad notation and identification, time signatures and note values. Lecture 2 hours, lab 1 hour. Prerequisite: MUSIC 104. Corequisite: MUSIC 108. Transfer Credit: CSU, UC, USC

107 HARMONY I
3.0 Units
Music 107 develops an understanding of compositional techniques. Emphasis is placed on scales, intervals, triads, inversions, basic voice leading, figured bass, and simple harmonization. Music 107 is required for music majors. Note: For the non-pianist, concurrent study of piano is strongly recommended. Lecture 3 hours. Corequisite: MUSIC 104. Transfer Credit: CSU, UC, USC

108 HARMONY II
3.0 Units
Music 108 develops an understanding of compositional techniques. Emphasis is placed on cadences, modulations, dominant sevenths, secondary dominants and analysis. Music 108 is required for music majors. Note: For the non-pianist, concurrent study of piano is strongly recommended. Lecture 3 hours. Prerequisite: MUSIC 107. Corequisite MUSIC 105. Transfer Credit: CSU, UC, USC

110 MUSIC/ART APPRECIATION
(Also listed as Art 110)
3.0 Units
Music 110 is a team-taught course which offers a comparative overview of western art and music from the prehistoric era to the present. This introductory course presents influential figures in each period and analyzes important influences on their work. The relationship between music and art is explored, along with changing trends in thought and techniques. Note: This course may not be taken for credit by students who have completed Art 110. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC
113 KEYBOARD HARMONY II  
2.0 Units  
Music 113 is designed for students who have basic keyboard skills. Students learn transposition, harmonization of melodies, and to work with harmonic progressions in the context of the piano keyboard. In addition, students continue the study of piano technique and literature. These concepts are used in the analysis and performance of musical exercises and literature. This course prepares students for advanced harmony and musicianship classes. Lecture 2 hours. Prerequisite: MUSIC 103 or equivalent. Transfer Credit: CSU, UC, USC

120 MUSIC APPRECIATION  
3.0 Units  
Music 120 traces the evolution of music over the past 1500 years, with a special emphasis on understanding how to listen for greater enjoyment. Students learn the basic elements of music, such as form and structure, families and subgroups of musical instruments, as well as learning about specific composers and works. Note: This course may not be taken for credit by students who have completed Music 125 or 126. This course is designed especially for non-music majors. Music majors should enroll in Music 125 and 126. The student is required to attend five (5) classical concerts and submit concert reports. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

121 HISTORY OF ROCK MUSIC  
3.0 Units  
Music 121 is a course in the evolution of popular music in the United States since World War II. Students first study the musical influences, which led to the rise of rock and roll in the mid-1950’s. They then follow the development of the various musical styles, which are collectively referred to as rock music. Emerging musical innovations are viewed as reflections of changes within our society. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

122 HISTORY OF JAZZ  
3.0 Units  
Music 122 traces the evolution of jazz music from its earliest influences in the nineteenth century to current styles. Special emphasis is placed on understanding how to listen for greater enjoyment. Students learn basic elements of music, such as meter, form, and structure, and how the elements of music are used in jazz. Students learn to distinguish the instruments used in jazz performance as well as examining the different types of jazz ensembles. Students learn about the leading practitioners of jazz and listen to the masterworks of jazz. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

125 HISTORY AND LITERATURE  
3.0 Units  
Music 125 covers the history of music from the early Christian era through the Baroque Period. In addition to lectures and readings, the course includes a study of live and recorded musical performances. Recognition of composers and styles is emphasized. Note: Students are required to attend six (6) concerts featuring music from the historical periods being studied, and to submit six (6) concert reports. Students are urged to take Music 125 and 126 within the same academic year. Lecture 3 hours, directed listening 2 hours. Recommended preparation: It is strongly recommended that students entering MUSIC 125 be able to read music well enough to identify key signatures and transpositions, and be able to follow a musical score. Transfer Credit: CSU, UC, USC

126 HISTORY AND LITERATURE  
3.0 Units  
Music 126 begins with the mid-18th century and continues with musical history through the present day. In addition to lectures and readings, the course includes a study of live and recorded musical performances. Recognition of composers and styles is emphasized. Note: Students are required to attend six (6) concerts featuring music from the historical periods being studied, and to submit six (6) concert reports. Students are urged to take Music 125 and 126 within the same academic year. Lecture 3 hours, directed listening 2 hours. Recommended preparation: It is strongly recommended that students entering MUSIC 126 be able to identify key signatures and transpositions, and be able to follow a musical score. Transfer Credit: CSU, UC, USC

127 WORLD MUSIC  
3.0 Units  
Music 127 is designed to provide non-majors with a broader understanding of the multicultural world community. Students are introduced to non-western music as it occurs in Africa, the Middle East and Asia. Musical expression is viewed as an outgrowth of diverse cultural needs. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

128 MUSIC OF AMERICA  
3.0 Units  
Music 128 is a survey of American music in its progression from colonial psalm tunes to present day rap. It focuses on major musical styles of each historical period and the events that influenced them. The course covers the musical contributions of each immigrant group to the hybrid that is American music. This exploration provides a solid basis for increased understanding of other cultural viewpoints. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

129 COMMERCIAL VOICE  
2.0 Units  
Music 129 is an introduction to the basic principles of vocal production as they apply to singing songs from contemporary commercial idioms, including popular songs, jazz, gospel, Broadway show tunes, and track singing. Emphasis is placed on posture, breathing, resonance, style, microphone technique, movement, program development, and presentation. Literature appropriate for each voice range and ability is studied. Students are required to perform songs from memory. Lecture 2 hours, lab 1 hour. Prerequisite: None.

135 VOICE TRAINING I  
2.0 Units  
Music 135 stresses the principles of correct vocal production and their application to songs and ballads in English. Emphasis is placed on the following: proper breathing habits, the relationship between breathing and tone making, vocal health, range, resonance, registration, poise, posture, and song presentation. The development of an appreciation for the vocal arts is an important aspect of the course. Lecture 2 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

136 VOICE TRAINING II  
2.0 Units  
Music 136 is a continuing focus upon the principles of correct vocal production and their application to songs and ballads in English. Foreign art songs are introduced, more difficult exercises both musically and vocally are stressed. Further emphasis is placed on legato singing, diction, interpretation, and expression. The development of an appreciation for the vocal arts is of continuing importance. Lecture 2 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC
137
VOICE TRAINING III
2.0 Units
Music 137 is a continuation and broadening of the principles of vocal production and proper use of the breath in singing as outlined in Music 135 and 136. More difficult literature is explored, including contemporary music and several songs in foreign languages. Performance and recital. Lecture 2 hours. Prerequisite: MUSIC 136 or equivalent. Transfer Credit: CSU, UC, USC

140
APPLIED MUSIC
1.0 Unit
Music 140 is a course in individual and ensemble performance. Students receive eight hours of private instruction on a solo instrument. Emphasis is on solo performance through individual instruction, recital performance through participation in a recital class, and ensemble performance through participation in a performing ensemble. Lecture 1 hour, lab 1/2 hour. Corequisite: 1 unit section of a performing ensemble: MUSIC 145 (instrumentalists only), 146, 147, 148, 231, 234, 235, or 240. The student must demonstrate a basic proficiency on an instrument or voice. An audition is required. Transfer Credit: CSU, UC, USC

141
CONCERT BAND
0.5 to 1.0 Units
Music 141 is for students who wish to learn the techniques used in performing concert band literature, and who wish to perform with other instrumentalists. Emphasis is placed on developing music reading skills and gaining additional familiarity with the stylistic differences between composers. Selected works are rehearsed and performed. Note: Audition is required. Please contact the instructor at extension 5621 prior to the first class meeting. Performance 3 hours. Prerequisite: Ability to perform on a standard band instrument. Transfer Credit: CSU, UC, USC

143
JAZZ BAND
0.5 to 1.0 Units
Music 143 is a class for students who wish to learn the techniques used in performing jazz and big band literature. Emphasis is placed on developing music reading skills and gaining additional familiarity with improvisational techniques. Students perform with other instrumentalists or with singers. Selected works by contemporary composers are rehearsed and performed. Note: Audition is required. Please contact the instructor at extension 5621 prior to the first class meeting. Performance 3 hours. Prerequisite: The ability to perform in a proficient manner upon the trumpet, trombone, saxophone, drums, string bass, guitar, or piano. Transfer Credit: CSU, UC, USC

144
WOODWIND ENSEMBLE
0.5 to 1.0 Units
Music 144 is a small instrumental group which plays for college and community activities. Emphasis is on balance, dynamics, phrasing, and interpretation. Note: Audition is required. Please contact the instructor at extension 5621 prior to the first class meeting. Performance 3 hours. Prerequisite: Ability to play a musical instrument in a band, orchestra, or chamber music ensemble. Transfer Credit: CSU, UC, USC

145
BRASS ENSEMBLE
0.5 to 1.0 Units
Music 145 is a small instrumental group which plays for college and community activities. Emphasis is on balance, dynamics, phrasing, and interpretation. Note: Audition is required. Please contact the instructor at extension 5621 prior to the first class meeting. Performance 3 hours. Prerequisite: Ability to play a musical instrument in a band or orchestra. Transfer Credit: CSU, UC, USC

146
COMMUNITY ORCHESTRA:
LITERATURE 1725-1850
0.5 to 1.0 Units
Music 146 is a class for students who want to learn and perform the standard orchestral repertoire from the Baroque era through the present. Concerto literature and programmatic music are featured. Emphasis is placed on interpretation and style. Note: Audition is required. Please contact the instructor at extension 5621 prior to the first class meeting. Performance 3 hours. Prerequisite: The ability to perform on a standard orchestral instrument is required. Transfer Credit: CSU, UC, USC

147
COMMUNITY ORCHESTRA:
LITERATURE 1825-1950
0.5 to 1.0 Units
Music 147 is a class for students who want to learn and perform the standard orchestral repertoire from the Romantic era through the present. Concerto literature and programmatic music are featured. Emphasis is placed on interpretation and style. Note: Audition is required. Please contact the instructor at extension 5621 prior to the first class meeting. Concert dress is required. Students must provide an appropriate instrument. Performance 3 hours. Prerequisite: The ability to perform on a standard orchestral instrument is required. Transfer Credit: CSU, UC, USC

148
CHAMBER MUSIC
0.5 to 1.0 Units
Music 148 is a class for students who want to learn and perform performance standard chamber music repertoire from the Baroque era through the present. Ensembles from duos to quintets explore literature from various periods and for various instrumentations. Emphasis is placed on interpretation and style. Note: Audition is required. Please contact the instructor at extension 5621 prior to the first class meeting. Students must provide an appropriate instrument. Prerequisite: The ability to perform on a standard string, wind, or keyboard instrument is required. Transfer Credit: CSU, UC, USC

150
BEGINNING GUITAR
1.0 Unit
Music 150 is an introductory course in playing the guitar. Students will learn basic playing technique, tuning, chords, and scales. An emphasis is placed on reading and performance of music in the open position. Repertoire will be drawn from a diverse set of styles including but not limited to classical, folk, blues, rock, and jazz. No previous musical training or experience on the guitar is required. Prerequisite: None. Transfer Credit: CSU, UC

152
STRING ENSEMBLE
0.5 to 1.0 Units
Music 152 is a small instrumental group which plays for college and community activities. Emphasis is on balance, dynamics, phrasing, and interpretation. Note: Audition is required. Please contact the instructor at extension 5621 prior to the first class meeting. Performance 3 hours. Prerequisite: Ability to play a musical instrument in a band or orchestra. Transfer Credit: CSU, UC, USC

150
BEGINNING GUITAR
1.0 Unit
Music 150 is an introductory course in playing the guitar. Students will learn basic playing technique, tuning, chords, and scales. An emphasis is placed on reading and performance of music in the open position. Repertoire will be drawn from a diverse set of styles including but not limited to classical, folk, blues, rock, and jazz. No previous musical training or experience on the guitar is required. Prerequisite: None. Transfer Credit: CSU, UC

152
STRING ENSEMBLE
0.5 to 1.0 Units
Music 152 is a small instrumental group which plays for college and community activities. Emphasis is on balance, dynamics, phrasing, and interpretation. Note: Audition is required. Please contact the instructor at extension 5621 prior to the first class meeting. Performance 3 hours. Prerequisite: Ability to play a musical instrument in a band or orchestra. Transfer Credit: CSU, UC, USC
153  CONTEMPORARY GUITAR I
1.0 Unit
Music 153 is a course in guitar playing in a variety of contemporary styles. Students will learn contemporary guitar techniques, triads, moveable chords, major scales, and minor scales. Emphasis is placed on reading music in the lower positions of the guitar in several keys. Repertoire will be drawn from a variety of contemporary guitar styles including but not limited to country, rock, blues, and jazz. Lecture 5 hours. Prerequisite: MUSIC 150 or equivalent. Transfer Credit: CSU, UC

154  CONTEMPORARY GUITAR II
1.0 Unit
Music 154 continues the study of guitar playing in a variety of contemporary styles. Students will continue to develop contemporary guitar techniques, triads, extended chords, moveable chords, major scales, and minor scales. Emphasis is placed on reading beyond the open position in multiple keys. Repertoire will be drawn from a variety of contemporary guitar styles including but not limited to country, rock, blues, and jazz. Lecture 5 hours. Prerequisite: Music 153 or equivalent. Transfer Credit: CSU, UC

155  CONTEMPORARY GUITAR III
1.0 Unit
Music 155 continues the study of guitar playing in a variety of contemporary styles. Students will continue to develop contemporary guitar techniques at intermediate and advanced levels. Emphasis is placed on reading in multiple positions in all keys and reading at sight. Repertoire will be drawn from a variety of contemporary guitar styles including but not limited to country, rock, blues, and jazz. Lecture 5 hours. Prerequisite: Music 154 or equivalent. Transfer Credit: CSU, UC

156  CLASSICAL GUITAR I
2.0 Units
Music 156 is for students who wish to learn the elementary techniques of guitar playing. Included are the studies of fundamental music reading, skills, notation for guitar, tuning, playing techniques, fingerings, key signatures and scales, and the performance of easy solo guitar music in the first position. Another aspect of the course is to foster an appreciation for the classic guitar, its literature and performing artists. No previous musical training is required. Note: Students are required to have a standard six (6) string guitar to use in class and are expected to practice one (1) hour a day. Lecture 1 hour, lab 1 hour. Prerequisite: None. Transfer Credit: CSU, UC, USC

157  CLASSICAL GUITAR II
2.0 Units
Music 157 continues with the study of basic classic guitar techniques. Dynamics, ligados, and grace Notes are introduced. Students become acquainted with the entire fingerboard through scales in the 2nd, 4th, 5th, 7th, and 9th positions, and also through selected compositions for the guitar from the 18th and 19th centuries, and solo arrangements of familiar tunes. Chord structure is discussed and applied to the fingerboard. Note: Students are required to have a standard six (6) string guitar to use in class and are expected to practice one (1) hour a day. Lecture 1 hour, lab 1 hour. Prerequisite: MUSIC 156 or equivalent. Transfer Credit: CSU, UC, USC

158  CLASSICAL GUITAR III
2.0 Units
Music 158 proceeds with techniques and compositions of intermediate level. Included for study are selected pieces from the Renaissance, Baroque, Classic, and Romantic eras, as well as solo arrangements of familiar tunes. Knowledge of the entire fingerboard is further enhanced by the practice of two and three octave scales. Basic skills for transcribing music written for keyboard are introduced. Note: Students are required to have a standard six (6) string guitar to use in class and are expected to practice one (1) hour a day. Lecture 1 hour, lab 1 hour. Prerequisite: MUSIC 157 or equivalent. Transfer Credit: CSU, UC, USC

159  CLASSICAL GUITAR ENSEMBLE
0.5 to 1.0 Units
Music 159 is for students who wish to learn the techniques used in performing guitar duos, trios, and quartets and who wish to perform with other instruments or with singers. Emphasis is placed on developing music reading skills and gaining additional familiarity with the guitar and its potential as an ensemble instrument. Selected works from the various periods of music history are rehearsed, and performed. Note: Students are required to have a standard acoustic guitar equipped with nylon strings for use in class and for practice outside of class. An audition may be required. Performance 3 hours. Prerequisite: MUSIC 157 or equivalent. Transfer Credit: CSU, UC, USC

160  PIANO I
2.0 Units
Music 160 is designed for students who wish to gain an elementary knowledge of piano keyboard and the rudiments of music reading. The content of the course will be based on the assumption that students have had no previous musical training. Note: Music 160 is not open to students having previous instruction or experience in piano playing. It is recommended that the student have a piano available for practice and is expected to practice one (1) hour a day. Lecture 2 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

161  PIANO II
2.0 Units
Music 161 is a course for the advancement of the beginning pianist in skills, interpretation and tonal coloring. Note: It is recommended that the student has a piano available for practice and is expected to practice one (1) hour a day. Lecture 2 hours. Prerequisite: MUSIC 160 or one-half year of piano experience. Transfer Credit: CSU, UC, USC

162  PIANO III
2.0 Units
Music 162 covers the theory and interpretation of works from the preclassical, classical, and romantic periods as well as modern or contemporary music. Emphasis on development of technique, style, tone-color, dynamics and phrasing. Note: It is recommended that the student has a piano available for practice and is expected to practice one (1) hour a day. Lecture 2 hours. Prerequisite: MUSIC 161 or one year of piano experience. Transfer Credit: CSU, UC, USC

163  PIANO WORKSHOP
1.0 Unit
Music 163 is for advanced students who can benefit from individual study and supervised practice time. Piano Lab allows students to study solo repertoire, accompanying, ensemble playing, sight-reading, and improvisation. Lecture 1 hour, lab 1 hour. Prerequisite: MUSIC 161 or equivalent. Transfer Credit: CSU, UC, USC
170 MUSIC THEATRE WORKSHOP 3.0 Units
Music 170 is designed to provide training and experience in the art of musical theatre. Performance of a major production is the objective of the course. Students have the opportunity to participate in the rehearsals and the development of the performances. Course work provides experience in the techniques of stage ensemble, acting, technical stage, costuming, and makeup. Auditions are held for all roles. Lecture 2 hours, lab 3 hours. Prerequisite: Ability to sing with good pitch and acceptable vocal quality. Transfer Credit: CSU, UC, USC

171 INTRODUCTION TO MUSIC BUSINESS 3.0 Units
Music 171 offers musicians an introduction to the career aspects of the music industry. Jobs and roles in the music industry are examined including: songwriters, film and TV composers, arrangers, publishers, producers, engineers, record companies, retail, promotion, manufacturing, distribution, agents, music law, and managers. The course examines copyright legalities, the recording industry, and entrepreneurial opportunities for musicians. Students will learn about possible fields of employment and how to effectively present themselves to employers in the music industry. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

175 SYNTHESIZER-ELECTRONIC MUSIC I 3.0 Units
Music 175 is a study of the synthesizer and electronic music through discussion of the history and literature and the practical use of electronic instruments. Lecture 3 hours. Prerequisite: None.

176 POPULAR SONGWRITING 3.0 Units
Music 176 is designed for students who have a basic knowledge of music and music notation. Students learn how the components of lyrics, melody, and chords fit together within the verses, chorus, and bridge of a popular song. In addition, students develop an awareness of the stylistic traits that distinguish different types of popular music. Students are also introduced to the relevant aspects of the music publishing industry, including copyright law. Note: Music 176 is designed for students who have a basic knowledge of music. During the semester, students are required to write songs in different styles. Students must be able to perform their compositions and have the necessary skills to make simple audiotape record-177 INTRODUCTION TO MUSIC TECHNOLOGY AND SEQUENCING 2.5 Units
Music 177 offers an introduction to the current applications of computers and software used in music creation, music sequencing, and music notation. A thorough understanding of current practices in music technology is essential to a musician's success in today's creative world. Students learn how recording, synthesis, notation, and electronic music creation were practiced before the era of desktop computers. Students learn how to use current music software to create music with an emphasis on the musical instrument digital interface (MIDI), sequencing, and synthesis. Students also learn to use notation software to create and display readable music. Lecture 2.5 hours. Prerequisite: None. Transfer Credit: CSU

178 INTRODUCTION TO RECORDING AND DIGITAL AUDIO PRODUCTION 2.5 Units
Music 178 offers an introduction to sound recording, acoustics, digital audio, and signal processing. Students learn audio terminology, audio hardware operation, digital audio workstation (DAW) operation, and audio engineering techniques. Hardware studied includes microphones, cables, monitors, recorders, consoles, and signal processors. Students experience hands-on use of current music production software. Students also learn about recording studio procedures, jobs in the recording industry, mixing techniques, mastering, post production, and the production manufacturing process. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

230 CHORUS 0.5 to 1.0 Units
Music 230 is a beginning course in the appreciation and performance of standard choral literature, with special emphasis on principles of part singing, vocal control, interpretation, diction, phrasing, and breath control. Public performances may be required. Note: An audition is required. Performance 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

231 COLLEGE CHOIR 0.5 to 1.0 Units
Music 231 is a beginning course in the appreciation and performance of advanced choral literature, with special emphasis on principles of part singing, vocal control, interpretation, diction, phrasing, and breath control. Public performances may be required. Note: Students must demonstrate the ability to match pitches and maintain steady rhythm. An audition may be required. Performance 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

232 CHAMBER CHORALE: WINTER PRODUCTIONS 0.5 to 1.0 Units
Music 232 is a course in the appreciation and performance of choral literature written for treble voices. Emphasis is placed on music written prior to 1800 and appropriate seasonal literature. Public performance is required. Note: Students must have the ability to match pitches and maintain a steady rhythm. An audition is required. Performance 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

233 CHAMBER CHORALE: FESTIVAL 0.5 to 1.0 Units
Music 233 is a course in the appreciation and performance of choral literature written for treble voices. Emphasis is placed on music written after 1800 and other art music suitable for performance at adjudicated festivals. Public performance is required. Note: Students must have the ability to match pitches and maintain a steady rhythm. An audition is required. Performance 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

234 CONCERT SINGERS: MADRIGAL FEASTE 0.5 to 1.0 Units
Music 234 is a course in the appreciation and performance of traditional choral literature. Emphasis is placed on music composed prior to 1700. Public performance is required. Note: Students must demonstrate the ability to match pitches and maintain steady rhythm. An audition is required. Performance 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC
235 \textbf{CONCERT SINGERS: MASTERWORKS} \\
0.5 to 1.0 Units

Music 235 is a course in the appreciation and performance of large-scale choral masterworks composed with orchestral or instrumental ensemble accompaniment. Emphasis is placed on music composed after 1600. Public performance is required. \textit{Note:} Students must demonstrate the ability to match pitches and maintain steady rhythm. An audition is required. Performance 3 hours. \textbf{Prerequisite:} None. \textbf{Transfer Credit:} CSU, UC, USC

236 \textbf{VOCAL ENSEMBLE: HOLIDAY REVIEW} \\
0.5 to 1.0 Units

Music 236 is the study and performance of choral literature composed for small vocal ensembles. Vocal music in both popular and jazz idioms is studied. Some of the music may be choreographed. \textit{Note:} An audition is required. Membership in other performance groups may be required. Performance 3 hours. \textbf{Prerequisite:} None. \textbf{Transfer Credit:} CSU, UC, USC

237 \textbf{VOCAL ENSEMBLE: JAZZ/SHOW CLASSICS} \\
0.5 to 1.0 Units

Music 237 is the study and performance of choral literature composed for small vocal ensembles. Vocal music in both show (popular) and jazz idioms is studied. Some of the music may be choreographed. \textit{Note:} An audition is required. Membership in other performance groups may be required. Performance 3 hours. \textbf{Prerequisite:} None. \textbf{Transfer Credit:} CSU, UC, USC

238 \textbf{CHORALOGRAPHY} \\
0.5 to 1.0 Units

Music 238 is the study and performance of movement for choral literature composed for small vocal ensembles. Vocal music in both popular and jazz idioms is studied in this course. Some traditional seasonal music is also studied. Emphasis is placed on movement that is appropriate for the choral singer. \textit{Note:} An audition with the instructor is required. Membership in other performance groups may be required. Performance 3 hours. \textbf{Corequisite:} MUSIC 236 or 237. \textbf{Transfer Credit:} CSU, UC, USC

239 \textbf{TOUR CHOIR} \\
0.5 to 1.0 Units

Music 239 is a course which offers singers the opportunity to travel and perform choral masterworks in the great performance halls and churches of the world. Emphasis is placed on a combination of American literature and on the literature of the countries that are visited on the tour. All solo material is performed by members of the tour choir. \textit{Note:} Students must demonstrate good musicianship, be able to sing on pitch, maintain steady rhythm and display a sensitivity to choral blending of voices. An audition may be required. See instructor for estimated cost. Performance 3 hours. \textbf{Prerequisite:} None. \textbf{Transfer Credit:} CSU

240 \textbf{CONCERT SINGERS: HOLIDAY CONCERT} \\
0.5 to 1.0 Units

Music 240 is a course in the appreciation and performance of traditional choral literature. Emphasis is placed on non-orchestral music composed for the winter holiday season. Public performance is required. \textit{Note:} Students must demonstrate the ability to match pitches and maintain steady rhythm. An audition is required. Performance 3 hours. \textbf{Prerequisite:} None. \textbf{Transfer Credit:} CSU

241 \textbf{CONCERT SINGERS: TRADITIONAL} \\
0.5 to 1.0 Units

Music 241 is a course in the appreciation and performance of traditional choral and small-scale choral literature from the Renaissance, Baroque, Classical, and Romantic eras. Both a cappella and keyboard-accompanied literature will be studied. Emphasis is placed on music composed before the 20th century. Public performance is required. \textit{Note:} Students spend 8 hours outside of class at off-campus rehearsals and scheduled performances. Students must demonstrate the ability to match pitches and maintain steady rhythm. An audition is required. This course may be taken 4 times, a maximum of 4 units may be earned. Performance 3 hours. \textbf{Prerequisite:} None. \textbf{Transfer Credit:} CSU, UC, USC

242 \textbf{CONCERT SINGERS: CONTEMPORARY} \\
0.5 to 1.0 Units

Music 242 is a course in the appreciation and performance of contemporary choral literature. Emphasis is placed on music composed during the 20th and 21st centuries. Public performance is required. \textit{Note:} Students spend 8 hours outside of class at off-campus rehearsals and scheduled performances. Students must demonstrate the ability to match pitches and maintain steady rhythm. An audition is required. Performance 3 hours. \textbf{Prerequisite:} None. \textbf{Transfer Credit:} CSU, UC, USC

\textbf{NATIONAL FIELD STUDIES}

47 \textbf{NATIONAL FIELD STUDIES} \\
1.0 to 3.0 Units

National Field Studies 047 provides college credit for travel and study in the United States at the student's own expense in programs provided by agencies approved in advance by the college and under the direction of a Glendale Community College instructor. This course may be offered in all disciplines. \textit{Note:} Each repetition must be in a different state and/or area of the United States. Lecture 1 to 3 hours, lab 3 to 9 hours. \textbf{Prerequisite:} None. \textbf{Transfer Credit:} CSU

\textbf{NURSING SCIENCE}

The Health Sciences Division offers a variety of courses and programs in the health care field. Semester length courses include the Emergency Medical Technician which prepare students to apply for and take their respective certifying examinations. An Alcohol/Drug Studies Program is also offered (see listing under that heading in this catalog). These programs are described in the Associate in Science Majors and Certificate programs section of this catalog.

200 \textbf{NURSING PERSPECTIVES} \\
1.5 Units

Nursing Science 200 presents an overview of current health and nursing practice issues with their historical influences. Topics provide the novice nurse an overview of historical and philosophical viewpoints regarding regulatory scopes of practice, ethics and law, interdisciplinary roles, communication, health, and health care delivery trends. Lecture 1 ½ hours. \textbf{Prerequisite:} Selection for enrollment in the Registered Nursing Program. \textbf{Transfer Credit:} CSU

201 \textbf{NURSING SEMINAR I} \\
1.0 Unit

Nursing Science 201 provides an enrichment opportunity for all level one nursing students to further explore the application of medical-surgical, fundamentals, and pharmacologic classroom content to the clinical situation. The course includes discussion, demonstration, computer simulation, guided practice, and audiovisual presentations. Laboratory 3 hours. \textbf{Prerequisite:} Selection for enrollment in the Registered Nursing Program. \textbf{Transfer Credit:} CSU
202
NURSING SEMINAR II
1.5 Units
Nursing Science 202 provides an enrichment opportunity for all level two nursing students to further explore the application of medical-surgical, psychiatric, and pharmacologic classroom content to the clinical situation. The course includes discussion, demonstration, computer simulation, guided practice, and audiovisual presentations. Note: This is an optional but highly recommended class in the Registered Nursing curriculum. Lecture 1 hour, Laboratory 1 ½ hours. Prerequisite: Completion of the first semester of the Registered Nursing Program, or previous completion of equivalent coursework. Corequisite: Enrollment in the second semester of the Registered Nursing Program. Transfer Credit: CSU

203
NURSING SEMINAR III
1.5 Units
Nursing Science 203 provides an enrichment opportunity for all level three nursing students to further explore the application of medical-surgical and maternal-child health classroom content to the clinical situation. Lifespan scenarios are given application emphasis. This course includes discussion, demonstration, computer simulation, guided practice, and audiovisual presentations. Note: This is an optional but strongly recommended class in the Registered Nursing curriculum. Lecture 1 hour, Laboratory 1 ½ hours. Prerequisite: Completion of the second semester of the Registered Nursing Program, or completion of equivalent coursework; or selection for the Career Ladder LVN-RN Program. Corequisite: Enrollment in the third semester of the Registered Nursing Program. Transfer Credit: CSU

204
NURSING SEMINAR IV
1.0 Unit
Nursing Science 204 provides an enrichment opportunity for all level four nursing students to further explore the application of medical-surgical nursing and leadership classroom content to the contemporary clinical situation. The class provides an arena for the student to practice career-planning and employment-seeking strategies as well as arrhythmia detection/identification and advanced intravenous skills. This course includes discussion, demonstration, computer simulation, guided practice, and audiovisual presentations. Note: An optional but highly recommended class in the Registered Nursing curriculum. Lecture ½ hour, Laboratory 1 ½ hours. Prerequisite: Completion of the third semester of the Registered Nursing Program, or previous completion of equivalent coursework. Corequisite: Enrollment in the fourth semester of the Registered Nursing Program. Transfer Credit: CSU

205
ESSENTIALS OF MEDICATION ADMINISTRATION
.5 Units
Nursing Science 205 is an introductory course which presents the basic knowledge required for safe medication administration. This course is the foundation for the subsequent two course pharmacology sequence and emphasizes the ability of the student to calculate correct drug dosages. The role of the nurse in pharmacologic therapy is presented, stressing individual accountability in the administration of medication. The way drugs work, their absorption, routes of administration, and rationale for use are thoroughly studied. Federal and state regulations which pertain to the administration of medications and regulation of controlled substances are examined. Lecture ½ hour. Prerequisite: Selection for enrollment in the Registered Nursing Program. Transfer Credit: CSU

208
PHARMACOLOGY FOR NURSING
2.5 Units
Nursing Science 208 introduces the nursing student to the basic knowledge of pharmacology required to administer medications. The nursing process and unmet human needs provide a framework for the study of selected classes of medications. The nurse’s role in promoting safe and effective pharmacologic therapy is stressed. The importance of health team communication and patient education is incorporated throughout the course. Emphasis is placed on teaching the patient/family and promoting compliance in medication management. Legal and ethical issues related to medication administration are integrated throughout. Note: No credit if taken after Nursing Science 206 and 207. Prerequisite: NS 205. Transfer Credit: CSU

210
FUNDAMENTALS OF NURSING
3.5 Units
Nursing Science 210 introduces the core concepts, principles, and clinical skills common to all areas and levels of nursing practice. It presents the delivery of nursing care based on a hierarchy of universal human needs which impact health, quality of life, and achievement of potential. The entry level student is introduced to the components and use of the nursing process. This course provides the basic platform of nursing knowledge, skills, and caring upon which subsequent nursing courses build. The student is introduced to health care resources for electronic information retrieval. Clinical experiences in the ambulatory and/or acute and long-term care health care settings and simulated experiences in the College Nursing Skills Laboratory are included. Lecture 1½ hours, Laboratory 6 hours. Prerequisite: Selection for enrollment in the Registered Nursing Program and completion of NS 200 and 205 or previous completion of equivalent coursework. Recommended preparation: Concurrent enrollment in NS 201. Transfer Credit: CSU

2010-2011 CATALOG • GLendale COMMUNITY COLLege
211 MEDICAL-SURGICAL NURSING I
3.5 Units
Nursing Science 211 introduces the student to the basic concepts involved in caring for the patient with a medical-surgical health problem. The course stresses unmet human needs and the nursing process as organizing frameworks for nursing knowledge and skills. Health care needs of the older adult are emphasized. This course continues to emphasize access and use of electronically obtained information related to nursing and health care. Clinical experiences which provide an opportunity for the student to apply theoretical concepts and utilize basic clinical skills are included. Lecture 11/2 hours, Laboratory 9 hours. Prerequisite: NS 205 and 210, or previous completion of equivalent coursework. Transfer Credit: CSU

212 MEDICAL-SURGICAL NURSING II
4.5 Units
Nursing Science 212 continues the study of the adult with unmet needs resulting from health problems. This course addresses the needs of patients across the adult life span whose health care needs require more complex nursing interventions and skill using the nursing process. The student is encouraged to build on skills gained from the previous semester in electronic acquisition and use of health care information. Clinical experiences are included which provide an opportunity for the student to apply theoretical concepts, think critically, and build clinical skills. Lecture 2 hours, Laboratory 71/2 hours. Prerequisite: Completion of the first semester of the Registered Nursing Program, or previous completion of equivalent coursework. Recommended preparation: Concurrent enrollment in NS 202 is highly recommended. Transfer Credit: CSU

213 MEDICAL-SURGICAL NURSING III
4.5 Units
Nursing Science 213 continues the study of the adult and the aging adult with unmet needs resulting from increasingly complex health problems. This course addresses the needs of patients/clients whose health care needs require complex nursing interventions and competence using the nursing process. Physical assessment is reintroduced at a more complex level, building on previous knowledge and experiences. A portion of clinical assignments focuses on the aging adult with complicated health care needs. Clinical experiences include acute and community-based experiences which provide an opportunity for the student to apply theoretical concepts, demonstrate critical thinking, and increase clinical skills. Lecture 2 hours, Laboratory 71/2 hours. Prerequisite: Completion of the first year of the Registered Nursing Program, or previous completion of equivalent coursework; or selection for enrollment in the Career Ladder LVN-RN Program. Recommended preparation: Concurrent enrollment in NS 214. Transfer Credit: CSU

214 MEDICAL-SURGICAL NURSING IV
6.0 Units
Nursing Science 214 continues the study of the adult with unmet needs resulting from complex health problems. This course addresses the needs of patients/clients whose health care needs require complex nursing interventions and proficiency in the use of the nursing process. Content includes licensure issues and leadership principles in preparation for entry into practice as a licensed registered nurse. Clinical experiences are structured in a preceptorship format to provide a greater opportunity for the student to apply theoretical concepts and manage multiple priorities, as well as refine critical thinking and clinical skills. Lecture 21/2 hours, Laboratory 101/2 hours. Prerequisite: Completion of the third semester of the Registered Nursing Program. Recommended preparation: Concurrent enrollment in NS 203. Transfer Credit: CSU

215 NURSING PRACTICE IN CONTEMPORARY SETTINGS
2.5 Units
Nursing Science 215 provides the fourth semester nursing student with the opportunity to integrate and apply previously learned skills and knowledge from all areas of nursing practice to new, current, and/or evolving health care settings. Classroom content focuses on the forces which have influenced modern health care in America as well as the sociological, political, and economic issues which shape the delivery of contemporary health care and the practice of nursing. Classroom and clinical experiences assist the student to acquire additional proficiency which will assist in securing an entry level registered nurse position. Lecture 11/2 hours, Laboratory 3 hours. Prerequisite: Completion of the third semester of the Registered Nursing Program. Corequisite: NS 214. Recommended preparation: Concurrent enrollment in NS 204. Transfer Credit: CSU

216 INTERMEDIATE CLINICAL EXPERIENCE
2.0 Units
Nursing Science 216 provides the more advanced nursing student with additional supervised clinical experience in the acute care hospital setting. Clinical assignments are intended to provide the opportunity for the student to augment previously learned basic nursing skills through repetition. The rotation is further designed to encourage the development of new nursing competencies and sets of skills by exposure to new assignments and experiences. Note: This course is designed for students who have completed the first year of the generic RN program. This course is graded Pass/No Pass only. Laboratory 12 hours (8 weeks). Prerequisite: NS 212 or equivalent. Transfer Credit: CSU

217 LVN-RN BRIDGE COURSE
1.0 Unit
Nursing Science 217 is an introduction for the LVN to the concepts central to registered nursing practice. The course clarifies the philosophy and theme which serve as the foundation for the registered nurse curriculum at Glendale Community College. It fosters clinical application of the nursing process and its integration into nursing practice. Note: Successful completion of this course is required for the Career Ladder student to remain enrolled in the Nursing Department. Lecture 3 hours (6 weeks). Prerequisite: Selection for the Nursing Program as a Career Ladder student, transfer student, or foreign nurse graduate. Transfer Credit: CSU
NURSING PHARMACOLOGY REVIEW AND UPDATE
1.5 Units
Nursing Science 218 encompasses a review of basic pharmacology content and dosage calculation, emphasizing pharmaceutical principles. Recent changes in medication administration safety measures are stressed, including intravenous medication administration. The course establishes a current foundation for pharmacological therapy in nursing by providing a review of drug classifications while giving prominence to recent changes in these classifications and representative agents. Lecture ¾ hours (6 weeks). Prerequisite: NS 217 (NS 217 may be taken concurrently.)

219 CLINICAL ENRICHMENT
2.0 Units
Nursing Science 219 provides the currently enrolled or returning nursing student with additional supervised clinical experience in the acute care hospital setting. Clinical assignments are intended to provide the opportunity for the student to strengthen previously learned basic nursing skills through repetition. The rotation is designed to improve general patient care skills by offering experiences that foster confidence, critical thinking, time management and prioritizing skills, and communication in the clinical setting. Note: This course is offered only as Pass/No Pass. Laboratory 18 hours (6 weeks). Prerequisite: NS 210 or equivalent.

NURSING STUDENT WORK-STUDY
3.0 Units
Nursing Science 220 is an elective nursing course designed to enhance the clinical expertise, judgment, and confidence of the intermediate RN nursing student. It is an intensive clinical experience in the form of a paid internship in a sponsoring acute care facility. Clinical experiences provide the student with an RN preceptor and the opportunity to practice previously learned nursing skills and knowledge in varied settings and situations. The consistent workplace assignments enhance the student’s future nursing employment opportunities and provide valuable insight into workplace expectations and realities. Note: Prior to enrolling in the course the student must apply for and be hired by the sponsoring health care facility as a student nurse worker. The student must then comply with the requirements of the hiring institution for completion of paperwork and criteria for employment. Students are assigned a clinical preceptor from the hiring institution and attend conferences held by an assigned Glendale Community College faculty member. College nursing faculty and hospital staff jointly provides student supervision and support. Offered as Pass/No Pass only. Laboratory 27 hours. Prerequisite: NS 212 or equivalent.

PSYCHIATRIC NURSING
3.5 Units
Nursing Science 222 focuses on the dynamics of adult clients undergoing acute and chronic psychosocial stress. The nursing process, including interviewing skills, is presented within a framework of total mental health team management. Therapeutic relationship is presented as a means of expressing caring. The causes of stress are identified from various theoretical perspectives. The student is encouraged to undertake self exploration and develop a concept of the individual that includes the ability to adapt as a result of successful human need fulfillment. The course provides the student with knowledge and understanding of the interrelatedness of developmental, environmental, cultural, socioeconomic and ethnic factors affecting psychosocial adaptation along the health-illness continuum. Laboratory experiences in mental health settings are included. Lecture 2 hours, Laboratory ¾ hours. Prerequisite: Completion of the first semester of the generic Registered Nursing Program, or equivalent coursework; or selection for the Career Ladder LVN-RN Program. Recommended preparation: Concurrent enrollment in NS 202 is highly recommended. Transfer Credit: CSU

MATERNAL CHILD HEALTH
5.5 Units
Nursing Science 223 focuses on the needs of the growing family and incorporates both maternity and pediatric nursing content. The nursing process is stressed as the student learns to adapt previously learned skills and knowledge to the unmet needs of the maternity and pediatric patient. Observation and direct care of normal and high risk populations are included. Theory and clinical experiences are structured to provide the second year nursing student with the opportunity to develop essential linkages for decision making and prioritization unique to this specialty. Lecture 3½ hours, Laboratory 7½ hours. Prerequisite: NS 222 or previous completion of equivalent coursework. Recommended preparation: Enrollment in NS 203 is highly recommended.

NURSING SEMINAR LEVEL II
1.0 Unit
Nursing Science 232 provides an enrichment opportunity for students enrolled in the second semester of the nursing curriculum to further explore and apply classroom content to clinical situations and scenarios. The course includes discussion, demonstration, computer simulation, guided practice, and audiovisual presentations. Note: This is an optional but highly recommended class in the Registered Nursing curriculum. Lecture/Demonstration ¾ hour, Laboratory ½ hour. Prerequisite: NS 211 or equivalent. Corequisite: NS 212 or 222.

NURSING SEMINAR III
1.0 Unit
Nursing Science 233 provides an enrichment opportunity for students enrolled in the third semester of the nursing curriculum to further explore and apply classroom content to clinical situations and scenarios. The course includes discussion, demonstration, computer simulation, guided practice, and audiovisual presentations. Note: This is an optional but highly recommended class in the Registered Nursing curriculum. Lecture/Demonstration ½ hour, Laboratory 1½ hours. Prerequisite: NS 212 or equivalent. Corequisite: NS 213 or 223.
250
HISTORY AND PRACTICE OF NURSING
2.0 Units
Nursing Science 250 provides an overview of the historical foundations of nursing, contemporary opportunities and issues in nursing, current issues in healthcare, and how these impact nursing practice and its contributions to the health care system. Emphasis is placed on California scope of nursing practice, ethics and legal aspects, and the physical, ethical, and psychosocial requirements needed to practice in this profession. Lecture 2 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151.

255
BASIC ELECTROCARDIOGRAPHY
2.0 Units
Nursing Science 255 is designed to provide an overview and introduce the novice healthcare provider to the basics of electrocardiography (EKG). Course content reviews principles of cardiac anatomy, physiology, and electrophysiology which are foundational to course content. Content includes cardiac hemodynamics, proper lead placement to obtain EKG waveforms, waveform identification, rate calculation, normal rhythm, and arrhythmia recognition and treatment. Note: This course is intended for nursing students, nurses, EMT students, EMTs, or individuals working in health care settings who have sufficient background knowledge to master the content and concepts. Lecture 2 hours. Prerequisite: None.

260
NURSING LABORATORY
1.0 Unit
Nursing Science 260 provides an enrichment opportunity for students who are enrolled in the registered nursing program. This course focuses on enrichment opportunities which allow the student added opportunity towards the development of skills, concepts, and activities which promote success within the nursing program. Laboratory 3 hours. Prerequisite: Selection for enrollment in the Registered Nursing Program.

116
OCEANOGRAPHY LABORATORY
1.0 Unit
Oceanography 116 is an introduction to the common laboratory practices and exercises on the physiochemical and geological aspects of oceanography. Laboratory 3 hours per week including 8 hours of supervised observations and data collection aboard an oceanographic research vessel. Prerequisite: OCEAN 115. (OCEAN 115 may be taken concurrently.) Transfer Credit: CSU, UC, USC

1116
PALEONTOLOGY
1.0 Unit
Paleontology 116 is an introduction to the common laboratory practices and exercises on the physiochemical and geological aspects of oceanography. Laboratory 3 hours per week including 8 hours of supervised observations and data collection aboard an oceanographic research vessel. Prerequisite: OCEAN 115. (OCEAN 115 may be taken concurrently.) Transfer Credit: CSU, UC, USC

1101
GENERAL PALEONTOLOGY
3.0 Units
Paleontology 101 is a survey of the classification and history of life including both plants and animals. It also includes an interpretation of the significance of fossils as evidence of organic evolution and the adaptations of life to its physical and biological environments. Students study the sequences of floras and faunas as found in the rocks. Note: A good high school record or second semester standing is recommended. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

11101
PHILOSSOPHY
3.0 Units
Philosophy 101 is an overview of the classical and modern problems of philosophy. A consideration of the nature of knowledge, views of the cosmos or world, and the problems of truth, beauty, ethics, and theology. Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

11112
HUMAN VALUES AND ENVIRONMENTAL ISSUES
2.0 Units
Philosophy 112 is a study of human attitudes toward the physical world and the biological organisms within it. Topics covered will be the definition of values, a study of historical viewpoints, and a brief assessment of the consequences of such attitudes in creating and/or solving environmental problems. The course will consider various ways in which a consciously considered value system might be deliberately applied to specific solutions. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

11113
COMPARATIVE WORLD RELIGIONS:
NEAR EAST
3.0 Units
Philosophy 113 is a comparative study of the salient ideas and philosophical developments in Zoroastrianism, Judaism, Christianity, Islam, and primitive and national religions of the past. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

11114
COMPARATIVE WORLD RELIGIONS:
FAR EAST
3.0 Units
Philosophy 114 is a comparative study of the salient ideas and philosophical developments in Hinduism, Buddhism, other Indian religions, Taoism, Confucianism, and Shinto. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

11116
ETHICS FOR MODERN LIFE
3.0 Units
Philosophy 116 is an analysis of the concept of the good, the scope of morality, the deterministic controversy, the ethical yardsticks, and the major ethical systems and their roots. Attention is given to contemporary positivism, John Dewey, Marxist ethics, authority as an ethical principle, intuitionism, egoistic hedonism, utilitarianism, ethical idealism, Immanuel Kant, modern Aristotelianism, and existentialism and recent ethical theories. The nature and scope of contemporary moral problems are also examined. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC
118

WOMEN, THE EARTH, AND THE DIVINE  
3.0 Units

Philosophy 118 introduces students to the relationship between social domination of women and domination of the rest of nature. The goal of this course is to help students develop skills in analyzing the impact of the world’s major religions on the lives of women in both the majority and minority cultures and on the life of the planet earth. Topics covered are the definition of values, a study in viewpoints of the major religious traditions, such as Hinduism, Buddhism, Judaism, Christianity and Islam. This course also offers a brief assessment of the consequences of such attitudes in creating and/or solving women’s as well as environmental problems in the United States. Emphasis is placed on developing judgment in the use of primary or secondary sources, and helping students discern what sources they should or should not trust. The course considers the differences among applications of deliberately selected value systems with respect to the treatment of women in the United States. In addition, it presents how the treatment of women in minority cultures affects cross cultural understanding and affects the attitudes of the majority towards minorities. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

119

HISTORY OF PHILOSOPHY: ANCIENT PERIOD  
3.0 Units

Philosophy 119 is a critical study of the philosophic systems and ideas of the Western civilization from the ancient Greeks to the end of the Medieval period, with special emphasis on the Pre-Socratics, Plato, Aristotle, Roman philosophical thinkers, and the impact of Christian thought on Western culture. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

120

HISTORY OF PHILOSOPHY: MODERN PERIOD  
3.0 Units

Philosophy 120 is a critical study of the philosophic systems and ideas of the modern period which have had a dominant impact on Western civilization, with special emphasis on Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, Kant, Hegel, Marx, Nietzsche, twentieth century British and American philosophers. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

121

ISLAM: A WAY OF LIFE  
3.0 Units

Philosophy 121 is a study of Islam as both a religion and a culture. The study of the religion includes a consideration of beliefs and practices of the faith, and the history of the man, Muhammad, who revealed the faith. The study of the culture includes a consideration of the early successors to Muhammad, religious movements and sects, philosophy, science, and political power. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

122

LATIN AMERICAN PHILOSOPHY  
3.0 Units

Philosophy 122 is the study of the various forms which philosophy has taken in Latin America. The course examines the background of Inca, Aztec, and European thought patterns. It emphasizes philosophy of civilization and philosophy of art, including the contributions of the Mexican muralist. Representative viewpoints, such as scholasticism, romanticism, and evolutionism are described. The course underlines the vitality of Latin American positivism, and it concludes with rival twentieth century currents of thought. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

123

INTRODUCTION TO SYMBOLIC LOGIC  
3.0 Units

Philosophy 123 introduces students to the calculus of propositional and predicate logic to enable students to formally evaluate arguments. Students will learn to translate English arguments, use truth tables, create natural deduction derivations, use defined identity relations, acquire a precise understanding of soundness and validity, and to begin to develop a working grasp on logic meta theory. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

100

CAMERAS AND COMPOSITION  
2.5 Units

Photography 100 is a beginning photography course in which students will be introduced to basic camera features and photo composition. The course covers consumer level digital camera and 35mm film camera features such as the aperture, shutter, and light meter, methods to obtain proper exposures and creative control, and composition to improve image quality. Projects are shot applying course information and sent to a commercial lab for processing and printing. Students must provide their own digital SLR camera. Emphasis is placed on composition and print quality throughout the course. Lecture 2½ hours. Prerequisite: None. Transfer Credit: CSU

101

INTRODUCTION TO PHOTOGRAPHY  
4.0 Units

Photography 101 is a beginning photography course in which students will be introduced to basic camera features and photo composition. The course covers consumer level digital camera and 35mm film camera features such as the aperture, shutter, and light meter, methods to obtain proper exposures and creative control, and composition to improve image quality. Students will learn to process and print traditional black and white photos as well as digital methods of image production. Emphasis is placed on print quality and composition throughout the course. This is a foundation course required for the photography certificate. Lecture 1, studio 2 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

102

BLACK AND WHITE DARKROOM LAB  
1.0 Unit

NON-DEGREE APPLICABLE

Photography 102 enables photography students to have additional supervised black and white studio time, and to increase their technical and design skills relative to concurrent enrollment in a black and white photography course. Studio 4 hours. Prerequisite: None.
103 BLACK AND WHITE II
WITH DARKROOM
4.0 Units
Photography 103 is an in-depth examination of traditional black and white films and paper. The course covers the Zone System method of pre-visualizing the subject as it would appear in the final print before making the exposure, then gearing the exposure, developing, and printing processes towards reproducing the pre-visualized tones. Included in the course are film, paper, and chemical characteristics. Students create projects using course information. Print quality, and design are emphasized throughout the course. Lecture 2 hours, studio 4 hours. Prerequisite: PHOTO 101 or equivalent. Transfer Credit: CSU

104 COLOR DARKROOM LABORATORY
1.0 Unit
NON-DEGREE APPLICABLE
Photography 104 enables photography students to have additional supervised color studio time, and to increase their technical and design skills relative to concurrent enrollment in a color photography course. Studio 4 hours. Prerequisite: None.

106 LIGHTING I
4.0 Units
Photography 106 is a course in which students explore the creative use of available light, studio hot lamps, and on-camera flash. The course covers principles of light, on-camera flash techniques, exposure control, and light effects on image design. Students create projects using course content. Emphasis is placed on composition and print quality throughout the course. Lecture 2 hours, studio 4 hours. Prerequisite: PHOTO 101 or equivalent.

107 SPECIAL PROJECTS
2.0 to 4.0 Units
Photography 107 is designed for advanced photo students to concentrate on a single project during the course. The student will explore and combine an aesthetic and expressive use of the photographic medium to complete projects with developed artists’ statements. Research and reading assignments will be made where applicable. Lecture 1 to 2 hours, studio 2 to 4 hours. Prerequisite: PHOTO 106 or equivalent. Transfer Credit: CSU

109 COLOR PHOTOGRAPHY I
2.0 Units
Photography 109 is a beginning color photo course covering the fundamentals of color printing from color negatives using RA-4 process. Students are introduced to additive and subtractive color theory, working with color schemes, color printing procedures and print presentation methods. Students create projects using course information. Print quality and design are emphasized throughout the course. Lecture 1 hour, studio 2 hours. Prerequisite: PHOTO 101 or equivalent. Transfer Credit: CSU, UC, USC

110 COLOR SLIDE PHOTOGRAPHY
3.0 Units
Photography 110 covers the basic knowledge and steps involving E-6 film processing (color transparencies), printing from color slides by tube processing, characteristics of light, color theory, film, and paper. Emphasis is on color printing techniques and the development of personal ideas. Lecture 2 hours, studio 4 hours. Prerequisite: PHOTO 101 or equivalent. Transfer Credit: CSU

112 LIGHTING II
4.0 Units
Photography 112 is a course in which students work in the lighting studio using strobes. The course covers principles of studio light, key, fill, background setups, exposure control for strobes, and portrait and still life techniques. Students create projects using course information. Print quality and design are emphasized throughout the course. Lecture 2 hours, studio 4 hours. Prerequisite: PHOTO 106 or equivalent.

114 VIEW CAMERA
4.0 Units
Photography 114 explores the 4” x 5” film based view camera and operations as related to outdoor and studio shooting. The course covers large format aperture and shutter features, camera movements, exposure calculations, and film processing and printing. Lecture 2 hours, studio 4 hours. Prerequisite: PHOTO 106 or equivalent.

115 PROFESSIONAL PRACTICES FOR PHOTOGRAPHERS
2.0 Units
Photography 115 is an advanced photography course covering principals and practices within the field for hire or exhibition. Students will construct artist resumes and artist statements related to their work. Course includes promotion, portfolio layout, releases, estimates, invoices, gallery negotiations, and image licensing issues for photographers. Students must have a developed body of photographic work that will be used for class projects. Lecture 5 hours. Prerequisite: PHOTO 106 or equivalent.

117 ALTERNATIVE PROCESSES
3.0 Units
Photography 117 is a course that introduces the student to a variety of alternative photographic processes, such as Cyanotype, Van Dyke, and Xerox Transfer. The course covers negative making for alternative processes, mixing light sensitive formulas, and hand-coating formulas onto paper. Print exposure is not made with the darkroom enlarger, but with an ultraviolet light source. Print quality, concept, and design are emphasized throughout the course. Lecture 2 hours, studio 4 hours. Prerequisite: PHOTO 101 or equivalent.

118 DOCUMENTARY PHOTOGRAPHY
4.0 Units
Photography 118 is a photo course focusing on documentary approaches in photography. Students are introduced to and guided through documentary styles, project and theme development, and technical and design techniques used to communicate theme. Students create a series of related images using course information. Print quality, concept, and design are emphasized throughout the course. Lecture 2 hours, studio 4 hours. Prerequisite: PHOTO 106 or equivalent.

121 PHOTOSHOP I
3.0 Units
Photography 121 introduces students to basic imaging techniques using Photoshop, an industry standard graphics software and image editor. Students will work with tools, layers, adjustments, and layer masks to create graphics, enhance images, and composite. Students create projects using course information. Lecture 2 hours, studio 4 hours. Prerequisite: None.
122 PHOTO SHOP II
3.0 Units
Photography 122 is a second level Photoshop course for students who already have a solid understanding of Photoshop basic tools and techniques. Existing Photoshop skills are built upon to create high-resolution composites images. Special effects, and advanced methods of layout, composing, masking, and image enhancing are covered in the course. Students create projects using course information. Lecture 2 hours, studio 4 hours. Prerequisite: PHOTO 121 or equivalent.

124 PHOTO RETOUCHING
4.0 Units
Photography 124 is a second level Photoshop course focusing on professional methods in retouching photographs for publication. The course covers background removal advanced masking, hair masking, beauty retouching, body reshaping, contrast and color corrections, sharpening, workflow strategies, and non-destructive methods of working. Students work with their own photos to apply course information. Lecture 2 hours, studio 4 hours. Prerequisite: PHOTO 121 or equivalent.

125 PHOTO SHOP TEXTURES
2.5 Units
Photography 125 is a second level Photoshop course in which students create textures such as fabric, metal, wood, stone, and elements such as rain, lightning, oceans, skies, and planets, using the application's filters, painting tools, and other features. Students create projects using course information. Image designs and concepts are emphasized throughout the course. Lecture 2 hours, studio 1 hour. Prerequisite: PHOTO 125 or equivalent.

127 PHOTO SHOP TEXT EFFECTS
2.5 Units
Photography 127 is a second level Photoshop course in which students create text effects such as fire, plastic, neon and metal text using the application's filters, layer styles, channels, painting tools, and other features. Students create projects using course information. Image designs and concepts are emphasized throughout the course. Lecture 2 hours, studio 1 hour. Prerequisite: PHOTO 121 or equivalent.

128 DIGITAL PHOTOGRAPHY WORKFLOW
2.5 Units
Photography 128 teaches the use of industry standard software to manage and organize large volumes of digital photographs. After a photo shoot, the digital workflow for a photographer is to organize and prepare their files for final output. Import, edit, ranking, metadata, image adjustments, automation features, and output methods are covered in the course. Students will work on projects using their own digital images. Lecture 2 hours, studio 1 hour. Prerequisite: PHOTO 100 or equivalent.

129 DIGITAL DARKROOM
2.5 Units
Photography 129 is a course which focuses on Photoshop fundamentals appropriate to photography as a digital darkroom. Students are introduced to Photoshop basics, and such methods as adjustment layers to control contrast and color, basic retouching, compositing and background removal with masks, sharpening techniques, and automating tasks. Students will produce several projects with created images and photos on the Macintosh computer. Lecture 2 hours, studio 1 hour. Prerequisite: PHOTO 100 or equivalent.

130 DIGITAL PHOTOGRAPHY
4.0 Units
Photography 130 is an advanced digital course which introduces students to professional digital SLR (Single Lens Reflex) and medium format camera features, capture, file types, working with an image editor, file archiving, basic image corrections, and output and delivery methods. Students work with professional digital cameras to create projects emphasizing commercial photo concepts. Lecture 2 hours, studio 4 hours. Prerequisite: PHOTO 106 or equivalent.

140 FINE ART PHOTOGRAPHY
4.0 Units
Photography 140 is a photo course focusing on fine art approaches in photography. Students are introduced to and guided through artistic styles, project and theme development, and technical and design techniques used in fine art photography. Students create self-motivated projects intended for exhibition within a fine art context. Print quality, concept, and design are emphasized throughout the course. Lecture 2 hours, studio 4 hours. Prerequisite: PHOTO 106 or equivalent.

142 COMMERCIAL PHOTOGRAPHY
4.0 Units
Photography 142 is a photo course focusing on editorial and commercial approaches in photography. Students are introduced to and guided through editorial styles, project and theme development, and technical and design techniques used in commercial photography. Students create projects to fulfill specified criteria as they would in a professional setting. Print quality, concept, and design are emphasized throughout the course. Lecture 2 hours, studio 4 hours. Prerequisite: PHOTO 106 or equivalent.

145 CONTEMPORARY PHOTOGRAPHY AND PRACTICES
2.0 Units
Photography 145 is a survey of techniques and practices of contemporary photographers and their relationship to past practices and movements within Photography. Current trends in photographic image making will be presented. Students will examine the crossover of fine art, documentary, commercial and editorial practices as well as the impact of digital methods in photography. Lecture 2 hours. Prerequisite: PHOTO 100 or equivalent.

150 2D DIGITAL FULLDOME IMAGING I
3.0 Units
Photography 150 is an introductory course which covers the fundamentals of digital fulldome 2D content creation. Students will be introduced to the fulldome environment and its production methods. Students will learn to create and manipulate two-dimensional large scale images, as well as, create basic 2D dome productions in a digital planetarium. Industry standard software, Adobe Photoshop will be used to enhance images, create image file formats, and set resolutions appropriate for the fulldome environment. SkySkan's Digital Sky software will be used to create the 2D productions. Lecture 2 hours, studio 4 hours. Prerequisite: PHOTO 121 or equivalent.
2D DIGITAL FULLDOME IMAGING II
3.0 Units
Photography 155 is an advanced level digital fulldome course in which students work in teams to create fully developed, complex productions for a planetarium. Industry standard software, SkySkan’s Digital Sky will be used to create productions. Lecture 2 hours, studio 4 hours. Prerequisite: PHOTO 150 or equivalent.

DESIGNING WEB GRAPHICS
(Also listed as Art 250)
2.5 Units
Photography 250 is an introductory Web graphic course that covers Web design principles and Web graphic creation and preparation for use in the design of Web sites. Emphasis is placed on project planning and Web environment issues that affect design. Students create assigned projects with industry standard software, Adobe Illustrator and Photoshop. Concept and design are emphasized throughout the course. Lecture 2 hours, studio 1 hour. Prerequisite: None.

WEB DESIGN WITH DREAMWEAVER
(Also listed as Art 251)
3.0 Units
Photography 251 is an intermediate-level web design course. Using industry standard software, students design and create web pages, using layout controls, tables, frames, layers, cascading style sheets, form creation, various types of links, roll-overs, and layer animation. Design quality and concept are emphasized throughout the course. Note: Students who have completed Art 251 may not take this class for credit. Lecture 2 hours, studio/lab 2 hours. Prerequisite: ART/PHOTO 250 or equivalent.

WEB DESIGN WITH FLASH
(Also listed as Art 255)
3.0 Units
Photography 255 is a web design course using industry standard software to create full-page, interactive vector-based web animations. Students learn the construction of multiple-layered animations with interactive buttons, movieclips, graphics, and embedded sound files with optimization for the web. Design quality and concept are emphasized throughout the course. Note: Students who have completed Art 255 may not take this class for credit. Lecture 2 hours, studio/lab 2 hours. Prerequisite: ART/PHOTO 250 or equivalent.

ADVANCED WEB DESIGN WITH FLASH
(Also listed as Art 257)
4.0 Units
Photography 257 is an Adobe Flash course that covers ActionScripting for Web designers. Emphasis is placed on project planning and Web environment issues that affect design. Students create projects with industry standard software such as Adobe Illustrator in addition to Adobe Flash. Aesthetic presentation and its relationship to design ergonomics are emphasized throughout the course. Lecture 2 hours, studio 4 hours. Prerequisite: ART/PHOTO 255 or equivalent.

PHYSICAL EDUCATION
The Physical Education department offers a wide variety of activities to meet the varied interests of the Glendale College student. Two units of physical education are required in order to be eligible for the Associate in Arts and/or the Associate in Science degree. The following classes do not meet the physical education activity requirement: Dance 100, 102, 107, 158; Physical Education 111-116, 120, 124, 125, 126, 128, 146, 149, 155, 195, 196, 199, 228, 236. Students currently enrolled in the Registered Nursing Program are exempt from the P.E. graduation requirement. Individuals may be exempt from the physical education requirement upon presentation of evidence that they have a medical excuse on file.

It is recommended that a variety of activities be taken during a student’s attendance at Glendale Community College. Courses in dance satisfy the physical education requirement (except Dance 158). Physical education activity classes (except P.E. 107) may be taken four (4) times; a maximum of six (6) units may be earned in any one course. All classes are coeducational unless otherwise noted.

WELLNESS AND FITNESS LAB
1.0 to 2.5 Units
P.E. 101 is an open laboratory physical fitness course designed to develop and encourage positive attitudes and habits with regard to cardiovascular efficiency, body composition, muscular strength, endurance, and flexibility. Students are assessed in these areas and an individual fitness profile is established. Fitness activities primarily utilize exercise equipment which is organized into an aerobic super circuit. Additional activities are prescribed in an aerobic machine arena, a body parts weight training area, and a flexibility area. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

CARDIOVASCULAR FITNESS
1.0 to 2.5 Units
P.E. 102 is an open laboratory physical fitness course designed to enhance the student’s cardiovascular fitness level. The course emphasizes the development of positive attitudes and habits with regard to cardiovascular efficiency, body composition, muscular toning, and flexibility. Students are assessed in these areas and an individual fitness profile is established. Fitness activities primarily utilize exercise equipment which is organized into an aerobic super circuit. Additional activities are prescribed in an aerobic machine arena, cross training area, and a flexibility area. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

STEP AEROBICS
1.0 to 2.5 Units
P.E. 105 is a contemporary, high intensity, low impact fitness class, designed for both men and women, to improve each participant’s strength, flexibility, and cardiovascular fitness level through steady-state stepping movements. The student is exposed to a graduated continuous system of rhythmic stepping at various platform heights. The class includes lectures on basic nutrition, exercise concepts, and stress management as the factors apply to a personal fitness program. Class sessions include a warm-up, an exercise routine fitted to each student’s level of fitness, and a cool down. Note: A maximum of 6 units may be earned. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC
106 ADVANCED STEP AEROBICS  
1.0 to 2.5 Units  
PE. 106 is an advanced level, high intensity, low impact aerobic exercise class which utilizes sophisticated aerobic choreography to promote kinesiological awareness and mind/body integration. Students perform continuous, intricate, rhythmetrical stepping combinations, using a platform of increasing heights to promote cardiovascular fitness. Topics such as target heart rate, exercise technique, flexibility training, nutrition, and exercise-related injuries are discussed, as they pertain to lifestyle wellness. Classes include a warm-up, complex step combinations, a cool-down, a muscle strengthening/toning component, and flexibility training. Lecture ½-1½ hours, lab 1½-3½ hours. **Prerequisite:** None. **Transfer Credit:** CSU, UC, USC

107 PRINCIPLES OF LIFESTYLE FITNESS  
2.0 Units  
PE. 107 provides students with the information needed to make educated decisions about lifetime fitness and wellness activities. Students learn both practical and theoretical concepts in cardiovascular fitness, strength training, flexibility, weight control and dietary habits. In addition, students explore the effects that various stages of human development have on specific body systems. Students examine how a reasonably conceived and defined program of activity and diet may result in improved fitness and quality of life. Through lecture/laboratory presentations, students apply learned principles to the design of individualized fitness and nutrition programs. Lecture 2 hours, laboratory 2 hours. **Prerequisite:** None. **Transfer Credit:** CSU, UC, USC

110 INDOOR CYCLING FOR FITNESS  
1.0 to 2.5 Units  
PE. 110 offers instruction in indoor cycling, a low-impact, non-weight-bearing physical activity, enhancing cardiorespiratory and muscular performance, and promoting mental and emotional well being. Various cycling routines are performed on a stationary spinning bicycle accompanied by both auditory and visual cues. Lecture ½-1½ hours, lab 1½-3½ hours. **Prerequisite:** None. **Transfer Credit:** CSU, UC, USC

119 FOUNDATIONS FOR FITNESS PERSONAL TRAINING  
3.0 Units  
PE. 119 is an overview on the principles of physical training. The course covers the critical competencies required for students interested in becoming a personal trainer. Research-based exercise protocols and procedures are emphasized. Lecture 3 hours. **Prerequisite:** None.

120 INTRODUCTION TO PHYSICAL EDUCATION  
0.5 to 2.5 Units  
PE. 120 is a course designed to acquaint prospective teachers with the social, physical, and professional demands of physical education. A preview of the profession of physical education as a whole is gained through testing, class recitation and field trips. Opportunities in health and recreation are explored. **Note:** Recommended for physical education majors. This course will not fulfill physical education activity requirements. Lecture ½-1½ hours, lab 1½-3½ hours. **Prerequisite:** None. **Transfer Credit:** CSU, UC, USC

121 INTERMEDIATE INDOOR CYCLING FOR FITNESS  
1.0 to 2.5 Units  
PE. 121 offers instruction in indoor cycling dealing with basic cardiovascular fitness which is achieved through: general cycling, fast cycling, sprints, intervals and hill climbing. Cycling safety, bike fit, heart rate training are incorporated with choreographed workouts on specially designed stationary bicycles, using music and fundamental cycling techniques. Lecture ½-1½ hours, lab 1½-3½ hours. **Prerequisite:** None. **Transfer Credit:** CSU, UC, USC

124 SPORTS OFFICIATING-VOLEYBALL, BASKETBALL  
2.0 Units  
PE. 124 is a course in the theoretical and practical techniques of officiating basketball and volleyball. **Note:** Recommended for physical education majors and recreation majors and for prospective community youth leaders. Lecture 2 hours, laboratory 1 hour. **Prerequisite:** None. **Transfer Credit:** CSU, UC, USC

125 SPORTS OFFICIATING  
2.0 Units  
PE. 125 is a course in the theoretical and practical techniques of officiating basketball, volleyball, softball, and track and field. **Note:** Recommended for physical education majors and recreation majors and for prospective community youth leaders. This course will not fulfill physical education activity requirements. Lecture ½-1½ hours, lab 1½-3½ hours. **Prerequisite:** None. **Transfer Credit:** CSU, UC, USC

126 SPORTS OFFICIATING-TRACK AND FIELD, SOFTBALL  
2.0 Units  
PE. 126 is a course in the theoretical and practical techniques of officiating softball and track and field. **Note:** Recommended for physical education majors and recreation majors and for prospective community youth leaders. Lecture 2 hours, laboratory 1 hour. **Prerequisite:** None. **Transfer Credit:** CSU, UC, USC

127 PHYSICAL EDUCATION ACTIVITIES  
0.5 to 2.5 Units  
PE. 127 is instruction in the fundamentals of individual activities and seasonal sports. Lecture ½-1½ hours, lab 1½-3½ hours. **Prerequisite:** None. **Transfer Credit:** CSU, UC, USC

129 STRENGTH AND CONDITIONING FOR INTERCOLLEGIATE ATHLETICS  
0.5 to 2.5 Units  
PE. 129 is designed to increase strength, flexibility, body coordination (agility), speed, and aerobic/anaerobic conditioning as it relates to optimal athletic performance. **Note:** This class is structured to provide strength and conditioning programs specific to intercollegiate athletics both during participation and in the “off-season.” Lecture ½-1½ hours, lab 1½-3½ hours. **Prerequisite:** None. **Transfer Credit:** CSU, UC, USC

130 ADAPTED ACTIVITIES  
0.5 to 2.5 Units  
PE. 130 is a diversified program of developmental activities for students with disabilities which prevent their participation in a regular physical education program. The emphasis is on the student’s remaining abilities, not their disabilities. Lecture ½-1½ hours, lab 1½-3½ hours. **Prerequisite:** None. **Transfer Credit:** CSU, UC, USC
131 SELF-DEFENSE FOR THE DISABLED
1.0 to 2.5 Units
PE. 131 is a diversified program of self-defense training and lecture topics that focus on the ability of the disabled to protect and defend themselves. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

132 ADAPTED AQUATICS
1.0 to 2.5 Units
PE. 132 is a diversified program of aquatics for students with disabilities which prevent their participation in a regular physical education aquatics program. The emphasis is on the student’s remaining abilities and adapting them to facilitate swimming, water aerobics, and aquatic skills proficiency. Note: This course is specially designed for students who meet Title V eligibility requirements for Disabled Student Program and Services. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

133 LIFETIME FITNESS AND WELLNESS FOR THE DISABLED
2.0 Units
PE. 133 is a diversified program of fitness, participation, and lecture activities for students with disabilities. It focuses on the unique wellness needs of this population. Note: The course is specially designed for students who meet Title V eligibility requirements for Disabled Student Programs and Services. Lecture 2 hours, laboratory 1 hour. Prerequisite: None. Transfer Credit: CSU, UC, USC

134 ADAPTED WELLNESS AND FITNESS LABORATORY
1.0 to 1.5 Units
PE. 134 is a laboratory physical fitness course for students with disabilities. This course is designed to develop and encourage positive attitudes and habits with regard to cardiovascular efficiency, body composition, muscular strength, endurance, and flexibility. Students are assessed in these areas and a personalized fitness program is established. Note: This course is specially designed for students who meet Title V eligibility requirements for Disabled Student Programs and Services. Lecture ½-1½ hour, lab 2¼-3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

135 ADAPTED INDOOR CYCLING FOR FITNESS
1.0 to 1.5 Units
PE. 135 offers students with disabilities instruction in indoor cycling. Indoor cycling is a low-impact, non-weight-bearing physical activity, which enhances cardiorespiratory and muscular performance. The course promotes physical, as well as mental and emotional well-being. Various cycling routines are performed on a stationary spinning bicycle accompanied by both auditory and visual cues. Note: This course is specially designed for students who meet Title V eligibility requirements for Disabled Student Program and Services. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

140 BEGINNING BADMINTON
0.5 to 2.5 Units
PE. 140 is instruction in the rules and practice in individual fundamentals, development of singles and doubles play, and competitive participation. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

141 INTERMEDIATE BADMINTON
0.5 to 2.5 Units
PE. 141 is additional practice and more detailed instruction in fundamentals, development of singles and doubles play, and court strategy. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

145 ADVANCED BASEBALL
1.0 to 2.5 Units
PE. 145 offers instruction and opportunities for skill development in techniques for competitive baseball participation. Advanced offensive and defensive strategies are covered and a comprehensive physical training program is implemented to prepare students for competition. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

146 ADVANCED BASEBALL THEORY
2.0 Units
PE. 146 covers advanced theory and strategies used in the sport of baseball. Note: Physical Education 146 is recommended for Physical Education majors and students planning to participate in varsity baseball for a second year. Lecture 2 hours, laboratory 1 hour. Prerequisite: None. Transfer Credit: CSU, UC, USC

147 OFF-SEASON TRAINING FOR INTERCOLLEGIATE BASEBALL
0.5 to 2.5 Units
PE. 147 is instruction in rules and game strategies for baseball as well as practice in fundamental techniques of throwing, fielding, batting, and team play. Fall Semester only. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

148 INTERCOLLEGIATE BASEBALL
0.5 to 2.5 Units
PE. 148 is development of team play for competitive participation. Spring Semester only. Daily. Note: Limited to students trying out for the varsity team. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

150 BEGINNING BASKETBALL
0.5 to 2.5 Units
PE. 150 is instruction and practice in the fundamental techniques and rules of the game. Development of team play and competitive participation. Lecture 2 hours, laboratory 1 hour. Prerequisite: None. Transfer Credit: CSU, UC, USC

154 INTERMEDIATE BASKETBALL
0.5 to 2.5 Units
PE. 154 is instruction in rules and game strategy, practice in fundamental techniques. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

155 ADVANCED BASKETBALL - MEN
1.0 to 2.5 Units
PE. 155 offers instruction and opportunities for skill development in techniques for competitive basketball participation. Advanced offensive and defensive strategies are covered and a comprehensive physical training program is implemented to prepare students for competition. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC
156 ADVANCED BASKETBALL - WOMEN
1.0 to 2.5 Units
PE. 156 offers instruction and opportunities for skill development in techniques for competitive basketball participation. Advanced offensive and defensive strategies are covered and a comprehensive physical training program is implemented to prepare students for competition. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

157 INTERCOLLEGIATE BASKETBALL - MEN
0.5 to 2.5 Units
PE. 157 is individual instruction and development of team play for competitive participation. Fall semester only. Daily. Note: Limited to students competing on an organized team. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

160 INTERCOLLEGIATE BASKETBALL - WOMEN
0.5 to 2.5 Units
PE. 160 provides the opportunity for individual instruction and development of team play for competitive participation with other community colleges. Note: Limited to students competing for the varsity team. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

164 AEROBIC FITNESS
(Also listed as Dance 164)
0.5 to 2.5 Units
PE. 164 offers vigorous exercise set to contemporary music. The course is designed for students wishing to develop or maintain aerobic fitness while also learning about the physiology of fitness. Routines of rhythmic exercise are designed to develop or maintain cardio-respiratory endurance and body flexibility. The course is designed for students at all levels of fitness. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

166 WEIGHT TRAINING FOR WOMEN
0.5 to 2.5 Units
PE. 166 is designed to give the female student an opportunity to develop a physical fitness program through weight training. It provides opportunity for the further development of body flexibility, strength and coordination, along with contributing to the general physical well-being of the individual. Students will be prepared to set up and design a personal weight training program to fit their individual needs. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

167 WEIGHT TRAINING AND CONDITIONING
0.5 to 2.5 Units
PE. 167 is conditioning exercises to increase body flexibility and strength of musculature in various parts of the body, to develop skilled body control with respect to agility, balance, and coordination, and to produce skills in relaxation. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

168 INTERMEDIATE WEIGHT TRAINING AND CONDITIONING
0.5 to 2.5 Units
PE. 168 is conditioning exercises to increase strength, body flexibility, and overall physical fitness. Instruction and practice and techniques of weight training. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

169 BODY MECHANICS-WOMEN
0.5 to 2.5 Units
PE. 169 offers the student experiences in conditioning exercises to increase body flexibility, increase cardio-respiratory endurance, and increase the strength of the musculature in various parts of the body. The course helps to develop skilled body control with respect to agility, balance, and coordination, and to produce skills in relaxation. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

172 INTERCOLLEGIATE CROSS COUNTRY-MEN
0.5 to 2.5 Units
PE. 172 is designed for competitive participation. Fall semester only. Note: Recommended for distance runners and track students wishing to condition themselves for track. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

173 INTERCOLLEGIATE CROSS COUNTRY-WOMEN
0.5 to 2.5 Units
PE. 173 is designed to offer women competitive participation in cross-country running. Fall semester only. Note: Recommended for distance runners and track students wishing to condition themselves for track. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

194 PILATES
(Also listed as Dance 194)
0.5 to 2.5 Units
PE. 194 provides practical experience through exercise in conjunction with discussion periods to enable the student to develop a knowledge of body-mind interaction. The student learns how to influence and control this interaction, with regard to pain and energy flow, suppleness, relaxation, stretch and strength factors. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

195 FOOTBALL THEORY
2.0 Units
PE. 195 is theory and development of offensive and defensive formations and strategies. Note: Recommended for Physical Education majors. Lecture 4 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

196 ADVANCED FOOTBALL THEORY
2.5 Units
PE. 196 covers advanced theoretical foundations and strategies of football. Note: Recommended for Physical Education majors and students who are participating in varsity football for a second year. Lecture 4 hours, laboratory 1 hour. Prerequisite: None. Transfer Credit: CSU, UC, USC

197 OFF-SEASON TRAINING FOR INTERCOLLEGIATE FOOTBALL
0.5 to 2.5 Units
PE. 197 is instruction and practice in techniques of individual offense and defense. Spring semester only. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

198 INTERCOLLEGIATE FOOTBALL
0.5 to 2.5 Units
PE. 198 is development of team play for competitive participation. Fall semester only. Note: Limited to students wishing to compete on the varsity team. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

200 FLAG FOOTBALL
0.5 to 2.5 Units
PE. 200 is instruction and practice in fundamentals, with the development of team play and competition. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC
202 BEGINNING GOLF
0.5 to 2.5 Units
PE. 202 is instruction and practice in the fundamentals of golf. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

203 INTERMEDIATE GOLF
0.5 to 2.5 Units
Advanced instruction and practice on the golf course are included in this course. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

204 ADVANCED GOLF
0.5 to 2.5 Units
PE. 204 offers instruction and opportunities for skill development in techniques for competitive golf participation. Advanced skill development and strategies are covered and a physical training program is implemented to prepare students for competition. Lecture ½-1½ hours, lab 1½-3½ hours. Recommended preparation: Some competitive golf experience. Transfer Credit: CSU, UC, USC

205 INTERCOLLEGIATE GOLF
0.5 to 2.5 Units
PE. 205 is development of play for competitive participation. Spring semester only. Note: Limited to students competing for the varsity team. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

208 BEGINNING GYMNASTICS
0.5 to 2.5 Units
PE. 208 covers techniques in tumbling and apparatus activities with emphasis upon body balance, coordination, and rhythm. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

217 SELF-DEFENSE TECHNIQUES
0.5 to 2.5 Units
PE. 217 teaches practical self-defense techniques stressing both physical and psychological preparedness for defense. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

222 PADDLE TENNIS
0.5 to 2.5 Units
PE. 222 is instruction and practice in the basic strokes, fundamental techniques, and rules of the game. A sport very similar to regular tennis. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

224 RACQUETBALL
0.5 to 2.5 Units
PE. 224 is introduction and practice in the fundamental techniques and rules of the game. Each student is responsible for a minimal court fee. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

226 RUNNING AEROBICS
1.0 to 2.5 Units
PE. 226 is an introduction to running aerobics as a lifetime activity. The purpose of this course is to make the student aware of the physiological and psychological benefits derived from running aerobics. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

227 SELF DEFENSE FOR THE WOMAN
0.5 to 2.5 Units
PE. 227 teaches practical self defense techniques for women stressing both physical and psychological preparedness for defense. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

228 SOCCER THEORY
2.0 Units
PE. 228 is designed for men and women. It covers the theoretical foundations of the sport of soccer, with emphasis on strategy, game tactics, philosophy, and FIFA laws of the game. Note: PE. 228 is recommended for Physical Education majors and students planning to participate in varsity soccer. Lecture 2 hours, laboratory 1 hour. Prerequisite: None. Transfer Credit: CSU, UC, USC

229 SOCCER
0.5 to 2.5 Units
PE. 229 is instruction and practice in the basic fundamentals, techniques, and rules of soccer. Development of team play, with emphasis on offensive and defensive strategy. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

230 INTERCOLLEGIATE SOCCER-MEN
0.5 to 2.5 Units
PE. 230 is instruction and practice in intercollegiate play including techniques, rules, strategy, and history as well as comprehensive physical training. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

231 SOFTBALL
0.5 to 2.5 Units
Physical Education 231 will furnish practice in the fundamental skills of throwing, fielding, hitting, and team play. Instruction in rules and game strategy will be given. Conditioning and stretching exercises are presented to increase strength and flexibility. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

234 ADVANCED SOFTBALL
1.0 to 2.5 Units
PE. 234 offers instruction and opportunities for skill development in techniques for competitive participation. Advanced offensive and defensive strategies are covered and a comprehensive physical training program is implemented to prepare students for competition. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

235 INTERCOLLEGIATE SOFTBALL
0.5 to 2.5 Units
PE. 235 offers instruction and opportunities for individual instruction and development of team play for competitive participation with other community colleges. Note: Limited to students competing for the varsity team. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

236 SOFTBALL THEORY
2.0 Units
PE. 236 covers the theoretical foundations of the sport of softball. Note: PE. 236 is recommended for Physical Education majors and students planning to participate in the Intercollegiate Varsity Softball Team. Lecture 2 hours, laboratory 1 hour. Prerequisite: None. Transfer Credit: CSU, UC, USC

241 SOCCER - WOMEN
0.5 to 2.5 Units
PE. 241 offers instruction and practice in the basic fundamentals, techniques, and rules of soccer. Students learn the development of team play, with emphasis on offensive and defensive strategy. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC
INTERCOLLEGIATE SOCCER-WOMEN
2.5 Units
PE. 243 is instruction and practice in intercollegiate play including techniques, rules, strategy, and history as well as comprehensive physical training. Note: Some experience playing soccer is recommended. Lecture ½-1½ hours, lab 3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

OFF-SEASON TRAINING FOR INTERCOLLEGIATE SOCCER
0.5 to 2.5 Units
PE. 246 offers instruction and practice in fundamentals, techniques, and rules of intercollegiate soccer. Students practice the components of team play at the intercollegiate level, with emphasis on offensive and defensive strategy. An off-season conditioning and training program is included to help prepare students for the intercollegiate season. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

INTERMEDIATE SOCCER
0.5 to 2.5 Units
PE. 247 offers instruction and practice in advanced fundamentals, techniques, and rules of soccer, and development of team play, with emphasis on offensive and defensive strategies. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

BEGINNING TENNIS
0.5 to 2.5 Units
PE. 261 offers instruction and practice in the basic strokes, fundamental techniques and rules of the game. Lecture ½-1½ hours, lab ½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

INTERMEDIATE TENNIS
0.5 to 2.5 Units
PE. 262 offers instruction and practice in individual fundamentals, development of team play and court strategy in tennis. Lecture ½-1½ hours, lab ½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

ADVANCED TENNIS
0.5 to 2.5 Units
PE. 263 offers individual instruction and development of advanced techniques for competitive participation. Lecture ½-1½ hours, lab ½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

INTERCOLLEGIATE TENNIS-MEN
0.5 to 2.5 Units
PE. 266 is development of team play for competitive participation. Offered Spring semester only. Daily. Note: Limited to students trying out for the varsity team. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

INTERCOLLEGIATE TENNIS-WOMEN
0.5 to 2.5 Units
PE. 267 offers advanced techniques for competitive participation with other community colleges. Note: Recommended for students trying out for the varsity team. Offered Spring semester only. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

ADVANCED TRACK AND FIELD-MEN
1.0 to 2.5 Units
PE. 268 offers instruction and opportunities for skill development in techniques for competitive track and field participation. Advanced techniques and skill development programs are covered and a comprehensive physical training program is implemented to prepare students for competition. Lecture ½-1½ hours, lab ½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

ADVANCED TRACK AND FIELD-WOMEN
1.0 to 2.5 Units
PE. 269 offers instruction and opportunities for skill development in techniques for competitive track and field participation. Advanced techniques and skill development programs are covered and a comprehensive physical training program is implemented to prepare students for competition. Lecture ½-1½ hours, lab ½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

OFF-SEASON TRAINING FOR INTERCOLLEGIATE TRACK AND FIELD
0.5 to 2.5 Units
PE. 270 is instruction and practice in fundamental techniques of running and field events. Lecture ½-1½ hours, lab ½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

OFF-SEASON TRAINING FOR INTERCOLLEGIATE VOLLEYBALL
0.5 to 2.5 Units
PE. 277 offers instruction and practice in fundamental techniques of competitive volleyball. Lecture ½-1½ hours, lab ½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC
PHYSICAL SCIENCE

131

GENERAL PHYSICAL SCIENCE
4.0 Units

Physical Science 131 is designed to give a cultural appreciation of the scientific method and an elementary working knowledge of the fields studied. Emphasis is placed on the scientific theories. The course is an integrated survey of physics and chemistry with applications from planetary and space sciences. Elementary mathematical concepts are introduced as required. Lecture 4 hours, laboratory 2 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

PHYSICS

101

ENGINEERING PHYSICS
5.0 Units

Physics 101 involves the study of mechanics and properties of matter. The course is an intensive study of motion, dynamics and statics, oscillations, wave motion, and sound, with emphasis upon vector analytical methods. The Macintosh computer and spreadsheets are used extensively. Lecture 5 hours, laboratory 3 hours. Prerequisite: PHY 105 or physics taken in high school with a grade of “C” or better and MATH 103. (MATH 104 must be taken concurrently with or prior to taking PHY 101.) Transfer Credit: CSU, UC, USC

101H

HONORS ENGINEERING PHYSICS
5.0 Units

Physics 101H involves the study of mechanics and properties of matter. The course is an intensive study of motion, dynamics and statics, oscillations, wave motion, and sound, with emphasis upon vector analytical methods. The Macintosh computer and spreadsheets are used extensively. The honors course will be enhanced in one or more of the following ways: 1. Learning mathematical programs such as Mathematica or Scientific Word. 2. Special, more advanced homework sets using Mathematica or Scientific Word. Lecture 4 hours, laboratory 2 hours. Prerequisite: PHY 101 and MATH 104. Transfer Credit: CSU, UC, USC

102

ENGINEERING PHYSICS
4.0 Units

Physics 102 is a study of static electricity including Gauss’ Law, potentials and electric fields, direct and alternating current theory, laws of magnetism and magnetic properties of matter, electromagnetism and induced currents, Maxwell’s equations and radiation theory. Lecture 4 hours, laboratory 2 hours. Prerequisite: PHY 101 and MATH 104. Transfer Credit: CSU, UC, USC

102H

HONORS ENGINEERING PHYSICS
4.0 Units

Physics 102H is a study of static electricity including Gauss’ Law, potentials and electric fields, direct and alternating current theory, laws of magnetism and magnetic properties of matter, electromagnetism and induced currents, Maxwell’s equations and radiation theory. The honors course will be enhanced in one or more of the following ways: 1. Learning mathematical programs such as Mathematica or Scientific Word. 2. Special, more advanced homework sets using Mathematica or Scientific Word. Lecture 4 hours, laboratory 2 hours. Transfer Credit: CSU, UC, USC

103

ENGINEERING PHYSICS
5.0 Units

Physics 103 covers heat, thermodynamics, optics, and modern physics and involves an intensive study of the concepts of fluids, temperature, heat, calorimetry, heat transfer, thermodynamics, entropy, and kinetic theory. The course focuses on a thorough presentation of geometrical and physical optics with considerable emphasis on modern physics including quantum physics, wave mechanics, and special relativity. Lecture 5 hours, laboratory 2 hours. Prerequisite: PHY 101 and MATH 104. Transfer Credit: CSU, UC, USC

281

INTERCOLLEGIATE VOLLEYBALL—MEN
0.5 to 2.5 Units

PE. 281 offers instruction and practice in individual fundamentals, development of team play and court strategy for competitive participation. Note: Recommended for physical education majors. Limited to students trying out for varsity volleyball teams. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

282

INTERCOLLEGIATE VOLLEYBALL—WOMEN
0.5 to 2.5 Units

PE. 282 provides the opportunity for individual instruction of development of team play for competitive participation with other community colleges. Note: Limited to students competing for the varsity team. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

285

SPIRIT AND CHEER
(Formerly listed as Dance 171)
1.0 Unit

PE. 285 provides an opportunity for students to gain knowledge and technical skills in the choreography and techniques of pep arts through practical application and discussion. Emphasis is placed on leadership training, personal and professional development. Lecture ½ hours, lab ½ hours. Prerequisite: None. Transfer Credit: CSU, UC

294

STRESS REDUCTION
0.5 to 2.5 Units

PE. 294 will provide the student with specific tools for recognizing and combating stress. Attention will be given to the physiological aspects of stress along with practical knowledge of stress reduction techniques. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU

295

WALKING FOR HEALTH & FITNESS
0.5 to 2.5 Units

PE. 295 is an introduction to the benefits of an organized walking program. The class provides the student with various methods of walking to achieve whole-body fitness, flexibility, and increased cardio-vascular health efficiency. The course also discusses methods of using walking as a form of weight control and stress management in addition to achieving a healthful life style. This class is ideal for the student wishing a low-impact aerobic workout. Lecture ½-1½ hours, lab 1½-3½ hours. Prerequisite: None. Transfer Credit: CSU, UC, USC
POLITICAL SCIENCE

101 INTRODUCTION TO GOVERNMENT 3.0 Units
Political Science 101 is an introduction to the principles and problems of government in the United States with emphasis placed on the Federal government and politics at the national level. Political Science 101 meets the California State requirement in the United States Constitution. Note: Political Science 101 allows only one unit of credit for students who have completed Political Science 105 or Social Science 132. Recommended for students seeking a Baccalaureate (4-year) degree. Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

102 MODERN COMPARATIVE GOVERNMENTS 3.0 Units
Political Science 102 is a comparative study of the constitutional principles, governmental institutions, political parties, and recent history of policy and action of selected foreign governments. Lecture 3 hours. Prerequisite: POL S 101 or 105 or SOC S 125 or 126 or 132. Transfer Credit: CSU, UC, USC

103 INTRODUCTION TO WORLD POLITICS 3.0 Units
Political Science 103 develops an intellectual framework which will order students' thoughts on world politics and enable them to analyze and evaluate present and potential issues and events that affect international power and the pursuit of peace. Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

105 AMERICAN POLITICAL IDEALS 2.0 Units
Political Science 105 is a study of the theory and practices of the American democratic political process and formal institutional functions. Special emphasis is placed on the Federal Constitution and how it operates in the context of political democracy. The role of parties and groups in politics is analyzed. Political Science 105 meets the California State requirement in the United States Constitution. Note: It is recommended that the California State requirement in American History be completed prior to enrollment in this course. This course may not be taken for credit by students who have completed Political Science 101 or Social Science 132. Students who have successfully completed Political Science 105 and Political Science 106 will not be granted credit for Political Science 151. Recommended for students seeking an Associate in Arts degree. Lecture 2 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

106 AMERICAN STATE AND LOCAL GOVERNMENT 1.0 Unit
Political Science 106 is a study of the origins, structures, and functions of California government and politics with emphasis on the State level, but including the city, county and district levels. Note: It is recommended that this course be taken after the completion of the Constitution requirement. This course or Social Science 132 is a graduation requirement. This course may not be taken for credit by students who have completed Social Science 132. Students who have successfully completed Political Science 106 will be granted only two units of credit for completion of Political Science 151. Students who have successfully completed Political Science 105 and 106 will not be granted credit for Political Science 151. Lecture 2 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

103H HONORS INTRODUCTION TO WORLD POLITICS 3.0 Units
Political Science 103H develops an intellectual framework which will order students' thoughts on world politics and enable them to analyze and evaluate present and potential issues and events that affect international power and the pursuit of peace. The honors course will be enhanced in one or more of the following ways: 1. Students will write a research paper on a controversial topic in world politics designed to develop analytical skills. 2. Debates will occur between pairs of students on a controversial topic in world politics designed to develop their verbal analytical skills. 3. Assignments of important theories in world politics to be presented by students in class in order to develop their analytical skills. Lecture 3 hours. Prerequisite: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

105H HONORS ENGINEERING PHYSICS 5.0 Units
Physics 105H covers heat, thermodynamics, optics, and modern physics and involves an intensive study of the concepts of fluids, temperature, heat, calorimetry, heat transfer, thermodynamics, entropy, and kinetic theory. The course focuses on a thorough presentation of geometrical and physical optics with considerable emphasis on modern physics including quantum physics, wave mechanics, and special relativity. The honors course will be enhanced in one or more of the following ways: 1. An Internet paper and PowerPoint presentation on topics in contemporary optics and thermo-dynamics such as: ‘ fiber optics ‘ laser communication ‘ laser therapy ‘ solar engineering ‘ solar power systems 2. A spreadsheet solution of an engineering problem of advanced difficulty. Lecture 5 hours, laboratory 2 hours. Prerequisite: PHY 101 and MATH 104. Transfer Credit: CSU, UC, USC

106 GENERAL PHYSICS 4.0 Units
Physics 106 is a general course that focuses on the study of light, electricity, magnetism, and modern physics. It includes lectures, demonstrations, problems, and laboratory work. Note: Required of pre-dental and pre-medical students. Lecture 3 hours, discussion 1 hour, laboratory 2 hours. Prerequisite: MATH 102 or 110. Transfer Credit: CSU, UC, USC

110 INTRODUCTION TO PHYSICS 3.0 Units
Physics 110 is a brief presentation of some of the more important and usual phenomena in physics with classroom demonstrations and lectures in mechanics, heat, sound, light, magnetism, and modern physics. Note: This course may not be taken for credit by students who have completed Physics 101 or 105. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC
108 POLITICS AND PRACTICE OF THE UNITED NATIONS
3.0 Units
Political Science 108 is designed to introduce students to international organizations through the study of the origin, structure and function of the United Nations. The course includes discussion of pressing international problems, established international law, and the protocol and procedure of diplomacy. Students learn the applied skills used by actual diplomats that represent their countries at the United Nations through class simulations and at a Model United Nations conference. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

110 CONTEMPORARY WORLD PROBLEMS
3.0 Units
Political Science 110 examines the controversial issues in world politics from regional conflicts, international economic relations, arms and disarmament, human rights and foreign policy, to environmental considerations. The format of the course is multidimensional, using lecture, discussion, and debate techniques. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

111 THE MODERN MIDDLE EAST: ITS POLITICAL AND ECONOMIC IMPACT
3.0 Units
Political Science 111 is a survey of the historical background and current politics of the Middle East. Topics covered include: introduction to the land, peoples, cultures, and religions, overview of the history of the region, with an emphasis on the Eastern Question, emergence of the modern nation-states following World War I, internal political developments in major countries up to the present, Westernization and Islamic resurgence, regional conflicts and international connections, the economic and political impact of oil, European and Soviet influences, Middle East lobbies in the United States and U.S. foreign policy. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

112 MODEL UNITED NATIONS LABORATORY
1.5 Units
Political Science 112 introduces students to a selected group of international issues for which students will seek solutions through research and participation in simulations. The course will consist of instruction and direction for intercollegiate Model United Nations Conferences and Competitions which incorporate international current event debates, parliamentary debate and conflict resolution exercises. Lecture 1 hour, laboratory 1/2 hours. Corequisite: POL S 108. Transfer Credit: CSU

151 FUNDAMENTALS OF GOVERNMENT AND YOU
3.0 Units
Political Science 151 deals with the individual as a student, as a worker, and as a member of society. It examines the benefits, controls, and rights of the individual which result from our political system as it operates through government. Meets the requirements of the A.A. Degree in the United States Constitution and state and local government. Note: Students who have successfully completed Political Science 105 and Political Science 106 will not be granted credit for completion of Political Science 151. Students who have successfully completed Political Science 105 and Political Science 106 will be granted only two units of credit for completion of Political Science 151. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151.

PSYCHOLOGY
101 GENERAL PSYCHOLOGY
3.0 Units
Psychology 101 is an intensive study of human behavior. The course examines scientific principles, biological basis of behavior, sensation, perception, learning, memory, motivation, thinking, individual differences, intelligence, personality, behavior disorders, and therapeutic behavior change. The honors course will be enhanced in one or more of the following ways: 1. Students will have an increased responsibility for leading class discussions and critical thinking exercises. 2. Homework assignments will be focused on critical thinking and the analysis of important topics related to psychology. Note: Sophomore standing preferred. Lecture 3 hours. Prerequisite: PSYCH 101. Transfer Credit: CSU, UC, USC

103 PHYSIOLOGICAL PSYCHOLOGY
3.0 Units
Psychology 103 is an exploration of the relationship between mind and body, emphasizing the neurological correlates of behavior. The course includes the structure and functions of the nervous system, methodology, concepts of physiological psychology, and current developments. Lecture 3 hours. Prerequisite: PSYCH 101. Transfer Credit: CSU, UC, USC

104 SOCIAL PSYCHOLOGY
3.0 Units
Psychology 104 deals with people as social beings. Topics covered include moral development, cooperation and competition, violence and war aggression, prejudice, attitudes, conformity, sexual behavior, group processes, non-verbal communication, interpersonal attraction, and altruism. Lecture 3 hours. Prerequisite: PSYCH 101. Transfer Credit: CSU, UC, USC

105 PSYCHOLOGY OF HUMAN SEXUALITY
3.0 Units
Psychology 105 is a survey of human sexuality. The course focuses on internal and external anatomy, physiological functioning and dysfunctioning, causes and possible corrections of dysfunctions. It covers such matters as conception, pregnancy, childbirth, methods of birth control and family planning, and cultural and psychological influences. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC
106 DEVELOPMENTAL PSYCHOLOGY  
3.0 Units

Psychology 106 is the study of the psychological development of the person from the prenatal period through old age and death. This course emphasizes theories and their applications to physical, cognitive, social, and emotional development throughout the human life-span. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

108 THE PSYCHOLOGY OF LOSS EXPERIENCE  
3.0 Units

Psychology 108 is a study of loss experiences, including but not limited to loss by death, together with their impact on the grieving survivor. This course examines historical and contemporary attitudes and practices and the historical factors that have influenced significant changes between the two. Various kinds of losses are defined and explored. Stages of dying, death preparation, and stages of grieving and recovery are included together with recommendations from modern experts for facilitating recovery. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

109 INTRODUCTION TO GERONTOLOGY  
(Also listed as Sociology 105)  
3.0 Units

(Also listed as Sociology 105) Psychology 109 is an introduction to the study of social gerontology, aging and its implications for the individual and society utilizing a multidisciplinary approach. Note: This course may not be taken for credit by students who have completed Sociology 105. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

110 THE PSYCHOLOGY OF PERSONAL AND SOCIAL ADJUSTMENT  
3.0 Units

Psychology 110 is a study of the processes of human adjustment. The characteristics of healthy and unhealthy personality patterns, and the forces that shape them, will be studied. Psychological principles are applied to problems of personal growth, self-awareness, problem-solving, stress and crisis management and interpersonal relationships and the skills needed to maintain them in various life situations. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

111 WOMEN: MIND AND BODY  
3.0 Units

Psychology 111 is an investigation into traditional and nontraditional medical model health delivery systems, with special emphasis on women and their bodies. Major topics covered are women as research subjects, cross-cultural perspectives on the use of health care, and current research findings on menstruation, pregnancy, menopause, sexually transmitted diseases, HIV, cancer, and cardiovascular diseases. Psychological concepts of fitness, nutritional awareness, belief systems and emotional management, and stress reduction are addressed. Note: No credit will be given if Health 104 or Health 106 have been completed. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

113 PSYCHOLOGY OF WOMEN  
3.0 Units

Psychology 113 is a study of the psychological factors which contribute to the present emotional, sexual and economic status of the American woman. This study is designed to help the student better understand the experiences of women through the examination of family structure, social structure, female sexuality and self-esteem. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

114 PSYCHOLOGY OF HUMAN COMMUNICATION  
3.0 Units

Psychology 114 is a study of the process of human communication. The characteristics of effective communication and its uses are studied and the specific skills for the achievement of effective communication are explored. The application of communication skills to the building of interpersonal relationships, the resolution of conflicts, and the attainment of personal growth are included in this course of study. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

115 ABNORMAL PSYCHOLOGY  
3.0 Units

Psychology 115 deals with maladaptive or abnormal behavior of human beings. Topics covered include classifications, clinical pictures, causal factors, treatment and outcomes of maladaptive patterns, assessment, therapy, and prevention. Lecture 3 hours. Prerequisite: PSYCH 101. Transfer Credit: CSU, UC, USC

131 MARRIAGE AND INTIMATE RELATIONSHIPS  
(Also listed as Sociology 131)  
3.0 Units

Psychology 131 studies, with an emphasis on psychological and sociological theories and research, the development of traditional and contemporary patterns of people living together. Topics examined include the historical development of marriage, diverse lifestyles (including single-parenting, the blended family, and gay and lesbian partnerships), partner compatibility, communication techniques, intimacy, conflict, child-rearing, dissolution of partnerships, and speculation about the future of relationships. Note: This course may not be taken for credit by students who have completed Sociology 131. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

150 EDUCATIONAL PSYCHOLOGY  
3.0 Units

Psychology 150 is designed to provide students with a fundamental understanding of the theoretical foundations of learning theories and their application in school settings. The course will focus on the evaluation of these applications as each contributed to the development of American Education. It will also provide a basis for understanding both failed and successful efforts toward remediations and reform, using psychology as a means of analysis. Lecture 3 hours. Recommended preparation: PSYCH 101 or SOC S 101; and eligibility for ENGL 101.

QUALITY ASSURANCE

101 PROCESS AND PRODUCTION PLANNING  
3.0 Units

Quality Assurance 101 is an introduction to the concepts of industrial production planning. Emphasis is placed on technical skills required in efficiently creating and planning work orders and related documentation to meet industrial standards. Lecture 3 hours. Prerequisite: TECH ED 143 or ECT 100 or MATH 141. Transfer Credit: CSU
REAL ESTATE

Classes in real estate are offered for students interested in the field of real estate. The courses are designed to accommodate the real estate education needs of students in preparing for real estate careers as well as those already engaged in real estate services. The curriculum provides instruction designed to assist those wishing to obtain real estate sales and real estate broker licenses. Most of the courses are scheduled in the Evening College Program. A Certificate of Completion may be earned.

101 REAL ESTATE PRINCIPLES

3.0 Units

Real Estate 101 covers the basic laws and principles of California real estate and gives understanding, background, and terminology necessary for advanced study in specialized courses. The course is of assistance to those preparing for the real estate sales license examination. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

102 REAL ESTATE PRACTICE

3.0 Units

Real Estate 120 covers the day-to-day operations from the viewpoint of the real estate salesperson. The topics covered include: listing, prospecting, advertising, financing, sales techniques, escrow, and ethics. This course applies toward the State of California’s educational requirement for the salesperson’s and broker’s examination. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

103 REAL ESTATE SALES SOFTWARE

1.0 Unit

Real Estate 125 is designed to introduce students to computers and teach them how to use the computer as a tool in the real estate industry. The course’s primary emphasis is on understanding the theories and concepts of the computer and how use of the computer is going to change the concepts and theories taught in other real estate courses. Current software emphasizing database management and remote communicating is taught. Lecture 1 hour, lab 3 hours. Prerequisite: None. Transfer Credit: CSU

110 REAL ESTATE ECONOMICS

3.0 Units

Real Estate 130 is an economic history of contemporary real estate and chronicles the events and economic trends influencing real estate values (appraisal). It offers an analysis of the interrelationship between the cost and value of real estate on a local and national level. This course meets the requirements for the appraisal subject matter electives of the 2008 Appraisal Qualifications Board of the Appraisal Foundation and fulfills the statutory pre-licensing requirements of the California Department of Real Estate for salespersons and brokers. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

112 BASIC APPRAISAL PRINCIPLES AND PROCEDURES

3.5 Units

Real Estate 162 meets the requirements of the 2008 Appraisal Qualifications Board of the Appraisal Foundation. The emphasis of this course is on residential real estate. It covers the basic real estate appraisal principles, basic real estate appraisal procedures, and meets the license requirements for all levels of appraisal licensure. It is required for the trainee license, residential license, certified residential license, and certified general license. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

115 STATISTICAL PROCESS CONTROL

3.0 Units

Quality Control 115 is an analysis of designing and creating quality control systems. Quality Control 115 maintains industrial standards and procedures used in the Aerospace Industry. Lecture 3 hours. Prerequisite: TECH ED 143 or ECT 100 or MATH 141. Transfer Credit: CSU
163 BASIC RESIDENTIAL REAL ESTATE APPRAISAL
3.5 Units
Real Estate 163 which focuses on residential appraisals, meets the requirements of the 2008 Appraisal Qualifications Board of the Appraisal Foundation and follows their outline modules. It covers the following major areas: 1) Residential Market Analysis and Highest and Best use, 2) Residential Appraiser Site Valuation and Cost Approach, and 3) Residential Sales Comparison and Income Approach. This course meets the license education requirements for all levels of appraisal licensure. It is required for the trainee license, residential license, certified residential license, and certified general license. This course qualifies with the California Department of Real Estate as a statutory/pre-license real estate course for both the salesperson and broker education requirements. In addition, this course may also qualify as the second appraisal course for broker education requirements referred to as Advanced Real Estate Appraisal. Emphasis is on residential properties, such as single-family homes, 1-4 unit apartments, condos, mobile homes, and manufactured homes. Lecture 3½ hours. Prerequisite: None.

164 RESIDENTIAL APPLICATIONS AND RESIDENTIAL REPORT WRITING
3.0 Units
Real Estate 164 meets the requirements of the 2008 Appraisal Qualifications Board of the Appraisal Foundation. It covers Advanced Residential Applications and Case Studies, as well as Residential Report Writing and Case Studies. This course meets the license requirements for all levels of appraisal licensure. It is required for the trainee license, residential license, certified residential license, and certified general license. Lecture 3 hours. Prerequisite: None.

165 UNIFORM STANDARDS OF PROFESSIONAL APPRAISAL PRACTICE (USPAP)
1.0 Unit
Real Estate 165 meets the requirements of the Appraisal Qualifications Board (AQB) of the Appraisal Foundation for state licensing and certification. This course includes the national examination as required by the AQB. Completion of this course and successful completion of the three-hour national examination (the course final examination) are required by the California Office of Real Estate Appraisers (OREA) for initial trainee licensure. Note: Students with disabilities who require special accommodations must contact the GCC Business Division before registering for information to obtain prior written approval from the AQB. Lecture 1 hour. Prerequisite: None.

180 MORTGAGE LOAN BROKERING
3.0 Units
Real Estate 180 details the requirements for granting licenses to loan on real property in California. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

190 PROPERTY MANAGEMENT
3.0 Units
Real Estate 190 is a basic course in the management of income properties which analyzes specific types of properties that are managed, formulates and discusses the major problems of leasing, collections, rent schedules, tenant selection, neighborhood analysis, purchasing, evictions, preventive maintenance, depreciation, record keeping, and economics of property, and compiles a set of procedures for practical utilization in property management. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

195 COMMON INTEREST DEVELOPMENTS (HOMEOWNERS ASSOCIATIONS MANAGEMENT)
3.0 Units
Real Estate 195 covers the basics of managing, purchasing and selling of common interest developments (CIDs) that are governed by homeowner associations (HOA) including condominiums. All applicable laws will be included in the course. Lecture 3 hours. Prerequisite: None.

250 ESCROW I
3.0 Units
Real Estate 250 is an introduction to the terminology, legal aspects, and process in the escrow function in real estate transactions. Emphasis is on the process of taking, processing, and closing of escrow. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU

RECREATION LEADERSHIP
105 PHYSICAL EDUCATION AND RECREATION FOR THE HANDICAPPED
2.0 Units
Recreation Leadership 105 is designed to train people to provide physical education and recreational activities for the handicapped, this course helps the student understand and appreciate needs, desires, and problems related to various handicaps as well as learn how to provide such activities. Lecture 2 hours lab 2 hours. Prerequisite: None. Transfer Credit: CSU

109 RECREATION LEADERSHIP
2.0 Units
Recreation Leadership 109 is a basic training course for playground directors and recreation leaders. A study in the organization and administration of community and school recreation programs. Emphasis is placed on training in leadership techniques and on the development of programs in recreation, sports, and athletics. Note: Recommended for physical education majors and students entering the recreation field. Lecture 2 hours lab 1 hour. Prerequisite: None. Transfer Credit: CSU

RUSSIAN
101 BEGINNING RUSSIAN I
5.0 Units
Russian 101 covers the Russian alphabet, its letters and their sounds, and the fundamentals of Russian grammar. Students are taught to pronounce correctly, to acquire a practical vocabulary, and to understand, read, write, and speak simple Russian. Note: This course is not intended for students with oral proficiency or who have attended schools where Russian was the language of instruction. Lecture 5 hours, lab ½ hour. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

102 BEGINNING RUSSIAN II
5.0 Units
Russian 102 continues to present the fundamentals of Russian grammar. The skill of listening comprehension, speaking, reading, and writing of contemporary standard Russian are developed at a basic level. Note: This class is not designed for native speakers of Russian. Lecture 5 hours, lab ½ hour. Prerequisite: RUSS 101 or equivalent. Transfer Credit: CSU, UC, USC
101 URBAN EDUCATION IN AMERICA
3.0 Units
Social Science 101 is designed to provide students with a fundamental understanding of the American system of education, especially in urban multi-cultural schools. It deals with the sociology, politics and philosophy of urban education. The course covers current conditions of American schools and selected challenges of California’s diverse urban schools. The focus is on the issues facing teachers working in diverse, multiracial, multi-ethnic urban settings and on the efforts being made to respond to the needs of urban students. Note: This course requires all students to complete a minimum of 20 hours of verified field observation in an urban school setting. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU

124 INTERNATIONAL/INTERCULTURAL STUDIES
3.0 Units
Social Science 124 is designed to provide a critical and analytical introduction to the problems of global understanding. Studies are conducted on the ways in which the individual personality is shaped in a particular culture and civilization. The course is designed for all students, regardless of cultural background, who wish to enhance their ideas of what it means to belong in a peer group, or in a family, or in the larger community. This is a cross-cultural communication skills building course. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

125 THE AMERICAN EXPERIENCE-AMERICAN HERITAGE
3.0 Units
Social Science 125 covers issues and events from colonial times through the Civil War which are discussed and evaluated in relation to their social, cultural, political, and economic significance. Important contributions of significant men and women to the historical development of the country are highlighted. Students are introduced to the contemporary American political process and its formal institutional functions in a comparative study of federal, state, and local governments. The operation of the federal constitution in a political democracy is emphasized. The roles of political parties and special interest groups are examined. Students learn the structure and function of government in relation to the individual. Major rights and freedoms of citizens and non-citizens in the United States and California are delineated and discussed. The completion of Social Science 125 and 126 fulfills the California State requirements in American History, Institutions and State and Local Government. Note: Social Science 125 and 126 are designed for F-1 visa students who speak a language other than English as their first language, or naturalized citizens, or immigrants seeking naturalization who have never taken U.S. History taught in English or in a U.S. high school. All others should take the standard courses in U.S. History and Government. No credit allowed for students who have completed History 110, 111, 117, 118, or 151, Economics 111, Political Science 101/105, 106, or 151, Social Science 131 or 132. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

110 BASIC CONVERSATIONAL RUSSIAN I
3.0 Units
Russian 110 teaches the fundamentals of grammar and correct pronunciation so that the student can employ a small working vocabulary in conversation and writing. The ability to read simple Russian is also developed. Note: Not open to students who have oral proficiency or who have attended schools where Russian was the language of instruction. Lecture 3 hours. Prerequisite: None.

111 BASIC CONVERSATIONAL RUSSIAN II
3.0 Units
Russian 111 is a further study of the language with continued emphasis on developing essential communication skills. Fundamentals of grammar and oral expression are stressed. The course further develops a working knowledge of reading and writing as well. Lecture 3 hours. Prerequisite: RUSS 110 or equivalent.

115 RUSSIAN FOR THE RUSSIAN SPEAKING I
5.0 Units
Russian 115 provides intensive training in oral and written Russian for students who already have a familiarity with the language but little and/or no formal instruction in it. Thus, the structure of the language, basic grammar, spelling rules, vocabulary, composition, and oral communication are included. Note: This course may not be taken for credit by students who have completed Russian 101. Students with oral proficiency in Russian, including those who have attended schools where Russian was the language of instruction, should enroll in Russian 115. Lecture 5 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

116 RUSSIAN FOR THE RUSSIAN SPEAKING II
5.0 Units
Russian 116 is a continuation of Russian 115. Emphasis is on reading, comprehension, composition, oral communication, spelling rules, intensive vocabulary, and a more advanced study of the structure of the language. Lecture 5 hours. Prerequisite: RUSS 115 or equivalent.

118, or 151, Economics 111, Political Science
110,111, 117, and 126 are designed for F-1 visa students who speak a language other than English as their first language, or naturalized citizens, or immigrants seeking naturalization who have never taken U.S. History taught in English or in a U.S. high school. All others should take the standard courses in U.S. History and Government. No credit allowed for students who have completed History 110,111, 117, 118, or 151, Economics 111, Political Science 101,105, 106, or 151, Social Science 131 or 132. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU
126 THE AMERICAN EXPERIENCE-
MODERN AMERICA
3.0 Units
Social Science 126 covers issues and events since the Reconstruction to the present which are discussed and evaluated in relation to their social, cultural, political, and economic significance. Important contributions of significant men and women to the historical development of the country are highlighted. Students are introduced to the contemporary American political process and its formal institution functions in a comparative study of federal, state, and local governments. The operation of the federal constitution in a political democracy is emphasized. The roles of political parties and special interest groups are examined. Students learn the structure and function of government in relation to the individual. Major rights and freedoms of citizens and noncitizens in the United States and California are delineated and discussed. The completion of Social Science 125 and 126 fulfills the California State requirements in American History, Institutions, and State and Local Government. Note: Social Science 125 and 126 are designed for F-1 visa students who speak a language other than English as their first language, or naturalized citizens, or immigrants seeking naturalization who have never taken U.S. Government or U.S. History taught in English or in a U.S. high school. All others should take the standard courses in U.S. History and Government. No credit allowed for students who have completed History 110, 111, 117, 118, or 151, Economics 111, Political Science 101, 105, 106, or 151, Social Science 131 or 132. Lecture 3 hours. Prerequisite: SOC S 125. Transfer Credit: CSU

127 LOS ANGELES COUNTY: HISTORY, POLITICS, AND CULTURE
3.0 Units
Social Science 127 examines one of the most culturally diverse places on Earth-Los Angeles County. The region is viewed in three contexts: its history, its portrayals in literature, and the issues it faces today. The historic underpinnings of the region are explored from the Gabrieleno people of the Spanish, Mexican, and United States eras. This course includes the stories of ethnic and racial groups, including some not often associated with the area’s history. The last segment of the course examines contemporary issues, opportunities, and problems facing Los Angeles County. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

131 INTRODUCTION TO SOCIAL SCIENCE
4.0 Units
Social Science 131 examines the interrelationship of the social sciences and their application to the problem of group living in the twentieth century through a survey of the principal facts and concepts of history and sociology. Problems are studied in relationship to the historical development of the United States. The student is led to acquire a body of knowledge through an analysis of historical and contemporary social problems. This course meets the California State requirements in American History. Note: Social Science 131 allows only two units of credit for students having credit in History 110 or 111. If History 117-118 are completed for credit, then no units are allowed for Social Science 131. Lecture 4 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

132 INTRODUCTION TO SOCIAL SCIENCE
4.0 Units
Social Science 132 examines the interrelationship of the social sciences and their application to the problem of group living in the twentieth century through a survey of the principal facts and concepts of political science and economics. Problems are studied in relationship to governments in the United States. The student is led to acquire a body of knowledge through an analysis of contemporary political and economic problems. This course meets the California State requirements in the American Constitution, and State and Local Government. Note: Social Science 132 allows only two units of credit for students having credit in Political Science 101 or Political Science 105. If only Political Science 106 has been completed for credit, three units are allowed. Lecture 4 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

134 WOMEN, MEN, AND SOCIETY
3.0 Units
Social Science 134 is a survey course which explores the experience of women and men in American society. The course uses an interdisciplinary approach to look at old and new research about women and men. The sexist assumptions of most academic disciplines requires not just that material on women be integrated into these disciplines but that material on both sexes must be studied in new ways. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

136 WAR: HISTORY, CAUSES, SOLUTIONS
(Also listed as History 136)
3.0 Units
Social Science 136 explores the history, causes, and potential solutions to the problem of war. The history of individual wars is examined within a broader picture of war in general, including ancient warfare, the Middle Passage, the rise of modern war, and the development of total war. An interdisciplinary approach is taken in exploring the immediate causes of war, including historical, economic, political, anthropological, sociological, and psychological causes. The course probes moral and philosophical aspects for the ultimate causes of war. Finally, solutions are considered including diplomacy, treaties, the United Nations, a one-world government, and the dismantling of nation-states. Note: This course may not be taken for credit by students who have completed History 136. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

145 INTRODUCTION TO COMMUNITY SERVICE LEARNING
2.0 Units
Social Science 145 gives students a background in community service volunteerism and service learning as well as an opportunity to do community volunteer work for credit. The course emphasizes the historic traditions of volunteer service in America and other nations as well as current opportunities for lifelong service. Note: Students must complete 48 hours of volunteer service in an approved setting. Lecture 1 hour, lab 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

146 COMMUNITY VOLUNTEERISM LAB
1.0 Unit
Social Science 146 is designed to give students who have successfully completed the Introduction to Community Volunteerism class a chance to continue volunteer service under supervision. Students complete three lab hours of volunteer work per week as well as meet with the instructor and submit a complete journal. Note: This course may be taken 3 times, a maximum of 3 units may be earned. Laboratory 3 hours. Prerequisite: SOC S 145. Transfer Credit: CSU
### Sociology

#### 101 INTRODUCTION TO SOCIOLOGY

3.0 Units

Sociology 101 is an introduction to sociology, its methods and resources. The course focuses on the following areas: society and culture, personality organization, social interaction and social processes, human groups and collective behavior, role and status, class and stratification, ethnic and other intergroup relations, ecology and urban sociology, population and social change. Lecture 3 hours. **Prerequisite:** Eligibility for ENGL 120 or ESL 151. **Transfer Credit:** CSU, UC, USC

#### 102 SOCIAL CRISIS OF TODAY

3.0 Units

Sociology 102 develops a definition and criteria of social crises. The course examines social problems within the context of culture and economics. Selected social issues such as crime, ethnic tensions, poverty, work, youth, the changing nature and role of the family, homelessness, and related urban issues are addressed within functional and conflict theoretical frameworks. Lecture 3 hours. **Recommended preparation:** Eligibility for ENGL 120 or ESL 151. **Transfer Credit:** CSU, UC, USC

#### 104 SOCIOLOGY OF SEX AND GENDER

3.0 Units

Sociology 104 is a survey course that explores biological, anthropological, psychological, and sociological perspectives of sex and gender roles in American society and various other societies, such as Sweden, Russia, China, India, etc. Focusing on power relations, the course uses a sociological and psychological approach to analyze sex and gender roles in major social institutions: family, education, mass media, religion, work, law, political or economic structures, and medical systems. The analysis is placed in historical and contemporary contexts. Lecture 3 hours. **Recommended preparation:** Eligibility for ENGL 120 or ESL 151. **Transfer Credit:** CSU, UC, USC

#### 105 INTRODUCTION TO GERONTOLOGY

(Also listed as Psychology 109)

3.0 Units

Sociology 105 is an introduction to the study of social gerontology, aging and its implications for the individual and society utilizing a multidisciplinary approach. **Note:** This course may not be taken for credit by students who have completed Psychology 109. Lecture 3 hours. **Recommended preparation:** Eligibility for ENGL 120 or ESL 151. **Transfer Credit:** CSU, UC, USC

### Spanish

#### 101 BEGINNING SPANISH I

5.0 Units

Spanish 101 teaches the fundamentals of Spanish grammar. Students are trained to pronounce Spanish correctly, to acquire a small working vocabulary which they use in conversation and writing, and to read simple Spanish. The class is taught primarily in Spanish. Students may enroll concurrently in Spanish 110. **Note:** Students with oral proficiency or who have attended schools where Spanish was the language of instruction should enroll in Spanish 115. Lecture 5 hours, lab ½ hour. **Recommended preparation:** Eligibility for ENGL 120 or ESL 151. **Transfer Credit:** CSU, UC, USC

#### 102 BEGINNING SPANISH II

5.0 Units

Spanish 102 continues to present the fundamentals of Spanish grammar. It emphasizes correct pronunciation and presents more difficult elementary prose. The discussions in Spanish will stress the correct use of verbs and idioms and efficient methods of vocabulary building. **Note:** This course may not be taken for credit by students who have completed Spanish 116. Lecture 5 hours, lab ½ hour. **Prerequisite:** SPAN 101 or equivalent. **Transfer Credit:** CSU, UC, USC

#### 103 INTERMEDIATE SPANISH I

5.0 Units

Spanish 103 includes further study of Spanish grammar and idioms, intensive and extensive reading in contemporary Spanish, and written compositions in Spanish. This class is conducted entirely in Spanish. **Note:** In addition to the regular class hours, the student must spend 1/2 hour a week in the laboratory. This course is offered during the Fall semester only. Lecture 5 hours, lab ½ hour. **Prerequisite:** SPAN 102 or 116 or the equivalent. **Transfer Credit:** CSU, UC, USC

#### 104 INTERMEDIATE SPANISH II

5.0 Units

Spanish 104 is a continuation of Spanish 103 with reading of more difficult literary texts, and increased emphasis on composition and conversation. This class is conducted entirely in Spanish. **Note:** In addition to the regular class hours, the student must spend 1/2 hour a week in the laboratory. This course is offered during the Spring semester only. Lecture 5 hours, lab ½ hour. **Prerequisite:** SPAN 103 or the equivalent. **Transfer Credit:** CSU, UC, USC

#### 105 CONVERSATIONAL SPANISH

3.0 Units

Spanish 105 is a course of intensive practice in the expression and comprehension of spoken Spanish. Lecture 3 hours. **Prerequisite:** SPAN 102 or the equivalent. **Transfer Credit:** CSU, UC, USC

#### 106 ADVANCED CONVERSATIONAL SPANISH

3.0 Units

Spanish 106 is a course of intensive practice in the expression and comprehension of spoken Spanish. Lecture 3 hours. **Prerequisite:** SPAN 105 or the equivalent. **Transfer Credit:** CSU, UC, USC
110 BASIC CONVERSATIONAL SPANISH I
3.0 Units
Spanish 110 is an introduction to Spanish with emphasis on developing essential skills in communication. The verbal active method used stresses oral expression. The course develops a working knowledge of reading and writing as well. Note: Not open to students who have oral proficiency or who have attended schools where Spanish was the language of instruction. This course may not be taken for credit by students who have completed Spanish 115 and/or 116. Lecture 3 hours. Prerequisite: None.

111 BASIC CONVERSATIONAL SPANISH II
3.0 Units
Spanish 111 is an introduction to Spanish with emphasis on developing essential skills in communication. The verbal active method used stresses oral expression. The course develops a working knowledge of reading and writing as well. It includes use of tapes or cassettes in the language laboratory. Note: Students with oral proficiency or who have attended schools where Spanish was the language of instruction should enroll in Spanish 115. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151.

115 SPANISH FOR THE SPANISH SPEAKING I
5.0 Units
Spanish 115 provides intensive training in oral and written Spanish for students who have a familiarity with the language but little or no formal instruction in it. Structure of the language, oral communication, fundamentals of grammar, and composition are included. Note: Students with oral proficiency or who have attended schools where Spanish was the language of instruction should enroll in Spanish 115. Lecture 5 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

124 ENGLISH TRANSLATIONS OF MASTERPIECES OF HISPANIC LITERATURE
3.0 Units
Spanish 124 is a study of major works of literature of Spain and Spanish America in English translation. No knowledge of Spanish is necessary. Note: This course may not be taken for credit by students who have completed Spanish 125 or 126. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

124H HONORS ENGLISH TRANSLATIONS OF MASTERPIECES OF HISPANIC LITERATURE
3.0 Units
Spanish 124H is a study of major works of literature of Spain and Spanish America in English translation. No knowledge of Spanish is necessary. The honors course will be enhanced in one or more of the following ways: 1. Students will write a longer research paper using critical thinking skills and literary analysis on an approved thesis using the MLA guidelines. 2. There will be an increased emphasis on critical thinking skills by increasing the value of essay answers on examinations. 3. Students will attend a theatrical presentation of one of the dramas studied and/or attend literary conferences hosted by nearby four-year institutions. Note: This course may not be taken for credit by students who have completed Spanish 125 or 126. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU, UC, USC

125 SURVEY OF SPANISH LITERATURE
3.0 Units
Spanish 125 is a lower division survey of the literature of peninsular Spain, from the ballads of the Medieval period to the twentieth century. Reading and class lectures are entirely in Spanish and are supplemented by tapes, records and films. Note: Students may receive only one unit of credit for Spanish 125 if they have received credit for Spanish 124. Lecture 3 hours. Prerequisite: SPAN 104 or equivalent. Transfer Credit: CSU, UC, USC

126 SURVEY OF SPANISH AMERICAN LITERATURE
3.0 Units
Spanish 126 is a lower division survey of the literature of Spanish America, from the prehispanic literature of the Incas, as recorded by el Inca Garcilaso de la Vega, and the histories of the Mayas in the Popol Vuh, to the literature of the twentieth century. Reading and lectures will be entirely in Spanish. Tapes and records will be used to supplement text and lectures. Note: Students may receive only one unit of credit for Spanish 126 if they have received credit for Spanish 124. Lecture 3 hours. Prerequisite: SPAN 104 or equivalent. Transfer Credit: CSU, UC, USC

201 EMERGENCY SPANISH FOR FIREFIGHTERS
1.0 Unit
Spanish 201 prepares professionals to improve their communication with the Spanish-speaking community. Students learn basic Spanish phrases and questions necessary to carry out specific job duties in their occupations, such as the language for fire scenes, still alarms, and fire-related medical concerns. The Command Spanish’ methodology will be used. Discussions will also cover cross-cultural issues that affect interactions between firefighters and the Spanish-speaking community. Lecture 2 hours (8 weeks). Prerequisite: None.

202 SURVIVAL SPANISH FOR SCHOOL ADMINISTRATORS, TEACHERS, AND SUPPORT STAFF
3.0 Units
Spanish 202 helps school administrators, teachers, and support staff to improve their communication with Spanish-speaking students and their families in various school situations. Students learn basic Spanish phrases and questions necessary to carry out specific job duties in their occupations, such as the language for instructional management, classroom management, extracurricular activities, school security, emergencies and disasters, and the front office. The Command Spanish’ methodology will be used. Discussions will cover cross-cultural issues such as literacy and language as well as social, cultural, and educational differences and experiences. Appropriate classroom techniques to help Hispanic students reach their goals and be successful in the U.S. educational process will also be covered. Lecture 3 hours. Prerequisite: None.
Spanish 203 is designed to help office nurses and hospital nurses improve their communication with Spanish-speaking patients. Students learn basic Spanish phrases and questions necessary to carry out specific nursing duties in both medical offices and hospital settings. For office nurses, students learn the language for patient body commands, patient traffic, intake, assisting physician’s exam, laboratory procedures, patient treatment and discharge, for hospital nurses, students learn the language for check-in, initial assessment, routine in-bed and out-of-bed procedures, patient transport, medicines and injections, patient food and drink, family visits, and patient discharge. The Command Spanish’ methodology will be used. Discussions will cover trans-cultural training and emphasis is placed on enhancing the quality of patient care and reducing the fear of hospital settings through the use of Spanish. Lecture 2 hours. Prerequisite: None.

SPECIAL TOPICS
60
SPECIAL TOPICS
1.0 to 3.0 Units
Special Topics provides faculty the opportunity to offer a topic of interest to the community in a quick-start format. This course may be offered in all disciplines. Please see the current Schedule of Classes for current offerings. Lecture 1 to 3 hours, lab/studio 2 to 3 hours. Prerequisite: None.

SPEECH COMMUNICATION
100
INTERPERSONAL COMMUNICATION
3.0 Units
Speech Communication 100 is designed to provide students with an understanding of factors affecting human communication on a day-to-day basis and to provide laboratory experiences aimed at developing skills in such areas as language, listening, assertiveness, conflict resolution, nonverbal behaviors, group problem solving, and cross cultural communication. The instructional approach is deductive-inductive-deductive, involving lecture/discussions, activities demonstrating concepts covered, and further lecture/discussion for purposes of additional clarification. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. ESL students should complete ESL 155. Transfer Credit: CSU, UC, USC

101
PUBLIC SPEAKING
3.0 Units
Speech Communication 101 places emphasis upon organization and delivery of extemporaneous speeches. Experience is provided in, but not limited to, informative and persuasive speaking. This course satisfies speech requirements of those expecting to transfer to colleges and universities. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

102
ADVANCED PUBLIC SPEAKING
3.0 Units
Speech Communication 102 places emphasis on the development of critical thinking and listening skills through advanced public speaking in specific communication environments. The course examines both the technique and substance of public address by exploring: rhetorical strategies, quality of argument, quality of support for claims, use of language, fallacies, as well as the demands placed on the speaker by the audience. Lecture 3 hours. Recommended preparation: SPCH 101 and ENGL 101. Transfer Credit: CSU, UC, USC

103
GROUP DISCUSSION
3.0 Units
Speech Communication 103 involves techniques and theories of discussion with emphasis on group productivity and oral communication in groups. Use of logical, clear reasoning in research, analysis of problems, effectiveness of participation, and leadership in the discussion mode are also examined. Class activities include role playing, problem solving, panel discussions, and symposium forum discussions. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. ESL students should complete ESL 155. Transfer Credit: CSU, UC, USC

104
ARGUMENTATION AND DEBATE
3.0 Units
Speech Communication 104 is designed to provide students with an understanding of the factors affecting basic argumentation and debate on a day-to-day basis and to provide laboratory experiences aimed at developing skills in such areas as language, listening, assertiveness, conflict resolution, non-verbal behaviors, group problem solving, and cross cultural communication. The instructional approach is deductive-inductive-deductive, involving lecture/discussions, formal, in-class debates and critical analysis of contemporary issues. Lecture 3 hours. Prerequisite: One of the following: SPCH 101 or SPCH 103 or high school public speaking or high school debate. Transfer Credit: CSU, UC, USC

105
VOICE AND DICTION
3.0 Units
Speech Communication 105 is designed to improve vocal quality and force, pitch flexibility, rate, articulation, and pronunciation. The student develops an understanding of the speech mechanism. Emphasis is placed on improvement through increased self-perception and practice exercises. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. ESL students should complete ESL 155. Transfer Credit: CSU, UC, USC

106
ORAL INTERPRETATION OF LITERATURE
3.0 Units
Speech Communication 106 is designed to teach the skills and techniques of oral interpretation of literary works. Students learn to use their voices and articulation techniques to communicate emotional energy through the words of the text. Class exercises and instructor feedback are used to teach these concepts and to focus on the students’ individual strengths and weaknesses. Selected students are chosen to participate in a reader’s theatre production. Note: An audition may be required. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. Transfer Credit: CSU, UC, USC

107
BUSINESS AND PROFESSIONAL SPEECH
3.0 Units
Speech Communication 107 provides techniques for effective oral communication in the business environment. Emphasis is placed on audience analysis, organization, and speaking deportment. Class activities include interviewing, informative and persuasive presentations, and presentations in small group settings. Students have the opportunity to work extensively on videotape. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 101. ESL students should complete ESL 155. Transfer Credit: CSU
108  INTERCULTURAL COMMUNICATION  
3.0 Units  
Speech Communication 108 provides an introduction to communication between people from different cultures. This course presents theories and principles of both verbal and nonverbal communication with an emphasis on application of concepts to interaction between people from different cultures. Assignments and activities are geared towards the analysis of communication situations across cultures and the practice of skills to successfully engage in intercultural communication encounters. Lecture 3 hours. 
Prerequisite: None. Transfer Credit: CSU, UC, USC

111 PUBLIC SPEAKING FOR NON-NATIVE SPEAKERS  
3.0 Units  
Speech Communication 111 places emphasis on organization and delivery of extemporaneous speeches. Experience is provided in, but not limited to, informative and persuasive speaking. Issues of concern to non-native speakers will be addressed, including cultural variables involved in the public speaking situation, compensatory strategies to improve individual grammar, syntax and phonological errors, and speech anxiety. Lecture 3 hours. 
Recommended preparation: Eligibility for ENGL 120 or ESL 151 and ESL 155. Transfer Credit: CSU

190 INTERCOLLEGIATE FORENSICS PRACTICUM  
1.0 Unit  
Speech Communication 190 provides the training, rehearsal, and performance practice necessary to develop speech performance skills to participate on a competitive collegiate forensics team. Students will have the option to choose areas of interest. Lecture 1 hour. 
Prerequisite: One of the following: SPCH 101, 103, 104, 106 or equivalent. Transfer Credit: CSU

191 FORENSICS-INDIVIDUAL EVENTS  
2.0 to 3.0 Units  
Speech Communication 191 provides introductory theory, training, and instruction necessary to develop speech performance skills and succeed on a competitive forensics team. Students participate in multiple, intercollegiate speaking competitions. Emphasis is on individual speaking events including platform events, limited time preparation events and oral interpretation events. Students will have the option to choose areas of interest. Lecture 1 hour, lab 3 to 6 hours. 
Prerequisite: One of the following: SPCH 101, 103, 104, 106 or equivalent. Transfer Credit: CSU

192 FORENSICS-TEAM EVENTS  
2.0 to 3.0 Units  
Speech Communication 192 provides introductory theory, training, and instruction necessary to develop speech performance skills and participate on a competitive forensics team. Students participate in multiple, intercollegiate speaking competitions. Emphasis is on team events. Lecture 1 hour, lab 3 to 6 hours. 
Prerequisite: One of the following: SPCH 101, 103, 104, 106 or equivalent. Transfer Credit: CSU

193 DEBATE TEAM  
2.0 to 3.0 Units  
Speech Communication 193 reviews theory and instruction for participation on the forensic debate team. Students develop speaking and argumentation skills. Lecture 1 hour, lab 3 to 6 hours. 
Prerequisite: One of the following: SPCH 101, 103, 104, 106 or equivalent. Transfer Credit: CSU

STUDENT DEVELOPMENT  

100 COLLEGE ORIENTATION  
0.5 to 1.0 Units  
Student Development 100 is an introductory college orientation course for newly enrolled and matriculated students. The course covers the following topics: college academic regulations, four-year schools’ requirements for transfer, AA degree requirements, Certificate programs’ requirements, college services and specialized student support services. At the conclusion of the course, the student is able to produce a Student Educational Plan. 
Note: This course is offered only as Pass/No Pass. Lecture ½ - 2 hours. 
Recommended preparation: Eligibility for ENGL 187 or ESL 123.

101 FRESHMAN SEMINAR  
1.0 Unit  
Student Development 101 is dedicated to ensuring students’ college success and motivating their journey toward lifelong learning. The seminar will enable students to develop their own plan for personal, academic, and career success through self-evaluation, application of specific techniques, and classroom activities. These activities will help students acquire effective study strategies, increase critical and creative thinking skills, establish short-term and long-term goals, and learn to manage time more efficiently. Students will learn about the many campus resources available to them. This is a course about making choices, especially those about setting and meeting personal, academic and career goals. 
Note: This course is offered only as Pass/No Pass. Lecture 1 hour. 
Prerequisite: None. Transfer Credit: CSU

103 COLLEGE ORIENTATION FOR INTERNATIONAL STUDENTS  
1.0 Unit  
Student Development 103 is an introduction to customs unique to the American culture, prevalent American attitudes, United States immigration regulations affecting international students, and general principles for living and studying in the United States of America. Additionally, the course covers college academic regulations, requirements for transfer to four-year colleges and universities, college services, and specialized student support services. At the conclusion of the course, the student is able to produce a Student Educational Plan. 
Note: Student Development 103 is designed specifically for newly-enrolled international (F-1 visa) students. Placement is based upon TOEFL results and/or previous college experience. This course is offered only as Pass/No Pass. Lecture 1 to 3 hours. 
Prerequisite: None.

104 COLLEGE ORIENTATION FOR STUDENTS WITH DISABILITIES  
1.0 Unit  
Student Development 104 is an introduction to issues unique to students with disabilities. Additionally, the course covers college academic regulations, requirements for transfer to four-year colleges and universities, college services, and disabled student support services. At the conclusion of the course, the student is able to produce a Student Educational Plan. 
Prerequisite: None.

105 COLLEGE SUCCESS FOR STUDENTS WITH DISABILITIES  
1.0 Unit  
Student Development 105 assists students with disabilities realize their greatest potential for success in college and in life by discovering self-motivation, mastering effective self-management strategies, developing mutually supportive relationships, and by changing self-defeating patterns and limiting 
Note: The course is specially designed for students who meet Title V eligibility requirements for Disabled Student Programs and Services. This course is offered only as Pass/No Pass. Lecture 1 hour. 
Recommended preparation: ENGL 189 or ESL 133.
120 TRANSFER ORIENTATION
1.0 Unit
NON-DEGREE APPLICABLE
Student Development 120 is an orientation course for students who plan to transfer to one of California’s 90 four-year colleges or universities. Topics include: the value of pursuing higher education, admissions, and academic requirements, university comparison, financial aid options, special programs, priority filing periods, and developing an autobiographical essay. Note: This course is offered only as Pass/No Pass. Lecture 1 hour. Prerequisite: None.

125 CAREER PLANNING
1.0 Unit
Student Development 125 is a course that helps students choose a career goal by assessing and analyzing personal values, aptitudes, skills, interests, and traits and relating them to career areas. Decision-making strategies are taught and a tentative career plan is developed. Note: This course is offered only as Pass/No Pass. Lecture 1 hour. Prerequisite: None.

126 JOB SEARCH STRATEGIES
1.0 Unit
Student Development 126 is a course designed to teach methods in job search skills. Students learn how to prepare a job resume and cover letter, how to prepare for a job interview, and how to locate sources of job leads. Note: This course is offered only as Pass/No Pass. Lecture 1 hour. Prerequisite: None.

127 MAJOR EXPLORATION
.5 Units
Student Development 127 is a course designed to help students identify majors they might be interested in pursuing. Emphasis is placed on introducing students to the required education and training needed for a particular major. Students analyze factors such as interests, values, and skills that influence their choice of a major. Note: This course is offered only as Pass/No Pass. Lecture ½ hour. Prerequisite: None.

128 VOCATIONAL PLANNING FOR STUDENTS WITH DISABILITIES
1.0 to 2.0 Units
Student Development 128 is a course designed to assist students with disabilities learn about themselves, design a vocational plan, and apply decision-making skills to the world of work. Students will explore career goals by assessing and analyzing personal values, aptitudes, skills, and interests, and relate them to a career and to their specific disabilities. Note: Allows only 1 unit of credit for students who have completed Student Development 126. This course is offered only as Pass/No Pass. Lecture 1 to 2 hours. Prerequisite: None.

129 TEXT-TO-SPEECH SOFTWARE USE FOR READING AND WRITING ASSISTANCE
1.0 Unit
Student Development 129 provides instruction in effective use of text-to-speech software. Students with disabilities will learn how to use this program as an assistive device for improving skills in reading, study skills, vocabulary development, prewriting, and editing for correct spelling and word usage. Lecture 1 hour. Prerequisite: None.

130 USING TECHNOLOGY TO SUPPORT READING SKILL DEVELOPMENT
1.0 Unit
Student Development 130 provides instruction in effective use of technology to support reading skill development. Students will complete group projects designed to improve reading and study skills through the use of such technology as text-to-speech software, web-based research, PowerPoint and pictorial presentation programs. Lecture 1 hour. Prerequisite: None.

131 IMPROVING COLLEGE PERFORMANCE AND STUDY SKILLS
1.0 Unit
Student Development 131 is an introduction to study skills methods, academic support services, and student’s academic assessment. This class is designed to improve such skills, as note taking, test taking, and time management. Note: This course is offered only as Pass/No Pass. Lecture 1 hour. Prerequisite: None.

132 STUDY SKILLS LAB
0.5 to 2.0 Units
NON-DEGREE APPLICABLE
Student Development 132 is a laboratory course designed to meet the individualized needs of students with disabilities. Specialized tutoring is offered to assist students in developing compensatory strategies necessary for success in mainstream classes and daily living. Note: This course is offered only as Pass/No Pass. Laboratory ½ to 6 hours. Prerequisite: None.

135 ACADEMIC AND CAREER SUCCESS
3.0 Units
NON-DEGREE APPLICABLE
Student Development 135 is a survey course designed to increase academic motivation and career success throughout the life span. The primary goal of this course is to examine how an individual’s psychological, social, physical, and environmental factors impact academic achievement and personal life choices. Topics include learning theory; achievement motivation; identity development; critical thinking strategies; study and time management techniques; career exploration, decision making, and vocational planning. Lecture 3 hours. Recommended preparation: Eligibility for ENGL 191 or ESL 141. Transfer Credit: CSU, UC

136 EFFECTIVE STUDY TECHNIQUES
1.0 Unit
Student Development 136 is a course designed to familiarize students with disabilities with memory techniques, test preparation strategies, time management, and notetaking skills. This course helps students develop critical thinking skills as well as compensatory strategies. Lecture 3 hours. Prerequisite: None.

137 TUTOR TRAINING
.5 Units
Student Development 137 is an introduction to tutoring skills for students wishing to act as peer tutors at the college. The course emphasizes the linking of course content and critical thinking skills with the ability and skills necessary to assist students in their learning process. Note: This course is designed for students who wish to work as peer tutors at GCC. Lecture ½ hour. Prerequisite: None.
171 STUDENT LEADERSHIP
1.0 Unit
Student Development 171 presents the fundamentals of student leadership. Students study leadership theory, parliamentary law, committee techniques, democratic organization, principles and functions of student government, and group leadership problems. Note: Open to all students interested in developing leadership skills. Officers of all student organizations are urged to enroll. This course may not be taken for credit by students who have completed Social Science 141. Lecture 1 hour, discussion 1 hour. Prerequisite: None.

TECHNICAL EDUCATION

140 FUNDAMENTALS OF ENGINEERING DOCUMENTATION
3.0 Units
Technical Education 140 is a fundamental course in reporting technical information for those participating in engineering or manufacturing programs. Note: Technical Education 140 is required in Architectural Drafting and Design and Drafting/Electro-Mechanical Design certificate programs. Lecture 3 hours. Prerequisite: None.

142 TECHNICAL MATHEMATICS I
3.0 Units
NON-DEGREE APPLICABLE
Technical Education 142 is a review of basic mathematics as required in the mechanical trade programs. Subject areas covered include units of measurement (inch and S.I. metric), decimals, percentages and fractions. Problems are drawn from the industrial field. Lecture 3 hours. Prerequisite: None.

143 TECHNICAL MATHEMATICS II
3.0 Units
Technical Education 143 is an advanced study of algebra, trigonometry, and quadratic equations as required in the mechanical trade programs. Problems are drawn from the industrial field. Lecture 3 hours. Prerequisite: Tech Ed 142 or equivalent.

145 APPLIED PHYSICS
3.0 Units
Technical Education 145 studies the application of physics to industry. The course covers fundamental concepts, pressure and buoyancy in fluids, simple and compound machines, hydraulic and pneumatic machines, work, energy, and power, composition and resolution of forces, heat-its measurement, transfer, and conversion to work, light and color, magnetism, atomic energy, and electronics. Lecture 3 hours. Prerequisite: Tech Ed 142 or ECT 100 or MATH 141 or equivalent. Transfer Credit: CSU

147 SURVEY OF ROBOTICS
1.0 Unit
Technical Education 147 is a survey course designed to familiarize students enrolled in technical education industrial courses with the fundamentals of robotics and robot industrial systems. It is a basic study of the high-technology field of robotics, in order to develop an awareness of the field as it applies to individual areas of technical expertise. Areas covered include artificial intelligence, robot classifications and axis geometry, elements of robot systems, power and positioning, Servo Systems, teach-pendents, controllers, and sensors. Hands-on experience in the use and positioning of actual robot trainers is emphasized. Lecture 2 hours, lab 1 hour. Prerequisite: None.

THEATRE ARTS

100 ACTING FOR NON-MAJORS
(Formerly Listed as Theatre Arts 108)
3.0 Units
Theatre Arts 100 is an acting class designed for the non-theatre major. Students practice techniques to develop relaxation, concentration, and stage presence in front of an audience. Class work may include group and individual exercises, theatre games, improvisation, and written critique of live theatre productions. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

101 INTRODUCTION TO THEATRE, TELEVISION, AND MOTION PICTURES
3.0 Units
Theatre Arts 101 is designed to give students a broad introduction to the performing arts and technical skills of television, film, and theatre. The course uses field trips, play analysis, lectures, and audiovisual presentations to give students a first or renewed appreciation of these three dramatic media. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

102 THEATRE HISTORY
3.0 Units
Theatre Arts 102 is a survey of the history of the theatre through its major influences concentrating on Greek, Roman, Renaissance, Elizabethan, Restoration and Modern eras. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

103 FUNDAMENTALS OF ACTING (VOCAL INTERPRETATION)
3.0 Units
Theatre Arts 103 is a course planned to introduce the student to the theory and basic mechanics of vocal control and interpretation necessary for the successful study of acting. Lecture 3 hours, lab 2 hours. Corequisite: DANCE 140. Transfer Credit: CSU, UC, USC

104 FUNDAMENTALS OF ACTING (BODY CONTROL)
3.0 Units
Theatre Arts 104 deals with the development of bodily control and interpretation and the integration of a controlled voice and body. Lecture 3 hours, lab 2 hours. Prerequisite: TH ART 103, SPCH 105, and DANCE 141. (DANCE 141 may be taken concurrently.) Transfer Credit: CSU, UC, USC

106 INTRODUCTION TO THEATRICAL DIRECTING
3.0 Units
Theatre Arts 106 is designed to introduce theatre students to the theory, techniques, and skills of theatrical directing as well as to offer them practice in directing short scenes from plays. Lecture 3 hours, lab 2 hours. Prerequisite: TH ART 101, 103, and 104. Transfer Credit: CSU, UC, USC

107 DRAMA HERITAGE
3.0 Units
Theatre Arts 107 is a survey of dramatic literature from the classical to the modern period from the production point of view. Periods of study include Greek, Medieval, Renaissance, Restoration, and Modern Realism. The course combines the reading of plays with field trips to local theatres and in-class audio-visual presentations to give the student the means to analyze and appreciate the plays both as literature and performance. Lecture 3 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC
109 **STAGE MAKEUP I**  
1.0 Unit  
Theatre Arts 109 provides instruction in the use and application of all types of stage make-up. Students from this course compose the make-up crew for all college productions. Theatre Arts majors should have at least one semester of make-up. Laboratory 3 hours.  
**Prerequisite:** None. **Transfer Credit:** CSU, UC, USC

110 **STAGE MAKEUP II**  
1.0 Unit  
Theatre Arts 110 is a continuation of Theatre Arts 109 with emphasis on unusual character make-up. Laboratory 3 hours.  
**Prerequisite:** None. **Transfer Credit:** CSU, UC, USC

111 **VOICE FOR THE ACTOR**  
3.0 Units  
Theatre Arts 111 introduces students to the proper use and maintenance of the voice on stage primarily through the use of the Linklater Technique. The main goal of the course is to help students free their ‘natural voice’ in order to perform on stage with vocal freedom, safety, and control. Elements from Lessac and Berry and instruction in the International Phonetic Alphabet (IPA) will be incorporated in units on articulation and proper placement of sounds. Emphasis will be placed on vocal theory and the basic mechanics of vocal production technique. Lecture 3 hours.  
**Prerequisite:** None.

121 **STAGE SCENIC DESIGN**  
2.0 Units  
Theatre Arts 121 is a practical course in instruction in the fundamentals of designing stage scenery. All the sets used in Glendale Community College productions are designed by this class. Some ability in art, costuming, or theatre techniques is helpful. Lecture 1 hour, lab 3 hours.  
**Prerequisite:** TH ART 131 (3 units) or equivalent. **Transfer Credit:** CSU, UC, USC

122 **STAGE SCENIC DESIGN**  
2.0 Units  
Theatre Arts 122 is a continuation of Theatre Arts 121 with more emphasis on originality of design. Lecture 1 hour, lab 3 hours.  
**Prerequisite:** TH ART 121. **Transfer Credit:** CSU, UC, USC

123 **STAGE COSTUME DESIGN WORKSHOP**  
1.0 to 3.0 Units  
Theatre Arts 123 is a course in the designing and construction of group costumes for stage, ensembles, etc. This course includes the planning for and the buying of suitable materials, design and color schemes, the design and construction of costumes and accessories, arrangement and maintenance of the costume wardrobe. Students in this course design and make costumes for school dramatic programs.  
**Note:** A proportionate amount of work is required according to the number of units elected by the students (3 to be arranged hrs. per unit). Lecture 2 hours, lab 3 hours.  
**Prerequisite:** None. **Transfer Credit:** CSU, UC, USC

129 **BACKSTAGE LAB FOR PERFORMERS**  
1.0 Unit  
Theatre Arts 129 is a course designed to introduce performance students to the backstage aspects of technical theatre. Students work on projects that directly support the dance, music or theatre production in which they are concurrently enrolled. Through the analysis and implementation of production designs for scenery, lights and sound, they gain a greater understanding of the relationship between performance and the backstage support. Laboratory 3 hours.  
**Prerequisite:** Corequisite: TH ART 133 or equivalent. **Transfer Credit:** CSU, UC, USC

130 **PERFORMING ARTS TECHNICAL SUPPORT**  
1.0 to 3.0 Units  
Theatre Arts 130 teaches the technical support aspects for the performing arts, including: dance, music, and theatre arts. Through lecture and laboratory experiences the students are prepared to stage manage, run sound, run lights, manage props, execute scenery changes using the fly system, and manage costumes for productions. Lecture 1 hour, lab/studio 3 to 9 hours.  
**Prerequisite:** None. **Transfer Credit:** CSU, UC, USC

131 **TECHNICAL STAGE**  
1.0 to 3.0 Units  
Theatre Arts 131 is a laboratory class in the construction, painting, and handling of scenery and scenic effects and in the operation of the stage. All technicians for staging the various Glendale Community College productions will be drawn from this class. It is required that class members have free time to devote to rehearsals and performances. Theatre Arts majors should have at least one semester of technical stage. See also Theatre Arts 105.  
**Note:** A proportionate amount of work is required according to the number of units elected by the student and signed for at the time of registration.  
**Prerequisite:** None. **Transfer Credit:** CSU, UC, USC

133 **ART OF LIGHTING DESIGN**  
2.0 Units  
Theatre Arts 133 is designed for students who have a basic knowledge of visual or performing arts. Students learn how to use artificial light sources to create an appropriate environment for a variety of entertainment media, including animation, and theatre and dance productions. Applying basic techniques of lighting composition, students use highlights, shadows, textures, and colors to achieve the desired effects. Lighting designs are created using virtual lighting simulations on a computer. These programs are used in the analysis and performance of design exercises.  
**Note:** Theatre Arts 133 is designed for students who have completed at least one course in visual arts, dance, media arts, music, or theatre arts. Lecture 2 hours, lab 1 hour.  
**Prerequisite:** None. **Transfer Credit:** CSU, UC, USC

134 **PRACTICAL AND THEORETICAL ASPECTS OF STAGE LIGHTING**  
2.0 Units  
Theatre Arts 134 is for the advanced student in technical theatre. It is a course designed to develop the skills and techniques which are necessary for the student’s participation and appreciation of the art of stage lighting. It is hoped that the student will develop, as a result of familiarity with stage lighting practice, a sense of balance and rhythm with regard to color, light and shadow, and mass. Laboratory 6 hours.  
**Prerequisite:** TH ART 133 or equivalent. **Transfer Credit:** CSU, UC, USC
140
INTRODUCTION TO PERFORMANCE FOR THE CAMERA
3.0 Units
Theatre Arts 140 is a comprehensive introduction to performing in the media of television and film. The course explores the styles and the mastery of technical specifics demanded by each medium. The approach is to teach on-camera techniques simply and correctly, while providing a broad understanding of why and how things are done in media production. Practical aspects of facilitating a performance career are covered: getting an agent, joining the unions, and acquiring the necessary tools of the trade, such as pictures and resumes. Lecture 3 hours, lab 2 hours. Prerequisite: None.

151
THEATRE MANAGEMENT
3.0 Units
Theatre Arts 151 is designed to provide an introduction to economic and managerial aspects of American theatre, especially as they apply to professional resident theatre and nonprofessional community and educational theatre organizations. It is assumed that students have a background in theatre history and production but that they are comparatively untutored in economics and business administration. Note: This course may not be taken for credit by students who have completed Business Administration 151. Lecture 3 hours. Recommended corequisite: TH ART 131. Transfer Credit: CSU

155
INTRODUCTION TO PLAYWRITING
3.0 Units
Theatre Arts 155 is the study and practice of writing dramatic works for the stage. Students will gain a greater understanding of how to write for the stage through reading plays, analyzing play structure, peer evaluation of writing assignments, participating in play development process, understanding the commerce of playwriting, and having original works performed in front of an audience. Lecture 3 hours. Prerequisite: None.

160
ACTING STYLES WORKSHOP IN MUSICAL THEATRE
1.0 to 3.0 Units
Theatre Arts 160 is a workshop in acting styles designed to support musical theatre production. The students enrolled in this course will be formed into a company to present the combined Dance, Music, and Theatre Arts Department productions at Glendale Community College. Each student will be assigned projects in accordance with his or her interests and talents. The projects will involve some phase of theatrical production as it relates to performance skills in the style of theatre generally termed American Musical Comedy. Note: Maximum credit allowed for Theatre Arts 105 and Theatre Arts 160 is 12 units. Lecture 1 hour, lab 3 to 9 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

161
ACTING STYLES WORKSHOP IN CLASSICAL THEATRE PRODUCTION
1.0 to 3.0 Units
Theatre Arts 161 is a workshop in acting styles designed to support classical theatre production. The students enrolled in this course will be formed into a company to present the Theatre Arts Department productions at Glendale Community College. The productions will include works that belong specifically to those playwrights whose style requires a genre of acting, generally referred to as Classical, Greek, Roman, Elizabethan, Spanish Golden Age, and French Classical theatre. The works include, but are not limited to, Jonson, Marlowe, Shakespeare, Moliere, Racine, Rosseau, Lope de Vega, and Pedro Calderon de la Barca. Each student will be assigned projects in accordance with his or her interests and talents. The projects will involve some phase of theatrical production as it relates to performance skills in the style of classical theatre. Note: Maximum credit allowed for Theatre Arts 105 and Theatre Arts 161 is 12 units. Lecture 1 hour, lab 3 to 9 hours Prerequisite: None. Transfer Credit: CSU, UC, USC

162
ACTING STYLES WORKSHOP IN MODERN THEATRE PRODUCTION
1.0 to 3.0 Units
Theatre Arts 162 is a workshop in acting styles designed to support modern theatre production. The students enrolled in this course will be formed into a company to present plays from the Modern Repertoire as a part of the season of Theatre Arts Department productions at Glendale Community College. These titles will include, but are not limited to the works of the international theatre from the 1840’s and the advent of Henrik Ibsen, to the mid 1950’s with the work of Tennessee Williams and Eugene O’Neill. Each student will be assigned projects in accordance with his or her interests and talents regarding the selected materials. The projects will involve some phase of theatrical production as it relates to performance skills in the style of Modern drama. Note: Maximum credit allowed for Theatre Arts 105 and Theatre Arts 162 is 12 units. Lecture 1 hour, lab 3 to 9 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

163
ACTING STYLES WORKSHOP IN CONTEMPORARY THEATRE
1.0 to 3.0 Units
Theatre Arts 163 is a workshop in acting styles designed to support contemporary theatre production. The students enrolled in this course will be formed into a company to present contemporary plays as a part of the season in the Theatre Arts Department at Glendale Community College. Each student will be assigned projects in accordance with his or her interests and talents. The projects will involve some phase of theatrical production as it relates to performance skills in the style of Contemporary World Theatre. Included will be current or recent successful stage play scripts from Broadway, Off-Broadway, West-end London, and other world theatre centers and date back to the style changes in realism in the mid-to-late 1950’s. Note: Maximum credit allowed for Theatre Arts 105 and Theatre Arts 163 is 12 units. Lecture 1 hour, lab 3 to 9 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC
164 ACTING STYLES WORKSHOP IN NEW WORKS AND EXPERIMENTAL THEATRE PRODUCTION
1.0 to 3.0 Units
Theatre Arts 164 is a workshop in acting styles designed to support new works and experimental theatre production. The students enrolled in this course will be formed into a company to present the Theatre Arts Department productions at Glendale Community College. Each student will be assigned projects in accordance with his or her interests and talents. The projects will involve some phase of theatrical production as it relates to performance skills in the style of new plays and plays of a differently structured nature, including but not limited to nonlinear, feminist, epic, etc. These productions may include work that is student written or generated by the production team. The rehearsal laboratory consists of 10-15 hours per week. Note: Maximum credit allowed for Theatre Arts 105 and Theatre Arts 164 is 12 units. Lecture 1 hour, lab 3 to 9 hours. Prerequisite: None. Transfer Credit: CSU, UC, USC

WELDING

117 INTRODUCTION TO WELDING
1.0 to 3.0 Units
Welding 117 consists of oxyacetylene welding, flame cutting, (manual and automatic), bronze and silver brazing and soldering. These processes are discussed and demonstrated. The student is given experience in applying the principles by individual practice on a sequence of selected plates and manipulative exercises on various metals. Lecture 5 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151. Transfer Credit: CSU

118 GENERAL WELDING
2.0 to 3.0 Units
Welding 118 consists of theory and techniques in basic Shielded Metal Arc Welding and Flux Cored Arc Welding. The student is given experience in applying the principles by individual practice on a sequence of selected plates and manipulative exercises on mild steel. Lecture 5 hours. Prerequisite: WELD 117 or equivalent.

121 OCCUPATIONAL WELDING
3.0 Units
Welding 121 is the first in a series of occupational welding courses designed to prepare the student for employment in the welding industry. It covers the theory of welding processes, welding safety, terms, basic metallurgy, and the fundamentals of metallic arc and oxyacetylene welding. Lecture 5 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151.

122 OCCUPATIONAL WELDING
3.0 Units
Welding 122 is second in a series of occupational welding courses designed to prepare the student for employment in the welding industry. It covers fundamentals of blueprint reading, interpreting shop drawings and sketches, advanced metallic arc and oxyacetylene welding and provides, an introduction to tungsten inert gas and metal inert gas arc welding. Lecture 5 hours. Prerequisite: WELD 121 or equivalent. Recommended preparation: Eligibility for ENGL 120 or ESL 151.

123 OCCUPATIONAL WELDING
3.0 Units
Welding 123 is third in a series of occupational welding courses designed to prepare the student for employment in the welding industry. It covers basic preparation for welding certification, advanced metallic arc, tungsten inert gas, metal inert gas, and oxyacetylene welding, including specific welding exercises needed to prepare the student for the manipulative phase of the certification examination. Lecture 5 hours. Prerequisite: None.

124 OCCUPATIONAL WELDING
3.0 Units
Welding 124 is fourth in a series of occupational welding courses designed to prepare the student for employment in the welding industry. It covers the preparation for a welding certification in metallic arc, tungsten inert gas, and metal inert gas arc welding. Note: This course may be taken 3 times, a maximum of 15 units may be earned. Lecture 5 hours. Prerequisite: None.

125 ADVANCED WELDING PROCEDURES
1.0 to 4.0 Units
Welding 125 is advanced welding procedures and practices for experienced students or industrial workers who wish to improve and update their manipulative skills or prepare for a specific certification in metallic arc, tungsten inert gas, or metal inert gas welding. Note: Hours to vary according to student needs, 48 hours laboratory equals 1 unit. Lecture 5 hours. Prerequisite: WELD 117 or 121 or equivalent.

126 OCCUPATIONAL WELDING CERTIFICATION WORKSHOP
1.0 to 3.0 Units
Welding 126 is designed for the student or industrial worker with a welding background to gain practical experience in specific skill areas of concentration, resulting in state welding certification. Lecture 5 hours. Prerequisite: WELD 117 or 118 or 125 or equivalent.
Continuing Education
GARFIELD CAMPUS SERVICES

Noncredit Continuing Education courses provide educational opportunities for those seeking occupational or personal improvements. The Garfield Campus at 1122 E. Garfield (between Adams and Chevy Chase) houses the Continuing Education Office, the Business Skills Center, CalWORKs/WIA training programs, Developmental Skills Lab and the English as a Second Language program. Parent Education and Lifelong Learning are also a part of the Continuing Education program offered on the main campus (Life Skills Building) as well as throughout the community. The Garfield Campus houses a full range of student services that are available free of charge to the community.

Classes are available mornings, afternoons, and evenings throughout the year. All classes are tuition free. Students may enter a class at any time during the year.

For information or to request a current schedule of classes, please call (818) 548-5233 (24-hour voice mail) or (818) 240-1000 ext. 5678 or 5681 during business hours. Continuing Education office hours are 8:00 a.m. to 9:00 p.m. Monday through Thursday, and 8:00 a.m. to 4:30 p.m. on Friday.

CALIFORNIA WORK OPPORTUNITIES AND RESPONSIBILITIES TO KIDS (CALWORKS)

CalWORKs is the on-campus resource for parents receiving aid. Our students are low-income parents who are receiving welfare benefits from the state of California. We provide encouragement, advice, and honest feedback for a population of students who are rebuilding their lives on a foundation of education, while modeling perseverance and hard work to their children. We help students communicate with state workers (DPSS and GAIN) who oversee their benefits. We process the documents that allow CalWORKs students to access crucial supportive services from the state, including child care during class hours and reimbursement for school-related costs such as text books, supplies, transportation, and fees. We provide funding for Work Study jobs and on-campus child care.

CAREER CENTER

The Career Resource Center assists with transfer to the main campus, choosing classes, preparing for financial aid, career assessment, job seeking, employment preparation, and career/school research. Hours are Monday through Thursday 8:30 a.m. to 5:30 p.m., and Friday 8:30 a.m. to 4:00 p.m. Call (818) 240-1000 ext. 5055 or 5056 for more information.

COUNSELING

Counselors are available for assistance with students seeking High School Diplomas and GEDs. Counselors work with State Department of Rehabilitation referrals and California Training Benefits (CTB) students. They assist with transition to credit classes at the Main Campus, and provide general academic counseling. Hours vary from 8:00 a.m. to 9:30 p.m. Call (818) 240-1000 ext 5055 or 5678 for times and appointments.

Mental Health Counseling is offered for short-term and crisis counseling for students that are enrolled in any continuing education program or class. Students should obtain a referral from staff or faculty to make an appointment. For more information call (818) 240-1000 ext 5678.

CONTINUING EDUCATION CERTIFICATES

GED PREPARATION CERTIFICATE

This program prepares students to take and pass the GED test, an equivalency to the high school diploma.

Required courses: Developmental Skills Lab 010, 020, 050, 060 (or 061).

ADULT BASIC EDUCATION CERTIFICATE

This program allows students to increase their basic academic skills to the 8th grade level or beyond, increasing their chances for employment and success in further education.

Required courses: Developmental Skills Lab 010, 020, and 050.
INTERMEDIATE ESL CERTIFICATE
This certificate prepares the student for job opportunities that require a conversant level of English. The courses required focus on verbal communication skills, comprehension of everyday spoken English, and the development of life skills competencies. This certificate also prepares the student for higher levels of study that include noncredit business courses, the GED program, citizenship courses and possible matriculation to credit classes.
Sequence of courses: ESL 030, 040, 081 and OBT 071.

ADVANCED ESL CERTIFICATE
This certificate prepares the student for job opportunities that demand a fluent level of spoken English. The required courses focus on verbal communication skills, comprehension of academic, professional, and everyday spoken English, and the development of life skills competencies. This certificate also prepares the student for higher levels of study that include noncredit business courses, the GED program, citizenship courses and matriculation to credit classes.
Sequence of courses: ESL 050, 082 and OBT 071.

GENERAL OFFICE CLERK I
This program prepares students for entry-level work in an office setting. Students are provided with the basics of keyboarding, filing, and word processing computer applications as well as soft skills such as problem solving and teamwork.
Required courses: OBT 011, 034, 035, 040, 055, 070, 080, 100 and 140.

GENERAL OFFICE CLERK II
This program prepares students for independent work in an office setting. Students gain a broad background in business math, computer applications, and business writing, which provides them with the ability to work in most office departments.
Required courses: Completion of General Office Clerk I or equivalent; OBT 012, 021, 031, 032, 050, 090 and 138.

GENERAL OFFICE CLERK III
This program prepares students for work as an administrative assistant or secretary. Students gain advanced keyboarding and computer application skills as well as the fundamentals of accounting. Students are able to integrate various peripheral devices to create computer documents or presentations. The students gain the soft skills necessary for leading groups as well as being an active member of a group.
Required courses: +Completion of General Office Clerk II or equivalent; OBT 013, 022, 033 and 101.
Complete one of the following courses: OBT 111, 113 or 150.

MEDICAL FRONT OFFICE CLERK
This program prepares students for front office work in a doctor’s office or medical facility. Students learn medical terminology, billing, transcription, and customer service.
Required courses: OBT 011, 034, 035, 040, 050, 061, 070, 080, and 100.

DENTAL FRONT OFFICE CLERK
This program prepares students for front office work in a dentist’s office. Students learn medical terminology, billing, transcription, and customer service.
Required courses: OBT 011, 034, 035, 040, 050, 062, 070, 080, 100.

ACCOUNT CLERK I
This program prepares students for entry-level bookkeeping positions.
Required courses: OBT 011, 021, 022, 032, 034, 040, 070, 080, and 090.

ACCOUNT CLERK II
In this program, students learn advanced accounting techniques, computerized accounting systems, and the use of Excel spreadsheets.
Required courses: Completion of Account Clerk I or equivalent; OBT 023, 035, 050, 091, 095, 097, and 100.
Complete one of the following courses: OBT 113, 138, or 150.

INTRODUCTION TO HOSPITALITY AND TOURISM
This certificate prepares students for entry-level positions in the hospitality and tourism industry as part of a career ladder. Students will gain a foundational understanding of the multiple facets of the industry through case studies and live demonstrations. Students will explore the entry-level and promotional opportunities available in restaurants, hotels, beverage operations, casinos, theme venues, entertainment centers, cruise lines, and other hospitality and tourism businesses. This program also serves as a first step in preparing students for entry into the credit hospitality program at Glendale Community College.
Required courses: OBT 035, 040, 050, 065, 066, and 070.
Complete two of the following courses: OBT 011, 031, 055, 080, and 140.
HIGH SCHOOL DIPLOMA REQUIREMENTS

- 40 credits of English
- 10 credits of World History
- 10 credits of United States History
- 5 credits of American Government
- 5 credits of Economics
- 10 credits of Physical Science
- 10 credits of Biological Science
- 10 credits of Algebra
- 10 credits of Geometry
- 5 credits of Computer Applications
- 5 credits of Health
- 5 credits of Career Preparation
  (or equivalent work history)
- 10 credits of Humanities (Art, Music or Foreign Language)
- 50 credits of Electives

Total of 185 credits plus demonstration of competency in reading, writing, and mathematics.
20 credits must be completed in residence.

Competency Requirements

Reading Competency - One of the following:
- Pass the GED Language Arts, Reading with a score of 410 or higher
- Score 584 or above on the Test of Adult Basic Education (TABE)
- Score 246 or above on the CASAS Life and Work test level 187 or 188
- Place into English 192
- Pass the English-Language Arts portion of the CAHSEE

Writing Competency - One of the following:
- Pass the GED Language Arts, Writing with a score of 410 or higher
- Place into English 120 or higher
- Pass the English-Language Arts portion of the CAHSEE

Mathematics Competency - One of the following:
- Place into Mathematics 141 or higher
- Pass the GED Mathematics with a score of 450 or higher
- Pass the Mathematics portion of the CAHSEE

For GED testing information please refer to the General Information section, page 16.
DEVELOPMENTAL SKILLS LAB (DSL)

The Developmental Skills lab is an individualized program for students who wish to improve their basic skills, prepare for the GED or complete their high school diploma. Courses are open-entry/open-exit.

010 BASIC ENGLISH
0 Units
DSL 010 is a beginning composition course. This course covers the basics of sentence and paragraph composition including mechanics, grammar, and spelling. Laboratory 160 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment.

015 VOCABULARY DEVELOPMENT
0 Units
DSL 015 introduces common roots, prefixes, suffixes, and word usage as well as the use of context clues to determine word meanings. This course is designed to meet the needs of students who wish to improve their vocabulary and to earn elective high school credit in English. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (1/2 unit) towards a high school diploma.

020 BASIC MATH
0 Units
DSL 020 is a math course designed for adults who wish to review or master basic arithmetic from whole number operations through percent. Laboratory 120 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment.

021 ARITHMETIC 1A
0 Units
DSL 021 introduces students to whole number, fractions, decimals, and percent computation. This course is designed to meet the needs of students who wish to improve their basic math skills and to earn high school credit. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (1/2 unit) towards a high school diploma.

022 ARITHMETIC 1B
0 Units
DSL 022 introduces students to higher level arithmetic: statistics, measurement, and geometric and algebraic principles. This course is designed to meet the needs of students who wish to improve their math skills and to earn high school credit. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (1/2 unit) towards a high school diploma.

023 ALGEBRA 1A
0 Units
DSL 023 introduces students to algebraic vocabulary, solving equations with one variable, and working with polynomials and algebraic fractions. This course is designed to meet the needs of students who wish to begin their study of algebra and to earn high school credit in math. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (1/2 unit) towards a high school diploma.

024 ALGEBRA 1B
0 Units
DSL 024 is the second half of a one-year high school level algebra course. This course includes solving equations with multiple variables, solving linear equations, using functions, working with rational and irrational numbers, and solving quadratic equations. This course is designed to meet the needs of students who wish to continue their study of algebra and to earn high school credit in math. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (1/2 unit) towards a high school diploma.

025 GEOMETRY 1A
0 Units
DSL 025 is the first half of a one-year high school level geometry course. The course includes plane figures, basic proofs, coordinate graphing, and congruent triangles and transformations. This course is designed to meet the needs of students who wish to begin their study of geometry and to earn high school credit in math. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (1/2 unit) towards a high school diploma.

026 GEOMETRY 1B
0 Units
DSL 026 is the second half of a one-year high school level geometry course. The course includes proportion and similarity, the Pythagorean Theorem, two and three dimensional figures, solid geometric figures, and lines and loci in space. This course is designed to meet the needs of students who wish to begin their study of geometry and to earn high school credit in math. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (1/2 unit) towards a high school diploma.

027 APPLIED MATHEMATICS
0 Units
DSL 027 is designed to help students use mathematical principles and computations in everyday living. This course may be taken as a high school elective in math. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course is worth 5 credits (1/2 unit) towards a high school diploma.

030 LIFE SCIENCE 1A
0 Units
DSL 030 is a high school level course designed to give an overview of life science from cells through the plant kingdom. It includes the characteristics of life, cells structure and function, heredity, evolution, and the classification of plants. This is the first half of a one-year course. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits (1/2 unit).

031 LIFE SCIENCE 1B
0 Units
DSL 031 is a high school level course designed to give an overview of life science from animals to the human body. It includes animal classification and characteristics, human body systems, and the interactions of factors within an ecosystem. This is the second half of a one-year course. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits (1/2 unit).
032 PHYSICAL SCIENCE 1A
0 Units
DSL 032 acquaints students with the basic physical properties of matter, atoms, compounds, and simple chemical equations. This is the first half of a one-year course. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits (1/2 unit).

033 PHYSICAL SCIENCE 1B
0 Units
DSL 033 expands on basic physical science with concepts of motion, machines, sound, light, electricity and magnetism. This is the second half of a one-year course. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits (1/2 unit).

034 HEALTH AND GUIDANCE
0 Units
DSL 034 presents guides to healthy life styles and positive health behaviors. It focuses on decisions regarding drugs, alcohol, tobacco, exercise, safety and nutrition and how these issues impact health and well-being. This course may be taken for high school credit. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits (1/2 unit).

040 WORLD HISTORY 1A
0 Units
DSL 040 is a high school level course designed to give an overview of world history, covering the period beginning with the first humans up to the Scientific Revolution and Enlightenment. This is the first half of a one-year course. This course may be taken for high school credit. Laboratory 100 hours. Recommended Preparation: ESL 040 or equivalent. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits (1/2 unit).

041 WORLD HISTORY 1B
0 Units
DSL 041 is a high school level course designed to give an overview of world history, beginning with the Scientific Revolution and Enlightenment up to present day. This is the second half of a one-year course. This course may be taken for high school credit. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits (1/2 unit).

042 US HISTORY 1A
0 Units
DSL 042 meets the needs of students who wish to earn high school credit for first semester United States History (exploration through reconstruction after the Civil War). Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits (1/2 unit).

043 US HISTORY 1B
0 Units
DSL 043 meets the needs of students who wish to earn high school credit for second semester United States History (post Civil War through the New Millennium). Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits (1/2 unit).

044 AMERICAN GOVERNMENT
0 Units
DSL 044 meets the needs of students who wish to earn high school credit for American Government. The course covers the principles behind American government and then explores the American political process. Each of the three branches of government are explored as well as local government systems. This course may be taken for high school credit. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits (1/2 unit).

045 ECONOMICS
0 Units
DSL 045 meets the needs of students who wish to earn high school credit for economics. This is a fundamental course in both micro- and macroeconomics. Microeconomic topics include demand, pricing theory, and market structures. Macroeconomics involves a study of relevant institutions and policies. Other topics include international and global economics. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits (1/2 unit).

048 PSYCHOLOGY
0 Units
DSL 048 introduces students to the basics of life cycle development issues, the roots of behavior, emotions and consciousness. This course may be taken for high school credit. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits (1/2 unit).

050 BASIC READING
0 Units
DSL 050 is an individualized beginning reading course. This course covers reading techniques, vocabulary development, and comprehension and analysis skills. Laboratory 200 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment.

053 LITERATURE AND COMPOSITION
0 Units
DSL 053 is a reading and composition course designed for students who desire to earn high school elective credit. This course includes a variety of types of literature including fiction, nonfiction, drama, and poetry. Students will write short answer and essay responses to the literature as well as writing original work within various genres. Laboratory 100 hours. Recommended Preparation: ESL 040 or equivalent. Note: This is a self-paced course in an open-entry, open-exit lab environment.

060 GED PREPARATION
0 Units
DSL 060 is an individualized course designed to prepare students to take the GED (General Educational Development) test. This course covers all five areas of the test: reading, writing, social studies, and mathematics and includes small group instruction. Laboratory 320 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment.

061 GED LAB
0 Units
DSL 061 is an individualized course designed to prepare students to take the GED (General Educational Development) test. This course covers all five areas of the test: reading, writing, social studies, science, and mathematics. This is a self-study program. Laboratory 320 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment.
070 CAREER EXPLORATION
0 Units
DSL 070 is designed to assist students in their exploration of possible careers. Students explore their occupational interests, career requirements, and career preparation. Students will utilize the services of the Career Center for their assessment and exploration. This course may be taken for high school credit. Laboratory 90 hours. Recommended Preparation: ESL040 or equivalent. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits (1/2 unit).

110 ENGLISH 9A
0 Units
DSL 110 is equivalent to the first semester of ninth grade English. It meets the requirements for a high school diploma. The course focuses upon basic grammar. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits.

111 ENGLISH 9B
0 Units
DSL 111 is equivalent to one semester of ninth grade English. It meets the requirements for a high school diploma. The course focuses upon basic writing skills. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits.

112 ENGLISH 10A
0 Units
DSL 112 meets the requirements for 10th grade English and is designed to improve grammar and writing skills. Students will write paragraphs and a variety of essays. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits.

113 ENGLISH 10B
0 Units
DSL 113 meets the requirements for 10th grade English and is designed to improve grammar and writing skills. Students will analyze fiction, poetry and drama and write paragraphs, essays, and a research paper. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits.

114 ENGLISH 11A
0 Units
DSL 114 meets the needs of students who wish to earn credit for 11th grade English. This course focuses on reading, analyzing, and writing about American Literature selections through 1899. An introduction to the modes of descriptive, narrative, and business writing is included as well as an introduction to the research paper. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits.

115 ENGLISH 11B
0 Units
DSL 115 meets the needs of students who wish to earn credit for 11th grade English. This course focuses on reading, analyzing, and writing about American Literature selections through 1899. Further practice in the modes of descriptive, narrative, and research paper writing is included. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits.

116 ENGLISH 12A
0 Units
DSL 116 meets the requirements of twelfth grade high school English. Literary analysis, written responses to literature, research report writing, and the elements of discourse are emphasized in this course. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits.

117 ENGLISH 12B
0 Units
DSL 117 meets the requirements of the second semester of twelfth grade high school English. Further practice in literary analysis, written responses to literature, research report writing, and the elements of discourse are included in the course. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of this course results in 5 high school credits.

147 WORLD GEOGRAPHY 1A
0 Units
DSL 147 is designed for students who wish to earn high school credit for World Geography. The course presents information about the world and its resources, surveys the basic principles of geography, and explores how such physical factors as climate and natural resources influence the cultural, economic and political life of people in the United States, Canada, Latin America, Europe, Russia, and Eurasia. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of the entire course results in 5 high school credits.

148 WORLD GEOGRAPHY 1B
0 Units
DSL 148 is designed for students who wish to earn high school credit for World Geography. The course presents information about the world and its resources, surveys the basic principles of geography, and explores how such physical factors as climate and natural resources influence the cultural, economic and political life of people in Africa, Asia, Australia, and Antarctica. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of the entire course results in 5 high school credits.

149 ART HISTORY 1A
0 Units
DSL 149 is a high school level course designed to give an overview of art and architecture from prehistory times up to the Renaissance. The course includes the art of Europe, Asia, Africa, and the Americas. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of the entire course results in 5 high school credits.

150 ART HISTORY 1B
0 Units
DSL 150 is a high school level course designed to give an overview of art and architecture from the early Byzantine era through modern times. The course includes the art of Europe, Asia, Africa, and the Americas. Laboratory 100 hours. Note: This is a self-paced course in an open-entry, open-exit lab environment. Successful completion of the entire course results in 5 high school credits.
ENGLISH AS A SECOND LANGUAGE (ESL)

The Noncredit English as a Second Language program offers literacy through advanced courses. They are designed to meet the various needs of the student population. Courses are open-entry/open-exit, and are tuition free.

001 LEVEL 0 (LITERACY) 0 Units
ESL 001 is designed for students who need to acquire fundamental literacy and communicative skills in English to successfully participate in everyday situations. Instruction emphasizes recognizing, printing, and using the alphabet; learning sound/letter relationships to read, write and spell; developing basic vocabulary, recognizing, writing, and using the numbers 1-100; and acquiring the language structure and communicative skills necessary in basic life skills competencies. Instruction integrates listening, speaking, reading, and writing skills. Lecture 224 hours.

005 OLDER ADULT (HIGH BEGINNING) 0 Units
ESL 005 is designed for older adult learners at the high-beginning level of English acquisition. This course provides instruction in reading, writing, sentence structure, spelling and phonemic correspondences, verbal communicative skills, and emphasizes oral and written activities. Students read and listen to dialogs and compose and practice original dialogs. Other activities include reading of short stories or paragraphs, writing sentences and short paragraphs, role playing of everyday situations, listening comprehension, dictation, and life skills competencies. Lecture 224 hours.

010 LEVEL I (BEGINNING) 0 Units
ESL 010 is designed for students at the low-beginning level of English acquisition. This course provides instruction in simple reading and writing, basic sentence and paragraph structure, spelling and phonetic correspondences, and listening and oral communication skills. Students read and listen to dialogs and compose and practice original dialogs. Other activities include reading of short stories or paragraphs, writing sentences and short paragraphs, role playing of everyday situations, listening comprehension, dictation, and life skills competencies. Lecture 224 hours.

020 LEVEL II (HIGH BEG) 0 Units
ESL 020 is designed for students at the high-beginning level of English acquisition. This course provides instruction in reading and writing, basic sentence and paragraph structure, spelling, verbal communication skills, listening, comprehension of everyday spoken English, and development of life skills competencies. Emphasis is placed upon the study of grammar and vocabulary necessary for everyday life and general understanding of spoken English. Lecture 224 hours.

030 LEVEL III (INTERMEDIATE) 0 Units
ESL 030 is designed for students at the low intermediate level of English acquisition. This course provides instruction in reading and writing, sentence and paragraph structure, verbal communication skills, comprehension of everyday spoken English and development of life skills competencies. Instruction integrates all four skills and stresses the grammatical study of verbs and vocabulary development. Emphasis is placed upon a general understanding of spoken and written English and overall communicative effectiveness. Lecture 224 hours.

040 LEVEL IV (HIGH INTERMEDIATE) 0 Units
ESL 040 is designed for students at the high intermediate level of English acquisition. This course provides instruction in reading and writing, sentence and paragraph structure, verbal communication skills, comprehension of everyday spoken English, and development of life skills competencies. Emphasis is placed upon the direct study of English grammar appropriate for academic settings and overall communicative effectiveness. Lecture 224 hours.

050 LEVEL V (ADVANCED) 0 Units
ESL 050 is designed for students at the advanced level of English acquisition. This course provides instruction in reading and writing, paragraph and essay structure, verbal communication skills, comprehension of academic, professional, and everyday spoken English, and development of life skills competencies. Instruction integrates all four skills with special attention given to the development of writing skills. Emphasis is placed upon the direct study of English grammar appropriate for academic settings and overall communicative effectiveness. Lecture 224 hours. Recommended preparation: Eligibility for ENGL 120 or ESL 151.

080 CONVERSATION (BEGINNING) 0 Units
ESL 080 is designed for students who cannot effectively communicate in most everyday situations. Controlled dialogs and free conversations are presented as students participate in role plays of common, everyday topics including family life, working conditions, consumer issues, and academic goals. Clear speaking and listening comprehension are stressed in classroom drills and activities. Laboratory assignments may be added by the instructor based on individual student needs. Lecture 112 hours.

081 CONVERSATION (INTERMEDIATE) 0 Units
ESL 081 is designed to help intermediate students improve their oral communication, listening comprehension, and vocabulary. Pronunciation of individual sounds, word and sentence stress, and intonation patterns are practiced. Students participate using role plays and dialogs in paired and small group activities. Class discussions are also used. Laboratory assignments may be added by the instructor based on individual student needs. Lecture 112 hours.
082 CONVERSATION (ADVANCED)  
0 Units  
ESL 082 stresses fluency and clarity in formal and informal communicative activities. Activities may involve the preparation and presentation of reports, summaries, and persuasive speeches. Students are encouraged to use the vocabulary and grammatical structures appropriate for formal settings. Cultural subtleties such as body language are reviewed to maximize the production of efficient communication. Listening comprehension and lecture skills are also practiced. Laboratory assignments may be added by the instructor based on individual student needs. Lecture 112 hours.

083 ACCENT REDUCTION  
0 Units  
ESL 083 concentrates on reducing foreign accents in the speech of non-native students. Practice in the production of individual sounds, rhythm, stress, intonation and phraseology helps students communicate more effectively and helps prepare them for everyday activities where communication is required. Students learn to use formal diction by making oral presentations and participating in class discussions. They practice expressive speaking, appropriate facial expressions, and hand and body gestures. Laboratory assignments may be made at the discretion of the instructor. Lecture 64 hours.

090 CITIZENSHIP  
0 Units  
ESL 090 is designed for students at the high-beginning level of English acquisition. This course provides instruction in reading and writing, sentence structure, verbal communication skills, and comprehension of everyday spoken English. Emphasis is placed on oral and written English necessary to pass the United States citizenship exam. The course content includes instruction in the history and government of the United States, and educates students in the steps to becoming a United States citizen. Lecture 64 hours.

HOME ARTS  
These courses are designed to help adults with skills needed in the home.

010 CREATIVE STITCHERY  
0 Units  
Home Arts 010 covers the many stitching techniques found in the three general categories of needlework-surface embroidery, needlepoint (canvas work), and counted thread. This broad range of stitching techniques is presented for the purpose of developing wall hangings, pictures, pillows and other decorative items. To enhance needlework as an art form, a wide variety of traditional and contemporary threads and fabrics are used. Lecture 7 hours, laboratory 10.5 hours. Note: This course is designed for the older adult.

020 MULTI-LEVEL SEWING AND DRESSMAKING  
0 Units  
Homes Arts 020 meets the needs of the beginning sewing student or the student with limited experience, as well as the student with some sewing experience ranging from intermediate to advanced levels, including tailoring, if needed. Beginning students are able to develop the appropriate expertise needed for basic garment construction while experienced students are able to expand their knowledge to create garments of increasing difficulty. The class emphasizes good sewing techniques, including the appropriate application of speed-sewing skills and the correct use of equipment, including the sewing machine, the serger or over-lock machine and various pressing equipment. The class covers the use of commercial patterns, including adjustments and proper fit and how to select and handle fabrics. Lecture 30 hours, laboratory 60 hours. Note: This course is designed for the older adult.

040 QUILT MAKING  
0 Units  
Home Arts 040 presents quilt-making techniques for the purpose of developing functional and decorative items. Students make a variety of quilt blocks to learn both hand and machine techniques. Traditional and contemporary designs and techniques will be demonstrated and practiced. Lecture 27 hours, laboratory 27 hours. Note: This course is designed for the older adult.

LIFELONG LEARNING SEMINARS (LLS)  
This program is designed for the older adult. The courses encourage the pursuit of lifelong learning, promote mental and physical well-being, and broaden the outlook of the participants.

010 CONTEMPORARY WORLD ISSUES  
0 Units  
LLS 010 centers on discussion of current social, political, and cultural issues around the world. This class is an opportunity for seniors to discuss, share opinions, and gain insight into the complex events of today’s world. Lecture 36 hours.

013 VOLUNTEER/HEALTH & SERVICE  
0 Units  
LLS 013 centers on the needs of the people in the community and the impact volunteers have on those needs. This class is designed for the older adult who would like to experience the satisfaction of providing service. Students learn about the various volunteer opportunities in the local area and work with at least one of them. Lecture 12 hours.

020 JOY OF LIVING  
0 Units  
LLS 020 is an interactive discussion course with an emphasis on personal enrichment and on meeting life’s challenges with a positive outlook. Lecture 16 hours. Note: This is a course designed for the older adult.

021 QUALITY OF LIFE  
0 Units  
LLS 021 is an interactive class focusing on improving the quality of life, increasing social outlets, and clarifying life issues. Lecture 32 hours. Note: This is a course designed for the older adult.

023 FAMILY RELATIONSHIPS  
0 Units  
LLS 023 explores the nature and importance of social, mental, and emotional connections with family, friends, and colleagues. Lecture 16 hours. Note: This is a course designed for the older adult.
024 PHILOSOPHY AND ETHICS 0 Units
LLS 024 examines the philosophies and ethics of a variety of historical and modern thinkers. This class is designed for the older adult and discussion centers on the application of these theories to the life challenges faced by mature adults. Lecture/Discussion 30 hours.

025 ADJUSTING TO RETIREMENT 0 Units
LLS 025 explores the social, psychological, and practical adjustments associated with retirement. Various expectations and experiences of retirement are shared with the purpose of easing the students' adjustment to this major life event. Lecture 12 hours.

026 THE SIMPLE LIFE 0 Units
LLS 026 encourages socialization and personal development through the discussion of various philosophers and the application of that philosophy to the student's life. This course is inspired by Henry David Thoreau's intense appreciation of nature and his pursuit of simplicity and self-sufficiency. This is an open-entry, open-exit discussion group designed for older adults. Lecture 12 hours. Note: Each session focuses on a different philosopher.

027 WHERE'S MY MEMORY? 0 Units
LLS 027 explores the far reaches of the human mind—the processes of remembering and forgetting, with special emphasis on age-related memory loss and strategies for memory enhancement. Lecture 12 hours.

028 LEARNING TO UNLEARN 0 Units
LLS 028 helps the mature adult student to improve the quality of his/her life through creative thinking and applying recommended techniques for enhancing self-esteem. Lecture 12 hours.

030 LIFE STORY RECORDING 0 Units
LLS 030 provides the opportunity for mature adults to recall, discuss and translate their memories into written memoirs by application of varied writing techniques and shared oral expression. Lecture 8 hours, laboratory 24 hours. Note: This is a course designed for the older adult.

040 HEALTH & EXERCISE 0 Units
LLS 040 is a health and fitness class designed and paced for the mature adult. Students learn the correct ways to stretch and stay limber, participate in low-impact aerobics to improve cardiovascular health, and learn health and diet information designed to help create and retain vigor and well-being. Lecture 20 hours, laboratory 100 hours.

041 WALKING THROUGH LOCAL HISTORY 0 Units
LLS 041 offers walking tours of Glendale or surrounding communities for older adult students who are interested in understanding cultural and architectural history as it interfaces with our daily lives. Lecture 16 hours.

042 AEROBIC MOVEMENT 0 Units
LLS 042 is a health course designed for the mature adult who is interested in improving general health, fitness, physical coordination, and memory. Lecture 10 hours, laboratory 22 hours. Note: This course is paced for the older adult.

044 DIET AND NUTRITION 0 Units
LLS 044 covers nutritional basics as a foundation for personalizing a healthy, simple, and effective diet plan that is best for each mature adult student. Lecture 12 hours.

050 BEGINNING SKETCHING 0 Units
LLS 050 is designed to introduce basic drawing or sketching skills to the older adult. Students will learn the basic of mark making which will enable them to document their lives and interests by means of a sketchbook. Lecture 2.5 hours, studio 15 hours. Note: This is a course designed for the older adult.

051 ADVANCED SKETCHING 0 Units
LLS 051 introduces more advanced drawing skills to the older adult. Students further explore mark making and its potential for documentation and self-expression. Work on location will allow students to develop more skill as they sketch from life. Presentation and observation of student work and artists work will enrich mark making vocabulary and dialogue. Lecture 2.5 hours, studio 15 hours. Note: This is a course designed for the older adult.

052 INTRO TO PAINTING 0 Units
LLS 052 is an introduction to methods of painting for mature adult students. Oil pastel, oil painting and acrylic painting mediums are introduced. Emphasis is placed on visual interpretation, familiarization with the various mediums, design and color principles, and various techniques of painting. This course is designed to enhance the mental acuity, fine motor skills, creativity, and art appreciation of the older adult. Lecture 2.5 hours, studio 15 hours.

053 WATERCOLOR/COLOR DRAWING 0 Units
LLS 053 provides a transition from sketching to painting for mature adults by reviewing and developing basic drawing skills and by introducing the use of an aqua or dust medium. The course also offers a brief introduction of color principles. This course is designed to enhance the mental acuity, fine motor skills, creativity, art appreciation, and painting ability of the older adult. Lecture 2.5 hours, studio 15 hours. Note: Previous familiarity with sketching techniques would be advantageous.

070 CONTEMPORARY NOVELS 0 Units
LLS 070 is a reading and discussion forum based on novels selected by the students. This class is designed for older adult students who, because of their maturity level and life experiences, bring greater insight to the reading. This insight becomes the basis of the class discussions. Lecture 32 hours.

072 FILM CRITICISM 0 Units
LLS 072 provides exposure to an academic curriculum of film history and criticism for older adults. This class helps students to maintain linkages to both the past and the contemporary world. The discussion of film history and theory develops both analytic and verbal skills. Emphasis is placed on how films historically reflect their time and how social issues have evolved. Selected film clips will be shown. Lecture 12.5 hours. Note: Each session will focus on five different films.
075 DEBATE FOR THE MATURE ADULT
0 Units
LLS 075 is a discussion-practice course with emphasis on personal enrichment through exploration of today’s issues in an advocacy format. This course is designed for the older adult and students are encouraged to choose topics of interest to that age group. Instruction is given in argument creation and presentation, followed by student practice. Lecture 48 hours.

080 ACTING IMPROVISATION WORKSHOP
0 Units
LLS 080 explores acting techniques in a series of theater games and improvisations that emphasize basic acting skills. This is a course designed and paced for the mature adult for the purpose of helping the student to increase self-confidence and communication skills. Laboratory 32 hours.

090 ART HISTORY
0 Units
LLS 090 promotes an understanding of the role of art in human development. A variety of periods, geographical areas, and artists will be presented, one school of art per each session. This course is designed for the older adult and will emphasize analyzing the art from the perspective of having lived through the richness of youth, early adulthood, and middle age. Lecture 14 hours.

095 WORLD RELIGIONS
0 Units
LLS 095 provides a general introduction to human religious nature, ancient religions, Judaism, Christianity, Islam, Hinduism and Buddhism. This course is designed for the older adult and focuses on the awareness of the student’s spiritual experience from the senior perspective. Lecture 32 hours.

101 MONEY MANAGEMENT
0 Units
LLS 101 introduces older adult students to basic financial principals as they apply to preparing for and achieving a successful retirement. Although this class is available to all students, it is best suited for pre-retirees between the ages of 55 and 65. Lecture 18 hours.

102 INTRODUCTION TO COMPUTERS
0 Units
LLS 102 is an introduction to the world of computers for the older adult. The course covers basic operating procedures as well as working with Windows and documents. Lecture/Demonstration 15 hours.

103 INTRODUCTION TO WORD
0 Units
LLS 103 is a basic introduction to word-processing using Microsoft Word. This is a beginning level course that teaches students how to create, edit, print, and store simple documents. This course is designed for the older adult. Lecture/Demonstration 15 hours.

104 INTERNET AND EMAIL
0 Units
LLS 104 provides students with a basic introduction to accessing and using email and the Internet. Topics covered include how to connect to the Internet, use of a web browser, use of search engines, how to buy on the Internet, and adding and deleting favorites. Students will also learn how to create and use an email account. Lecture/Demonstration 15 hours. Note: This is a course designed for the older adult.

120 SEMINARS AT RETIREMENT HOMES
0 Units
LLS 120 provides speakers, film, and discussion to stimulate the mental, social, and emotional health of retirement home residents and to promote lifelong learning. Lecture 32 hours. Note: This course is designed for older adults who are primarily living in retirement residences.

130 CONVALESCENT HOMES
0 Units
LLS 130 provides speakers, film, and discussion to stimulate the mental, social, and emotional health of convalescent home residents and to promote lifelong learning. Lecture 36 hours. Note: This course is designed for older adults in convalescent facilities who have some type of physical and/or mental impairment.

141 ANCIENT CIVILIZATIONS
0 Units
LLS 141 explores the history, archaeology and influence of civilizations in the ancient world. Each session explores a different civilization. This course is designed for the older adult who wants to recharge their interest in and sharpen their awareness of how ancient civilizations laid the groundwork for our contemporary world. Lecture 32 hours. Note: Each session will focus on a different civilization.

142 ARCHAEOLOGY OF MIDDLE EAST
0 Units
LLS 142 explores the archaeology of the ancient Middle East. This course is designed for older adults who want to sharpen their minds and increase their understanding of how archaeological discoveries teach us about earlier cultures and how these insights enhance our understanding of contemporary life. Lecture 10 hours.

200 ENCORE
0 Units
LLS 200 offers a series of informative seminars of special interest to mature adults. The topics are chosen, prepared, and presented by the students themselves. Areas of interest are chosen in small groups which are designed to develop cooperation skills and offer an opportunity to increase social connections in the community. Lecture 20 hours.

OFFICE BUSINESS TECHNOLOGY (OBT)
These courses offer vocational training and job-enhancement opportunities.

011 BEGINNING KEYBOARDING
0 Units
OBT 011 is an individualized class that covers keyboarding by touch. All students will work on computers. Extensive accuracy and speed development is offered. Students may enter at any time throughout the semester, and the curriculum is individualized. The course is self-paced. Lecture/Demonstration 50 hours.

012 INTERMEDIATE KEYBOARDING
0 Units
OBT 012 is an individualized class that covers keyboarding by touch through the production of business documents. All students will work on computers and learn MS Word as they advance. Extensive accuracy and speed development is offered. Students may enter at any time throughout the semester, and the curriculum is individualized. The course is self-paced. Lecture/Demonstration 150 hours.
013
ADVANCED KEYBOARDING
0 Units
OBT 013 is an individualized class that applies keyboarding and MS Word skills to business documents through the application of advanced features in a variety of specialized situations. All students will work on computers and learn Advanced MS Word functions as they progress. Extensive accuracy and speed development is offered. The course is self-paced. Students may enter at any time throughout the semester, and the curriculum is individualized. Lecture/Demonstration 140 hours.

014
KEYBOARDING/HS CREDIT
0 Units
OBT 014 is an individualized class that covers keyboarding by touch through the production of business documents. All students will work on computers and learn MS Word as they advance. Extensive accuracy and speed development is offered. Students may enter at any time during the first half of the semester, and the course is self-paced. Successful completion of this course (60 lessons) is worth 5 high school credits. Lecture/Demonstration 100 hours.

021
BUSINESS MATH AND CALCULATORS
0 Units
OBT 021 increases students’ basic math skills. The course includes instruction in basic arithmetic, calculators by touch, speed development on calculators, and calculator functions. Students may enter at any time, and the curriculum is individualized. The course is self-paced. Students may complete one or more sections. Lecture/Demonstration 160 hours.

022
BEGINNING ACCOUNT CLERK
0 Units
OBT 022 students will study full cycle accounting, financial statements, payroll, and accounts receivable and payable in both manual and computerized formats (Quick Books and Peachtree). Students may enter at any time, and the curriculum is individualized. The course is self-paced. Lecture/Demonstration 140 hours.

023
ADVANCED ACCOUNT CLERK
0 Units
OBT 023 students will study advanced accounting, financial statements, un-collectables, notes payables and receivables, accruals, inventory, and advanced accounts receivable and payable in both manual and computerized formats (Quick Books and Peachtree). Students may enter at any time, and the curriculum is individualized. The course is self-paced. Lecture/Demonstration 160 hours.

031
BUSINESS WRITING: EMAIL
0 Units
OBT 031 covers email writing including English essentials and email etiquette rules. Lecture/Demonstration 32 hours.

032
BUSINESS WRITING: MEMOS
0 Units
OBT 032 focuses on inter office memorandum writing. It also covers English essentials along with other forms of workplace documents, i.e., news release. Lecture/Demonstration 32 hours.

033
BUSINESS LETTER WRITING
0 Units
OBT 033 covers business letter composition, English essentials, and the production of other workplace documents such as agendas and minutes. Lecture/Demonstration 32 hours.

034
FILING FUNDAMENTALS
0 Units
OBT 034 covers the use of indexing rules to file alphabetically, numerically, geographically, and by subject. Timed exercise practices, handouts, and quizzes are designed to assist students to be prepared for employment tests and to be competent to perform on-the-job filing. Computerized software provides hands-on review of filing fundamentals. Lecture/Demonstration 48 hours.

035
ON THE JOB COMMUNICATION
0 Units
OBT 035 emphasizes workplace interaction and avoiding barriers to communication as well as understanding and adapting to a variety of personal communication styles. Included are communication strategies for getting along with coworkers, supervisors, and clients. Other topics covered are overcoming negative behaviors in teams/groups, decision making, and problem solving. Oral skills are stressed through practical application of telephone techniques. Lecture/Demonstration 32 hours.

040
EMPLOYMENT STRATEGIES
0 Units
OBT 040 prepares students for success in gaining employment. Topics to be covered include resume development, cover letters, interviewing techniques, thank you notes, job search strategies, employment applications, and job retention. Lecture/Demonstration 87.5 hours.

050
CUSTOMER SERVICE
0 Units
OBT 050 teaches practical techniques to overcome the number one complaint of employers: poor customer service skills. Emphasis will be on problem solving techniques, handling complaints over the phone or in person, the importance of verbal and non-verbal communication, and appropriate business etiquette. Lecture/Demonstration 40 hours.

055
OFFICE EQUIPMENT
0 Units
OBT 055 prepares students for office tasks that require the use of office equipment. Students who have successfully completed the necessary competencies will be assigned in-house job shadowing where they will interact with co-workers and “learn-by-doing” in a real-world setting under the direct supervision of an instructor. Lecture/Demonstration 180 hours.

061
MEDICAL FRONT OFFICE
0 Units
OBT 061 provides the participant with a comprehensive understanding of medical front office duties. Emphasis will be on mastering medical terminology, handling problem situations involving patients over the phone or in person, and learning basic billing and transcription techniques and software. Lecture/Demonstration 200 hours. Note: Student should be able to keyboard at a minimum rate of 20 wpm and perform alpha/numeric filing.

062
DENTAL FRONT OFFICE
0 Units
OBT 062 provides the participant with a comprehensive understanding of dental front office duties. Emphasis will be on mastering dental terminology, handling problem situations involving patients over the phone or in person, and learning basic billing and transcription techniques and software. Lecture/Demonstration 140 hours. Note: Student should be able to keyboard at a minimum rate of 20 wpm and perform alpha/numeric filing.
065 CAREERS IN HOSPITALITY
0 Units
OBT 065 introduces the spectrum of opportunities in hospitality and tourism and the practical skills needed for a career in those arenas. Through case studies and live demonstrations, students will explore the opportunities available in restaurants, hotels, beverage operations, casinos, theme venues, entertainment centers, cruise lines, and other hospitality and tourism businesses. Lecture/Demonstration 56 hours.

066 HOSPITALITY AND TOURISM
0 Units
OBT 066 is designed to give students an overview of the hospitality and tourism industry. This class covers factors that affect tourism through out their careers. It includes industry statistics, and overview of issues, and management and operation functions. In conjunction with OBT 065, this course prepares students for entry into the credit hospitality Program of Glendale College. Lecture/Demonstration 32 hours. Recommended Preparation: OBT 065 or equivalent.

070 INTRODUCTION TO COMPUTERS
0 Units
OBT 070 provides an introduction to computer concepts for students with no previous exposure to computing. The course focuses on the microcomputer (PC). Lecture/Demonstration 16 hours.

071 COMPUTER BASICS/ESL LEARNERS
0 Units
OBT 071 is a computer literacy course especially created for ESL students. The course will familiarize students with computer vocabulary and will cover an introduction to keyboarding and educational software programs, using the Internet, e-mail, and word processing applications. Students should become more confident in using a computer so they can continue their education in basic computer business classes and improve their independent computing skills. Lecture 64 hours.

080 WINDOWS
0 Units
OBT 080 provides students with a basic introduction to the Windows environment. Topics covered include managing the desktop, the mouse, using pull-down menus, managing files (create folders, delete, move, copy files, etc), and learning system information. Lecture/Demonstration 16 hours.

090 MICROSOFT EXCEL
0 Units
OBT 090 provides students with a basic introduction to spreadsheet software using Microsoft Office Excel. This is a beginning level course that teaches the student how to create a worksheet, use formulas and functions, insert charts, and more. Lecture/Demonstration 48 hours.

091 MICROSOFT ADVANCED EXCEL
0 Units
OBT 091 introduces spreadsheet software using Microsoft Office Excel. This is an intermediate level course that teaches the student advanced formatting techniques, use of templates and workspace, and advanced functions. Lecture/Demonstration 48 hours.

095 QUICKBOOKS AUTOMATED ACCT
0 Units
OBT 095 is an automated accounting course using Quickbooks software. This is an introductory course that teaches students to input basic business information and transactions, such as entering customers/vendors and chart of accounts, as well as writing checks, entering/paying bills and making deposits. Lecture/Demonstration 28 hours.

097 PEAChTREE
0 Units
OBT 097 is an automated accounting course using Peachtree Complete Accounting software. This is an introductory course that teaches students to input basic business information and transactions, such as entering customers/vendors and chart of accounts, as well as writing checks, entering/paying bills and making deposits. Lecture/Demonstration 28 hours.

100 BEGINNING MICROSOFT WORD
0 Units
OBT 100 is a basic introduction to word processing using Microsoft Word. This is a beginning level course that teaches students how to create, edit, print, and store simple documents. The course also includes, formatting, search and replace, creating columns, and headers/footers. Lecture/Demonstration 48 hours.

101 ADVANCED MICROSOFT Word
0 Units
OBT 101 is an advanced course in word processing using Microsoft Word. This course teaches the student how to mail merge, format with special features, add visual appeal to documents, format with macros and styles, and protect forms. Lecture/Demonstration 43 hours. Lecture/Demonstration 48 hours.

111 MICROSOFT POWERPOINT
0 Units
OBT 111 provides students with a basic introduction to presentation software using Microsoft PowerPoint. Topics covered include: using a design template, auto layouts to create a presentation, running a slide show, inserting Clip Art, and creating organizational charts. Lecture/Demonstration 32 hours.

138 MICROSOFT OUTLOOK
0 Units
OBT 138 provides students with a basic introduction to a personal information management (PIM) program using Microsoft Office Outlook. This is a beginning level course that involves teaching the student how to communicate by e-mail, manage contacts, plan tasks, schedules, and manage the inbox. Lecture/Demonstration 32 hours.

140 INTERNET
0 Units
OBT 140 provides students with a basic introduction to accessing and using the Internet. Topics covered include how to connect to the Internet, use of web browsers, use of search engines, and how to access services and information on the Internet. Lecture/Demonstration 16 hours.

150 INTEGRATED TECHNOLOGY
0 Units
OBT 150 provides students with a basic introduction to integrated technology concepts needed in the business world. The course focuses on microcomputer (PC) software and peripheral devices used to enhance input, output, and storage capability. Student will move data between applications (Word, Excel, PowerPoint, and Access), and install and use devices such as a FAX/Modem, scanner, DVD+R/RW, Digital Cameras and Memory Readers. Lecture/Demonstration 32 hours.
**PARENT EDUCATION**

**010 INFANTS (0-6 MONTHS) 0 Units**

Parent Education 010 focuses study on parenting children from birth through 6 months of age. Parents (or caregivers) attend class with one or more children of the designated age. Lecture 16 hours, laboratory 16 hours.

**011 INFANTS (7-12 MONTHS) 0 Units**

Parent Education 011 focuses study on parenting children from 7 to 12 months of age. Parents (or caregivers) attend class with one or more children of the designated age. Lecture 16 hours, laboratory 16 hours. Note: Students are asked to attend the first session without children.

**012 TODDLERS (13-19 MONTHS) 0 Units**

Parent Education 012 focuses study on parenting children from 13-19 months of age. Parents (or caregivers) attend class with one or more children of the designated age. Lecture 24 hours, laboratory 16 hours. Note: Students are asked to attend the first session without children.

**013 TODDLERS (20-26 MONTHS) 0 Units**

Parent Education 013 focuses study on parenting children from 20-26 months of age. Parents (or caregivers) attend class with one or more children of the designated age. Lecture 24 hours, laboratory 16 hours. Note: Students are asked to attend the first session without children.

**020 TWO YEAR OLDS 0 Units**

Parent Education 020 focuses study on parenting the two-year-old child. Parents (or caregivers) attend class with one or more child of the designated age. Lecture 24 hours, laboratory 24 hours. Note: Students are asked to attend the first session without children.

**021 TWO OR THREE YEAR OLDS 0 Units**

Parent Education 021 focuses study on parenting the two or three-year-old child. Parents (or caregivers) attend class with one or more children of the designated age. Lecture 24 hours, laboratory 24 hours. Note: Students are asked to attend the first session without children.

**022 TWO, THREE OR FOUR YEAR OLDS 0 Units**

Parent Education 022 focuses study on parenting children from age two through the pre-kindergarten years. Parents (or caregivers) attend class with one or more children of the designated age. Lecture 24 hours, laboratory 24 hours. Note: Students are asked to attend the first session without children.

**030 THREE YEAR OLDS 0 Units**

Parent Education 030 focuses study on parenting the three-year-old child. Parents (or caregivers) attend class with one or more children of the designated age. Lecture 24 hours, laboratory 24 hours. Note: Students are asked to attend the first session without children.

**031 THREE OR FOUR YEAR OLDS 0 Units**

Parent Education 031 focuses study on parenting the three or four-year-old child. Parents (or caregivers) attend class with one or more children of the designated age. Lecture 24 hours, laboratory 24 hours. Note: Students are asked to attend the first session without children.

**032 MULTI-AGE 0 Units**

Parent Education 032 focuses study on parenting children from age two through the pre-kindergarten years. Parents attend class with one or more children of the designated age. Lecture 24 hours, laboratory 24 hours. Note: Students are asked to attend the first session without children.

**050 MULTI-AGE 0 Units**

Parent Education 050 focuses study on parenting children from birth through the pre-kindergarten years. Parents attend class with one or more children of the designated age. Lecture 24 hours, laboratory 24 hours. Note: Students are asked to attend the first session without children.

**054 WORKING PARENTS 0 Units**

Parent Education 054 focuses study on the working parent's role in parenting children from birth through the pre-kindergarten years. Special attention is given to the challenges of raising a child while working full-time. Parents attend class with one or more children of the designated age. Lecture 16 hours, laboratory 16 hours. Note: Students are asked to attend the first session without children.

**055 MULTIPLES: TWINS & TRIPLETS 0 Units**

Parent Education 055 focuses study on the unique issues involved in parenting twins or triplets from birth through the pre-kindergarten years. Parents attend class with one or more children of the designated age. Lecture 24 hours. Laboratory 24 hours. Note: Students are asked to attend their first class meeting without children.

**056 PREPARING FOR PARENTING 0 Units**

Parent Education 056 focuses on preparing students for the role of parent. This class is appropriate for expectant parents, adoptive parents of infants, and individuals considering parenthood. Lecture 8 hours, laboratory 8 hours. Note: This is not a child-birth preparation class. No children may attend this class.

**060 POSITIVE PARENTING SKILLS 0 Units**

Parent Education 060 is designed for parents who seek instruction in positive, alternative parenting methods that will redirect inappropriate behavior of children and adolescents of all ages. If needed by the students enrolled, this class may also address single parenting issues. Court referred parents are welcome. Lecture 32 hours. Note: This class is for the parent only. No children may attend.

**070 PARENT EDUCATION GCPEA 0 Units**

Parent Education 070 is designed for students who wish to learn about the parent’s role in parent/teacher associations. Practical experience is provided in areas of volunteerism, designing school based family enrichment activities, parent association management and participation, as well as organization of school-based newsletters. Lecture 16 hours. Laboratory/Studio 16 hours. Note: This class is for parents only. No children may attend.
090
PARENTED SINGLE PARENTING
0 Units
Parent Education 090 focuses study on the special concerns and issues inherent in raising children as a single parent. Lecture 32 hours. 
Note: This class is for parents only. No children may attend.

102
PARENTING SPECIAL NEEDS CHILD
0 Units
Parent Education 102 is designed for parents who seek assistance in parenting skills that encourage the optimum development of a child with special needs. Lecture 32 hours. 
Note: This class is for adults only. No children may attend.

103
DISCIPLINE & ANGER MGMT
0 Units
Parent Education 103 is designed for parents who seek assistance in managing their expressions of anger in order to parent more effectively and use appropriate discipline strategies. Lecture 16 hours. 
Note: This class is for adults only. No children may attend.

STUDENT DEVELOPMENT
This course is for students registered in academic tutoring on the main campus.

001
SUPERVISED TUTORING
0 Units
Student Development 001 is a supervised tutoring course designed to meet the individual academic needs of students who need free instructional assistance. Tutoring is offered to students who want to improve their learning skills in a course for which they are currently registered. An instructor or a counselor must refer students to this program. The referral is an effort to remedy specific academic needs as identified by the counselor or instructor. Laboratory 100 hours. Prerequisite: Student must be enrolled in the course for which he/she will receive tutoring and must be referred by an instructor or a counselor.
FACULTY

*ABEYTA, STEVEN A.
Instructor of Art
A.A., Cypress College
B.A., M.A., California State University, Fullerton

*AINTABLIAN, MARIAM
Instructor of English as a Second Language, Continuing Education
B.S., Loyola University, Chicago
M.A., California State University, Northridge

*ABOU-RASS, SAMIR
Instructor of Speech Communication
A.A., Glendale Community College
B.A., California State University, Northridge
M.S., California State University, Los Angeles

ABRAM, TRUDI
Instructor of Art History
B.A., California State University, Northridge
M.A., Ph.D., University of Southern California

*ACKERMAN, AMANDA L.
Instructor of English
B.A., Wellesley College
M.F.A., California Institute of the Arts

*ACOSTA, GAIL A.
Instructor of Music
B.M., University of North Carolina, Greensboro
M.M., University of Southern California

*ADAMIAN, EILEEN
Instructor of English as a Second Language, Continuing Education
B.A., University of California, Los Angeles
M.A., California State University, Los Angeles

ADAMS, ALICE
Professor of English
A.B., Cornell University
M.A., Chapman College

*ADAMS, COLIN A.
Instructor of Sociology
M.S., University of the West Indies

*ADAMSON, DIANN J.
Instructor of English
M.A., California State University, Los Angeles

*ADSIT, RANDALL J.
Instructor of Geology
B.S., San Diego State University
M.S., California State University, Los Angeles

*AFLOAREI, MICHAEL
Instructor of Hotel Restaurant Management
B.A., University of Bucharest

AGHEKIAN, ROSETTE M.
Associate Professor, Counselor, EOPS
A.A., American River Community College
B.A., M.S., California State University, Sacramento

AGOSTON, JOZSEF
Head Soccer Coach
Professor of Theatre Arts
A.A., Glendale Community College
B.A., California State University, Northridge
M.F.A., University of Southern California

*AGUON, FRANCES SABLAM
Instructor of Business Administration
B.A., M.A., University of Guam
M.A., Arizona State University
Ed.D., Western Michigan University

*ALK, CAROLE E.
Instructor of Mathematics
B.S., M.A., University of California, Los Angeles

*AKOPIAN, VAROJUAN
Instructor of Physical Science
B.S., Yerevan State University
M.S., California State University, Northridge

*ALAMDARI, SORAYA
Instructor of Spanish
B.A., B.A., California State University, Northridge
M.A., Ph.D., University of California, Los Angeles

*ALBERGATE, ALFRED A.
Instructor of Philosophy
B.A., University of California, Los Angeles
M.A., University of Missouri

ALEXANDRE, GORDON
Assistant Professor of Social Science
B.A., A.B.D., University of California, Los Angeles
M.A., California State University, Los Angeles

*ALI, H. Y. DER
Instructor of Computer Science/Information Systems
B.S., Antioch College
M.S., Case Western Reserve University, OH

*ALLEN, ANN MICHELE
Instructor of Child Development
B.S., California State University, Northridge
M.S., Phillips Graduate Institute

*ALLEN, DAVID
Instructor of English as a Second Language
B.A., University of California, Santa Cruz
M.A., San Francisco State University

*ALLEN, J.T.
Instructor of English
B.A., Southern Illinois University
M.A., University of Illinois, Chicago

ALLEN, MICHAEL S.
Professor of Mathematics
M.A., B.S., California State University, Los Angeles
M.A., University of California, Los Angeles

*ALLEN, RODERICK W.
Instructor of Business Administration
M.A., California State University, Northridge

*ALLEN, THOMAS E.
Instructor of English as a Second Language
A.A., Cabrillo College
B.A., University of Washington
M.A., Inter American University of Puerto Rico

*ALVAREZ, CLAUDIA
Instructor of Physical Education
B.S., California State University, Los Angeles
M.A., California State University, Long Beach

*ALVAREZ, PEARL M.
Instructor of English as a Second Language
B.A., M.A., California State University, Los Angeles

*AMIRIAN, ANNETTE
Instructor of Office Business Technology, Continuing Education
M.B.A., California State University, Northridge

*AN, HANNAH
Instructor of English as a Second Language, Continuing Education
B.A., University of California, Los Angeles
M.A., California State University, Los Angeles

*AN, LEO
Instructor of Art
B.F.A., Art Center College of Design

ANDERSEN O’COLMAIN, CHERYL L.
Associate Professor of English as a Second Language
B.A., University of California, Santa Barbara
M.A., University of California, Los Angeles

*Adjunct Faculty
ANDERSEN-WAHLBERG, TINA
Professor of Adapted Computer Technology
B.A., Cornell College
M.A. University of Southern California
*ANDERSON, CHARLES P.
Instructor of Geology
B.A., California State University, Los Angeles
M.S., University of California, Riverside
J.D., Loyola Law School, Los Angeles
*ANDERSON, Enoch
Instructor of English
B.A., University of California, Los Angeles
M.A., Claremont Graduate School
Ph.D., Claremont Graduate School
*ANDERSON, REED
Instructor of Computer Applications and Business Office Technologies
B.A., California State University, Northridge
*ANDERSON, SHELLEY
Instructor of Parent Education, Continuing Education
B.A., California State University, Northridge
*ANDREW, CHARLES B.
Instructor of Accounting
B.S., University of Southern California
*ANDREWS, MICHAEL D.
Instructor of Physical Education
B.S., Langston University
ANDRIASSIAN, ALEN R.
Program Manager, Student Outreach and Assessment
A.A., Glendale Community College
B.B.A., Loyola Marymount University
M.P.A., California State University, Northridge
APABLAZA, JUDITH PETERS
Associate Professor, Coordinator/Counselor, Career Center
B.S., M.S., California State University, Los Angeles
AQUE, JONN
Counselor
Assistant Professor
B.S., M.S., California State University, Los Angeles
*ARAMYAN, SUSANNA
Assistant Professor of English as a Second Language, Continuing Education
M.A., Yerevan State University
M.A., National University
*AREVALO, MOLLY A.
Instructor of English as a Second Language, Continuing Education
B.A., University of California, Santa Cruz
M.A., California State University, Los Angeles
*ARMENTA, Yvette M.
Instructor of Nursing Science
B.A., University of Phoenix
*ARN, ANTHONY E.
Instructor of English as a Second Language
B.A., Pomona College
M.A., California State University, Los Angeles
*ARNOLD, ROBERT
Instructor of American Sign Language
B.A., California State University, Northridge
ARONOFF, SHELLIE
Assistant Professor, Librarian
B.A., M.A., Mills College
M.L.I.S., San Jose State University
*ARUTIAN, CAROL L.
Assistant Professor of Art
B.A., California State University, Northridge
M.F.A., Rhode Island School of Design
*ASEFAW, EPHEM
Instructor of Chemistry
B.Sc., University of California, Los Angeles
M.Sc., University of California, San Diego

ASSADI, BARBARA DIANE
Associate Professor, English as a Second Language, Continuing Education
B.A., M.A., University of Missouri
*ASTLE, SCOTT
Instructor of Business Administration
B.A., J.D., Brigham Young University
*ATAIAN, SHAKEH
Counselor
B.S., California State University, Northridge
M.S., University of La Verne
*ATIN, SARAH R.
Instructor of Parent Education, Continuing Education
B.A., Bard College
M.Ed., Western Washington University
ATTYAH, DAVID J.
Assistant Professor of Art
B.A., Princeton University
M.A., Harvard University
M.F.A., Tufts University
*AVAKYAN, VAGE
Instructor of Mathematics
M.S., Yerevan State University
Ph.D., Moscow State University
*AWAINISYAN, AIDA
Instructor of Mathematics
M.S., Ph.D., University of Baghdad
*AYERS, DONNA
Librarian
M.Ed., B.S., University of Nebraska
M.L.I.S., San Jose State University
AYLMER, ANNABELLE
Instructor of Art
M.F.A., Claremont Graduate School
*AZIZIAN, OPHELIA
Instructor of Physics
M.S., Urmia University, Iran
*BACSALMASI, LORI
Instructor of Nursing Science
M.S., University of Phoenix
*BADALYAN, IRINA H.
Instructor of Mathematics
B.A., M.S., Yerevan State University
*BAKHTAWAR, BHADHA
Instructor of Fire Technology
B.S., University of Tehran
M.S., University of Pierre and Marie Curie
*AIDON, ANTHONY
Instructor of Biology
M.D., Teheran University Medical School
*BAGHDASSARIAN, NARBEH
Instructor of Psychology
M.S., M.A., University of Southern California
*BAKISANIAN, ARMOND
Instructor of Mathematics
B.A., M.A., California State University, Long Beach
*BALAKIN, AUDREY G.
Instructor of Chemistry
B.S., Ph.D., Moscow State University
*BALDRIDGE, ALICE M.
Instructor of Geology
B.S., University of California, Santa Cruz
M.S., Ph.D., Arizona State University
BALDWIN, MARY KATHRYN
Associate Professor of English as a Second Language
B.A., M.A., California State University, Northridge

* Adjunct Faculty
*BALIAN, MURIEL
Assistant Professor of Music
B.A., University of California, Berkeley
M.M., University of Southern California

*BALKIN, LEE E.
Instructor of Physical Education
B.A., University of California, Los Angeles

*BALLENGER, BOB
Instructor of English as a Second Language, Continuing Education
M.J., University of California, Los Angeles

*BARAKAT, MOSTAPHA A.
Instructor of Mathematics
B.S., California State Polytechnic University, Pomona
M.S., California State University, Los Angeles

*BARDENS, BEN
Instructor of Digital Animation
B.A., Humboldt State University

*BARLOW, CHARLES E.
Instructor of Sociology
B.S., Excelsior College, New York
M.A., California State University, Dominguez Hills

*BARNES, MELVIN
Instructor of Administration of Justice
B.A., California State University, Los Angeles

*BARNEY, LINDA
Instructor of Business Administration
B.A., Loyola Marymount University
J.D., University of the Pacific, McGeorge School of Law

*BARRETT, MARY
Instructor of English
B.A., M.E.D., Boston College
M.A., C.A.G.S., Gallaudet University

*BARRIO DE MENDOZA, MARIA
Instructor of Spanish
B.A., Universidad Nacional Mayor, San Marcos
M.A., California State University, Long Beach

BARRIO-SOTILLO, RAMONA
Professor, Counselor
B.A., M.A., California State University, Northridge
Ed.D., University of Southern California

*BARSAMIAN, HASKIK
Instructor of English
B.A., M.A., California State University, Los Angeles

*BARGEYAN, ANAITE
Instructor of Mathematics
B.S., University of California, Los Angeles
M.S., Yerevan State University

BARGEYAN, YERANUI
Counselor
B.A., M.S., California State University, Northridge

*BASELLA, MELISSA A.
Instructor of English as a Second Language
B.S., Indiana University of Pennsylvania
M.A., M.A., California State University, Los Angeles

*BASEMAJIAN, LYDIA S.
Counselor
A.A., Los Angeles Valley College
B.A., M.S., California State University, Northridge

*BASOM, JONAS
Instructor of Child Development
B.A., Amherst College
M.A., Pepperdine University

BATTAGLIA, ANTONIO
Instructor of Culinary Arts
A.A., Los Angeles City College
B.V.E., M.A., California State University, Los Angeles

*BAUR, KATHY A.
Instructor of Art
B.A., Loyola Marymount
M.F.A., University of California, Los Angeles

*BAZARGAN, MARYAM
Instructor of Chemistry
Ph.D., University of Southern California

*BEACHAM, JOHN D.
Instructor of English
M.A., San Jose State University

BEAUCHEMIN, BRIAN
Head Basketball Coach
Instructor of Physical Education
B.A., University of San Francisco
M.A., California Lutheran College

*BECKETT, A. MARA
Assistant Professor of English as a Second Language
B.A., Humboldt State University
M.A., Ph.D., University of Southern California

*BEDIKIAN, HAGOP K.
Instructor of Geology
B.S., California State Polytechnic University, Pomona
M.S., University of Southern California

*BEDNEY, CADENA W.
Instructor of Nursing Science
B.S.N., California State University, Los Angeles

*BEECHER, ALYSON
Instructor of Child Development
B.S., Keene State College
M.A., Gallaudet University

*BEEMAN, JOSEPH
Associate Professor of Biology
B.S., University of California, Irvine
M.S., California State University, Los Angeles

*BENDER, JASON E.
Instructor of Physical Education
A.A., Santa Rosa Junior College
B.A., J.D., University of California, Los Angeles

*BENIOFF, ALICE J.
Instructor of Office Business Technology, Continuing Education
A.A., Los Angeles City College
B.A., M.A., California State University, Los Angeles

*BERNARD, EDWARD
Instructor of English as a Second Language, Continuing Education
B.A., M.A., Biola University

*BERT, PABLO
Instructor of Mathematics
B.S., M.A., University of California, Los Angeles

*BERUOFF, STEVEN J.
Instructor of Astronomy
M.S., University of California, Los Angeles

*Biancheri, Mary Jane
Instructor of Child Development
M.S., Bank Street College of Education, New York

*BIEDERMAN, LAWRENCE R.
Instructor of Theatre Arts
B.A., M.F.A., University of California, Irvine

BIEHL, TONY
Instructor of Computer Science/Information Systems
B.S., Pacific Union College
M.S., West Coast University

*BILOTTA, TIMOTHY
Instructor of Accounting
B.S., California State University, Northridge
M.B.A., University of Southern California

*Adjunct Faculty
*BISHOFF, SEAN
Instructor of Philosophy
M.A., California State University, Los Angeles

*BISHOP, LORRAINE A.
Instructor of Business Administration
B.A., Occidental College
M.B.A., Thunderbird American Graduate School
J.D., Southwestern University School of Law

*BITKER, BARRY L.
Instructor of Social Science
B.A., University of Arizona
M.A., California State University, Los Angeles

*BIVINS-PESQUEIRA, LARRY JAY
Assistant Professor of English
B.A., B.A., M.A., University of Southern California

BLACK, MARGARET
Instructor of Art
B.F.A., Otis/Parson's School of Art
B.F.A., University of Southern California
M.F.A., Yale University School of Art, New Haven, CT

*BLAKER, RHOHA E.
Instructor of English
B.A., University of California, Los Angeles
M.F.A., California Institute of the Arts

*BLANDING, MARY R.
Instructor of Developmental Skills Lab, Continuing Education
B.A., Loyola Marymount University
M.A., Pepperdine University

*BLEDSOE, DOUGLAS R.
Instructor of Physical Education
B.A., California State University, Dominguez Hills

*BLOOM, ANITA A.
Instructor of Theatre Arts
B.F.A., Chapman University
M.F.A., American Film Institute

*BLUE, DENISE E.
Instructor of English
M.A., Ph.D., University of California, Irvine

*BOND, BETTE J.
Instructor of English as a Second Language, Continuing Education
B.S., Minnesota State University
M.A., Ph.D., Biola University

*BONILLA, PAULA S.
Instructor of English
M.A., San Diego State University

*BOQUIREN, PATRICIA G.
Instructor of English as a Second Language
B.A., M.A., California State University, Los Angeles

*BORNEMAN, GORDON E.
Instructor of Business Office Technology, Continuing Education
B.S., Harvey Mudd College
M.B.A., University of California, Los Angeles

*BORR, RODNEY
Instructor of English as a Second Language, Continuing Education
B.A., University of the District of Columbia

*BOWEN, ROBIN T.
Instructor of American Sign Language
B.A., B.A., California State University, Northridge

BOROWIAN, DAVID
Instructor of Aviation and Transportation
A.A., A.S., Los Angeles Pierce College

BOROWIAN, ROGER
Associate Professor of History
B.A., M.A., University of California, Los Angeles

*BRADY, MATTHEW
Instructor of English as a Second Language
B.A., Albright College
M.A., Temple University

*BRELL, MICHAEL C.
Instructor of Chemistry
B.S., California State University, Chico
Ph.D., University of California, Santa Cruz

*BROUGMUS, IBERIA G.
Librarian
B.S., California State University, Northridge
M.S., Ph. D., University of California, Los Angeles

*BROYER, REBECCA M.
Instructor of Chemistry
B.S., University of California, San Diego
M.S., Ph.D., University of California, Los Angeles

*BRULE, BEVERLY J.
Instructor of Music
B.A., California State University, San Bernardino

BRUNO, KRISTIN J.
Dean, Instructional Services
B.A., California State University, Long Beach
M.S., M.S., Ph.D., Kansas State University

*BUDARIN, DMITRI V.
Instructor of Mathematics
M.S., Moscow State University

*BUNNELL, ANDREW C.
Instructor of English as a Second Language, Continuing Education
B.A., M.A., California State University, Fresno

BURESCH, VICTORIA R.
Instructor of Anthropology
B.S., University of California, Irvine
M.A., California State University, Fullerton

*BURKEMPER, BRUCE S.
Instructor of Physiology
B.A., University of Vermont
Ph.D., California Institute of Technology

*BURKETT, ANGELA
Instructor of English as a Second Language
B.A., M.A., University of California, Los Angeles

*BURNS, ELIZABETH
Instructor of English as a Second Language
B.A., Case Western Reserve University, OH
M.S.Ed, Elmira College, New York

*BURTON, RONALD
Instructor of English as a Second Language
M.S., Columbia University, New York

*CAIZA-RODRIGUEZ, MERWIN P.
Instructor of English as a Second Language, Continuing Education
M.A., California State University, Los Angeles

*CAMP, KATHRYN
Associate Professor of Adapted Computer Technology
B.A., Humboldt State
M.A., University of Southern California

*CAMPBELL, JAYNE E.
Instructor of Music
B.Mus., M.M., University of Southern California

*CANDRA, ALESSANDRINA G.
Instructor of Speech Communication
B.A., Loyola Marymount University
M.A., California State University, Northridge
CAPKA, DONNA  
Associate Professor, Counselor  
A.A., Pierce College  
M.A., Ph.D., CA School of Professional Psychology  
*CARDEANAS, TROY  
Instructor of English  
B.A., University of California, Berkeley  
M.A., University of California, San Diego  
*CARMAN, JEFFREY M.  
Instructor of English  
A.A., Mount San Antonio College  
B.A., California State University, Fullerton  
M.A., California State University, San Bernardino  
*CARR, KAREN J.  
Instructor of English as a Second Language  
M.A., University of Central Florida  
*CARRIGAN, GERALD W.  
Instructor of Administration of Justice  
B.S., M.P.A., Pepperdine University  
*CARROLL, JOHN E.  
Instructor of Oceanography  
B.S., University of Wyoming  
M.A., United States International University  
*CARROLL, PATTY  
Instructor of English as a Second Language  
B.A., Taylor University  
M.A., California State University, Los Angeles  
*CARTER, MICHAEL  
Instructor of Anthropology  
B.A., California State University, Los Angeles  
M.A., University of California, Riverside  
*CARVER, MEMORY M.  
Instructor of Emergency Medical Technology  
B.A., California State University, Northridge  
*CASEY, PAUL L.  
Instructor of English  
Ph.D., Bowling Green State University  
*CASHHELL, JUDY  
Instructor of Child Development  
B.F.A., California College of Arts and Crafts  
M.S., Bank Street College of Education  
*CASSEL, JOHN  
Instructor of Aviation and Transportation  
A.S., A.A., Mt. San Antonio College  
B.S., University of Central Texas  
*CASTEL DE ORO, JAMES  
Associate Professor, Counselor, EOPS  
B.A., St. John's College  
M.A., San Diego State University  
*CATON, LAURA W.  
Instructor of Accounting  
B.S., M.S., Brigham Young University  
*CAUGHEY, BERNARD W.  
Instructor of Journalism  
B.A., University of Notre Dame  
M.S., Boston University  
*CERALDJEISON, CHERYL  
Instructor of English as a Second Language, Continuing Education  
B.A., California State University, Long Beach  
M.A., Biola University  
*CERVANTES, ANGEL  
Instructor of Sociology  
B.A., Occidental College  
M.A., The Claremont Graduate School  
*CHAHAYED, LISA  
Instructor of American Sign Language  
A.A.S., Rochester Institute of Technology  
*CHAMRAS, SEVADA  
Instructor of Chemistry  
B.S., University of California, Los Angeles  
Ph.D., University of California, Santa Barbara  
*CHANG, CHIU-CHIN S.  
Instructor of Chinese  
M.A., Eastern Michigan University  
*CHANG, HSIAO-YING  
Instructor of Mathematics  
M.S., Ph.D., University of Iowa  
*CHAPMAN, NICHOLAS L.  
Instructor of Astronomy  
Ph.D., University of Maryland  
*CHAVEZ-APPEL, MERCEDES  
Instructor of Speech Communication  
B.A., Vanguard University  
B.A., Central Washington University  
M.A., California State University, Long Beach  
*CHAVEZ, ROBERT M.  
Instructor of Business Administration  
A.A., Glendale Community College  
B.S., California State University, Northridge  
*CHEN, CHING CHIN  
Instructor of Mathematics  
B.S., M.S., California State Polytechnic University, Pomona  
*CHEVRIER, ANTHONY J.  
Instructor of Physical Education  
B.A., Concordia University  
*CHI, WINSTON EDWARD  
Instructor of Economics  
B.S., Stanford University  
M.A., University of California, Irvine  
CHIN, SUSIE C.  
Librarian  
B.A., University of California, Irvine  
M.L.I.S., University of Washington  
*CHITTICK, JON  
Instructor of English as a Second Language  
M.A. Ed, Pacific University  
M.A., Azusa Pacific University  
*CHIU, PAUL  
Instructor of Architecture  
B.A., Woodbury University  
*CHO, JENNIFER  
Instructor of Ethnic Studies  
B.A., Georgetown University  
M.A., University of California, Los Angeles  
*CHO, RICHARD  
Instructor of Mathematics  
B.A., M.A., University of California, Los Angeles  
*CICCONNE, REMO J.  
Instructor of Mathematics  
B.S., M.A., Villanova University  
*CICUTO, CHRIS  
Head Baseball Coach, Instructor of Physical Education  
B.A., University of California, Riverside  
M.A., Azusa Pacific University  
*CICUTO, JOHN M.  
Men's Athletic Director, Head Football Coach  
Associate Professor of Physical Education  
B.A., California State University, Fresno  
M.A.E., California Lutheran College

Instructor of English  
B.A., University of California, Los Angeles  
M.A., California State University, Northridge  
*Adjunct Faculty
*Ciuca, Razvan A.
Instructor of Mathematics
M.S., California State University, Northridge

COLEMAN, RICHARD G.
Instructor of Art
B.A., B.A., M.A., California State University, Northridge

*Claridge, Daniel P.
Instructor of Fire Technology
B.A., Seattle Pacific University

*Clark, Anthony
Instructor of Sociology
A.A., Los Angeles Valley College
B.A., M.A., California State University, Northridge

*Coates, Spenser
Librarian
M.L.S., Catholic University

COBLENTZ, TERRY
Women’s Athletic Director, Women’s Tennis Coach
Professor of Physical Education
A.A., Pierce College
B.A., M.A., California State University, Los Angeles

*Cole, Brian M.
Instructor of American Sign Language
B.A., Temple University

COLE, BRIAN M.
Instructor of Art History
B.A., B.A., M.A., California State University, Northridge

*Colichio, Angela
Instructor of English as a Second Language
M.A., California State University, Los Angeles

COLLINS, ELODIA
Counselor, Continuing Education
B.A., M.S., San Diego State University

*Colson, Mark W.
Instructor of Lifelong Learning, Continuing Education
M.F.A., National Theatre Conservatory

*Coltman, Lee D.
Instructor of Anthropology
B.A., M.A., University of California, Los Angeles

COMBS, SHARON
Interim Vice President, College Services
Dean, Admissions and Records
B.A., M.A., California State University, Los Angeles

*Concepcion, June A.
Instructor of Health Science
B.S., Mount Saint Mary’s

CONOVER, KEITH
Instructor of Biology
B.A., University of California, San Diego
Ph.D., University of California, Los Angeles

*Considine, Daniel T.
Instructor of Philosophy
B.A., University of California, Berkeley
M.A., California State University, Long Beach

*Conti, Marla R.
Instructor of Geography
B.A., M.A., California State University, Los Angeles

COOK, JOY V.
Associate Dean, Center for Students with Disabilities
B.A., M.A., California State University, Northridge

Coots, Steven
Instructor of Physical Education
B.S., University of California, Riverside
M.A., University of LaVerne

*Cortett, Ara G.
Instructor of English
B.A., Loyola Marymount University
M.F.A., Boston University
M.A., California State University, Los Angeles

*Cornish, Michael
Instructor of Biology
M.A., M.S., California State University, Northridge
Ph.D., University of California, Los Angeles

Cortes, Richard D.
Counselor
B.A., M.S., California State University, Northridge
Ph.D., Claremont Graduate University

Cortey, Teresa
Professor of French
B.A., M.A., Ph.D., University of California, Berkeley

*Coentingo, Manny
Instructor of Art
M.F.A., University of California, Los Angeles

*Costa, Darrell E.
Instructor of English
B.A., University of California, Berkeley
M.A., University of California, Los Angeles

*Coti, Karla K.
Instructor of Chemistry
B.S., California State University, Los Angeles
M.S., Ph.D., University of California, Los Angeles

*Coxit, Jeann
Instructor of English as a Second Language, Continuing Education
B.A., B.A., University of Southern California

*Coxt, Patti
Instructor of Dance
B.A., Southern Colorado State University
M.A., San Jose State University

*Cran, Kenneth J.
Instructor of English
B.S., San Diego State University
M.A., California State University, Northridge

*Crawford, Robert D.
Instructor of Lifelong Learning, Continuing Education
B.S., University of Southern California
M.B.A., Pepperdine University

*Creekmur, Ted
Instructor of Nursing Science
B.S.N., California State University, Los Angeles

*Crbb, Margaret A.
Librarian
B.A., University of California, Santa Barbara
M.S., Simmons College

*Cser, Laszl
Instructor of Music
B.A., M.A., California State University, Los Angeles

*Cuevas, Martha C.
Counselor
B.A., University of California, Santa Barbara
M.S., California State University, Northridge

*Curiel, Libby L.
Instructor of Speech Communication
B.A., M.A., California State University, Los Angeles

*Currey, Nancy
Instructor of English as a Second Language
B.A., San Francisco State University
M.A., California State University, Los Angeles

* Adjunct Faculty
*CURTIS, TINA L.  
Instructor of Music  
B.M., California State University, Northridge  
M.M., University of Southern California  

*CUTLER, BOB  
Assistant Professor of Business Administration  
B.S., Brooklyn College  
M.B.A., University of Southern California  

*DABBAGHIAN, VAHE H.  
Instructor of Mathematics  
B.S., M.S., University of California, Irvine  
M.S., California State University, Fullerton  

*DADA, OLUBAMIDELE O.  
Instructor of Psychology  
B.Sc., Central State University  
M.B.A., University of Southern California  

*DANAKIAN, TIGRAN  
Instructor of Mathematics  
M.S., Yerevan State University  

*DANIELS, CINDY  
Instructor, Learning Disability Specialist  
B.A., University of California, San Diego  
M.A., California State University, Northridge  

*DANIELS, JEFF C.  
Instructor of English  
B.A., Boston University  
M.A., Trinity College  

*DANIELS, LYNDA  
Assistant Professor of Physical Education  
B.S., California State Polytechnic University, Pomona  
M.A., California State University, Los Angeles  

*DANIELSON, ERIC D.  
Instructor of Computer Science/Information Systems  
B.S., Harvey Mudd College  
M.S., University of Southern California  

*DANTZLER, VALICIA  
Instructor of Business Administration  
B.A., University of La Verne  

*DARCY, MICHAEL T.  
Instructor of English as a Second Language  
B.A., Biola University  
M.A., California State University, Los Angeles  

*DARIN, CAROLYN V.  
Instructor of English  
B.A., M.A., California State University, Northridge  

*DARMANYAN, PAVEL M.  
Instructor of Chemistry  
M.S., Ph.D., Technological Institute of Food Industry, Ukraine  

*DARMANYAN, YEVGENIYA  
Instructor of Culinary Arts  
B.S., California State University, Los Angeles  
M.S., Russia Technological University  

*DAVIS, PAUL M.  
Instructor of Business Office Technology, Continuing Education  
B.S., Emerson College  

*DAVIS, TERESA AGUILAR  
Counselor  
A.A., Glendale Community College  
B.A., California State University, Northridge  
M.S., University of LaVerne  

*DAVIS, TINISHA D.  
Instructor of English  
B.A., University of California, Riverside  
M.A., California State University, Los Angeles  

*DAVISON, ANNI  
Instructor of English as a Second Language, Continuing Education  
B.A., M.A., University of British Columbia, Canada

M.A., Teachers College, Columbia University  

*Adjunct Faculty
DILLON, RHONDA L.
Instructor of Music
B.M., M.M., University of Southern California

DILUCCHIO, JANE E.
Professor of Developmental Skills, Continuing Education
B.A., Occidental College
M.A., California State University, Los Angeles

DIONISIO, DAPHNE F.
Instructor of Psychology
B.A., San Diego State University
Ph.D., University of Minnesota

DITTMER, ANN M.
Instructor of Business Administration
M.B.A., California State University, Northridge

DJAMBAZIAN, PATRICIA
Counselor
B.A., M.S., California State University, Northridge

DJRBASHIAN, ASHOT
Instructor of Mathematics
B.S., M.S., Yerevan State University
Ph.D., Mathematical Institute of the Academy of Sciences, Russia

DOBBS, DENISE L.
Librarian
M.L.I.S., San Jose State University

DOE, RUSSELL
Instructor of Lifelong Learning, Continuing Education
B.A., Duke University

DOMÍNGUEZ, ROXANNE
Associate Professor, Counselor
B.A., University of California, Los Angeles
M.A., California State University, Dominguez Hills

DONAGHY, ROBERT
Professor of Physical Education
B.A., M.S., California State University, Los Angeles

DONAYAN, SONA S.
Instructor of Culinary Arts
B.S., University of California, Los Angeles
M.S., California State University, Northridge

DORROH, CYNTHIA
Associate Dean, Division Chair, Health Sciences
Director, Nursing Program
Assistant Professor of Nursing Sciences
A.S., Glendale Community College
B.S., M.S., California State University, Los Angeles

DOUGLAS, EDWARD A.
Instructor of Theatre Arts
A.A., Lake City Community College
B.A., University of West Florida
M.F.A., California Institute of the Arts

DOYLE, DENNIS M.
Associate Professor of English
B.A., St. John’s College
M.A., California State University, Los Angeles

DRINEN, MICHAEL
Instructor of Mathematics
B.A., Reed College, Oregon
Ph.D., University of Washington

DUISBERG, DAVID
Instructor of English
B.A., M.A., Occidental College

DULAY, MICHAEL
Division Chair, Social Sciences
Instructor of Psychology
B.A., M.A., California State University, Los Angeles
M.A., Pepperdine University

DULUK, DAVID
Instructor of Astronomy
B.S., M.S., University of Michigan

DUNBAR, MARGUERITE
Instructor of English
M.F.A., American Film Institute Conservatory

DURET, KATHY
Instructor of Geophysics
B.A., M.A., California State University, Northridge

DURHAM, CATHY
Title V Coordinator, Director, Learning Community Project
B.S., Louisiana State University
M.A., Southwest Missouri State University
Ph.D., University of Maryland

DYGICO, LEIRENE
Instructor of Nursing Science
B.S., College of Health and Science, Philippines
M.S., University of the Philippines, Diliman

EASTMAN, CHARLES F.
Instructor of Art
B.A., San Francisco State University

EBERTS, MICHAEL
Professor of Mass Communications
A.A., Los Angeles Valley College
B.A., M.A., California State University, Los Angeles
Ph.D., University of Southern California

ECKLER, PHYLLIS
Assistant Professor of Dance
B.A., York University
M.F.A., California Institute of the Arts

ECKLUND, THEODOR A.
Instructor of Fire Technology
B.S., M.P.T., California State University, Northridge

EDELMAN, BART
Professor of English
B.A., M.A., Hofstra University

EDGAR, R. DANIEL
Professor of Chemistry
A.A., Glendale Community College
B.A., University of California, Santa Barbara
M.S., San Diego State University

EDWARDS, BARBARA
Instructor of Child Development
M.A., Pacific Oaks College

EGAN, PATRICK
Instructor of English
B.A., M.A., California State University, Northridge

EISENBERG, JEANNE-MARIA
Instructor of Nursing Science
B.S., University of Redlands
M.S., California State University, Dominguez Hills

EL GAMAL, ZOHAA
Instructor of English as a Second Language
B.A., Ain Shams University, Cairo
M.A., The American University, Cairo

EL ISSA, ANWAR
Instructor of English as a Second Language
B.A., Damascus University, Syria
M.A., Saint Michael’s College, Vermont
Ph.D., The University of Liverpool, UK

ELDER, ELIZABETH A.
Instructor of English as a Second Language
B.A., University of Wisconsin
M.A., Colorado State University

* Adjunct Faculty
*ELLSWORTH, KIRSTIN  
Instructor of Art History  
M.A., M.A., Indiana University

*EMCH, FLORENCE C.  
Instructor of English as a Second Language  
B.A., M.A., Indiana University

*EMMETT, KAREN  
Instructor of Photography  
M.F.A., California State University, Fullerton

*ENGLUND-KRUSEE, LAURA  
Instructor of Geography  
A.A., Los Angeles Pierce College  
B.A., California State University, Northridge  
M.A., California State University, Los Angeles

ERFURT, BARBARA  
Associate Professor of Physical Education  
B.A., Michigan State University  
M.P.H., Loma Linda University

ERNST, MEGAN  
Instructor of English as a Second Language, Continuing Education  
B.A., University of Minnesota  
M.A., California State University, Los Angeles

*ESCOBAR, JANISE ALVAREZ  
Instructor of Parent Education, Continuing Education  
A.A., El Camino College  
B.A., California State University, Sonoma  
M.A., Loyola Marymount University  
M.S.W., California State University, Long Beach

*ESCRIBANO, BRIAN J.  
Instructor of Art  
B.A., Art Institute of Fort Lauderdale

*ESCUCRERIA, MAURICIO  
Instructor of Spanish  
M.A.T.S.L., Bennington College, Vermont

ESMAIL, KARIMA,  
Instructor of Nursing Science  
B.S.N., M.S.N., California State University, Los Angeles

*ESMAILI, SABINE J.  
Instructor of Mathematics  
B.A., M.A., University of California, Berkeley

*EUSAN, DANA  
Instructor of English as a Second Language, Continuing Education  
B.A., University of California, Los Angeles

*EVINYAN, ZARIK  
Instructor of Mathematics  
B.S., M.S., Yerevan State University

EZELL, DENISE  
Director, Learning Resource Center  
Instructor of English  
B.A., University of Montevallo  
M.A., University of Alabama

*FALCON, MICHAEL W.  
Instructor of English  
B.A., Immaculate Heart College  
M.F.A., University of Southern California

*FALKOWSKI, BARBARA J.  
Instructor of Physical Science  
B.S., M.S., California State University, Northridge

*FALLAH, EDWIN  
Instructor of English as a Second Language, Continuing Education  
B.A., Karaj Azad University, Iran  
M.A., California State University, Northridge

FARR, JEANETTE  
Instructor of Theatre Arts  
B.A., California State University, Stanislaus  
M.F.A., University of Nevada, Las Vegas

*FAWCETT, CHERYL D.  
Instructor of Real Estate  
B.A., M.P.A., California State University, Long Beach

*FEJTEK, STELA  
Learning Disability Specialist  
Instructor of Lifelong Learning, Continuing Education  
A.A., Glendale Community College  
B.A., M.S., California State University, Northridge

FEKAN, ANDREW  
Instructor of Culinary Arts  
B.A., Colgate University  
A.O.S., Culinary Institute of America

FERDAN, IDA  
Instructor of English  
B.A., M.A., California State University, Northridge

*FERGUSON, SANDRA  
Instructor of Lifelong Learning, Continuing Education  
B.A., M.A., California State University, Northridge

*FERGUSON, THOMAS  
Instructor of Engineering  
B.S., M.E., California State Polytechnic University, Pomona

*FERNANDEZ, GABRIELLA  
Instructor of Accounting  
B.S., M.B.A., California State University, Northridge

*FERNANDEZ, TONITA  
Instructor of Child Development  
B.A., M.A., Pacific Oaks College

*FERNANDEZ-PRESA, ROCIO  
Instructor of English as a Second Language, Continuing Education  
M.A., West Virginia University

*FERNSTROM, RONALD  
Instructor of Administration of Justice  
B.A., California State University, Northridge

*FIGURACION, KATHRYNE F.  
Instructor of Nursing Science  
A.A., B.S., San Diego State University

*FINE, RICHARD  
Instructor of Mathematics  
B.A., M.S., California State University, Northridge

*FISHMAN, ROBYN D.  
Instructor of History  
B.A., Sarah Lawrence College, New York  
M.A., California State University, Long Beach

*FLEMING, PAMELA KAY  
Instructor of Nursing Science  
Ph.D., B.S.N., California State University, Dominguez Hills

*FLORES, LUIS  
Instructor of Computer Science/Information Systems  
B.A., University of Southern California  
B.S., National University

FLYNN, BARBARA  
Instructor of Parent Education, Continuing Education  
B.S., California State Polytechnic University, Pomona  
M.A., Philips Graduate Institute

*FLYNN, JOHN (JACK) E.  
Instructor of English  
B.A., Yale University  
M.F.A., Columbia University

*FLYNN, KATHLEEN F.  
Division Chair, English as a Second Language, Credit  
Professor of English as a Second Language  
B.A., Queens College, CUNY  
M.A., The Graduate School and University Center, CUNY  
M.A., Ph.D., University of Southern California

*FLYNN, SIOBHAN M.  
Instructor of English  
B.A., Oberlin College  
M.A., California State University, Los Angeles

*Adjunct Faculty

M.A., Claremont Graduate University

*GROSS, EMILY E.  
Instructor of English  
B.A., University of California, Riverside  
M.A., New York University

*GUEORGUIEVI, GUEORGUI D.  
Instructor of Physics  
B.A., Goucher College  
M.S., Bowling Green State University

*GUEORGUIEVA, SLAVKA D.  
Instructor of English as a Second Language  
B.A., West Virginia Wesleyan College  
M.A., Biola University

*GUERRERO, ARMANDO  
Instructor of Fire Technology  
A.A., East Los Angeles College

GUGLIELMINO, RICHARD  
Assistant Professor of Physics  
B.S., M.A., University of Southern California

GUPTA, LINA  
Professor of Philosophy  
B.A., Presidency College  
M.A., University of Calcutta  
Ph.D., Claremont Graduate School

*GUNNELL, KRISTINE A.  
Instructor of History  
B.A., Brigham Young University  
M.A., University of Michigan

*HAASE, WALTER  
Instructor of Lifelong Learning, Continuing Education  
B.A., Occidental College

*HACOPIAN, ALFRED  
Instructor of English as a Second Language, Continuing Education  
B.S., California State University, Northridge  
M.B.A., Pepperdine University

*HAFT, BRUCE  
Instructor of Computer Science/Information Systems  
A.A., Glendale Community College  
B.S., California State University, Los Angeles

*HAHN, AMANDA  
Instructor of Psychology  
B.A., B.S., University of California, Los Angeles  
M.A., California State University, Los Angeles  
D.Psych., Alliant International University

*HANAWALT, ANITA M.  
Instructor of Music  
B.A., Juniata College  
M.M., Westminster Choir College  
Ph.D., Union Institute and University

HANAWALT, ALBERTA  
Associate Professor of Chemistry  
B.S., California State University, Los Angeles  
Ph.D., University of Southern California

*HAN, AMANDA  
Instructor of Psychology  
B.S., University of California, Los Angeles  
M.A., California State University, Los Angeles

*HANAWALT, ANITA M.  
Instructor of Music  
B.A., Juniata College  
M.M., Westminster Choir College  
Ph.D., Union Institute and University

HANDLEY, JUDITH B.  
Associate Professor of Chemistry  
B.S., California State University, Los Angeles  
Ph.D., University of Southern California

HANFORD, MARCIA C.  
Instructor of Office Business Technology, Continuing Education  
B.A., M.A., Arizona State University

*HANG, MONICA  
Women's Basketball Coach, Instructor of Physical Education  
A.A., Ventura College  
B.A., Cumberland College, Kentucky

* Adjunct Faculty
*HANFIN, MARY E.  
_Instructor of Office Business Technology, Continuing Education_  
B.A., Saint Mary’s College

*HARALDSON, EMILY D.  
_Instructor of Art_  
B.A., Augsburg College, MN  
M.A., California State University, Northridge

HARLAN, RONALD K.  
_Dean of Instructional Services, Professor of Biology_  
A.A., Chabot College  
B.S., California State University, Hayward  
M.A., University of California, Santa Barbara  
Ph.D., University of California, Los Angeles

*HARLOW, JOHN P.  
_Instructor of Sociology_  
B.S., Central State University  
M.A., California State University, Hayward

*HARRICAN, BETH  
_Instructor of Political Science_  
B.A., American University  
M.P.A., Columbia University

*HART, SHARON  
_Instructor of English as a Second Language_  
M.A., California State University, Los Angeles

*HARTUNIAN, VAHAK  
_Instructor of Chemistry_  
B.Sc., Brunel University  
M.Sc., Loughboro University  
Ph.D., University of Southern California

*HARVEY, SARA M.  
_Instructor of Chemistry_  
Ph.D., University of California, Los Angeles

HASSAKOURIAN, YVETTE  
_Associate Professor of Mathematics_  
A.A., Glendale Community College  
B.S., M.A., University of California, Los Angeles

*HASSANZADEH, JAMSHID  
_Instructor of Geology_  
B.S., M.S., University of Tehran  
Ph.D., University of California, Los Angeles

HASSETT, DAVID  
_Associate Professor of Mathematics_  
A.A., Fullerton College  
B.A., California State University, Fullerton  
M.S., California State University, Northridge

HASTINGS, CAMERON  
_Instructor of Political Science_  
B.A., University of California, Los Angeles  
M.A., California State University, Long Beach

*HAYNE, RICHARD  
_Assistant Professor of Emergency Medical Technology_  
B.A., Whittier College  
Ph.D., University of California, Los Angeles

*HAZLETT, JULIANA P.  
_Instructor of History_  
B.A., University of California, Los Angeles  
M.A., University of Southern California  
Ph.D., University of Colorado, Boulder

HEANEY, JOCELYN M.  
_Instructor of English as a Second Language_  
B.A., University of California, Los Angeles

HEFFLER, IRA  
_Instructor of Speech Communication_  
A.A., Santa Monica College  
B.A., California State University, Northridge

*HEIDARY, PAYAM  
_Instructor of Psychology_  
A.A., Fullerton College  
B.A., California State University, Fullerton  
M.A., California State University, Los Angeles

HEINICKE, DAVID  
_Instructor of English as a Second Language_  
B.A., University of California, Davis  
M.S., University of Southern California

HENDERSON, WAYNE G.  
_Instructor of Geology_  
B.A., B.S., The George Washington University, D.C.  
M.S., Louisiana State University

*HENNEKER, DEBORAH  
_Instructor of English as a Second Language, Continuing Education_  
M.Div., Fuller Theological Seminary

HENRY, SUSAN INJEKIAN  
_Associate Professor of English_  
B.A., California State University, Northridge  
M.A., Columbia University

*HERRERA, LUIS O.  
_Assistant Professor of Electronics and Computer Technology_  
B.S.E.E., California State Polytechnic University, Pomona  
M.B.A., Pepperdine University

*HERRON, ROYCE  
_Assistant Professor of Theatre Arts_  
B.A., Central Oklahoma State University

*HICKS, DONALD R.  
_Assistant Professor of Biology_  
B.S., Auburn University  
M.S.T., Florida Atlantic University  
Ph.D., Florida Institute of Technology

*HIGGINS, KELLY  
_Instructor of Parent Education, Continuing Education_  
B.A., M.A., Pacific Oaks College

*HILARIO, MONICA  
_Instructor of English as a Second Language_  
B.A., University of California, Los Angeles  
M.A., Pepperdine University

HILLQUIST, REBECCA  
_Instructor of Art_  
B.F.A., Brigham Young University  
M.F.A., Art Center College of Design

*HILLQUIST, RICHARD  
_Instructor of Business Administration_  
B.S., Brigham Young University  
M.B.A., Pepperdine University

HIRONYMOUS, PATRICIA  
_Assistant Professor of English as a Second Language_  
B.A., University of California, Riverside  
M.A., California State University, Dominguez Hills  
M.A., George Mason University  
Ph.D., University of Maryland

*Adjunct Faculty
HITTERDALE, LAURENCE  
Associate Professor of Computer Science/Information Systems  
B.A., Pacific Lutheran University  
Ph.D, Johns Hopkins University

Indermill, Eric S.  
Instructor of Fire Technology  
B.S., California State University, Northridge  

Ingels, Clairette  
Instructor of English as a Second Language, Continuing Education  
B.A., California State University, Northridge  

Ingles, Tiffany E.  
Instructor of English as a Second Language  
B.A., Asbury college  
M.A., Azusa Pacific University  

ION, CHARLES  
Instructor of Music  
M.A., California State University, Northridge  

JABALAMEL, ALI  
Instructor of Chemistry  
B.S., M.S., Jackson State University  

JAFARI, HAMID  
Instructor of Mathematics  
M.S., California State University, Northridge  
M.S., Iowa State University  
Ph.D., North Carolina State University  

JAGLIN, ELIZABETH GAIL  
Instructor of English as a Second Language  
B.A., California State University, Fresno  
M.S., University of Pennsylvania  

JAKL, SANDRA  
Assistant Professor of Physical Education  
B.A., California State University, Long Beach  

JANOYAN, DANIEL  
Instructor of English as a Second Language, Continuing Education  
M.A., University of York, England  

JAZÁN, STACY  
Associate Professor of Spanish  
A.A., Los Angeles Pierce College  
B.A., M.A., C.Phil, University of California, Los Angeles  
Ph.D., University of California, Los Angeles  

JEN, FRANK F.  
Instructor of Art  
B.F.A., Art Center College of Design  

JEN, FRANK F.  
Instructor of Art  
B.F.A., Art Center College of Design  

JEN, FRANK F.  
Instructor of Art  
B.F.A., Art Center College of Design  

JENKINS, DEBORAH L.  
Instructor of Art  
B.A., California State University, Northridge  
M.A., California State University, Fresno  

JENSEN, BARBARA L.  
Instructor of English as a Second Language  
M.A., United States International University, San Diego  

JENSEN, JEFFRY  
Librarian  
B.A., La Verne College  
M.S.L.S., University of Southern California  

JENZIAN, VIGEN  
Instructor of Physical Education  
B.A., University of California, Davis  
M.A., Concordia University  

JIN, JUNGWON  
Instructor of Music  
M.M., D.M.A., University of Southern California  

JOHNSON, CHERYL  
Instructor of English as a Second Language, Continuing Education  
B.A., Colorado State University, Fort Collins  
M.A., University of California, Los Angeles  

JOHNSON, CHERYL  
Instructor of English as a Second Language, Continuing Education  
B.A., Colorado State University, Fort Collins  
M.A., University of California, Los Angeles  

* Adjunct Faculty
*JOHNSON, JENNIFER K.
Instructor of English
M.A., California State University, Northridge

*JOHNSON, JING XU
Instructor of Nursing Science
A.S., Glendale Community College
B.S., California State University, Los Angeles

JOHNSTON, ERIC
Instructor of Anthropology
A.A., Fresno City College
B.A., University of California, Santa Barbara
M.A., University of New Mexico

*JONES, BILL
Instructor of English
B.A., California State University, Long Beach
M.A., California State University, Northridge

JONES, BRENDA L.
Professor, Librarian
B.S., University of Illinois, Urbana-Champaign
M.L.S., University of California, Los Angeles

JONES, DAVID PAUL
Associate Professor of Mathematics
A.S., Compton College
B.S., M.S., California State University, Los Angeles

*JONES, TRISHA
Instructor of Nursing Science
B.S., California State University, Los Angeles

*JONES, JOEY J.
Instructor of Art
B.S., Ohio State University
M.S., Art Center College of Design

*JONES, KRISTIN A.
Instructor of English
B.A., Rollins College
M.A., Florida State University

*JONES, SUE CAMPBELL
Instructor of Mathematics
B.A., Denison University
M.S., Massachusetts Institute of Technology
M.A., University of Massachusetts

*JORDAN, NANCY P.
Instructor of Culinary Arts
A.S., Atlantic Culinary Academy, New Hampshire

*JOSEPH, SAM
Assistant Professor of English
B.A., San Francisco State University
M.A., Antioch University

JUDGE, EMELYN
Associate Professor of Nursing Science
B.S. Mt. St. Mary’s College
M.N., University of California, Los Angeles

JUZWAIC, WILLIAM
Instructor of English
B.A., M.A., University of California, Los Angeles

KABA, CAROLINE
Assistant Professor of Economics
B.A., M.A., American University of Beirut

*KADAR, SAMANTHE
Instructor of Geography
B.A., Sonoma State University
M.A., San Francisco State University

*KALENDERIAN, AROUS
Instructor of Nursing Science
B.S.N., Pacific Union College

*KALLIK, CRYSTAL C.
Instructor of Business Administration
B.S., University of California, Irvine
M.B.A., University of Southern California

*KALTER, CONSTANCE S.
Instructor of Fire Technology
B.A., Ph.D., University of Southern California

KAMEI, RICHARD
Associate Professor of Sociology
B.A., California State University, Long Beach
M.A., California State University, Los Angeles

*KAMM, AMY
Instructor of English as a Second Language
B.A., Westmont College
M.Ed., Seattle University

*KANG DAVID
Instructor of Fire Technology
B.S., California State University, Los Angeles

*KARAMYAN, GRANT
Instructor of Mathematics
M.A., University of California, Los Angeles

*KARAPETIAN, SHUSHAN
Instructor of Armenian
B.A., M.A., University of California, Los Angeles

*KARELINA, ANNA
Instructor of Physics
Ph.D., Bayreuth University, Germany

*KARGODORIAN, ANNETTE
Instructor of English as a Second Language, Continuing Education
B.A., University of California, Los Angeles
M.A., California State University, Los Angeles

*KARKAFI, ROBERT
Instructor of Mathematics
B.A., M.A., University of Kansas

*KARPP, EDWARD R.
Instructor of Mathematics
B.A., M.A., Ph.D., University of California, San Diego

*KARTALIAN, LARA R.
Instructor of English
B.A., M.A., California State University, Los Angeles

*KASAMANIAN, ARUTYUN H.
Instructor of Mathematics
B.S., Polytechnic Institute, Yerevan, Armenia
M.S., Ph.D., Moscow Technical University, Russia

*KASHFIAN, DAVID
Instructor of Economics
B.A., M.A., M.S., University of Southern California

*KASIMOFF, IVAN
Instructor of English as a Second Language
B.A., University of California, Berkeley
M.A., California State University, Los Angeles

*KATO, NINA K.
Instructor of English as a Second Language, Continuing Education
B.A., M.A., University of California, Riverside

KAYE, ZOHARA
Librarian
A.S., Glendale Community College, CA

*KAUTIAINEN, TIM
Instructor of Chemistry
Ph.D., University of Southern California

*KAYZAKIAN, YVETTE
Instructor of Computer Applications and Business Office Technology
B.A., Pars College, Iran
M.A., Tehran University

KAZANJIAN, PHILIP
Assistant Professor of Business Administration
B.A., University of Southern California
Ph.D., Lincoln University School of Law

*Adjunct Faculty
*KEELIN, PAMELA
Instructor of English
M.A., California State University, Los Angeles
M.Ed., Loyola Marymount University

*KEEP, RYAN L.
Instructor of Economics
M.A., Claremont University

*KELLEY, SUZANNE
Instructor of English as a Second language
B.A., University of Denver
M.A., California State University, Dominguez Hills

*KELLS, LORRAINE
Instructor of Developmental Skills, Continuing Education
B.A., Roosevelt University
M.A., University of Chicago

*KENNEDY, KIERAN F.
Instructor of English
B.A., University College, Dublin
M.A., Ph.D., Columbia University

KESIAN, KOHAR
Instructor of Nursing Science
B.S., M.S., University of Phoenix

KETCHAM, CHARLES
Instructor of Art
B.A., Southeast Missouri State University
B.F.A., Art Center College of Design
M.F.A., New York Academy of Art

*KEYES, GARY
Instructor of Sociology
B.A., University of California, Santa Barbara
M.A., California State University, Los Angeles

*KHACHATOURIANS, ARTHUR
Instructor of Business Administration
B.A., University of California, Los Angeles
J.D., Southwestern Law School, Los Angeles

*KHANBABIAN, ARMINEH N.
Instructor of English as a Second Language, Continuing Education
B.A., Queens College, New York
M.S., M.A., California State University, Los Angeles

*KHATCHATRIAN, ANNA
Instructor of Accounting
B.S., M.B.A., Woodbury University

*KHODAGHOLIAN, SCARLET
Instructor of Mathematics
B.S., University of California, Los Angeles
M.S., University of Chicago

*KHODAVERDIAN, HACOB
Instructor of Photography
B.A., Art Center College of Design

*KHOLLESI, BOB
Instructor of Computer Science/Information Systems
B.S., California State Polytechnic University, Pomona
M.S., Azusa Pacific University

*KIDIMA, LUKOWA
Instructor of English as a Second Language, Continuing Education
M.A., University of Pittsburgh
Ph.D., University of California, Los Angeles

*KIEFER, JILL A.
Instructor of Lifelong Learning, Continuing Education
B.A., University of New Mexico
M.A., Ph.D., Warnborough College, Ireland

*KIM, HONG J.
Instructor of Mathematics
B.S., University of California, Los Angeles
M.S., California State University, Los Angeles

*KIM, HYUN K.
Instructor of Chemistry
M.A.T., Fuller Theological Seminary
M.S., Ph.D., University of Southern California

*KIM, JONG
Instructor of Mathematics
B.S., M.A., University of Southern California
M.A., University of California, Los Angeles

KIM, MICHELLE M.
Instructor of Economics
B.A., B.A., University of California, Berkeley
M.A., University of California, Irvine

*KING, JASON F.
Instructor of Computer Aided Manufacturing

*KINLEY, DEBORAH
Instructor of Business Office Technology, Continuing Education
B.A., California State University, Los Angeles
M.P.A., California State University, Long Beach

*KIRAMIJJYAN, ARMEN
Instructor of Economics
B.A., M.A., University of Southern California

KISSELL, KELLY
Program Manager, CASAS

*KLEIN, DEBBIE
Instructor of Nursing Science
B.S., University of Phoenix

*KLEIN, KARYN
Instructor of Dance
M.A., University of California, Los Angeles

*KLEINMAN, MARGIT
Instructor of English as a Second Language
M.A., University of Tübingen, Germany

*KLIN, RONALD V.
Assistant Professor of Mathematics
A.A., Glendale Community College
B.A., University of California, Los Angeles
M.A., California State University, Los Angeles

KLOEZEMAN, CHRISTINE
Professor of Accounting
B.S., Brigham Young University
M.A., University of Redlands

*KNIGHT, ROBERT N.
Instructor of Theatre Arts
A.A., Dean Jr. College
B.A., California State University, Hayward

*KNILL, EUPHONIA
Instructor of English as a Second Language
B.A., Evergreen State College
M.A., Monterey Institute of International Studies

*KNOTT, KAREN
Librarian
B.A., California State Polytechnic University, San Luis Obispo
M.L.S., San Jose State University

*KOBLE, MARK A.
Instructor of English as a Second Language
B.A., M.A., University of Southern California

*KOREHAR, ARMEN
Instructor of English as a Second Language, Continuing Education
B.A., California State University, Los Angeles
M.A., California State University, Northridge

* Adjunct Faculty
*Kogan, Jackie
  Instructor of English
  B.S., Eastern Oregon College
  M.F.A., California Institute of the Arts
  M.A., California State University, Northridge
  M.F.A., California State University, Chico

Kolpas, Sidney
  Professor of Mathematics
  B.A., M.S., California State University, Northridge
  Ed.D., University of Southern California

*KooneR, Amarpreet Kaur
  Instructor of English as a Second Language
  B.A., University of Delhi, India
  B.S., Kurukshetra University, India
  M.A., Annamalai University, India

*Korechoff, Robert
  Instructor of Astronomy
  B.S., M.S., Ph.D., University of California, Los Angeles

Kel, Nickie D.
  Instructor of Nursing Science
  A.D.N., Los Angeles Valley College
  B.S.N., California State University, Fullerton

*KoubeK, Paulette A.
  Instructor of English as a Second Language
  B.A., Cleveland State University
  M.A., University of Illinois

*Kramer, Craig S.
  Instructor of English
  B.A., University of California, Santa Barbara
  A.M., University of Michigan, Ann Arbor

Krannig, Dora
  Associate Professor of Dance
  M.A., California State University, Long Beach

*Kranz, Jack
  Instructor of Geography
  M.A., California State University, Northridge
  M.L.S., University of California, Los Angeles

*Krawchuk, Miriam L.
  Instructor of English as a Second Language, Continuing Education
  B.A., California State University, Northridge

Kretzmann, Maria B.
  Instructor of Biology
  B.A., Cornell University
  M.S., Ph.D., University of California, Santa Cruz

*Krikorian, Bj
  Instructor of History
  B.A., Ohio State University
  M.A., California State University, Northridge

*Kronbeck, Elizabeth
  Instructor of History
  B.A., University of California, Los Angeles
  M.A., California State University, Fullerton

*Kuleto, Lisa
  Instructor of English as a Second Language, Continuing Education
  B.A., M.S., California State University, Northridge

Kuller, Richard
  Instructor of Dance
  B.A., University of Redlands

Kuo, Anne C.
  Instructor of English as a Second Language
  B.A., B.A., University of California, Santa Barbara
  M.A., New York University

*Kupka, Craig
  Instructor of Music
  B.A., M.A., University of California, Los Angeles

*Kupka, Nancy
  Instructor of Child Development
  B.A., California State University, Los Angeles
  M.A., University of California, Los Angeles

*Kushida, Arlene
  Instructor of English as a Second Language, Continuing Education
  B.A., University of California, Los Angeles
  M.A., University of Southern California

*Kuzmic, Janet L.
  Instructor of Lifelong Learning, Continuing Education
  M.S., Purdue University

Kwa, Rosemary
  Assistant Professor of English
  B.A., Tufts University, Massachusetts
  B.M., New England Conservatory of Music, Boston
  M.A., University of California, Irvine

*La SalIe, Tawni A.
  Instructor of Spanish
  B.A., Brigham Young University
  M.A., University of California, Santa Barbara

Labadzyan, Gabik
  Instructor of Chemistry
  B.S., B.S., University of California, Irvine
  M.S., University of California, Los Angeles

*Labertew, Leslie D.
  Instructor of Sociology
  B.A., California State University, Northridge
  J.D., People’s College of Law

*Lace, Norreen V.
  Instructor of English
  B.A., M.A., California State University, Northridge

*Lam, Albert
  Instructor of Mathematics
  B.A., M.S., Southern Illinois University

*Lam, Kee T.
  Instructor of Mathematics
  B.S., M.S., California State University, Los Angeles

*Lammers, Marilyn
  Associate Professor, Computer Applications and Business Office Technologies
  B.S., M.S., California State University, Northridge

Langon, Janet I.
  Instructor of English as a Second Language
  B.S., Georgetown University
  M.A., Schiller College, France
  M.A., Hunter College, New York

*Lao, Faye W.
  Instructor of Hotel and Restaurant Management
  B.S., M.B.A., California State Polytechnic University, Pomona

Lao, Michael C.
  Instructor of Hotel/Restaurant Management
  M.P.S., Cornell University, New York

*Lao, Ravy S.
  Instructor of English as a Second Language
  B.A., University of California, Irvine
  M.A., Loyola Marymount University

*Larsson, Nancy H.
  Instructor of English as a Second Language, Continuing Education
  B.S., University of Wisconsin – Milwaukee

*Laue, Andrew J.
  Instructor of Social Science
  B.A., California State University, Los Angeles
  M.L.I.S., University of California, Los Angeles

*Laue, Carolyn G.
  Instructor of Nursing Science
  B.S.N., University of Canberra, Australia

*Adjunct Faculty
LAW, JERRY M.
Instructor of Lifelong Learning, Continuing Education
B.A., University of California, Irvine
M.A., California State University, Dominguez Hills
Ph.D., Claremont Graduate University

LE, CAU DUONG
Instructor of Mathematics
B.S., University of California, Irvine
M.A., University of California, Los Angeles

LE, TIENG
Instructor of Mathematics
Ph.D., University of Southern California

LEAF, KRISTIN
Instructor of History
B.A., M.A., C.Phil., University of California, Los Angeles

LEAVER, DARREN
Director, Study Abroad Program, Assistant Professor of Geography
B.A., M.A., California State University, Northridge

LEDESMA, REYNNAN L.
Instructor of Real Estate
B.A., California State Polytechnic University, Pomona
J.D., Southwestern University School of Law

LEE, ELIS
Instructor of English as a Second Language
B.A., University of California, Los Angeles
M.A., California State University, Los Angeles

LEE, SANDRA K.O.
Professor of Student Development, Counselor
B.Ed., University of Hawaii
M.S, California State University, Los Angeles

LEW, SANDRA E.
Instructor of English as a Second Language
B.A., M.A., University of California, Los Angeles
M.A., California State University, Dominguez Hills

LEWIS, BRIAN
Instructor of English
B.A., San Francisco State University
M.F.A., University of Arizona

LEWIS, JILL
Program Manager, Instructional Services
B.A., California State University, Dominguez Hills
M.B.A., Pepperdine University

LIAO, GUOJAO
Instructor of Mathematics
B.A., South China Normal University
M.S., California State University, Northridge

LEONARD, JOHN
Division Chair, Physical Science
Associate Professor of Geology
B.A., Carleton College
M.S., Ph.D., University of California, Los Angeles

LENCKI, SHARON
Instructor of Aviation and Transportation
B.A., California State University, Los Angeles

LEONC, DENISE A.
Counselor
B.A., University of Southern California
M.A., Loyola Marymount University

LERNER, ADAINE
Librarian
M.A., University of Michigan
M.S.L.S., Columbia University

LEVATTER, THEODORE
Associate Professor of Speech Communication
B.A., University of California, Santa Barbara
M.A., California State University, Los Angeles

LEVY, LOUIS R.
Instructor of Astronomy
B.S., M.S., University of California, Los Angeles

LEVINE-GRATER, FRANCIE
Instructor of English
B.A., University of Judaism, Lee College
M.F.A., Brooklyn College

LEW, SANDRA E.
Instructor of English as a Second Language
B.A., M.A., University of California, Los Angeles
M.A., California State University, Dominguez Hills

*Adjunct Faculty
LOPEZ, EDUARDO
Men's Cross Country and Track Coach
Assistant Professor of Health and Physical Education
B.A., California State University, Los Angeles
M.A., Azusa Pacific University

*LOPEZ, ELIZABETH C.
Instructor of Art History
B.A., Pomona College
M.A., University of California, Los Angeles

*LOPEZ, MARI YONEMOTO
Instructor of Japanese
B.A., Tokyo University of Foreign Studies
M.A., California State University, Long Beach

*LOPEZ, ROBERT
Instructor of Fire Technology
B.S., California State University, Los Angeles

*LORCH, THERESA
Instructor of Physical Education
B.S., University of California, Davis
M.A., University of Illinois

*LUBOW, LISA
Instructor of History
M.A., Ph.D., University of California, Los Angeles

*LUCCHESI, ROBERT J.
Instructor of Fire Technology
A.S., Crafton Hills College

*LUNA, CRAIG G.
Instructor of Real Estate
M.B.A., Pepperdine University
B.S., University of Southern California

*LUNG, YUE CHING
Instructor of Chinese
B.A., National Taiwan Normal University
M.A., University of Hong Kong

*LYTLE, JUDITH L.
Assistant Professor of Office Business Technology, Continuing Education
B.S., Dana College, Nebraska
M.S., University of Nebraska

*MACDONALD, KIM
Instructor of English as a Second Language, Continuing Education
M.A., Biola University

MACK, DAVID
Associate Dean, Curriculum Management
A.A., Glendale Community College
B.A., M.S., California State University, Los Angeles

*MACKAY, ROBERT
Men's Tennis Coach, Instructor of Physical Education
B.S., California State University, Los Angeles

MAIER, MARK H.
Professor of Economics
A.B., Oberlin College
Ph.D., New School For Social Research

*MAIMONE MARTHA P.
Instructor of English as a Second Language
B.S., University of La Verne
M.S., University of Southern California

*MAIORCA, TIMOTHY V.
Instructor of Physical Education
B.A., University of La Verne

*MAKEVICH, JOHN W.
Instructor of Geology
B.S., University of California, San Diego
M.S., University of Arizona

*MAKIJAN, NARINEH
Instructor of Student Development Counselor
B.A., California State University, Long Beach
M.A., Loyola Marymount University

*MALKAY, ROBERT J.
Instructor of Physical Education
B.S., California State University, Los Angeles

*MALLMANN, ANGELA R.
Instructor of
M.A., Pepperdine University

*MAM, SARA
Instructor of English as a Second Language, Continuing Education
M.A., California State University, Long Beach

*MANSOUR, MARGARET
Mental Health Counselor, Garfield Campus
Ph.D., California School of Professional Psychology

*MARSHALL, ALLAN R.
Instructor of Mathematics
M.B.A., California State University, Hayward

*MARGARYAN, ARAIK E.
Instructor of Accounting
B.A., University of Wisconsin
B.S., California State University, Los Angeles

MARTIN, STEVEN P.
Professor of Mathematics
B.A., M.A., T., University of California, Los Angeles

*MARSE, MICHAEL E.
Instructor of Speech Communication
M.A., California State University, San Bernadino

*MARSHALL, ALLAN R.
Instructor of Mathematics
B.A., California State University, Long Beach
M.A., M.A., California State Polytechnic University, San Luis Obispo

*MARSHALL, ROBERT W.
Instructor of English
B.A., University of California, Los Angeles
M.F.T., California Institute of the Arts

*MARTI, VANESSA K.
Instructor of Office Business Technology, Continuing Education
B.A., California State University, Fullerton

*Adjunct Faculty
MARTIN, DAVID  
Instructor of Architecture  
B.A., California State University, Los Angeles

*MARTIN, DORIS  
Instructor of English as a Second Language  
M.A., New Jersey City University  
M.F.A., University of Texas

*MARTIN ROWE, KATHLEEN A.  
Instructor of English  
B.A., Azusa Pacific University  
M.A., California State University, Northridge

*MARTYNOV, HELEN  
Instructor of Mathematics  
M.S., Ph.D., New Jersey Institute of Technology

MASSION, GARY R.  
Professor of Mathematics  
B.A., University of California, Santa Barbara  
M.A.T., University of California, Los Angeles

*MATHIAS, ERROL  
Instructor of Chemistry  
B.Sc., M.Sc., Ph.D., University of Mumbai

MATSUMOTO, LAURA  
Associate Professor of Adapted Computer Technology and Adapted Physical Education  
B.A., Willamette University  
M.A., University of Southern California

MAUK, ROBERT  
Instructor of Biology  
B.S., University of California, Los Angeles  
M.S., California State University, Northridge  
Ph.D., University of California, Irvine

*MAUNE, ROBERT T.  
Instructor of Culinary Arts  
A.A., Johnson County Community College

MAYER, PAUL  
Associate Professor of English as a Second Language, Continuing Education  
B.A., California State University, Northridge  
M.A., California State University, Los Angeles

*MAYO, HOWARD A.  
Instructor of English as a Second Language  
M.Ed., Temple University

McCINTOCK, SCOTT O.  
Instructor of English  
B.A., University of Pittsburgh at Johnstown  
M.A., University of Tulsa, Oklahoma  
Ph.D., University of California, Irvine

*McCLOSKEY, PATRICK  
Instructor of Accounting  
B.A., California State University, Long Beach

**McCOLL, RICHARD T.  
Instructor of Ceramics  
B.A., M.F.A., California State University, Long Beach

*McCONVILLE, IRENE  
Instructor of English  
B.A., University of California, Los Angeles  
M.A., California State University, Northridge

*McDERMOTT, KAREN M.  
Instructor of Computer Applications and Business Office Technologies  
B.A., Rutgers University  
J.D., University of San Diego

McDONALD, BRIAN  
Instructor of English as a Second Language  
B.A., San Diego State University  
M.A., Alliant International University

*McLAUGHLIN, LAWRENCE J.  
Instructor of Geography  
B.A., University of Southern California  
M.A., California State University, Northridge  
J.D., Loyola University

*McLEMORE, SARAH K.  
Instructor of English  
B.A., Scripps College  
M.A., University of California, Santa Barbara

McNEESE, KATHLEEN E  
Instructor of Nursing Science  
B.S.N., University of Southern Mississippi  
M.S.N., University of California, Los Angeles

*McPHAIL, BARTLEY A.  
Instructor of Hotel Restaurant Management  
B.A., California State University, Long Beach

*McQUILKIN, TONY  
Instructor of Mathematics  
B.A., M.A., University of California, Los Angeles

MECOM, ALICE  
Associate Professor of English as a Second Language, Continuing Education  
B.A., Louisiana State University  
M.A., University of North Texas

*MEDKEFF, ROBERT  
Instructor of Administration of Justice  
B.A., University of Akron  
M.A., California State University, Dominguez Hills

*MELIKIAN, ARA  
Instructor of Mathematics  
B.A., London University  
M.S., California State University, Los Angeles

*MELKONIANS, SEROGE  
Instructor of Office Business Technology, Continuing Education  
B.S., University of California, Los Angeles

*MENA, JORGE  
Women’s Soccer coach, Instructor of Physical Education  
B.A., California State University, Los Angeles

*MENDEZ, GEORGE  
Instructor of Nursing Science  
A.D.N., County School of Nursing  
B.S.N., M.S.N., California State University, Los Angeles

*MENDEZ, JEFFREY M.  
Instructor of Geology  
B.S., Ph.D., California Institute of Technology

*MENDOZA, DEIRDRÉ  
Instructor of English  
B.A., Hampshire College  
M.F.A., Antioch University

*MENESES, JUANITA  
Instructor of Art  
B.F.A., Art Institute of Chicago  
M.F.A., California Institute of the Arts

*MENSHIKOV, VICTORIA  
Instructor of Mathematics  
M.A., University of Southern California

*MESSICK, LEVIN P.  
Instructor of Real Estate  
B.A., California State University, Fullerton

*METH, SERGIO  
Instructor of Chemistry  
Ph.D., Barilam University, Israel

*METZGER, HEATHER L.  
Instructor of English  
B.A., University of California, Riverside  
M.A., Claremont Graduate University

* Adjunct Faculty
MEZA, KEVIN  
Transfer Center Coordinator, Counselor, Assistant Professor  
B.A., M.Ed., University of California, Los Angeles

*MIKAELIAN, AREVIK  
Instructor of Armenian  
M.A., Yerevan State University

MIKETTA, JAMES BRETT  
Associate Professor of Computer Science/Information Systems  
A.A., Glendale Community College  
B.S., University of Southern California  
M.S., Claremont Graduate School

*MILICH, CHRISTINE  
Instructor of Developmental Skills Lab, Continuing Education  
B.A., M.S., University of Southern California

*MILLER, DAVID J.  
Instructor of English as a Second Language  
B.A., Fresno State University  
M.A., California State University, Northridge

*MILLER, DEBBIE  
Instructor of Nursing Science  
A.S., Pasadena City College  
B.S.N., California State University, Dominguez Hills

*MILLER, KIMBERLY A.  
Instructor of Anthropology  
B.A., University of Montana  
M.A., Ph.D., University of California, Los Angeles

*MILLER, NANCY P.  
Instructor of English  
B.S., Bowling Green State University  
M.A., National University

*MINAYLOVICH, KRISTIN  
Instructor of Art  
M.A., University of California, Riverside

MIRCH, MARY  
Associate Dean, Health Services  
B.S.N., University of Virginia  
M.S., University of Arizona  
Ed.D., Pepperdine University

*MIRZAIAN, SIMON  
Instructor of Computer Science/Information Systems  
A.S., Glendale Community College, California

*MITCHELL, CRYSTAL A.  
Instructor of Art  
M.S., Pratt Institute

*MITCHELL, DANIEL E.  
Instructor of Social Science  
B.A., M.A., California State University, Los Angeles

*MITCHELL, DARRYL V.  
Instructor of Fire Technology  
B.S., California State University, Long Beach

*MITCHELL, SHERI  
Instructor of Music  
B.S.E., Southeast Missouri State University  
M.S.E., Southern Illinois University

*MITCHELL-WAGNER, JANET  
Instructor of English  
B.A., University of California, Los Angeles  
M.A., California State University, Los Angeles

MIZUNO, LYNN  
Professor of Biology  
B.S., University of Southern California  
M.S., California State University, Los Angeles  
Ph.D., University of Southern California

*MODESTIN-PEREZ, DILCIA  
Instructor of English as a Second Language  
B.A., University of Southern California  
M.A., California State University, Los Angeles

*MOGADAM, HAMID  
Instructor of Accounting  
M.B.A., National University

*MOHD NOH, MOHAMAD HISHAM B.  
Instructor of Economics  
B.S., National University of Singapore

*MONTECUOLLO, GARY  
Instructor of Administration of Justice  
M.P.A., California State University, Northridge

*MONTERO, MARIA K.  
Instructor of Political Science  
B.A., University of California, Berkeley  
M.A., California State University, Los Angeles

MOORE, JIWON C.  
Professor of Sociology  
B.A., M.A., California State University, Northridge  
M.A., Ewha Women’s University

*MORES, SUSAN M.  
Instructor of Business Administration  
B.A., Marywood University  
M.B.A., Claremont Graduate University

*MOREHEAD, JESSICA ROSE  
Instructor of Physical Education

MORALES, ANGELA  
Instructor of English  
B.A., University of California, Davis  
M.F.A., University of Iowa

MOREAU, MICHAEL  
Associate Professor of Journalism  
M.A., California State University, Los Angeles  
M.A., University of Southern California

*MORENO, AIMEE S.  
Instructor of English as a Second Language  
A.A., Santa Rosa Junior College  
B.A., California State Polytechnic University, San Luis Obispo  
M.A., Monterey Institute of International Studies

*MORRIS, JOLIE  
Counselor  
A.A., Glendale Community College  
B.A., M.A., California State University, Los Angeles

*MORRIS, NALUCE  
Instructor of Psychology  
B.S., Federal University of Bahia  
M.P.H., Loma Linda University

*MORRIS, SANJA  
Instructor of Philosophy  
B.A., University of Belgrade  
M.A., California State University, Los Angeles

*MORTIMER-BOYD, SARA S.  
Instructor of English  
M.A., Loyola Marymount University

*MOSS, JR., FRANK H.  
Instructor of Computer Science/Information Systems  
A.S., Community College of San Francisco  
B.S., California State Polytechnic University, Pomona  
M.S., Claremont Graduate University

*MOTT, ROBERT W.  
Instructor of English as a Second Language, Continuing Education  
M.A., Biola University

*MOVSESYAN, ASHOT  
Instructor of Computer Science/Information Systems  
B.S., California State Polytechnic University, Pomona

MOVSESSIAN, NARINEH  
Instructor of Mathematics  
B.S., M.A., University of California, Los Angeles

*Adjunct Faculty
*MULDOON, JOANNE C.
Instructor of English as a Second Language, Continuing Education
B.A., Rosary Hill College
M.A., United States International University

*MULSKI, CLAIRE P.
Instructor of Biology
B.A., Trinity College, Dublin
M.A., Occidental College

*MYERS, ROBERT C.
Instructor of Physical Education
B.A., M.A., Azusa Pacific University

*NALBANDYAN, ZORAYR
Instructor of Mathematics
B.A., M.S., California State University, Los Angeles

*NALGRO, ANTHONY
Instructor of American Sign Language
B.A., California State University, Northridge

*NAUGE, MICHAEL
Instructor of English
B.A., M.A., University of San Diego

*NAVARRETE, CAROL
Instructor of English as a Second Language
M.A., University of Colorado

*NAVARRO, SANDRA
Instructor of English as a Second Language
B.A., University of California, Los Angeles
M.Ed., University of Maryland, College Park

*NAYARYAN, AREVIK
Instructor of Armenian
B.A., M.A., Yerevan State University

*NAYARYAN, ELMIRA
Instructor of English
B.A., M.A., Brown University

*NEBBIA GERARDO
Instructor of History
B.A., De La Salle University, Philippines
M.A., California State University, Los Angeles

*NELSON, DAVID J.
Program Manager/Director, International Recruitment & Outreach
B.S., M.A., Ohio University

*NELSON, MAURENE F.
Instructor of Speech Communication
B.A., M.A., California State University, Los Angeles

*NELSON, ROBERT W.
Instructor of Fire Technology
A.S., Coastline Community College
B.A., California State University, Long Beach

*NELSON, WENDY
Instructor of Nursing Science
A.S., Glendale Community College, California

*NEPOMUCENO, ROSARIO
Assistant Professor of Office Business Technology, Continuing Education
B.S., University of Santo Tomas, Philippines

*NEVINS, NANCY
Assistant Professor of English
A.A., Saddleback College
B.A., M.A., California State University, Fullerton

*NEWBERRY, LARRY
Associate Professor of Mathematics
B.S., M.S., Wichita State University

*NEWMAN, H. ROBERT
Instructor of Aviation and Transportation
B.S., University of Southern California
M.B.A., University of California, Los Angeles

*NEWTON, GREGORY P.
Instructor of Music
B.Mus., M.M., University of Southern California

*NGUYEN, GIA H.
Instructor of English
B.A., M.A., California State University, Northridge

*NICOLAES, ALEX
Instructor of English as a Second Language
M.A., California State University, Los Angeles

*NIELSEN, BARBARA L.
Instructor of Accounting
B.S., Portland State University
M.B.T., University of Southern California

*NIKOULOS, MARIANNE
Instructor of Computer and Business Office Technologies
B.A., DePaul University
M.B.A., University of Phoenix

*NISHIOKA, ALICIA N.
Instructor of English
B.A., M.A., University of California, Irvine

*NIVANS, DAVID B.
Instructor of Music
B.M., M.A., California State University, Long Beach
Ph.D., University of California, Los Angeles

*NOORI, PARIS
Professor, Counselor
B.S., Southern Illinois University, Carbondale
M.A., California State University, Los Angeles

*NOUR, AMIR
Instructor of Accounting
B.S., Accounting
M.B.A., Woodbury University

*NOWINSKI, STUART
Professor of Chemistry
B.S., M.S., California State University, Long Beach

*OBSATZ, SHARYA B.
Instructor of Mass Communications
B.A., Grinnell College
M.A., California State University, Fullerton

*ODUINRIN, ABI
Instructor of Accounting
M.P.P.N., Yale University

* Adjunct Faculty
OGANESYAN, ASMIK  
Instructor of Chemistry  
B.S., Yerevan State University, Armenia  
M.S., California State University, Los Angeles

OGANYAN, KARPIS  
Instructor of Mathematics  
B.A., Armenia State University  
M.S., California State University, Northridge

OGHAMIAN, SHIRLEY  
Instructor of Chemistry  
B.S., University of California, Los Angeles  
Ph.D., University of Southern California

OH, SORA  
Instructor of Mathematics  
B.S., California State University, Bakersfield  
M.S., California State University, Los Angeles

OHANIS, ARAM  
Instructor of Computer Aided Manufacturing  
A.S., Glendale Community College

*OKBAMICHAEL, MUSSIE  
Instructor of Physical Science  
Ph.D., State University of New York, Stony Brook

OKEYO, JOSEPH O.  
Instructor of Architecture  
B.A., M.A., California State University, Los Angeles

OLENIK, JANET L. S.  
Instructor of Lifelong Learning, Continuing Education  
A.A., Moorpark College  
B.F.A., Otis Art Institute  
M.A., California State University, Los Angeles

OLGIN, KIRK  
Instructor of English as a Second Language, Continuing Education  
B.A., M.A., California State University, Los Angeles

OLSON, JULIE ANN  
Instructor of Parent Education, Continuing Education  
B.A., M.A., University of California, Los Angeles

ONG, HAI T.  
Instructor of Mathematics  
B.S.E.E., M.S., California State University, Los Angeles

OPPENBERG, ELLEN  
Professor, Learning Disabilities Specialist  
B.A., California State University, Northridge  
M.A., California State University, Los Angeles

OROPEZA, CLARA  
Instructor of English  
B.A., M.A., California State University, Los Angeles

ORPELLI, CRESCENT  
Mental Health Counselor  
B.A., University of California, Los Angeles  
M.A., Antioch University

OSBURN, BILINDA M.H.  
Instructor of Culinary Arts  
A.S., Southwestern Michigan College  
B.A., California State University, Northridge

OSBOURNE, GREGORY A.  
Instructor of Physical Education  
B.A., California Lutheran University

OSMAN, DANIEL S.  
Instructor of English  
B.A., Wesleyan University  
M.A., California State University, Los Angeles

OTIM, OCHAN  
Instructor of Chemistry  
Ph.D., Wichita State University

OVSEPYAN, ARPINE  
Instructor of Developmental Skills, Continuing Education  
B.A., M.A., California State University, Northridge

OVSEPYAN, SARA S.  
Instructor of Computer Applications and Business Office Technologies  
B.S., California State University, Northridge

OWEN, ANTHONY R.  
Assistant Professor of Aviation and Transportation  
FAA Airframe and Powerplant Mechanic License, 
Commercial Pilot License, Airplane single and Multi-Engine Land Instrument Rating, I.A.

OWENS, DEBRA  
Instructor of Child Development  
B.S., M.S., University of California, Davis  
M.A., Ph.D., Fielding Gradel Institute, Santa Barbara

OWENS, DELORES  
Instructor of Mathematics  
B.S., Virginia Union University

PABLICO, VENEZA A.  
Instructor of English as a Second Language  
B.A., University of Oklahoma  
M.A., California State University, Los Angeles

PAGAN, SAIDA R.  
Instructor of English as a Second Language, Continuing Education  
B.A., Lehman College

PAL, POORNA  
Professor of Geology  
B.S., M.S., Ph.D., Osman University  
M.B.A., University of California, Riverside

*PALAZZOLO, ROBERT J.  
Instructor of Business Administration  
B.A., University of California, Los Angeles  
J.D., Southwestern University, School of Law

PANOSYAN ASLANYAN, KRISTINE  
Counselor  
B.S., M.S., California State University, Northridge

*PAPIENSKI, TIMOTHY  
Instructor of Speech Communication  
B.A., Sonoma State University  
B.A., M.A., San Francisco State University

*PARK, NOJUN M.  
Instructor of English as a Second Language  
B.A., M.A., Creighton University

PARKER, CATHERINE A.  
Instructor of Psychology  
B.A., M.A., California State University, Northridge

PARKER, JENNIFER K.  
Instructor of English as a Second Language, Continuing Education  
B.A., University of California, Santa Barbara

*Adjunct Faculty
PARKER, RANDAL
Instructor of Philosophy
B.A., University of British Columbia
M.A., Ph.D., University of California, Berkeley

*PARKER, STEVEN W.
Instructor of Sociology
B.A., M.A., California State University, Los Angeles

PARKS, LEE MILLER
Professor of Adapted Physical Education
B.S., M.S., University of New Mexico
Ph.D., University of Southern California

*PATTERSON, JASON M.
Instructor of Physical Education
B.A., M.A., University of Arizona
M.A., Prescott College

*PATYKANYAN, YURI
Instructor of Mathematics
Ph.D., Tbilisi State University, Russia

*PAVENICK, ALEXIS L.
Instructor of English
M.A., California State Polytechnic University, Pomona

PAVONICA, MARIJA
Instructor of English
B.A., M.A., San Francisco State University

*PAVONICA, MARIJA
Instructor of English
B.A., M.A., San Francisco State University

*PAYAN, ROSE-MARIE
Instructor of Economics
B.A., University of California, Davis
M.A., University of California, Santa Barbara

*PEHLIVANOVA, MARIA E.
Instructor of English as a Second Language
M.A., California State Polytechnic University, Pomona
M.A., M.S., St. Kliment Ohridski, Sofia University, Bulgaria

*PEKKALA FLAGAN, AULIKKI T.
Instructor of Physical Science
B.S., California State Polytechnic University, Pomona
M.A., California State University, Northridge

*PELL, STEVE
Instructor of English as a Second Language
B.A., M.A., California State University, Los Angeles
M.A., California State Polytechnic University, Pomona

*PELTIER, CRAIG
Instructor of Fire Technology
A.S., College of the Canyons

*PERERA, RANMALEE A.
Instructor of English as a Second Language
B.A., M.A., California State University, Long Beach

*PEREZ, AGATHA I.
Instructor of Photography
B.A., Art Center College of Design

*PEREZ, DILCIA M.
Instructor of English as a Second Language, Continuing Education
B.A., University of Southern California
M.A., California State University, Los Angeles

PEREZ, RICARDO
Vice President, Student Services
B.A., University of California, Los Angeles
M.A., California State University, Dominguez Hills
Ed.D., University of California, Los Angeles

PEREZ-GIRARDI, MARIA LOURDES
Associate Professor of Spanish
B.A., University of Puerto Rico
M.A., University of California, Los Angeles

PERKINS, GREGORY
Counselor, Extended Opportunity Program and Services
B.A., California State University, Long Beach
M.A., California State University, Dominguez Hills

*PERKINS, KAREN K.
Instructor of Biology
M.S., North Carolina State University, Raleigh
M.S., Ph.D., Albert Einstein College of Medicine, New York

PERRY, JEAN
Division Chair, Language Arts
Associate Professor of Speech Communication
B.A., M.A., University of Southern California

*PETERTON, MAUREEN A.
Instructor of Psychology
B.A., Fairleigh Dickinson University
M.S., Villanova University
Ph.D., New York University

PETROS, JOHN MICHAEL
Associate Professor of Media Arts
B.A., Western Illinois University
M.A., California State University, Northridge

*PETROSY, VARTAN
Instructor of Aviation and Transportation

*PFLUEGER, BETHANY ANN
Professor of Music
B.M., Capital University
M.M., Baylor University

*PHARES, D’ART D.
Instructor of History
B.A., Pepperdine University
M.A., University of California, Los Angeles

PHENG, NIK
Instructor of Fire Technology
B.S., California State University, Long Beach

*PHILIBOSIAN, RICHARD
Instructor of Health Sciences
B.A., M.A., Stanford University
Ph.D., University of California, Riverside

*PHILLIPS, CLAIRE
Instructor of English
B.A., San Francisco State University
M.A., New York University

*PIETRZAK, JAN P.
Assistant Professor of Developmental Skills, Continuing Education
B.A., New England College
M.A., California State University, Dominguez Hills

*PODGORSKI, LEIGH
Assistant Professor of Developmental Skills, Continuing Education
B.A., New England College
M.A., California State University, Dominguez Hills

*POGOSYAN, ANDRANIK
Instructor of Spanish
B.S., M.A., University of California, Los Angeles

POORE, MARK
Instructor of Art
A.A., Glendale Community College

* Adjunct Faculty
POPE, ETHAN  
Instructor of Mathematics  
B.S., University of Michigan  
M.S., Michigan State University

POPOVA, BILIANA K.  
Instructor of Ceramics  
B.F.A., M.A., National Art Academy, Bulgaria

PORTER, ROGER H., JR.  
Instructor of Ceramics  
B.A., University of Texas, Austin  
M.F.A., University of Arizona

POSADA, ANTHONY J.  
Instructor of English as a Second Language, Continuing Education  
B.A., University of California, Los Angeles

PORTER, ALFRED  
Instructor of English as a Second Language, Continuing Education  
M.A., School for International Training, VT

POTTER, CURTIS  
Instructor of Aviation and Transportation

POTTER, MALCOLM  
Instructor of Sociology  
B.A., California State University, Northridge  
M.A., California State University, Los Angeles

POVILAITIS, CARL A.  
Instructor of Administration of Justice  
A.S., Monterey Peninsula College  
B.S., California State University, Fresno  
M.P.A., University of Southern California

POTTER, MALCOLM  
Instructor of Sociology  
B.A., California State University, Northridge  
M.A., California State University, Los Angeles

PRA, DENIS D.  
Instructor of French  
M.A., Université Bordeaux III  
M.A., Université Grenoble III

PRAVVA, AMARNATH V.  
Instructor of English  
B.A., University of California, Berkeley  
M.F.A., California Institute of the Arts

POYNTER, JAMES  
Instructor of Speech Communication  
A.A., Glendale Community College  
M.F.A., American Conservatory Theatre Foundation

QIAN, WEI  
Instructor of English as a Second Language, Continuing Education  
B.A., M.A., Hangzhou University

QUAST, DEBRA  
Librarian  
M.L.S., California State University, Fullerton  
M.Ed., Azusa Pacific University

QUEEN, JOHN  
Professor of Political Science  
B.A., University of Maryland  
M.A., Ph.D., University of California, Los Angeles

RAFII, ROXANNE  
Counselor, Extended Opportunity Programs & Services  
B.A., M.A., California State University, Los Angeles

RAMirez, Alfred  
Associate Dean, Continuing and Community Education  
B.S., M.S., California State University, Los Angeles

RAMirez, Michelle Ann B.  
Instructor of Nursing Science  
B.S., M.S., California State University, Los Angeles

RAMMATH, JAMUNA R.  
Instructor of Chemistry  
B.S., M.S., Ph.D., Madras University, India

RAMOS, HAZEL  
Instructor of History  
A.A., Glendale Community College  
B.A., California State Polytechnic University, Pomona  
M.A., California State University, Los Angeles

RAMSEYER, ALBERT  
Assistant Professor of Real Estate  
B.A., University of California, Davis  
M.S.B.A., Boston University  
M.A., University of Southern California  
J.D., Loyola Law School

RANCOHE, PRUDENCIO C.  
Associate Professor of Nursing Science  
B.S., Far Eastern University  
M.S., California State University, Fresno

RANDEL, MELISSA R.  
Instructor of Theatre Arts  
B.A., University of California, Irvine  
M.A., California State University, Long Beach

RAVVA, AMARNATH V.  
Instructor of English  
B.A., University of California, Berkeley  
M.F.A., California Institute of the Arts

RECTOR, HARRIETT N.  
Instructor of Office Business Technology, Continuing Education  
B.A., Davis & Elkins College

REILLY, MICHELLE  
Instructor of Parent Education, Continuing Education  
B.A., San Diego State University

REED, LOYD W.  
Instructor of Business Administration  
B.A., LL.B., University of Southern California

REED, MICHAEL  
Assistant Professor of Geography  
B.A., Brown University  
M.A., San Diego State University

REEF, BRIAN C.  
Instructor of Culinary Arts  
B.S., University of California, Davis

RELLING, WILLIAM  
Instructor of English  
B.A., University of Missouri, St. Louis  
M.F.A., University of Southern California

Rennr, Marguerite  
Professor of History  
B.A., M.A., Ph.D., University of Pittsburgh

Reno, Fred B.  
Assistant Professor of Administration of Justice  
B.S., California State University, Los Angeles  
M.P.A., University of Southern California

Revesz, Eva B.  
Instructor of German  
B.A., Wayne State University  
M.A., University of Munich  
Ph. D., Cornell University

*Adjunct Faculty

  Assistant Professor of English as a Second Language
  B.A., Indiana University
  M.A., California State University, Los Angeles

RUSSELL, ELIZABETH
  Professor of Mathematics
  B.S., M.S., University of North Texas

*RYAN ROMO, AMANDA J.
  Instructor of English
  B.A., M.A., California State University, Los Angeles

*RYAN, SUSAN M.
  Instructor of English as a Second Language, Continuing Education
  B.A., California State University, Fullerton
  M.A., University of California, Los Angeles

*SAAD, HOSNY Y.
  Instructor of Chemistry
  Ph.D., University of Michigan

SABER, ISABELLE
  Assistant Professor of Mathematics
  B.S., M.A., University of California, Los Angeles

*SAE, ANDY
  Instructor of Chemistry
  B.S., M.S., Ph.D., Kansas State University

*SAHAKIAN, MARI N.
  Instructor of English as a Second Language, Continuing Education
  B.S., University of California, Los Angeles
  M.A., California State University, Los Angeles

SAHAKYAN, GARNIK
  Instructor of Armenian
  M.A., Yerevan State University

ST. AMA, CARYL
  Instructor of Art
  B.F.A., Southwest Texas State University
  M.F.A., Claremont Graduate School

*ST. AMAND, EILEEN G.
  Instructor of English as a Second Language, Continuing Education
  B.A., Seton Hall University
  M.Ed., Loyola Marymount University

*SALAZAR, JR., BENJAMIN C.
  Instructor of Alcohol/Drug Studies
  B.A., University of California, Los Angeles
  M.S., California State University, Los Angeles

*SALAZAR, CRISTINA
  Instructor of English as a Second Language
  B.A., M.A., California State Polytechnic University, Pomona

*SALDANA, MIRTHA
  Instructor of Spanish
  B.S., M.S., Federico Villarreal National University, Peru

*SALENTO, MARK
  Instructor of English
  B.A., M.A., Columbia University

*SANDE, ROSE
  Instructor of Developmental Skills
  M.A., Point Loma University

*SANCHEZ, SALVADOR
  Instructor of Political Science
  M.A., California State University, Northridge

*SANCHEZ-GALLEGO, LORENA
  Instructor of Spanish
  B.A., B.A., M.A., Arizona State University

*SANORA, PATRICIA A.
  Assistant Professor of Alcohol/Drug Studies
  M.A., Pacific Oaks College

*SAPORITO, JOANNA
  Instructor of Sociology
  B.A., University of California, Los Angeles
  M.S.W., University of Southern California

*SARIO, KATHERINE
  Assistant Professor of English as a Second Language, Continuing Education
  B.A., California State University, Los Angeles

*SARKISSIAN, HASMIK
  Instructor of Computer Applications and Business Office Technologies
  A.S., Glendale Community College
  B.S., California State University, Northridge

*SAUNDERS, RICHARD W.
  Instructor of Lifelong Learning, Continuing Education
  B.S., California State University, Los Angeles
  M.A., Point Loma University

*SCHAEFFER, RON
  Instructor of English
  B.A., M.A., California State University, Chico

*SCHANDER, MARY L.
  Instructor of Developmental Skills
  B.A., California Lutheran University
  M.A., University of California, Los Angeles

*SCHILICH, MICHAEL
  Instructor of English
  B.A., Marquette University
  M.F.A., University of Southern California

SCHLOSSMAN, PAUL A.
  Dean, Student Affairs
  B.S., M.P.A., San Diego State University
  Ed.D., University of California, Los Angeles

SCHLUETER, RORY
  Instructor of Computer Science/Information Systems
  B.S., University of Southern California
  M.S., National University

*SCHUCK, ROBERT
  Instructor of Developmental Skills, Continuing Education
  B.S., M.S., State University of New York
  B.A., California State University, Northridge
  Ph.D., University of Southern California

SCHULTEN, CHARLOTTE
  Assistant Professor of Mathematics
  B.S., University of Chicago
  M.S., California Institute of Technology

*Adjunct Faculty
SCHUMACHER, AXELA  
Instructor of English  
B.A., Royal Melbourne Institute of Technology  
Ed.Sp., M.S., Nova Southeastern University

*SCHWARTZ, JASON J.  
Instructor of Chemistry  
B.S., California State University, Los Angeles  
Ph.D., Purdue University  
J.D., Franklin Pierce Law Center, New Hampshire

*SCHWENKMEYER, KAREN A.  
Instructor of Photography  
B.A., University of California, Santa Cruz  
M.F.A., California Institute of the Arts

*SCONDUTO, DAVID  
Instructor of English as a Second Language  
M.A., California State University, Los Angeles

*SCOTT, MICHAEL D., JR.  
Assistant Professor of Accounting  
A.A., Glendale Community College  
B.S., California State University, Los Angeles  
M.S., Golden Gate University

*SCOTT, GREGORY  
Instructor of Computer Science/Information Systems  
B.S., M.S., Washington University

*SCOTT, JEAN  
Instructor of GED, Continuing Education  
B.S., California State University, Los Angeles  
M.B.A., University of Southern California

*SELINSKE, TOM G.  
Instructor of Business Administration  
B.S., California State Polytechnic University, Pomona  
M.B.A., Pepperdine University

SALTER, RICHARD  
Professor of English as a Second Language  
B.A., M.S., State University of New York, Albany  
C.Phil., University of Southern California

SERRA, LINDA  
Division Chair, Business  
Professor of Computer Applications and Business Office Technologies  
B.V.Ed., M.A., California State University, Los Angeles

*SHADE, STEPHEN  
Instructor of English  
B.S., Millersville University  
M.A., Villanova University  
M.F.A., University of Iowa

*SHAHINJAN, ARAKAR  
Instructor of English  
B.A., University of Baghdad  
M.A., American University of Beirut

*SHAHNAZARIAN, PATRICK  
Instructor of Electronics and Computer Technology  
B.S., Islamic Azad University

SHAMHART, WILLIAM MICHAEL  
Professor of Mathematics  
B.S., University of California, Davis  
M.A., Sonoma State University

SHAMIEH, ROSEMARIE  
Instructor of Office Business Technology, Continuing Education  
B.A., California State University, Los Angeles  
M.B.A., University of Phoenix

*SHANNON, MARY  
Instructor of English  
B.A., University of California, Santa Barbara  
M.A., California State University, Northridge

SHEFFEY-STINSON, SANDI  
Instructor of Computer Applications and Business Office Technologies  
B.S., Ohio State University  
M.S., Azusa Pacific University  
M.A., Ph.D., Kent State University

*SHEHEEH, TANEKA  
Instructor of Ethnic Studies  
B.A., Hampton University  
M.A., University of California, Los Angeles

*SHERMAN, JAMES H.  
Librarian  
M.L.I.S., San Jose State University

*SHERMAN, PAUL JON  
Instructor of Music  
B.F.A., California Institute of the Arts  
M.F.A., D.M.A., University of Southern California

*SHEHEE, TANEKA  
Instructor of Ethnic Studies  
B.A., Hampton University  
M.A., University of California, Los Angeles

*SHERMAN, RACHEL  
Instructor of English  
B.A., University of California, Los Angeles  
M.S., Golden Gate University

*SHERMAN, RICHARD  
Instructor of Business Administration  
B.S., California State Polytechnic University, Pomona  
M.B.A., University of Phoenix

*SHROYER, KRISTINA  
Instructor of Business Administration  
B.B.A., University of Iowa  
M.S., California State University, Northridge

*SIEGRIST, ESTHERA G.  
Instructor of English as a Second Language, Continuing Education  
B.A., M.A., California State Polytechnic University, Pomona

*SIEMON-BURGESON, MARILYN M.  
Instructor of Child Development  
B.A., University of Redlands  
M.A., Pacific Oaks College

*SILVERIO, VALERIE K.  
Instructor of English as a Second Language, Continuing Education  
B.A., California State University, Northridge  
M.A., Soka University

*SILVESTRINI LOVETT, MELISSA  
Instructor of English as a Second Language, Continuing Education  
B.A., University of California, Santa Barbara  
M.A., California State University, Los Angeles

*SIMON, JENNY L.  
Instructor of English as a Second Language, Continuing Education  
B.A., M.A., University of California, Santa Cruz

SIMON-ROSS, CELIA  
Professor of Spanish  
B.A., Mount Saint Mary’s College  
M.A., University of California, Los Angeles

*SIMONDS, CELIA  
Instructor of Ethnic Studies  
B.A., M.A., California State University, Los Angeles  
M.A., University of California, Santa Barbara

*SIMPSON, RICCARDO J  
Instructor of English  
B.A., M.F.A., Minnesota State University Moorhead

*SIMPSON, STEVIE  
Instructor of Office Business Technology, Continuing Education  
B.S., Arizona State University

*SINCLAIRE, MAHARA T.  
Instructor of Art  
B.A., University of California, Davis  
M.F.A., California State University, Los Angeles

* Adjunct Faculty
SING, SUSAN FONG  
Instructor of Art  
A.A., Modesto Junior College  
B.A., California State College, Stanislaus  
M.A., California State University, San Francisco  

SINGH-BISCHOFBERGER, SURANA K.  
Instructor of Art  
B.A., University of California, Santa Cruz  
M.S., Pratt Institute, New York  

Slaughter, Adele F.  
Instructor of English  
B.A., University of Maryland  
M.F.A., Columbia University  

SMITH, ANTHONY C.  
Instructor of Speech Communications  
M.A., B.A., California State University, Los Angeles  

SMITH, FRANKLIN R.  
Instructor of Psychology  
M.A., Pepperdine University  

SMITH, JEFFREY  
Instructor of Speech Communication  
B.A., University of Southern California  
M.A., The Catholic University of America  

SMITH, KIMBERLY C.  
Instructor of American Sign Language  
B.A., California State University, Northridge  

SMITH, MICHELE  
Instructor of American Sign Language  
B.A., M.A., California State University, Northridge  

SMITH, NICK  
Instructor of Speech Communication  
B.A., Sussex University, United Kingdom  
M.Phil, Cambridge University, United Kingdom  
M.A., Pepperdine University  

SMITH, RYAN L.  
Instructor of Speech Communication  
M.A., California State University, Long Beach  

SMITH, TIMOTHY  
Instructor of Astronomy  
M.S., California State University, Hayward  

SNYDER, JAY R.  
Instructor of Music  
B.M., M.A., University of Southern California, Los Angeles  
M.A., Boston University  

SOHRABIAN, SEVAK  
Instructor of Real Estate  
B.S., University of Redlands  

SOMERS, JAMES M.  
Instructor of Astronomy  
B.S., M.S., California State University, Northridge  

SON, JANET BYUN  
Instructor of Biology  
A.B., Stanford University  
M.S., University of California, Los Angeles  

SON, KATHRYN  
Instructor of English as a Second Language, Continuing Education  
B.A., Pepperdine College, Los Angeles  
M.A., California State University, Los Angeles  

SOWBY, RUTH A.  
Professor of English  
B.A., University of California, Los Angeles  
M.A., Ed.D., University of Southern California  
M.F.A., American Film Institute  
M.A., California State University, Los Angeles  

SPANGLER, DIANNE M.  
Professor of Physical Education  
B.A., M.A., California State University, Los Angeles  

SPANGLER, SALLY M.  
Instructor of Office Business Technology, Continuing Education  
B.A., California State University, Long Beach  
M.A., California State University, Los Angeles  

SPARANO-QUICK, MARISA A.  
Instructor of English  
M.A., The College of New Jersey  

SPRADLEY, CHRISTOPHER P.  
Instructor of English  
B.A., University of California, Irvine  
M.A., University of California, Davis  

SPRADLIN, LAURA F.  
Instructor of English as a Second Language  
M.A., California State University, Northridge  

SPRITZER, TERRIE R.  
Instructor of Developmental Skills, Continuing Education  
B.A., California State University, Northridge  
M.A., California School of Professional Psychology  
M.S. Ed., University of Southern California  

STACH, MURRAY  
Counselor  
B.S., University of Wisconsin-Green Bay  
M.A., Pepperdine University  
M.S., California State University, Northridge  

STAMBLER, LYNDON S.  
Instructor of Journalism  
A.M., A.M., Stanford University  

STARK, ANDREA  
Assistant Professor of Speech Communication  
M.F.A., Northern Illinois University  

STARK, SIDNEY J.  
Football Coach, Assistant Professor of Physical Education  
B.S., Westminster College of Salt Lake City  
M.A., California Lutheran University  

STARKE, DIANNE  
Instructor of English as a Second Language, Continuing Education  
B.A., University of California, Berkeley  
M.A., University of San Francisco  

STATHIS, PETER A.  
Division Chair, Mathematics, Associate Professor of Mathematics  
B.A., Colgate University  
M.A., Claremont Graduate School  

STAYTON, RICHARD  
Instructor of English  
B.A., M.F.A., San Francisco State University  

STEINBERG, REBECCA LILA  
Instructor of English as a Second Language, Continuing Education  
B.A., M.A., California State University, Northridge  

STEPHENSON, MAURICE  
Instructor of Chemistry  
B.Sc., University of District of Columbia  
M.Sc., Howard University  
Ph.D., University of Southern California  

STERNAU, PATRICIA S.  
Professor of Art  
B.A., De Pauw University  
M.F.A., University of Southern California  

STERN, ELLEN  
Assistant Professor of Art  
B.A., University of Oregon  
M.M., University of Southern California  
Ph.D., University of California, Los Angeles  

STERN, TED  
Professor of Music  
B.A., University of Oregon  
M.M., University of Southern California  
Ph.D., University of California, Los Angeles  

*Adjunct Faculty
*STEVENS, JOANNE C.  
Assistant Professor of English as a Second Language  
A.A., Los Angeles City College  
B.A., M.A., California State University, Los Angeles

*STEVenson, William R.  
Instructor of English  
B.A., M.A., California State University, Northridge

*STewart, Fiona E.  
Instructor of Child Development  
M.A., Pacific Oaks College

*STewart, Hollie N.  
Instructor of English  
A.A., Glendale Community College  
B.A., M.A., California State University, Northridge

STIRDIVANT, JENNETTE  
Division Chair, Student Services, Counselor  
Professor of Student Development  
B.A., M.S., California State University, Los Angeles

*STIVENER, MATTHEW  
Instructor of English as a Second Language  
B.A., M.A., University of California, Davis

*STOCKLY, JANE  
Instructor of Parent Education, Continuing Education  
B.A., Pacific Oaks College

*STOLZ, PHILIPP L.  
Instructor of English as a Second Language, Continuing Education  
M.A., University of Illinois

*STRATTON, SEAN  
Instructor of English  
B.A., M.A., California State University, Northridge

*STREIMER, RITA  
Instructor of Lifelong Learning, Continuing Education  
M.A., Brooklyn College

*STUNTZ, LORI A.  
Instructor of Music  
B.A., San Jose State University  
M.M., D.M.A., University of Southern California

*SURENYAN, TATYANA  
Instructor of English  
B.A., M.A., California State University, Northridge

*SWAN, T.V.  
Instructor of Dance  
M.F.A., University of California, Los Angeles

*SWEENEY, CAROLINE F.  
Instructor of Developmental Skills, Continuing Education  
B.A., University of California, Berkeley  
M.A., M.A., Azusa Pacific University

SWINTON, JAN  
Associate Dean, Instructional Services & Workforce Development  
B.A., San Diego State University  
M.S., California State University, Los Angeles

*SYNONDINOS, DIMITRIOS J.  
Instructor of Political Science  
B.A., M.A., California State University, Northridge

*TABAJONDA, LUZ D.  
Instructor of Nursing Science  
M.S.N., University of Phoenix

*TAGHDIS, MOHAMMAD  
Associate Professor  
Counselor, Continuing Education  
B.S.M.E., University of Akron  
M.B.A., West Coast University  
M.S., National University

*Taira, Kenneth M.  
Instructor of Computer Science Information Systems  
B.S., University of California, Berkeley  
M.S., University of Southern California

*TALAOc, JEREMY J.  
Instructor of Mathematics  
B.A., University of California, Los Angeles  
M.S., California State University, Northridge

*TANAKAYA, RUSSELL M.  
Instructor of Hotel Restaurant Management  
B.S., University of Houston

*TANGALOS, GEORGE  
Instructor of Mathematics  
B.A., University of California, Los Angeles  
M.S., California State University, Northridge

*TANNENBAUM, DEBORAH  
Instructor of English as a Second Language, Continuing Education  
B.A., University of California, Los Angeles  
M.A., California State University, Los Angeles

*TANNENBAUM, RICHARD  
Instructor of English  
B.A., M.A., California State University, Northridge

*TARNELLI, TINA  
Instructor of English as a Second Language, Continuing Education  
A.A., Glendale Community College  
B.A., California State University, Northridge  
M.A., School for International Training

TASHIRO, JENNETTE  
Director, Child Development Center  
A.A., East Los Angeles College  
B.A., California State University, Los Angeles  
M.A., Pacific Oaks College

TATSUGAWA, SHIHOKO  
Instructor of Japanese  
B.A., Meiji Gakuin University, Tokyo  
M.S., California State University, Los Angeles

TAYLOR, ROBERT J.  
PACE Director, Director of Cooperative Education  
A.B., Beloit College  
M.S., California State University, Los Angeles

TAYLOR, ROBERT S.  
Professor of English  
A.B., University of California, Los Angeles  
M.F.A., Vermont College  
M.A., Claremont College

*TAYO, MARIA JOSEFINA  
Instructor of Nursing Science  
B.S.N., University of the East, Manila

*TELLIYAN, ARMENUI M.  
Instructor of Nursing Science  
M.S.N., University of Phoenix

*TENENBAUM, LAURA FAYE  
Instructor of Oceanography  
B.A., University of California, Santa Cruz

*TERRONES, CHRISTINE A.  
Instructor of Nursing Science  
B.S.N., California State University, Northridge

*TERRY ANDREA E.  
Instructor of Nursing Science  
B.S.N., Consortium of the California State University  
M.S.N., University of Phoenix

*TERRY, JENNY L.  
Instructor of Nursing Science  
B.S.N., California State University, Northridge  
M.A., University of California, Los Angeles

THAI, SHELLEY  
Instructor of Biology  
B.Sc., Ph.D., University of California, Los Angeles

*THOKE, CLAIRE B.  
Instructor of Office Business Technology, Continuing Education  
B.A., M.A., California State University, Los Angeles

* Adjunct Faculty
*THOMAS, DEBORAH B.
Instructor of Art
B.A., University of Michigan
M.A., University of Pennsylvania

*THOMAS, PAMELA A.
Instructor of Nursing Science
B.S.N., California State University, Dominguez Hills

*THOMPSON, DEBRA K.
Instructor of Art
M.A., California State University, Northridge
M.N., University of Washington

THOMPSON, INGER
Associate Professor of Psychology
B.A., University of California, Irvine
M.A., San Francisco State University

*THOMSEN, CAROL
Instructor of Parent Education, Continuing Education
B.S., University of Alaska

*THORNBURG, GINA K.
Instructor of Geography
B.A., B.S., University of Kansas
M.A., California State University, Northridge

*THORPE, THOMAS E.
Assistant Professor of Astronomy
B.A., M.A., University of California, Los Angeles

*THUENTE, TERRI L.
Instructor of Journalism
B.A., California State University, Fullerton

TIERMAN, MONETTE
Assistant Professor of English
B.A., California State University, Los Angeles
M.A., Ph.D., University of Pittsburgh

*TILESTON, THOMAS R.
Instructor of Economics
B.A., University of Missouri
M.A., California State University, Long Beach

TIRMAN, DANIEL
Instructor of English as a Second Language
B.A., M.A., Hunter College of CUNY

*TOMASEK, PAUL H.
Instructor of Biology
B.S., University of North Dakota
Ph.D., University of Minnesota

*TOMLINSON, GRACE
Instructor of English as a Second Language
B.A., University of California, Los Angeles
M.A., University of Southern California

*TORIO, THELMA
Instructor of English as a Second Language, Continuing Education
B.A., M.A., Philippine Union College

TORRES, FABIOLA
Instructor of Ethnic Studies
B.A., M.A., California State University, Northridge

*TOVMASIAN, HASMIK
Instructor of English as a Second Language, Continuing Education
B.A., Yerevan State University
M.A., California State University, Los Angeles

*TRAN, BETTY NGOC BAO
Instructor of English as a Second Language
B.A., University of California, Los Angeles
M.A., California State University, Los Angeles

*TREMPE, MARK W.
Instructor of English as a Second Language
B.A., University of California, Davis
M.A., University of Texas at Arlington

*TRONCALE, ANDY M.
Instructor of Fire Technology
B.S., California State University, Long Beach

*TSENG, TIN-YU
Instructor of English as a Second Language
M.A., Ph.D., University of Southern California

*TSOU, KALEUNG
Instructor of
B.S., DeNey University
M.B.A., Keller Graduate School of Management

TSUYUKI, MAKOTO
Professor of Ethnic Studies
B.A., M.A., California State University, Los Angeles

*TSVIKYAN, ALVARD
Instructor of
M.A., Yerevan State University
B.S., M.S., Yerevan Polytechnic Institute

*TUDMAN, KARI L.
Instructor of English as a Second Language
B.A., University of California, Los Angeles
M.S., University of Southern California

*TUCKER, CONNIE
Instructor of English as a Second Language
B.A., Australian National University
M.A., University of California, Los Angeles

*TURNER, NANCY K.
Assistant Professor of Art
B.A., Queens College, Flushing, New York
M.A., University of California, Berkeley

*UENO, BRUCE E.
Instructor of Culinary Arts
M.B.A., Pepperdine University

*UNGERMANN-MARSHALL, MARY
Instructor of Lifelong Learning, Continuing Education
M.A., California State University, Dominguez Hills

*UZUNYAN, ALVARD
Instructor of Armenian
M.A., Yerevan State University

*VACAS, FERNANDO
Instructor of Office Business Technology, Continuing Education
B.S.E.E., California State Polytechnic University, Pomona

*VADMAN, ROBERTA
Instructor of Parent Education, Continuing Education
B.A., M.S., California State University, Northridge

*VALE, TIM
Instructor of Nursing Science
B.S., M.S., California State University, Northridge

*VALDEZ, JOHN D.
Instructor of English as a Second Language
B.A., University of Redlands
M.A., California State University, Los Angeles

*VALENTINE, MARY E.
Instructor of Sociology
B.A., M.A., California State University, Northridge

VALLICELLA, PHILIP
Professor of English
B.A., University of California, Santa Barbara
M.A., University of Michigan

*VAN VLEAR, EVERETT
Instructor of Office Business Technology, Continuing Education
B.S., University of California, Los Angeles

*VANDER BORGHT, JILL A.
Instructor of Business Administration
B.A., University of California, Los Angeles
J.D., University of Southern California

*Adjunct Faculty
*VAN HOUTEN, KEVIN W.
Instructor of English as a Second Language
B.A., California State Polytechnic University, San Luis Obispo
M.A., California State University, Los Angeles

*VARDA NYAN, VAGARSHAK
Instructor of Mathematics
Ph.D., University of California, Los Angeles

VAUGHN, KIRK
Instructor of English as a Second Language
B.A., Middlebury College
M.Ed., University of California, Los Angeles

*VEATCH, DOUGLAS S.
Instructor of English as a Second Language, Continuing Education
B.A., Whittier College, CA
M.A., Indiana University

*VEGA, ANGELICA A.
Instructor of English as a Second Language
M.A., California State University, Los Angeles

*VELEZ, EVELYN M.
Instructor of English as a Second Language, Continuing Education
B.A., Iona College, New York
M.S., Long Island University

*VENIER, DANIEL
Assistant Professor of English as a Second Language
B.S., Loyola Marymount University
M.A., California State University, Los Angeles

VERA, PAUL
Instructor of English as a Second Language
B.A., University of California, Los Angeles
M.A., California State University, Los Angeles

*VERMA, RAJESHWAR P.
Instructor of Chemistry
B.Sc., M.Sc., Ph.D., Magadh University

VERSTRAETE, ANDRA
Program Manager, Student Employment Services
B.A., Antioch University
M.P.A., California State University, Northridge

*VESCELUS, CARMELINDA V.
Instructor of Home Arts, Continuing Education
B.S., Oregon State University

*VICKERS, BRIAN R.
Instructor of Office Business Technology, Continuing Education
M.S., Azusa Pacific University
M.B.A., Woodbury University
J.D., Loyola Law School

*VILLALO BOS, ANA L.
Instructor of Nursing Science
A.S., Glendale Community College
B.S., University of La Verne

*VILLEGAS CAMPBELL, MARIA ELENA
Instructor of Spanish
M.S., University of California, Davis

VIRANI, FIONA
Instructor of Nursing Science
B.S.N., M.S.N., University of California, Los Angeles

*VISCUN, MARINA
Instructor of Political Science
B.A., M.A., East Carolina University
M.A., University of Connecticut

VODEN, THOMAS
Instructor of Mathematics
B.S., University of California, Riverside
M.A., Ph.D., University of California, San Diego

*WALERSTEIN SIBONY, MARCIA
Instructor of English as a Second Language, Continuing Education
B.A., Indiana University
M.A., University of California, Berkeley
Ph.D., University of California, Los Angeles

*WANG, EILEEN Y.
Instructor of English as a Second Language
B.A., University of California, Irvine
M.A., California State University, Los Angeles

*WARE, ADRA
Assistant Professor of English as a Second Language
B.A., California State University, Los Angeles

*WASHBURN, NANCY
Instructor of Child Development
B.A., M.A., California State University, Los Angeles

*WASZAK, LEON J.
Assistant Professor of History
B.A., M.A., California State University, Los Angeles
Ph.D., University of Southern California

WATANABE, JOAN
Instructor of Photography
A.A., Mt. San Antonio College
B.F.A., University of Southern California
M.F.A., Claremont Graduate School

*WATANABE, KIMIYO
Instructor of Japanese
B.F.A., M.F.A., Tokyo National University of Fine Art and Music

*WATKINS, VITA M.
Instructor of English
B.A., M.A., California State University, Los Angeles

*WATTS, LARRY
Instructor of English as a Second Language, Continuing Education
B.A., M.A., California State University, Fullerton

*WEAVER, ROBERT
Assistant Professor of Art
B.A., M.F.A., Otis Art Institute

*WEBER, MERARI LISSETH
Instructor of English as a Second Language
B.A., M.A., California State University, Los Angeles

*WEESE, STEPHEN
Instructor of Office Business Technology, Continuing Education
B.S., George Mason University
M.S., Regis University

*WEI, YUAN-BANG JOSEPH
Instructor of English as a Second Language
B.A., Soochow University

*WESBECK, DANIEL J.
Instructor of English as a Second Language
B.A., M.A., University of Northern Colorado

*WEISBERG, ALESSIA N.
Instructor of Italian
B.A., M.A., University of California, Los Angeles

WELDEN SPITZE, PAMELA J.
Program Manager, Professional Development Center
B.A., University of Washington
M.A., California State University, Northridge

*WESSEL, MARK
Instructor of Art
B.A., University of California, Los Angeles
B.F.A., M.F.A., University of Utah

WEISENBUERGER, KAREN
Assistant Professor of Nursing Science
B.S.N., M.S.N., University of California, Los Angeles

*WHALEN, LUCILLE
Librarian
B.A., M.A., Catholic University of America
D.L.S., Columbia University

*WILLIAMS, MICHAEL
Professor of English
A.B., M.A., University of California, Los Angeles

* Adjunct Faculty
*WHITE, C. TODD  
Instructor of English  
B.A., University of Nebraska, Lincoln  
M.A., University of Missouri, Kansas City  
M.A., University of Nevada, Las Vegas

*WHITE, TRAVONT D.  
Instructor of Fire Technology

*WILDER, DAVID  
Women's Softball Coach, Instructor of Physical Education  
B.S., Oregon State University

*WILKE, AMY  
Instructor of Culinary Arts  
B.S., M.S., Arizona State University

*WILHIDE, MELANIE A.  
Instructor of Photography  
A.A., Manchester Technical College, Connecticut  
B.F.A., Rhode Island School of Design  
M.F.A., Yale University

*WILLIAMS, J. GREG  
Instructor of English  
B.A., Arizona State University  
M.A., California State University, Los Angeles

*WILLIAMS, JACQUELINE S.  
Instructor of Psychology  
B.S., Tuskegee University  
M.S., Cal Lutheran University  
Psy.D, Calif. School of Professional Psychology

WILLIAMS, RICHARD L.  
Professor of Political Science  
B.A., M.A., San Jose State University

*WILLIS, LEONORA I.  
Instructor of English  
B.A., San Francisco State University

*WILSON, BYNELL  
Instructor of English as a Second Language  
B.A., M.A., California State University, Sacramento

*WILSON, MICHAEL A.  
Instructor of Fire Technology  
A.S., Mount San Antonio College

*WING, HARLEY A.  
Instructor of Administration of Justice  
A.A., Glendale Community College  
B.S., California State University, Long Beach

*WINTERFIELD, MARY  
Instructor of English as a Second Language  
B.S., University of Wisconsin, Madison  
M.S., Universidad del Zulia, Venezuela

WITT, GEORGE J.  
Professor of Mathematics  
B.A., University of California, Irvine  
M.A., California State University, Long Beach  
Ed.D., United States International University

*WOHL, M. BIRGITT A.  
Instructor of Art  
M.A., Ph.D., University of California, Los Angeles

*WOLDEHAIMANOT, BERAKI  
Instructor of Geology  
B.Sc., Addis Ababa University, Ethiopia  
M.Sc., University of Roorkee, India  
Ph.D., Justus Liebig University, Giessen, West Germany

*WOLF, SHARON V.  
Instructor of Psychology  
B.A., Bryn Mawr College  
Ph.D., Duke University

*WOLFGRAM, JULIANN K.  
Instructor of Art  
B.A., Scripps College  
M.A., M.Phil., University of Kansas

*WOLIN-TUPAS, ROBERTA L.  
Instructor of Child Development  
A.A., Santa Monica College  
B.A., Reed College  
M.A., University of California, Los Angeles

WONG, SULAN  
Instructor of Mathematics  
B.S., M.A., University of California, Los Angeles

*WOO, MISIK  
Instructor of Mathematics  
B.A., University of California, San Diego  
M.A., University of California, Santa Barbara  
M.S., California State University, Los Angeles

*WOO, SOPHIA Y.  
Instructor of Mathematics  
B.A., University of California, San Diego  
M.S., California State University, Los Angeles

*WOODS, DONALD N.  
Instructor of Aviation and Transportation  
B.S.E.E., University of California, San Diego

*WOODS, LYNN  
Instructor of English  
B.A., M.A., California State University, Northridge

*WOODY, RUDOLPH T.  
Instructor of Fire Technology  
A.S., El Camino College

*WOOLER, LAURIE A.  
Instructor of Theatre Arts  
B.A., University of California, Los Angeles

Instructor of English as a Second Language  
B.A., Occidental College  
M.S., University of Southern California

*WRIGHT, NORA  
Instructor of English  
B.A., Goucher College, Maryland  
M.F.A., Columbia University, New York

*WRIGHT, RONALD V.  
Instructor of Parent Education, Continuing Education  
B.S., University of La Verne  
M.A., Azusa Pacific University

*WRIGHT, TIM D.  
Instructor of Art  
B.A., M.A., University of California, Los Angeles  
J.D., California Western School of Law

*WU, HSIAO-PING  
Instructor of Nursing Science  
M.S.N., University of Arizona

*WYMAN, DAMIAN J.  
Instructor of English as a Second Language  
M.A., California State University, Los Angeles

*YAMAMOTO, NORIKO  
Instructor of English as a Second Language, Continuing Education  
M.A., Portland State University

*YAN, SIMON KWOKLUI  
Instructor of Mathematics  
B.S., University of California, Los Angeles  
M.S., California State University, Los Angeles

*YANG, LYNDANE  
Instructor of English  
B.A., University of Southern California  
J.D., University of California, Los Angeles

*Adjunct Faculty
*YBARRA-CEPHUS, YVETTE
Instructor of Health and Physical Education
B.A., Boise State University, Idaho

*YEAKY, LAMONT H.
Instructor of Ethnic Studies
M.A., M.Phil., Ph.D., Columbia University

*YEE, JEANNIE C.
Instructor of English as a Second Language, Continuing Education
B.A., Yale University
M.A., Fuller Theological Seminary

*YEFREMIAN, ANDRE
Instructor of Anthropology
B.A., B.S., University of California, Riverside
M.A., California State University, Fullerton

*YEGANYAN, NUNE
Assistant Professor of English as a Second Language, Continuing Education
B.A., M.S., Yerevan State University, Armenia

*YERMIAN, JAKLIN
Instructor of French
A.A., Glendale Community College, CA
B.A., M.A., University of California, Los Angeles

YOUNG, ANDREW
Associate Professor of Mathematics
B.S., University of California, Irvine
M.A., University of California, San Diego

YOUNG, JAN
Developmental Skills Lab Coordinator, Continuing Education
B.A., Skidmore College, New York
M.B.A., University of California, Berkeley

YOUNG, LINDA
Instructor of English as a Second Language, Continuing Education
B.A., Grand Canyon University
M.A., Azusa Pacific University

YOUNG, STEVEN R.
Instructor of Business Administration
B.S., University of Phoenix

*YU, ANNE
Instructor of Chemistry
B.A., Pomona College
M.S., University of California, Los Angeles

*YU, CHUNGH-L.
Instructor of Korean
B.A., Hankuk University of Foreign Studies
M.E., University of Guam
Ed.D, University of Southern California

*ZACHARIAS-MILLWARD, NIKI M.
Instructor of Chemistry
B.S., Texas A & M University
Ph.D, California Institute of Technology

*ZAKARYAN, YELANA
Instructor of Chemistry
M.S., Polytechnical University of Yerevan

*ZAMORA, M. DELIA
Instructor of Nursing Science
B.S.N., California State University, Los Angeles

ZARCOME, JOHN
Instructor of Art
B.A., California State University, Northridge
M.F.A., Art Center College of Design

*ZARGARYAN, STEFAN
Instructor of Mathematics
B.S., Yerevan Polytechnic Institute, Armenia
Ph.D., Moscow State University

*ZAYAS, EDGARDO
Instructor of English as a Second Language, Continuing Education
B.A., M.A., Brigham Young University
M.A., University of Redlands

ZAYAS, PATRICIA
Assistant Professor of English as a Second Language, Continuing Education
B.S., Brigham Young University
M.S., California State University, Los Angeles

*ZEYNALYAN, ODETT
Instructor of Engineering
A.S., Glendale Community College, California

*ZHANG, JIAN L.
Instructor of Mathematics
B.S., University of California, Los Angeles
M.A., University of California, San Diego

*ZHOUSH, ZHIMING
Instructor of Mathematics
B.A., Zhongshuan University, China
M.S., University of California, Los Angeles

*ZIAEI, BEHNAM
Instructor of Mathematics
B.S., M.S., Hacettepe University, Turkey

ZIEGLER, TRACEY BROOKE
Assistant Professor
Counselor, Center for Students with Disabilities
B.S., Cabrini College, PA
M.S., Mount Saint Mary’s College

*ZIPPICH, CHRISTIAN
Instructor of Aviation and Transportation
B.S., Technical University of South Africa

*ZOHREH VAND, LISA
Instructor of English
B.S., M.S., State University of New York, Plattsburgh

*ZORASTER, DAVID A.
Instructor of Real Estate
B.A., University of California, Santa Barbara

*ZOZULA, WALT
Instructor of Real Estate

* Adjunct Faculty
EMERITUS

*BAUMANN-RIDDLE, MELITA
Child Development

BRIGHOUSE, JEB
Political Science

*BYRD, LARRY R.
Chemistry

COSTALES, SHARON
Counselor

*CRAVEN, JOHN
English

CUDNEY, LARRY
Mathematics

DAVENPORT, DAVID A.

*DEGRASSI, LEONARD
Art History

DE VINCENTIS, LANI
Dean, Continuing Education

FIELD, MONA
Political Science

FISHER, SALLY
English as a Second Language

*GLIENNA, RAYMOND
Chemistry

*GRAY, KENNETH
Theatre Arts

HANLEY, TIMOTHY G.

*HARRIS, AUDREY
Counselor

HAWKINS, DRAKE C.
Political Science

HAWKINS, ROBERT N.
Geography

HENLEY, MARGARET
Chemistry

HORTON, ERNEST
Philosophy

*HURST, DAVID
Astronomy

*IRWIN, DIANNE E.
Psychology

*KABATECK, GLADY
Counselor

KAMARA-KAY, PHILIP S.
Counselor

*KIBLER, ROBERT L.
Visual and Performing Arts

*KILKEARY, DESMOND B.
English

KNIGHT, NANCY
Vice President, College Services

*KRAY, JOHN S.
Welding

LAMMERS, MARYL
Computer and Business Office Technologies

LANG, VELORIS
Dean, Arts, Letters, and Sciences

*LECUYER, JEAN
Physics

LE MIEUX, HILARY J.

LEVY, MURRAY
Business Administration

LOTTIE, JOYELLEN
Computer and Business Office Technologies

LUU, THI DINH
Counselor

MALLORY, WILLIAM
Aviation

*MANZANO-LARSEN, LINDA
Child Development

McCUE, JO RAY
Dean, Evening College

*MCDOWELL, JILL
ESL, Continuing Education

*McMURREY, FRANK LYNN
Dance

*MCNAMARA, LINDA
Counselor

MONKIE, CLARA

MONDRUS, MARTIN
Art

MONTAENTE, ANGELO THOMAS
History
